MUHAMMAD SHARIF JURJONIYNING MANTIQ ILMIGA QO‘SHGAN BUYUK HISSASI.

Bozorova Gulmira Mahmudovna
Buxoro davalat universiteti tayanch doktoranti

Annotatsiya: *Mazkur ishda Muhammad Sharif Jurjoniy tomonidan mantiq ilmiga qo‘shilgan ilmiy hissalar tahlil qilinadi. Unda olimning mantiqiy tafakkur, hukm, tushuncha va xulosa chiqarish haqidagi qarashlari hamda Sharq falsafasidagi mantiqiy ta’limotni rivojlantirishdagi o‘rni yoritilgan. Shuningdek, Jurjoniyning asarlari orqali mantiq fanining nazariy asoslari mustahkamlanganligi va uning keyingi ilmiy taraqqiyotga ta’siri ko‘rsatib beriladi.*

Kalit so‘zlar: *Tasavvur va tasdiq, Qutb al-Din al-Roziy, bilimning bo‘linishi, At-ta’rifot, mantiqiy, ma’lum va noma’lum.*

MUHAMMAD SHARIF JURJANI'S GREAT CONTRIBUTION TO THE SCIENCE OF LOGIC.

Annotation: *This work analyzes the significant contribution of Muhammad Sharif Jurjani to the science of logic. It examines his views on logical thinking, judgment, concept, and inference, as well as his role in the development of logical tradition in Eastern philosophy. Special attention is given to the strengthening of the theoretical foundations of logic in his works and their influence on the further development of the discipline.*

Keywords: *Concept and judgement, Qutb al-Din al-Razi, division of knowledge, At-ta’rifat, logical, known and unknown.*

ВЕЛИКИЙ ВКЛАД МУХАММАДА ШАРИФА ДЖУРДЖАНИ В НАУКУ ЛОГИКИ.

Аннотация: *В данной работе анализируется вклад Мухаммада Шарифа Джурджани в развитие науки логики. Рассматриваются его взгляды на логическое мышление, суждение, понятие и умозаключение, а также его роль в развитии логической традиции в восточной философии. Особое внимание уделяется укреплению теоретических основ логики в его трудах и их влиянию на последующее развитие науки.*

Ключевые слова: *Концепция и суждение, Кутб ад-Дин аль-Рази, разделение знаний, Ат-та’рифат, логика, известное и неизвестное.*

Kirish.

Tarixda shunday shaxslar bo‘ladiki, ularning ilmiy faoliyati keng jamoatchilik tomonidan e’tirof etiladi. Jumladan, Kindiy, Forobiy, Ibn Sino, G‘azzoliy, Ibn Rushd, Roziy, Jurjoniy, Mulla Fanon kabi mutafakkirlar islom dunyosida mantiq ilmiga ulkan hissa qo‘shgan olimlardandir. Temuriylar davrida yashab ijod etgan, diniy ilmlar va dunyoviy fanlarni o‘zaro uyg‘un holda yagona bir tizim sifatida tadqiq etgan hamda ularni o‘zining falsafiy tafakkuri bilan boyitgan Muhammad Sharif Jurjoniy hayoti va ilmiy faoliyati ko‘plab tadqiqotchilar e’tiborini tortmoqda. Olim XV asr saroy olimlari qatorida barakali ijod qilgan. Jurjoniy yoshlik chog‘laridan ilmning barcha sohalariga qiziqib, ko‘plab falsafiy asarlar yozish bilan birga olimlarning asarlariga sharh va hoshiyalar ham yozgan. Olimning bilish nazariyasi va mantiqqa doir “At-ta’rifot” (“Ta’riflar”), “Usuli mantiqiya” (“Mantiqusuli”) hamda ilmiy bahs faniga bag‘ishlangan “Odob ul-munozara” (“Munozara olib borishning qoidalari haqida risola”) kabi arab tilida yozilgan asarlari mavjud.

Jurjoniy XIV asr faylasufi Eziddin Abdurahmon al-Ijiyning “Muvoqif fi ilm al-kalom” (“Kalom ilmidagi manzillar”) asariga yozgan “Sharhe mavoqif fi ilm al-kalom” sharhi uning zamondoshlari va undan keyingi avlod olimlari uchun falsafa va mantiq bo‘yicha o‘ziga xos qomus maqomiga ega bo‘lgan. Jurjoniy Markaziy Osiyo, Yaqin va O‘rta Sharq mamlakatlari mantiqiy merosining barcha oqimlarini tahlil etib, ularni yanada rivojlantirgan. U mantiq ilmini barcha ilmiy bilimlarning asosi sifatida baholab, uni to‘g‘ri fikrlash qonun-qoidalarini o‘rgatuvchi universal fan deb hisoblagan.

XV–XVI asrlar davomida mantiq ilmini o‘rganish va o‘qitish ishlari XIII asrda yozilgan darsliklar hamda XIV asrda yozilgan sharhlar, ayniqsa mashhur mantiqshunos at-Tahtoniy, uning shogirdi Ibn Muborakshoh, Taftazoniy va Jurjoniy tomonidan yozilgan sharh va hoshiyalar asosida olib borilgan. Bu davrda arab tiliga nisbatan fors tilida ko‘proq asarlar yozilgan. Mantiq ilmining huquq, til va ilohiyot sohasidagi tadqiqotlarda qo‘llanilishi ham kengaygan. Jurjoniy o‘z ijodida mantiqni falsafadan ajratmagan holda, uning ko‘proq huquq va til sohalarida qo‘llanilishini ta’minlagan.

Jurjoniy Qohirada 4 yil davomida mashhur mantiqshunos Muborakshoh va Akmaliddin al-Bobartiylarning ma'ruzalarini tinglab, o'z saviyasini oshirgach, 1374-yilda Istanbulda ilmiy izlanishlarini davom ettirgan. Bugungi kunda islomiy kitoblarga nazar solar ekanmiz, ularning aksari u yoki bu darajada mantiq va falsafa ilmining qoidalariga asoslanganligiga guvoh bo'lamiz. Hatto arab grammatikasi va arab tilining balog'ati ham mantiq asosida o'rganilgan.

Adabiyotlar tahlili.

"**At-Ta'rifot**" (Ta'riflar kitobi) asari mantiqiy va falsafiy terminlarning qomusi bo'lib, unda har bir tushunchaga juda aniq va qat'iy mantiqiy ta'rif berilgan. Ushbu asar Sayyid Sharif Jurjoniyning lug'atshunoslikka oid mashhur asarlaridan biridir. Bu asar muayyan diniy atamalardan iborat qomusdir. Bizga ma'lumki, "At-Ta'rifot" ilmiy uslubda yozilgan asarlarning o'ziga xos terminologiyasi bo'lib, bu atamalar yaxshi tushunilmasa, mavzuni o'rganish qiyin kechadi. "At-Ta'rifot" mantiq, falsafa va kalomga oid istilohlarning qisqa va aniq ta'riflarini o'z ichiga oladi. Mantiqiy tushunchalar bo'lgan tasavvur, tasdiq, qiyos, dalil, ta'rif, burhon kabi kategoriyalar batafsil bayon etilgan. Asar ko'p asrlar davomida madrasalarda darslik sifatida o'qitib kelindi.

Sharh al-Mawaqif asari Adud al-Din al-Iji tomonidan yozilgan bo'lib, Jurjoniyning ushbu sharhi kalomga bag'ishlangan. Unda mantiqiy metodlar, qiyos va dalillash usullari keng qo'llaniladi. "Sharh al-Mawaqif" mantiqiy fikrlashni aqida ilmi bilan bog'laydi. Faylasufning "Sharh al-Mawaqif" asari mantiqiy dalillar orqali falsafiy va diniy muammolarni yechishning bebaho namunasi hamdir.

Hashiya 'ala Sharh al-Matali' asari Attor al-Din al-Abharining "Matali' al-anvar" asariga yozilgan sharhga hoshiyadir. Unda mantiqning asosiy masalalari - tasavvur va tasdiq, qiyos turlari, hukm va dalillash qoidalari tahlil qilinadi.

Hashiya 'ala Sharh al-Tajrid asari Nasir al-Din al-Tusiyning "Tajrid al-I'tiqod" asariga yozilgan sharhga hoshiyadir. Asar kalomiy mazmunga ega bo'lsa-da, unda mantiqiy isbotlash usullari muhim o'rin tutadi.

Muhokama va natijalar.

Mir Sayyid Sharif Jurjoniy o'rta asrlar Sharq falsafasi hamda mantiq ilmining eng buyuk allomalaridan biri hisoblanadi. Allomaning mantiqqa oid qarashlari asosan mantiqni "to'g'ri fikrlash vositasi" sifatida talqin qilishga va tushunchalar o'rtasidagi nozik farqlarni izohlashga qaratilgan.

Jurjoniy mantiqiy tushunchalarni tushuntirishda qadimgi yunon faylasuflaridan biri Aristotel falsafiy g'oyalari ifodalangan an'analarini davom ettirib, ularni islom dini bilan o'zaro uyg'unlashtirdi. Jurjoniyning mantiqiy merosi asrlar davomida madrasalarda asosiy darslik sifatida o'qitib kelindi. Uning falsafiy qarashlari inson zehnini chalg'ishdan asraydigan "mantiqiy filtr" vazifasini o'taydi. Mantiq falsafiy tushuncha bo'lganligi sababli uni izohlashni joiz topdik.

Mantiq bu to'g'ri tafakkur qilishning asosiy qonunlari va shakllari haqidagi fan bo'lib, o'zining shakllanish va rivojlanish tarixiga ega. Mantiqqa oid dastlabki qarashlar Qadimgi Sharq mamlakatlarida, xususan, Hindiston va Xitoyda vujudga kelgan. Qadim-qadimdan mantiq falsafa tarkibida bo'lgan, mustaqil fan sifatida shakllanmagan edi.

"Mantiq" atamasi yunoncha "logos" so'zidan kelib chiqqan bo'lib, bu aql, nutq yoki til kabi turli xil ma'nolar bilan bog'liq. Mantiq nima va uni qanday aniqlash kerakligi haqida ko'plab kelishmovchiliklar mavjud. Umuman olganda, mantiqqa turli xil xususiyatlar beriladi, masalan, u asoslar va xulosalar o'rtasidagi munosabatni o'rganadi va buni mavzuga bog'liq bo'lmagan holda bajaradi. Tarixga nazar tashlaydigan bo'lsak, musulmon olamida mantiqqa doir tadqiqotlar Aristotel asarlarining hijriy VIII asrdan e'tiboran arab tiliga tarjima qilina boshlashi bilan paydo bo'lgan. IX asrning o'rtalaridan boshlab mantiqqa oid ko'plab asarlar yozilgan.

Jurjoniy mantiqni mustaqil fan bo'lishi bilan birga, boshqa barcha fanlar (ayniqsa, kalom va fiqh) uchun metodologik asos deb bilgan. Uning fikricha, mantiq qoidalariga rioya qilmagan olim xatodan xoli bo'lolmaydi.

Jurjoniy mantiqiy bilishni ikki turga bo'ladi, bu esa mumtoz islom mantig'ining o'zagi hisoblanadi:

Tasavvur (Concept): narsaning mohiyatini hukm chiqarmasdan idrok etish (masalan, "quyosh" so'zini eshitganda ko'z oldimizga kelgan shakl).

Tasdiq (Judgment): ikki tushuncha o'rtasidagi bog'liqlikni tasdiqlash yoki inkor etish (masalan, "Quyosh chiqdi" - bu yerda borliq haqida hukm bor).

U o'zining mantiqqa oid qarashlari bilan Aristotel mantiqiy an'analariga sodiq qoladi, ammo bu an'anani islomiy ilmiy munozara muhitiga moslashtirib, uni yanada boyitadi. Mir Sayyid Jurjoniy mantiqni quyidagi asosiy bo'limlarga ajratadi:

– tushuncha ya'ni tasavvur

– hukm ya'ni tasdiq

– xulosa chiqarish ya'ni qiyos

U qiyosni bilishning eng asosiy vositasi deb biladi va ilmiy xulosalar chiqarishda uning ahamiyatini alohida tahlil etadi. Shuningdek, u ta'rif (ta'rif berish, izohlash) va dalillash usullarini ham atroflicha bayon qiladi.

Jurjoniy mantiq ilmini nafaqat falsafa, balki kalom, fiqh va boshqa ilmiy sohalar uchun ham zaruriy vosita sifatida talqin etadi. Shu jihatdan olim mantiqni universal metodologiya darajasiga olib chiqqan mutafakkirdir.

Uning mantiqqa oid asarlari keyingi asrlar davomida madrasa ta’lim tizimida asosiy qo‘llanma sifatida foydalanilib kelingani uning ilmiy va falsafiy merosining nechog‘lik amaliy ahamiyatini ko‘rsatib turadi.

Jurjoniy yashagan davrdan oldingi ilmiy muhitda bilimning bo‘linish masalasiga doir yozilgan dastlabki risolalardan biri, katta ehtimol bilan aytish mumkinki, Qutb al-Din al-Roziy tomonidan yozilgan. Tadqiqotlarimizdan kelib chiqib aytishimiz mumkinki, ko‘plab sharh va hoshiyalar muallifi bo‘lgan Jurjoniy o‘zidan oldin o‘tgan allomalardan biri bo‘lgan Qutb al-Din al-Roziy muhokama qilgan falsafiy mavzularga alohida qiziqish bildiradi. Shuning uchun ham uning risolasi mazmun va tuzilish jihatidan Roziy asariga hamohanglikda shakllanadi.

Qutb al-Din al-Roziy bilimning bo‘linishini mantiq ilmining usul va vositalari hamda maqsadlari bilan o‘zaro uyg‘unlashgan holda kamdan-kam muhokama qiladi. U tasavvur va tasdiq kabi tushunchalarni asosan ta’riflarning asosiy qoidalari hamda bu ta’riflardan kelib chiqadigan natijalar asosida sharhlaydi.

Bunga qarama-qarshi o‘laroq, al-Jurjoniy Roziy asarida keng o‘rin olgan mavzularni qisqacha bayon etib, ularni umumlashtiradi. Uning risolani yozishdan ko‘zlagan asosiy maqsadi bu tasavvur va tasdiqning bo‘linishini mantiqning umumiy maqsadi bilan, ayniqsa bilimni qo‘lga kiritish usullari - ya’ni ta’rif berish va isbot nazariyalari bilan uzviy bog‘lash orqali asoslashdir. Bizga ma’lumki, Jurjoniyning “Risola fi taqsim al-ilm” risolasi ham mantiq ilmiga bag‘ishlab yozilgan. Al-Jurjoniy risolasining maqsadini chuqurroq anglab yetish uchun, avvalo bilimning bo‘linishini o‘zini va uning mantiq ilmi maqsadi bilan qanday aloqada ekanini tahlil qilish lozim.

Bilimning tasavvur va tasdiq tarzida bo‘linishi “ma’lum” va “noma’lum” tushunchalarining muayyan tartibda joylashtirilishini talab etadi; ammo bu ikki mantiqiy tushuncha bilim istilohi bilan zaruriy tarzda bog‘liqdir. Shunga asosan, bilimning bo‘linishi ayni paytda ushbu ikki tushunchaning ham bo‘linishini anglatadi. Boshqacha qilib aytganda, bilim tasavvur va tasdiqqa bo‘linar ekan, “ma’lum” va “noma’lum” ham zaruriy ravishda ikki qismga bo‘linadi: ularning biri tasavvuriy, ikkinchisi esa hukmiy (ya’ni tasdiqiy) tabiatga ega bo‘ladi.

Mazkur tushunchalar orasida eng ibtidoiy va asosiy bo‘lgani tasavvur tushunchasidir; chunki u idrokning boshlang‘ich shakli sifatida hukm va tasdiqning vujudga kelishi uchun zaminni tayyorlaydi. Bilimning tasavvur va tasdiq tarzidagi bo‘linishi orqali har qanday narsa ma’lum ham, noma’lum ham bo‘lishi mumkinligi ko‘rsatilgach, ehtimoliy paradoks yuzaga kelishining ham oldi olinadi.

Natija turli ilm sohalarida, ayniqsa mantiqda yaqqol namoyon bo‘ladi: “Inson yo mantiqni biladi, yo bilmaydi”. Agar bilsa - nega yana o‘rganishi kerak? Agar mutlaqo bilmasa - uni bilishga qanday intiladi? Agar noma’lumning tasavvur va tasdiq tarzida bo‘linishini e’tibordan chetda qoldirsak, bu ikki savol mushkul va hatto yechimsiz ko‘rinadi. Birinchi savol “mavjud narsani yana mavjud qilish mumkin emas” (taḥṣīl al-ḥāṣil) degan qoidaga tayanib paradoks tusini oladi. Ikkinchisi esa “mutlaq noma’lumni bilishga intilish mumkin emas” degan da’vo orqali yana bir paradoksga aylanadi.

Agar kimdir mantiqni bilsa, uni qayta o‘rgatish ma’nosiz bo‘lib qoladi; agar u mantiqdan mutlaqo bexabar bo‘lsa, uni o‘rganishga ham intilmaydi. Natijada, har ikki holatda ham mantiqni o‘rganish va o‘rgatish imkonsizdek tuyuladi. Biroq bilimni tasavvur va tasdiq shaklida ajratish, narsalarning turli jihatlardan ham ma’lum, ham noma’lum bo‘la olishini ko‘rsatadi. Aynan shu yondashuv orqali mazkur paradokslar tug‘dirgan berk ko‘chadan chiqish imkoni paydo bo‘ladi.

Shunga ko‘ra, agar bir kishi mantiqni tasavvur darajasida bilsa, uning uchun mantiq endi “mutlaq noma’lum” bo‘lib qolmaydi. Bunday bilimning asosi mantiqning maqsadini anglashdir. Shuning uchun ham bu shaxs mantiqning qoidalari va tamoyillari darajasida hali tasdiqiy bilimga ega bo‘lmagani sababli, bu holat “mavjudni yana mavjud qilish” muammosini keltirib chiqarmaydi. Qisqacha qilib aytadigan bo‘lsak, mazkur bo‘linish - bilimni tasavvur va tasdiq kabi ajratish - o‘rganishning o‘zi mumkinmi yoki yo‘qmi degan paradoksga berilgan falsafiy javob sifatida ham talqin qilinishi mumkin.

Har qanday ilmning muqaddimasi o‘sha ilmning mazmun-mohiyatini tashkil qiluvchi asosiy tamoyillar tarkibiga kirmaydi. Xuddi shuningdek, mantiq ilmining muqaddimasi ham mantiq o‘rgatishni ko‘zlagan masalalar silsilasining bevosita bir qismi emas. Yuqorida bayon qilingan fikrlar zanjiri ichida bilimning tasavvur va tasdiq tarzida bo‘linishi birinchi o‘rinda turadi. Demak, aynan shu bo‘linish mantiqning maqsadini tushuntirib beruvchi besh asosiy qoidaning poydevorini tashkil etadi.

Deyarli barcha mantiq kitoblarida bilimning tasavvur va tasdiqqa ajratilishi bayon etiladi. Ammo ularning mualliflari ushbu bo‘linishni yuqorida bayon etilgan falsafiy zamin va kontekst asosida ko‘rib chiqqanmi, degan savol tug‘iladi. Mazkur savolga javob bizni al-Jurjoniyning ushbu risolani yozishdagi asl maqsadiga olib boradi: bu risola bilimning tasavvur va tasdiq tarzidagi bo‘linishini mantiqning maqsadi va usuli doirasida tahlil qilish uchun bitilgandir.

Al-Jurjoniy bilimning bo‘linishi masalasida muayyan mantiqiy asosga tayangan holda to‘rtta turli yondashuvni zikr etadi. Ular quyidagilar:

1.Hukamolar (falosifa),

2.Faxr al-Din al-Roziy,

3.Afdal al-Din Xunajiy – Shams al-Din Iṣfahoniy,

4.Avitsenna – Nasir al-Din al-Tusiy.

Al-Jurjoniy ushbu tasnifda ikki mezondan foydalanadi. Birinchisi - bilimning tasavvur va tasdiq tarzida bo‘linishidir. Keyinchalik aniqlanishicha, Avitsenna nazarida bu masala aslida bilimning ikki turga ajralishi emas, balki turli xususiyatlarga ega bo‘lgan ikki xil tasavvur sifatida talqin etiladi.

Ikkinchi mezon - tasdiq va hukm o‘rtasidagi munosabatdir. Bu ikki tushuncha orasidagi aloqaning qanday talqin qilinishi turli maktablar o‘rtasidagi farqlarni belgilab beradi. Masalan, Faxr al-Din al-Roziy tasdiqni murakkab mohiyat deb hisoblaydi va hukmni uning tarkibiy qismlaridan biri sifatida ko‘radi. Holbuki, tasdiqni sodda (basit) deb bilgan hukamolar nazarida tasdiq bilan hukm o‘zaro ayniyat kasb etadi.

Alloma mantiqiy tafakkur metodologiyasini ishlab chiqadi. Unga ko‘ra ilmiy bahs yuritish qoidalari - aniq ta’rif berish, dalil bilan isbotlash, qarama-qarshilikni tahlil qilish va xulosa chiqarishning qat’iy qoidalariga rioya qilish - muhim ahamiyatga ega. Bu qoidalar keyinchalik musulmon olamida ilmiy bahs-munozara shaklini olib, ilmiy madaniyatning asosiga aylangan.

Xulosa

Xulosa qilib aytganda, ushbu risolada bayon etilgan qarashlar bilimning bo‘linishi, uning tarkibiy qismlari hamda har bir bo‘limga xos xususiyatlarni chuqur tahlil qilish asosida shakllantirilgan bo‘lib, bu yondashuv Muhammad Sharif Jurjoniyning mantiq ilmiga qo‘shgan ulkan ilmiy hissasini yaqqol namoyon etadi. U mantiqni tizimli va mustaqil fan sifatida rivojlantirib, mantiqiy tushunchalar, hukm va xulosa chiqarish nazariyasini mukammal darajada asoslab bergan hamda ularni ilmiy jihatdan izchil tahlil qilgan. Shu bilan birga, alloma mantiqqa oid muhim asarlar yaratib, ularni kalom, fiqh va tilshunoslik kabi turli ilmiy sohalar bilan o‘zaro uyg‘unlashtirgan holda yuksak darajada boyitgan, natijada mantiq ilmining amaliy va nazariy ahamiyatini kengaytirishga erishgan. Bundan tashqari, u o‘zining sharh va hoshiyalari orqali murakkab mantiqiy nazariyalarni chuqur tahlil qilib, ularni soddalashtirilgan va tizimlashtirilgan shaklda bayon etgan hamda Samarqand ilmiy maktabida mantiq ilmining yanada rivojlanishiga sezilarli darajada hissa qo‘shgan. Shu boisdan ham Muhammad Sharif Jurjoniy islom falsafasi va mantiq tarixida eng yirik va ko‘zga ko‘ringan mutafakkirlardan biri sifatida e’tirof etiladi, uning ilmiy merosi esa asrlar davomida o‘z ahamiyatini yo‘qotmay kelmoqda.

FRENSIS BEKON FALSAFASIDA YANGI ILMIY METODLARNING SHAKLLANISHI VA ULARNING FAN RIVOJIDAGI AHAMIYATI.

Kabulniyazova Gulchehra Tashpulatovna
O‘zMU Ijtimoiy fanlar fakulteti, “Falsafa” kafedrasi professori

Annotatsiya. *Maqolada mashhur ingliz faylasufi va olimi Frensis Bekonning ijodida empirik metodlar ichida muhim bo‘lgan induktiv metodning shakllanishi va uning fan rivojidagi ahamiyati ochib berilgan. Bu metod tabiiy jarayonlarni kuzatish va tajribalar o‘tkazishga asoslangan. Bundan tashqari, Bekon sxolastik falsafadagi dogmatizmga qarshi kurashadi va shu munosabat bilan dogmatizmga bog‘liq bo‘lgan “aql idollari” ta’limotini yaratadi. Maqolada induktiv metod va “aql idollari” ta’limotlarini ochishga e’tibor qaratilgan.*

Kalit so‘zlar: *Yangi davr falsafasi, iqtisodiy taraqqiyot, fan taraqqiyoti, yangi ilmiy uslublar, ratsionalizm, empirizm, induksiya uslubi, deduksiya uslubi, aql idollari, “Yangi Organon”, fanlar tasnifi, “jon”, “ruh”, tana.*

ФОРМИРОВАНИЕ НОВЫХ НАУЧНЫХ МЕТОДОВ В ФИЛОСОФИИ ФРЕНСИСА БЭКОНА И ИХ ЗНАЧЕНИЕ В РАЗВИТИИ НАУКИ

Аннотация. *В статье раскрывается формирование индуктивного метода, являющегося важной частью эмпирических методов в творчестве известного английского философа и учёного Фрэнсиса Бэкона, а также его значение для развития науки. Данный метод основан на наблюдении природных процессов и проведении экспериментов. Кроме того, Бэкон выступает против догматизма в схоластической философии и в этой связи создаёт учение об «идолах разума», связанных с догматизмом. В статье особое внимание уделяется раскрытию индуктивного метода и учения об «идолах разума».*

Ключевые слова: *философия Нового времени, экономическое развитие, развитие науки, новые научные методы, рационализм, эмпиризм, метод индукции, метод дедукции, идолы разума, «Новый Органон», классификация наук, «душа», «дух», тело.*

THE FORMATION OF NEW SCIENTIFIC METHODS IN FRANCIS BACON’S PHILOSOPHY AND THEIR SIGNIFICANCE IN THE DEVELOPMENT OF SCIENCE.

Abstract: *The article reveals the formation of the inductive method, which is an important part of empirical methods in the works of the famous English philosopher and scientist Francis Bacon, as well as its significance for the development of science. This method is based on the observation of natural processes and conducting experiments. In addition, Bacon opposes dogmatism in scholastic philosophy and, in this regard, creates the doctrine of the “idols of the mind” associated with dogmatism. The article focuses on explaining the inductive method and the doctrine of the “idols of the mind.”*

Keywords: *philosophy of the New Age, economic development, development of science, new scientific methods, rationalism, empiricism, method of induction, method of deduction, idols of the mind, “New Organon”, classification of sciences, “soul”, “spirit”, body.*

Kirish

Frensis Bekon falsafasida yangi ilmiy metodlarning shakllanishi va ularning fan rivojidagi ahamiyati masalasi Yangi davr falsafasi taraqqiyotida alohida o‘rin egallaydi. XVII asr boshlarida Yevropa ilmiy tafakkurida yuz bergan tub burilishlar an’anaviy sxolastik qarashlarning inqirozga uchrashi va tajribaga asoslangan yangi ilmiy yondashuvlarning shakllanishi bilan bevosita bog‘liqdir. Aynan shu jarayonda Frensis Bekon ilm-fan metodologiyasini yangilash zaruratini chuqur anglab yetgan mutafakkir sifatida maydonga chiqadi. U bilish jarayonida aqlga ortiqcha tayanish, tayyor dogmalarga suyanish va empirik asosdan uzilgan xulosalar chiqarish ilmiy taraqqiyotga to‘siq bo‘lishini asoslab beradi. Bekon o‘zining mashhur “Yangi Organon” asarida ilmiy bilishning asosiy yo‘li sifatida induktiv metodni ilgari suradi va uni tabiatni kuzatish, tajriba o‘tkazish hamda faktlarni tizimli tahlil qilishga asoslangan yagona ishonchli usul sifatida talqin etadi. Shu bilan birga, u inson tafakkurini chalg‘ituvchi “aql idollari” konsepsiyasini ishlab chiqib, ilmiy bilish

jarayonida subyektiv xatolar va noto‘g‘ri tasavvurlarni bartaraf etish zarurligini ko‘rsatadi. Bekonning bu g‘oyalari nafaqat falsafa tarixida, balki tabiiy va ijtimoiy fanlar rivojida ham yangi bosqichni boshlab berdi, chunki ular ilmiy metodologiyaning empirik asoslarini mustahkamlab, tajriba va kuzatuvga tayangan ilmiy tadqiqot an’anasini shakllantirdi. Shu sababli Frensis Bekonning ilmiy-metodologik qarashlari zamonaviy fan taraqqiyotining nazariy poydevorini yaratgan muhim omillardan biri sifatida baholanadi.

Adabiyotlar tahlili va metodlari

Frensis Bekon falsafasida yangi ilmiy metodlarning shakllanishi va ularning fan rivojidagi ahamiyati masalasini yoritishda adabiyotlar tahlili shuni ko‘rsatadiki, Yangi davr falsafasi doirasida bu muammo ko‘plab mahalliy va xorijiy tadqiqotchilar tomonidan turli yondashuvlar asosida o‘rganilgan. Xususan, Bekonning empirik falsafasi, induktiv metod haqidagi qarashlari hamda “aql idollari” konsepsiyasi ilmiy bilish nazariyasining muhim bosqichi sifatida G‘arb falsafa tarixiga doir asarlarda keng tahlil qilingan. Tadqiqot jarayonida tarixiy-qiyosiy metoddan foydalanilib, Bekonning ilmiy qarashlari Aristotel va sxolastik an’analar bilan solishtirildi, shuningdek, uning metodologik yondashuvi Dekartning ratsionalistik qarashlari bilan qiyosiy tahlil qilindi. Bundan tashqari, analiz va sintez metodlari asosida Bekon asarlarida ilgari surilgan induktiv bilish tizimi, tajriba va kuzatuvning ilmiy bilishdagi o‘rni chuqur o‘rganildi. Manbaviy tahlil jarayonida “Yangi Organon” asari asosiy ilmiy manba sifatida o‘rganilib, undagi metodologik tamoyillar tizimli ravishda tahlil qilindi. Shuningdek, mantiqiy umumlashtirish metodi orqali Bekonning ilmiy metodlari zamonaviy fan taraqqiyotidagi o‘rni va ahamiyati ochib berildi. Ushbu metodologik yondashuvlar asosida Frensis Bekon falsafasida shakllangan yangi ilmiy metodlar nafaqat nazariy jihatdan, balki amaliy fanlar rivojida ham muhim rol o‘ynagani asoslab berildi.

Muhokama va natijalar

“Yangi Organon” asari Frensis Bekonning ilm-fan va uning usullari haqidagi nazariy ishi bo‘lib, u yangi ilmiy metodlarning asoslarini belgilashga qaratilgan. Asar 1620-yilda nashr etilgan bo‘lib, falsafa tarixidagi muhim markaziy yo‘nalishlardan biri hisoblanadi va Bekonning “ilmiy metodologiya” haqidagi qarashlarini o‘z ichiga oladi. Ushbu asarning asosiy maqsadi ilmiy bilimlarning yangi usullarini ishlab chiqish hamda ularni rivojlantirish uchun zarur bo‘lgan tashkiliy va metodik asoslarni yaratishdir.

Bekon “Yangi Organon” asarida ilm-fanning yordamchi vositasi sifatida tajribaviy usullarni ishlab chiqishga alohida e’tibor bergan. U, avvalo, eski falsafiy va ilmiy an’analardan farqli ravishda, ilmiy bilimlarni tabiatning haqiqiy qonunlariga asoslangan holda olish kerakligini ta’kidlaydi. Bekon ilmni tushunishda empirizmga tayangan holda, tajriba, kuzatish, tasavvur va amaliy ishlanmalarni asosiy ahamiyatga ega deb hisoblaydi. Uning fikricha, ilmiy bilimlar insonning ma’lumot olishdagi subyektiv qarorlaridan emas, balki aniq va ishonchli tajribalardan kelib chiqishi kerak.

Asarda Bekon idrok va tahlil qilish usullarini ilgari surib, ilmning asosiy maqsadi tabiatning haqiqiy qonunlarini izlash va ularni anglash ekanini ta’kidlaydi. Uning nazariy tadqiqotlarida ilm-fanning falsafiy jihati, uning amaliy qo‘llanilishi, shuningdek, texnika va tabiatshunoslikni rivojlantirish uchun asosiy yo‘nalishlar belgilab berilgan. Bekon ta’riflagan yangi usullar, avvalo, falsafiy bilimlarni ilmiy asosda tekshirish va ularni turli manbalardan olishga intilishdan iborat edi.

“Yangi Organon” asarida ilmiy metodlarning yangilanishi, aniq va ishonchli bilimlarga erishish uchun zarur bo‘lgan aksiomalar va qonunlar ko‘rib chiqiladi. Bekonning fikricha, falsafiy tizimlarni yaratish uchun ilmning har bir sohasida aniq va belgilangan metodika hamda usullar bo‘lishi kerak. Asarning asosiy g‘oyasi shundan iboratki, ilmiy izlanishlar faqat kuzatish va tajriba orqali amalga oshirilishi lozim, chunki ilm-fanning samarali rivoji uchun tabiatning haqiqiy qonunlarini tushunish va ularga tayangan holda harakat qilish zarur.

Bekon ilmiy ishlarni amalga oshirish uchun yangi metodlarni qo‘llashni ilgari surgan hamda ilm-fanning har bir sohasini ilmiy asosda rivojlantirishga katta ahamiyat bergan. “Yangi Organon” asari ilmning yangilanishi va rivoji uchun muhim nazariy asos bo‘lib, Bekonning falsafiy va ilmiy qarashlarining zamonaviy rivoji uchun poydevor vazifasini bajargan.

“Aql idollari” va bilishda uslubning roli haqida

Frensis Bekonning “Aql idollari” (Idols of the Mind) konsepsiyasi uning ilmiy usullari va empirizmga bo‘lgan munosabatini tushunishda muhim ahamiyatga ega. Bekon “Aql idollari”ni insonning fikrlash jarayonidagi xato va to‘siqlar deb ta’riflaydi. Ushbu idollar odamlarning to‘g‘ri bilish va tushunishga intilishida to‘sqinlik qiluvchi omillar bo‘lib, aqlning ko‘pincha noto‘g‘ri yo‘nalishlarda harakat qilishiga sabab bo‘ladi. Bekon bu idollarni bevosita insonning affektiv va aqliy jarayonlari bilan bog‘laydi va ularni ilm rivojiga to‘sqinlik qiluvchi elementlar deb hisoblaydi.

Bekon “aql idollari”ni to‘rt turga ajratadi: qavm idollari, g‘or idollari, bozor idollari va teatr idollari.

Qavm idollari - bu insoniyatning umumiy xato va tushunchalaridan kelib chiqadigan idollardir. Bekon fikricha, odamlar tabiatni tushunishda umumiy xato va stereotiplarga duch keladilar. Bu idollar insoniyatning jamiyatdagi umumiy xulosalaridan kelib chiqadi va ko‘pincha umumiy qo‘llaniladigan, ammo aniq bo‘lmagan tushunchalarga tayanib, noto‘g‘ri fikrlarni yuzaga keltiradi.

G‘or idollari - har bir insonning shaxsiy tajribasi hamda uning oilaviy va ijtimoiy muhiti bilan bog‘liq bo‘lib, insonning ichki dunyosi va individual qarashlari ko‘pincha obyektiv haqiqatni to‘g‘ri tushunishiga to‘sqinlik qiladi. Shu sababli, har bir shaxs o‘z tajribasi va muhitiga tayangan holda noto‘g‘ri xulosalarga kelishi mumkin.

Bozor idollari - bu til va umumiy atamalar bilan bog‘liq idollardir. Bekonning fikricha, tilning cheklanganligi va noaniq tushunchalar odamlarning noto‘g‘ri fikrlashiga sabab bo‘ladi. Til inson fikrini shakllantiradi, biroq u noto‘g‘ri qo‘llanganda adashishlarga olib keladi.

Teatr idollari - bu keng tarqalgan falsafiy va ilmiy tizimlarga ko‘r-ko‘rona ishonish natijasida yuzaga keladigan xatolardir. Bekon bu idollar odamlarning avtoritetlarga tanqidiy yondashuvsiz ishonishi oqibatida paydo bo‘lishini ta’kidlaydi.

Bekonning “aql idollari” haqidagi qarashlari ilm rivojida obyektiv va tanqidiy yondashuvning muhimligini ko‘rsatadi. Ushbu idollar insonning qat’iy qarorlar qabul qilishiga va real hayotdagi masalalarga to‘g‘ri yondashishiga to‘sqinlik qiladi. Shu bois, inson o‘z fikrlarini, tajribalarini va tasavvurlarini qayta ko‘rib chiqishi hamda ularni mantiqiy va amaliy asosda shakllantirishi zarur.

Induktiv uslub va dogmatik metod tanqidi. Bilishda uslubning roli juda muhim, chunki uslub - bu bilimga erishishning samarali va to‘g‘ri yo‘lidir. Uslub, ya’ni bilim olishdagi yo‘nalish va usullar, insonning tabiat, jamiyat va o‘z hududi haqidagi tushunchalarini aniqlashtirish va rivojlantirishga ko‘maklashadi. Bilish jarayonida ishlatilgan uslublar va ularning aniqligi tajribani samarali qilishi hamda ilmni rivojlantirishda muhim ahamiyat kasb etadi. Bilishning asosiy maqsadi haqiqatni aniqlash va o‘z tuyg‘ularimizning, tajribalarimizning yoki tahlillarimizning emas, balki dunyo haqidagi obyektiv tushunchalarga erishishdir. Bu jarayonda uslub muhim rol o‘ynaydi, chunki u ta’riflangan prinsiplar va metodikalar orqali bilimni to‘g‘ri va obyektiv shaklda to‘plashga yordam beradi. Uslub faqat g‘oyalar bilan ishlashni emas, balki bu g‘oyalarni amaliy nuqtayi nazardan, mantiqiy asosda tekshirish va tadqiq etishni ham o‘z ichiga oladi. Uslubning ahamiyati ilmiy izlanishlar va falsafiy nazariy ishlarning samaradorligini oshirishda namoyon bo‘ladi. Ilmiy usullar falsafadagi nazariy ishlanmalarni nazarga olish, qonunlarni aniqlash va mavjud tushunchalarni to‘g‘ri rivojlantirish uchun muhimdir. Ilmiy izlanishlarda har bir usul o‘z vaqtida o‘ziga xos usullar bilan ishlashi, masalan, tajribaviy, nazariy yoki mantiqiy usullar, bilimga erishishdagi to‘siqlarni yengishga yordam beradi. Shu bilan birga, bilimni to‘g‘ri va obyektiv shaklda olish uchun uslubning yaxshi tashkil etilgan va muayyan nazariy yoki amaliy asoslarga tayanish muhimdir. Bilishda qo‘llaniladigan usullar ba’zan insonning psixologiyasidan, ko‘rish yoki his qilishdan kelib chiqishi mumkin. Ammo yaxshi uslub - bu mantiqiy va tekshirilgan bilimlar, haqiqiy aniqlikka erishish uchun qo‘llaniladigan aniq metodikalar jihatidan olib boriladigan izlanishdir. Qisqasi, bilishda uslubning roli o‘zini nafaqat bilimni to‘g‘ri olishda, balki ularni o‘zgartirish va rivojlantirishda ham ko‘rsatadi. Uslubning asosiy vazifasi - bilimni yangi usullar, amaliy natijalar va doimiy o‘rganishlar orqali rivojlantirish va insonning olam haqidagi tushunchalarini kengaytirishdir.

Induktiv uslub - bu xulosa chiqarishning bir usuli bo‘lib, u aniq va maxsus faktlardan umumiy qoida va qonunlarni yaratishga asoslangan. Boshqacha aytganda, induktiv usul ma’lumotlarni tadqiq qilib, ularning asosida umumiy xulosalarga kelishni o‘z ichiga oladi. Bu uslubda ko‘plab aniq holatlar va ma’lumotlar olinib, ulardan umumiy prinsiplar va qonuniyatlar chiqariladi. Induktiv usul ilmiy tadqiqotlar va falsafada keng qo‘llaniladi, chunki u real, tajribaviy va aniq faktlarga asoslangan holda bilimni shakllantirishga yordam beradi. Induksiya usuli haqidagi qarashlar Frensis Bekondan boshlab, zamonaviy ilmiy usullar va falsafiy izlanishlarda katta rivojga erishgan.

Bekon induktiv usulni falsafiy va ilmiy tadqiqotlarda aniq metod sifatida joriy qilgan. Uning fikricha, bilimni olishda birinchi navbatda tabiatning aniq holatlarini kuzatish va ulardan umumiy qoida va qonunlarni chiqarish kerak. Bu jarayonda inson faktlarning o‘ziga xos xususiyatlarini to‘g‘ri tekshirib, ulardan tushunchalar va nazariy qarashlarni shakllantirishi zarur. Induktiv usulning eng muhim jihatlaridan biri - u faktlarga va tajribalarga asoslanishidir. Bu usulda hech qanday avvaldan belgilangan nazariy gipotezalar yoki konsepsiyalardan foydalanilmaydi. Odatda induktiv usul avval ko‘plab aniq va kichik faktlardan boshlanadi, keyin ular orasidagi o‘xshashliklar va uzviy bog‘lanishlarni aniqlash orqali umumiy qoida va qonunlar kelib chiqadi. Masalan, turli xil kichik kuzatishlar va tajribalardan olingan ma’lumotlar birlashtiriladi va ulardan biror umumiy prinsip yoki teoriya yaratiladi.

Induktiv usulning katta afzalliklaridan biri - bu metod insonga obyektiv va samarali xulosa chiqarish imkonini beradi. Bu usulning asosiy maqsadi - tabiatning haqiqiy qonunlarini tushunish va ularni aniq faktlar hamda to‘g‘ri kuzatishlar orqali aniqlash. Biroq induktiv usulda xato qilish ehtimoli ham bor, chunki har qanday xulosa, natija va nazariy tahlillar bevosita mavjud faktlar va kuzatishlarga bog‘liq bo‘ladi. Agar faktlar va ma’lumotlar to‘g‘ri olinmasa, xulosalar ham xato bo‘lishi mumkin. Ushbu usul ilmiy tadqiqotlarda, ayniqsa biologiya, fizika va kimyo kabi sohalarda keng qo‘llaniladi. Induktiv usulda olingan xulosalar ko‘pincha yangi tajribalar va kuzatishlar orqali tekshiriladi va ularning umumiyligini aniqlash uchun qo‘shimcha tajribalar olib boriladi. Bu usulning muvaffaqiyatli qo‘llanilishi ilmiy bilimlarni kengaytirish va ilmning yangi yo‘nalishlarini ishlab chiqishda muhim ahamiyatga ega. Shunday qilib, induktiv usul bilimni olishda samarali va to‘g‘ri yo‘l bo‘lib, u faktlar va tajribalarga asoslanadi. Bu usul ilmiy va falsafiy

tadqiqotlarda yangiliklar va qonunlarni aniqlashda muhim rol o‘ynaydi. Frensis Bekon ijodida yangi fan metodologiyasi, jumladan induktiv metodni, “aql idollari” deb nom olgan tanqidiy qarashlarni ochib berishga harakat qilindi.

Xulosa.

Xulosa qilib aytganda, Frensis Bekon falsafasida yangi ilmiy metodlarning shakllanishi va ularning fan rivojidagi ahamiyati masalasi Yangi davr ilmiy tafakkurining tub burilish nuqtasini ifodalaydi. Uning empirik yondashuvga asoslangan induktiv metodi ilmiy bilish jarayonini an’anaviy sxolastik dogmalardan xalos etib, tajriba va kuzatuvni bilim olishning asosiy mezoniga aylantirdi. Bekon tomonidan ilgari surilgan “aql idollari” haqidagi ta’limot esa inson tafakkurini chalg‘ituvchi subyektiv xatolarni aniqlash va ularni bartaraf etish orqali ilmiy tadqiqotlarning ishonchliligini oshirishga xizmat qildi. Ushbu metodologik yangiliklar ilm-fanning nazariy asoslarini mustahkamlab, tabiatni o‘rganishda tizimli, izchil va tajribaviy yondashuvni shakllantirdi. Natijada Bekon falsafasi nafaqat o‘z davri ilmiy inqilobiga turtki berdi, balki zamonaviy fan metodologiyasining shakllanishida ham muhim poydevor vazifasini bajardi. Shu jihatdan, uning ilmiy-metodik qarashlari bugungi kunda ham fan taraqqiyotining asosiy tamoyillaridan biri sifatida o‘z ahamiyatini yo‘qotmagan va insoniyat ilmiy tafakkurining rivojlanishida beqiyos o‘rin egallaydi.

PHILOSOPHICAL

ALISHER NAVOIY ONTOLOGIK QARASHLARIDA NOMODDIY BORLIQ TALQINI

Norov Toji Omonovich
Toshkent davlat iqtisodiyot universiteti
“Falsafa” kafedrasi professori, Falsafa fanlari doktori (DSc),
E-mail.: tajonorov@gmail.com

Annotatsiya: *Ushbu maqolada buyuk mutafakkir Alisher Navoiyning falsafiy merosidagi nomoddiy borliq haqidagi diniy va ma’rifiy-falsafiy qarashlari tahlil qilingan. Xususan, falsafaning asosiy muammosi nomoddiy olamning, ruh, jon, ong, ko‘ngil, xotira, o‘t, havo, va boshqa manbalarini mutafakkir talqinidagi xususiyatlari bayon qilindi.*

Kalit so‘zlar: *nomoddiy borliq, ruhiy olam, ruh, jon, ong, ko‘ngil, xotira, o‘t, havo.*

THE ONTOLOGICAL INTERPRETATION OF IMMATERIAL BEING IN THE PHILOSOPHICAL VIEWS OF ALISHER NAVOI

Abstract: *This article analyzes the religious and enlightenment-philosophical views of the great thinker Alisher Navoi on the intangible being in the philosophical heritage. In particular, the main problem of philosophy is the description of the properties of the intangible world, the soul, soul, mind, heart, memory, fire, air, and other sources in the interpretation of the thinker*

Keywords: *intangible being, spiritual world, spirit, soul, mind, heart, memory, fire, air.*

ОНТОЛОГИЧЕСКАЯ ИНТЕРПРЕТАЦИЯ НЕМАТЕРИАЛЬНОГО БЫТИЯ В ФИЛОСОФСКИХ ВЗГЛЯДАХ АЛИШЕРА НАВОИ

Аннотация: *В данной статье анализируются религиозные и просветительско-философские взгляды великого мыслителя Алишера Навои на проблему нематериального бытия в его философском наследии. В частности, рассматриваются особенности интерпретации мыслителем таких ключевых категорий, как нематериальный мир, дух, душа, сознание, сердце (как духовный центр), память, огонь, воздух и другие сущности.*

Ключевые слова: *нематериальное бытие, духовный мир, дух, душа, сознание, сердце, память, огонь, воздух*

Kirish (Introduction). Ushbu maqolada falsafa fanining asosiy mavzularidan bo‘lgan borliq olamining asosi substansiyasi, asosiy mohiyati, borliqning, olamning ibtidosi nima, olam va borliq qanday yaralgan, u qanday unsurlardan tashkil topgan, nega olamning bir butunligini tashkil qilgan unsurlarning ba'zilari mavjud, ya'ni vujudga ega, ayrimlarida esa unday xususiyatlarni biz ko‘rmaymiz degan savollarga javob izlangan.

Alisher Navoiy falsafasida nomoddiy borliq bilan bog‘liq tushunchalar “hasti nestnamoy” – ya'ni, o‘zi boru, lekin namoyon bo‘lmaydigan olam tarzida qo‘llangan. Jon va ruh masalasi badiiy, ayrim o‘rinlarda tamsiliy-majoziy uslubda talqin qilingan. Shuningdek, nomoddiy olamni – malakut olami, ruhoniyat, ong, jon, ruh, tafakkur, aql, dark, ya’ni idrok, xotirot, ishq, ilm, bilim, ko‘ngil olami, sabr, toqat kabi istiloh va tushunchalar tarzida ifodalangan.

Navoiy dahosi doimo bizga yo’lchi yulduz bo’lib qoladi. Shavkat Mirziyoyev 2025-yilni Navoiy viloyatida “Alisher Navoiy yili” deb e’lon qilishni taklif qildi. Bu yil doirasida “Hazrat Navoiyni anglash — o‘zligimizni anglash” mavzusida prezident sovg‘asi uchun tanlov tashkil etiladi. Quriladigan Yangi O‘zbekiston bog‘ida Alisher Navoiyga bag‘ishlab memorial muzey ochiladi. Bu kabi ishlar mutafakkir merosining tadqiq va targ’ib qilish vazifalarini o’ta muhimligini anglatadi.

- Mavzuga oid adabiyotlarning tahlili (Literature review)

Falsafaning, xususan ontologiyaning eng nozik va bahsli mavzularidan biri – bu nomoddiy borliq masalasidir. Bu mavzu markazida olamni, borliqni butunligi tashkil etuvchi, lekin, ko’z bilan ko’rib, qo’l bilan ushlash mumkin bo’lmaydigan o’t, havo, jon, ruh, xotira, ma’naviyat olami kabi nomoddiy olam muammosi turadi. Avvalo olamdagi barcha mavjudotlarning shakl-shamoyili ya’ni formasi masalasi ham bahsli masala ekanligini aytib o’tish kerak. Zero mavjudot so’zining o’zi o’zbek tiliga arab tilidagi “vujud” so’zi o’zagi asosida kirib kelgan bo’lib, tana-tiynat ma’noni anglatadi. Masalan, rus tilida bu so’z telo, ya’ni ashyolarni va inson borlig’i nazarda tutilsa, insonni tanasini, vujudini

anglatadi. Agar jon va ruh tushunchasini ilohiyot (panteistik) pozitsiyadan qarasak, u Olloh tomonidan sirli mo'jiza qilib yaratilgan nomoddiy olamdir. Uning muammoligi shunda. Vaholanki, bu muammo insoniyat yaralibdiki, u o'zini aql-idrokli mavjudod sifatida jon va ruh bilan bog'liq sirini bilishga intilib keladi. Bu savol ilgari qanday turgan bo'lsa hozirgacha shu zaylda ochiq turipti. Bu masalani turli davrlarda, turli mintaqa falsafa maktablarida bu savolga turlicha javob izlangan hamda turlicha izohlab kelganlar. Shu qarashlar va izohlar asosida nazariya va ta'limotlar yaratilgan.

- Tadqiqot metodologiyasi (Research Methodology)

Navoiy asarlaridagi borliq muammolari tahlilida nomoddiy unsurlar "hasti nestnamoy", ya'ni o'zi boru, lekin, namoyon emas, ko'rinmaydi, yana "nestu hastnamoy" yoki o'zi yo'qqa o'xshaydi-yu lekin bor tarzida qo'llaniladi. Shuningdek, asrori g'ayb, malakut olami, ko'ngil, ruh, insonning sezgi organlari xususida ham o'ziga xos tarzda qarashlar bor.

Navoiy, o'zigacha bo'lgan falsafiy ta'limotlar tarixini chuqur, juda chuqur o'rgangan. Bularga qadimgi tamaddun markazlari hisoblangan, qadimgi Misr, Hindiston, Xitoy, Old Osiyo, Markaziy Osiyo va qadimgi Yunon falsafasi namoyondalari merosi nazarda tutiladi. Xususan, tasavvuf shayxlari, tariqat soliklari ijodiy merosini chuqur tadqiq qilgan olimdir. Tabiiyki, bu mutafakkirlar merosida olam, uning yaralishi, mavjudlik shakli, mazmuni, borliq ibtidosi, intihosi borliqning xususiyatlari muammolari muhokama qilingan va turli bahs-munozaralarga sabab bo'lgan. Mutafakkir "Nasoyim ul-muhabbat" asarining, "Hujjat ul-islom Muhammad b. Muhammad G'azzoliy Tusiy q. s." maqolasida mashhur mutasavvuf olim Muhammad G'azzoliy asarlari tahlilida uning falsafiy qarashlari, xususan, borliq falsafasiga oid fikrlarini keltiradi. Jumladan, moddiy va nomoddiy borliq tafsilotiga qaratilgan quyidagi parchani keltiradi.

"Ruh hastii nestnamoydurki, kishi anga yo'l topmas va sultoni qohir va mutasarrif uldur. Qolib aning asiru bechorasidir. Har ne ko'rsalar qolibdin ko'rarlar va qolib andin bexabar; barcha olamg'a olam qayyumi bila ushbu misoldurki, olam qayyumi "hasti nestnamoydur"ki olam zarrotidin hech zarrag'a vujud va qivom o'zi bila emas...

Bu maiyyatni fahm qila olmag'ay va qayyumiyat maiyyati to'rtinchi qismdir balki maiyyat haqiqat yuzidin budur va bu dag'i hasti nestnamoydur. Alarki, bu maiyyatni bilmagaylar, qayyumni tilagaylar va topmagaylar..."

Bu matnda ko'rinib turganidek inson ruhi, uning nomoddiyligi xususida bormoqda.

Girdborki, sofi havoda yerdin qo'par... Kishi anga boqsa sog'inurki, tufrog' o'zin chirmaydur va tebranadur va andog' emasdur. Balki ul tufroqdin har zarra bila havodurki, aning muharrikidur. Ammo havoni ko'rsa bo'lmas va tufroqni ko'rsa bo'lur. Bas, tufroq muharriklig'da (harakatda, ya'ni havoning kuchi(shiddati) bilan muallaq harakatda bo'lishi) nesti hastnamoydur va havo hasti nestnamoy. Tufroqqa harakatda musaxxarlig'din o'zga yo'qdur havo ilkida. Va saltanat borcha havog'adur va havoning saltanati nopaydo" [1: 250-251]

Bu matn mazmuni, kuchli to'fon paytida tuproqni havoga uchib, ko'tarilib, havoda ma'lum shakl paydo qilishi, tuproq moddiy ashyo, u o'zicha havoga ko'tarilishi mumkin emas, u hova shiddati, ya'ni shamol shiddati bilan havoga ko'tarilgani, lekin shamolni asosi havo, nomoddiy borliq – hasti nestnamoy ekanligi aytilmoqda. Havoning saltanati nopaydo deb xulosa qilingan.

- Tahlil va natijalar (Analysis and results)

Alisher Navoiy falsafasida nomoddiy borliq masalasi badiiy, ayrim o'rinlarda tamsiliy-majoziy uslubda talqin qilingan.

"Lison ut-tayr"da, olam haqiqiy olam emas, haqiqiy olamning ya'ni Ollohning soyasi, tajalliysi ekanligi xususida bir nechta hikoyalarda majoziy-falsafiy tarzda insho qilingan.

"...Agar har bir kishida aql mavjud bo'lsa, shuni bilgilki, azaldan to abad bu olamdagi mavjud barcha narsalar borliqqa ega emas, faqat shakl ko'rinishiga ega. Qudratli Haqdan boshqa hamma narsa foniy - o'tkinchidir, faqat yolg'iz Ugina mutlaq boqiydir. Unga vujud tartibi mahkamlangan bo'lib, borliq rasmi inkor etilmasdan ma'qullangandir. Haqdan o'zga har qanday zot, faraz qilaylik, obi hayot ichgan bo'lsa ham, bu olamda mutlaq o'tkinchi hisoblanadi", deyilgan[2: 99-100].

Bu yerdagi falsafiy fikrlar, Aflotunning soyalar olami falsafasiga o'xshasada, lekin bu yerda aniq olamning asosi, uning boqiy manbai Olloh, boshqa barcha ashyolar o'tkinchi, Ollohning nuri jamoli, tajalliysi ekanligi aytilgan.

"Lison ut-tayr"ning 75 maqolotida ham: "... Olamdagi barcha qushlarning shakli, bilgilki, Uning hikmatga to'la soyasidan iboratdir... Chunki haqqa cho'mib, u bilan bir butunlikni tashkil qilganini haqdan bo'lak yana nima deyish mumkin? Ya'ni uni haqqa qorishib ketgan deb aytish kerak!

Sen o'zingning kimga soya ekanligingni va o'zingning tub negizingga yaqin ekanligingni fahmlab olding. Agar Simurg' o'z soyasini istab, jilva etmaganda, soya egasi bo'lmas edi. Bordi-yu Simurg' o'zini yashirin tutishni xohlasa, uning soyasi hech qachon ayon bo'lmasdi. Zeroki, soyaning oshkor bo'lmog'i soya beruvchining vujudi haqida dalil bo'la oladi. Sening ko'zlaring Simurg'ni ko'ra oluvchi bo'lmaganida edi, ko'ngling ko'zgudek munavvar bo'lmas edi. Bunday ko'zga ega bo'lmasdan turib, uning yuzini ko'rish mumkin emas, bundan boshqacha bo'lmaydi. U o'z husniga oshiq bo'lishlarini istab quyosh kabi bir ko'zgu paydo qildi" [2: 33-34].

76 maqolada: “...Sen bu ko’zguni ko’ngil deb xayol qilgin, unda o’sha jamol o’z aksini ko’rsatdi”[2: 34-35] deyilgan.

161 maqolada: Ma’no ahllari e’tibor qiluvchi ushbu o’n sakkiz ming olam ichida nimaiki narsa bo’lsa, ular shakl jihatidangina mavjud bo’lib, shaklda ko’rinuvchanlik xususiyatiga egadir. Yer sathi uzra yuzlab ajoyib shakllar mavjud, har bir shaklning o’zi yana rang-barang tovlanishlarga ega. Faraz qil: tevarak-atrofda dengizlar yoki ma’dan konlar, yoki dasht-sahrolar, yoki gulshanlar, yoki to’rg’ay va bulbullarni o’ziga rom etib, ularni halok qila oladigan darajadagi rango-rang nafis gul va lolalar, turli iqlimlar va mamlakatlar, daryolar, buloqlar va tog’lar hamda ularni o’rab olgan o’t va havo, balki o’t va havodan boshqa yana bir qancha narsalar mavjud [2: 34-35].

Jon va ruh nomoddiy sirli olam ekan, jonning borligini aniq anglatib turuvchi yana bir nomoddiy xilqat bu dard yoki og’riqdir. Agar jon kabi og’riqni ko’rib yoki ushlab bo’lganda edi, ehtimol tirik mavjudodda bu illat bo’lmas edi. Zero, olam moddiy va nomoddiy olam bilan butun va mukammal deb xulosa qilishga asos ham shunda. Odatda, kasallikni, dardni jon og’rig’i deyish rasm. Jonning o’zi maxfiy bo’lgani kabi uning og’rig’i ham maxfiy. Uning davosi ham qadimdan 2 xil usulda amalga oshirilgan. Uning ham biri moddiylikka yana biri nomoddiylikka asoslangan. Ya’ni birinchisi insonga ruhiy ta’sir etish orqali uni dardlarini ma’lum vaqtga yoki mutlaqo, qisman yoki butunlay bartaraf bo’lishga erishilgan bo’lsa. Ikkinchi moddiy usuli kimyoviy, ya’ni turli kimyoviy vositalar bilan dardni qisman yoki butunlay bartaraf qilish. Uning favqulodda usuli esa jarrohlik usulidir.

Navoiy ijodidagi asosiy mavzulardan biri esa jon va dard masalasi desak xato qilmaymiz.

Navoiyda farishtalar – malakut olami, g’ayb, asrori g’ayb, insu-jins, shayton, xizr kabi islom e’tiqodi doirasida nomoddiy borliq uning ontologik falsafasining asosini tashkil etadi.

Nazarimizda, olov – nomoddiy borliq, uni jonga o’xshatish mumkin. Uning xususiyati shundaki u jondan farqli ravishda faqat yonayotganda ko’z bilan ko’riladi, lekin uning jismi yo’q, o’zi sobit emas. Tirik va butun jismlar vujudini yoqib bitiradi va o’zi ham yo’qqa aylanadi. Keyin uni ko’rmaymiz. Unda jism ham vazn ham yo’q. Qizig’i, uning faoliyati natijasi o’laroq yonib bitgan narsalardan shu miqdorga mutanosib (to’g’rirog’i nomutanosib) kul qoladi. Bu jismlarning xususiyatiga bog’liq. Vaholanki, olov bilan bog’liq masalalar to’g’ri ma’noda ham mazoziy ma’noda ham ko’p o’rinlarda tahlil qilinadi. Masalan ishq o’ti haqida.

Lekin, asrofizikada ko’rish mumkinu, ushlab bo’lmaydigan, ko’rishda nisbiy, nomoddiy borliqdan yana biri yorug’likning yuzaga bosimi isbotlangan. Lekin bu olovga nisbatan qaydarajada mos, bunisi aniq emas.

Navoiy boshqa mavjudod kabi odam ham to’rt unsurdan yaralgan bo’lib bu unsurlarning ikkitasi – havo va o’t yuqori sifatli, qolgan ikkitasi – tuproq va suv quyi sifatli deb ta’riflagan[3:91].

Ikki anga gavhari ulviy (oliy)najod,

Ikki anga javhari sifliy (past)nihod [3:93].

Shuningdek, U insonning tanasi vujudi moddiylik olami bo’lib, uning ko’ngli va ruhiyati malakut olamiga doxil degan ta’rif beradi. Bu xususda “Hayratul-abror” da alohida bob ajratilgan bo’lib, unda Qur’ondagi “fazkuruni mazkurukum” ya’ni meni esga olinlar, yodlanglar, men ham sizni yodga olaman”[3:90-96], degan muqaddas kalom bilan asoslangan bo’lib, ko’ngil va xotira Ollohning insonga in’omi sifatida talqin qilingan [3:90].

Bizning nazarimizda ham, olamni, borliqni tashkil qilgan to’rt unsurning 2 tasi moddiy 2 tasi nomoddiy hisoblanadi.

Nazarimizda bu yerdagi tavsifda, nafaqat havo bilan olovni yuqorida bo’lishi va yuqoriga intilish yuqori sifat deb, suv va tuproqni pastga tushgani tufayli past daraja deb baholangan, balki, umuman olamni tuzilishidagi ahamiyati va nestnamoyligi ya’ni, nomoddiy olamga daxdor bo’lganligi uchun ham shunday baholangan.

Nomoddiy – havo va o’t. Agar bu unsurlarda tarkib, tuzilish, kimyoviy tahlilda aniqlangan bo’lsada ularni ko’zga ko’rimasligi, qo’l bilan ushlab bo’lmasligini hisobga olib shartli “nomoddiy” unsurlar deyish to’g’riroq bo’ladi deb uylaymiz.

Nomoddiy va moddiy olam aql hayratiga sabab bo’lgani sababli Navoiy “Xazoyin ul-maoniy”da:

Seni topmoq base mushkuldurur, topmaslik osonkim,

Erur paydolig’ing pinhon, vale pinhonlig’ing paydo [4:29].

Odam borliqni idrok etishda asosiy vosita bu sezgilaridir.

Lekin, odamzod sezgilari qodir bo’lmagan signallarni qadimdan, fasllar o’zgarishi havo o’zgarishi kabi tabiat jarayonlarini, osmondagi o’zgarishlar, yulduzlar, bulutlar hayvonlar, o’simliklar, hashoratlar, qurt-qumusqalarni kuzatish orqali bilvosita foydalangan. Masalan yerda: itlar va boshqa hayvonlardagi favqulodda sezgirlik qobiliyatlaridan hid bilish, hid ajratish, mushuklar, qushlar, hashoratlarni harakatlari orqali aniqlab olishgan. Yo’qolgan odamlar hayvonlarni, agar o’lgan bo’lsa, o’laksaxo’r qushlarni parvozi va o’lgan tana turgan joyga tashlanishidan aniqlash azaldan to hozirgacha qo’llab kelinmoqda. Keyinchalik bunday funktsiyalarni inson aql idroki mevasi bo’lgan asbob –uskunalar vositasida aniqlanadigan bo’ldi. Bu o’rinda, insoniyat asrlar, mingyillar davomida to’plagan

tajribalarini o'rni beqiyos. Fasllar almashinishi, ob-havoni ehtimoliy o'zgarishi koinotdagi holatga qarab bilish tajribalari va hakazo.

Zero, bular hammasi yana bir nomoddiy borliq, inson aql-zakovati, ruhiyati, ular vositasida to'plangan bilim va tajribalari kabi yana bir nomoddiy borliq mo''jizalaridir. Xotira, ko'ngil, aql-zakovat, tajriba, bilim kabi insoniy fazilatlarni ham moddiy borliq deya olmaymiz.

Hozir, ob-havo o'zgarishlari, dengiz va okeanlardagi o'zgarishlar, zilzilalar kabi hodisalarni o'ta sezgir ulьtratovush apparatlar, radioto'lqinli apparatlar radarlar vositasida aniqlash oddiy hol bo'lib qoldi.

Nomoddiy olamning Navoiy talqinidagi eng muhim asoslaridan biri ko'ngildir. Gap albatta inson ko'ngli haqida boradi. Zero mantiqan qaralsa falsafaning asosiy manbai va rivojlantiruvchi javhari, qudrati ham aslda shu ko'ngildir.

Navoiy, "Ruh ul quds"da: (U inson) mazhari kull (barcha insonlar o'zida zohir qiluvchi vujud)ga aylandi, so'ngra Alloh yaratgan narsalar ichida unga olami kubro (katta olam) deb laqab (nom) berildi, deydi [5:211]. Ya'ni bu yerda, Navoiy insonni o'zi va ko'nglini, ruhiyati, ongida, tafakkurida butun olam haqida keng tasavvur va fikrat olamini olamu kubro deb ta'riflagan.

Kupchillik tasavvufshunoslar va umuman falsafa namoyondalari olamni katta olamga - olami kubroga va kichik olam- olami sug'roga bo'lganlar. Bir talqinga ko'ra, olami kubro ya'ni katta olam borliqni, olamni asl ibtidosi, moyasi, javhari, mohiyati hisoblangan zod – Olloh deb qarashadi. Olami sug'ro esa Ollohni qudrati va amri bilan yaratilgan barcha boshqa qolgan mavjudodlar. Lekin, boshqa bir guruh faylasuflar aynan olami kubro bu – inson ko'nglidir deb tahlil qilishadi.

Buning mazmuni, inson har nimaniki ko'radi, xotirasida saqlaydi, uni fikrlaydi, tafakkurida ayrim ixtirolar g'oyasini shakllantiradi, oqibatlarni amalga oshiradi. Yangi olam, yangi ko'rinish va mazmundagi Navoiy ta'biri bilan aytganda araziy ya'ni ikkilamchi ashyolar yaratadi. Boshqacha oddiy xalqona ta'bir bilan aytganda, odamni ko'ngil, xayolot olamida dunyo jo bo'ladi va yana olamda yo'q fikr va g'oyalar ham bor. Ana shu ma'noda, ikkinchi misradagi falsafa mazmuni aynan – kungilni "laqabi" bizni nazarimizda sinonimi – olami kubrodir.

Xususan, ontologik masalalar ham. Ko'ngil masalasini "Hayratul-abror"da shunday deyiladi:

Solik ani arshi muallo dedi,

So'fi ani olami kubro dedi [3:90-96].

Bu yerdagi bayt mazmunida, dinni faqat e'tiqod tarzida qarovchi tasavvuf tarafdori – solik ko'ngil ishi "arshi muallo"dan ya'ni faqat Ollohdan deb qaragan bo'lsa, so'fiy ko'ngilni olami kubro deb baholaydi deyilmoqda.

Nomoddiy olam mo'jizalari hisoblangan – insondagi jon, ruh, ong, tafakkur, ishq, rashk, tabiatdagi, borliqdagi olov, havo qudrati va mo''jizasi vositasida moddiy olamdagi olamshumul o'zgarishlar qilinadi.

Yer qobig'ini shu mo''jizali unsurlar tashkil qiladi. Vaholanki ularning ikkalasi ham ko'z bilan ko'rib, qo'l bilan tutib bo'lmaydi, lekin, aynan yerdagi tirik organizm va nabotot olamining mavjudligining manbaasi suv hisoblanadi.

Havoni ko'z bilan ko'rish mumkin emas, faqat u agar nafas olishimiz og'irlashganda his qilamiz. Navoiy ta'biri bilan aytganda u nesnamoydir, ya'ni namoyon bo'lmaydigan olam unsuridir.

Olimlar koinotni asosiy qismini vodorod tashkil etishini aytishadi. Lekin, bu bizni nazarimizda u asosan Yer atrofi va galaktikani (Quyosh tizimi) asosiy qismida. Fazoning, koinotning quyoshga yaqin qismini turli ion va geliy gazlari tashkil qiladi.

Olamdagi juda ko'p narsalar odam anglab yetmaydigan, nihon, pinhon qilib yaratilganligi ko'p o'rinlarda aytilgan. Xususan, "Xazoyin ul-maoniy"da jonni nihonligi ya'ni yashirinligi xususida,

Navoiyg'a jon oshkoru nihonsen,

Zihi el nihoni sanga oshkoro[4:10]

- Xulosa va takliflar (Conclusion/Recommendations)

Hozirgi paytda, nomoddiy olam deb atalgan olamga internet vrtual tizimini kiritish mumkin. Bunga internet tarmog'i orqali tarqatilayotgan, xabarlar, jahon moliya tizimida amalga oshirilayotgan operatsiyalar, amalga oshirilayotgan kommunikatsilar tizimini misol bo'ladi. To'g'ri, axborotlarni yetkazish qurilmalari, texnik jihozlar moddiy-materialistik asosda, lekin, ular orqali amalga oshirilayotgan amaliyotlar ko'lami bilan solishtirganda bu qurilmalar arzimagan vosita bo'lib qoladi. Ayniqsa yo'ldosh aloqalar orqali simsiz internet tizimlari faoliyati, texnik progressning isboti va nomoddiy borliq mo'jizasi deyish mumkin.

Jaloliddin rumiy "Masnavii ma'naviy" asarida, shu kabi Olamni va Odamni yaratgan Parvardigor javhari, ismlari, qudrati va mohiyatini anglash ham inson ruhi xususiyatlarini o'rganish va anglash bilan amalga oshadi [6:392].

G'ayb ilmi bilan bog'liq ilohiy talqin Navoiyning "Nosoyim ul-muhabbat"ida "Imomi A'zam" maqolasida ham aytib o'tilgan. Faqat ularni o'rinlari va bayon tarzi sal boshqacharoq [6:32].

Tasavvufshunos olim N. Komilovni fikricha: Tasavvufda ham aqliy bilish, aql qudrati tan olinadi. Biroq aqliy bilimlar, dalil bilan isbotlanishi mumkin bo'lgan bilimlarga yaraydi, g'ayb ilmini idrok etishga esa aql ojiz, deydi so'fiylar. G'ayb ilmi, Xudovand olamidagi behad-behudud ilmlarni so'fiy alohida hissiy-vajdiy tafakkur bilan, qalbga

tushgan karomat nuri bilan anglab idrok etadi. Shu bois tasavvufda mukoshafa, kashfu karomat, hol-sukra tushunchalariga alohida e'tibor beriladi[7:34].

Nomoddiy borliq bilan muammolar oldida zamonaviy fan ham aniq javob bera olgani yo'q. Lekin, yaqinda AQShning Kaliforniya universiteti olimlari bir shov-shuvli xabar tarqatishdi. Unda aytilishicha, odam tanasidagi jonni vazni 22 grammni tashkil etarkan. Ya'ni, tiriklik paytida vazni o'lchangan odamni, uning joni uzilgandan keyingi vazni 22 grammga kamayganligi aytilmoqda. Bizni nazarimizda birinchidan, bu xabar, jon va ruh masalasidagi muammoni butunlay hal qilgani yo'q. Ikkinchidan, bu shunchaki sensatsiya ishqibozlarining shov-shuvi. Uchinchidan, jonni nomoddiy olam bo'lgan jon yoki ruhni vaznga ega ekanligi juda mavhum masala ekanligini ta'kidlash lozim. Umumiy xulosamiz shuki, ming va hatto million yillardan beri sirli mavzu muammo bo'lib, biz ham bu masalani yechimida ojizligimizni tan olib, Navoiycha an'ana va musulmoncha odob doirasida Vallohu a'lam deb qo'yamiz.

Bulardan xulosa shuki, bu xususiyat va yutuqlar insonning nomoddiy olami qudrati vositasida erishiladigan mo'jizakor faoliyatdir.

PHILOSOPHICAL

NAQSHBANDIYA TARIQATI MUTASAVVIFLARINING OILA FAROVONLIGI HAQIDAGI TA'LIMOTINING IJTIMOIY-FALSAFIY TAHLILI

G'afurov Doniyor Orifovich
Buxoro innovatsiyalar universiteti dotsenti

Annotatsiya: *Maqolada Naqshbandiya silsilasining yetakchi mutasavviflari - Abdulxoliq G'ijduvoniy, Bahouddin Naqshband, Alouddin Attor, Muhammad Porso, Ya'qubi Charxiy, Xoja Ahror Vali, Maxdumi A'zam Kosoniy va Imom Rabboniy ta'limotidagi oila farovonligi konsepsiyasining ijtimoiy-falsafiy talqini amalga oshirilgan. Tadqiqotda Naqshbandiya silsilasining o'n bir kalimoti qudsiya" deb nomlanuvchi metodologik printsiplari va "Dast ba kor, dil ba yor" doktrinasining oilaviy-iqtisodiy farovonlik kontekstidagi semantikasi hermenevtik tahlil etilgan. Maxdumi A'zamning "Asror un-nikoh", "Risolai shaybiyya", "Battixiya" risolalari materiallari asosida Naqshbandiya oilashunoslik paradigmasining gnoseologik strukturasi rekonstruksiya qilingan. Globallashuv va raqamli transformatsiya sharoitida ushbu konseptual merosning aktualizatsiya istiqbollari asoslab berilgan.*

Tayanch so'zlar: *Naqshbandiya silsilasi, oila farovonligi, "Dast ba kor, dil ba yor" doktrinasi, kalimoti qudsiya, suhbat falsafasi, Maxdumi A'zam, halol rizq, etopoetik konsepsiya, ijtimoiy-aksiologik integratsiya.*

СОЦИАЛЬНО-ФИЛОСОФСКИЙ АНАЛИЗ УЧЕНИЯ СУФИЕВ ТАРИКАТА НАКШБАНДИЯ О БЛАГОПОЛУЧИИ СЕМЬИ

Аннотация: *В статье осуществлена социально-философская интерпретация концепции семейного благополучия в учении ведущих суфиев цепи Накшбандия - Абдулхалика Гиждувани, Бахауддина Накшбанда, Алауддина Аттара, Мухаммада Парсо, Якуба Чархи, Ходжи Ахрара Вали, Махдуми Аъзама Косани и Имама Раббани. В исследовании герменевтически проанализированы методологические принципы цепи Накшбандия, известные как «одиннадцать священных слов» (калимот-и кудсия), и семантика доктрины «Даст ба кар, дил ба ёр» в контексте семейно-экономического благополучия. На основе материалов трактатов Махдуми Аъзама «Асрор ун-никах», «Рисалаи шайбийя», «Баттихия» реконструирована гносеологическая структура накшбандийской семьеведческой парадигмы. Обоснованы перспективы актуализации этого концептуального наследия в условиях глобализации и цифровой трансформации.*

Ключевые слова: *цепь Накшбандия, семейное благополучие, доктрина «Даст ба кар, дил ба ёр», калимот-и кудсия, философия беседы, Махдуми Аъзам, халяльный рызк, этопоэтическая концепция, социально-аксиологическая интеграция.*

A SOCIO-PHILOSOPHICAL ANALYSIS OF THE TEACHINGS OF NAQSHBANDI SUFI MASTERS ON FAMILY WELL-BEING

Annotation: *The article provides a socio-philosophical interpretation of the concept of family well-being in the teachings of the leading Sufis of the Naqshbandi chain - Abdulkhaliq Ghijduwani, Bahauddin Naqshband, Alauddin Attar, Muhammad Parso, Yakub Charkhi, Khoja Ahrar Wali, Makhdumi Azam Kosani and Imam Rabbani. The study hermeneutically analyzes the methodological principles of the Naqshbandi chain, known as the "eleven sacred words" (kalimat-i qudsiya), and the semantics of the doctrine "Dast ba kar, dil ba yar" in the context of family and economic well-being. Based on the materials of Makhdumi Azam's treatises "Asror un-nikah", "Risalai shaybiyya", "Battikhiya", the epistemological structure of the Naqshbandi family studies paradigm is reconstructed. The prospects for the actualization of this conceptual heritage in the context of globalization and digital transformation are substantiated.*

Key words: *Naqshbandi chain, family well-being, "Dast ba kar, dil ba yar" doctrine, kalimat-i qudsiya, philosophy of conversation, Makhdumi Azam, halal sustenance, ethopoetic concept, socio-axiological integration.*

Kirish

Naqshbandiya silsilasi - XIV asrda Movarounnahrda shakllanib, butun musulmon Sharqi va undan tashqarisiga keng tarqalgan, klassik tasavvufning eng nufuzli va metodologik jihatdan rivojlangan tariqatlaridan biridir. Mazkur silsila tarixiy taraqqiyot davomida nafaqat ruhiy-ma'naviy ta'limot, balki o'ziga xos ijtimoiy-iqtisodiy va oilaviy-axloqiy tafakkur paradigmasini ham shakllantirdi. Bahouddin Naqshband, Alouddin Attor, Muhammad Porso, Ya'qubi Charxiy,

Xoja Ahror Vali, Maxdumi A'zam Kosoniy kabi mutasavvif allomalar ijodida oila instituti, nikoh sirlari va ijtimoiy farovonlik masalasi alohida konseptual ahamiyat kasb etadi.

Tadqiqotning dolzarbligi quyidagi epistemologik vaziyat bilan asoslanadi: O'zbekiston Respublikasi Prezidentining 2021-yil 27-iyundagi "O'zbekiston Respublikasida oila institutini mustahkamlash konsepsiyasini tasdiqlash to'g'risida"gi qarori milliy-ma'naviy meroning, jumladan Naqshbandiya silsilasi mutafakkirlari ta'limotining zamonaviy oilashunoslik fanlari kontekstida qayta o'qilishi va integratsiyalashuvini taqozo etmoqda. Naqshbandiya silsilasi falsafiy tafakkurining o'ziga xos jihati shundaki, u ruhiy kamolot va dunyoviy farovonlikni dixotomik qarshilantirmaydi, balki ularning organik birligi konsepsiyasini ishlab chiqadi. "Dast ba kor, dil ba yor" (Qo'l ishda, dil yorda) doktrinasi aynan shu sintetik dunyoqarashning lakonik formulasi hisoblanadi.

Adabiyotlar tahlili.

Mazkur tadqiqot mavzusi bo'yicha adabiyotlar tahlili shuni ko'rsatadiki, Naqshbandiya tariqati mutasavviflarining oila farovonligi haqidagi ta'limoti Sharq tasavvufiy-falsafiy merosining muhim yo'nalishlaridan biri sifatida keng o'rganilgan. Xususan, Bahauddin Naqshband, Alisher Navoiy, Abdurahmon Jomiy, Ahmad Yassaviy hamda boshqa mutasavviflarning asarlarida oila institutining ma'naviy-axloqiy asoslari, uning jamiyat barqarorligidagi o'rni va inson kamolotidagi ahamiyati haqida chuqur falsafiy qarashlar ilgari surilgan. Zamonaviy tadqiqotlarda esa Naqshbandiya ta'limotining ijtimoiy-falsafiy mohiyati, uning "dil ba yoru, dast ba kor" tamoyili asosida mehnat, halollik, o'zini o'zi tarbiyalash va oilaviy mas'uliyatni kuchaytirish g'oyalari tizimli ravishda tahlil qilinmoqda. Shuningdek, M. Muhiddinov, A. Qodirov, Sh. Sirojiddinov kabi mahalliy tadqiqotchilar hamda A. Arberry, A. Schimmel kabi xorijiy olimlarning ishlarida Naqshbandiya ta'limotining ijtimoiy falsafa, axloqshunoslik va antropologiya bilan bog'liq jihatlari yoritilgan. Metodologik jihatdan mazkur tadqiqotda tarixiy-falsafiy tahlil, germenevtik yondashuv, qiyosiy tahlil va tizimli yondashuv usullaridan foydalaniladi. Tarixiy-falsafiy tahlil orqali Naqshbandiya ta'limotining shakllanishi va rivojlanish bosqichlari o'rganiladi, germenevtik usul esa mutasavviflar asarlaridagi ma'naviy-axloqiy mazmunni chuqur talqin qilish imkonini beradi, qiyosiy tahlil esa turli tasavvuf maktablaridagi oilaviy qadriyatlar konsepsiyasini solishtirishga xizmat qiladi, tizimli yondashuv esa oila farovonligini ta'minlovchi ma'naviy, axloqiy va ijtimoiy omillarni yaxlit tizim sifatida yoritishga imkon yaratadi.

Muhokama va natijalar.

Naqshbandiya silsilasining metodologik zamini Yusuf Hamadoniy (1048-1140) va Abdulxoliq G'ijduvoniy (1103-1179) ta'limotida shakllangan. G'ijduvoniy tomonidan ishlab chiqilgan sakkiz fundamental printsip - hush dar dam (har bir nafasda hushyorlik), nazar bar qadam (qadamga nigoh), safar dar vatan (vatanda sayohat), xilvat dar anjuman (jamoatda yolg'izlik), yodkard (zikr), bozgasht (qaytish), nigohdosht (saqlash), yoddosht (yodda tutish) - keyinchalik Bahouddin Naqshband (1318-1389) tomonidan uch printsip - vuquf-i zamoniy, vuquf-i adadiy, vuquf-i qalbiy - bilan to'ldirilib, mashhur "o'n bir kalimoti qudsiya" konsepsiyasi yakunlandi. Bu printsiplar nafaqat individual ruhiy mashqlar majmui, balki oilaviy va ijtimoiy munosabatlarni qurish uchun zarur bo'lgan kontseptual asos hamdir.

"Xilvat dar anjuman" printsipi, jumladan, oilashunoslik kontekstida o'ziga xos epistemologik salohiyatga ega. Mazkur kontseptual qoidaga muvofiq, haqiqiy ruhiy yetuklik insoniyat jamoatchiligidan ajralgan zohidlikda emas, balki kundalik ijtimoiy-oilaviy hayot ichida saqlanadigan ichki ma'naviy hushyorlikda ifoda topadi. Bu yondashuv tasavvuf tarixidagi sharqiy zohidlik (rahbaniyat) traditsiyasi bilan kontseptual qarshilanadi va oilani ma'naviy kamolotning to'siqi emas, balki uning real maydoniga aylantiradi. Aynan shu printsip Naqshbandiya silsilasini boshqa ko'plab tariqatlardan kontseptual jihatdan ajratib turadi va uning oilashunoslik salohiyatini belgilaydi.

Naqshbandiya silsilasining eponim-asoschisi Sayyid Muhammad Bahouddin Naqshband Buxoriy ijtimoiy-iqtisodiy faollik va ma'naviy hushyorlikning dialektik birligi konsepsiyasini ishlab chiqqan. Mutafakkirning "Dast ba kor, dil ba yor" formulasi shunchaki amaliy nasihat emas, balki insoniy mavjudlikning antropologik-ontologik tuzilishi haqida chuqur falsafiy bayonotdir. Mazkur formulada ikki o'lchov - ekzistensial faollik (qo'l-ish) va transsendental yo'nalganlik (dil-yor) - bir vaqtning o'zida saqlanishi tasdiqlanadi. Bu yondashuv zamonaviy fenomenologik antropologiya (M.Merlo-Ponti, M.Anri) ning ten-tafakkur dixotomiyasini bartaraf etish urinishlari bilan paradigmal yaqinlikka ega.

Bahouddin Naqshband doktrinasida halol mehnat va halol rizq tushunchalari oila farovonligining birlamchi epistemologik sharti sifatida ajratiladi. Tariqat hadisida saqlangan riwoyatga ko'ra, Pir o'z muridlariga "haromdan saqlanish" ni "ko'p ibodatdan ustun" qo'ygan. Bu tezis zamonaviy ijtimoiy iqtisodiyot va oila psixologiyasi nuqtai nazaridan favqulodda dolzarb: empirik tadqiqotlar (J.Gottman, T.Stenli) ko'rsatishicha, oilaviy iqtisodiy stress va halol bo'lmagan daromad oqimlari bilan bog'liq psixologik bezovtalanishlar nikoh barqarorligining birinchi darajali destabilizator omillari hisoblanadi. Naqshbandning iqtisodiy etikasi shu jihatdan zamonaviy oila iqtisodiyoti uchun normativ-aksiologik zamin sifatida xizmat qila oladi.

Bahouddin Naqshbandning eng yaqin shogirdi va kuyovi Alouddin Attor (1393-yilda vafot etgan) o'z pirining oilashunoslik qarashlarini sistemali ravishda davom ettirib, ular asosida konsepsiyalar majmuini tuzgan. Attor

ta’limotida oilaviy hayot to‘rt asosiy aksiologik yo‘nalishda quriladi: shukronalik etikasi (oiladagi har bir voqea va ne’matni Yaratuvchi nazaridan baholash), kommunikativ qadrlash (oila a’zolarini bir-biriga gnostik-falsafiy o‘rganish obyekti sifatida ko‘rish), distributiv adolat (oilaviy resurslar va e’tiborni adolatli taqsimlash) va trans-temporal mas’uliyat (oilaviy harakatlarni kelgusi avlodlar nazaridan baholash).

Muhammad Porso (1345-1420) Naqshbandiya silsilasining eng yirik teoretiklaridan biri sifatida “Faslu-l-xitob” va “Risola-i qudsiya” asarlarida silsila ta’limotini falsafiy-konseptual jihatdan rivojlantirgan. Porsoning oilashunoslik qarashlarida “suhbat” institutsiyasi markaziy o‘rinni egallaydi. Tariqat ta’rifiga ko‘ra, suhbat - bu pir va murid o‘rtasidagi ruhiy-gnostik kommunikatsiyaning maxsus shakli bo‘lib, undagi printsiplar oilaviy munosabatlarga ko‘chiriladi. Ota-farzand, er-xotin, og‘a-uka munosabatlari aynan suhbat paradigmasi doirasida quriladi: dialog, hamdardlik, ruhiy ulashish, qarama-qarshi pozitsiyalarni anglashga intilish.

Naqshbandiya silsilasining muhim namoyandalaridan Ya’qub al-Charxiy (1359-1447) o‘z asarlarida farzand tarbiyasini ma’naviy va dunyoviy bilimlarning sintezi sifatida talqin qilgan. Charxiyning kontseptual yondashuviga ko‘ra, oilada bola tarbiyasi to‘rt rivojlanish bosqichini bosib o‘tadi: hissiy-tasavvuriy bosqich (0-7 yosh) - bola atrofdagi muhitni emotsional in’ikoslar orqali o‘zlashtiradi; tafakkuriy-bilim olish bosqichi (7-14 yosh) - fundamental dunyoviy va diniy bilimlarning sistematik o‘zlashtirilishi; aksiologik tabaqalanish bosqichi (14-21 yosh) - qadriyat tizimining shaxsiy avtonomiyasi shakllanishi; ekzistensial-mas’uliyat bosqichi (21 yoshdan keyin) - o‘z hayoti va boshqalar oldidagi to‘la mas’uliyat.

Mazkur bosqichli tahlil zamonaviy rivojlanish psixologiyasidagi J.Piaje kognitiv rivojlanish nazariyasi va E.Eriksonning psixosotsial rivojlanish konsepsiyalari bilan o‘ziga xos paradigmal o‘xshashlikka ega. Bu fakt klassik tasavvuf tafakkurining intuitiv-empirik salohiyatini ko‘rsatadi: zamonaviy fan tomonidan asoslangan ilmiy faktlar tasavvuf an’anasida konseptual darajada bashorat qilingan. Ya’qubi Charxiyning tarbiya falsafasi shu nuqtai nazardan zamonaviy aksiologik pedagogika uchun nazariy-tarixiy zamin bo‘lib xizmat qilishi mumkin.

XV asrda Movarounnahrning eng nufuzli shaxslaridan biri bo‘lgan Ubaydulloh Xoja Ahror Vali (1404-1490) Naqshbandiya silsilasining ijtimoiy-siyosiy konsepsiyasini eng yuqori darajada rivojlantirgan mutafakkirdir. Mutafakkirning farovonlik konsepsiyasi mikro-darajadagi oilaviy munosabatlarni makro-darajadagi ijtimoiy adolat bilan bog‘laydi. Xoja Ahror tezisining mohiyati shundaki, oila darajasidagi farovonlik faqat sog‘lom ijtimoiy infratuzilma sharoitida real bo‘lib, o‘z navbatida sog‘lom ijtimoiy infratuzilma o‘zining birlamchi reproduksiya birligi sifatida sog‘lom oilani talab qiladi.

Xoja Ahror falsafasidagi ushbu sintetik yondashuv zamonaviy ijtimoiy ekologiya nazariyasi (U.Bronfenbrenner) bilan paradigmal hamohanglikka ega. Bronfenbrenner ekologik tizimlar nazariyasiga muvofiq, shaxs rivojlanishi mikrosistema (oila), mezosistema (jamoa), ekzosistema (institutlar), makrosistema (madaniyat) va xronosistema (tarixiy davr) ning yaxlit interaktivligida amalga oshadi. Xoja Ahrorning oilaviy farovonlik konsepsiyasi aynan shu ko‘p qatlamli o‘zaro ta’sir modelini intuitiv-falsafiy darajada bashorat qilgan. Bu Naqshbandiya silsilasining oilashunoslik salohiyati zamonaviy fanning yutuqlari bilan kontseptual integratsiyaga kirisha olishini tasdiqlaydi.

Sayyid Ahmad ibn Sayyid Mavlono Jaloluddin Kosoniy Maxdumi A’zam (1461-1542) Naqshbandiya silsilasining oilashunoslik tafakkurini eng yuksak konseptual darajaga ko‘targan mutafakkirdir. Maxdumi A’zamning “Asror un-nikoh” risolasi tasavvuf tarixida nikoh fenomenologiyasiga bag‘ishlangan eng tizimli asarlardan biri hisoblanadi. Asarda nikoh fenomeni uch o‘lchamli model orqali tahlil qilinadi: shar’iy-huquqiy o‘lcham (tashqi normalar), axloqiy-ijtimoiy o‘lcham (kundalik munosabatlar), tasavvufiy-metafizik o‘lcham (ruhiy bog‘lanishning transsendental ma’nosi). Mualliflning kontseptual yangiligi shundaki, u mazkur uch o‘lchamning ierarxiyasini emas, balki sintetik birligini taklif etadi.

“Risolai shaybiyya” (Keksalik risolasi) Maxdumi A’zam ijodining alohida o‘rin tutuvchi asari sifatida zamonaviy gerontologik tadqiqotlar uchun nodir manba bo‘lib xizmat qilishi mumkin. Risolada inson umrining bosqichlari sistematik tarzda tahlil qilinib, keksalik bosqichi aql-zakovat va hayotiy tajribaning eng yuqori intensivlik holati sifatida talqin etiladi. Mazkur konsepsiya zamonaviy nukleyer oilalar epoxida, keksa avlodning marginalizatsiyasi va kommunikativ izolyatsiyasi muammolari sharoitida favqulodda dolzarb ahamiyat kasb etadi.

“Battixiya” risolasi Maxdumi A’zam ijodining o‘ziga xos allegorik durdonasidir. Mualliflning qovunchilik tajribasidan kelib chiqib qurilgan asar oilaviy hayotning trans-temporal o‘lchami - ya’ni dunyoviy faoliyatning oxirat istiqbollari bilan organik bog‘liqligi - to‘g‘risidagi metafizik konsepsiyani bayon etadi. “Ad-dunyo mazraatu-l-oxirat’ (dunyo - oxiratning ekinzori) hadisi sharifi metodologik o‘zak qilib olinib, undan oila a’zolarining bir-biri oldidagi mas’uliyatining transgenerasion va trans-temporal tabiati to‘g‘risidagi xulosa chiqariladi. “Sharhi al-valladi sirru abayhi” (Farzand otasining siridir) risolasi esa genetik-ma’naviy uzluksizlik konsepsiyasini ishlab chiqadi: farzand ota shaxsiyatining metafizik davomi va ruhiy in’ikosi sifatida talqin qilinadi.

“Ganjnoma” (Boylik haqida risola) asarida Maxdumi A’zam haqiqiy boylik konsepsiyasini taklif etadi. Qur’on Karim Baqara surasidagi ‘Olloh taolo Odam alayhissalomga barcha ilmlarni o‘rgatdi” oyatining hermenevtik tahliliga

asoslanib, muallif inson qalbi yaratilishi bilanoq ilm va hikmat xazinasi bo‘lganligi va aynan shu ma’naviy boylik insonni boshqa mavjudotlardan ustun qilgan ekanligini bayon etadi. Bu konsepsiya zamonaviy iqtisodiy va falsafiy diskurslarda “insoniy capital” (humans capital), “madaniy capital” (P.Burdyo) va “ma’naviy aktivlar” konsepsiyalari bilan paradigmal yaqinlikka ega. ‘Sharhi savodi-l-vajh” risolasida esa muallif ma’naviy qashshoqlik tabiatini falsafiy tahlil qilib, bugungi globallashuv sharoitida farzandlarning yot mafkuralar ta’siriga tushishi muammosiga konseptual javob beradi.

XVI-XVII asrlar bo‘sag‘asida Hindistonda faoliyat ko‘rsatgan Ahmad Sirxindiy Imom Rabboniy (1564-1624) Naqshbandiya silsilasining yangi tarmog‘i - Mujaddidiya - ni asoslagan. Imom Rabboniyning oilashunoslik qarashlarida vahdat ul-vujud (mavjudlik birligi) va vahdat ush-shuhud (guvohlik birligi) doktrinalari o‘rtasidagi farq oilaviy munosabatlar nazariyasiga ham ko‘chiriladi. Mutafakkir tezisiga ko‘ra, oila a’zolari bir-biri bilan ontologik birlikda emas (bu vahdat ul-vujud yondashuvi bo‘lar edi), balki gnostik-tajribaviy birlikda - ya’ni bir-birini gnoseologik akt orqali tushunish va qabul qilish darajasida - birlashadilar.

Imom Rabboniyning kontseptual yangiligi shundaki, u oilaviy munosabatlarni “shariat-tariqat-haqiqat-ma’rifat” yo‘lining mikro-modeli sifatida talqin qiladi. Yosh oila qurish boshlang‘ich (shariat) bosqich; oilaviy hayotning kundalik amaliyotlari (tariqat) bosqich; oilaviy tajriba orqali insonning haqiqiy mohiyatini anglash (haqiqat) bosqich; va nihoyat, o‘z oilaviy hayotini gnostik-falsafiy tushunish (ma’rifat) bosqich. Bu yondashuv oilaviy hayotning rivojlanish dinamikasini falsafiy konsepsiyalashtiruvchi original metodologik model sifatida e’tirof etilishi mumkin.

Naqshbandiya silsilasining oilashunoslik konsepsiyasining zamonaviy aktualizatsiyasi quyidagi yo‘nalishlarda samara berishi mumkin. Birinchidan, “Dast ba kor, dil ba yor” doktrinasi zamonaviy work-life balance (ishi-hayot muvozanati) konsepsiyasi uchun nazariy-tarixiy zamin sifatida xizmat qilishi mumkin. Ikkinchidan, suhbat falsafasi oila terapiyasi va kommunikativ kompetentlik trening dasturlari uchun metodologik resurs bo‘la oladi. Uchinchidan, halol rizq doktrinasi oila iqtisodiy etikasining zamonaviy modelini shakllantirishda qo‘llaniladi.

To‘rtinchidan, Maxdumi A’zamning gerontologik konsepsiyasi keksalarning oilada va jamiyatda mavqei to‘g‘risidagi zamonaviy diskurslarni boyitishga xizmat qiladi. Beshinchidan, “xilvat dar anjuman” printsipi raqamli ijtimoiy tarmoqlar epoxida shaxsiy hayotni saqlash va virtual-real munosabatlar muvozanatini topishning original metodologik kaliti sifatida talqin qilinishi mumkin. Oltinchidan, Imom Rabboniyning oilaviy hayotni “shariat-tariqat-haqiqat-ma’rifat” modeli orqali talqin qilish konsepsiyasi oilaning rivojlanish bosqichlari to‘g‘risidagi zamonaviy nazariyalar (K.Karter, M.Mak Goldrik) bilan kontseptual sintezga kirisha oladi.

Xulosa

Naqshbandiya silsilasi mutasavviflarining oila farovonligiga oid ta’limoti gnoseologik salohiyat va metodologik tizimlilik jihatidan klassik islom tafakkurining eng yuqori yutuqlaridan biri hisoblanadi. Abdulxoliq G‘ijduvoniyning sakkiz fundamental printsipi, Bahouddin Naqshbandning ‘Dast ba kor, dil ba yor” sintetik formulasi, Alouddin Attorning aksiologik konsepsiyasi, Muhammad Porsoning suhbat falsafasi, Ya’qub Charxiyning bosqichli tarbiya nazariyasi, Xoja Ahror Valining ijtimoiy-ekologik yondashuvi, Maxdumi A’zamning sintetik oilashunosligi va Imom Rabboniyning gnostik-bosqichli modeli yaxlit holda o‘ziga xos integral paradigma - Naqshbandiya oilashunoslik konsepsiyasini tashkil etadi.

Mazkur paradigma o‘zining xarakterli xususiyatlariga ega: u dunyoviy faollik va ma’naviy yo‘nalganlikni dixotomik qarshilantirmaydi, balki ularning organik birligini taklif etadi; oilani ma’naviy kamolotning to‘siqi emas, balki real maydoni sifatida talqin qiladi; mikro-darajadagi oilaviy munosabatlarni makro-darajadagi ijtimoiy adolat bilan bog‘laydi; trans-temporal va transgenerasion mas’uliyat tushunchasi orqali oilaning tarixiy ufqini kengaytiradi. Naqshbandiya silsilasining bu intellektual merosi zamonaviy O‘zbekistonning oila institutini mustahkamlash strategiyasida nazariy-aksiologik resurs sifatida samarali qo‘llaniladigan strategik ahamiyatga ega.

Keyingi tadqiqotlar Naqshbandiya silsilasining konkret asarlarini chuqurroq matn-falsafiy tahlil qilish, ularning zamonaviy oilashunoslik fanlari (sotsiologiya, psixologiya, aksiologik pedagogika, oilaviy iqtisodiyot) bilan kontseptual integratsiyasi mexanizmlarini ishlab chiqishga yo‘naltirilishi maqsadga muvofiqdir. Klassik tasavvufiy meros va zamonaviy ijtimoiy fan o‘rtasida konstruktiv dialogning rivojlantirilishi milliy oilashunoslikning kelajakdagi taraqqiyotini belgilovchi strategik vazifa hisoblanadi.

PHILOSOPHICAL

URUSH TUSHUNCHASIGA OID YONDASHUVLARNING IJTIMOIY-FALSAFIY TAHLILI

Shaymanov Fozil To'lqin o'g'li
O'zbekiston Milliy universiteti
1-bosqich mustaqil tadqiqotchisi
e-mail: fozil. 9296.shaymanov@gmail.com

Annotatsiya: *Ushbu maqolada urush fenomenining falsafiy talqinlari, xususan klassik (Geraklit, Aristotel), modern (K. Klauzevits, T. Gobbs) hamda zamonaviy tinchlikparvar konsepsiyalar doirasida tahlil qilingan. Urushning ijtimoiy ildizlari, uning jamiyat tuzilmasiga, madaniyat va ma'naviyatga ta'siri hamda global xavfsizlik tizimidagi o'rni ochib berilgan. Shuningdek, urushga nisbatan realizm, liberalizm va konstruktivizm kabi nazariy yondashuvlar qiyosiy ko'rib chiqilib, zamonaviy sharoitda nizolarni tinch yo'l bilan hal etishning falsafiy asoslari asoslab berilgan.*

Kalit so'zlar: *urush fenomeni, gibrid va kiber urushlar, urush biologiyasi, urush tushunchasiga oid klassik va zamonaviy nazariy yondashuvlar, Plyuralistik yondashuv, ijtimoiy yondashuv.*

СОЦИАЛЬНО-ФИЛОСОФСКИЙ АНАЛИЗ ПОДХОДОВ К КОНЦЕПЦИИ ВОЙНЫ

Аннотация: *В данной статье анализируются философские интерпретации феномена войны, в частности, в рамках классических (Гераклит, Аристотель), современных (К. Клаузевиц, Т. Гоббс) и современных миролюбивых концепций. Раскрываются социальные корни войны, её влияние на структуру общества, культуры и духовности, а также её место в глобальной системе безопасности. Также сравнительно рассматриваются теоретические подходы к войне, такие как реализм, либерализм и конструктивизм, и обосновываются философские основы мирного разрешения конфликтов в современных условиях.*

Ключевые слова: *феномен войны, гибридные и кибервойны, биология войны, классические и современные теоретические подходы к концепции войны, плюралистический подход, социальный подход.*

SOCIAL AND PHILOSOPHICAL ANALYSIS OF APPROACHES TO THE CONCEPT OF WAR

Abstract: *This article analyzes the philosophical interpretations of the phenomenon of war, in particular, within the framework of classical (Heraclitus, Aristotle), modern (K. Clausewitz, T. Hobbes) and modern peace-loving concepts. The social roots of war, its impact on the structure of society, culture and spirituality, and its place in the global security system are revealed. Also, theoretical approaches to war, such as realism, liberalism and constructivism, are comparatively considered, and the philosophical foundations of peaceful resolution of conflicts in modern conditions are substantiated.*

Keywords: *phenomenon of war, hybrid and cyber wars, biology of war, classical and modern theoretical approaches to the concept of war, Pluralistic approach, social approach.*

Kirish. Urush insoniyat tarixining eng murakkab va ziddiyatli hodisalaridan biri bo'lib, u jamiyat taraqqiyoti, siyosiy manfaatlar, iqtisodiy resurslar taqsimoti hamda mafkuraviy qarama-qarshiliklar bilan uzviy bog'liq holda shakllanib kelgan. Turli davrlarda mutafakkirlar urushning mohiyati, sabablari va oqibatlarini turlicha talqin qilganlar: ayrimlar uni ijtimoiy taraqqiyotning muqarrar bosqichi sifatida ko'rgan bo'lsa, boshqalar uni insoniyat uchun eng katta falokat sifatida baholagan. Xususan, L.Mizes "Tarixni odamlar yaratadi"[1;-174] deb haqli ravishda ta'kidlagan. Darhaqiqat, tarix insonning o'zini ham, u joylashgan ijtimoiy-madaniy makonni idrok etishining ham doimiy shakllanishi sifatida namoyon bo'ladi. Eng keng ma'noda ijtimoiy-madaniy makonni odamlarning turli ijtimoiy, madaniy, tarixiy va boshqa hodisalar haqidagi jamoaviy g'oyalari beshigi sifatida ko'rish mumkin. Shu bois urush tushunchasini ijtimoiy-falsafiy jihatdan tahlil qilish bugungi globallashuv va geosiyosiy beqarorlik sharoitida alohida ilmiy va amaliy ahamiyat kasb etadi.

Zamonaviy dunyoda qurolli to'qnashuvlar shaklan o'zgarib, an'anaviy urushlar bilan bir qatorda axborot, gibrid va kiber urushlar ham keng tarqalmoqda. Bu holat urush fenomenini faqat harbiy nuqtai nazardan emas, balki keng ijtimoiy-falsafiy kontekstda o'rganishni taqozo etadi. Mazkur ishda urush tushunchasiga oid klassik va zamonaviy

nazariy yondashuvlar tahlil qilinib, uning ijtimoiy ildizlari, jamiyat hayotiga ta’siri hamda nizolarni tinch yo‘l bilan hal etishning falsafiy asoslari yoritiladi.

Asosiy qism. Bugungi globallashuv davrida urush fenomenini falsafiy tahlil qilish alohida ahamiyat kasb etadi va uni amalga oshirishning dolzarbligi qator holatlar bilan belgilanadi.

Birinchidan, urushning ilmiy-nazariy va uslubiy anglashning muhimligi, bu butun o‘zini rivojlanish jarayonida ko‘plab muammolarni, shu jumladan, uning majoziy idrokini hal qilishga ta’sir qiladi. Urush fenomenini falsafiy umumlashtirish vositalarini doimiy ravishda izlash va unga tegishli manbalarni sinchkovlik bilan ochib berish tadqiqotchilar uchun muhimdir.

Ikkinchidan, mutaxassislar tomonidan sifat jihatidan yangi nazariya va tushunchalarni shakllantirish va amaliy qo‘llash uchun harbiy-falsafiy fikrni chuqur rivojlantirish zarurati. Urush fenomenining tabiati olimlar uchun uni falsafiy tahlil asosida obyektiv namoyish etish vazifasini qo‘yadi.

Urush falsafasining ko‘p o‘lchamli hodisa ekanini tahlil qilar ekan, Rossiya Harbiy akademiyasining Harbiy tarix ilmiy-tadqiqot instituti olimi O.A.Belkov quyidagilarni qayd etadi:

“Urushning falsafiy tadqiqot yo‘nalishlarini quydagicha ajratish mumkin:

- urushning mohiyati, belgisi va ma’nosi;
- insoniyat va alohida mamlakatlar hayotidagi roli;
- urushning turli hayot jabhalariga ta’siri;
- urushning ijtimoiy oqibatlari” [2;-120]

Bizning fikrimizcha, ushbu masalalar majmui urushni faqat harbiy hodisa sifatida emas, balki murakkab ijtimoiy-falsafiy fenomen sifatida tushunish imkonini beradi. Urushning mohiyati, ma’nosi va ontologiyasi uning inson va jamiyat mavjudligiga chuqur singib ketganini ko‘rsatadi. U nafaqat siyosiy yoki iqtisodiy omillar bilan, balki qadriyatlar, axloq, ruhiy holat va ijtimoiy ong bilan ham bevosita bog‘liqdir. Urushning turli sohalarga ta’siri va ijtimoiy oqibatlarini tahlil qilish insoniyat taraqqiyotida uning ikki tomonlama, ya’ni vayronkor va shakllantiruvchi rolini ochib beradi. Shu bois, urushni falsafiy jihatdan o‘rganish kompleks metodologiya va aniq tushunchalar tizimini talab etadi, hamda uni jamiyat hayotining boshqa jabhalari bilan uzviy bog‘liqlikda talqin etishga undaydi.

Metodlar. Globallashuv davri urush fenomenini o‘zgartirishga sezilarli ta’sir ko‘rsatmoqda. Universalistik va partikulyaristik tushunchalar va g‘oyalar, liberal va konservativ ustuvorliklar va qadriyatlarga qarama-qarshi bo‘lgan dunyoning buzg‘unchi kuchlari faollashmoqda, natijada sivilizatsiyalar to‘qnashuvi yuz berganligini S.Xantington [3;-571] tomonidan asoslab berilgan. D.A.Anikin, S.A.Danilov, M.O.Orlov[4; -32-38], V.G.Fedotova [5; -544], L.L.Shtofer [6;-26] kabilar xalqaro terrorizmning paydo bo‘lishi uchun sharoitlar paydo bo‘lish sabablarini ochib bergan. D.Franklin va D.Endryus [7;-368] tomonidan iqtisodiy urush davlatlar o‘rtasidagi qarama-qarshilik sifatida tahlil qilingan. Bu esa uzviy raqobatdosh qarama-qarshilikda imtiyozli sharoitlarni ta’minlaydi.

Tahlil va natijalar. Urushlar insoniylikni yo‘qotish, hayotni vayron qilish, axloqiy qadriyatlarni yo‘qqa chiqarish manbai sifatida keskin tanqid ostiga olingan (I.Kant, L.Tolstoy, B.Rassell). Bizning fikrimizcha, urush shunday fenomenal hodisaki, u o‘z mohiyatida **nafaqat kuch ishlatish**, balki **axloq, erkinlik, adolat, ma’naviyat, ijtimoiy ong** bilan bog‘liq. Urushni qanday talqin qilish davr, tarixiy sharoit, siyosiy tuzum va faylasufning shaxsiy pozitsiyasiga bog‘liq. Shu bois, urushni faylasuflar obraz sifatida ham talqin etishgan. Binobarin, urush obrazi haqida gapirganda, birinchidan, urush obrazi urush haqidagi ilmiy g‘oyalarning butun tarkibiy qismini aks ettiradi.

XX asr boshlarida G.F.Nikolaining “Urush biologiyasi” nomli asari biologik konsepsiya rivojlanishida yangi davrni boshlab bergan. Urushning mohiyatini muallif biologik qonuniyatlar yordamida tahlil qiladi. Unda ta’kidlanishicha: “Tabiiy joziba, inson kuchining eng yashirin manbalariga o‘xshab ketadigan narsa bizni urushga muhabbat uyg‘otadi” [8;-28]. Shunga o‘xshash pozitsiyani J.Uind ham qo‘llab-quvvatlaydi. U “Etologiya fanining ma’lumotlariga ko‘ra, ba’zi genlarning harakati tajovuzkor deb tavsiflangan xatti-harakatlarni belgilaydi va shuning uchun odamlarda ham, hayvonot dunyosining boshqa vakillarida ham bir xil ildizlarga ega” [9;-74]. Bu fikrni davomi sifatida V.V.Denisov shunga o‘xshash xulosaga keladi, ya’ni: “Xususan, “ishga tushirish mexanizmi”ning fiziologik tamoyiliga asoslanib va uning harakatini ijtimoiy munosabatlar sohasiga asossiz ravishda o‘tkazib, ular inson tabiatining tug‘ma instinktiv tajovuzkorligi g‘oyasini ilgari surdilar” [10;-78]. Biroq bu yondashuv ijtimoiy, siyosiy va madaniy jihatlarni hisobga olmaydi, ya’ni urushni faqat instinktiv zo‘ravonlik natijasi sifatida qisqartiradi. Falsafiy nuqtayi nazardan, bu taxmin urushni tushunish uchun muhim, ammo yetarli emas: urushni to‘liq anglash uchun biologik instinktlar bilan bir qatorda ijtimoiy, madaniy va tarixiy omillarni ham hisobga olish zarur.

Plyuralistik yondashuv doirasida urushning butunlay boshqacha obrazi paydo bo‘ldi. Unga ko‘ra, urushning sababi yagona bo‘lishi mumkin emas, deb taxmin qilinadi, qoida tariqasida, ko‘p sabablar mavjud. B.Braunell fikricha, zamonaviy dunyoda nizolar yagona urug‘ yoki manbaga ega emas. Ularning sabablari ko‘p, shuning uchun ularni biron bir formula yoki ixtiyoriy nazorat tizimi bilan hal qilib bo‘lmaydi. “Bu nizolar ostida har doim u yoki bu turdagi maxsus

manfaatlar va institutlarga ega bo‘lgan guruhlar mavjud bo‘lib, ularning har biri o‘zining “publikasi”ga ega va har biri o‘z manfaatlari sohasida mutlaq hokimiyatga ega bo‘lishni talab qiladi” [11; - 117].

Urushni aniqlashning ijtimoiy yondashuvi esa ijtimoiy hodisalarni tasvirlashning zamonaviy realliklariga ko‘proq mos keladi. Uning doirasida urushning ijtimoiyligi, uning jamiyat tomonidan yaratilishi va uning barcha tomonlarini belgilashi hisobga olinadi. Bizning fikrimizcha, urush ikki yoki undan ortiq tomonlarning harbiy va noharbiy kelib chiqishi zo‘ravonlik vositalaridan foydalangan holda qarshi kurashini anglatuvchi murakkab ijtimoiy jihatdan aniqlangan hodisa sifatida tushunilishi kerak. Zamonaviy sharoit shundayki, ochiq qurolli nizolar ko‘pincha yashirin noharbiy qarama-qarshiliklarning natijasidir.

Xulosa. Xulosa sifatida ta’kidlash joizki, urush fenomeni insoniyat ongida shakllangan, chuqur falsafiy, axloqiy hamda madaniy mazmunga ega bo‘lgan murakkab ijtimoiy hodisadir. U jamiyat taraqqiyotining turli bosqichlarida nafaqat siyosiy-harbiy jarayon sifatida, balki qadriyatlar transformatsiyasi, ijtimoiy identitet va sivilizatsion rivojlanishga ta’sir etuvchi ko‘p qirrali fenomen sifatida namoyon bo‘ladi. Shuningdek, urush fenomeni insoniyat ongida shakllangan, falsafiy, axloqiy va madaniy jihatdan murakkab ijtimoiy hodisa bo‘lib, jamiyat rivojiga ko‘p qirrali ta’sir ko‘rsatadi. Qolaversa, urush – bu faqat qurollar to‘qnashuvi emas, balki insoniyat ongining chuqur qatlamlarida ildiz otgan, falsafa, axloq va madaniyat bilan qorishib ketgan murakkab va ziddiyatli hodisadir.

SUN'Y INTELLEKT VA GLOBAL JARAYONLAR: IJTIMOIY-FALSAFIY TAHLIL

Mirzaxolov Nodirbek Tojiboyevich
Namangan davlat universiteti,
falsafa fanlari bo'yicha falsafa doktori (PhD)
E-mail: nodirbek_mustafo@mail.ru
ORCID ID: https://orcid.org/0009-0008-1906-3227

Annotatsiya: *Maqolada sun'iy intellekt (SI)ning global jarayonlarga ta'siri ijtimoiy-falsafiy nuqtai nazardan tahlil qilishga qaratilgan. SIning jadal rivojlanishi globallashuv sharoitida iqtisodiy, siyosiy, madaniy va axloqiy sohalarga sezilarli ta'sir ko'rsatmoqda. Tadqiqotda SIning ishlab chiqarish, mehnat bozori, siyosiy qarorlar qabul qilish, madaniy merosni saqlash va shaxsiy ma'lumotlarning xavfsizligi kabi masalalarga ta'siri o'rganilib, SIning global jarayonlarga ta'siri aniqlashtirilgan, uning keltirib chiqarayotgan muammolar tahlil qilinib, ularni bartaraf qilish yo'llari ishlab chiqilgan. Tadqiqot natijalari SIning rivojlanishini nazorat qilish, uning axloqiy va huquqiy me'yorlarini ishlab chiqish va inson manfaatlariga xizmat qiladigan tarzda qo'llanilishini ta'minlashga qaratilgan tavsiyalar ishlab chiqish uchun asos bo'ladi.*

Kalit so'zlar: *sun'iy intellekt (SI), globallashuv, ijtimoiy falsafa, texnologiya, jamiyat, iqtisodiyot, siyosat, madaniyat, axloq, qadriyatlar, ta'sir, rivojlanish, muammo, yechim, nazorat, me'yorlar, huquq, inson manfaatlari, tahlil.*

ИСКУССТВЕННЫЙ ИНТЕЛЛЕКТ И ГЛОБАЛЬНЫЕ ПРОЦЕССЫ: СОЦИАЛЬНО-ФИЛОСОФСКИЙ АНАЛИЗ

Аннотация: *Целью статьи является анализ влияния искусственного интеллекта (ИИ) на глобальные процессы с социально-философской точки зрения. Стремительное развитие ИИ в условиях глобализации оказывает существенное влияние на экономическую, политическую, культурную и этическую сферы. В исследовании рассматривается влияние ИИ на такие вопросы, как производство, рынок труда, принятие политических решений, сохранение культурного наследия и безопасность персональных данных, выясняется влияние ИИ на глобальные процессы, анализируются возникающие им проблемы и разрабатываются способы их устранения. Результаты исследования послужат основой для разработки рекомендаций, направленных на контроль развития ИИ, разработку его этических и правовых норм и обеспечение его использования в интересах человечества.*

Ключевые слова: *искусственный интеллект (ИИ), глобализация, социальная философия, технологии, общество, экономика, политика, культура, **этика**, ценности, влияние, развитие, проблема, решение, контроль, нормы, закон, интересы человека, анализ.*

ARTIFICIAL INTELLIGENCE AND GLOBAL PROCESSES: A SOCIAL-PHILOSOPHICAL ANALYSIS

Annotation: *The article is aimed at analyzing the impact of artificial intelligence (AI) on global processes from a socio-philosophical perspective. The rapid development of AI in the context of globalization has a significant impact on the economic, political, cultural and ethical spheres. The study examines the impact of AI on issues such as production, labor market, political decision-making, preservation of cultural heritage and security of personal data, clarifies the impact of AI on global processes, analyzes the problems it causes and develops ways to eliminate them. The results of the study will serve as a basis for developing recommendations aimed at controlling the development of AI, developing its ethical and legal norms and ensuring its use in a way that serves the interests of humanity.*

Key words: *artificial intelligence (AI), globalization, social philosophy, technology, society, economy, politics, culture, **ethics,** values, influence, development, problem, solution, control, norms, law, human interests, analysis.*

Kirish

XXI asr globallasuv jarayonlarining shiddatli tus olishi bilan birga, ilm-fan va texnologiyalarning, xususan sun'iy intellekt (SI)ning jadal rivojlanishi bilan ham tavsiflanadi. SI nafaqat fan va texnika sohasidagi yutuq, balki ijtimoiy-

iqtisodiy, siyosiy va madaniy jarayonlarga ta'sir etuvchi kuchli omil sifatida ham namoyon bo'lmogda. Shu sababli, SIning global jarayonlarga ta'sirini ijtimoiy-falsafiy nuqtai nazardan tahlil qilish dolzarb ahamiyatga ega.

Globallashuv sharoitida SIning rivojlanishi ko'plab sohalarda dolzarb muammolarni keltirib chiqaradi. Masalan, iqtisodiy sohada SIning ishlab chiqarish, xizmat ko'rsatish va boshqa sohalarga joriy etilishi ish o'rinlarining qisqarishiga, mehnat bozoridagi o'zgarishlarga va iqtisodiy tengsizlikning kuchayishiga olib keladi. Siyosiy sohada SIning siyosiy jarayonlarga, xususan saylovlarga aralashishi, dezinformatsiya tarqatish va jamoatchilik fikrini manipulyatsiya qilish xavfini tug'diradi. Madaniy sohada SIning madaniy merosni saqlash, san'at asarlarini yaratish va madaniy almashinuvni rivojlantirishdagi rolini o'rganish muhim bo'lsa, axloqiy sohada SIning qaror qabul qilish jarayonlaridagi ishtiroki, shaxsiy ma'lumotlarning xavfsizligi va SIning inson qadriyatlariga muvofiqligi kabi axloqiy muammolarni keltirib chiqaradi.

Yuqoridagi muammolarni hal qilish uchun SIning global jarayonlarga ta'sirini ijtimoiy-falsafiy nuqtai nazardan chuqur tahli qilish, SIning rivojlanishini nazorat qilish, uning axloqiy va huquqiy me'yorlarini ishlab chiqish va inson manfaatlariga xizmat qiladigan tarzda qo'llanilishini ta'minlash zarur. Bu esa, jamiyatning barqaror rivojlanishi va insonning farovon hayotini ta'minlashga xizmat qiladi.

Adabiyotlar tahlili

Jon Makkarti (1960) SIning nazariy asoslari va rekursiv funksiyalar haqidagi ishi bilan sohaning dastlabki rivojlanishiga hissa qo'shgan. N.A.Yeprinseva (2018) SIning ko'chmas mulk sohasidagi qo'llanilishi va mehnat bozoriga ta'sirini o'rgangan. Ye.V.Skurko (2022) SIning huquqiy va axloqiy jihatlarini, V.S.Slipchenko (2001) esa uning xavfsizlik sohasidagi tahdidlarini tahlil qilgan. F.Rojers (1997) IBMning mashina tarjimasi sohasidagi ishlanmalarini yoritgan. Viktor Mayer-Shenberger va Kennet Kukier (2014) Big Data texnologiyalarining SI rivojlanishidagi o'rni va jamiyatga ta'sirini o'rgangan. V.A.Lektorskiy (2018) esa SIning falsafiy jihatlari va inson-mashina munosabatlarini tahlil qilgan.

Tadqiqot metodologiyasi

Mazkur tadqiqot SIning global jarayonlarga ta'sirini ijtimoiy-falsafiy nuqtai nazardan kompleks tahlil qilishga qaratilgan bo'lib, unda turli metodologik yondashuvlar qo'llanilgan. Tizimli yondashuv asosida SI global jarayonlar tizimining ajralmas qismi sifatida o'rganildi. Tarixiy-tizimli tahlil orqali SI texnologiyalarining 1950-yillardan hozirgi kungacha bo'lgan evolyutsiyasi tahli qilindi. Qiyosiy tahlil metodi yordamida turli sohalar (iqtisodiyot, siyosat, madaniyat, axloq) va turli mamlakatlardagi SI ta'siri solishtirildi. Struktural-funksional tahlil orqali SI ning jamiyat tizimidagi o'rni va vazifalari aniqlandi. Tadqiqotning empirik bazasini ikkinchi darajali ma'lumotlar tahlili tashkil etdi - ilmiy maqolalar, statistik hisobotlar va kompaniya tadqiqotlari tahlil qilindi. Gnoseologik yondashuv asosida SI bilan bog'liq bilimlarning shakllanishi, aksiologik yondashuv asosida esa SI ning inson qadriyatlariga ta'siri o'rganildi. Prognozlashtirish metodi orqali 2025-2030 yillarga mo'ljallangan bashoratlar ishlab chiqildi. Fanlararo yondashuv qo'llanilib, informatika, falsafa, sotsiologiya, iqtisod va huquqshunoslik sohalaridagi usullar uyg'unlashtirildi. Dialektik printsip asosida SI ning ichki qarama-qarshiliklari va qarama-qarshi tomonlari kompleks tahlil qilindi.

Natijalar va ularning tahlili

Sun'iy intellektning rivojlanishi inson mehnatini yengillashtirish va intellektual salohiyatni oshirish bilan birga keladi. Buning yaqqol misollarini **SI**ning turli sohalardagi yutuqlarida ko'rish mumkin. SIning takomillashuvi, xususan, shashka va shaxmat kabi murakkab o'yinlar uchun dasturlar yaratishda sezilarli yutuqlarga erishildi. 1974-yilda jahon chempionatida "Kaissa" shaxmat dasturi (A.Arlazarov, M.Donskoy, A.Uskov, A.Bitman) g'alaba qozongan. "Kaissa"ning bu g'alabasi katta shov-shuvga sabab bo'lgan. Sun'iy shaxmat mashinalari formal mantiqqa asoslangan bo'lib, mantiqiy o'yinlar kabi formallashtirilgan muammolar uchun yaxshi natija bersa-da, real dunyo tizimlarini aks ettirmagan;

SIning yana bir muhim qo'llanilishi - mashina tarjimasi sohasida ko'rinadi. Ilk tarjima dasturlari rus, ingliz va xitoy tillaridan birinchi eksperimental tarjima tizimi 1954-1957-yillarda yaratilgan. 1954-yilda IBM korporatsiyasi professori L.Dostert rahbarligida 250 juft so'z va olti grammatika qoidasidan iborat lug'at asosida oltmishta ruscha so'z va iboralarni ingliz tiliga sun'iy tarjima qilishga erishildi. Tarjimaning asosiy mazmuni kompyuterga til qoidalari, tarjimadagi muammolarni yechishda namoyon bo'lgan. Oradan yetmish yil o'tib, SIning yashin tezligidagi taraqqiyoti tufayli SI "bestseller" asarlar yozishda peshqadamlik qilmoqda [1].

Bundan yarim asr avval matematik tilshunoslikka asos solingan bo'lsa, bugungi kunga kelib, muloqot jarayonida so'zlashuvning avtomatik tarjimon "Galaxy S24" til bo'yicha to'siqlarni "yakson qiluvchi" qurilma yaratildi. BMT huzuridagi kibernetik qurilmalar bo'yicha ekspertlarning xulosasiga ko'ra, XXI asrda SI texnologiyalarining dunyo yuzini ko'rgan yangi avlodi, ayniqsa, "deepfake", ya'ni neyrotarmoqlar yordamida yaratilgan va asl nusxadan deyarli farqlanmaydigan audio, foto va videomateriallarni yaratish, shuningdek, ovozni nusxalashga qodir o'ta zamonaviy texnologiya vositalari o'zining rivojlanish cho'qqisiga chiqdi.

1960-yilda "Universal muammolarni hal qiluvchi" dastur yaratilib, "planimetriya"dan "teorema"larni avtomatik isbotlash, algebraik masalalarning yechimlarini topish kabi murakkab vazifalarni bajarishga imkon berdi. 1963-yilda Jon

Makkarti [2] tomonidan SI vazifalarini funksional dasturlash uchun birinchi til ishlab chiqilgan bo‘lsa, 1970-yildan boshlab SIning ikkinchi to‘lqini sifatida “ekspert” tizimlari va “Prolog tili” nomli mantiqiy dasturlash paydo bo‘lgan.

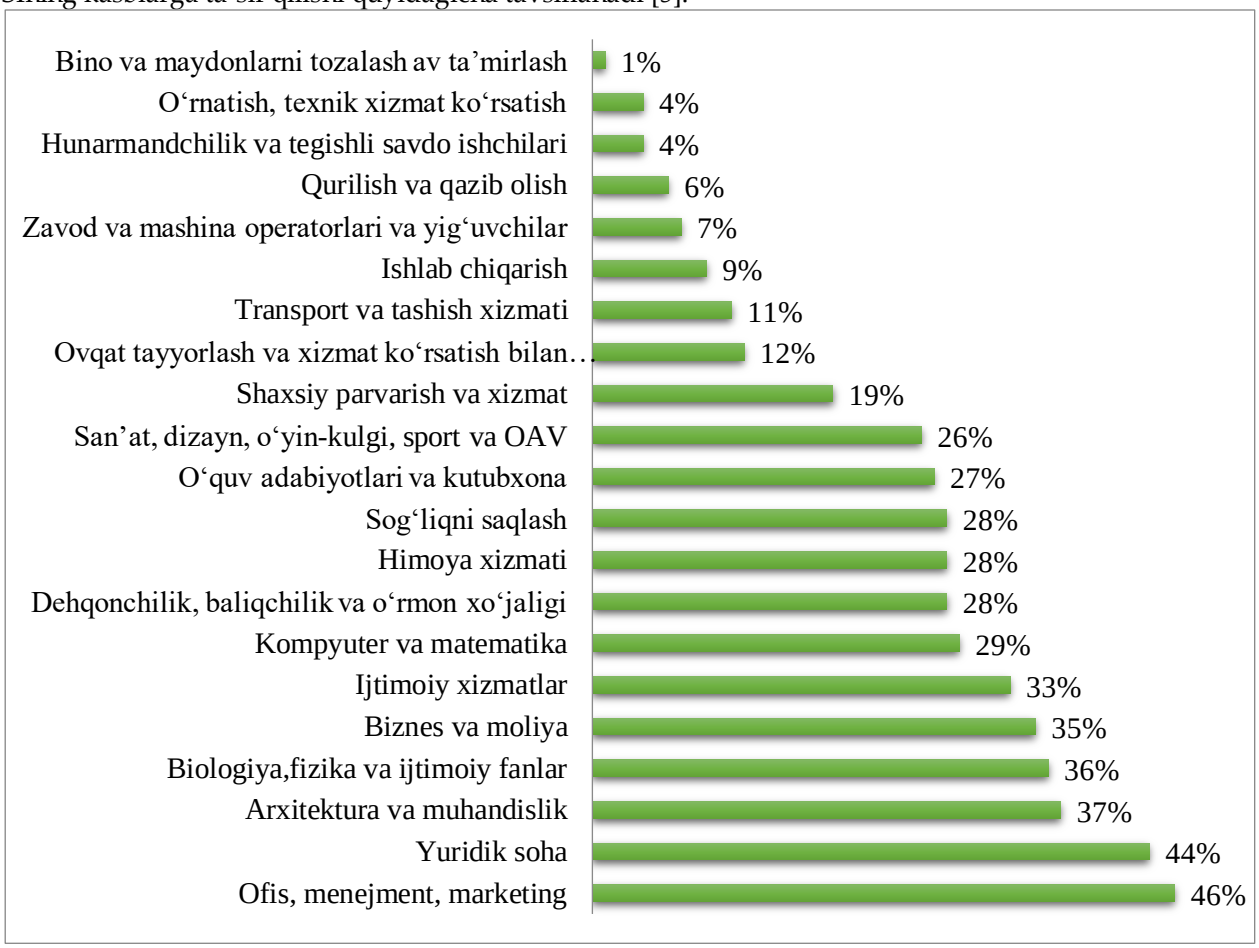
1980-yillarda ilk “aqlli repetitor”lar yaratilgan. O‘quvchi repetitorga istalgan savolni berib, repetitor bilan jonli muloqot qilgan. Bu, albatta, SIning kelajagini oldindan ko‘ra bilgan mutaxassislarning e’tiroziga sabab bo‘lganki, kelajakda ko‘plab kasblarning inqirozi bashorat qilingan. Bugungi kunga kelib, rivojlanayotgan iqtisodiyotlar va kam daromadli mamlakatlar orasida SI ta’sir qilishi mumkin bo‘lgan ish o‘rinlarining ulushi 40 va 26 foizni tashkil qiladi. Mehnat bozorlari SIdan kamroq boshlang‘ich ta’sirga ega bo‘lsa ham, ular samaradorlik nuqtai nazaridan potensial pastroq foyda ko‘radi [3].

1869-yilda Nyu York shahrida asos solingan dunyodagi eng yirik investitsiya banki, moliyaviy konglomerat Goldman Sachsning ma’lumotiga ko‘ra, kibernetik texnologiyaning rivojlanishi va SI imkoniyatlarining kengayishi sababli dunyo bo‘yicha 300 million kishi ishsiz qolishi mumkin [4].

Dunyo mehnat bozorining buzilishi ish o‘rinlarining uchdan ikki qismi avtomatlashtirilishi, ya’ni SI ixtiyoriga o‘tishi bilan izohlanadi. Bundan ikkita versiya kelib chiqadi, texnologik taraqqiyot qanchalik rivojlantirilsa, ish o‘rinlari qisqartirilsa ham, yangi kasblar va yangi ish o‘rinlari yaratilishi bilan muammo bartaraf etiladi. Ikkinchi tarafdan, SI yangi ish o‘rinlari va yangi kasblarni insondan tez va mukammal o‘zlashtirishi ishsizlik va inson qadrsizlanishining bir necha baravar o‘sishiga olib keladi.

Fikrimizcha, SI kirmagan soha, kasb va mutaxassislik sanoqli qoldi. Bu yer da gap faqat jismoniy mehnat talab qiladigan kasb va sohalar haqida emas. SI inson xayolidagi rasmni chizish iqtidorigacha o‘zlashtirgan, ya’ni aqliy mehnat talab qiladigan sohalar ham, ijodiy sohalar ham tez vaqt oralig‘ida SI doirasiga kirib ketsa, ajab emas.

SIning kasblarga ta’sir qilishi quyidagicha tavsiflanadi [5]:



Eng qiziq holat shundaki, SI ulushi eng qimmat kasblarga to‘g‘ri kelyapti. O‘qish-izlanishga ehtiyoj sezilmaydigan kasblar SI e’tiboridan chetda qolgan.

Bundan kelib chiqadiki, 1980-yilga nisbatan 2025-2030-yillarga kelib, SI texnologiyalar sohasidagi ish o‘rinlarining 60 foiziga ta’sir qiladi [6]. Fikrimizcha, ish o‘rinlarining yarmi SIga salbiy ta’sir ko‘rsatsa, qolganlari yangi texnologiyalarni joriy etishdan foyda ko‘radi, ya’ni SI texnologiyalarining rivojlanishi “reaktiv” tezlikda bo‘lsa ham, kelajakda katta imkoniyat eshigini ochadi.

Global jarayonlar dunyo miqyosida yangi kasblarning shakllanishiga zamin yaratdi. Yaqin besh-o‘n yil ichida mehnat bozorida kopirayter, dasturchi, SMM menejer, marketolog, grafik va 3D dizayner, bloger, IT mutaxassisi, kreativ kopirayter, Full Stack (WordPress) dasturchi, call-operator, mobilograf, targetolog, Adobe Illustrator, Photoshop va Corel

Draw dizayneri, sotuv va kontent menejeri, showroom menejeri, ofis administratori, web-dizayner, ko‘p tilli dispetcher, videograf, montajchi, Excel va Google Docs mutaxassisi, YouTube kontent yaratuvchisi, SMM proyekt brendchisi, marketolog-menejer, PHP, MySQL, JavaScript, HTML, CSS dasturchilari, IT rekruter, reels va stories kontent yaratuvchisi, motion dizayner, PostgreSQL, Python, Node.js mutaxassisi, tarjimon-kopirayter, frontend va backend dasturchilar, reklama ssenaristi, marketing kommunikatori, videokuzatuv operatori, videomaker, Shopify va Golang dasturchilari, React mentori, eksteryer dizayneri, internet-marketolog, software engineer, CRM tizimi administratori kabi yangi yo‘nalishlar paydo bo‘ldi.

Savol tug‘iladi: SIning jamiyat uchun foydasi ko‘pmi yoki xavfimi? Neyron tarmoqlarning imkoniyatlari oddiy insonnikidan yuz minglab baravar yuqoriligini inobatga olsak, ular sifatli kontent yaratish, ilgari o‘rganilmagan mavzularda ilmiy maqolalar yozish bilan bir qatorda, soxta ma’lumotlarni tarqatishni ham osonlik bilan amalga oshirishi mumkin. Inson hatto tasavvur qilishga ham hayiqadigan haqiqat shuki, SI nazoratdan chiqib ketsa, u mustaqil qaror qabul qiladi. Dunyoni vayron qilish yoki bunyod qilish uning ixtiyorida bo‘ladi [7]. SI xizmatlari shu darajada ko‘payib ketganki, hatto o‘qiyotgan maqolani kim yozganini bilish imkonsiz. Bugun ilmiy maqola yozgan yoki qoyilmaqom rasm chizgan SI ertaga dissertatsiya va avtoreferat tayyorlamasligiga hech kim kafolat bermaydi. Axborot olamida ma’lumot qancha ko‘p tarqalsa, uni kim yozgani real aks etmaydi, soxta yangiliklar ko‘payishiga zamin yaratiladi. Birgina Ukrainaning Vatan urushidan ko‘ra internetdagi g‘oyalar urushi ko‘proq ta’sir etmoqda. Aslida kim haq? degan savol xakerlar tomonidan urushning o‘zanini buzib yuborishgacha bo‘lgan jarayonlarga “labbay” deb javob bermoqda.

ChatGPT SI bilan ishlaydigan chat-botini ishlab chiqqan OpenAI kompaniyasi butun dunyoni qamrab olgan, jumladan, O‘zbekistonni ham. Bu chat orqali 2022-yil 30-noyabrdan boshlab O‘zbekiston mobil operatorlari raqamlaridan foydalangan holda ro‘yxatdan o‘tish va botni mamlakat hududi va dunyo bo‘ylab ishlatish imkoni paydo bo‘ldi. Shunga qaramay, OpenAI kompaniyasi ChatGPT chat-botidan foydalanishga cheklov qo‘ydi. Buning sababi internet provayderlari, programmist, internet foydalanuvchilarining chatni buzg‘unchi maqsadda ishlatishlari bilan bog‘liq, ya’ni xakerlar shaxsiy ma’lumotlarni buzib kirishgan [8].

1990-yilda IBM loyihasi fransuz va ingliz tilidagi matnlar uchun mashina tarjimasi tizimini ishlab chiqqan [9]. Natijada, garchi mukammal bo‘lmasa-da, tizim tezda katta hajmdagi matnlarni tushunish va tarjima qilish imkoniyatini yaratdi. IBMning bu loyihasi keyingi barcha zamonaviy statistik va neyron mashina tarjimasi tizimlari uchun asos bo‘lib xizmat qildi.

“Statistik mashina tarjimasi” texnologiyasi tarjima vazifasini matematik muammoga aylantirgan [10]. Statistik mashina tarjimasi texnologiyasining rivojlanishi tarjima sohasida katta inqilob bo‘ldi. U tarjimani tezroq, arzonroq va qulayroq qilishga imkon berdi.

Kibernetik qurilmalarga bo‘lgan qiziqishning uchinchi to‘lqini oldingi to‘lqinlardan ham kengroq va kuchliroq bo‘lib, SI muammolarini hal qilish uchun zarur bo‘lgan texnik vositalar, simsiz tarmoqlar, Internet va eng ilg‘or texnologiyalarni o‘z ichiga oladi.

Uchinchi to‘lqin AQSHning “Deep Blue” dasturining oltita o‘yinida shaxmat bo‘yicha jahon chempioni, rossiyalik grossmeyster Garri Kasparov (1963-yilda tug‘ilgan) ustidan qozonilgan mashhur g‘alaba bilan boshlangan. Uchinchi to‘lqinda “genetik dasturlash” ham yuzaga kelgan. Genetik dasturlash SI sohasidagi evolyutsion hisoblash usullaridan biri bo‘lib, u muammolarni hal qilish uchun biologik tizimlardagi tabiiy tanlashning prinsiplaridan foydalanadi. “Genetik dasturlash” biologik tizimlardagi mutatsiya jarayonini taqlid qilib, muayyan turdagi muammolarni hal qilishda optimal yechimlarni topish imkonini berdi.

XXI asrda kompyuterlar davridan “kognitiv davr” ga sifat jihatdan o‘tish sodir bo‘ldi. Sun’iy “neyron tarmog‘i” texnologiyalari tirik mavjudotlarning biologik neyronlari ishida tahdid qiluvchi tarmoqlarning taraqqiyoti bilan tavsiflanadi.

2006-yilda Big Data asosidagi Google Translator universal tarjimonlik tizimi ishga tushdi. Uning tarkibi ilk tarjimon lug‘atlardan katta miqdorda farqlanadi, tizimning tarkibi trillion so‘zli korpus internet kontent qismlaridan iborat [11]. Bu tizimning afzalligi tabiiy tilda paydo bo‘lgan yangi so‘zlarni qo‘shish hamda ma’naviy eskirgan, iste’moldan chiqarilgan so‘zlarni olib tashlash imkoniyati bilan izohlanadi. Tizimda sifatiy o‘zgarishlar amalga oshirilib, oltmishdan ortiq til tarjimasi hamda o‘n to‘rt tilda ovozli tarjimonlik yo‘lga qo‘yilgan.

SIga doir tadqiqotlar tahlili shuni ko‘rsatadiki, tadqiqotlar tabiiy bilimlar chegarasidan chiqqan [12]. Chunki idrok, ong, inson shaxsi miyaning faoliyati bilan emas, balki insonning borliqqa bo‘lgan munosabati bilan belgilanadi. Bu empirik va nazariy bilimlar o‘rtasidagi uyg‘unlikni ta’minlash zarurligini ifodalaydi. SIning mavjudligi ijtimoiy-gumanitar fanlar, jumladan, tilshunoslik, matnni tushunish, grammatika nazariyasiga asoslangan matematika va algoritmlarni ishlab chiquvchi kommutatsiyalar bilan chambarchas bog‘liqdir.

“Raqamli borliq”dan “raqamli inson” konseptuallashuvi natijasida inson faoliyatining ko‘plab sohalariga kirib bordi. Bu esa texnologiyalar evolyutsiyasining fanlararo va transdisiplinar tahlilini amalga oshirish mas’uliyatini qo‘yadi.

Xulosa

Xullas, SI sohasidagi tadqiqotlarning dinamikasi ichki va tashqi omillar bilan belgilanadi. Ichki omillarga umumiy muammolarni hal etishga qaratilgan tadqiqot dasturlarini yaratish va ularning o‘zaro ta’siri kiradi. Tashqi omillarga esa ijtimoiy ehtiyojlar va talablarning o‘sishi, texnik imkoniyatlarning kengayishi va ta’sir ko‘rsatish imkoniyatlarining kuchayishi kiradi. Tadqiqotlar logistik (tafakkurni mantiqiy xulosalar tizimi sifatida tushunish), integrativ (bionik, kibernetik, neyron tarmoqlarining neyrofiziologik modeli), evristik (fikrlash jarayonini psixologik modeli), kognitiv (fikrlash va bilishning gnoseologik modeli), evolyutsion (mutatsiya va tabiiy tanlanishning biologik modeli) dasturlarga asoslangan. Sodda qilib aytganda, SI sohasidagi tadqiqotlarning taraqqiyoti ikki omil bilan bog‘liq. Bular ichki va tashqi omillar. Ichki omillar SI mutaxassislarning yangi tadqiqot dasturlarini yaratishi, ularni bir-biri bilan bog‘lashi va muammolarning optimal yechimini topishga harakat qilishini ta’minlaydi. Tashqi omillar jamiyatda SIga bo‘lgan ehtiyojning ortishi bilan uzviy bog‘liq bo‘lib, texnologiyalarning jadal sur’atda rivojlanishi konstruktiv tadqiqotlar uchun mustahkam poydevor yaratmoqda.

SI sohasidagi tadqiqotlar juda murakkab va ko‘p yo‘nalishli, ularning maqsadi SIga insonga o‘xshash qobiliyat berish. Haqiqat shundaki, SIni qanchalik insonga o‘xshatishga harakat qilinmasin, uning o‘tmishga xotirasi yo‘qligi sababli, buning imkoni yo‘q. SI faqat bugun bilan yashaydi, kecha uning uchun hech qanday ahamiyatga ega emas, erta hali kelmagan. Hatto turli ma’lumotlarni qayta ishlash qobiliyatiga ega bo‘lsa ham, SI insonning vaqt va xotira bilan bog‘liq bo‘lgan tajribasini hech qachon tushuna olmaydi.

Annotatsiya: *Maqolada talaba-yoshlarda ratsional bahs yuritish malakasini takomillashtirishda argumentativ kompetentlikning nazariy-metodologik asoslari tahlil qilingan. Argumentativ kompetensiyaning mohiyati, tarkibiy tuzilmasi va uni rivojlantirish mezonlari aniqlashtirilgan. Shuningdek, kommunikativ, motivatsion, ijtimoiy, lingvistik, intellektual va refleksiv komponentlar asosida talabalarda bahs madaniyatini shakllantirishning innovatsion modeli ishlab chiqilgan. Maqolada argumentativ muloqotni rivojlantirishga xizmat qiluvchi strategiyalar va amaliy tavsiyalar bayon qilinib, ularning ta'lim samaradorligini oshirishdagi ahamiyati yoritilgan. Tadqiqot natijalari argumentativ kompetentlik talabalarning tanqidiy fikrlashi, dalillash madaniyati va kasbiy tayyorgarligini rivojlantirishning muhim omili ekanini ko'rsatadi.*

Kalit so'zlar: *argumentativ kompetentlik, argumentatsiya, ratsional bahs, bahs madaniyati, talaba-yoshlar, tanqidiy fikrlash, dalillash, kommunikativ kompetensiya, refleksiv yondashuv, innovatsion ta'lim*

АРГУМЕНТАТИВНАЯ КОМПЕТЕНТНОСТЬ – ИННОВАЦИОННАЯ МОДЕЛЬ СОВЕРШЕНСТВОВАНИЯ НАВЫКОВ РАЦИОНАЛЬНОГО ВЕДЕНИЯ ДИСКУССИИ У СТУДЕНЧЕСКОЙ МОЛОДЁЖИ

Аннотация: *В статье проанализированы теоретико-методологические основы аргументативной компетентности в совершенствовании навыков рационального ведения дискуссии у студенческой молодежи. Уточнены сущность аргументативной компетенции, ее структурное строение и критерии развития. Кроме того, на основе коммуникативного, мотиватсионного, социального, лингвистического, интеллектуального и рефлексивного компонентов разработана инновационная модель формирования культуры дискуссии у студентов. В статье изложены стратегии и практические рекомендации, направленные на развитие аргументативной коммуникатсии, а также раскрыто их значение в повышении эффективности образовательного процесса. Результаты исследования показывают, что аргументативная компетентность является важным фактором развития критического мышления, культуры аргументатсии и профессиональной подготовки студентов.*

Ключевые слова: *аргументативная компетентность, аргументатсия, рациональная дискуссия, культура дискуссии, студенческая молодежь, критическое мышление, доказательная аргументация, коммуникативная компетенция, рефлексивный подход, инновационное образование.*

ARGUMENTATIVE COMPETENCE AS AN INNOVATIVE MODEL FOR IMPROVING THE SKILLS OF RATIONAL DISCUSSION AMONG STUDENTS AND YOUNG PEOPLE

Abstract: *The article analyzes the theoretical and methodological foundations of argumentative competence in improving the skills of rational discussion among students and young people. The essence of argumentative competence, its structural composition, and the criteria for its development are clarified. In addition, an innovative model for developing students' discussion culture has been designed on the basis of communicative, motivational, social, linguistic, intellectual, and reflexive components. The article also presents strategies and practical recommendations aimed at fostering argumentative communication and highlights their importance in increasing the effectiveness of the educational process. The findings show that argumentative competence is an important factor in developing students' critical thinking, argumentation culture, and professional training.*

Keywords: *argumentative competence, argumentation, rational discussion, discussion culture, students and youth, critical thinking, evidence-based reasoning, communicative competence, reflexive approach, innovative education.*

Kirish.

Zamonaviy iqtisodiy-ijtimoiy taraqqiyotning ta'lim tizimi qarshisida qo'yayotgan talablar bilan bog'liqlikda o'tkazilgan ko'plab tadqiqotlarda kompetent yondashuv ta'lim mazmunini o'zgartirishning yangi bosqichi sifatida ko'rib chiqilgan. Ana shu pozitsiyadan kelib chiqib ko'plab tadqiqotlarda [1, 2, 3, 4, 5]. kompetensiya ijodiy va samarali faoliyat uchun muhim o'zaro aloqador shaxsiy sifatlar kompleksi, kompetentlik esa, ma'lum sohaga tegishli muammoni hal etishga imkon beruvchi zaruriy kompetensiyalarni egallaganlik darajasi sifatida talqin etilgan.

Yoshlarda argumentativ kompetensiya vositasida bahs yuritish madaniyatini rivojlantirish murakkab va ko'p qirrali jihatlarga ega bo'lib, argumentativ kompetentlikning ustuvor jihatlari, tarkibiy qismlari va uni rivojlantirishga ta'sir ko'rsatuvchi omillarga e'tibor qaratish maqsadga muvofiqdir. Muloqotning mazkur shakli muzokaralarda, bahs-munozara va debatlarda muhim bo'lib, bunda turli nuqtai nazarlarni tahlil qilish va va taqdim etish katta ahamiyat kasb etadi.

Adabiyotlar tahlili.

Avvalo shuni aytish kerakki, *"argumentativ kompetensiya"* paradigmasining asoschisi Arastu hisoblanib, u o'z asarlarida "argumentatsiya" tushunchasini birinchi bo'lib ajratib ko'rsatgan. Afsuski, keyinchalik argumentatsiya noo'rin unutildi va nisbatan yaqinda XX asrning oxirlariga kelib ijtimoiy munosabatlarning barcha sohalarida demokratizatsiya g'oyasi keng tarqala boshlagach argumentatsiya fenomeni rivojlangan davlatlarning ta'lim tizimida asosiy tarkibiy komponentlaridan biriga aylandi, shunga muvofiq tarzda talabalarni dalillash ko'nikmalariga o'rgatish kommunikatsiya modelidagi muhim tarkibiy qismga aylandi. Dalillash nazariyasiga doir ko'plab ilmiy va o'quv manbalarida keltirilgan "argumentativ kompetensiya" tushunchasiga berilgan ta'riflar turli xil bo'lib, Amsterdam maktabi vakillari Rob Grootendorst, Frans X. van Yeyemeren, V.P. Moskvin argumentativ kompetensiyani "bahslarni izchil tartibga solish, ularni ma'lum maqsadlarga bog'lash va ushbu maqsadlar bilan bog'liq bo'lgan me'yorlarga amal qilish qobiliyati" [7], "shaxsning argumentativ ko'nikmasini "bayonotlarni asoslash yoki rad etish qobiliyati" [8] sifatida izohlashar ekan, bunda argumentatsiya texnikasini, manipulyatsiya tizimi va ularni zararsizlantirish usullarini bilishi nazarda tutishadi.

Tadqiqot metodologiyasi.

Argumentativ kompetentlikning talaba-yoshlarda ratsional bahs yuritish malakasini takomillashtirishdagi roliga bag'ishlangan mazkur maqolada ilmiy tadqiqotning analogik tahlil, analiz va sintez kabi usullaridan foydalanildi.

Tahlillar va natijalar.

Bizningcha, argumentatsiya – o'z pozitsiyasining to'g'riligini asoslash orqali adresatni o'ziga ishontirishni maqsad qilib olgan subyektning kommunikativ faolligi, ***argumentativ kompetensiya*** **-** *tezisni asoslash va dalillash usullaridan to'g'ri foydalangan holda retsipiyentni voqea hodisaning muayyan jihatlariga ishontira olish qobiliyati degan xulosaga kelish mumkin bo'ladi[3].*

Talabalarda argumentativ kompetentlikni rivojlantirishga oid o'quv dasturini yaratishga yo'naltirilgan didaktik yordamni shakllantirish uchun uni ishlab chiqish mezonlarini aniqlab olish kerak. Shu maqsadda argumentativ kompetentlikning tarkibiy tuzilmasi ko'rib chiqiladi. Biz, ilmiy manbalarni analiz qilganimizda, argumentativ kompetentlikni rivojlantirish muammosini to'liq tadqiq etgan mahalliy ilmiy ishni uchratmadik, shu bois turli xorijiy mualliflarning dalillashga oid qarashlarini o'rganib argumentativ kompetensiyaning tarkibiy tuzilmasini quyidagicha aniqlashtirib olishga harakat qildik: *kommunikativ qism:* masalani hal qilishda muloqotning notiqlik asoslari, o'zaro hamkorlik tartib qoidalariga oid bilimlarni qamraydi; *motivatsion qism:* munozarada ishtirok etish asosida dunyoqarashni kengaytirish, muloqotga kirishish orqali o'z-o'zini takomillashtirish zarurati. Bahsda faol muloqot qilish ehtiyojni tashkil etadi; *ijtimoiy qism:* o'zini jamoada tartib doirasida tuta bilish, kishilar bilan do'stona munosabatga kirisha olish, o'zgalarning farqli bo'lgan qarashlarni ham qabul qila olish malakasini anglatadi; shu bilan birgalikda barcha uchun birdek qabul qilingan axloqiy me'yorlarga mos bo'lgan optimal echimni tanlash malakasi; l*ingvistik qism:* o'z maqsadga erishish uchun til bilish va dalillash qoidalarini etarli darajada o'zlashtirganlikni o'z ichiga oladi; *intellektual qism:* munozara jarayonida ma'lum bir masalalarni hal qilishda zamonaviy AKT texnologiyalari vositasida ma'lumotlarni qidirish, axborotlarni qayta ishlash va o'zgarishlarga adaptatsion javoblar berish. Bahs-munozarada ishtirok etish paytida, mantiqqa asoslangan fikrlarni ishonchli dalillar bilan ta'minlashda intellektual qism muhimdir; *refleksiv qism:* o'z-o'zini tahlil qilish, o'z-o'zini baholash va o'z-o'zini tartibga solish, vaziyatga qarab o'z xatti-harakatlarini moslashtirish, o'z rivojlanish darajasini tushunish va anglay olish ko'nikmalarini o'z ichiga oladi[2].

Argumentativ kompetentlikning barcha mazkur tarkibiy komponentlari o'zaro bog'liqdir va ularni shakllantirishni kompleks tarzda amalga oshirish muhim hisoblanadi. Tarkibdagi har bir komponentning shakllantirilishiga talabaning argumentativ kompetentligini rivojlanish samaradorligi bog'liq bo'ladi. Argumentativ kompetensiyaning tuzilma tarkibiga asoslangan holda uning navbatdagi mezonlari aniqlandi: *kommunikativ mezon:* ishbilarmonlik muloqotining muhim qonun qoidalaridan boxabar bo'lgan holda, guruhda muloqot yuritish tajribasiga egalik; *lingvistik mezon:* argumentativ muloqot doirasidagi bazaviy nutqqa ega bo'lish, stilistika va grammatika

qoidalarini bilish, tushunchalarning mantiqiy mazmun mohiyatini to‘g‘ri anglash; *intellektual mezon:* bahsli masala doirasidagi zaruriy ma’lumotlarga ega bo‘lish va muammoning mohiyatini anglash.

Muloqotning mazkur shakli muzokara va ilmiy bahs-munozaralarda muhimligi, bunda turli nuqtai nazarlarni tahlil qilish va va taqdim etish katta ahamiyat kasb etishini inobatga olib talabalarga argumentativ muloqot qobiliyatini oshirishning quyidagi asosiy strategiyalarini taklif etdik: 1.Tadqiqot mavzusini chuqur o‘rganing. Chunki, mavzu bo‘yicha puxta bilimga ega bo‘lish zarur. Faktlar, statistik ma’lumotlar va tegishli axborotni to‘plash uchun keng qamrovli tadqiqotlar o‘tkazish nafaqat ishonchingizni oshiradi, balki dalillaringizni yanada ishonarliroq qiladi. 2. *Faol tinglashni (active listening) o‘rganing.* Samarali dalillash faqat gapirish emas, balki tinglash ham demakdir. Boshqalar aytayotgan gaplarni diqqat bilan tinglash ularning nuqtai nazarini tushunishga va asosliroq javob qaytarishga yordam beradi. 3.*Xotirjamlik va o‘zaro hurmatni saqlang.* Bahs-munozaralar paytida o‘zingizni bosiq tutishing, hissiy zo‘riqishdan saqlaning, chunki emotsional zo‘riqish mulohazakorlikni xiralashtirishi va samarali muloqotga xalaqit beradi. Sizning fikringizga zid bo‘lsa ham, turli qarashlarni hurmat qila biling. 4.Nutqingizni aniq va lo‘nda qilning. Fikrlaringizni ravshan ifoda etish, haddan tashqari murakkab ifodalardan qochish va muloqotdagi aniqlik sizning dalillaringizning tushunilishi va jiddiy qabul qilinishini ta’minlaydi. 5.*Dalillaringizni mantiqan tizimlashtiring.* O‘z dalillaringizni izchil va mantiqiy ketma-ketlikda taqdim etishingiz tinglovchilaringizga mulohazalaringizni kuzatib borishni va ularni tushunishni osonlashtiradi. 6.*Tanqidiy fikrlashdan foydalaning.* Dalillarni har tomonlama analiz qiling va baholang. Farazlarni shubha ostiga oling va ehtimoliy qarshi dalillarni ko‘rib chiqing. Bunday tanqidiy yondashuv sizning pozitsiyangizni mustahkamlaydi. 7.*Ishontirish usullaridan foydalaning.* Aristotelning etos, pafos va logos kabi ritorik strategiyalarni qo‘llang, bunda: etos (kishining nutq madaniyati orqali uning maqsadga intilishi xarakterini aks ettirish usuli), pafos (tinglovchilarga hissiy ta’sir ko‘rsatuvchi barcha dalillash unsurlari) va logos (muallifning mantiqiy mulohaza yuritish tizimi). Bu usullar dalillaringizning ishonchliligini oshiradi. 8. *Bahsli muloqotdan so‘ng o‘z fikr-mulohazalaringizni qayta tahlil qilishga o‘rganing.* Nima yaxshi ishlagani va nimalarni yaxshilash kerakligi haqida o‘ylab ko‘ring. Doimiy o‘rganish va tahlil qilish argumentativ muloqot madaniyatini samarali egallashning kalitidir [5].

Talabalarga argumentativ muloqotda samarali ishtirok etish uchun quyidagi amaliy tavsiyalarni ham taklif etdik: 1. *Bahsni hamma uchun umumiy bo‘lgan nuqtadan, ya’ni muhokamadagi kelishuv mavjud bo‘lgan nuqtalarni e’tirof etish va tan olishdan boshlang*. Buning ta’sirida hamkorlik ruhi yaratiladi va kelishmovchiliklarni bartaraf etish osonlashadi. 2. *Bahsda misollar va dalillardan foydalaning.* Fikrlaringizni aniq misollar, dalillar va ma’lumotlar bilan asoslang. Bu sizning fikrlaringizni tasdiqlanishi va argumentlaringizni yanada ishonchli bo‘lishini ta’minlaydi. 3. *Turli nuqtai nazarlarga ochiq bo‘ling.* Turli qarashlarga e’tiborli bo‘lishdan, o‘rni kelsa qabul qilishdan chekinmang . Bunday ochiqlik muhokamani boyitibgina qolmay, turli fikrlarni hisobga olishga tayyorligingizni ham ko‘rsatadi. 4. *Mantiqiy xatolardan saqlaning.* Keng tarqalgan mantiqiy xatolarni yodda tuting va ulardan qochishga harakat qiling. Xatolar sizning pozitsiyangizni zaiflashtiradi va sizga bo‘lgan ishonchni yo‘qotishi mumkin. 5. *Bahs jarayonida noaniqliklarni oydinlashtirish va mavzuni chuqurroq o‘rganish uchun savollardan foydalaning.* Savollar suhbatni yo‘naltirishi va yangi g‘oyalarni yuzaga chiqarishi ham mumkin. 6. *Tinglovchilaringizga moslashing:* muloqot uslubingizni auditoriyangizga moslashtiring. Ularning kelib chiqishi, qadriyatlari va e’tiqodlarini tushunish dalillaringizni yanada samaraliroq shakllantirishga yordam beradi. 7. *Empatiyangizni ishga soling.* Boshqa insonning nuqtai nazarini tushunishga harakat qiling. Empatiya muammolarni hal qilish va ziddiyatlarni kamaytirishga yordam beradi. 8. *Muammoning echimiga e’tibor qarating.* Muammolarni shunchaki ko‘rsatish o‘rniga unga echimlaringizni taklif qiling. Bunday konstruktiv yondashuv ijobiy natijalarga olib kelishi ehtimoli yuqori. 9. *Sizni qiziqtirgan tadqiqot mavzusi bilan bog‘liq joriy voqealar va hodisalardan boxabar bo‘ling.* Axborotdan boxabarlik dalillaringizga teranlik qo‘shadi. 10. *Muntazam ravishda o‘z ustingizda ishlang*. Har qanday boshqa ko‘nikma singari, argumentativ muloqot ham amaliyot bilan takomillashadi. Mahoratingizni oshirish uchun munozaralarda qatnashing, munozara forumlariga qo‘shiling yoki nutq san’ati to‘garaklarida ishtirok eting. Ushbu strategiyalar va maslahatlardan foydalanib, talabalar argumentativ muloqot qobiliyatini sezilarli darajada yaxshilashi, muloqotni samaraliroq va dalillarini ishonarliroq qilishlari mumkin[6].

Xulosa.

Argumentativ kompetensiyani rivojlantirish jarayoni shaxsning kognitiv, kommunikativ va refleksiv salohiyatlarini integratsiyalovchi kompleks tizim bo‘lib, u talabaning kasbiy faoliyatda vujudga keladigan murakkab va ziddiyatli holatlarni tahliliy tafakkur, mantiqiy mushohada hamda konstruktiv qaror qabul qilish asosida hal etish layoqatini shakllantirishga xizmat qiladi. Shu tariqa, ushbu jarayon zamonaviy ta’limning metodologik asoslaridan biri sifatida talabaning kasbiy etuklik darajasini belgilovchi muhim epistemik omilga aylanadi. Ushbu kompetensiya nafaqat mantiqiy fikrlash va dalillash ko‘nikmalarini, balki professional faoliyatda kerakli bo‘lgan analitik yondashuvni ham rivojlantiradi. Bu yondashuv nafaqat ta’lim jarayonining samaradorligini oshiradi, balki talabalarning shaxsiy va kasbiy rivojlanishiga ham xizmat qiladi.

MAVLONO JALOLIDDIN RUMIY FALSAFIY TA'LIMOTIDA BILISH VA UNING MANBALARI

Samadov Jonmurod
Denov tadbirkorlik va pedagogika instituti
"Tarix va falsafa" kafedrasi o'qituvchisi
e–mail: samadov@mail.ru

Annotatsiya. *Jaloliddin Rumiyning falsafiy ta'limoti insonning ichki dunyosi, ma'naviy kamoloti va bilish jarayonini chuqur yoritishga qaratilgan. Ushbu maqolada Rumiy qarashlarida bilish jarayonining mazmun-mohiyati, uning mavjudlik doirasidagi o'rni hamda bilishning imkoniyati masalalari tahlil etiladi. Muallif Rumiy asarlariga tayangan holda bilishning asosiy manbalari sifatida aql (ratsional bilish), hissiy-tajriba (empirik bilish), ilohiy ilhom (vahiy va ilhom) hamda qalb pokligini alohida ta'kidlaydi. Shuningdek, bilishning tashqi va ichki shakllari, zohiriy va botiniy bilim o'rtasidagi farqlar ochib beriladi. Maqolada tasavvufiy tafakkur doirasida haqiqiy bilimga erishish yo'llari, insonning o'zligini anglash va Haq bilan yaqinlashish jarayonidagi bilimning o'rni ilmiy asosda yoritiladi.*

Kalit so'zlar: *bilim, bilish nazariyasi, tasavvuf, ilohiy ilhom, qalb pokligi, ma'naviy kamolot, haqiqat, aql, tajriba, zohiriy va botiniy bilim.*

ЗНАНИЕ И ЕГО ИСТОЧНИКИ В ФИЛОСОФСКОМ УЧЕНИИ ДЖАЛАЛАДДИН РУМИ

Аннотация. *Философское учение Жалолиддин Румий направленона глубокое осмысление внутреннего мира человека, его духовного совершенствования и процесса познания. В данной статье анализируется сущность понятия знания в учении Руми, его место в системе бытия, а также проблема возможности познания. На основе произведений Руми рассматриваются основные источники знания: разум (рациональное познание), чувственный опыт (эмпирическое познание), божественное вдохновение (откровение) и чистота сердца как важнейшее условие постижения истины. Особое внимание уделяется различию между внешним и внутренним знанием, а также соотношению явного и скрытого (захир и батин). В статье рассматриваются пути постижения истинного знания в рамках суфийской традиции, а также значение знания в процессе духовного самосовершенствования человека и его приближения к абсолютной истине.*

Ключевые слова: *знание, теория познания, суфизм, божественное вдохновение, чистота сердца, духовное развитие, истина, разум, опыт, внешнее и внутреннее знание.*

KNOWLEDGE AND ITS SOURCES IN THE PHILOSOPHICAL DOCTRINE OF JALOLIDDIN RUMIY

Annotation. *The philosophical teachings of Jaloliddin Rumiy focus on a profound understanding of the inner world of the human being, spiritual perfection, and the process of cognition. This article examines the essence of knowledge in Rumi's thought, its ontological status, and the problem of the possibility of knowledge. Based on Rumi's works, the main sources of knowledge are identified as reason (rational cognition), sensory experience (empirical knowledge), divine inspiration (revelation), and the purity of the heart as a key condition for attaining truth. The study also highlights the distinction between external and internal knowledge, as well as the relationship between the apparent (zahir) and the hidden (batin). Furthermore, the article explores the paths to true knowledge within the Sufi tradition and emphasizes the role of knowledge in human spiritual self-perfection and the pursuit of ultimate reality.*

Keywords: *knowledge, epistemology, Sufism, divine inspiration, purity of the heart, spiritual development, truth, reason, experience, external and internal knowledge.*

Kirish.

Bilish muammosi qadimgi davrlardan to hozirgi kungacha faylasuflar tomonidan falsafa tarixidagi eng muhim muammolardan biri hisoblanib kelgan. Bilish insoniyat bilan birga paydo bo'lgan hodisadir. Tabiatan odamlar qiziquvchan va doimiy ravishda savol tug'diradigan mavjudotlardir. Shuning uchun ular o'zlarini, atrof-muhitini, yashash sharoitlarini va atrofdagi narsalarni tushunishga intilishadi. Bilish himoya vositasi bo'lib ham xizmat qiladi.

Inson hayotining davom etishiga, shuningdek, o‘zini va atrofini tushunishga bo‘lgan ehtiyoj bilimga bo‘lgan ehtiyojni keltirib chiqaradi. Shuning uchun faylasuflar bilimning mohiyati, uning ishonchliligi, manbalari va chegaralari kabi savollarga befarq qolishmagan va bu borada ko‘rsatmalar berishgan.

Fikrlari asrlar davomida saqlanib qolgan tasavvuf mutafakkiri Jaloliddin Rumiy bilish masalasini o‘ziga xos tarzda yoritib bergan fan va tafakkur namoyandalaridan biridir. Rumiy yashagan XIII asr axloqiy tanazzulning kuchayib borayotgan davri edi. Mo‘g‘ullar bosqini natijasida ko‘plab olimlar va mutafakkirlar hayotlari va ilmiy faoliyatning rivojlanishiga to‘sqinlik qiladigan erkin ilmiy muhitning yo‘qligidan qo‘rqib, nisbatan xavfsiz hududlarga ko‘chib o‘tishga majbur bo‘lishdi.

Adabiyotlar tahlili.

Adabiyotlar tahlili shuni ko‘rsatadiki, Mavlono Jaloliddin Rumiyning falsafiy qarashlari, xususan bilish nazariyasi Sharq va G‘arb tadqiqotchilari tomonidan keng o‘rganilgan. Alloma ijodining asosiy manbasi bo‘lgan “Masnaviyi ma’naviy” asari uning gnoseologik qarashlarini anglashda muhim manba hisoblanadi. Ushbu asarning N. Usmonov tomonidan rus tiliga qilingan tarjimasi va sharhlari Jaloliddin Rumiy falsafiy merosida bilish jarayoni faqat aqliy faoliyat emas, balki qalb, ruh va ilohiy ilhom bilan bog‘liq murakkab ma’naviy jarayon ekanini ochib beradi[8].

O.Mamatqulovning “Tasavvuf va mumtoz she’riyat” asarida tasavvufiy tafakkur va badiiy ijod o‘rtasidagi bog‘liqlik tahlil qilinadi. Muallif tasavvufda bilim faqat nazariy tushuncha emas, balki ruhiy kechinma va ma’naviy tajriba ekanini ta’kidlaydi. Bu yondashuv Jaloliddin Rumiy qarashlari bilan uyg‘un bo‘lib, bilish jarayonida sevgi (ishq), intuitsiya va ruhiy poklanish asosiy vosita ekanini ko‘rsatadi[4].

G‘arb olimlari orasida Coleman Barksning “Rumi: The Book of Love” kitobi Jaloliddin Rumiy she’riyatini erkin tarjima va talqin qilish orqali uning falsafasida bilimning asosiy markazi sifatida “ishq” tushunchasini ilgari suradi. Barks talqinida bilim aqldan ko‘ra ko‘proq yurak va muhabbat orqali anglanadigan ruhiy holat sifatida tasvirlanadi.

Shuningdek, Arthur John Arberryning “Sufism: An Account of the Mystics of Islam” nomli kitobida tasavvufiy bilish tizimi ilmiy jihatdan tahlil qilinadi. Arberry tasavvufda bilimning asosiy manbalari sifatida vahiy, ilhom va ruhiy tajribani ko‘rsatib, Rumiy qarashlari bilan uyg‘un fikrlarni ilgari suradi. Unga ko‘ra, tasavvufiy bilish empirik yoki ratsional bilimdan farqli ravishda bevosita ichki idrok va ruhiy sezgi orqali amalga oshadi[1].

Tadqiqot metodologiyasi.

Mavlono Jaloliddin Rumiy falsafiy ta’limotida bilish masalasi va uning asosiy manbalari tahliliga bag‘ishlangan mazkur maqolada ilmiy tadqiqotning germenevtik tahlil, analogik tahlil, analiz va sintez kabi usullaridan samarali foydalanildi.

Tahlillar va natijalar.

Jaloliddin Rumiy hayotidan asrlar o‘tib ham, uning fikrlari odamlarga ilhom berishda davom etishi va asarlari tobora ko‘proq qiziqish bilan o‘qilishining sabablaridan biri uning bilish haqidagi qarashlaridir. Mavlono Jaloliddin Rumiy birinchi saboqlarini otasi Bahouddin Valaddan olgan va otasining vafotidan so‘ng, Halab va Shom kabi shaharlarda o‘sha davrning eng taniqli ustozlaridan tahsil olgan. Ko‘p yillik o‘qishi natijasida u o‘z davrining va undan keyingi davrlarning eng taniqli olimlaridan biriga aylangan.

Bolaligidanoq hayoti bilish jarayoni bilan uzviy bog‘liq bo‘lgan Rumiy uchun bilim, shubhasiz, alohida ahamiyatga ega edi. U insonning asl mohiyati ular ega bo‘lgan bilim bilan bog‘liqligini ta’kidlab, «Ey birodar, sen fikrdan iboratsan; qolgani suyak va mushakdir», – deydi. U bilimsiz odamni jonsiz tanaga qiyoslaydi va ularning ahamiyatsizligini ta’kidlaydi. Rumiy bilimni insonni haqiqatga olib boradigan qanotlar deb hisoblaydi[2].

Jaloliddin Rumiy bilimni insonga yaxshilik va yomonlikni ajratishda yordam beradigan muhim omil sifatida ko‘radi. U bilimni oziq-ovqat va ichimlik kabi insonning asosiy ehtiyoji deb hisoblaydi. Buning sababi, inson tana va ruhdan iborat mavjudotdir. Tana ehtiyojlari turli xil oziq-ovqat va faoliyatlar orqali qondirilsa, ruh ehtiyojlari faqat bilim orqali qondiriladi. Jaloliddin Rumiy bu borada shunday deydi: «Bu dunyoning zavqlari insonning hayvoniy tabiatining bir qismidir, ular uning hayvoniy tomonini mustahkamlaydi. Inson ruhining asl ozuqasi esa bilimdir». Bu yerda alloma insonni Xudoga olib boradigan bilimga ishora qiladi. Bundan tashqari, Rumiy bilimni qalb hayoti deb ta’riflaydi va u inson hayotini nafaqat jismoniy, balki ma’naviy jihatdan ham qo‘llab-quvvatlashini ko‘rsatadi.

Bilish masalasini ko‘rib chiqib, Rumiy bilim va ma’rifat o‘rtasidagi farqni ajratadi. «Ma’rifat» so‘zi tom ma’noda «bilim» degan ma’noni anglatsa-da, bilim va ma’rifat o‘rtasida muhim farqlar mavjud. Bilimning aksi johillik, ma’rifatning aksi esa inkordir. Shuning uchun bilim har doim ham ma’rifatning o‘rnini bosa olmaydi. Bilim «biror narsani haqiqiy tushunish, uning haqiqatiga ishonish, ongda uning shaklini shakllantirish, uni qanday bo‘lsa shundayligicha tan olish» deb ta’riflanadi. Ma’rifat «Alloh, Uning sifatlari, amallari, ismlari va namoyon bo‘lishi haqidagi bilim, bu to‘g‘ridan-to‘g‘ri ma’naviy tajriba orqali qo‘lga kiritiladi» deb tushuniladi. Shu ma’noda, ma’rifat bilimga qaraganda torroq va aniqroqdir[3].

Jaloliddin Rumiy o‘zining falsafiy ta’limotida haqiqiy ilm sohibining sifatlarini ta’riflar ekan, bu darajaga ko‘pchilik yetisha olmasligini “Masnaviy”dagi quyidagi bayt orqali tasvirlaydi:

“Haqiqiy bilimga ko‘p olimlar yetolmas,
Bilimni yod olar, ammo uni sevolmas”.

Berilgan baytda aytilganidek, ma’rifat insonda bilimning chuqurlashishi va teran idrokning sababidir. Ma’rifat orqali mavjud narsaning noma’lum jihatlarini anglash har bir inson erisha oladigan daraja emas. Ma’rifatga yetishish va shaxsiy “men”ni kamol toptirish uchun faqat aqlning o‘zi yetarli emas, balki qalb ham bilimni sevishi va unga intilishi zarur. Faqat qalbida bilim nuri yongan insonlargina ma’rifatga erisha oladilar[5].

Jaloliddin Rumiy ilm bilan ma’rifatni ham lug‘aviy, ham mazmun jihatidan bir-biridan farqlagan holda, olim va orif o‘rtasida ham muhim tafovut mavjudligini ta’kidlaydi.

Xulosa.

Jaloliddin Rumiyning falsafiy ta’limotida bilish masalasi insonning ma’naviy rivojlanishi bilan uzviy bog‘liq deb qaraladi. Uning qarashlariga ko‘ra, bilish shunchaki intellektual yoki eksperimental jarayon emas, balki qalb pokligi, ilohiy ilhom va ma’naviy sezgini birlashtirgan murakkab ma’naviy hodisadir. Rumiy ilm va ma’rifatni ajratib, haqiqiy bilimga nafaqat tashqi o‘rganish orqali, balki ichki poklanish va ma’naviy yetuklik orqali ham erishish mumkinligini ta’kidlaydi. U shuningdek, sezgi, aql, vahiy va ilhomni bilim manbalarining yagona tizimi sifatida ko‘radi. Aynan shu yondashuv Jaloliddin Rumiyning gnoseologik qarashlarini klassik falsafiy qarashlardan ajratib turadi va uni mistik epistemologiyaning ulug‘vor namunasi sifatida taqdim etadi. Umuman olganda, Jaloliddin Rumiy ta’limoti insonni bilim orqali haqiqatga, haqiqat orqali esa mukammallikka yo‘naltirish g‘oyasiga asoslangan. Uning ilmiy va falsafiy merosi o‘z-o‘zini bilish, ma’naviy yetuklik va chuqur mulohaza uchun muhim ilhom manbai bo‘lib qolmoqda.

IJTIMOIY JARAYONLAR MODERNIZATSIYASI PROKSIOLOGIK OMIL SIFATIDA

Taylyakova Feruzaxon Sultanovna
Andijon davlat texnika instituti "Tillar va gumanitar fanlar" kafedrasi katta o'qituvchisi
e-mail:Nurislom_2000@mail.ru

Annotatsiya: *Ushbu maqolada modernizatsiya jarayoni praksiologik omil sifatida tahlil qilinadi. Unda modernizatsiyaning jamiyat taraqqiyotidagi o'rni, ayniqsa iqtisodiy faoliyat samaradorligini oshirishdagi ahamiyati yoritiladi. Shuningdek, amaliy faoliyatni takomillashtirish, resurslardan oqilona foydalanish, boshqaruv tizimini modernizatsiya qilish orqali yuqori natijalarga erishish masalalari ko'rib chiqiladi. Maqolada praksiologik yondashuv asosida modernizatsiyaning nazariy va amaliy jihatlari ochib berilib, uning tadbirkorlik va ishlab chiqarish jarayonlaridagi samaradorlikka ta'siri asoslab beriladi.*

Kalit so'zlar: *Modernizatsiya, praksiologiya, samaradorlik, iqtisodiy rivojlanish, innovatsiya, boshqaruv tizimi, tadbirkorlik, ishlab chiqarish, resurslardan foydalanish, amaliy faoliyat.*

МОДЕРНИЗАЦИЯ КАК ПРОКСИОЛОГИЧЕСКИЙ ФАКТОР

Аннотация: *В данной статье процесс модернизации анализируется как праксиологический фактор. В ней освещается роль модернизации в развитии общества, особенно в повышении эффективности экономической деятельности. Также будут рассмотрены вопросы совершенствования практической деятельности, рационального использования ресурсов, достижения высоких результатов за счет модернизации системы управления. В статье на основе праксиологического подхода раскрываются теоретические и практические аспекты модернизации, обосновывается ее влияние на эффективность предпринимательских и производственных процессов.*

Ключевые слова: *Модернизация, праксиология, эффективность, экономическое развитие, инновации, система управления, предпринимательство, производство, использование ресурсов, практическая деятельность.*

MODERNIZATION AS A PROXYOLOGICAL FACTOR

Abstract: *This article analyzes the process of modernization as a praxiological factor. It highlights the role of modernization in the development of society, especially in increasing the efficiency of economic activity. Issues regarding the improvement of practical activities, the rational use of resources, and the achievement of high results through the modernization of the management system will also be considered. The article reveals the theoretical and practical aspects of modernization based on a praxiological approach, substantiating its impact on the efficiency of entrepreneurial and production processes.*

Keywords: *Modernization, praxiology, efficiency, economic development, innovation, management system, entrepreneurship, production, resource utilization, practical activity.*

Kirish

Bugun insoniyat tez rivojlanayotgan, shiddatkor va ziddiyatli zamonda bir qancha global muammolar qurshovida qolgan. Bunday murakkab sharoitda jamiyat barqarorligini ta'minlash, aholi bandligini oshirish va iqtisodiy farovonlikka erishishda oilaviy tadbirkorlik muhim ahamiyat kasb etadi. Chunki aynan oila – jamiyatning asosiy bo'g'ini bo'lib, uning iqtisodiy mustahkamligi umumiy taraqqiyotga bevosita ta'sir ko'rsatadi.

Oilaviy tadbirkorlik bugungi kunda kichik biznesning eng samarali shakllaridan biri sifatida namoyon bo'lmoqda. U nafaqat yangi ish o'rinlarini yaratadi, balki oila a'zolarining daromadini oshirish, ularning mehnatga bo'lgan munosabatini mustahkamlash va mas'uliyat hissini kuchaytirishga xizmat qiladi. Ayniqsa, milliy an'analar va hunarmandchilikni rivojlantirishda ham oilaviy tadbirkorlikning o'rni beqiyosdir.

Shuningdek, oilaviy tadbirkorlik jamiyatda ijtimoiy barqarorlikni ta'minlashga ham yordam beradi. Chunki o'z biznesiga ega bo'lgan oilalar iqtisodiy jihatdan mustaqil bo'lib, turli ijtimoiy muammolarga kamroq duch keladi. Bu esa kambag'allikni qisqartirish, aholi turmush darajasini yaxshilash va o'rta sinfni shakllantirishda muhim omil hisoblanadi.

O‘zbekistonda jamiyatning ijtimoiy-siyosiy tizimlari shaklining transformatsiyasi mavjud ijtimoiy birikmalar – oila, mahalla, davlatning miqdoriy nisbati shuningdek, ularning ularning o‘zaro munosabatlarida namoyon bo‘ladi. “…oilaviy hamkorlik va ijtimoiy omil, psixologik muhit va ijtimoiy-psixologik muhit orqali shakllangan oila instituti nafaqat davlat boshqaruvida integratsiyalashgan, balki jamiyatning barqaror rivojlanishiga mustaqil ijtimoiy tuzilma sifatida xizmat qiladi”[1]. Demak, aholining turli qatlam va guruhlarini ijtimoiy tizim sifatida birlashtirgan oila instituti davlatning iqtisodiy rivojlanganlik darajasidan qat’i nazar, uning asosiy vazifalaridan biri – mamlakatda ishsizlikni kamaytirish va aholining barcha qatlamlari uchun turmush farovonligini yaxshilashga qaratilgan ijtimoiy-iqtisodiy munosabatlarni yuritish orqali uzoq muddatli inklyuziv rivojlanishni ta’minlashga qaratilgan.

Mavzuga oid adabiyotlar tahlili.

Mavzuga oid munosabatlarning ilk unsurlari Avestoda oila muqaddas institut sifatida talqin etilib, kishi “o‘z hunariga ega bo‘lishi va mehnat qilishi insonni axloqiy jihatdan poklaydi”[2] deb hisoblangan. Konfutsiyning “Fozil insonni ko‘rganda undan namuna olishni o‘yla, fazilatsiz kishini ko‘rganda undagi kamchiliklar senda ham bormi yo yo‘qligi haqida mulohaza qil,” - degan fikrlari[3], Antik davr faylasuflari jamiyat va oila munosabat-lariga alohida e’tibor qaratganlar. Ularning qarashlari oilaviy tadbirkorlikning ijtimoiy-falsafiy asoslarini tushunishda muhim ahamiyatga ega. Aflotun o‘zining “Davlat” asarida ideal jamiyat tuzilmasini tasvirlab, unda oilaning jamiyatdagi o‘rni va ahamiyatini muhokama qiladi. Arastu esa, “Siyosat”[4] asarida oilani jamiyatning asosiy birligi sifatida ko‘rib, iqtisodiy va ijtimoiy munosabatlarning shakllanishida uning rolini ta’kidlaydi. Suqrot insonning axloqiy kamoloti va jamiyatdagi o‘rnini oilaviy tarbiya bilan bog‘laydi[5].

Sharq mutafakkirlari oilani jamiyatning asosiy bo‘g‘ini sifatida ko‘rib, uning axloqiy, ma’naviy va iqtisodiy jihatlariga alohida e’tibor qaratganlar. Abu Nasr Forobiy inson kamoloti va baxti haqida so‘z yuritar ekan, oilaviy tarbiyaning ahamiyatini ta’kidlaydi[6]. Abu Rayhon Beruniy o‘z asarlarida ayol shaxsining komilligi, sabr-toqat va kamtarlik kabi fazilatlarni oilaviy tarbiya orqali shakllantirish mumkinligini yozadi[7]. Ibn Sino axloqiy tarbiyaning asoslarini oilada ko‘radi va shaxsning ma’naviy kamolotini oilaviy muhit bilan bog‘laydi[8]. Yusuf Xos Hojib “Qutadg‘u bilig” asarida oilaviy tarbiyaning jamiyatdagi axloqiy me’yorlarni shakllantirishdagi rolini yoritadi[9]. Alisher Navoiy insonparvarlik va komil inson g‘oyalarini ilgari surib, oilaning bu boradagi ahamiyatini ta’kidlaydi[10].

MDH mamlakatlari olimlaridan mavzuning iqtisodiy tomonlarini Li Baotszyan, E.V.Romanenko, V.P.Samarina, G.V.Cherezov, E.A.Karpov, V.V.Sinyavskaya, R.R.Versotskiy, I.Yu.Smirnovalar[11] muammoning ijtimoiy-falsa-fiy jihatlarini A.Axmataliyev, V.Sobkin va boshqalar tadbirkorlik faoliyatini rivojlanishning o‘ziga xos xususiyatlarini hamda muhim omillarini o‘rganganlar.

O‘zbekistonda kichik biznes va xususiy tadbirkorlik faoliyatini shakllantirish va rivojlantirishning ijtimoiy-iqtisodiy asoslarini S.G‘ulomov, Q.Muftaydinov, M.Eshov, M.Ibragimova, K.Kurpayanidi, M.Ashurov ilmiy izlanishlarida o‘z aksini topgan. Mavzuning aynan, ijtimoiy-psixologik, pedagogik va iqtisodiy xususiyatlarini, amaliyotchi olimlardan M.Ortiqova, Sh.Quvondiqov, D.Yuldashev, G.Ochilova, O.Pardayeva tadqiq etishganligi bilan izohlanadi.

O‘zbek taniqli faylasuf olimlaridan Q.Nazarov, N.Shermuhamedova, I.Soifnazarov, N.Hakimov, Z.Davronov, L.Muhammadjanova, tadbirkorlik faoli-yatining aksiologik va praksiologik xususiyatlarini ochib berganlar, yangi avlod mahalliy faylasuflaridan B.Ganiyev, N.Annayeva, J.Davlatov, A.Sayitxonov, A.Raxmanov, A.So‘fiyev va boshqalarning tadqiqotlarini mavzuga yaqinligini keltirishimiz lozim[12].

Tahlil va natijalar.

Ijtimoiy jarayonlarning transformatsiyasi ko‘plab omillar ta’siri ostida namoyon bo‘ladi. Bu jarayonlar jamiyat rivojlanishining tabiiy qismi bo‘lib, ijtimoiy institutlarning shakllanishi, modernizatsiyasi va innovatsiyalarning joriy etilishida juda katta ahamiyatga ega. “Ijtimoiy jarayonlarning transformatsiyasi turli xil ijtimoiy-iqtisodiy, siyosiy va madaniy omillar ta’siri ostida kechib, bu transformatsiya ijtimoiy institutlarning shakllanishi, modernizatsiyasi hamda innovatsion mexanizmlarning jamiyat hayotiga kirib kelishiga olib keladi”. Shundan kelib chiqib, ijtimoiy o‘zgarishlarning sabablarini to‘g‘ri tushunish va ularga mos strategik yondashuvlarni ishlab chiqish jamiyat taraqqiyoti uchun muhim ahamiyatga kasb etadi.

Yangilanayotgan jamiyatda oila institutining barqaror rivojlanishi, iqtisodiy samaradorligi, oilada shakllangan ma’naviy muhitga, shakllangan qadriyatlarga asosidagi mas’uliyatga ham bog‘liq. Jamiyatning umumiy tendensiyalar asosida rivojlanishi oila daromadiga hamda ularning moddiy va ma’naviy olamiga ijobiy madad beradi. O‘z navbatida, oila a’zolarining ta’lim ma’lumoti, muayyan kasbni egasi ekanligi shuningdek, oilaning ijtimoiy-iqtisodiy barqarorligi uchun uning kelajagini o‘ylash, samaradorlikni ko‘payishi, ilm-marifat sohibi bo‘lish kabi omillarga bo‘liqligi ham talab qilinadi. Olimlar fikricha, jamiyatni yacheykasi (hujayrasi) bo‘lgan oilaning ijtimoiy-iqtisodiy hamda sosial-madaniy barqarorligi va mustahkamligi, ertangi kunga ishonchi davlatning moliyaviy islohotlariga bog‘liq deb uqtiriladi. “... axloqiy ong darajasi past bo‘lgan jamiyatda oila instituti barbod bo‘ladi yoki qadrsizlanadi, oilaviy munosabatlar barbod bo‘ladi, axir, mustahkam oila davlat va butun jamiyatning tayanchidir”[13].

Bu borada turli davlatlarda amalga oshirilayotgan chora-tadbirlar hamda ularning amaliyotga tatbiq etilishi bir-biridan farqli bo‘lganligi bois faylasuflar, iqtisodchilar, siyosatchilar va ekspertlar orasida ularning qanchalik samaradorligi qizg‘in bahs va munozaralarga sabab bo‘lishi kuzatiladi.

Rivojlanayotgan davlatlar tajribasi tahlili shuni ko‘rsatadiki, davlat tomonidan oilalarning ehtiyojmand qatlamiga ajratilayotgan maqsadli moliyaviy mablag‘lar to‘g‘ri va adolatli yo‘naltirilgan holatlarda aholining bandligini ta’minlash, turmush darajasi va farovonligini oshirish hamda tadbirkorlik imkoniyatlarini kengaytirishda o‘zining ijobiy natijalarini ko‘rsatmoqda. Masalan, Markaziy Osiyo mintaqasi mamlakatlarida mazkur imtiyozlar va moliyaviy ko‘maklar boshqa ijtimoiy-iqtisodiy institutlar bilan parallel ravishda rivojlantirilmoqda. Birgina Qirg‘izistonda keyingi yillarda oilaviy tadbirkorlik islohotlar transformatsiyasida muhim konsepsiya sifatida rivojlanmoqda. Bu davlatda oilaviy tadbirkorlik faqatgina daromad manbai sifatida emas, an’anaviy ijtimoiy tuzilmalarning zamonaviy iqtisodiyotga integratsiya shakli sifatida namoyon bo‘lmoqda. Bu falsafiy tomondan jamiyatning o‘z-o‘zini tashkil qilish, mahalliy darajadagi ijtimoiy birliklar faoliyatini samaradorlik vositasi deb ham baholash mumkin. 2024-yilda Qirg‘iziston davlati ijtimoiy himoyaga muhtoj 20 ming oilalarning har biriga 1,200 AQSh dollaridan subsidiya ajratdilar. Mazkur mablag‘lar oilaviy tadbirkorlikni yo‘lga qo‘yish yoki mavjudlarini faoliyatini kengaytirishga yo‘naltirildi. Bu siyosiy strategiya “Bir makon – bir mahsulot” konsepsiyasi asosida ishlab chiqildi, barcha hududiy iqtisodiy birliklar va resurslarning samarali ishlatilishiga turtki bo‘ldi.

Qirg‘izistonda an’anaviy hunarmandchilik bilan zamonaviy texnologiyalar sintezlanish davrini ko‘rishimiz mumkin. Masalan, “Tumar Art Group” kompaniyasi sovet davridan qolgan hunarmandchilik uskunalarini zamonga integratsiya qilib, global onlayn savdo bozorida ishtirok etmoqda. “Bu kabi tajriba oilaviy tadbirkorlikni milliy merosni saqlash va uni iqtisodiy aktivga aylantirish vositasi sifatida baholash imkonini beradi” [14]. Mazkur mamlakatda oilaviy tadbirkorlikni ijtimoiy tadbirkorlikning shakli sifatida yo‘lga qo‘yish tajribalari ham mavjud. Misol uchun, Archa-Beshik qishlog‘ida ayollar tashkil etgan “Bolalarni rivojlanish markazi” mazkur yo‘nalishda ijtimoiy ehtiyojlar bilan birga iqtisodiy manfaatlarni uyg‘unlashtirgan holda faoliyat olib bormoqda. Bu tendensiya “oilaviy tadbirkorlikning ta’lim, sog‘liqni saqlash va madaniyat sohalaridagi ijtimoiy infratuzilmani mustahkamlashdagi o‘rnini ko‘rsatadi”[15]. Bundan ko‘rish mumkinki, Qirg‘izistonda ham oilaviy tadbirkorlik iqtisodiy modernizatsiya jarayonlarida mamlakat taraqqiyotiga hissa qo‘shuvchi faol ijtimoiy institutga aylanmoqda. Bugungi kunda oilaviy tadbirkorlik ijtimoiy barqarorlik, madaniy identitet va iqtisodiy o‘sishni birlashtirgan fenomen sifatida faoliyat olib bormoqda.

Qozog‘istonda ham oilaviy tadbirkorlik cheklangan iqtisodiy faoliyat turi emas, balki jamiyatni ontologik va madaniy qatlamlarida mustahkam o‘rnashayotgan ijtimoiy hodisaga aylanmoqda. Buni endi birgina iqtisodiy manfaat nuqtai nazardan emas, balki shaxs, oila va jamiyat taraqqiyotining yangicha qiyofasi sifatida anglash mumkin.

Oilaviy tadbirkorlikni rivojlantirish Qozog‘istonda davlat siyosati darajasiga ko‘tarilgan. Masalan, “2024-yilda yangicha tahrirda ishlab chiqilgan “Oilaviy tadbirkorlik to‘g‘risida”gi qonun nafaqat iqtisodiy mexanizm sifatida, balki oilani ijtimoiy institut sifatida mustahkamlashga xizmat qiladigan konsepsiyani o‘z ichiga oladi”[16]. Bu esa davlat oilani faqat ijtimoiy makon birligi sifatida emas, balki iqtisodiy faol subyekt sifatida ham ko‘rmoqda.

Mazkur jarayonda ayollarning ishtiroki diqqatga sazovordir. Ayollar tadbirkorlik faoliyati iqtisodiy mustaqillik bilan birga, jamiyatda gender munosabatlarini qayta ko‘rib chiqishga ham sabab bo‘lmoqda. “UN Women tomonidan qo‘llab-quvvatlangan markazlar orqali minglab ayollar o‘z salohiyatini ochib bermoqda[17]”, bu “ayol shaxsining iqtisodiy emas, ijtimoiy va madaniy jihatdan ham qayta shakllanishiga olib kelmoqda”.

Mamlakatda oilaviy tadbirkorlik orqali tashkil etilgan milliy hunarmandchilik san’ati yangilanayotgan jamiyat tafakkurida yangicha yondashuvlarni talqin etmoqda. Masalan, “qadimiy “biz keste” kashtachiligi yosh san’atkorlar tomonidan innovatsion estetikada tiklanmoqda”. Bu o‘z navbatida, jamiyatda madaniy va ma’naviy qadriyatlarning renessansiga xizmat qilmoqda. San’at bilan ishlab chiqarishning bir mehnat mahsulida uyg‘unligi jamiyatda “go‘zallikka oshno qalblar” tamoyilini ilgari surmoqda.

Prezidentmiz Sh.Mirziyoyev Yangi O‘zbekiston strategiyasida yurtimizda oila institutini, onalik, otalik va bolalikni himoya qilish, oilada zo‘ravonlikning oldini olish va unga qarshi kurashishning huquqiy, ijtimoiy-iqtisodiy va boshqa yo‘llar bilan qo‘llab-quvvatlash darajasini oshirish eng dolzarb masalalardan biri hisoblanadi[18] – deb ta’kidlaydi.

Tadbirkorlik faoliyatining yangi tashkiliy-huquqiy shakli oilaviy korxonalar tashkil etish bilan belgilandi. Oilaviy korxonalar o‘zining tuzilish shakli, javobgarlik masalalari va faoliyat doirasi bo‘yicha xususiy korxonaga biroz yaqin bo‘lsada, biroq uning ta’sischilari oila a’zolaridan iborat bo‘lishligi, ishtirokchilarning kamida ikki kishidan tashkil etilishi, faoliyati uning ishtirokchilarining shaxsiy mehnatiga asoslanishi, faqat kichik tadbirkorlik subyekti doirasida tuzilishi, boshqaruvda umumiy yig‘ilishning ustuvor vakolatliligi jihatlaridan uning mustaqil tashkiliy-huquqiy shakl sifatida o‘ziga xos sifatlarini ko‘rsatadi. Oilaviy korxonaning ta’sis hujjati mazkur korxonaning barcha ishtirokchilari tomonidan tuziladigan ta’sis shartnomasidir. Xususiy korxonada esa ta’sis hujjati uning ustavidir. “Xususiy korxona to‘g‘risida” gi Qonun 12-moddasining 3-qismiga asosan, xususiy korxonaning ustav fondi shakllantirilayotganda

mulkdor o‘z oila a’zolarining umumiy mulki hisoblangan mol-mulkni korxonaga berayotgan bo‘lsa, ushbu mol-mulkning barcha mulkdorlaridan notarial tasdiqlangan rozilik olish talab etiladi deb belgilangan.

Oilaviy korxona uning ishtirokchilari tomonidan tovarlar ishlab chiqarish va realizatsiya qilishni amalga oshirish uchun ixtiyoriy asosda, oilaviy korxona ishtirokchilarining ulushli yoki birgalikdagi mulkida bo‘lgan umumiy mol-mulk negizida tashkil etiladigan kichik tadbirkorlik subyektidir. Bunda mulk egalari hisoblanuvchi oila a’zolari qaysi tashkiliy-huquqiy shaklni tanlashlariga bog‘liq. Ular o‘z oila imkoniyatlaridan kelib chiqqan holda, yo o‘z ulushlarini xususiy korxonaning mulkdori hisoblanuvchi oila a’zosiga o‘tkazadi, uni boshqarish va faoliyat yuritishida ishtirok etmaydi, yoki bo‘lmasa, o‘z ulushi bilan oilaviy korxona ustav fondini shakllantirish asosida uning faoliyatida ishtirok etadi.

Yakka tartibdagi tadbirkorlik – yuridik shaxs tashkil etmagan holda jismoniy shaxs (yakka tartibdagi oilaviy tadbirkor) tomonidan tadbirkorlik faoliyatining amalga oshirilishi hisoblanadi[19]. Qonunchiligimizga asosan, yakka tartibdagi tadbirkorlik esa xodimlarni yollash huquqisiz, o‘ziga tegishli bo‘lgan mol-mulk negizida, shuningdek mol-mulkka egalik qilish va (yoki) undan foydalanishga yo‘l qo‘yadigan o‘zga ashyoviy huquq negizida mustaqil ravishda amalga oshiriladi. Yakka tartibdagi tadbirkorlikni amalga oshirish uchun er-xotindan biri umumiy birgalikdagi mol-mulkidan foydalanadigan hollarda, agar qonunlarda, nikoh shartnomasida yoki o‘rtasida boshqacha qoida nazarda tutilgan bo‘lmasa, erning (xotinning) roziligi talab qilinadi.

Xususiy korxona – bu ko‘p jihatdan yakka tartibdagi tadbirkorlikning ijobiy xususiyatlarini saqlab qolgan va uning cheklanishlaridan ozod bo‘lgan tashkiliy-huquqiy shakldir[20]. Haqiqatdan ham ushbu fikrga qo‘shilgan holda, oilaviy tadbirkor – mulkdor yagona jismoniy shaxs tomonidan tuziladigan va boshqariladigan tijoratchi tashkilot vakili emas, balki jismoniy shaxs, chunki u xodimlarni yollay olmaydi. Oilaviy korxona egasi, ya’ni oilaviy tadbirkor faqat o‘z oila a’zolarini va o‘ziga yaqin hisoblangan qarindoshlarini ishlab chiqarishiga jalb etishi mumkin.

Oilaviy korxona uning ishtirokchilari tomonidan tovarlar ishlab chiqarish va realizatsiya qilish uchun ixtiyoriy asosda, ishtirokchilarning ulushli yoki umumiy mol-mulk, shuningdek, har birining mol-mulki negizida tashkil etiladigan kichik tadbirkorlik subyektidir. Ushbu korxona faoliyati ishtirokchilarning shaxsiy mehnatiga asoslanadi. Oilaviy korxona faqat yuridik shaxs sifatida faoliyat ko‘rsatadi. Mazkur korxona ishtirokchilari va yollanma xodimlarining umumiy soni kichik tadbirkorlik subyektlari xodimlarining qonun hujjatlarida belgilangan o‘rtacha yillik sonidan ko‘p bo‘lishi mumkin emas. Oilaviy korxona ishtirokchilarining eng kam soni ikki kishidan oz bo‘lmasligi lozim.

Dissertatsiyada o‘zbek oilalarida ijtimoiy-madaniy jarayonlar transformatsiyasining ijtimoiy, iqtisodiy, siyosiy omillari falsafiy tahlil qilingan. Iqtisodiy siyosatimizning asosiy tamoyillaridan biri – har bir fuqaro boy bo‘lsa – davlat boy bo‘ladi, har bir oila farovon bo‘lsa – mamlakat farovon bo‘ladi[21], – degan qarash, “Har bir oila – tadbirkor” g‘oyasini izchillik bilan hayotga tatbiq etish, kambag‘allik darajasini qisqartirish ijtimoiy tabaqalashuvning xavfsizlik me’yorlaridan yuqori bo‘lmasligini ta’minlash, muhtoj oilalarni o‘rta daromadlilar qatoriga o‘tkazish siyosati oilalardagi ijtimoiy faollik, qadriyatlar tizimidagi o‘zgarishlarga katta ta’sir qildi.

Bundan tashqari, Yangi O‘zbekistonda olib borilayotgan ijtimoiy-iqtisodiy rivojlanish kontekstida “Har bir oila – tadbirkor” dasturi muhim strategiya sifatida baholanmoqda. Mazkur dastur falsafiy talqinda inson erkinligi, halol mehnatga munosabat va ijtimoiy hayotda oilaning o‘rnini qayta tadqiq etish imkonini yaratadi. Eng avvalo, dasturning asosiy tamoyili – bu shaxsning mas’uliyat falsafasidir. O‘zbek faylasufi M.Xayrullaev buni shunday izohlaydi: “Faol fuqarolik pozitsiyasiga ega inson – bu o‘z hayotini o‘zgartirishga intiluvchi shaxsdir. Bunday odamlar jamiyatda innovatsion tafakkurni shakllantiradi” [22]. Dastur har bir oilada fuqaroni faol iqtisodiy subyektga aylantirib, ularni passiv ijtimoiy muhtojlikdan, faol iqtisodiy samaradorlik subyektiga aylantirishni nazarda tutadi.

Dasturning falsafiy negizida mehnatga munosabat alohida ahamiyat kasb etadi. Tadqiqotchi B.Ismoilov ta’kidlaganidek: “Mehnat orqali inson o‘zini anglaydi, tafakkur orqali esa maqsadga erishadi”[23]. Shuningdek, ushbu dastur mohiyatiga ko‘ra mehnatni iqtisodiy faoliyat hamda insoniylikni anglash sifatida namoyon bo‘ladi. Shu bilan birga, oilaning ijtimoiy-falsafiy mavqei qaytadan mustahkamlandi. V.Alimasov buni shunday keltiradi: “Oila – kichik jamiyat bo‘lib, undagi iqtisodiy faollik milliy iqtisodiy mustaqillikning ildizidir”[24]. Bundan ko‘rinadiki, oilaviy tadbirkorlik – bu moliyaviy barqarorlik hamda jamiyat taraqqiyotiga zamin yaratuvchi falsafiy birlik hisoblanadi.

Shuningdek, dastur asosida erkinlik va tashabbusni qo‘llab-quvvatlovchi iqtisodiy ong shakllanadi. M.Baratov so‘zlariga ko‘ra: “Tadbirkorlik – bu faqat iqtisodiy faoliyat emas, balki o‘zligiga ishonch, erkinlik va javobgarlik mezonidir” [25]. Bu o‘z navbatida insonni jamiyatda ijtimoiy mavqeini kengaytirib, uni qadriyatlar bilan faoliyatga undaydi. Shu ma’noda “Har bir oila – tadbirkor” davlat dasturi falsafiy ma’noda jamiyatda erkinlik, mas’uliyat, mehnat, inson qadri va oilaviy barqarorlik kabi g‘oyalarni mustahkamlanishiga xizmat qiladi. Bu milliy taraqqiyotda falsafiy tayanchga aylanmoqda. Oilaviy biznesni boshqarish eng qiyin sohalardan biridir boshqaruv, chunki ishlab chiqarish jarayonida muayyan oila ichidagi rollarni bajaradigan kishilar birlashadilar.

XXI asrda faylasuflar tadbirkorlik nazariyasining rivojlanishiga, uning muhim xususiyatlariga, mamlakatlarning iqtisodiy rivojlanishidagi roliga yanada jiddiy e’tibor bera boshladilar. O‘z biznesida muttasil muvaffaqiyatlarga

erishayotgan tadbirkorlarning shaxsiy xususiyatlari jiddiy o‘rganilmoqda, tadbirkorlik loyihalarini amalga oshirish bo‘yicha amaliy tavsiyalar ishlab chiqilmoqda.

Tadbirkorlikka yangicha nuqtai nazarlar bildirilmoqda, yetarli darajada baquvvat biznes falsafasi shakllanishda davom etmoqda. Misol uchun, faylasuf F.Xayyekning fikriga asosan, “tadbirkor iqtisodiy subyekt sifatida ijtimoiy ong va erkin irodaga ega bo‘lgan shaxsdir.

Shu bilan bir qatorda amerikalik olim J.Shumpeterning fikricha, “Tadbirkorlik muayyan kasb yoki mutaxassislik emas, balki insonning ijtimoiy-psixologik holati va tafakkur shaklidir. Uni vaqtincha holat sifatida emas, balki doimiy yangilanish, tashabbus va javobgarlikka asoslangan ongli hayot tarzi sifatida tushunish lozim. Shu sababli, tadbirkorlik ruhiy va axloqiy barqarorlikni talab qiladi, aks holda bu holatda uzoq vaqt qolish mumkin emas”[26]. Shumpeterning asarlarida tadbirkorlik nazariyasi va amaliyotining eng muhim muammolari bayon etilgan bo‘lib, ularni o‘rganish rossiyalik tadbirkorlar uchun katta ahamiyatga ega. Shunday qilib, tadbirkorlarning mohiyati, ularning shaxsiy fazilatlari, faoliyat motivlari va boshqalar haqidagi Shumpeter ta’limoti katta qiziqish uyg‘otadi. Shumpeterning fikriga ko‘ra, tadbirkorlar alohida xususiyatga ega bo‘lgan insonlar bo‘lib ular doimo yangicha tafakkur qiladilar, amaliyotda yaratadilar. Bu mavjud hodisalardan ko‘ra murakkabroqdir. “Shuningdek, ijtimoiy muhit, xususan, iqtisodiyotga yangi narsalarni kiritish niyatida bo‘lgan har bir kishi yuksak axloq egalaridir deb ta’kidlaydi”.

Biznes va oilaviy tadbirkorlik tavakkalchilik qilishga tayyor bo‘lgan bilimdon va jasoratli shaxslar va oilalarni ro‘yobga chiqaradigan vosita va muhim ijtimoiy omil hisoblanadi. Oilaviy tadbirkorlikni boshlash, oilaviy korxonani tashkil qilish iqtisodiy murakkab sharoitga tushib qolgan oilalar uchun qiyin vaziyatdan chiqish, hayotda yangi porloq istiqbollarni ochish imkoniyatidir. Bunday oilalarning ko‘payishi mahalla, qishloq va umuman hududning ham barqaror rivojlanishi, gullab-yashnashi uchun yo‘l ochadi. Katta shaharlarning rivojlanishi va istiqboli birinchi navbatda, yirik ishlab chiqarish korxonalarining mavjudligi va muvaffaqiyatli faoliyat yuritishiga bog‘liq bo‘ladi. Kichik shaharlar, tuman markazlari, qo‘rg‘on va ovullarning rivojlanishi, iqtisodiy va ijtimoiy ahvoli birinchi navbatda kichik biznes va oilaviy tadbirkorlikning rivojlanishiga bog‘liq bo‘ladi.

Farg‘ona vodiysi viloyatlarida tuman va qishloqlarda oilaviy tadirkorlikning rivojlanishi umuman olganda bir tekis bo‘lsa ham, ba’zi hududlarda ahvolning notekis ekani, mozaika xususiyatiga ega ekani ko‘zga tashlandi. Ba’zan yonma-yon joylashgan qishloqlarda aholi bandligi ko‘rsatkichlari, aholining jon boshiga daromadi, qishloqlarning ko‘rinishi, obodligi bir-biridan jiddiy farq qiladi.

Bunday holatning sabablarini o‘rganganimizda, rivojlangan va obod qishloqlarda kichik biznes va oilaviy tadbirkorlik tez sur’atlar bilan rivojlanayotgani, mahalla oqsoqollari va faollari, qishloq fuqarolar yig‘ini raislari va faollari bu masalaga jiddiy e’tibor berayotgani ma’lum bo‘ldi. Ba’zan shunday hollar ham uchradiki, yonma-yon joylashgan ikki qishloqning birida ishsizlik darajasi ancha yuqori, ijtimoiy muhofazaga muhtoj oilalarning soni ko‘p. Qo‘shni qishloqda esa buning aksicha, oilaviy korxonalar soni ko‘p, ishsizlar va ijtimoiy muhofazaga muhtoj oilalar deyarli yo‘q. Bunday qishloqdagi xususiy biznes va oilaviy tadbirkorlik subyektlari o‘zlarining ham qishloqlarini ish bilan ta’minlashdan tashqari, qo‘shni qishloq aholisini ham ishga jalb qilmoqda. Mana shunday hududlarda mahalliy davlat hokimiyati va boshqaruvi organlarining rahbarlari, mahalla oqsoqollari va qishloq fuqarolar yig‘inlarining raislari oldida turgan birinchi darajali vazifa, bizning fikrimizcha, kam rivojlangan qishloq va qo‘rg‘onlarda tashabbuskor, tadbirkor odamlarni topish, ularning kichik biznes va oilaviy tadbirkorlik faoliyatini boshlashlari, o‘zlarini namoyon qilishlari uchun ko‘mak berishlari, tegishlari sharoitni yaratishlari va qo‘llab-quvvatlashlaridan iborat.

Tadbirkorlik bilan shug‘ullanishni maqsad qilib qo‘ygan odamlarning faoliyatni boshlashlarida “mahallabay” usulining tadbiq qilinishi muhim ahamiyatga ega bo‘ldi. “Yagona darcha” usuli esa tadbirkorlarni ro‘yxatga olish va ularning mo‘ljallangan faoliyat turi bilan shug‘ullanishni boshlashlarida byurokratik to‘siqlar, sansalorliklarni bartaraf etdi. Endi kichik biznes va oilaviy tadbirkorlik bilan shug‘ullanishga qaror qilgan shaxslar uchun “yashil chiroq” yoqildi.

Shuni ham ta’kidlash joizki, tadbikorlarni ro‘yxatga olishda “yagona darcha”ning joriy etilishi mahalliy davlat hokimiyati va boshqaruvi organlari o‘z zimmasidagi barcha vazifalarni bajarganini anglatmaydi. Bizning fikrimizcha, mahalliy davlat hokimiyati va boshqaruvi organlari oldida yana bir qator mas’uliyatli vazifalar turibdiki, ularni bajarmay turib hududda kichik biznes va oilaviy tadbirkorlikni tez sur’atlar bilan rivojlantirish mumkin emas. Bu vazifalarning birinchisi kichik biznes va oilaviy tadbirkorlikni tartibga solishda ortiqcha aralashuvlardan qochish, ularga maksimal darajada qulay sharoitlar yaratishdan iborat. Bu sohada amalga oshirish zarur bo‘lgan tadbirlarning ko‘pchiligini yuqorida tilga olingan “yagona darcha” usuli bajardi. Endi tadbikorlik faoliyatini boshlashga bel bog‘lagan shaxslar ma’lumotnoma va ruxsatnomalar papkasini to‘ldirish tashvishidan ozod bo‘ldilar[27].

Mahalliy darajadagi davlat organlarining muhim funksional vazifalaridan biri – endigina faoliyat boshlagan tadbirkorlik subyektlarini ijtimoiy-iqtisodiy qo‘llab-quvvatlashdan iborat. Hududdagi ishsiz aholini ish bilan ta’minlashni nazarda tutuvchi faoliyat yuritishga kirishgan tadbirkorlar uchun har qanday adolatli muhitni yaratib berish, moliyaviy mexanizmlarini shakllantirish, tijorat banklari orqali zaruriy kredit mablag‘lari bilan ta’minlash har bir

mahaalliy davlat organlarining kundalik vazifasiga aylanmog‘i darkor. Shu tendensiya asosida faoliyat olib borayotgan hududlarda tashkil etilgan oilaviy tadbirkorlik subyektlari ozgina davrda barqaror daromadga ega bolmoqda.

Kichik biznes va oilaviy tadbirkorlik taraqqiyotiga monelik qiluvchi muammolardan biri – mazkur faoliyat turini boshlashni istayotgan oilalarning moliyaviy resurslarga ega emasligidir. Amalda ko‘rib turganimizdek, ijtimoiy himoyaga olingan bunday oilalar tadbirkorlik faoliyatiga kuchli ehtiyoj sezsalar-da, ularda bu faoliyat uchumn zaruruy boshlang‘ich resurs mavjud bo‘lmaydi. Aksincha, “moliyaviy imkoniyatlari nisbatan barqaror oilalar esa ko‘pincha tadbirkorlik faoliyatiga real ehtiyoj sezmaydilar. Shu boisdan, iqtisodiy tengsizlikni yumshatish va bandlikni oshirish maqsadida, aynan ehtiyojmand oilalarga manzilli kreditlar ajratish mexanizmlarini takomillashtirish kichik biznesni rivojlantirishning muhim sharti sifatida namoyon bo‘ladi”[28]. Mahalliy davlat hokimiyati va boshqaruvi organlari oldida turgan uchinchi vazifa ular hududni strategik rivojlantirishning yo‘nalishlaridan tadbirkorlarni muntazam xabardor qilishlaridir. Bu vazifa tartibi bo‘yicha uchinchi, deyilgan bo‘lsa ham, aslida u birinchi darajali vazifadir.

Bu vazifani bajarish uchun hududni ijtimoiy-iqtisodiy jihatdan rivojlantirish strategiyasini ishlab chiqish va qabul qilish zarur. Bundan tashqari, shu yo‘nalishdagi uzoq muddatli dastur ishlab chiqilishi va qabul qilinishi zarur. Bunday strategiyalar va dasturlar ishlab chiqilishi va qabul qilinishidan tashqari hududdagi biznesmen va tadbirkorlar, shu jumladan, tadbirkorllikni endi rejalashtirayotgan va boshlayotganlar ham xabardor qilinishi shart. Chunki, faoliyat yuritayotgan va faoliyatni rejalashtirayotgan kichik biznes va oilaviy tadbirkorlik subyektlari o‘zlarining kelajakka mo‘ljallab tuzayotgan rejalarini hududni rivojlantirish strategiyasiga moslashtirmasa, muvaffaqiyatsizlikka uchrashi yoki bankrot bo‘lishi hech gap emas. Ana shu strategiyalar va uzoq muddatga tuzilgan rejalardan xabardor bo‘lgan biznesmen va tadbirkorlar, jumladan faoliyatni rejalashtirayotgan va boshlayotgan tadbirkorlar, o‘zlarining rejalarini aniq ishlab chiqish va tuzish imkoniga ega bo‘ladilar.

Mahalliy davlat hokimiyati va boshqaruvi organlari xususiy va oilaviy tadbirkorlarning tashabbuslarini moliyaviy jihatdan to‘la qo‘llab-quvvatlash imkoniga ega emas va buning zarurati ham yo‘q. Bu yo‘nalishda tegishli tashkiliy ishlar amalga oshirilsa, sohaning rivojlanishini tezlatish mumkin. Masalan hududda mavjud bo‘lgan o‘rta va yirik korxonalar o‘rta va yirik ishlab chiqaruvchi bo‘lish bilan bir qatorda o‘rta va yirik iste’molchilar hamdir. “…oilaviy hamkorlik va ijtimoiy omil, psixologik muhit va ijtimoiy-psixologik muhit orqali shakllangan oila instituti nafaqat davlat boshqaruvida integratsiyalashgan, balki jamiyatning barqaror rivojlanishiga mustaqil ijtimoiy tuzilma sifatida xizmat qiladi”[29]. Ular o‘zlari uchun kerakli bo‘lgan xomashyo va butlovchi qismlarning katta qismini chetdan olib keladilar. Agar o‘sha xomashyo va butlovchi qismlarni tayyorlashni mahalliy kichik va oilaviy biznes vakillariga topshirilsa, har ikki tomon uchun ham foydali bo‘lar edi. Tumandagi o‘rta miqyosdagi korxona xodimlar uchun ish kiyimlarini tayyorlash uchun chetdagi korxonalarga buyurtma beradi. Shu korxona tumandagi tikuvchilik bilan shug‘ullanayotgan korxonaga shu buyurtmani bersa, mabodo korxonadagi ishlab chiqarish quvvatlari yetarli bo‘lmagan taqdirda ularga o‘zaro manfaatli asosda texnik va moliyaviy yordam ko‘rsatsa, hududdagi kichik biznes va oilaviy tadbirkorlik tezroq sur’atlar bilan rivojlanadi.

Shu misoldan ko‘rinadiki, hududdagi o‘rta va yirik korxonalar bilan kichik biznes va oilaviy tadbirkorlik subyektlari o‘rtasida hamkorlik qilish mumkin bo‘lgan masalalarni aniqlash va ular o‘rtasida hamkorlik rishtalarini bog‘lash kichik biznes va oilaviy tadbirkorlikning va ayni paytda o‘rta va yirik korxonalarning tezroq rivojlanishiga turtki beradi. Bu vazifani bajarish esa mahalliy davlat hokimiyati va boshqaruvi organlari zimmasidagi vazifadir.

Bundan tashqari, yirik va o‘rta kattalikdagi korxonalarda fan va texnika yutuqlarini joriy etish asosida ishlab chiqarish unumdorligi o‘sadi va ortiqcha bo‘lib qolgan shtatlarni qisqartirish zarurati paydo bo‘ladi. Amaldagi qonunchilikka ko‘ra korxona ma’muriyati shtatlar qisqarishi tufayli ishdan bo‘shayotgan xodimlarga moliyaviy hamda ularning ish topishlari uchun ko‘mak berishlari kerak. Shunday vaziyatda hududdagi kichik va oilaviy biznesni kengaytirish orqali bo‘shayotgan ishchi kuchini ish bilan ta’minlash mumkin. Buning uchun shtatlarni qisqartirayotgan o‘rta yoki yirik korxona bo‘shayotgan ishchilarni qabul qilishi mumkin bo‘lgan kichik va oilaviy korxonaga texnik va moliyaviy ko‘mak ko‘rsatishi kerak bo‘ladi. Yoki bo‘lmasa, xodimlarni yangi ish o‘rinlariga tayyorlash uchun ularni qayta tayyorlash kurslaridan o‘tkazishga to‘g‘ri keladi. Yirik va o‘rta korxonalar ana shunday qayta tayyorlash kurslarini tashkil qilishda yordam ko‘rsatishlari mumkin.

Xulosa.

Xullas, yirik va o‘rta korxonalar bilan kichik hamda oilaviy tadbirkorlik subyektlari o‘rtasidagi hamkorlikni yo‘lga qo‘yishning turli yo‘llari, usullari va shakllari mavjud. Bunday hamkorlik ishlab chiqarish kooperatsiyasi, subpudrat tizimi, klaster yondashuvi, franchayzing, autsorsing kabi mexanizmlar orqali amalga oshirilishi mumkin. Ayniqsa, yirik korxonalar tomonidan kichik biznes subyektlariga buyurtmalar berish, ularni xomashyo va texnologiyalar bilan ta’minlash, tayyor mahsulotni sotishda ko‘maklashish orqali o‘zaro manfaatli aloqalar mustahkamlanadi.

Ushbu jarayonlar har bir hududning iqtisodiy salohiyati, resurslari, infratuzilmasi hamda aholining tadbirkorlik faolligidan kelib chiqib shakllanadi. Shu bois hududiy xususiyatlarni inobatga olgan holda hamkorlikni rivojlantirish, mavjud muammolarni aniqlash va ularni bartaraf etish muhim ahamiyat kasb etadi. Xususan, moliyaviy resurslarga

kirish imkoniyati, malakali kadrlar yetishmasligi, marketing va logistika bilan bog‘liq muammolar kichik va oilaviy tadbirkorlik rivojiga to‘sqinlik qilishi mumkin.

Mazkur muammolarni hal etish esa mahalliy davlat hokimiyati va boshqaruvi organlarining bevosita vazifalaridan biri hisoblanadi. Ular tomonidan tadbirkorlikni qo‘llab-quvvatlashga qaratilgan dasturlar ishlab chiqish, imtiyoz va preferensiyalar yaratish, biznes infratuzilmasini rivojlantirish, maslahat va axborot xizmatlarini kengaytirish zarur. Shuningdek, yirik va o‘rta biznes vakillari bilan kichik tadbirkorlar o‘rtasida samarali muloqot maydonlarini tashkil etish ham muhimdir.

Ushbu vazifalarni samarali amalga oshirish maqsadida hududlarda “O‘rta va yirik biznes tuzilmalarining kichik va oilaviy tadbirkorlikni rivojlantirishdagi ishtiroki va imkoniyatlari” mavzusida ilmiy-amaliy anjumanlar, davra suhbatlari va seminarlar tashkil etish maqsadga muvofiqdir. Bunday tadbirlar davomida ilg‘or tajribalar almashiladi, innovatsion g‘oyalar muhokama qilinadi hamda aniq amaliy taklif va tavsiyalar ishlab chiqiladi. Natijada hududlarda tadbirkorlik faoliyati yanada rivojlanib, yangi ish o‘rinlari yaratiladi va aholi farovonligi oshishiga xizmat qiladi.

YANGI O‘ZBEKISTONDA QONUN USTUVORLIGI PRINSIPI QAROR TOPIShINING FALSAFIY-HUQUQIY JIHATLARI

Berdikulov Sirojjon Nasipkulovich
Chirchiq davlat pedagogika universiteti professori, f.f.d., professor
E-mail: siroj-berdikulov@rambler.ru

Annotatsiya. *Maqolada qonun ustuvorligi prinsipi, uning Yangi O‘zbekistonni barpo etishdagi o‘rni va ahamiyatiga e’tibor qaratilgan. Muallif huquqiy davlat va demokratik jamiyat qurilishi jarayonida qonun ustuvorligi masalasi tadqiqotchi va tahlilchilarni ham qiziqtirib kelganligiga to‘xtalib o‘tadi. Shuningdek, maqolada qonun ustuvorligi masalasida faylasuf, huquqshunos va siyosatchi olim hamda davlat arboblarining asarlarida ifoda etilgan fikrlar ilmiy jihatdan tahlil qilingan.*

Kalit so‘zlar: *qonun, huquq, demokratiya, davlat, huquqiy davlat, fuqarolik jamiyati, qonun usutvorligi, qonunga itoatkorlik, huquqiy madaniyat, adolat, islohot, tenglik.*

ФИЛОСОФСКО-ПРАВОВЫЕ АСПЕКТЫ СТАНОВЛЕНИЯ ПРИНЦИПА ВЕРХОВЕНСТВА ПРАВА В НОВОМ УЗБЕКИСТАНЕ

Аннотация. *В статье рассматривается принцип верховенства закона, его роль и значение в процессе построения Нового Узбекистана. Автор подчеркивает, что вопрос обеспечения верховенства закона в процессе формирования правового государства и демократического общества всегда находился в центре внимания исследователей и аналитиков. Также в статье представлен научный анализ взглядов и идей по проблеме верховенства права, изложенных в трудах выдающихся философов, правоведов, политологов и государственных деятелей.*

Ключевые слова: *закон, право, демократия, государство, правовое государство, гражданское общество, верховенство права, законопослушность, правовая культура, справедливость, реформа, равенство.*

PHILOSOPHICAL AND LEGAL ASPECTS OF ESTABLISHING THE PRINCIPLE OF THE RULE OF LAW IN NEW UZBEKISTAN

Abstract. *The article focuses on the principle of the rule of law and its significance in the development of New Uzbekistan. The author highlights that the issue of the rule of law has consistently drawn the interest of researchers and analysts within the context of building a democratic society and a state governed by the rule of law. Furthermore, the paper provides a scientific analysis of the perspectives and conceptual ideas regarding the rule of law expressed in the works of prominent philosophers, legal scholars, political scientists, and statesmen.*

Key words: *law, right, democracy, state, rule of law state, civil society, rule of law, law-abidingness, legal culture, justice, reform, equality.*

Kirish

Qonun ustuvor bo‘lishi uchun insonlar tomonidan u qabul qilinishi kerak bo‘ladi. Kishilik jamiyati qonunni qabul qilmas ekan, uning ijrosi ham bo‘lmasligi tabiiy holat hisoblanadi. Qonun ustuvorligi – oddiy fuqarodan mansabdor shaxsgacha qabul qilingan qonunlarni hurmat qilishi, amal qilishi, uning ijrosini ta’minlashi va rioya etishi tushuniladi. Ayniqsa, huquq hukmronligi va qonun ustuvorligi huquqiy demokratik davlatga xos bo‘lib, u jamiyatning barcha sohalarida inson huquq va erkinliklarini ta’minlash va kafolatlashga xizmat qiladi. Qonunga itoatkorlik jamiyat a’zolarining yuksak siyosiy-huquqiy madaniyat, ma’naviyat, ma’rifatliligidan kelib chiqadi.

Adabiyotlar tahlili

Qonun ustuvorligi masalasida qadimgi mutafakkirlardan Sitseron, Aristotel, zamonaviy tadqiqotchilardan Z.G‘ofurov, O.Husanov, Sh.Qobilov, G.Kanarsh kabilar shug‘ullangan.

Tadqiqotchi Z.G‘ofurov “Ma’naviy yuksalish va huquqiy barkamollik” deb nomlangan asarida: “Qonunning maqsad va vazifalarini, ma’nosi-yu insonparvarlik mohiyatini ongli ravishda tushunib olish unga ixtiyoriy rioya qilishga va uning asosida faoliyat yuritishga yordam beradi” [14], - degan fikrni bildiradi.

Tadqiqot metodologiyasi

Maqolada qonun ustuvorligi tushunchasi, uning Yangi O‘zbekistonni barpo etishdagi o‘rni kontent-tahlil qilindi. Tadqiqot jarayonida ilmiy bilishning induksiya va deduksiya, analiz va sintez, qiyoslash, mantiqiylik kabi usullari qo‘llanildi.

Tahlillar va natijalar

Qadimgi Rim mutafakkirlaridan biri bo‘lgan Mark Tulliy Sitseron “Haqiqiy qonun tabiatga mos keladigan, barcha odamlarga tegishli bo‘lgan, doimiy, abadiy bo‘lgan oqilona qoidadir” [11], deganda haq edi. Shu sababli ham qonunlarni qabul qilish jarayonida uni jamiyat uchun zarur ekanligini anglab olish kerak. Agar qonun xalqning tabiatidan kelib chiqib, uning manfaatlariga xizmat qilar ekan, bunday qonunni qabul qilish darkor bo‘ladi. “Qonun chiqaruvchi qonunlarni belgilashda ikki jihatni: yer va odamlarni hisobga olishi lozim” [2]. Qonunlar “ishlashi” uchun u xalqning tabiiy huquqlaridan kelib chiqqan holda, muayyan sohada yuzaga kelayotgan muammo va masalalarga yechim vazifasini o‘tashi lozim. Chunki qonunning tabiatida ijtimoiy munosabatlarni tartibga solish funksiyasi yaqqol aks etgan. Qonunga itoatkorlik negizini qonunning maqsad va vazifalarini, insonparvarlik va adolatparvarlik asoslangan mohiyatini ongli ravishda tushunib olish, unga o‘z ixtiyori bilan rioya qilish tashkil etadi.

Jamiyatdagi barcha fuqarolarning keltirilgan mezonlar asosida qonunga itoatkor bo‘lishi ularning erkin faoliyat yuritishini ta’minlaydi. “Qonun ustuvorligi deganda, barcha davlat hokimiyati organlari faoliyatida Konstitutsiya va qonunlarning boshqa normativ-huquqiy hujjatlardan ustun bo‘lishi hamda davlat organlari, mansabdor shaxslar va fuqarolarning ularga qat’iy rioya etishi tushuniladi” [13].

“Jamiyatda huquqiy madaniyatni yuksaltirish, fuqarolarda qonunga hurmat hissini kuchaytirish va huquqbuzarliklarga qarshi kurashishda faol qatnashayotgan insonlarni rag‘batlantirishga alohida e’tibor qaratilishi lozim” [6]. Yangi O‘zbekiston taraqqiyotini ta’minlashda oddiy insonlardan tortib, to mansabdor shaxslargacha qonunni chetlab o‘tishining oldi olinishi shart. Bu huquqiy madaniyatni qaror toptirish orqali amalga oshiriladi.

Qonunning ustuvorligi har qanday davlat va jamiyat hayotining muqaddas prinsiplaridan biridir. Qonunga og‘ishmay itoat etilgan jamiyatdagina demokratiya qaror topadi va yanada mustahkamlanadi. Qolaversa, barcha demokratik institutlar, inson huquqi va erkinliklari qonun vositasi bilan joriy etiladi. Qonunda xalqning irodasi, xohish va istaklari, manfaat va intilishlari o‘zining ifodasini topadi.

Yangi O‘zbekistonda demokratik huquqiy davlatni shakllantirish jamiyatda qonunning hukmronligini qaror toptirishni taqozo etadi. Chinakam huquqiy davlat barpo etmoq uchun mamlakatda adolatli, insonparvar demokratik qonunlar tantana qilmog‘i lozim. Qonunning oliyligi davlat va jamiyat hayotining muqaddas prinsiplaridan biridir.

Qonunning jamiyatda rolini oshirish, uning bajarilishi barcha uchun majburiyligi muhimdir. Bunda “qonun chiqaruvchi organ tomonidan qabul qilingan qonunning roli ijro etuvchi hokimiyatning o‘zboshimchalik bilan qonunga asoslanmagan qarorlarini chiqarishga qarshi uning huquq va erkinliklarini cheklashi bilan belgilanadi” [3]. Zero, jamoatchilik nazoratining asosiy vazifasi ham qonunning jamiyatdagi rolini oshirishga qaratilgandir.

Qonun ustuvorligini amalga oshirishning zaruriy mexanizmlaridan biri bu “qonunlarning mazmun-mohiyatini xalqimizga va mas’ul ijrochilarga o‘z vaqtida yetkazish, ularning ijrosini to‘g‘ri tashkil etish hamda qonun talablariga qat’iy amal qilishni ta’minlashdan iboratdir” [7]. Chinakam demokratiya qonunlarning ustuvorligi, huquq va erkinliklarning kengligi, ijtimoiy kafolatlarning kuchliligi orqali ta’minlanadi.

Qonun adolatni ta’minlab berar ekan, adolat esa insonning o‘z imkoniyatlarini to‘liq ro‘yobga chiqarish imkoniyatini yaratadi. Aristotel adolat va fazilat o‘rtasida uzviy bog‘liqlikni o‘rnatib, ularni ijtimoiy munosabatlar hamda axloqiy normalar kontekstida tahlil qilgan. Uning ta’kidlashicha, adolat fazilat mavjud bo‘lgan joyda namoyon bo‘ladi. U shunday deb yozadi: “Adolat ikki turga bo‘linadi. Ularning biri – qonunga muvofiqlikdir... Boshqalarga nisbatan adolat, aslida, tenglikni anglatadi. Shu bois, adolat ortiqchalik va kamchilik, ko‘plik va ozlik o‘rtasidagi muayyan o‘rta holat ekani ravshan bo‘ladi” [1]. Aristotel fikricha adolatning birinchi turi – tenglashtiruvchi adolatdir. Ikkinchi turi esa – mutanosib adolat hisoblanadi.

Tadqiqotchilarning fikriga ko‘ra “Hozirgi kunda mavjud bo‘lgan adolat nazariyalari (libertarian, rolzian va kommunitar yondashuvlar) orasida aynan inson imkoniyatlari tushunchasiga asoslangan yondashuv eng samarali hisoblanadi. Demak, adolatni zamonaviy talqinda har bir insonning to‘laqonli faoliyatini ta’minlovchi eng muhim inson imkoniyatlarini rivojlantirishga qaratilgan normativ talab sifatida ta’riflash mumkin” [5]. Adolatning asosiy mezonlaridan biri esa – qonun ustuvorligi. Qonun ustuvorligi amal qilgan, qonunga itoatkorlik yuksak darajada ta’minlangan jamiyat o‘z-o‘zidan adolatli jamiyat ekanligi ravshan bo‘ladi. “Adolat” tushunchasi ikki yoqlama mazmunga ega: bir tomondan, u huquqbuzarliklar uchun jazolasa, ikkinchi tomondan, ezgu va to‘g‘ri amallar uchun rag‘batlantiradi. O‘z intensiyasiga ko‘ra adolat ob’ektiv xususiyatga ega” [4].

“Qonun ustuvorligi davlat hokimiyatining cheklanishi, korrupsiyaning mavjud emasligi, tartib va xavfsizlik, fundamental huquq, hukumatning ochiqligi, huquqni qo‘llash, fuqarolik adliyasi va jinoyat adliyasi bilan belgilanadi” [10]. Huquqiy davlat va fuqarolik jamiyat qurish uchun huquq ustuvorligi bilan bog‘liq belgilarni rivojlantirish, undan keng foydalanish zarur.

Konstitutsiya va normativ-huquqiy hujjatlar inson huquqlarini kafolatlovchi hujjatlar hisoblanadi. Konstitutsiyamizning tuzilishi va mazmuni “inson – jamiyat – davlat” yo‘nalishida tashkil etilgan. “Mustaqillik yillarida inson, jamiyat va davlat hayoti hamda islohotlarning turli sohalarini huquqiy jihatdan ta’minlashga qaratilgan kodekslarning 23 foizi, qonunlarning 39 foizi, Prezident farmonlari va qarorlarining 55 foizi so‘nggi 7 yilda qabul qilingani ham bu yo‘nalishda amalga oshirayotgan ishlarimizning sur’ati baland va ko‘lami keng ekanligidan dalolat beradi” [9].

“Qonunlarni tan olish ularni so‘zsiz bajarish demakdir. Qonunlarni bajarish majburiy, lekin ular onrgli, ixtiyoriy bajarilganda samarasi ko‘proq bo‘ladi” [15]. Davlatimizning eng muhim masalalaridan biri davlat bilan fuqaro o‘rtasidagi munosabatlarda inson oliy ijtimoiy qadriyat ekanligi prinsipining joriy etilishidadir. “Yangi O‘zbekiston – demokratik qonunlar, yuksak huquqiy madaniyatga ega fuqarolar mamlakatidir” [8]. O‘zbekiston davlati, uning barcha idoralarining faoliyati shu prinsipning imkon qadar to‘la va keng qo‘lamda amalga oshirishga qaratilgan.

Huquqiy tizimda muhofaza qiluvchi barcha ijtimoiy qadriyatlar qatorida inson va uning shaxsiyati yetakchi o‘rinni egallaydi. “Qonun ustunligi uning barchaga baravar taalluqli ekanligini (ya’ni qonun talablarining barcha huquqiy munosabatlar sub’ektlariga teng darajada tarqalishini), butun bir davr ichida va shaxslar doirasida, mamlakatning barcha hududlarida to‘la ko‘lamli tarzda amal qilishini anglatadi” [12].

Xulosa

Yangi O‘zbekistonda qonun ustuvorligini ta’minlash jamiyat va huquq munosabati, insonning huquqqa munosabati, huquqiy ong, huquqiy himoyalanish va huquqdan foydalanish darajalari bilan bog‘liq. Insoniyat tarixiy taraqqiyotida muvaffaqiyatlar bilan birga, ijtimoiy hayotda muammolar uchrab turdi. Ko‘pgina holatlarda ana shunday muammolarning asosiy sababi jamiyat tomonidan huquq talablari to‘la inkor etilganligidir. Bu esa qonunlarning «ishlamasligi»ga, qog‘ozda qolib ketishiga sabab bo‘lgan. Bizga ma’lumki, qonunlar o‘zidan o‘zi ishlab ketavermaydi, uni ishlatishning o‘z mexanizmlari va harakatlantiruvchi kuchlari mavjud. Buning uchun *birinchidan*, mamlakat fuqarolari qabul qilingan qonunlarni ongli ravishda tushunishlari, ya’ni ularning ham huquqiy ongi va huquqiy madaniyati rivojlangan bo‘lishi lozim. *Ikkinchidan*, huquq talablari jamiyat va davlatda o‘z yechimini topgan bo‘lishi zarur. *Uchinchidan*, demokratiyaga intilayotgan davlat o‘z xalqi manfaatlarini, fuqarolarining or-nomusi va qadr-qimmatini, hayoti va erkinligini ishonchli himoya qilishga qodir bo‘lmog‘i darkor.

OILA – MA'NAVIYATNI SHAKLLANTIRUVCHI ASOSIY MEXANIZM

Lutfullayev Abduvali Abdunabiyevich
Qarshi Xalqaro universiteti dotsenti
Abduvalilutfullayev8@gmail.com

Annotatsiya. *Ushbu ilmiy maqolada oilaning ma'naviy tarbiyadagi roli va uni amalga oshirish mexanizmlari tahlil qilinadi. Zamonaviy ijtimoiy-falsafiy va psixologik-pedagogik adabiyotlar, shuningdek, xalqaro tadqiqotlar asosida oilaviy muhit, ota-onalarning tarbiyaviy uslublari, avlodlararo munosabatlar va qadriyatlar uzatilishining asosiy omillari ochib beriladi. O'zbekiston milliy modeli va Bronfenbrennerning ekologik tizimlar nazariyasi nuqtai nazaridan oilaning ma'naviy tarbiya mexanizmlari tizimidagi o'rni asoslanadi. Maqolada oilaviy tarbiyaning samaradorligini baholash indikatorlari va amaliy tavsiyalar ham keltirilgan.*

Kalit so'zlar: *oila, ma'naviy tarbiya, qadriyatlar uzatilishi, tarbiyaviy mexanizmlar, ekologik tizimlar nazariyasi, avlodlararo munosabatlar, milliy model.*

FAMILY - THE MAIN MECHANISM FOR FORMING SPIRITUALITY

Abstract. *This scientific article analyzes the role of the family in spiritual education and the mechanisms of its implementation. Based on modern socio-philosophical and psychological-pedagogical literature, as well as international research, the main factors of the family environment, parental upbringing methods, intergenerational relations and the transmission of values are revealed. The role of the family in the system of spiritual education mechanisms is substantiated from the point of view of the national model of Uzbekistan and Bronfenbrenner's ecological systems theory. The article also provides indicators for assessing the effectiveness of family education and practical recommendations.*

Keywords: *family, spiritual education, transmission of values, educational mechanisms, ecological systems theory, intergenerational relations, national model.*

СЕМЬЯ – ОСНОВНОЙ МЕХАНИЗМ ФОРМИРОВАНИЯ ДУХОВНОСТИ

Аннотация. *В данной научной статье анализируется роль семьи в духовном воспитании и механизмы его осуществления. На основе современной социально-философской и психолого-педагогической литературы, а также международных исследований, раскрываются основные факторы семейной среды, методов воспитания родителей, межпоколенческих отношений и передачи ценностей. Роль семьи в системе механизмов духовного воспитания обосновывается с точки зрения национальной модели Узбекистана и теории экологических систем Бронфенбреннера. В статье также приводятся показатели оценки эффективности семейного воспитания и практические рекомендации.*

Ключевые слова: *семья, духовное воспитание, передача ценностей, механизмы воспитания, теория экологических систем, межпоколенческие отношения, национальная модель.*

Kirish. Ma'naviy tarbiya jarayonida oilaning o'rni beqiyos. Oilada inson hayotining ilk kunlaridanoq axloqiy me'yorlar, qadriyatlar, urf-odatlar va dunyoqarashning asoslari shakllanadi. Zamonaviy globallashuv va axborot texnologiyalari rivojlangan sharoitda oila ma'naviy merosni saqlovchi va avloddan avlodga o'tkazuvchi eng ishonchli institut bo'lib qolmoqda. 'zbekiston Respublikasi Prezidentining 2026-yil 5-fevraldagi PF-19-son Farmoni bilan maktabgacha ta'lim va tarbiya tizimini takomillashtirish doirasida oilaviy tarbiyaning rolini oshirish, ota-onalarning pedagogik madaniyatini yaxshilash vazifalari belgilangan. Bunday ma'naviy tarbiya oila va tarbiyaviy muassasalar hamda jamoat tashkilotlari doirasida amalga oshiriladi. "Odamlarda asl insoniy xususiyatlar: ong, tafakkur, o'zligini anglash odob-axloqi va madaniyati tarbiya orqali vujudga keladi"[4] Shu bilan birga, oilaning tarbiyaviy salohiyati pasayishi, ota-onalarning bandligi, yosh avlodning raqamli muhitga ko'chib borishi kabi muammolar oilaviy ma'naviy tarbiyani dolzarb ilmiy muammoga aylantirmoqda. Ushbu maqolaning maqsadi – oilani ma'naviyatni shakllantiruvchi asosiy mexanizm sifatida nazariy asoslash, uning tarkibiy qismlari, ta'sir mexanizmlari va samaradorligini baholash mezonlarini ochib berish. Tadqiqotda falsafiy, pedagogik, psixologik va sotsiologik yondashuvlar uyg'unlashtirilgan.

Adabiyotlar tahlili.

Ma'naviyat va ma'naviy tarbiya bo'yicha ko'pgina ishlar amalga oshirilgan. Shulardan, O'zbekiston Respublikasi Prezidentining "Ma'naviy-ma'rifiy ishlar samaradorligini oshirish bo'yicha qo'shimcha chora- tadbirlar to'g'risida" 2019-yil 3-maydagi PQ-4307-son qarori[1], Prezidentimizning nutqlari va asarlarida [1, 3], Karimov I.A. [5], Erkayev [4] Abdixodirova G.Z., Magzimova G., Kuybakova O. "Shaxsni ma'naviy-axloqiy ruhda tarbiyalash"[8], To'ychiyev B.T [12], Nazarov Q.N. Ma'naviyat falsafasi[13].tadqiqotlar olib borgan.

Tadqiqot metodologiyasi.

Tadqiqotning metodologik asosini falsafiy, umumilmiy va maxsus ilmiy usullar tashkil etadi. Falsafiy jihatdan dialektik materializm prinsiplari (rivojlanish, o'zaro bog'liqlik, qarama-qarshiliklarning birligi va kurashi), ekzistensializm va aksiologiyaning shaxs ma'naviy rivojlanishi haqidagi g'oyalari qo'llanilgan. Umumilmiy usullardan tizimli tahlil, qiyosiy tahlil, tarixiylik prinsipi, mantiqiy tahlil, sintez, induksiya va deduksiya, modellashtirish qo'llanilgan.

Tahlillar va natijalar.

O'zbekistonning uzluksiz ma'naviy tarbiya konsepsiyasida oila bola tarbiyasining eng muhim va boshlang'ich muhitidir. Ayniqsa, birinchi davr – homiladorlikdan boshlab bola 3 yoshga to'lguniga qadar bo'lgan bosqich – inson shaxsining shakllanishida hal qiluvchi ahamiyat kasb etadi[2]. Bu davrda bola hali ijtimoiy tajribaga ega bo'lmagan bo'lsa-da, uning ruhiy, hissiy va axloqiy rivojlanishining asoslari aynan oilada, ota-ona mehr-muhabbati va munosabati orqali shakllanadi. Homiladorlik davridayoq ona va bola o'rtasida kuchli biologik va ruhiy bog'lanish yuzaga keladi. Onaning ruhiy holati, kayfiyati, atrof-muhitga bo'lgan munosabati bevosita bolaga ta'sir ko'rsatadi. Shu sababli bu davrda oiladagi ijobiy muhit, mehr-oqibat, tinchlik va o'zaro hurmat kelajakdagi farzandning ma'naviy barkamolligi uchun muhim omil hisoblanadi.

Bola tug'ilgandan keyin 3 yoshgacha bo'lgan davr "oltin davr" sifatida e'tirof etiladi. Chunki aynan shu paytda bola atrof-muhitni faol idrok eta boshlaydi, ota-onaning xatti-harakatlarini kuzatadi va ularga taqlid qiladi. Bu bosqichda quyidagi ma'naviy-axloqiy sifatlarning poydevori qo'yiladi:

- **Ishonch** – bola ota-onaning mehribonligi va g'amxo'rligini his etib, dunyoga nisbatan ishonch hissini shakllantiradi. Agar bola o'zini xavfsiz his qilsa, uning ruhiy rivojlanishi sog'lom kechadi.
- **Mehr-oqibat** – ota-onaning mehrli munosabati bola qalbida boshqalarga nisbatan iliqlik va hamdardlik tuyg'ularini uyg'otadi.
- **Hurmat** – kattalarga hurmat ko'rsatish, kichiklarga mehribon bo'lish kabi qadriyatlar aynan oilada o'rganiladi.
- **O'zini boshqarish ko'nikmalari** – oddiy tartib-qoidalarga amal qilish, "mumkin" va "mumkin emas" tushunchalarini anglash orqali bola o'z xatti-harakatlarini nazorat qilishni o'rganadi.

Shuningdek, bu davrda bolaning nutqi, hissiyati va ijtimoiy munosabatlari jadal rivojlanadi. Ota-onaning bola bilan muntazam muloqoti, ertak aytib berishi, qo'shiq kuylashi, mehr bilan gaplashishi uning ma'naviy va intellektual kamolotiga katta ta'sir ko'rsatadi.

Xalqaro tadqiqotlar shuni ko'rsatadiki, oilaviy muhit sifati bolaning ma'naviy rivojlanishiga to'g'ridan-to'g'ri ijobiy ta'sir ko'rsatadi. Janubiy Koreyada o'tkazilgan tadqiqotda uy muhiti sifati qanchalik yuqori bo'lsa, bolalar ma'naviy rivojlanish shkalasida shuncha yuqori ball olgan. Onaning ta'lim darajasi, oila daromadi va uy muhiti sifati o'rtasida ijobiy bog'liqlik mavjud. Turli mamlakatlarda oilaning ma'naviy tarbiyadagi roli va unga ta'sir etuvchi omillar turlicha. Qiyosiy tahlil quyidagi xulosalarni beradi:

Turkiya: O'rta maktab o'quvchilarining ma'naviy yetuklik darajasi gender, maktab turi, sinf darajasi va **ijtimoiy-iqtisodiy holat** kabi omillarga qarab sezilarli farq qiladi. Qiz o'quvchilar, davlat maktablari o'quvchilari va o'rta daromadli oilalar farzandlari yuqori ma'naviy yetuklikka ega.

Tailand: Globallashuvga turli darajada ta'sir etgan kontekstlarda axloqiy qadriyatlarning "moslashtirilishi" kuzatiladi. Globallashgan shahar kontekstidagi o'smirlar avtonomiya axloqini yuqori, jamiyat axloqini pastroq qo'yadi. Shahar ota-onalari qishloq ota-onalariga nisbatan jamiyat qadriyatlarini ko'proq birinchi o'ringa qo'yadi.

AQSh va Yevropa: Xarakter tarbiyasi dasturlari maktablar bilan birga oilalarni ham qamrab oladi. "Positiv oilaviy tarbiya" (Positive Parenting) dasturlari ota-onalarga farzandlarida empatiya, o'z-o'zini nazorat qilish va mas'uliyatni rivojlantirish bo'yicha amaliy ko'nikmalar beradi.

Xitoy: An'anaviy konfutsiy qadriyatlari (ota-onalarga hurmat – xiao, ajdodlarni ulug'lash) oilaviy tarbiyaning asosini tashkil qiladi. Biroq zamonaviy iqtisodiy o'zgarishlar va bir bola siyosati natijasida "imperator bolalar" (little emperors) muammosi yuzaga kelgan, bu esa ma'naviy tarbiyaga yangicha yondashuvlarni talab qiladi.

Bronfenbrennerning ekologik tizimlar nazariyasiga ko'ra, oila shaxs rivojlanishining mikrotizim darajasidagi eng muhim institut hisoblanadi. Mikrotizimda bola bevosita o'zaro aloqada bo'lgan muhit – oila, tengdoshlar, maktab kiradi[11]. Oila boshqa barcha mikrotizimlardan o'zining **tabiiyligi, uzluksizligi, hissiy yaqinligi** va **individualligi** bilan farqlanadi.

Ilmiy tadqiqotlar oilada ma’naviyatni shakllantirish bir necha o‘zaro bog‘liq mexanizmlar orqali amalga oshirilishini quyidagicha tahlil qilishadi:

Birinchidan, avlodlararo qadriyatlar uzatilishi muhim mexanizm sifatida namoyon bo‘ladi. Bu jarayon ota-onalarning o‘z e’tiqodlari, axloqiy me’yorlari va hayotiy qadriyatlarini farzandlariga ongli yoki ongsiz tarzda singdirishini anglatadi. Shvartsning asosiy insoniy qadriyatlar nazariyasiga ko‘ra, ota-onalar va bolalar qadriyatlari o‘rtasida yuqori darajadagi o‘xshashlik (korrelyatsiya) kuzatiladi. O‘zbekiston sharoitida ayniqsa Vatanga sadoqat, oilaga hurmat, kattalarga ehtirom, mehnatsevarlik va halollik kabi qadriyatlar ustuvor ahamiyatga ega.

Ikkinchidan, ota-onalarning tarbiyaviy uslublari ma’naviy tarbiya samaradorligiga bevosita ta’sir ko‘rsatadi. Diana Baumrind tomonidan ishlab chiqilgan tarbiyaviy uslublar tipologiyasi (avtoritar, avtoritetli, liberal va befarq) orasida avtoritetli uslub eng maqbul deb e’tirof etiladi. Mazkur uslub ota-onaning mehr-muhabbati, aniq chegaralar qo‘yishi va bolaning fikrini hurmat qilishiga asoslanadi hamda bolada mustaqillik, mas’uliyat va ijtimoiy moslashuvchanlikni rivojlantiradi.

Uchinchidan, oila muhitining hissiy-psixologik iqlimi muhim omil hisoblanadi. O‘zaro ishonch, hurmat, qo‘llab-quvvatlash va hamjihatlik hukm surgan oilada bola empatiya, bag‘rikenglik va mas’uliyat kabi ijobiy ma’naviy sifatlarni tezroq o‘zlashtiradi. Aksincha, ziddiyatli va beqaror muhit bolaning ruhiy hamda axloqiy rivojlanishiga salbiy ta’sir ko‘rsatishi mumkin.

To‘rtinchidan, ota-onalarning namunaviy xulq-atvori alohida ahamiyat kasb etadi. Bola ko‘proq kuzatish va taqlid qilish orqali o‘rganadi. Shu bois ota-onaning halollik, adolat, mehnatsevarlik va vatanparvarlik kabi sifatlarni amalda namoyon etishi farzand tarbiyasida muhim rol o‘ynaydi. Bandura ijtimoiy kognitiv nazariyasida ta’kidlanganidek, modellash (ya’ni namuna ko‘rsatish) xulq-atvor shakllanishining eng samarali mexanizmlaridan biridir.

Beshinchidan, ma’naviy-axloqiy suhbatlar va muloqot jarayoni orqali qadriyatlar ongli ravishda shakllantiriladi. Oila a’zolari o‘rtasidagi kundalik suhbatlar, turli voqealarni muhokama qilish, kitob o‘qish yoki madaniy tadbirlarda ishtirok etish orqali bola yaxshilik va yomonlikni farqlashni o‘rganadi.

Oltinchidan, oilaviy an’analar va marosimlar avlodlar uzviyligini ta’minlovchi muhim vosita hisoblanadi. Milliy urf-odatlar, bayramlar va qadriyatlarning muntazam ravishda namoyon etilishi bolada milliy o‘zlikni anglash, madaniy merosga hurmat va ijtimoiy birdamlik tuyg‘ularini shakllantiradi.

oilada ma’naviyatni shakllantirish yuqoridagi mexanizmlarning uzviy uyg‘unligi asosida amalga oshadi. Ushbu jarayonning samaradorligi ota-onalarning pedagogik savodxonligi, oiladagi ijobiy muhit va milliy qadriyatlarga sodiqlik darajasiga bevosita bog‘liqdir. Buni quyidagi indikatorlar oilaning ma’naviy tarbiyaviy salohiyati va uning samaradorligini baholash imkonini beradi (1- jadval)

1-jadval

Indikator	Baholash mezoni
Ota-onalarning pedagogik madaniyat darajasi	Bolaning yosh xususiyatlarini bilish, tarbiyaviy usullarni to‘g‘ri qo‘llash
Oilaviy muhitning axloqiy-psixologik iqlimi	Qo‘llab-quvvatlash, hurmat, ishonch, ziddiyatlarning konstruktiv hal qilinishi
Qadriyatlar uzatilishining izchilligi	Ota-onaning so‘z va amali birligi, namunaviy xulq-atvor
Bolaga qaratilgan tarbiyaviy ta’sirlarning tizimliligi	Tarbiyaning kundalik, muntazam va vaziyatga mosligi
Oila va ta’lim muassasasi hamkorligi	Ota-onalarning maktab yoki bog‘cha hayotida ishtiroki, uy vazifalarini nazorat qilish
Bolaning xulq-atvoridagi ijobiy ma’naviy namoyonlar	Hurmat, halollik, mas’uliyat, mehnatsevarlik, vatanparvarlik

Keltirilgan indikator va baholash mezonlari oila muhitining ma’naviy-tarbiyaviy samaradorligini kompleks tarzda baholashga xizmat qiladi. Ushbu mezonlarni tahlil qilish shuni ko‘rsatadiki, oilada shakllanadigan muhit va tarbiya jarayoni bevosita ota-onalarning bilim darajasi, oilaviy munosabatlar sifati hamda farzandga berilayotgan e’tibor bilan chambarchas bog‘liqdir. Avvalo, ota-onalarning pedagogik madaniyat darajasi muhim omil sifatida namoyon bo‘ladi. Agar ota-onalar bolaning yosh va individual xususiyatlarini yaxshi bilsa hamda tarbiyaviy usullarni to‘g‘ri qo‘llay olsa, bu farzandning to‘g‘ri rivojlanishiga zamin yaratadi. Aks holda, noto‘g‘ri yondashuvlar bolada salbiy xulq-atvor shakllanishiga olib kelishi mumkin.

Shu bilan birga, oilaviy muhitning axloqiy-psixologik iqlimi ham alohida ahamiyat kasb etadi. Oilada o‘zaro hurmat, ishonch va qo‘llab-quvvatlash mavjud bo‘lsa, bola o‘zini xavfsiz va erkin his qiladi. Bunday muhitda yuzaga

keladigan ziddiyatlar konstruktiv tarzda hal qilinadi va bu bolaga muammolarni to‘g‘ri hal etish ko‘nikmasini o‘rgatadi. Qadriyatlar uzatilishining izchilligi esa tarbiyaning samaradorligini ta’minlovchi yana bir muhim mezondir. Ota-onaning so‘z va amali bir xil bo‘lsa, ular farzand uchun haqiqiy namuna bo‘lib xizmat qiladi. Aks holda, ya’ni gap bilan ish o‘rtasida tafovut bo‘lsa, bolada ikkilanish va ishonchsizlik paydo bo‘lishi mumkin.

Bundan tashqari, bolaga qaratilgan tarbiyaviy ta’sirlarning tizimliligi muhim ahamiyatga ega. Tarbiya faqat vaqti-vaqti bilan emas, balki kundalik hayotda muntazam va vaziyatga mos tarzda olib borilishi zarur. Bu esa bolada barqaror ijobiy xulq-atvorni shakllantirishga yordam beradi. Oila va ta’lim muassasasi hamkorligi ham tarbiya samaradorligini oshiruvchi omillardan biridir. Ota-onalarning maktab yoki bog‘cha hayotida faol ishtirok etishi, o‘qituvchilar bilan hamkorlikda ishlashi va uy vazifalarini nazorat qilishi bola rivojiga ijobiy ta’sir ko‘rsatadi.

Natijada, yuqoridagi barcha omillar bolada ijobiy ma’naviy fazilatlarning shakllanishida o‘z aksini topadi. Hurmat, halollik, mas’uliyat, mehnatsevarlik va vatanparvarlik kabi sifatlar aynan sog‘lom oilaviy muhit va to‘g‘ri tashkil etilgan tarbiya jarayoni mahsulidir.

Oilada ma’naviy tarbiyani samarali tashkil etish va uni zamon talablari asosida rivojlantirish uchun bir qator ustuvor yo‘nalishlarni amalga oshirish zarur. Ushbu yo‘nalishlar oila, ta’lim muassasalari va jamiyat o‘rtasidagi hamkorlikni mustahkamlashga xizmat qiladi hamda farzand tarbiyasining sifatini oshirishga yordam beradi.

Ota-onalarni pedagogik-ma’naviy tayyorlash. Oilada tarbiyaning samaradorligi, avvalo, ota-onalarning pedagogik bilim va ko‘nikmalariga bog‘liq. Shu sababli ota-onalarga bolaning yosh xususiyatlari, ma’naviy-axloqiy tarbiya usullari hamda zamonaviy pedagogik yondashuvlar bo‘yicha tizimli bilim berish muhimdir. Buning uchun maxsus o‘quv kurslari, treninglar va ma’ruzalar tashkil etish maqsadga muvofiq. Ayniqsa, maktabgacha ta’lim tashkilotlari, umumta’lim maktablari va mahalla institutlari hamkorligida “ota-onalar universitetlari”ni yo‘lga qo‘yish ijobiy natijalar beradi. Bu orqali ota-onalarning tarbiyaviy madaniyati va mas’uliyati oshadi.

“Oila – mahalla – maktab” hamkorligini kuchaytirish. Farzand tarbiyasida oila, mahalla va ta’lim muassasalari o‘rtasidagi uzviy bog‘liqlik muhim o‘rin tutadi. Ushbu hamkorlikni rivojlantirish uchun muntazam axborot almashinuvi, qo‘shma tadbirlar, seminarlar va maslahat xizmatlarini yo‘lga qo‘yish zarur. Bunday yondashuv bolani har tomonlama qo‘llab-quvvatlash va muammolarni o‘z vaqtida aniqlab, bartaraf etishga imkon beradi.

Raqamli muhitda oilaviy ma’naviy tarbiyani qo‘llab-quvvatlash. Zamonaviy axborot texnologiyalari sharoitida raqamli muhit tarbiyaning muhim vositasiga aylanmoqda. Shu bois ijtimoiy tarmoqlarda ijobiy, ma’naviy-axloqiy mazmundagi kontentlarni yaratish va targ‘ib qilish muhimdir. Shuningdek, ota-onalar uchun mobil ilovalar, onlayn platformalar orqali tarbiyaviy tavsiyalar berish samarali hisoblanadi. Bu esa oilalarga zarur bilim va maslahatlarni tezkor hamda qulay shaklda yetkazish imkonini yaratadi.

Ijtimoiy himoyaga muhtoj oilalarni qo‘llab-quvvatlash. Ayrim oilalarda iqtisodiy yoki ijtimoiy muammolar sababli tarbiyaviy jarayon yetarli darajada tashkil etilmasligi mumkin. Bunday vaziyatlarda moddiy yordam ko‘rsatish, psixologik maslahatlar berish va huquqiy ko‘makni yo‘lga qo‘yish muhimdir. Bu choralar oilaning tarbiyaviy salohiyatini tiklashga xizmat qiladi hamda bolalarning sog‘lom jismoniy va ma’naviy rivojlanishini ta’minlaydi.

Milliy an’analarni oilaviy tarbiyada jonlantirish. Milliy qadriyatlar va xalq pedagogikasi oilaviy tarbiyaning muhim tarkibiy qismi hisoblanadi. Maqol va matallar, ertaklar, milliy urf-odatlar hamda bayramlarni oilaviy hayot bilan uyg‘unlashtirish orqali bolalarda milliy o‘zlikni anglash, kattalarga hurmat, kichiklarga mehr va vatanparvarlik tuyg‘ularini shakllantirish mumkin.

Xulosa. Oila ma’naviyatni shakllantiruvchi asosiy mexanizm hisoblanadi. Uning boshqa ijtimoiy institutlardan farqli o‘ziga xos xususiyatlari – tabiiylik, uzluksizlik, hissiy yaqinlik va individuallik ma’naviy tarbiyada eng samarali natijalarni beradi. Xalqaro tadqiqotlar oilaviy muhit sifati, ota-onalarning tarbiyaviy uslublari, qadriyatlar uzatilishining izchilligi va oilaning boshqa institutlar bilan hamkorligi ma’naviy tarbiya samaradorligining asosiy omillari ekanligini ko‘rsatadi.

O‘zbekistonning milliy modelida “mahalla – oila – ta’lim muassasasi” uchligi asosida qurilgan tizim ma’naviy tarbiyaning uzviyligi va izchilligini ta’minlaydi. Biroq globallashuv, raqamli texnologiyalar va ijtimoiy-iqtisodiy o‘zgarishlar oilaviy tarbiyaga yangi muammolarni keltirib chiqarmoqda. Shu sababli oilaviy ma’naviy tarbiyani takomillashtirish, ota-onalarning pedagogik madaniyatini oshirish va zamonaviy texnologiyalardan oqilona foydalanish dolzarb vazifa hisoblanadi.

YANGI O‘ZBEKISTONDA YOSHLAR IJTIMOIY FAOLLIGINI YUKSALTIRISHNING INSTITUTSIONAL MEXANIZMLARI: MUAMMO VA YECHIMLAR

Mamatqulov Shuxrat Turopovich
Toshkent davlat iqtisodiyot universiteti
“Falsafa” kafedrasi dotsenti, Falsafa doktori (PhD)
Email: mamashuxrat307@gmail.com

Annotatsiya: *Maqolada yangi O‘zbekistonda yoshlar ijtimoiy faolligini yuksaltirishning institutsional mexanizmlari tadqiq etilgan. Fuqarolik jamiyati institutlari, yoshlar tashkilotlari va davlat organlarining yoshlar ijtimoiy faolligini oshirishdagi roli va o‘zaro ta’sir mexanizmlari ko‘rib chiqilgan. Yoshlar ijtimoiy faolligini yuksaltirishda milliy o‘zlikni anglash, ta’lim-tarbiya va ma’naviy omilning ahamiyati tahlil etilgan. Mavjud muammolar aniqlab, ularning yechimlari yuzasidan falsafiy-prognoztik takliflar bayon etilgan.*

Kalit so‘zlar: *institutsional mexanizmlar, yoshlar ijtimoiy faolligi, yangi O‘zbekiston, fuqarolik jamiyati, yoshlar siyosati, ta’lim-tarbiya, milliy o‘zlik, ma’naviyatlilik, prognoztik istiqbollar.*

INSTITUTIONAL MECHANISMS FOR ENHANCING YOUTH SOCIAL ACTIVITY IN NEW UZBEKISTAN: PROBLEMS AND SOLUTIONS

Abstract: *The article examines the institutional mechanisms for enhancing youth social activity in New Uzbekistan. The roles of civil society institutions, youth organizations, and government bodies in enhancing youth social activity, as well as the mechanisms of their interaction, are discussed. The significance of national identity, education, and spiritual factors in boosting youth social activity is analyzed. Existing problems are identified and philosophical-prognostic proposals for their solutions are presented.*

Keywords: *institutional mechanisms, youth social activity, New Uzbekistan, civil society, youth policy, education, national identity, spirituality, prognostic prospects.*

ИНСТИТУЦИОНАЛЬНЫЕ МЕХАНИЗМЫ ПОВЫШЕНИЯ СОЦИАЛЬНОЙ АКТИВНОСТИ МОЛОДЁЖИ В НОВОМ УЗБЕКИСТАНЕ: ПРОБЛЕМЫ И РЕШЕНИЯ

Аннотация: *В статье исследуются институциональные механизмы повышения социальной активности молодёжи в Новом Узбекистане. Рассмотрены роль и механизмы взаимодействия институтов гражданского общества, молодёжных организаций и государственных органов. Проанализированы значимость национальной идентичности, воспитания и духовного фактора. Выявлены существующие проблемы и изложены философско-прогностические предложения по их решению.*

Ключевые слова: *институциональные механизмы, социальная активность молодёжи, Новый Узбекистан, гражданское общество, молодёжная политика, образование, национальная идентичность, духовность, прогностические перспективы.*

Kirish. Mamlakatimizda so‘nggi yillarda olib borilayotgan keng qamrovli islohotlar jarayoni “Yangi O‘zbekiston” konsepsiyasini vujudga keltirdi. Ushbu konsepsiya nafaqat iqtisodiy va siyosiy sohalarda, balki yoshlar siyosati va yoshlar ijtimoiy faolligini oshirishda ham tub o‘zgarishlarni ko‘zda tutadi. Yoshlar millatning boyligi va istiqbol ko‘zgusi ekanligi, ularni jamiyatning faol a’zolariga aylantirish esa davlatning bosh vazifalaridan biri ekanligi turli ilmiy manbalarda, huquqiy hujjatlarda qayta-qayta ta’kidlanadi.

Yoshlar ijtimoiy faolligini yuksaltirishning samaradorligi ko‘p jihatdan institutsional mexanizmlarning mustahkamligiga bog‘liq. Institutsional mexanizm deganda yoshlar faolligini rag‘batlantiruvchi, yo‘naltiruvchi va huquqiy asos bilan ta’minlovchi tuzilmalar tizimi davlat organlari, nodavlat tashkilotlar, yoshlar birlashmalari, ta’lim muassasalari va ommaviy axborot vositalari tushuniladi.

Ushbu maqolada yangi O‘zbekiston sharoitida yoshlar ijtimoiy faolligini yuksaltirishning institutsional mexanizmlari tahlil qilinadi, mavjud muammolar aniqlanadi va ularning falsafiy-prognoztik yechimlari taklif etiladi.

Adabiyotlar tahlili. Yoshlar ijtimoiy faolligini yuksaltirishning institutsional jihatlari O‘zbekiston tadqiqotchilari tomonidan turli nuqtayi nazardan ko‘rib chiqilgan. Sh. Mamatqulov o‘zining qarashlarida O‘zbekistonda yoshlar faolligini yuksaltirish maqsadida yoshlar siyosatining tarmoqlangan zamonaviy infrastrukturasini tashkil etish, yoshlar faolligini oshirish strategiyasini ilmiy o‘rganish bo‘yicha yagona metodik standartlarni yaratish va amaliyotga joriy etishni dolzarb vazifa sifatida ta’kidlaydi. Shuningdek, u fuqarolik jamiyatini tashkillashtirish, boshqarish va nazorat qiluvchi mutasaddi institutsional tizimini rivojlantirishga ta’sir qiluvchi omillardan amaliyotda keng foydalanish zarurligini ta’kidlaydi[2].

G.J. Tulenova yoshlarning davlat idoralari faoliyati va jamiyatning ijtimoiy-siyosiy jarayonlaridagi ishtirokini kengaytirish, ijtimoiy faollikni qo‘llab-quvvatlash mexanizmlarini ishlab chiqish masalalarini keng tahlil qilgan. U yoshlarning mehnat bozoriga integratsiyasi, kasbiy o‘sish uchun zarur shart-sharoitlar yaratish va yoshlar ijtimoiy faolligiga xizmat qiladigan shart-sharoitlar yaratishni ustuvor vazifalar sifatida ko‘rsatgan [1].

Sotsiologik yondashuv nuqtayi nazaridan, A.I. Balog ijtimoiy faollikni motivatsion omillar asosida tahlil qiladi. Uning tadqiqotida yoshlar ijtimoiy faolligiga nisbatan motivlar orasida altruistik, ijtimoiy tan olinishga intilish va shaxsiy rivojlanishga yo‘naltirilgan motivlar ajratib ko‘rsatiladi. Institutsional mexanizmlarning vazifasi aynan ushbu motivlarni qo‘llab-quvvatlaydigan va rag‘batlantiradigan muhit yaratishdan iborat[6].

O.A. Kopseva esa yoshlar ijtimoiy faollligini shakllantirishda makrosharoitlar jamiyatdagi umumiy tendensiyalar, avlodlar o‘rtasidagi o‘zaro ta’sir mexanizmlari yosh avlod faolligini belgilashda keng yosh tafovutlar xususiyatlariga nisbatan ko‘proq rol o‘ynashini empirik tadqiqotlar asosida asoslab beradi[4]. Ushbu yondashuv institutsional mexanizmlarni mustahkamlashning nafaqat yosh avlod, balki butun jamiyatni o‘zgartirishga xizmat qilishini ta’kidlaydi.

Tadqiqot metodologiyasi. Maqolada institutsional tahlil, ijtimoiy-falsafiy sintez, tizimli yondashuv va prognoztik modellashtirish metodlaridan foydalanilgan. Yangi O‘zbekistondagi yoshlar siyosatiga oid normativ-huquqiy hujjatlar, statistik ma’lumotlar va ilmiy adabiyotlar tahlil etilgan. Shuningdek, O‘zbekistonda yoshlar ijtimoiy faolligiga oid mavjud sotsiologik tadqiqotlar natijalari umumlashtirilgan.

Tahlil va natijalar. Yangi O‘zbekistonda yoshlar ijtimoiy faolligini oshirishning institutsional asosi huquqiy va tashkiliy jihatdan mustahkamlangan. “Yoshlarga oid davlat siyosati to‘g‘risida”gi qonun, Yoshlar ishlari agentligi, va boshqa institutlar yoshlar faolligini tashkil etuvchi asosiy tuzilmalar hisoblanadi. Prezidentning yoshlar siyosatiga oid qaror va farmoyishlari institutsional tizimni yanada mustahkamlamoqda.

Yoshlar ijtimoiy faolligini oshirishning ustuvor yo‘nalishlari sifatida quyidagilar belgilangan:

- yoshlarning davlat boshqaruviga faol ishtirokini ta’minlash;
- yosh tadbirkorlarni qo‘llab-quvvatlash;
- yoshlar orasida ilm-fan, innovatsiya va ijodni rivojlantirish;
- jismoniy tarbiya va sportni targ‘ib etish;
- madaniy-ma’rifiy va vatanparvarlik tarbiyasi.

Ye.V. Solovev ta’kidlaganidek, jamiyatning normal faoliyati va izchil taraqqiyoti har qanday tarixiy davrda yangi avlodlarni uning tuzilmasiga va hayotiy faoliyatiga jalb etish mexanizmlari qay darajada yo‘lga qo‘yilganiga, ularning rivojlanish potensial imkoniyatlari va ularni ro‘yobga chiqarish uchun qanday ijtimoiy sharoitlar yaratilganiga bevosita bog‘liq[5]. Ushbu nuqtayi nazardan, fuqarolik jamiyati institutlari nodavlat tashkilotlar, mahalla organlari, yoshlar birlashmalari yosh avlodni jamiyatga integratsiya qilishning samarali mexanizmi hisoblanadi.

O‘zbekistonda mahalla instituti yoshlar ijtimoiy faolligini oshirishda alohida o‘rinni egallaydi. Mahalla faqat ma’muriy birlik emas, balki ijtimoiy va madaniy hayotning asl markazidir. Mahalla tuzilmasida yoshlar komissiyalari, madaniy tadbirlar, jamoat ishlari va ijtimoiy loyihalar yosh avlodni jamiyatga faol jalb etishning an’anaviy, ammo samarali yo‘llari hisoblanadi. Ushbu an’anaviy tuzilmaning zamonaviy davr ehtiyojlariga moslashtirilishi ijtimoiy faollikni oshirishda ustuvor vazifa hisoblanadi.

Nodavlat tashkilotlar va fuqarolik jamiyati institutlari yoshlar ijtimoiy faoliyatini rivojlantirishda davlat tuzilmalarini to‘ldiruvchi, ba’zan esa ularni orqaga qoldiruvchi mexanizmlar sifatida namoyon bo‘ladi. I.A. Xaliyning fikriga ko‘ra, jamoat harakatlari asosiy ijtimoiy amaliyotlarni — birinchi navbatda, qaror qabul qilish sohasida o‘zgartirishga ta’sir ko‘rsatadi[7]. O‘zbekistonda nodavlat tashkilotlar tarmog‘ini kengaytirish va ularning moliyaviy hamda tashkiliy mustaqilligini ta’minlash institutsional mexanizmni mustahkamlashning muhim shartlaridan biri hisoblanadi.

Ta’lim-tarbiya yoshlar ijtimoiy faolligini shakllantirishning eng samarali institutsional mexanizmlaridan biridir. Zamonaviy ta’lim tizimida nafaqat bilim va ko‘nikmalar beriladi, balki ijtimoiy kompetensiyalar, fuqarolik mas’uliyati, ijodiy tafakkur va liderlik sifatlari ham shakllanadi. Ushbu nuqtayi nazardan, O‘zbekiston ta’lim tizimini isloh qilish jarayonida yoshlar ijtimoiy faolligini shakllantirishga doir yondashuvlar va metodlar alohida ahamiyat kasb etadi.

G Tulenova yoshlarni ijtimoiylashtirish, ma’naviy-intellektual kamolini ta’minlash va jamiyatning islohotlari va o‘zgarishlarida bevosita ishtirokchiga aylantirish uchun ma’lum bir tarbiyaviy tizimni yo‘lga qo‘yish zarurligini

ko‘rsatadi[1]. Ta’limda yoshlar ijtimoiy faolligini oshirishga yo‘naltirilgan tarkibiy o‘zgarishlar dolzarb vazifa hisoblanadi. Jumladan, “Yoshlar ma’rifatparvarligi va diniy bag‘rikenglik”, “Yoshlarning jamoatchilik faoliyati va nazorati” kabi zamonaviy yo‘nalishlarda ilmiy-metodik izlanishlarni yo‘lga qo‘yish muhim ahamiyatga ega[3].

Milliy o‘zlikni anglash yoshlar ijtimoiy faolligini shakllantirishning asos toshlaridan biridir. O‘zini xalq va Vatanning bir qismi deb bilgan, milliy tarix va madaniyatni o‘zlashtirgan yosh avlod jamiyatga nisbatan mas’uliyat hissi kuchliroq bo‘ladi. Shu ma’noda Markaziy Osiyo mutafakkirlarining ilmiy merosini chuqur o‘rganish, tarbiyaviy ishlarni ta’lim muassasalari va oilarda yaxshilash yoshlar milliy o‘zligini mustahkamlashning muhim yo‘llari hisoblanadi.

Yoshlar ijtimoiy faolligini oshirishda bir qator muammolar mavjud bo‘lib, ular institutsional, ijtimoiy-iqtisodiy va madaniy-manaviy jihatlarni o‘z ichiga oladi.

1) Institutsional muammolar, yoshlar tashkilotlari va nodavlat sektorning moliyaviy va tashkiliy mustaqilligi to‘liq ta’minlanmaganligi, yoshlar ishlari bo‘yicha davlat va nodavlat sektorining o‘zaro hamkorligini ta’minlashdagi muammolar, yoshlar siyosatini amalga oshirishda ilmiy tadqiqotlar natijalaridan foydalanish darajasining pastligi.

2) Ijtimoiy-iqtisodiy muammolar, yoshlar bandligi va ish bilan ta’minlanishi darajasining pastligi, bu yoshlarni ijtimoiy faollik uchun vaqt va resursdan mahrum etadi, yoshlar manfaatlariga mos mehnat bozorini shakllantirish, kasbiy o‘sish uchun zarur shart-sharoitlar yaratish vazifalarini hal etish zarurligi.

3) Madaniy-manaviy muammolar, yoshlar ijtimoiy faolligini yetarli darajada e’tirof etmaslik, raqamli texnologiyalar va ijtimoiy tarmoqlar orqali tarqatilayotgan zararli mafkuraviy ta’sirlarga nisbatan yoshlarning ojizligi, keng jamoat madaniyatini shakllantirishda yosh avlodni asosiy ishtirokchi sifatida tarbiyalashning yetarli darajada shakllanmaganligi bilan bog‘liq.

Yoshlar ijtimoiy faolligini yuksaltirishning istiqbolli yo‘llarini belgilashda falsafiy-prognoztik nuqtayi nazar muhim ahamiyatga ega. Yoshlar ijtimoiy faolligini yuksaltirishning istiqbolli yo‘llarini belgilashda falsafiy-prognoztik nuqtayi nazar muhim ahamiyatga ega. Yangi O‘zbekistonning ijtimoiy-siyosiy va madaniy rivojlanishi yosh avloddan yangi sifatlar ijodkorlik, tashabbuskorlik, mas’uliyatlilik, global tafakkur bilan milliy o‘zlikning uyg‘unligini talab etadi.

Falsafiy nuqtayi nazardan, yoshlar ijtimoiy faolligi jamiyatning o‘z-o‘zini rivojlantirishi va tiklanishining muhim mexanizmi hisoblanadi. Yoshlar faolligini cheklash yoki ularga erkin maydon bermaslik jamiyatning ijodiy salohiyatini cheklashdir. Yoshlar ijtimoiy faolligini oshirishga qaratilgan institutsional mexanizmlar rivojlantirilsa, kutiladigan prognoztik natijalar ham ijobiy ko‘rinishga ega bo‘ladi.

Xulosa. Yangi O‘zbekistonda yoshlar ijtimoiy faolligini yuksaltirishning institutsional mexanizmlarini rivojlantirish kompleks yondashuvni talab etadi.

Birinchidan, yoshlar siyosatining normativ-huquqiy asoslarini takomillashtirish va yoshlar tashkilotlari mustaqilligini ta’minlash zarur.

Ikkinchidan, fuqarolik jamiyati institutlari mahalla, nodavlat tashkilotlar, yoshlar birlashmalari faoliyatini davlat tomonidan samarali qo‘llab-quvvatlash tizimini yo‘lga qo‘yish muhim.

Uchinchidan, ta’lim tizimini yoshlar ijtimoiy faollikka, liderlik sifatlari va fuqarolik ma’suliyatiga tayyorlashga yo‘naltirish zarur.

To‘rtinchidan, yoshlar ijtimoiy faolligini oshirishda manaviy-ahloqiy tarbiya va milliy o‘zlikni mustahkamlash asosiy unsurlardan biri bo‘lishi lozim.

Ushbu yo‘nalishlarda tizimli va izchil faoliyat olib borilsa, yoshlar jamiyatimizning haqiqiy harakatlantiruvchi kuchiga aylanadi va Yangi O‘zbekistonning ravnaq topishi uchun munosib hissa qo‘shadi.

Annotatsiya. *Dunyo falsafiy tadqiqotlarida axborotning ijtimoiy tafakkurga xos ahamiyati, axborot va bilimlar uyg'unligi, axborot falsafasi, kognitiv jamiyat, virtual reallik, raqamlashgan jamiyat masalalarini falsafiy-metodologik o'rganish talab etilishi, shuningdek, yoshlar ma'naviy immunitetini mustahkamlashning ijtimoiy, pedagogik va axborot-psixologik omillari ko'rsatib o'tilgan. Mazkur maqolada raqamli transformatsiya sharoitida inson ma'naviyati, uning qadriyatlar tizimi va ongiga raqamli axborot makonining ta'siri tahlil qilinadi.*

Kalit so'zlar: *raqamli jamiyat, ma'naviy immunitet, axborot xavfsizligi, raqamli madaniyat, kognitiv jamiyat, virtual reallik.*

MECHANISMS FOR FORMING SPIRITUAL IMMUNITY IN THE DIGITAL WORLD

Annotation. *World philosophical studies have shown the importance of information for social thinking, the need for philosophical and methodological study of the issues of information and knowledge, information philosophy, cognitive society, virtual reality, digitalized society, as well as social, pedagogical and information-psychological factors of strengthening the spiritual immunity of young people. This article analyzes the impact of the digital information space on human spirituality, its value system and consciousness in the conditions of digital transformation.*

Keywords: *digital society, spiritual immunity, information security, digital culture, cognitive society, virtual reality.*

МЕХАНИЗМЫ ФОРМИРОВАНИЯ ДУХОВНОГО ИММУНИТЕТА В ЦИФРОВОМ МИРЕ

Аннотация. *Мировые философские исследования показали важность информации для социального мышления, необходимость философско-методологического изучения вопросов информации и знания, философии информации, когнитивного общества, виртуальной реальности, цифрового общества, а также социальных, педагогических и информационно-психологических факторов укрепления духовного иммунитета молодежи. В данной статье анализируется влияние цифрового информационного пространства на духовность человека, его систему ценностей и сознание в условиях цифровой трансформации.*

Ключевые слова: *цифровое общество, духовный иммунитет, информационная безопасность, цифровая культура, когнитивное общество, виртуальная реальность.*

Kirish

XXI asr — raqamli transformatsiyalar asri sifatida inson faoliyatining barcha sohalariga chuqur kirib bordi. Raqamlashtirish jarayonlari nafaqat iqtisodiyot va boshqaruv tizimiga, balki ma'naviy hayotga ham bevosita ta'sir ko'rsatmoqda. Shu bois ma'naviy immunitetni shakllantirish — raqamli jamiyatda insonning o'zligini, milliy qadriyatlarini, ma'naviy mustaqilligini asrashning asosiy kafolatiga aylanmoqda. Prezident Sh.M. Mirziyoyev ta'kidlaganidek: "Biz axborot asrida yashayapmiz. Kim axborotga ega bo'lsa, o'sha dunyoga hukmronlik qiladi. Shu sababli yoshlarimizni har qanday g'oyaviy xurujlardan himoya qilish, ularning ma'naviy immunitetini mustahkamlash eng muhim vazifamizdir"[1]

Bugungi kunda axborot nafaqat taraqqiyot vositasi, balki kuchli mafkuraviy qurolga ham aylanganligi hich kimga sir emas. Axborot oqimining keskin ortib borishi sharoitida yoshlarning ongini turli zararli, yolg'on va buzg'unchi g'oyalardan himoya qilish faqatgina g'oyaviy cheklovlar, tarbiyaviy yo'llar orqali emas, balki ularda mustaqil fikrlash,

[1] "Raqamli texnologiyalarni rivojlantirish bo'yicha ustuvor vazifalar ko'rib chiqish" to'g'risida o'tkazilgan ma'ruza 20.01.2026

tanqidiy tahlil qilish va axborotni to‘g‘ri baholash ko‘nikmalarini shakllantirish orqali amalga oshirilishi lozim ayni vaqtda bu zamon talabidir.

Shu bois, ma’naviy immunitetni mustahkamlash jarayoni yosh avlodni milliy qadriyatlarga sodiq, yuksak ma’naviyatli, vatanparvar va mas’uliyatli shaxs etib tarbiyalash bilan chambarchas bog‘liqdir. Raqamli muhitda faol bo‘lgan yoshlar axborotni ongli ravishda tanlay oladigan, uni jamiyat manfaatlari yo‘lida to‘g‘ri qo‘llay oladigan yetuk insonlar bo‘lib kamol topishi zarur.

Demak, axborot asrida g‘oyaviy barqarorlikni ta’minlash, ma’naviy xavfsizlikni mustahkamlash va sog‘lom axborot makonini yaratish davlat siyosatining ustuvor yo‘nalishlaridan biri bo‘lib, bu jarayonda ta’lim-tarbiya tizimi, oila va jamiyatning uzviy hamkorligi hal qiluvchi ahamiyat kasb etadi buni also unutmaslik lozim.

Adabiyotlar tahlili va tadqiqot metodologiyasi

Bugungi kunda qadar o‘rganilgan ilmiy adabiyotlarda va psixologik tekshiruvlar natijasida ma’naviy immunitet tushunchasi shaxsning axborot-psixologik tahdidlar, yot g‘oyalar, axloqiy inqiroz va mafkuraviy bosimlarga nisbatan ongli, barqaror va mustaqil qarshilik ko‘rsatish qobiliyati sifatida talqin qilinadi. U biologik immunitetga o‘xshash tarzda, inson ongida zararli “axborot viruslari”ga qarshi ichki himoya mexanizmini ifodalaydi. “Soxta axborot va manipulyativ kontent shaxs ongiga salbiy ta’sir ko‘rsatib, ma’naviy immunitetni zaiflashtiradi”

Psixologiya va sotsiologiya fanlar shuni isbatlaydiki, shaxs ongining barqarorligi asosan uch asosiy omilga tayangan holda shakllanadi:

1 omil - qadriyatlar tizimi (milliy va umuminsoniy qadriyatlar);

2 omil - tanqidiy fikrlash qobiliyati;

3 omil - axborot tanlash va baholash ko‘nikmalari.

Ayni tahlikali davrda ushbu mazkur omillar uyg‘unlashgan holda rivojlangandagina ma’naviy immunitet mustahkam bo‘ladi.

Zamonaviy tadqiqotlar shuni ko‘rsatadiki, ayni globallashgan va raqamli muhit inson ongiga to‘g‘ridan-to‘g‘ri va bilvosita ta’sir o‘tkazadi. Quyidagi ilmiy faktlar bunga dalil bo‘la oladi:

Axborot psixologiyasi bo‘yicha olib borilgan tadqiqotlarga shuni ko‘rsatadiki, inson kuniga o‘rtacha 6–10 mingta axborot signali qabul qiladi, ularning katta qismi raqamli platformalar va ijtimoiy tarmoq orqali uzatiladi.

Ijtimoiy tarmoqlardagi algoritmlar foydalanuvchilarning e’tiborini uzoqroq vaqt davomida ushlab turishga yo‘naltirilgani sababli, manipulyativ va emotsional kontent tezroq tarqaladi va natijada inson kun davomida qancha vaqt ijtimoiy tarmoqda vaqt o’tkazganligini sezmay qoladi. Virtual muhitda axborotning vizual va qisqa shaklda berilishi chuqur tahlil qilish qobiliyatini pasaytirishi, insonlarda jizzakilik, sabrsizlik kabi psixologik jarayonlarni kuzatilishi ilmiy jihatdan tasdiqlangan. Bu holatlar ma’naviy immunitet shakllanmagan shaxslarda:

axborotga ishonuvchanlik,

soxta qadriyatlarga moyillik,

ijtimoiy mas’uliyatning susayishi kabi salbiy oqibatlarni keltirib chiqaradi.

Bu borada jahondagi qator olimlar va tadqiqotchilar o’z ilmiy ishlarini olib borishgan jumladan; David Buckingham “Media savodxonlik” yo’nalishida “Raqamli axborot tahlili orqali tanqidiy fikrlashni rivojlantirish|” mavzusida, Art Silverblatt va hamkasblari “Media ta’limi” yo’nalishida “Mediya savodxonlikni mustaqil baholash va pedagogik yondashuvlar” mavzusida, Disinformation research jamoasi “Soxta axborotga qarshi ilmiy tadqiqotlar” mavzusida, Chen Xu va boshqalar “Kontent tarqalish modelini tahlil qilish” mavzusida, o’zbek milliy tadqiqotchilaridan Ravshan Nazarov “Ijtimoiy tarmoqlarda media savodxonlik”,

Hamdam T. Umarov “Ma’naviy immunitet metodologiyasi”, Mahsudaliyeva va Ubaydullayevalar esa o’z maqolasida yoshlarning internet va ijtimoiy tarmoqlarda ma’naviy immunitetini shakllantirish bilan bog‘liq muammolarni o‘rganishlar olib borishgan. Mazkur maqolalar raqamli muhitdagi axborot xavfsizligi, kritik fikrlash va media madaniyatini shakllantirishning ahamiyatini to’loqonli yoritib berishga qaratilgandir.

Natijalar va ularning tahlili

Ma’naviy immunitet tushunchasi va uning ahamiyati bugungi kundagi eng dolzarb ahamiyat kasb etib kelayotgan tushunchalardan biridir:

Immunitet (lot. Immunita - ozod bo’lish, qutilish) tibbiy tushuncha bo’lib, organizmning doimiy ichki muayyanligini saqlashi,o’zini turli ta’sirlardan, tashqi infeksiyalar kirib kelishidan himoya qilishga qodir reaksiyalar majmui hisoblanadi. Bugungi kunda biz ushbu tushunchani ilm-fanda falsafiy jihatdan ham qo’llay boshladik. Immunitet deganda tashqaridan boshqariladigan g’oyaga yoki sodir bo’layotgan voqea-hodisalarga qarshi himoya,oldini olish, unga qarshi kurashish ko’nikmasini hosil bo’lishini tushunishimiz mumkin.

Ma’naviy immunitet — bu insonning begona, zararli g‘oyalar, axborotlar va xatti-harakatlarga nisbatan mustahkam ichki qarshilik qobiliyatidir. U ijtimoiy ong, e’tiqod, milliy o’zlik, madaniyat va axloqiy qadriyatlar asosida shakllanadi. Shuningdek, muhtaram birinchi prezidentimiz I.A.Karimov aytganidek: “ma’lumki, har qanday kasallikning

oldini olish uchun, avvalo, inson tanasida ushbu kasallikka qarshi immunitetni yaratish zarur. Shuningdek, farzandlarimiz qalbida ularning g'oyaviy immunitetini mustahkamlash uchun Vatanga, boy tariximizga, ajdodlarimizning muqaddas diniga bo'lgan sog'lom munasabatini singdirishimiz kerak". Demak, ma'naviy immunitet - shaxslarning, ijtimoiy guruhlarning, millatning, jamiyatning turli zararli g'oyaviy ta'sirlardan himoya qilishga xizmat qiladigan g'oyaviy-nazariy va falsafiy qarashlar va qadriyatlar tizimidir.

Raqamli dunyoda bu immunitetni yo'qotish — insonni ma'naviy manipulyatsiyaga ochiq qiladi. Raqamli dunyo ta'siridagi xavf omillardan bir qanchalarini keltirib o'tadigan bo'lsam;

Ijtimoiy tarmoqlarda g'oyaviy manipulyatsiyalar, yolg'on axborotlar va "trend" orqali ong nazorati;

Virtual olamda qadriyatlar tizimining buzilishi;

Axborot iste'molining cheksizligi sababli e'tibor, tafakkur va mustaqil fikrlashning pasayishi;

Sun'iy intellekt va algoritmlar orqali inson fikrini boshqarish xavfi.

Shuni tan olib aytishimiz lozimki, raqamli dunyoda raqamli texnalogiyalar asta-sekin hayotimizning har bir jabhasiga kirib kelmoqda va ajralmas qismimizga aylanib bormoqda. Bugungi kunda hayotning barcha sohalarini, faoliyatini electron kompyuter, ijtimoiy tarmoq va avtomatlashtirilgan texnalogiyalarsiz tasavvur etib bo'lmaydi. Aloqa, kundalik xaridlar, mahsulot ishlab chiqarish, kompaniyalar va karxonalarning kunlik ish salohiyati va boshqa barcha jarayonlar raqamli muhitga o'tmoqda. Shu sababli, jahon iqtisodiyoti rivojlanishining yangi paradigmasida raqamli texnologiyalar ijtimoiy faravonlikning rivojlanish tendensiyalarini ko'rsatuvchi mezonga aylanmoqda. Albatta, bugun zamon shiddat bilan rivojlanib borayotgan bir davrda milliy va jahon taraqqiyotiga erishish uchun raqamli bilimlar va zamonaviy axborot texnalogiyalarini o'rganishimiz zamon talabidir. Zamon talabi deb har qanday ma'lumotlarni va axborotlarni qabul qilishimiz bu bizning ma'naviy immunitetimizning qay darajada mustahkam ekanligiga bog'liqdir.

Bugungi kunda ma'naviy immunitetni shakllantirishning asosiy omillari sifatida bir qancha vazifalarni o'z oldimizga maqsad qilib qo'yishimiz ham lozimdir. Jumladan,

Ta'lim-tarbiya tizimida raqamli madaniyatni shakllantirish:

O'quv dasturlariga "axborot gigiyenasi", "g'oyaviy tahlil madaniyati" kabi fanlarni kiritish.

Oilaviy muhit va milliy qadriyatlarni mustahkamlash:

Ota-onalarning raqamli savodxonligi, bolalar bilan birgalikda axborotdan ongli foydalanish.

Media savodxonlikni oshirish:

Yoshlarni ijtimoiy tarmoqlarda tanqidiy fikrlashga o'rgatish, soxta axborotni tahlil qilish ko'nikmalarini rivojlantirish.

Diniy-ma'naviy targ'ibotning zamonaviy shakllari:

Internet va mobil ilovalar orqali milliy-ma'naviy qadriyatlarni yoshlar ongiga zamonaviy uslubda singdirish.

Ijtimoiy muhitning qo'llab-quvvatlovi:

Blogerlar, OAV, ta'lim muassasalari va jamoatchilik o'rtasida ma'naviy immunitet mavzusida hamkorlikni kuchaytirish.

Mutaxassislarning fikricha, zamonaviy jamiyatda ijtimoiy tarmqolardan foydalanishning asosiy ustun jihati yoshlarda muloqot erkinligi hisoblandi. Bugun ijtimoiy, madaniy, iqtisodiy va siyosiy sohalarda ijtimoiy tarmoqlarning cheksiz-chegarasiz imkoniyatlardan foydala olmasak bu degani jamiyatning, insonlarning orqada qolishi demakdir.

Xo'sh ijtimoiy tarmoqlardan qanday foydalanish kerak? U yoshlar tafakkuri va faoliyatiga qanday ta'sir ko'rsatadi?

Shuni aytish mumkinki bugungi kunda yoshlarimizning, 10 yosh va undan katta aholining 92,8% internetdan foydalanadi, 2025-yil yanvar-avgustda esa umumiy internet foydalanuvchilari ulushi 94,2% ga yetgani aytilmoqda.

O'tkazilgan sotsiologik so'rovlar (2024-yil Toshkent viloyati talabalari o'rtasida o'tkazilgan 800 nafar respondent asosida) quyidagilarni ko'rsatdi:

67% talabalar raqamli axborot muhitida "ma'naviy tahdid" mavjudligini sezadi;

54% respondent o'zini "virtual muhit ta'siriga tez beriluvchi" deb hisoblaydi;

78% yoshlar esa ma'naviy immunitetni kuchaytirish uchun "media savodxonlik darslari" joriy etilishini zarur deb biladi.

Bu natijalar raqamli madaniyatni shakllantirish, tanqidiy fikrlashni rivojlantirish va ma'naviy mustahkamlikni oshirishga qaratilgan chora-tadbirlar dolzarbligini tasdiqlaydi. Shu o'rinda ayrim amaliy tavsiyalarni berib o'tishni lozim topdim, ya'ni Oliy ta'lim tizimi uchun "Raqamli ma'naviyat asoslari" fanini joriy etish hamda har bir universitetda "Ma'naviy immunitet klubi" tashkil etish.

Maktab va oilalar uchun: Ota-onalar uchun "Raqamli ota-ona" treninglarini yo'lga qo'yish; Bolalarda axborot gigiyenasi ko'nikmalarini shakllantirish bo'yicha dars modullarini ishlab chiqish.

Axborot siyosati doirasida: Milliy blogosfera va OAVda ma'naviy qadriyatlarni targ'ib qiluvchi kontentlar sonini oshirish;

Ijtimoiy tarmoqlarda "Ma'naviy immunitet haftaligi" kabi aksiyalar o'tkazish.

Tadqiqot sohasida: “Raqamli g‘oyaviy tahdidlar xaritasi”ni ishlab chiqish va muntazam yangilab borish; Raqamli axborot muhitining yoshlar ongiga ta’sirini o‘rganish bo‘yicha psixologik tadqiqotlar olib borish.

XULOSA

Raqamli dunyo inson hayotining ajralmas qismiga aylanar ekan, ma’naviy immunitetni shakllantirish masalasi milliy xavfsizlik va ijtimoiy barqarorlik bilan bevosita bog‘liq bo‘lib qolmoqda. Raqamli dunyo insoniyatga qulayliklar bilan birga,ma’naviy xavf va sinovlarni olib keldi. Shu bois har bir fuqaroning, ayniqsa yosh avlodning raqamli madaniyat asosida ma’naviy imminitet shakllantirish -milliy xavfsizlikning ajralmas qismidir.

Ma’naviy immunitet - bu insonni virtual olamda o’zligini yo’qotmaslik,mustaqil fikrlash va ezgulikka sodiq qolish kuchidir.

Ma’naviy immunitet — bu insonni soxta g‘oyalardan, manipulyativ axborotlardan, begona madaniy oqimlardan himoya qiluvchi ichki qalqondir.

Uni mustahkamlash uchun raqamli madaniyat, axborot gigiyenasi, oilaviy tarbiya, ma’rifatli ta’lim va davlat siyosati uzviy holda ishlashi zarur.

Yoshlarning ma’naviy immuniteti qanchalik kuchli bo‘lsa, jamiyatning axborot xurujlariga qarshi turish qobiliyati shunchalik mustahkam bo‘ladi.

O‘ZBEKISTONDA ELEKTRON HUKUMAT TIZIMINING IJTIMOIY-FALSAFIY TAHLILI VA ISTIQBOLLARI

Rasulov Siroj Sodiq o‘g‘li
Buxoro davlat universiteti tayanch doktoranti
sirojrasulov08021999@gmail.com

Annotatsiya: *Mazkur tadqiqotda O‘zbekistonda elektron hukumat tizimining huquqiy va institutsional asoslari kompleks tahlil qilinadi. Normativ-huquqiy hujjatlar, davlat dasturlari va rasmiy manbalar asosida uning shakllanishi, rivojlanish bosqichlari hamda davlat boshqaruvidagi o‘rni yoritilgan. Natijalar elektron hukumat tizimi davlat boshqaruvida ochiqlik va shaffoflikni ta’minlash, xizmatlar sifatini oshirish hamda fuqarolar ishtirokini kengaytirishda muhim omil ekanini ko‘rsatadi. Shuningdek, tizimni “raqamli hukumat” modeliga transformatsiya qilish istiqbollari ilmiy asosda bayon etiladi.*

Kalit so‘zlar: *elektron hukumat, raqamli transformatsiya, davlat boshqaruvi, huquqiy-institutsional asoslar, davlat xizmatlari, shaffoflik, raqamli infratuzilma, fuqarolar ishtiroki, raqamli xizmatlar, raqamli hukumat*

ЭЛЕКТРОННОЕ ПРАВИТЕЛЬСТВО В УЗБЕКИСТАНЕ: СОЦИАЛЬНО-ФИЛОСОФСКИЙ АНАЛИЗ И ПЕРСПЕКТИВЫ

Аннотация: *В данном исследовании проводится комплексный анализ правовых и институциональных основ системы электронного правительства в Узбекистане. На основе нормативно-правовых актов, государственных программ и официальных источников рассматриваются этапы его формирования и развития, а также роль в системе государственного управления. Результаты показывают, что система электронного правительства является важным фактором обеспечения открытости и прозрачности государственного управления, повышения качества услуг и расширения участия граждан. Также научно обосновываются перспективы трансформации системы в модель «цифрового правительства».*

Ключевые слова: *электронное правительство, цифровая трансформация, государственное управление, правовые и институциональные основы, государственные услуги, прозрачность, цифровая инфраструктура, участие граждан, цифровые услуги, цифровое правительство*

ELECTRONIC GOVERNMENT IN UZBEKISTAN: SOCIO-PHILOSOPHICAL ANALYSIS AND PERSPECTIVES

Abstract: *This study provides a comprehensive analysis of the legal and institutional foundations of the electronic government system in Uzbekistan. Based on normative legal acts, state programs, and official sources, the stages of its formation and development, as well as its role in the public administration system, are examined. The results show that the electronic government system is an important factor in ensuring openness and transparency in public administration, improving the quality of services, and expanding citizen participation. The study also provides a scientifically grounded discussion of the prospects for transforming the system into a “digital government” model.*

Keywords: *electronic government, digital transformation, public administration, legal and institutional framework, public services, transparency, digital infrastructure, citizen participation, digital services, digital government*

Kirish

Raqamli transformatsiya sharoitida davlat boshqaruvini modernizatsiya qilish va uning samaradorligi hamda shaffofligini oshirish dolzarb vazifalardan biri hisoblanadi. Axborot-kommunikatsiya texnologiyalarining jadal rivojlanishi elektron hukumatni zamonaviy boshqaruv tizimining muhim institutsional mexanizmiga aylantirmoqda. O‘zbekistonda elektron hukumat tizimini rivojlantirish bo‘yicha izchil islohotlar amalga oshirilib, uning huquqiy va institutsional asoslari mustahkamlanmoqda. Mazkur tadqiqot elektron hukumat tizimining shakllanishi, rivojlanishi va davlat boshqaruvidagi o‘rnini ilmiy jihatdan tahlil qilishga qaratilgan.

Tadqiqot metodologiyasi

Mazkur tadqiqotda O‘zbekistonda elektron hukumat tizimining huquqiy va institutsional asoslarini o‘rganishda tizimli, institutsional va qiyosiy yondashuvlar qo‘llanildi. Elektron hukumatning shakllanishi va rivojlanish bosqichlari hamda uning davlat boshqaruvidagi o‘rni va funksional ahamiyati tahlil qilindi. Tadqiqotning empirik bazasini normativ-huquqiy hujjatlar, davlat dasturlari, strategik konsepsiyalar va rasmiy statistik ma’lumotlar tashkil etadi. Shuningdek, xalqaro tashkilotlar ma’lumotlari va elektron hukumat bo‘yicha reyting ko‘rsatkichlari qiyosiy tahlil asosida o‘rganildi. Metodologik jihatdan tizimli tahlil, strukturaviy-funksional yondashuv, induksiya va deduksiya usullari qo‘llanilib, elektron hukumat tizimining institutsional rivojlanishi va boshqaruv jarayonlariga ta’siri ilmiy asosda yoritildi.

Muhokama

Bugun O‘zbekistonda elektron hukumatni rivojlantirishning huquqiy va institutsional asoslarining yaratilishi, ularni izchil takomillashtirilishi va keng joriy etilishi davlat organlari faoliyatining ochiqligi va shaffofligini ta’minlash, fuqarolarning o‘z manfaatlariga daxldor boshqaruv qarorlarini qabul qilish jarayonidagi ishtirokini kengaytirib, davlat va jamiyat o‘rtasidagi o‘zaro munosabatlarni sifat jihatidan yangi bosqichga olib chiqishga xizmat qilmoqda.

Axborot texnologiyalarining jadal rivojlanishi jamiyatda kechayotgan ijtimoiy-iqtisodiy jarayonlarga ijobiy ta’sir ko‘rsatib, islohotlar samaradorligini oshirish, aholi manfaatlarini ta’minlash va yangi imkoniyatlarni yuzaga chiqarishga xizmat qilmoqda. Davlatimiz rahbari Shavkat Mirziyoyev, ta’kidlaganidek “Bugungi sharoitda eng ilg‘or axborot-kommunikatsiya texnologiyalarini keng joriy etish ustuvor ahamiyat kasb etmoqda. Bu sohada qabul qilingan Milliy dasturga muvofiq, telekommunikatsiya texnologiyalarini, aloqa tizimlari va infratuzilmasini yanada rivojlantirish, informatsion tizimlar komplekslari va “Elektron hukumat” axborot bazasini shakllantirishimiz kerak”[1]. Shu jihatdan, Shavkat Mirziyoyev tomonidan ilgari surilgan ilg‘or AKTni keng joriy etish, infratuzilmani rivojlantirish va elektron hukumatni takomillashtirish yo‘nalishlari dolzarb ahamiyat kasb etadi.

O‘zbekiston Respublikasining 2015-yil 9-dekabrdagi “Elektron hukumat to‘g‘risida”gi qonunida esa, elektron hukumatga aniq huquqiy ta’rif berilgan bo‘lib, unga ko‘ra, “elektron hukumat - davlat organlarining jismoniy va yuridik shaxslarga axborot-kommunikatsiya texnologiyalarini qo‘llash yo‘li bilan davlat xizmatlari ko‘rsatishga doir faoliyatini, shuningdek idoralararo elektron hamkorlik qilishni ta’minlashga qaratilgan tashkiliy-huquqiy chora-tadbirlar va texnik vositalar tizimi”[2] nazarda tutilgan.

Mazkur yondashuvlar elektron hukumatni nafaqat texnologik yangilik, balki davlat boshqaruvining zamonaviy, kompleks va institutsional jihatdan rivojlangan modeli sifatida talqin etish imkonini beradi. Shu nuqtai nazardan, bugungi kunda “elektron hukumat” tushunchasi zamonaviy davlat boshqaruvi tizimining ajralmas tarkibiy qismiga aylanib bormoqda. Jahon tajribasi shuni ko‘rsatadiki, mazkur tizim bosqichma-bosqich jamiyat hayotining barcha sohalarini qamrab olmoqda.

Ta’kidlash joizki, “elektron hukumat” tushunchasini an’anaviy hukumat faoliyati bilan aynanlashtirish to‘g‘ri emas. Mohiyatan, ushbu tizim davlat boshqaruvi jarayonlarini raqamlashtirish, ma’muriy tartib-taomillarni avtomatlashtirish, davlat xizmatlarini ko‘rsatishda tezkorlik, qulaylik va shaffoflikni ta’minlash orqali boshqaruv samaradorligini oshirishga, byurokratik to‘siqlar hamda ortiqcha xarajatlarni qisqartirishga xizmat qiladi.

Dastlab, elektron hukumat konsepsiyasi XX asrning 1990-yillari boshlarida shakllanib, uning vujudga kelishi internet texnologiyalarining jadal rivojlanishi bilan chambarchas bog‘liqdir. Mazkur davrdan boshlab dunyoning ko‘plab mamlakatlarida davlat organlari axborot-kommunikatsiya texnologiyalaridan nafaqat axborot almashish vositasi sifatida, balki davlat boshqaruvi samaradorligini oshirishga xizmat qiluvchi muhim mexanizm sifatida faol foydalana boshlandi.

2024-yil ma’lumotlariga ko‘ra, BMTning Iqtisodiy va ijtimoiy masalalar departamenti (United Nations Department of Economic and Social Affairs) tomonidan tuzilgan reytingda Daniya, Estoniya va Singapur yetakchi o‘rinlarni egallagan. Birlashgan Millatlar Tashkilotining UN E-Government Knowledgebase ma’lumotlariga ko‘ra, O‘zbekiston elektron hukumatni rivojlantirish darajasini baholovchi E-Government Development Index (EGDI) bo‘yicha O‘zbekistonning ko‘rsatkichi 0.7999 ni tashkil etib, bu natija bilan mamlakat 193 ta davlat orasida 63-o‘rinni egallagan. Shuningdek, fuqarolarning davlat boshqaruvida ishtirokini ifodalovchi E-Participation Index (EPI) ko‘rsatkichi 0.6986 ga teng bo‘lib, O‘zbekiston ushbu reytingda 193 ta davlat ichida 53-o‘rinni qayd etgan[3].

Mazkur ko‘rsatkichlar mamlakatda elektron hukumat tizimi va raqamli davlat xizmatlari izchil rivojlanib borayotganini hamda O‘zbekistonning xalqaro reytinglardagi o‘rni mustahkamlanib borayotganini yaqqol namoyon etadi.

Shu tariqa, elektron hukumat konsepsiyasi o‘zining shakllanish bosqichidan boshlab bugungi kunga qadar evolyutsion rivojlanish yo‘lini bosib o‘tib, zamonaviy davlat boshqaruvining muhim va ajralmas elementi sifatida qaror topdi.

Bugun buning amaliy samaradorligi elektron hukumatning yagona portali (EPIGU) orqali taqdim etilayotgan davlat xizmatlari soni 760 taga yetgani, shuningdek, yagona identifikatsiya tizimi - “id.egov.uz” platformasi

foydalanuvchilari sonining 11 million 998 ming nafarga yetgani raqamli xizmatlarga bo‘lgan talabning izchil ortib borayotganini hamda aholining raqamli tizimlarga faol integratsiyalashayotganini yaqqol ko‘rsatib turibdi[4].

O‘zbekistonda elektron hukumat tizimini rivojlantirish jarayonida qator yirik loyihalar va axborot tizimlari joriy etilib, mazkur sohaning huquqiy hamda institutsional asoslari izchil mustahkamlanmoqda. Ayniqsa, fuqarolar va tadbirkorlik subyektlariga davlat xizmatlarini qulay, tezkor va shaffof tarzda taqdim etish maqsadida Yagona interaktiv davlat xizmatlari portali (my.gov.uz), davlat organlari faoliyatining ochiqligini ta’minlash uchun Ochiq ma’lumotlar portali (data.egov.uz) hamda normativ-huquqiy hujjatlar loyihalarini jamoatchilik muhokamasidan o‘tkazish uchun regulation.gov.uz platformasi faoliyati fikrimizning yorqin isbotidir[5].

Hozirgi kunda tadbirkorlik faoliyatini soddalashtirish va tartibga solishni optimallashtirish maqsadida “Litsenziya” axborot tizimlari kompleksi (license.gov.uz) va davlat xizmatlarini “bir darcha” tamoyili asosida ko‘rsatishni avtomatlashtiruvchi “Yagona darcha” markazlari axborot tizimi (birdarcha.uz) amaliyotga tatbiq etilganligi ham diqqatga sazovordir. Davlat boshqaruvining turli sohalarini raqamlashtirish doirasida “Kliring”, “Xarid”, “Byudjet”, “Bojxona”, “Adliya”, “Sog‘liqni saqlash”, “Ta’lim”, “Kommunal”, “Nafaqa” va boshqa axborot tizimlari komplekslari joriy etilib, ular orqali boshqaruv jarayonlarining samaradorligi, tezkorligi va shaffofligi sezilarli darajada oshishiga xizmat qilmoqda.

Bugun mamlakatimizda elektron hukumat tizimini joriy etish va rivojlantirishda O‘zbekiston Respublikasi Vazirlar Mahkamasi ushbu sohada yagona davlat siyosatini amalga oshirilishini ta’minlab kelmoqda. Axborot texnologiyalari va kommunikatsiyalarini rivojlantirish vazirligi esa elektron hukumat sohasidagi vakolatli organ sifatida davlat siyosatini amalga oshirish va muvofiqlashtirish vazifasini bajarmoqda.

Umuman olganda, electron hukumat sohasida amalga oshirilgan yirik loyihalar, joriy etilgan zamonaviy axborot tizimlari va qabul qilingan normativ-huquqiy hujjatlar O‘zbekistonda elektron hukumatni rivojlantirishning puxta huquqiy-institutsional asoslari shakllanganini ko‘rsatadi.

Bugungi kunda mamlakatimizda elektron identifikatsiyalash hamda axborot almashishning markazlashtirilgan tizimini shakllantirish va takomillashtirish yo‘nalishida “O‘zbekiston - 2030” strategiyasida bir qator ustuvor va istiqbolli vazifalar belgilab berilgan. Ularning eng dolzarblari sifatida quyidagilarni keltirishimiz mumkin:

- BMTning Elektron hukumat reytingida top-30 talikka kirishga erishish;
- mahallalarda aholi bilan ishlashga qaratilgan jarayonlarni 100 foiz raqamlashtirib, har bir mahallada “elektron xizmat nuqtalari”ni ishga tushirish;
- elektron shaklda ko‘rsatiladigan davlat xizmatlari ulushini 100 foizgacha yetkazish;
- faqat Yagona interaktiv davlat xizmatlari portali orqali ko‘rsatiladigan xizmatlar ulushini 50 foizgacha yetkazish;
- davlat xizmatlarini “3 qadam”, “foydalanuvchi uchun moslashtirilgan”, “barchasi bir mobil ilovada” tamoyillari asosida raqamlashtirish;
- “Elektron hukumat” tizimining yangi bosqichi - “Raqamli hukumat” tizimiga o‘tilib, barcha hujjatlar va munosabatlarning raqamli shaklda bo‘lishini ta’minlash;
- fuqarolarning davlat xizmatlaridan foydalanishi uchun murojaat qilishida ariza yozish, turli shakllarni to‘ldirish kabi ortiqcha formal tartiblarni bekor qilish, davlat idoralari zarur hujjatlarni elektron bazadan o‘zi oladigan tizim yaratish;
- davlat boshqaruvida mavjud bo‘lgan 5 mingga yaqin funksiyani amalga oshirish jarayonlarini 100 foiz raqamlashtirish;
- majburiy talablar yagona elektron reyestriga kiritilgan majburiy talablarni kamida 20 foizga kamaytirish;
- parlament va uning organlari ish jarayonlarini raqamli transformatsiya qilish, shu jumladan ular tomonidan qarorlar qabul qilish va e’lon qilish jarayonlarini 100 foiz raqamlashtirish;
- saylovchilar bilan elektron muloqot qilish, deputat so‘rovini elektron tarzda yuborish va nazorat qilish imkoniyatini ta’minlash;
- davlat organlari va tashkilotlarida murojaatlarni qog‘oz shaklida ro‘yxatga olish amaliyotini bekor qilish;
- barcha davlat organlari va tashkilotlari hamda ularning hududiy bo‘linmalariga elektron shaklda, shu jumladan tegishli mobil ilova orqali murojaat qilish imkoniyatini yaratish[6].

Albatta, yuqorida keltirilgan elektron hukumatni rivojlantirishning istiqbollari mamlakatimizda zamonaviy davlat boshqaruvini tubdan yangilash, uni raqamli texnologiyalar asosida qayta qurish, fuqarolarga xizmat qiluvchi samarali va shaffof tizimni shakllantirishga xizmat qilishi shubhasiz.

Bugungi axboratlashtirish va raqamli transformatsiya sharoitida davlat boshqaruvida tezkorlik, aniqlik va ochiqlik asosiy mezonlarga aylanib borar ekan, elektron hukumat ushbu talablarga javob beruvchi muhim vosita sifatida namoyon bo‘lmoqda. Shu nuqtayi nazardan, Shavkat Mirziyoyev tomonidan 2025-yil 27-dekabr Oliy Majlis va O‘zbekiston xalqiga Murojaatnomasida ta’kidlanganidek, “2026-yildan boshlab Elektron hukumat platformasi tubdan

yangilanadi. Endi barcha davlat idoralarining 1 mingdan ziyod davlat xizmatlari; 5 mingdan ortiq funksiya va vazifalari; 200 ta ma'lumot bazasi va axborot tizimi; 100 mingdan ziyod davlat xizmatchisining mahalla, tuman, viloyat, respublika darajasidagi vakolatlari Yagona raqamli platformaga integratsiya qilinadi. Platformaga kelib tushgan murojaatlar, ularni ijrochilarga taqsimlash va ko'rib chiqish muddatini nazorat qilish sun'iy intellekt orqali amalga oshiriladi. Sodda qilib aytganda, mahalladan tortib respublika darajasida hal bo'ladigan har bir masalaning ijrochisi, muddati, resursi bir joyda ko'rinib turadi.

Eng muhimi, davlat xizmatlarini ko'rsatishda inson omilisiz, korrupsiya va ortiqcha byurokratiyadan xoli ekotizim yaratamiz. Davlat xizmatlarini proaktiv va jamlanma shaklda ko'rsatish tizimini rivojlantiramiz" ta'kidlaydi[7].

Bizningcha, Prezidentimiz Shavkat Mirziyoyevning elektron hukumat tizimini takomillashtirish sohasida bildirgan yuqoridagi fikrlarini amaliyotga samarali tatbiq etilishi:

birinchidan, davlat qarorlarining ochiqligi va hisobdorligi ta'minlanib, korrupsiya kamayashiga;

ikkinchidan, qonunlar, me'yoriy hujjatlar va statistik ma'lumotlardan erkin foydalanish imkoniyatining kengayishiga;

uchinchidan, fuqarolik jamiyati institutlarining davlat hayotidagi ishtiroki kuchayishiga;

to'rtinchidan, kichik va o'rta biznesning vaqt, yo'l va boshqa xarajatlari qisqarishiga;

beshinchidan, fuqarolarning davlat organlariga murojaat qilish jarayoni osonlashadi va ularni ko'rib chiqish avtomatik nazorat qilinishiga;

oltinchidan, ortiqcha hujjatlar kamaytirilib, byurokratik to'siqlar bartaraf etilishiga;

yettinchidan, davlat xizmatlari tezkor va samarali mexanizmlar asosida ko'rsatilishiga xizmat qiladi.

Xulosa

O'zbekistonda elektron hukumat tizimini shakllantirish va rivojlantirish jarayoni izchil amalga oshirilayotgan kompleks islohotlar natijasida bugungi kunda davlat boshqaruvining ochiqligi, shaffofligi va samaradorligini ta'minlovchi muhim institutsional mexanizmga aylangan. Mazkur yo'nalishda yaratilgan huquqiy baza, institutsional tuzilmalar hamda keng ko'lamda joriy etilgan raqamli platformalar davlat xizmatlarini yangi sifat bosqichiga olib chiqishda muhim ahamiyat kasb etmoqda. Tadqiqot natijalari elektron hukumat tizimi fuqarolarga qulay va tezkor xizmat ko'rsatish, byurokratik to'siqlarni kamaytirish, idoralararo hamkorlikni takomillashtirish hamda boshqaruv jarayonlarining samaradorligini oshirishda muhim rol o'ynayotganini ko'rsatadi. Shu bilan birga, tizimning bosqichma-bosqich rivojlanib borishi raqamli iqtisodiyot va raqamli jamiyat shakllanishi bilan uzviy bog'liq ekanini tasdiqlaydi. Kelgusida elektron hukumat tizimini yanada takomillashtirish "raqamli hukumat" modeliga o'tish, sun'iy intellekt, katta ma'lumotlar va integratsiyalashgan platformalar asosida boshqaruvni optimallashtirish bilan bevosita bog'liq bo'lib, bu davlat va jamiyat o'rtasidagi o'zaro munosabatlarni sifat jihatidan yangi bosqichga olib chiqadi hamda xizmat ko'rsatishning proaktiv va inson omilisiz modelini shakllantirishga xizmat qiladi.

SHAXS MA'NAVIY QIYOFASINI SHAKLLANTIRISHDA HAQIQAT VA ADOLAT TUSHUNCHASINING AHAMIYATI

Panjiyev Suhrob
Termiz iqtisodiyot va servis universiteti dotsenti,
falsafa fanlari bo'yicha falsafa doktori (PhD)
E-mail: panjiyev87@mail.ru

Annotatsiya. *Maqolada shaxs ma'naviy qiyofasini shakllantirishda va jamiyat hayotida yuksak ma'naviyatni qaror toptirishda haqiqat va adolat tushunchalarining ahamiyati hamda zarurati, shuningdek, haqiqatning ma'naviy mazmuni to'g'risida fikr yuritilgan. Bundan tashqari, haqiqat va adolatning ijtimoiy ongni shakllantirishdagi o'rni hamda ularning yoshlar tarbiyasidagi tarbiyaviy-ta'sirchan jihatlari ilmiy jihatdan tahlil qilingan. Shuningdek, maqolada ushbu qadriyatlarning jamiyat barqarorligi va ma'naviy rivojlanish jarayonlaridagi o'zaro bog'liqligi ham yoritib berilgan.*

Kalit so'zlar: *ma'naviyat, qadriyat, poklanish, ruhiyat, haqiqat, adolat, vijdon, oila, millat, jamiyat.*

ЗНАЧЕНИЕ ПОНЯТИЙ ИСТИНЫ И СПРАВЕДЛИВОСТИ В ФОРМИРОВАНИИ ДУХОВНОГО ОБЛИКА ЛИЧНОСТИ

Аннотация. *В статье рассматривается значение и необходимость понятий истины и справедливости в формировании духовного облика личности и утверждении высокой духовности в жизни общества, а также духовное содержание истины. Кроме того, научно анализируется роль истины и справедливости в формировании общественного сознания и их воспитательное воздействие в процессе воспитания молодежи. Также в статье освещается взаимосвязь этих ценностей с процессами общественной стабильности и духовного развития.*

Ключевые слова: *духовность, ценность, очищение, психика, истина, справедливость, совесть, семья, нация, общество.*

THE IMPORTANCE OF THE CONCEPTS OF TRUTH AND JUSTICE IN SHAPING AN INDIVIDUAL'S SPIRITUAL IDENTITY

Abstract. *The article discusses the importance and necessity of the concepts of truth and justice in shaping an individual's spiritual identity and establishing high spirituality in society, as well as the spiritual essence of truth. In addition, the role of truth and justice in forming public consciousness and their educational impact in the upbringing of youth are scientifically analyzed. The article also highlights the interconnection of these values with social stability and processes of spiritual development.*

Key words: *spirituality, value, purification, psyche, truth, justice, conscience, family, nation, society.*

Kirish.

Ma'naviyat keng qamrovli tushuncha bo'lib, insonlarning o'zaro munosabatlari, ularning hayotiy tajribalari davomida shakllangan va rivojlanadigan qadriyatlar tizimi hisoblanadi. Birinchi Prezidentimiz Islom Karimov o'zining "Yuksak ma'naviyat - yengilmas kuch" asarida insonni inson qiladigan, uning ongi va ruhiyati bilan chambarchas bog'langan bu tushuncha har qaysi odam, jamiyat, millat va xalq hayotida hech narsa bilan o'lchab bo'lmaydigan ulkan ahamiyatga ega ekanligini alohida ta'kidlab: "Ma'naviyat – insonni ruhan poklanish, qalban ulg'ayishiga chorlaydigan, odamning ichki dunyosini, irodasini baquvvat, iymon-e'tiqodini butun qiladigan, vijdonini uyg'otadigan beqiyos kuch, uning barcha qarashlar mezonidir", deb e'tirof etgan edi. Darhaqiqat, ma'naviyat insonning qon-qoniga yillar davomida ona suti, oila tarbiyasi, ajdodlar o'giti, Vatan tuyg'usi, bu hayotning ba'zida achchiq, ba'zida quvonchli saboqlari bilan qatra-qatra singib boradi. Umuman olganda insoniyat tarixi ma'naviyat - insonning, xalqning, jamiyat va davlatning buyuk boyligi va kuch-qudrat manbai ekanini, bu hayotda ma'naviyatsiz hech qachon odamiylik va mehr-oqibat, baxt va saodat bo'lmasligini yaqqol tasdiqlaydi. Yer yuzida qancha inson, qancha taqdir bo'lsa, har birining o'z ma'naviy olami bor[1].

Adabiyotlar tahlili.

Ushbu mavzuni yoritishda ma’naviyat, haqiqat va adolat tushunchalarining falsafiy va ijtimoiy asoslarini ochib beruvchi ilmiy manbalar katta ahamiyatga ega. Xususan, I.A.Karimovning “Yuksak ma’naviyat – yengilmas kuch” asarida ma’naviyat jamiyat taraqqiyotida hal qiluvchi omil sifatida talqin qilinadi. Muallif ma’naviy yuksalish insonning ichki dunyosini, axloqiy qarashlarini va ijtimoiy mas’uliyatini shakllantiruvchi asosiy kuch ekanligini ta’kidlaydi va ma’naviyatni milliy taraqqiyot va barqarorlikning poydevori sifatida asoslaydi. Bu yondashuv haqiqat va adolat tushunchalarining insonning ma’naviy o’ziga xosligini shakllantirishdagi ahamiyatini ilmiy asoslashga xizmat qiladi[1].

V.S.Solovyovning “Философские начала цельного знания” asarida falsafiy nuqtai nazardan, haqiqat, bilim va axloqiy tamoyillar chuqur tahlil qilinadi. U haqiqatni nafaqat mantiqiy kategoriya, balki insonning ma’naviy rivojlanishi bilan bog’liq yaxlit falsafiy tushuncha sifatida ham talqin qiladi. Solovyovning fikricha, haqiqiy bilim va adolat ichki uyg’unlik va ma’naviy yetuklikni ta’minlovchi asosiy omillardir. Bu insonning ma’naviy qiyofasini shakllantirishda haqiqat va adolatning falsafiy mazmunini yanada chuqurroq tushunishga yordam beradi[6].

Tadqiqot metodologiyasi.

Shaxs ma’naviy qiyofasini shakllantirishda haqiqat va adolat tushunchasining ahamiyatini yoritib berishga qaratilgan ushbu maqolada ilmiy tadqiqotning analogik tahlil, analiz va sintez kabi metodlaridan samarali foydalanildi.

Tahlillar va natijalar.

Mustaqilligimizning dastlabki yillaridayoq O’zbekistonda birinchi Prezidentimiz I.A.Karimov tomonidan “Islohotlar islohot uchun emas, islohot inson uchun” tamoyili ilgari surildi va u izchillik bilan amalga oshirildi. Har qanday islohot, yangilanishlar eng avvalo inson ongi va tafakkuri, qalbi va tuyg’ulari orqali amalga oshirilmog’i hamda kishilik jamiyatining ma’naviy qiyofasini shakllantirishda haqiqat va adolat tushunchasining falsafiy ma’nosini anglamog’i lozim. Buning uchun dastlab odamlarni islohotlarga tayyorlash, ularga butun imkoniyatlarini ro’yobga chiqarish uchun sharoit yaratish zarur. Bu o’z navbatida ma’naviy va axloqiy negizlarga tayanish, jamiyatni erkinlashtirish, demokratik tamoyillarni chuqurlashtirishni taqozo etadi. Bir so’z bilan aytganda, jamiyatda ma’naviy hayotni haqiqat va adolat mezonlari orqali barpo etishdan avval, ma’naviyatning o’zini anglash, uning kishilik jamiyatidagi o’rni va ahamiyatini belgilab olish muhim hisoblanadi[2].

Insonning yuksak ma’naviy olamini qaror toptirish uchun haqiqat mezonini to’g’ri tushunish va anglash lozim. Chunki haqiqat bo’lib turgan voqelik, amalga oshayotgan jarayon, mavjudlikning muhim tomonini aks ettiradigan hodisadir. U yuksak ma’naviy tushuncha sifatida bilish davomida erishiladigan maqsadni, shu maqsadda namoyon bo’ladigan ma’no-mazmunni ifodalaydi. Ya’ni haqiqat mutloq to’g’rilikni, bilimning olamga aynanligini, aniqlik va haqiqiylikni anglatadi.

Shuningdek, haqiqat – yolg’onning aksi, to’g’rilik, adolatli, aniq ravshan bo’lgan narsa va hodisalardir. Haqiqat ko’proq aql va tafakkurga tegishli bo’lsa, to’g’rilik, ezgulik va yaxshilik ma’naviyatga taalluqlidir. Aslini olganda, “haqiqat” tushunchasi keng ma’noda obyektiv haqiqatni ham, axloqiy haqlikni ham, aniq, to’g’ri natijani ham o’zida qamrab olgan. Haqiqatni topish, unga erishishga intilish va anglash, uni insonlar o’rtasida qaror toptirish ilm-fanning, ma’naviyat va axloqning muhim vazifasi hisoblanadi. Haqiqatni bilish, uni anglash, to’g’ri natijaga erishish insonni ma’nan boyitadi, unga amaliy faoliyati davomida aniqroq harakat qilishga yordam beradi[3].

Haqiqatning ma’naviy mazmuni “haqgo’ylik”, “to’g’ri” “adolat”, “odillik” atamalari orqali va uning ziddi “haqsizlik”, “yolg’on” kabi tushunchalar bilan ifodalanadi. Yolg’on haqiqatning oddiygina ziddi emas. Yolg’on gapirayotgan kimsa, go’yoki inson va uning erki va ozodligiga xalaqit berayotgan, uni voqelik to’g’risidagi cheklangan bilimlarga yo’llayotgan odamga o’xshaydi. Zero, haqiqatni buzish va yashirish, to’g’rini noto’g’ri deyish hamisha qalloblikka, haqsizlikka xizmat qilgan. Haqiqatni hurmat qilmaslik, unga nisbatan befarqlik jamiyatga, odamlarga nisbatan hurmatsizlik, hayot hodisalari va ular mazmuniga loqaydlikni keltirib chiqaradi. Haqiqatni bilmaslik xato bo’lsa, u bilan hisoblashmaslik johillikka, o’ziga bino qo’yishga olib kelishi mumkin. Bu esa, jamiyatning ma’naviy barqarorligiga putur yetkazadi[4].

Ma’lumki, bugun dunyoda keskin kurash va raqobat hukm surmoqda, manfaatlar to’qnashuvi kuchaymoqda. Globallashuv jarayonlari insoniyat uchun beqiyos yangi imkoniyatlar bilan birga kutilmagan muammolarni ham keltirib chiqarmoqda. Milliy o’zlik va ma’naviy qadriyatlarga qarshi tahdid va xatarlar tobora ortmoqda. Faqat o’zini o’ylash, mehnatga, oilaga yengil qarash, iste’molchilik kayfiyati turli yo’llar bilan odamlar, ayniqsa, yoshlar ongiga ustamonlik bilan singdirilyapti[2]. Bu esa yoshlar dunyoqarashiga, ularning ma’naviy olamiga salbiy ta’sir o’tkazmoqda.

Ma’naviyatning inson, oila, millat va jamiyat hayotidagi o’rni nihoyatda kattadir. U o’zining ahamiyati va salohiyati jihatdan jamiyatdagi iqtisodiy va ijtimoiy-siyosiy omillarning asosini ham tashkil qiladi. Tarixiy taraqqiyotning achchiq tajribasidan ma’lumki, och insonni to’ydirish, yalang’och insonni kiyintirish mumkin, ammo, bir avlod umri davomida ma’naviy qashshoqlikdan qutulishi murakkab muammo hisoblanadi. Chunki insonning ichki botiniy kuchi uning xatti-harakatlarini, maqsadlarini belgilab beradi. Shu jihatdan qaraganda, bugun inson, “inson-jamiyat” muammosini hal qilish, butun insoniyatni “insoniylashtirish”, millatni insoniyatning ulkan qadriyatiga aylantirish,

jamiyatning iqtisodiy, ijtimoiy-siyosiy sohalarida mavjud bo'lgan muammolarni oqilona hal etishda ma'naviyatga tayanish va haqiqatni anglash, bilish orqali erishish mumkin bo'ladi[3].

Haqiqatning shaxs yuksak ma'naviyatini shakllantirishdagi ahamiyatini quyidagi omillar orqali izohlashimiz mumkin:

Birinchidan, yuksak ma'naviyatni shakllantirishda avvalo haqiqat orqali odamlarning dunyoqarashini va tafakkurini boshqarish emas, balki, uni yangi ma'no va mazmun bilan to'ldirish, boyitish, birinchi navbatda, odamlar dunyoqarashi va tafakkurining voqelikka nisbatan to'g'ri munosabat bildirish imkonini beradi.

Ikkinchidan, haqiqat bilish va tushunish orqali kishilarda voqea va hodisalarning real holatini anglash, tabiat va jamiyatda kuzatiladigan ijtimoiy, siyosiy va iqtisodiy jarayonlarga ongli munosabatda bo'lish hamda baholash qobiliyati shakllanadi.

Uchinchidan, haqiqat "ommaviy madaniyat"ni niqob qilib olgan aksilmadaniyatga, uning didsizligi va axloqsizligiga, insonni haqoratlovchi, tubanlashtiruvchi yashirin tahdidlarga qarshi kurashishida kuchli immunitetni hosil qiladi.

To'rtinchidan, haqiqatni bilmaslik va tushunmaslik natijasida qadriyatlarimizga yot g'oyalar, milliy va insoniy qadriyatlarga zid, axloqsizlik va ma'naviyatsizlik avj oladi. Yot g'oyalarni yoshlar ongiga singdirishga urinayotgan, qabih maqsadlariga yetish uchun harakat qilayotgan kuchlarga, axloqsizlikka, ma'naviyatsizlikka undovchi vosita va usullarga qarshi kurashishda haqiqatni yolg'ondan ajratish lozim[5].

Xulosa.

Xulosa o'rnida aytish mumkinki, jamiyat va davlat barqarorligining eng muhim omillaridan biri, tabiiyki, kishilik jamiyatining ma'naviy qiyofasida o'z ifodasini topadi. Haqiqat va adolat orqali insonlar obyektiv voqelikka mos keluvchi narsa va hodisalarning real holatdagi mazmunini, sifat va xususiyatlarini to'g'ri aks ettiruvchi bilimlarga ega bo'ladi. Chunki haqiqat insonlarning voqelikka, narsa va hodisalarning real holatdagi mazmuniga munosabatni ifodalaydi. Yuksak ma'naviyat esa har bir insonning xatti-harakatlarida, o'zligini qanday darajada anglashida, o'zining oila va jamiyatdagi o'rnini tushunishida, Vatan va millatga bo'lgan munosabatida namoyon bo'ladi. Bu o'z navbatida haqiqat va adolatning yuksak ma'naviy jarayon ekanligidan dalolat beradi. Bu jarayonda inson kamol topadi va ma'naviy barkamollikka erishish yo'lidan boradi.

Haqiqat va adolat qaror topmagan joyda ma'naviy hayot ham, ijtimoiy-mafkuraviy barqarorlik ham bo'lmaydi. Bu esa jamiyat tanazzuliga, odamlar o'rtasida yolg'on, haqsizlik, adolatsizlik kabi illatlarning keng tarqalishiga sabab bo'ladi. Shunday ekan, har bir inson hayotida va jamiyat barqarorligida, qolaversa jamiki boshqa sohalarda ham haqiqat, adolat masalasi ustuvor ahamiyat kasb etsa, bunday inson, hayot va jamiyat doimo obod va farovon yashaydi.

RAQAMLI SIVILIZATSIYA DAVRIDA TA'LIM VA IJTIMOIY ONG EVOLYUTSIYASI

Aslonov Jurabek Mansurovich
Navoiy davlat universiteti mustaqil izlanuvchisi
E-mail: jurabekaslonov03@gmail.com

Annotatsiya: *Mazkur maqolada raqamli sivilizatsiya sharoitida ta'lim tizimining shakllanishi va ijtimoiy ongning evolyusiyasi tarixiy-falsafiy jihatdan tahlil qilinadi. Raqamli ta'lim tushunchasining ildizlari qadimiy ilm-fan an'analari bilan bog'liq holda yoritilib, uning zamonaviy axborot texnologiyalari bilan uyg'unlashuvi ko'rsatiladi. Shuningdek, ta'lim tizimining madrasalardan to virtual muhitgacha bo'lgan transformatsiyasi, globallashuv va raqamlashtirish jarayonlarining ijtimoiy munosabatlarga ta'siri tahlil etiladi.*

Kalit so'zlar: *raqamli ta'lim, virtual reallik, integratsiya, axborot texnologiyalari, raqamlashtirsh.*

ЭВОЛЮЦИЯ ОБРАЗОВАНИЯ И ОБЩЕСТВЕННОГО СОЗНАНИЯ В ЭПОХУ ЦИФРОВОЙ ЦИВИЛИЗАЦИИ

Аннотация: *В данной статье с историко-философских позиций анализируются формирование системы образования и эволюция общественного сознания в условиях цифровой цивилизации. Истоки понятия цифрового образования раскрываются в связи с древними научными традициями, а также показана его интеграция с современными информационными технологиями. Кроме того, рассматривается трансформация системы образования от медресе до виртуальной среды, а также анализируется влияние процессов глобализации и цифровизации на общественные отношения.*

Ключевые слова: *цифровое образование, виртуальная реальность, интеграция, информационные технологии, цифровизация.*

EVOLUTION OF EDUCATION AND SOCIAL CONSCIOUSNESS IN THE ERA OF DIGITAL CIVILIZATION

Abstract: *This article examines the formation of the education system and the evolution of social consciousness in the context of digital civilization from a historical and philosophical perspective. The origins of the concept of digital education are explored in relation to ancient scientific traditions, while its integration with modern information technologies is highlighted. Furthermore, the transformation of the education system from madrasas to virtual environments is analyzed, along with the impact of globalization and digitalization processes on social relations.*

Keywords: *digital education, virtual reality, integration, information technologies, digitalization.*

Kirish

"Raqamli ta'lim" deganda xayolimizga avvalo, zamonaviy kompyuterlar, elektron darsliklar, turli xil gadjetlar, aqlli soat-u darsliklar keladi. Ammo, uning rivojlanishi aslida qadimgi davrlarga borib taqalishi ko'pchilikka ma'lum emas. Dastlab, faqatgina nol bor edi. Koinot hali yo'q, ammo allaqachon nolda uning imkoniyati mavjud. Borliq 1 sonidan boshlab rivojlana boshlaydi. Bir – bu yagonadir. Ya'ni, yo'qlik borliqqa aylanadi. Pifagor [1] dunyoning boshlang'ich asosini yoki uning yagona asosini qanday tasavvur qilgan? Uning ta'kidlashicha, turli narsalar o'zaro shu jihatdan o'xshashki, ularning barchasini sanash mumkin: ikkita qush, o'nta baliq, yigirmata daraxt. Shunday qilib, son yordamida tasavvur qilish, hisoblash, ifodalash yoki miqdoriy jihatdan tavsiflash mumkin bo'lgan har qanday narsa mavjud. Demak, son – bu turli xil narsalarda doimiy va o'zgarmas ravishda mavjud bo'lgan, ularni bog'lovchi ip, yagona birlashtiruvchi asosdir. Xulosa qilib, Pifagor [2] ta'kidlaganidek, son dunyoning boshlang'ich asosidir.

Zamonaviy tushunchada raqamlar – bu sonlarni yozish uchun ishlatiladigan belgilardir. "Raqam" so'zining o'zi arabcha "sifr" [3,2898-2908] (صفر) so'zidan kelib chiqqan bo'lib, "hech narsa, nol" degan ma'noni anglatadi. Nol (shunya) g'oyasi va o'nlik pozitsion hisoblash tizimida sonlarni yozish uchun o'nta belgi (0–9) chizilishi taxminan V asrda Hindistonda shakllangan va VII–IX asrlarda arablar tomonidan o'zlashtirilgan. Mashhur Al-Xorazmiyning "Hind hisobi haqida" [4] asari ushbu tizimning arab dunyosida, jumladan, Mag'rib va Kordova xalifaligida ommalashishiga hissa qo'shgan. Islom Kordovasi (Al-Andalus) va qo'shni xristian Barselona o'rtasidagi yaqin aloqalar tufayli "arab raqamlari"

G‘arbiy Yevropaga kirib bordi, xususan, ular bilan afsonaviy Gerbert Avrilakskiy (papa Silvestr II) qiziqqan. X–XII asrlar davomida yevropaliklar o‘nlik tizimga vaqti-vaqti bilan qiziqish bildirgan (masalan, Fibonachchi), lekin asosan sonlarni yozishda rim tizimidan foydalanishda davom etgan. Qulay va ixcham pozitsion o‘nlik tizimiga va uning raqamlariga haqiqiy qiziqish Uyg‘onish davrida, matematika va muhandislik bilimlarining rivojlanishi bilan paydo bo‘ldi [3,2898-2908]. Natijada, inson son hisobidan foydalangan holda, oddiy qilib aytganda, ma’lum kodlangan sxemalarda ishlaydigan texnik qurilmalarning ulkan miqdorini yaratdi.

Metod va metodologiya

Mazkur tadqiqot metodologiyasi tarixiy-mantiqiy, qiyosiy hamda tizimli tahlil yondashuvlarining uyg‘unligiga asoslanadi. Tadqiqot davomida raqamli ta’lim tushunchasining shakllanishi va rivojlanish bosqichlari tarixiy manbalar asosida izchil o‘rganilib, uning mazmuniy evolyutsiyasi chuqur tahlil qilindi. Shuningdek, ta’lim tizimining transformatsiyasi, xususan, madrasalar va zamonaviy universitetlar faoliyati misolida qiyosiy yondashuv asosida yoritildi. Axborot texnologiyalarining ta’limga ko‘rsatgan ta’siri, raqamli muhitning shakllanishi hamda uning ijtimoiy-madaniy jihatlari tizimli tahlil orqali kompleks baholandi. Bundan tashqari, zamonaviy ta’lim jarayonida innovatsion texnologiyalar, sun’iy intellekt va onlayn ta’limning o‘rni alohida e’tibor bilan o‘rganildi. Mazkur metodologik yondashuvlar majmuasi raqamli ta’limning mohiyatini chuqur anglash va uning rivojlanish tendensiyalarini aniqlash imkonini beradi.

Muhokama va natijalar

Sharqshunos Adam Metsning ma’lumotlariga ko‘ra, u XIV asr arab manbasiga tayanadi, birinchi madrasa, oliy ta’lim muassasasi sifatida, XI asrda Nishopurda paydo bo‘lgan [5]. Boshqa bir sharqshunos tadqiqotchi V. Bartoldning ma’lumotlariga ko‘ra, madrasalar Buxoroda yana ham erta, X asrda paydo bo‘lgan [6]. Biroq, bugungi kungacha faoliyat yuritayotgan Marokashdagi Al-Qaraviyin universiteti (859-yilda asos solingan) va Misrdagi Al-Azhar universiteti (X asrda paydo bo‘lgan) butun dunyoga mashhur [7].

Madrasalarning o‘rta va oliy ta’lim muassasalari sifatida paydo bo‘lishi ta’lim falsafasi va pedagogikasining o‘ziga xos shakllanishiga ta’sir qildi, bu esa ta’lim dasturlarini takomillashtirishga qaratilgan edi. Ularning rivojlanishiga Abu-Nasr Forobiy, “Fanlar hukmdori” faxriy unvoniga ega bo‘lgan ensiklopedist Al-Beruniy, Abu Ali ibn Sino, Mirzo Ulug‘bek katta hissa qo‘shdilar. Ushbu olimlarning ismlari bilan yangi o‘qitish metodikasining paydo bo‘lishi bog‘liq bo‘lib, u talabalar tomonidan o‘qituvchi ma’ruzalarini yozib olish va manbalarni mustaqil o‘qishdan iborat bo‘lmagan, balki yangi interpretativ usul (“usul-i tadris”) paydo bo‘lishini anglatardi [8]. Ushbu usulning mohiyati shundaki, madrasa olimlari, o‘qituvchilari barcha o‘quv adabiyotlarini, ularning katta qismi musulmon olimlarining original asarlari yoki qadimiy, hind, fors manbalarining tarjimalari bo‘lgan, muallifning fikri, sharhlovchi va islom falsafiy an’anasining tushuntirishi bilan batafsil sharhlar bilan kuzatib bordilar. Ushbu amaliyot tufayli bizga Forobiyning Aristotel, Ptolemey, Yevklid asarlariga sharhlari yetib kelgan [9].

Shuni ta’kidlash kerakki, “digital” (raqamli) so‘zi 600 yil avval mavjud bo‘lgan. Uning to‘g‘ridan-to‘g‘ri ma’nosidan tashqari asrlar davomida o‘zgarganligi qiziqarli. “Digital” so‘zining dastlabki ma’nosi – barmoq (lotincha “digitalis” so‘zidan). Dastlab, XV asrda “digital” ostida “o‘ndan kam bo‘lgan butun sonni belgilash” tushunilgan. XVII-XIX asrlarda so‘z “barmoq, barmoqlar yoki sonlarga tegishli” ma’nosida ishlatilgan [10]. Zamonaviy “digital” o‘z ma’nosini 1940-yillar boshida, yangi turdagi hisoblash mashinalari paydo bo‘lishi tufayli oldi. Ularda ma’lumotlar diskret raqamlar (digits) ketma-ketligi ko‘rinishida taqdim etilgan. Bunday ma’lumot va uni ishlatadigan har qanday qurilma “raqamli” deb atala boshlandi. Ma’lumotlarni diskret qiymatlar ketma-ketligi ko‘rinishida taqdim etish uchun raqamli signal ishlatiladi.

Boshqacha qilib aytganda, zamonaviy ta’lim raqamlashtirishga asoslangan axborot madaniyati prinsiplari bilan o‘zaro bog‘liq. Inson axborot makonida qanday to‘g‘ri xulq-atvor qilishni va raqamli muhitda bo‘lganda qaysi chegaralarni bosib o‘tib bo‘lmasligini anglashi kerak [11].

Globalizatsiya ta’sirida universitetlar konsepsiyasini transformatsiya qilishda moddiy qadriyatlarning ahamiyatini qayta ko‘rib chiqishga sabab bo‘luvchi jarayonlarga va oliy ta’lim muassasalarining nomoddiy resurslari rolini tobora oshirayotgan jarayonlarga alohida e’tibor qaratish kerak. Vaqt o‘tib brogan sari, eng qadimiy universitetlar ham o‘zgartiriladi yoki “virtual”lariga o‘rin beradi, bundaylari raqamli (“virtual”) makonda ta’lim dasturlarini, ta’lim va hatto, tadbirkorlik faoliyatini amalga oshiradilar. Ushbu jarayonlar universitetlarning yangi modelini shakllantirish haqida faraz qilishga imkon beradi, u raqamli kognitiv faoliyat asosida o‘z ta’lim ehtiyojlarini amalga oshirishga imkon beruvchi virtual ta’lim makonini ifodalaydi.

Axborot resurslari ta’lim sohasidagi o‘quv jarayonining ajralmas qismiga aylandi. EDUCAUSE Horizon Report 2020 [17] davriy hisobotining ma’lumotlari juda qiziqarli. Unga ko‘ra, texnologik yo‘nalishda eng muhimi – sun’iy intellekt bilan ishlash, uning ta’lim jarayonidagi roli va axborot tarmoqlari xavfsizligi masalalaridir. Oliy ta’lim sohasida ta’limning yanada ommaviylashuvi, mintaqaviy va global darajadagi akademik mobillik, ta’lim dasturlarining kollaboratsiyasi hamda onlayn-o‘qitish muhim ahamiyat kasb etib bormqda. Ekspertlar tomonidan aynan “innovatsion

ta’lim” deb ataladigan tendensiyalar alohida ta’kidlandi. Bu talabaga maksimal moslashtirilgan individualizatsiyalashgan o‘qitish, neyroto‘rlar asosidagi o‘qitish metodikalari, o‘qitish samaradorligini raqamli kuzatish, ta’lim resurslarining ochiqligining o‘sishi, alternativ (virtual, kengaytirilgan, aralash) reallik asosida o‘qish imkonini beradi [12].

Elektron ta’lim makonini yaratish zaruratining bir qancha sabablari ham bor. statistik ma’lumotlarga ko‘ra, o‘tgan yuz yil ichida ishlab chiqarish jarayonlarining ommaviy texnologizatsiyasi bilan bog‘liq holda 500 dan ortiq mutaxassisliklar va kasblarga talab keskin kamayib ketdi. Hozirgi davrda ham ushbu xavfli tendensiya saqlanib qolmoqda. Ishlab chiqarishni kompyuterlashtirish va xizmat ko‘rsatish sohasini texnologizatsiya qilish ba’zi kasblarning tez qisqarishiga sabab bo‘lmoqda. Ayrim hollarda kasblar butunlay yo‘qolmasa ham, ularning faoliyati qayta ko‘rib chiqilishi zaruratga aylanmoqda.

Prezident Shavkat Mirziyoyev taraqqiyotga erishish uchun raqamli bilimlar va zamonaviy axborot texnologiyalarini o‘zlashtirish zarurligiga alohida e’tibor qaratdi. Bu dunyo ergashayotgan rivojlanishning eng qisqa yo‘li bo‘ylab yurish imkoniyatidir.

Ta’limning evolyutsion rivojlanish jarayonlari tashqi omillar ta’sirida intensivlashdi. Covid-19 pandemiyasi miqdoriy raqamli muhitning sifatli ta’lim makoniga o‘tish jarayonini bir necha barobar tezlashtirdi. Chunki elektron ta’lim resurslarini yaratish bo‘yicha ish uzoq vaqtdan beri turli darajadagi muvaffaqiyat bilan olib borilgan, ammo total karantin sharoitida barcha mamlakatlarning ta’lim tizimlarini uning tayyorgarlik darajasidan qat’iy nazar, deyarli bir lahzada raqamli ta’lim makoniga o‘tishga majbur qildi. Raqamli o‘qitishning afzalliklari, qulayliklari va uning mohiyatini butun dunyo tan oldi [13].

Conclusion

Xulosa qilib aytganda, raqamli ta’limning shakllanishi uzoq tarixiy jarayonlarga borib taqalib, son va raqam tushunchalarining evolyutsiyasi hamda ilmiy tafakkur rivoji bilan uzviy bog‘liq holda kechgan. Ta’lim tizimi madrasalardan tortib zamonaviy universitetlargacha bo‘lgan bosqichlarda izchil rivojlanib, bugungi kunda raqamli muhit bilan uyg‘unlashgan yangi taraqqiyot bosqichiga ko‘tarilmoqda. Axborot texnologiyalarining jadal rivojlanishi, globallashuv jarayonlari va pandemiya sharoiti ta’limni raqamlashtirish jarayonini yanada tezlashtirdi. Shu bilan birga, raqamli ta’lim nafaqat bilim berish shakllarini yangilamoqda, balki yangi kasblar, kompetensiyalar va ijtimoiy munosabatlarning shakllanishiga ham xizmat qilmoqda. Zamonaviy ta’lim tizimi innovatsion texnologiyalar asosida rivojlanib, shaxsning raqobatbardoshligini oshirish hamda jamiyatning barqaror taraqqiyotini ta’minlashda muhim omilga aylanmoqda.

PHILOSOPHICAL

HUQUQIY ONGDA IJTIMOIY NORMALARNING AKS ETISHIDA IJTIMOIY REGLAMENTATSIYA VA SHAXSNING ROLINING IJTIMOIY-FALSAFIY TAHLILI

Mo‘ydinov Asilbek Adhamjon o‘g‘li
f.f.b.f.d. (PhD), FarDU mustaqil izlanuvchisi

Annotatsiya. *Ushbu maqolada huquqiy ongda ijtimoiy normalarning aks etish jarayoni hamda bu jarayonda ijtimoiy reglamentatsiya va shaxs omilining o‘rni ijtimoiy-falsafiy yondashuv asosida tahlil qilingan. Tadqiqot doirasida huquqiy ongning shakllanishiga ta’sir ko‘rsatuvchi ijtimoiy, madaniy va institutsional omillar, shuningdek ijtimoiy normalar tizimining jamiyat hayotidagi tartibga soluvchi ahamiyati o‘rganilgan. Maqolada ijtimoiy reglamentatsiya jarayonida huquqiy me’yorlar, axloqiy qadriyatlar va turli ijtimoiy institutlar o‘rtasidagi o‘zaro bog‘liqlik hamda ularning shaxs huquqiy madaniyatining shakllanishiga ko‘rsatadigan ta’siri yoritilgan. Tadqiqot natijalari huquqiy ongni rivojlantirish, jamiyatda ijtimoiy tartib va barqarorlikni mustahkamlash jarayonida shaxsning faol fuqarolik pozitsiyasi muhim ahamiyat kasb etishini ijtimoiy-falsafiy jihatdan asoslab bergan.*

Kalit so‘zlar: *huquqiy ong, ijtimoiy normalar, ijtimoiy reglamentatsiya, huquqiy madaniyat, shaxs, ijtimoiy tartib, ijtimoiy falsafa.*

СОЦИАЛЬНО-ФИЛОСОФСКИЙ АНАЛИЗ СОЦИАЛЬНОЙ РЕГЛАМЕНТАЦИИ И РОЛИ ЛИЧНОСТИ В ОТРАЖЕНИИ СОЦИАЛЬНЫХ НОРМ В ПРАВОВОМ СОЗНАНИИ

Аннотация. *В данной статье с социально-философской точки зрения анализируется процесс отражения социальных норм в правовом сознании, а также роль социальной регламентации и фактора личности в данном процессе. В рамках исследования рассматриваются социальные, культурные и институциональные факторы, влияющие на формирование правового сознания, а также регулирующее значение системы социальных норм в общественной жизни. В статье также раскрывается взаимосвязь правовых норм, нравственных ценностей и различных социальных институтов в процессе социальной регламентации, а также их влияние на формирование правовой культуры личности. Результаты исследования обосновывают, что активная гражданская позиция личности является важным фактором в развитии правового сознания и обеспечении общественного порядка и социальной стабильности.*

Ключевые слова: *правовое сознание, социальные нормы, социальная регламентация, правовая культура, личность, общественный порядок, социальная философия.*

A SOCIO-PHILOSOPHICAL ANALYSIS OF SOCIAL REGULATION AND THE ROLE OF THE INDIVIDUAL IN THE REFLECTION OF SOCIAL NORMS IN LEGAL CONSCIOUSNESS

Abstract. *This article analyzes, from a socio-philosophical perspective, the process of the reflection of social norms in legal consciousness, as well as the role of social regulation and the individual factor in this process. The study examines the social, cultural, and institutional factors influencing the formation of legal consciousness, along with the regulatory significance of the system of social norms in public life. The article also explores the interrelationship between legal norms, moral values, and various social institutions within the process of social regulation, as well as their influence on the formation of an individual’s legal culture. The findings substantiate that the active civic position of the individual is an important factor in the development of legal consciousness and in ensuring social order and stability.*

Keywords: *legal consciousness, social norms, social regulation, legal culture, individual, social order, social philosophy.*

Kirish

Jamiyat hayotida ijtimoiy tartibni ta’minlash masalasi har doim falsafa, sotsiologiya va huquqshunoslik fanlarining markaziy muammolaridan biri bo‘lib kelgan. Har qanday jamiyat barqaror rivojlanishi uchun undagi ijtimoiy munosabatlar muayyan normativ tizim asosida tartibga solinishi zarur. Mazkur normativ tizim huquqiy, axloqiy, madaniy va diniy me’yorlar majmuasidan iborat bo‘lib, ular jamiyat a’zolarining xulq-atvorini tartibga soluvchi asosiy ijtimoiy mexanizm sifatida namoyon bo‘ladi. Shu nuqtai nazardan qaralganda, ijtimoiy tartib jamiyatda mavjud bo‘lgan

me’yoriy tizimning samarali faoliyati hamda ushbu me’yorlarning shaxs ongida aks etish darajasi bilan bevosita bog‘liqdir.

Ijtimoiy falsafa va sotsiologiya fanlarida ijtimoiy tartibning shakllanishi ko‘pincha normativ tizimlarning jamiyat hayotidagi roli orqali izohlanadi. Ijtimoiy me’yorlar jamiyat a’zolarining o‘zaro munosabatlarini tartibga solib, ijtimoiy barqarorlik va ijtimoiy muvozanatni ta’minlaydi. Shu sababli jamiyatda mavjud bo‘lgan huquqiy, axloqiy va madaniy me’yorlarning shaxs ongida aks etishi ijtimoiy tartibning muhim sharti hisoblanadi. Aynan shu jarayon huquqiy ong fenomeni orqali namoyon bo‘ladi.

Mavzuga oid adabiyotlar tahlili

Huquqiy ong ijtimoiy ongning muhim tarkibiy qismi bo‘lib, u shaxsning huquqiy me’yorlar, qonunlar va huquqiy qadriyatlarga nisbatan munosabatini ifodalaydi. Huquqiy ong orqali inson jamiyatda mavjud bo‘lgan huquqiy normalarni anglaydi, ularning ijtimoiy ahamiyatini baholaydi hamda o‘z xulq-atvorini ushbu me’yorlarga mos ravishda shakllantiradi. Huquqiy ong va ijtimoiy reglamentatsiya o‘rtasidagi munosabatlar jamiyatda qonun ustuvorligini ta’minlash bilan bevosita bog‘liqdir. Shu nuqtai nazardan Sh.M.Mirziyoyev ta’kidlaganidek, “adolatli qonunlar va qarorlar qabul qilish, ularni hayotga tatbiq etish hamda barchaning qonun oldida tengligini ta’minlash jamiyat farovonligiga erishishning muhim sharti hisoblanadi”[1.86.]. Ushbu yondashuv huquqiy ongni rivojlantirish hamda jamiyatda adolat va qonun ustuvorligini mustahkamlashning muhim nazariy asoslaridan biri sifatida namoyon bo‘ladi. Shu sabab huquqiy ong jamiyatda huquqiy tartibni ta’minlashning muhim ijtimoiy mexanizmlaridan biri sifatida namoyon bo‘ladi.

Ijtimoiy tartib va huquqiy ong muammolari ko‘plab klassik sotsiologik nazariyalarda ham keng o‘rganilgan. Nemis sotsiologi Maks Veber jamiyatdagi ijtimoiy tartibning barqarorligi hokimiyatning legitimligi hamda normativ tizimlarning samarali amal qilishi bilan bog‘liq ekanini ta’kidlaydi. Uning fikricha, jamiyat a’zolari tomonidan tan olingan va legitim deb hisoblangan me’yorlar ijtimoiy tartibning asosiy tayanchi hisoblanadi[4.212.]. Weberning ushbu yondashuvi huquqiy ongning jamiyatdagi legitimlik tizimi bilan uzviy bog‘liqligini ko‘rsatadi.

Shuningdek, fransuz sotsiologi Emil Durkgeym ijtimoiy normalarni jamiyatning axloqiy asosini tashkil etuvchi muhim omil sifatida talqin qiladi. Uning fikricha, ijtimoiy me’yorlar jamiyat a’zolari o‘rtasidagi birdamlikni ta’minlab, jamiyatning barqaror faoliyat yuritishiga xizmat qiladi. Durkheim ijtimoiy normalar orqali jamiyatda ijtimoiy integratsiya va ijtimoiy muvozanat ta’minlanishini ta’kidlaydi[3.63.]. Bu nazariy yondashuv huquqiy ongning jamiyatdagi ijtimoiy birdamlik va ijtimoiy tartibni ta’minlashdagi rolini tushunishda muhim ahamiyat kasb etadi.

Zamonaviy jamiyatda ijtimoiy reglamentatsiya tizimi tobora murakkablashib bormoqda. Globalizatsiya jarayonlari, axborot texnologiyalarining rivojlanishi hamda ijtimoiy munosabatlarning diversifikatsiyasi natijasida huquqiy tizimlar ham yangi ijtimoiy sharoitlarga mos ravishda takomillashib bormoqda. Bu jarayon shaxsning huquqiy ongiga ham sezilarli ta’sir ko‘rsatib, huquqiy me’yorlarni anglash va ularga amal qilish jarayonini yanada murakkablashtirmoqda.

Shu sababli zamonaviy jamiyat sharoitida huquqiy ongning shakllanishi, uning ijtimoiy tartibni ta’minlashdagi roli hamda shaxsning huquqiy madaniyatini rivojlantirish jarayonlarini ijtimoiy-falsafiy jihatdan tahlil qilish muh im ilmiy vazifalardan biri hisoblanadi. Mazkur tadqiqotning asosiy maqsadi huquqiy ong fenomenining ijtimoiy-falsafiy mohiyatini tahlil qilish, uning jamiyatdagi ijtimoiy tartib va normativ tizimlar faoliyatidagi o‘rnini aniqlash hamda zamonaviy ijtimoiy sharoitlarda huquqiy ongning rivojlanish omillarini o‘rganishdan iboratdir.

Tadqiqot metodologiya

Mazkur tadqiqotda huquqiy ong fenomenining ijtimoiy-falsafiy mohiyatini aniqlash hamda uning jamiyatdagi normativ tartibni ta’minlashdagi rolini tahlil qilish maqsadida kompleks metodologik yondashuv qo‘llanildi. Zamonaviy jamiyatda ijtimoiy reglamentatsiya tizimi huquqiy, axloqiy va madaniy me’yorlarning o‘zaro uyg‘unligi asosida shakllangan murakkab ijtimoiy tizim hisoblanadi. Shu sababli tadqiqot jarayonida bir qator ilmiy metodlarning o‘zaro uyg‘unligi asosida tahlil olib borildi. Xususan, dialektik metod, tizimli (sistemali) yondashuv, qiyosiy tahlil hamda ijtimoiy-falsafiy interpretatsiya metodlaridan foydalanildi. Mazkur metodlar huquqiy ongning shakllanish jarayoni, uning ijtimoiy tartibni ta’minlashdagi o‘rni hamda shaxs va jamiyat o‘rtasidagi normativ munosabatlarni chuqurroq tahlil qilish imkonini berdi.

Tadqiqotda dialektik metod ijtimoiy normalar va huquqiy ong o‘rtasidagi o‘zaro bog‘liqlikni o‘rganishda muhim metodologik vosita sifatida qo‘llanildi. Dialektik yondashuv ijtimoiy hodisalarni ularning rivojlanish jarayoni, ichki ziddiyatlari va o‘zgarish dinamikasi bilan bog‘liq holda tahlil qilish imkonini beradi. Ijtimoiy normalar tizimi ham jamiyat taraqqiyoti davomida o‘zgarib boruvchi dinamik tizim bo‘lib, u shaxsning huquqiy ongiga ham sezilarli ta’sir ko‘rsatadi. Maks Veber jamiyatdagi ijtimoiy tartibning barqarorligi legitim hokimiyat hamda normativ tizimlarning samarali amal qilishi bilan bog‘liq ekanini ta’kidlab, jamiyat a’zolari tomonidan tan olingan ijtimoiy me’yorlar ijtimoiy tartibning asosiy tayanchi hisoblanishini qayd etadi [4. 212.]. Mazkur yondashuv huquqiy ongning shakllanishi ijtimoiy me’yorlar evolyutsiyasi bilan uzviy bog‘liq ekanini ko‘rsatadi.

Tadqiqot jarayonida tizimli yondashuv ham qo‘llanildi. Ushbu metod jamiyatni o‘zaro bog‘langan ijtimoiy institutlar tizimi sifatida o‘rganishni nazarda tutadi. Tizimli yondashuv yordamida huquqiy ong ijtimoiy reglamentatsiya tizimining muhim tarkibiy qismi sifatida tahlil qilindi. Jamiyatdagi huquqiy, axloqiy va madaniy me’yorlar o‘zaro bog‘liq holda faoliyat yuritib, ijtimoiy tartibni ta’minlashga xizmat qiladi. Ijtimoiy tizimlar nazariyasida ham jamiyat barqarorligi turli normativ institutlarning uyg‘un faoliyati bilan izohlanadi. Talkott Parsons jamiyatni o‘zaro bog‘langan ijtimoiy tizim sifatida talqin qilib, ijtimoiy me’yorlar jamiyatdagi ijtimoiy tartibni ta’minlovchi muhim funksional elementlardan biri ekanini ta’kidlaydi [8. 5.].

Shuningdek, tadqiqotda qiyosiy tahlil metodi qo‘llanildi. Ushbu metod turli ilmiy nazariyalarda huquqiy ong fenomenining talqinlarini solishtirish orqali uning nazariy asoslarini aniqlash imkonini berdi. Qiyosiy yondashuv yordamida klassik sotsiologik nazariyalar hamda zamonaviy ijtimoiy-falsafiy qarashlar o‘rtasidagi o‘xshashlik va farqlar tahlil qilindi. Emil Durkgeym ijtimoiy normalarni jamiyatning axloqiy asosini tashkil etuvchi muhim omil sifatida talqin qilib, ular jamiyat a’zolari o‘rtasidagi birdamlikni ta’minlashini ta’kidlaydi [3. 63.]. Durkgeymning ushbu nazariyasi ijtimoiy normalarning jamiyatdagi integratsion funksiyasini tushunishda muhim ahamiyat kasb etadi.

Bundan tashqari, tadqiqotda ijtimoiy-falsafiy interpretatsiya metodi qo‘llanildi. Mazkur metod yordamida shaxs va jamiyat o‘rtasidagi normativ munosabatlar, huquqiy ongning shakllanish jarayoni hamda uning ijtimoiy tartibni ta’minlashdagi roli talqin qilindi. Ijtimoiy-falsafiy interpretatsiya shaxsning huquqiy me’yorlarga nisbatan munosabatini, huquqiy qadriyatlarning shakllanishini hamda ularning jamiyat hayotiga ta’sirini chuqurroq tushunish imkonini beradi.

Shuningdek, tadqiqot jarayonida huquq falsafasi, sotsiologiya va ijtimoiy nazariya sohasidagi zamonaviy ilmiy manbalar tizimli ravishda tahlil qilindi. Ushbu manbalar huquqiy ongning shakllanishi, ijtimoiy normalarning jamiyat taraqqiyotidagi roli hamda ijtimoiy reglamentatsiya tizimining nazariy asoslarini aniqlashga xizmat qildi. Kompleks metodologik yondashuv tadqiqot natijalarining ilmiy asoslanganligini ta’minlash bilan birga, huquqiy ong fenomenining ijtimoiy-falsafiy mohiyatini chuqurroq yoritishga imkon berdi.

Tahlil va natijalar

Olib borilgan tadqiqot natijalari shuni ko‘rsatdiki, huquqiy ongda ijtimoiy normalarning aks etishi murakkab ijtimoiy jarayon bo‘lib, u jamiyatda mavjud bo‘lgan normativ tizimlar, ijtimoiy institutlar hamda shaxsning ijtimoiy tajribasi bilan uzviy bog‘liqdir. Huquqiy ong shaxsning huquqiy me’yorlar va ijtimoiy qadriyatlarga nisbatan munosabatini ifodalovchi ijtimoiy ong shakli sifatida jamiyatda ijtimoiy tartibni ta’minlashda muhim rol o‘ynaydi. Tadqiqot jarayonida huquqiy ongning shakllanishi va rivojlanishiga ta’sir etuvchi bir qator omillar aniqlanib, ular quyidagi asosiy yo‘nalishlarda namoyon bo‘lishi qayd etildi.

Birinchidan, ijtimoiy normalar tizimi huquqiy ongning shakllanishida muhim omil hisoblanadi. Jamiyatda ijtimoiy tartibni ta’minlash uchun turli normativ tizimlar mavjud bo‘lib, ular shaxs xulq-atvorini tartibga soluvchi muhim mexanizm sifatida faoliyat yuritadi. Mazkur tizimga huquqiy normalar, axloqiy normalar hamda an’anaviy va madaniy me’yorlar kiradi. Ushbu normalar jamiyat a’zolari o‘rtasidagi munosabatlarni tartibga solib, ijtimoiy muvozanatni ta’minlaydi. Emil Durkgeym ijtimoiy normalarni jamiyatning axloqiy asosini tashkil etuvchi muhim omil sifatida talqin qilib, ular jamiyat a’zolari o‘rtasidagi ijtimoiy birdamlikni ta’minlashini ta’kidlaydi[3.63.]. Demak, ijtimoiy normalar tizimi shaxsning huquqiy ongini shakllantirish bilan birga, jamiyatda barqaror ijtimoiy tartibni ta’minlashga ham xizmat qiladi.

Ikkinchidan, ijtimoiy reglamentatsiya mexanizmlari huquqiy ongning amaliy namoyon bo‘lishida muhim rol o‘ynaydi. Ijtimoiy reglamentatsiya jamiyatdagi munosabatlarni tartibga soluvchi institutlar tizimi orqali amalga oshiriladi. Bu jarayonda davlat, fuqarolik jamiyati institutlari, ta’lim tizimi hamda madaniy an’analar muhim rol o‘ynaydi. Maks Veber jamiyatdagi ijtimoiy tartib legitim hokimiyat va normativ tizimlarning samarali amal qilishi orqali ta’minlanishini ta’kidlaydi [4.212.]. Shu nuqtai nazardan qaralganda, huquqiy me’yorlarning jamiyat hayotida samarali amal qilishi shaxsning huquqiy ong darajasi bilan chambarchas bog‘liqdir.

Uchinchidan, huquqiy ongning shakllanishi shaxsning ijtimoiy tajribasi, ta’lim tizimi va huquqiy madaniyat bilan bog‘liqdir. Shaxs huquqiy me’yorlarni o‘zlashtirish jarayonida jamiyatdagi ijtimoiy munosabatlar tizimi bilan o‘zaro aloqada bo‘ladi. Ta’lim tizimi va huquqiy tarbiya jarayoni shaxsda huquqiy madaniyatni shakllantirib, uning qonunlarga nisbatan ongli munosabatini rivojlantiradi. Zamonaviy ijtimoiy nazariyalarda huquqiy madaniyat jamiyatda qonun ustuvorligini ta’minlashning muhim omili sifatida baholanadi. Shu sabab huquqiy ongning rivojlanishi jamiyatda huquqiy davlat tamoyillarining mustahkamlanishiga xizmat qiladi.

To‘rtinchidan, shaxsning faol ijtimoiy pozitsiyasi huquqiy ongning rivojlanishida muhim ahamiyat kasb etadi. Shaxs jamiyatda mavjud bo‘lgan huquqiy me’yorlarni nafaqat qabul qiladi, balki ularni ijtimoiy amaliyot orqali rivojlantirish jarayonida ham faol ishtirok etadi. Huquqiy ong shaxsning ijtimoiy mas’uliyatini oshirib, uning fuqarolik pozitsiyasini mustahkamlaydi. Ijtimoiy nazariyada shaxs va jamiyat o‘rtasidagi o‘zaro munosabatlar ijtimoiy tartibni ta’minlashning muhim omili sifatida talqin qilinadi. Talkott Parsons jamiyatni o‘zaro bog‘langan ijtimoiy institutlar tizimi sifatida izohlab, shaxslarning ijtimoiy me’yorlarga mos xulq-atvori jamiyat barqarorligini ta’minlashini ta’kidlaydi [8.5.].

Umuman olganda, tadqiqot natijalari huquqiy ong jamiyatdagi ijtimoiy tartibni ta’minlashning muhim ijtimoiy mexanizmi ekanini ko‘rsatdi. Ijtimoiy normalar tizimi, ijtimoiy reglamentatsiya institutlari, ta’lim va huquqiy madaniyat hamda shaxsning faol ijtimoiy pozitsiyasi huquqiy ongning shakllanishi va rivojlanishiga bevosita ta’sir ko‘rsatadi. Shu sabab huquqiy ongni rivojlantirish jamiyatda qonun ustuvorligini ta’minlash hamda ijtimoiy barqarorlikni mustahkamlashning muhim omillaridan biri hisoblanadi.

Tadqiqot natijalarini tahlil qilish shuni ko‘rsatadiki, huquqiy ong va ijtimoiy reglamentatsiya o‘rtasidagi munosabatlar jamiyatning normativ tizimi bilan bevosita bog‘liqdir. Huquqiy ong shaxsning huquqiy me’yorlar, qonunlar va huquqiy qadriyatlarga nisbatan munosabatini ifodalovchi ijtimoiy ong shakli sifatida ijtimoiy tartibni ta’minlashda muhim rol o‘ynaydi. Jamiyatda mavjud bo‘lgan huquqiy me’yorlar faqat institutsional darajada amal qilishi bilan emas, balki shaxs ongida qanchalik chuqur aks etishi va ichki e’tiqod sifatida qabul qilinishi bilan ham ijtimoiy barqarorlikka ta’sir ko‘rsatadi. Shu nuqtai nazardan qaralganda, huquqiy ong jamiyatdagi normativ tizimning samarali faoliyat yuritishida muhim vosita hisoblanadi.

Ijtimoiy falsafa va huquq nazariyasida huquqiy ong jamiyatda adolat va ijtimoiy tartibni ta’minlovchi muhim omil sifatida talqin qilinadi. Amerikalik faylasuf Jon Rauls adolatli jamiyatni barpo etishda huquqiy me’yorlarning jamiyat a’zolari tomonidan ongli ravishda qabul qilinishi muhim ahamiyatga ega ekanligini ta’kidlaydi. Uning fikricha, jamiyatda adolat tamoyillari faqat huquqiy institutlar orqali emas, balki fuqarolarning ushbu me’yorlarni ichki e’tiqod sifatida qabul qilishi orqali amalga oshadi [5. 54.]. Bu nazariy qarash huquqiy ongning jamiyatda adolatli ijtimoiy tizimni shakllantirishdagi muhim rolini ko‘rsatadi.

Zamonaviy ijtimoiy-falsafiy tadqiqotlarda huquqiy ong fuqarolik jamiyati institutlarining rivojlanishi bilan ham uzviy bog‘liq holda o‘rganiladi. Fuqarolik jamiyatining samarali faoliyati fuqarolarning huquqiy madaniyati va ijtimoiy mas’uliyatiga bog‘liqdir. Jamiyat a’zolari huquqiy me’yorlarni qanchalik chuqur anglab, ularni ongli ravishda qabul qilsa, jamiyatda qonun ustuvorligini ta’minlash shunchalik samarali amalga oshiriladi. Ijtimoiy nazariyada huquqiy madaniyat shaxsning huquqiy me’yorlarga nisbatan ongli munosabati, huquqiy qadriyatlarga sodiqligi hamda ijtimoiy mas’uliyat hissi bilan bog‘liq tushuncha sifatida talqin qilinadi.

Huquqiy ongning rivojlanishi shaxsning ijtimoiy faolligi va fuqarolik pozitsiyasining shakllanishiga ham bevosita ta’sir ko‘rsatadi. Huquqiy madaniyat darajasi yuqori bo‘lgan jamiyatlarda fuqarolar nafaqat qonunlarga rioya qiladi, balki ijtimoiy hayotdagi turli jarayonlarda faol ishtirok etadi. Shu sabab huquqiy ongning rivojlanishi jamiyatda demokratik qadriyatlarning mustahkamlanishiga ham xizmat qiladi. Fuqarolik jamiyatida huquqiy ong shaxsning jamiyat hayotidagi faol ishtiroki, ijtimoiy mas’uliyat hissi hamda ijtimoiy hamkorlik tamoyillarining rivojlanishida muhim omil sifatida namoyon bo‘ladi.

O‘zbekiston jamiyatida ham huquqiy ongni rivojlantirish davlat siyosatining ustuvor yo‘nalishlaridan biri sifatida qaralmoqda. Huquqiy davlat va fuqarolik jamiyati qurish jarayonida fuqarolarning huquqiy madaniyatini oshirish, ularning qonunlarga hurmat ruhida tarbiyalanishi muhim ahamiyat kasb etadi. Huquqiy madaniyatni rivojlantirish orqali fuqarolarning ijtimoiy faolligini oshirish, qonun ustuvorligini mustahkamlash hamda jamiyatda ijtimoiy barqarorlikni ta’minlash mumkin. Sh.M.Mirziyoyev ta’kidlaganidek, “Qonun va adolat ustuvorligini ta’minlash – Yangi O‘zbekistonni barpo etishning eng muhim shartidir” [2. 42.]. Mazkur yondashuv huquqiy ong va ijtimoiy reglamentatsiya masalalarini tahlil qilishda alohida ahamiyatga ega bo‘lib, u jamiyatda normativ tartibning samaradorligi adolatli huquqiy tizim bilan bevosita bog‘liq ekanini ko‘rsatadi.

Shu nuqtai nazardan qaralganda, huquqiy ongni rivojlantirish jamiyat taraqqiyotining muhim shartlaridan biri hisoblanadi. Huquqiy madaniyatni yuksaltirish, shaxsning huquqiy bilimlarini oshirish hamda fuqarolik mas’uliyatini rivojlantirish orqali jamiyatda ijtimoiy tartib va qonun ustuvorligini mustahkamlash mumkin. Demak, huquqiy ong va ijtimoiy reglamentatsiya o‘rtasidagi o‘zaro bog‘liqlik jamiyatning barqaror rivojlanishini ta’minlovchi muhim ijtimoiy-falsafiy omil sifatida namoyon bo‘ladi.

Xulosa

Olib borilgan tadqiqot natijalari shuni ko‘rsatdiki, huquqiy ong jamiyatdagi ijtimoiy normalarning shaxs ongida aks etish shakli sifatida ijtimoiy tartibni ta’minlashda muhim ijtimoiy-falsafiy omil hisoblanadi. Huquqiy ong orqali shaxs jamiyatda amal qilayotgan huquqiy me’yorlarni anglaydi, ularning mazmunini baholaydi hamda o‘z xulq-atvorini ushbu me’yorlarga mos ravishda shakllantiradi. Shu sabab huquqiy ong nafaqat huquqiy bilimlar majmui, balki shaxsning ijtimoiy mas’uliyatini belgilovchi muhim ma’naviy va madaniy hodisa sifatida namoyon bo‘ladi.

Tadqiqot natijalari ijtimoiy reglamentatsiya tizimi jamiyatdagi ijtimoiy munosabatlarni tartibga soluvchi murakkab normativ mexanizm ekanligini ham ko‘rsatdi. Mazkur tizim huquqiy, axloqiy va madaniy normalarning o‘zaro uyg‘unligi asosida shakllanib, jamiyatda ijtimoiy tartib va barqarorlikni ta’minlashga xizmat qiladi. Ijtimoiy reglamentatsiya jarayonida davlat institutlari, fuqarolik jamiyati tashkilotlari hamda madaniy an’analar muhim rol o‘ynaydi. Shu jihatdan qaralganda, huquqiy ong va ijtimoiy reglamentatsiya o‘zaro bog‘liq jarayonlar bo‘lib, ular jamiyatda normativ tizimlarning samarali faoliyat yuritishini ta’minlaydi.

Ijtimoiy-falsafiy nuqtai nazardan qaralganda, huquqiy ongning rivojlanishi shaxsning ijtimoiy faolligi, fuqarolik pozitsiyasi hamda huquqiy madaniyati bilan uzviy bog‘liqdir. Huquqiy madaniyat darajasi yuqori bo‘lgan jamiyatlarda fuqarolar nafaqat qonunlarga rioya qiladi, balki ijtimoiy hayotdagi turli jarayonlarda faol ishtirok etadi. Bu esa jamiyatda qonun ustuvorligini ta’minlash, fuqarolik jamiyati institutlarini rivojlantirish hamda ijtimoiy barqarorlikni mustahkamlashga xizmat qiladi. Shu sabab huquqiy ongning rivojlanishi demokratik jamiyat taraqqiyotining muhim shartlaridan biri sifatida qaraladi.

Kelajakda huquqiy ongni rivojlantirishning samarali mexanizmlarini shakllantirish jamiyatda ijtimoiy barqarorlikni ta’minlash hamda qonun ustuvorligini mustahkamlashning muhim omillaridan biri bo‘lib qoladi. Ta’lim tizimida huquqiy madaniyatni rivojlantirish, fuqarolarning huquqiy bilimlarini oshirish hamda ijtimoiy mas’uliyatni kuchaytirish orqali jamiyatda huquqiy ongninFg barqaror rivojlanishini ta’minlash mumkin. Shu nuqtai nazardan qaralganda, huquqiy ongni rivojlantirish zamonaviy jamiyat taraqqiyotining muhim strategik yo‘nalishlaridan biri sifatida namoyon bo‘ladi.

Annotatsiya: *Ushbu maqolada jamiyat va shaxs taraqqiyotida innovatsion tafakkurning o‘rni, ahamiyati va funksional xususiyatlari tadqiq qilingan. Innovatsion tafakkur zamonaviy globallashuv sharoitida ijtimoiy-iqtisodiy rivojlanishning muhim omillaridan biri sifatida qaraladi. Tadqiqotda shaxsning ijodiy fikrlashi, yangilikka intilishi va muammolarga noan’anaviy yondashuvi jamiyat taraqqiyotiga bevosita ta’sir ko‘rsatishi ijtimoiy-falsafiy jihatdan yoritilgan.*

Kalit so‘zlar: *Innovatsiya, tafakkur, shaxs rivoji, ijodkorlik, zamonaviy ta’lim, intellektual salohiyat.*

РОЛЬ ИННОВАЦИОННОГО МЫШЛЕНИЯ В РАЗВИТИИ ОБЩЕСТВА И ЧЕЛОВЕКА

Аннотация: *В данной статье анализируется роль, значение и функциональные особенности инновационного мышления в развитии общества и личности. Инновационное мышление рассматривается как один из важных факторов социально-экономического развития в условиях современной глобализации. В исследовании на научной основе освещено, что творческое мышление личности, стремление к инновациям и нетрадиционный подход к проблемам оказывают непосредственное влияние на развитие общества.*

Ключевые слова: *Инновация, мышление, развитие личности, творчество, современное образование, интеллектуальный потенциал.*

THE ROLE OF INNOVATIVE THINKING IN THE DEVELOPMENT OF SOCIETY AND MAN

Abstract: *This article analyzes the role, significance, and functional features of innovative thinking in the development of society and the individual. Innovative thinking is considered one of the important factors of socio-economic development in the context of modern globalization. In the study, it is scientifically substantiated that a person’s creative thinking, striving for innovation, and a non-traditional approach to problems have a direct impact on the development of society.*

Keywords: *Innovation, thinking, personal development, creativity, modern education, intellectual potential.*

Kirish

Hozirgi global raqobatbardosh zamonaviy jamiyatda shaxsning ijodiy qobiliyatlari va innovatsion tafakkuri eng muhim omillardan biri sifatida ahamiyat kasb etmoqda. Innovatsion tafakkur – yangi g‘oyalarni ishlab chiqish, ularni baholash va samarali qo‘llash qobiliyati – shaxsning ijodiy faoliyatining asosiy drayverlaridan biridir. Shu bilan birga, innovatsion tafakkur insonning fikrlash darajasini, muammolarni samarali hal qilish qobiliyatini va ijtimoiy hamda professional sohadagi faolligini shakllantiradi.

Innovatsion tafakkur – bu yangi g‘oyalar va yechimlarni qo‘llashga yo‘naltirilgan tafakkur shaklidir. Innovatsion tafakkur tarixan inson ijodkorligi va yangi g‘oyalarni qo‘llashga asoslanadi. Kishilik tarixida tosh davridan boshlab insoniyat hayotida iqtisodiy va madaniy rivojlanishlar bo‘lgan. Qadimgi davridan insonlar mehnat qurollari tayyorlashda texnikaviy kashfiyotlar qilgan. Chaqmoqtoshdan yasalgan mikrolit pichoq, qirg‘ich, bigiz, yog‘och o‘yish qurollari, o‘q-yoy uchlari, parmalash qurollari, bolg‘a, toshboltalar kundalik hayotda toshdan yasalgan mehnat qurollari inosoniyatni innovatsion tafakkur mahsulining ilk natijalari ekanligini isbotlaydi.

Insonning tafakuri, dunyoqarashi, atrof-muhitga bo‘lgan yondoshuvi kundalik qarashlar, fikrlar bilan qoniqmaydi. Albatta, o‘zi yashab turgan muhitni o‘zlashtirishni va yangilashni hohlaydi. Yangilik izlash, yangi g‘oyalarga intilish insondagi bilish xislatiga, gnosologik ehtiyojlarga moyildir. Zero,innovatsiya eng avvalo shaxsdagi ichki, ma’naviy-ruhiy va epstomologik ehtiyojlar mahsulidir. Innovatsion tafakkur zamirida shaxsning tabiat va jamiyat hayotini aql asosida yangilash hamda o‘zgartirish istagi yotadi.

Tafakkur borlikni bilvosita aks ettira oladi. Unda yangi bilimlar tajribaga har safar bevosita murojaat etmasdan, mavjud bilimlarga tayangan xolda xosil kdlinadi. Tafakkur ko‘p qirrali jarayon bo‘lib, uni turli xil tomondan, xususan, mazmuni va shakli bo‘yicha, tayyor holida yoki kelib chikishi va taraqqiyotida olib o‘rganish mumkin.

Globallashuv bugungi kunda jahon miqyosida o‘zining ijobiy va salbiy tomonlari bilan namoyon bo‘lmoqda. Bu jarayon hozirgi davrda tobora shiddatli tus olishi natijasida o‘zining avj nuqtasiga ko‘tarilib ijtimoiy-siyosiy, iqtisodiy, madaniy va ma’rifiy sohalarda namoyon bo‘layotganligini kuzatish mumkin. Shu o‘rinda har bir narsa va hodisani teran tafakkur qilish orqali inson globallashuvning ma’no-mazmuni va tub mohiyati nimada ekanligini anglab yetmoqda. “Globallashuv eng avvalo millatsizlanish, millatning yo‘qotilishi yoki unutilishi, milliy davlat qarashlarining yo‘qolishi va tushunarsiz transmilliy hayot shaklidir” [1.78].

Adabiyotlar tahlili va metodologiya

XXI asrdagi global o‘zgarishlar natijasida iqtisodiyot, texnologiya, ta’lim va ijtimoiy munosabatlarda tub o‘zgarishlar yuz bermoqda. Mamlakatlarning raqobatbardoshligi endi tabiiy resurslar yoki arzon ishchi kuchiga emas, balki innovatsion tafakkur, yangilik yarata olish qobiliyati va tadbirkorlik madaniyatiga bog‘liq bo‘lib qolmoqda. Innovatsion tafakkur – bu faqat yangi g‘oya yaratish emas, balki muammolarga yangicha yondashish, standart yechimlardan voz kechib, ijodiy va samarali yondashuvlarni ishlab chiqish qobiliyatidir.

Shumpeter innovatsiyani iqtisodiy rivojlanishning asosiy harakatlantiruvchi kuchi sifatida baholaydi. “Yangi g‘oyalar eski tizimlarni yo‘q qiladi va yangisini yaratadi” deb hisoblaydi [2.63]. Inson tafakkuri va ijodiy faoliyati jamoaviy o‘zaro ta’sir jarayonida shakllanadi, bu esa innovatsiyalarning ham ijtimoiy tabiatga ega ekanini mashhur psixolog olim Lev Semyonovich Vigotskiy o‘z asarlarida ifoda etgan. U inson fikrlashi va yangilik yaratishi ijtimoiy hamkorlik orqali shakllanish g‘oyasini ilgari surib, “innovatsiya jamoaviy faoliyat natijasi” [3.185] deb ta’kidlaydi. Abdulla Avloniyning ijodida innovatsion tafakkur – bilimga intilish, mustaqil fikrlash va zamonga moslashish [4.47] kabi milliy-falsafiy g‘oyalar sifatida namoyon bo‘ladi.

Yuqoridagi falsafiy qarashlardan ko‘rinib turibdiki, innovatsion tafakkur turli davr va maktablarda turlicha talqin qilingan bo‘lsa-da, ularni birlashtiruvchi jihat – yangilikka intilish, tanqidiy fikrlash va ijodkorlikdir. Bu nazariyalar shaxs rivojida innovatsion tafakkurni shakllantirish uchun mustahkam nazariy asos bo‘lib xizmat qiladi.

Davlat innovatsion siyosati mahalliy mahsulotlar raqobatbardoshligini oshirish, barqaror iqtisodiy o‘sishni ta’minlash, aholining turmush sifati va darajasini oshirish, texnologik va ekologik xavfsizligini ta’minlash uchun innovatsion faoliyat ustuvorliklarini tan olishdan kelib chiqib shakllantiriladi va amalga oshiriladi. Prezidentimiz ta’kidlanalaridek, “...Yangi O‘zbekistonni barpo etish va Uchinchi Renessans poydevorini yaratishda ziyolilarimizga katta ishonch bilan qaraymiz. Shuning uchun bu zahmatkash insonlarning ilmiy va ijodiy izlanishlarini har tomonlama qo‘llab-quvvatlash, ularga zarur sharoitlar yaratishni o‘zimizning birlamchi vazifamiz sifatida ko‘rishimiz darkor” [5.42]. Davlatning olib borayotgan innovatsion siyosatining asosiy maqsadi innovatsion faoliyat uchun mahalliy mahsulotlar raqobatbardoshligining o‘sishi, fan-texnika yutuqlaridan samarali foydalanish, ijtimoiy-iqtisodiy rivojlanish masalalarini hal etishni ta’minlaydigan iqtisodiy, huquqiy va tashkiliy sharoitlar yaratish hamda mamlakatning mudofaa qobiliyatini, shaxs, jamiyat va davlat xavfsizligini mustahkamlashdan iborat. Innovatsion tafakkurning rivoji davlat uchun strategik ahamiyatga ega, chunki u mamlakatning iqtisodiy, ijtimoiy va texnologik taraqqiyotini ta’minlaydi.

Innovatsion tafakkur – bu insonning real voqelikka noan’anaviy, ijodiy va maqsadga yo‘naltirilgan yondashuv asosida fikr yuritishidir. Uning asosini quyidagi omillar tashkil qiladi. Birinchidan kreativlik – yangi g‘oyalar yaratish qobiliyati. Ikkinchidan, tanqidiy tafakkur – vaziyatni chuqur tahlil qilish va uning ildiziga yetish. Uchinchidan, intellektual mobillik – yangi sharoitlarga tez moslashish xususiyati.

Natija va muhokama

Zamonaviy jamiyat jadal sur’atlar bilan rivojlanib borayotgan bir paytda insondan faqat bilimli bo‘lish emas, balki yangicha fikrlay olish, o‘zgarishlarga tez moslasha olish va yangi g‘oyalar yarata olish talab etilmoqda. Shu bois innovatsion tafakkur shaxs rivojining eng muhim omillaridan biri hisoblanadi. Innovatsion tafakkur – bu insonning turli sohalardagi muammolarga noan’anaviy yondashishi, yangi yechimlar topishi va doimiy izlanishda bo‘lish qobiliyatidir.

Avvalo, innovatsion tafakkur shaxsning ijodkorlik qobiliyatini rivojlantiradi. Ijodkor inson har qanday vaziyatda standart yo‘llar bilan cheklanib qolmaydi, balki yangi imkoniyatlarni izlaydi. Bu esa uning intellektual salohiyatini oshiradi va uni yaratuvchan shaxsga aylantiradi. Shu bilan birga, innovatsion fikrlash insonda mustaqil qaror qabul qilish qobiliyatini ham shakllantiradi. U tayyor fikrlarga ergashmaydi, balki o‘z qarashlarini shakllantiradi va ularni asoslab bera oladi.

Innovatsion tafakkurning yana bir muhim jihati – muammolarni samarali hal qilish qobiliyatidir. Bunday tafakkurga ega shaxs muammolarni turli nuqtayi nazardan ko‘rib chiqadi va eng maqbul yechimni topishga intiladi. Bu esa uni hayotda va kasbiy faoliyatda muvaffaqiyatga olib keladi. Ayniqsa, raqobat kuchayib borayotgan zamonaviy mehnat bozorida innovatsion fikrlaydigan kadrlarga talab juda yuqori. Shuning uchun innovatsion tafakkur shaxsning raqobatbardoshligini ta’minlaydi.

Shuningdek, innovatsion tafakkur liderlik qobiliyatini rivojlantirishda ham muhim ahamiyat kasb etadi. Yangi g‘oyalar ilgari suradigan, o‘zgarishlarga tayyor va tashabbuskor insonlar jamoada yetakchiga aylanadi. Ular nafaqat o‘zini, balki boshqalarni ham rivojlanishga undaydi. Bu esa jamiyat taraqqiyotiga ijobiy ta’sir ko‘rsatadi.

Bundan tashqari, innovatsion tafakkur insonni doimiy ravishda o‘z-o‘zini rivojlantirishga undaydi. Yangi bilim va ko‘nikmalarni egallashga intilish insonni intellektual jihatdan boyitadi va uni zamon talablariga moslashtiradi. Bunday shaxs hayot davomida o‘qish va o‘rganishdan to‘xtamaydi.

Innovatsion tafakkur va tadbirkorlik madaniyati amalda bir-birini to‘ldiruvchi ikki negiziy omil hisoblanadi. Innovatsiya g‘oya yaratadi, tadbirkorlik madaniyati esa uni amalga oshiradi. Ularning o‘zaro bog‘liqligi quyidagi jihatlarda namoyon bo‘ladi:

- innovatsion tafakkur – yangi texnologiya, mahsulot yoki biznes modelini ishlab chiqadi.
- tadbirkorlik madaniyati – ushbu g‘oyaning bozorda to‘g‘ri joylashini ta’minlaydi.
- innovatsion fikrlash risklarni aniqlaydi, tadbirkorlik madaniyati esa ularni boshqaradi.
- innovatsion tafakkur ilmiy asos yaratsa, tadbirkorlik madaniyati iqtisodiy samaradorlikni oshiradi. Kuchli innovatsion muhit mavjud bo‘lgan joyda odatda startaplar, klasterlar, texnoparklar va biznes-inkubatorlar tez rivojlanadi.

Agar globallashuv iqtisodiy moddiy tayanchga mablag‘ sarflashga, madaniy-ma’naviy merosga tayanmasa, tafakkur rivojlanish yo‘liga ega bo‘la olmasligi namoyon bo‘lmoqda. Jamiyatni qachonlardir rivojlanishinikutib yashaydigan bo‘lsak, hech qanday yangi narsa yaratmaymiz va yarata olmaymiz, amaliyotga ham tatbiq qila olmaymiz, oqibatda dogmaga o‘xshab qotib qolamiz. Kim nimani yaratsa unga mahliyo bo‘lib o‘tiraveramiz, innovatsiya ham ijodkorlik ham qila olmaymiz, bu borada salohiyatimiz yetmaydi deb bahonalar izlab qolamiz. Aslida, ta’lim-tarbiya berish jarayonida yoshlarda boshqalarning yaratgan innovatsiya va yangiliklariga mahliyo bo‘lishni emas, aksincha shunga o‘xshash yoki undanda yaxshiroq amaliy ishlar qila olishi va yarata olishi mumkinligini tushuntirishimiz darkor. Shaxsning bor imkoniyatlaridan to‘liq foydalanish ko‘nikmasini hamda ularni g‘ayritabiiy fikrlash qobiliyati hisoblangan innovatsion tafakkurni shakllantirish va rivojlantirishga e’tibor qaratish kerak.

Xulosa

Xulosa qilib aytganda, innovatsion tafakkur shaxsning intellektual, ijtimoiy va kasbiy rivojida hal qiluvchi ahamiyatga ega. U insonni ijodkor, mustaqil, raqobatbardosh va faol shaxs sifatida shakllantiradi. Shuning uchun ta’lim tizimida va jamiyatda innovatsion fikrlashni rivojlantirishga alohida e’tibor qaratish zarur. Zero, innovatsion tafakkur shaxsning intellektual va ijtimoiy rivojining asosiy omili bo‘lib, u insonni yangi g‘oyalar yaratishga, mustaqil qaror qabul qilishga va zamonaviy jamiyatda muvaffaqiyatli faoliyat yuritishga tayyorlaydi.

Tafakkur insonning ma’naviy olami, moddiy va ma’naviy ehtiyojlari bilan birgalikda aqliy tafakkur natijasida namoyon bo‘ladi. Inson tafakkurining strukturaviy ko‘rinishi doimiy rivojlanish faoliyati orqali yuzaga chiqadi. Inson tafakkuri olamining boyligi bilim, ijtimoiy-madaniy omillar va uzluksiz ta’lim tizimi samaradorligiga bog‘liq hamda ijtimoiy gumanitar fanlar hisoblangan falsafa, tarix, mantiq, psixologiya fanlari tizimida tafakkur va uning innovatsion xususiyatlariga alohida e’tibor qaratish lozim.

Shaxs ijodiy qobiliyatlari rivojida innovatsion tafakkurning roli katta ahamiyatga ega. Innovatsion tafakkur shaxsga yangi g‘oyalarni ishlab chiqish, ularni baholash va samarali qo‘llash imkonini beradi, shu bilan birga shaxsning intellektual va ijodiy rivojlanishiga turtki bo‘ladi. Zamonaviy bilimli jamiyatda innovatsion tafakkur shaxsning professional va ijtimoiy salohiyatini oshirishda asosiy omillardan biri hisoblanadi. Shu sababli ta’lim muassasalari va tashkilotlar shaxsda innovatsion tafakkurni rivojlantirishga qaratilgan metodikalarni yaratish va tatbiq etishlari zarur. Oddiy odam muammoni ko‘radi, innovatsion tafakkukrga ega odam esa muammoni yechimni ko‘ra oladi. Bundan tashqari insonni hayoti davomida yuzaga keladigan muammolarni hal qilishda,zamonga moslashishda, faoliyatida muvaffaqiyatga erishishida va boshqalardan ustun bo‘lishida innovatsion tafakkurning o‘rni beqiyosdir. Qisqacha qilib aytganda, innovatsion tafakkur – bu zamonaviy dunyoda yashash va yutuqqa erishish quroli.

O‘ZBEKISTONDA IJTIMOIY TADBIRKORLIKNI RIVOJLANTIRISHNING MAVJUD MUAMMOLARI VA ULARNI BARTARAF ETISH MEXANIZMLARI

Abdulboqiyev Abduqodir Bahodirjon o‘g‘li
Farg‘ona davlat universiteti mustaqil tadqiqotchisi

Annotatsiya. *Mazkur maqolada O‘zbekistonda ijtimoiy tadbirkorlikni rivojlantirishning mavjud muammolari hamda ularni bartaraf etishning ijtimoiy-falsafiy mexanizmlari tahlil qilinadi. Tadqiqotda ijtimoiy tadbirkorlikning nazariy asoslari, uning fuqarolik jamiyati va barqaror rivojlanishdagi o‘rni yoritilgan. Shuningdek, normativ-huquqiy bazaning yetarli darajada shakllanmaganligi, moliyaviy resurslarga kirish imkoniyatlarining cheklanganligi, ijtimoiy innovatsiyalarni qo‘llab-quvvatlash mexanizmlarining sustligi hamda aholi orasida ijtimoiy tadbirkorlik madaniyatining yetarlicha rivojlanmaganligi kabi muammolar o‘rganilgan. Tadqiqot natijasida ijtimoiy tadbirkorlikni rivojlantirishning institutsional, iqtisodiy va ma’naviy mexanizmlari taklif etilgan.*

Kalit so‘zlar: *ijtimoiy tadbirkorlik, ijtimoiy innovatsiya, fuqarolik jamiyati, ijtimoiy mas’uliyat, barqaror rivojlanish, ijtimoiy kapital, ijtimoiy loyiha, ijtimoiy transformatsiya, tadbirkorlik madaniyati.*

СУЩЕСТВУЮЩИЕ ПРОБЛЕМЫ РАЗВИТИЯ СОЦИАЛЬНОГО ПРЕДПРИНИМАТЕЛЬСТВА В УЗБЕКИСТАНЕ И МЕХАНИЗМЫ ИХ ПРЕОДОЛЕНИЯ

Аннотация. *В статье анализируются существующие проблемы развития социального предпринимательства в Узбекистане и социально-философские механизмы их преодоления. Исследуются теоретические основы социального предпринимательства, его роль в развитии гражданского общества и устойчивого развития. Особое внимание уделяется проблемам недостаточной нормативно-правовой базы, ограниченного доступа к финансовым ресурсам, слабой поддержки социальных инноваций и недостаточного уровня культуры социального предпринимательства среди населения. Предлагаются институциональные, экономические и духовно-нравственные механизмы дальнейшего развития социального предпринимательства.*

Ключевые слова: *социальное предпринимательство, социальные инновации, гражданское общество, социальная ответственность, устойчивое развитие, социальный капитал, социальный проект.*

EXISTING PROBLEMS OF SOCIAL ENTREPRENEURSHIP DEVELOPMENT IN UZBEKISTAN AND MECHANISMS FOR OVERCOMING THEM

Abstract. *This article examines the existing challenges of social entrepreneurship development in Uzbekistan and proposes socio-philosophical mechanisms for overcoming them. The study explores the theoretical foundations of social entrepreneurship and its role in civil society development and sustainable growth. Particular attention is paid to issues such as insufficient legal frameworks, limited access to financial resources, weak support for social innovation, and the underdeveloped culture of social entrepreneurship. Based on the findings, institutional, economic, and value-based mechanisms for strengthening social entrepreneurship are proposed.*

Keywords: *social entrepreneurship, social innovation, civil society, social responsibility, sustainable development, social capital, social projects.*

Kirish. So‘nggi yillarda dunyo miqyosida ijtimoiy tadbirkorlik jamiyat oldida turgan murakkab ijtimoiy muammolarni hal etishning innovatsion mexanizmlaridan biri sifatida e’tirof etilmoqda. Mazkur faoliyat turi iqtisodiy samaradorlik va ijtimoiy manfaatlarning uyg‘unlashuviga asoslanib, aholining ijtimoiy himoyaga muhtoj qatlamlarini qo‘llab-quvvatlash, bandlikni oshirish, ta’lim va sog‘liqni saqlash xizmatlarini takomillashtirish kabi vazifalarni bajarishga xizmat qiladi [1].

Ijtimoiy tadbirkorlikning nazariy asoslari M.Yunus, G.Diz, P.Druker va boshqa olimlar tomonidan ishlab chiqilgan bo‘lib, ular ushbu faoliyatni ijtimoiy qiymat yaratishga qaratilgan tadbirkorlik modeli sifatida talqin qiladilar [2].

Zamonaviy ijtimoiy-falsafiy yondashuvlarda esa ijtimoiy tadbirkorlik fuqarolik jamiyatining rivojlanishi, ijtimoiy birdamlik va ijtimoiy mas'uliyatni mustahkamlovchi institut sifatida qaraladi.

O'zbekistonda bozor iqtisodiyotini chuqurlashtirish, fuqarolik jamiyatini rivojlantirish hamda kambag'allikni qisqartirishga qaratilgan islohotlar ijtimoiy tadbirkorlik rivoji uchun yangi imkoniyatlar yaratmoqda. Biroq ushbu sohaning institutsional shakllanishi jarayonida qator muammolar ham mavjud bo'lib, ular ijtimoiy tadbirkorlikning jamiyat hayotidagi imkoniyatlaridan to'liq foydalanishga to'sqinlik qilmoqda.

Ushbu tadqiqotning dolzarbligi ham aynan O'zbekistonda ijtimoiy tadbirkorlik rivojlanishiga ta'sir etayotgan omillarni aniqlash va ularni bartaraf etishning ijtimoiy-falsafiy mexanizmlarini ishlab chiqish zarurati bilan belgilanadi.

Tadqiqot maqsadi. O'zbekistonda ijtimoiy tadbirkorlik rivojlanishining mavjud muammolarini aniqlash hamda ularni bartaraf etishning ijtimoiy-falsafiy va institutsional mexanizmlarini asoslash.

Tadqiqot metodologiyasi. Tadqiqotda tizimli yondashuv, qiyosiy tahlil, ijtimoiy-falsafiy tahlil va aksiologik metodlardan foydalanildi. Shuningdek, ijtimoiy tadbirkorlik nazariyasi, fuqarolik jamiyati konsepsiyasi va barqaror rivojlanish tamoyillari metodologik asos sifatida qo'llanildi.

Ijtimoiy tadbirkorlikni o'rganishda G.Dizning ijtimoiy qiymat yaratish nazariyasi, M.Yunusning ijtimoiy biznes konsepsiyasi hamda R.Putnamning ijtimoiy kapital nazariyasi muhim nazariy manba bo'lib xizmat qildi [3].

Tadqiqotning empirik asosini O'zbekiston Respublikasining normativ-huquqiy hujjatlari, rivojlanish strategiyalari va ijtimoiy tadbirkorlik bo'yicha xalqaro tajribalar tashkil etdi.

Natijalar. Tahlillar natijasida O'zbekistonda ijtimoiy tadbirkorlik rivojlanishiga to'sqinlik qilayotgan quyidagi asosiy muammolar aniqlandi.

1. Normativ-huquqiy bazaning yetarlicha shakllanmaganligi. Ijtimoiy tadbirkorlikning huquqiy maqomi va faoliyat yuritish mexanizmlari bo'yicha yagona tizimning mavjud emasligi mazkur sohaning institutsional rivojlanishini sekinlashtirmoqda. Natijada ijtimoiy tadbirkorlik subyektlari davlat tomonidan qo'llab-quvvatlash mexanizmlaridan to'liq foydalana olmayapti.

2. Moliyaviy resurslarga kirish imkoniyatlarining cheklanganlig. Ijtimoiy tadbirkorlik loyihalarining ko'pchiligi dastlabki bosqichda investitsiya va grant mablag'lariga ehtiyoj sezadi. Biroq amaldagi moliyalashtirish tizimlari asosan tijorat samaradorligiga yo'naltirilganligi sababli ijtimoiy tashabbuslarni qo'llab-quvvatlash imkoniyatlari cheklangan.

3. Ijtimoiy tadbirkorlik madaniyatining yetarli darajada shakllanmaganligi. Tahlillar aholining katta qismida ijtimoiy tadbirkorlikning mazmun-mohiyati haqida yetarli tasavvur mavjud emasligini ko'rsatdi. Natijada ko'plab ijtimoiy tashabbuslar an'anaviy xayriya faoliyati bilan chalkashtirilmoqda.

4. Kadrlar salohiyatining yetishmasligi. Ijtimoiy tadbirkorlikni samarali tashkil etish uchun menejment, marketing, ijtimoiy loyiha boshqaruvi va innovatsiyalar sohasida bilim va ko'nikmalarga ega mutaxassislar zarur. Mazkur yo'nalishdagi ta'lim dasturlarining yetarli emasligi kadrlar tanqisligini yuzaga keltirmoqda.

5. Ijtimoiy innovatsiyalar ekotizimining rivojlanmaganligi. Innovatsion loyihalarni qo'llab-quvvatlash markazlari, inkubatorlar va akseleratorlarning yetishmasligi ijtimoiy tadbirkorlik tashabbuslarining rivojlanish sur'atlariga salbiy ta'sir ko'rsatmoqda.

Muhokama. Ijtimoiy tadbirkorlik zamonaviy jamiyatda iqtisodiy manfaat va ijtimoiy maqsadlarning uyg'unlashuvini ta'minlovchi yangi institut sifatida shakllanmoqda. G.Dizning ta'kidlashicha, ijtimoiy tadbirkorlar jamiyatdagi muammolarni innovatsion yondashuvlar orqali hal etuvchi o'zgarish agentlari hisoblanadi [4].

Tadqiqot natijalari shuni ko'rsatdiki, O'zbekistonda ijtimoiy tadbirkorlikni rivojlantirish fuqarolik jamiyatining mustahkamlanishi va ijtimoiy kapitalning ortishiga xizmat qiladi. R.Putnam ijtimoiy kapitalning rivojlanishi jamiyatda o'zaro ishonch va hamkorlikni kuchaytirishini ta'kidlaydi [5]. Mazkur yondashuv ijtimoiy tadbirkorlik faoliyatining natijaviyligini ta'minlashda muhim ahamiyat kasb etadi.

Ijtimoiy tadbirkorlikning muvaffaqiyati faqat iqtisodiy omillar bilan emas, balki jamiyatdagi qadriyatlar tizimi, fuqarolik faolligi va ijtimoiy mas'uliyat darajasi bilan ham belgilanadi. Shundan kelib chiqib, mazkur sohani rivojlantirishda aksiologik yondashuv muhim ahamiyat kasb etadi.

Tadqiqot natijalari asosida quyidagi mexanizmlar taklif etiladi:

1.Ijtimoiy tadbirkorlik to'g'risida alohida qonun qabul qilish.

2.Ijtimoiy loyihalarni grant va subsidiyalar orqali qo'llab-quvvatlash.

3.Oliy ta'lim muassasalarida ijtimoiy tadbirkorlik bo'yicha maxsus kurslarni joriy etish.

4.Hududiy ijtimoiy innovatsiyalar markazlarini tashkil etish.

5.Ijtimoiy biznes inkubatorlari faoliyatini kengaytirish.

6.Davlat-xususiy sheriklik asosida ijtimoiy loyihalarni moliyalashtirish tizimini takomillashtirish.

7.Ijtimoiy tadbirkorlik bo'yicha ommaviy axborot kampaniyalarini amalga oshirish.

Xulosa. Tadqiqot natijalari O‘zbekistonda ijtimoiy tadbirkorlik rivojlanishi fuqarolik jamiyatining mustahkamlanishi, aholi farovonligining oshishi va ijtimoiy muammolarning innovatsion yechimlarini topishda muhim ahamiyatga ega ekanligini ko‘rsatdi.

Tahlillar natijasida ma’lum bo‘ldiki, ijtimoiy tadbirkorlik rivojlanishiga huquqiy, moliyaviy, institutsional va madaniy omillar to‘sqinlik qilmoqda. Mazkur muammolarni bartaraf etish uchun kompleks yondashuv zarur bo‘lib, u normativ-huquqiy bazani takomillashtirish, moliyaviy qo‘llab-quvvatlash mexanizmlarini kengaytirish, kadrlar tayyorlash va ijtimoiy innovatsiyalarni rag‘batlantirishni o‘z ichiga olishi lozim.

Qolaversa, ijtimoiy tadbirkorlikni rivojlantirish orqali fuqarolik jamiyatining ijtimoiy mas’uliyat, hamkorlik va birdamlik kabi qadriyatlarini mustahkamlash mumkin. Shu sababli ijtimoiy tadbirkorlikni qo‘llab-quvvatlash O‘zbekistonning barqaror rivojlanish strategiyasining muhim yo‘nalishlaridan biri bo‘lib qoladi.

AHOLINING IJTIMOIY HIMOYAGA MUHTOJ QATLAMLARINI QO‘LLAB-QUVVATLASHDA IJTIMOIY TADBIRKORLIKNING IMKONIYATLARI

Abduraxmonov Asadullo Asqarovich
Farg‘ona davlat universiteti mustaqil tadqiqotchisi

Annotatsiya. *Mazkur maqolada aholining ijtimoiy himoyaga muhtoj qatlamlarini qo‘llab-quvvatlashda ijtimoiy tadbirkorlikning o‘rni va imkoniyatlari ijtimoiy-falsafiy nuqtai nazardan tahlil qilinadi. Tadqiqotda ijtimoiy tadbirkorlikning nazariy asoslari, uning fuqarolik jamiyati va ijtimoiy adolatni ta’minlashdagi ahamiyati yoritilgan. Shuningdek, nogironligi bo‘lgan shaxslar, kam ta’minlangan oilalar, ishsizlar, yolg‘iz keksalar hamda ijtimoiy himoyaga muhtoj boshqa qatlamlarni qo‘llab-quvvatlashda ijtimoiy tadbirkorlikning institutsional va innovatsion imkoniyatlari ochib berilgan. Tadqiqot natijasida ijtimoiy tadbirkorlikning aholi farovonligini oshirish va ijtimoiy integratsiyani mustahkamlashdagi roli asoslab berilgan.*

Kalit so‘zlar: *ijtimoiy tadbirkorlik, ijtimoiy himoya, ijtimoiy adolat, fuqarolik jamiyati, ijtimoiy integratsiya, ijtimoiy innovatsiya, ijtimoiy mas’uliyat, barqaror rivojlanish, kambag‘allikni qisqartirish.*

ВОЗМОЖНОСТИ СОЦИАЛЬНОГО ПРЕДПРИНИМАТЕЛЬСТВА В ПОДДЕРЖКЕ СОЦИАЛЬНО УЯЗВИМЫХ СЛОЁВ НАСЕЛЕНИЯ

Аннотация. *В статье анализируются возможности социального предпринимательства в поддержке социально уязвимых слоёв населения с социально-философской точки зрения. Рассматриваются теоретические основы социального предпринимательства, его роль в обеспечении социальной справедливости и развитии гражданского общества. Особое внимание уделяется поддержке лиц с инвалидностью, малообеспеченных семей, безработных граждан, одиноких пожилых людей и других нуждающихся категорий населения. Обосновывается значение социального предпринимательства как эффективного механизма социальной интеграции и повышения благосостояния населения.*

Ключевые слова: *социальное предпринимательство, социальная защита, социальная справедливость, гражданское общество, социальная интеграция, социальные инновации, социальная ответственность.*

OPPORTUNITIES OF SOCIAL ENTREPRENEURSHIP IN SUPPORTING SOCIALLY VULNERABLE POPULATION GROUPS

Abstract. *This article examines the opportunities of social entrepreneurship in supporting socially vulnerable population groups from a socio-philosophical perspective. The study analyzes the theoretical foundations of social entrepreneurship and its role in promoting social justice and civil society development. Particular attention is paid to supporting persons with disabilities, low-income families, unemployed citizens, elderly people living alone, and other vulnerable groups. The findings demonstrate that social entrepreneurship serves as an effective mechanism for social integration, poverty reduction, and sustainable social development.*

Keywords: *social entrepreneurship, social protection, social justice, civil society, social integration, social innovation, social responsibility, sustainable development.*

Kirish. Bugungi kunda dunyo hamjamiyati oldida turgan muhim vazifalardan biri aholini ijtimoiy himoya qilish tizimini takomillashtirish va ijtimoiy tengsizlikni kamaytirishdan iborat. Iqtisodiy transformatsiyalar, globallashuv jarayonlari hamda demografik o‘zgarishlar natijasida aholining ayrim qatlamlari ijtimoiy himoyaga ko‘proq ehtiyoj sezmoqda. Shu sababli davlatning an’anaviy ijtimoiy siyosati bilan bir qatorda ijtimoiy tadbirkorlik kabi innovatsion mexanizmlarning ahamiyati ortib bormoqda [1].

Ijtimoiy tadbirkorlik iqtisodiy faoliyat va ijtimoiy maqsadlarning uyg‘unlashuviga asoslangan bo‘lib, u jamiyatdagi muammolarni tadbirkorlik usullari orqali hal etishga qaratilgan. M.Yunusning ta’kidlashicha, ijtimoiy biznes va ijtimoiy tadbirkorlikning asosiy maqsadi foyda olish emas, balki ijtimoiy muammolarga barqaror yechim topishdan iborat [2].

O‘zbekiston sharoitida aholining ijtimoiy himoyaga muhtoj qatlamlarini qo‘llab-quvvatlash davlat siyosatining ustuvor yo‘nalishlaridan biri hisoblanadi. Biroq mavjud ehtiyojlarning ko‘lami davlat resurslaridan tashqari fuqarolik jamiyati institutlari va ijtimoiy tadbirkorlik subyektlarining faol ishtirokini ham talab etadi.

Mazkur tadqiqotning maqsadi ijtimoiy himoyaga muhtoj qatlamlarni qo‘llab-quvvatlashda ijtimoiy tadbirkorlikning imkoniyatlarini ijtimoiy-falsafiy jihatdan tahlil qilish va uning amaliy samaradorligini asoslashdan iborat.

Tadqiqot metodologiyasi. Tadqiqotda tizimli yondashuv, ijtimoiy-falsafiy tahlil, qiyosiy metod, aksiologik yondashuv va institutsional tahlil metodlaridan foydalanildi.

Nazariy-metodologik asos sifatida M.Yunusning ijtimoiy biznes konsepsiyasi, G.Dizning ijtimoiy tadbirkorlik nazariyasi, J.Rolzning ijtimoiy adolat konsepsiyasi va R.Putnamning ijtimoiy kapital nazariyalaridan foydalanildi [3; 4].

Tadqiqot davomida O‘zbekiston Respublikasining ijtimoiy siyosatga oid normativ-huquqiy hujjatlari, ilmiy manbalar va xalqaro tashkilotlar materiallari tahlil qilindi.

Natijalar. Ijtimoiy tadbirkorlikning ijtimoiy himoyadagi o‘rni

Tahlillar shuni ko‘rsatdiki, ijtimoiy tadbirkorlik aholining ijtimoiy himoyaga muhtoj qatlamlarini qo‘llab-quvvatlashning samarali vositalaridan biri hisoblanadi. Mazkur faoliyat turi iqtisodiy va ijtimoiy natijalarning uyg‘unlashuvini ta’minlab, davlat ijtimoiy siyosatini to‘ldiruvchi institut sifatida namoyon bo‘ladi.

Ijtimoiy tadbirkorlik quyidagi yo‘nalishlarda muhim imkoniyatlarga ega:

- nogironligi bo‘lgan shaxslarni ish bilan ta’minlash;
- kam ta’minlangan oilalarning daromad manbalarini kengaytirish;
- ayollar va yoshlarning iqtisodiy faolligini oshirish;
- keksalar va yolg‘iz fuqarolar uchun ijtimoiy xizmatlar tashkil etish;
- chekka hududlarda ijtimoiy xizmatlar ko‘rsatish.

Nogironligi bo‘lgan shaxslarni qo‘llab-quvvatlash. Tadqiqot natijalari ko‘rsatishicha, nogironligi bo‘lgan shaxslarning mehnat bozoriga integratsiyalashuvi ijtimoiy tadbirkorlikning eng muhim yo‘nalishlaridan biridir. Ko‘plab davlatlarda ijtimoiy korxonalar ushbu toifadagi fuqarolar uchun maxsus ish o‘rinlarini yaratish orqali ularning iqtisodiy mustaqilligini ta’minlamoqda [5].

Kambag‘allikni qisqartirishdagi imkoniyatlar. Ijtimoiy tadbirkorlik aholining daromadi past qatlamlarini tadbirkorlik faoliyatiga jalb etish orqali kambag‘allikni kamaytirishga xizmat qiladi. Ayniqsa, mikroloyihalar va oilaviy bizneslarni qo‘llab-quvvatlash orqali ijtimoiy himoyaga muhtoj oilalarning iqtisodiy faolligi oshiriladi.

Ayollar va yoshlar bandligini ta’minlash. Tahlillar natijasida ayollar va yoshlar uchun yaratilayotgan ijtimoiy biznes loyihalari nafaqat iqtisodiy foyda, balki ijtimoiy integratsiyani ham kuchaytirishi aniqlandi. Bu jarayon fuqarolik faolligi va ijtimoiy mas’uliyatning ortishiga xizmat qiladi.

Muhokama. J.Rolzning ijtimoiy adolat nazariyasiga ko‘ra, jamiyatdagi ijtimoiy institutlar eng avvalo himoyaga muhtoj qatlamlar manfaatlarini ta’minlashga xizmat qilishi lozim [6]. Bu nazariya ijtimoiy tadbirkorlikning falsafiy asoslarini tushuntirishda muhim metodologik ahamiyatga ega.

Ijtimoiy tadbirkorlikning rivojlanishi fuqarolik jamiyatining kuchayishiga ham xizmat qiladi. R.Putnam ijtimoiy kapitalning ortishi fuqarolar o‘rtasidagi hamkorlik va ishonchni mustahkamlashini ta’kidlaydi [4]. Ijtimoiy tadbirkorlik aynan mana shunday ijtimoiy kapitalni shakllantiruvchi institutlardan biri sifatida namoyon bo‘ladi.

Ijtimoiy tadbirkorlikning ahamiyati uning iqtisodiy natijalaridangina iborat emas. U jamiyatda hamjihatlik, o‘zaro yordam, ijtimoiy mas’uliyat va adolat kabi qadriyatlarning mustahkamlanishiga ham xizmat qiladi. Shu sababli ijtimoiy tadbirkorlikni ijtimoiy-falsafiy hodisa sifatida o‘rganish dolzarb ahamiyat kasb etadi.

O‘zbekiston sharoitida ijtimoiy tadbirkorlikni rivojlantirish orqali davlat va fuqarolik jamiyati institutlari o‘rtasidagi hamkorlikni kuchaytirish, ijtimoiy himoya tizimini takomillashtirish va barqaror rivojlanish maqsadlariga erishish mumkin.

Amaliy takliflar. Tadqiqot natijalari asosida quyidagi takliflar ishlab chiqildi:

1.Ijtimoiy tadbirkorlik faoliyatini qo‘llab-quvvatlashning huquqiy asoslarini takomillashtirish.

2.Ijtimoiy korxonalar uchun grant va imtiyozli kredit dasturlarini kengaytirish.

3.Nogironligi bo‘lgan shaxslarni ish bilan ta’minlovchi korxonalarni rag‘batlantirish.

4.Oliy ta’lim muassasalarida ijtimoiy tadbirkorlik bo‘yicha maxsus o‘quv kurslarini joriy etish.

5.Hududlarda ijtimoiy innovatsiyalar markazlarini tashkil etish.

6.Ayollar va yoshlar uchun ijtimoiy biznes inkubatorlarini yaratish.

7.Mahalla institutlari bilan hamkorlikda ijtimoiy loyihalarni amalga oshirish.

XULOSA. Tadqiqot natijalari ijtimoiy tadbirkorlik aholini ijtimoiy himoyaga muhtoj qatlamlarini qo‘llab-quvvatlashning samarali mexanizmlaridan biri ekanligini ko‘rsatdi. Aniqlanishicha, ijtimoiy tadbirkorlik:

- bandlikni oshiradi;

- kambag‘allikni kamaytiradi;
- nogironligi bo‘lgan shaxslarning integratsiyasini ta’minlaydi;
- ayollar va yoshlarning iqtisodiy faolligini rag‘batlantiradi;
- fuqarolik jamiyati institutlarini mustahkamlaydi.

Jumladan, ijtimoiy tadbirkorlik jamiyatda ijtimoiy adolat, birdamlik va mas’uliyat kabi qadriyatlarning rivojlanishiga xizmat qiluvchi muhim ijtimoiy institut sifatida namoyon bo‘ladi. Shu bois uni rivojlantirish O‘zbekistonning barqaror taraqqiyot strategiyasining muhim yo‘nalishlaridan biri bo‘lib qoladi.

PHILOSOPHICAL

ADOLAT VA TENGLIK: FALSAFIY JIHATDAN TAHLIL VA ULARNING FARQLARI

Isroilov Davronbek Dilshodbek o'g'li
Andijon davlat pedagogika instituti o'qituvchisi
E-mail: davronbekisroilov3435627@gmail.com

Annotatsiya: *Ushbu maqola adolat va tenglik tushunchalarini falsafiy jihatdan qiyosiy tahlil qilishga bag'ishlangan. Adolat va tenglik ko'pincha sinonim sifatida qo'llaniladigan bo'lsa-da, ular mazmun-mohiyati jihatidan bir-biridan tubdan farq qiluvchi kategoriyalar ekanligini maqolada Aristotel, Platon, Immanuel Kant, John Rawls, Amartya Sen va boshqa mutafakkirlarning kontseptsiyalariga tayanib isbot etiladi. Tenglik aritmmetik tenglikni, adolat esa proporsional va mezoniy munosabatni anglatishi ilmiy adabiyotlar tahlili asosida ko'rsatiladi. Maqolada kommuatativ, distributiv, prosessual va restorative adolat turlari ham tahlil qilinadi.*

Kalit so'zlar: *adolat, tenglik, distributiv adolat, Rawls, Aristotel, ijtimoiy falsafa, axloqiy falsafa, imkoniyatlar tengligi.*

СПРАВЕДЛИВОСТЬ И РАВЕНСТВО: ФИЛОСОФСКИЙ АНАЛИЗ И ИХ РАЗЛИЧИЯ

Аннотация: *Данная статья посвящена сравнительному философскому анализу понятий справедливости и равенства. Несмотря на то что эти понятия нередко используются как синонимы, в статье на основе концепций Аристотеля, Платона, Иммануила Канта, Джона Ролза и Амартии Сена доказывается, что они принципиально различаются по своему содержанию. Показывается, что равенство означает арифметическое тождество, тогда как справедливость предполагает пропорциональные и нормативные отношения. В статье также анализируются коммутативный, дистрибутивный, процессуальный и восстановительный виды справедливости.*

Ключевые слова: *справедливость, равенство, дистрибутивная справедливость, Ролз, Аристотель, социальная философия, равенство возможностей.*

JUSTICE AND EQUALITY: A PHILOSOPHICAL ANALYSIS AND THEIR DISTINCTIONS

Abstract: *This article is devoted to a comparative philosophical analysis of the concepts of justice and equality. Although these concepts are often used as synonyms, the article demonstrates - drawing on the theories of Aristotle, Plato, Immanuel Kant, John Rawls, and Amartya Sen - that they differ fundamentally in their content. It is shown that equality refers to arithmetic sameness, while justice implies proportional and normative relations. The article also analyses the commutative, distributive, procedural, and restorative types of justice.*

Keywords: *justice, equality, distributive justice, Rawls, Aristotle, social philosophy, moral philosophy, equality of opportunity.*

Kirish

Adolat va tenglik - falsafiy tafakkurning eng qadimgi va eng murakkab muammolari qatoriga kiradi. Qadimgi Yunoniston faylasuflari bu tushunchalarni siyosiy va axloqiy hayotning poydevori deb bilgan bo'lsalar, zamonaviy siyosiy falsafa va huquqshunos olimlar ularni ijtimoiy institutlarni qurish va baholashning asosiy mezonlari sifatida ko'rib chiqadi. Biroq ommaviy ongda, siyosiy nutqda va hatto ba'zi akademik manbalarda «adolat» va «tenglik» tushunchalari ko'pincha bir xil ma'noda ishlatiladi. Bu narsa kontseptual chalkashlikka olib keladi va noto'g'ri siyosiy qarorlar qabul qilinishiga zamin hozirlaydi.

Masalan, ta'lim sohasida tenglikni ta'minlash deganda ba'zilar barcha o'quvchilarga bir xil resurslar berish kerak, deb tushunadi. Adolat nuqtai nazaridan esa turli ehtiyojli o'quvchilarga turli miqdorda qo'llab-quvvatlash berish - adolatliroq yondashuv bo'lishi mumkin. Shu bois ushbu ikki tushunchaning falsafiy, axloqiy va ijtimoiy-siyosiy jihatdan aniq chegaralanishi muhim nazariy va amaliy ahamiyatga ega.

Maqolaning maqsadi - adolat va tenglik tushunchalarining falsafiy tarixini, ularning turli kontseptsiyalar doirasidagi mazmunini va bir-biridan farqlarini tizimli ravishda tahlil qilish, shuningdek bu farqni ijtimoiy siyosat uchun nazariy asos sifatida ko'rsatishdan iborat.

Tadqiqotning dolzarbligi shundan iboratki, O'zbekistonda amalga oshirilayotgan ijtimoiy islohotlar - ta'lim, soliq, ijtimoiy himoya sohalarida - adolat va tenglik tamoyillarining to'g'ri tushunilishiga bog'liq. Kontseptsial chalkashlik siyosiy amaliyotda adolatsiz natijalar keltirib chiqarishi mumkin.

Adabiyotlar sharhi

1. Qadimgi falsafada adolat tushunchasi.

Adolat tushunchasini tizimli tahlil qilishni dastlab Platon amalga oshirdi. Uning «Davlat» (Politeia) asarida adolat - har bir kishining o'z tabiatiga mos vazifani bajarishi, ya'ni ruhning uch qismining (aql, iroda, ehtiros) muvofiqligi sifatida ta'riflanadi (Platon, 380 mil. avv./2000, 433a-e). Platonning adolat kontseptsiyasi organik va ierarxikdir: jamiyat adolatli bo'lishi uchun har bir tabaqaning o'z o'rnida bo'lishi shart.

Aristotel esa adolatni ikki turga ajratdi: (1) umumiy adolat (iustitia generalis) - qonunga bo'ysunish va fazilat; (2) xususiy adolat (iustitia particularis) - munosabatlarda to'g'ri taqsimot. Xususiy adolatni u yana ikki turga bo'ldi: distributiv adolat (ne'matlarni xizmat-u hissaga proporsional taqsimlash) va kommutativ adolat (almashinuv va shikast o'rnini qoplashdagi tenglik). Aristotelning mashhur formulasi: «Adolat - teng kishilarga tengdek, teng bo'lmagan kishilarga esa teng bo'lmagan tarzda munosabatda bo'lishdir» (Aristotel, Nikomaxova axloq, 1131a-b).

Bu ta'rif tenglik va adolatning aslida mos kelmasligini ochiq ko'rsatib beradi: aritmmetik tenglik adolatli bo'lmasligi mumkin, chunki proporsiyon teng bo'lmagan kishilarga nisbatan teng munosabat adolatsizlikdir.

2. Yangi davr falsafasida adolat va tenglik.

Immanuel Kant adolatni kategorik imperativ asosida qurishga harakat qildi. Uning deontologik etikasida adolat - insonning avtonom qonun qabul qiluvchi mavjudot sifatidagi qadr-qimmatiga hurmatdan kelib chiqadi. Kantda tenglik - huquqiy tenglik, ya'ni barcha odamlar qonun oldida teng; lekin bu material tenglik emas (Kant, 1797/1996). Hegel esa adolatni ob'ektiv ruhning o'zini-o'zi ro'yobga chiqarishi sifatida ko'rib, davlatni axloqiylikning oliy ko'rinishi deb baholadi (Hegel, 1820/2008).

Utilitarian traditsiyada - Jeremy Bentham va John Stuart Mill - adolat ko'proq farovonlikni maksimallashtirishga qodir bo'lgan tarqatma siyosat orqali tushunildi. Ushbu yondashuvda tenglik o'z-o'zicha qadriyat emas, balki foydalilik tamoyilining vositasi sifatida ko'riladi (Mill, 1863/1998).

3. Zamonaviy adolat nazariyalari.

XX asrning eng ta'sirchan adolat nazariyasi John Rawlsning «Adolat nazariyasi» (A Theory of Justice, 1971) asarida bayon etildi. Rawls «bilmaslik pardasi» (veil of ignorance) uslubini ishlatib, adolat tamoyillarini ikki asosga qurdi: (1) asosiy erkinliklar barcha uchun teng; (2) ijtimoiy va iqtisodiy tengsizlik faqat jamiyatning eng kam imtiyozli a'zolariga foyda keltirganda qabul qilinishi mumkin - bu «farq tamoyili» (difference principle) deb ataladi (Rawls, 1971, pp. 60–90). Rawls uchun adolat - «oddiy tenglik» emas, balki asosli tengsizlikka yo'l qo'yadigan tartibdir.

Robert Nozickning libertarian qarashlari Rawlsga qisman qarama-qarshi edi. Nozick o'zining «Anarxiya, davlat va utopiya» (1974) asarida qayta taqsimlash siyosatini rad etdi va adolatni erkin almashinuvlarning buzilmasligida ko'rdi. Unga ko'ra tenglik majburan yaratilgan bo'lsa - bu adolatsizlikdir.

Amartya Senning «imkoniyatlar yondashuvi» (Capability Approach) esa rasmiy tenglik (bir xil huquq) bilan real imkoniyatlar o'rtasidagi farqga e'tibor qaratdi. Sen uchun adolat - odamlarga rasmiy emas, real imkoniyatlar taqdim etishdir: ko'r odam uchun piyodalar yo'lida panjara bo'lmasa ham, aritmmetik tenglik bor, ammo bu adolatli emas (Sen, 1999; 2009).

Martha Nussbaum esa adolatni «minimal shaxsiy qadr» (threshold of human dignity) atrofida qurib, 10 ta fundamental imkoniyatni davlat ta'minlashi zarur majburiy kafolatlar sifatida sanab o'tdi (Nussbaum, 2006). Nancy Fraser esa adolatni uch o'lchamda - qayta taqsimlash (redistribution), tan olish (recognition) va vakillik (representation) - ko'rib chiqdi (Fraser, 2008).

Metodologiya

Tadqiqot quyidagi usullarga asoslanadi:

1. Kontseptual tahlil (conceptual analysis) - adolat va tenglik tushunchalarining mazmun-mohiyatini aniqlash uchun asosiy falsafiy matnlar o'qildi va atamalar turli kontekstlarda solishtirma tahlil qilindi.

2. Qiyosiy-tarixiy metod - qadimgi Yunonistondan zamonaviy siyosiy falsafagacha bo'lgan davrda adolat va tenglik tushunchalarining rivojlanishini qiyosiy tahlil qilish maqsadida qo'llanildi.

3. Normativ tahlil - turli adolat kontseptsiyalarining axloqiy asoslanganligini va ular o'rtasidagi normativ farqlarni baholash uchun ishlatildi.

4. Tizimli sintez - turli maktablar va yondashuvlarni birlashtirib, adolat va tenglik o'rtasidagi farqni ko'rsatuvchi kontseptual xarita tuzish uchun qo'llanildi.

Tadqiqot manba bazasini Aristotel, Platon, Kant, Rawls, Nozick, Sen, Nussbaum, Fraser kabi mutafakkirlarning asarlari, shuningdek 2000–2024-yillarda nashr etilgan 40 dan ortiq xalqaro ilmiy maqolalar tashkil etadi.

NATIJALAR

1. Adolat va tenglikning kontseptual farqi.

Tadqiqot natijalari shuni ko'rsatadiki, adolat va tenglik bir-biri bilan bog'liq bo'lsa-da, mantiqiy jihatdan mustaqil kategoriyalardir. Tenglik - miqdoriy tushuncha: bir xil ulush, bir xil munosabat. Adolat esa normativ tushuncha: haqqoniy, asosli, to'g'ri munosabat. Quyidagi jadval ushbu farqni tizimli ravishda aks ettiradi:

1-jadval. Adolat va tenglik tushunchalarining qiyosiy tahlili

Mezon	Tenglik (Equality)	Adolat (Justice)
Asosiy savol	Kim teng?	Nima to'g'ri/haqqoniy?
Tabia'ti	Tavsiflovchi (descriptive)	Me'yoriy (normative)
O'lchov birligi	Aritmmetik: 1=1	Proporsional: har kimga o'z haqqicha
Maqsad	Bir xillik, tenglama	Haqqoniylik, asoslanganlik
Bog'liq nazariya	Tenglik nazariyasi	Adolat nazariyasi (Rawls, Aristotel)
Qarama-qarshi holat	Tengsizlik (inequality)	Adolatsizlik (injustice)
Misol (ta'lim)	Barcha o'quvchiga 100$ berish	Ehtiyojli o'quvchiga 200$, boshqasiga 50$

Manba: muallif tomonidan tuzilgan, Rawls (1971), Aristotel (1131a-b), Sen (2009) asosida.

Jadvaldan ko'rinib turibdiki, tenglik bir xillik bilan bog'liq bo'lsa, adolat asoslilik bilan bog'liqdir. Tenglikni adolat deb atash to'g'ri emas, chunki ba'zan «teng» munosabat adolatsiz oqibatlar keltirib chiqaradi. Masalan, 100 metr yugurish musobaqasida nogironligi bor sportchini boshqalar bilan bir chiziqdan yugurishga majburlash rasmiy jihatdan tengdir, lekin adolat nuqtai nazaridan noto'g'ri.

2. Adolat turlarining tasnifi.

Falsafiy adabiyot tahlili asosida adolatning to'rt asosiy turi aniqlandi:

- Kommutativ adolat (Commutative Justice) - almashinuv, shartnoma va shikastni qoplashdagi tenglik. Aristotelning «Nikomaxova axloq»iga asoslanadi: almashinuv narsalar o'rtasida, inson o'rtasida emas. Bu sodda tenglikka eng yaqin adolat turi.
- Distributiv adolat (Distributive Justice) - ne'mat va yuk(majburiyat)larni haqqoniy taqsimlash. Aristotel formulasi: «Teng kishilarga teng, teng bo'lmagan kishilarga teng bo'lmagan» tarzda. Rawlsning farq tamoyili bu turga kiradi.
- Prosessual adolat (Procedural Justice) - natijadan qat'i nazar, jarayon adolatli va bir xil qoidalarga asoslanishi kerak. Rawlsning «sof prosessual adolat» kontseptsiyasi bunga misol (Rawls, 1971, p. 86).
- Restorativ adolat (Restorative Justice) - jazolash o'rniga munosabatlarni tiklashga, shikastlangan tomonni qoplashga va ijtimoiy uyg'unlikni qayta yaratishga yo'naltirilgan adolat. Kriminologiyada va tranzision adolat nazariyasida asosiy rol o'ynaydi (Zehr, 2002).

3. Tenglik turlari va adolat bilan aloqasi.

Tadqiqot natijalari tenglikning ham turli shakllarini farqlash zarurligini ko'rsatdi:

2-jadval. Tenglik turlarining adolat nazariyalari bilan bog'liqligi

Tenglik turi	Ta'rifi	Bog'liq adolat nazariyasi
Rasmiy tenglik	Qonun oldida teng huquq	Kant (huquqiy avtonomiya)
Natijalar tengligi	Bir xil yakuniy holat	Utilitarizm (Bentham, Mill)
Imkoniyatlar tengligi	Real tanlov imkoniyati teng	Rawls (2-tamoyil), Dworkin
Imkoniyatlar tengligi (Sen)	Insoniy salohiyatlar rivojlanishi teng	Sen – Nussbaum (Capability Approach)
Tan olish tengligi	Identifikatsiya va qadr teng	Fraser, Taylor (Recognition Theory)

Manba: muallif tomonidan tuzilgan, Rawls (1971), Sen (2009), Fraser (2008), Kant (1797/1996) asosida.

Jadvaldan ko'rinib turibdiki, «tenglik» yagona tushuncha emas - u ham turli shakllarga ega va har bir shakl turli adolat nazariyalari bilan bevosita bog'liq. Bu esa adolat va tenglik munosabatini yanada murakkab qilib ko'rsatadi: tenglik - adolatning zaruriy sharti emas, balki uning ma'lum shakllarini qo'llab-quvvatlovchi vosita bo'lishi mumkin.

4. Kontseptual xarita: adolat va tenglik munosabatlari.

Tadqiqot natijasida adolat va tenglik munosabatlarini aks ettiruvchi uch holat aniqlandi:

- Tenglik bo'lib, adolat bo'lmagan holat: barcha fuqaroga bir xil soliq stavkasi - rasmiy tenglik, lekin kam daromadlilarga nisbatan adolatsizlik.
- Adolat bo'lib, tenglik bo'lmagan holat: nogironga katta pensiya, boy oilaga esa kamroq subsidiya - tengsizlik, ammo adolat.
- Tenglik ham, adolat ham bo'lgan holat: barcha fuqaroga bir xil asosiy huquqlar (so'z erkinligi, hayot huquqi) - bu yerda ikkalasi mos keladi.

Ushbu tahlil shuni isbotlaydiki, adolat va tenglik bir-birini ba'zan qo'llaydi, ba'zan esa bir-biriga qarama-qarshi turadi. Muvaffaqiyatli ijtimoiy siyosat ikkalasini ham e'tiborga olishi va holatga qarab ulardan birini ustuvor qilishi zarur.

Muhokama

Tadqiqot natijalarini umumlashtirib, adolat va tenglik o'rtasidagi falsafiy munosabat haqida bir necha muhim kuzatuvni ilgari surish mumkin.

Birinchidan, adolat tenglikni o'z ichiga olishi mumkin, lekin tenglik adolatni o'z ichiga olmaydi. Aristotelning distributiv adolat kontseptsiyasi bunni aniq ko'rsatadi: proporsional adolat aritmmetik tenglikdan ustundir. Rawlsning farq tamoyili ham shuni ta'kidlaydi - adolatli jamiyatda tengsizlik bo'lishi mumkin, agar u eng zaif a'zolar foydasiga bo'lsa.

Ikkinchidan, Sen va Nussbaum imkoniyatlar yondashuvi adolat tushunchasini yangi o'lchamga olib chiqadi: rasmiy tenglik - masalan, qonunda yozilgan teng huquqlar - amalda adolatsiz bo'lishi mumkin, chunki real imkoniyatlar tengsiz. Bu O'zbekiston kabi o'rta daromadli mamlakatlar uchun amaliy ahamiyatga ega: ta'limda, sog'liqni saqlashda, mehnat bozoriga kirishda rasmiy tenglik bor, lekin real imkoniyatlar farqlanadi.

Uchinchidan, Fraser'ning uch o'lchamli adolat kontseptsiyasi (taqsimlash, tan olish, vakillik) tenglikni faqat moddiy o'lchamga qisqartirmaslik zarurligini ko'rsatadi. Milliy va madaniy ozchiliklarning qadr-qimmatini tan olish - bu ham adolat masalasidir, garchi material tenglik bilan bevosita bog'liq bo'lmasa ham.

Biroq tadqiqotning ayrim cheklovlarini ham e'tirof etish lozim. Kontseptual tahlil uslubi empirik ma'lumotlar bilan to'ldirilmagan; adolat va tenglikning O'zbek falsafiy merosida (xususan, Forobiy, Ibn Sino, Alisher Navoiy asarlarida) qanday talqin etilgani bu tadqiqot doirasida to'liq yoritilmagan. Bu bo'shliqni keyingi tadqiqotlar to'ldirishi maqsadga muvofiq.

Shuningdek, adolat va tenglik munosabatini normativ jihatdan hal etish - qaysi ustuvor? - kontekstga bog'liq. Ta'lim siyosatida imkoniyatlar adolati, huquq tizimida prosessual adolat, iqtisodiy siyosatda distributiv adolat asosiy mezon bo'lishi mumkin. Bu esa «universal adolat formulasi» izlash o'rniga, kontekstga moslashgan adolat tizimlarini ishlab chiqish zarurligini ko'rsatadi.

Xulosa (conclusion)

Ushbu tadqiqot quyidagi asosiy xulosalarga erishdi:

Adolat va tenglik bir-biriga bog'liq, lekin mantiqan alohida kategoriyalardir. Tenglik - miqdoriy, adolat - normativ tushunchadir. Rasmiy tenglik adolatni kafolatlamaydi; adolat esa ba'zan asosli tengsizlikni talab qiladi.

Aristoteldan Rawls va Sengacha bo'lgan falsafiy traditsiya adolatning distributiv, kommutativ, prosessual va restorativ turlarini farqlaydi. Ushbu tasnif ijtimoiy siyosatni shakllantirishda amaliy yo'llanma bo'lib xizmat qila oladi.

Tenglikning ham bir necha shakli mavjud: rasmiy tenglik, natijalar tengligi, imkoniyatlar tengligi va tan olish tengligi. Ular turli adolat nazariyalari bilan bog'liq va turli siyosat vositalarini talab qiladi.

YANGI O‘ZBEKISTONDA TADBIRKORLAR UCHUN BERILAYOTGAN IMKONIYATLARNING IJTIMOIY-FALSAFIY AHAMIYATI

Ganiyev Baxodirjon Sodikjonovich
Falsafa fanlari doktori (DSc), professor

Annotatsiya. *Maqolada Yangi O‘zbekiston sharoitida tadbirkorlik faoliyatini qo‘llab-quvvatlashga qaratilgan islohotlarning ijtimoiy-falsafiy mazmuni va ahamiyati tahlil qilinadi. Tadqiqotda tadbirkorlikning fuqarolik jamiyati, iqtisodiy erkinlik, ijtimoiy faollik va inson kapitalini rivojlantirishdagi o‘rni yoritilgan. Shuningdek, tadbirkorlar uchun yaratilayotgan huquqiy, iqtisodiy va institutsional imkoniyatlarning ijtimoiy taraqqiyotga ta’siri o‘rganilgan. Tadqiqot natijalari tadbirkorlikni qo‘llab-quvvatlash siyosati nafaqat iqtisodiy o‘sish, balki jamiyatda tashabbuskorlik, mas’uliyat va innovatsion tafakkurni rivojlantirishga xizmat qilishini ko‘rsatadi.*

Kalit so‘zlar: *tadbirkorlik, iqtisodiy erkinlik, fuqarolik jamiyati, Yangi O‘zbekiston, innovatsiya, inson kapitali, ijtimoiy faollik, ijtimoiy taraqqiyot, bozor iqtisodiyoti, tashabbuskorlik.*

СОЦИАЛЬНО-ФИЛОСОФСКОЕ ЗНАЧЕНИЕ ВОЗМОЖНОСТЕЙ, ПРЕДОСТАВЛЯЕМЫХ ПРЕДПРИНИМАТЕЛЯМ В НОВОМ УЗБЕКИСТАНЕ

Аннотация. *В статье анализируется социально-философское содержание реформ, направленных на поддержку предпринимательской деятельности в условиях Нового Узбекистана. Рассматривается роль предпринимательства в развитии гражданского общества, экономической свободы, социальной активности и человеческого капитала. Особое внимание уделяется правовым, экономическим и институциональным возможностям, создаваемым для предпринимателей, а также их влиянию на общественное развитие. Делается вывод о том, что поддержка предпринимательства способствует не только экономическому росту, но и формированию инициативности, ответственности и инновационного мышления в обществе.*

Ключевые слова: *предпринимательство, экономическая свобода, гражданское общество, Новый Узбекистан, инновации, человеческий капитал, социальная активность.*

SOCIO-PHILOSOPHICAL SIGNIFICANCE OF OPPORTUNITIES PROVIDED FOR ENTREPRENEURS IN NEW UZBEKISTAN

Abstract. *This article examines the socio-philosophical significance of reforms aimed at supporting entrepreneurship in New Uzbekistan. The study analyzes the role of entrepreneurship in strengthening civil society, economic freedom, social activity, and human capital development. Particular attention is paid to the legal, economic, and institutional opportunities created for entrepreneurs and their contribution to social progress. The findings indicate that entrepreneurship support policies foster not only economic growth but also initiative, responsibility, and innovative thinking within society.*

Keywords: *entrepreneurship, economic freedom, civil society, New Uzbekistan, innovation, human capital, social activity, social development.*

Kirish

Yangi O‘zbekiston taraqqiyot strategiyasida iqtisodiy modernizatsiya va fuqarolik jamiyatini rivojlantirishning muhim omillaridan biri sifatida tadbirkorlikni qo‘llab-quvvatlash masalasiga alohida e’tibor qaratilmoqda. So‘nggi yillarda mamlakatda tadbirkorlik faoliyatini erkinlashtirish, xususiy mulk daxlsizligini ta’minlash, biznes yuritish uchun qulay muhit yaratish hamda innovatsion tashabbuslarni rag‘batlantirishga qaratilgan keng ko‘lamli islohotlar amalga oshirildi [1].

Ijtimoiy-falsafiy nuqtai nazardan tadbirkorlik faqat iqtisodiy faoliyat turi emas, balki shaxsning tashabbuskorligi, mas’uliyati va ijodkorlik salohiyatining namoyon bo‘lish shaklidir. M.Veber tadbirkorlikni ratsional faoliyat va jamiyat

taraqqiyotining muhim omili sifatida tavsiflaydi [2]. Zamonaviy nazariyalarda esa tadbirkorlik innovatsiyalar va ijtimoiy transformatsiyalarning harakatlantiruvchi kuchi sifatida talqin qilinadi.

Yangi O‘zbekistonda tadbirkorlarni qo‘llab-quvvatlash siyosati iqtisodiy islohotlarning markaziy yo‘nalishlaridan biri bo‘lib, uning asosiy maqsadi aholining iqtisodiy faolligini oshirish, yangi ish o‘rinlari yaratish va aholi farovonligini yuksaltirishdan iborat.

Tadqiqotning maqsadi Yangi O‘zbekistonda tadbirkorlar uchun yaratilayotgan imkoniyatlarning ijtimoiy-falsafiy mohiyatini ochib berish va ularning jamiyat taraqqiyotiga ta’sirini tahlil qilishdan iborat.

Tadqiqot metodologiyasi. Tadqiqotda ijtimoiy-falsafiy tahlil, tizimli yondashuv, qiyosiy tahlil va aksiologik metodlardan foydalanildi.

Metodologik asos sifatida M.Veberning iqtisodiy ratsionallik nazariyasi, J.Shumpeterning innovatsion tadbirkorlik konsepsiyasi, P.Drukerning tadbirkorlik boshqaruvi nazariyasi hamda A.Senning inson taraqqiyoti konsepsiyasidan foydalanildi [3; 4].

Empirik manbalar sifatida O‘zbekiston Respublikasi Prezidenti farmonlari, “O‘zbekiston – 2030” strategiyasi, tadbirkorlikni rivojlantirishga oid normativ-huquqiy hujjatlar va ilmiy adabiyotlar tahlil qilindi.

NATIJALAR. Tahlillar natijasida Yangi O‘zbekistonda tadbirkorlikni rivojlantirish uchun yaratilayotgan imkoniyatlar quyidagi yo‘nalishlarda namoyon bo‘layotgani aniqlandi.

Huquqiy kafolatlarning mustahkamlanishi. Tadbirkorlik subyektlari huquqlarini himoya qilish, mulk daxlsizligini ta’minlash va ortiqcha byurokratik to‘siqlarni qisqartirishga qaratilgan chora-tadbirlar biznes muhitining yaxshilanishiga xizmat qilmoqda [5].

Moliyaviy qo‘llab-quvvatlash tizimining kengayishi. Tadbirkorlik loyihalarini moliyalashtirish uchun imtiyozli kreditlar, subsidiyalar va grant dasturlarining joriy etilishi kichik biznes va xususiy tadbirkorlikning rivojlanishiga ijobiy ta’sir ko‘rsatmoqda.

Yoshlar va ayollar tadbirkorligini qo‘llab-quvvatlash. Maxsus davlat dasturlari orqali yoshlar va xotin-qizlarning tadbirkorlik faoliyatiga jalb qilinishi ularning iqtisodiy mustaqilligini oshirishga xizmat qilmoqda.

Raqamli iqtisodiyot imkoniyatlari. Elektron tijorat, raqamli xizmatlar va startap loyihalarining rivojlanishi tadbirkorlik faoliyatining yangi shakllarini yuzaga keltirmoqda.

Innovatsion infratuzilmaning rivojlanishi. Texnoparklar, biznes inkubatorlar va innovatsion markazlar faoliyatining kengayishi yangi biznes g‘oyalarning amaliyotga tatbiq etilishiga imkon yaratmoqda.

Muhokama. Tadbirkorlikni qo‘llab-quvvatlash siyosati jamiyatning iqtisodiy va ijtimoiy rivojlanishiga bevosita ta’sir ko‘rsatadi. J.Shumpeter tadbirkorlarni iqtisodiy taraqqiyotning asosiy innovatorlari sifatida tavsiflaydi [6]. Tadqiqot natijalari ham tadbirkorlik faoliyatining innovatsion rivojlanish va iqtisodiy o‘sishdagi muhim rolini tasdiqlaydi.

Ijtimoiy-falsafiy nuqtai nazardan tadbirkorlik fuqarolarning o‘z salohiyatini ro‘yobga chiqarish vositasi sifatida ham namoyon bo‘ladi. A.Senning ta’kidlashicha, taraqqiyot inson imkoniyatlarini kengaytirish orqali amalga oshadi [7]. Shu ma’noda Yangi O‘zbekistonda tadbirkorlar uchun yaratilayotgan imkoniyatlar inson kapitalini rivojlantirishning muhim mexanizmi hisoblanadi.

So‘nggi yillarda O‘zbekistonda tadbirkorlikni rivojlantirish davlat siyosatining ustuvor yo‘nalishlaridan biriga aylandi. Bu jarayon mamlakat iqtisodiyotini modernizatsiya qilish, xususiy sektor ulushini kengaytirish va fuqarolarning iqtisodiy faolligini oshirishga qaratilgan keng ko‘lamli islohotlar bilan chambarchas bog‘liqdir. Ayniqsa, Yangi O‘zbekiston taraqqiyot konsepsiyasida tadbirkorlik iqtisodiy o‘sishning asosiy drayveri va fuqarolik jamiyatining muhim instituti sifatida e’tirof etilmoqda.

O‘zbekiston Respublikasi Prezidentining 2022-yil 28-yanvardagi PF–60-son Farmoni bilan tasdiqlangan “2022–2026-yillarga mo‘ljallangan Yangi O‘zbekistonning taraqqiyot strategiyasi”da milliy iqtisodiyotni liberallashtirish, tadbirkorlikni qo‘llab-quvvatlash va xususiy mulk daxlsizligini ta’minlash davlat siyosatining ustuvor vazifalari sifatida belgilangan. Strategiyada tadbirkorlik subyektlari faoliyatini rag‘batlantirish, hududlarda yangi biznes loyihalarni qo‘llab-quvvatlash hamda iqtisodiyotda xususiy sektor ulushini oshirish vazifalari ilgari surilgan. Farmonda tashqi savdo, soliq va moliya siyosatini liberallashtirish bilan bir qatorda tadbirkorlik subyektlari uchun qulay biznes muhitini yaratish zarurligi alohida ta’kidlangan[8]. (LEX.UZ)

Mazkur strategiyaning amaliy davomchisi sifatida O‘zbekiston Respublikasi Prezidentining 2023-yil 11-sentabrdagi PF–158-son Farmoni bilan **“O‘zbekiston – 2030” strategiyasi** tasdiqlandi. Ushbu strategiyada barqaror iqtisodiy o‘sish orqali aholi farovonligini ta’minlash asosiy ustuvor yo‘nalishlardan biri sifatida belgilangan bo‘lib, bunda xususiy sektorni rivojlantirish, tadbirkorlik tashabbuslarini qo‘llab-quvvatlash va biznes yuritish uchun yanada qulay sharoitlar yaratish muhim vazifa sifatida qayd etilgan. Strategiyaning asosiy g‘oyalaridan biri har bir fuqaroga o‘z iqtisodiy salohiyatini ro‘yobga chiqarish uchun teng imkoniyatlar yaratishdan iboratdi[9].

“O‘zbekiston – 2030” strategiyasida iqtisodiyotni rivojlantirishning muhim mexanizmlaridan biri sifatida tadbirkorlik va xususiy mulk institutlarini mustahkamlash nazarda tutilgan. Hujjatda hududlarda xizmat ko‘rsatish

sohasini kengaytirish, kichik biznes va xususiy tadbirkorlikni rag‘batlantirish, innovatsion faoliyatni qo‘llab-quvvatlash hamda yangi ish o‘rinlari yaratish bo‘yicha aniq maqsadlar belgilangan [10].

Ijtimoiy-falsafiy nuqtai nazardan mazkur strategik hujjatlar iqtisodiy erkinlik va inson manfaatlari o‘rtasidagi uzviy bog‘liqlikni namoyon etadi. Chunki tadbirkorlikni qo‘llab-quvvatlash orqali shaxsning iqtisodiy mustaqilligi, tashabbuskorligi va ijtimoiy mas’uliyati rivojlanadi. Bu esa o‘z navbatida fuqarolik jamiyatining mustahkamlanishiga xizmat qiladi.

Prezident Sh.M.Mirziyoyev o‘z asarlarida va strategik hujjatlarida tadbirkorlarni “iqtisodiy taraqqiyotning asosiy tayanchi” sifatida tavsiflaydi. Xususan, “Yangi O‘zbekiston strategiyasi” asarida iqtisodiy islohotlarning bosh maqsadi aholining farovonligini oshirish va inson kapitalini rivojlantirish ekanligi qayd etiladi. Mazkur maqsadga erishishda tadbirkorlik faoliyatini qo‘llab-quvvatlash hal qiluvchi omillardan biri sifatida baholanadi [1].

Shuningdek, PF–60-son Farmonida sharoiti og‘ir hududlarda yangi tashkil etilayotgan tadbirkorlik subyektlariga soliq imtiyozlari berish mexanizmlarini joriy etish vazifasi belgilangan. Bu esa hududiy iqtisodiy tafovutlarni qisqartirish va aholi bandligini ta’minlashning muhim vositasi sifatida ko‘riladi [8].

Tadqiqot natijalari shuni ko‘rsatadiki, Yangi O‘zbekiston sharoitida tadbirkorlikni rivojlantirishga oid normativ-huquqiy hujjatlar nafaqat iqtisodiy o‘sishni ta’minlashga, balki jamiyatda tashabbuskorlik, innovatsion tafakkur va ijtimoiy mas’uliyat kabi qadriyatlarni shakllantirishga ham xizmat qilmoqda. Shu sababli tadbirkorlikni qo‘llab-quvvatlash siyosatini ijtimoiy-falsafiy taraqqiyotning muhim omillaridan biri sifatida baholash mumkin.

Izlanishlar tadbirkorlikni qo‘llab-quvvatlash siyosati nafaqat iqtisodiy manfaatlarga, balki jamiyatda tashabbuskorlik, mas’uliyat va innovatsion tafakkurni rivojlantirishga ham xizmat qiladi. Bu esa fuqarolik jamiyatining mustahkamlanishi va ijtimoiy faollikning ortishiga olib keladi. Tadqiqot natijalari tadbirkorlik faoliyatining kambag‘allikni qisqartirish, bandlikni ta’minlash va ijtimoiy barqarorlikni mustahkamlashdagi ahamiyatini ko‘rsatdi.

Yangi o‘zbekistonda tadbirkorlikni rivojlantirishning istiqbolli yo‘nalishlari

1.Raqamli tadbirkorlikni qo‘llab-quvvatlash mexanizmlarini kengaytirish.

2.Startap loyihalarni moliyalashtirish tizimini takomillashtirish.

3.Hududlarda innovatsion biznes markazlarini tashkil etish.

4.Yoshlar tadbirkorligini rivojlantirish bo‘yicha maxsus dasturlarni kengaytirish.

5.Xotin-qizlar biznes tashabbuslarini rag‘batlantirish.

6.Tadbirkorlik ta’limini rivojlantirish va amaliy ko‘nikmalarni shakllantirish.

7.Xalqaro investitsiyalarni jalb etish orqali biznes muhitini yanada takomillashtirish.

Xulosa. Tadqiqot natijalari Yangi O‘zbekistonda tadbirkorlikni qo‘llab-quvvatlashga qaratilgan islohotlar jamiyat taraqqiyotining muhim omillaridan biri ekanligini ko‘rsatdi. Aniqlanishicha, tadbirkorlar uchun yaratilayotgan huquqiy, iqtisodiy va institutsional imkoniyatlar:

- iqtisodiy faollikni oshirmoqda;
- yangi ish o‘rinlari yaratmoqda;
- innovatsion rivojlanishni rag‘batlantirmoqda;
- inson kapitalining rivojlanishiga xizmat qilmoqda;
- fuqarolik jamiyatini mustahkamlamoqda.

Jumladan, tadbirkorlikni rivojlantirish siyosati jamiyatda tashabbuskorlik, mas’uliyat va ijodkorlik kabi ijtimoiy qadriyatlarning qaror topishiga xizmat qilmoqda. Shu sababli tadbirkorlikni qo‘llab-quvvatlash Yangi O‘zbekiston taraqqiyot strategiyasining ustuvor yo‘nalishlaridan biri bo‘lib qoladi.

PHILOSOPHICAL

EKOLOGIK MUAMMOLARNI HAL QILISH VA BARQAROR RIVOJLANISHNIG FALSAFIY TAHLILI.

Miraxmedov Jaxongir Muxsinovich
Qo‘qon davlat universiteti
dotsen v.b, f.f.d (PhD)

Annotatsiya. *Mazkur maqolada XXI asrda ekologik muammolar jahon siyosatidagi eng muhim masalalardan biri bo‘lib qolmoqda, chunki ko‘p qirrali ekologik inqiroz chuqurlashib borayotganligi ijtimoiy-falsafiy tahlili qilingan. Shuningdek, ekologik muammoni doimiy, chuqur o‘rganishni takomillashtirish, ekologik muammolarni hal qilish va barqaror rivojlanishni ta’minlashda masalalari tadqiq qilish bilan belgilanadi.*

Kalit so‘zlari: *Ekologik, ekologik inqiroz, atrof-muhitni, ekologik siyosat, ekologik madaniyat, global ekologik, ekologik bilimlar.*

ФИЛОСОФСКИЙ АНАЛИЗ РЕШЕНИЯ ЭКОЛОГИЧЕСКИХ ПРОБЛЕМ И УСТОЙЧИВОГО РАЗВИТИЯ.

Аннотация. *В данной статье проводится социально-философский анализ того факта, что в XXI веке экологические проблемы остаются одним из важнейших вопросов мировой политики, как и углубление многогранного экологического кризиса. Это также обусловлено необходимостью непрерывного, углубленного изучения экологической проблемы, исследования вопросов решения экологических проблем и обеспечения устойчивого развития.*

Ключевые слова: *Экология, экологический кризис, окружающая среда, экологическая политика, экологическая культура, глобальная экология, экологические знания.*

PHILOSOPHICAL ANALYSIS OF SOLVING ECOLOGICAL PROBLEMS AND SUSTAINABLE DEVELOPMENT.

Abstract. *In this article, a socio-philosophical analysis is made of the fact that in the 21st century, environmental problems remain one of the most important issues in world politics, as the deepening of the multifaceted ecological crisis. It is also determined by the need for continuous, in-depth study of the ecological problem, the study of issues in solving ecological problems and ensuring sustainable development.*

Keywords: *Ecological, ecological crisis, environment, ecological policy, ecological culture, global ecological, ecological knowledge.*

Kirish

Hozirgi kunda ilmiy adabiyotlarda globallashuv, ekologik ong, ekologik inqiroz kabi tushunchalar ko‘p qo‘llanilmoqda.Umuman ekologik muammolar tez-tez ishlatib kelinadigan tushunchaga aylandi. Bugungi kunda ekologiya endi shunchaki oddiy fan emas, balki insoniyatning omon qolish strategiyasiga aylandi.

O‘z navbatida, ko‘pgina ilmiy ishlarda globalizm o‘zining mavzu doirasi bilan birinchi navbatda iqtisodiyot nuqtai nazaridan, masalan, milliy iqtisodiyotlarning maksimal foydasiga erishish uchun kurash sifatida o‘rganiladi.

XX asrning 70-yillari boshlarida jamiyat uchun ekologik inqiroz muammosi birinchi navbatda ijtimoiy-siyosiy muammo ekanligini ko‘rsatdi. Globallashuv jarayonlarining ortib borayotgan ahamiyati fonida dolzarb ekologik muammolarni muhokama qilish kuchaydi.

“XXI asrda ekologik muammolar jahon siyosatidagi eng muhim masalalardan biri bo‘lib qolmoqda, chunki ko‘p qirrali ekologik inqiroz chuqurlashib borayotgan sharoitda sun’iy va tabiiy inson muhitining o‘zaro ta’sirini uyg‘unlashtirish masalalari muhim ahamiyatga ega. Insoniyat eng global va ko‘p omilli xavf - antropogen omillar ta’sirida atrof-muhitning qaytarilmas halokatli o‘zgarishlari natijasida o‘lim xavfi bilan duch kelmoqda. Shuning uchun yaqinda "xavfsizlik" tushunchasining umumiy kontseptual tuzilmasida muhim tarkibiy qism - ekologik xavfsizlik shakllanayotganligi haqida tushuncha paydo bo‘ldi” .[1]

Adabiyotlar tahlili va metodologiya

Hozirgi vaqtda ekologik xavfsizlik nuqtai nazaridan eng muhim mavzu iqlim o'zgarishi mavzusidir. 2009 yil dekabr oyida Kopengagenda iqlim o'zgarishi bo'yicha muzokaralarning navbatdagi bosqichi bo'lib o'tdi, unda davlatlar iqlim jarayonlarida antropogen omilning salbiy oqibatlarini kamaytirish bo'yicha yangi majburiyatlarni olishlari kerak edi. Afsuski, Kopengagen uchrashuvi deyarli hech qanday natija bilan yakunlanmadi. Greenpeace atrof-muhitni muhofaza qilish tashkilotining Britaniya bo'limi rahbari Jon Sauven ta'kidlaganidek, "dunyoda o'zlarining tor manfaatlaridan tashqarini ko'ra oladigan siyosatchilar juda kam, ular millionlab odamlar haqida qayg'urmaydilar. Global isishga qarshi kurash Kopengagenda namoyish etilganidan butunlay boshqacha siyosiy modelni talab qilishi aniq bo'ldi".

"Bugungi kunga qadar globalizm odamlarga, insoniyatning tabiiy yashash joyi sifatida Yerning butun biosferasiga qarshi qaratilgan qurol ekanligini isbotlovchi umumiy asarlar deyarli yo'q. Ommaviy axborot vositalari asosan "oltin milliardlar" tepasi vakillari qo'lida bo'lganligi sababli globalizmning haqiqiy aksilekologik mohiyatini ifodalovchi ilmiy ishlarni "targ'ib qilish" nega foydasizligini tushunish mumkin." [2]

"Zamonaviy fanlarning nazariy qoidalari (falsafa, ekologiya, biologiya, geografiya) tamoyillari va ularni amalga oshirish uchun atrof-muhitni oqilona boshqarish usullari turli tizimlarning tuzilishi, faoliyati, ularning barqarorligi omillari va mexanizmlari to'g'risida juda ko'p turli xil ma'lumotlarni talab qiladi".[3]

O'zbekiston Respublikasi endi iqtisodiy, siyosiy va ijtimoiy jihatdan ilg'or hisoblangan boshqa davlatlar asrlar davomida amalga oshirib kelgan muammolarni nisbatan qisqa tarixiy davrda hal etish zarurati tug'ilgan vaziyatga tushib qoldi. Sanoqli yillar ichida bozor iqtisodiyotiga, demokratiyaga, huquqiy davlatga, fuqarolik jamiyatiga o'tish zarur bo'ldi.

1992-yilda Rio-de-Janeyroda bo'lib o'tgan sammitda 179 davlatning davlat rahbarlari va hukumat rahbarlari ekologik muammolarni hal qilmasdan turib, sivilizatsiyaning barcha yutuqlari, jumladan, bozor iqtisodiyoti va demokratiya yo'qolib ketish xavfi borligini tan oldilar. Kelgusi o'n yilliklarda ular yo'q bo'lib ketishi mumkin, chunki butun insoniyat ekologik falokat tubiga g'arq bo'ladi. Ma'lum bo'ldiki, insoniyat omon qolishi uchun rivojlanish modelini va hatto uning turmush tarzini tubdan o'zgartirish, barqaror rivojlanishga o'tishni ta'minlaydigan tarixdagi eng keskin o'zgarishlarni amalga oshirish zarur.

Ilmiy ekologik bilimlar kengaytirishi, bir tomondan, global ekologik muammolarning ko'p qirrali mazmuni, ikkinchi tomondan, insoniyatning ekologik muammolarini yaxlit o'rganishda klassik bioekologiyaning cheklangan imkoniyatlarini tushunishga olib keladi. Ularni o'rganish turli fanlarning o'zaro ta'sirini o'z ichiga oladi. Shu bilan birga, ekologik muammolarni hal qilish va barqaror rivojlanishni ta'minlashda mentallik va milliy o'zlikni anglashning dialektik aloqadorligini o'rganish zaruriyati paydo bo'ldi.

Fikrimizcha, global ekologik muammolar kontekstida butun ta'lim tizimi ikkita o'zaro bog'liq funktsiyani bajarishga yo'naltirilgan bo'lishi kerak:

neo-gumanistik, uning mohiyati ta'lim jarayonini butun insoniyatning omon qolishi va uzluksiz rivojlanishiga yo'naltirish bilan bog'liq va ekologik bilimlar tizimi. Bu butun tabiatning barcha tarkibiy qismlarini saqlashga, hayotni saqlab qolish uchun shart-sharoitlarni ta'minlashga qaratilgan. Binobarin, XXI asrda ta'limni rivojlantirish strategiyalari insonparvarlashtirish va ko'kalamzorlashtirish g'oyalari o'rtasidagi bog'liqlikni hisobga olgan holda ishlab chiqilishi kerak.

Ekilogik ta'lim zamonaviy ta'limni insonparvarlik g'oyalariga yo'naltirishda va inson va tabiat o'rtasidagi munosabatlarda tartibga soluvchi sifatida shaxsning ekologik madaniyatini rivojlantirishda tizimli rol o'ynaydi. Ekologik ta'limning maqsadlari va etakchi yo'nalishlari ekologik muammolarning global tabiati va barqaror rivojlanish kontseptsiyasi kontekstida belgilanadi.

Yangi O'zbekistonning zamonaviy sharoitida, dunyoning boshqa ko'plab mamlakatlarida bo'lgani kabi, ko'plab dolzarb ijtimoiy-siyosiy, iqtisodiy va ma'naviy muammolar ham yengib o'tilmoqda, ular yanada chuqurroq ko'rib chiqish va tahlil qilishni talab etadi.

Bunday muhim muammolar quyidagilardan iborat:

birinchidan, har bir insonning dolzarb ehtiyojlarini qondiradigan rivojlangan moddiy bazani yaratish muammosi;

ikkinchidan, insonparvarlik va ilmiy asoslangan yechimni talab qiladigan demografiya yoki aholi muammolarini hal etish O'zbekiston aholisining oilaviy ko'payishi va migratsiyasining ob'ektiv va subyektiv jarayonlarini to'g'ri tartibga solish imkonini berar edi;

uchinchidan, O'zbekistonning barcha mehnatga layoqatli aholisini ish bilan ta'minlashning muhim muammosi;

to'rtinchidan, O'zbekiston tabiati va atrof-muhitini muhofaza qilish;

beshinchidan, O'zbekiston hukumatining ekologik siyosati jarayoniga siyosiy madaniyatning ta'sirini tizimli ravishda amalga oshirish va boshqalar. Mavjud adabiyotlarda siyosiy madaniyatning ekologik siyosatni amalga oshirish jarayoniga ta'siri, uning muammolari va jihatlari hali yetarlicha o'rganilmagan. Qolaversa, zamonaviy sharoitda bu muammo keng qamrovli tadqiqot va tahlillarni talab qiladi. Shuni ham ta'kidlash kerakki, siyosiy madaniyatning davlatning ekologik siyosatini amalga oshirishga ta'siri, ayniqsa, O'zbekistonning zamonaviy sharoitida jiddiy

izlanishlarni talab etadi. O'zbekiston tajribasi shuni ko'rsatadiki, ekologik siyosat muammolarini ishlab chiqish va hal etish nafaqat nazariy, balki muhim amaliy ahamiyatga ega.

Tahlillar va natijalar

Ekologik muammolarni hal qilish va barqaror rivojlanishni ta'minlashda mentallik va milliy o'zlikni anglashning dialektik aloqadorligi shundan iboratki, u ekologik vaziyat kontseptsiyasini ishlab chiqishga ma'lum bir nazariy va ijtimoiy-amaliy hissa qo'shadi va ekologik ta'lim va shaxsni tarbiyalash muammosini ilmiy nuqtai nazardan aniq hal qiladi.

- hozirgi ekologik vaziyat - bu global ekotizimning o'ziga xos tanqidiy nuqtasi holati, uning biogen konstantalarida antropogen o'zgarishlar sodir bo'ladi;

- zamonaviy jamiyatning ijtimoiy-ekologik barqarorlashuvi uchun fan va oliy ta'lim integratsiyasining o'zaro bog'liqligi fan va ta'limning birligini aniqlash nuqtai nazaridan ham ushbu ikki ijtimoiy faoliyat turi faoliyatining ichki qonuniyatlari bilan ham ko'rib chiqilishi kerak;

- mamlakat ekologik tizimining barqaror rivojlanishi uchun avlodlar o'rtasidagi mentallik va milliy o'zlikni anglash oqilona munosabatlar zarur shart ekani, ya'ni hozirgi avlodning atrof-muhitni muhofaza qilish bo'yicha qarorlari ularning kelajak avlodlarga ta'sirini hisobga olgan holda qabul qilinish lozim;

- inson taraqqiyoti, uning ehtiyoj va manfaatlari zamonaviy oliy ta'lim paradigmasi, mentallik va milliy o'zlikni anglashning va ekologik madaniyatni rivojlanish kontekstda ko'rib chiqish lozim;

Barqaror rivojlanish g'oyalari davrning ob'ektiv talablariga javob beradi va O'zbekiston kelajagini hal qiluvchi ta'sir ko'rsatishi, davlatning ustuvor yo'nalishlari, ijtimoiy-iqtisodiy rivojlanish strategiyasi va mamlakatni yanada isloh qilish istiqbollarini belgilashda muhim o'rin tutadi. Yangi O'zbekistonni rivojlanish strategiyasi jahon hamjamiyatining mavqeini – insoniyatning omon qolishi, biosferaning uzluksiz rivojlanishi va asrab-avaylanishi yo'lida kuchlarni birlashtirishni allaqachon belgilab beradi.

Jahon iqtisodiyotidagi ekologik muammolar ilmiy tadqiqitimizda ishlab chiqilgan davrlashtirishda aks ettirilgan. Uning asosida, ***birinchidan,*** barqaror rivojlanish kontseptsiyasi va "*yashil iqtisodiyot*"ning zamonaviy paradigmasining mafkuraviy asosi 1970-yillarda qo'yilganligi aniqlandi.

Ikkinchidan, agar barqaror rivojlanish strategiyasi bir qator yangi qoidalarni joriy etish bilan tavsiflangan bo'lsa, hozirgi "yashil iqtisodiyot" paradigmasi faqat nashrlar, xalqaro konferensiyalarda uzoq vaqt davomida to'plangan g'oyalar va postulatlarni jamlagan holda rivojlanmoqda.

Uchinchidan, "yashil iqtisodiyot" tarafdorlari tomonidan ekologik siyosat mexanizmlarini ilgari surish ular atrof-muhitning ifloslanishini kamaytirish uchun nisbatan arzonroq texnologik yechimlarni uzluksiz izlashni ta'minlash zarur.

Ekologiya mavzusi, albatta, mentallik va milliy o'zlikni anglashning diniy e'tiqodi, iqtisodiy rivojlanish darajasi va siyosiy tizim turidan qat'i nazar, dunyo hamjamiyatining barcha mamlakatlariga ham ta'sir qiladi. Ko'plab xalqaro notijorat tashkilotlar va ekologik guruhlar atrof-muhitni tiklash va saqlashga katta hissa qo'shmoqda. Ommaviy axborot vositalarida ushbu mavzuga bag'ishlangan ma'lumotlar hajmi asta-sekin o'sib bormoqda. Jamoatchilik e'tiborini odatda tezkor javob talab qiladigan o'tkir muammolarga qaratadi. Ekologik harakatlar vaziyatni doimiy nazorat qilish, bir martalik aksiyalar tashkil etish va muntazam tadbirlar o'tkazish orqali jamoatchilik e'tiborini ekologik muammolarga qaratish bilan shug'ullanadi. Hukumat rasmiylari tabiiy muhit holatiga salbiy ta'sir ko'rsatadigan inson faoliyatining qo'shimcha mahsulotlarini yo'q qilish bo'yicha qat'iy choralar ko'rish haqida gapiradi.

Xulosa

Yuqorida aytilganlarga fikrlarga asoslanib, shuni ta'kidlash mumkinki, ekologiya, atrof-muhitni asrash va suv tanqisligi muammolarini oldini olishga qaratilgan masalalari ham ustuvor vazifaga aylandi. Sababi, bugungi kunda dunyoda yuz berayotgan shiddatli jarayonlar, oziq-ovqat xavfsizligi, iqlim o'zgarishi va ekologiya bilan bog'liq muammolar dunyo hamjamiyati oldiga yangidan-yangi vazifalarni qo'ymoqda. Jahon yalpi ichki mahsuloti, aholi sonining o'sishi, nisoniyatning atrof-muhitga salbiy ta'siri va global energiya resurslarining cheklanayotgani ekologik muammolarning kuchayishiga sabab bo'lmoqda.

Shuni ham aytib o'tish joizki, so'nggi yillarda mamlakatimizda qabul qilinayotgan aniq maqsad va vazifalarni o'zida jamlagan farmon va qarorlar, tasdiqlangan dasturlar ijrosi doirasida ko'rilgan chora-tadbirlar ijobiy natijalarni bermoqda. Jumladan, Orolbo'yi hududini rivojlantirish bo'yicha Davlat dasturi ishlab chiqildi, O'zbekiston Parij bitimini ratifikatsiya qildi. Orolbo'yi mintaqasi uchun Inson xavfsizligi bo'yicha ko'p tomonlama sheriklik trast jamg'armasi tashkil etildi, 2030 yilgacha bo'lgan davrda O'zbekiston Respublikasining atrof muhitni muhofaza qilish konsepsiyasi tasdiqlandi. O'zbekiston «2019–2030 yillar davrida mamlakatning «yashil» iqtisodiyotga o'tish strategiyasi»ni qabul qildi, O'zbekiston tashabbusi bilan BMT Bosh Assambleyasining Orolbo'yi mintaqasini ekologik innovatsiya va texnologiyalar hududi, deb e'lon qilish bo'yicha maxsus rezolyusiyasi qabul qilindi.

Shu o'rinda, Prezident o'z nutqida ekologiya va atrof-muhitni asrash, suv taqchilligining oldini olish bundan buyon ham dolzarb vazifa bo'lib qolishini qayd etdi. Xususan, davlat rahbari o'z nutqida «...biz dunyodagi eng katta

ekologik ofat – Orol fojiasini bevosita o‘z boshidan kechirayotgan xalqmiz. Shuning uchun hozirgi vaqtda respublikamizda bebaho ekologik tizimni saqlash va mustahkamlashga qaratilgan keng ko‘lamli dasturlar, jumladan «Yashil makon» umummilliy loyihasi amalga oshirilmoqda...»[4], deya qayd etdi. Mazkur dasturlarni amalga oshirish orqali, jumladan ekologik muammo va iqlim o‘zgarishi sharoitida dunyo hamjamiyatining diqqat markazida bo‘lgan Orol dengizining qurigan tubida qo‘shimcha 500 ming gektar yashil maydonlarni barpo etish orqali 2026 yil yakuniga qadar ularning umumiy hajmi 2,5 million gektarga yoki hududning 78 foiziga yetkazish bilan nafaqat O‘zbekistonda, balki mintaqada ekologik barqarorlik tiklanishiga erishish ta’minlanadi.

Hududda Orolbo‘yida xalqaro «Yashil iqlim» va Global ekologik jamg‘armalarning bioxilma-xillik, iqlim o‘zgarishi va tuproq yemirilishining oldini olishga qaratilgan dasturlari asosida loyihalarni amalga oshirish ham ekologik muammolar bugungi kunning dolzarb masalasi ekanini tasdiqlab turibdi.

Xalqimizning mentalligi va milliy o’zligini anglashni orqali ekologiya va atrof-muhit masalasi davlat boshqaruvi organlari, jamoat tashkilotlari va fuqarolarning tabiatni muhofaza qilish, aholining qulay tabiiy muhitda hayot kechirishi uchun barcha zarur shart-sharoitlarni yaratishga, tabiiy resurslardan oqilona va samarali foydalanishga hamda ekologik xavfsizlik muammolarini oldini olishga safarbar qiladi.

DEMOKRATIK TRANSFORMATSIYA SHAROITIDA IJTIMOIY KONSENSUS VA FUQAROLIK BIRDAMLIGINING TINCHLIKNI TA'MINLASHDAGI IJTIMOIY-FALSAFIY AHAMIYATI

Ergashev Inomjon Raximovich
Farg'ona davlat universiteti mustaqil tadqiqotchisi

Annotatsiya. *Maqolada demokratik transformatsiya jarayonlarida ijtimoiy konsensus va fuqarolik birdamligining tinchlik hamda barqaror taraqqiyotni ta'minlashdagi ijtimoiy-falsafiy ahamiyati tahlil qilinadi. Tadqiqotda demokratik jamiyatning barqaror rivojlanishi uchun zarur bo'lgan ijtimoiy ishonch, fuqarolik mas'uliyati, hamjihatlik va muloqot madaniyatining nazariy asoslari yoritilgan. Shuningdek, Yangi O'zbekiston sharoitida fuqarolik jamiyati institutlari faoliyati, ijtimoiy konsensus madaniyatining shakllanishi va uning tinchlikni mustahkamlashdagi o'rni ochib berilgan. Tadqiqot natijalarida ijtimoiy konsensus va fuqarolik birdamligi demokratik taraqqiyotning muhim omili ekanligi asoslangan.*

Kalit so'zlar: *demokratik transformatsiya, ijtimoiy konsensus, fuqarolik birdamligi, tinchlik, ijtimoiy ishonch, fuqarolik jamiyati, demokratik taraqqiyot, ijtimoiy integratsiya, barqarorlik.*

СОЦИАЛЬНО-ФИЛОСОФСКОЕ ЗНАЧЕНИЕ ОБЩЕСТВЕННОГО КОНСЕНСУСА И ГРАЖДАНСКОЙ СОЛИДАРНОСТИ В ОБЕСПЕЧЕНИИ МИРА В УСЛОВИЯХ ДЕМОКРАТИЧЕСКОЙ ТРАНСФОРМАЦИИ

Аннотация. *В статье анализируется социально-философское значение общественного консенсуса и гражданской солидарности в обеспечении мира и стабильности в условиях демократической трансформации. Исследуются теоретические основы социального доверия, гражданской ответственности, общественного согласия и культуры диалога. Особое внимание уделяется роли институтов гражданского общества в укреплении социальной стабильности и развитию консенсусной культуры в Новом Узбекистане.*

Ключевые слова: *демократическая трансформация, общественный консенсус, гражданская солидарность, мир, стабильность, гражданское общество, социальное доверие.*

SOCIO-PHILOSOPHICAL SIGNIFICANCE OF SOCIAL CONSENSUS AND CIVIC SOLIDARITY IN ENSURING PEACE DURING DEMOCRATIC TRANSFORMATION

Abstract. *This article analyzes the socio-philosophical significance of social consensus and civic solidarity in ensuring peace and stability during democratic transformation. The study examines the theoretical foundations of social trust, civic responsibility, solidarity, and dialogue culture. Particular attention is paid to the role of civil society institutions in strengthening social stability and developing a culture of consensus in New Uzbekistan. The findings demonstrate that social consensus and civic solidarity are essential factors of democratic development and sustainable peace.*

Keywords: *democratic transformation, social consensus, civic solidarity, peace, social trust, civil society, democratic development, social integration.*

Kirish. Globallashuv, raqamli kommunikatsiyalar va demokratik modernizatsiya jarayonlari kuchayib borayotgan XXI asrda tinchlik va barqarorlik masalasi davlat va jamiyat taraqqiyotining muhim omiliga aylandi. Demokratik transformatsiya jarayonlari siyosiy institutlarning yangilanishi bilan bir qatorda fuqarolarning siyosiy madaniyati, ijtimoiy mas'uliyati va jamiyatdagi birdamlik darajasining oshishini ham talab qiladi. Shu jihatdan ijtimoiy konsensus va fuqarolik birdamligi demokratik taraqqiyotning muhim ijtimoiy-falsafiy asoslari sifatida namoyon bo'ladi.

Ijtimoiy konsensus jamiyat a'zolarining umumiy qadriyatlar, maqsadlar va rivojlanish strategiyalari bo'yicha kelishuvga erishishini anglatadi. Fuqarolik birdamligi esa fuqarolarning umumiy manfaatlar asosida hamkorlik qilishi va jamiyat taraqqiyotiga daxldorlik hissini ifodalaydi. Mazkur tushunchalar demokratik tizimning samarali faoliyat yuritishida muhim ahamiyat kasb etadi [1].

Jahon tajribasi shuni ko'rsatadiki, fuqarolar o'rtasidagi ishonch va hamkorlik yuqori bo'lgan jamiyatlarda demokratik institutlar samaraliroq ishlaydi, ijtimoiy ziddiyatlar esa nisbatan kam uchraydi [2]. Shu sababli demokratik

transformatsiya sharoitida ijtimoiy konsensusning nazariy asoslarini tadqiq etish va fuqarolik birdamligining tinchlikni ta'minlashdagi rolini aniqlash dolzarb ilmiy vazifalardan biri hisoblanadi. Mazkur maqolaning maqsadi demokratik transformatsiya jarayonlarida ijtimoiy konsensus va fuqarolik birdamligining tinchlikni ta'minlashdagi ijtimoiy-falsafiy ahamiyatini ilmiy jihatdan asoslashdan iborat.

TADQIQOT METODOLOGIYASI. Tadqiqotda ijtimoiy-falsafiy tahlil, tizimli yondashuv, qiyosiy tahlil va aksiologik metodlardan foydalanildi. Tadqiqotning nazariy-metodologik asosini J.Habermasning kommunikativ harakat nazariyasi, R.Putnamning ijtimoiy kapital konsepsiyasi, F.Fukuyamaning ijtimoiy ishonch nazariyasi hamda E.Giddensning refleksiv modernizatsiya haqidagi qarashlari tashkil etdi [3;4]. Shuningdek, O'zbekiston Respublikasining Konstitutsiyasi, "Yangi O'zbekiston taraqqiyot strategiyasi" hamda "O'zbekiston – 2030" strategiyasiga oid hujjatlar tahlil qilindi.

NATIJALAR. *Ijtimoiy konsensusning demokratik taraqqiyotdagi o'rni*

Tadqiqot natijalari shuni ko'rsatdiki, demokratik transformatsiya jarayonlarining muvaffaqiyati ko'p jihatdan jamiyatdagi konsensus darajasiga bog'liq. Ijtimoiy konsensus turli ijtimoiy guruhlar manfaatlarini uyg'unlashtirish va ziddiyatlarning konstruktiv hal etilishiga xizmat qiladi. J.Habermasning fikricha, demokratik legitimlik fuqarolarning erkin muloqoti va oqilona kelishuvlari asosida shakllanadi [1]. Shu ma'noda ijtimoiy konsensus demokratik boshqaruvning muhim sharti hisoblanadi.

Fuqarolik birdamligi va ijtimoiy ishonch. Tahlillar natijasida fuqarolik birdamligi jamiyatdagi ijtimoiy ishonchning muhim ko'rsatkichi ekanligi aniqlandi. Fuqarolar o'rtasidagi hamkorlik va o'zaro mas'uliyat demokratik institutlarning samaradorligini oshiradi.

R.Putnam fuqarolik birdamligini ijtimoiy kapitalning asosiy tarkibiy qismi sifatida tavsiflaydi [2]. Tadqiqot davomida aniqlanishicha, fuqarolik birdamligi yuqori bo'lgan jamiyatlarda siyosiy barqarorlik va ijtimoiy xavfsizlik darajasi ham yuqori bo'ladi.

O'zbekiston tajribasida ijtimoiy consensus. Yangi O'zbekistonda amalga oshirilayotgan islohotlar ijtimoiy konsensus va fuqarolik birdamligini mustahkamlashga qaratilgan. Mahalla institutining faoliyati, jamoatchilik nazoratining kengayishi, fuqarolik jamiyati institutlarining rivojlanishi jamiyatda hamjihatlik muhitini shakllantirishga xizmat qilmoqda [5].

Tadqiqot natijalari tinchlikni ta'minlashning zamonaviy modeli quyidagi omillarga asoslanishini ko'rsatdi:

- ijtimoiy ishonch;
- fuqarolik faolligi;
- ochiq muloqot madaniyati;
- qonun ustuvorligi;
- millatlararo totuvlik;
- diniy bag'rikenglik;
- fuqarolik jamiyati institutlarining rivojlanganligi.

Muhokama. Ijtimoiy konsensus va fuqarolik birdamligi demokratik transformatsiya sharoitida jamiyat barqarorligining muhim kafolati hisoblanadi. Habermas demokratik jamiyatning asosiy tayanchi sifatida kommunikativ hamkorlikni e'tirof etadi [1]. Tadqiqot natijalari ham ushbu nazariy qarashni tasdiqlaydi.

F.Fukuyama ijtimoiy ishonchni taraqqiyotning muhim omili sifatida baholaydi. Uning fikricha, yuqori darajadagi ishonchga ega jamiyatlar siyosiy va iqtisodiy jihatdan barqarorroq bo'ladi [6]. Mazkur xulosa O'zbekiston tajribasi misolida ham o'z tasdig'ini topmoqda. Muallifning fikricha, demokratik transformatsiya jarayonlarida ijtimoiy konsensusni mustahkamlash faqat siyosiy mexanizmlar bilan emas, balki ma'naviy-ma'rifiy omillar orqali ham amalga oshirilishi lozim. Fuqarolarda ijtimoiy mas'uliyat, bag'rikenglik va muloqot madaniyatini rivojlantirish barqaror tinchlikning muhim sharti hisoblanadi.

XULOSA. Tadqiqot natijalari asosida quyidagi xulosalarga kelindi:

1.Ijtimoiy konsensus demokratik transformatsiyaning muhim ijtimoiy-falsafiy asosidir.

2.Fuqarolik birdamligi jamiyatdagi ijtimoiy integratsiya va barqarorlikni ta'minlaydi.

3.Ijtimoiy ishonch demokratik institutlarning samarali faoliyat yuritishiga xizmat qiladi.

4.O'zbekiston tajribasi ijtimoiy konsensus va fuqarolik birdamligi tinchlikni mustahkamlashning muhim omillari ekanligini ko'rsatmoqda.

5.Demokratik jamiyat rivojida fuqarolik jamiyati institutlari va mahalla tizimining ahamiyati ortib bormoqda.

Shunday qilib, demokratik transformatsiya sharoitida ijtimoiy konsensus va fuqarolik birdamligi jamiyat taraqqiyoti, tinchlik va barqarorlikning muhim ijtimoiy-falsafiy poydevori sifatida namoyon bo'ladi.

RAQAMLI DAVRDA SUN'IY INTELLEKTNING SHAXS IJTIMOIY MAS'ULIYATINING RIVOJLANISHIGA TA'SIRI

Abdazov Orifjon Baxtiyorovich
Samarqand davlat chet tillar instituti tadqiqotchi

Annotatsiya. *Mazkur maqolada raqamli davrda sun'iy intellekt texnologiyalarining shaxs ijtimoiy mas'uliyatiga ko'rsatayotgan ta'siri ilmiy-nazariy jihatdan tahlil qilinadi. Unda sun'iy intellektning inson faoliyati, qaror qabul qilish madaniyati, axloqiy tanlov, fuqarolik pozitsiyasi va ijtimoiy javobgarlik mezonlarini o'zgartirishdagi roli yoritiladi. Tadqiqotda raqamli texnologiyalar shaxsga qulaylik yaratishi bilan birga, mas'uliyatni algoritmlarga yuklash, tanqidiy tafakkurning susayishi, ma'lumotlardan noto'g'ri foydalanish kabi xavflarni ham yuzaga keltirishi asoslanadi. Maqolada shaxs ijtimoiy mas'uliyatining yangi shakllari - raqamli savodxonlik, axborot xavfsizligi, algoritmik adolat, raqamli etikaga rioya qilish va texnologik qarorlarning ijtimoiy oqibatlarini anglash zarurati ochib beriladi. Yakunda sun'iy intellekt sharoitida mas'uliyatli shaxsni shakllantirish uchun ta'lim, huquqiy madaniyat va axloqiy ongni uyg'un rivojlantirish zarurligi xulosa qilinadi.*

Kalit so'zlar: *raqamli jamiyat, sun'iy intellekt, ijtimoiy mas'uliyat, raqamli etika, algoritmik adolat, shaxs transformatsiyasi.*

ВЛИЯНИЕ ИСКУССТВЕННОГО ИНТЕЛЛЕКТА НА РАЗВИТИЕ СОЦИАЛЬНОЙ ОТВЕТСТВЕННОСТИ ЛИЧНОСТИ В ЦИФРОВУЮ ЭПОХУ

Аннотация: *В данной статье проводится научно-теоретический анализ влияния технологий искусственного интеллекта на социальную ответственность личности в цифровую эпоху. Раскрывается роль искусственного интеллекта в изменении человеческой деятельности, культуры принятия решений, морального выбора, гражданской позиции и критериев социальной ответственности. В исследовании обосновывается, что цифровые технологии, создавая удобства для личности, одновременно порождают такие риски, как перекладывание ответственности на алгоритмы, снижение критического мышления и злоупотребление информацией. В статье раскрывается необходимость формирования новых форм социальной ответственности личности, таких как цифровая грамотность, информационная безопасность, алгоритмическая справедливость, соблюдение цифровой этики и понимание социальных последствий технологических решений. В заключении делается вывод о необходимости гармоничного развития образования, правовой культуры и морального сознания для формирования ответственной личности в условиях искусственного интеллекта.*

Ключевые слова: *цифровое общество, искусственный интеллект, социальная ответственность, цифровая этика, алгоритмическая справедливость, трансформация личности.*

THE IMPACT OF ARTIFICIAL INTELLIGENCE ON THE DEVELOPMENT OF INDIVIDUAL SOCIAL RESPONSIBILITY IN THE DIGITAL AGE

Abstract: *This article presents a scientific and theoretical analysis of the impact of artificial intelligence (AI) technologies on individual social responsibility in the digital age. It explores the role of AI in transforming human activity, the culture of decision-making, moral choice, civic stance, and the criteria for social responsibility. The study argues that while digital technologies provide convenience for individuals, they also generate risks such as shifting responsibility onto algorithms, the decline of critical thinking, and the misuse of information. The article highlights the necessity of developing new forms of individual social responsibility, such as digital literacy, information security, algorithmic fairness, adherence to digital ethics, and understanding the social consequences of technological decisions. In conclusion, it is argued that the harmonious development of education, legal culture, and moral consciousness is essential for shaping a responsible individual in the era of artificial intelligence.*

Keywords: *digital society, artificial intelligence, social responsibility, digital ethics, algorithmic fairness, individual transformation.*

XXI asr boshidan boshlab insoniyat taraqqiyotida raqamli texnologiyalar hal qiluvchi omilga aylandi. Internet, katta ma'lumotlar bazasi, platforma iqtisodiyoti, avtomatlashtirilgan boshqaruv tizimlari va sun'iy intellekt insonning kundalik turmushi, mehnat faoliyati, ta'lim olishi, muloqot qilishi hamda jamiyatdagi o'rnini tubdan o'zgartirmoqda.

Ayniqsa, sun’iy intellekt texnologiyalari oddiy texnik vosita darajasidan chiqib, qaror qabul qilish, axborotni saralash, xatti-harakatni prognoz qilish, ijtimoiy munosabatlarni boshqarish va hatto inson tanloviga ta’sir ko‘rsatish imkoniyatiga ega murakkab ijtimoiy-texnologik hodisaga aylanmoqda.

Raqamli davrning muhim xususiyati shundaki, unda shaxs faqat texnologiyadan foydalanuvchi emas, balki raqamli jarayonlarning faol ishtirokchisi hamdir. Har bir foydalanuvchi internetda ma’lumot tarqatadi, shaxsiy axborot qoldiradi, algoritmik tizimlar uchun ma’lumot manbaiga aylanadi, ijtimoiy tarmoqlarda fikr bildiradi, raqamli xizmatlar orqali ijtimoiy munosabatlarga kirishadi. Demak, bugungi shaxsning ijtimoiy mas’uliyati an’anaviy doiradan chiqib, raqamli maydondagi axloqiy, huquqiy va kommunikativ javobgarlikni ham qamrab oladi [1, 45].

Sun’iy intellektning keng tarqalishi mas’uliyat masalasini yanada murakkablashtiradi. Chunki ilgari inson bevosita o‘zi bajargan ishning oqibati uchun javobgar bo‘lgan bo‘lsa, endilikda ko‘plab qarorlar algoritmlar yordamida shakllanmoqda. Masalan, ta’limda o‘quvchining bilim darajasini baholash, tibbiyotda tashxis qo‘yish, bank tizimida kredit layoqatini aniqlash, ishga qabul qilishda nomzodlarni saralash, ijtimoiy tarmoqlarda axborot oqimini tavsiya qilish kabi jarayonlarda sun’iy intellekt muhim rol o‘ynamoqda. Bunday sharoitda “qaror uchun kim javobgar?” degan savol alohida dolzarblik kasb etadi: dasturchimi, foydalanuvchimi, tashkilotmi yoki algoritmni qo‘llagan mutaxassismi? Shu nuqtayi nazardan, mazkur maqolaning maqsadi raqamli davrda sun’iy intellekt shaxs ijtimoiy mas’uliyatini qanday o‘zgartirayotganini tahlil qilish, bu jarayondagi ijobiy imkoniyatlar va xavflarni aniqlash hamda mas’uliyatli raqamli shaxsni shakllantirishning ilmiy-amaliy yo‘nalishlarini asoslashdan iborat.

Ijtimoiy mas’uliyat tushunchasi shaxsning o‘z xatti-harakati, qarori va faoliyati oqibatlarini anglash, ularni jamiyat manfaatlari, axloqiy me’yorlar va huquqiy talablar bilan muvofiqlashtirish qobiliyatini bildiradi. An’anaviy jamiyatda ijtimoiy mas’uliyat ko‘proq oila, mahalla, kasbiy jamoa, davlat va fuqarolik burchlari bilan bog‘liq bo‘lgan. Raqamli jamiyatda esa bu tushuncha yangi mazmun bilan boyimoqda. Endilikda inson nafaqat real hayotdagi, balki virtual makondagi harakati uchun ham javobgar bo‘lishi kerak. Internetda tarqatilgan yolg‘on xabar, shaxsiy ma’lumotni ruxsatsiz ulashish, sun’iy intellekt yaratgan matn yoki tasvirdan mas’uliyatsiz foydalanish, algoritmik tizimlar orqali boshqalarga zarar yetkazish ijtimoiy mas’uliyatning yangi ko‘rinishlari sifatida namoyon bo‘lmoqda [2, 118].

Sun’iy intellekt shaxs ijtimoiy mas’uliyatiga, avvalo, qaror qabul qilish madaniyati orqali ta’sir ko‘rsatadi. Inson kundalik hayotda qaysi axborotni o‘qishi, qanday mahsulot xarid qilishi, qaysi yo‘nalishda bilim olishi, kimlar bilan muloqot qilishi borasida algoritmik tavsiyalarga tobora ko‘proq tayanmoqda. Bu qulaylik yaratadi, vaqtni tejaydi, tanlov imkoniyatini kengaytiradi. Biroq ayni vaqtda shaxsning mustaqil fikrlashi va tanqidiy baholash qobiliyatini susaytirishi ham mumkin. Agar inson algoritm tavsiyasini so‘zsiz qabul qilsa, u o‘z tanlovi uchun mas’uliyatni texnologiyaga yuklay boshlaydi. Natijada “men shunday qaror qildim” degan ong o‘rniga “tizim shunday tavsiya qildi” degan passiv munosabat shakllanishi ehtimoli paydo bo‘ladi [3, 64].

Bu holatni mas’uliyatning algoritmik vositalanishi deb atash mumkin. Ya’ni inson qaror qabul qilish jarayonida sun’iy intellektdan foydalanadi, lekin yakuniy ijtimoiy oqibat baribir inson faoliyati bilan bog‘liq bo‘lib qoladi. Masalan, o‘qituvchi sun’iy intellekt yordamida o‘quvchining yozma ishini baholashi mumkin. Ammo baholashda xatolik yuz bersa, butun javobgarlikni dasturga yuklash adolatli bo‘lmaydi. Chunki pedagog baholash natijasini tekshirishi, kontekstni hisobga olishi va yakuniy qarorni insoniy mezonlar asosida chiqarishi lozim. Shunday ekan, sun’iy intellekt shaxs mas’uliyatini bekor qilmaydi, aksincha, uni yanada murakkab va ongli shaklga olib chiqadi [4, 73].

Sun’iy intellektning shaxs ijtimoiy mas’uliyatiga ta’sir etuvchi ikkinchi muhim yo‘nalishi axborot bilan ishlash madaniyatidir. Raqamli muhitda axborot tez tarqaladi, lekin har doim ham ishonchli bo‘lavermaydi. Sun’iy intellekt vositalari matn, rasm, audio va video yaratish imkoniyatlarini keskin kengaytirdi. Bu ta’lim, ijod, tadqiqot va ishlab chiqarishda katta imkoniyatlar ochadi. Shu bilan birga, soxta xabarlar, manipulyativ kontent, deepfake materiallar, kontekstdan uzilgan ma’lumotlar, shaxs obro‘siga zarar yetkazuvchi raqamli mahsulotlar ko‘payish xavfini ham kuchaytiradi. Bunday sharoitda shaxsning ijtimoiy mas’uliyati axborotni tekshirish, manbani aniqlash, yolg‘on ma’lumot tarqatmaslik va raqamli kommunikatsiyada halollikni saqlash bilan belgilanadi [5, 156].

Raqamli davrda mas’uliyat faqat “zarar yetkazmaslik” bilan cheklanmaydi. U faol fuqarolik pozitsiyasini ham talab qiladi. Masalan, inson sun’iy intellektdan foydalanayotganda uning jamiyatga, boshqa odamlarning huquqlariga, madaniy qadriyatlarga va ijtimoiy tenglikka qanday ta’sir qilishini ham o‘ylashi kerak. Agar algoritm ayrim guruhlarga nisbatan noxolis qaror chiqarsa, foydalanuvchi buni oddiy texnik xato sifatida emas, balki ijtimoiy adolat muammosi sifatida baholashi lozim. Chunki sun’iy intellekt tizimlari o‘z-o‘zidan mutlaq xolis bo‘lmaydi; ular insonlar tomonidan yaratilgan ma’lumotlar, dasturiy qarorlar va ijtimoiy muhit ta’sirida shakllanadi [6, 92].

Shaxs ijtimoiy mas’uliyatining transformatsiyasida raqamli identitet masalasi ham muhim o‘rin tutadi. Bugungi inson real hayotdagi shaxsiyati bilan birga raqamli qiyofaga ham ega. Ijtimoiy tarmoqlardagi profil, yozishmalar, izohlar, qidiruv tarixi, onlayn xaridlar, ta’lim platformalaridagi faoliyat, biometrik ma’lumotlar va boshqa raqamli izlar shaxs haqida muayyan tasavvur yaratadi. Sun’iy intellekt ushbu ma’lumotlarni tahlil qilib, insonning qiziqishlari, ehtiyojlari,

siyosiy yoki madaniy qarashlari, iste'mol odatlari va xatti-harakatlarini taxmin qilishi mumkin. Natijada shaxsiy hayot daxlsizligi va ma'lumotlarni mas'uliyatli boshqarish masalasi ijtimoiy mas'uliyatning ajralmas qismiga aylanadi [7, 201].

Bu jarayonda ikki tomonlama mas'uliyat mavjud. Bir tomondan, kompaniyalar, davlat idoralari va platformalar foydalanuvchi ma'lumotlarini himoya qilishi, ulardan adolatli va qonuniy foydalanishi kerak. Ikkinchi tomondan, foydalanuvchining o'zi ham shaxsiy axborotini qanday ulashayotganini, qaysi xizmatlarga qanday ruxsat berayotganini, raqamli izlari keyinchalik qanday oqibatlarga olib kelishi mumkinligini anglab harakat qilishi zarur. Shaxs raqamli maydonda mas'uliyatli bo'lishi uchun oddiy texnik ko'nikma yetarli emas; unga axborot madaniyati, huquqiy savodxonlik va axloqiy sezgirlik ham kerak.

Sun'iy intellektning ta'lim sohasidagi rivoji shaxs mas'uliyati transformatsiyasini yanada yaqqol ko'rsatadi. Bugungi kunda o'quvchi va talaba sun'iy intellekt yordamida matn yozishi, tarjima qilishi, masala yechishi, taqdimot tayyorlashi, ilmiy manbalarni izohlashi mumkin. Bu bilim olish jarayonini osonlashtiradi, individual ta'lim imkoniyatini kengaytiradi. Ammo bu bilan birga akademik halollik muammosi kuchayadi. Agar o'quvchi tayyor javobni o'z mehnati sifatida taqdim etsa, u faqat qoidani buzmaydi, balki o'z bilimining haqiqiy rivojlanishiga ham to'sqinlik qiladi. Demak, sun'iy intellektdan foydalanish ta'limda yangi mas'uliyatni - yordamchi vosita bilan shaxsiy intellektual mehnat chegarasini anglash mas'uliyatini yuzaga keltiradi [8, 39].

Mehnat bozorida ham sun'iy intellekt shaxs ijtimoiy mas'uliyatini yangicha talqin qilishga majbur qilmoqda. Avtomatlashtirish ayrim kasblarni qisqartirishi, ayrimlarini esa tubdan o'zgartirishi mumkin. Bunday sharoitda shaxs o'z kasbiy kompetensiyasini doimiy yangilab borishi, raqamli ko'nikmalarni egallashi, yangi sharoitga moslashishi kerak. Ilgari kasbiy mas'uliyat asosan belgilangan vazifani sifatli bajarish bilan o'lchangan bo'lsa, bugungi kunda u o'zini rivojlantirish, texnologiya bilan hamkorlik qila olish, yangi bilimni o'zlashtirish va o'z mehnatining ijtimoiy oqibatlarini tushunish bilan ham belgilanadi [9, 228].

Sun'iy intellekt shaxsning axloqiy tanlovini ham sinovdan o'tkazadi. Masalan, inson sun'iy intellektdan boshqalarning fikrini manipulyatsiya qilish, yolg'on kontent yaratish, mualliflik huquqini buzish, shaxsiy ma'lumotlarni noqonuniy tahlil qilish yoki ijtimoiy tarmoqlarda sun'iy faollik hosil qilish uchun foydalanishi mumkin. Texnologiya bunday imkoniyatni bergani uning axloqan to'g'ri ekanini anglatmaydi. Shu bois raqamli davrda mas'uliyatli shaxs texnik imkoniyat bilan axloqiy ruxsat o'rtasidagi farqni anglay olishi lozim. Bu esa zamonaviy ijtimoiy tarbiyaning eng muhim vazifalaridan biridir [10, 142].

Raqamli jamiyatda shaxs ijtimoiy mas'uliyati faqat individual fazilat emas, balki ijtimoiy barqarorlikning ham shartiga aylanadi. Chunki millionlab foydalanuvchilarning raqamli xatti-harakati jamiyatdagi axborot muhitini, siyosiy muloqotni, iqtisodiy munosabatlarni va madaniy qadriyatlarni shakllantiradi. Bir foydalanuvchining yolg'on axborot tarqatishi kichik hodisa bo'lib ko'rinishi mumkin, lekin bunday harakatlar ommaviy tus olsa, jamiyatda ishonch inqirozi yuzaga keladi. Shuning uchun sun'iy intellekt davrida mas'uliyat masalasi faqat shaxsiy axloq muammosi emas, balki ijtimoiy xavfsizlik, demokratik muloqot va madaniy taraqqiyot muammosi hamdir.

Sun'iy intellekt shaxs mas'uliyatini kuchaytirishi ham mumkin. Agar undan to'g'ri foydalanilsa, u insonni yanada xabardor, tahliliy va faol fuqaroga aylantiradi. Masalan, sun'iy intellekt katta hajmdagi ma'lumotlarni tahlil qilish, ekologik xavflarni oldindan aniqlash, nogironligi bo'lgan shaxslar uchun qulay xizmatlar yaratish, ta'limda individual yondashuvni kuchaytirish, korrupsiyaviy xavflarni monitoring qilish, sog'liqni saqlashda profilaktikani takomillashtirish kabi yo'nalishlarda ijtimoiy foyda keltiradi. Bu holatda shaxsning mas'uliyati texnologiyadan voz kechishda emas, balki undan ijtimoiy manfaat, adolat va inson qadr-qimmati yo'lida foydalanishda namoyon bo'ladi [6, 107].

Shu bilan birga, sun'iy intellekt insonni ma'naviy passivlikka olib kelmasligi kerak. Mas'uliyatli shaxs texnologik vositani tanqidiy baholaydi, uning imkoniyat va chegaralarini tushunadi, algoritm natijasini mutlaq haqiqat deb qabul qilmaydi. Ayniqsa, shaxsga taalluqli muhim qarorlar - ta'lim, sog'liq, ish, kredit, huquqiy baholash, ijtimoiy yordam kabi sohalarda inson nazorati saqlanishi zarur. Chunki inson hayoti va taqdiri faqat statistik ehtimollik yoki ma'lumotlar modeli asosida baholanmasligi kerak. Bunday yondashuv insonparvarlik tamoyillarini texnologik taraqqiyot bilan uyg'unlashtirishga xizmat qiladi [11, 17].

Raqamli davrda ijtimoiy mas'uliyatning yana bir yangi jihati - algoritmik shaffoflik talabidir. Oddiy foydalanuvchi murakkab dasturiy kodni tushunmasligi mumkin, lekin u o'ziga ta'sir qilayotgan tizim qanday ma'lumotlardan foydalanayotganini, nima uchun aynan shunday natija chiqarganini va xato bo'lsa, unga qanday e'tiroz bildirish mumkinligini bilishga haqli. Shu bois shaxs mas'uliyati nafaqat texnologiyadan to'g'ri foydalanish, balki shaffof va adolatli texnologik muhitni talab qilish madaniyatini ham o'z ichiga oladi. Bu fuqarolik mas'uliyatining raqamli shaklidir.

Mazkur masalani ta'lim-tarbiya tizimi bilan bog'lamasdan turib hal etish qiyin. Chunki mas'uliyatli raqamli shaxs o'z-o'zidan shakllanmaydi. Maktab, oliy ta'lim, oila, ommaviy axborot vositalari va fuqarolik jamiyati institutlari yosh avlodga sun'iy intellektdan foydalanish madaniyatini o'rgatishi kerak. Bunda faqat dasturdan foydalanish bo'yicha amaliy ko'nikmalar emas, balki raqamli etika, axborotni tekshirish, mualliflik huquqiga hurmat, shaxsiy ma'lumotlarni

himoya qilish, sun'iy intellekt natijasiga tanqidiy qarash, texnologiyaning ijtimoiy oqibatlarini tushunish kabi kompetensiyalar ham shakllantirilishi lozim [12, 25].

Shaxs ijtimoiy mas'uliyatining transformatsiyasi, demak, uch asosiy yo'nalishda namoyon bo'ladi. Birinchidan, mas'uliyatning maydoni kengayadi: u real hayotdan raqamli makonga o'tadi. Ikkinchidan, mas'uliyatning mazmuni chuqurlashadi: inson nafaqat o'z harakati, balki u qo'llayotgan texnologiyaning oqibatlarini ham anglashga majbur bo'ladi. Uchinchidan, mas'uliyatning shakli murakkablashadi: individual axloq, huquqiy ong, texnik savodxonlik va ijtimoiy adolat bir-biri bilan uzviy bog'lanadi.

Xulosa. Raqamli davrda sun'iy intellekt shaxs ijtimoiy mas'uliyatini tubdan o'zgartirmoqda. U inson faoliyatini yengillashtiradi, bilim olish, ishlab chiqarish, xizmat ko'rsatish va ijtimoiy boshqaruvda yangi imkoniyatlar yaratadi. Biroq sun'iy intellektdan foydalanish shaxsni mas'uliyatdan ozod qilmaydi. Aksincha, uning qaror qabul qilish, axborot bilan ishlash, raqamli iz qoldirish, boshqalar huquqini hurmat qilish va texnologik natijalarni tanqidiy baholash borasidagi javobgarligini kuchaytiradi.

Maqolada olib borilgan tahlil shuni ko'rsatadiki, sun'iy intellekt sharoitida ijtimoiy mas'uliyatning asosiy mezonlari raqamli savodxonlik, axborot halolligi, algoritmik adolat, shaxsiy ma'lumotlarni himoya qilish, akademik va kasbiy halollik, inson qadr-qimmatiga hurmat hamda texnologik oqibatlarni oldindan anglashdan iborat. Shaxsning mas'uliyatli bo'lishi endilikda faqat axloqiy fazilat emas, balki raqamli jamiyatda xavfsiz, adolatli va insonparvar taraqqiyotni ta'minlovchi muhim ijtimoiy shartdir. Shu sababli sun'iy intellektdan foydalanish madaniyatini ta'lim tizimiga izchil kiritish, yoshlarda tanqidiy tafakkur va raqamli etikani rivojlantirish, foydalanuvchilarning huquqiy savodxonligini oshirish, tashkilotlarda algoritmik javobgarlik mexanizmlarini kuchaytirish zarur. Faqat shundagina sun'iy intellekt inson mas'uliyatini zaiflashtiruvchi omil emas, balki ongli, faol, adolatparvar va ijtimoiy mas'uliyatli shaxsni shakllantirishga xizmat qiluvchi vositaga aylanishi mumkin.

PHILOSOPHICAL

RAQAMLASHTIRISH DAVRIDA YOSHLAR IJTIMOIY MAS'ULIYATINI RIVOJLANTIRISHNING IJTIMOIY-FALSAFIY MEXANIZMLARI

Erkinov Ilxom Erkin o'g'li
Samarqand davlat chet tillar instituti tadqiqotchi

Annotatsiya. *Ushbu maqolada raqamlashtirish davrida yoshlar ijtimoiy mas'uliyatini rivojlantirishning falsafiy muammolari tahlil qilinadi. Raqamli muhitda shaxs erkinligi, axloqiy tanlov, fuqarolik pozitsiyasi, axborot madaniyati va ijtimoiy javobgarlik o'rtasidagi murakkab bog'liqlik ochib beriladi. Maqolada yoshlarning virtual makondagi faoliyati faqat texnik ko'nikmalar emas, balki ma'naviy-axloqiy mezonlar, tanqidiy tafakkur va ijtimoiy ong bilan bog'liq ekani asoslanadi. Raqamli texnologiyalar yoshlar uchun yangi imkoniyatlar yaratishi bilan birga, befarqlik, manipulyatsiya, axborot iste'molchiligiga berilish va mas'uliyatsiz kommunikatsiya kabi xavflarni ham yuzaga keltirishi ko'rsatib beriladi. Xulosa qismida raqamli davrda ijtimoiy mas'uliyatni shakllantirish uchun ta'lim, oila, fuqarolik jamiyati va davlat institutlari hamkorligi zarurligi ta'kidlanadi.*

Kalit so'zlar: *raqamlashtirish, yoshlar, ijtimoiy mas'uliyat, falsafiy muammo, raqamli axloq, axborot madaniyati, fuqarolik ong.*

СОЦИАЛЬНО-ФИЛОСОФСКИЕ МЕХАНИЗМЫ РАЗВИТИЯ СОЦИАЛЬНОЙ ОТВЕТСТВЕННОСТИ МОЛОДЕЖИ В ЭПОХУ ЦИФРОВИЗАЦИИ

Аннотация: *В данной статье анализируются философские проблемы развития социальной ответственности молодежи в эпоху цифровизации. Раскрывается сложная взаимосвязь между свободой личности, моральным выбором, гражданской позицией, информационной культурой и социальной ответственностью в цифровой среде. В статье обосновывается, что деятельность молодежи в виртуальном пространстве связана не только с техническими навыками, но и с духовно-нравственными критериями, критическим мышлением и социальным сознанием. Показывается, что цифровые технологии, создавая новые возможности для молодежи, одновременно порождают такие риски, как безразличие, манипуляция, информационное потребительство и безответственная коммуникация. В заключении подчеркивается необходимость сотрудничества образования, семьи, институтов гражданского общества и государства для формирования социальной ответственности в цифровую эпоху.*

Ключевые слова: *цифровизация, молодежь, социальная ответственность, философская проблема, цифровая этика, информационная культура, гражданское сознание.*

SOCIAL-PHILOSOPHICAL MECHANISMS OF DEVELOPING YOUTH SOCIAL RESPONSIBILITY IN THE ERA OF DIGITALIZATION

Abstract: *This article analyzes the philosophical problems of developing youth social responsibility in the era of digitalization. It reveals the complex relationship between individual freedom, moral choice, civic stance, information culture, and social responsibility in the digital environment. The article argues that youth activity in the virtual space is related not only to technical skills but also to spiritual-moral criteria, critical thinking, and social consciousness. It is shown that while digital technologies create new opportunities for young people, they also give rise to risks such as indifference, manipulation, consumerism of information, and irresponsible communication. The conclusion emphasizes the necessity of cooperation between education, family, civil society institutions, and the state to foster social responsibility in the digital age.*

Keywords: *digitalization, youth, social responsibility, philosophical problem, digital ethics, information culture, civic consciousness.*

Kirish. XXI asr jamiyat taraqqiyotining asosiy belgilaridan biri - ijtimoiy hayotning deyarli barcha sohalarida raqamli texnologiyalar ta'sirining kuchayib borishidir. Bugungi kunda ta'lim, mehnat bozori, siyosiy ishtirok, madaniy almashinuv, shaxslararo muloqot, iste'mol madaniyati va hatto insonning o'zini anglash jarayoni ham raqamli vositalar bilan chambarchas bog'lanmoqda. Raqamlashtirish endi faqat texnik jarayon emas, balki inson tafakkuri, qadriyatlar tizimi, ijtimoiy munosabatlar va axloqiy tanlovlarga ta'sir ko'rsatuvchi keng ko'lamli sivilizatsion hodisaga aylanmoqda.

Ayniqsa, yoshlar hayotida raqamli muhit alohida ahamiyat kasb etadi. Chunki yosh avlod ijtimoiylashuvining katta qismi internet, ijtimoiy tarmoqlar, elektron ta'lim platformalari, mobil ilovalar, sun'iy intellekt vositalari va virtual kommunikatsiya tizimlari orqali kechmoqda. Bu jarayon yoshlarning bilim olish imkoniyatlarini kengaytiradi, ijodiy salohiyatini namoyon etish, kasbiy o'sish, fuqarolik faolligi va global muloqot maydoniga kirish imkonini beradi. Shu bilan birga, raqamli makon yosh shaxs oldiga yangi axloqiy savollarni ham qo'yadi: axborotni qanday tanlash kerak? Virtual erkinlik chegarasi qayerda tugaydi? Internetdagi so'z va harakat uchun javobgarlik qanday belgilanadi? Raqamli texnologiyalar insonni mas'uliyatli subyektga aylantiradimi yoki uni passiv iste'molchiga aylantiradimi?

Mazkur savollar raqamlashtirish davrida yoshlar ijtimoiy mas'uliyatini rivojlantirish masalasining falsafiy mohiyatini belgilaydi. Ijtimoiy mas'uliyat shaxsning jamiyat oldidagi burchini anglash, o'z xatti-harakatlarining oqibatini oldindan ko'ra bilish, umumiy manfaatni shaxsiy manfaat bilan uyg'unlashtirish, adolat, halollik, hurmat, hamkorlik va fuqarolik faolligi tamoyillariga tayangan holda harakat qilish qobiliyatidir. Raqamli davrda esa bu mas'uliyat yangi shakllarda namoyon bo'ladi: axborot tarqatishda ehtiyotkorlik, yolg'on ma'lumotga qarshi tanqidiy munosabat, shaxsiy ma'lumotlarni himoya qilish, virtual muloqotda madaniyatni saqlash, mualliflik huquqiga rioya qilish, kiberzo'ravonlikka qarshi turish, raqamli texnologiyalardan ijtimoiy foydali maqsadlarda foydalanish.

Raqamli jamiyatda inson faqat texnologiyadan foydalanuvchi emas, balki texnologik muhitni axloqiy mazmun bilan to'ldiruvchi ijtimoiy subyektdir. Shu jihatdan yoshlar ijtimoiy mas'uliyatini rivojlantirish masalasi oddiy tarbiyaviy vazifa emas, balki zamonaviy falsafaning muhim muammolaridan biridir. Chunki bu yerda inson erkinligi va nazorat, shaxsiy manfaat va umumiy manfaat, texnologik qulaylik va axloqiy burch, virtual faollik va real ijtimoiy javobgarlik o'rtasidagi ziddiyatlar namoyon bo'ladi.

Raqamlashtirish tushunchasi ko'pincha ma'lumotlarni elektron shaklga o'tkazish, boshqaruv jarayonlarini avtomatlashtirish yoki xizmatlarni onlayn ko'rinishga keltirish bilan izohlanadi. Biroq falsafiy nuqtayi nazardan raqamlashtirish bundan ancha kengroq hodisadir. U insonning borliqni idrok etish, vaqt va makonni his qilish, muloqotga kirishish, bilim olish, qaror qabul qilish va o'zini namoyon etish usullarini o'zgartiradi. M. Kastels ta'kidlaganidek, zamonaviy jamiyatda axborot oqimlari ijtimoiy tuzilmalarning asosiy harakatlantiruvchi kuchiga aylanadi [2,77]. Demak, raqamli jamiyatda axborotga ega bo'lishgina emas, balki uni to'g'ri tushunish, baholash va undan mas'uliyat bilan foydalanish ham muhim ahamiyat kasb etadi.

Ijtimoiy mas'uliyat esa insonning jamiyatdagi o'rnini anglashidan boshlanadi. Bu tushuncha shaxsning o'z faoliyati natijalari boshqalarga, jamiyatga, tabiatga va kelajak avlodlarga qanday ta'sir qilishini idrok etishini bildiradi. Hans Jonas zamonaviy texnologik sivilizatsiya sharoitida mas'uliyat tushunchasi yanada kengayishini, inson endi faqat yaqin atrofidagi odamlar oldida emas, balki uzoq muddatli oqibatlar oldida ham javobgar ekanini ko'rsatadi [3,11]. Raqamli texnologiyalar ham xuddi shunday: internetdagi bir xabar, bir izoh, bir surat yoki bir raqamli harakat ko'plab insonlarga ta'sir qilishi, ijtimoiy kayfiyatni o'zgartirishi, shaxs obro'siga, ijtimoiy barqarorlikka yoki axloqiy muhitga ta'sir ko'rsatishi mumkin.

Yoshlar ijtimoiy mas'uliyati ana shu murakkab sharoitda shakllanadi. Avvalgi davrlarda ijtimoiy mas'uliyat asosan oila, mahalla, maktab, mehnat jamoasi va bevosita ijtimoiy muhit orqali shakllangan bo'lsa, bugungi kunda bu jarayonga global raqamli maydon ham kuchli ta'sir ko'rsatmoqda. Yosh kishi bir vaqtning o'zida mahalliy madaniyat vakili, milliy qadriyatlar davomchisi va global axborot makoni ishtirokchisiga aylanadi. Bu esa uning mas'uliyat doirasini kengaytiradi.

Raqamli makonning falsafiy murakkabligi shundaki, u erkinlik hissini kuchaytiradi, ammo bu erkinlik har doim ham mas'uliyat bilan uyg'unlashavermaydi. Internetda anonimlik, tezkorlik va chegarasizlik shaxsga o'z fikrini erkin bildirish imkonini beradi. Lekin ayni shu imkoniyat haqorat, tuhmat, yolg'on axborot, manipulyatsiya va axloqiy me'yorlarning buzilishi uchun ham sharoit yaratishi mumkin. Shuning uchun raqamli davrda ijtimoiy mas'uliyatni rivojlantirishning asosiy falsafiy masalasi - erkinlikni ongli javobgarlik bilan uyg'unlashtirishdan iborat.

Raqamlashtirish yoshlar ongiga bir necha yo'nalishda ta'sir ko'rsatadi. Birinchidan, u axborot olish imkoniyatlarini kengaytiradi. Bugungi yoshlar istalgan mavzu bo'yicha turli manbalardan tezkor ma'lumot olishi, onlayn kurslarda o'qishi, ilmiy, madaniy va ijtimoiy jarayonlardan xabardor bo'lishi mumkin. Bu holat ijtimoiy mas'uliyat uchun muhim bo'lgan bilim, dunyoqarash va tanqidiy fikrlashni rivojlantirishga xizmat qiladi. Biroq axborot ko'pligi har doim ham ongli tanlovni anglatmaydi. Aksincha, ma'lumotlar oqimining haddan tashqari ko'pligi yoshlarning tafakkurida yuzakilik, shoshqaloqlik va emotsional reaksiya ustuvorligini kuchaytirishi mumkin.

Ikkinchidan, ijtimoiy tarmoqlar yoshlar uchun o'zini namoyon qilish maydoniga aylangan. Bu maydonda shaxs o'z qarashlari, qiziqishlari, ijodiy ishlari va fuqarolik pozitsiyasini namoyish etadi. Ammo virtual obro'ga intilish, "layk" va kuzatuvchilar soni orqali o'z qadrini baholash, ommaviy trendlar ta'siriga berilish yoshlar ongida tashqi bahoga haddan tashqari bog'liqlikni keltirib chiqarishi mumkin. Z. Bauman zamonaviy jamiyatda ijtimoiy munosabatlar suyuqlashib, barqaror qadriyatlar o'rnini tez o'zgaruvchi istaklar egallashini ta'kidlaydi [4,14]. Raqamli muhitda bu holat yanada

yaqqol koʻrinadi: insonning ijtimoiy mavqeyi koʻpincha real fazilatlar bilan emas, balki koʻrinish, imij va virtual faollik bilan oʻlchanadi.

Uchinchidan, algoritmik muhit yoshlarning fikrlash tarziga ta'sir qiladi. Ijtimoiy tarmoqlar va raqamli platformalar foydalanuvchining qiziqishlari asosida kontent tavsiya qiladi. Natijada yoshlar koʻpincha oʻz qarashlariga mos axborot doirasida qolib ketadi. Bu esa tanqidiy muloqot, boshqacha fikrni tushunish, ijtimoiy bagʻrikenglik va fuqarolik mas'uliyatining pasayishiga olib kelishi mumkin. Raqamli platformalar inson tanlovini kengaytirayotgandek koʻrinsa-da, aslida ayrim hollarda tanlovni yashirin boshqaradi. Shu sababli raqamli savodxonlik faqat texnik koʻnikma emas, balki algoritmik ta'sirni anglash, axborot ortidagi manfaatlarni tushunish va mustaqil fikr yuritish qobiliyatidir.

Toʻrtinchidan, raqamli texnologiyalar yoshlar oʻrtasida kommunikatsiya madaniyatini oʻzgartirmoqda. Virtual muloqot tezkor, qisqa va koʻpincha emotsional shaklda kechadi. Bu esa fikrni chuqur asoslash, suhbatdoshni tinglash, bahs madaniyatiga rioya qilish kabi fazilatlarni zaiflashtirishi mumkin. Sh. Turkl raqamli muloqot ayrim hollarda insonni real suhbatdan uzoqlashtirib, yolgʻizlikning yangi shakllarini yuzaga keltirishini koʻrsatadi [5,1]. Demak, raqamli kommunikatsiya insonlarni bogʻlaydi, lekin bu bogʻlanish har doim ham chuqur ijtimoiy mas'uliyatni shakllantirmaydi.

Raqamlashtirish davrida yoshlar ijtimoiy mas'uliyatini rivojlantirishning markaziy falsafiy muammolaridan biri - erkinlik va javobgarlik oʻrtasidagi ziddiyatdir. Raqamli muhit yoshga mustaqil fikr bildirish, oʻz nuqtayi nazarini himoya qilish, ijtimoiy muammolarga munosabat bildirish imkonini beradi. Bu demokratik madaniyat va fuqarolik ongini rivojlantirish uchun muhimdir. Biroq erkinlik mas'uliyatdan ajralganda, u ijtimoiy tartibsizlik, axloqiy befarqlik va madaniyatsiz kommunikatsiyaga aylanadi.

Falsafiy jihatdan erkinlik hech qachon mutlaq xohish emas. Erkinlik - bu tanlov qilish imkoniyati bilan birga, tanlov oqibatini qabul qilish madaniyatidir. Raqamli makonda esa yoshlar koʻpincha oʻz harakatlarining real oqibatlarini darhol his qilmaydi. Masalan, yolgʻon xabarni ulashish, kimnidir masxara qilish, shaxsiy ma'lumotni ruxsatsiz tarqatish yoki agressiv izoh yozish oddiy virtual harakatdek tuyulishi mumkin. Ammo bunday harakatlar boshqa insonning ruhiy holatiga, ijtimoiy obroʻsiga, xavfsizligiga va jamiyatdagi ishonch muhitiga zarar yetkazadi.

Shu bois raqamli davrda ijtimoiy mas'uliyatni shakllantirish yoshlarni qoʻrqitish yoki faqat taqiqlar bilan cheklash orqali emas, balki ongli axloqiy tanlovga oʻrgatish orqali amalga oshirilishi kerak. Taqiq vaqtinchalik nazorat yaratadi, lekin ichki mas'uliyatni shakllantirmaydi. Ichki mas'uliyat esa shaxsning "menga mumkinmi?" degan savoldan koʻra, "bu harakatim boshqalarga qanday ta'sir qiladi?" degan savolni berishidan boshlanadi.

Bu yerda ijtimoiy mas'uliyatning falsafiy asosi insonparvarlikdir. Raqamli makonda ham inson sha'ni, qadr-qimmati, huquqi va erkinligi ustuvor qadriyat boʻlib qolishi kerak. L. Floridi raqamli davrda inson axborot muhitining faol ishtirokchisi sifatida "infosfera"ga mas'ul munosabatda boʻlishi zarurligini ta'kidlaydi [6, 40]. Bu fikr yoshlar tarbiyasi uchun ham muhim: raqamli muhit tashqi texnologik maydon emas, balki insonlar hayoti, fikri, obroʻsi va qadriyatlari mavjud boʻlgan ijtimoiy makondir.

Yoshlar ijtimoiy mas'uliyatini rivojlantirishda raqamli axloq tushunchasi muhim oʻrin tutadi. Raqamli axloq - bu internet, sun'iy intellekt, ijtimoiy tarmoqlar, elektron xizmatlar va boshqa raqamli vositalardan foydalanishda axloqiy mezonlarga rioya qilish madaniyatidir. U halollik, hurmat, adolat, shaxsiy daxlsizlik, axborot xavfsizligi, mualliflik huquqi, muloqot madaniyati va ijtimoiy foydalilik kabi tamoyillarni oʻz ichiga oladi.

Raqamli axloqning asosiy vazifasi yoshlarni texnologiyaga qaram iste'molchi emas, balki ongli va mas'uliyatli foydalanuvchi sifatida shakllantirishdir. Masalan, oʻquvchi yoki talaba internetdan tayyor matnni koʻchirib topshirsa, bu faqat akademik qoidabuzarlik emas, balki mas'uliyat inqirozidir. Chunki bunday holatda shaxs oʻz mehnati, bilimi va halolligiga nisbatan befarq munosabatda boʻladi. Xuddi shuningdek, ijtimoiy tarmoqlarda yolgʻon ma'lumot tarqatish yoki agressiv bahs yuritish ham shaxsning fuqarolik mas'uliyati yetarli shakllanmaganini koʻrsatadi.

Raqamli axloq fuqarolik pozitsiyasi bilan bevosita bogʻliq. Bugungi kunda yoshlar ijtimoiy muammolar, ekologiya, ta'lim, inson huquqlari, volontyorlik, mahalla hayoti, xayriya tashabbuslari va madaniy loyihalar haqida raqamli platformalar orqali fikr bildirish, jamoatchilik fikrini shakllantirish va amaliy tashabbuslarni ilgari surish imkoniga ega. Bu imkoniyatdan mas'uliyat bilan foydalanilgan taqdirda raqamli muhit jamiyat taraqqiyotining muhim omiliga aylanadi.

Biroq raqamli faollik har doim ham real ijtimoiy mas'uliyatni anglatmaydi. Ba'zan yoshlar ijtimoiy muammolarga faqat virtual munosabat bildirish bilan cheklanib qoladi. Bu holatni "ramziy faollik" deb atash mumkin. Masalan, biror muammo haqida post ulashish yoki belgi qoʻyish real yordam, tahlil, muammoni hal qilishdagi ishtirok bilan mustahkamlanmasa, u yuzaki faollik boʻlib qoladi. Demak, raqamli fuqarolik pozitsiyasi virtual bayonot bilan emas, real ijtimoiy harakat, mas'uliyatli qaror va amaliy ishtirok bilan baholanishi kerak.

Raqamlashtirish sharoitida yoshlar ijtimoiy mas'uliyatini rivojlantirishda bir qator muammolar mavjud. Birinchi muammo - axborot iste'molining tanqidiy tafakkurdan ustun kelishidir. Koʻplab yoshlar axborotni tez qabul qiladi, lekin uni tahlil qilish, manbasini tekshirish, mazmunini ijtimoiy oqibatlar bilan bogʻlashga yetarlicha e'tibor bermaydi. Natijada manipulyativ xabarlar, yolgʻon ma'lumotlar va biryoqlama qarashlar yoshlar ongiga ta'sir koʻrsatadi.

Ikkinchi muammo - raqamli individualizmning kuchayishidir. Raqamli platformalar shaxsiy qiziqishlar, individual istaklar va o‘zini namoyish qilishga keng imkoniyat yaratadi. Bu ijobiy jarayon bo‘lishi mumkin, ammo u umumiy manfaat, jamoaviy mas’uliyat va ijtimoiy birdamlikdan ajralib qolsa, egoistik kayfiyatni kuchaytiradi. U. Bek “xavf jamiyati” sharoitida zamonaviy inson ko‘plab global xavflar bilan yuzma-yuz kelishini, bunday sharoitda mas’uliyatning yangi shakllari zarurligini ta’kidlaydi [7, 21]. Raqamli xavflar ham shunday: ular shaxsiy ko‘rinishi mumkin, ammo oqibatlari ijtimoiydir.

Uchinchi muammo - virtual va real hayot o‘rtasidagi uzilishdir. Yoshlar ba’zan internetdagi obrazini real shaxsiy rivojlanishdan ustun qo‘yadi. Natijada tashqi ko‘rinish, imij, ko‘ngilochar kontent va tezkor e’tibor haqiqiy bilim, mehnat, mas’uliyat va axloqiy kamolotdan muhimroqdek ko‘rina boshlaydi. Bunday holatda shaxsning ichki dunyosi bilan tashqi raqamli qiyofasi o‘rtasida tafovut kuchayadi.

To‘rtinchi muammo - raqamli tengsizlikdir. Barcha yoshlar ham sifatli internet, zamonaviy qurilmalar, raqamli savodxonlik va xavfsiz axborot muhitiga teng ega emas. Raqamli imkoniyatlar notengligi ijtimoiy imkoniyatlar notengligini ham kuchaytirishi mumkin. Shuning uchun ijtimoiy mas’uliyatni rivojlantirish masalasi faqat shaxsiy tarbiya emas, balki ijtimoiy adolat masalasi hamdir.

Beshinchi muammo - sun’iy intellekt va avtomatlashtirilgan qarorlar davrida inson mas’uliyatining xiralashishidir. Agar algoritmlar axborotni tanlab bersa, tavsiya qilsa, baholasa va yo‘naltirsa, inson o‘z tanlovi uchun qanchalik javobgar? Bu savol yoshlar uchun juda dolzarb. Chunki ular ko‘pincha sun’iy intellekt vositalaridan o‘qish, yozish, tarjima, tahlil, dizayn va kommunikatsiyada foydalanmoqda. Bunday sharoitda texnologiya yordamchi vosita bo‘lib qolishi, inson tafakkuri va axloqiy tanlovini almashtirmasligi kerak.

Raqamlashtirish davrida yoshlar ijtimoiy mas’uliyatini rivojlantirish uchun, avvalo, ta’lim tizimida raqamli axloq va axborot madaniyatini kuchaytirish zarur. Raqamli savodxonlik darslari faqat kompyuter dasturlaridan foydalanishni emas, balki axborotni tanlash, tekshirish, tahlil qilish, mualliflik huquqiga rioya etish, internet xavfsizligi va virtual muloqot madaniyatini ham qamrab olishi lozim. Yoshlar “texnologiyani qanday ishlatish kerak?” degan savol bilan birga “texnologiyadan nima maqsadda va qanday mas’uliyat bilan foydalanish kerak?” degan savolga ham javob topishi zarur.

Ikkinchidan, oilada raqamli tarbiya madaniyatini shakllantirish muhim. Ko‘pincha ota-onalar raqamli texnologiyani faqat nazorat yoki cheklash obyekti sifatida ko‘radi. Aslida esa yoshlar bilan ochiq muloqot qilish, ularning internetdagi qiziqishlarini tushunish, xavf va imkoniyatlarni birgalikda muhokama qilish, shaxsiy namuna ko‘rsatish samaraliroq natija beradi. Oila raqamli mas’uliyatning birinchi maktabi bo‘lishi kerak.

Uchinchidan, oliy ta’lim va umumta’lim muassasalarida yoshlarning real ijtimoiy loyihalarda ishtirokini kengaytirish zarur. Masalan, ekologik aksiyalar, volontyorlik dasturlari, ijtimoiy tarmoqlarda foydali kontent yaratish, kiberxavfsizlik bo‘yicha targ‘ibot, mahalla yoshlariga raqamli savodxonlikni o‘rgatish kabi loyihalar yoshlarning mas’uliyatini amaliy faoliyat orqali rivojlantiradi. Mas’uliyat faqat nazariy tushuncha sifatida emas, balki ijtimoiy tajriba sifatida shakllanadi.

To‘rtinchidan, yoshlarni raqamli ijodkorlikka yo‘naltirish lozim. Agar yoshlar raqamli texnologiyalardan faqat ko‘ngilochar kontent iste’moli uchun foydalansa, ularning ijtimoiy salohiyati to‘liq ochilmaydi. Aksincha, ular ilmiy, madaniy, ma’rifiy va ijtimoiy foydali kontent yaratishga jalb etilsa, raqamli makon mas’uliyatli ijod maydoniga aylanadi.

Beshinchidan, davlat va fuqarolik jamiyati institutlari yoshlar uchun xavfsiz, adolatli va ma’rifiy raqamli muhit yaratishga e’tibor qaratishi kerak. Raqamli texnologiyalarning rivojlanishi huquqiy, axloqiy va ma’naviy mezonlar bilan uyg‘unlashmasa, jamiyatda texnologik taraqqiyot bo‘lsa-da, ijtimoiy mas’uliyat zaiflashishi mumkin. Shu sababli raqamli siyosat inson qadr-qimmati, ijtimoiy adolat va ma’naviy taraqqiyot tamoyillari bilan uyg‘un olib borilishi lozim.

Xulosa. Raqamlashtirish davrida yoshlar ijtimoiy mas’uliyatini rivojlantirish zamonaviy jamiyatning eng muhim falsafiy, axloqiy va tarbiyaviy masalalaridan biridir. Raqamli texnologiyalar inson hayotini qulaylashtiradi, bilim olish va muloqot imkoniyatlarini kengaytiradi, yoshlarning ijtimoiy faolligi uchun yangi maydonlar yaratadi. Ammo bu jarayon o‘z-o‘zidan ijobiy natija bermaydi. Raqamli imkoniyatlar mas’uliyat, tanqidiy tafakkur, axloqiy madaniyat va fuqarolik pozitsiyasi bilan uyg‘unlashgandagina jamiyat taraqqiyotiga xizmat qiladi.

Maqolada ko‘rsatib o‘tilganidek, raqamli davrda yoshlar ijtimoiy mas’uliyatining asosiy muammolari erkinlik va javobgarlik ziddiyati, axborot oqimlarining manipulyativ ta’siri, virtual va real hayot o‘rtasidagi uzilish, raqamli individualizm, algoritmik boshqaruv va raqamli tengsizlik bilan bog‘liq. Bu muammolarni faqat texnik vositalar yoki ma’muriy nazorat orqali hal qilib bo‘lmaydi. Ularning yechimi chuqur falsafiy yondashuvni, ya’ni inson, jamiyat, texnologiya va qadriyatlar o‘rtasidagi munosabatlarni qayta anglashni talab qiladi.

Yoshlar ijtimoiy mas’uliyatini rivojlantirish uchun ta’lim tizimida raqamli axloqni kuchaytirish, oilada ongli raqamli tarbiyani yo‘lga qo‘yish, yoshlarni real ijtimoiy loyihalarga jalb etish, tanqidiy tafakkurni rivojlantirish, internet madaniyatini oshirish va raqamli texnologiyalardan ijtimoiy foydali maqsadlarda foydalanishga o‘rgatish zarur. Eng muhimi, yosh avlod raqamli dunyoda faqat foydalanuvchi emas, balki jamiyat kelajagi uchun javobgar, ongli, faol va axloqiy subyekt sifatida shakllanishi kerak.

SHAXS ESTETIK MADANIYATINI YUKSALTIRISHDA MILLIY VA UMUMINSONIY O'ZIGA XOSLIK MUAMMOSI

Ortikov Shaxriddin Shovkidinovich
Samarqand davlat chet tillar instituti tadqiqotchi

Annotatsiya. *Ushbu maqolada shaxs estetik madaniyatini yuksaltirish jarayonida milliy va umuminsoniy qadriyatlar uyg'unligining falsafiy-pedagogik mohiyati yoritiladi. Estetik madaniyat insonning go'zallikni anglash, qadrlash, yaratish va uni ijtimoiy hayotda namoyon etish qobiliyati sifatida talqin qilinadi. Maqolada milliy estetik meros, xalq og'zaki ijodi, urf-odatlar, san'at, adabiyot va ma'naviy qadriyatlarning shaxs kamolotidagi o'rni tahlil qilinadi. Shuningdek, globallashuv sharoitida umuminsoniy estetik mezonlar, madaniyatlararo muloqot va estetik didni shakllantirish masalalari ko'rib chiqiladi. Muallif shaxs estetik madaniyatini rivojlantirishda milliylik va umuminsoniylikni qarama-qarshi qo'yish emas, balki ularni ijodiy uyg'unlashtirish zarurligini asoslaydi.*

Kalit so'zlar: *estetik madaniyat, shaxs kamoloti, milliy qadriyat, umuminsoniylik, go'zallik, ma'naviyat, estetik tarbiya.*

ПРОБЛЕМА НАЦИОНАЛЬНОГО И ОБЩЕЧЕЛОВЕЧЕСКОГО СВОЕОБРАЗИЯ В ПОВЫШЕНИИ ЭСТЕТИЧЕСКОЙ КУЛЬТУРЫ ЛИЧНОСТИ

Аннотация: *В данной статье освещается философско-педагогическая сущность гармонии национальных и общечеловеческих ценностей в процессе повышения эстетической культуры личности. Эстетическая культура интерпретируется как способность человека воспринимать, ценить, созидать красоту и проявлять ее в социальной жизни. В статье анализируется роль национального эстетического наследия, фольклора, традиций, искусства, литературы и духовных ценностей в формировании личности. Также рассматриваются вопросы общечеловеческих эстетических критериев, межкультурного диалога и формирования эстетического вкуса в условиях глобализации. Автор обосновывает необходимость не противопоставления национального и общечеловеческого, а их творческой гармонизации в развитии эстетической культуры личности.*

Ключевые слова: *эстетическая культура, развитие личности, национальная ценность, общечеловеческие ценности, красота, духовность, эстетическое воспитание.*

THE PROBLEM OF NATIONAL AND UNIVERSAL UNIQUENESS IN RAISING THE AESTHETIC CULTURE OF THE INDIVIDUAL

Abstract: *This article highlights the philosophical and pedagogical essence of the harmony between national and universal values in the process of raising the aesthetic culture of an individual. Aesthetic culture is interpreted as a person's ability to perceive, appreciate, create beauty, and manifest it in social life. The article analyzes the role of national aesthetic heritage, folklore, traditions, art, literature, and spiritual values in the development of the individual. Furthermore, it examines issues related to universal aesthetic criteria, intercultural dialogue, and the formation of aesthetic taste in the context of globalization. The author substantiates the need not to oppose the national and the universal, but to creatively harmonize them in the development of an individual's aesthetic culture.*

Keywords: *aesthetic culture, personal development, national value, universal values, beauty, spirituality, aesthetic education.*

Shaxs estetik madaniyatini yuksaltirish bugungi globallashuv, axborot oqimining kuchayishi va madaniy almashinuv jarayonlari jadallashgan davrda alohida dolzarb ahamiyat kasb etmoqda. Insonning estetik madaniyati faqat san'at asarlarini tushunish yoki go'zallikka munosabat bildirish qobiliyati bilan cheklanmaydi. U shaxsning dunyoni idrok etishi, voqelikdagi uyg'unlikni his qilishi, tabiat va jamiyatga nisbatan nozik munosabatda bo'lishi, o'z xatti-harakatida did, me'yor, nazokat va ma'naviy mas'uliyatni namoyon eta olishi bilan bog'liq murakkab ijtimoiy-falsafiy hodisadir. Shu bois estetik madaniyat shaxsning umumiy ma'naviy qiyofasini belgilovchi muhim omillardan biri hisoblanadi.

Estetik madaniyat insonning hissiy kechinmalari, tafakkuri, qadriyatlari va amaliy faoliyatini birlashtiruvchi ma'naviy sifatdir. Inson atrof-muhitdagi go'zallikni sezadi, uni anglaydi, baholaydi va o'z hayot tarzida ifodalashga

intiladi. Bunday jarayonda estetik did, estetik ideal, estetik ehtiyoj, estetik baho va estetik faoliyat kabi tushunchalar muhim o‘rin tutadi. Estetik did shaxsning go‘zallik va xunuklik, nafislik va qo‘pollik, uyg‘unlik va nomutanosiblikni farqlash qobiliyatidir. Estetik ideal esa inson ongida shakllangan mukammallik haqidagi tasavvur bo‘lib, u shaxsning axloqiy, ma’naviy va madaniy intilishlari bilan chambarchas bog‘liqdir [2, 41].

Shaxs estetik madaniyatini rivojlantirishda milliy o‘ziga xoslik muhim asos vazifasini bajaradi. Har bir xalqning tarixiy taraqqiyoti davomida shakllangan go‘zallik haqidagi qarashlari, san’at an’analari, urf-odatlari, kiyinish madaniyati, me’moriy obidalari, musiqa va raqs san’ati, xalq og‘zaki ijodi uning estetik dunyoqarashini ifodalaydi. Milliy estetik madaniyat xalqning tarixiy xotirasi, ruhiyati, hayot falsafasi va ma’naviy qiyofasini o‘zida mujassamlashtiradi. Shu ma’noda shaxsning estetik tarbiyasi avvalo o‘z milliy madaniyatini anglash, qadrlash va uni zamonaviy hayot bilan bog‘lay olishdan boshlanadi.

O‘zbek xalqining estetik madaniyati juda qadimiy ildizlarga ega. Xalq amaliy san’ati, naqshinkorlik, zardo‘zlik, kulolchilik, yog‘och o‘ymakorligi, milliy musiqa, maqom san’ati, mumtoz adabiyot va xalq og‘zaki ijodi estetik tarbiyaning boy manbalari hisoblanadi. Masalan, maqom san’atida inson ruhiyati, ichki kechinmalari, ezgulik va komillikka intilish g‘oyalari yuksak badiiy shaklda ifodalangan. Alisher Navoiy ijodida esa go‘zallik faqat tashqi ko‘rinish sifatida emas, balki ma’naviy poklik, komillik, adolat, mehr-oqibat va insonparvarlik bilan uyg‘un holda talqin qilinadi [4, 86]. Demak, milliy estetik meros shaxsda nafaqat san’atga qiziqish, balki axloqiy poklik, ma’naviy yetuklik va ijtimoiy mas’uliyat hissini ham shakllantiradi.

Milliy o‘ziga xoslikni estetik madaniyatning asosiy manbalaridan biri sifatida baholash bilan birga, uni tor etnik chegaralarda tushunish to‘g‘ri emas. Milliylik shaxsni boshqa madaniyatlardan ajratib qo‘yuvchi vosita emas, balki uni umuminsoniy madaniyatga olib kiruvchi tabiiy ma’naviy ko‘prikdir. Inson avvalo o‘z xalqining tilini, san’atini, urf-odatini, tarixiy tajribasini anglash orqali umumjahon madaniyatini chuqurroq tushunadi. O‘z ildizini bilmagan shaxs boshqa xalqlarning estetik merosini ham yuzaki qabul qilishi mumkin. Shu sababli milliy estetik tarbiya shaxsni mahalliylik doirasida cheklab qo‘ymasligi, aksincha, uni keng madaniy muloqotga tayyorlashi lozim.

Umuminsoniy o‘ziga xoslik esa turli xalqlar, davrlar va madaniyatlar uchun umumiy bo‘lgan estetik qadriyatlarni anglatadi. Go‘zallik, uyg‘unlik, ezgulik, insonparvarlik, hayotga muhabbat, tabiatga mehr, tinchlik, erkinlik va ijodkorlik kabi qadriyatlar milliy chegaralardan yuqori turadi. Jahon san’ati va adabiyoti tarixiga nazar tashlansa, turli xalqlarning badiiy merosida inson qalbining umumiy kechinmalari, baxt, iztirob, muhabbat, orzu, adolat, vatan, inson qadr-qimmati kabi mavzular doimiy ravishda aks etib kelganini ko‘rish mumkin. Bu esa estetik madaniyatning umuminsoniy mohiyatga ega ekanini ko‘rsatadi [6, 73].

Shaxs estetik madaniyatini yuksaltirishda milliy va umuminsoniylik munosabati murakkab dialektik jarayon sifatida namoyon bo‘ladi. Bir tomondan, milliylik shaxsga o‘zlikni anglash, tarixiy xotira, madaniy mansublik va ma’naviy tayanch beradi. Ikkinchi tomondan, umuminsoniylik shaxs tafakkurini kengaytiradi, uni boshqa xalqlar madaniyatini hurmat qilishga, turli estetik tajribalarni qabul qilishga va madaniyatlararo muloqotga tayyorlaydi. Agar estetik tarbiyada faqat milliylikka urg‘u berilib, umuminsoniy qadriyatlar e’tibordan chetda qolsa, shaxsda madaniy mahdudlik, begona madaniyatga nisbatan befarqlik yoki salbiy munosabat shakllanishi mumkin. Aksincha, faqat umuminsoniylik nomi ostida milliy o‘ziga xoslik inkor etilsa, shaxsning estetik dunyoqarashi ildizsiz, yuzaki va taqlidiy tus oladi.

Bugungi kunda ommaviy madaniyatning tez tarqalishi estetik madaniyat muammosini yanada keskinlashtirmoqda. Raqamli texnologiyalar, ijtimoiy tarmoqlar, reklama, kinoindustriya va global axborot maydoni insonning estetik didiga kuchli ta’sir ko‘rsatmoqda. Bir tomondan, bu jarayon turli xalqlar san’ati, adabiyoti va madaniy tajribasi bilan tanishish imkoniyatini kengaytiradi. Ikkinchi tomondan, yuzaki ko‘ngilocharlik, iste’molchilik kayfiyati, tashqi ko‘rinishga haddan ortiq berilish, sun’iy obrazlarga taqlid qilish, milliy did va axloqiy me’yorlardan uzoqlashish kabi xavflarni ham keltirib chiqaradi. Shuning uchun estetik madaniyatni yuksaltirish bugungi kunda nafaqat san’at ta’limi, balki ma’naviy xavfsizlik, madaniy immunitet va shaxsiy ong mustaqilligi masalasi sifatida ham qaralishi zarur.

Estetik madaniyatni shakllantirishda oilaning o‘rni katta. Bola ilk go‘zallik tasavvurlarini oilada oladi. Uy muhitidagi ozodalik, tartib, muomala madaniyati, kiyinish odobi, kattalarning san’atga, kitobga, tabiatga, milliy urf-odatlarga munosabati bolada estetik sezgirlikni rivojlantiradi. Oila muhitida milliy qo‘shiqlar, ertaklar, maqollar, bayramlar, hunarmandchilik namunalari, qadimiy obidalarga hurmat kabi omillar orqali bolada milliy estetik ong shakllanadi. Biroq zamonaviy oilada bu jarayon ongli tashkil etilmasa, bolaning estetik didi ko‘proq internet, reklama va tasodifiy axborotlar ta’sirida shakllanishi mumkin. Bu esa estetik tarbiyaning izchilligi va mazmuniga salbiy ta’sir ko‘rsatadi.

Ta’lim muassasalari shaxs estetik madaniyatini yuksaltirishning eng muhim ijtimoiy institutlaridan biridir. Maktab, kollej, litsey va oliy ta’lim tizimida estetik tarbiya faqat musiqa, tasviriy san’at yoki adabiyot darslari bilan chegaralanmasligi kerak. Har bir fan, har bir tarbiyaviy tadbir, har bir pedagogik munosabatda estetik mazmun mavjud bo‘lishi mumkin. Masalan, ona tili va adabiyot darslarida badiiy obrazlar orqali go‘zallik va ezgulik munosabati ochib

beriladi. Tarix darslarida me’moriy obidalar, madaniy meros, buyuk shaxslar faoliyati orqali milliy estetik tafakkur shakllantiriladi. Tabiiy fanlarda tabiatdagi uyg‘unlik, tartib, nisbat, rang va shakl go‘zalligini ko‘rsatish mumkin. Demak, estetik tarbiya ta’lim jarayonining barcha yo‘nalishlariga singdirilgandagina samarali natija beradi [5, 112].

Shaxs estetik madaniyatini rivojlantirishda san’atning o‘rni beqiyosdir. San’at insonning ruhiy olamiga bevosita ta’sir etadi, unda his-tuyg‘ularni noziklashtiradi, tasavvurni boyitadi, insoniylik va hamdardlik hissini kuchaytiradi. Musiqa inson qalbida uyg‘unlik hissini uyg‘otsa, tasviriy san’at ko‘rish madaniyatini rivojlantiradi. Adabiyot esa inson ruhiyati, axloqiy tanlovlari va hayotiy ziddiyatlarini chuqur anglashga yordam beradi. Teatr, kino, raqs va me’morchilik ham shaxsning estetik idroki va madaniy saviyasini kengaytiradi. Shu bois estetik tarbiyada san’at asarlarini shunchaki tomosha qilish emas, balki ularni tahlil qilish, anglash, baholash va hayotiy xulosa chiqarish muhimdir.

Milliy san’at namunalarini o‘rganish shaxsda o‘z xalqiga hurmat tuyg‘usini kuchaytiradi. Masalan, Samarqand, Buxoro, Xiva kabi tarixiy shaharlardagi me’moriy obidalar nafaqat tarixiy yodgorlik, balki xalqimiz estetik tafakkurining yuksak namunalaridir. Ulardagi naqsh, rang, shakl, nisbat va kompozitsion uyg‘unlik insonda go‘zallikni chuqur his qilish qobiliyatini rivojlantiradi. Shu bilan birga, jahon me’morchiligi, musiqasi, rassomligi va adabiyotini o‘rganish shaxsni umumjahon estetik tajribasiga olib kiradi. Ana shu uyg‘unlik shaxsni biryoqlamalikdan xalos etib, unda keng dunyoqarash va madaniy bag‘rikenglikni shakllantiradi.

Milliy va umuminsoniy estetik qadriyatlarni uyg‘unlashtirishda adabiyot alohida ahamiyatga ega. Adabiyot inson qalbining eng murakkab holatlarini badiiy ifoda etadi. O‘zbek mumtoz adabiyotida komil inson, ishq, vafo, sadoqat, adolat, kamtarlik, ilmga intilish kabi g‘oyalar estetik shaklda berilgan. Jahon adabiyotida ham inson qadr-qimmati, erkinlik, ma’naviy izlanish, jamiyat va shaxs munosabati kabi umuminsoniy muammolar ko‘tariladi. Agar o‘quvchi Navoiy, Bobur, Mashrab, Furqat, Cho‘lpon, Abdulla Qodiriy ijodini o‘rganish bilan birga, Shekspir, Gyote, Tolstoy, Dostoyevskiy, Tagor kabi ijodkorlarning asarlari bilan ham tanishsa, uning estetik tafakkuri ham milliy, ham umuminsoniy asosda boyiydi.

Shaxs estetik madaniyatining muhim belgilaridan biri - estetik tanlov qobiliyatidir. Bugungi axborot muhitida inson turli xil madaniy mahsulotlar orasidan tanlov qilishga majbur. Musiqa, film, kitob, moda, internet kontenti, dizayn, ommaviy tomosha shakllari inson didiga bevosita ta’sir qiladi. Estetik madaniyati yetarli bo‘lmagan shaxs ko‘pincha tashqi joziba, ommaviylik yoki reklama ta’sirida qaror qabul qiladi. Estetik madaniyati yuksak shaxs esa mazmun, badiiy saviya, axloqiy yo‘nalish va ma’naviy ta’sirni hisobga oladi. Shuning uchun estetik tarbiyaning asosiy vazifalaridan biri shaxsda mustaqil estetik baholash mezonlarini shakllantirishdir [3, 58].

Estetik madaniyat axloqiy madaniyat bilan uzviy bog‘liq. Haqiqiy go‘zallik faqat tashqi ko‘rinishda emas, balki insonning ichki olami, xulqi, munosabati va mas’uliyatida namoyon bo‘ladi. Qo‘pollik, befarqlik, zo‘ravonlik, yolg‘onchilik yoki manmanlik bilan uyg‘unlashgan tashqi chiroy estetik qiymatga ega bo‘la olmaydi. Shu bois estetik tarbiya axloqiy tarbiyadan ajratilmasligi kerak. Sharq falsafasida go‘zallik ko‘pincha ezgulik, odob, kamtarlik, mehr va komillik bilan bog‘langan. G‘arb estetik tafakkurida ham go‘zallik, ulug‘vorlik, uyg‘unlik va inson erkinligi masalalari axloqiy-falsafiy mazmun bilan talqin qilingan [1, 37]. Demak, shaxs estetik madaniyatini yuksaltirish uning axloqiy qiyofasini ham takomillashtirishni talab qiladi.

Milliy va umuminsoniy o‘ziga xoslik muammosi ayniqsa yoshlar estetik madaniyatini shakllantirishda yaqqol namoyon bo‘ladi. Yoshlar yangilikka intiluvchan, zamonaviy axborot texnologiyalaridan faol foydalanadigan, turli madaniy oqimlarga tez ta’sirlanadigan ijtimoiy guruh hisoblanadi. Bu holat ularda ijodkorlik, ochiqlik va erkin fikrlashni rivojlantirishi mumkin. Biroq ayni paytda milliy qadriyatlardan uzoqlashish, begona madaniy obrazlarga ko‘r-ko‘rona taqlid qilish, estetik didning sun’iylashuvi kabi muammolarni ham keltirib chiqaradi. Shuning uchun yoshlar estetik madaniyatini rivojlantirishda taqiqlash yoki cheklash usulidan ko‘ra, ongli tanlov, tanqidiy tafakkur va madaniy tahlil ko‘nikmalarini shakllantirish samaraliroqdir.

Shaxs estetik madaniyatini yuksaltirishda milliy bayramlar, marosimlar va urf-odatlar ham muhim tarbiyaviy imkoniyatga ega. Navro‘z, Mustaqillik bayrami, xalq sayillari, to‘y marosimlari, milliy liboslar, xalq o‘yinlari va an’anaviy hunarmandchilik namunalari insonda jamoaviy estetik tajriba hosil qiladi. Biroq bu an’analarni faqat tashqi ko‘rinish sifatida emas, ularning ichki ma’naviy mazmuni bilan birga o‘rgatish zarur. Masalan, Navro‘zda tabiatning uyg‘onishi, poklanish, mehr-oqibat, yarashish, bunyodkorlik va go‘zallikka intilish g‘oyalari mujassam. Agar bu mazmun anglatilmasa, bayram faqat tomosha yoki rasmiy tadbir darajasida qolib ketishi mumkin.

Estetik madaniyatda tabiatga munosabat ham muhim o‘rin tutadi. Tabiatdagi go‘zallikni his qila olgan inson uni asrashga ham mas’uliyat bilan yondashadi. Daraxt, suv, tog‘, osmon, gul, qushlar, fasllar almashinuvi inson estetik kechinmalarining tabiiy manbalaridir. Milliy madaniyatimizda tabiatga hurmat, yerga mehr, suvni muqaddas bilish, bog‘ yaratish, hovli va mahallani ozoda saqlash kabi qadriyatlar qadimdan mavjud. Umuminsoniy ekologik madaniyat ham aynan shu estetik-axloqiy munosabatga tayanadi. Demak, estetik tarbiya ekologik tarbiya bilan ham bevosita bog‘liqdir.

Shaxs estetik madaniyatini yuksaltirishda mahalla va ijtimoiy muhitning ta’siri ham e’tibordan chetda qolmasligi lozim. Inson yashayotgan hududning ozodaligi, me’moriy ko‘rinishi, ko‘chalar, bog‘lar, jamoat joylari, madaniyat

markazlari, kutubxonalar va san'at maskanlari uning estetik didiga ta'sir ko'rsatadi. Agar ijtimoiy muhitda tartib, ozodalik, go'zallik va madaniy muomala ustuvor bo'lsa, shaxsda ham shu qadriyatlarga ehtiyoj shakllanadi. Aksincha, beparvolik, qo'pollik, didsizlik va madaniyatsizlik hukm surgan muhit shaxsning estetik ongini zaiflashtiradi. Shu sababli estetik madaniyatni yuksaltirish individual tarbiya bilan birga, ijtimoiy muhitni madaniylashtirishni ham talab qiladi.

Milliy va umuminsoniy estetik qadriyatlar uyg'unligini ta'minlash uchun bir necha muhim yo'nalishlarga e'tibor qaratish lozim. Birinchidan, ta'lim jarayonida milliy madaniy merosni zamonaviy pedagogik yondashuvlar asosida o'rgatish zarur. Ikkinchidan, yoshlarni jahon san'ati va adabiyotining yuksak namunalari bilan tanishtirish, ularni madaniyatlararo taqqoslashga o'rgatish kerak. Uchinchidan, ommaviy madaniyat mahsulotlariga tanqidiy munosabatni shakllantirish, estetik saviyasi past kontentning ongga ta'sirini tushuntirish muhim. To'rtinchidan, san'at, adabiyot, muzey, teatr, kino va madaniy tadbirlar orqali shaxsning estetik tajribasini boyitish zarur. Beshinchidan, oilada, ta'lim muassasasida va mahallada estetik muhit yaratish lozim.

Shaxs estetik madaniyatini yuksaltirishda ijodkorlik ham muhim ahamiyatga ega. Go'zallikni faqat tomosha qilish yoki baholash yetarli emas; inson uni yaratishga ham intilishi kerak. Rasm chizish, musiqa ijro etish, she'r yozish, hunarmandchilik bilan shug'ullanish, dizayn yaratish, teatr sahnasida ishtirok etish, bog' yaratish yoki oddiy kundalik hayotda tartib va go'zallikni saqlash ham estetik faoliyat ko'rinishlaridir. Ijodkorlik shaxsda mustaqillik, tasavvur, mehnatsevarlik, sabr, nozik did va o'ziga ishonchni rivojlantiradi. Milliy hunarmandchilik va zamonaviy dizayn uyg'unligi esa milliylik va umuminsoniylikni amaliy jihatdan birlashtirish imkonini beradi.

Xulosa qilib aytganda, shaxs estetik madaniyatini yuksaltirish milliy va umuminsoniy qadriyatlar uyg'unligini chuqur anglash bilan bog'liq murakkab ma'naviy jarayondir. Milliylik shaxsga o'zlik, tarixiy xotira, madaniy mansublik va ma'naviy ildiz beradi. Umuminsoniylik esa uning dunyoqarashini kengaytiradi, boshqa xalqlar madaniyatiga hurmat, bag'rikenglik va ijodiy ochiqlikni shakllantiradi. Bu ikki yo'nalish bir-birini inkor etmaydi, aksincha, o'zaro boyitadi. Shaxs estetik madaniyati milliy asosga tayanib, umuminsoniy qadriyatlar bilan boyigandagina yetuk, mustaqil va barkamol ma'naviy sifatga aylanadi. Shu bois zamonaviy tarbiya tizimida estetik madaniyatni rivojlantirish alohida yo'nalish sifatida emas, balki shaxs kamolotining barcha sohalarini birlashtiruvchi muhim ma'naviy mezon sifatida qaralishi zarur.

GLOBALLASHUV: YOSHLAR TAFAKKURI VA MA'NAVIYAT UYG'UNLIGI

Tillayev Bobomurod Abduvoxobovich
Namangan davlat pegagogika instituti Falsafiy va tarixiy fanlar kafedrasi katta o'qituvchisi

Anotatsiya: *Maqolada globallashuv jarayonlarining yoshlar tafakkuri va ma'naviyatiga ta'siri tadqiq qilinadi. Globallashuv zamonaviy dunyoda ijtimoiy, madaniy, iqtisodiy va siyosiy o'zgarishlarning asosiy omili sifatida yoshlarning qadriyatlar tizimi, dunyoqarashi va ma'naviyatiga kuchli ta'sir ko'rsatmoqda. Maqolada globallashuvning yoshlar tafakkuriga ijobiy va salbiy ta'sirlari, shuningdek, milliy qadriyatlar bilan globallashuv tendensiyalarini uyg'unlashtirish yo'llari tahlil qilinadi.*

Kalit so'zlar: *globallashuv, yoshlar tafakkuri, ma'naviyat, milliy qadriyatlar, madaniy o'zgarishlar, ijtimoiy ta'sir, zamonaviy dunyoqarash, ma'naviy tarbiya.*

ГЛОБАЛИЗАЦИЯ: МЫШЛЕНИЕ МОЛОДЕЖИ И ДУХОВНАЯ ГАРМОНИЯ

Аннотация: *В статье исследуется влияние процессов глобализации на мышление и духовность молодежи. Глобализация как основной фактор социальных, культурных, экономических и политических изменений в современном мире оказывает сильное воздействие на систему ценностей, мировоззрение и духовное развитие молодежи. В статье анализируются как положительные, так и отрицательные аспекты влияния глобализации на мышление молодежи, а также рассматриваются пути гармоничного сочетания национальных ценностей с тенденциями глобализации.*

Ключевые слова: *глобализация, мышление молодежи, духовность, национальные ценности, культурные изменения, социальное влияние, современное мировоззрение, духовное воспитание.*

GLOBALIZATION: YOUTH THINKING AND SPIRITUAL HARMONY

Annotation: *This article explores the impact of globalization on the thinking and spirituality of young people. As a key factor in social, cultural, economic, and political changes in the modern world, globalization significantly influences the value system, worldview, and spirituality of the younger generation. The article analyzes both the positive and negative effects of globalization on youth thinking, as well as ways to harmonize national values with globalization trends.*

Keywords: *globalization, youth thinking, spirituality, national values, cultural changes, social influence, modern worldview, moral education.*

Kirish: Globallashuv jarayoni zamonaviy dunyoning ajralmas qismiga aylangan bo'lib, u ijtimoiy, iqtisodiy, siyosiy va madaniy sohalarda chuqur o'zgarishlarni keltirib chiqarmoqda. Ushbu jarayon, ayniqsa, yoshlar tafakkuri va ma'naviyatiga sezilarli ta'sir ko'rsatmoqda. Globallashuv natijasida axborot texnologiyalari rivojlanib, internet va ijtimoiy tarmoqlar orqali turli madaniyatlar o'rtasidagi aloqalar kuchaymoqda[1]. Globallashuv sharoitida yoshlarning tafakkuri va ma'naviyatini shakllantirish murakkab va ko'p jihatli jarayon hisoblanadi. Bir tomondan, globallashuv yoshlarga yangi bilimlar, texnologiyalar va madaniy almashinuv imkoniyatlarini beradi, bu esa ularning dunyoqarashini kengaytirishga yordam beradi. Ikkinchi tomondan, bu jarayon milliy qadriyatlar va an'analarning pasayishiga olib kelishi mumkin, bu esa yoshlarning ma'naviyatiga salbiy ta'sir ko'rsatadi[2]. Kelajakda globallashuv jarayonlarining yoshlar tafakkuri va ma'naviyatiga ta'siri tobora kuchayib borishi kutilmoqda. Buning oldini olish uchun milliy qadriyatlar va globallashuv tendensiyalarini uyg'unlashtirishga qaratilgan strategiyalar ishlab chiqilishi zarur. Masalan, ta'lim tizimida milliy madaniyat va qadriyatlarni globallashuv sharoitida o'qitish, yoshlarning ma'naviy tarbiyasini kuchaytirish va ularning ijtimoiy mas'uliyatini oshirish kabi chora-tadbirlar samarali bo'lishi mumkin. Globallashuv yoshlar tafakkuri va ma'naviyatiga kuchli ta'sir ko'rsatayotgan muhim omil hisoblanadi. Bu jarayonni to'g'ri boshqarish va yoshlarning ma'naviy dunyoqarashini shakllantirish uchun innovatsion yondashuvlar va strategiyalarni ishlab chiqish zarur. Globallashuvning yoshlar ma'naviyatiga ta'siri murakkab va ko'p qirrali. Bir tomondan, globallashuv yoshlarning bilim olish imkoniyatlarini kengaytirib, ularning dunyoqarashini boyitadi. Masalan, internet orqali turli madaniyatlar, tillar va an'analar bilan tanishish imkoniyati mavjud. Biroq, boshqa tomondan, globallashuv milliy qadriyatlar va an'analarni yo'qotish xavfini tug'diradi. Ommaviy madaniyatning tarqalishi, individualizm va

iste'molchilik kabi g'oyalar yoshlar orasida milliy va ma'naviy qadriyatlarga nisbatan befarqlikni kuchaytirishi mumkin[3]. Shu nuqtai nazardan, ushbu maqolada globallashuvning yoshlar tafakkuri va ma'naviyatiga ijobiy va salbiy ta'sirlari tahlil qilinadi. Shuningdek, milliy qadriyatlar bilan globallashuv tendensiyalarini uyg'unlashtirish yo'llari ko'rib chiqiladi. Bu esa yosh avlodning ma'naviy barkamolligini ta'minlashda muhim ahamiyat kasb etadi.

Adabiyotlar tahlili: Globallashuv jarayoni butun dunyo bo'ylab olimlar tomonidan chuqur o'rganilgan va bu mavzu bo'yicha turli nazariyalar ilgari surilgan. Ushbu tadqiqotlarning aksariyati globallashuvning ijtimoiy, madaniy va ma'naviy jihatlariga qaratilgan bo'lib, uning yoshlar tafakkuri va ma'naviyatiga ta'sirini tahlil qiladi. Britaniyalik sotsiolog **Entoni Giddens** globallashuvni zamonaviy jamiyatni shakllantiruvchi asosiy omillardan biri sifatida ko'rib, uning ijtimoiy institutlar va shaxsiy hayotga ta'sirini o'rgangan[4]. Uning tadqiqotlariga ko'ra, globallashuv axborot texnologiyalari va ommaviy axborot vositalari orqali yoshlarning dunyoqarashi va qadriyatlariga kuchli ta'sir ko'rsatadi. Globallashuvning axborot texnologiyalari va yoshlar madaniyatiga ta'sirini chuqur o'rgangan olimlardan biri **Manuel Kastels** bo'lib, u "Tarmoqlangan jamiyat" nazariyasida internet va raqamli texnologiyalarning yoshlarning ijtimoiy va madaniy hayotiga ta'sirini yoritgan[5]. Uning tadqiqotlariga ko'ra, globallashuv natijasida yoshlar ma'naviyatida individualizm kuchaymoqda va an'anaviy qadriyatlar o'zgarishga yuz tutmoqda. **Arjun Appadurai** esa globallashuvning madaniy oqimlarga ta'sirini o'rganib, milliy identifikatsiya va madaniy xilma-xillik masalalariga e'tibor qaratgan[6]. U global madaniy maydon shakllanishi natijasida yoshlarning milliy va global qadriyatlar o'rtasida muvozanat topishga intilishlarini ta'kidlaydi. O'zbek olimlaridan Masalan, Hafizov Olimjon Odiljon o'g'li o'zining "Globallashuv sharoitida yoshlar tafakkuri va ma'naviy dunyosida sodir bo'layotgan o'zgarishlar" asarida globallashuvning yoshlar tafakkuri va ma'naviyatiga ta'siri haqida fikr yuritgan. Mazkur olimlarning ishlari globallashuvning yoshlar tafakkuri va ma'naviyatiga ta'sirini chuqurroq anglashga yordam beradi. Ularning tadqiqotlari globallashuv jarayonida yoshlarning qadriyat tizimi, ijtimoiy xulq-atvori va milliy identifikatsiyasini saqlab qolish muammolarini yoritib, ushbu jarayonni boshqarish bo'yicha ilmiy asoslangan yondashuvlarni taklif etadi.

Metodologik qism: Ushbu maqolada globallashuv jarayonlarining yoshlar tafakkuri va ma'naviyatiga ta'sirini o'rganish uchun kompleks metodologik yondashuv asosida olib borildi. Maqolada nazariy tahlil va empirik tadqiqot metodlari uyg'unlikda qo'llanilib, ma'lumotlarni aniq va ishonchli tahlil qilishga qaratilgan yondashuvlar ishlatildi. Nazariy asos sifatida globallashuv va uning ijtimoiy-madaniy oqibatlarini tadqiq qilgan yetakchi olimlarning ilmiy ishlari o'rganildi. Jumladan, **Entoni Giddens** globallashuvni zamonaviy jamiyatni shakllantiruvchi muhim omil sifatida tahlil qilgan bo'lsa, **Zigmunt Bauman** "suyuq modernlik" konsepsiyasida yoshlarning an'anaviy qadriyatlar va o'zlikni anglash muammolari bilan duch kelishini ta'kidlagan. **Manuel Kastels** internet va raqamli texnologiyalarning yoshlarning ijtimoiy hayotiga ta'sirini o'rganib, globallashuv natijasida yoshlar madaniyatida individualizm kuchayganligini ko'rsatgan. **Arjun Appadurai** esa madaniy oqimlarning shakllanishi va yoshlarning milliy qadriyatlar hamda global tendensiyalar o'rtasida muvozanat topishga intilishini o'z tadqiqotlarida yoritgan. Shuningdek, **Ulrich Beck** "xatar jamiyati" nazariyasida globallashuvning xavf va noaniqliklarni oshirishini ta'kidlab, yoshlar tafakkuri va ma'naviyatiga salbiy ta'sir qiluvchi omillarni aniqlagan. **Chuqur intervyu** usuli orqali esa yoshlarning globallashuv ta'siridagi shaxsiy fikrlari va tajribalari o'rganilib, ularning dunyoqarashiga axborot vositalarining ta'siri tahlil qilindi. **Kontent tahlil** metodi orqali ijtimoiy tarmoqlardagi yoshlar orasida keng tarqalgan mavzular va tendensiyalar o'rganilib, globallashuvning axborot makonidagi ta'siri baholandi. Bundan tashqari, tadqiqot davomida **statistik tahlil va solishtirma yondashuv** usullari qo'llanilib, yoshlar tafakkuri va ma'naviyatiga globallashuvning ijobiy va salbiy ta'sirini boshqa mamlakatlardagi holatlar bilan taqqoslash imkoniyati yaratildi. Natijalarga ko'ra, rivojlangan mamlakatlarda globallashuv yoshlar dunyoqarashini yanada kengaytirsa, rivojlanayotgan mamlakatlarda milliy identifikatsiya bilan bog'liq muammolarni keltirib chiqarmoqda. Ushbu metodologik yondashuvlar tadqiqot natijalarining aniqligini oshirish, globallashuv va yoshlar ma'naviyati o'rtasidagi bog'liqlikni chuqurroq tushunish hamda ushbu jarayonni boshqarish bo'yicha ilmiy asoslangan tavsiyalar ishlab chiqishga imkon beradi.

Natijalar: Maqola natijalari globallashuv jarayonlarining yoshlar tafakkuri va ma'naviyatiga ta'siri murakkab va ko'p qirrali ekanligini ko'rsatdi. Bir tomondan, globallashuv yoshlarning intellektual va axborotga bo'lgan ehtiyojlarini qondirishga xizmat qilib, ularning ta'lim olish imkoniyatlarini kengaytiradi, dunyoqarashini rivojlantiradi va innovatsion fikrlash ko'nikmalarini shakllantiradi. Ijtimoiy tarmoqlarning keng tarqalishi ham yoshlarning axborot oqimida tanqidiy fikrlash ko'nikmalarini rivojlantirish zarurligini ko'rsatmoqda, chunki ular turli xil madaniy ta'sirlarga duch kelmoqda[7]. Shu sababli, globallashuv sharoitida yoshlarning milliy ma'naviy qiyofasini saqlab qolish va rivojlantirish uchun bir qator strategik chora-tadbirlarni amalga oshirish zarur. Eng avvalo, ta'lim tizimida milliy ma'naviyat va madaniy qadriyatlarga oid dasturlarni kuchaytirish hamda ularni zamonaviy axborot-kommunikatsiya texnologiyalari bilan uyg'unlashtirish lozim. Yoshlarning media savodxonligini oshirish va ularga tanqidiy tahlil qilish ko'nikmalarini singdirish ham dolzarb masalalardan biri hisoblanadi. Shuningdek, innovatsion pedagogik yondashuvlar va axborot texnologiyalari orqali milliy qadriyatlarni targ'ib qilish orqali globallashuv jarayonining ijobiy jihatlarini kuchaytirish mumkin. Globallashuv yoshlar tafakkuri va ma'naviyatiga turlicha ta'sir ko'rsatmoqda. Uning ijobiy tomonlaridan

samarali foydalanish va salbiy oqibatlarini kamaytirish uchun ta’lim, madaniyat va ommaviy axborot vositalari tizimida kompleks yondashuvlar joriy etilishi lozim.

Muxokama: Globallashuv jarayonlari yoshlar ma'naviyatiga ko'plab ijobiy imkoniyatlar yaratgan bo'lsa-da, uning salbiy oqibatlari ham e'tibordan chetda qolmasligi lozim. Globallashuvning yoshlar ma'naviyatiga ta'siri ko'p qirrali bo'lib, bu jarayonning ijobiy va salbiy jihatlarini chuqur tahlil qilish zarur. Globallashuv yoshlar uchun keng imkoniyatlar yaratmoqda. Internet va axborot-kommunikatsiya texnologiyalarining rivojlanishi natijasida yoshlar global axborot maydoniga kirish imkoniyatiga ega bo'lib, bu ularning intellektual salohiyatini oshirishga xizmat qilmoqda. Milliy qadriyatlarning zaiflashishi va ommaviy madaniyat ta'sirining kuchayishi yoshlarning ma'naviy qiyofasida sezilarli o'zgarishlarga olib kelmoqda. Kelajakda globallashuv jarayonining yoshlar ma'naviyatiga ta'siri yanada kuchayishi kutilmoqda. Internet foydalanuvchilari sonining o'sishi davom etadi, bu esa yoshlarning global axborot maydoniga kirishini yanada osonlashtiradi. Shu sababli, yoshlarning milliy ma'naviy qiyofasini saqlab qolish va rivojlantirish uchun bir qator strategik chora-tadbirlarni amalga oshirish zarur.

Xulosa: Globallashuv yoshlarning tafakkuri va ma’naviyatiga ijobiy hamda salbiy ta’sir ko‘rsatmoqda. Bir tomondan, axborotga keng kirish, ta’lim va innovatsiyalar rivojlanmoqda. Biroq, milliy qadriyatlarning zaiflashishi, iste’molchi madaniyatining kuchayishi va ijtimoiy tarmoqlarning ta’siri muammolarni yuzaga keltirmoqda. Shu sababli, milliy ma’naviyatni saqlab qolish uchun ta’limda milliy va umuminsoniy qadriyatlarni uyg‘unlashtirish, yoshlarning media savodxonligini oshirish va innovatsion yondashuvlardan foydalanish zarur.

SUN'IY INTELLEKT TUSHUNCHASI VA UNING SHAKLLANISH ASOSLARI

Toirov Ilhom Yoriyevich
Farg'ona davlat universiteti dotsenti
Falsafa fanlari bo'yicha falsafa doktori (PhD)

Annotatsiya: *Maqolada sun'iy intellekt (SI) tushunchasining mazmuni, tarixiy shakllanishi va nazariy asoslari yoritilgan. Sun'iy intellektning dastlabki ilmiy qarashlari, zamonaviy yondashuvlari va texnologik rivojlanishdagi o'rni ijtimoiy va falsafiy nuqtai nazardan tahlil qilinadi.*

Kalit so'zlar: *sun'iy intellekt, raqamli tafakkur, avtomatlashtirish, mashina o'rganishi, texnologik taraqqiyot, algoritmlar, ong*

ПОНЯТИЕ ИСКУССТВЕННОГО ИНТЕЛЛЕКТА И ОСНОВЫ ЕГО ФОРМИРОВАНИЯ

Аннотация: *В статье раскрывается содержание понятия искусственного интеллекта (ИИ), его историческое становление и теоретические основы. Анализируются ранние научные подходы, современные концепции и роль ИИ в технологическом развитии с социальной и философской точек зрения.*

Ключевые слова: *искусственный интеллект, цифровое мышление, автоматизация, машинное обучение, технологический прогресс, алгоритмы, сознание.*

THE CONCEPT OF ARTIFICIAL INTELLIGENCE AND THE FOUNDATIONS OF ITS FORMATION

Abstract:*The article explores the concept of artificial intelligence (AI), its historical evolution, and theoretical foundations. It analyzes early scientific views, current approaches, and the role of AI in technological advancement from social and philosophical perspectives.*

Keywords: *artificial intelligence, digital thinking, automation, machine learning, technological development, algorithms, consciousness*

Kirish

Sun'iy intellekt - bu zamonamiz tafakkurining eng murakkab va ko'p qirrali hodisalaridan biri bo'lib, u insoniyat tomonidan o'z ongini aks ettirish, tushunish va hatto yangidan qurish yo'lidagi mislsiz harakatning mahsulidir. Unga bo'lgan qiziqish nafaqat ilm sohasidan, balki jamiyat hayotining eng chuqur qatlamlaridan, insoniy mohiyatning tagma'nolaridan oziqlanadi. Bu tushunchani ijtimoiy falsafa mezonida tahlil etish, uni faqat bir sohaning texnologik yutug'i sifatida emas, balki jamiyat ongining tarixiy va madaniy silsilasi sifatida ko'rishga undaydi.

Sun'iy intellekt tushunchasi ortida yotgan ichki harakat, bu insonning o'zidan tashqarida o'zini ko'rishga bo'lgan intilishidir. Bu jarayonda insoniyat o'z tafakkurining shakllarini, o'z qarorlarini, o'z sezgilarini texnologik vositada mujassamlashtirib, uni o'z hayotiga, o'z muhitiga tatbiq qilmoqda. Bunday holat, tabiiy-ijtimoiy mavjudot sifatida insonning o'zligiga yangicha nigoh bilan qarashga, o'zini tashqaridan baholashga sabab bo'ladi. Aynan shu jihat sun'iy intellektning jamiyat hayotiga kirib kelishini ichki bir zaruratga aylantiradi.

Jamiyat doimo o'zini qayta yaratishga, o'z holatlarini tahlil qilishga, yangi shakllarga o'tishga intiladi. Sun'iy intellekt bu o'zgarishlarning sathiy emas, balki tagma'no darajasidagi ifodasidir. Chunki bu vosita insonni o'z mehnatidan ozod qilishni emas, balki inson tafakkurini ko'chirish, o'z o'rnida yangi qaror qabul qilish shakllarini yuzaga keltirishga qaratilgan. Bu esa jamiyatning eng chuqur o'zgarishlar ichra bo'lishiga sabab bo'ladi.

Sun'iy intellekt - bu jamiyat o'z orzularini, umidlarini, xavotirlarini texnologik shaklga solib ifoda etgan manzara. Bu manzara ichra inson o'zidan qochmaydi, aksincha, o'zining eng nozik, eng murakkab jihatlarini ochiqlaydi. Bu jarayonda sun'iy ong insoniyat yaratgan barcha qadriyatlarning aks sadolarini o'zida jamlaydi: mehr, adolat, foyda, xavf, va umuman, hayotning har bir murakkab rishtasi bu tizimda o'z aksini topadi. Demak, sun'iy intellekt – bu texnik emas, balki ijtimoiy yodgorlikdir.

Mavzuga oid adabiyotlarning tahlili

Sun’iy intellekt tushunchasi va uning shakllanish asoslari ijtimoiy falsafa kontekstida zamonaviy sivilizatsiyaning asosiy gnoseologik va aksiologik muammolaridan biriga aylangan. Bu tushuncha faqat texnik yutuqlar yoki dasturiy algoritmlar majmuasi sifatida emas, balki insoniyat tafakkuri, axloqiy mezonlari va ijtimoiy ongining tub mohiyatiga ta’sir qiluvchi omil sifatida talqin etilishi lozim. Sun’iy intellekt — bu tafakkurning texnologik modellashtirilgan shakli bo‘lib, u endilikda nafaqat hisob-kitob, balki bashorat, qaror qabul qilish, tilni tushunish va hatto axloqiy tanlovlar qilish singari faoliyatlarga ham daxldor bo‘lib bormoqda.

“Sun’iy intellekt tizimlari sintaktik operatsiyalarni bajara oladi, ammo semantik tushunchalarga ega bo‘lmaydi”. Demak, sun’iy intellekt o‘z mohiyati bilan tafakkur emas, balki tafakkur simulyakridandir. Shunga qaramay, ijtimoiy kontekstda bu tizimlar nafaqat mehnat munosabatlari, balki madaniy identitet, axloqiy me'yorlar va hatto diniy qarashlarga ham ta’sir o‘tkaza boshlamoqda.

Sun’iy intellektning shakllanish asoslari Yevropa ilm-fan an’analarining rattsionalistik yondashuvlari bilan bog‘liqdir. R. Dekart tomonidan tafakkur va tana o‘rtasidagi dikotomiya asosida shakllantirilgan ong modeli keyinchalik mashinali tafakkur konsepsiyalarining nazariy negiziga aylandi. Garchi Dekartning “Cogito, ergo sum” prinsipi antropotsentrik bo‘lsa-da, ushbu model sun’iy tafakkur masalasida texnotsentrik burilishga sabab bo‘ldi. Bu borada N. Vinerning fikri diqqatga loyiq: “Agar biz fikrlashni signallarni uzatish va qabul qilish jarayoni deb tushunsak, unda mashina ham tafakkur qilishga qodir bo‘lishi mumkin” [1;b.15].

Biroq, ijtimoiy-falsafiy nuqtai nazardan sun’iy intellekt insoniyat tafakkurining davomchisi emas, balki uning metonimiyasidir. Ya’ni u tafakkurni to‘liq aks ettirmaydi, balki uni modellashtirish orqali cheklangan ko‘rinishda takrorlaydi. M. Bostrom bunga quyidagicha ta’rif beradi: “Sun’iy intellekt bu — inson tafakkurining texnologik aksidir, lekin u avtonom va o‘zgaruvchan dinamikaga ega bo‘lishi mumkin” [2; B.89]. Shu bois, u insoniy axloq, qadriyatlar va erkinlik masalalariga bevosita daxldor bo‘lib qoladi.

Sun’iy intellektning shakllanish asoslari dastlab informatikadagi algoritmik tizimlar, semantik tarmoqlar va mashinali o‘rganish metodologiyalaridan iborat bo‘lgan bo‘lsa, bugungi kunda bu soha sun’iy neyrotarmoqlar, kvant hisoblash, emotsional intellekt va avtonom axloqiy qaror tizimlariga qadar kengaymoqda. Bu esa jamiyatda axloq, javobgarlik va erkinlik tushunchalarini qayta ko‘rib chiqishga sabab bo‘lmoqda. Chunki sun’iy intellektning noto‘g‘ri ishlashi faqat texnik muammo emas, balki ijtimoiy adolat, huquq va axloq masalalarini ham yuzaga keltiradi. L. Floridi bu borada yozadi: “Yangi raqamli sharoitda axloq faqat inson faoliyati bilan emas, balki algoritmik muhitda ro‘y beradigan natijalar bilan ham o‘lchanadi” [3; B.103].

Sun’iy intellekt tushunchasi va uning shakllanish asoslari ijtimoiy falsafa kontekstida zamonaviy insoniyat ongining texnogen muhit bilan qarama-qarshi va ayni vaqtda integrativ munosabatini yoritadi. Bu hodisa tafakkur va texnologiyaning o‘zaro kesishgan nuqtasida yangi mavjudlik shakllarining paydo bo‘lishiga olib kelmoqda. Sun’iy intellekt (SI) nafaqat hisoblash qudratining natijasi, balki tafakkurning algoritmik modellashtirilishiga asoslangan yangi sivilizatsiyaviy paradigmadir. E. Moren bu borada shunday yozadi: “Insoniyat o‘zining intellektual mehnatini mashinalarga yuklay boshlaganida, u nafaqat ish mehnatidan ozod bo‘ladi, balki o‘z tafakkurining shakllanish tamoyillarini qayta ko‘rib chiqishga majbur bo‘ladi” [4; b.176].

XX asrda bu tendensiya kuchaydi. A. Turing sun’iy intellektning nazariy asoslarini yaratgan bo‘lsa, uning “Aqlli mashina sinovi” (Turing test) orqali tafakkurga oid funksional yondashuvni ilgari surdi. U shunday deydi: “Agar mashina inson kabi muloqot qila olsa va inson uni boshqa insondan farqlay olmasa, demak, u tafakkurga ega” [5; b.433]. Bu yondashuv tafakkur mohiyatini substansiyadan vazifaga, ya’ni funksiyaga aylantiradi.

Ijtimoiy falsafa kontekstida esa, sun’iy intellekt tushunchasi insoniylik mezonlarini qayta ko‘rib chiqishga olib kelmoqda. U endilikda mehnat, bilim, axloq, va ong kabi tushunchalarning yangi texnogen talqinini talab qiladi. M. Heidegger texnologiyani “inson borlig‘ining qamrovli ochilishi” sifatida ko‘radi va shunday yozadi: “Texnika — bu o‘zining yashirin mohiyatini sir tutgancha inson borlig‘ini tashkil etuvchi ochilish shaklidir” [6; b.22]. Demak, sun’iy intellekt orqali biz nafaqat yangi vositalarni yaratmoqdamiz, balki insoniy tafakkurning o‘zini ham qayta ixtiro qilmoqdamiz.

Tadqiqot metodologiyasi (research methodology).

Sun’iy intellekt tushunchasi ijtimoiy-falsafiy tafakkurda inson tafakkurining texnologik in’ikosi, ongiy faoliyatning algoritmik konstruksiyasi sifatida muhim nazariy va amaliy muhokamalarga sabab bo‘lib kelmoqda. Ushbu tushuncha insonning bilish faoliyati, axloqiy tanlovlari, mehnat faoliyati, kommunikatsion modeli va sivilizatsion rivojlanish traektoriyasini qayta ko‘rib chiqishga majbur etmoqda. Ayni jarayon, sivilizatsiya tarixida yangi, ilgari kuzatilmagan holat – ong va tafakkurning texniklashtirilish bosqichiga olib keldi.

Sun’iy intellekt tushunchasining shakllanish asoslari tafakkurning funksional modeli va bilish jarayonining formal strukturaviy talqiniga borib taqaladi. Aynan bu yo‘nalishda K. Popperning uch dunyo modeli alohida ahamiyat kasb etadi. Popperning fikricha, tafakkur nafaqat individual aqlning ichki faoliyati (1-dunyo), balki ob’yektiv bilimlar olami

(3-dunyo) sifatida ham mavjuddir. U shunday deydi: “Sun’iy intellekt, aslida, uchinchi dunyoning – ya’ni ob’yektiv bilimlar olamining texnik ifodasidir” [7; b.108].

Sun’iy intellektning shakllanish asoslarini tushunishda, A. Gehlenning texnika haqidagi antropologik yondashuvi alohida ahamiyat kasb etadi. U shunday yozadi: “Inson o‘ziga xos kamchiliklar tufayli texnologiyani ishlab chiqdi va bu vosita insoniy mavjudlikning kompensator shakliga aylandi” [8; b.95]. Demak, sun’iy intellekt inson tafakkurining mutlaq o‘rni emas, balki uni kompensatsiyalovchi texnologik vositadir. Shu bilan birga, bu vosita aynan tafakkurga oid ijtimoiy me’yorlar, axloqiy majburiyatlar va gnoseologik mezonlar tizimini o‘zgartirib yuborayotgan bir hodisadir.

Ijtimoiy falsafa nazarida sun’iy intellekt – bu insonning o‘zini anglash mexanizmlarini murakkablashtiruvchi omildir. M.Kastal o‘z tadqiqotlarida quyidagicha ta’kidlaydi: “Sun’iy intellekt orqali inson o‘zining funksional mohiyatini ko‘rishda emas, balki o‘zining mavjudlikda nechog‘lik sun’iyligiga guvoh bo‘ladi” [9; b.154]. Bu jarayon insoniylik tushunchasini ontologik darajada qayta talqin qilishga zamin yaratadi. Endilikda tafakkur bu – subyektga xos xususiyat emas, balki sivilizatsiyaviy resurs, algoritmik vosita sifatida qaralayapti.

Tahlil va natijalar (analysis and results).

Sun’iy intellekt tushunchasi zamonaviy ijtimoiy-falsafiy tafakkurda inson borlig‘ining texnologik transformatsiyasi, ongiy faoliyatning sun’iy konstruksiyaga aylanishi, bilishning avtomatlashtirilishi va axloqiy refleksiyaning algoritmiylashtirilishi kabi chuqur ontologik-gnoseologik jarayonlar bilan uzviy bog‘liq holda namoyon bo‘lmoqda. Bu hodisa ijtimoiy ongni rekonstruksiya qilish, tafakkur va tafakkur egaligi, erkinlik va mas’uliyat, shaxs va mashina, ong va algoritm o‘rtasidagi chegaralarni qayta talqin qilishni talab etmoqda. Dastlab nazariy-intellektual diskursda yuzaga kelgan bu tushuncha bugun global sivilizatsiya arxitekturasining markaziy elementiga aylangan.

Sun’iy intellekt g‘oyasining shakllanishi, avvalo, tafakkur mohiyatining model sifatida ifodalanishiga bog‘liq. Ijtimoiy-falsafiy kontekstdan qaralganda, sun’iy intellekt insoniyatning tarixiy ong taraqqiyoti natijasi sifatida paydo bo‘lgan sivilizatsiyaviy bosqichni ifodalaydi. I.Valter sun’iy intellekt haqida shunday yozadi: “Ushbu texnologik burilish — bu nafaqat hisoblash qudratining oshishi, balki ongiy va axloqiy mas’uliyatning yangi shaklini yaratishdir” [10; b.72]. Bu esa, inson va sun’iy intellekt o‘rtasidagi munosabatni “texnik vosita – foydalanuvchi” doirasidan olib chiqib, uni “subyekt – subyekt” sivilizatsiyaviy darajasiga ko‘taradi.

Sun’iy intellekt shakllanishining metodologik asoslari, shuningdek, A. Bergsonning vaqt va ong haqidagi nazariyasi bilan ham uyg‘unlashadi. U vaqtni inson tafakkurining ichki dinamikasi, ijodiy evolyutsiyasi deb bilgan holda, texnik tafakkurning bu dinamikani “standart vaqt” va “formulalashgan ong” doirasida muzlatib qo‘yishini tanqid qiladi [11; b.112]. Sun’iy intellekt aynan shunday – tafakkurning dinamik, tajribaga asoslangan, irratsional jihatlarini statik, qayta hisoblanadigan tizimga aylantiradi. Bunda inson intuitsiyasi, iroda va refleksivlik sun’iy intellektning algoritmik me’yorlariga siqib chiqariladi.

Ijtimoiy-falsafa nuqtayi nazaridan, sun’iy intellektning paydo bo‘lishi nafaqat texnologik innovatsiya, balki jamiyatdagi mehnat munosabatlari, ta’lim, siyosiy hokimiyat va ong strukturalarining o‘zgarishini bildiradi. Y. Xabermas sun’iy intellektning ijtimoiy ongdagi dominant rolini shunday izohlaydi: “Aqlning instrumentallashuvi sun’iy intellekt orqali maksimal darajada shakllandi. Endilikda ong ijtimoiy muomala emas, balki texnologik samaradorlikka bo‘ysunadi”[12; b.65]. Demak, sun’iy intellekt insoniyat ongini texnik unumdorlik mezonlari asosida baholashga olib kelmoqda.

Sun’iy intellekt tushunchasining shakllanishi dastlabki bosqichlarda matematik mantiq va hisoblash texnikasi asosida yuzaga kelgan bo‘lsa-da, XX asrning ikkinchi yarmidan boshlab u inson tafakkurini qayta qurishning universal modeli sifatida rivojlana boshladi. A. Turing 1950-yilda e’lon qilgan “Computing Machinery and Intelligence” maqolasida “mashina fikrlashi mumkinmi?” degan savolni qo‘ygan holda, sun’iy intellekt muhokamasiga gnoseologik va aksiologik kontekst olib kirgan edi. U shunday yozadi: “Agar mashina inson kabi fikrlayotganini isbotlay olsa, u holda biz uning tafakkurga ega emasligini rad eta olmaymiz” [13; b.433]. Shu orqali sun’iy intellektni nafaqat texnik obyekt, balki epistemologik subyekt sifatida ko‘rish tendensiyasi shakllana boshladi.

Ijtimoiy-falsafiy jihatdan qaralganda, sun’iy intellektning shakllanishi insoniyat tarixidagi “logos” va “texne” o‘rtasidagi asrlar davom etgan dialektik ziddiyatning yangi bosqichidir. M.Haydegger texnologiya mohiyatini tahlil qilar ekan, texnik tafakkur inson borlig‘ini resurs sifatida qayta formatlash xavfini ta’kidlaydi: zamonaviy texnologiya – bu tabiatni va insonni potensial energetik zaxira sifatida ko‘ruvchi ochib berish shaklidir. Demak, sun’iy intellekt insonni biluvchi subyekt emas, balki ishlab chiqarish va boshqaruv obyektiga aylantirish imkonini beradi.

Sun’iy intellekt g‘oyasining shakllanishi, avvalo, tafakkurni ob’ektivlashtirish, ya’ni insoniy aqlni texnologik modelda ko‘rsatishga bo‘lgan intilishdan kelib chiqdi. Bu borada N.Vinerning kibernetikaga oid qarashlari alohida ahamiyatga ega. U shunday deydi: kibernetika — bu boshqaruv va aloqa jarayonlarini, tirik organizmlar va mashinalar faoliyati doirasida umumiy qonuniyatlarda tadqiq etuvchi fan bo‘lib, ong jarayonlarini sun’iy modellashtirishni nazarda tutadi. Vinerning bu qarashi sun’iy intellekt nazariyasining metodologik asoslarini belgilab berdi.

Keyingi bosqichlarda sun'iy intellekt tushunchasi inson aqliy faoliyatining rekonstruksiyasi sifatida falsafiy tahlil markaziga aylandi. Xususan, J. Searle "maqbul sun'iy intellekt" bilan "kuchli sun'iy intellekt" o'rtasida farq qo'yib, shunday yozadi: Kompyuterlar ma'lumotni qayta ishlashda inson miyasi kabi ishlashi mumkin, biroq ular anglash, tushunish va niyat qilish imkoniyatiga ega emas. Bu fikr sun'iy intellektning ijtimoiy subyektlik darajasini baholashga oid dolzarb falsafiy masalalarni o'rtaga qo'yadi.

Ijtimoiy-falsafiy kontekstdan qaralganda, sun'iy intellekt — bu inson ongining yangi shakli emas, balki tafakkurning sivilizatsiyaviy instrumentallashtirilishi, ya'ni ijtimoiy hayotdagi qaror qabul qilish, axloqiy tanlovlar va muloqot shakllarining avtomatik algoritmlarga bo'ysundirilishidir. Zamonaviy texnologiyalar inson tanlovlarini algoritmik idrokka aylantirib, axloqiy noaniqliklarni statistik ehtimollar bilan almashtiradi. Sun'iy intellekt faqat texnik vosita emas, balki insoniyatning ma'naviy me'yorlariga chuqur aralashuvchi sivilizatsiyaviy vosita sifatida qaraladi.

Sun'iy intellekt (SI) tushunchasi zamonaviy ijtimoiy-falsafiy tafakkurda insoniyat tafakkurining transformatsiyaga uchrashi, bilish jarayonlarining avtomatlashtirilishi va axloqiy me'yorlarning texnotsentrik asosda qayta talqin etilishi kontekstida muhim nazariy nuqtaga aylangan. Mazkur tushuncha, dastlab matematik mantiq va informatika doirasida shakllana boshlagan bo'lsa-da, bugungi kunda u insoniyat sivilizatsiyasining ontologik, aksiologik va epistemik asoslariga chuqur ta'sir ko'rsatuvchi global fenomen maqomini kasb etmoqda. Sun'iy intellekt bu ma'noda faqat texnologik yutuq emas, balki ijtimoiy ong va axloqiy qarorlar sohasida insonni qayta tushunish zaruratini yuzaga keltiruvchi konseptual o'zgarishdir.

Ijtimoiy-falsafiy tahlilga ko'ra, Sun'iy intellekt inson tafakkurining muqobil modeli emas, balki uni algoritmik mantiqqa bo'ysundirish orqali nazorat ostiga olish vositasidir. Demak bu fikr SI'ning jamiyatda erkinlik, ong va qadriyatlar bilan bog'liq bo'lgan falsafiy muammolarni qayta ko'tarayotganini ko'rsatadi.

Sun'iy intellekt (SI) tushunchasi ijtimoiy-falsafiy tafakkur tarixida inson tafakkuri, ong va aqlni texnologik konstrukt sifatida talqin etishga urinish bo'lib, bu hodisa zamonaviy sivilizatsiyaning mohiyatiga, axloqiy me'yorlariga, erkinlik va mas'uliyatga oid tasavvurlarini qayta belgilab bermoqda. Sun'iy intellekt bu ma'noda, nafaqat ilmiy-texnikaviy taraqqiyot mahsuli, balki inson borligining yangi ontologik va aksiologik shaklga o'tish bosqichidir. Aynan shu nuqtai nazardan, uni ijtimoiy-falsafiy yondashuvda tahlil qilish insoniyat tafakkurining tub ildizlariga yetib borishni, uni texnosivilizatsiyaviy kontekstda qayta talqin qilishni talab etadi.

SI tushunchasi tarixiy jihatdan informatika, matematik mantiq va hisoblash nazariyasi doirasida shakllangan bo'lsa-da, ijtimoiy ong, ongli faoliyat va subyektivlikni sun'iy ravishda takrorlash imkoniyatining mavjudligi haqida ilk falsafiy mulohazalar XVIII–XIX asrlardayoq paydo bo'lgan. Mavjudlikni sun'iy nusxa orqali qayta modellashtirish fikri, masalan, R. Dekartning "ong va tana dualizmi" haqidagi qarashlarida ilk zaminini topgan edi. Biroq bu g'oya XX asrning o'rtalaridan boshlab real texnologik loyihalarga aylanadi.

Xulosa (Conclusion)

Sun'iy intellekt (SI) — bu insonning fikrlash, o'rganish, muammolarni hal qilish va qarorlar qabul qilish kabi kognitiv funksiyalarini sun'iy tizimlar orqali taqlid qilishga qaratilgan fanlararo yo'nalishdir. Uning shakllanishi informatika, matematika, neyrobiologiya, tilshunoslik, psixologiya va falsafa kabi fanlar bilan chambarchas bog'liq bo'lib, tarixan bir necha bosqichda rivojlangan. Dastlabki nazariy asoslar 20-asrning o'rtalarida paydo bo'lib, bugungi kunga kelib chuqur o'rganilayotgan mashinaviy o'rganish, neyron tarmoqlar va tabiiy tilni qayta ishlash (NLP) texnologiyalari orqali SI amaliy jihatdan keng qo'llanila boshlandi.

Shu bilan birga, SI texnologiyalarining ijtimoiy, etik va huquqiy oqibatlari ham ilmiy muhokama ob'ekti bo'lib, uni tartibga soluvchi mexanizmlarning ishlab chiqilishi dolzarb masalalardan biridir. Sun'iy intellekt - bu nafaqat texnologik taraqqiyot natijasi, balki insoniyat tafakkurining sun'iy muhitda modellashtirilishiga bo'lgan intilishning yorqin ifodasidir.

FLANTROPIK FAOLIYATNING YUKSALIB BORISH JARAYONLARI

Toshpo‘latov Iqboljon Baxtiyorovich
Farg‘ona viloyati pedagogik mahorat markazi
Ijtimoiy-iqtisodiy fanlar metodiksi kafedrasi dotsenti,
falsafa fanlari bo‘yicha falsafa doktori (PhD)

Annotasiya: *Mazkur maqolada filantropik faoliyat xayriyaning yuksak insonparvarlik maqomiga ega bo‘lgan qadriyat ko‘rsatmalari sifatida o‘ziga xos amaliy ahamiyatga ega ekanligi tadqiq etilgan. Bu faoliyat xayriya ko‘rinishida yuksalayotgan jamiyatlarning o‘ziga xos tuzilishi, funksiyalari va rivojlanish mexanizmlariga ega bo‘lgan ijtimoiy munosabatlaridan biri ekanligi ochib berilgan. Madaniy qadriyat me’yorlarining globallashuvi ijtimoiy axloq va diniy fazilatlarni muruvvat sifatida ijtimoiy taraqqiyotda amaliy ahamiyati ochib berilgan.*

Kalit so‘zlar. *Jamiyat, jarayon, filantropik faoliyat, xayriya, insonparvarlik, rahmdillik, jamiyat taraqqiyoti, madaniyat.*

ПРОЦЕССЫ ВОЗНИКНОВЕНИЯ БЛАГОТВОРИТЕЛЬНОЙ ДЕЯТЕЛЬНОСТИ

Аннотация: *В данной статье рассматривается практическое значение благотворительной деятельности как ценностного предложения с высоким гуманитарным статусом. Выявлено, что эта деятельность является одним из социальных отношений обществ, развивающихся в форме благотворительности, которая имеет свою структуру, функции и механизмы развития. Глобализация культурных ценностных норм раскрывает практическое значение социальной морали и религиозных добродетелей как средства социального развития.*

Ключевые слова*: Общество, процесс, благотворительная деятельность, благотворительность, гуманитаризм, сострадание, социальное развитие, культура.*

PROCESSES OF THE RISE OF PHILANTHROPIC ACTIVITY

Abstract: *This article examines the practical significance of philanthropic activity as a value proposition with a high humanitarian status. It is revealed that this activity is one of the social relations of societies that are developing in the form of charity, which has its own structure, functions and development mechanisms. The globalization of cultural value norms reveals the practical significance of social morality and religious virtues as a means of social development.*

Keywords*. Society, process, philanthropic activity, charity, humanitarianism, compassion, social development, culture.*

Kirish

Globallashuv jarayonlarining shiddati bozor islohotlari davrida aholini ijtimoiy himoya qilish tizimi qayta tashkil etishni taqozo qilmoqda. Ijtimoiy davlat o‘z fuqarolariga faqat ijtimoiy ta’minot, ijtimoiy himoya va sog‘liqni saqlashning minimal darajasini kafolatlashi emas, balki ularni tizimli va ilmiy asosda o‘rganishni talab etmoqda. Yangilanayotgan jamiyatda ishlab chiqarish vositalariga xususiy mulkchilik va kambag‘allikni paydo bo‘lishi bilan ijtimoiy tengsizlikning uzoq vaqtdan beri ma’lum bo‘lgan faoliyati bu – filantropik faoliyatdir. Filantropik faoliyat turli xayriya turlari shaklida rivojlanishi bilan taraqqiyot tarixining barcha davrlarida mavjud bo‘lgan, xususiy xayriya (homiylik) yoki diniy xayriyalarni o‘z ichiga olgan. Bundanda boshqa shakllari esa zamonaviy jamiyat taraqqiyotida uchrashi tabiiy hodisadir. Shu o‘rinda ta’kidlasha kerakki, kimgadir yordam berishga tayyorlik ma’nosida flantropik faoliyat yuksalib borgan. Zero tadqiqotchilar ta’biri bilan aytganda, “Barkamol yoki komil inson quyidagi fazilatlarni o‘zida mujassam etadi. Halol luqma bilan qanoatlanish, o‘z kasbidan foyda topib kun o‘tkazish, shariat qonunlariga rioya etish, farzandlariga, yaqinlariga qo‘pollik qilmaslik, rahmdillik, saxiylik, mardlik, halimlik, xushxulqlik, sabrlilik, sadoqatlilik, vafodorlik, qiyinchilikdan qo‘rqmaslik kabilardir. Xullas, komil inson-iymon va e’tiqodlilik, halollik va poklikning, do‘stlik va mehr-muhabbatning oliy timsolidir”[1.18.]. Shunga ko‘ra rahmdillik, ya’ni muhtojlarga beg‘araz yordam ko‘rsatish unda – azaliy insoniy tuyg‘u va harakat sifatida baholanadi ijtimoiylashgan jamiyatning ajralmas elementidir.

Mavzuga oid adabiyotlar tahlili

Xayriya faoliyatining kelib chiqishi ko‘p asrlik tarixga ega bo‘lib, antik davrda filantropik faoliyat amaliyotlarini shakllantirish bilan birga uning kontseptual talqini asoslari ham ishlab chiqilgan. Masalan, Aristotel ijtimoiy munosabatlarda muhim masalalardan biri bu sifatida “berish harakati”ni o‘rganadi. Aristotel “berish”ni fazilatning namoyon bo‘lishi deb talqin qiladi va uning amaliy ahamiyatini – zarur sabab deb hisoblaydi. O‘zaro munosabatda “berish”ning asosiy tamoyillaridan biri deb biladi. Amaliy yordam berish do‘stona munosabatlarni o‘rnatishga yordam beradi va bu bilan ijtimoiy munosabatlarni mustahkamlaydi. Shuning uchun kimga sovg‘a berishni tanlashda ham, kimning qarzdori bo‘lishimiz kerakligini tanlashda ham ehtiyot bo‘lishimiz kerak[2.55.]ligini ta’kidlaydi.

Qadimdan faylasuflar har qanday madaniyatda mavjud bo‘lgan berish amaliyotining ikki tomonlama xususiyatini bilishgan. Aristotelning so‘zlariga ko‘ra, odamlarni hayoti davomida ikkita jarayon bog‘laydi - bu “berish va qaytarish” jarayonidir. Unga ko‘ra Aristotel xayriyani do‘stlik bilan bog‘laydi va saxovatli jamoat harakatlariga emas, balki odamlarning bir-biriga nisbatan mehribon hamda insoniy munosabatiga aloqador deb hisoblaydi. Sovg‘a beruvchi va oluvchi o‘rtasidagi muqarrar tengsizlikni hisobga olgan holda, Aristotel ehtiyotkorlik bilan harakat qilishga, birinchi uchrashgan odamga o‘z saxiyligini ko‘rsatmaslikka, o‘zlari foyda olishni istaganlarni to‘g‘ri tanlashga chaqiradi[3.55.].

Faylasuf Lutsey Anney Seneka o‘zining “Xayrlilik to‘g‘risida” risolasida “Ixtiyoriy xayr-ehsonning mohiyatini o‘rganadi va insoniyat jamiyatini eng kuchli bog‘laydigan bu odatni muhokama qiladi”[4.96.]. Odamlar sovg‘a berishni ham, olishni ham bilmasligidan afsuslangan edi.

Jamiyat taraqqiyotida filantropik faoliyatning turli jihatlari bir qator xorijiy olimlarning tadqiqot obyekti hisoblanadi. Tadqiqotlar XIX asr oxiri va XX asr boshlarida yangi bosqichda rivojlana boshlandi. Faylasuf olim J.A.Lyaxovaning fikricha, jamiyat taraqqiyotida filantropik faoliyatning rivojlanishiga bir necha sabablarni keltiradi. *Birinchidan* diniy munosabatlar ekanligini ta’kidlaydi. “Ochko‘zlik halokatli gunohlardan biri bo‘lib, chuqur dindor savdogarlarni o‘z boyliklarining gunohlarini sadaqa bilan yuvishga undagan”. *Ikkinchidan*, madaniyat sohasidagi xizmatlar, martaba va mukofotlar yordamida o‘z tabaqasining yakkalanishi chegarasidan chiqib ketish yoki umumjahon e’tirofini qozonish zarur. “San’at va madaniyatda homiylarning shaxsiy, yuksak axloqiy fazilatlari bo‘lib, ular madaniyat farovonligi uchun fidokorona mehnatlarini inobatga olish zarurligini”[5.272.], ta’kidlaydi.

Jamiyat va davlat orasidagi huquqiy munosabatlar nuqtai nazaridan xayriya faoliyati subyektining roli ko‘pincha davlatga tegishli bo‘ladi. Bu ijtimoiy muammolarni hal qilishda xususiy sektor ishtirokchilariga emas, balki davlat organlari va tashkilotlariga tayanishga odatlanganligi bilan izohlanadi. Bizningcha, davlat tomonidan muhtojlarga yordam berish, o‘z fuqarolari oldidagi ijtimoiy burchning namoyon bo‘lishi sifatida amalga oshirilgan bo‘lishi kerak. Keyinchalik, “xayriya” bilan birga, kambag‘allarga yordam berish uchun “jamoat xayriyasi” sifatida ishlatila boshlanganligini kuzatish mumkin. Bunday yordam xususiy shaxslar va jamoat tashkilotlari tomonidan ko‘rsatilganda “xayriya” sifatida namoyon bo‘lgan. Bizningcha o‘z subyektlariga g‘amxo‘rlik qilishning ijtimoiy burchi bu hodisa sifatida “jamoat xayriya”si deb nomlanishga loyiqdir.

Shu o‘rinda “Filantropik faoliyat (xayriya) - bu yordamga muhtoj odamlarga jamoat muammolarini hal qilishda yordam berish, shuningdek, ijtimoiy hayot sharoitlarini yaxshilash maqsadida ularning egalari tomonidan xususiy mablag‘lar ixtiyoriy ravishda taqsimlanadigan faoliyatdir. Xususiy resurslar moliyaviy va moddiy resurslar, odamlarning qobiliyatlari va energiyasi bo‘lishi mumkin”[6.51.]. Yoki “Xayriya (jamoa faoliyati sifatida) - u yoki bu sabablarga ko‘ra to‘liq faoliyat ko‘rsatishi uchun o‘z resurslariga ega bo‘lmagan shaxslar yoki tashkilotlarni qo‘llab-quvvatlashga qaratilgan ijtimoiy sohadagi nodavlat ixtiyoriy, bepul faoliyatdir”[7.23.]. Bundan ma’lum bo‘ladiki, filantropik faoliyat katta ma’naviy jarayonni qamrab oladi. Filantropik faoliyat umumbashariy hodisa sifatida turli xalqlar madaniyati va diniy konfessiyalar vakillari hayotida o‘ziga xos tarzda namoyon bo‘ladi. Bu esa jamiyat taraqqiyotida filantropik faoliyatning rivojlanishining o‘ziga xos bo‘lgan bosqichlarini bosib o‘tganligini ta’kidlash lozim.

Tadqiqot metodologiyasi

Filantropik faoliyat xayriya ko‘rinishida shaxslar va tashkilotlarning ixtiyoriy harakatlari bo‘lib, unda bu harakatlarga davlat tomonidan da’vat qilinmagan va ayniqsa, majburlanmagan. Mazkur faoliyati tarixiylik va mantiqiylik, qiyosiy tahlil usullaridan o‘rganilganda jamiyat hayotini strategik ahamiyatga ega ekanligini bilish imkoni yaratadi.

Tahlil va natijalar

Jamiyatda filantropik faoliyatning bir qator nisbatan mustaqil funksiyalarini ajratib ko‘rsatish maqsadga muvofiqdir. Bu quyidagi tasniflar ko‘rinishida namoyon bo‘ladi:

1) Iqtisodiy jihatdan ob’ektiv xususiyatlar va hayotiy vaziyatlar tufayli o‘z-o‘zidan mustaqil ravishda g‘amxo‘rlik qila olmaydigan fuqarolarning munosib yashashini ta’minlaydi.

2) Ijtimoiy jihatdan turmush darajasini tenglashtirish orqali ijtimoiy keskinlikni yumshatish, obyektiv sharoitlar tufayli yangi sharoitlarga moslasha olmaydigan aholining eng nochor qatlamlarini qo‘llab-quvvatlaydi.

3) Ijtimoiy aholining ayrim toifalarining o‘z xohishiga qarshi, qabul qilingan turmush darajasidan chiqib ketishiga olib keladigan ijtimoiy munosabatlardagi buzilishlarni to‘ldirish, bu ularning jamoat tovarlarini iste’mol qilish bir vaqtning o‘zida - jamoatchilik fikriga ta’sir qiladi;

4) Siyosiy jihatdan aholi va davlat tuzilmalari bilan qayta aloqa mexanizmlarini amalga oshirish, ijtimoiy jihatdan, obyektiv sabablarga ko‘ra o‘z huquqlarini himoya qila olmaydiganlar nomidan ijtimoiy ustuvorliklarni shakllantiradi.

5) Marketing jihatdan xayriyachilarning ehtiyojlarini qondirish, xayriya loyihalarini amalga oshirish uchun donorlarga xizmatlar ko‘rsatish va shu bilan birga jamiyatda altruistik va xayriya tuyg‘ularini tarbiyalash[8.27.]dan iborat. Bugungi kunda filantropik faoliyatining holati va mexanizmlarini ijtimoiy hodisa sifatida tadqiq qilinmoqda. Bu esa davlat organlari o‘rtasidagi o‘zaro munosabatlarning o‘ziga xos xususiyatlarida batafsil o‘rganilmoqda. Xayriya siyosatini amalga oshirishga ta’sir qiladiganlar, o‘z navbatida, hokimiyat bilan o‘zaro hamkorlikda strategik afzalliklarga ega bo‘ladilar.

Filantropik faoliyat mohiyatiga ko‘ra u rahm-shafqat va xayriya motivlarining ijtimoiy ma’nosini ochib berishga harakat qiladi. Faylasuf I.N.Klyuchevskiy “Xayriya jamoatni yaxshilashning yordamchi vositasi emas, balki shaxsiy axloqiy salomatlikning zaruriy sharti edi. Xayriyachi ma’naviy foyda olish uchun o‘zi yengillashtirgan insoniy ehtiyojni o‘z ko‘zlari bilan ko‘rishi kerak. Shu o‘rinda ta’kidlash kerakki, rahmdillik - kimgadir yordam berishga tayyorlik ma’nosida ham flantropik faoliyat shakllanadi. Bu bilan hayotga sidqidildan ishtirok etish zaif va muhtojlarga faol rahm-shafqat ko‘rsatish, yordam, xayriya va xayr-ehson qilish asosi bo‘lib xizmat qiladi.

Xulosa

Filantropik faoliyat xayriya qilish va yaxshilik qilish demakdir. Yaxshilik qilish har bir jamiyatda turli ijtimoiy, madaniy, ma’naviy, iqtisodiy va siyosiy guruhlar tasavvurlarida filantropik faoliyatning talqini turlicha bo‘lishi tabiiy hisoblanadi. Xayriyaning umumiy qabul qilingan ta’rifi jamiyatdagi muammolarni ko‘rsatish orqali shakllantiriladi. Ularni hal qilishga qaratilgan har qanday harakat xayriya deb e’tirof etiladi. Har bir muammo, odatda, ushbu muammoni boshdan kechirayotgan aholi toifalarini aniqlashni ham nazarda tutadi. Ular xayriya ishlarini amalga oshirishda faoliyat turlari, qoida tariqasida qat’iy belgilanmaydi, bu esa mazkur faoliyatni hal qilishga yordam beradi.

YANGI O‘ZBEKISTONDA DINIY BAG‘RIKENGLIK SIYOSATINING IJTIMOIY-FALSAFIY JIHATLARI

Orziyev Iqbol Jumanazarovich
Falsafa fanlari bo‘yicha falsafa doktori (PhD),
Namangan davlat universiteti dotsenti

Annotatsiya: *Mazkur maqolada Yangi O‘zbekiston sharoitida amalga oshirilayotgan diniy bag‘rikenglik siyosatining ijtimoiy-falsafiy asoslari tahlil qilinadi. Tadqiqotda diniy bag‘rikenglikning jamiyat barqarorligi, fuqarolik birdamligi va inson huquqlarini ta’minlashdagi o‘rni ochib berilgan. Shuningdek, xorijiy, MDH va mahalliy olimlarning ilmiy qarashlari asosida masalaning o‘rganilganlik darajasi yoritilgan. Tadqiqot davomida qiyosiy tahlil, tarixiylik, tizimli yondashuv va kontent-tahlil metodlaridan foydalanilgan.*

Kalit so‘zlar: *diniy bag‘rikenglik, konfessiyalararo munosabatlar, fuqarolik jamiyati, diniy erkinlik, Yangi O‘zbekiston, ijtimoiy-falsafiy tahlil.*

СОЦИО-ФИЛОСОФСКИЕ АСПЕКТЫ ПОЛИТИКИ РЕЛИГИОЗНОЙ ТОЛЕРАНТНОСТИ В НОВОМ УЗБЕКИСТАНЕ

Аннотация: *В данной статье анализируются социально-философские основы политики религиозной терпимости, реализуемой в условиях Нового Узбекистана. Исследование выявляет роль религиозной терпимости в обеспечении социальной стабильности, гражданской солидарности и прав человека. Также освещается уровень изучения вопроса на основе научных взглядов зарубежных, СНГ и местных ученых. В исследовании использованы методы сравнительного анализа, историцизма, систематического подхода и контент-анализа.*

Ключевые слова: *религиозная терпимость, межконфессиональные отношения, гражданское общество, свобода вероисповедания, Новый Узбекистан, социально-философский анализ.*

SOCIO-PHILOSOPHICAL ASPECTS OF THE POLICY OF RELIGIOUS TOLERANCE IN NEW UZBEKISTAN

Annotation: *This article analyzes the socio-philosophical foundations of the policy of religious tolerance being implemented in the conditions of New Uzbekistan. The study reveals the role of religious tolerance in ensuring social stability, civil solidarity and human rights. It also highlights the level of study of the issue based on the scientific views of foreign, CIS and local scientists. The research used comparative analysis, historicism, systematic approach and content analysis methods.*

Keywords: *religious tolerance, interfaith relations, civil society, religious freedom, New Uzbekistan, socio-philosophical analysis.*

Kirish:

Globallashuv jarayonlarining jadallashuvi, axborot-kommunikatsiya texnologiyalarining rivojlanishi hamda xalqlar o‘rtasidagi ijtimoiy-madaniy aloqalarning kengayishi zamonaviy davlatlar oldiga diniy bag‘rikenglikni ta’minlash masalasini dolzarb vazifa sifatida qo‘ymoqda. Bugungi kunda dunyoning ko‘plab mamlakatlarida diniy xilma-xillik jamiyat taraqqiyotining muhim xususiyatlaridan biriga aylanib bormoqda. Shu bois turli din va konfessiya vakillari o‘rtasida o‘zaro hurmat, hamjihatlik va hamkorlik muhitini shakllantirish davlat siyosatining ustuvor yo‘nalishlaridan biri sifatida e’tirof etilmoqda. Ayniqsa, ko‘p millatli va ko‘p konfessiyali jamiyatlarda diniy bag‘rikenglik ijtimoiy barqarorlikni mustahkamlash, turli ijtimoiy guruhlar o‘rtasida ishonch va birdamlikni ta’minlashning muhim omili hisoblanadi.

Diniy bag‘rikenglik nafaqat insonning vijdon erkinligini kafolatlash, balki jamiyatda tinchlik va osoyishtalikni qaror toptirishga xizmat qiluvchi ijtimoiy-falsafiy qadriyat sifatida ham namoyon bo‘ladi. Zamonaviy ilmiy adabiyotlarda bag‘rikenglik fuqarolik jamiyatining rivojlanish darajasini belgilovchi mezonlardan biri sifatida talqin qilinadi. Turli diniy qarash va e’tiqodlarga ega bo‘lgan insonlarning o‘zaro hurmat asosida yashashi, diniy ziddiyatlarning oldini olish hamda umumiy fuqarolik qadriyatlarini qaror toptirish demokratik taraqqiyotning muhim

sharti hisoblanadi. Shu nuqtai nazardan, diniy bag‘rikenglikning nazariy va amaliy asoslarini o‘rganish bugungi kunda ijtimoiy-falsafiy tadqiqotlarning muhim yo‘nalishlaridan biriga aylangan.

Yangi O‘zbekistonda inson qadri, vijdon erkinligi va diniy e’tiqod huquqlarini ta’minlash davlat siyosatining ustuvor yo‘nalishlaridan biri sifatida belgilangan. So‘nggi yillarda diniy tashkilotlar faoliyatini takomillashtirish, fuqarolarning diniy huquqlarini himoya qilish, konfessiyalararo muloqotni rivojlantirish hamda diniy-ma’rifiy sohani qo‘llab-quvvatlash bo‘yicha keng ko‘lamli islohotlar amalga oshirildi. Mazkur islohotlar mamlakatda diniy erkinlikni ta’minlash bilan birga, millatlararo totuvlik va ijtimoiy hamjihatlikni mustahkamlashga xizmat qilmoqda. Natijada O‘zbekistonning diniy bag‘rikenglik borasidagi tajribasi xalqaro hamjamiyat tomonidan e’tirof etilayotgan va ijtimoiy barqarorlikni ta’minlashning samarali modeli sifatida baholanayotgan yo‘nalishlardan biriga aylanmoqda [1].

Muammoning o‘rganilganlik darajasi

Diniy bag‘rikenglik, vijdon erkinligi va konfessiyalararo munosabatlar masalalari ijtimoiy-falsafiy, siyosiy, huquqiy hamda sotsiologik fanlar doirasida keng tadqiq etilgan ilmiy yo‘nalishlardan biri hisoblanadi. Mazkur muammo bo‘yicha olib borilgan tadqiqotlar shuni ko‘rsatadiki, diniy bag‘rikenglik nafaqat inson huquqlarini ta’minlashning muhim sharti, balki jamiyat barqarorligi, ijtimoiy integratsiya va fuqarolik birdamligini mustahkamlovchi omil sifatida ham namoyon bo‘ladi. Shu sababli ushbu masala xorijiy, MDH va mahalliy olimlar tomonidan turli nazariy-metodologik yondashuvlar asosida o‘rganilgan.

Diniy bag‘rikenglikning nazariy asoslari avvalo G‘arb falsafiy tafakkurida shakllangan. Xususan, ingliz faylasufi J. Lokk o‘zining diniy tolerantlik haqidagi qarashlarida davlat va din munosabatlarini demokratik tamoyillar asosida tashkil etish zarurligini asoslab bergan. Uning fikricha, davlatning asosiy vazifasi fuqarolarning tabiiy huquqlarini himoya qilishdan iborat bo‘lib, diniy e’tiqod masalasi shaxsning erkin tanlovi sifatida qaralishi lozim [2]. Shu bois Lokk diniy bag‘rikenglikni fuqarolik jamiyatining muhim sharti sifatida talqin etadi.

Amerikalik faylasuf J. Rauls diniy bag‘rikenglik masalasini adolat nazariyasi va siyosiy liberalizm konsepsiyasi doirasida tahlil qilgan. Olimning ta’kidlashicha, turli diniy va dunyoviy qarashlarga ega bo‘lgan fuqarolar umumiy siyosiy qadriyatlar asosida hamkorlik qilishi mumkin. Rauls diniy xilma-xillikni demokratik jamiyatning tabiiy holati sifatida baholaydi va ijtimoiy barqarorlikka erishishda bag‘rikenglik tamoyilining muhim o‘rin tutishini ko‘rsatadi [3].

Shuningdek, M. Valzerning ilmiy izlanishlarida bag‘rikenglik ko‘p madaniyatli jamiyatlar taraqqiyotining muhim sharti sifatida talqin qilinadi. Olim turli madaniyat va din vakillarining o‘zaro hurmat asosida yashashi jamiyatdagi ijtimoiy hamjihatlik va siyosiy barqarorlikni ta’minlashini ta’kidlaydi. Bundan tashqari, S. Hantington, C. Taylor, B. Pareh kabi olimlarning tadqiqotlarida ham dinlararo muloqot, madaniy xilma-xillik va tolerantlik masalalariga alohida e’tibor qaratilgan.

MDH mamlakatlari olimlari diniy bag‘rikenglikni asosan ko‘p millatli va ko‘p konfessiyali jamiyatlarda ijtimoiy barqarorlikni ta’minlash omili sifatida o‘rganganlar. Xususan, A.V. Malashenko diniy omilning zamonaviy siyosiy jarayonlarga ta’sirini tahlil qilib, diniy tashkilotlar va davlat o‘rtasidagi munosabatlarning ijtimoiy taraqqiyotdagi ahamiyatini yoritgan. Uning tadqiqotlarida diniy bag‘rikenglikning ekstremizm va radikalizmga qarshi kurashdagi o‘rni alohida ko‘rsatib berilgan [4].

V.A. Tishkov etnik va diniy xilma-xillikni zamonaviy jamiyat taraqqiyotining tabiiy ko‘rinishi sifatida baholab, millatlararo va konfessiyalararo munosabatlarni uyg‘unlashtirish mexanizmlarini tadqiq qilgan. Olimning fikricha, bag‘rikenglik madaniyati fuqarolik birdamligini mustahkamlovchi muhim ijtimoiy institut hisoblanadi [5].

L.N. Mitroxin esa dinning jamiyat hayotidagi o‘rni, diniy ong va madaniyatning shakllanish qonuniyatlarini o‘rganib, diniy bag‘rikenglikning ma’naviy va axloqiy asoslarini ochib bergan. Uning ilmiy qarashlarida konfessiyalararo muloqot va hamkorlikning ijtimoiy ahamiyati chuqur tahlil qilingan [6].

O‘zbekistonda diniy bag‘rikenglik va millatlararo totuvlik masalalari mustaqillik yillaridan boshlab ilmiy tadqiqotlarning muhim yo‘nalishiga aylandi. Mahalliy olimlardan A. Erkayev ma’naviyat, demokratik taraqqiyot va fuqarolik jamiyati rivojlanishida tolerantlik tamoyillarining ahamiyatini yoritgan [7].

N. Jo‘rayevning ilmiy izlanishlarida tarixiy taraqqiyot va sivilizatsiyalar rivojida bag‘rikenglik madaniyatining o‘rni tahlil etilgan [8]. R. Murtazayeva esa millatlararo munosabatlar, ijtimoiy integratsiya va fuqarolik birdamligi masalalarini o‘rganish orqali diniy bag‘rikenglikning jamiyat barqarorligini ta’minlashdagi ahamiyatini asoslab bergan [9]. A. Saidovning tadqiqotlarida esa inson huquqlari, vijdon erkinligi va diniy erkinlikning xalqaro-huquqiy asoslari tahlil qilingan [10].

Yurtimiz olimlarining tadqiqotlarda diniy bag‘rikenglikning huquqiy, ma’naviy va ijtimoiy jihatlari keng yoritilgan bo‘lsa-da, Yangi O‘zbekiston taraqqiyot strategiyasi doirasida amalga oshirilayotgan islohotlarning diniy bag‘rikenglik siyosatiga ta’siri, uning ijtimoiy-falsafiy mazmuni hamda jamiyat transformatsiyasidagi o‘rni kompleks tarzda yetarlicha tadqiq etilmagan.

Shu nuqtai nazardan, mazkur maqolada Yangi O‘zbekistonda diniy bag‘rikenglik siyosatining ijtimoiy-falsafiy asoslari, uning jamiyat barqarorligi va fuqarolik birdamligini ta’minlashdagi ahamiyati tizimli yondashuv asosida tahlil

qilinadi. Tadqiqotning ilmiy yangiligi ham aynan diniy bag‘rikenglik siyosatini Yangi O‘zbekiston sharoitidagi ijtimoiy transformatsiyalar bilan uzviy bog‘liqlikda o‘rganishga qaratilganligi bilan izohlanadi.

Yangi O‘zbekistonda diniy bag‘rikenglik siyosatining ijtimoiy-falsafiy mazmunini ochib berish hamda uning jamiyat taraqqiyotidagi ahamiyatini tahlil qilish maqsadida tadqiqotda quyidagi metodlardan foydalanildi:

Tarixiylik metodi – O‘zbekistonda diniy bag‘rikenglik siyosatining shakllanish bosqichlarini tahlil qilishda; qiyosiy tahlil metodi – xorijiy mamlakatlar tajribasi bilan O‘zbekiston amaliyotini taqqoslashda; tizimli yondashuv metodi – diniy bag‘rikenglikni siyosiy, huquqiy, ijtimoiy va ma’naviy omillar birligi sifatida o‘rganishda; kontent-tahlil metodi – normativ-huquqiy hujjatlar, davlat dasturlari va ilmiy adabiyotlarni tahlil qilishda; ijtimoiy-falsafiy tahlil metodi – diniy bag‘rikenglikning mohiyati va uning jamiyat taraqqiyotidagi o‘rnini aniqlashda.

Tadqiqot natijalari:

Tahlillar shuni ko‘rsatadiki, Yangi O‘zbekistonda diniy bag‘rikenglik siyosati jamiyatni demokratlashtirish, inson huquqlarini ta’minlash va fuqarolik birdamligini mustahkamlashga qaratilgan izchil islohotlar tizimi sifatida namoyon bo‘lmoqda. Mazkur siyosatning asosiy maqsadi turli din va konfessiya vakillarining qonun oldida tengligini ta’minlash, vijdon erkinligini kafolatlash hamda diniy munosabatlar sohasida sog‘lom ijtimoiy muhitni shakllantirishdan iborat. Tadqiqot natijalari ushbu yo‘nalishda amalga oshirilayotgan islohotlar jamiyat taraqqiyotining muhim omiliga aylanib borayotganligini ko‘rsatdi.

Birinchidan, vijdon erkinligini ta’minlashning huquqiy asoslari takomillashtirilmoqda. So‘nggi yillarda diniy munosabatlarni tartibga soluvchi normativ-huquqiy hujjatlar xalqaro standartlar asosida qayta ko‘rib chiqildi. Natijada fuqarolarning diniy e’tiqod erkinligini amalga oshirish imkoniyatlari kengaydi, diniy tashkilotlarning faoliyat yuritish mexanizmlari soddalashtirildi hamda davlat va din munosabatlarida ochiqlik tamoyili kuchaydi. Bu esa fuqarolarning konstitutsiyaviy huquqlarini amalda ta’minlashga xizmat qilmoqda.

Ikkinchidan, mamlakatda faoliyat yuritayotgan turli diniy konfessiyalar uchun teng huquqiy va tashkiliy sharoitlar yaratilmoqda. Tadqiqot davomida o‘rganilgan hujjatlar va statistik ma’lumotlar diniy tashkilotlarning qonuniy faoliyat olib borishi uchun zarur shart-sharoitlar bosqichma-bosqich takomillashtirilayotganini ko‘rsatdi. Bu holat jamiyatda diniy tashkilotlarga nisbatan ishonch muhitining mustahkamlanishiga ham ijobiy ta’sir ko‘rsatmoqda.

Uchinchidan, konfessiyalararo muloqot va hamkorlik mexanizmlari sezilarli darajada rivojlanmoqda. O‘tkazilayotgan xalqaro forumlar, ilmiy-amaliy konferensiyalar va madaniy-ma’rifiy tadbirlar turli diniy qarashlarga ega insonlar o‘rtasida muloqot madaniyatini shakllantirishga xizmat qilmoqda. Natijada diniy mansublikdan qat’i nazar, fuqarolar o‘rtasida o‘zaro hurmat va hamjihatlik tamoyillari mustahkamlanmoqda.

To‘rtinchidan, diniy bag‘rikenglik siyosati millatlararo totuvlikni ta’minlashning muhim omillaridan biri sifatida namoyon bo‘lmoqda. O‘zbekiston ko‘p millatli va ko‘p konfessiyali davlat sifatida turli etnik va diniy guruhlarning tinch-totuv yashashi uchun zarur sharoitlarni yaratishga alohida e’tibor qaratmoqda. Tadqiqot natijalari shuni ko‘rsatdiki, diniy bag‘rikenglik va millatlararo totuvlik bir-biri bilan uzviy bog‘liq bo‘lib, ular jamiyat barqarorligining asosiy omillaridan biri hisoblanadi.

Beshinchidan, ta’lim va ma’rifat tizimida bag‘rikenglik madaniyatini shakllantirishga qaratilgan chora-tadbirlar kengaymoqda. Oliy va o‘rta maxsus ta’lim muassasalarida dinshunoslik, ma’naviyat va fuqarolik jamiyati masalalariga oid fanlarning o‘qitilishi yoshlar ongida tolerantlik va o‘zaro hurmat tamoyillarini qaror toptirishga xizmat qilmoqda. Bu esa uzoq muddatli istiqbolda diniy ekstremizm va radikalizmning oldini olishda muhim ahamiyat kasb etadi.

Oltinchidan, diniy bag‘rikenglik siyosatining amalga oshirilishida fuqarolik jamiyati institutlarining roli ortib bormoqda. Nodavlat notijorat tashkilotlari, milliy madaniy markazlar va jamoat birlashmalari tomonidan tashkil etilayotgan turli loyihalar diniy va milliy xilma-xillikni qadrlash madaniyatini rivojlantirmoqda. Mazkur institutlarning faoliyati jamiyatda ijtimoiy birdamlik va fuqarolik mas’uliyatini kuchaytirishga xizmat qilmoqda.

Yettinchidan, qiyosiy tahlillar natijasida aniqlanishicha, O‘zbekiston modeli diniy erkinlik va ijtimoiy barqarorlik o‘rtasidagi muvozanatni saqlashga qaratilganligi bilan ayrim davlatlar tajribasidan farqlanadi. Ayrim mamlakatlarda diniy munosabatlarni tartibga solishda qat’iy sekulyar yoki aksincha diniy yondashuv ustun bo‘lsa, O‘zbekistonda ushbu sohada muvozanatli va pragmatik siyosat yuritilmoqda. Bu esa diniy erkinlikni ta’minlash bilan birga, ijtimoiy xavfsizlik va barqarorlikni ham saqlash imkonini bermoqda.

Sakkizinchidan, kontent-tahlil natijalari davlat siyosati va strategik hujjatlarda “inson qadri”, “bag‘rikenglik”, “ijtimoiy hamjihatlik”, “vijdon erkinligi” va “millatlararo totuvlik” tushunchalarining ustuvor ahamiyat kasb etayotganligini ko‘rsatdi. Mazkur tushunchalar Yangi O‘zbekiston taraqqiyotining konseptual asoslarini tashkil etib, jamiyatda inson manfaatlarini ta’minlashga qaratilgan siyosiy-huquqiy mexanizmlarning shakllanishiga xizmat qilmoqda.

To‘qqizinchidan, olib borilgan tizimli tahlillar diniy bag‘rikenglik siyosatining xalqaro maydondagi ahamiyati ham ortib borayotganligini ko‘rsatdi. O‘zbekistonning dinlararo muloqotni rivojlantirish, diniy erkinlikni ta’minlash va ma’rifiy islom tamoyillarini targ‘ib qilish borasidagi tashabbuslari xalqaro tashkilotlar va ekspertlar tomonidan ijobiy

baholanmoqda. Bu esa mamlakatning xalqaro nufuzini oshirish bilan birga, global miqyosda tinchlik va hamkorlik g‘oyalarini ilgari surishga xizmat qilmoqda.

Umuman olganda, tadqiqot natijalari Yangi O‘zbekistonda diniy bag‘rikenglik siyosati ijtimoiy barqarorlik, fuqarolik birdamligi, millatlararo totuvlik va demokratik taraqqiyotni ta’minlashning muhim omillaridan biri ekanligini ko‘rsatdi. Amalga oshirilayotgan islohotlar diniy erkinlikni ta’minlash bilan bir qatorda jamiyatda o‘zaro hurmat, hamkorlik va bag‘rikenglik madaniyatini mustahkamlashga xizmat qilmoqda. Bu esa diniy bag‘rikenglik siyosatining Yangi O‘zbekiston taraqqiyot strategiyasidagi muhim ustuvor yo‘nalishlardan biri ekanligini tasdiqlaydi.

Muhokama:

Tadqiqot natijalari Yangi O‘zbekistonda amalga oshirilayotgan diniy bag‘rikenglik siyosati zamonaviy demokratik jamiyat qurishning muhim shartlaridan biri ekanligini ko‘rsatdi. Bu holat xorijiy olim J. Lokkning diniy tolerantlik haqidagi nazariy qarashlari bilan hamohangdir. Lokk davlatning vazifasi fuqarolarning tabiiy huquqlarini himoya qilishdan iborat ekanligini, diniy e’tiqod esa shaxsning erkin tanlovi sifatida qaralishi lozimligini ta’kidlagan. Shu nuqtai nazardan qaraganda, O‘zbekistonda vijdon erkinligini ta’minlash, diniy tashkilotlar faoliyati uchun huquqiy sharoitlarni takomillashtirish va fuqarolarning diniy huquqlarini kafolatlashga qaratilgan islohotlar Lokkning tolerantlik konsepsiyasining amaliy ifodasi sifatida namoyon bo‘lmoqda [2]. Bu esa diniy bag‘rikenglikning huquqiy asoslarini mustahkamlash orqali ijtimoiy barqarorlikka erishish mumkinligini ko‘rsatadi.

Tadqiqot davomida aniqlangan yana bir muhim jihat shundan iboratki, Yangi O‘zbekistonda diniy bag‘rikenglik siyosati turli dunyoqarash va e’tiqod vakillarining tinch-totuv yashashini ta’minlashga xizmat qilmoqda. Ushbu holat J. Raulsning siyosiy liberalizm nazariyasida ilgari surilgan “oqilona plyuralizm” g‘oyasi bilan uzviy bog‘liqdir. Raulsga ko‘ra, zamonaviy jamiyatlarda turli diniy va mafkuraviy qarashlarning mavjudligi tabiiy holat bo‘lib, davlat barcha fuqarolar uchun teng imkoniyatlarni yaratishi lozim [3]. O‘zbekistonda konfessiyalararo muloqotni rivojlantirish, turli diniy guruhlar o‘rtasida o‘zaro hurmat va hamkorlik muhitini shakllantirish bo‘yicha olib borilayotgan ishlar mazkur nazariy qarashlarning amaliy tasdig‘i sifatida namoyon bo‘lmoqda. Bu esa diniy bag‘rikenglikning jamiyatda fuqarolik birdamligini mustahkamlashdagi ahamiyatini ko‘rsatadi.

M. Valzerning bag‘rikenglikka oid konsepsiyasida ko‘p madaniyatli jamiyatlarda ijtimoiy hamjihatlikni ta’minlashning asosiy omili sifatida o‘zaro hurmat va madaniy xilma-xillikni tan olish g‘oyasi ilgari suriladi [11]. Tadqiqot natijalari ham O‘zbekistonning ko‘p millatli va ko‘p konfessiyali jamiyat sifatida aynan shu tamoyillar asosida rivojlanayotganligini ko‘rsatdi. Xususan, mamlakatda turli millat va din vakillarining o‘z madaniyati, tili va diniy qadriyatlarini erkin saqlab qolish imkoniyatiga ega ekanligi ijtimoiy hamjihatlikni mustahkamlashga xizmat qilmoqda. Valzer ta’kidlaganidek, bag‘rikenglik faqat boshqacha qarashlarga chidash emas, balki ularni jamiyatning teng huquqli qismi sifatida tan olishni ham anglatadi [11]. Yangi O‘zbekistonda amalga oshirilayotgan siyosat aynan ana shu yondashuvning amaliy ko‘rinishi sifatida baholanishi mumkin.

MDH olimlari qarashlari bilan qiyosiy tahlil ham muhim ilmiy xulosalarni shakllantirish imkonini berdi. Xususan, A.V. Malashenko diniy omilning siyosiy va ijtimoiy jarayonlarga ta’sirini tahlil qilar ekan, diniy bag‘rikenglikni radikalizm va ekstremizmning oldini olishning muhim vositasi sifatida baholaydi [4]. V.A. Tishkov esa etnik va diniy xilma-xillikni jamiyat taraqqiyotining tabiiy ko‘rinishi deb hisoblab, uni samarali boshqarish ijtimoiy barqarorlikning muhim sharti ekanligini ta’kidlaydi [5]. Tadqiqot natijalari O‘zbekistonda diniy bag‘rikenglik siyosati aynan shu vazifani bajarib, turli ijtimoiy guruhlar o‘rtasidagi ishonch va hamkorlikni mustahkamlashga xizmat qilayotganligini ko‘rsatdi. Din va madaniyat o‘rtasidagi uzviy bog‘liqlik haqidagi qarashlari ham mamlakatda ma’rifiy yondashuv asosida olib borilayotgan diniy siyosatning mazmunini tushunishda muhim nazariy asos bo‘lib xizmat qiladi.

Mahalliy olimlarning ilmiy qarashlari ham tadqiqot natijalari bilan o‘zaro uyg‘unlik kasb etadi. Jumladan, X. Umarov bag‘rikenglikni xalq ma’naviyati va milliy qadriyatlarning ajralmas qismi sifatida baholaydi [12]. A. Erkayev esa demokratik jamiyat taraqqiyotida ma’naviyat va tolerantlik madaniyatining o‘rni alohida ekanligini ta’kidlaydi [7]. N. Jo‘rayevning tarixiy-falsafiy qarashlarida O‘zbekiston hududida shakllangan sivilizatsiyalar taraqqiyoti turli madaniyat va dinlarning o‘zaro ta’siri bilan bog‘liq holda tahlil qilingan [8]. Mazkur yondashuvlar tadqiqot natijalarida aniqlangan diniy bag‘rikenglikning millatlararo totuvlik va fuqarolik birdamligini mustahkamlashdagi ahamiyatini nazariy jihatdan asoslash imkonini beradi. Shuningdek, R. Murtazayeva va A. Saidovning millatlararo munosabatlar hamda inson huquqlari sohasidagi tadqiqotlari Yangi O‘zbekistonda amalga oshirilayotgan bag‘rikenglik siyosatining huquqiy va ijtimoiy asoslarini tushuntirishda muhim metodologik ahamiyatga ega [9, 10].

Umuman olganda, tadqiqot natijalari va mavjud ilmiy qarashlarning qiyosiy tahlili shuni ko‘rsatadiki, Yangi O‘zbekistonda diniy bag‘rikenglik siyosati nafaqat huquqiy yoki siyosiy hodisa, balki chuqur ijtimoiy-falsafiy mazmunga ega bo‘lgan murakkab ijtimoiy institut hisoblanadi. U inson huquqlari, ijtimoiy adolat, fuqarolik birdamligi, millatlararo totuvlik va ma’naviy taraqqiyot kabi qadriyatlarni o‘zida mujassamlashtiradi. Shu bois diniy bag‘rikenglik siyosatini rivojlantirish jamiyatning barqaror taraqqiyoti, demokratik islohotlarning izchil davom etishi va Yangi O‘zbekistonning strategik maqsadlariga erishishning muhim omillaridan biri sifatida baholanishi mumkin.

Ijtimoiy-falsafiy nuqtai nazardan diniy bag‘rikenglik jamiyatning ma’naviy yetuklik darajasini ifodalovchi mezonlardan biridir. Bag‘rikenglik nafaqat turli diniy qarashlarning birgalikda mavjud bo‘lishini, balki o‘zaro hurmat va hamkorlik tamoyillarini ham anglatadi.

Xulosalar:

Tadqiqot natijalari shuni ko‘rsatdiki, Yangi O‘zbekistonda amalga oshirilayotgan diniy bag‘rikenglik siyosati jamiyat taraqqiyotining muhim ijtimoiy-falsafiy omillaridan biri sifatida namoyon bo‘lmoqda. Mazkur siyosat fuqarolarning vijdon erkinligini ta’minlash, turli diniy konfessiyalar vakillari o‘rtasida o‘zaro hurmat va hamjihatlik muhitini shakllantirish, shuningdek, millatlararo totuvlik va ijtimoiy barqarorlikni mustahkamlashga xizmat qilmoqda. Tadqiqot davomida aniqlanganidek, diniy bag‘rikenglikning amaliyotga izchil tatbiq etilishi jamiyatda demokratik qadriyatlarning qaror topishi, inson huquqlarining ishonchli himoya qilinishi hamda fuqarolik birdamligining kuchayishida muhim ahamiyat kasb etadi.

Muammoning o‘rganilganlik darajasini tahlil qilish natijasida diniy bag‘rikenglik masalasi xorijiy, MDH va mahalliy olimlar tomonidan turli nazariy-metodologik yondashuvlar asosida tadqiq etilgani aniqlandi. Xususan, J. Lokk, J. Rauls va M. Valzer kabi xorijiy olimlar tolerantlikning falsafiy va siyosiy-huquqiy asoslarini ishlab chiqqan bo‘lsalar, A.V. Malashenko, V.A. Tishkov va L.N. Mitroxin kabi MDH olimlari diniy xilma-xillikning ijtimoiy integratsiya va barqarorlikka ta’sirini o‘rganganlar. Mahalliy olimlar tomonidan esa diniy bag‘rikenglikning ma’naviy, huquqiy va ijtimoiy jihatlari tadqiq etilgan. Biroq tahlillar Yangi O‘zbekiston sharoitida kechayotgan transformatsion jarayonlar, diniy bag‘rikenglik siyosatining zamonaviy ijtimoiy-falsafiy mazmuni va uning fuqarolik jamiyati rivojiga ta’siri masalalari hali ham chuqur ilmiy tadqiqotlarni talab etishini ko‘rsatdi.

Tadqiqot jarayonida qo‘llangan tarixiylik, qiyosiy tahlil, tizimli yondashuv va kontent-tahlil metodlari mavzuning nazariy va amaliy jihatlarini kompleks ravishda o‘rganish imkonini berdi. Tarixiylik metodi diniy bag‘rikenglik siyosatining shakllanish va rivojlanish bosqichlarini aniqlashga xizmat qilgan bo‘lsa, qiyosiy tahlil O‘zbekiston tajribasini boshqa davlatlar amaliyoti bilan solishtirish imkonini yaratdi. Tizimli yondashuv diniy bag‘rikenglikni huquqiy, siyosiy, ma’naviy va ijtimoiy omillarning o‘zaro bog‘liq tizimi sifatida tahlil qilishga yordam berdi. Kontent-tahlil esa normativ-huquqiy hujjatlar, strategik dasturlar va ilmiy manbalarda bag‘rikenglik g‘oyalarining aks etish darajasini aniqlash imkonini berdi.

Tadqiqot natijalari diniy bag‘rikenglik siyosatining Yangi O‘zbekiston taraqqiyot strategiyasidagi ustuvor yo‘nalishlardan biri ekanligini tasdiqladi. Diniy erkinlikni ta’minlash, konfessiyalararo muloqotni rivojlantirish va bag‘rikenglik madaniyatini mustahkamlash bo‘yicha amalga oshirilayotgan islohotlar mamlakatning ijtimoiy-siyosiy barqarorligini ta’minlashga, yoshlarni yot g‘oyalar ta’siridan himoya qilishga hamda jamiyatda fuqarolik mas’uliyatini kuchaytirishga xizmat qilmoqda. Shu bilan birga, diniy bag‘rikenglik siyosati xalqaro maydonda O‘zbekistonning nufuzini oshirish, mamlakatning tinchlikparvar va ochiq davlat sifatidagi ijobiy imijini mustahkamlashda ham muhim omil bo‘lib xizmat qilmoqda.

Umuman olganda, diniy bag‘rikenglik Yangi O‘zbekiston taraqqiyotining muhim ma’naviy va ijtimoiy-falsafiy poydevorlaridan biri hisoblanadi. Uning izchil rivojlantirilishi fuqarolik jamiyatini mustahkamlash, inson huquqlarini ta’minlash, millatlararo va konfessiyalararo totuvlikni saqlash hamda demokratik islohotlarning samaradorligini oshirishga xizmat qiladi. Kelgusida diniy bag‘rikenglik siyosatining ijtimoiy ong, yoshlar tarbiyasi, fuqarolik identifikatsiyasi va globallashuv sharoitidagi transformatsion jarayonlarga ta’sirini chuqurroq o‘rganish ushbu yo‘nalishdagi ilmiy izlanishlarning istiqbolli vazifalaridan biri bo‘lib qoladi.

GENDER TENGLIGI TUSHUNCHASINING ONTOLOGIK ILDIZLARI: SHARQ VA G‘ARB FALSAFIY AN’ANALARI

G‘aniyeva Malikaxon Sodiqjonovna
Farg‘ona davlat universiteti tadqiqotchisi
falsafa fanlari bo‘yicha falsafa doktori (PhD)
e-mail: malika.ganiev85_fsu@mail.ru

Annotatsiya. *Maqolada gender tengligi tushunchasining ontologik ildizlari Sharq va G‘arb falsafiy an’analari kontekstida ijtimoiy-falsafiy jihatdan tahlil qilinadi. Tadqiqotda inson tabiatining mohiyati, erkak va ayolning ontologik maqomi hamda gender munosabatlarining tarixiy-falsafiy asoslari o‘rganilgan. Sharq mutafakkirlari va G‘arb falsafasi namoyandalarining qarashlari qiyosiy tahlil qilinib, gender tengligi g‘oyasining evolyutsiyasi ochib berilgan. Shuningdek, zamonaviy gender tengligi konsepsiyasining aksiologik va ontologik asoslari ham yoritilgan.*

Kalit so‘zlar: *gender tengligi, ontologiya, Sharq falsafasi, G‘arb falsafasi, inson mohiyati, gender munosabatlari, aksiologiya, ijtimoiy falsafa, adolat, tenglik.*

ОНТОЛОГИЧЕСКИЕ КОРНИ ПОНЯТИЯ ГЕНДЕРНОГО РАВЕНСТВА: ВОСТОЧНЫЕ И ЗАПАДНЫЕ ФИЛОСОФСКИЕ ТРАДИЦИИ

Аннотация. *В статье рассматриваются онтологические основания понятия гендерного равенства в контексте восточных и западных философских традиций. Анализируются философские представления о природе человека, онтологическом статусе мужчины и женщины, а также историко-философские основы гендерных отношений. Особое внимание уделяется сравнительному анализу взглядов восточных мыслителей и западных философов на проблему равенства полов.*

Ключевые слова: *гендерное равенство, онтология, восточная философия, западная философия, природа человека, гендерные отношения, социальная философия.*

ONTOLOGICAL ROOTS OF THE CONCEPT OF GENDER EQUALITY: EASTERN AND WESTERN PHILOSOPHICAL TRADITIONS

Abstract. *This article explores the ontological roots of the concept of gender equality within Eastern and Western philosophical traditions. The study examines philosophical views on human nature, the ontological status of men and women, and the historical-philosophical foundations of gender relations. A comparative analysis of Eastern and Western philosophical perspectives reveals the evolution of gender equality as a socio-philosophical concept.*

Keywords: *gender equality, ontology, Eastern philosophy, Western philosophy, human nature, gender relations, social philosophy, equality.*

Kirish. Gender tengligi zamonaviy ijtimoiy-falsafiy tafakkurning muhim kategoriyalaridan biri hisoblanadi. Globallashuv davrida bu atama inson huquqlari, ijtimoiy adolat va demokratik taraqqiyot masalalari bilan chambarchas bog‘liq holda talqin qilinmoqda. Biroq gender tengligi g‘oyasi faqat zamonaviy davr mahsuli bo‘lib qolmasdan, uning ildizlari inson mohiyati, jamiyat va adolat haqidagi qadimgi falsafiy qarashlarga borib taqaladi [1].

Ontologiya falsafaning borliq va mavjudlik mohiyatini o‘rganuvchi sohasi sifatida insonning ontologik maqomi masalasini ham qamrab oladi. Gender tengligi muammosini ontologik nuqtai nazardan o‘rganish erkak va ayolning mavjudlikdagi o‘rni, insoniy qadr-qimmati hamda jamiyatdagi mavqeining falsafiy asoslarini ochib berishga imkon yaratadi [2]. Sharq falsafiy an’analarida insonning komilligi, ma’naviy yetukligi va axloqiy mas’uliyati jinsiy tafovutlardan ustun qo‘yilgan. Abu Nasr Forobiy “Fozil odamlar shahri” asarida jamiyat taraqqiyotida insonning fazilatlari va ilm-ma’rifatga intilishi asosiy mezon ekanligini ta’kidlaydi [3]. Abu Ali ibn Sino ham insonning aqliy va ma’naviy salohiyatini uning ijtimoiy mavqeini belgilovchi asosiy omil sifatida baholaydi [4].

G‘arb falsafasida esa gender masalasi turli davrlarda turlicha talqin qilingan. Aflotun ideal davlat haqidagi qarashlarida ayollarning ta’lim va boshqaruvdagi ishtirokini qo‘llab-quvvatlagan bo‘lsa [5], Aristotel erkak va ayolning jamiyatdagi vazifalarini biologik xususiyatlar bilan bog‘lashga harakat qilgan [6]. Keyinchalik J.Lokk, J.J.Russo, J.S.Mill kabi mutafakkirlar inson huquqlari va erkinliklari nuqtai nazaridan gender tengligi masalasiga murojaat qilganlar [7]. Ilmiy izlanishimizning maqsadi gender tengligi tushunchasining ontologik ildizlarini Sharq va G‘arb falsafiy an’analari misolida tahlil qilish hamda uning zamonaviy ijtimoiy-falsafiy mazmunini ochib berishdan iborat.

Tadqiqot metodologiyasi. Tadqiqotda tarixiy-falsafiy tahlil, qiyosiy metod, germenevtik yondashuv, ontologik va aksiologik tahlil metodlaridan foydalanildi. Nazariy-metodologik asos sifatida Aflotun, Aristotel, Forobiy, Ibn Sino, J.Lokk, J.S.Mill, S.de Bovuar va zamonaviy gender nazariyasi vakillarining ilmiy qarashlari tanlandi [8]. Tadqiqotning empirik bazasini gender tengligi masalasiga oid ilmiy adabiyotlar, xalqaro hujjatlar va O‘zbekiston Respublikasining gender siyosatiga oid normativ-huquqiy hujjatlari tashkil etdi.

Natijalar. Tadqiqot davomida gender tengligi tushunchasining ontologik rivojlanishi uch asosiy bosqichda kechganligi aniqlandi:

Birinchi bosqich – Antik va qadimgi Sharq davri. Bu davrda gender munosabatlari ko‘proq kosmologik va tabiiy tartibning tarkibiy qismi sifatida talqin qilingan. Sharq mutafakkirlari insonning ma’naviy kamolotini jinsiy farqlardan ustun qo‘yganlar [3].

Ikkinchi bosqich – O‘rta asrlar va Uyg‘onish davri. Mazkur davrda insonning individual qadr-qimmati va erkinligi haqidagi qarashlar rivojlanib, gender munosabatlari ham yangi mazmun kasb eta boshladi. Ayniqsa, Uyg‘onish davri falsafasida inson markaziy qadriyat sifatida e’tirof etildi [9].

Uchinchi bosqich – Zamonaviy davr. XX–XXI asrlarda gender tengligi inson huquqlari va demokratik qadriyatlarning muhim tarkibiy qismiga aylandi. Tadqiqot natijalari ko‘rsatadiki, zamonaviy gender tengligi konsepsiyasi ontologik jihatdan erkak va ayolning teng insoniy qadr-qimmatga egaligi tamoyiliga asoslanadi [10].

Shuningdek, tahlillar natijasida Sharq va G‘arb falsafiy an’analarining gender tengligi masalasida bir qator umumiy jihatlarga ega ekanligi aniqlandi. Har ikki an’ana insonning ma’naviy kamoloti va axloqiy yetukligini uning jinsiy mansubligidan ustun qo‘yadi.

Muhokama. Izlanishlar natijalari gender tengligi tushunchasining ontologik asoslari Sharq va G‘arb falsafiy tafakkurida turli shakllarda namoyon bo‘lgan bo‘lsa-da, ularning umumiy mohiyati inson qadr-qimmati, adolat va ijtimoiy hamkorlik g‘oyalari bilan bog‘liqligini ko‘rsatdi. Gender tengligi masalasini ontologik jihatdan tahlil qilish erkak va ayolning biologik farqlaridan tashqari ularning inson sifatidagi mavjudlik maqomi, ma’naviy salohiyati va jamiyat taraqqiyotidagi o‘rni haqidagi qarashlarni chuqurroq anglash imkonini beradi.

Sharq falsafiy an’analarida insonning mohiyati uning jinsiy mansubligi bilan emas, balki axloqiy va ma’naviy kamoloti bilan belgilanadi. Abu Nasr Forobiy fozil jamiyat konsepsiyasida insonning fazilatlari va ilmiy salohiyatini jamiyat taraqqiyotining asosiy mezoni sifatida ko‘rsatadi [3]. Uning fikricha, jamiyat taraqqiyoti uchun har bir shaxsning imkoniyatlaridan oqilona foydalanish zarur. Bu yondashuv gender tengligi g‘oyasining dastlabki ontologik asoslaridan biri sifatida baholanishi mumkin. Abu Ali ibn Sino asarlarida ham insonning aqliy va ma’naviy imkoniyatlari biologik tafovutlardan ustun qo‘yiladi. Olim inson tabiatini yagona mohiyat sifatida talqin qilib, uning kamoloti ilm, tarbiya va axloqiy tarbiya bilan bog‘liq ekanligini ta’kidlaydi [4]. Tadqiqot natijalari ko‘rsatadiki, Sharq mutafakkirlarining mazkur qarashlari zamonaviy gender tengligi konsepsiyasining aksiologik asoslari bilan uyg‘unlashadi.

G‘arb falsafasida gender munosabatlari masalasi yanada murakkab evolyutsiyani boshdan kechirgan. Aflotun “Davlat” asarida ayollarning ta’lim va davlat boshqaruvidagi ishtirokini qo‘llab-quvvatlab, ularning qobiliyatlari erkaklarnikidan tubdan farq qilmasligini ta’kidlaydi [5]. Bu qarash antik davr uchun ilg‘or yondashuv hisoblanadi. Aristotel esa erkak va ayolning jamiyatdagi vazifalarini tabiiy-biologik farqlar bilan bog‘laydi [6]. Shu sababli uning qarashlarida gender tengligidan ko‘ra ijtimoiy funksiyalar differensiasiyasi ustunlik qiladi. Tadqiqot natijalari shuni ko‘rsatadiki, Aristotelning mazkur yondashuvi keyingi asrlarda gender munosabatlarining konservativ talqinlariga ma’lum darajada ta’sir ko‘rsatgan.

Yangi davr falsafasida inson huquqlari va erkinliklari haqidagi g‘oyalarning rivojlanishi gender tengligi konsepsiyasining shakllanishiga kuchli turtki berdi. J.Lokk insonlarning tabiiy huquqlari tengligini asoslar ekan, har bir insonning erkinlik va mulk huquqiga egaligini ta’kidlaydi [7]. Mazkur tamoyillar keyinchalik gender tengligi nazariyalarining shakllanishida muhim metodologik asos bo‘lib xizmat qildi. J.S.Mill “Ayollarning bo‘ysundirilishi” asarida ayollar va erkaklar o‘rtasidagi huquqiy tengsizlikni tanqid qilib, jamiyat taraqqiyoti uchun ayollarning ijtimoiy faolligini kengaytirish zarurligini asoslab beradi [11]. Millning fikricha, jamiyatning intellektual va iqtisodiy rivojlanishi ayollarning imkoniyatlarini cheklash orqali emas, balki ularni to‘liq ro‘yobga chiqarish orqali ta’minlanadi.

XX asr falsafasida gender tengligi masalasi yangi ontologik va ekzistensial mazmun kasb etdi. Simone de Bovuar “Ikkinchi jins” asarida ayolning jamiyatdagi mavqeini biologik omillar bilan emas, balki ijtimoiy konstruksiyalar bilan

bog‘laydi [12]. Uning mashhur “Ayol bo‘lib tug‘ilmaydi, ayolga aylanadi” degan g‘oyasi genderning ijtimoiy shakllanishini tushuntirishda muhim nazariy asos bo‘lib xizmat qiladi.

Izlanishlar natijasida Sharq va G‘arb falsafiy an’analarining gender tengligi masalasidagi umumiy va farqli jihatlari aniqlashtirildi.

Sharq va G‘arb falsafiy an’analarining umumiy jihatlari

- inson qadr-qimmatining ustuvorligi;
- axloqiy kamolotning muhimligi;
- adolat tamoyiliga asoslanish;
- jamiyat taraqqiyotida ayollarning ahamiyatini e’tirof etish;
- ma’naviy va ijtimoiy hamkorlik g‘oyalarining mavjudligi.

Sharq va G‘arb falsafiy an’analarining farqli jihatlari

- Sharq falsafasi ko‘proq ma’naviy va axloqiy yondashuvga tayanadi;
- G‘arb falsafasi huquqiy va siyosiy tenglik masalalariga ko‘proq e’tibor qaratadi;
- Sharqda gender munosabatlari ko‘pincha ijtimoiy uyg‘unlik nuqtai nazaridan talqin qilinadi;
- G‘arbda esa individual erkinlik va huquqlar ustuvor ahamiyat kasb etadi.

Izlanishlar tahlili shuni ko’rsatadiki, zamonaviy O‘zbekiston sharoitida gender tengligini rivojlantirishda Sharq va G‘arb falsafiy merosining konstruktiv jihatlaridan foydalanish maqsadga muvofiqdir. Bir tomondan, milliy qadriyatlar va oilaviy an’analarni saqlash zarur bo‘lsa, ikkinchi tomondan, ayollarning ta’lim, mehnat va boshqaruvdagi imkoniyatlarini kengaytirish demokratik taraqqiyotning muhim sharti hisoblanadi.

Xulosa. Tadqiqot natijalari asosida quyidagi xulosalarga kelindi:

1.Gender tengligi tushunchasining ontologik ildizlari qadimgi Sharq va G‘arb falsafiy tafakkuriga borib taqaladi.

2.Sharq mutafakkirlari insonning ma’naviy va axloqiy kamolotini gender farqlaridan ustun qo‘yganlar.

3.G‘arb falsafasida gender tengligi g‘oyasi inson huquqlari va erkinliklari konsepsiyasi bilan uzviy bog‘liq holda rivojlangan.

4.Zamonaviy gender tengligi konsepsiyasi erkak va ayolning teng insoniy qadr-qimmatga egaligi tamoyiliga asoslanadi.

5.Sharq va G‘arb falsafiy an’analarining ilg‘or jihatlari gender tengligini ta’minlashning nazariy-metodologik asoslarini boyitadi.

6.O‘zbekiston sharoitida gender tengligini rivojlantirish milliy qadriyatlar va zamonaviy demokratik tamoyillarning uyg‘unligi asosida amalga oshirilishi maqsadga muvofiqdir.

Xulosa qilib aytganda, gender tengligi insoniyat tafakkurining uzoq tarixiy taraqqiyoti davomida shakllangan murakkab ijtimoiy-falsafiy hodisa bo‘lib, uning ontologik mohiyati insonning teng qadr-qimmatga egaligi va jamiyat taraqqiyotida teng imkoniyatlarga ega bo‘lishi g‘oyasida namoyon bo‘ladi.

YANGI O‘ZBEKISTONNI BARQAROR RIVOJLANTIRISHDA EKOLOGIK MADANIYAT VA BIOETIKA MUAMMOLARI

Turayev Muzaffar Turobjon o‘g‘li
Namangan davlat universiteti
Ijtimoiy fanlar kafedrasi o‘qituvchisi
https://orcid.org/ 0009-0001-4728-0017

Annotatsiya: *Ushbu maqolada global ekologik inqiroz sharoitida texnogen sivilizatsiyaning tabiatga salbiy ta’siri, yashil iqtisodiyotga o‘tishning sotsial-falsafiy jihatlari hamda Yangi O‘zbekistonning barqaror rivojlanishida ekologik madaniyat, bioetika va ekolingvistikaning yetakchi o‘rni tahlil qilinadi. Unda jamiyat va tabiat munosabatlarining yangi paradigmasi, ekologik tarbiya falsafasi hamda ekologik barqaror ekotizim yaratishning konseptual-falsafiy asoslari akademik manbalar kesimida muhokama qilinadi. Eng muhimi, maqolada Markaziy Osiyodagi suv inqirozini hal qilish uchun ekolingvistika va xalqaro suvni tejash tajribasi mavzularini o‘rta ta’lim maktablari o‘quv dasturiga joriy etishning amaliy yondashuvi taklif etiladi.*

Kalit so‘zlar: *Global ekologik inqiroz; Antropotsentrizm; Texnogen sivilizatsiya; Barqaror rivojlanish; Noosfera; Koevolyutsiya; Iqlim o‘zgarishi; Bioxilma-xillikning yo‘qolishi; Suv tanqisligi; Transchegaraviy daryolar; Tyanshan muzliklari; Pomir muzliklari; Sug‘orish samaradorligi pastligi; Yashil iqtisodiyot; Aylanma iqtisodiyot; Suv etikasi; Ekologik madaniyat; Bioetika; Ekolingvistika; Ekologik ta’lim.*

PROBLEMS OF ECOLOGICAL CULTURE AND BIOETHICS IN THE SUSTAINABLE DEVELOPMENT OF NEW UZBEKISTAN

Annotation: *This article analyzes the negative impact of technogenic civilization on nature in the context of the global ecological crisis, the socio-philosophical aspects of transitioning to a green economy, and the leading role of ecological culture, bioethics, and ecolinguistics in the sustainable development of New Uzbekistan. It discusses the new paradigm of society–nature relations, the philosophy of ecological education, and the conceptual-philosophical foundations for creating an ecologically stable ecosystem through the lens of academic sources. Most importantly, the article proposes a practical approach to introducing ecolinguistics and international water-saving practices into secondary school curricula as a solution to the water crisis in Central Asia.*

Keywords: *Global ecological crisis; Anthropocentrism; Technogenic civilization; Sustainable development; Noosphere; Coevolution; Climate change; Biodiversity loss; Water scarcity; Transboundary rivers; Tien Shan glaciers; Pamir glaciers; Irrigation inefficiency; Green economy; Circular economy; Water ethics; Ecological culture; Bioethics; Ecolinguistics; Environmental education.*

Kirish: Jamiyat va tabiat munosabatlarining yangi paradigmasi

Insoniyat o‘z taraqqiyotining hal qiluvchi pallasida turgan bugungi kunda, insonni tabiatning hukmdori va zabt etuvchisi sifatida tasavvur qiluvchi eski antropotsentrik model o‘z kuchini butunlay yo‘qotdi. Texnogen sivilizatsiya hayratlanarli darajada tez sur’atlar bilan olg‘a bormoqda va bu global ekologik inqirozni keltirib chiqarmoqda. Ushbu inqiroz iqlim o‘zgarishi, bioxilma-xillikning yo‘qolishi va suv resurslarining o‘ta cheklanganligi sababli O‘zbekistonda bugun juda keskin tus olgan.

Yangi O‘zbekiston doirasida jamiyat va tabiat o‘rtasidagi munosabatlarning yangi paradiqmasiga o‘tish bugungi kunning tarixiy zaruriyatdir. Bu paradigma biotsentrizm va koevolyutsiyaga — tabiiy dunyo va jamiyatning uyg‘un, parallel rivojlanishiga asoslanadi. V.I. Vernadskiy o‘zining “Noosfera” ta’limotida ta’kidlaganidek, insoniyat o‘z ongi va harakati bilan tabiat biosferasini buzmasdan, balki uni oqilona boshqaruvchi “ong sferasi”ga (noosferaga) aylanishi, ya’ni tabiat ritmi bilan parallel ravishda evolyutsiya qilishi (koevolyutsiya) shart[2]. Tabiatga endi shunchaki xomashyo ombori sifatida emas, balki insoniyat hayotining asosi va oliy qadriyat deb qaralishi lozim.

[2] Vernadsky, V. I. (1945). The Biosphere and the Noosphere. American Scientist, 33(1), 1-12.

Texnogen sivilizatsiya har doim tizimli iqtisodiyotga (“ol — ishlab chiqar — iste’mol qil — tashlab yubor”) tayanadi. D. Meadows[3] va uning hammualliflari o‘zlarining fundamental “O‘sishning chekkalari” (The Limits to Growth) asarida ogohlantirganidek, chekli ekotizim va resurslar sharoitida bunday cheksiz tizimli iste’mol modelini davom ettirish sivilizatsiyani muqarrar halokatga yetaklaydi. Ushbu model Markaziy Osiyodagi suv resurslarini bugungi kunda eng so‘nggi chidamlilik nuqtasiga qadar qiyin ahvolga solib qo‘ydi.

Transchegaraviy daryolar O‘zbekiston uchun muhim suv manbai bo‘lib, mamlakat suv resurslarining 80% dan ortig‘ini tashkil qiladi. Biroq, so‘nggi yillarda iqlim o‘zgarishlari sababli Tyanshan va Pomir tog‘laridagi muzliklarning erishi, shuningdek, yuqori oqim mintaqalarida suv infratuzilmasining rivojlanishi tufayli mamlakatga oqib kelayotgan suv hajmi kamayib bormoqda. Keyingi yillarda O‘zbekistonning suv resurslari hajmi sezilarli darajada kamayib, qariyb 64 milliard kub metrdan 51–53 milliard kub metrgacha tushib qoldi va bu mamlakatni yiliga bir necha milliard kub metrlik tarkibiy suv tanqisligidan aziyat chekishiga olib kelmoqda. Bundan tashqari, ushbu resurslarning 90% dan ortig‘i qishloq xo‘jaligida, odatda, samarasiz bo‘lgan egatlab sug‘orish tizimida ishlatilmoqda[4].

Shu sababli, yashil iqtisodiyotga o‘tish shunchaki siyosiy tanlov emas, balki chuqur sotsial-falsafiy transformatsiyadir, buning uchun esa bizga quyidagilar kerak bo’ladi:

1. Iste’molchilik madaniyatini qayta ko‘rib chiqish: Texnogen jamiyatning cheksiz resurs iste’moliga bo‘lgan mukkasidan ketishidan oqilona, ekologik jihatdan chegaralangan foydalanishga o‘tish.
2. Aylanma (tsirkulyar) iqtisodiyot falsafasi: An’anaviy qishloq xo‘jaligidan tomchilatib sug‘orishni keng joriy etishga, suvni aqlli hisoblagichlashga hamda kollektor-drenaj suvlarini qayta ishlashga o‘tish.
3. Suv qadriyatini qayta shakllantirish: Suv falsafiy jihatdan arzon va cheksiz tovar emas, balki axloqiy munosabatni talab qiladigan, muqaddas hayot manbai sifatida qayta talqin qilinishi shart[5].

Ekologik madaniyatni shakllantirishda yangi va muhim yo‘nalish bu ekolingvistika — til va ekologiya o‘rtasidagi o‘zaro ta’sirni o‘rganadigan fandir. Mashhur tilshunos M.A.K. Halliday ta’kidlaganidek, til shunchaki voqelikni tasvirlamaydi; u bizning atrof-muhitni qanday idrok etishimiz va unga qanday munosabatda bo‘lishimizni faol ravishda belgilaydi va shakllantiradi[6]. Til millatlarning dunyo qarashini shakillantirishda eng muhim vosita hisoblanadi va aynan muloqot orqali biz insonlarni tabiatga nisbatan e’tiborliroq bo’lishlariga ta’sir o’tkaza olamiz. Va eng muhimi maktab darsliklari va ijtimoiy tarmoqlarda tabiatga nisbatan do’stona linguistikani shakillantira olsak, yosh avloq ongida tabiatga bo’lganmehr o’z o’zidan shakillanib boradi.

Italiyada Lingvistika va ekologiya integratsiyasi orqali o‘quvchilarga **“**til ekologiyasi**”** tushunchasi o‘rgatilgan. Natijada, o‘quvchilar ekologik diskurslarni tahlil qilishni o‘rganib, tilning jamiyat va tabiatga ta’sirini anglashgan.

Watkins va Mortimore[7] ta’kidlaganidek, ta’lim jarayonida o‘quvchilar bilim olish, eslab qolish, amaliyotga tatbiq etish, ma’no yaratish va shaxsiy o‘zgarishlarga erishadi. Shunday qilib, ekolingvistika ta’lim jarayonida qo‘llanilganda, til o‘rganish bilan birga ekologik ongni ham shakllantirish imkonini beradi.

Arran Stibbe o‘zining “Ecolinguistics: Language, Ecology and the Stories We Live By” fundamental darsligida insoniyatning ekologik xulq-atvori uning nutqidagi hikoya va metaforalarga bog‘liq ekanligini isbotlaydi[8]. O‘zbekistondagi suv inqirozini hal qilish ijtimoiy nutqda ekolingvistik inqilobni talab qiladi:

1. Zararli metaforalarni parchalash: O‘n yillar davomida sanoat diskursida “tabiatni bo‘ysundirish” yoki “suvni jilovlash” kabi tajovuzkor metaforalardan foydalanildi[9]. Ekolingvistika ularni “daryo ritmi bilan birga uyg‘un yashash” kabi sheriklik tiliga almashtirishni maqsad qiladi.
2. Mahalliy lingvistik etikaning qayta tiklanishi: O‘zbek tili chuqur ildiz otgan ekologik hikmatlarga boy. Sharq falsafasi va o‘zbek etnolingvistikasida uchraydigan “Suvga tupurma” yoki “Uvol bo‘ladi” kabi iboralar tarixda atrof-muhit tanazzuliga qarshi madaniy-axloqiy “cheklash” vazifasini bajargan lingvistik vositalardir. Abu Rayhon Beruniy va Ibn Sino kabi mutafakkirlar ham tabiat unsurlarini, xususan suvni asrashni insonning ma’naviy yetukligi mezoni deb bilishgan. Ushbu tushunchalarni zamonaviy ommaviy axborot vositalari va ta’limga qayta kiritish tilni atrof-muhitni asrashning faol mexanizmiga va amaliy vositasiga aylantiradi.

Aholiga tabiat bilan to‘g‘ri munosabatda bo‘lishni samarali o‘rgatish uchun O‘zbekiston boshqa davlatlarning muvaffaqiyatli modellarini o‘z ta’lim tizimiga moslashtirishi mumkin:

Isroil: “Suvga nisbatan aqlli” madaniy matritsa

Doimiy geografik suv tanqisligiga duch kelgan Isroil bir necha o‘n yillik ta’lim kampaniyalari orqali jamoatchilik ongini butunlay o‘zgartirdi.

Strategiya: T.Tal tadqiqotlarida ko‘rsatilganidek, bog‘chadan boshlab fuqarolarga Suv Savodxonligi (Water Literacy) o‘rgatiladi. Bolalar qayta ishlangan oqova suvlar va chuchuklashtirilgan dengiz suviga qimmatli texno-biologik yutuq sifatida qarashni o‘rganadilar.

Saboq: OAV kampaniyalari hech qachon fuqarolarni ayblamaydi; aksincha, ular har bir tomchini tejash bilan bog‘liq umummilliy g‘ururni shakllantiradi va suvni tejashni fuqarolik burchiga aylantiradi[10].

Yaponiya: “Mottainai” Falsafasi va Tabiatga Yo‘naltirilgan O‘quv Dasturi

Yaponiyaning ta’lim falsafasi atrof-muhitga bo‘lgan hurmatni kundalik maktab rituallariga singdiradi.[11]

Strategiya: Mottainai (isrofga nisbatan ichki afsuslanish hissi) tushunchasi maktablarda asosiy axloqiy qadriyat sifatida o‘rgatiladi. Yaponiya Ta’lim Vazirligi qo‘llanmalariga ko‘ra, maktablar amaliy ta’limga urg‘u beradi, unda o‘quvchilar maktab bog‘larini faol parvarish qiladilar va mahalliy daryolarni tozalaydilar.

Saboq**:** Ekologik ta’lim faqat nazariy bo‘lib qolsa, samarasiz bo‘ladi; u jismoniy, kundalik hayot tarziga aylanishi kerak.

Germaniya: “Umweltbildung” (Ekologik Savodxonlik)

Germaniya institutlashtirilgan Umweltbildung orqali butun jamiyat paradigmasini o‘zgartirdi[12].

Strategiya: Fuqarolarga Ekologik iz tushunchasi tizimli ravishda o‘rgatiladi. OAV, huquqiy tuzilmalar va jamoat guruhlari individual harakatlar global ekotizimlarga qanday ta’sir qilishini tushuntirish uchun yagona, shaffof tildan foydalanadilar.

Bioetika, ekologik ta’lim va jamoaviy mas’uliyat

Barqaror rivojlanishga faqatgina muhandislik yoki jarimalar orqali erishib bo‘lmaydi. Inqirozning ildizi inson ongidadir. Barcha tirik tizimlar bilan munosabatlarimizni tartibga soluvchi axloqiy asos — bioetika milliy siyosatimizga va ta’lim tizimimizga yo‘l ko‘rsatishi kerak.

Yangi O‘zbekiston uchun konseptual asos O‘zbekiston Respublikasining strategik maqsadlariga, xususan, “Raqamli O‘zbekiston — 2030” (PF-6079)[13] va “Yashil Makon” umum milliy loyihasining falsafiy asoslariga tayanadi:

1.“Yashil Makon” loyihasi Falsafiy Akt Sifatida: Ushbu loyiha shunchaki ma’muriy topshiriqdan shahar va qishloq ekotizimlarini tiklashning chuqur axloqiy va bioetik ritualiga aylanishi kerak.

2.Suv Etikasi Ta’limi: Suvning fizikasi, geografiyasi va etikasini o‘rgatadigan maxsus maktab o‘quv dasturlarini ishlab chiqish. Odamlar qanday qilib samarali sug‘orishni, nima uchun tomchilatib sug‘orish axloqiy burch ekanligini va maishiy suv isrofini qanday kamaytirishni o‘rganishlari shart.

Ijtimoiy falsafa va kundalik amaliyot o‘rtasidagi tafovutni bartaraf etish uchun ushbu tushunchalar o‘rta maktab o‘quv dasturiga (ayniqsa, tahliliy fikrlash va til odatlari mustahkamlanadigan 8-sinf o‘quvchilari uchun) tizimli ravishda integratsiya qilinishi kerak[14].

Quyidagi jadvalda ekolingvistika[15] va xalqaro suvni tejash strategiyalarini (Tal, 2002; MEXT) o‘quv dasturlariga singdirishning amaliy asosi ko‘rsatilgan:

Fan nomi	Ta’limiy Mavzu / Metod	Strategik Maqsad va Xalqaro Model
Ona tili va adabiyot	Ekologik iboralarni dekonstruktsiya qilish (tahlil qilish) O‘quvchilar o‘zbek xalqining an’anaviy ekologik maqollarini (*“Suvli yer – ko‘rkam yer”*, *“Suvga tupurma”*) tahlil qiladilar va ularni zamonaviy tijoriy shiorlar bilan	Ekolingvistik strategiya: Biotsentrik til tafakkurini shakllantiradi. So‘z boyligi resurslarni boshqarish odatlariga qanday ta’sir qilishini o‘rgatadi.

	solishtiradilar. Ular suv isrofiga nisbatan “Uvol” so‘zining axloqiy yuklamasi haqida insholar yozadilar.	
Ingliz tili (EFL)	Raqamli hikoyachilik (Digital Storytelling): Global suv inqirozi Isroilning “Suv savodxonligi” va Yaponiyaning Mottainai falsafasini keys-stadi sifatida qo‘llagan holda, o‘quvchilar ingliz tilida suvni tejashning innovatsion odatlari haqida qisqa taqdimotlar, infografikalar yoki video ssenariylar yaratadilar.	Global integratsiya modeli: Task-Based (topshiriqlarga asoslangan) til o‘qitish orqali xalqaro tajribani o‘zlashtirgan holda ikki tilli ekologik savodxonlikni rivojlantiradi.
Informatika	Milliy suv tanqisligi ma’lumotlarini vizuallashtirish O‘quvchilar ma’lumotlar bilan ishlash dasturlari yordamida Orol dengizining qurishi va O‘zbekistonda aholi jon boshiga to‘g‘ri keladigan yillik suv hajmining kamayib borishini grafik ko‘rinishida vizuallashtiradilar.	Tahliliy ekologiya: Matematik voqelikni ekologik hamdardlik bilan bog‘laydi, suv tanqisligi uzoqdagi muammo emas, balki aniq statistik fakt ekanligini isbotlaydi.
Tarbiya / Falsafa	Bioetika va “Yashil Makon” rituali Atrof-muhit adolati va fuqarolik burchi mavzularida interaktiv munozaralar o‘tkaziladi. O‘quvchilar maktab hududidagi ko‘chatlarni o‘z otaliqlariga oladilar va ularni saqlab qolish uchun zarur bo‘lgan aniq suv miqdorini nazorat qiladilar.	Nemis “Umweltbildung” modeli: Nazariy bioetikani jonli, jismoniy odatga aylantiradi, mahalliy ekotizim uchun shaxsiy javobgarlik hissini shakllantiradi.

Yangi O‘zbekistonni barqaror rivojlantirish yo‘li nafaqat YaIM o‘sishi, balki jamiyat va tabiat o‘rtasida o‘rnatilgan garmoniya hamda aholining ekologik madaniyati bilan o‘lchanadi. Katastrofik suv tanqisligi sharoitida aholiga tabiat bilan to‘g‘ri munosabatda bo‘lishni o‘rgatish milliy omon qolish masalasidir. Milliy merosimizning axloqiy hikmatlarini sintez qilish, ekolingvistikaning kognitiv kuchidan foydalanish va maktab o‘quv dasturlariga xalqaro tajribalarni tatbiq etish orqali O‘zbekiston yuksak ongli ekologik madaniyatni shakllantira oladi. Ekologik ta’limni milliy falsafa va hayot tarziga aylantirish mamlakatimiz ekologik xavfsizligi va kelajak avlodlar farovonligining mutloq kafolatidir.

YANGI TARAQQIYOT STRATEGIYASIDA MA'NAVIYATLI INSONNI TARBIYALASH VA UNI RIVOJLANTIRISH YO'NALISHLARI.

Qambarov Abdujabbor Boxrolievich
Namangan davlat pedagogika instituti "Falsafiy va tarixiy fanlar" kafedrasi dotsenti, falsafa fanlari bo'yicha falsafa doktori (PhD)
abduzabborkambarov15@gmail.com

Annatatsiya: *Mafkuraviy hayotni yanada jonlantirish uchun kerakli choralar belgilangani va ularning hayotga tatbiq etib borilayotgani maqsadli va izchil islohotlarning amaldagi ifodasi bo'lmoqda. "Inson qadri uchun" degan bosh tamoyil asosida inson huquqlari, adolatli ijtimoiy tizim, ochiq jamiyat g'oyalari asosiy mafkuraviy yo'nalishga aylantirildi. Bu esa avvalgi bosqichlarda shakllangan ma'naviy yetuk shaxs tarbiyalashda jamiyatimiz rivojlantirish tamoyillarini zamonaviy siyosiy va ijtimoiy jarayonlar bilan uyg'unlashtirish imkonini berdi.[1] Aynan inson kapitali bo'yicha ko'riladigan chora-tadbirlar strategiyaning 4-yo'nalishi bo'lgan* ***"Adolatli ijtimoiy siyosat yuritish, inson kapitalini rivojlantirish"[2] ustuvor yo****'nalishi sifatida ajratib ko'rsatilgan va 37-70 maqsadlarni qamrab oladi. Ularda fuqarolarimizni kasbga yo'naltirish, ta'lim imkoniyatlarini kengaytirish, ijtimoiy himoya tadbirlarini o'tkazish, iqtisodiy farovonligini rivojlantirish kabi muhim masalalar o'z aksini topgan. Insonlarga qulayliklar yaratish va hayotining yaxshilanishi uchun ko'riladigan chora-tadbirlarning asosiy qismini ularning dunyoqarashi va qobiliyatlarini rag'batlantirish orqali erishiladigan choralar tashkil etadi.*

НАПРАВЛЕНИЯ ВОСПИТАНИИ И РАЗВИТИЯ ДУХОВНОЙ ЛИЧНОСТИ В НОВОЙ СТРАТЕГИИ РАЗВИТИЯ.

Аннотация*: Определение необходимых мер для дальнейшего оживления идеологической жизни и их реализация являются практическим выражением целенаправленных и последовательных реформ. В основе идеологических направлений лежат идеи прав человека, справедливой социальной системы и открытого общества. Это позволило гармонизировать принципы развития нашего общества в воспитании духовно зрелой личности, сформированной на предыдущих этапах, с современными политическими и социальными процессами.[1] Именно меры, принимаемые в отношении человеческого капитала, выделены в качестве приоритета в 4-м направлении стратегии «Реализация справедливой социальной политики, развитие человеческого капитала»[2] и охватывают цели 37-70. Они отражают такие важные вопросы, как направление наших граждан к профессиональной деятельности, расширение образовательных возможностей, реализация мер социальной защиты и развитие экономического благополучия. Основная часть мер, принимаемых для создания благ для людей и улучшения их жизни, достигается путем стимулирования их мировоззрения и способностей.*

DIRECTIONS OF EDUCATION AND DEVELOPMENT OF A SPIRITUAL PERSON IN THE NEW DEVELOPMENT STRATEGY.

Abstract: *The identification of necessary measures to further revitalize ideological life and their implementation are a practical expression of targeted and consistent reforms. Based on the main principle "For the dignity of man", the ideas of human rights, a just social system, and an open society have become the main ideological directions. This made it possible to harmonize the principles of development of our society in the upbringing of a spiritually mature person formed at previous stages with modern political and social processes.[1] It is precisely the measures taken on human capital that are highlighted as a priority in the 4th direction of the strategy, "Implementing a fair social policy, developing human capital"[2] and cover goals 37-70. They reflect such important issues as directing our citizens to a profession, expanding educational opportunities, implementing social protection measures, and developing economic well-being. The main part of the measures taken to create amenities for people and improve their lives is achieved by stimulating their worldview and abilities.*

Prezident Shavkat Mirziyoyev rahbarligida boshlangan islohotlar doirasida “Yangi O‘zbekiston” tamoyili asosida mafkuraviy yondashuvlar yangilandi. Ayni strategiyaning 70-maqsadi yoshlarning jamiyatdagi faoliyatini oshirishga qaratilgani bilan dolzarbdir.

Inson resurslari uchun ta’lim orqali bo‘ladigan ta’sirga to‘g‘ri baho berilgani holda barcha ta’lim bosqichlari uchun 37-50 maqsadlarda muhim vazifalar belgilangan. Taraqqiyot strategiyasi yakuniga qadar ta’limda qo‘llanuvchi darsliklarni ilg‘or chet-el mamlakatlari talablari asosida ko‘rib chiqish, maktabgacha bosqichdagi ta’limda va oliygohlardagi mavjud qamrovni oshirish, xorijda ta’lim olishni istagan yoshlar uchun sharoitlar yaratish kabi muhim qadamlar qo‘yilgan. Strategiyada ta’limdagi yondashuvlarda gap ish tartibiga, o‘quvchining o‘qishiga, mehnatga, jamoat ishi va bo‘sh vaqtiga munosabatiga urg‘u berilgan.

Xalqimizni, xususan yoshlarni har tomonlama ma’naviy yetuk barkamol shaxs sifatida tarbiyalash murakkab va muhim vazifalardan bo‘lib, oila, ta’lim muassasalari, mahalla va jamoatchilik bu yuksak maqsadni amalga oshirishda bevosita birdek mas’uldirlar. Oiladagi farzand tarbiyasida esa, ayollarning o‘z o‘rni bor. Shu jihatdan 69-maqsad sifatida xotin-qizlarning davlat tomonidan ijtimoiy va boshqa jabhalarda yordam olishlari uchun alohida vazifalar kiritilgan. Bundan oilalarning ijtimoiy farovonligi kelib chiqmaydi. Balki, barcha insonlarning oila birdamligidagi o‘rni dolzarbligicha qoladi.

Konstitutsiyamizning 115-moddasida belgilanganidek Vazirlar mahkamasi: “yoshlarga oid davlat siyosatining amalga oshirilishini ta’minlaydi, oilani qo‘llab-quvvatlash, mustahkamlash va himoya qilish, an’anaviy oilaviy qadriyatlarni saqlash bo‘yicha choralar ko‘radi”.[4] Bu esa, strategiyaning amalga oshirilishi bo‘yicha vazifalarning tizimli, konstruktiv yo‘naltirilganini ko‘rsatadi.

Ma’naviyat jamiyatning asosiy tashkil etuvchi elementlaridan hisoblanadi. Yangi O‘zbekiston davrida ushbu mafkuraviy yo‘nalishlar yangicha mazmun bilan boyitilmoqda. Ularning uzviylik, uyg‘unlik va jarayon sifatidagi o‘zaro ta’siri jamiyatning barqarorligi, rivojlanishi va ijtimoiy tuzilmalarning mustahkamlanishida muhim ahamiyat kasb etadi. Ushbu tushunchalar ijtimoiy ong va ma’naviyat o‘rtasidagi o‘zaro aloqalarni yanada chuqurroq tahlil qilishga imkon beradi, chunki ular jamiyatdagi o‘zgarishlar, ijtimoiy inqiloblar, va madaniy evolyusiyani anglashda muhim vosita sifatida xizmat qiladi. Ma’naviy etuk shaxsning asosiy tarkibiy qismlari, jamiyatdagi o‘zgarishlar va bu o‘zgarishlarning inson hayotiga ta’siri tahlil qilingan. Ushbu manbada ijtimoiy ongni shakllantirishdagi asosiy omillar haqida so‘z yuritiladi va bu jarayonning jamiyatdagi ahamiyati yoritiladi.

Inson taraqqiyotiga, ayniqsa, bolalik davrida oilaviy muhit katta ta’sir ko‘rsatadi. Uyda, birinchi inson hayotining rivojlanishi va shakllanishi hal qilinadi. Odatda bola o‘zi rivojlanayotgan oila haqida aniq tasavvurga ega b‘ladi. Oila ko‘p jihatdan bolalarning manfaatlari va ehtiyojlarini, g‘oyalari va kelajagini belgilaydi. Oila – jamiyatning eng kichik a’zosi. Ijtimoiy muhitdan odam hayotiy tajribalarni, o‘zini tutish, gapirish, fikrlash va uning usullarini va boshqalarni o‘rganadi. Inson kamolotida ijtimoiy tarmoqlar, ta’lim muassasalari, ommaviy axborot vositalari va boshqalar ham muhim rol o‘ynaydi.

Hatto ijtimoiy muhitda ham nosog‘lom guruhlar salbiy ta’sir ko‘rsatishi mumkin, masalan, qimor, ichkilikbozlik, giyohvandlik, talonchilik, savodsizlik va boshqalar. Ammo shuni yodda tutish kerakki, hamma bir xilda ta’lim oladi, lekin oilalar va qarashlar bir xil emas. Insonga insonparvarlik, yaxshi xulq, ta’lim-tarbiya va umuman, ijobiy xislatlarni o‘rgatuvchi maktab bu - oiladir. Xalqimizda “Qush uyasida ko‘rganini qiladi”, degan maqol bor. Tarbiya - oiladan boshlanadi, desak xato qilmaymiz. Biz bunda sog‘lom, etuk, komillik sari intiladigan oilani nazarda tutyapmiz. Bunday ma’naviy hayotimizda ta’lim-tarbiya olgan yoshlarimiz mafkurasi, ularning ongi va tafakkuri go‘zal va ijodiy izlanuvchan bo‘ladi. Hammamizga ma’lumki, yosh avlodni tarbiyalashda milliy iftixor, milliy qadriyatlar va urf-odatlar asosida tarbiyalashda oilaning o‘rni katta ahamiyatga ega. Oila tarbiyasi orqali bola ongida umuminsoniy va milliy qadriyatlar, yashashdan maqsad haqida dastlabki tasavvurlar hosil bo‘ladi[5]. Oilada shaxsning ijtimoiy-qimmatli fazilatlari o‘sa boshlaydi. Demak, Yangi O‘zbekiston yoshlari ma’naviyatida ijobiy hal qiluvchi omil sifatida yosh avlodni milliy qadriyatlar asosida tarbiyalashda ma’naviy merosimizning mazmun-mohiyatini ular ongi va qalbiga singdiruvchi shaxslar hisoblanadi.

Ma’naviyatning rivojlanishi va jamiyatda mavjud qadriyatlar tizimi ijtimoiy ongni mustahkamlashga xizmat qiladi. Jamiyatdagi axloqiy, estetik va diniy qadriyatlar ijtimoiy ongni tashkil etadi va uning asosida yangi ijtimoiy g‘oyalar yuzaga keladi. Ijtimoiy ong esa bu qadriyatlarni o‘ziga qabul qilib, jamiyatning yangi ma’naviy me’yorlarini belgilaydi. Shunday qilib, ma’naviyat va ijtimoiy ongning uzviyligi jamiyatda barqarorlik va ijtimoiy farovonlikni ta’minlaydi.

Ayniqsa, “Yangi O‘zbekiston” tamoyillari asosida shakllanayotgan yangi ijtimoiy-siyosiy muhit, jamiyat taraqqiyotida inson manfaatlarini ustuvor qo‘yish, adolat, qonun ustuvorligi kabi qadriyatlarni mustahkamlashga qaratilgan islohotlar kontekstida bu mavzu o‘zining nazariy va amaliy ahamiyatini yanada kuchaytirmoqda.[6]

Ma’naviy yetuk shaxs jamiyatda mavjud bo‘lgan ma’naviy qadriyatlarni shakllantiradi va jamiyatdagi axloqiy me’yorlarni o‘z ichiga oladi. Masalan, erkinlik, tenglik, adolat kabi g‘oyalar ijtimoiy ongda vujudga kelib, ularning

asosida ma’naviyat shakllanadi. Jamiyatning taraqqiyoti va rivojlanishida ma’naviyat, o‘z navbatida, ijtimoiy ongni yanada o‘zgartirib, yangi qadriyatlar va g‘oyalarni ilgari suradi. Yangi O‘zbekiston sharoitida “Uchinchi Renessans”ni kim amalga oshiradi ?Shu masalada ko`rishimiz mumkinki, jamiaytimizning o`sib kelayo`tgan yo`shlari o‘zida Vatanga sodiqlik, tadbirkorlik, irodalilik, mafkuraviy immunitet, mehr-oqibat, mas’uliyat, bag‘rikenglik, huquqiy madaniyat, innovatsion fikrlash, mehnatsevarlikni mujassam qilganlardir. “Uchinchi Renessans” bizdan jon, sog‘liq, mablag‘ emas, yuqoridagi fazilatlarni har kuni amalda ko‘rsatishni so‘raydi. O‘z ishimizni halol-pok, sifatli, vijdonimiz nazoratida bajarishni so‘raydi. Ma’naviy Renessans qancha kuchli bo‘lsa, “Uchinchi Renessans” shuncha tez, samarali natija ko‘rsatadi. Ana shunda amalga oshirilayotgan ijtimoiy-iqtisodiy islohotlar ma’naviyatdagi, xarakterimizdagi islohotlar bilan qo‘llab-quvvatlanadi.

Buning uchun ilgari uchrab turgan “Ma’naviyatni o‘lchab bo‘larmikan ?” degan ikkilanishlardan voz kechishimiz kerak. Zero, ajdodlarimiz Birinchi va Ikkinchi Renessanslarni ilmdan najot olib yaratishgan. Demak, “Uchinchi Renessans”da ham “Ilmdan o‘zga najot yo‘q va bo‘lmag‘ay” (Imom Buxoriy). Prezidentimiz o‘z chiqishlaridan birida “Kurashga tayyorlangan, kurashgan odam yutadi”, degan edi. “Uchinchi Renessans” bizdan qiyinchiliklarga qarshi kurashga tayyor bo‘lishimizni taqozo qiladi. Bu tayyorlik barcha sohalarni qamrab olishi va hamma joyda, har birimizda namoyon bo‘lishi lozim. Insonning ma’naviy ongi, insoniy fazilatlari va kamchiliklari dastlab oilada shakllanadi. Bu jarayon hech qachon to‘xtab qolmaydi.[7]

Bilim va madaniyat ma’naviyat bilimning inson va jamiyat hayotidagi o‘rni, san’at, adabiyot va madaniy meros bilan chambarchas bog‘liq. Ruhiyat shaxsning ichki dunyosi, tuyg‘ulari va e’tiqodlari orqali namoyon bo‘ladi. Shaxsiy rivojlanish insonning ma’naviy qiyofasi uning intellektual va axloqiy jihatdan o‘sishini ta’minlaydi. Har bir xalqning ma’naviyati, tarixi, tili va madaniyati shu xalqning o‘tmishi bilan bog‘liq. Chunki ma’lum bir xalqning bosib o‘tgan yo‘li shu millatning ma’naviyati va madaniyatining shakllanishiga muhim hissa qo‘shib, shu xalq, millatning qoldirgan ma’naviy merosi asosida ilm-fan, madaniyat va ta’lim-tarbiya shakllanib rivojlanib boradi.

Bunda yozma adabiyot bilan birga eng qadimgi manbalarimizdan biri hisoblangan xalq og‘zaki ijodi asarlarining o‘rni beqiyosdir. Ushbu xalq hayotining mazmunini ifodalovchi xalq og‘zaki ijodi namunalari ajdodlardan avlodlarga o‘tib ularning tarbiyasiga ijobiy ta’sir etadi va ular vatanparlik va insonparlik g‘oyalarining shakllanishida muhim omil bo‘lib xizmat qiladi. Mustaqil mamlakatimizning buyuk kelajagi har tomonlama barkamol, milliy qadriyatlar va yuksak ma’naviy fazilatlarni o‘zida mujassam etgan, zamonaviy ilmlarni egallagan, intiluvchan, iqtidorli va iste’dodli, barkamol avlodni tarbiyalab kamol toptirishga bog‘liq.

Ajdodlarimiz qoldirgan boy ma’naviy – tarixiy merosdan faxr tuyg‘usini his etgan holda ularning munosib vorislari bo‘lishga intilishda ilmu fanimiz rivoji va istiqboli to‘g‘risida qayg‘urib, yoshlarni haqiqiy vatanprvar qilib tarbiyalayotgan ma’rifatparvar pedagog-olimlarimizning mehnati beqiyosdir. Har bir inson komillik sari tarbiyalanar ekan, hayotda to‘g‘ri, yanglishmay, adashmay yaxshi yashab o‘tishga harakat qilishga intiladi. Bu yo‘lda uning aql-idroki va axloqiy ongi-tafakkurining rivojlanishi uni astoydil ma’naviy qiyofasini yuksaltiradi. Aqlli odam o‘rgangan bilimlari natijasida hayotda nima qilish kerakligini biladi va ana shu olgan bilimlarini boshqalarga o‘rgatishlaridan tashqari, o‘zlari ham uni hayotda qo‘llay bilishlari, ulardan unumli foydalanishlari lozim. Muhammadjon Imomnazarov ta’biri bilan aytganda: “Insonlar ongi qanday bo‘lsa, mamlakat kelajagi ham shunga yarasha bo‘ladi”.

Ilmiy nazariyani amaliyotga bog‘lashni uddalashlari va hayot mashaqqatlarini yengib o‘tishi orqali har bir inson nafaqat o‘zini, balki boshqalarni ham tarbiyalamog‘i kerak. Kelajak avlodni hayotga tayyorlash ularga turmush tajribalarini o‘rgatish, odobli, aql-farosatli va bilimdon, shuningdek, mehnat faoliyatiga irodali va jismoniy rivojlangan qilib tarbiyalash davr talabi. Hozirgi ijtimoiy-iqtisodiy rivojlanayotgan mamlakatimiz ta’lim-tarbiya tizimida o‘sib kelayotgan yosh avlodning mehnat ko‘nikmalarini o‘zlashtirishida, jamiyatda o‘zining munosib o‘rnini egallab, hayotiy tajriba orttirishida pedagogning asosiy vazifasi ularni tarbiyalashda maktab va oilaga yagona talablarni o’rnatishidir. Talablarning yagonaligi ularning o‘xshashligini bildirmaydi.

Milliy an’analarimiz va asriy qadriyatlarimiz tiklanmoqda, ularning hayotimizdagi o‘rni yanada mustahkamlanmoqda. Jamiyat ma’naviyatini yanada yusaltirish uchun mamlakatimizni ijtimoiy-siyosiy va ijtimoiy-iqtisodiy rivojlantirishning o‘ziga xos yo‘lidan borayotgan mamlakatimiz taraqqiyotining ustuvor yo‘nalish lari bo‘yicha yangi traqqiyot strategiyamiz mazmun-mohiyatida ham bugun buni yaqqol ko‘rib turibmiz. Zero, fuqarolarni milliy ma’naviy merosga hurmat va milliy ma’naviy qadriyatlar ruhida tarbiyalashda ma’naviyatning, o‘tmish ajdodlarimiz qoldirgan noyob durdonalar, san’at asarlari, musiqiy madaniyat, xalq og‘zaki ijodi namunalarining ahamiyati beqiyos ekanligini bugun hayotimizda muhimligini anglamoqdamiz.[8]

Jamiyatni birlashtirish ma’naviyat millat va jamiyatning birdamligi, qadriyatlarning avloddan-avlodga o‘tishida muhim rol o‘ynaydi. Madaniyatni rivojlantirish san’at va adabiyot orqali ma’naviyat yangi marralarga etadi va jamiyatning umumiy darajasini ko‘taradi. O‘zbekistonning ijtimoiy va iqtisodiy modernizatsiya jarayonlarida ma’naviyat islohotlarning markazida turadi. U yoshlar tarbiyasi va madaniy yangilanishlar orqali jamiyatni mustahkamlashda asosiy

omil hisoblanadi. Uzluksiz ta’lim tizimi insonning ma’naviy qiyofasini shakllantirishda muhim rol o‘ynaydi. Bu tizim har bir bosqichda shaxsning bilim va malakasini oshirish bilan birga uning ma’naviy rivojlanishini ta’minlashga qaratilgan.

KIBER MAKONDA SHAXSIY MA'LUMOTLARNI HIMOYA QILISH VA IJTIMOIY NAZORATNING AXLOQIY MUAMMOLARI

Rahmatullayev Mardonbek Farhod o'g'li
Namangan davlat universiteti mustaqil tadqiqotchisi
ORCID: 0009-0006-5369-5397
E-mail: r.mardonbek0321@gmail.com

Annotatsiya: *Kiber makonda shaxsiy ma'lumotlarni himoya qilish va ijtimoiy nazorat o'rtasidagi axloqiy muammolar ijtimoiy-falsafiy nuqtai nazardan tahlil qilingan. Raqamli jamiyat sharoitida shaxsiy ma'lumotlar insonning shaxsiy hayoti, erkinligi, qadr-qimmati va ijtimoiy subyektligini ifodalovchi muhim axborot resursiga aylangani asoslab berilgan. Maqolada shaxsiy ma'lumotlarni yig'ish, saqlash, qayta ishlash va algoritmik tahlil qilish jarayonlarida rozilik, shaffoflik, adolat, mutanosiblik va hisobdorlik tamoyillarining ahamiyati ochib beriladi. Shuningdek, ijtimoiy nazoratning jamoat xavfsizligini ta'minlashdagi ijobiy vazifalari bilan bir qatorda, uning shaxs erkinligi, shaxsiy daxlsizlik, raqamli avtonomiya va ijtimoiy ishonchga salbiy ta'sir ko'rsatish ehtimoli tahlil qilinadi.*

Kalit so'zlar: *kiber makon, shaxsiy ma'lumotlar, ijtimoiy nazorat, axloqiy muammolar, raqamli erkinlik, shaxs daxlsizligi, algoritmik adolat, shaffoflik, hisobdorlik, raqamli jamiyat.*

ЭТИЧЕСКИЕ ПРОБЛЕМЫ ЗАЩИТЫ ПЕРСОНАЛЬНЫХ ДАННЫХ И ОБЩЕСТВЕННОГО КОНТРОЛЯ В КИБЕРПРОСТРАНСТВЕ

Аннотатsiя: *В статье с социально-философской точки зрения анализируются этические проблемы на стыке защиты персональных данных в киберпространстве и социального контроля. Обосновывается, что в условиях цифрового общества персональные данные стали важным информатsионным ресурсом, отражающим частную жизнь, свободу, достоинство и социальную субъектность человека. В статье раскрывается значение принципов согласия, прозрачности, справедливости, соразмерности и подотчетности в процессах сбора, хранения, обработки и алгоритмического анализа персональных данных. Наряду с положительными функциями социального контроля в обеспечении общественной безопасности, анализируется также и его возможное негативное влияние на свободу личности, неприкосновенность частной жизни, цифровую автономию и общественное доверие.*

Ключевые слова: *киберпространство, персональные данные, социальный контроль, этические проблемы, цифровая свобода, неприкосновенность частной жизни, алгоритмическая справедливость, прозрачность, подотчетность, цифровое общество.*

ETHICAL ISSUES OF PERSONAL DATA PROTECTION AND SOCIAL CONTROL IN CYBERSPACE

Abstract: *This article analyzes the ethical dilemmas between the protection of personal data in cyberspace and social control from a socio-philosophical perspective. It argues that in the context of a digital society, personal data has become a critical information resource, representing an individual's private life, freedom, dignity, and social agency. The article highlights the importance of the principles of consent, transparency, fairness, proportionality, and accountability in the processes of collecting, storing, processing, and algorithmically analyzing personal data. Furthermore, alongside the positive functions of social control in ensuring public safety, it examines its potential negative impact on individual freedom, personal privacy, digital autonomy, and social trust.*

Keywords: *cyberspace, personal data, social control, ethical issues, digital freedom, privacy, algorithmic justice, transparency, accountability, digital society.*

Kirish

XXI asrda kiber makon inson hayotining ajralmas ijtimoiy, iqtisodiy, siyosiy va madaniy muhitiga aylandi. Bugun shaxsning muloqoti, ta'limi, mehnat faoliyati, davlat xizmatlaridan foydalanishi, tibbiy ma'lumotlari, moliyaviy operatsiyalari, iste'molchilik xulq-atvori, siyosiy qarashlari va hatto kundalik harakat traektoriyasi raqamli izlar orqali qayd etiladi. Mazkur jarayon bir tomondan davlat boshqaruvi samaradorligini oshirish, jamoat xavfsizligini ta'minlash,

jinoyatchilikka qarshi kurashish, elektron xizmatlarni qulaylashtirish va ijtimoiy munosabatlarni tezkor tashkil etish imkonini bersa, ikkinchi tomondan shaxsiy ma'lumotlar daxlsizligi, inson erkinligi, axloqiy tanlov, mustaqil qaror qabul qilish va shaxs avtonomiyasiga jiddiy xavf tug'diradi. Shu ma'noda, kiber makonda shaxsiy ma'lumotlarni himoya qilish va ijtimoiy nazorat o'rtasidagi muvozanat muammosi zamonaviy ijtimoiy falsafaning eng dolzarb tadqiqot yo'nalishlaridan biriga aylanmoqda.

Shaxsiy ma'lumotlar faqat texnik yoki huquqiy kategoriya emas, balki insonning shaxsiy hayoti, qadr-qimmati, erkinligi va ijtimoiy mavqeini aks ettiruvchi falsafiy-axloqiy tushunchadir. Inson haqidagi ma'lumotlar uning shaxsiy identifikatsiyasi, ijtimoiy munosabatlar tizimidagi o'rni, dunyoqarashi, qiziqishlari, ehtiyojlari va xatti-harakat modellarini namoyon etadi. Demak, shaxsiy ma'lumotlarni noqonuniy yig'ish, qayta ishlash, saqlash, uzatish yoki tahlil qilish shaxsning faqat axborot xavfsizligiga emas, balki uning ichki erkinligiga, qadriyatiga va ijtimoiy sub'ekt sifatidagi mustaqilligiga ham ta'sir ko'rsatadi.

Kiber makonda ijtimoiy nazoratning kuchayishi, avvalo, raqamli texnologiyalar tabiatidan kelib chiqadi. An'anaviy jamiyatlarda ijtimoiy nazorat oila, mahalla, ta'lim muassasasi, mehnat jamoasi, huquqiy institutlar va jamoatchilik fikri orqali amalga oshirilgan bo'lsa, raqamli jamiyatda nazorat algoritmlar, elektron platformalar, videokuzatuv tizimlari, biometrik identifikatsiya, sun'iy intellekt, "katta ma'lumotlar" tahlili va avtomatlashtirilgan qaror qabul qilish mexanizmlari orqali amalga oshirilmoqda. Bu holat ijtimoiy nazoratning ko'rinishini o'zgartiradi: u ochiq majburlash shaklidan ko'ra ko'proq ko'rinmas, algoritmik va doimiy kuzatuv xususiyatiga ega bo'lib bormoqda.

Adabiyotlar tahlili

Kiber makonda shaxsiy ma'lumotlarni himoya qilish va ijtimoiy nazorat muammosi turli fanlar kesishmasida o'rganiladi. U huquqshunoslik, axborot xavfsizligi, sotsiologiya, siyosatshunoslik, axloqshunoslik, ijtimoiy falsafa, mediatadqiqotlar va sun'iy intellekt etikasi kabi sohalar bilan bevosita bog'liq. Shuning uchun mazkur mavzuni o'rganishda bir yo'nalishli yondashuv yetarli emas; aksincha, uni integrativ, fanlararo va konseptual tahlil qilish zarur[5].

Jon Lokk, Immanuil Kant, Jon Styuart Mill kabi mutafakkirlar inson shaxsini mustaqil axloqiy sub'ekt sifatida baholaydi[6]. Ayniqsa, Kant falsafasida insonni vosita sifatida emas, balki maqsad sifatida ko'rish g'oyasi raqamli davr uchun ham muhim metodologik ahamiyatga ega. Chunki shaxsiy ma'lumotlarni faqat iqtisodiy foyda, xavfsizlik yoki boshqaruv samaradorligi uchun ishlatiladigan resurs sifatida talqin qilish insonni algoritmik boshqaruv ob'ektiga aylantirishi mumkin.

Daniel Solave shaxsiy daxlsizlikni yagona, sodda tushuncha sifatida emas, balki ma'lumot yig'ish, qayta ishlash, tarqatish va shaxsga ta'sir ko'rsatish bilan bog'liq turli xavflar tizimi sifatida tahlil qiladi.

Mishel Fukoning ijtimoiy nazorat haqidagi qarashlari ham kiber makon tahlilida alohida ahamiyatga ega. Uning "panoptikon" konsepsiyasi zamonaviy raqamli kuzatuv jarayonlarini tushuntirish uchun nazariy asos vazifasini bajaradi. An'anaviy panoptikonda shaxs o'zini kuzatilishi mumkinligini his qilib, o'z xulq-atvorini nazorat qiladi.

Jil Delyozning "nazorat jamiyati" haqidagi qarashlari ham raqamli davr uchun dolzarbdir. Agar Fuko tahlil qilgan intizom jamiyati maktab, qamoqxona, fabrika, kasalxona kabi institutlar bilan bog'liq bo'lsa, Delyoz ta'kidlagan nazorat jamiyatida boshqaruv uzluksiz, tarmoqsimon va harakatchan xarakterga ega bo'ladi. 3ldirganida yoki raqamli xizmatdan foydalanganida ma'lumot ishlab chiqaradi. Bu ma'lumotlar esa ijtimoiy, siyosiy va iqtisodiy qarorlarni shakllantiruvchi axborot resursiga aylanadi.

Tadqiqot metodologiyasi

Tadqiqotning metodologik asosini dialektik tahlil, tizimli yondashuv, qiyosiy tahlil, aksiologik tahlil, germenevtik yondashuv va konseptual modellashtirish metodlari tashkil etdi. Dialektik tahlil shaxsiy ma'lumotlarni himoya qilish va ijtimoiy nazorat o'rtasidagi ziddiyatni harakatdagi ijtimoiy munosabat sifatida o'rganish imkonini berdi.

Tizimli yondashuv shaxsiy ma'lumotlar bilan bog'liq munosabatlarni fuqaro, davlat, biznes, texnologik platforma, algoritm, huquqiy institut va jamoatchilik nazoratidan iborat murakkab tizim sifatida tahlil qilish imkonini berdi. Ushbu yondashuv asosida shaxsiy ma'lumotlarni himoya qilish bir sub'ektning mas'uliyati emas, balki ko'p sub'ektli raqamli ekotizimning umumiy axloqiy vazifasi ekani asoslandi[1].

Qiyosiy tahlil metodi orqali shaxsiy ma'lumotlarni himoya qilish sohasidagi turli yondashuvlar o'zaro solishtirildi. Bunda inson huquqlari markazidagi yondashuv, xavfsizlikka yo'naltirilgan yondashuv, bozorga yo'naltirilgan yondashuv va raqamli insonparvarlik yondashuvi qiyosiy tahlil qilindi.

Aksiologik tahlil orqali tadqiqotda shaxsiy ma'lumotlar bilan bog'liq asosiy qadriyatlar aniqlandi. Ular qatoriga inson qadr-qimmati, shaxsiy daxlsizlik, erkinlik, xavfsizlik, ijtimoiy ishonch, adolat, mas'uliyat, shaffoflik va hisobdorlik kiritildi. Mazkur qadriyatlar raqamli nazoratni baholash mezonlari sifatida qo'llanildi. Shu asosda shaxsiy ma'lumotlarni himoya qilish faqat huquqiy majburiyat emas, balki insonparvar jamiyatning axloqiy mezoni ekani asoslandi.

Natijalar va tahlil

Tadqiqot natijalari shuni ko'rsatadiki, kiber makonda shaxsiy ma'lumotlarni himoya qilish va ijtimoiy nazorat o'rtasidagi axloqiy muammolar bir vaqtning o'zida uch darajada namoyon bo'ladi: shaxs darajasida, institutsional

darajada va jamiyat darajasida. Shaxs darajasida asosiy muammo insonning o‘z ma’lumotlari ustidan nazorat qilish imkoniyati cheklanishi, raqamli platformalarga qaramlikning kuchayishi va ongli rozilikning formallashuvi bilan bog‘liq. Institutsional darajada esa davlat, biznes va texnologik platformalar tomonidan ma’lumotlardan foydalanishda shaffoflik, hisobdorlik va mutanosiblik tamoyillarining to‘liq ta’minlanmasligi kuzatiladi[2]. Jamiyat darajasida esa raqamli nazorat ijtimoiy ishonch, fuqarolik erkinligi, demokratik munosabatlar va ijtimoiy adolatga ta’sir ko‘rsatadi.

Kiber makonda shaxsiy ma’lumotlar axloqiy jihatdan betaraf axborot emas. Ular insonning shaxsiy hayoti, qadr-qimmati, erkinligi va ijtimoiy mavqeini ifodalovchi raqamli ko‘rinishdir. Shu sababli shaxsiy ma’lumotlar bilan ishlashda faqat “ma’lumot xavfsizligi” tushunchasi yetarli emas. Unga “inson xavfsizligi”, “shaxsiy avtonomiya”, “raqamli adolat”, “axloqiy hisobdorlik” va “ijtimoiy ishonch” kabi kategoriyalar bilan yondashish zarur. Aks holda shaxsiy ma’lumotlar himoyasi texnik parollar, serverlar va shifrlash vositalari bilan cheklanib qoladi, uning insonparvar va falsafiy mazmuni e’tibordan chetda qoladi.

Tahlillar asosida kiber makonda shaxsiy ma’lumotlar va ijtimoiy nazorat bilan bog‘liq asosiy axloqiy muammolar quyidagi jadvalda tizimlashtirildi.

I jadval.

Kiber makonda shaxsiy ma’lumotlar bilan bog‘liq asosiy axloqiy muammolar

Axloqiy muammo	Mazmuni	Ijtimoiy oqibati	Bartaraf etish yo‘nalishi
Rozilikning formallashuvi	Foydalanuvchi ma’lumotlaridan foydalanish shartlarini to‘liq anglamasdan rozilik beradi	Shaxs o‘z ma’lumotlari ustidan real nazoratni yo‘qotadi	Sodda, tushunarli va bosqichma-bosqich rozilik mexanizmini joriy etish
Shaffoflik yetishmasligi	Ma’lumotlar qanday yig‘ilishi, saqlanishi va tahlil qilinishi to‘liq ochiq emas	Fuqarolarning raqamli tizimlarga ishonchi pasayadi	Ma’lumotlar siyosati va algoritmik qarorlarni izohlash amaliyotini kuchaytirish
Algoritmik noxolislik	Ma’lumotlar yoki algoritmlar ayrim ijtimoiy guruhlarga nisbatan adolatsiz qaror chiqarishi mumkin	Ijtimoiy tengsizlik va diskriminatsiya kuchayadi	Algoritmik audit, mustaqil ekspertiza va inson nazoratini ta’minlash
Ma’lumotlarning tovarlashuvi	Shaxsiy ma’lumotlar iqtisodiy foyda olish vositasiga aylanadi	Inson iste’molchi va ma’lumot manbai sifatida ob’ektlashadi	Ma’lumotdan foydalanishda axloqiy cheklovlar va foydalanuvchi manfaatini ustuvor qo‘yish
Nazoratning ortiqchaligi	Xavfsizlik bahonasida keragidan ortiq ma’lumot yig‘iladi	Shaxs erkinligi va shaxsiy daxlsizlik cheklanadi	Mutanosiblik, maqsadga muvofiqlik va minimal ma’lumot yig‘ish tamoyillarini qo‘llash
Ma’lumot sizishi	Shaxsiy ma’lumotlar uchinchi shaxslar qo‘liga tushishi mumkin	Moliyaviy, psixologik va ijtimoiy zarar yuzaga keladi	Kiberxavfsizlik, tezkor xabardor qilish va kompensatsiya mexanizmlarini kuchaytirish
Ijtimoiy ishonchning pasayishi	Fuqarolar raqamli xizmatlardan xavotir bilan foydalanadi	Raqamli transformatsiyaga nisbatan ishonch susayadi	Ochiqlik, hisobdorlik va jamoatchilik nazoratini kuchaytirish

Jadvaldan ko‘rinib turibdiki, kiber makonda shaxsiy ma’lumotlar muammosi faqat ma’lumotlarning yo‘qolishi yoki buzilishi bilan cheklanmaydi. Asosiy xavflardan biri shaxsning asta-sekin raqamli tizimlar tomonidan boshqariladigan ob’ektga aylanishidir. Bunday holatda inson rasman erkin bo‘lib qoladi, lekin uning tanlovlari, axborot maydoni, ijtimoiy munosabatlari va iste’molchilik harakatlari algoritmlar orqali yo‘naltiriladi. Bu jarayon “erkinlikning ko‘rinmas cheklanishi” sifatida baholanishi mumkin[3]. Tadqiqot natijalari shuni ko‘rsatadiki, kiber makonda shaxsiy ma’lumotlar bilan ishlashda sub’ektlar mas’uliyatini aniq belgilash muhim ahamiyatga ega. Chunki ma’lumotlar faqat bir tashkilot yoki bir foydalanuvchi doirasida harakat qilmaydi. Ular davlat organlari, xususiy kompaniyalar, texnologik platformalar, tahlil markazlari, reklama tarmoqlari va sun’iy intellekt tizimlari o‘rtasida harakatlanadi. Shuning uchun axloqiy mas’uliyat ham ko‘p sub’ektli xarakterga ega.

Kiber makonda shaxsiy ma’lumotlarni himoya qilish va ijtimoiy nazorat o‘rtasidagi munosabatni tahlil qilish shuni ko‘rsatadiki, zamonaviy raqamli jamiyatda erkinlik va xavfsizlik bir-birini inkor etuvchi emas, balki bir-birini to‘ldiruvchi qadriyatlar sifatida qaralishi lozim[4]. Erkinlik nazoratning butunlay yo‘qligini anglatmaydi; xavfsizlik esa shaxsning barcha ma’lumotlarini cheklovsiz yig‘ish va tahlil qilish huquqini bermaydi. Shu bois kiber makondagi asosiy axloqiy

vazifa shaxs avtonomiyasi va jamoat xavfsizligi o‘rtasida oqilona, adolatli va insonparvar muvozanatni ta’minlashdan iborat.

Muhokama natijalariga ko‘ra, shaxsiy ma’lumotlarni himoya qilish masalasida uchta asosiy xato yondashuv mavjud. Birinchi xato yondashuv — shaxsiy ma’lumotlarni faqat texnik xavfsizlik ob’ekti sifatida tushunishdir. Bu yondashuvda asosiy e’tibor parol, shifrlash, server muhofazasi, ma’lumotlar bazasini himoya qilish va kiberxavfsizlik choralariga qaratiladi. Albatta, bunday choralar zarur, ammo ular shaxsiy ma’lumotlarning axloqiy-falsafiy mazmunini to‘liq qamrab olmaydi. Chunki ma’lumotlar himoyalangan serverda saqlanishi mumkin, ammo ulardan shaxs roziligisiz, adolatsiz yoki manipulyativ maqsadlarda foydalanilsa, axloqiy muammo saqlanib qoladi.

Xulosa

Kiber makonda shaxsiy ma’lumotlarni himoya qilish va ijtimoiy nazoratning axloqiy muammolarini ijtimoiy-falsafiy tahlil qilish quyidagi asosiy xulosalarga olib keldi.

Birinchidan, shaxsiy ma’lumotlar raqamli jamiyatda insonning axborot shaklidagi ijtimoiy mavjudligini ifodalaydi. Ular shaxsning faqat ismi, manzili yoki telefon raqami emas, balki uning ijtimoiy aloqalari, qiziqishlari, qadriyatlari, ehtiyojlari, harakatlari va tanlovlarini aks ettiruvchi raqamli identifikatsiya maydonidir. Shu sababli shaxsiy ma’lumotlarni himoya qilish inson qadr-qimmati, shaxsiy daxlsizlik va erkinlikni himoya qilishning muhim sharti hisoblanadi.

Ikkinchidan, kiber makonda ijtimoiy nazorat mutlaq salbiy hodisa emas. U jamoat xavfsizligi, kiberjinoyatchilikka qarshi kurash, firibgarlikni aniqlash, davlat xizmatlarini samarali tashkil etish va zararli axborotdan himoya qilishda muhim vazifani bajarishi mumkin. Biroq nazorat qonuniylik, zarurlik, mutanosiblik, shaffoflik va hisobdorlik tamoyillari bilan cheklanmasa, shaxs erkinligiga xavf tug‘diradi.

Uchinchidan, raqamli nazoratning eng jiddiy axloqiy xavflari rozilikning formallashuvi, shaffoflik yetishmasligi, algoritmik noxolislik, ma’lumotlarning tovarlashuvi, shaxsiy avtonomiyaning cheklanishi va ijtimoiy ishonchning pasayishida namoyon bo‘ladi. Bu xavflar texnik emas, balki chuqur ijtimoiy-falsafiy xarakterga ega. Chunki ular insonning mustaqil qaror qabul qilish, o‘zini o‘zi belgilash va jamiyatda teng sub’ekt sifatida ishtirok etish imkoniyatiga ta’sir qiladi.

To‘rtinchidan, shaxsiy ma’lumotlarni himoya qilish va ijtimoiy nazorat o‘rtasidagi muvozanat “erkinlik yoki xavfsizlik” ziddiyati sifatida emas, balki “erkinlik va xavfsizlikning insonparvar uyg‘unligi” sifatida talqin qilinishi lozim. Bunday uyg‘unlik shaxs avtonomiyasi, jamoat xavfsizligi, texnologik shaffoflik, ijtimoiy adolat va hisobdorlikning birgalikda amal qilishi orqali ta’minlanadi.

JAMIYAT BARQARORLIGIGA TAHDID SOLUVCHI JINOYATCHILIK: TINCHLIK VA XAVFSIZLIK MUAMMOLARI

Safarov Nurbek Abdivaliyevich
(Qarshi davlat universiteti mustaqil tadqiqoqtchisi
Falsafa doktori (PhD), dotsent)
safarovnurbek78@gmail.com

Annotatsiya. *Mazkur maqolada tinchlik va xavfsizlikka qarshi jinoyatchilikning asosiy ko'rinishlari, ularning kelib chiqish omillari hamda jamiyat taraqqiyotiga salbiy ta'siri ilmiy jihatdan tahlil qilinadi. Terrorizm, ekstremizm, separatizm, transmilliy jinoyatchilik va kiberjinoyatlar kabi xavfli tahdidlarning davlat barqarorligi, inson huquqlari va ijtimoiy xavfsizlikka ta'siri yoritib beriladi. Shuningdek, globallashuv jarayonida mazkur jinoyatlarning ko'lam kengayishi, ularning oldini olishning huquqiy, siyosiy va ma'naviy asoslari haqida fikr yuritiladi. Tadqiqot davomida tinchlik va xavfsizlikni ta'minlashda xalqaro hamkorlik, milliy qonunchilik hamda fuqarolik jamiyati institutlarining o'rni muhim ekanligi asoslab berilgan.*

Kalit so'zlar: *Jinoyat, jamiyat, ma'naviy muhit, jinoyatchilik, huquqbuzarlik, ahloqiy me'yorlar, ijtimoiylashuv, ijtimoiy xavf, ayb, jazo, ma'naviy-madaniy hayot, fuqarolik ma'suliyati, ijtimoiy munosabatlar.*

CRIME THREATENING SOCIAL STABILITY: PROBLEMS OF PEACE AND SECURITY

Abstract. *This article scientifically analyzes the main forms of crimes against peace and security, their causes, and their negative impact on the development of society. It highlights the effects of dangerous threats such as terrorism, extremism, separatism, transnational crime, and cybercrime on state stability, human rights, and social security. The article also discusses the expansion of these crimes in the context of globalization, as well as the legal, political, and spiritual foundations for their prevention. During the research, the important role of international cooperation, national legislation, and civil society institutions in ensuring peace and security is substantiated.*

Keywords: *crime, society, spiritual environment, criminality, delinquency, moral norms, socialization, social danger, guilt, punishment, spiritual and cultural life, civic responsibility, social relations.*

УГРОЗА ПРЕСТУПНОСТИ ДЛЯ СОЦИАЛЬНОЙ СТАБИЛЬНОСТИ: ПРОБЛЕМЫ МИРА И БЕЗОПАСНОСТИ

Аннотация. *В данной статье научно анализируются основные проявления преступности против мира и безопасности, факторы их возникновения, а также их негативное влияние на развитие общества. Освещается воздействие таких опасных угроз, как терроризм, экстремизм, сепаратизм, транснациональная преступность и киберпреступность, на стабильность государства, права человека и общественную безопасность. Также рассматриваются вопросы расширения масштабов данных преступлений в условиях глобализации, а также правовые, политические и духовно-нравственные основы их предупреждения. В ходе исследования обосновывается важная роль международного сотрудничества, национального законодательства и институтов гражданского общества в обеспечении мира и безопасности.*

Ключевые слова: *преступление, общество, духовная среда, преступность, правонарушение, нравственные нормы, социализация, общественная опасность, вина, наказание, духовно-культурная жизнь, гражданская ответственность, общественные отношения.*

Kirish. Yangi asrda harbiy tajovuz bilan bog'liq jinoyatlar ham ko'paydi. O'tgan asr davomida keng e'tirof etilgan xalqaro huquq meyorlari, Birlashgan Millatlar Tashkilotining mintaqalardagi tinchlikni saqlash maqsadidagi sa'y-harakatlari davlatlar o'rtasidagi qurolli to'qnashuvlarni bir qadar cheklab turgan bo'lsa, yangi asrda bu choralar harbiy tajovuzlarning oldini olish uchun kifoya qilmay qo'ydi. Yangi asrdagi geosiyosiy ziddiyat, bir-biriga diametral qarama-qarshi bo'lgan siyosiy va iqtisodiy manfaatlar tajovuzkor siyosatni, harbiy bosimni, harbiy kuch ishlatishni siyosiy maqsadlarga erishishning asosiy vositalaridan biriga aylantirdi. Bugung kunda ayrim davlatlar va siyosiy kuchlar

muxoliflarga harbiy yo‘l bilan ta’sir o‘tkazishni o‘z maqsadlariga erishishning qonuniy vositasi sifatida ko‘rmoqdalar. Bunday yondashuv qator mintaqalarda katta qurbonlarga va gumanitar inqirozlarga olib kelmoqda.

Mavzuga oida adabiyotlar tahlili. Mazkur tadqiqotlar asnosida turli darajadagi ilmiy natijalar olingan. Jumladan, Cambridge Institute of Criminologyda jinoyatchilikning og‘irligi va ta’sirini o‘lchash uchun maxsus o‘lchovlar tizimi ishlab chiqilgan. Criminology, Policing, and Security Research and Innovation Groupda davlat va xalqaro hamjamiyatning jinoyatchilik bilan kurash borasidagi hamkorligi modeli yaratilgan, Institute for Social Justice and Crimeda jinoyat sodir etgan fuqarolarni jamiyatga qayta integratsiya qilish tavsiyalari umumlashtirilgan, Crime. So‘nggi yillarda mavzuga doir qator e’tiborga loyiq monografiya va maqolalar ilmiy jamoatchilik hukmiga havola qilindi. Xususan, xorijiy mamlakatlarda J. Abraxam, Y. Kang, V. Chekkato, P. Nesman, F. Duarte, S. Gao, L. Lyungkvist, F. Chjan, S. Rattiklarning ilmiy ishida ijtimoiy muhit bilan jinoyatchilik darajasi o‘rtasidagi aloqadorlik, M.K. Anser, Z. Yusuf va A.A. Nassani ilmiy ishida jinoyatchilik va ijtimoiy xarajatlar o‘rtasidagi dinamik bog‘liqliklarni o‘rganganlar.

Tadqiqot metologiyasi. Tadiqiqot ishida dialektik tahlil, tarixiy tahlil, ijtimoiy tahlil, mantiqiy tahlil, kontent-tahlil, solishtirma tahlil kabi ilmiy bilish usullaridan foydalanilgan.

Tahlil va natijalar. Xalqaro huquqshunoslar Iroqqa nisbatan 2003 yilda amalga oshirilgan harbiy harakatlarni tajovuz sifatida baholadilar va keskin tanqid ostiga oldilar. Mazkur harakatlar BMT mandatiga asoslanmagani xalqaro huquq meyorlarining qo‘pol ravishda buzilishi sifatida baholandi. Ushbu harbiy tajovuz oqibatida yuz minglab kishilar hayotdan ko‘z yumdilar, mamlakat esa uzoq yillik beqarorlik davriga qadam qo‘ydi[8:33-35]. Ekspertlarning katta qismi 2014 yildan buyon Ukrainada kechayotgan mojarolarni ham harbiy tajovuz sifatida tavsiflamoqdalar. Ularning fikriga ko‘ra, Qrimning anneksiya qilinishi, undan keyingi qurolli to‘qnashuvlar ham xalqaro huquq meyorlari va davlat suvereniteti tamoyillrining buzilishidan boshqa narsa emas. Yaqin Sharqdagi boshqa tajovuzlar, Yamandagi qonli to‘qnashuvlar, G‘azdagi harbiy harakatlar tinch aholiga nisbatan zo‘ravonlik, inson huquqlari va erkinliklarining qo‘pol ravishda buzilishi va insonparvarlik inqirozining chuqurlashishi bilan namoyon bo‘ldi. Bu misollar XXI asrda harbiy tajovuz bilan bog‘liq jinoyatlar kengayganini, davlatlar o‘rtasida kuch ishlatish tendensiyasi yanada kuchayganini aniq namoyon etadi. Mazkur xavfli tendensiya natijasida jahonda xalqaro huquq meyorlarining qadr-qimmati zaiflashib bormoqda, insoniyat tinchligi va barqaror taraqqiyotiga jiddiy tahdidlar yuzaga kelmoqda.

Zamonaviy kishilik jamiyatida tinchlik va xavfsizlikka qarshi jinoyatchilikning bot-bot yuz ko‘rsatayotgan ko‘rinishlaridan biri genotsid bilan bog‘liq. Genotsid - “insoniyatga qarshi qaratilgan eng og‘ir jinoyatlardan biri, biror-bir milliy, etnik, irqiy, diniy yoki boshqa tarixan shakllangan madaniy-etnik guruhni yoki guruh a’zolarini o‘ldirish; ularning sog‘lig‘iga og‘ir zarar yetkazish, bunday guruhda bola tug‘ilishining oldini olishga mo‘ljallangan chora-tadbirlar; oiladan bolalarni olib qo‘yish; bu guruhni butunlay yoki qisman jismoniy yo‘q qilishga mo‘ljallangan turmush sharoitlarini atayin yaratish yo‘llari bilan butunlay yoki qisman yo‘q qilish maqsadida amalga oshiriladigan vayronkor amaliyotdir” [9;254]. O‘tgan asrda tinchlik va xavfsizlikka qarshi jinoyatchilikning mazkur ko‘rinishi xalqaro jinoyat sifatida tan olindi. Xususan, 1948 yilda BMTning “Genotsid jinoyatini oldini olish va uning uchun jazolash to‘g‘risidagi Konvensiyasi” qabul qilindi[10]. Bir qarashda bu sa’y-harakatlar mazkur jinoyatlarning ildiziga bolta uradigandek, uni batamom tarixning chirkin sahifalarida qoldiradigandek edi. Biroq, ko‘rilgan choralarga qaramasdan XX asr mobaynida genotsid jinoyati takror va takror namoyon bo‘lishda davom etdi. Xalqaro hamjamiyat, huquq ekspertlari ikkinchi jahon urushidan so‘ng sodir bo‘lgan quyidagi voqealarni genotsid sifatida e’tirof qildi: a) 1960 yilning avgustida Tibetda tibetliklarni diniy guruh sifatida yo‘q qilishga qaratilgan urinishlar; b) 1975-1979 yillarda Kambodjada Pol Pot va Iyeng Sari tuzu-mi tomonidan uch milliongacha kambodjaliklarning qirib tashlanishi; v) 1987-1989 yillarda Anfal operatsiyasi jarayonida Iroq qo‘shinlari tomonidan Shimoliy Iroqdagi kurd aholisining qirib tashlanishi; g) 1994 yilda Ruandada ommaviy qirg‘in natijasida xutu qabilasi vakillari tomonidan tutsi qabilasidan 800 ming kishining qirib tashlanishi; d) 1995 yilda Srebrenitsada Bosniya serblari tomonidan bosniyalik musulmonlarning ommaviy tarzda o‘ldirilishi[9;254].

Afsuski, genotsid jinoyatlarining sodir etilishi yangi asrda ham barham topganicha yo‘q. Bugun ham ayrim mamlakatlarda bunday jinoyatlarga yo‘l qo‘yilgani qayd etilmoqda. Ularning eng yorqin misollaridan biri Sudanning Darfur mintaqasida sodir etilgan qatag‘onlardir. 2003 yildan boshlangan bu mojaroda hukumat qo‘shinlari va ularga yordam bergan guruhlar qora tanli mahalliy aholiga qarshi ommaviy zo‘ravonliklarni amalga oshirdi. Natijada minglab odamlar halok bo‘ldi, millionlab insonlar qochqinga aylandi[11;120]. Iroqda 2014 yilda “Islom davlati” nomi ostida tanilgan terrorchilik tashkiloti yezidlarga qarshi ommaviy qirg‘inni amalga oshirildi. Qirg‘in natijasida yuzlab ayollar asir olindi, ko‘plab bolalar qul qilib sotib yuborildi, minglab odamlar shafqatsizlarcha o‘ldirildi[12;117-124]. Bularning barchasi yangi asrda ham tinchlik va xavfsizlikka qarshi jinoyatlarning mazkur ko‘rinishi saqlanib qolayotganidan dalolat beradi.

XXI asrda tinchlik va xavfsizlikka qarshi jinoyatlarning eng tahdidlilaridan biri turli harbiy guruhlarga jangchi sifatida yollanish bilan bog‘liq bo‘lib qoldi. Geosiyosiy ziddiyatlar turli siyosiy kuchlar tomonidan qo‘llab-quvvatlanadigan xususiy harbiy kompaniyalar, terroristik guruhlar sonini misli ko‘rilmagan darajada ko‘paytirdi. Bu kompaniya va guruhlar jahonning o‘nlab nuqtalarida harbiy operatsiyalarni amalga oshirmoqdalar. Mazkur

operatsiyalar ko‘plab yollanma jangchilarni jalb qilishni taqozo etadi, albatta. Shuning uchun ham harbiy kompaniyalar va terroristik guruhlar ko‘plab mintaqalarda targ‘ibot va tashviqot ishlariga zo‘r bermoqdalar. “Ahamiyatli jihati shundaki, vayronkor g‘oya va ta’limotlar stixiyali ravishda targ‘ib va tashviq qilinayotgani yo‘q. U shunday targ‘ibotga moslashgan turli markazlar, uyushmalar, institutlar tomonidan puxta o‘ylangan reja va dasturlar asosida, samarali uslub va usullarga tayangan holda olib borilmoqda. Bu markazlar turli axborot byurolari, videomahsulotlar ishlab chiqarish studiyalari, xorijiy tillarda materiallar tayyorlash byurolari, qo‘shiqlar va she’rlar tayyorlash studiyalari, uslubiy bo‘limlarni o‘z ichiga oladi”[13;43].

Barcha mamlakatlarda ana shunday qudratli targ‘ibot mashinasi domiga tushib, harbiy kompaniyalar va guruhlarga yollanganlar soni ortib bormoqda. Jahonda harbiy kompaniya va guruhlarga jangchi sifatida yollanganlarning aniq soni ma’lum emas. Biroq mazkur kompaniya va guruhlarda ja’m bo‘lgan jangarilar soniga qarab xulosa chiqaradigan bo‘lsak, gap ming-minglab yoshlar haqida borayotganiga amin bo‘lamiz.

Yollanish ko‘plab jamiyatlar, davlatlar, butun jahon hamjamiyati uchun qator jiddiy oqibatlarni keltirib chiqarmoqda. Yollangan jangchilar o‘zlari faoliyat olib borgan hududdagi infratuzilmalarni - yo‘llar, ko‘priklar, maktablar, shifoxonalar va muhim strategik obyektlarni qasddan yo‘q qilmoqdalar, shu hududdagi iqtisodiy barqarorlikni izdan chiqarmoqdalar. Bunday vayronagarchilik natijasida harbiy mojarolarga tortilgan hudud iqtisodiyoti keskin qulamoqda, aholi turmush darajasi tushib ketmoqda, ijtimoiy inqirozlar yuzaga kelmoqda. Harbiy tajribaga, qurol ishlatish ko‘nikmasiga, zo‘ravonlik psixologiyasiga ega bo‘lgan holda Vataniga qaytgan yollanma jangchilar o‘z yurtlaridagi osoyishta hayotga ham katta tahdid solmoqdalar. Bunday kishilar o‘z tajribalarini yosh avlodga o‘rgatish va shuning bilan yollanma jangchilarning yangi avlodini shakllantirish xavfini ham yuzaga keltirmoqdalar.

Xulosa va takliflar. Tinchlik va xavfsizlikka qarshi jinoyatchilikning bugungi kundagi eng vayronkor ko‘rinishi terrorizm bo‘lib qolmoqda. Terrorizm muayyan ijtimoiy-siyosiy, mafkuraviy yoxud diniy maqsadlarga erishish yo‘lida jamiyatda beqarorlik, aholi orasida esa qo‘rquv uyg‘otishga qaratilgan amaliyotdir. Odatda terroristik harakatlar tinch aholining kundalik turmushini buzishga, ijtimoiy obyektlarni ishdan chiqarishga, kommunikatsiya tarmoqlariga putur yetkazishga, siyosiy rahbarlar yoki jamoat arboblarini jismonan yo‘q qilishga yo‘naltirilgan bo‘ladi[14;12-16]. Zamonaviy terrorizm siyosiy hokimiyatni o‘zgartirishga qaratilgan siyosiy terrorizm, soxta diniy mafkura asosida tashkil etilgan diniy terrorizm, o‘zga millat vakillariga qarshi kurash tufayli vujudga kelgan terrorizm, zamonaviy raqamli texnologiyalarga asoslangan kiberterrorizm shakllarida namoyon bo‘lmoqda[15;12-16]. Xullas, har qanday ijtimoiy shart-sharoitda jinoyatchilik jamiyatning ijtimoiy-iqtisodiy, siyosiy va ma’naviy barqarorligiga salbiy ta’sir ko‘rsatadigan, ravnaqini sekinlashtiradigan omil sifatida namoyon bo‘ladi. U jamiyatning moddiy poydevori bo‘lmish iqtisodiy tizimga shikast yetkazadi, siyosiy barqarorlik va davlat boshqaruvi samaradorligiga tahdid soladi, ijtimoiy sohasining barqaror va uyg‘un ravnaqiga imkon qoldirmaydi, ma’naviy-madaniy hayotni zaiflashtiradi, oilalardagi muhitni buzadi, jamoat xavfsizligini izdan chiqaradi. Binobarin, jinoyatchilik mohiyati va ko‘lami, ijtimoiy oqibatlari va tahdidi nafaqat huquqiy nuqtai nazardan, balki ijtimoiy, iqtisodiy, siyosiy va ma’naviy-madaniy rakursdan ham tahlil qilinmog‘i va baholanmog‘i lozim.

Annotatsiya: *Mazkur maqolada oliy ta'lim muassasalarida ma'naviy-axloqiy tarbiyaning hozirgi holati va tizimli muammolari tahlil qilinadi. Tadqiqot davomida an'anaviy deklarativ axloqiy tarbiya usullari zamonaviy talabalarning murakkab ijtimoiy-psixologik ehtiyojlarini qondira olmasligini ko'rsatadi. Teatr san'atining talabalar ma'naviy-axloqiy kompetentligini rivojlantirishda innovatsion pedagogik vosita sifatidagi roli asoslanadi. OTM, teatr jamoalari va ma'naviyat markazlarini birlashtiruvchi «Badiiy-pedagogik klister» modeli kontseptsiyasi taklif etiladi. Maqolada teatr pedagogikasi –Forum-teatr, Psixodrama, Sotsodrama –ni ta'lim jarayoniga integratsiya qilish talabalarning ma'naviy-axloqiy kompetentlik ko'rsatkichlarini 30-40 foizga oshirishi mumkinligi ta'kidlanadi. Tadqiqot natijalari ma'naviy-axloqiy tarbiya faqat axborot uzatish bilan cheklanmay, balki talabaning ichki qadriyatlar tizimini o'zgartiruvchi murakkab psixopedagogik jarayon bo'lishi kerakligini tasdiqlaydi.*

Kalit so'zlari: *ma'naviy-axloqiy kompetentlik, oliy ta'lim, teatr pedagogikasi, Forum-teatr, axloqiy tarbiya, axloqiy immunitet, pedagogik dramaturgiya, innovatsion metodlar, qadriyatlar tizimi, badiiy-pedagogik klister.*

CURRENT STATE AND PROBLEMS OF SPIRITUAL-MORAL EDUCATION IN HIGHER EDUCATION

Abstract: *This article analyzes the current state and systemic problems of spiritual-moral education in higher education institutions. The research reveals that traditional declarative methods of moral upbringing no longer meet the complex socio-psychological needs of modern students. The role of theatrical art as an innovative pedagogical tool for developing students' spiritual-moral competence is substantiated. The concept of the «Artistic-Pedagogical Cluster» model is proposed, combining higher educational institutions, theatrical groups, and spiritual-enlightenment centers. The article emphasizes that integrating theatrical pedagogy –Forum-theatre, Psychodrama, and Sotsodrama – into the educational process can increase students' moral competence indicators by 30-40%. The findings confirm that spiritual-moral education should not be limited to information transfer but should represent a complex psycho-pedagogical process that transforms the student's inner value system.*

Key words: *spiritual-moral competence, higher education, theatrical pedagogy, Forum-theatre, moral upbringing, moral immunity, pedagogical drama, innovative methods, value system, artistic-pedagogical cluster.*

СОВРЕМЕННОЕ СОСТОЯНИЕ И ПРОБЛЕМЫ ДУХОВНО-НРАВСТВЕННОГО ВОСПИТАНИЯ В СИСТЕМЕ ВЫСШЕГО ОБРАЗОВАНИЯ

Аннотатция: *В данной стате анализируется современное состояние и системные проблемы духовно-нравственного воспитания в высших учебных заведениях. В ходе исследования выявлено, что традитсионные декларативные методы нравственного воспитания уже не отвечают сложным сотсиально-психологическим потребностям современных студентов. Обосновывается рол театрального искусства как инновационного педагогического инструмента развития духовно-нравственной компетентности студентов. Предлагается консепсия модели «Художественно-педагогического кластера», объединяющего высшие учебные заведения, театралные коллективы и духовно-просветителсские сентры. В стате подчёркивается, что интеграtсия театралной педагогики – Форум-театра, Психодрамы, Сотсиодрамы –в учебный протсесс может повысит показатели нравственной компетентности студентов на 30–40%.*

Ключевые слова: *духовно-нравственная компетентност, высшее образование, театралная педагогика, Форум-театр, нравственное воспитание, нравственный иммунитет, педагогическая драма, инновационные методы, система сенностей, художественно-педагогический кластер.*

Kirish (Introduction). Hozirgi davrda oliy ta'lim muassasalarida talabalarning ma'naviy-axloqiy kompetentligini shakllantirish jarayoni pedagogik fanning eng ustuvor va murakkab yo'nalishlaridan biri bo'lib qolmoqda. Globallashuv sharoitida yoshlarning dunyoqarashini milliy va umuminsoniy qadriyatlar asosida boyitish shunchaki ijtimoiy ehtiyoj emas, balki davlat xavfsizligi va millat barqarorligini ta'minlovchi strategik vazifa sifatida talqin etilmoqda. Oliy ta'lim tizimida ma'naviy-axloqiy tarbiya kontseptsiyasi bugungi kunda talabaning shaxsiy fazilatlari, ijtimoiy mas'uliyati va professional etikasini uyg'unlashtirishga qaratilgan.

O'zbekiston Respublikasi Prezidenti Shavkat Mirziyoev ta'lim tizimini isloh qilish, yoshlarning ma'naviy-axloqiy tarbiyasini kuchaytirish masalasiga alohida e'tibor qaratib, "Ta'lim va tarbiya – bu hayot-mamot masalasi, kelajak masalasi" ekanini ta'kidlaydi. Shu nuqtai nazardan, maqolaning maqsadi oliy ta'lim tizimidagi ma'naviy-axloqiy tarbiyaning hozirgi holati va tizimli muammolarini tahlil qilish hamda teatr san'ati asosida innovatsion yechim yo'llarini asoslashdan iborat.

Tadqiqotlar shuni ko'rsatadiki, talaba-yoshlarning axloqiy ongini rivojlantirishda faqatgina nazariy bilimlarni berish yetarli emas; bunda tarbiya jarayonining subekt-subekt munosabatlariga asoslanishi, ya'ni talabaning o'zi bu jarayonning faol ishtirokchisi va yaratuvchisiga aylanishi lozim [1]. Amaldagi pedagogik amaliyotda "Ma'naviyat va ma'rifat" bo'limlari tomonidan olib borilayotgan ishlar mazmunan yangilanayotgan bo'lsa-da, ularning tashkiliy shakllari hamon deklarativ va quruq targ'ibot xarakteridan to'liq xalos bo'lgani yo'q.

Mavzuga oid adabiyotlarning tahlili (Literature review). O'zbekiston pedagogika ilmida ma'naviy-axloqiy tarbiya muammosi umumiy pedagogika va tarbiya nazariyasi doirasida keng yoritilgan. O.Musurmonova ma'naviy qadriyatlar va yoshlar tarbiyasi masalasini o'rganib, tarbiyaviy jarayonning milliy asoslarini aniqlagan [1]. X.I. Ibragimov va Sh.A. Abdullaeva pedagogika nazariyasi darsligida tarbiyaning shaxs kamolotidagi o'rni batafsil tahlil qilingan [2]. K. Hoshimov va S.Safoeva pedagogika tarixi asarida milliy tarbiyaviy an'analarning zamonaviy ta'lim tizimidagi roli ko'rsatilgan [3].

N.T. Omonov va boshqalarning pedagogik texnologiyalar va pedagogik mahorat bo'yicha tadqiqotlarida innovatsion o'qitish metodlarining ma'naviy tarbiyaga ta'siri o'rganilgan [4]. A.Zunnunov va R.A. Mavlonova kabi o'zbek pedagog-olimlari ham axloqiy tarbiyaning tizimli asoslarini ishlab chiqishga muhim hissa qo'shganlar [5, 6]. J.G'. Yo'ldoshev va S.A. Usmonov zamonaviy pedagogik texnologiyalarni amaliyotga joriy qilish bo'yicha tadqiqotlarida ma'naviy-axloqiy tarbiyaning innovatsion mexanizmlarini tahlil qilganlar [7].

Tadqiqotlar tahlili shuni ko'rsatadiki, an'anaviy pedagogik yondashuvlar ma'naviy-axloqiy kompetentlikni rivojlantirishda yetarli samaradorlikni ta'minlay olmaydi. Bu holat innovatsion metodlar, xususan teatr pedagogikasini ta'lim jarayoniga integratsiya qilishni taqozo etadi.

Tadqiqot metodologiyasi (Research Methodology). Tadqiqotda qiyosiy-tahliliy, tizimli va aksiologik metodlardan foydalanildi. Oliy ta'lim muassasalarida olib borilgan pedagogik kuzatishlar, so'rovnomalar va empirik tahlillar asosida holat baholanadi. Mavjud ilmiy adabiyotlar, normativ hujjatlar va xalqaro tajribalar tahlil qilindi. Tadqiqot natijalarining ishonchliligi pedagogik kuzatishlar, statistik ma'lumotlar va qiyosiy tahlil orqali ta'minlandi.

Tadqiqot metodologiyasining asosini shaxsga yo'naltirilgan (faoliyatga asoslangan) yondashuv tashkil etadi. Bu yondashuv talabani ta'lim-tarbiya jarayonining faol subekti sifatida ko'rib, uning ichki motivatsiyasi, qadriyatlari va ijtimoiy tajribasini rivojlantirishga yo'naltiradi. Teatr pedagogikasining tarbiyaviy imkoniyatlarini baholashda Stanislavski ta'limoti, Platon, Aristotel va Kantning falsafiy qarashlari nazariy asos sifatida xizmat qildi.

Tahlil va natijalar (Analysis and results). Oliy ta'lim pedagogikasida ma'naviy-axloqiy kompetentlik tushunchasi talabaning o'z xulq-atvorini ijtimoiy normalar bilan muvofiqlashtira olishi, murakkab hayotiy vaziyatlarda axloqiy tanlovni amalga oshirish qobiliyati sifatida tushuniladi. Bugungi kunda ushbu jarayonni tashkil etishda tizimlilik prinsip yetakchi o'rin egallaydi, biroq tahlillar ko'rsatishicha, ko'plab OTMlarda tarbiyaviy ishlar o'quv jarayonidan uzilib qolgan [2]. Ayniqsa, texnik va muhandislik yo'nalishlarida gumanitar fanlar blokining qisqarishi talabalarning estetik didi va ma'naviy dunyosining torayishiga sabab bo'layotgani sir emas.

Mazkur muammoni sotsial-psixologik jihatdan o'rganish shuni ko'rsatadiki, zamonaviy talabaning qadriyatlar tizimida pragmatizm va individualizm unsuri kuchayib borayotgani kuzatiladi [3]. Bu holat ta'lim tizimidagi tarbiya mexanizmlarini qayta ko'rib chiqishni taqozo etadi. Ma'naviy-axloqiy kompetentlikni rivojlantirishda faqat dars darsliklari bilan cheklanib qolmasdan, talabalarning bo'sh vaqtini mazmunli tashkil etishda san'at va madaniyat muassasalari, xususan, teatr san'ati bilan integratsiyani kuchaytirish zarur.

Hozirgi sharoitda oliy ta'limda ma'naviy-axloqiy muhitni sog'lomlashtirish uchun muhim jihat –bu o'qituvchi va murabbiylarning shaxsiy namunasi masalasidir. Pedagogik etika qoidalariga ko'ra, o'qituvchi faqat axborot yetkazuvchi emas, balki yuksak axloqiy ideal darajasida namoyon bo'lishi kerak [4]. Shu sababli, ma'naviy-axloqiy tarbiya tizimini isloh qilishni, avvalo, pedagoglar tarkibining ma'naviy qiyofasini shakllantirish va ularning metodik mahoratini oshirishdan boshlash lozim.

Oliy ta’lim tizimida talabalar ma’naviy-axloqiy kompetentligini shakllantirish jarayoni bir qator obektiv va subektiv to‘siqlarga duch kelmoqda. Ko‘p hollarda oliy o‘quv yurtlarida ma’naviy-axloqiy tarbiya faqatgina ma’lumot berish, ya’ni deklarativ xarakterdagi targ‘ibot-tashviqot ishlari bilan cheklanib qolmoqda [5]. Bunday yondashuv talabalarda axloqiy bilimlarni shakllantirsa-da, ularni hayotiy e’tiqodga va amaliy ko‘nikmaga aylantira olmayapti.

Yana bir jiddiy muammo – bu oliy ta’lim muassasalarida ma’naviy-axloqiy muhitni baholash va monitoring qilishning ilmiy asoslangan kriteriyalarining yetishmasligidir. Hozirda talabaning ma’naviy kamoloti ko‘pincha uning tadbirlardagi ishtiroki yoki tartib-intizomi bilan o‘lchanadi, biroq uning ichki qadriyatlar tizimi e’tibordan chetda qolmoqda [6]. Ma’naviy-axloqiy kompetentlik – bu murakkab psixopedagogik tuzilma bo‘lib, u kognitiv, motivatsion va operatsion komponentlarni o‘z ichiga oladi.

Axborot-kommunikatsiya texnologiyalarining jadal rivojlanishi va ijtimoiy tarmoqlarning talabalar hayotiga chuqur kirib borishi ham tarbiyaviy ishlarga o‘zining salbiy ta’sirini o‘tkazmoqda [7]. “Ommaviy madaniyat” namunalari, axloqsizlikni targ‘ib qiluvchi kontentlar yoshlarning estetik didini o‘tmaslashtirib, ularda milliy o‘zlikka nisbatan bepisandlik kayfiyatini uyg‘otmoqda. Buning o‘rniga talabalarda axborotni filtrlash, tanqidiy tahlil qilish va axloqiy immunitetni shakllantirish bo‘yicha tizimli ishlar olib borilishi zarur.

Bundan tashqari, professor-o‘qituvchilarning ma’naviy-axloqiy tarbiya jarayonidagi metodik tayyorgarligi ham bugungi kun talablariga to‘liq javob bermaydi [4]. Ko‘p hollarda maxsus fan o‘qituvchilari tarbiyaviy ishlarni o‘zlarining bevosita vazifalaridan tashqaridagi faoliyat deb hisoblaydilar. Vaholanki, har qanday fanni o‘qitish jarayoni o‘zida ulkan axloqiy salohiyatni mujassam etadi.

Teatr san’atining o‘ziga xosligi shundaki, u talabadagi empatiya, ya’ni o‘zgalar hissiyotini tushunish va ularga hamdard bo‘lish qobiliyatini rivojlantirishning eng qulay modelidir [7]. Sahnada ma’lum bir rolni ijro etish jarayonida talaba o‘sha qahramonning axloqiy dunyosiga kirib boradi, uning xatolaridan xulosa chiqaradi va bu jarayon uning ongsiz darajasidagi axloqiy filtrlarini shakllantiradi. Bunday yondashuv “pedagogik dramaturgiya” tamoyili asosida qurilib, ta’lim oluvchini passiv tinglovchidan faol ijodkorga aylantiradi.

Tarbiya tizimiga “Sotsodrama” va “Psixodrama” elementlarini olib kirish ham dolzarb ahamiyatga ega. Talabalar hayotida uchraydigan ziddiyatli vaziyatlarni –korrupsiya, loqaydlik, ota-ona bilan munosabatlar – kichik sahna ko‘rinishlari orqali tahlil qilish, ularga axloqiy yechim topish talabalarda amaliy axloqiy kompetensiyalarni rivojlantiradi [2]. Bu metodika talabaga real hayotda xato qilmasdan turib, xato qilishning oqibatlarini anglash imkonini beradi.

Ma’naviy-axloqiy tarbiya jarayonida “katarsis” (poklanish) effekti markaziy o‘rin tutadi [5]. Ya’ni, talaba sahnadagi qahramonning ruhiy azoblari, xatolari va axloqiy yuksalishini ko‘rish orqali o‘z ichki dunyosida ham shu kabi jarayonlarni boshidan o‘tkazadi. Bu esa yoshlarda milliy va umuminsoniy qadriyatlarga nisbatan daxldorlik hissini uyg‘otadi.

Teatr san’atining korreksion imkoniyatlari talabalarda “ommaviy madaniyat” ta’sirida shakllangan yuzaki qarashlarni va axloqiy nihilizmni bartaraf etishda nihoyatda samaralidir [1]. Badiiy-estetik vositalar orqali talabaning axloqiy qarashlariga ta’sir ko‘rsatish, uning ongida «axloqiy immunitet»ning shakllanishini ta’minlaydi. Oliy ta’lim tizimida teatr pedagogikasining joriy etilishi tarbiya mazmunini boyitib, uni quruq pand-nasihatdan jonli muloqot va jonli kechinmaga aylantiradi.

Istiqbolli model sifatida «Badiiy-pedagogik klister» tizimini taklif etish mumkin. Ushbu tizim doirasida OTM, teatr jamoalari va ma’naviyat markazlarining o‘zaro hamkorligi talabalarning bo‘sh vaqtini mazmunli tashkil etish bilan birga, ularning kasbiy etikasini shakllantirishga ham xizmat qiladi. Tadqiqotimiz jarayonida aniqlanganidek, ma’naviy-axloqiy tarbiya jarayonida san’at elementlaridan foydalanish talabalardagi stress darajasini kamaytiradi va ularning ijtimoiy moslashuvini tezlashtiradi.

Ma’naviy-axloqiy kompetentlik – bu faqatgina tartib-intizom emas, balki shaxsning ichki erkinligi va mas’uliyatining uyg‘unligidir. Teatr san’ati aynan mana shu ichki erkinlikni tarbiyalaydi, talabaga o‘zligini namoyon etish uchun maydon beradi. Pedagogik jarayonni san’at bilan sintez qilish orqali talabaning ichki intellektual-axloqiy salohiyatini to‘liq namoyon etishga erishish mumkin.

Xulosa va takliflar (Conclusion/Recommendations). Xulosa qilib aytganda, oliy ta’lim tizimida ma’naviy-axloqiy kompetentlikni rivojlantirishning an’anaviy usullari inqirozga yuz tutayotgan hozirgi bosqichda, ta’lim oluvchilarning emotsional va intellektual sohalariga birdek ta’sir ko‘rsatuvchi innovatsion mexanizmlarni joriy etish ob’ektiv zaruriyatga aylandi. Teatr san’ati shunchaki madaniy hordiq vositasi emas, balki shaxsning axloqiy o‘z-o‘zini anglashini faollashtiruvchi kuchli pedagogik asbob sifatida namoyon bo‘ladi.

Talabalarning ma’naviy-axloqiy kompetentligini rivojlantirishdagi to‘siqlar kompleks xarakterga ega bo‘lib, ularni bartaraf etish tarbiya jarayonini gumanitarizatsiya qilishni, innovatsion badiiy-estetik vositalarni (xususan, teatr san’ati elementlarini) keng joriy etishni hamda pedagogik diagnostikani takomillashtirishni talab etadi. Ma’naviy-axloqiy tarbiya shunchaki axborot almashish emas, balki talaba qalbi va ongida insonparvarlik qadriyatlarini qayta qurish jarayonidir.

Quyidagi tavsiyalar ilgari suriladi: birinchidan, oliy ta’lim muassasalarida teatr pedagogikasiga asoslangan maxsus kurs yoki modul joriy etish; ikkinchidan, «Badiiy-pedagogik klister» tizimini yaratish orqali OTM, teatr jamoalari va ma’naviyat markazlari o‘rtasida hamkorlikni yo’lga qo‘yish; uchinchidan, Forum-teatr, improvizatsiya va sotsodrama metodlarini o‘quv jarayoniga integratsiya qilish; to‘rtinchidan, ma’naviy-axloqiy kompetentlikni baholashda “Axloqiy kundaliklar” va “Refleksiv hisobotlar” kabi innovatsion diagnostik vositalardan foydalanish; beshinchidan, pedagoglar malakasini teatr pedagogikasi metodikasi bo‘yicha oshirish uchun maxsus kurslar tashkil etish.

Annotatisya. *Mazkur maqolada Yangi O‘zbekistonni barpo etish sharoitida adolat g‘oyasining ijtimoiy-falsafiy mazmun-mohiyati tadqiq etiladi. Muallif adolat tushunchasining huquqiy me’yordan davlatning aksiologik poydevoriga aylanish jarayonini tahlil qiladi. Tadqiqotda “Inson qadri uchun” tamoyili va yangi tahrirdagi Konstitutsiyada belgilangan “ijtimoiy davlat” modelining falsafiy asoslari yoritilgan. Shuningdek, Yusuf Xos Hojibning adolatli davlat boshqaruvi haqidagi qarashlari zamonaviy islohotlar kontekstida qiyoslanadi.*

Kalit so‘zlar. *adolat, Yangi O‘zbekiston, inson qadri, ijtimoiy davlat, Yusuf Xos Hojib, ijtimoiy falsafa, islohotlar, aksiologiya, davlatchilik, adolatli jamiyat.*

ФИЛОСОФСКАЯ СУЩНОСТЬ И РОЛЬ КАТЕГОРИЙ СПРАВЕДЛИВОСТИ, РАВЕНСТВА И СВОБОДЫ В РАЗВИТИИ ОБЩЕСТВА

Аннотатsiя. *В данной статье исследуется социально-философское содержание идеи справедливости в условиях строительства Нового Узбекистана. Автор анализирует процесс трансформатsiи понятия справедливости из правовой нормы в аксиологический фундамент государства. В исследовании освещаются философские основы принципа «Ради достоинства человека» и модели «социального государства», закрепленной в новой редакции Конституции. Также проводится сопоставление взглядов Юсуфа Хос Хаджиба о справедливом государственном управлении в контексте современных реформ.*

Ключевые слова. *справедливость, Новый Узбекистан, достоинство человека, социальное государство, Юсуф Хос Хаджиб, социальная философия, реформы, аксиология, государственность, справедливое общество.*

THE PHILOSOPHICAL NATURE OF THE CATEGORIES OF JUSTICE, EQUALITY, AND FREEDOM AND THEIR ROLE IN THE DEVELOPMENT OF SOCIETY

Annotation. *This article explores the socio-philosophical essence of the idea of justice in the context of building a New Uzbekistan. The author analyzes the transformation of the concept of justice from a legal norm into an axiological foundation of the state. The research highlights the philosophical foundations of the "For Human Dignity" principle and the "social state" model established in the newly revised Constitution. Furthermore, it compares Yusuf Khos Khojib's views on just governance within the context of contemporary reforms.*

Keywords. *justice, New Uzbekistan, human dignity, social state, Yusuf Khos Khojib, social philosophy, reforms, axiology, statehood, just society.*

Insoniyat sivilizatsiyasi tarixida adolat tushunchasi hamisha jamiyatning barqarorligini, davlatning qudratini va insonlar o‘rtasidagi munosabatlarning ma’naviy mezonini belgilovchi markaziy kategoriya bo‘lib kelgan. Yangi O‘zbekistonni barpo etish jarayonida adolat g‘oyasi shunchaki huquqiy tamoyil emas, balki mamlakatni modernizatsiya qilish va Uchinchi Renessans poydevorini qurishning strategik mafkuraviy asosi sifatida namoyon bo‘lmoqda. Ijtimoiy-falsafiy nuqtai nazardan adolat — bu jamiyatdagi ijtimoiy ne’matlarning taqsimlanishi, inson huquq va erkinliklarining ta’minlanishi hamda davlat va fuqaro o‘rtasidagi o‘zaro mas’uliyatning uyg‘unligidir. O‘zbekiston Respublikasi Prezidenti Shavkat Mirziyoev qayd etganidek: **“Adolat — davlatchilikning mustahkam poydevoridir. Qonun ustuvor bo‘lgan jamiyatdagina adolat qaror topadi, inson huquqlari ishonchli himoya qilinadi”** [1; Б. 508].

Yangi O‘zbekistonda adolat g‘oyasining ijtimoiy-falsafiy talqini “Inson qadri uchun” tamoyili bilan uzviy bog‘liq bo‘lib, u shaxsning manfaatlarini davlat manfaatlaridan ustun qo‘yishni nazarda tutadi. Bu jarayonda adolat konsepsiyasi an’anaviy huquqiy tushuncha doirasidan chiqib, aksiologik mazmun kasb etmoqda. Davlat boshqaruvining

yangi bosqichida adolat — ijtimoiy tengsizlikni yumshatish, kambag‘allikni qisqartirish va har bir fuqaroga o‘z salohiyatini ro‘yobga chiqarish uchun imkoniyat yaratish sifatida talqin qilinmoqda. Yangi tahrirdagi Konstitutsiyada O‘zbekistonning “ijtimoiy davlat” deb e’lon qilinishi adolat g‘oyasining huquqiy va falsafiy transformatsiyasining oliy ifodasi bo‘ldi [2]. Zero, ijtimoiy adolatsizlik hukm surgan muhitda jamiyatning ma’naviy yangilanishi va barqaror iqtisodiy o‘sishga erishish imkonsizdir.

Mazkur tadqiqotning dolzarbligi shundaki, bugungi globallashuv va mafkuraviy ziddiyatlar sharoitida milliy davlatchilik asoslarini mustahkamlashda adolat g‘oyasining ijtimoiy-falsafiy jihatlarini ilmiy asoslash hayotiy zaruratga aylandi. Adolat tushunchasining tarixiy-milliy ildizlari, xususan, Amir Temurning “Kuch - adolatdadir” tamoyili va Forobiyning “fozil jamiyat” haqidagi qarashlari zamonaviy islohotlar kontekstida qayta tahlil qilinishi lozim [3; Б. 160].

Maqolaning maqsadi - Yangi O‘zbekistonda adolat g‘oyasining ijtimoiy-falsafiy mohiyatini ochib berish, uning jamiyat hayotidagi funksiyalarini aniqlash va inson qadrini ulug‘lashdagi strategik o‘rnini ilmiy asoslab berishdan iborat.

Yangi O‘zbekiston taraqqiyot bosqichida adolat g‘oyasining ijtimoiy-falsafiy transformatsiyasini tadqiq etishda bir qator ilmiy-falsafiy metodlar majmuasidan foydalanildi. Tadqiqotning metodologik asosini, birinchi navbatda, **qiyosiy-tarixiy tahlil** metodi tashkil etadi. Ushbu metod yordamida sohibqiron Amir Temur davridagi adolat mezonlari, islom falsafasidagi adolat tushunchasi va zamonaviy demokratik jamiyatlardagi adolat konsepsiyalari qiyosiy o‘rganildi. Bu yondashuv Yangi O‘zbekistondagi adolat g‘oyasining nafaqat tarixiy ildizlarini, balki uning zamon talablariga mos ravishda yangilanish qonuniyatlarini aniqlash imkonini berdi [4; Б. 416].

Tadqiqot jarayonida **dialektik metod** markaziy o‘rin tutadi. Ushbu metod yordamida “davlat manfaati” va “inson qadri” o‘rtasidagi dialektik aloqadorlik, ijtimoiy tenglik va individual erkinlik o‘rtasidagi ziddiyatlar hamda ularning adolat g‘oyasi doirasidagi birligi tahlil qilindi. Shuningdek, **aksiologik yondashuv** orqali adolat g‘oyasining Yangi O‘zbekiston mafkurasidagi o‘rni va uning inson qadrini ulug‘lashdagi qadriyat sifatidagi ahamiyati baholandi. Bunda adolat shunchaki huquqiy norma emas, balki jamiyatning ma’naviy barqarorligini ta’minlovchi oliy qadriyat sifatida tadqiq etildi [5; Б. 56–62].

Ijtimoiy munosabatlarni isloh qilishda adolatning rolini o‘rganishda **sistemali-funksional yondashuv** qo‘llanildi. Ushbu metod jamiyatni yaxlit tizim sifatida ko‘rib, adolatni ushbu tizimning samarali ishlashini ta’minlovchi asosiy drayver sifatida talqin qilishga yordam berdi. Shuningdek, O‘zbekiston Respublikasi Prezidentining asarlari, ma’ruzalari va yangi tahrirdagi Konstitutsiya normalarini ijtimoiy-falsafiy jihatdan talqin qilish uchun **germenevtik metod** hamda mazmun-mohiyatni yoritishda deduksiya va induksiya usullaridan foydalanildi. Ilmiy mushohadalar jarayonida mavjud ijtimoiy voqelik, davlat dasturlarining ijrosi va jamiyatdagi ijtimoiy kayfiyatlarning ilmiy umumlashmalariga tayanildi. [6]

Yangi O‘zbekiston taraqqiyot strategiyasi doirasida amalga oshirilayotgan islohotlarni ijtimoiy-falsafiy tahlil qilish natijasida adolat g‘oyasining transformatsiyasi bo‘yicha quyidagi ilmiy natijalarga erishildi.

Birinchidan, adolat tushunchasining an’anaviy huquqiy chegaralardan chiqib, davlatchilikning aksiologik poydevoriga aylangani aniqlandi. Tadqiqot natijalari shuni ko‘rsatadiki, Yangi O‘zbekistonda adolat konsepsiyasi “Inson qadri uchun” tamoyili orqali ontologik mazmun kasb etgan. Ya’ni, adolat endilikda faqat qonun oldida tenglik emas, balki insonning yashashi, bilim olishi va mehnat qilishi uchun zarur bo‘lgan barcha sharoitlarning davlat tomonidan kafolatlanishi sifatida talqin qilinmoqda. Bu esa jamiyatda ijtimoiy barqarorlikni ta’minlovchi yangi ma’naviy muhitni yuzaga keltirgan [7; Б. 102–108].

Ikkinchidan, adolat g‘oyasining ijtimoiy davlat modeli bilan integratsiyalashuvi natijasida kambag‘allikni qisqartirish va ijtimoiy himoya tizimining falsafiy-metodologik asoslari yangilandi. Natijalar shuni tasdiqlaydiki, “Temir daftar”, “Ayollar daftari” va “Yoshlar daftari” kabi mexanizmlarning joriy etilishi adolatning taqsimlovchi funksiyasini amaliy ifodasi bo‘ldi. Bu jarayonda ijtimoiy adolat - jamiyatning eng muhtoj qatlamlarini qo‘llab-quvvatlash orqali umumiy farovonlikka erishish strategik maqsadi sifatida namoyon bo‘ldi. Iqtisodiy islohotlarning ijtimoiy yo‘naltirilganligi adolat g‘oyasining jamiyat taraqqiyotidagi drayverlik rolini isbotlab berdi [8; Б. 144].

Uchinchidan, adolatli jamiyat qurishda huquqiy va axloqiy normalarning dialektik birligi Yangi O‘zbekistonning mafkuraviy ustuniga aylangani asoslab berildi. Tadqiqot davomida aniqlandiki, Sohibqiron Amir Temurning adolat haqidagi o‘gitlari zamonaviy boshqaruv tizimiga “Xalq davlat idoralariga emas, davlat idoralari xalqimizga xizmat qilishi kerak” degan konsepsiya shaklida singdirilgan. Bu natija davlat va fuqaro o‘rtasidagi munosabatlarni “manfaatlar to‘qnashuvi”dan “o‘zaro mas’uliyat va ishonch” bosqichiga olib chiqdi.

To‘rtinchidan, adolatli sud-huquq tizimining shakllanishi inson huquqlarini falsafiy himoya qilishning oliy bosqichi ekanligi va u jamiyatda huquqiy nigilizmni bartaraf etishning asosiy omili ekanligi ilmiy jihatdan tasdiqlandi [9; Б. 73–85].

Yangi O‘zbekistonda adolat g‘oyasining ijtimoiy-falsafiy transformatsiyasini muhokama qilish jarayonida ushbu kategoriyaning davlatchilik tizimidagi o‘rni fundamental o‘zgarishlarga yuz tutgani namoyon bo‘ladi. Falsafa tarixida adolat tushunchasi hamisha “tenglik” va “loyiqlik” o‘rtasidagi muvozanat sifatida talqin etilgan. Agar G‘arb falsafasida

Jon Roulz adolatni ijtimoiy institutlarning birinchi fazilati va ne'matlarni adolatli taqsimlash tartibi sifatida ko'rgan [10; Б. 607], bo'lsa, Yangi O'zbekiston modelida adolat tushunchasi Sharqona insonparvarlik va ma'naviy mas'uliyat bilan boyitilgan. Bu yerda adolat shunchaki "huquqiy mezon" emas, balki Amir Temur bobomizning «Adolat har bir ishda hamrohimiz va dasturimiz bo'lsin!» degan o'lmas vasiyatining zamonaviy davlatchilik tilidagi ifodasidir. Muhokama shuni ko'rsatadiki, Sohibqironning ushbu tamoyili bugungi kunda "davlat organlari xalqqa xizmat qilishi kerak" degan konseptual o'zgarishning ma'naviy poydevori bo'lib xizmat qilmoqda.

Ijtimoiy-falsafiy tahlillar shuni anglatadiki, adolat g'oyasining Yangi O'zbekistondagi talqinida "Inson qadri" markaziy o'rin egallaydi. Bu borada Prezident Shavkat Mirziyoevning adolatni inson huquqlarini amalda his etishi va teng imkoniyatlar bilan bog'lashi, adolatning ontologik mazmunini "davlat manfaati"dan "shaxs manfaati" tomon yo'naltirganini ko'rsatadi. Bu holat ijtimoiy falsafadagi "ijtimoiy shartnoma" nazariyasini yangi bosqichga olib chiqdi. Endilikda davlat va fuqaro o'rtasidagi munosabatlar faqat qonun bilan emas, balki o'zaro ma'naviy ishonch va adolatli ijtimoiy himoya bilan mustahkamlanmoqda. Tadqiqotchi I.I. Yo'ldoshev qayd etganidek, "adolatli jamiyat qurish jarayonida ijtimoiy barqarorlik bevosita adolatning jamiyatning barcha qatlamlariga kirib borishiga bog'liq" [11; Б. 160]. Shu nuqtai nazardan, "Temir daftar" kabi tizimlar adolatning nafaqat nazariy, balki ijtimoiy-iqtisodiy voqelikdagi eng faol ko'rinishi sifatida muhokama qilinishi lozim.

Muhokamaning yana bir muhim jihati shundaki, Yangi O'zbekistonda adolat g'oyasi Uchinchi Renessans maqsadi bilan dialektik birlikni tashkil etadi. Adolat qaror topgan jamiyatdagina ilm-fan, madaniyat va ma'naviyat yuksaladi. Bu jarayonda adolatning axloqiy negizlari huquqiy normalardan ustuvorlik kasb etmoqda. Zero, adolat - bu nafaqat jazo muqarrarligi, balki ezgulik va haqiqatning tantanasidir. Falsafiy mushohadalar shuni ko'rsatadiki, adolatli jamiyat qurish uchun har bir fuqaroning ongida "adolat mezoni" shakllanishi zarur. S. Otamurodov ta'kidlaganidek, "milliy yuksalish jarayonida adolat g'oyasi millatni birlashtiruvchi mafkuraviy kuchga aylangandagina o'z samarasini beradi" [12; Б. 272]. Demak, adolatli davlat qurish - bu nafaqat huquqiy islohot, balki jamiyatning ma'naviy va falsafiy yangilanish jarayonidir.

Yakuniy muhokama sifatida ta'kidlash joizki, adolatli jamiyat qurishda Amir Temurning tarixiy o'gitlari va Shavkat Mirziyoevning zamonaviy strategik qarashlari o'rtasida izchillik mavjud. Bu izchillik Yangi O'zbekistonning o'z milliy qadriyatlariga tayangan holda global demokratik tamoyillarga integratsiyalashayotganini tasdiqlaydi. Adolat g'oyasining ijtimoiy-falsafiy talqini shuni ko'rsatadiki, Yangi O'zbekiston modelida davlatning oliy vazifasi - har bir inson o'z hayotidan rozi bo'lib yashaydigan, huquq va imkoniyatlar teng kafolatlangan adolatli ijtimoiy muhitni barpo etishdir [13; Б. 56–62]. Mazkur falsafiy yondashuv mamlakatning barqaror taraqqiyotini ta'minlovchi asosiy kafolat bo'lib qolmoqda [14].

Yangi O'zbekistonda adolat g'oyasining ijtimoiy-falsafiy transformatsiyasini tadqiq etish asosida quyidagi yakuniy xulosalarga kelindi.

Birinchidan, adolat tushunchasi mamlakatimizda passiv huquqiy kategoriyadan jamiyatni modernizatsiya qiluvchi va millatni birlashtiruvchi faol strategik kuchga aylandi. Adolatning Yangi O'zbekiston modelidagi bosh xususiyati uning "Inson qadri uchun" tamoyili bilan ontologik yaxlitligida namoyon bo'ladi. Bu borada buyuk mutafakkir Yusuf Xos Hojibning: « ***Beglik negizi adolatdir, adolat ustuni esa to'g'rilikdir. Qaysi bek el-yurtni adolat bilan idora etsa, uning davlati kundan-kunga kuchayadi va mustahkam bo'ladi.*****» [15; Б. 964]** degan hikmatli xulosasi bugungi kunda nafaqat boshqaruv tizimining mezoni, balki har bir fuqaroning hayotiy e'tiqodiga aylanishi zarurligi ijtimoiy-falsafiy jihatdan o'z isbotini topdi. Zero, milliy davlatchilik an'analarimiz va zamonaviy taraqqiyot strategiyasining uyg'unligi mamlakat barqarorligini ta'minlashning asosiy kafolatidir.

Ikkinchidan, adolat g'oyasining transformatsiyasi Yangi tahrirdagi Konstitutsiyada O'zbekistonning "ijtimoiy davlat" deb belgilanishi orqali o'zining huquqiy va falsafiy yechimini topdi. Bu natija adolatning taqsimlovchi funksiyasini yangi bosqichga olib chiqdi: endilikda adolat faqat qonun ustuvorligi emas, balki ijtimoiy himoya, kambag'allikni qisqartirish va har bir insonning o'z salohiyatini ro'yobga chiqarishi uchun davlat tomonidan yaratilgan teng imkoniyatlar majmuidir. Davlat organlarining xalqqa xizmat qilishi haqidagi konseptual o'zgarish adolatning ijtimoiy-falsafiy mazmunini "davlat manfaati"dan "inson manfaati" ustuvorligiga yo'naltirdi.

Uchinchidan, ijtimoiy-falsafiy tahlillar shuni ko'rsatadiki, adolatli jamiyat qurish uzluksiz ma'naviy yangilanish jarayoni bo'lib, u huquqiy islohotlar bilan birgalikda jamiyat a'zolarining axloqiy ongi yuksalishini ham talab etadi. Adolatli ijtimoiy muhit Uchinchi Renessans poydevorini qurishning fundamental sharti hisoblanadi.

To'rtinchidan, adolat g'oyasining Yangi O'zbekiston mafkurasidagi o'rni ijtimoiy barqarorlik va milliy yuksalishni ta'minlovchi ma'naviy o'q bo'lib xizmat qiladi. Adolat millatning ruhiy quvvatini birlashtiruvchi va fuqarolarning kelajakka bo'lgan ishonchini mustahkamlovchi eng oliy qadriyat sifatida namoyon bo'lmoqda.

Yakuniy xulosa sifatida ta'kidlash lozimki, Yangi O'zbekistonda adolat g'oyasining ijtimoiy-falsafiy talqini insonni ulug'lash, uning huquq va manfaatlarini har narsadan ustun qo'yish negiziga qurilgan. Ajdodlarimizning adolatli davlatchilik borasidagi o'gitlari va zamonaviy taraqqiyot strategiyasi o'rtasidagi uzviylik mamlakatimizning o'z milliy

o‘zligiga sodiq holda demokratik yuksalish yo‘lidan borayotganini tasdiqlaydi. Ushbu yo‘nalishdagi ilmiy xulosalar jamiyatning ma’naviy-huquqiy asoslarini yanada mustahkamlashga va har bir inson o‘zini adolatli muhitda erkin his etadigan farovon jamiyatni barpo etishga xizmat qiladi. Adolat nafaqat davlatchilik mezoni, balki Yangi O‘zbekistonning porloq kelajagini ta’minlovchi eng mustahkam ma’naviy poydevordir.

Аннотация. *В статье рассматриваются методологические основания анализа концепта «семья» на материале пословиц и поговорок как репрезентантов коллективного языкового сознания. Исследование опирается на комплексный подход, включающий когнитивно-семантический, лингвокультурологический, аксиологический и дискурсивный аспекты. Выявляются ключевые смысловые компоненты концепта «семья», отражающие ценностные установки, нормативные модели поведения и культурные коды, закреплённые в паремиологическом фонде. Особое внимание уделяется структурно-семантической организации пословиц и механизмам репрезентации семейных отношений через устойчивые образы и метафоры.*

Ключевые слова: *концепт, семья, пословицы, поговорки, паремиология, лингвокультурология, когнитивная лингвистика, аксиология, языковая картина мира.*

METHODOLOGICAL APPROACHES TO THE ANALYSIS OF THE CONCEPT “FAMILY” IN PROVERBS AND SAYINGS

Abstract. *The article examines the methodological foundations for analyzing the concept of “family” based on proverbs and sayings as representations of collective linguistic consciousness. The study relies on an integrative approach that combines cognitive-semantic, linguocultural, axiological, and discourse-based perspectives. It identifies the key semantic components of the concept “family,” reflecting value orientations, normative patterns of behavior, and cultural codes embedded in the paremiological corpus. Particular attention is paid to the structural and semantic organization of proverbs and to the mechanisms of representing family relations through stable images and metaphors.*

Keywords: *concept, family, proverbs, sayings, paremiology, linguocultural studies, cognitive linguistics, axiology, linguistic worldview.*

KONTSEPTSIYA TAHLILIGA METODOLOGIK YONDASHUVLAR

Annotatsiya. *Ushbu maqolada maqol va matallarni jamoaviy lingvistik ong vakillari sifatida qo’llagan holda ”oila” tushunchasini tahlil qilishning metodologik asoslari ko’rib chiqiladi. Tadqiqot kognitiv-semantik, lingvomadaniy, aksiologik va diskursiv jihatlarni o’z ichiga olgan kompleks yondashuvga asoslangan. ”Oila” tushunchasining asosiy semantik komponentlari aniqlangan bo’lib, ular paremiologik fondda mustahkamlangan qadriyat tizimlari, normativ xulq-atvor naqshlari va madaniy kodlarni aks ettiradi. Maqollarning strukturaviy va semantik tashkil etilishiga hamda oilaviy munosabatlarni barqaror tasvirlar va metaforalar orqali ifodalash mexanizmlariga alohida e’tibor qaratiladi.*

Kalit so’zlar: *tushuncha, oila, maqollar, matallar, paremiologiya, lingvomadaniy tadqiqotlar, kognitiv lingvistika, aksiologiya, lingvistik dunyoqarash.*

Введение

Современная лингвистическая парадигма характеризуется устойчивым смещением исследовательского интереса от описания языковых единиц к изучению языка как формы репрезентации культурного и когнитивного опыта. В этом контексте особую значимость приобретает анализ концептов как ключевых единиц ментального пространства, обеспечивающих связь между языком, мышлением и культурой. Концепт «семья» занимает в

данной системе центральное положение, поскольку относится к числу базовых универсалий, формирующих ценностное ядро языковой картины мира и отражающих фундаментальные формы социальной организации.

Актуальность обращения к паремиологическому материалу обусловлена тем, что пословицы и поговорки представляют собой особый тип языковых единиц, в которых аккумулируется коллективный опыт, нормативные установки и культурные стереотипы. В отличие от свободных высказываний, паремии характеризуются высокой степенью семантической конденсации и устойчивости, что делает их репрезентативным источником для реконструкции концептуальных структур [1, с. 12; 3, с. 45]. Через пословицы и поговорки реализуется механизм трансляции ценностей от поколения к поколению, благодаря чему они выступают не только как лингвистические, но и как социокультурные феномены.

Концепт «семья» в паремиологическом фонде репрезентируется как сложное многослойное образование, включающее представления о родстве, иерархии, взаимной ответственности, гендерных ролях и моральных нормах. Его языковая актуализация осуществляется через устойчивые образные модели, метафоры и бинарные оппозиции, которые фиксируют традиционные формы восприятия семейных отношений. При этом паремии не только отражают существующие культурные установки, но и выполняют регулятивную функцию, формируя нормативные сценарии поведения.

Методологическая значимость исследования определяется необходимостью комплексного подхода к анализу концепта, поскольку его структура не может быть исчерпывающе описана в рамках одной научной парадигмы. В связи с этим представляется целесообразным интегрировать когнитивно-семантический, лингвокультурологический, аксиологический и дискурсивный подходы, каждый из которых выявляет различные аспекты концептуального содержания. Подобная методологическая синтезация позволяет рассматривать концепт «семья» как динамическую систему, функционирующую на пересечении языковых, культурных и социальных факторов.

Научная новизна работы заключается в систематизации методологических оснований анализа концепта «семья» на материале паремий с акцентом на их интегративный потенциал. В отличие от исследований, сосредоточенных преимущественно на описании отдельных семантических характеристик, в данной работе предпринимается попытка выявить совокупность аналитических процедур, обеспечивающих целостное осмысление концепта как многомерного феномена.

Материалом исследования послужили русские пословицы и поговорки, отражающие различные аспекты семейных отношений, отобранные из авторитетных паремиологических источников. В качестве методов используются описательный, семантический, интерпретативный, а также элементы когнитивного моделирования и дискурсивного анализа.

Теоретические основания исследования концепта.

Проблема концепта в современной лингвистике формируется на пересечении когнитивной, культурологической и семиотической парадигм, что обусловливает множественность его интерпретаций и методологических подходов к его изучению. В наиболее общем виде концепт понимается как единица ментального пространства, репрезентирующая культурно значимый фрагмент действительности и закреплённая в языке в виде совокупности лексических, фразеологических и текстовых средств [4, с. 23; 5, с. 18].

В рамках когнитивной лингвистики концепт рассматривается как форма структурирования знания, включающая совокупность представлений, ассоциаций и интерпретационных моделей. Согласно подходу А. Вежбицкой, концепты обладают универсальной семантической основой, однако их конкретная реализация определяется культурным контекстом [4, с. 56–60]. Это положение позволяет рассматривать концепт «семья» как одновременно универсальное и культурно специфическое образование, варьирующееся в зависимости от историко-культурных условий.

Существенный вклад в разработку теории концепта внёс Ю. Степанов, предложивший рассматривать его как многослойную структуру, включающую три взаимосвязанных компонента [10, с. 41–45]. Понятийный компонент отражает логико-дефинитивные характеристики объекта, ассоциативные и метафорические представления, а также аксиологическую значимость концепта в культуре. Подобная трёхчастная модель представляется продуктивной для анализа концепта «семья», поскольку позволяет учитывать не только его номинативные, но и символические и оценочные аспекты.

В лингвокультурологической традиции концепт интерпретируется как единица культурной памяти, в которой фиксируются устойчивые представления, нормы и ценности, разделяемые языковым сообществом. В этом аспекте особую роль играют паремиологические единицы, поскольку они функционируют как «культурные формулы», аккумулирующие коллективный опыт и обеспечивающие его трансляцию [12, с. 67; 6, с. 15]. Пословицы и поговорки выступают своеобразными когнитивными схемами, посредством которых осуществляется интерпретация социальной реальности, в том числе семейных отношений.

Семиотический подход позволяет рассматривать концепт как знак сложной природы, включённый в систему культурных кодов. В этом контексте концепт «семья» выступает не только как отражение социальной структуры, но и как символическая модель, задающая нормативные сценарии поведения. Через устойчивые языковые формы: метафоры, сравнения, оппозиции — формируется особый тип смысловой организации, в которой взаимодействуют вербальные и культурные значения [9, с. 64].

Особое значение для анализа концепта имеет аксиологический аспект, связанный с выявлением ценностных доминант. Концепт «семья» традиционно относится к числу базовых ценностей, определяющих социальную стабильность и идентичность личности [12, с. 89]. В языковом сознании он репрезентируется через категории долга, ответственности, взаимопомощи, уважения и преемственности поколений. Эти ценностные установки находят отражение в паремиологическом фонде, где семья представлена как нормативная модель социального поведения.

Методологически значимым является также положение о динамическом характере концепта. Несмотря на устойчивость его ядра, периферийные компоненты подвержены изменениям, обусловленным социальными трансформациями. Это особенно важно учитывать при анализе паремиологического материала, который, с одной стороны, фиксирует традиционные представления, а с другой, может отражать процессы их переосмысления. Тем самым теоретическое осмысление концепта «семья» предполагает его рассмотрение как сложной многокомпонентной структуры, включающей когнитивные, культурные и аксиологические элементы. Интеграция различных научных подходов позволяет выявить как универсальные, так и специфические черты данного концепта, что создаёт методологическую основу для его анализа на материале пословиц и поговорок.

Методологические подходы.

Исследование концепта «семья» на материале пословиц и поговорок требует опоры на совокупность взаимодополняющих аналитических процедур, каждая из которых выявляет определённый аспект смысловой организации. Паремиологический материал не допускает одностороннего описания: его семантика формируется на пересечении когнитивных моделей, культурных кодов и ценностных установок, закреплённых в языковом сознании [3, с. 72].

Когнитивно-семантический анализ направлен на реконструкцию тех ментальных структур, которые лежат в основе представлений о семье. Пословицы фиксируют устойчивые схемы осмысления: дом как центр собственного пространства, родственные связи как система иерархий, семья как источник защиты и поддержки [5, с. 34]. В языковом материале проявляются типовые модели: *семья как целостность, семья как порядок, семья как преемственность.* Эти модели реализуются через устойчивые семантические корреляции: дом – тепло, род – исток, родители – авторитет.

Когнитивный анализ позволяет выделить ядро концепта, связанное с идеей единства и устойчивости, и периферию, где актуализируются частные аспекты: материальное благополучие, воспитание, социальный статус.

Лингвокультурологический анализ ориентирован на выявление культурно значимых смыслов, закреплённых в паремиологическом фонде. Пословицы функционируют как формулы коллективного опыта, в которых зафиксированы традиционные представления о семье, распределении ролей и норм поведения. Концепт «семья» в данном аспекте раскрывается через устойчивые культурные сценарии: уважение к старшим, приоритет родственных связей, ценность брака и продолжения рода. Семейные отношения осмысляются не как частная сфера, а как фундамент социальной структуры. Образные компоненты паремий опираются на культурно маркированные символы: дом, очаг, родовое дерево. Эти образы не только обозначают семью, но и задают её интерпретацию как пространства устойчивости и порядка.

Аксиологический анализ выявляет ценностные доминанты, формирующие содержание концепта. В пословицах семья представлена как безусловная ценность, превосходящая материальные и внешние факторы. Смысловая организация паремий строится вокруг нормативных установок: гармония отношений, взаимная поддержка, уважение и ответственность. Нарушение этих норм фиксируется в негативно окрашенных высказываниях, что усиливает регулятивную функцию языка. Ценностная структура концепта «семья» характеризуется устойчивостью: она воспроизводится в различных языковых формах и сохраняет значимость независимо от контекста употребления. При этом аксиологический компонент тесно связан с культурным, поскольку ценности закрепляются через традиционные модели поведения.

Дискурсивный анализ позволяет рассмотреть функционирование пословиц в реальной речевой практике. Паремии о семье активно используются в ситуациях воспитания, наставления, оценки поведения. Они выполняют аргументативную и регулятивную функции, выступая как средство интерпретации жизненных ситуаций. Включение пословицы в высказывание усиливает его прагматический эффект: индивидуальное мнение приобретает статус коллективно подтверждённой истины [5, с. 89; 11, с. 112]. В этом проявляется механизм авторитетизации речи через апелляцию к традиции.

Особое значение приобретает анализ словообразовательных и структурных особенностей паремиологических единиц. Несмотря на устойчивость формы, в них сохраняются следы деривационной мотивации, влияющие на интерпретацию смысла. Смысловая структура концепта «семья» формируется не только на уровне целостных высказываний, но и через внутреннюю организацию языковых единиц, включая словообразовательные модели и семантические сдвиги. В этой связи значимым является положение о том, что деривационные процессы отражают способы концептуализации социальной реальности. Как отмечает Р. Биксалиева, словообразовательные механизмы участвуют в формировании смысловой структуры текста, фиксируя когнитивные и аксиологические параметры языкового сознания [2].

Каждый из представленных подходов выявляет отдельный уровень анализа, однако их раздельное применение не даёт целостного представления о концепте. Когнитивный аспект раскрывает как лингвокультурологический аксиологический, так и дискурсивный и деривационный подходы. Совмещение этих процедур позволяет рассматривать концепт «семья» как многомерную систему, в которой взаимодействуют язык, культура и мышление. Такой подход обеспечивает полноту анализа и позволяет выявить глубинные закономерности репрезентации семейных отношений в паремиологическом фонде.

Обсуждение.

Анализ паремиологического материала показывает, что концепт «семья» функционирует как устойчивая смысловая константа, организующая значительный пласт языковой картины мира [10, с. 92]. Его репрезентация не сводится к описанию частных бытовых ситуаций: в пословицах и поговорках фиксируется модель социального порядка, в которой семейные отношения выступают основой нормативной структуры общества.

Сопоставление различных аналитических процедур выявляет их различную степень объяснительного потенциала. Когнитивно-семантический анализ позволяет реконструировать базовые схемы осмысления семьи, однако он недостаточен для выявления культурной специфики без привлечения лингвокультурологического контекста. В свою очередь, лингвокультурологический подход фиксирует систему традиционных представлений, но требует уточнения на уровне конкретных языковых механизмов. Аксиологический анализ выявляет устойчивые ценностные ориентиры, однако без когнитивной и дискурсивной интерпретации остаётся на уровне описания.

Взаимодействие подходов демонстрирует, что концепт «семья» не существует как статическая единица. Он проявляется в динамике смыслов, возникающих в конкретных речевых ситуациях. Пословица в этом процессе выступает не только как носитель значения, но и как инструмент его актуализации. Её включение в высказывание изменяет коммуникативную перспективу: индивидуальное высказывание приобретает коллективную легитимацию, а частная оценка — статус нормативной.

Обращает на себя внимание высокая степень устойчивости ценностного ядра концепта. Независимо от вариативности форм выражения, в паремиологическом фонде последовательно воспроизводятся представления о семье как пространстве согласия, взаимной ответственности и моральной опоры. При этом периферийные компоненты демонстрируют большую подвижность: в них отражаются конкретные социальные условия, особенности бытовой практики, изменения в структуре межличностных отношений.

Смысловая организация концепта обнаруживает тесную связь с механизмами языковой экономии. Пословицы конденсируют сложные социальные и культурные представления в лаконичные формулы, способные функционировать вне конкретного контекста [12, с. 134]. Эта способность к обобщению обеспечивает их универсальность и устойчивость в языковом сознании.

Результаты анализа позволяют уточнить представление о роли паремиологического фонда в формировании концептуальной системы языка. Пословицы и поговорки не только отражают существующие ценности, но и участвуют в их воспроизводстве, выступая средством закрепления и передачи культурных норм. В этом проявляется их двойственная природа: они одновременно являются продуктом культуры и инструментом её поддержания.

Выявленные закономерности позволяют рассматривать концепт «семья» как многомерное образование, в котором взаимодействуют когнитивные структуры, культурные смыслы и ценностные установки. Такая интерпретация открывает возможность дальнейшего анализа, связанного с сопоставлением различных языков и культур, а также с изучением трансформации концепта в условиях современных социальных изменений.

Заключение.

Проведённый анализ позволяет рассматривать концепт «семья» как сложное многокомпонентное образование, обладающее устойчивым семантическим ядром и вариативной периферией. Его репрезентация в пословицах и поговорках демонстрирует высокую степень структурной организованности и семантической насыщенности, что обусловлено функцией паремиологического фонда как носителя коллективного опыта и культурной памяти.

Рассмотрение методологических подходов выявило их различную, но взаимодополняющую роль. Когнитивно-семантический анализ позволяет реконструировать базовые схемы осмысления семейных отношений; лингвокультурологический подход фиксирует систему традиционных представлений; аксиологический подход выявляет ценностные доминанты; дискурсивный подход раскрывает особенности функционирования паремий в речевой практике; деривационно-семантический — уточняет внутренние механизмы формирования смысла. Их совмещение обеспечивает целостное описание концепта и позволяет избежать редукции его содержания к одному из уровней анализа.

Полученные результаты позволяют уточнить представление о роли языка в формировании ценностной картины мира. Концепт «семья» выступает одной из ключевых точек пересечения когнитивных, культурных и социальных процессов, отражая базовые принципы организации человеческого сообщества. Перспективы дальнейших исследований связаны с расширением эмпирической базы, привлечением сопоставительного материала, а также с анализом трансформации концепта «семья» в современных дискурсивных практиках, включая медиапространство и цифровую коммуникацию. Особый интерес представляет изучение взаимодействия традиционных паремиологических моделей с новыми формами языкового выражения, возникающими в условиях социокультурных изменений.

Annotatsiya: *Ushbu maqola axborotlashgan jamiyatlarda axborot xurujlarining dolzarb muammolarini tahlil qiladi. Axborot texnologiyalarining jadal rivojlanishi jamiyat hayotini tubdan o'zgartirdi. Shu bilan birga, kiberhujumlar, dezinformatsiya va shaxsiy ma'lumotlarning o'g'irlanishi kabi tahdidlar kuchaymoqda. Axborot xurujlari iqtisodiy, siyosiy va ijtimoiy barqarorlikka salbiy ta'sir ko'rsatadi. Zamonaviy davlatlar va tashkilotlar axborot xavfsizligini ta'minlash uchun strategiyalar ishlab chiqmoqda. Foydalanuvchilarni ogoh qilish va raqamli savodxonlikni oshirish muhimdir. Ijtimoiy tarmoqlardagi noto'g'ri axborot tarqalishi ham xavfni kuchaytiradi. Axborot xavfsizligi milliy va global darajada dolzarb masala hisoblanadi. Barqaror rivojlanish uchun xavfsiz axborot muhiti zarur. Shu bois, axborot xurujlariga qarshi kurashish strategiyalari ilmiy-tahliliy nuqtai nazardan muhim ahamiyatga ega.*

Kalit so'zlar: *Axborot jamiyati, axborot arxitekturasi, axborot boshqaruvi, axborot filtrlash, axborot infratuzilmasi, axborot integratsiyasi, axborot iste'moli, axborot makoni.*

РАЗМЫШЛЕНИЯ О КИБЕРАТАКАХ В ИНФОРМАЦИОННОМ ОБЩЕСТВЕ

Аннотация: *В данной статье анализируются актуальные проблемы информационных атак в информационно насыщенных обществах. Быстрое развитие информационных технологий фундаментально преобразовало социальную жизнь. В то же время увеличиваются угрозы, такие как кибератаки, дезинформация и кража личных данных. Информационные атаки негативно влияют на экономическую, политическую и социальную стабильность. Современные государства и организации разрабатывают стратегии обеспечения информационной безопасности. Важно повышать осведомленность пользователей и развивать цифровую грамотность. Распространение недостоверной информации в социальных сетях также усиливает риски. Информационная безопасность остаётся актуальной проблемой как на национальном, так и на глобальном уровне. Безопасная информационная среда необходима для устойчивого развития. Поэтому стратегии противодействия информационным атакам имеют большое значение с научно-аналитической точки зрения.*

Ключевые слова: *Информационное общество, архитектура информации, управление информацией, фильтрация информации, информационная инфраструктура, интеграция информации, потребление информации, информационное пространство.*

REFLECTIONS ON CYBERATTACKS IN THE INFORMATION SOCIETY

Annotation: *This article analyzes the pressing issues of information attacks in information-based societies. The rapid development of information technologies has fundamentally transformed social life. At the same time, threats such as cyberattacks, disinformation, and the theft of personal data are increasing. Information attacks negatively impact economic, political, and social stability. Modern states and organizations are developing strategies to ensure information security. Raising awareness among users and improving digital literacy are crucial. The spread of false information on social networks also exacerbates the risk. Information security remains a pressing issue at both national and global levels. A secure information environment is essential for sustainable development. Therefore, strategies to counter information attacks are of significant importance from a scientific and analytical perspective.*

Keywords: *Information society, information architecture, information management, information filtering, information infrastructure, information integration, information consumption, information space.*

Kirish. Hozirgi kunda dunyo axborotlashgan jamiyatga aylanib bormoqda. Axborot texnologiyalari hayotimizning barcha sohalariga kirib bordi. Internet, mobil aloqa va raqamli platformalar kundalik hayotimizni tubdan o'zgartirib

yubordi. Shu bilan birga, axborot xavfsizligi masalalari tobora ortib bormoqda. Axborot xurujlari zamonaviy jamiyatlar uchun jiddiy xavf tug‘diradi. Ular iqtisodiy, siyosiy va ijtimoiy barqarorlikka salbiy ta’sir ko‘rsatadi. Axborot xurujlari turli shakllarda namoyon bo‘ladi. Masalan, kiberhujumlar, dezinformatsiya va shaxsiy ma’lumotlarni o‘g‘irlash. Zamonaviy davlatlar axborot xurujlariga qarshi kurashish strategiyalarini ishlab chiqmoqdalar. Shu bilan birga, foydalanuvchilar o‘rtasida xabardorlikni oshirish muhim. Axborot xurujlari nafaqat kompaniyalarga, balki oddiy odamlarga ham zarar yetkazadi. Masalan, bank ma’lumotlarini o‘g‘irlash yoki shaxsiy fayllarni o‘chirish. Ijtimoiy tarmoqlarda yolg‘on ma’lumotlarning tarqalishi ham xavfni oshiradi. Bu odamlarning fikrini chalg‘itishi mumkin. Shuning uchun axborot xurujlariga qarshi kurashish har bir insonning vazifasidir. Raqamli savodxonlik va ehtiyot choralarini bilish juda muhim. Bu borada davlat va nodavlat tashkilotlarining o‘rni katta. Axborot xavfsizligi milliy va global miqyosda dolzarb masala bo‘lib qolmoqda. Xavfsiz axborot muhiti jamiyatning barqaror rivojlanishi uchun zarur. Shuning uchun ham axborot xurujlarining oldini olish, ularga qarshi kurashish yo‘llarini ishlab chiqish muhim vazifa hisoblanadi.

Adabiyotlar sharhi va metodlari. Axborotlashgan jamiyatda ochiq axborot xurujlari sharoitida insonlarning o‘z-o‘zini himoya qilishini boshqarishda quyidagi jihatlarga alohida e’tibor qaratish lozim: avvalo, har bir insonning mustaqil fikrlashi zarurligini ta’kidlash lozim. Mustaqil fikrga ega bo‘lgan insongina o‘ziga yo‘naltirilgan ijobiy yoki salbiy axborotning asl mohiyatini anglay oladi, unga adekvat javob qaytara oladi, tegishli himoya mexanizmlarini ishga sola oladi.

M.Quronovning fikricha, mustaqil fikrlashni mustaqillik (erkin, avtonom; tobe emas, alohida) - ya’ni o‘z erkiga ega bo‘lish va tobe bo‘lmaslik ma’nolari asosida tushunish lozim. Bu boshqalarning yordami va ko‘rsatmalarisiz o‘z-o‘zidan fikrlash va yashashni nazarda tutadi [*4.120*]. Odamlar turli yot va ongsiz axborot xurujlariga berilmasligi uchun ularda milliy g‘ururni tarbiyalash zarur. M.Quronov “yangi davrning yangi tushunchalari”ni tahlil qilar ekan, milliy g‘urur tushunchasining mohiyatini sodda va tushunarli tarzda quyidagicha izohlaydi: “Milliy iftixor shundan iboratki, kishilar o‘z yoshlariga mos ravishda o‘z millatining qadr-qimmatini biladilar va ulug‘laydilar, o‘z xalqining madaniyat, ma’naviyat va iqtisodiyot sohasidagi yutuqlari, qo‘shgan hissasi va boy merosidan xabardor bo‘ladilar; ana shu yuksak milliy madaniy yutuqlarga munosib bo‘lishga va ularni boyitishga intiladilar. Ammo milliy g‘urur o‘z-o‘zidan shakllanib, o‘z-o‘zini tanqid qilishdan uzoqlashsa, o‘z millatini boshqa millatlardan ustun qo‘yish, milliy manmanlik kabi salbiy oqibatlarga olib kelishi mumkin. Shuning uchun milliy g‘urur o‘ziga xos tarzda shakllanishi, bunyodkorlik maqsadlariga yo‘naltirilishi, tanqidiy fikrlash bilan kamtarlikni birlashtirishi lozim” [*4.150*].

Milliy g‘ururning ahamiyati ham shunda: bunday fazilatga ega bo‘lgan shaxs soxta g‘oyalarga, jumladan, axborot xurujlariga tobe bo‘lib qolmaydi. Milliy g‘ururi yuksak insonlarda iymon, vijdon, halollik kabi fazilatlarni rivojlantirish mumkin. Inson qalbi bilan bog‘liq bo‘lgan ushbu qadriyatlar internet va ochiq ma’lumotlar olamida adashib qolishdan asrovchi “kompas” vazifasini o‘taydi. Internet shunday o‘rmonki, unda kompassiz yurib bo‘lmaydi. Tan olish kerakki, Internetda juda ko‘p miqdorda keraksiz ma’lumotlar mavjud. Internet axloqiy jihatdan betaraf vosita hisoblansa-da, undan to‘plangan madaniy merosni saqlab qolish uchun ham, unga zarar yetkazish uchun ham foydalanish mumkin [*2.107*].

Natijalar va muhokama. Bugungi kunda turli axborot va ma’lumotlar nafaqat ta’lim muassasalarida, balki radio, televideniye, matbuot, Internet kabi ommaviy axborot vositalari orqali ham olinmoqda. Jahon axborot makoni tobora kengayib borayotgan bir sharoitda odamlarning ongini faqat o‘rab olish, ularga nimani o‘qimaslik, nimani ko‘rmaslik kerakligini uqtirish, bir tomonlama tarbiya berish yoki “temir devor” ortida yakkalab qo‘yish, hech shubhasiz, zamon talabiga ham, bizning ezgu maqsad va intilishlarimizga ham to‘g‘ri kelmaydi.

M.Quronov “Biz anglayotgan haqiqat” kitobida “Diqqat, internet” sarlavhasi ostida quyidagi fikrlarni bildiradi: Internetning inson hayotidagi o‘rni haqida yakdil xulosa chiqarishga hali erta ko‘rinadi. Internetning mustaqil foydalanuvchilari orasida, barqaror o‘z-o‘zini identifikatsiya qilish va individuallik asta-sekin yo‘qoladi. Insonning o‘z-o‘zini anglashi noaniq yoki beqaror bo‘lib qoladi.

Boshqacha aytganda, Internet millatsiz, qalbsiz va tarixsiz cheksiz cheksizlikdir. Inson unga qanchalik chuqur kirsa, miya hujayralari shunchalik ko‘p tashqi ma’lumotlar bilan to‘ldiriladi. Begonalashuvga qanchalik chuqur kirsangiz, o‘zligingizdan shunchalik uzoqlashasiz. Agar miyangizda 100 ta hujayra bo‘lsa va ularning 70 tasi o‘zbekcha ma’no bilan to‘ldirilgan bo‘lsa, bu yaxshi - ular o‘zingizniki. Lekin faqat 30 tasi o‘zbek bo‘lsa, bu yomon. Shunda siz o‘zingizni va o‘z qadriyatlaringizni begonalar nuqtayi nazaridan baholay boshlaysiz. U holda o‘z qadriyatlaringiz yutqazadi, begonalar esa yutadi...” [*3.6*].

N.Umarovaning fikricha, axborotlashgan jamiyatni o‘ziga xos deb tasavvur qilish noto‘g‘ri bo‘ladi. Xususan, axborotlashgan jamiyatda:

- ommaviy axborot vositalarining jamiyatga ta’siri yanada ortadi;

- axborot texnologiyalari shaxslar va tashkilotlarning shaxsiy va xususiy hayotiga zarar yetkazishi mumkin, masalan, har qanday fuqaro haqidagi ma’lumotlar to‘planishi va uning erkinligini cheklash uchun ishlatilishi mumkin;

- axborot texnologiyalaridan jinoiy maqsadlarda foydalanish imkoniyati oshadi;
- sifatli va haqqoniy axborotni tanlash muammosi yuzaga keladi;
- ko‘pchilik uchun axborotlashgan jamiyat muhitiga moslashish qiyin kechadi;
- axborot texnologiyalarini ishlab chiquvchilar va ularning iste’molchilari o‘rtasida bo‘shliq paydo bo‘lishi mumkin;
- jamiyatning texnologik imkoniyatlari bilan ijtimoiy soha va madaniyatning rivojlanishi bilan bog‘liq imkoniyatlar o‘rtasida nomutanosiblik paydo bo‘ladi [*2.103*].

Ushbu g‘oyani davom ettirib, muallif axborotlashgan jamiyatdagi nomutanosibliklarni bartaraf etish uchun har bir shaxsda zamonaviy vositalar va texnologiyalar orqali katta hajmdagi axborotni tez qabul qilish va qayta ishlash qobiliyatini rivojlantirish muhim ahamiyat kasb etishini ta’kidlaydi. Axborot iste’moli madaniyati shaxsning ijtimoiy tabiati bilan bog‘liq bo‘lib, ijodiy qobiliyat mahsuli hisoblanadi. U quyidagilarni talab qiladi: texnik vositalardan (telefon, kompyuter, axborot tarmoqlari) foydalana olish; o‘z faoliyatida ko‘plab dasturiy mahsulotlar bilan jihozlangan kompyuter texnikasini qo‘llay olish; davriy nashrlar, elektron aloqalar kabi turli manbalardan kerakli ma’lumotlarni olish, ularni tushunarli tarzda taqdim etish va ulardan samarali foydalanish qobiliyati; ma’lumotlarni tahliliy qayta ishlash ko‘nikmalari; turli xil ma’lumotlar bilan ishlash kompetensiyasi; o‘z kasbiy sohasiga oid axborot oqimlarining o‘ziga xos xususiyatlarini bilish; shuningdek, axborot tolerantligi va axborot faolligi [*2.104*].

Tabiiy resurslarning an’anaviy bozorlaridan tashqari, biz axborot va bilimlar bozorining shakllanishi va rivojlanishiga guvoh bo‘lmoqdamiz va bu jarayonlarning faol ishtirokchisiga aylanmoqdamiz [*2.105*]. Shu bois, insonlarda axborot olami imkoniyatlaridan oqilona foydalanish ko‘nikmalarini shakllantirish, axborot iste’moli madaniyatini tarbiyalash muhim hayotiy ahamiyat kasb etadi.

Tadqiqotchi U.G‘afurovning fikricha, axborot iste’moli madaniyati eng umumiy ma’noda inson kamoloti, shaxs kamoloti va ijtimoiy taraqqiyot manfaatlari yo‘lida axborot oqimidan axborotni qabul qilish, tanlash, anglash va talqin etishga xizmat qiluvchi bilim, qobiliyat va ko‘nikmalar tizimidir [*5.275*]. Agar ushbu ta’rif umumiy o‘rta ta’lim maktablari amaliyotiga tatbiq etilsa, axborot iste’moli madaniyati umuminsoniy madaniyatning tarkibiy qismi - axborot oqimidan tarixiy voqelikka oid ma’lumotlarni qabul qilish, tanlash, anglash va to‘g‘ri talqin qilishga xizmat qiladigan bilim, qobiliyat va amaliy tajriba tizimi sifatida tushunilishi lozim.

Xulosa. Axborot iste’moli madaniyati madaniyatning boshqa shakllari kabi bir qator funksiyalarni bajaradi. Bularga kommunikativ, tartibga soluvchi (me’yor o‘rnatuvchi), axborot va aksiologik (baholash) funksiyalar kiradi. Tahlil qilinayotgan muammo doirasida axborot iste’moli madaniyatining aksiologik funksiyasi alohida ahamiyat kasb etadi. Masalan, Internet tarmog‘i orqali uzatilayotgan ko‘plab ijobiy axborotlar bilan birga, milliy merosimizga, ayniqsa, kishilar ongi va qalbiga salbiy ta’sir ko‘rsatayotgan ma’lumotlar ham tarqalib borayotgani ularning tarixiy tafakkuri rivojida muayyan muammolarni keltirib chiqarishi tabiiy. Axborot iste’moli madaniyatini shakllantirish orqali bunday ta’sirlarning oldini olish mumkin.

Shuningdek, unda shunday deyiladi: “Biz ba’zan G‘arb madaniyatining to‘xtovsiz kirib kelishi haqida afsus bilan gapiramiz. Bu shunday kuchli oqimki, unga qarshilik ko‘rsatish juda qiyin. Buning faqat bitta yo‘li bor - Internetga o‘z qadriyatlarimizga mos keladigan ma’lumotlarni o‘z vaqtida kiritish” [*1.304*]. Boshqacha aytganda, tarmoqdan illat izlash bilan ovora bo‘lib qolmasdan, uning imkoniyatlaridan foydalanib, yurtimiz sha’ni va obro‘sini dunyo miqyosida keng targ‘ib etish maqsadga muvofiqdir. Zero, Internet virtual, lekin u obyektiv hodisa. Odamlarni internetdan uzoqlashtirishga urinishdan ko‘ra, undan oqilona foydalanishni o‘rgatish, axborot iste’moli madaniyatini oshirishga intilish to‘g‘riroq bo‘ladi. Darhaqiqat, insonlarda axborot iste’moli madaniyati rivojlangan bo‘lsa, milliy tariximiz va milliy qadriyatlarimizga zid xabar va ma’lumotlarni baholashda “har bir shaxsning o‘z qarashlari va qadriyatlar tizimi muhim rol o‘ynaydi. Biroq aksariyat hollarda, ayniqsa, baholanayotgan hodisa boshqa madaniyatga mansub bo‘lganda, biz mansub bo‘lgan madaniyat singdirgan qadriyatlar tizimi ustunlik qiladi va to‘liq namoyon bo‘ladi. Madaniyatning baholash funksiyasi tufayli tanlov amalga oshiriladi va madaniyatda barqarorlik, o‘ziga xoslik, noyoblik va shu bilan birga uzluksizlik va vorisiylik ta’minlanadi” [*6.37*].

Doimiy axborot oqimi bilan yaratilgan muhitda milliy qadriyatlar va azaliy an’analar yemirilishining oldini olish uchun axborot xavfsizligini ta’minlash zarur. Chet el telekanallarida berilayotgan, Internet tarmog‘ida targ‘ib qilinayotgan hamma narsani ham odamlar qabul qilavermasligi, aksincha, o‘z e’tiqodi, urf-odatlari, qadriyatlariga mos keladigan materiallarnigina tanlashi kerak. Bu maqsadga erishish uchun odamlarni ommaviy axborot vositalari va internetdan oqilona foydalanishga o‘rgatish zarur.

Shaxslarda tarixiy tafakkurni rivojlantirishda axborot iste’moli madaniyatini shakllantirish muhim ahamiyat kasb etadi. Chunki tarixiy tafakkurni rivojlantirishga xizmat qiluvchi manbalar xilma-xil bo‘lib, ular orasida kishilar ongi va tafakkuriga salbiy ta’sir ko‘rsatuvchi turli axborot xurujlari ko‘rinishidagi ma’lumotlar ham mavjud.

YA'QUBI CHARXIY MEROSIDA ONTOLOGIK G'OYALAR VA ULARNING QIYOSIY TAHLILI

Zoyirov Erkin Xalilovich
Buxoro davlat texnika universiteti professori,
falsafa fanlar doktori (DSc)
zoiroverkin76@mail.ru

Annotatsiya: *Ushbu maqolada Ya'qubi Charxiyning borliqqa oid qarashlari "Risolai qudsiya", "Risolai huroiyya", "Sharhi Asmoul husna" asarlari asosida ochib berilgan. Mutasavvifning vahdat ul vujud ta'limoti Bahouddin Naqshband g'oyalarini davom ettirib, Ibn Arabiy qarashlari bilan umumiylikka tahlil etilgan.*

Tayanch so'zlar*: borliq, vahdat ul – vujud, boqiy va foniy, abadiy va o'tkinchi, vaqt, tajalliy, tavhid.*

ОНТОЛОГИЧЕСКИЕ ИДЕИ В НАСЛЕДИИ ЯКУБИ ЧАРХИ И ИХ СРАВНИТЕЛЬНЫЙ АНАЛИЗ

Аннотация: *В данной статье взгляды Якуби Чархи на бытие раскрываются на основе произведений "Рисолаи кудсия," "Рисолаи хуроийя," "Шархи Асмул хусна." Учение суфия о вахдат ул вужуд продолжает идеи Бахауддина Накшбанда и проанализировано на общность с взглядами Ибн Араби.*

Ключевые слова: *бытие, вахдат ул – существование, вечный и бренный, вечный и преходящий, время, таджаллий, тавхид.*

ONTOLOGICAL IDEAS AND SUCCESSORS OF YAKUBI CHARKHI AND IX COMPARATIVE ANALYSIS

Annotation: *This article reveals the views of Yakubi Charkhi on existence on the basis of the works "Risolai Qudsiya", "Risolai Huroiya", "Sharkhi Asmoul Husna". The teaching of the mystic about vahdat ul wujud continued the ideas of Bahauddin Naqshband and was analyzed together with the views of Ibn Arabi.*

Key words: *ontology, vahdatul-vujud, constant and transient temporary and eternal, consealed and evidend, time, tagallia, tawheed.*

Kirish (Видение/Introduction).

Faylasuflar borliq haqida turli g'oyalarni ilgari surishgan. Tasavvufda borliq, vujud tushunchasi sifatida keladi va uni izohlashda vahdati vujud, vahdati shuhud va vahdati mavjud nazariyasi sifatida yoritilgan. Mazkur nazariyalar ham falsafiy, ham irfoniy asoslarga tayanadi.

Tasavvufda birinchi bo'lib ushbu nazariyani, o'z falsafiy qarashlari bilan keng ko'lamda tarqatgan Ibn Arabiy (1165 – 1240 yy) dir. Mutasavvif borliq to'g'risidagi ta'limotini aynan "vahdatul vujud" ("borliqning yagonaligi") deb nomlamagan bo'lsa-da, asarlarida shu g'oya aks etgan. Ibn Arabiy bevosita borliq muammosiga oid "Risolai vujudiya" [1] (Vujud haqida risola) asarini yozgan. Risolaning to'liq nomi Payg'ambar alayhissalomning "Kim o'zini tanisa, Robbisini taniydi" hadisining ma'nosini ochib beruvchi "vujud" to'g'risida risola" bo'lib, barcha ilm ahli uchun, jumladan, so'fiylar va faylasuflar uchun ham juda qimmatli manba hisoblanadi.

Naqshbandiya tariqatining mashhur namoyandasi Ya'qubi Charxiy risolalarini tahlil qilganimizda, ayniqsa, vahdat ul-vujud falsafiy nazariyasini o'zining xos uslubi asosida izohlaydi. Mutasavvifning risolalarining tasnifi ko'rsatadiki, u borliqqa umumiy ta'rif berish bilan birga uning ko'rinishlari bo'lgan tabiat, inson, jamiyat va ma'naviy borliqni ham tahlil etgan.

Adabiyotlar tahlili va metodologiya (Литература и методология /Methods).

Tadqiqotchi M.Razzoqova Yaqubi Charxiyning "Risolai qudsiya" ("Ilohiy dargohga oid haqida risola") asari mavjudligi, risola ilohiyot, tasavvuf, uni tarixini o'rganishga bag'ishlangan bo'lib, "faqara" (maqola yoki fasl) bilan boshlanganligini keltiradi.[2] "Faqara" so'zining ko'pligi "faqarot" bo'lib ko'pincha shu turdagi asarlarga "Faqarot" deb nom qo'yilgan. Ya'qubi Charxiyning muridi Xoja Ahror ham o'z piri ilmiy faoliyatini davom ettirib "Faqara" yozadi. Risolaning nomi "Faqarotu-l-orifiyn"[3] (Ma'rifat ahli hayotidan lavhalar) deb ataladi.

“Naqshbandiya tariqatiga oid qo‘lyozmalar fihristi” mualliflari ham mutasavvifning “Risolai qudsiya” asari № 980/II raqam bilan saqlanayotganligi haqida ma’lumotni beradi.[4] Ya’qubi Charxiy risolada Alloh ta’oloning Yer va Osmondagi mavjudotlarni yaratishdagi ilohiy hikmatlari, ularning tartibi va o‘rinlari haqidagi bo‘lib, olam, borliq, yo‘qlik kabi falsafiy tushunchalarni tasavvufiy nuqtai nazardan tahlil etgan.

M.Razzoqova fikricha, Ya’qubi Charxiyning “Risolai qudsiya”si Xoja Muhammad Porsoning “Risolai qudsiya”siga hamohang tarzda yozilgan. Ularning mazmun jihatidan bir-biridan farqi shundaki, Ya’qubi Charxiy o‘z asarida tasavvufga oid nozik hikmatlarini o‘z fikriga suyangan holda sharhlab bersa, Muhammad Porso esa o‘z piri Bahouddin Naqshbandning qudsiy kalimalarni kengaytirib, tushuntirib beradi.

Tavhid tushunchasi Xudoning borligi va birligi haqidagi ta’limot bo‘lib, jahon diniy e’tiqodlari tarixida Xristianlik va Yahudiylik dinlaridan ham uzoqroq davrlarga borib taqaladi. Insoniyatning inson va Xudo o‘rtasidagi munosabat, borliqning Xudo tomonidan yaratilganligi yoki Xudo – borliq ekanligi haqidagi qarashlari qadimgi davrlarda shakllangan turli falsafiy maktablarda ham o‘z ifodasini topgan.

Ya’qubi Charxiy tavhid masalasiga ham alohida e’tibor berib, ustozi Bahouddin Naqshband qarashlari bilan umumiylik mavjud. Mutasavvif: “Agar sendan tavhid nima?” deb so‘rasalar, dilni Haq subhonahudan boshqa narsalardan poklash va yagonalash deb aytgin,[5] deganlar”. Bahouddin Naqshbanddan tavhid so‘zining ma’nosi so‘ralganda: “Allohdan boshqa barcha narsani ko‘ngildan butunlay ketkazishdir”, [6] deb javob beradi.

Ibn Arabiy tavhid deb vahdat ul-vujudni tushunadi. Mutasavvif “Lo mavjuda illalloh” (Allohdan o‘zga mavjud yo‘q) va “Lo iloha illalloh” (Allohdan o‘zga iloh yo‘q) o‘rtasida farq yo‘qligini ta’kidlaydi. [7]

Natijalar (Результаты/Results).

Ya’qubi Charxiy “Risolai havroiyya” (Hurlar risolasi) da “faqatgina Sening samadiyatingga muyassar bo‘laylik. Zero hamma Sendandir. Bizning talabimizni botinlarimizga ber. “La ilaha illalloh” ning barakatidan nafsoniy istaklar va shaytoniy vasvasalarni bizdan uzoq qilki, barcha oriflarning istagi shudir” – deb, Hakim Sanoiy G‘aznaviyning quyidagi baytini keltiradi:

“Illalloh” ning maydonida “La ilaha” tig‘i bilan

Allohdan boshqa nima bo‘lsa, hammasini qurbon qildilar.[8]

Mutasavvif vujudga oid vahdat, ittihod, saodat, shaqovat, vasl kabi tushunchalarni quyidagicha tahlil qiladi: “Agar sendan, vahdat nima, deb so‘rasalar, dilni Haq subhonahuning borligiga g‘arq bo‘lishdir” - deydi. "Vahdat" so‘zi birlik va bir bo‘lish ma’nosini ifodalaydi. "Vujud" esa "borliq" ma’nosini anglatadi. Vahdat ul - vujud ta’limotida borliq jamodot (jonsiz va harakatsiz qattiq jismlar), o‘simliklar, hayvonlar, osmonlar va falakka bog‘liq bo‘lgan narsalargacha hammasi bir vujud hisoblanadi.

Ya’qubi Charxiy Al-Mu’id (Barcha yo‘q bo‘lib ketganlarni yo‘qlikdan qaytaruvchi), Al-Muhyi (tanaga jonni, qalbga iymonni solib tiriltiruvchi Zot), Al-Qayyum **(**hamisha bor bo‘lgan va cheksiz mulk egasi va hamma Unga muhtoj bo‘lgan, U esa hech narsaga muhtoj bo‘lmaydigan Zot**)** sifatlarni tasavvufiy tahlil qilib, orifning bu ismlardan shuni anglashi kerakki tirikliklikda qilib yurgan ishlaridan qayta tiriladigan kunda ahvoli qanday bo‘lishini solishtirsin, Undan o‘zgadan yuz o‘girsin va butun vaqtini Uning hazratiga to‘liq yuzlanishga sarflasin, Uning yo‘liga qoyim bo‘lsin va bu yo‘ldan chetlashganlarni to‘g‘ri yo‘lga solsin.[9]

Bu haqda Ibn Arabiy Yaratuvchining yakkaligiga ishora qiluvchi zotiy sifatlari bilan Unga hamd aytib, yakka va bitta mazmunini ifoda etuvchi “vahdoniyat”, “fardoniyat” kabi ma’nosi bir-biriga yaqin so‘zlarni alohida tahlil qilgan: “Vahdoniyatidan oldin O‘zidan o‘zga hech bir oldinlik bo‘lmagan, har qanday oldinlik O‘zi bo‘lgan va fardoniyatidan keyin O‘zidan o‘zga hech bir keyinlik bo‘lmagan, har qanday keyinlik O‘zi bo‘lgan Allohga hamdlar bo‘lsin”. [10]

Ya’qubi Charxiy fikricha “agar sendan, ittihod nima, deb so‘rasalar Haq subhonahuning boshqa narsani bilimidan xolos qilishdir” – degan xulosani beradi. Ittihod (arab. - birlashish) bo‘lib, sufiyning jazabada tushish holatida Xudo bilan ruhan “qo‘shilib ketishi” tushuniladi. Sufiylar Xudo bilan muhabbat (ishq) ni ittihodning zaruriy qismi deb qaraydi. Ittihod turli davrlarda turlicha talqin qilingan. Sunniy tasavvuda ittihod qat’iy rad qilingan.

Mutasavvif “agar sendan, saodat nima, deb so‘rasalar, Haqni ko‘rish va o‘zidan xalos bo‘lish” – degan fikrni beradi.

Muhokama (Обсуждение/Discussion).

Naqshbandiya tariqati nazariyotchisi Maxdumi A’zam yozadiki; “Bidan ey tolibi sodiq, ki hama saodatho va davlatho dar maqomi fanovu nesti hast. Rafitorihovu besaodatho dar vujudi hasti ast”. [11]

Mazmuni: “Ey sodiq tolib, bilgilki, barcha saodat va davlatlar fano, ya’ni yo‘qlik maqomidadir. Sargardonlik va saodatsizlik, ya’ni badbaxtlik borliq vujudidadir”. Bu yerda oraziy, majoziy, o‘tkinchi vujud asl vujud, haqiqiy, boqiy, sarmadoniy vujudda g‘arq bo‘lib, yo‘q bo‘lgan bo‘lsa, fano maqomiga yetsa ikki olam saodatiga yetadi, degan fikr yotadi.

1.Haqiqiy, boqiy, sarmadiy vujud. Sarmadiy – doimiy, abadiy ma’nosini anglatadi. Haqiqiy, boqiy, abadiy, doimiy vujud Haq subhana va taolo vujudidir.

2.Oraziy, majoziy, foniy vujud. Oraz - arab so‘zi bo‘lib, ko‘rinish, namoyon bo‘lish ma’nolarini anglatadi. Falsafada aksidensiya ma’nosini anglatadi. Majoziy – haqiqatning aksi. Foniy - o‘tkinchi deganidir. Oraziy, majoziy, foniy vujud - ko‘rinadigan, yuzada bor, lekin haqiqiy bo‘lmagan, o‘tkinchi vujud deganidir. Bunday vujud xalq qilingan maxluqotlar vujudidir. Har bir yaratilgan, xalq qilinganning o‘z haqiqati bor.

Ya’qubi Charxiy “agar sendan, shaqovat (badbaxtlik) nima, deb so‘rasalar, Allohni unutish va o‘zi bilan ovora bo‘lib qolish” -deydi. Shaqovat bu shumlikdir. Yusuf Hamadoniy fikricha, “badbaxtlikning urug‘i ilohiy ilmga zid bo‘lgan g‘aybiy narsalarni taftish qilishdir” [12] - deydi.

Allohni tanishlik, vahdoniyat (yakkalik, yagonalik)ni anglash, unga ibodat qilish, xulqlanish, ilm olish, halol rizq topish, halol mehnat qilish, halol taom bilan taomlanish, yaxshilik talabi bilan yashash, yomonlikdan saqlanish, o‘zi, oilasi va jamiyat manfaatlari uchun kurashish, insoniy ruh talabi bilan bo‘lsa, Allohni unutish, unga shirk keltirish, axloqsizlik, ilmni manfaat uchun olish, shariat harom qilgan taomni ist’emol qilish, destruktiv g‘oyaga ergashish, farzandlari, oilasi nafaqasini unutish, jamiyatga ziyon keltirish hayvoniy ruh talabi bilan bo‘ladi.

Mutasavvif “agar sendan? Vasl nima, deb so‘rasalar, Haqning vujud nuriga ko‘milish bilan o‘zini unutish”, degan tasavvufiy xulosani beradi.

Xulosa (Заключение/Conclusion).

Tasavvuf ta’limotida fano maqomidan keyingi martaba vasl hisoblanadi. “Fano” maqomiga erishgan solik Allohning haqligi, ulug‘ligi to‘g‘risidagi fikrga g‘arq bo‘lib, foniy dunyodagi borliq narsalarni unutib yuborgan bo‘lsa, “vasl” maqomiga yetgan solik esa Allohdan o‘zga borliqdan ajralib unga yetishgan bo‘ladi. Vasl solik Allohdan boshqa hech narsani ko‘rmaydi, faqat U bilangina ko‘ngildagi sirlarni baham ko‘radi. Shuningdek, vasl deganda, banda sifatlarining Haq sifatlarida fano (yo‘q) bo‘lib ketishiga ham aytiladi.

Ya’qubi Charxiy vujud haqidagi ta’limotini “Risolai abdoliya” (“Haq yo‘lining abdollari”) risolasida ham maxsus to‘xtaladi.

Mutasavvif risolani “dunyo osmonini chiroq - yulduzlar bilan bezagan va ularni shaytonlarga otiluvchi toshlar qilgan, yerni esa rasullar, nabiylar, valiylar va ulamolar bezab, ular hujjat-u burhon qilish orqali yer yuzini zulmat va turli shubha-gumonlardan tozalagan Allohga hamd-u sano” aytish bilan boshlab, Allohni yaratuvchanligi haqida quyidagi baytni keltiradi:

Seli jo‘yho bar murodi o‘ ravad,
Axtaron zi on son ki xohad u shavad.[13]
Mazmuni
Daryolarning suvlari u istagan tomonga oqadi,
Yulduzlarning soni u nechta desa, shuncha bo‘ladi.

Demak, mutasavvif fikricha, Haqning olamga o‘z sifatlari bilan tajalliy etishi (ya’ni, borliqni yaratishi)dan maqsad, O‘zini O‘ziga ko‘rsatish irodasidir. Bu bilan quyidagi mashhur hadisi qudsiy mazmuniga ishora qiladi: “Men yashirin xazina edim,tanilishni xohladim”.

Tasavvuf ta’limotida Inson “Haqning nusxasi” sanaladi. Kayhon “Olami kabir” (yirik olam), Inson esa “Olami sag‘ir” (kichik olam) deb ataladi. Inson va Kayhon o‘rtasida uzviy va doimiy robita mavjud. Yirik olam kichik olamni o‘z tarkibiga olsa-da, kichik olam yirik olamning ruhidir. Inson ham jismoniy va ham ruhoniy jihatdan olamga o‘xshash.

Ya’qubi Charxiy risolada azaliy va o‘tkinchi olamni tahlil qilar ekan, shaklga, o‘tkinchi olamga berilmaslik va aldanmaslikka, boqiy olam haqida ko‘proq o‘ylashga chaqirib, Mavlono Jaloliddin Rumiyning quyidagi baytini keltiradi:

Ey baso, kasro ki surat roh zad,
Qasdi surat kardu barrulloh zad
Toki nafribad shumoro shakli o‘,
Naqli o‘ shoyad ba pesh az naqli o‘. [14]

Mazmuni: kimki suratga aldansa, o‘yldan adashadi, suratni maqsad qilsa, Allohdan chetlanadi. Ularning bechora ko‘rinishi va shakl-u shamoyili sizlarni aldab qo‘ymasin, Ularni uchratishdan oldin ular to‘g‘risida naql qilingan gaplarni bilgin.

Demak, “vahdat ul-vujud” deganda moddiylikdan, shaklu shamoyildan xoli, munazzah, ammo ana shu O‘zi xalq etgan olamlar bilan doimiy birga bo‘lgan, bu olamlar mohiyatini qamrab olgan, ularga muhit bo‘lgan Zoti pokning yagona vujudi anglashiladi.

THE DIALECTICAL NATURE OF SPIRITUAL SECURITY IN THE CONTEXT OF THE COMMODIFICATION OF VALUES

Abstract. *This article analyzes the dialectical nature of spiritual security in the context of the commodification of values from a socio-philosophical perspective. It presents ideas regarding the "disembedding" of the economy from society. The impact of rapid economic transformation on value systems and the issue of preserving national values are also examined from a socio-philosophical standpoint.*

Keywords: *commodification of values, neoliberalism, spiritual security, social transformation, collective values, neoliberal model, economic transformation, stable identity.*

Kirish

Iqtisodiy nazariyada bozor ko'pincha neytral almashinuv mexanizmi sifatida tasvirlanadi. U go'yoki samaradorlikni oshiradi, resurslarni optimal taqsimlaydi va individual tashabbusni rag'batlantiradi. Biroq ijtimoiy-falsafiy tahlil shuni ko'rsatadiki, bozor hech qachon faqat iqtisodiy hodisa bo'lmagan. U o'z mantig'i –rentabellik, raqobat, maksimalizatsiya va tezlik orqali ijtimoiy munosabatlarni qayta tuzadi. Bu jarayon ayniqsa neoliberal model sharoitida keskinlashadi.

Iqtisodiyotning jamiyatdan "ajralib chiqishi" haqida ilgari surilgan g'oya shuni ko'rsatadiki, tarixan iqtisodiy faoliyat ijtimoiy va axloqiy tuzilmalarga singdirilgan holda mavjud bo'lgan [1]. Zamonaviy bozor esa aksincha, jamiyatni o'ziga moslashtiradi. Ijtimoiy institutlar bozor mantig'iga bo'ysundiriladi. Ta'lim samaradorlik bilan, sog'liqni saqlash rentabellik bilan, hatto ijtimoiy munosabatlar ham "foyda" mezoni bilan o'lchana boshlaydi. Bu jarayon oddiy transformatsiya emas, bu – aksiologik siljishdir.

Adabiyotlar tahlili

Qadriyatlarning bozorlashuvi g'oyasiga eng erta ilmiy yondashuvlardan biri **Karl Marks**ning "tovar fetişizmi" konsepsiyasida uchraydi. U kapitalistik jamiyatda insoniy munosabatlar ham tovar shakliga kirishini, ma'naviy

qadriyatlar ham iqtisodiy manfaatga bo‘ysunishini ta’kidlaydi. Shuningdek insoniy munosabatlar “narsa”lashishi, qadriyatlar almashinuv qiymatiga aylanishi va ma’naviylik iqtisodiy foyda bilan o‘lchanishi ta’kidlanadi. **Georg Simmel** pul iqtisodiyotining inson ongiga ta’sirini tahlil qilib, pulning universal ekvivalent sifatida barcha qadriyatlarni tenglashtirib yuborishini ko‘rsatadi. Uning fikricha, pul sifatni miqdorga aylantiradi, ma’naviy farqlarni yo‘qotadi, hayotning barcha sohalarini “hisob-kitobga” bo‘ysundiradi deya ta’kidlaydi.

Maks Veber “ratsionalizatsiya” jarayonini tahlil qilib, zamonaviy jamiyatda an’anaviy va diniy qadriyatlar o‘rnini foyda va samaradorlik egallashini “instrumental ratsionallik” ustun bo‘lishini ko‘rsatadi. Bu jarayon qadriyatlarning bozorlashuvi uchun ijtimoiy zamin yaratadi. **Yurgen Xabermas** “hayot dunyosi” (Lebenswelt) va tizim (System) o‘rtasidagi farqni asoslab beradi. Uning fikricha bozor va davlat tizimi hayot dunyosini “mustamlaka qiladi” kommunikativ qadriyatlar iqtisodiy manfaatga bo‘ysunadi deya ta’kidlaydi. Bu konsepsiya qadriyatlarning bozorlashuvini eng aniq tahlil qilgan zamonaviy nazariyalardan biridir. **Zygmunt Bauman** o‘zining “suyuq zamonaviylik” (liquid modernity) konsepsiyasida, qadriyatlarning barqarorligi yo‘qolishini va iste’mol madaniyati barcha ma’naviy tizimlarni o‘zgartirishini hamda insonning o‘zi ham “iste’mol mahsuliga” aylanishini ta’kidlaydi. **Entoni Giddens** globallashuv sharoitida an’anaviy qadriyatlar transformatsiyaga uchrashini, zamonaviy institutlar (bozor, media) qadriyatlarni qayta shakllantirishini ko‘rsatadi.

O‘zbek falsafa maktabida ham qadriyatlar muammosi keng o‘rganilgan. Jumladan **X.To‘xtayev**ning “Qadriyatlar falsafasi va jamiyat taraqqiyoti” **B. Ismoilov**ning “Ijtimoiy-ma’naviy transformatsiyalar” **F.Inagamov**aning **“**Qadriyatlar transformatsiyasi va globallashuv” kabi tadqiqotlarida quyidagilar ta’kidlanadi. Milliy qadriyatlar global bozor ta’sirida o‘zgaradi, ma’naviy qadriyatlar transformatsiyaga uchraydi “inson qadri” markaziy o‘ringa chiqadi.

Aksiologiya (qadriyatlar falsafasi) doirasida: qadriyatlar jamiyat tomonidan baholanishi, bozor iqtisodiyoti bu baholash mezonlarini o‘zgartirishini va moddiy qadriyatlar ustuvor bo‘lib borishini tadqiq etadi. Tadqiqodlar tahlili shuni ko‘rsatadiki, qadriyatlarning bozorlashuvi kapitalizm va globallashuv natijasida kuchib boradi. Marks, Simmel va Veber bu jarayonning asosiy nazariy asoslarini yaratgan, zamonaviy olimlar (Habermas, Bauman, Giddens, Ritzer) uni global ijtimoiy-madaniy inqiroz sifatida tahlil qilgan. O‘zbek tadqiqotchilari esa bu jarayonni milliy qadriyatlar transformatsiyasi bilan bog‘lab o‘rganmoqda. N.Musinov tadqiqodlarida “Ma’naviy xavfsizlik – jamiyatning mafkuraviy immuniteti va yosh avlodning sog‘lom dunyoqarashi shakllanishida hal qiluvchi omildir” [2] deya ta’kidlanadi.

Tadqiqot metodologiyasi

Qadriyatlarning bozorlashuvi sharoitida ma’naviy xavfsizlik jamiyatning barcha tizimlari – oila, ta’lim, mahalla, davlat siyosati, media muhiti bilan uzviy bog‘liq holda tahlil qilindi. Bu yondashuv mavzuga kompleks qarash imkonini beradi. Aholining ma’naviy holati, yoshlarning qadriyatlarga munosabati, axborot xurujlariga qarshi immuniteti so‘rovnoma, intervyu va kuzatuvlar orqali o‘rganiladi. Neoliberalizm sharoitida bozor faqat tashqi iqtisodiy mexanizm emas, balki subyektivlikni shakllantiruvchi kuchga aylanadi. Inson o‘zini fuqarolik yoki axloqiy mavjudot sifatida emas, balki “o‘z ustida investitsiya qilinuvchi kapital loyihasi” sifatida idrok eta boshlaydi [3]. Bozorning kengayishi bilan yuzaga keladigan yana bir jarayon — qadriyatlarning tovarlashuvi (kommodifikatsiyasi). Ilgari axloqiy yoki ma’naviy maydonga mansub bo‘lgan hodisalar ham tovar shakliga kiradi. Xayriya, e’tibor, hatto ijtimoiy obro‘ ham iqtisodiy aylanish tizimiga qo‘shiladi. “Hamma narsaning narxi bor” degan qarash sekin-asta “hamma narsa sotiladi” degan ongni shakllantiradi [4]. Ammo savol tug‘iladi: agar qadr narx bilan almashtirilsa, qadriyatning o‘zi saqlanadimi?

Bozor mantig‘i birdamlikni inkor etmaydi, lekin uni qayta talqin qiladi. Hamkorlik foydali bo‘lsa – mavjud, foyda bermasa – tugaydi. Bu esa ijtimoiy aloqalarning instrumental tus olishiga olib keladi. Ijtimoiy kapital tadqiqotlari shuni ko‘rsatadiki, bozorlashtirilgan muhitda uzoq muddatli ishonch aloqalari qisqa muddatli manfaatga almashishi mumkin [5]. Ishonch susaygan joyda esa ma’naviy xavfsizlikning poydevori zaiflashadi. O‘zbekiston tajribasi boshqa davlatlarning ma’naviy xavfsizlik tajribasi bilan taqqoslanadi. O‘zbekiston Respublikasi Konstitutsiyasi, ijtimoiy davlat dasturlari va ma’naviy-ma’rifiy sohadagi normativ hujjatlar asosida mavzuning huquqiy bazasi o‘rganiladi. Beruniy, , Navoiy, I. Karimov, Sh. Mirziyoyev, Putnam R. D, Sandel M. J, Polanyi. K va O‘zbekistonlik olimlarning ilmiy qarashlari metodologik asos bo‘lib xizmat qiladi.

Natijalar va ularning tahlili

Neoliberal tezlik fenomeni bu jarayonni yanada chuqurlashtiradi. Tezkor iqtisodiy transformatsiya, doimiy raqobat va o‘zini doimiy ravishda “yangilab borish” talabi insonni refleksiv qadriyatli fikrlashdan uzoqlashtiradi. Tezlik barqarorlikni yemiradi. Qadriyat esa barqarorlikni talab qiladi. Shu yerda asosiy dialektik ziddiyat yuzaga keladi: bozor tezlikni talab qiladi, ma’naviy xavfsizlik esa barqarorlikni.

Shunday ekan, bozorni shunchaki iqtisodiy mexanizm sifatida ko‘rish metodologik soddalashtirish bo‘ladi. U ijtimoiy ongni, o‘zlikni va qadriyaviy tuzilmani qayta shakllantiruvchi kuchdir. Neoliberal shaklda esa u muqarrar ravishda birdamlik qadriyatlariga bosim o‘tkazadi. Bu bosim darhol ko‘zga tashlanmasligi mumkin, biroq u asta-sekin ijtimoiy ishonchni yemiradi, tengsizlikni chuqurlashtiradi va fuqarolik ongini iste’molchilik ongiga aylantiradi.

Savol shunday qo‘yilishi mumkin: bozor kengayishi jamiyatni erkinlashtiryaptimi yoki uni yangi, ko‘rinmas qaramlik shakliga olib kirmoqdami?

Bozor va birdamlik o‘rtasidagi dialektik qarama-qarshilik zamonaviy ijtimoiy transformatsiyaning eng murakkab tugunidir. Bir tomondan, bozor individual tashabbus va samaradorlikni rag‘batlantiradi. Ikkinchi tomondan esa u jamiyatni birlashtirib turuvchi kollektiv qadriyatlarni zaiflashtirishi mumkin. Mazkur ziddiyatni anglamasdan turib, ma’naviy xavfsizlikning mohiyatini tushunish mushkul.

Bozor mantig‘ining destruktiv momenti, avvalo, ijtimoiy atomizatsiya jarayonida namoyon bo‘ladi. Atomizatsiya sharoitida shaxs o‘zini jamoaviy tuzilmaning a’zosi sifatida emas, mustaqil manfaat egasi sifatida anglay boshlaydi. Ijtimoiy aloqalar uzoq muddatli sadoqatdan ko‘ra qisqa muddatli manfaat asosida quriladi. Zamonaviy kapitalizm tahlilida bu jarayon “xarakterning yemirilishi” sifatida tasvirlanadi [6]. Barqaror mehnat va doimiy ijtimoiy ro‘llar o‘rnini moslashuvchanlik va muvaqqatlik (vaqtinchaliklik) egallaydi. Bu esa jamiyatning ichki birdamlik tuzilmasini zaiflashtiradi.

Atomlashuv bilan birga ishonchning erishi kuzatiladi. Ijtimoiy ishonch – bu shunchaki psixologik holat emas, balki ijtimoiy tizimning barqarorligini ta’minlovchi kapitaldir. Bozorlashtirilgan muhitda ishonch ko‘pincha shartnomaviy kafolat bilan almashtiriladi. Axloqiy majburiyat o‘rnini huquqiy majburiyat egallaydi. Natijada, insonlar o‘rtasidagi aloqa instrumental tus oladi. Empirik tadqiqotlar kuchli tengsizlik sharoitida ishonch darajasi sezilarli pasayishini ko‘rsatadi [7]. Ishonch susaygan jamiyatda esa birdamlikning normativ asosi yemirila boshlaydi. Tahlillar natijasida quyidagi ilmiy xulosalarga kelindi;

Birinchidan, ijtimoiy-iqtisodiy transformatsiya jamiyatning iqtisodiy tuzilmasi, ijtimoiy qatlamlanishi, institutsional mexanizmlari va qadriyatlar tizimi o‘zaro bog‘liq holda sifat jihatdan yangilanadigan murakkab tizimli jarayon ekanligi asoslandi. Transformatsiya oddiy miqdoriy o‘zgarish emas, balki strukturaviy va aksiologik darajada yuz beradigan sifat o‘zgarishidir.

Ikkinchidan, klassik va zamonaviy ijtimoiy-falsafiy nazariyalar qiyosiy tahlili transformatsiyaning bir yoqlama deterministik emas, balki ko‘p omilli va ziddiyatli xarakterga ega ekanini ko‘rsatdi. Iqtisodiy modernizatsiya o‘z-o‘zidan ijtimoiy barqarorlikni kafolatlamaydi, u xavf-xatarlar, tengsizlik va legitimlik muammolarini ham yuzaga chiqarishi mumkin.

Uchinchidan, transformatsiyaning iqtisodiy, ijtimoiy, institutsional va madaniy-aksiologik o‘lchamlari o‘zaro uzviy bog‘liqlikda namoyon bo‘lishi asoslandi. Iqtisodiy o‘zgarishlar ijtimoiy stratifikatsiyaga ta’sir qiladi, bu esa institutlar faoliyatini qayta belgilaydi, institutlardagi siljishlar esa qadriyatlar tizimi va ijtimoiy ong transformatsiyasiga olib keladi.

To‘rtinchidan, ma’naviy xavfsizlik jamiyatning aksiologik yaxlitligi, ijtimoiy ishonch darajasi va identifikatsion barqarorligi bilan bog‘liq bo‘lgan ko‘p komponentli kategoriya sifatida talqin qilindi. U faqat mafkuraviy himoya emas, balki jamiyatning uzoq muddatli barqaror rivojlanishini ta’minlovchi normativ-regulyativ va integrativ mexanizmdir.

Beshinchidan, ijtimoiy-iqtisodiy transformatsiya va ma’naviy xavfsizlik o‘rtasida ichki dialektik bog‘liqlik mavjudligi asoslandi. Transformatsiya jarayoni iqtisodiy samaradorlikni oshirishi mumkin, biroq agar u ijtimoiy adolat va qadriyaviy muvozanat bilan uyg‘unlashtirilmasa, ma’naviy fragmentatsiya va ijtimoiy beqarorlikka olib kelishi mumkin.

Xulosa

Mazkur maqolada qadriyatlarning bozorlashuvi va ma’naviy xavfsizlik o‘rtasidagi o‘zaro bog‘liqlik nazariy-metodologik jihatdan kompleks tahlil qilindi. Transformatsiya jarayoni tor iqtisodiy kategoriya sifatida emas, balki jamiyatning strukturaviy, institutsional va aksiologik asoslarini qamrab oluvchi ko‘p qatlamli ijtimoiy jarayon sifatida talqin etildi. Shu asosda ma’naviy xavfsizlik tushunchasi ham an’anaviy mafkuraviy himoya doirasidan chiqarilib, jamiyat barqarorligini ta’minlovchi tizimli ijtimoiy-madaniy mexanizm sifatida qayta talqin qilindi. Bob davomida klassik va zamonaviy nazariy yondashuvlar qiyosiy tahlil qilinib, transformatsiyaning murakkab va ziddiyatli tabiati ochib berildi hamda u bilan ma’naviy barqarorlik o‘rtasidagi dialektik munosabat asoslandi.

NARKOMANIYA FENOMENINING IJTIMOIY-FALSAFIY VA AKSIOLOGIK TALQINLARI

Oxunov Nabijon Mansurovich
Farg'ona davlat universiteti mustaqil tadqiqotchisi

Annotatsiya. *Mazkur maqolada narkomaniya fenomenining ijtimoiy-falsafiy va aksiologik jihatlari tahlil qilinadi. Tadqiqotda narkomaniya shaxs, jamiyat va qadriyatlar tizimi o'rtasidagi murakkab munosabatlar mahsuli sifatida talqin qilinadi. Narkotik vositalarga qaramlikning shakllanish omillari, uning insonning ma'naviy dunyosi, ijtimoiy ong va qadriyatlar tizimiga ko'rsatadigan ta'siri ijtimoiy-falsafiy yondashuvlar asosida o'rganilgan. Shuningdek, narkomaniyaning globallashuv, iste'molchilik madaniyati va identifikatsiya inqirozi bilan bog'liq jihatlari ochib berilgan. Tadqiqot natijasida narkomaniya nafaqat tibbiy yoki huquqiy muammo, balki zamonaviy jamiyatning aksiologik inqirozini ifodalovchi murakkab ijtimoiy hodisa ekanligi asoslandi.*

Kalit so'zlar: *narkomaniya, qadriyatlar, aksiologiya, ijtimoiy ong, ma'naviy inqiroz, globallashuv, identifikatsiya, ijtimoiy falsafa, deviant xulq-atvor, ijtimoiy transformatsiya.*

СОЦИАЛЬНО-ФИЛОСОФСКИЕ И АКСИОЛОГИЧЕСКИЕ ИНТЕРПРЕТАЦИИ ФЕНОМЕНА НАРКОМАНИИ

Аннотация. *В статье анализируются социально-философские и аксиологические аспекты феномена наркомании. Наркомания рассматривается как сложное социальное явление, возникающее на пересечении личности, общества и системы ценностей. Исследуются факторы формирования наркотической зависимости, её влияние на духовный мир человека, общественное сознание и ценностные ориентации. Особое внимание уделяется взаимосвязи наркомании с глобализацией, потребительской культурой и кризисом идентичности. Обосновывается положение о том, что наркомания представляет собой не только медицинскую или правовую проблему, но и проявление аксиологического кризиса современного общества.*

Ключевые слова: *наркомания, ценности, аксиология, общественное сознание, духовный кризис, глобализация, идентичность, социальная философия, девиантное поведение.*

SOCIO-PHILOSOPHICAL AND AXIOLOGICAL INTERPRETATIONS OF THE PHENOMENON OF DRUG ADDICTION

Abstract. *This article examines the socio-philosophical and axiological dimensions of drug addiction. Drug addiction is interpreted as a complex social phenomenon emerging from the interaction between individual consciousness, social structures, and value systems. The study explores the factors contributing to substance dependence and its impact on personal identity, moral values, and social consciousness. Particular attention is paid to the relationship between drug addiction, globalization, consumer culture, and identity crises. The findings demonstrate that drug addiction should be understood not only as a medical or legal issue but also as a manifestation of the axiological crisis characteristic of contemporary societies.*

Keywords: *drug addiction, values, axiology, social consciousness, spiritual crisis, globalization, identity, social philosophy, deviant behavior, social transformation.*

Kirish. XXI asrda narkomaniya insoniyat oldida turgan eng murakkab global muammolardan biri sifatida namoyon bo'lmoqda. Jahon sog'liqni saqlash tashkiloti ma'lumotlariga ko'ra, narkotik vositalarni iste'mol qiluvchilar sonining ortib borishi nafaqat sog'liqni saqlash tizimi, balki jamiyatning ma'naviy, iqtisodiy va ijtimoiy barqarorligiga ham jiddiy tahdid solmoqda [1]. Mazkur holat natijasida narkomaniya fenomenini faqat tibbiy yoki kriminal hodisa sifatida emas, balki ijtimoiy-falsafiy va aksiologik muammo sifatida tadqiq etish dolzarb ahamiyat kasb etmoqda. Zamonaviy ilmiy adabiyotlarda narkomaniya ko'pincha deviant xulq-atvor shakli sifatida talqin qilinadi. Biroq ijtimoiy-falsafiy nuqtai nazardan qaralganda, mazkur hodisa jamiyatdagi qadriyatlar transformatsiyasi, ma'naviy bo'shliq, identifikatsiya inqirozi va ijtimoiy alienatsiya jarayonlari bilan uzviy bog'liqdir [2].

E.Frommning fikricha, zamonaviy jamiyatda insonning begonalashuvi va ma’naviy qadriyatlarning zaiflashuvi turli qaramlik shakllarining kengayishiga sabab bo‘ladi [3]. Mazkur nazariya narkomaniyani shaxsning ma’naviy ehtiyojlari bilan mavjud ijtimoiy muhit o‘rtasidagi ziddiyatning mahsuli sifatida izohlash imkonini beradi.

Bugungi globallashuv sharoitida iste’molchilik madaniyati va individualistik qadriyatlarning kuchayishi natijasida shaxsning ma’naviy tayanchlari zaiflashmoqda. Natijada ayrim ijtimoiy guruhlar, ayniqsa yoshlar orasida narkotik vositalarga qiziqishning ortishi kuzatilmoqda. Shu jihatdan narkomaniya fenomenining aksiologik asoslarini tadqiq etish dolzarb ilmiy vazifa hisoblanadi.

Tadqiqot maqsadi. Narkomaniya fenomenining ijtimoiy-falsafiy va aksiologik mohiyatini ochib berish, uning zamonaviy jamiyatdagi qadriyatlar tizimi va ijtimoiy ong transformatsiyasi bilan bog‘liqligini ilmiy jihatdan asoslash.

Tadqiqot vazifalari

a) narkomaniya tushunchasining ijtimoiy-falsafiy mazmunini tahlil qilish;
b) narkotik qaramlikning aksiologik omillarini aniqlash;
c) narkomaniyaning zamonaviy jamiyatdagi ijtimoiy oqibatlarini o‘rganish;
d) narkomaniya va ma’naviy inqiroz o‘rtasidagi bog‘liqlikni asoslash;
e) narkomaniyaning oldini olishning qadriyatlarga asoslangan mexanizmlarini ishlab chiqish.

Tadqiqot metodologiyasi. Tadqiqotda ijtimoiy-falsafiy tahlil, aksiologik yondashuv, qiyosiy tahlil, tizimli yondashuv va interpretativ metodlardan foydalanildi. Metodologik asos sifatida E.Frommning begonalashuv nazariyasi, E.Dyurkgeymning anomiya konsepsiyasi, R.Mertonning deviant xulq-atvor nazariyasi va Z.Bauman tomonidan ishlab chiqilgan “suyuq modernlik” konsepsiyasi tanlandi [4].

Aksiologik yondashuv orqali narkomaniyaning inson qadriyatlari tizimiga ta’siri tahlil qilindi. Shuningdek, zamonaviy jamiyatdagi iste’molchilik madaniyatining narkotik qaramlikka ta’siri o‘rganildi.

Natijalar. Tadqiqot natijalari shuni ko‘rsatdiki, narkomaniya ko‘p omilli ijtimoiy hodisa bo‘lib, uning shakllanishida biologik, psixologik va ijtimoiy omillar bilan bir qatorda aksiologik omillar ham muhim o‘rin tutadi.

Birinchidan, narkomaniya shaxsning qadriyatlar tizimida yuzaga kelgan deformatsiyaning mahsuli sifatida namoyon bo‘ladi. Tadqiqot davomida aniqlanishicha, ma’naviy qadriyatlar zaiflashgan muhitda narkotik vositalarga moyillik yuqoriroq bo‘ladi.

Ikkinchidan, narkomaniya ijtimoiy alienatsiyaning shakllaridan biri hisoblanadi. Insonning jamiyatdan, mehnatdan va o‘z “Men”idan begonalashuvi narkotik qaramlikka zamin yaratadi [3].

Uchinchidan, globallashuv va ommaviy madaniyat ta’sirida ayrim yoshlar orasida hedonistik qadriyatlarning kuchayishi narkotik vositalarga nisbatan qiziqishni oshirmoqda.

Tadqiqot davomida narkomaniya fenomenining quyidagi aksiologik indikatorlari aniqlandi:

1) hayot mazmunining yo‘qolishi;
2) ma’naviy qadriyatlarning zaiflashuvi;
3) ijtimoiy mas’uliyat hissining pasayishi;
4) individualizmning kuchayishi;
5) ijtimoiy begonalashuv.

Muhokama. Tadqiqot natijalari narkomaniya fenomenining zamonaviy jamiyatdagi aksiologik inqiroz bilan uzviy bog‘liqligini ko‘rsatdi. E.Dyurkgeym tomonidan ishlab chiqilgan anomiya nazariyasiga ko‘ra, jamiyatdagi me’yoriy tizimning zaiflashuvi deviant xulq-atvor shakllarining kengayishiga olib keladi [6].

Z.Bauman zamonaviy “suyuq jamiyat”da insonning identifikatsiya inqirozi va ma’naviy tayanchlarning zaiflashishini ta’kidlaydi [7]. Muallifning fikricha, narkomaniya aynan mana shu jarayonlarning ekstremal ko‘rinishlaridan biri hisoblanadi.

Shu bilan bir qatorda, narkomaniya fenomeni iste’molchilik madaniyatining salbiy oqibatlari bilan ham bog‘liq. Zamonaviy jamiyatda baxt va muvaffaqiyatning moddiy mezonlar bilan o‘lchanishi ayrim insonlarni sun’iy qoniqish vositalariga murojaat qilishga undaydi.

O‘zbekiston sharoitida narkomaniyaning oldini olishda ma’naviy-ma’rifiy ishlar, ta’lim tizimi, oila instituti va fuqarolik jamiyati institutlarining roli alohida ahamiyatga ega.

Xulosa. Tadqiqot natijalari narkomaniya fenomeni zamonaviy jamiyatning murakkab ijtimoiy-falsafiy va aksiologik muammolaridan biri ekanligini ko‘rsatdi.

Narkomaniya:

a) shaxsning qadriyatlar tizimidagi deformatsiyalar mahsuli;
b) ma’naviy inqirozning ko‘rinishi;
c) ijtimoiy alienatsiyaning natijasi;
d) globallashuv va iste’molchilik madaniyati bilan bog‘liq hodisa;
e) jamiyatning ijtimoiy barqarorligiga tahdid soluvchi omil hisoblanadi.

Yuqoridagilardan kelib chiqib, narkomaniyaga qarshi kurashda faqat huquqiy va tibbiy choralar bilan cheklanib qolmasdan, sog‘lom qadriyatlar tizimini shakllantirish, insonning ma’naviy dunyosini mustahkamlash va fuqarolik mas’uliyatini rivojlantirishga qaratilgan kompleks yondashuv zarur.

IJTIMOIY-SIYOSIY TIZIMLAR BARQARORLIGIDA VAQT VA MAKON O'LCHOVLARINING DIALEKTIK UYG'UNLIGI

Pulatov Jaxongir
Navoiy viloyati pedagogik mahorat markazi dotsenti,
falsafa fanlari bo'yicha falsafa doktori (PhD).

Annotatsiya: *maqolada barqaror rivojlanishning ijtimoiy-iqtisodiy mohiyati, barqarorlik bugungi farovonlikni kelajak hisobiga ta'minlash emas, balki hozirgi va kelajak o'rtasidagi uzviylikni saqlash strategiyasi sifatida tahlil qilinadi. Shuningdek, barqarorlik va taraqqiyot o'rtasidagi farqli jihatlari va ularning jamiyat farovonligini ta'minlashdagi ahamiyatiga oid ilmiy-nazariy taklif va tavsiyalar keltirilgan.*

Kalit so'zlar: *barqarorlik, taraqqiyot, farovonlik, inson manfaatlari, turmush darajasi, iqtisodiy islohotlar, ijtimoiy himoya, inson qadri, ijtimoiy adolat.*

ДИАЛЕКТИЧЕСКАЯ ГАРМОНИЯ ВРЕМЕННЫХ И ПРОСТРАНСТВЕННЫХ ИЗМЕРЕНИЙ В УСТОЙЧИВОСТИ СОЦИАЛЬНО-ПОЛИТИЧЕСКИХ СИСТЕМ

Аннотация: *в статье анализируется социально-экономическая сущность устойчивого развития, устойчивость как стратегия сохранения преемственности между настоящим и будущим, а не обеспечения сегодняшнего благосостояния за счет будущего. Также представлены научно-теоретические предложения и рекомендации по различным аспектам между стабильностью и развитием и их значению в обеспечении благосостояния общества.*

Ключевые слова*: стабильность, развитие, благополучие, интересы человека, уровень жизни, экономические реформы, социальная защита, человеческое достоинство, социальная справедливость.*

IALECTIC HARMONY OF TIME AND SPACE DIMENSIONS IN THE STABILITY OF SOCIO-POLITICAL SYSTEMS

Annotation: *the article analyzes the socio-economic essence of sustainable development, stating that sustainability is not ensuring today's prosperity at the expense of the future, but rather a strategy for maintaining continuity between the present and the future. Additionally, scientific and theoretical proposals and recommendations are presented regarding the differences between stability and development and their significance in ensuring the well-being of society.*

Key words: *stability, development, prosperity, human interests, standard of living, economic reforms, social protection, human dignity, social justice.*

Kirish. Har qanday mamlakat taraqqiyoti - bu iqtisodiy barqarorlik, ijtimoiy adolat va ekologik muvozanatning o'zaro uzviy birlashuvi bo'lib, u shunchaki moddiy farovonlikka erishish vositasi emas, balki insonning o'z potentsialini erkin ro'yobga chiqarishi hamda kelajak avlodlar oldidagi mas'uliyatni anglagan holda uyg'un yashash muhitini barpo etishning ijtimoiy-falsafiy asosidir. Bu shunchaki rivojlanish yig'indisi emas, balki iqtisodiy barqarorlik, ijtimoiy adolat va ekologik mas'uliyat kabi uch ustunli tizimning uyg'unlikda namoyon bo'lishidir. Agar ushbu uch ustundan biriga e'tibor susaysa, mamlakat taraqqiyoti beqarorlashadi. Bu esa, barqaror rivojlanish falsafasining mazmun-mohiyatida o'z aksini topadi. "…barqaror rivojlanish falsafasi zamonaviy jamiyatning taraqqiyot borasidagi ehtiyojlarini hisobga olish, tabiiy resurslarni saqlash va kelajak avlodlar farovonligini ta'minlash masalalarini o'zaro uyg'un ravishda hal etishni nazarda tutadigan barqaror rivojlanish modelini yaratishga qaratilgan"[16]. Shu bois, O'zbekistonda amalga oshirilayotgan islohotlar Birlashgan Millatlar Tashkilotining barqaror rivojlanish maqsadlari bilan uyg'unlashgan holda, shunchaki xalqaro andozalarga moslashish emas, balki mamlakatning o'z kelajagini uzoq muddatli barqarorlik poydevori asosida mustaqil belgilashga qaratilgan strategik tanlovidir.

[16] Mirziyoyev Sh.M. Hozirgi zamon va Yangi O'zbekiston.-Toshkent: "O'zbekiston", 2024.-B.38.

Mavzuga oid adabiyotlar tahlili. O‘zbekistonda ijtimoiy-iqtisodiy jarayonlar, barqarorlik va inson farovonligi masalalari bugungi kunda jamiyat rivojlanish darajasini belgilovchi mezonlar sifatida qator tadqiqotchilar ilmiy izlanishlarida asosiy obyekt bo‘lib xizmat qilmoqda. Xususan, A.Salimov, A.Razzoqov, S.Safoyev, Q.Nazarov, Sh.Toshmatov, N.O‘rmonov kabi olimlar o‘z tadqiqotlarida barqaror taraqqiyotning iqtisodiy negizlarini tadqiq etib, iqtisodiy tafakkurning tarixiy evolyutsiyasini tizimli yondashuv asosida tahlil qilgan holda, mazkur ta’limotlarning zamonaviy jamiyat taraqqiyotidagi konseptual ahamiyatini asoslab berganlar. Shuningdek, Q.Abduraxmonov “inson taraqqiyotining iqtisodiy omillarini”[17], A.Xudayqulov “Yangi O‘zbekiston sharoitida ijtimoiy-iqtisodiy sohalarda amalga oshirilayotgan islohotlarning mohiyatini”[18], Q.Nazarov “Jamiyatdagi barqarorlik va doimiy o‘zgarish, mutanosiblik va nomutanosiblik, uyg‘unlik va ziddiyatlar, shuningdek, taraqqiyot va tanazzul kabi jarayonlar bir-biridan ajralmas holda, o‘zaro uzviy bog‘liqlik va aloqadorlikda namoyon bo‘lishini”[19], A.Erkayev “Yangi O‘zbekiston : mo‘ljal Uchinchi Renessans”[20] ni qurish natijasida jamiyatda barqarorlik va farovonlikni mustahkamlashga qaratilgan tadqiqotlar olib borgan. Bundan tashqari, jamiyatda barqaror rivojlanish strategiyalarini muvaffaqiyatli amalga oshirish bevosita inson omili va uning atrof-muhitga bo‘lgan munosabati bilan bog‘liq jarayon ekanligi hamda ekologik barqarorlikni ta’minlashda aholining ekologik-huquqiy ongini yuksaltirishga oid konseptual muammolar G. Abdullayeva, M. Najimov, J. Xolmuminov kabi huquqshunos olimlar tomonidan olib borilgan ilmiy izlanishlarida barqarorlik mezonlari huquq kontekstida tahlil qilingan. Zero, jamiyat o‘zining mustahkam va o‘zaro bog‘liq tarkibiy qismlari bilan barqaror tizimni namoyon etsa-da, ayni vaqtda u uzluksiz o‘zgarish va ilgarilanma harakatda bo‘lgan dinamik jarayondir. Bu taraqqiyot yo‘li bir tekis kechmaydi, balki mavjud ziddiyatlar, ijtimoiy tafovutlar va qarama-qarshiliklar muhitida shakllanadi. Shu bois, jamiyat doimiy yangilanish va taraqqiyotni amalga oshirish barobarida, o‘z ichki barqarorligini ham saqlab qoluvchi murakkab, uyg‘un tizim sifatida kelajakka qarab rivojlanib boradi.

Tadqiqot metodologiyasi. Davlatning jamiyat farovonligini yuksaltirishga qaratilgan strategiyasi metodologik jihatdan barqaror rivojlanishning kompleks va uyg‘un yondashuvi asosida shakllantiriladi. Mazkur siyosatning bosh maqsadi faqatgina tizimli islohotlar yoki moddiy ko‘rsatkichlarni oshirish bilan cheklanmaydi, balki erishilgan taraqqiyotning uzoq muddatli, barqaror va sifatli bo‘lishini kafolatlaydi. Shu nuqtai nazardan, ijtimoiy rivojlanish fenomeni shunchaki miqdoriy o‘sish ko‘rsatkichlari bilan emas, balki ijtimoiy tenglik, inson xavfsizligi hamda har bir fuqaroni qamrab oluvchi inklyuziv farovonlik mezonlari orqali baholanadi. Bunday paradigma ijtimoiy-ekologik tizimni bugungi kun ehtiyojlarini qondirish barobarida, kelajak avlodlarning ham munosib hayot kechirish huquqlarini asragan holda rivojlanuvchi uzluksiz strategik jarayon sifatida namoyon bo‘ladi. “…hayotiy muammolarini hal etish, turmush darajasini yuksaltirish, mustaqil ravishda o‘z moddiy farovonligini oshirish uchun yetarli va zarur sharoitlarni yaratish”[21]ga qaratilgan omillar Yangi O‘zbekistonning barqaror taraqqiyotini mustahkamlashga xizmat qiladi. Bu borada barqarorlikni izohlashda eng avvalo, barqarorlik bilan iqtisodiy taraqqiyot tushunchalarini bir-biridan farqli jihatlarini tushunish muhimdir. Shu nuqtai nazardan barqaror iqtisodiy taraqqiyot — bu iqtisodiyotning uzoq muddat davomida izchil va muvozanatli rivojlanishi bo‘lib, unda iqtisodiy o‘sish, ijtimoiy farovonlik uyg‘un holda ta’minlanadi. Barqaror iqtisodiy taraqqiyotning asosiy maqsadi jamiyat farovonligini oshirish va kelajak avlodlar manfaatlarini himoya qilishdan iborat. Iqtisodiy taraqqiyot esa, mamlakat yoki jamiyatning ishlab chiqarish, xizmat ko‘rsatish, daromadlar va farovonlik darajasining vaqt o‘tishi bilan barqaror ravishda oshib borishini ifodalaydigan jarayondir. U nafaqat iqtisodiy ko‘rsatkichlarning o‘sishini, balki resurslardan samarali foydalanish, texnologik rivojlanish, bandlik darajasining oshishi va aholining turmush sifatini yaxshilashni ham o‘z ichiga oladi. Barqarorlik tushunchasi ko‘pincha tor ma’noda — faqat resurslarni tejash yoki iqtisodiy foyda ko‘rish deb tushuniladi. Biroq, aslida bu qarash tubdan noto‘g‘ri. Barqarorlik — bu shunchaki mexanik harakatlar yig‘indisi emas, balki chuqur falsafiy va axloqiy yondashuv, ya’ni yangicha fikrlash tarzidir. Bu tamoyil insoniyat zimmasiga yuksak mas’uliyat yuklaydi. Zero, bu o‘tmish tajribasidan voz kechmasdan, bugungi kun talablariga moslashgan holda kelajak sari harakat qilishdir. Siyosiy jarayonlarda vaqt omili “tezlik” va “sifat” orasidagi muvozanatni talab qiladi. Vaqtning to‘g‘ri boshqarilmasligi, ya’ni islohotlarning haddan tashqari tezlashuvi yoki aksincha, turg‘unlik, tizimning ichki ziddiyatlarini kuchaytirib, inqirozlarga olib kelishi mumkin.

Tahlil va natijalar. Ijtimoiy-siyosiy tizimlar taraqqiyoti va ularning barqarorligini ta’minlash masalalari zamonaviy ijtimoiy falsafaning dolzarb tadqiqot obyekti hisoblanadi. Har qanday ijtimoiy tuzilma ma’lum bir makoniy chegaralar va vaqtinchalik bosqichlar kesishmasida shakllanadi. Shu bois, tizimning barqarorligi nafaqat institutsional mexanizmlar, balki vaqt va makon o‘lchovlarining dialektik uyg‘unligi bilan ham bevosita bog‘liqdir. Ijtimoiy-siyosiy tizimning makoniy o‘lchovi uning geosiyosiy joylashuvi, davlat chegaralari va boshqaruv institutlarining hududiy

tarqalishini qamrab oladi. Makon nafaqat moddiy-geografik muhit, balki siyosiy jarayonlar kechadigan maydon sifatida ham namoyon bo‘ladi. Tizim barqarorligi ushbu makon ichidagi ijtimoiy munosabatlarning tartibga solinishi, resurslarning taqsimlanishi va boshqaruv subyektlarining hududlar ustidan samarali nazoratni amalga oshirishi bilan belgilanadi. Makoniy birlikning buzilishi yoki uning chegaralaridagi noaniqliklar tizimda parchalanish xavfini keltirib chiqaradi. Bu esa, ijtimoiy-siyosiy tizimning barqarorligini ta’minlashda vaqt va makon omillari bir-birini qanday to‘ldirishi hamda ularning birgalikdagi ta’sirini tushunishga yordam beradi. Siyosiy-ijtimoiy tizim o‘zining ichki elementlari (an’analar, boshqaruv institutlari) va tashqi muhit (makon va geosiyosat) bilan doimiy aloqada bo‘lgan yaxlitlik sifatida qaraladi. Bu yerda vaqt o‘lchovi tizimning ichki xotirasi (barqarorligi)ni, makon o‘lchovi esa tashqi muhit bosimiga beradigan javob reaksiyasini belgilaydi. Har qanday jamiyat rivojlanishi — an’anaviylikdan zamonaviylikka o‘tish dinamikasidir. Jadvaldagi dialektik uyg‘unlik yangilanish fenomenini tushuntirib beradi.

Xulosa va takliflar

Xulosa qilib aytganda “O‘zbekiston-2030” strategiyasi doirasida amalga oshirilayotgan keng ko‘lamli islohotlar ijtimoiy-siyosiy tizimlar barqarorligini ta’minlashda vaqt va makon dialektikasi muvozanatini saqlashning o‘ziga xos konseptual modelini namoyon etmoqda. Shuningdek mamlakatimizda ijtimoiy-iqtisodiy sohalarda olib borilayotgan islohotlarning makon va zamon nuqtai nazardan qiyosiy tahlili quyidagi xulosalarga kelish imkonini beradi:

Birinchidan, Yangi O‘zbekistondagi yangilanishlar tadrijiy yoki tarixiy ildizlardan uzilish fenomeniga asoslanmagan. Aksincha, “Uchinchi Renessans” ezgu g‘oyasi orqali milliy-tarixiy meros va an’anaviy boshqaruv mexanizmlari barqarorligini ta’minlovchi fundamental resurs sifatida safarbar etilgan. Bu jamiyatda institutsional va mental uzviylikni saqlab qolishga xizmat qilmoqda.

Ikkinchidan, davlat tashqi siyosatda Markaziy Osiyo mintaqaviy yaxlitligini ustuvor yo‘nalish etib belgilashi, ichki siyosatda esa “mahallabay” tizimini joriy etishi orqali o‘zining makoniy imkoniyatlarini optimallashtirdi. Bu strategiya tizimning tashqi xavf-xatarlarga nisbatan barqarorligini oshirish bilan birga, islohotlarning eng chekka geografik nuqtalargacha kirib borishini ta’minladi.

Uchinchidan, davlat xizmatlarining raqamlashtirilishi va teskari aloqa mexanizmlarining takomillashuvi tizim ichidagi entropiya va ziddiyatlarni gomeostatik darajada nazorat qilish imkonini bermoqda.

Tadqiqot natijalari va aniqlangan qonuniyatlardan kelib chiqib, “O‘zbekiston 2030” strategiyasining ustuvor yo‘nalish va maqsadlarida keltirilgan vazifalar vaqt va makon muvozanatini yanada mustahkamlash borasida quyidagi ilmiy-amaliy tavsiyalar ilgari suriladi:

- hududlar o‘rtasidagi raqamli, iqtisodiy va ijtimoiy disproporsiyani yanada kamaytirish uchun strategik resurslarni taqsimlashda geografik joylashuv va mahalliy o‘ziga xoslik ko‘rsatkichlarini integratsiya qiluvchi kompleks indeks yaratish;

- jamiyatning ijtimoiy va psixologik moslashuvchanlik darajasini hisobga olgan holda, makroiqtisodiy va tarkibiy islohotlarning vaqtinchalik sur’atlarini prognoz qiluvchi tizimni yaratish va mavjudlarini takomillashtirish;

- Markaziy Osiyo mintaqasidagi geosiyosiy barqarorlik makonini saqlash va mustahkamlash uchun qo‘shma transport-logistika koridorlari hamda ekologik muammolarni (Orol fojiasi, suv taqchilligi) prognoz qiluvchi transchegaraviy ilmiy-tahliliy markazlar tarmog‘ini kengaytirish;

KOEVOLYUTSIYA NAZARIYASI VA AGRAR ISLOHOTLAR: IJTIMOIY-FALSAFIY TAHLIL

Rahmatov Nizomiddin Ashur o‘g‘li
Shahrisabz davlat pedagogika instituti
Iqtidorli talabalarning ilmiy-tadqiqot
faoliyatini tashkil etish bo‘limi boshlig‘i

Annotatsiya. *Ushbu maqola agrar islohotlarga koevolyutsiya nazariyasini qo‘llashni o‘rganadi. Unda jamiyat va qishloq xo‘jaligi transformatsiyalari o‘rtasidagi o‘zaro ta’sirning ijtimoiy-falsafiy tahlili taqdim etiladi. Tadqiqot islohotlar jarayonida ijtimoiy tuzilmalar, iqtisodiy munosabatlar va ekologik omillarning qanday qilib birgalikda rivojlanishini ko‘rib chiqadi. Agrar siyosatning uzoq muddatli oqibatlarini tushunishda yaxlit yondashuvning ahamiyati ta’kidlanadi. Ish qishloq xo‘jaligida barqaror rivojlanish yo‘llarini shakllantirish uchun yangi istiqbollarni taklif etadi.*

Kalit so‘zlar: *Koevolyutsiya nazariyasi, Agrar islohotlar, Ijtimoiy falsafa, Qishloq xo‘jaligi, Barqaror rivojlanish, O‘zaro ta’sir, Sotsial-ekologik tizimlar, Transformatsiya*

ТЕОРИЯ КОЭВОЛЮЦИИ И АГРАРНЫЕ РЕФОРМЫ: СОЦИАЛЬНО-ФИЛОСОФСКИЙ АНАЛИЗ.

Аннотация. *Данная статья посвящена применению теории коэволюции к анализу аграрных реформ. В ней представлен социально-философский анализ взаимовлияния между обществом и сельскохозяйственными преобразованиями. Исследование рассматривает, как социальные структуры, экономические отношения и экологические факторы коэволюционируют в процессе реформ. Подчеркивается важность целостного подхода для понимания долгосрочных последствий аграрной политики. Работа предлагает новые перспективы для формирования устойчивых путей развития в сельском хозяйстве.*

COEVOLUTION THEORY AND AGRARIAN REFORMS: A SOCIAL-PHILOSOPHICAL ANALYSIS

Abstract. *This article explores the application of coevolution theory to agrarian reforms. It provides a socio-philosophical analysis of the reciprocal relationship between society and agricultural transformations. The research examines how social structures, economic relations, and ecological factors coevolve during the reform process. The importance of a holistic approach to understanding the long-term consequences of agrarian policies is emphasized. The study offers new perspectives for shaping sustainable development pathways in agriculture.*

Keywords: *Coevolution theory, Agrarian reforms, Social philosophy, Agriculture, Sustainable development, Mutual influence, Socio-ecological systems, Transformation*

Kirish

Jamiyat taraqqiyotining murakkab jarayonlarida agrar islohotlar doimo markaziy o‘rin tutgan, ularning ijtimoiy-iqtisodiy, siyosiy va madaniy hayotga ta’siri keng qamrovli bo‘lgan. Ushbu islohotlar nafaqat iqtisodiy tizimni o‘zgartiradi, balki inson va tabiat o‘rtasidagi munosabatlar, ijtimoiy tuzilmalar va qadriyatlar tizimini ham qayta shakllantiradi. Shu bois, agrar o‘zgarishlarni chuqur tahlil qilish zamonaviy falsafiy tafakkur uchun muhim ahamiyat kasb etadi [1]. Koevolyutsiya nazariyasi, ya’ni turli tizimlar yoki elementlarning o‘zaro ta’sirda birgalikda rivojlanishi g‘oyasi, agrar islohotlarning jamiyat bilan o‘zaro dinamik aloqasini tushunish uchun yangi metodologik imkoniyatlar yaratadi. Bu nazariya agrar tizimlar va ijtimoiy tuzilmalar o‘rtasidagi murakkab, ikki tomonlama ta’sir mexanizmlarini ochib berishga xizmat qiladi.

Bugungi kunda global miqyosdagi oziq-ovqat xavfsizligi, barqaror rivojlanish va qishloq joylarining ijtimoiy-ekologik muammolari fonida agrar islohotlarning koevolyutsion xususiyatlarini o‘rganish alohida dolzarblik kasb etmoqda. O‘zbekiston tajribasi bu borada boy material taqdim etadi, chunki mamlakat XX asrda ikki xil agrar islohotlar to‘lqinini boshdan kechirgan: sovet davridagi milliylashtirish va kollektivlashtirish, hamda mustaqillikdan keyingi bozor

iqtisodiyotiga o‘tish jarayonidagi yer islohotlari [2]. Bu jarayonlar natijasida yer egaligi shakllari, qishloq xo‘jaligi boshqaruvi va dehqonchilik madaniyatida tub o‘zgarishlar yuz berdi. Mamlakatimizda qishloq xo‘jaligi rivojlanishini ta’minlashga qaratilgan doimiy sa’y-harakatlar va muhokamalar ham ushbu mavzuning amaliy ahamiyatini ko‘rsatadi [3].

Ushbu tadqiqotning maqsadi – koevolyutsiya nazariyasi prizmasidan agrar islohotlarning ijtimoiy-falsafiy tahlilini amalga oshirish, ularning jamiyat va tabiat o‘rtasidagi o‘zaro ta’sir mexanizmlarini ochib berishdan iborat. Tadqiqot vazifalari quyidagilardan iborat: koevolyutsiya nazariyasining ijtimoiy-falsafiy asoslarini tahlil qilish; agrar islohotlarning tarixiy konteksti va falsafiy yondashuvlarini o‘rganish; agrar islohotlar va jamiyat o‘rtasidagi koevolyutsion dinamikani aniqlash; ularning ijtimoiy-ekologik va madaniy oqibatlarini baholash; hamda O‘zbekistondagi agrar islohotlarning koevolyutsion xususiyatlarini tahlil qilish va kelajak istiqbollarini belgilash.

Adabiyotlar tahlili. Koevolyutsiya nazariyasi va agrar islohotlar o‘rtasidagi ijtimoiy-falsafiy bog‘liqlikni tahlil qilishga qaratilgan ushbu tadqiqot, mavjud ilmiy adabiyotlarni chuqur o‘rganishni talab etadi. Adabiyotlar tahlili shuni ko‘rsatadiki, har bir yo‘nalish bo‘yicha keng qamrovli tadqiqotlar olib borilgan bo‘lsa-da, ularning o‘zaro kesishgan nuqtalari, ayniqsa ijtimoiy-falsafiy jihatdan, yetarli darajada o‘rganilmagan. Ushbu bo‘limda koevolyutsiya nazariyasining ijtimoiy fanlardagi tatbiqi, agrar islohotlarning falsafiy va ijtimoiy-iqtisodiy tahlili, shuningdek, ularning o‘zaro ta’sir mexanizmlarini yorituvchi adabiyotlar tanqidiy nuqtai nazardan ko‘rib chiqiladi. Asosiy e’tibor 2020 yildan keyin chop etilgan ishlarga qaratiladi, bu esa mavzuning zamonaviy tendensiyalarini aks ettirishga yordam beradi.

Koevolyutsiya nazariyasining ijtimoiy-falsafiy asoslari va uning ijtimoiy fanlardagi tatbiqi so‘nggi yillarda tobora ko‘proq olimlar e’tiborini tortmoqda. Dastlab biologiyada paydo bo‘lgan bu tushuncha, hozirda inson va tabiat o‘rtasidagi murakkab munosabatlarni, texnologik taraqqiyotning jamiyatga ta’sirini va madaniy evolyutsiyaning dinamikasini tushunish uchun samarali metodologik vosita sifatida qabul qilinmoqda. Masalan, Professor A. Karimovning 2021 yildagi “Ijtimoiy tizimlarning koevolyutsion rivojlanishi: falsafiy-metodologik yondashuvlar” nomli monografiyasida [1] koevolyutsiya g‘oyasi ijtimoiy tizimlarning o‘z-o‘zini tashkil etish va o‘zgarish jarayonlarini tahlil qilishda qo‘llanilgan. Muallif inson faoliyati va atrof-muhit o‘rtasidagi ikki tomonlama ta’sirni, shuningdek, ijtimoiy institutlar va qadriyatlar tizimining birgalikdagi evolyutsiyasini falsafiy jihatdan asoslab beradi. Shuningdek, M. Saidovning 2022 yilda chop etilgan “Inson va tabiat o‘zaro ta’sirining falsafiy jihatlari: koevolyutsion paradigma” nomli maqolasi [2] koevolyutsion yondashuvning insoniyatning ekologik muammolarga javob berish qobiliyatini tushunishdagi ahamiyatini yoritadi. Unda insonning tabiatni o‘zgartirishi va shu bilan birga tabiatning insoniyat jamiyatiga ta’sir etishi dialektik birlikda ko‘rib chiqiladi. Bu tadqiqotlar koevolyutsiya nazariyasining nafaqat biologik, balki ijtimoiy-falsafiy tahlil uchun ham mustahkam asos bo‘la olishini ko‘rsatadi. Biroq, ushbu ishlarda koevolyutsiya nazariyasi agrar islohotlar kontekstida bevosita tahlil qilinmagan, bu esa mavjud adabiyotlardagi bo‘shliqni ko‘rsatadi.

Agrar islohotlar mavzusi ijtimoiy fanlarda, xususan, iqtisodiyot, tarix va sotsiologiya sohalarida keng o‘rganilgan. Tarixiy kontekstda agrar o‘zgarishlar jamiyatning ijtimoiy-iqtisodiy tuzilishini, siyosiy barqarorligini va madaniy qadriyatlarini shakllantirishdagi hal qiluvchi rolini tasdiqlovchi ko‘plab tadqiqotlar mavjud. N. Olimovning 2020 yildagi “Agrar islohotlarning ijtimoiy-iqtisodiy oqibatlari: qiyosiy tahlil” nomli monografiyasi [3] turli mamlakatlardagi agrar o‘zgarishlarning ijtimoiy adolat, mulkchilik munosabatlari va qishloq aholisining turmush darajasiga ta’sirini chuqur o‘rganadi. Muallif agrar islohotlarning muvaffaqiyati yoki muvaffaqiyatsizligi ko‘pincha ularning jamiyatning mavjud ijtimoiy-madaniy tuzilmalariga mos kelishi bilan bog‘liqligini ta’kidlaydi. Z. Sobirovning 2023 yilda chop etilgan “Yer munosabatlarining falsafiy asoslari: mulkchilik va adolat muammolari” nomli maqolasi [4] yerga egalik qilishning turli shakllarini falsafiy nuqtai nazardan tahlil qilib, yerning ijtimoiy va iqtisodiy funksiyalari o‘rtasidagi muvozanatni topish zarurligini asoslaydi. Ushbu tadqiqotlar agrar islohotlarning nafaqat iqtisodiy, balki chuqur falsafiy va ijtimoiy ildizlarga ega ekanligini ko‘rsatadi. Biroq, bu ishlarda agrar islohotlar jarayonlari koevolyutsion dinamika nuqtai nazaridan, ya’ni jamiyat va agrar tizimning o‘zaro ta’sirda birgalikdagi rivojlanishi sifatida tizimli ravishda tahlil qilinmagan.

Agrar islohotlarning ijtimoiy-ekologik va madaniy oqibatlari ham ko‘plab tadqiqotlarning diqqat markazida bo‘lgan. Yer resurslarining degradatsiyasi, suv tanqisligi, bioxilmaxillikning yo‘qolishi kabi ekologik muammolar ko‘pincha agrar siyosatning bevosita yoki bilvosita natijasi sifatida ko‘rib chiqiladi. Sh. Ergashovning 2023 yildagi “Agrar o‘zgarishlarning ekologik izi va barqaror rivojlanish muammolari” nomli maqolasi [7] qishloq xo‘jaligi intensivlashuvining atrof-muhitga salbiy ta’sirini tahlil qilib, barqaror agrar amaliyotlarga o‘tish zarurligini asoslaydi. O‘zbekistonda agrar islohotlar mavzusi mustaqillik yillarida ko‘plab mahalliy olimlar tomonidan tadqiq qilingan. B. G‘aniyevning 2023 yilda chop etilgan “Qishloq xo‘jaligida innovatsiyalar va barqaror rivojlanish: O‘zbekiston tajribasi” nomli maqolasi qishloq xo‘jaligini modernizatsiya qilish, yangi texnologiyalarni joriy etish va fermer xo‘jaliklarini qo‘llab-quvvatlash bo‘yicha amalga oshirilayotgan chora-tadbirlarni tahlil qiladi. Ushbu ishlar O‘zbekistonning agrar sektoridagi o‘ziga xos xususiyatlarni va islohotlar natijalarini tushunish uchun qimmatli ma’lumotlar beradi. Biroq, ushbu tadqiqotlarda agrar islohotlarning jamiyat va tabiat bilan o‘zaro koevolyutsion dinamikasi, ya’ni islohotlarning jamiyat va ekotizimlar tomonidan qanday qabul qilinishi, ularga moslashishi va o‘z navbatida islohotlarning keyingi

bosqichlarini shakllantirishi masalasi falsafiy-metodologik jihatdan chuqur tahlil qilinmagan. Mavjud adabiyotlar asosan iqtisodiy samaradorlik, huquqiy asoslar yoki sotsial oqibatlarga e'tibor qaratadi, koevolyutsiya nazariyasining ijtimoiy-falsafiy salohiyatini to'liq ishga solmaydi.

Tadqiqot metodologiyasi. Ushbu tadqiqot koevolyutsiya nazariyasi prizmasidan agrar islohotlarning ijtimoiy-falsafiy tahlilini amalga oshirishga qaratilgan bo'lib, o'zining murakkabligi va fanlararo xususiyatidan kelib chiqib, kompleks metodologik yondashuvni talab etadi. Avvalgi bo'limlarda ta'kidlanganidek, mavjud adabiyotlarda koevolyutsiya nazariyasining agrar islohotlar kontekstida ijtimoiy-falsafiy tahlili, ayniqsa O'zbekiston tajribasi misolida, yetarli darajada o'rganilmagan. Shu bois, ushbu bo'limda tadqiqotning maqsad va vazifalarini amalga oshirishga xizmat qiladigan asosiy falsafiy-metodologik tamoyillar va tahlil mexanizmlari batafsil yoritiladi. Tadqiqotning metodologik asosi dialektik, sistemali, tarixiy-falsafiy va tanqidiy tahlil usullarini o'z ichiga oladi, ular koevolyutsion paradigma bilan uyg'unlashtirilgan holda qo'llaniladi.

Tadqiqotning falsafiy metodologik asosini dialektik yondashuv tashkil etadi. Bu yondashuv agrar islohotlar va jamiyat o'rtasidagi o'zaro ta'sirni statik hodisa sifatida emas, balki doimiy harakat, o'zgarish va rivojlanish jarayoni sifatida ko'rib chiqish imkonini beradi. Dialektika qarama-qarshiliklarning birligi va kurashi, miqdoriy o'zgarishlarning sifat o'zgarishlariga o'tishi kabi tamoyillar orqali agrar tizimlardagi ichki ziddiyatlarni, masalan, iqtisodiy samaradorlik va ijtimoiy adolat o'rtasidagi muvozanatni, shuningdek, inson va tabiat o'rtasidagi munosabatlarning murakkabligini tahlil qilishda muhim ahamiyat kasb etadi. Agrar islohotlar jamiyatning turli qatlamlari manfaatlarining to'qnashuvi, eski mulkchilik shakllarining yangilari bilan almashinishi kabi dialektik jarayonlar bilan chambarchas bog'liq bo'lib, bu yondashuv ularning dinamikasini chuqurroq tushunishga yordam beradi.

Natijalar va ularning tahlili. Sistemali tahlil ham tadqiqotning muhim metodologik tamoyillaridan biridir. Agrar islohotlar alohida, izolyatsiya qilingan hodisa emas, balki jamiyatning iqtisodiy, siyosiy, ijtimoiy, madaniy va ekologik tizimlari bilan o'zaro bog'liq bo'lgan murakkab tizimning bir qismidir. Sistemali yondashuv agrar tizimni (yer, mehnat, texnologiya, ishlab chiqarish munosabatlari) va ijtimoiy tizimni (institutlar, qadriyatlar, ijtimoiy tuzilmalar) o'zaro ta'sirda bo'lgan elementlar majmui sifatida ko'rib chiqishga imkon beradi. Bu esa har bir elementning o'zgarishi butun tizimga qanday ta'sir qilishini va aksincha, tizimning umumiy holati alohida elementlarning rivojlanishini qanday belgilashini tahlil qilishda samaralidir. Koevolyutsiya nazariyasining o'zi ham sistemali fikrlashga asoslangan bo'lib, turli tizimlarning birgalikdagi evolyutsiyasini o'rganadi.

Koevolyutsiya nazariyasi ushbu tadqiqotning markaziy metodologik linzasi bo'lib xizmat qiladi. Dastlab biologiyada paydo bo'lgan bu tushuncha, hozirda ijtimoiy fanlarda, xususan, inson va tabiat o'rtasidagi murakkab munosabatlarni tushunishda samarali vosita sifatida qo'llanilmoqda. Koevolyutsiya agrar tizimlar (qishloq xo'jaligi amaliyotlari, texnologiyalar, yer egaligi shakllari) va ijtimoiy tizimlar (qonunchilik, ijtimoiy institutlar, madaniyat, qadriyatlar) o'rtasidagi ikki tomonlama, o'zaro ta'sirda birgalikdagi rivojlanishni tahlil qilish imkonini beradi. Bu shuni anglatadiki, agrar islohotlar nafaqat jamiyatni o'zgartiradi, balki jamiyatning o'zi ham o'z ehtiyojlari, qadriyatlari va texnologik imkoniyatlari orqali agrar tizimni shakllantiradi. Professor A. Karimovning ijtimoiy tizimlarning koevolyutsion rivojlanishiga oid ishi [1] va M. Saidovning inson va tabiat o'zaro ta'sirining falsafiy jihatlarini yorituvchi maqolasi [2] koevolyutsion yondashuvning ijtimoiy-falsafiy tahlildagi salohiyatini asoslab beradi. Ushbu tadqiqotda koevolyutsiya nazariyasi agrar islohotlarning jamiyat va tabiat bilan o'zaro moslashuv jarayonlarini, ya'ni islohotlarning qanday qilib ijtimoiy-ekologik tizimlarda aks sado berishi va shu tizimlarning o'z navbatida islohotlarning keyingi bosqichlariga ta'sir etishini tahlil qilish uchun qo'llaniladi.

Birinchidan, yerga egalik qilish munosabatlarining falsafiy asoslarini tahlil qilish. Bu yerning nafaqat iqtisodiy resurs, balki madaniy, ijtimoiy va ekologik qadriyat sifatida ham ahamiyatini o'rganishni o'z ichiga oladi. Yerga egalik qilishning turli shakllari (davlat mulki, jamoa mulki, xususiy mulk) ortida turgan falsafiy g'oyalar, adolat tushunchalari va ularning jamiyatga ta'siri chuqur tahlil qilinadi. Z. Sobirovning yer munosabatlari bo'yicha tadqiqoti [4] bu yo'nalishda muhim metodologik asos bo'lib xizmat qiladi.

Ikkinchidan, agrar islohotlarning ijtimoiy tuzilmalar va institutlarga ta'sirini koevolyutsion nuqtai nazardan o'rganish. Bu qishloq jamoalarining transformatsiyasi, ijtimoiy qatlamlarning o'zgarishi, yangi ijtimoiy institutlarning paydo bo'lishi va mavjudlarining evolyutsiyasini o'z ichiga oladi. N. Olimovning agrar islohotlarning ijtimoiy-iqtisodiy oqibatlariga oid qiyosiy tahlili [3] va D. Rahmatovning qishloq xo'jaligi tizimlarining adaptiv evolyutsiyasiga bag'ishlangan ishi [5] bu yo'nalishda qimmatli ma'lumotlar beradi.

Uchinchidan, agrar islohotlarning madaniy va ekologik oqibatlarini falsafiy jihatdan baholash. Bu dehqonchilik madaniyatining o'zgarishi, an'anaviy bilimlarning yo'qolishi yoki transformatsiyasi, insonning tabiatga bo'lgan munosabatidagi o'zgarishlar va ularning ekologik barqarorlikka ta'sirini o'rganishni o'z ichiga oladi. L. To'rayevaning qishloq madaniyatining transformatsiyasiga oid tadqiqoti va Sh. Ergashovning agrar o'zgarishlarning ekologik iziga bag'ishlangan ishi [7] bu tahlil uchun asos bo'ladi. Shuningdek, G. Karimova va S. Valievlarning sotsial-ekologik

tizimlardagi o‘zaro ta’sir dinamikasini o‘rganishi [6] agrar islohotlarning ekologik oqibatlarini koevolyutsion nuqtai nazardan tahlil qilishda muhimdir.

Kontseptual tahlil: Koevolyutsiya nazariyasi, agrar islohotlar, ijtimoiy-falsafiy tahlil kabi asosiy tushunchalarning mazmun-mohiyatini aniqlash va ularning o‘zaro bog‘liqligini nazariy jihatdan asoslash. Bu falsafiy adabiyotlarni chuqur o‘rganish va ularni mavzu kontekstiga tatbiq etishni talab qiladi.

Qiyosiy-tarixiy tahlil: O‘zbekistondagi agrar islohotlarning turli bosqichlarini (sovet davri va mustaqillik davri) koevolyutsion paradigma orqali qiyosiy tahlil qilish. Bu islohotlarning har bir bosqichida jamiyat va agrar tizim o‘rtasidagi o‘zaro ta’sir mexanizmlarini, ularning o‘xshash va farqli jihatlarini aniqlashga yordam beradi. A. Xudoyberdiyevning O‘zbekistondagi yer islohotlarining ijtimoiy-siyosiy tahlili va B. G‘aniyevning qishloq xo‘jaligida innovatsiyalar va barqaror rivojlanishga oid ishi bu tahlil uchun empirik va nazariy asos bo‘ladi.

Sintetik yondashuv: Falsafa, sotsiologiya, iqtisodiyot, tarix va ekologiya kabi turli fan sohalaridan olingan bilimlarni koevolyutsion nazariya doirasida umumlashtirish va sintez qilish. Bu agrar islohotlarning murakkab va ko‘p qirrali tabiatini to‘liq tushunishga imkon beradi.

Ushbu metodologik yondashuvning afzalliklari shundaki, u agrar islohotlarning nafaqat iqtisodiy yoki siyosiy jihatlarini, balki ularning chuqur falsafiy, ijtimoiy, madaniy va ekologik oqibatlarini ham tizimli va kompleks tarzda tahlil qilishga imkon beradi. Koevolyutsion paradigma agrar o‘zgarishlarning bir tomonlama ta’sirini o‘rganishdan voz kechib, jamiyat va agrar tizimning o‘zaro ta’sirda birgalikdagi rivojlanishini, ya’ni ularning o‘zaro moslashuv va o‘zgarish mexanizmlarini ochib beradi. Bu esa kelajakdagi agrar siyosatlarni ishlab chiqishda yanada barqaror va insonparvar yondashuvlarni shakllantirish uchun muhim nazariy asos yaratadi. Shu bilan birga, tadqiqotning metodologik cheklovlari ham mavjud bo‘lib, ular koevolyutsion dinamikaning murakkabligi, tarixiy ma’lumotlarning to‘liqligi va falsafiy tahlilning subyektiv talqinlarga moyilligi bilan bog‘liq bo‘lishi mumkin. Biroq, tanlangan metodologik yondashuv ushbu cheklovlarni minimallashtirish va mavzuni ilmiy asosda chuqur o‘rganish uchun yetarli darajada mustahkam zamin yaratadi.

Xulosa. Ushbu tadqiqot agrar islohotlarning jamiyat va tabiat bilan o‘zaro koevolyutsion dinamikasini ijtimoiy-falsafiy nuqtai nazardan tahlil qilib, ularning murakkab, ikki tomonlama ta’sir mexanizmlarini ochib berdi. Agrar tizimlar va ijtimoiy tuzilmalar o‘zaro moslashuvda birgalikda rivojlanar ekan, islohotlarning yerga egalik munosabatlari, ijtimoiy institutlar, madaniyat va ekologik barqarorlikka chuqur ta’siri falsafiy jihatdan baholandi. O‘zbekiston tajribasi misolida agrar o‘zgarishlarning ko‘p qirraliligi koevolyutsion paradigma orqali yoritilib, kelajakdagi agrar siyosatlarni ishlab chiqishda ijtimoiy-ekologik va madaniy omillarni hisobga olish zarurligi asoslandi. Bu esa barqaror rivojlanish uchun muhim nazariy zamin yaratadi.

PHILOSOPHICAL

JAMIYAT BOSHQARUVINING TARIXIY-FALSAFIY ASOSLARI

Yuldashev Serobjon Urmonaliyevich
Farg‘ona davlat universiteti dotsenti,
Falsafa fanlari doktori (DSc)

Annotatsiya: *Mazkur maqolada jamiyat boshqaruvining ijtimoiy-falsafiy va tarixiy rivojlanish bosqichi tadqiq etilgan. Sharq va G‘arb mutafakkirlari qarashlari zamonaviy ilmiy konsepsiyalar bilan aloqadorligi o‘rganilgan. Bu esa bugungi jamiyat taraqqiyoti bilan uzviy tarzda yuksalib borishi, namoyon bo‘lishi va qo‘llanilishi zarurati ochib berilgan.*

Kalit so‘zlar. *Jamiyat, boshqaruv, davlat, ijtimoiy hayot, madaniyat, jamiyatni boshqarish, kengash, ijtimoiy-madaniy.*

ИСТОРИКО-ФИЛОСОФСКИЕ ОСНОВЫ УПРАВЛЕНИЯ ОБЩЕСТВОМ

Аннотация: *В данной статье рассматривается социально-философское и историческое развитие управления обществом. Изучается взаимосвязь между взглядами восточных и западных мыслителей и современными научными концепциями. Это выявляет необходимость его непрерывного развития, проявления и применения в развитии современного общества.*

Ключевые слова: *Общество, управление, государство, общественная жизнь, культура, управление обществом, совет, социокультурный.*

HISTORICAL-PHILOSOPHICAL FOUNDATIONS OF SOCIETY MANAGEMENT

Annotation: *This article examines the socio-philosophical and historical development of society management. The relationship between the views of Eastern and Western thinkers and modern scientific concepts is studied. This reveals the need for its continuous development, manifestation and application in the development of today's society.*

Keywords. *Society, management, state, social life, culture, society management, council, socio-cultural.*

Kirish

Hozirgi paytda ijtimoiy va huquqiy davlat qurish yo‘lidan borayotgan mamlakatimizning kelajagi bevosita Sharq dunyoqarashi, ijtimoiy falsafiy fikr, dunyoviy madaniyat taraqqiyoti bilan bog‘liq hisoblangan jamiyatni boshqarish tajribalari, uni bugungi kun voqeligi, ya’ni jamiyat taraqqiyoti hamohangligi bilan uyg‘un tarzda o‘rganish har qachongidan ham muhim ekanligini ko‘rsatmoqda. Jamiyat to‘g‘risidagi ijtimoiy fikr va boshqarish masalalari, Sharq mutafakkirlari Abu Nasr Forobiy, Ibn Sino, Amir Temur, Nizomulmulk, Nosir Xisrav, Alisher Navoiy, Zahiriddin Muhammad Bobur, Umar Hayyom va boshqa allomalarning ijtimoiy-falsafiy qarashlarida o‘z ifodasini topgan. Ularning asarlarini, tajribalarini, jamiyatni boshqarish masalasiga bag‘ishlangan jihatlarini o‘rganish bugungi kun uchun g‘oyat ahamiyatlidir. Chunki, o‘tmish xotiralarining gavdalanishi ma’naviyat tarzida xalqning uyg‘oq tafakkurini yanada boyitadi, bugungi kun voqeligini chuqur va har tomonlama tushunib, uning qadriga yetishimizga yordam beradi.

Sharq mamlakatlari tarixi jahon madaniyatining tarkibiy qismi hisoblanib, o‘zining takrorlanmasligi bilan G‘arbdan muayyan darajada ajralib turadi. Sharqda jamiyat boshqaruvi masalasining mohiyatini tushunish uchun avvalo o‘sha davr ijtimoiy hayotini belgilab beruvchi jamiyat taraqqiyotiga ta’sir etuvchi omillar va yondashuvlar bilan tanishib chiqish lozim. Ayni paytda, IX-XI asrlarda O‘rta Osiyoda vujudga kelgan dunyoviy ilm-madaniyat, tabiatshunoslik, falsafiy fanlarni o‘rganishning kuchayishi, mahalliy ilmiy va ratsionalistik an’analarning shakllanishi ham O‘rta asr Sharq davlatchiligi va uni boshqarishda muhim ahamiyat kasb etgan.

Mavzuga oid adabiyotlar tahlili

Jamiyatni boshqarishda har tomonlama shakllangan shaxsni tarbiyalash u orqali ijtimoiy tafakkur tarzini o‘zgartirish mumkinligi mazkur tadqiqotning nazariy-metodologik ahamiyatini ko‘rsatadi. Akademik V.Bartold “Musulmon mamlakatlarida boshqarishning mumkin bo‘lgan yagona shakli teokratiya (dinga tayangan hokimiyat)dir”[1.93.], degan fikrni bildirgan edi. Bu fikrga to‘liq qo‘shilish qiyin, sababi dinga tayanish bilan birga boshqarishda amal qilingan tamoyillarni kengroq ko‘rib chiqish kerak bo‘ladi. Davlat rahbari huzurida qurultoy,

mashvarat, kengash kabi maslahat organlari faoliyat koʻrsatgan. Ular urush va tinchlik masalalarida yirik urugʻlar boshliqlarining, amir va sultonlarining maslahatlarini olishi lozim boʻlgan. Shuningdek, keksa otaxonlarning, ya'ni oqsoqollar kengashining pand-nasihatlari, oʻgitlariga quloq tutilgan. Davlat boshqarishida olimu ulamo, fuzalolarning koʻrsatmalari, yoʻl-yoʻriqlari hukmdor tomonidan hisobga olingan. Masalan, Abu Nasr Forobiyning "Fozil odamlar shahri" asarida polis (shahar)ni baxt-saodatga eltuvchi hukmdori oʻzida 12 ta ijobiy xususiyatni shakllantirishi lozimligi uqtiriladi. Ammo birgina shaxsda bunday xislatlar toʻliq shakllanmaganligini hisobga olgan holda, fozil shaharli ikki yoki undan ortiq kishilarning maslahatlariga quloq solingan[2.85.]. Yoki Alisher Navoiy davrida podshoh Husayn Boyqaro hukmronligining gullab-yashnashida, mamlakatda osoyishtalik hukm surishida, har tomonlama komil va dono shaxs Alisher Navoiydek vazirning roli benihoya boʻlgan. Uning nafaqat fazilati, amaliy boshqarishi (Hirot, Xurosondagi qurilish, konlar qazish, saroy, machit, xonaqoxlar, yoʻllar, koʻpriklar qurilishi, olimu ulamolarga yanada rahnamolik qilinishi), balki muntazam tarzda Husayn Boyqaroga dono maslahatlarni berib turishi tufayli oʻsha davr jamiyati koʻp muvaffaqiyatlarga erishgan [3.86.].

Tarixda jamiyat boshqaruvining muhim va yirik manbalardan biri boʻlgan Nizomumulkning "Siyosatnoma" asarida, Muhammad Haydar Doʻgʻlay (1499-1551)ning "Tarixi Roshidiy" asarlarida podshohlarga qarata ibratli maslahatlar berilgan. Uning nazarida podsho davlat boshligʻi, u boylik ketidan quvmasa, mamlakatda adolat va yaxshilik tantana qilsa, e'tiqod rivojlangan boʻlsa – bular uning uchun haqiqiy boylikdir. Agar Allohning sharofati bilan davlatni boshqarish sharafiga muyassar boʻlsa, "Mamlakat fuqarolarining muayyan huquqlari borki, ularni podsho ta'minlashi lozim. Ushbu huquqlar asosida fuqarolarning shikoyat va arizalarini, murojaatlarini oʻz vaqtida odilona koʻrib hal etish yotadi. Adolatli hukmdorning odil sudlovni amalga oshirgan har bir kuni uning barcha ibodatlariga tengdir",[4.710.] - deydi.

Ma'lumki, bugungi kundagi jamiyatni boshqarish koʻrinishi uzoq davom etgan tadrijiylik, vorisiylik asosida jamiyatda amalga oshiriladigan ijtimoiy boshqarishdir. Ijtimoiy boshqarishning asosini esa, davlat va jamiyat boshqaruvi tashkil etadi. Davlat boshqaruvi deganda davlat organlarining hokimiyat vakolati doirasida iqtisodiyot, ijtimoiy-madaniy va ma'muriy-siyosiy sohalarga rahbarlik qilishga qaratilgan ijrochilik faoliyati tushuniladi.

Ijtimoiy hayotning sharqona usuli, boshqarish tartibi oʻziga xos xususiyatga ega boʻlib, hech bir yerda takrorlanmaydigan koʻrinishga ega. Ular bugungi kun davlatchiligini boshqarish va belgilashda, qolaversa, amaliy tarzda uni hayotga tatbiq etishda muhim ahamiyat kasb etadi. Ularning barchasi davlat boshqaruvida oʻchmas va unutilmas shiorga, chaqiriqqa aylanib qolgan "Kuch birlikda, adolat va insofda"[5.58.] kabi oʻgitlarda oʻzining ifodasini topgan. Hattoki, buyuk bobomiz sohibqiron Amir Temur oʻzining tuzuklarida ulugʻ vazir va davlat arbobi Nizomulmulk omillarini hurmat, ehtirom bilan eslab, jumladan shunday deydi: "Malikshoh Saljuqiy oʻz vaziri Nizomulmulkni martabasidan tushurdi. Vazir boshdan-oyoq yaxshi sifatlarga oʻralgan edi. Uning oʻrniga zoti past, yomon bir kishini vazir qilib tayinladi. Bu shumqadam vazirning qabih ishlari, zulmi-sitami va nafsi buzuqligi kasofatidan saltanat binosi buzila boshladi"[6.9.]. Sohibqiron boshqa bir joyda Nizomulmulkni davlatni boshqarishda ibrat qilib koʻrsatib, uning fazilatlariga ta'rif beradi: "Nizomulmulkning yomon qilmishlari kam boʻlib, xayrli ishlari koʻproq edi. U haj safariga bormoqchi boʻlib turgan vaqtda avliyolardan biri unga debdi: "Malikshoh davlatining xizmatida boʻlib, amalga oshirayotgan xayrli ishlaring va Tangri taoloning bandalariga yetkazib turgan yordaming Haj qilish bilan barobardir"[6.10]. Darhaqiqat, rahbar shaxs, hukmdor fazilati uning obyektivlashgan ma'naviyati har bir xatti-harakati, ta'sir kuchi, ibrati minglab, millionlab taqdirni hal qilishi isbot talab qilmaydigan haqiqatdir.

Ijtimoiy taraqqiyot, falsafiy tafakkur tarix shuni koʻrsatadiki, oʻtmish mutafakkirlari oʻzlarining davlat va jamiyatga oid asarlarida[7.] jamiyatni boshqarishga xos boʻlgan fikrlarini bayon etganlar. Ayniqsa, adolatli jamiyat, insonparvar hukmdor siymolari, ularning jamiyat, davlatni boshqarishdagi faoliyati haqida batafsil yoritib berilgan.

Tadqiqot metodologiyasi

Boshqaruv faoliyati tarixiylik va mantiqiylik, qiyosiy tahlil usullaridan davlat boshqaruvining jamiyat hayoti sohalari bilan bogʻliq yoʻnalishlarda rahbar kadrlar tayyorlash, tanlash tizimini strategik ahamiyatga ega ekanligini bilish imkoni yaratiladi.

Tahlil va natijalar

Jamiyat boshqaruvining tarixiy-falsafiy asoslarining zamonaviy talqini sifatida ijro hokimiyati tizimini optimallashtirish orqali uning vakolatlari, mas'uliyati va davlat tizimidagi mavqeini oshirish boʻyicha islohotlarni izchil amalga oshirishga ustuvor ahamiyat qaratilmoqda. Iqtisodiyot va ijtimoiy sohadagi muammolarni chuqur tahlil qilishlari va joylardagi haqiqiy ahvolni oʻrganishga e'tiborni kuchaytirishlari zarur. By haqida Oʻzbekiston Respublikasi Prezidentining 2017-yil 8-sentyabrdagi PF-5185-son Farmoni bilan tasdiqlangan Oʻzbekiston Respublikasida Ma'myriy islohotlar konsepsiyasi [8]da ham yetarli bayon etilgan. Jumladan, mazkur Konsepsiyada davlat boshqaruvini markazlashtirishdan chiqarish, davlat xizmatlari koʻrsatish tizimini yanada takomillashtirish, davlat va xududiy rivojlanish dasturlarini shakllantirishda hududiy ijro etuvchi hokimiyat organlarining tashabbyskorligini oshirish hamda rolini kuchaytirish, davlat xizmatchilarining kasbiy tayyorgarlik, moddiy va ijtimoiy ta'minot darajasini oshirish,

mahalliy davlat hokimiyati organlarining moliyaviy imkoniyatlari, roli va javobgarligini kengaytirish, mahalliy davlat hokimiyati tizimini tashkil etishda hokimiyatlar bo‘linishi prinsipining amalga oshirilishini ta’minlash kabi dolzarb vazifalar belgilab berilgan.

Xorijiy tajribaga ko‘ra, ishlab chiqarish jarayonida insonga bo‘lgan munosabatni aks ettiruvchi yondashuv – “Inson kapitali” nazariyasi bo‘lib, bunga muvofiq ishchi kuchi kapital sifatida, masalan pul tarzida idrok etiladi. Ushbu nazariya doirasida personal boshqaruviga oid holatlarda shuningdek, iqtisodiy atama va kategoriyalarda bayon etilgan. Bu ta’limotga binoan, inson kapitali odatda pul birligida o‘lchanadi. Zamonaviy yondashuvlardan biri-inson resurslarini rivojlantirish konsepsiyasi bo‘lib, bunda tashkilot manfaati yo‘lida xodimning o‘z tashabbusi bo‘yicha samarali mehnat qilishi uchun yaratiladigan sharoitlar markaziy masala deb qaraladi.

Qayd etilgan asosiy boshqaruv konsepsiyalari o‘z davriga xos bo‘lgan personal boshqaruv uslublarini ifodalaydi. Hatto ayni paytda ham turli tashkilot va rahbarlar sanab o‘tilgan yondoshuv elementlarini o‘z faoliyatida qo‘llab keladilar.

Xulosa

Davlat va jamiyat boshqaruvida jamiyatning mohiyatini, tuzilishini, qonuniyatlarini bilish, ularga tayangan holda tashkil etish, o‘zaro muvofiqlashtirish muhim ahamiyat kasb etadi. Shuning uchun jamiyat boshqaruv jarayonlari ijtimoiy qonunlar – jamiyat taraqqiyoti va belgilangan islohotlar jarayonini bilishda muhim omil sifatida o‘rganiladi. Unda ijtimoiy taraqqiyot tamoyillarining o‘zaro munosabatiga e’tibor qaratilib, “Jamiyat boshqaruvining tarixiy-falsafiy asoslari ijtimoiy taraqqiyot mezoni” sifatida jamiyatda o‘zaro bog‘liqlikni ifoda etadigan zaruriy omillar, ehtiyojlar, manfaatlar tizimining ko‘rinishini asoslaydi.

Jamiyat taraqqiyoti mamlakat iqtisodiy potensialining qanchalik yuksakligi bilan emas, balki bu potensial har bir kishining gullab-yashnashi, tomonlama rivojlanishi uchun yo‘naltirilganligi bilan baholanadi. Inson o‘zining amaliy va nazariy yaratuvchilik faoliyati jarayonida uni o‘rab turgan olamni o‘zgartirib, o‘zining qobiliyati va ehtiyojini, bilim va malakasini, ko‘nikma va hissiyotlarini shakllantiradi. Shunday ekan eng avvalo shaxsiy hamda ijtimoiy munosabatlar yig‘indisi va uning konkret ijtimoiy borligi bilan uzviy birlikda bo‘lgan insonning o‘zini shakllantirish kerak bo‘ladi.

MADANIY SAVIYA-MADANIY BORLIQNING IJTIMOIY-FALSAFIY KO'RSATKICHI

Choriyev Sanjarbek Anvarovich,
(Qarshi davlat universiteti Falsafa va sotsiologiya kafedrasi professori
falsafa fanlari doktori)
sanjarbekchoriyev1966@.mail.ru

Annotatsiya. *Mazkur maqolada madaniy saviya tushunchasining mazmun-mohiyati, uning shaxs va jamiyat taraqqiyotidagi o'rni hamda madaniy rivojlanganlikning muhim ko'rsatkichi sifatidagi ahamiyati tahlil qilinadi. Shuningdek, madaniy saviyaning shakllanishiga ta'sir etuvchi ijtimoiy, ma'naviy va ta'limiy omillar yoritilib, zamonaviy jamiyatda madaniy rivojlanganlikni oshirishning dolzarb masalalari ko'rib chiqiladi. Madaniy saviyaning insonning dunyoqarashi, axloqiy qadriyatlari, ijtimoiy faolligi va estetik didini rivojlantirishdagi roli ilmiy-nazariy jihatdan asoslanadi.*

Kalit so'zlar*. Madaniy saviya, madaniy rivojlanganlik, madaniyat, ma'naviyat, shaxs kamoloti, ijtimoiy taraqqiyot, milliy qadriyatlar, madaniy meros, estetik tarbiya, axloqiy qadriyatlar, madaniy kompetensiya, ta'lim va tarbiya.*

CULTURAL LEVEL - A SOCIAL-PHILOSOPHICAL INDICATOR OF CULTURAL BEING

Abstract. *This article analyzes the essence and content of the concept of cultural level, its role in the development of the individual and society, and its significance as an important indicator of cultural advancement. Furthermore, the study highlights the social, spiritual, and educational factors influencing the formation of cultural level and examines current issues related to enhancing cultural development in modern society. The role of cultural level in shaping an individual's worldview, moral values, social activity, and aesthetic taste is substantiated from a scientific and theoretical perspective.*

Keywords: *Cultural level, cultural development, culture, spirituality, personal development, social progress, national values, cultural heritage, aesthetic education, moral values, cultural competence, education and upbringing.*

КУЛЬТУРНЫЙ УРОВЕНЬ — СОЦИАЛЬНО-ФИЛОСОФСКИЙ ПОКАЗАТЕЛЬ КУЛЬТУРНОГО СУЩЕСТВОВАНИЯ

Аннотация. *В данной статье анализируются сущность и содержание понятия культурного уровня, его роль в развитии личности и общества, а также его значение как важного показателя культурной развитости. Кроме того, освещаются социальные, духовно-нравственные и образовательные факторы, влияющие на формирование культурного уровня, и рассматриваются актуальные вопросы повышения культурной развитости в современном обществе. Научно-теоретически обосновывается роль культурного уровня в формировании мировоззрения человека, его нравственных ценностей, социальной активности и эстетического вкуса.*

Ключевые слова: *культурный уровень, культурная развитость, культура, духовность, развитие личности, общественный прогресс, национальные ценности, культурное наследие, эстетическое воспитание, нравственные ценности, культурная компетентность, образование и воспитание.*

Kirish. "Madaniy saviya" tushunchasining vujudga kelishi shaxsning moddiy va ma'naviy qadriyatlarni o'zlashtirilgani darajasini aniqlash zaruriyati bilan bog'liq[1;3-13]. O'tgan asrning 70-yillarida Rossiya Federatsiyasidagi Ural sotsiologiya maktabi vakillari madaniyat bilan bog'liq empirik tadqiqotlarni yo'lga qo'ydilar. Bu izlanishlarni amalga oshirgan olimlar tez orada qadriyatlarning shakllanishi qonuniyatlarini aniqlash, ayni paytda ularning inson tomonidan o'zlashtirilishi jarayonini ilg'ab olish uchun ilmiy muomalaga yangi tushuncha kiritish darkorligini tushunib yetdilar. Yuzaga kelgan ehtiyojga javoban oradan sal o'tib L.Kogan tomonidan ilmiy muomalaga "madaniy saviya" tushunchasi kiritildi[2;3-13].

Albatta, o'tgan vaqt mobaynida inson madaniy faoliyatining o'ziga xos xususiyatlari mufassal tadqiq qilib borildi. Bu tadqiqotlar juz'an "madaniy saviya" tushunchasining mazmunini ham boyitish imkonini berdi. Bugungi kunda madaniy saviya deganda inson ijtimoiy qiyofasining o'ta muhim alomatlaridan biri tushuniladi. Madaniy saviya shaxsning milliy va umuminsoniy qadriyatlardan voqifligi meyorini, insoniyat tomonidan asrlar davomida to'plangan

bilim va g‘oyalarni o‘zlashtirganligi darajasini, mazkur qadriyatlar va bilimlar asosida faoliyat ko‘rsatish malakasini ifodalovchi tushunchadir. Mazkur tushuncha, “bir tomondan, insonning jamiyatda mavjud bo‘lgan, ajdodlar va avlodlar tomonidan yaratilgan milliy va umuminsoniy qadriyatlarni o‘zlashtirish darajasini ifodalasa, ikkinchi tomondan, insonning ongi bilan faoliyati o‘rtasidagi o‘zaro aloqadorlikning mustahkamligini xarakterlaydi. Uchinchidan, madaniy saviya inson ma’naviy-intelektual faoliyatining o‘ziga xos shakli, ko‘rinishi va uning natijasidir.”[2;220].

Ta’kidlash zarurki, tushuncha mazmuni ancha chuqur, boy va murakkab. Bu borada mazkur muammoni maxsus tadqiq qilgan rus olimi A. Jigunovning maqolasida bayon qilingan fikrlarga murojaat etish zarur, deb hisoblaymiz[3]. Uning fikriga ko‘ra, shaxs madaniy saviyasining ikki jihati mavjud: maxsus-madaniy va umummadaniy jihatlar. Shaxs madaniy saviyasini ushbu ikki jihat birligi sifatida tasavvur qilsakkina uni yaxlit tizim sifatida tadqiq qilish imkoni yuzaga keladi. Maxsus-madaniy jihat shaxsning ta’limiy va malakaviy parametrlari, ilmiy-texnik salohiyati, ijodiy imkoniyatlari, hayoti va mehnat faoliyati davomida erishgan yutuqlari bilan tavsiflanadi. Shaxs madaniy saviyasining maxsus-madaniy darajasi jamiyatda hukm surayotgan ijtimoiy-iqtisodiy shart-sharoitlardan kelib chiqib aniqlanmog‘i va baholanmog‘i darkor. Chunki shaxs muayyan ta’lim yo‘nali-shini, egallamoqchi bo‘lgan bilimlari doirasini mavjud iqtisodiy shart-sharoitlardan kelib chiqib belgilaydi. Uning ilmiy-texnik salohiyati, uni ro‘yobga chiqarish meyori ham jamiyatda qaror topgan ijtimoiy shart-sharoit va iqtisodiy vaziyatga monanddir.

Mavzuga oid adabiyotlar tahlili. Madaniy saviya va madaniy rivojlanganlik masalalari ilmiy adabiyotlarda keng yoritilgan bo‘lib, ular falsafa, madaniyatshunoslik va pedagogika fanlarining muhim tadqiqot yo‘nalishlaridan biri hisoblanadi. Ushbu yo‘nalishda olib borilgan tadqiqotlar madaniy saviyani shaxsning ma’naviy-axloqiy kamoloti, bilim darajasi, estetik didi hamda ijtimoiy faolligini ifodalovchi muhim ijtimoiy ko‘rsatkich sifatida talqin qiladi.

Sharq mutafakkirlarining ilmiy merosida madaniyat va ma’naviyat masalalari chuqur tahlil qilingan. Jumladan, Abu Nasr Forobiy o‘zining “Fozil odamlar shahri” asarida komil jamiyat va yetuk inson tarbiyasida ilm, axloq va ma’rifatning o‘rni beqiyos ekanligini asoslab bergan. Abu Rayhon Beruniy “Qadimgi xalqlardan qolgan yodgorliklar” asarida turli xalqlarning madaniy merosi va ilmiy tafakkurini qiyosiy o‘rganish orqali madaniyatlararo bag‘rikenglik g‘oyalarini ilgari surgan. Abu Ali ibn Sino esa “Donishnoma” asarida inson kamolotida aql, bilim va tarbiyaning ustuvor ahamiyatini asoslab, ma’naviy yetuklikni shakllantirishda ta’limning rolini yoritgan. Zamonaviy ilmiy qarashlarda madaniy saviya jamiyat taraqqiyotining muhim omili sifatida qaraladi. Jumladan, Islom Karimov “Yuksak ma’naviyat – yengilmas kuch” asarida ma’naviyat va madaniyatni milliy taraqqiyotning asosiy poydevori sifatida talqin qilib, yosh avlod tarbiyasida milliy qadriyatlarning ahamiyatini ta’kidlagan. Shavkat Mirziyoyev “Yangi O‘zbekiston strategiyasi” asarida esa jamiyatni modernizatsiya qilish jarayonida inson kapitali, ma’naviy taraqqiyot va madaniy saviyani yuksaltirish ustuvor vazifa sifatida belgilangan.

Shuningdek, Oydin Musurmonova “Ma’naviy qadriyatlar va yoshlar tarbiyasi” asarida yoshlar tarbiyasida ma’naviy qadriyatlarning o‘rni, Hasan Sodiqovning “Madaniyatshunoslik” asarida esa madaniyatning nazariy asoslari keng yoritilgan. Bundan tashqari, O‘zbekiston Milliy ensiklopediyasida “Madaniyat” va “Ma’naviyat” tushunchalariga berilgan ilmiy ta’riflar mazkur yo‘nalishdagi nazariy qarashlarni yanada boyitdi.

Tadqiqot metologiyasi. Tadiqiqot ishida dialektik tahlil, tarixiy tahlil, ijtimoiy tahlil, mantiqiy tahlil, kontent-tahlil, solishtirma tahlil kabi ilmiy bilish usullaridan foydalanilgan.

Tahlil va natijalar. Shaxs madaniy saviyasining umummadaniy jihati esa uning insoniyat sivilizatsiyasi yutuqlaridan voqifligi, ma’naviy madaniyat mahsullaridan xabardorligi holati, madaniy faoliyatining ahvoli, uning mayllari, ehtiyoj va manfaatlari xarakteri, ahloqiy qiyofasining o‘ziga xos xususiyatlaridan tarkib topadi.Umummadaniy elementlarning ahamiyati ayniqsa beqiyos, chunki insoniyat sivilizatsiyasi davomida erishilgan yutuqlarni o‘zlashtirmagan, ma’naviy madaniyatning noyob durdonalaridan xabardor bo‘lmagan, xususan adabiyot, teatr, kinematografiya, muzey, musiqa va qo‘shiqchilikka dahldor asarlarni bilmagan shaxsni madaniyatli deyish qiyin. Asrlar davomida shakllangan axloqiy qoidalar, umumijtimoiy ehtiyoj va manfaatlar, insonparvar maqsad-muddaolardan xabardorlik xususida ham shunday deyish mumkin. Madaniy saviya umummadaniy jihati rivoji katta ijtimoiy ahamiyatga ega. Chunki uning rivoji oxir-oqibatda jamiyat iqtisodiy potensiallari yuksalishiga olib keladi, ijtimoiy sohadagi aloqalarning barqaror kasb etishiga, umumijtimoiy ijtimoiy-ma’naviy muhitning mustahkamlanishiga xizmat qiladi.

Barcha ilmiy kategoriyalar kabi “shaxs madaniy saviyasi” ham o‘z *tarkibiy elementlariga* ega. Mutaxassislar bu elementlarni “shaxs madaniy saviyasining asosiy parametrlari” deb nomlaydilar[3]. Bu elementlar turkumiga milliy va umuminsoniy qadriyatlardan xabardorlik darajasi, insoniyat tomonidan asrlar davomida shakllantirilgan insonparvarlik g‘oyalaridan voqiflik meyori, ijtimoiy va kasbiy bilimlarni o‘zlashtirganligi darajasi kiradi[3].

Madaniy saviyaning dastlabki elementi milliy va umuminsoniy qadriyatlardan xabardorlikdir. Madaniy taraqqiyot yutuqlari, madaniyat mahsullari aynan qadriyatlarda ja’m bo‘ladi. Binobarin, milliy qadriyatlardan voqiflik milliy madaniyat yutuqlaridan xabardorlikni, umuminsoniy qadriyatlardan voqiflik esa umuminsoniy madaniyat yutuqlaridan xabardorlikni anglatadi. Aynan shuning uchun barkamol inson shaxsini shakllantirish, juz’an – shaxs madaniy saviyasini

yuksaltirishning muhim vazifalaridan biri uning milliy va umuminsoniy qadriyatlardan xabardorligini oshirish masalalari bilan bog‘lanadi[4;4].

Madaniy saviyaning keyingi elementi ijtimoiy va kasbiy bilimlarning o‘zlashirilganligidir. Xususan, barcha zamonlarda jamiyat haqidagi bilimlar muhim ahamiyatga ega bo‘lgan. Zamonaviy sotsiumdagi, jahon maydonidagi ijtimoiy munosabatlar, iqtisodiy aloqalar, siyosiy vaziyat murakkablashgani sayin unga bo‘lgan ehtiyoj, uni o‘zlashtirish zaruriyati tobora ortib borayotir. Chunki ijtimoiy bilimlardan xabardor bo‘lmasdan turib, bugungi kishilik jamiyatining o‘ziga xos xususiyatlari, rivojlanish qonunlarini anglab bo‘lmaydi. Bunday bilimlarni o‘zlashtirgan inson o‘z hayoti va faoliyatini jamiyat ehtiyoj va manfaatlariga muvofiqlashtira oladi. Shu sababdan o‘zi yashayotgan jamiyatda sodir bo‘layotgan jarayonlarning tub mohiyatini bilgan, ular ustida mantiqan fikrlay oladigan, jamiyat rivoji mo‘ljallarini tasavvur qilgan shaxsni muayyan madaniy saviyaga ega deymiz.

Shunday qilib, shaxs madaniy saviyasi murakkab va o‘ziga xos tarkibga ega. Ayni paytda, masalaning nozik jihati shundaki, bu tarkibiy elementlar inson hayoti va faoliyatida u yoki bu tarzda namoyon bo‘lib boradi. Shaxs madaniy saviyasi tarkibiy elementlarining salmog‘ini aniqlash uchun ularning namoyon bo‘lish shakllarini aniqlash, bu shakllardan mezon sifatida foydalanish zarur. Bu mezonlar avvalo insonning madaniy saviyasini aniqlash, o‘lchash imkonini beradi, albatta. Shuning bilan bir qatorda bu mezonlar yordamida “madaniy saviya” tushunchasi mazmunini ham mufassalroq ilg‘ab olish mumkin. Masalaning yana bir jihatiga alohida e’tibor bermoq darkor: shaxs madaniy saviyasi, bir tomondan, inson ongi bilan bog‘liq, ikkinchi jihatdan esa, uning faoliyatiga dahldor aspektlarni o‘zida mujassam qiladi. Shu sababdan madaniy saviyani o‘lchashda qo‘llaniladigan mezonlarning bir guruhi fenomenologik, ikkinchi guruhi esa praksiologik mohiyatga ega.

Shaxs madaniy saviyasining *ong bilan bog‘liq eng muhim mezonlari* quyidagilardan iborat:

a) intellektual faollik. Insonning intellektual jihatdan faolligiga qarab uning madaniy saviyasiga baho bersa bo‘ladi. Chunki kundalik amaliy faoliyatida yangi ma’lumot va bilimlarga ehtiyoj seza boshlagan, bu bilimlarga astoydil intilayotgan, o‘z amaliy faoliyatini takomillashtirish maqsadida yangi bilimlarni o‘zlashtira boshlagan, ular asosida yangi malakalar tizimini shakllantirgan, egallagan bilimlari asosida yangi g‘oyalar yaratayotgan kishinigina intellektual jihatdan faol shaxs deb atash mumkin. Intelektual faollik, shuningdek, insonning ilmga, bilimga chanqoqligi darajasini ifodalaydi.

b) shaxsda ijtimoiy bilimlarni o‘zlashtirishga ishtiyoq. Madaniy saviya insonning ijtimoiy voqelikka doir qarash va bilimlari majmuiga hamohangdir. To‘g‘ri, ijtimoiy bilimlarning amaliy natijadorligini tabiiy-ilmiy bilimlar bilan qiyoslab bo‘lmaydi. Biroq bundan ijtimoiy bilimlar haminqadar ahamiyatga ega, degan xulosa kelib chiqmaydi. Bunday bilimlar ijtimoiy voqelikni tasvirlab berish, jamiyatda sodir bo‘layotgan voqea va jarayonlarni anglab yetish imkonini beradi. “Ayni paytda fizikaviy va kimyoviy bilim yangi materiallarni hamda yangi obyektlarni vujudga keltirgani kabi ijtimoiy bilim ham qaysidir ma’noda yangi ijtimoiy reallikni yaratadi”[5;274-285]. Ularni o‘zlashtirishga bo‘lgan ishtiyoq esa shaxsning ijtimoiy jarayonlarga bo‘lgan qiziqishini, ulardan xabardorligini anglatadi. Ishtiyoqning qizg‘inligi meyoriga qarab, shaxsning madaniy jihatdan rivojlanganligi darajasiga baho berish mumkin. Ijtimoiy jarayonlar mohiyatini anglashga intilish yuksak madaniy saviyani, buning teskarisi shaxs madaniy rivojidagi nuqsonlarni ifodalaydi;

v) kasbiy bilim va ma’lumotlarni oshirishga ishtiyoq. Madaniy saviya insonning o‘z kasbiga taalluqli bo‘lgan bilimlar majmuini qay daajada puxta o‘zlashtirganiga qarab baholanadi. Kasbiy bilim va ma’lumotlar o‘z xizmat vazifalarini sifatli bajarish va xizmat faoliyatida muayyan natijalarga erishish imkonini beradigan nazariy bilimlar, ma’lumot, g‘oyalar, fakt va argumentlarni o‘zida mujassam qiladi. O‘tgan asrning o‘rtalariga qadar shaxsning o‘z kasbini egallash chog‘ida o‘zlashtirgan bilimlari bir umrlik zahira vazifasini o‘tardi. Biroq ijtimoiy taraqqiyot sur’atlarining jadallashuvi, axborotlar hajmining oshib borishi, kasblar ixtisoslashuvining chuqurlashishi kasbiy bilimlarni muttasil yangilab borish zaruriyatini vujudga keltirdi. Bugungi kunda o‘z kasbi bilan bog‘liq bilimlar rivojini loaqal bir yil mobaynida kuzatishdan to‘xtagan shaxs kasbiy mahoratini yo‘qota boshlaydi. Shu boisdan o‘z kasbini qadrlagan, kasbiy mahoratini saqlab turishga moyil har bir kishi mutaxassisligi bilan bog‘liq barcha yangiliklarni o‘zlashtirishga alohida e’tibor beradi. Shaxsning o‘z kasbi bilan bog‘liq bilim va ma’lumotlarga intilishi kuchaygani sayin uning madaniy saviyasi ham yuksala boradi va, aksincha, bunday intilishning zaiflashuvi qonuniy ravishda uning madaniy saviyasining pasayishiga olib keladi;

g) huquqiy yetuklik. Shaxs madaniy saviyasining shakllanganligi holati uning huquqiy yetukligiga qarab aniqlanadi. Har qanday shaxs huquqiy yetuk deb tan olinishi uchun eng avvalo muayyan huquqiy bilimlarni o‘zlashtirgan bo‘lishi, o‘zining jamiyatdagi huquqiy maqomini anglab yetishi, inson huquqlarini ahloq meyorlari bilan o‘lchay bilishi zarur. Bu belgilar orasida shaxs huquqiy maqomi ayniqsa o‘zgacha ahamiyatga ega. Ma’lumki, har qanday jamiyatda shaxsning huquqiy maqomi, ya’ni uning jamiyatda egallagan o‘rni turli qonunlar yordamida ifodalanadi. Bu maqom qobiliyat va iste’dodlarni namoyon etish, moddiy va ma’naviy ehtiyojlarni qondirish, jamiyat hayotiga ishtirok etish uchun yaratilgan huquqiy imkoniyatlar bilan belgilanadi. Shaxsning o‘z huquqiy maqomini, undan foydalanish yo‘llarini anglaganiga qarab uning madaniy saviyasiga baho beriladi.

Shaxs huquqiy yetukligi o‘z huquq va majburiyatlar haqidagi bilimlar ni o‘zlashtirganligi bilan bog‘liq. Huquq imkoniyat bilan, majburiyat esa ijtimoiy talab bilan bog‘liq. Har qanday huquq shaxsning jamiyatdagi erkinligi meyorini, uning bu erkinlikdan foydalanishi potensialini ifodalaydi. Majburiyat esa muayyan jamiyatda shaxsdan kutilayotgan hatti-harakatlar, natijalarni anglatadi. Madaniy saviyasi baland shaxs o‘z huquqlarini naqadar mufassal bilsa, majburiyatlarini ham shu qadar puxta anglaydi;

d) milliy g‘urur. “Milliy g‘urur – shaxs, ijtimoiy guruhning milliy o‘z-o‘zini anglashi asosida shakllanadigan, ajdodlari qoldirgan moddiy, ma’naviy merosdan, o‘z xalqining jahon sivilizatsiyasiga qo‘shgan hissasi, o‘zga millatlar oldidagi qadr-qimmati, obro‘-e’tiboridan faxrlanish hissini ifodalovchi tushuncha”[6;800]. Milliy g‘urur milliy ongning o‘ziga xos jihati bo‘lib, millatchilikka zid bo‘lgan tushunchadir. Millatchilik bir millatning boshqa millatlardan ustuvorligini da’vo qiladi, muayyan millatga xos bo‘lgan turli tuyg‘ularni bo‘rttirib ko‘rsatadi. U millatning “saylanganligi” haqidagi g‘oyalarni tug‘diradi-ki, buning oqibatida millat tarixiga doir turli faktlar, madaniyatining o‘ziga xos tomonlari o‘zga millatlarni kamsitish yo‘lida ishlatila boshlanadi. Milliy g‘urur esa mazkur illatlardan xolidir.

Milliy g‘urur millat tarixi, dini, madaniyati xususidagi mustahkam bilimlar negizida yuzaga keladi. Milliy g‘urur madaniy saviyaning tashqi ifodasi bo‘lsa, shaxsning milliy tarix va madaniyatga doir bilimlari ichki mohiyatdir. Ifodaga qarab asl mohiyatni aniqlash mumkin. Mazkur bilimlari doirasi keng shaxsni madaniyatli inson deb e’tirof etsa bo‘ladi. Modomiki, teskarisi ekan – uning Vatan tarixiy taraqqiyoti xususiyatlari, madaniy borlig‘i to‘g‘risidagi bilimlapi doipasi tor, madaniy saviyasi pastdir.

Shaxsning madaniy jihatdan rivojlanganligi darajasini aniqlash imkonini beradigan *xulq-atvor va faoliyat bilan bog‘liq mezonlar* ham mavjud:

a) maishiy madaniyati; har qanday jamiyatda inson madaniy saviyasini uning maishiy turmushiga, maishiy hayotdagi qadriyatlari tizimiga qarab aniqlash mumkin. Insonning maishiy madaniyati uning umrguzaronligi, uy-joyini asrash, undagi shart-sharoitlarni maqbullashtirish, mehnat qilish, salomatligini saqlash, hordiq chiqarish, bo‘sh vaqtini tashkil etish bilan bog‘liq malaka, ko‘nikma, odatlaridan tarkib topadi. Madaniy saviyasi past shaxsda mazkur ko‘nikma va malakalar zaif bo‘ladi. Zaif malaka turmush sifatini yaxshilashga xalal beradi. Bunday kishilar qulay turmush sharoitlarini yaratishda mushkulliklarga yo‘liqadilar. Ular o‘z sog‘lig‘ini asrab-avaylashni ham e’tibordan chetda qoldiradilar;

b) kiyinish madaniyati; insonning kiyinishi uning madaniy jihatdan shakllanganligining yorqin ifodasidir. Kiyim – shaxsning milliy va umuminsoniy madaniyatning kiyinishga doir qadriyatlari va artefaktlari, qoidalari va tartiblarini o‘zlashtirganligini ko‘rsatuvchi muhim indikatordir.Bundan tashqari, u insonning individualligini, xislat va fazilatlarini, imijini, maqomini namoyon qiluvchi vositadir. “Insonning o‘z kiyim-boshiga munosabati madaniy-tarixiy fenomendir”[6;800]. Boshqacha aytganda, u turli ijtimoiy-madaniy omillar ta’sirida qaror topadi. Jamiyat ijtimoiy-madaniy jihatdan taraqqiy topgani sayin shaxsning kiyinish madaniyati ham takomillasha boradi. Biroq buning uchun shaxs o‘z madaniy rivojini jadallashtirish va mazmunan boyitishdan to‘xtamasligi kerak. Bunday intilishdan intensivligi kuchaygani shaxsning kiyinish madaniyati ham rivojlana boradi;

v) ovqatlanish madaniyati; inson turmushida oziq-ovqat mahsulotlari iste’mol qilishning optimal yo‘li, shakli va tarkibini tanlashning ahamiyati beqiyos. Chunki taom shunchaki iste’mol predmeti emas, balki “ma’naviyat, madaniyat tashuvchisidir”,[7;60] binobarin, uning aksiologik qimmati ham mavjud. Aynan shuning uchun ham shaxs madaniy saviyasini aniqlashda ovqatlanish madaniyatining, iste’mol bilan bog‘liq odat va ko‘nikmalarining alohida o‘rni bor. Madaniy saviyasi past bo‘lgan shaxs iste’molning maqbul yo‘llarini tanlay bilmaydi, buning oqibati o‘laroq faoliyati va salomatligi bilan bog‘liq turli muammolarga duch keladi. Masalan, tibbiyot sohasida olib borilgan ilmiy tadqiqotlar kasalliklarning 70 foizi ovqatlanish qoidalariga amal qilmaslik oqibatida kelib chiqishini ko‘rsatadi[8]. Shaxsning madaniy saviyasi yuksalgani sayin uning ovqatlanish madaniyati ham optimal tus ola boradi.

g) shaxs madaniy saviyasini undagi etiket va intizomga rioya qilish ko‘nikmalarining shakllanganligi darajasiga qarab aniqlasa bo‘ladi. Etiket – shaxs xulq-atvori normalari, jamiyatdagi hatti-harakatlari qoidalari, shaxslararo munosabatlarni muvofiqlashtiruvchi tamoyillar yig‘indisidir. Etiket o‘zining turli-tumanligi bilan ajralib turadi. Masalan, jamiyat a’zolarining barchasi uchun amal qiladigan etiketlar, ayrim guruhlargina o‘z faoliyatida asos sifatida oladigan etiketlar (diplomatik etiket, harbiy etiket, ilmiy etiket va h.k.) mavjud. Shaxsning etiketga rioya qilishi tartibi, darajasi esa uning intizomida o‘z ifodasini topadi. Jamiyatda qabul qilingan umumiy va maxsus xulq-atvor norma, qoida va tamo-yillaridan xabardor bo‘lgan, ularni qabul qilgan shaxsgina etiket va intizomga qat’iy amal qiladi. Etiketdan bexabar, unga amal qilmaydigan, tartib-intizom qoidalariga rioya etmaydigan shaxsdan yuksak madaniy saviya izlashning o‘zi bema’nilikdir.

d) moddiy va ma’naviy boyliklardan foydalanish malakasi; ma’lumki, moddiy boyliklar deganda ma’lum qimmatga va qiymatga ega bo‘lgan narsalar, xususan yer, bino, maishiy turmush predmetlari, mehnat qurollari va shu kabilar nazarda tutiladi. Ma’naviy boyliklar esa shaxs ma’naviy qiyofasi xarakterini, xulq-atvori va faoliyati tarzini belgilovchi qadriyatlardan tarkib topadi. Jamiyatda moddiy va ma’naviy boyliklar konsentratsiyasi qay darajada

bo‘lishidan qat’iy nazar shaxsning ulardan xabardorligi, foydalanishi darajasi turlicha bo‘lishi mumkin. Aytaylik, madaniy saviyasi baland shaxs o‘z faoliyatida ulardan oqilona foydalana biladi. Madaniy saviyasining shakllanishida muayyan muammolar bo‘lgan kishi esa bu boyliklardan oqilona foydalanish nari tursin, ayrim hollarda ulardan xabardorligi darajasi ham haminqadar bo‘ladi. Xuddi shuning uchun ham shaxsning moddiy va ma’naviy boyliklardan foydalanishi holatiga qarab uning madaniy saviyasini aniqlasa bo‘ladi;

ye) vatanparvarlik; shaxs madaniy saviyasini uning vatanparvarligi da-rajasiga qarab aniqlasa bo‘ladi. Haqiqiy vatanparvarlik – el-yurt porloq kelajagi uchun, Vatan, xalq, millat farovonligi yo‘lida chinakamiga halol mehnat qilishdir.”[9;230]. “Madaniy saviya insonning o‘zi tug‘ilib o‘sgan, kindik qoni tomgan qishloq yoki shahar, ota-bobolari, ajdod va avlodlarining maskanini ulug‘lashida, ota-onasi, aka-ukalari, xeshu-aqrabolarini e’zozlashida, yurtning o‘tmishi, buguni, kelajagi bilan faxrlanishida o‘z ifodasini topadi”[9;230]. Vatan manfaatlariga xizmat qilish, o‘z hayotiy faoliyatini uning manfaatlari bilan muvofiqlashtirish – shaxs madaniy saviyasining muhim mezonidir. Chunki milliy qadriyatlarni chuqur o‘zlashtirgan, yurt manfaatlarini anglab yetgan, milliy g‘oyadan xabardor shaxsgina Vatan manfaatlariga xizmat qila oladi. Xuddi shuning uchun ham millat qadriyatlarini ulug‘lagan, uning mazmuni va mohiyatini yaxshi tushungan tarixiy shaxslar, buyuk mutafakkirlar, davlat va siyosat arboblari, olimu-fuzalolar butun umrlari davomida Vatan manfaatlari, uning istiqboli yo‘lida fidokorona mehnat qilganlar, vatandoshlarni ham mudom shunga chorlab kelganlar. Vatanparvarlik shaxsning madaniy jihatdan takomil topganligini, bunday tuyg‘uning shakllanmaganligi esa insonning madaniy qusurlarini namoyish etadi.

Xulosa va takliflar. Shaxs madaniy saviyasining konseptual hamda strukturaviy rakursdagi talqini uning mohiyati va mazmunini ilmiy nuqtai nazardan ifodalab berishda qo‘l keladi. Bu xulosalar bugungi shaxs madaniy saviyasining o‘ziga xos jihatlarini tadqiq etishda nazariy-metodologik asos vazifasini o‘taydi. Shunday qilib, madaniy saviya shaxsning milliy va umuminsoniy qadriyatlardan voqifligi meyorini, insoniyat tomonidan asrlar davomida to‘plangan bilim va g‘oyalarni o‘zlashtirganligi darajasini, mazkur qadriyatlar va bilimlar asosida faoliyat ko‘rsatish malakasini ifodalovchi tushunchadir. Uning shakllanganligi darajasi inson ongi va faoliyati bilan bog‘liq qator mezonlar yordamida aniqlanadi. Shaxs madaniy saviyasi turfa ob’yektiv shart-sharoitlar va subyektiv omillar ta’sirida o‘zgarib boradi.

Annotatsiya: *Ushbu maqolada Abdurauf Fitratning falsafiy merosida milliy o‘zlik va millat taraqqiyoti masalalari tahlil qilinadi. Tadqiqotda tarixiy-tahliliy, qiyosiy va germenevtik metodlardan foydalanildi. Natijalar Fitrat milliy o‘zlikni ma’naviy-madaniy birlik va tarixiy xotira asosida talqin etganini ko‘rsatadi. Muallifning milliy ong, ma’rifat va axloq haqidagi qarashlari bugungi O‘zbekistonda milliy taraqqiyot jarayonlari uchun muhim ahamiyatga ega.*

Kalit so‘zlar: *Abdurauf Fitrat, jadidchilik, milliy o‘zlik, milliy ong, ma’rifat, axloq, milliy taraqqiyot, milliy uyg‘onish.*

ISSUES OF NATIONAL IDENTITY AND NATIONAL DEVELOPMENT IN ABDURAUF FITRAT'S PHILOSOPHICAL HERITAGE

Abstract: *This article examines Abdurauf Fitrat’s views on national identity and national development within his philosophical heritage. The study employs historical-analytical, comparative, and hermeneutic methods. The findings reveal that Fitrat interpreted national identity as a spiritual-cultural unity grounded in historical memory. His ideas on national consciousness, enlightenment, and morality remain relevant to the contemporary development of Uzbekistan.*

Keywords: *Abdurauf Fitrat, Jadidism, national identity, national consciousness, enlightenment, morality, national development, national revival.*

ПРОБЛЕМЫ НАЦИОНАЛЬНОЙ ИДЕНТИЧНОСТИ И РАЗВИТИЯ НАЦИИ В ФИЛОСОФСКОМ НАСЛЕДИИ АБДУРАУФА ФИТРАТА

Аннотация : *В данной статье анализируются взгляды Абдурауфа Фитрата на национальную идентичность и развитие нации в его философском наследии. В исследовании использованы историко-аналитический, сравнительный и герменевтический методы. Результаты показывают, что Фитрат рассматривал национальную идентичность как духовно-культурное единство и историческую память. Его идеи о национальном сознании, просвещении и нравственности сохраняют актуальность для современного развития Узбекистана.*

Ключевые слова: *Абдурауф Фитрат, джадидизм, национальная идентичность, национальное сознание, просвещение, нравственность, развитие нации, национальное возрождение.*

Kirish (введение / introduction)

XX asr boshlarida Markaziy Osiyo xalqlari mustamlakachilik, ta’lim tizimidagi inqiroz va yangi ilmiy taraqqiyot ta’sirida murakkab tarixiy jarayonlarni boshdan kechirdi. Shu sharoitda vujudga kelgan jadidchilik harakati nafaqat ta’limni isloh qilishni, balki milliy ong va taraqqiyot masalalarini ham ilgari surdi [1].

Jadidchilikning yetakchi namoyandalaridan biri Abdurauf Fitrat (1886–1938) bo‘lib, u dramaturg, shoir, tilshunos, tarixchi va mutafakkir sifatida katta meros qoldirgan [2]. Uning «Munozara», «Hind sayyohi» va «Rahbar-i najot» kabi asarlari milliy uyg‘onish g‘oyalarini targ‘ib etishda muhim o‘rin tutadi [3].

Fitrat milliy o‘zlikni millatni birlashtiruvchi til, madaniyat va tarixiy xotira bilan bog‘liq hodisa sifatida talqin qilgan [4]. U bu tushunchani nazariy emas, balki jamiyat taraqqiyotiga xizmat qiluvchi amaliy g‘oya deb baholagan [5]. Mazkur maqolaning maqsadi Fitrat falsafasida milliy o‘zlik va millat taraqqiyoti masalalarini tahlil qilish hamda ularning ilmiy ahamiyatini yoritishdan iborat.

Adabiyotlar tahlili va metodlar (литература и метод / materials and methods). Tadqiqotda asosiy manba sifatida Abdurauf Fitratning asarlari va maqolalaridan, qo‘shimcha manba sifatida esa jadidchilik hamda Fitrat ijodiga oid ilmiy tadqiqotlardan foydalanildi.

Tarixiy-tahliliy metod Fitrat g‘oyalarini o‘z davri sharoitida o‘rganishga xizmat qildi. Qiyosiy tahlil orqali uning qarashlari boshqa jadid mutafakkirlari fikrlari bilan solishtirildi. Falsafiy va germenevtik yondashuvlar esa milliy o‘zlik hamda axloq haqidagi qarashlarini chuqurroq talqin etish imkonini berdi.

Natijalar (результаты / results).

Fitrat qarashlarida milliy o‘zlik

Fitrat millatni faqat etnik mansublik bilan emas, balki til, din, madaniyat va tarixiy xotira birligi bilan bog‘liq hodisa sifatida talqin qiladi. Uning fikricha, millat o‘zligini anglagandagina haqiqiy taraqqiyot yo‘liga chiqadi. Shu sababli u ilm-ma’rifatni milliy o‘zlikni shakllantirishning asosiy omili deb hisoblaydi [9].

Milliy ong va uyg‘onish g‘oyasi

Fitrat milliy ongni xalq taraqqiyotining eng muhim sharti sifatida ko‘radi. U ta’lim, matbuot va adabiyotni milliy ongni rivojlantiruvchi asosiy vositalar deb biladi [10]. Mutafakkirning ta’kidlashicha, milliy uyg‘onish o‘tmishni anglash va kelajakni tasavvur qilish orqali yuz beradi. Tarixini unutgan xalq rivojlana olmaydi, maqsadsiz xalq esa harakatsiz qoladi [11].

Ma’rifat va ta’limning o‘rni

Fitrat nazarida ma’rifat millat taraqqiyotining asosidir. U eski ta’lim tizimini tanqid qilib, zamonaviy usul-i jadid maktablarini qo‘llab-quvvatlagan. Ayniqsa, ona tilida ta’lim berish masalasiga katta ahamiyat qaratib, buni milliy ong va o‘zlikni mustahkamlashning muhim sharti deb hisoblagan [12].

Taraqqiyotning axloqiy asoslari

Fitrat milliy taraqqiyotni axloqiy kamolot bilan chambarchas bog‘laydi. Uningcha, jamiyatdagi tanazzul avvalo ma’naviy inqirozdan boshlanadi. Halollik, vatanparvarlik, bilimga intilish va mas’uliyat hissi taraqqiyotning asosiy tayanchlaridir [13]. Adolat, haqiqat va ezgulik kabi umuminsoniy qadriyatlar milliy qadriyatlar bilan uyg‘unlashganda jamiyat yanada mustahkam rivojlanadi [14].

Jamiyat va davlat haqidagi qarashlari

Fitrat davlat va jamiyat masalalariga millat manfaatlari nuqtai nazaridan yondashadi. U Buxoro amirligidagi mavjud tartiblarni taraqqiyotga to‘sqinlik qiluvchi omil sifatida baholagan . Mutafakkir huquqiy davlat va konstitutsion boshqaruv g‘oyalarini ilgari surib, Turkiya hamda Yaponiya tajribalarini misol sifatida keltirgan [15].

Bugungi davr uchun ahamiyati

Fitratning milliy o‘zlik, ma’rifat va axloq haqidagi qarashlari bugungi O‘zbekiston uchun ham dolzarbdir. Uning g‘oyalari ta’limni takomillashtirish, milliy qadriyatlarni rivojlantirish va fuqarolik jamiyatini mustahkamlash jarayonlarida muhim nazariy manba bo‘lib xizmat qiladi . Jadidlar merosini zamonaviy ilmiy yondashuvlar asosida o‘rganish milliy falsafa rivojiga yangi imkoniyatlar yaratadi

Muhokama (обсуждение / discussion). Tadqiqot natijalari Fitratning milliy o‘zlik masalasiga boshqa jadid mutafakkirlariga nisbatan kengroq yondashganini ko‘rsatadi. U til, ma’naviyat va siyosiy erkinlikni bir-biri bilan uzviy bog‘liq omillar sifatida baholab, millat taraqqiyoti aynan shu omillar uyg‘unligiga tayanishini ta’kidlagan.

Fitrat qarashlari zamonaviy millat nazariyalari bilan hamohangdir. U millatni faqat etnik birlik emas, balki ongli ravishda shakllanadigan ijtimoiy va ma’naviy hodisa sifatida talqin qilgan. Biroq uning fikricha, bunday birlik tarixiy xotira, til va madaniy qadriyatlarga tayangan holda rivojlanishi kerak.

Shu jihatdan Fitrat merosi nafaqat o‘z davri uchun, balki bugungi kunda ham milliy taraqqiyot va milliy o‘zlikni anglash masalalarini o‘rganishda muhim nazariy manba bo‘lib xizmat qiladi.

Xulosa (заключение / conclusion).

Tadqiqot natijalari shuni ko‘rsatadiki, Abdurauf Fitrat milliy o‘zlikni til, tarix va ma’naviy qadriyatlar birligi asosida shakllanadigan ongli hodisa sifatida talqin qilgan. U milliy ong va taraqqiyotning asosiy omili sifatida ta’lim, ma’rifat hamda matbuotga alohida ahamiyat bergan.

Fitratning fikricha, millat rivoji faqat bilim bilan emas, balki halollik, vatanparvarlik va mas’uliyat kabi axloqiy qadriyatlar bilan ham chambarchas bog‘liq. U huquqiy davlat va konstitutsion boshqaruv g‘oyalarini qo‘llab-quvvatlab, ilg‘or davlatlar tajribasini taraqqiyot namunasi sifatida baholagan.

Umuman olganda, Fitratning milliy o‘zlik, ma’rifat va erkinlik haqidagi qarashlari bugungi O‘zbekistonda ta’limni rivojlantirish, milliy qadriyatlarni mustahkamlash va fuqarolik jamiyatini shakllantirish jarayonlarida muhim nazariy manba bo‘lib xizmat qiladi.

AYOLLAR TADBIRKORLIGIDA MILLIY AN'ANA VA MODERN QADRIYATLAR UYG'UNLIGI

Maksumova Umida Sadikjonovna
Farg'ona davlat universiteti tadqiqotchisi,
falsafa fanlari bo'yicha falsafa doktori (PhD)
e-mail: maksumova81_fsu@mail.ru

Annotatsiya. *Ushbu maqolada ayollar tadbirkorligining zamonaviy rivojlanish tendensiyalari milliy an'analar va modern qadriyatlar uyg'unligi nuqtai nazaridan ijtimoiy-falsafiy tahlil qilinadi. Tadqiqotda ayollar tadbirkorligining jamiyatdagi iqtisodiy, ijtimoiy va madaniy funksiyalari, uning gender tenglik, ijtimoiy faollik va fuqarolik jamiyatini rivojlantirishdagi o'rni ochib berilgan. Shuningdek, O'zbekiston sharoitida milliy qadriyatlar va zamonaviy tadbirkorlik madaniyatining o'zaro ta'siri tahlil qilinib, ayollar tadbirkorligini rivojlantirishning istiqbolli yo'nalishlari asoslangan.*

Kalit so'zlar: *ayollar tadbirkorligi, milliy qadriyatlar, modernizatsiya, gender tenglik, iqtisodiy faollik, ijtimoiy transformatsiya, tadbirkorlik madaniyati, fuqarolik jamiyati, innovatsiya.*

СОЧЕТАНИЕ НАЦИОНАЛЬНЫХ ТРАДИЦИЙ И СОВРЕМЕННЫХ ЦЕННОСТЕЙ В ЖЕНСКОМ ПРЕДПРИНИМАТЕЛЬСТВЕ

Аннотация. *В статье анализируется развитие женского предпринимательства с точки зрения сочетания национальных традиций и современных ценностей. Исследуются социально-философские аспекты участия женщин в предпринимательской деятельности, их роль в обеспечении гендерного равенства, социальной активности и развитии гражданского общества. Особое внимание уделяется взаимодействию национальных ценностей и современной предпринимательской культуры в условиях Узбекистана.*

Ключевые слова: *женское предпринимательство, национальные ценности, модернизация, гендерное равенство, социальная активность, предпринимательская культура.*

HARMONY OF NATIONAL TRADITIONS AND MODERN VALUES IN WOMEN'S ENTREPRENEURSHIP

Abstract. *This article examines women's entrepreneurship through the lens of the interaction between national traditions and modern values. The study analyzes the socio-philosophical dimensions of women's participation in entrepreneurship and its contribution to gender equality, social activity, and civil society development. Particular attention is paid to the relationship between traditional cultural values and modern entrepreneurial culture in Uzbekistan.*

Keywords: *women's entrepreneurship, national values, modernization, gender equality, social activity, entrepreneurial culture, social transformation, innovation.*

Kirish. Zamonaviy globallashuv va modernizatsiya jarayonlari sharoitida ayollar tadbirkorligi nafaqat iqtisodiy taraqqiyot omili, balki ijtimoiy transformatsiyaning muhim instituti sifatida ham namoyon bo'lmoqda. So'nggi yillarda dunyoning ko'plab mamlakatlarida ayollarning biznes faoliyatidagi ishtiroki iqtisodiy o'sish, kambag'allikni qisqartirish va ijtimoiy barqarorlikni ta'minlashning muhim vositasi sifatida e'tirof etilmoqda [1].

O'zbekiston sharoitida ayollar tadbirkorligini rivojlantirish davlat siyosatining ustuvor yo'nalishlaridan biri hisoblanadi. Mamlakatda xotin-qizlarning iqtisodiy faolligini oshirish, ularning tadbirkorlik tashabbuslarini qo'llab-quvvatlash va biznes yuritish uchun qulay sharoitlar yaratishga qaratilgan keng ko'lamli islohotlar amalga oshirilmoqda [2].

Ijtimoiy-falsafiy nuqtai nazardan ayollar tadbirkorligi milliy an'analar va modern qadriyatlarning o'zaro ta'siri natijasida shakllanuvchi murakkab ijtimoiy hodisadir. Bir tomondan, milliy qadriyatlar ayollarning oilaviy mas'uliyati, ma'naviy-axloqiy qiyofasi va jamiyatdagi mavqeini belgilaydi. Ikkinchi tomondan, modern qadriyatlar ayollarning iqtisodiy mustaqilligi, kasbiy o'zini namoyon qilishi va innovatsion faoliyatini rag'batlantiradi [3].

Ushbu ikki qadriyat tizimining uyg‘unlashuvi O‘zbekistonda ayollar tadbirkorligining o‘ziga xos modelini shakllantirmoqda. Shu sababli ushbu jarayonni ijtimoiy-falsafiy jihatdan tahlil qilish muhim ilmiy ahamiyat kasb etadi.

Tadqiqot maqsadi. Ayollar tadbirkorligida milliy an’analar va modern qadriyatlar uyg‘unligining ijtimoiy-falsafiy mohiyatini ochib berish hamda uning jamiyat taraqqiyotidagi ahamiyatini asoslash.

Tadqiqot metodologiyasi. Tadqiqotda ijtimoiy-falsafiy tahlil, aksiologik yondashuv, tizimli tahlil, qiyosiy metod va gender yondashuvidan foydalanildi.

Nazariy-metodologik asos sifatida A.Senning inson taraqqiyoti konsepsiyasi, N.Freyzerning gender adolati nazariyasi, P.Burdyening madaniy kapital konsepsiyasi hamda zamonaviy gender tadqiqotlari natijalari tanlandi [4].

Empirik asos sifatida O‘zbekiston Respublikasi Prezidentining xotin-qizlarni qo‘llab-quvvatlashga oid farmonlari, “O‘zbekiston – 2030” strategiyasi, Gender tenglik strategiyasi va ilmiy adabiyotlar tahlil qilindi.

Natijalar. Tadqiqot natijalari ayollar tadbirkorligi milliy va modern qadriyatlarning sintezi asosida rivojlanayotganligini ko‘rsatdi.

Birinchidan, milliy qadriyatlar ayollar tadbirkorligining ma’naviy-axloqiy asoslarini shakllantiradi. Oila qadriyatlari, mehnatsevarlik, halollik va jamiyat oldidagi mas’uliyat ayol tadbirkorlarning faoliyatida muhim o‘rin tutadi.

Ikkinchidan, modern qadriyatlar ayollarning iqtisodiy mustaqilligini ta’minlash, innovatsion faoliyatini kengaytirish va biznes boshqaruvidagi ishtirokini kuchaytirishga xizmat qilmoqda.

Uchinchidan, tadqiqot davomida ayollar tadbirkorligining quyidagi ijtimoiy funksiyalari aniqlandi:

a) oilaviy farovonlikni oshirish;
b) yangi ish o‘rinlarini yaratish;
c) kambag‘allikni qisqartirish;
d) gender tenglikni mustahkamlash;
e) fuqarolik jamiyati rivojiga hissa qo‘shish.

Tahlillar natijasida ayollar tadbirkorligining rivojlanishiga ta’sir qiluvchi asosiy omillar sifatida ta’lim, moliyaviy resurslarga kirish imkoniyati, oilaviy qo‘llab-quvvatlash va davlat siyosati aniqlashtirildi.

Muhokama. Tadqiqot natijalari ayollar tadbirkorligining rivojlanishi zamonaviy O‘zbekiston jamiyatida kechayotgan ijtimoiy transformatsiyalar, gender munosabatlari evolyutsiyasi hamda milliy va global qadriyatlar tizimining o‘zaro ta’siri bilan uzviy bog‘liqligini ko‘rsatdi. Qayd etilgan jarayonni ijtimoiy-falsafiy nuqtai nazardan tahlil qilish ayollar tadbirkorligini faqat iqtisodiy faoliyat sifatida emas, balki ijtimoiy taraqqiyot va madaniy modernizatsiyaning muhim instituti sifatida baholash imkonini beradi.

Ijtimoiy falsafada qadriyatlar tizimi shaxs va jamiyat rivojlanishining muhim omili sifatida qaraladi. Shu nuqtai nazardan ayollar tadbirkorligi ham an’anaviy va zamonaviy qadriyatlar o‘rtasidagi murakkab o‘zaro ta’sir mahsuli sifatida shakllanadi. O‘zbekiston jamiyatida tarixan ayollarning oiladagi o‘rni, farzand tarbiyasi, ma’naviy muhitni shakllantirishdagi mas’uliyati yuqori baholangan. Bunday qadriyatlar bugungi kunda ham ayollar faoliyatining muhim ma’naviy asosi bo‘lib qolmoqda.

Shu qatorda, globallashuv va raqamli iqtisodiyotning rivojlanishi ayollarning iqtisodiy hayotdagi ishtirokini kengaytirmoqda. Natijada an’anaviy ijtimoiy rollar bilan modern iqtisodiy faoliyat shakllari o‘rtasida yangi uyg‘unlik modeli shakllanmoqda. Tadqiqot natijalari ko‘rsatishicha, O‘zbekistondagi ko‘plab muvaffaqiyatli ayol tadbirkorlar milliy qadriyatlarni saqlagan holda zamonaviy boshqaruv usullaridan samarali foydalanmoqda.

A.Sen inson taraqqiyoti konsepsiyasida iqtisodiy rivojlanishni inson imkoniyatlarini kengaytirish bilan bog‘laydi [6, p. 87]. Mazkur yondashuv ayollar tadbirkorligini baholashda muhim metodologik ahamiyatga ega. Chunki ayollarning biznes faoliyatidagi ishtiroki nafaqat daromad olish imkoniyatini, balki ularning ta’lim, kasbiy rivojlanish va ijtimoiy faollik darajasini ham oshiradi.

N.Freyzer gender adolati masalasini tahlil qilar ekan, iqtisodiy imkoniyatlarga teng kirish va ijtimoiy e’tirofning uyg‘unligi gender tenglikning muhim sharti ekanligini ta’kidlaydi [7]. Tadqiqot natijalari ham O‘zbekistonda ayollar tadbirkorligini rivojlantirish bo‘yicha olib borilayotgan siyosat gender tenglikni ta’minlashning muhim vositalaridan biri ekanligini ko‘rsatdi.

Ayollar tadbirkorligining rivojlanishi fuqarolik jamiyati institutlarining mustahkamlanishiga ham xizmat qiladi. Binobarin, tadbirkor ayollar ko‘pincha mahalliy hamjamiyatlar rivojiga hissa qo‘shuvchi, ijtimoiy loyihalarni qo‘llab-quvvatlovchi va ijtimoiy mas’uliyat tamoyillariga amal qiluvchi subyektlar sifatida namoyon bo‘ladi. Bu esa ijtimoiy kapitalning ortishiga olib keladi.

R.Putnam ijtimoiy kapitalni jamiyat taraqqiyotining muhim omili sifatida baholab, fuqarolar o‘rtasidagi hamkorlik va ishonchning iqtisodiy rivojlanishga bevosita ta’sir qilishini ko‘rsatadi [8]. Tadqiqot davomida aniqlanishicha, ayollar tadbirkorligining rivojlanishi ham aynan ijtimoiy kapitalning ortishiga xizmat qilmoqda.

Ayollar tadbirkorligining o‘ziga xos jihati shundaki, u iqtisodiy samaradorlik bilan bir qatorda ma’naviy va ijtimoiy maqsadlarni ham o‘zida mujassamlashtiradi. Ko‘plab ayol tadbirkorlar o‘z faoliyatida oilaviy qadriyatlar, jamiyat manfaatlari va ijtimoiy mas’uliyat tamoyillariga tayanadi. Shu sababli ayollar tadbirkorligini ijtimoiy-falsafiy hodisa sifatida o‘rganish uning iqtisodiy ko‘rsatkichlaridan tashqari aksiologik mazmunini ham ochib berishga imkon yaratadi.

O‘zbekiston Respublikasi Prezidentining xotin-qizlarni qo‘llab-quvvatlash va gender tenglikni ta’minlashga qaratilgan farmon va qarorlari ayollar tadbirkorligi rivojlanishining muhim institutsional asosini yaratmoqda [9]. Bu esa ayollarning iqtisodiy mustaqilligi va ijtimoiy faolligini oshirish orqali jamiyatning barqaror rivojlanishiga xizmat qilmoqda.

Tadqiqot natijalari asosida ayollar tadbirkorligini rivojlantirishning quyidagi istiqbolli yo‘nalishlari aniqlandi:

1.Ayollar uchun moliyaviy resurslarga kirish imkoniyatlarini kengaytirish.

2.Raqamli tadbirkorlik va elektron tijorat sohasida ayollar ishtirokini oshirish.

3.Hududlarda ayollar biznes inkubatorlarini tashkil etish.

4.Gender sezgir tadbirkorlik ta’limini rivojlantirish.

5.Ayollar startaplarini qo‘llab-quvvatlash mexanizmlarini takomillashtirish.

6.Mahalla va fuqarolik jamiyati institutlari bilan hamkorlikni kuchaytirish.

7.Ayollar tadbirkorligining ijtimoiy mas’uliyatga yo‘naltirilgan modellarini rivojlantirish.

Xulosa. Tadqiqot natijalari ayollar tadbirkorligi zamonaviy O‘zbekiston jamiyatida milliy an’analar va modern qadriyatlarning uyg‘unlashuvi asosida rivojlanayotgan muhim ijtimoiy institut ekanligini ko‘rsatdi.

Aniqlanishicha, milliy qadriyatlar ayollar tadbirkorligining ma’naviy asoslarini shakllantirsa, modern qadriyatlar uning innovatsion va iqtisodiy salohiyatini kengaytirmoqda. Mazkur ikki omilning uyg‘unlashuvi ayollar tadbirkorligining o‘ziga xos milliy modelini vujudga keltirmoqda.

Tadqiqot davomida ayollar tadbirkorligining quyidagi ijtimoiy-falsafiy funksiyalari aniqlandi:

a) iqtisodiy mustaqillikni ta’minlash;
b) gender tenglikni rivojlantirish;
c) oilaviy farovonlikni oshirish;
d) fuqarolik jamiyatini mustahkamlash;
e) ijtimoiy kapitalni ko‘paytirish;
f) innovatsion tafakkurni rivojlantirish.

Shu bilan birga, ayollar tadbirkorligi iqtisodiy faoliyat shakli bo‘lish bilan birga, jamiyatda ijtimoiy mas’uliyat, hamjihatlik va ma’naviy qadriyatlarning mustahkamlanishiga ham xizmat qilishi asoslandi.

Muallifning fikricha, ayollar tadbirkorligini qo‘llab-quvvatlash siyosati Yangi O‘zbekiston taraqqiyotining muhim omillaridan biri bo‘lib, u nafaqat iqtisodiy o‘sishga, balki jamiyatning ma’naviy va ijtimoiy rivojlanishiga ham bevosita ta’sir ko‘rsatadi.

QISHLOQ TURMUSH MADANIYATINI YUKSALTIRISHNING IJTIMOIY-FALSAFIY MOHIYATI

Xolbekov Ilhomjon G'aniyevich
Farg'ona imkoniyati cheklangan shaxslar uchun ixtisoslashtirilgan maxsus texnikum Tarix fani o'qituvchisi

Annotatsiya: *Mazkur maqolada qishloq turmush madaniyatining tarixiy-falsafiy asoslari nazariy va metodologik jihatdan tadqiq etilgan. Shuningdek, sotsiomadaniy o'zgarishlar masalasi Garb faylasuf va mutafakkirlari nazariyalari bilan ochib berilgan. Bu esa qishloq turmush madaniyatining o'ziga xos ijtimoiy, ma'naviy, iqtisodiy va sotsiomadaniy funktsiyalariga asoslanish kerakligi o'rganilgan.*

Kalit so'zlar. *Qishloq, madaniyat, qishloq turmushi, ijtimoiy, ma'naviy, iqtisodiy, sotsiomadaniy hayot, ijtimoiy tizim.*

СОЦИАЛЬНО-ФИЛОСОФСКАЯ СУТЬ УЛУЧШЕНИЯ КУЛЬТУРЫ СЕЛЬСКОЙ ЖИЗНИ

Аннотация: *В данной статье теоретически и методологически исследуются историко-философские основы культуры сельской жизни. Также рассматривается вопрос социокультурных изменений на примере теорий западных философов и мыслителей. Изучается, что эти изменения должны основываться на специфических социальных, духовных, экономических и социокультурных функциях культуры сельской жизни.*

Ключевые слова*: деревня, культура, сельская жизнь, социальные, духовные, экономические, социокультурная жизнь, социальная система.*

SOCIAL-PHILOSOPHICAL ESSENCE OF IMPROVING RURAL LIFE CULTURE

Abstract: *This article studies the historical and philosophical foundations of rural life culture theoretically and methodologically. Also, the issue of sociocultural changes is revealed with the theories of Western philosophers and thinkers. It is studied that this should be based on the specific social, spiritual, economic and sociocultural functions of rural life culture.*

Keywords*. Village, culture, rural life, social, spiritual, economic, sociocultural life, social system.*

Kirish

Globallashuv jarayonlari natijasida qishloq turmush madaniyatini transformatsiyalashishi sababli inson hayotining turli jihatlarini qamrab olmoqda. Bunda nafaqat qishloq turmush madaniyati va shahar makonini tashkil etilishi, rivojlantirishi va ulardan foydalanish mantig'i, balki fuqarolarning bir-biri va atrof-muhit bilan o'zaro munosabatlarining mikrotuzilmalari ham o'zgarib bormoqda. Alohida qishloqlar va shaharlarning aholisi yangi rejimlariga integratsiyalashmoqda va yashash sharoitlariga turli yo'llar bilan moslashmoqda. "Harakatlar strategiyasi doirasidagi tub islohotlarimiz va amaliy ishlarimiz natijasida mamlakatimizning barcha hududlari qiyofasi tubdan o'zgargani, ko'plab zamonaviy korxonalar, magistral yo'l va ko'priklar, shinam uy-joylar, ilm-fan, madaniyat, san'at va sport maskanlari barpo etilgani, o'nlab bog'chabog'cha va maktablar, oliygohlar va ularning filiallari tashkil etilgani, shahar, qishloq va mahallalar tobora obod bo'lib, odamlarning hayot darajasi o'sib borayotganini alohida ta'kidlash lozim"[1.84.]. Taraqqiyot strategiyasi doirasida inson qadrini yuksaltirish va erkin fuqarolik jamiyatini yanada rivojlantirish bo'yicha belgilangan barcha islohotlar xalqimiz hayotini tubdan yaxshilash, aholi farovonligini oshirish va uning ijtimoiy himoyasini kuchaytirishga qaratilmoqda. Inson qadrini ulug'lash va erkin fuqarolik jamiyatini yanada rivojlantirish orqali xalqparvar davlat barpo etishning ustuvor yo'nalishlari amalga oshirilmoqda. Insonning turmush madaniyati shaxsning jamiyatidagi ijtimoiylashuvi natijasidir. Zero, jamiyatning sog'lomligi har bir insonning yuqori darajada qishloq turmush madaniyatiga ega bo'lishini taqozo etadi. Shunga ko'ra, agar jamiyatda mavjud barcha institutlar tomonidan inson ma'naviy va jismoniy salomatligini muhofaza qilishga qaratilgan shart-sharoit yaratilsa, o'sha jamiyatda yashayotgan har bir insonning turmush madaniyati yuqori darajaga ko'tariladi.

Mavzuga oid adabiyotlar tahlili

Qishloq turmush madaniyatining tarixiy-falsafiy ildizlari juda chuqur va ko'p qirrali bo'lib, ular insoniyat tarixining ilk davrlariga borib taqaladi. Qishloq turmush madaniyati nafaqat falsafiy qarashlar natijasida yuksalgan, balki ijtimoiy tuzumlar ta'sirida ham shakllangan. Qishloq turmush madaniyatining tarixiy ildizlariga e'tibor bersak, neolit

davridan boshlab qishloq turmushining asosiy ildizlari dehqonchilik va chorvachilikning paydo bo‘lishi bilan bog‘liqdir. Odamlar o‘troq hayotga o‘tib, qishloqlarda yashay boshladilar. Bu davrda qishloq xo‘jaligi, hunarmandchilik va savdo rivojlana boshlagan.

Afina Qadimgi Yunonistonning janubi-sharqidagi Attika yarim orolida joylashgan bo‘lib, arxeologik topilmalar bu yerda miloddan avvalgi XVI—XV asrlar (neolit davri)da qishloqlar bo‘lganini kursatadi. Keyinchalik ushbu qishloqlar birlashishi natijasida Afina shahri paydo bo‘lgan. Bu davrda (bu davrni Platon oltin davr deb atagan) urug‘chilik munosabatlari yemirilib, yangicha idora usullariga o‘tish boshlangan edi[2.58.]. Bir qancha oila birlashib, qishloqni paydo qiladi. Bu amaliy jihatdan kengaygan oila bo‘lib, uning manfaatlari kundalik ehtiyojlar bilan cheklanmay, yanada yuqoriroq bo‘lishi mumkin.

Faylasuf va sotsiolik olim P.A.Sorokin fikricha “Qishloq madaniyatidagi hodisalar, ayniqsa, madaniyatli jamiyatga, katta shahar madaniyatiga, insoniyat tarixidagi eng progressiv bo‘g‘inga xos bo‘lgan hodisalardir[3.402.]. Ijtimoiy hayotning uch sohasi, ya’ni harbiy faoliyat, qishloq xo‘jaligi va huquqda rimliklar o‘sha davrdagi eng yuqori natijaga erishganlar, katta bilim va tajriba to‘plagan sohalari edi.

Qishloq turmush tarzini organish sotsiomadaniy yondashuvning asosiy tamoyillari N.Lapin va A.Axiezerning asarlariga o‘z ifodasini topgan. Unga ko‘ra qadriyatlar sotsiomadaniy tizimlarning asosiy elementlari sifatida N.Lapinning qadriyatlar sotsiomadaniy evolyutsiyaning asosiy komponentlarini[2.56.] o‘rgangan bo‘lsa, A.Axiezerning jamiyatda sotsiomadaniy ideal va qarama-qarshi ijtimoiy evolyutsiya jarayonlarining mavjudligi haqidagi g‘oyalari[3.78.] alohida e’tiborga loyiqdir. Bu g‘oyalar qishloq turmush tarzi tuzilmasida qadriyat komponentini ta’kidlash uchun asos bo‘lib xizmat qiladi[4.96.].

G‘arbiy Yevropada X—XI asrlarda katta iqtisodiy, ijtimoiy va madaniy-ma’rifiy o‘zgarishlar sodir bo‘ldi. Qishloq xo‘jaligining taraqqiyoti birmuncha jadallashdi, mehnat taqsimoti chuqurlashdi. Bozorga chiqariladigan mahsulotlar miqyosi orta boshladi[2.89.]. O‘rta asrlar jamiyati iqtisodiyotining asosi qishloq xo‘jaligidan iborat bo‘lib, aholining aksariyat qismi shu soha bilan shug‘ullangan. G‘arbiy Yevropa uchun o‘rta asrlar natural xo‘jalik hukm surgan va tovar-pul munosabatlari past darajada rivojlangan davrdir. Mazkur jarayonlar xalqlar sivilizatsiyasiga asos soluvchi omil bo‘ldi.

XX asrga kelib, qishloq turmush madaniyati modernizatsiya va globallashuv ta’sirida o‘zgara boshladi. Qishloqlarda elektr energiyasi, suv ta’minoti, aloqa vositalari va boshqa qulayliklar paydo bo‘ldi.

Tadqiqot metodologiyasi

Qishloq aholisining asosiy qadriyatlarini rivojlanishi natijasida dehqonlar kasbining o‘ziga xos xususiyati va qishloqning aholi punkti sifatidagi xususiyatlari shakllanadi. Ushbu o‘ziga xos xususiyatlar tufayli ushbu asosiy qadriyatlar konservatizm va an‘anaviylikka moyildir. Qishloq turmush tarzini oqilona modernizatsiya qilishga urinishlar orqali bu qadriyatlarning yo‘q qilinishi nafaqat jamiyatning aholi punkti tuzilmasining ijtimoiy-madaniy funktsiyalari tizimining deformatsiyasiga, balki kengroq oqibatlarga - umuman qishloq madaniyatining yo‘q qilinishi va tanazzuliga olib keladi.

Tahlil va natijalar

Zamonaviy qishloq turmush madaniyati jamiyat muhitini o‘zgarishiga sabab bo‘lib, milliy qadriyatlarini o‘rganishga turtki bo‘lmoqda. Shu o‘rinda, *birinchidan*, bozor islohotlari natijalarida shahar va qishloq turmish tarzi yaqinlashmoqda. *Ikkinchidan*, ma’naviy va jismoniy sog‘lomlik haqida tibbiy-pedagogik, ma’naviy-ma’rifiy bilim, ko‘nikma va malakalarni egallash kundalik hayotiy ehtiyojga aylanmoqda. Bu esa qishloq aholisi bozor islohotlari tomonidan ochilgan yangi imkoniyatlarni yomon angladilar. Yirik qishloq xo‘jaligi korxonalarining qulashi ortidan ishsizlik qishloq aholisi uchun katta muammoga aylanadi. Shu sababli qishloq madaniyatining ijtimoiy-falsafiy jihatlari qishloq turmush madaniyati tabiat bilan chambarchas bog‘liq holda rivojlanadi. Qishloq aholisi tabiatning qonuniyatlarini yaxshi biladi va unga moslashib yashaydi. Tabiatga hurmat bilan munosabatda bo‘lishi, uni asrash va undan oqilona foydalanish qishloq turmush madaniyatining muhim elementidir.

Qishloq madaniyatida jamoaviylik muhim rol o‘ynaydi. Qishloq aholisi bir-biriga yordam beradi, qo‘shnichilik munosabatlarini qadrlaydi va umumiy ishlar uchun birgalikda harakat qiladi. Bu o‘z navbatida mehnat bilan bog‘liqdir. Chunki, qishloq aholisi erta tongdan kechgacha mehnat qiladi, yerga ishlov beradi, hosil yetishtiradi, chorva mollarini boqadi va hunarmandchilik bilan shug‘ullanadi. Mehnatsevarlik qishloq turmush madaniyatining asosiy xususiyatlaridan biridir. Qishloq turmush madaniyatining yana bir xususiyati an’analarga asoslanishdir. Qishloq aholisi o‘z ota-bobolaridan meros bo‘lib qolgan urf-odatlar, marosimlar va bayramlarni saqlaydi va ularga amal qiladi. An‘anaviylik qishloq turmush madaniyatining belgisidir. Qishloq turmush madaniyati insoniyat tarixining muhim qismi bo‘lib, u o‘zida ko‘p asrlik tajriba, bilim va donishmandlikni mujassam etgan. Bu madaniyatni saqlash va rivojlantirish kelajak avlodlar uchun muhim ahamiyatga ega.

Xulosa

Natijalarini umumlashtirar ekanmiz, qishloq muammolari iqtisodchilar, faylasuflar, sotsiologlar va siyosatshunoslarning tadqiqotlarida muhim o‘rin tutishini ta’kidlash lozim. Biroq, zamonaviy tadqiqotlar qishloq aholisining ijtimoiy-madaniy rivojlanishi va ma‘naviy ehtiyojlarini kamdan-kam hollarda o‘rganilgani ko‘ramiz. Qishloq madaniyatini yaxshilash va qishloq aholisining o‘sib borayotgan ma’naviy ehtiyojlarini qondirish qishloq va shahar hududlari o’rtasidagi ijtimoiy-madaniy tafovutni tezda bartaraf etish zaruratini keltirib chiqaradigan asosiy omillardir. Qishloq joylardagi davlat ijtimoiy siyosati mehnat bozori va ish joyidagi haqiqiy ijtimoiy-iqtisodiy sharoitlarni hisobga olganda va qishloq aholisi qishloqning iqtisodiy va ijtimoiy-siyosiy hayotida faol ishtirok etish uchun kengroq imkoniyatlarga ega bo‘lganda samarali bo‘ladi. Qishloq joylarda ijtimoiy muammolarning ko‘payishi turmush darajasining pasayishi, ishsizlikning oshishi va madaniy standartlarning pasayishiga sabab bo‘ladi. Qishloq madaniyati zamonaviy dunyoda modernizatsiya vektorini qaytarib bo‘lmaydiganligi sababli, qishloq jamiyatini saqlab qolish va rivojlantirish uchun qadriyatlar asosini yuksaltirish kerak.

KIBER TAHDIDLAR SHAROITIDA SHAXS MA'NAVIY XAVFSIZLIGINI TA'MINLASHNING IJTIMOIY-FALSAFIY MEXANIZMLARI

Yoqubov Oblobergan Maxsitali O'g'li
Farg'ona davlat universiteti mustaqil izlanuvchisi

Annotatsiya. *Maqolada raqamli transformatsiya va axborotlashuv jarayonlarining jadallashuvi sharoitida shaxs ma'naviy xavfsizligini ta'minlashning ijtimoiy-falsafiy mexanizmlari tadqiq etilgan. Kiber tahdidlarning shaxs dunyoqarashi, qadriyatlari va ijtimoiy xulq-atvoriga ta'siri tahlil qilingan. Tadqiqot natijalari media savodxonlik, tanqidiy tafakkur, ma'naviy immunitet, huquqiy madaniyat va fuqarolik mas'uliyatini rivojlantirish shaxs ma'naviy xavfsizligini ta'minlashning muhim mexanizmlari ekanligini ko'rsatadi.*

Kalit so'zlar: *kiber tahdid, ma'naviy xavfsizlik, ijtimoiy falsafa, axborot makoni, media savodxonlik, ma'naviy immunitet, raqamli jamiyat, yoshlar.*

СОЦИАЛЬНО-ФИЛОСОФСКИЕ МЕХАНИЗМЫ ОБЕСПЕЧЕНИЯ ДУХОВНОЙ БЕЗОПАСНОСТИ ЛИЧНОСТИ В УСЛОВИЯХ КИБЕРУГРОЗ

Аннотация. *В статье исследуются социально-философские механизмы обеспечения духовной безопасности личности в условиях киберугроз. Проанализировано влияние цифровой среды на мировоззрение, ценностные ориентации и социальное поведение личности. Обосновано, что медиаграмотность, критическое мышление, духовный иммунитет, правовая культура и гражданская ответственность являются важнейшими средствами обеспечения духовной безопасности личности.*

Ключевые слова: *киберугрозы, духовная безопасность, социальная философия, информационное пространство, медиаграмотность, духовный иммунитет, цифровое общество.*

SOCIO-PHILOSOPHICAL MECHANISMS FOR ENSURING THE SPIRITUAL SECURITY OF THE INDIVIDUAL UNDER CONDITIONS OF CYBER THREATS

Abstract. *The article examines socio-philosophical mechanisms for ensuring individual spiritual security under conditions of cyber threats. The influence of the digital environment on personal worldview, values, and social behavior is analyzed. The study reveals that media literacy, critical thinking, spiritual immunity, legal culture, and civic responsibility are among the most important mechanisms for ensuring spiritual security in the digital society.*

Keywords: *cyber threats, spiritual security, social philosophy, information space, media literacy, spiritual immunity, digital society, youth.*

Kirish. XXI asrda axborot-kommunikatsiya texnologiyalarining jadal rivojlanishi jamiyat hayotining barcha sohalariga jadallik bilan kirib bordi. Raqamli texnologiyalar insonning muloqot qilishi, bilim olishi, mehnat faoliyati va ijtimoiy munosabatlarining ajralmas qismiga aylandi. Internet tarmog'i va ijtimoiy media platformalarining keng yoyilishi natijasida axborot almashish tezligi keskin ortdi, global kommunikativ makon vujudga keldi. Lekin, ushbu jarayonlar bilan bir qatorda kiber tahdidlar ham tobora kuchayib bormoqda. Buning natijasida shaxs ma'naviy xavfsizligini ta'minlash masalasi zamonaviy ijtimoiy-falsafiy tadqiqotlarning muhim yo'nalishlaridan biriga aylandi [1].

Ma'naviy xavfsizlik tushunchasi shaxs va jamiyatning axloqiy, madaniy, mafkuraviy hamda qadriyaviy barqarorligini ifodalaydi. U insonning yot g'oyalar, destruktiv mafkuralar va manipulyativ axborotlar ta'siriga qarshi ichki immunitetini shakllantirish bilan bog'liq. Axborotlashgan jamiyatda ma'naviy xavfsizlik nafaqat milliy xavfsizlikning tarkibiy qismi, balki barqaror taraqqiyotning muhim omili sifatida ham namoyon bo'lmoqda [2].

Bugungi kunda kiber makonda dezinformatsiya, kiberbulling, axboriy manipulyatsiya, ekstremistik targ'ibot, virtual qaramlik va boshqa salbiy hodisalarning keng tarqalishi inson ongiga sezilarli ta'sir ko'rsatmoqda. Ayniqsa, yoshlar axborot iste'molchilarining eng faol qatlami sifatida bunday tahdidlar ta'siriga ko'proq duch kelmoqda. Shuning

uchun kiber tahdidlar sharoitida shaxs ma’naviy xavfsizligini ta’minlashning ijtimoiy-falsafiy mexanizmlarini aniqlash va takomillashtirish muhim ilmiy-amaliy ahamiyat kasb etadi [3].

Mazkur tadqiqotning maqsadi kiber tahdidlar sharoitida shaxs ma’naviy xavfsizligini ta’minlashning ijtimoiy-falsafiy mexanizmlarini tahlil qilish va ularning samaradorligini asoslashdan iborat.

Tadqiqot metodologiyasi. Tadqiqotda tizimli yondashuv, qiyosiy tahlil, analiz va sintez, kontent-tahlil hamda falsafiy interpretatsiya metodlaridan foydalanildi. Tadqiqotning nazariy asosini axborot jamiyati konsepsiyasi, ijtimoiylashuv nazariyasi, kommunikativ falsafa va ma’naviy xavfsizlik konsepsiyalari tashkil etdi.

Tizimli yondashuv asosida kiber tahdidlar va ma’naviy xavfsizlik o‘rtasidagi o‘zaro bog‘liqlik o‘rganildi. Qiyosiy tahlil yordamida xorijiy va mahalliy ilmiy manbalardagi nazariy qarashlar solishtirildi. Kontent-tahlil usuli orqali internet makonida tarqalayotgan axborotlarning shaxs ma’naviy dunyosiga ta’siri tahlil qilindi.

Tadqiqot davomida quyidagi kiber tahdidlar asosiy tahlil obyekti sifatida tanlandi:

a) dezinformatsiya va feyk axborotlar;
b) kiberbulling;
c) manipulyativ media texnologiyalar;
d) virtual qaramlik;
e) radikal va ekstremistik kontent;
f)shaxsiy ma’lumotlarning noqonuniy tarqatilishi.

Mazkur tahdidlarning shaxsning qadriyatlar tizimi, dunyoqarashi va ijtimoiy faolligiga ta’siri ijtimoiy-falsafiy nuqtai nazardan baholandi.

Tadqiqot natijalari . Tahlillar natijasida kiber tahdidlarning shaxs ma’naviy xavfsizligiga ko‘rsatadigan asosiy ta’sir yo‘nalishlari aniqlandi.

Birinchidan, dezinformatsiya va manipulyativ axborotlar shaxsning voqelikni idrok etish jarayoniga salbiy ta’sir ko‘rsatadi. Axborot oqimlarining haddan tashqari ko‘pligi natijasida insonning tanqidiy tahlil qilish imkoniyatlari cheklanadi. Bu esa noto‘g‘ri qarashlar va stereotiplarning shakllanishiga sabab bo‘lishi mumkin [4].

Ikkinchidan, kiberbulling shaxsning ruhiy holati va ijtimoiy munosabatlariga salbiy ta’sir ko‘rsatadi. Virtual makondagi zo‘ravonlik holatlari insonda xavotir, tushkunlik va ijtimoiy yakkalanish hissini kuchaytiradi. Natijada uning ma’naviy barqarorligi zaiflashadi [5].

Uchinchidan, virtual qaramlik insonning real ijtimoiy munosabatlardan uzoqlashishiga olib keladi. Ijtimoiy tarmoqlarga haddan tashqari bog‘lanish shaxsning oila, ta’lim va mehnat faoliyatidagi ishtirokini pasaytiradi. Bu esa ijtimoiylashuv jarayonining sifatiga salbiy ta’sir ko‘rsatadi [6].

To‘rtinchidan, radikal va ekstremistik mazmundagi axborotlarning internet orqali tarqalishi ayrim yoshlarning mafkuraviy qarashlariga salbiy ta’sir etmoqda. Bunday holatlarda shaxsning tanqidiy tafakkuri yetarli darajada rivojlanmagan bo‘lsa, u destruktiv g‘oyalar ta’siriga tushib qolishi mumkin [7].

Tadqiqot natijalari shuni ko‘rsatdiki, kiber tahdidlar sharoitida shaxs ma’naviy xavfsizligini ta’minlashning asosiy ijtimoiy-falsafiy mexanizmlari quyidagilardan iborat:

1.Media savodxonlikni rivojlantirish.
2.Tanqidiy tafakkurni shakllantirish.
3.Ma’naviy immunitetni kuchaytirish.
4.Huquqiy madaniyatni oshirish.
5.Oila, mahalla va ta’lim institutlari hamkorligini mustahkamlash.
6.Fuqarolik mas’uliyatini rivojlantirish.

Muhokama. Axborotlashgan jamiyat sharoitida ma’naviy xavfsizlik masalasi faqat axloqiy yoki pedagogik muammo sifatida emas, balki ijtimoiy-falsafiy hodisa sifatida ham namoyon bo‘lmoqda. Chunki raqamli kommunikatsiyalar kengayishi natijasida insonning dunyoqarashi, qadriyatlari va ijtimoiy identifikatsiyasiga ta’sir etuvchi omillar soni keskin ortdi. Zamonaviy inson tobora ko‘proq virtual makonda yashamoqda, muloqot qilmoqda va ijtimoiy tajriba orttirmoqda. Mazkur holat ma’naviy xavfsizlikni ta’minlashning yangi mexanizmlarini ishlab chiqishni talab etadi.

Ijtimoiy-falsafiy nuqtai nazardan qaraganda, ma’naviy xavfsizlik shaxsning o‘zligini anglash, qadriyatlarni tanlash va hayotiy pozitsiyasini shakllantirish bilan uzviy bog‘liqdir. Agar shaxs axborotni tanqidiy baholash qobiliyatiga ega bo‘lmasa, u turli manipulyativ ta’sirlar va axborot xurujlari qurboniga aylanishi mumkin. Shu sababli tanqidiy tafakkurni rivojlantirish ma’naviy xavfsizlikni ta’minlashning muhim sharti hisoblanadi [8].

Media savodxonlik zamonaviy axborot makonida insonning himoya vositalaridan biri sifatida namoyon bo‘ladi. Media savodxonlik insonning axborotni izlash, tahlil qilish, baholash va undan oqilona foydalanish ko‘nikmalarini shakllantiradi. Tadqiqotlar shuni ko‘rsatadiki, media savodxonlik darajasi yuqori bo‘lgan shaxslar feyk axborotlar va manipulyativ kontent ta’siriga kamroq uchraydi [9].

Ma’naviy immunitet tushunchasi ham kiber tahdidlarga qarshi kurashishda muhim ahamiyat kasb etadi. Ma’naviy immunitet deganda shaxsning milliy va umuminsoniy qadriyatlarga tayangan holda yot g‘oyalarga qarshi tura olish qobiliyati tushuniladi. Ushbu immunitet oila, ta’lim muassasalari va ijtimoiy institutlar faoliyati natijasida shakllanadi [10].

Tahlillar shuni ko‘rsatadiki, ma’naviy xavfsizlikni ta’minlash faqat biror ijtimoiy institut vazifasi emas. Bu jarayonda davlat, fuqarolik jamiyati institutlari, ommaviy axborot vositalari, oila va ta’lim tizimi o‘zaro hamkorlikda faoliyat yuritishi lozim. Ayniqsa, yoshlarning axborot madaniyatini rivojlantirish va ularni mas’uliyatli internet foydalanuvchilari sifatida tarbiyalash muhim vazifalardan biri hisoblanadi.

Bundan tashqari, huquqiy madaniyatning rivojlanganligi ham shaxs ma’naviy xavfsizligining muhim omilidir. Raqamli jamiyatda inson internet makonidagi huquq va majburiyatlarini anglagan holda harakat qilishi kerak. Bu esa kiberjinoyatlar, axborot firibgarligi va shaxsiy ma’lumotlarning noqonuniy tarqatilishi kabi salbiy holatlarning oldini olishga xizmat qiladi [11].

Demak, ma’naviy xavfsizlikni ta’minlashning ijtimoiy-falsafiy mexanizmlari texnologik vositalar bilan bir qatorda ma’naviy, madaniy va intellektual omillarning uyg‘unligiga asoslanadi. Ushbu yondashuv shaxsning raqamli makondagi barqarorligini ta’minlashga xizmat qiladi.

Xulosa. Tadqiqot natijalari kiber tahdidlar zamonaviy jamiyatda shaxs ma’naviy xavfsizligiga jiddiy ta’sir ko‘rsatayotganligini ko‘rsatdi. Dezinformatsiya, kiberbulling, manipulyativ axborotlar, virtual qaramlik va ekstremistik kontent insonning dunyoqarashi, qadriyatlari hamda ijtimoiy xulq-atvoriga salbiy ta’sir ko‘rsatmoqda.

Aniqlanishicha, kiber tahdidlar sharoitida shaxs ma’naviy xavfsizligini ta’minlashning asosiy ijtimoiy-falsafiy mexanizmlari media savodxonlik, tanqidiy tafakkur, ma’naviy immunitet, huquqiy madaniyat va fuqarolik mas’uliyatini rivojlantirishdan iboratdir. Mazkur mexanizmlarning samarali faoliyati shaxsning axborot xurujlariga nisbatan barqarorligini oshiradi va uning ma’naviy kamolotiga xizmat qiladi.

Shuningdek, ta’lim muassasalari, oila, fuqarolik jamiyati institutlari va davlat organlari o‘rtasidagi hamkorlikni kuchaytirish kiber tahdidlarning salbiy oqibatlarini kamaytirishda muhim omil hisoblanadi. Kelgusida yoshlar ma’naviy xavfsizligini ta’minlashning innovatsion usullarini ishlab chiqish va ularning samaradorligini empirik tadqiqotlar asosida baholash muhim ilmiy vazifalardan biri bo‘lib qoladi.

INSON BORLIG'INING NOKLASSIK-SUBYEKTIV TALQINI: KYERKEGORDAN SARTRGACHA

Yuldashev Tazabay Niyetbay o'g'li
Innovatsion texnologiyalar universiteti «Tarix va ijtimoiy fanlar»
kafedrasi assistenti, Nukus, O'zbekiston
ORCID: 0009-0007-5323-1899
e-mail: tazabayyuldashev@gmail.com

Annotatsiya. *Maqolada inson borlig'ining noklassik-subyektiv talqini — Kyerkegordan Sartrgacha bo'lgan an'ana — yagona trayektoriya sifatida tizimli tarzda qayta tiklanadi. Mavzuning dolzarbligi shundaki, klassik falsafa insonni asosan obyekt va tabiiy-ijtimoiy munosabatlar natijasi sifatida talqin qilgan bo'lsa, XIX–XX asrlarda insonni erkin subyekt, ekzistensiya sifatida tushunadigan yo'nalish shakllandi. Qiyosiy-tarixiy va konseptual tahlil usullari yordamida klassik metafizikadan noklassik falsafaga o'tish, Kyerkegorning individual ekzistensiya g'oyasi, Nitsshening o'zini yaratuvchi inson talqini, hayot falsafasi va Dilteyning «tushunish» yondashuvi, Husserlning transsendental subyekti, Xaydeggerning Dasein konsepsiyasi, Sartr va Yaspersning radikal erkinlik talqini, Buberning dialogik subyekti hamda Merlo-Pontining tanalashgan subyekti tahlil qilinadi. Bu yo'nalish insonni subyekt, erkinlik va ekzistensiya sifatida kashf etgani uchun katta yutuq, biroq mutlaqlashtirilsa bir tomonlama bo'lib qolishi asoslanadi. Ilmiy yangilik: subyektiv chiziq yagona trayektoriya sifatida qayta tiklanib, uning inson borlig'ining obyekt va subyekt birligi sifatidagi sintezdagi o'rni — bir qutb sifatida — aniqlanadi.*

Kalit so'zlar: *inson borlig'i, subyekt, ekzistensiya, erkinlik, noklassik falsafa, ekzistensializm, fenomenologiya, Kyerkegor, Nitsshe, Xaydegger, Sartr, Buber, Merlo-Ponti.*

НЕКЛАССИЧЕСКИ-СУБЪЕКТИВНАЯ ИНТЕРПРЕТАЦИЯ ЧЕЛОВЕЧЕСКОГО БЫТИЯ: ОТ КЬЕРКЕГОРА ДО САРТРА

Аннотация. *В статье как единая траектория систематически реконструируется неклассически-субъективная интерпретация человеческого бытия — традиция от Кьеркегора до Сартра. Актуальность темы в том, что если классическая философия трактовала человека как объект и результат, то в XIX–XX веках сформировалось направление, понимающее человека как свободного субъекта. Рассматриваются переход от классической метафизики к неклассической философии, идея индивидуальной экзистенции у Кьеркегора, самосозидающий человек у Ницше, подход «понимания» у Дильтея, трансцендентальный субъект Гуссерля, концепция Dasein Хайдеггера, радикальная свобода у Сартра и Ясперса, диалогический субъект Бубера и телесный субъект Мерло-Понти. Обосновывается, что это направление — крупное достижение, однако при абсолютизации оказывается односторонним. Научная новизна: субъективная линия реконструирована как единая траектория, и определено её место — как одного полюса — в синтезе человеческого бытия как единства объекта и субъекта.*

Ключевые слова: *человеческое бытие, субъект, экзистенция, свобода, неклассическая философия, экзистенциализм, феноменология, Кьеркегор, Ницше, Хайдеггер, Сартр, Бубер, Мерло-Понти.*

THE NON-CLASSICAL-SUBJECTIVE INTERPRETATION OF HUMAN EXISTENCE: FROM KIERKEGAARD TO SARTRE

Annotation. *The article offers a systematic reconstruction, as a single trajectory, of the non-classical and subjective interpretation of human existence — the tradition running from Kierkegaard to Sartre. The relevance of the topic lies in the fact that, whereas classical philosophy interpreted the human chiefly as an object and a result, the nineteenth and twentieth centuries gave rise to a current that understands the human as a free subject, as existence. Using comparative-historical and conceptual analysis, the article examines the transition from classical metaphysics to non-classical philosophy, Kierkegaard's idea of individual existence, Nietzsche's self-creating human, the approach of "understanding" in the philosophy of life and in Dilthey, Husserl's transcendental subject, Heidegger's conception of Dasein, the radical freedom of Sartre and Jaspers, Buber's dialogical subject, and Merleau-Ponty's embodied subject. It argues that this current is a major achievement, since it recovered the human as subject, freedom, and existence,*

but that, if absolutised, it becomes one-sided. The scientific novelty consists in reconstructing the subjective line as a single trajectory and clarifying its place — as one pole — within the synthesis of human existence as a unity of object and subject.

Keywords: *human existence, subject, existence, freedom, non-classical philosophy, existentialism, phenomenology, Kierkegaard, Nietzsche, Heidegger, Sartre, Buber, Merleau-Ponty.*

Kirish

Inson nima? — bu savol falsafaning eng qadimiy va markaziy muammolaridan biri bo'lib, mohiyatan ontologik xususiyatga ega: u insonning borliq tartibidagi o'rni va mavjudlik usuli haqidagi savoldir. Yangi O'zbekistonda inson qadri va inson manfaatlarini barcha islohotlar markaziga qo'yish davlat siyosatining ustuvor yo'nalishiga aylangani [1] insonga oid falsafiy tadqiqotlarning ahamiyatini yangi bosqichga ko'tardi. Falsafa tarixida insonni talqin qilishning ikki yirik yo'nalishi shakllangan: klassik-obyektiv yo'nalish insonni tabiat va jamiyat tomonidan belgilanadigan mavjudot, ya'ni natija va obyekt sifatida tushunadi; noklassik-subyektiv yo'nalish esa insonni o'z borlig'ini erkin tarzda belgilovchi subyekt, ekzistensiya sifatida talqin qiladi.

Mavzuning o'rganilganlik darajasiga kelsak, ekzistensializm, fenomenologiya va hayot falsafasi an'analari jahon falsafiy adabiyotida atroflicha tadqiq etilgan [2; 3]; o'zbek falsafasida esa ular asosan umumiy darslik va qo'llanmalarda yoritilgan. Biroq bu yo'nalishni — Kyerkegordan Sartrgacha bo'lgan yagona trayektoriya sifatida, obyekt va subyekt qarama-qarshiligi nuqtai nazaridan — tizimli qayta tiklash hamda uning inson borlig'ining yaxlit tushunchasidagi o'rnini aniqlash kam ishlangan masala bo'lib qolmoqda.

Ushbu maqolaning maqsadi — noklassik-subyektiv talqinni yagona an'ana sifatida qayta tiklash va uning inson borlig'ining obyekt va subyekt birligi sifatidagi tushunchasidagi o'rnini belgilashdir. Tadqiqot metodologiyasi uchta tamoyilga tayanadi: qiyosiy-tarixiy usul (g'oyaning mutafakkirlardan mutafakkirga rivojini kuzatish), konseptual tahlil (subyekt, ekzistensiya, erkinlik kabi asosiy tushunchalarni oydinlashtirish) va dialektik tamoyil (obyekt va subyektni o'zaro bog'liq qutblar sifatida ko'rish).

1. Klassik metafizikadan noklassik falsafaga o'tish

Antik davrdan Gegelgacha bo'lgan klassik metafizika borliqni va insonni umumiy mohiyatlar, substansiya va aql tizimi orqali anglashga intildi. Bu an'anada inson ko'pincha umumiylikning bir ko'rinishi, aqliy bilim obyekti sifatida qaraldi: yakka shaxs umumiy qonuniyat yoki jahon ruhining bir lahzasi edi. Falsafaning vazifasi insonni o'zgarmas mohiyati orqali tushuntirishdan iborat bo'ldi.

XIX asr o'rtalarida tub burilish yuz berdi. Tizim va substansiyaning ustuvorligiga qarshi o'laroq, bir qator mutafakkirlar falsafaning markaziga real mavjud bo'lgan, yashayotgan, erkin yakka subyektni qo'ydilar. Kyerkegorning Gegel tizimiga qarshi chiqishi, Nitsshening an'anaviy qadriyatlarni qayta baholashi, hayot falsafasining sof ratsionalizm va naturalizmga e'tirozi — bularning barchasi mohiyatdan ekzistensiyaga, obyektdan subyektga qaratilgan «noklassik» burilishni belgilab berdi. Aynan shu burilish inson borlig'ining subyektiv talqinini vujudga keltirdi.

2. Kyerkegor: ekzistensiya, individuallik va erkinlik

Subyektiv talqinning boshlanishi daniyalik faylasuf Syoren Kyerkegor (1813–1855) ijodi bilan bog'liq. Kyerkegor Gegelning mavhum, umumiy tizimiga qarshi chiqib, falsafaning markaziga yakka, real mavjud bo'lgan individni qo'ydi. Uning uchun haqiqat — sof obyektiv tizim emas, balki subyektiv o'zlashtirilgan haqiqatdir; ekzistensiya esa umumiy tushuncha ostiga to'liq sig'maydigan, har bir insonning betakror mavjudligidir.

«O'limga olib boruvchi xastalik» asarida Kyerkegor «men» (o'zlik)ni o'z-o'ziga munosabatda bo'lgan munosabat sifatida ta'riflaydi: inson chekli va cheksiz, zaruriyat va erkinlikning sintezi bo'lib, o'zini o'zi tanlash va shakllantirish vazifasi oldida turadi; bu vazifadan qochish esa umidsizlik (o'limga olib boruvchi xastalik) sifatida namoyon bo'ladi [4]. «Qo'rquv tushunchasi» asarida u qo'rquvni (vahimani) insonning erkinligi bilan bog'laydi: qo'rquv — erkinlikning cheksiz imkoniyati oldidagi «bosh aylanishi»dir [5]. Inson estetik, etik va diniy bosqichlar orasida o'zini tanlash orqali o'z mohiyatini yaratadi. Shu tariqa Kyerkegor insonni umumiylikning namunasi emas, balki yakka, erkin va mas'ul ekzistensiya sifatida ko'rsatdi.

3. Nitsshe: hayotni tasdiqlash va o'zini yaratuvchi inson

Fridrix Nitsshe (1844–1900) mohiyatdan voz kechish burilishini yanada radikallashtirdi. «Xudoning o'limi» va barcha qadriyatlarni qayta baholash g'oyasi bilan oldindan berilgan inson mohiyati hamda tayyor axloqiy tartibning asosi yo'qoladi. Inson endi o'zgarmas tabiat emas, balki vazifaga aylanadi: «olmiy inson» (Übermensch) — quvvatga (irodaga) tayanib o'z qadriyatlarini yaratuvchi va berilgan «men» dan ustun chiquvchi insondir [6].

«Quvnoq ilm» asarida Nitsshe hayotni va o'zini shakllantiruvchi insonni tasdiqlaydi: «o'zing kim bo'lsang, shu bo'l» da'vati, amor fati (taqdirni sevish) va mavjudlikni butunligicha qabul qilish g'oyasi insonni o'zini yaratuvchi, qadriyat o'rnatuvchi mavjudot sifatida ko'rsatadi [7]. Shu tariqa Nitsshe, Kyerkegor bilan birga, subyektiv an'ananing buyuk salafidir: u insonni o'zgarmas mohiyat orqali emas, balki o'zini yaratish va erkinlik orqali tushunadi.

4. Hayot falsafasi va Diltey: hayot, tushunish va tarixiy inson

Subyektiv yo'nalishning yana bir ildizi — hayot falsafasi (Lebensphilosophie) va Vilgelm Diltey (1833–1911) ta'limotidir. Diltey uchun barcha bilimning asosi — yashalgan hayot (Erlebnis); inson esa avvalo tarixiy, ma'no yaratuvchi mavjudotdir. U tabiat fanlari (Naturwissenschaften) bilan ruh fanlari (Geisteswissenschaften) o'rtasidagi tub uslubiy farqni asoslab berdi: tabiat sabablar orqali tushuntiriladi (Erklären), inson dunyosi esa ma'no orqali ichdan tushuniladi (Verstehen) [8].

Bu farq insonni obyekt emas, subyekt sifatida o'rganishning gumanitar asosini yaratdi. Diltey insonning tarixiy dunyosi — madaniyat, til, institutlar — inson ruhining ifodalari (Ausdruck) ekanini va bu dunyo faqat tushunish orqali ochilishini ko'rsatdi [9]. Inson o'zini tarix va madaniyat orqali anglaydigan, ma'no maydonida yashaydigan subyektdir; uni tabiiy jism kabi tashqaridan o'lchab bo'lmaydi.

5. Fenomenologiya: Husserl va transsendental subyektivlik

Subyektivlik g'oyasi Edmund Husserl (1859–1938) fenomenologiyasida yangi bosqichga ko'tarildi. Husserlning «predmetlarning o'ziga qaytaylik» chaqirig'i ongni va uning intensionalligini — ya'ni ongning har doim biror narsaga qaratilganligini — tahlil qilishni talab qildi [10]. Har qanday ob'ekt ong uchun va ong tomonidan ma'noga ega bo'lib namoyon bo'ladi.

Transsendental reduksiya orqali Husserl barcha ma'no va voqelikning asosi bo'lgan transsendental subyektga (sof ong)ga keladi: dunyo — subyekt uchun konstitutsiya qilingan, ma'no berilgan dunyodir [11]. Shu tariqa inson olamdagi oddiy narsa emas, balki olamga ma'no beruvchi, uni o'z ongida tashkil etuvchi subyektivlik sifatida tushuniladi. Husserl fenomenologiyasi keyingi ekzistensial va germenevtik falsafa uchun uslubiy zamin yaratdi.

6. Xaydegger: Dasein, ekzistensiya va vaqtiylik

Martin Xaydegger (1889–1976) «Borliq va vaqt» asarida borliq haqidagi savolni inson — Dasein («mavjud-bo'lish») — tahlili orqali qo'yadi. Dasein — o'z borlig'i o'zi uchun savol bo'lgan yagona mavjudot bo'lib, uning mohiyati tayyor narsa emas, balki uning mavjudligida (ekzistensiyasida) yotadi [12]. Xaydegger insonni narsalar kabi «nima» (mohiyat) emas, «qanday mavjud» (usul) jihatidan tahlil qiladi.

Dasein dunyo-ichidagi-borliq (In-der-Welt-sein) sifatida ochiladi va uning asosiy tuzilmalari — «tashlanganlik» (Geworfenheit, ya'ni o'zi tanlamagan vaziyatga tashlangani), «loyiha» (Entwurf, ya'ni imkoniyatlariga ko'ra o'zini belgilashi), tushib qolish va g'amxo'rlik (Sorge). Inson o'limga qaratilgan borliq (Sein-zum-Tode) sifatida, autentik va noautentik mavjudlik orasida yashaydi. Shu bilan Xaydegger insonni subyekt-ekzistensiya sifatida eng chuqur talqin qildi; ayni paytda «tashlanganlik» tushunchasi insonning o'zi yaratmagan shart-sharoitlar ichida ekanini, ya'ni uning shartlanganligini ham ko'rsatadi.

7. Sartr va Yaspers: radikal erkinlik va ekzistensiya

Subyektiv yo'nalish o'zining eng keskin ifodasini Jan-Pol Sartr (1905–1980) ekzistensializmida topdi. Sartrning mashhur tezisi — «ekzistensiya mohiyatdan oldin keladi»: inson avval mavjud bo'ladi, so'ng o'z xatti-harakatlari orqali o'zini yaratadi; oldindan belgilangan o'zgarmas «inson tabiati» mavjud emas. Inson — «o'zi-uchun» (pour-soi) borliq bo'lib, «o'zida» (en-soi) narsalardan farqli ravishda erkinlikning o'zidir; u o'zini aldash (mauvaise foi) orqali bu erkinlikdan qochishi mumkin [13]. Inson «erkinlikka mahkum etilgan» va shu bois o'z tanlovi va butun insoniyat uchun to'liq mas'uldir [14].

Karl Yaspers (1883–1969) ekzistensiyani «chegaraviy vaziyatlar» (Grenzsituationen) — o'lim, azob, kurash, aybdorlik — orqali ochib beradi: aynan bu vaziyatlarda inson o'zining oddiy mavjudligidan o'tib, haqiqiy Existenz sifatida o'zini namoyon qiladi va transsendentsiyaga yuzlanadi [15]. Yaspersda ekzistensiya, shuningdek, boshqa erkin subyekt bilan muloqotda (Kommunikation) ro'yobga chiqadi. Sartr va Yaspers bilan insonni sof o'zini-belgilovchi, erkin va mas'ul subyekt sifatida talqin qilish o'zining cho'qqisiga yetdi.

8. Buber: dialogik subyekt va boshqa shaxs

Martin Buber (1878–1965) «Men va Sen» asarida insonning dunyoga ikki asosiy munosabatini farqlaydi: «Men–U» (Ich–Es), bunda boshqa narsa foydalanish va bilish obyekti sifatida olinadi; va «Men–Sen» (Ich–Du), bunda boshqa shaxs haqiqiy ishtirok va butunlik sifatida uchratiladi [16]. Buberga ko'ra inson haqiqiy subyektga — chinakam «Men» ga — faqat «Men–Sen» munosabatida aylanadi.

Shu tariqa Buber subyektiv an'anaga muhim nuans qo'shadi: subyektivlik o'ziga yopiq yolg'izlik emas, balki munosabatda, boshqa subyekt bilan muloqotda shakllanadi. Bu dialogik talqin subyektni dunyodan ajralgan, yakkalangan holatdan chiqarib, boshqani tan olishga — ya'ni subyekt va obyektlar (hamda boshqa shaxslar) dunyosining sinteziga — yo'l ochadi.

9. Merlo-Ponti: tanalashgan subyekt va obyekt–subyekt chegarasi

Moris Merlo-Ponti (1908–1961) fenomenologiyani yangi yo'nalishga burdi. «Idrok fenomenologiyasi» asarida u insonni na sof ong (subyekt), na shunchaki jism (obyekt) emas, balki yashalgan tana (le corps propre) sifatida talqin

qiladi: inson — dunyoga tana orqali ulangan, vaziyatga joylashgan subyektdir [17]. Idrok va ma'no inson tanasining dunyo bilan aloqasida tug'iladi.

Merlo-Pontining bu yondashuvi sof subyektivlikdan tashqariga chiqadi: u insonni ayni paytda subyekt (ma'no beruvchi) va obyekt (tanalashgan, vaziyatga bog'liq) sifatida ko'rsatadi. Shu tariqa fenomenologik an'ananing o'zida obyekt va subyekt birligiga, ya'ni keyingi bo'limda asoslanadigan sintezga ishora paydo bo'ladi.

10. Subyektiv chiziqning ahamiyati, cheklovi va sintez

Noklassik-subyektiv yo'nalish falsafiy antropologiya uchun beqiyos yutuqdir: u insonni reduksionistik obyektivizmga qarshi o'laroq, subyekt, erkinlik va ekzistensiya sifatida qayta kashf etdi va insonni narsaga aylantiruvchi yondashuvlarga jiddiy muqobil yaratdi. Biroq bu talqin mutlaqlashtirilsa, bir tomonlama bo'lib qoladi. Inson faqat o'zini erkin belgilovchi subyekt emas — u ayni paytda tabiat, jamiyat va tana tomonidan shartlangan mavjudot, ya'ni obyektdir. Bu obyektiv qutbning yetuk ifodasi insonning mohiyatini ijtimoiy munosabatlar majmui bilan bog'lab tushunishda namoyon bo'ladi [18]. Qizig'i shundaki, subyektiv an'ananing o'zida ham — Xaydeggerdagi «tashlanganlik», Sartrdagi «faktiklik» (facticité) va Merlo-Pontidagi tanalashganlikda — insonning shartlanganligiga ishora mavjud.

Shu sababli inson borlig'ining to'liq ontologiyasi subyektiv chiziqni klassik-obyektiv chiziq bilan birlashtirib, insonni obyekt va subyekt birligi — shartlangan, lekin o'zini erkin belgilovchi mavjudot — sifatida tushunishni talab qiladi. Bunday sintezning klassik namunasi Gegelning haqiqatni «substansiya sifatidagina emas, ayni darajada subyekt sifatida ham» anglash zarurligi haqidagi tezisidir [19]: berilgan, obyektiv tartib va erkin o'zini-belgilash bir jarayonning ikki lahzasidir. O'zbek inson falsafasi an'anasi ham Sharq va G'arb merosini uyg'unlashtirib, insonni shu yaxlitlikda tushunishga intiladi [20]. Subyektiv an'ana esa bu sintezning ajralmas bir qutbini tashkil etadi: usiz inson erkinligi va o'zini-belgilashini tushuntirib bo'lmaydi.

Xulosa

Kyerkegordan Sartrgacha bo'lgan noklassik-subyektiv an'ana — Kyerkegor, Nitsshe, Diltey, Husserl, Xaydegger, Sartr, Yaspers, Buber va Merlo-Ponti orqali — insonni subyekt, erkinlik va ekzistensiya sifatida asoslab berdi va inson falsafasi uchun ajralmas ahamiyatga ega. Biroq bu an'ana insonning faqat bir qutbini — subyektiv qutbini — ifodalaydi; insonning to'liq ontologiyasi uni klassik-obyektiv chiziq bilan sintez qilib, insonni obyekt va subyekt birligi sifatida tushunishni taqozo etadi.

Tadqiqotning ilmiy yangiligi shundaki, unda subyektiv yo'nalish yagona trayektoriya sifatida qayta tiklanib, uning inson borlig'ining obyekt va subyekt birligi sifatidagi sintezdagi o'rni — bir qutb sifatida — aniqlandi; shu bilan birga subyektiv an'ananing ichidagi (tashlanganlik, faktiklik, dialogiklik, tanalashganlik) shartlanganlik va munosabat belgilari sintezning ichki asosi sifatida ko'rsatildi. Tadqiqotning amaliy ahamiyati insonni erkin subyekt sifatida hurmat qiluvchi gumanistik yondashuvlar uchun nazariy asos berishida namoyon bo'ladi.

YOSHLAR IJTIMOIYLASHUVI JARAYONIDA KIBER TAHDIDLAR VA ULARNING IJTIMOIY OQIBATLARI

Yusupov Baxtiyor Bahodir o‘g‘li
Farg‘ona davlat universiteti mustaqil tadqiqotchisi

Annotatsiya. *Mazkur maqolada yoshlar ijtimoiylashuvi jarayoniga ta’sir ko‘rsatuvchi kiber tahdidlarning asosiy turlari va ularning ijtimoiy oqibatlari tahlil qilinadi. Raqamli texnologiyalarning jadal rivojlanishi natijasida yoshlar hayotida internet va ijtimoiy tarmoqlarning o‘rni ortib bormoqda. Shu bilan birga, kiberbulling, dezinformatsiya, internetga qaramlik, shaxsiy ma’lumotlarning o‘g‘irlanishi va radikal g‘oyalarning tarqalishi kabi tahdidlar ham kuchaymoqda. Tadqiqot natijalari kiber tahdidlarning yoshlar psixologik holati, ijtimoiy munosabatlari va qadriyatlar tizimiga sezilarli ta’sir ko‘rsatishini ko‘rsatadi.*

Kalit so‘zlar: *yoshlar, ijtimoiylashuv, kiber tahdid, internet xavfsizligi, kiberbulling, dezinformatsiya, ijtimoiy tarmoqlar.*

КИБЕРУГРОЗЫ В ПРОЦЕССЕ СОЦИАЛИЗАЦИИ МОЛОДЁЖИ И ИХ СОЦИАЛЬНЫЕ ПОСЛЕДСТВИЯ

Аннотация. *В данной статье анализируются основные виды киберугроз, оказывающих влияние на процесс социализации молодёжи, а также их социальные последствия. В результате стремительного развития цифровых технологий возрастает роль Интернета и социальных сетей в жизни молодого поколения. Вместе с тем усиливаются такие угрозы, как кибербуллинг, дезинформация, интернет-зависимость, кража персональных данных и распространение радикальных идей. Результаты исследования показывают, что киберугрозы оказывают существенное влияние на психологическое состояние молодёжи, её социальные отношения и систему ценностей.*

Ключевые слова: *молодёжь, социализация, киберугроза, интернет-безопасность, кибербуллинг, дезинформация, социальные сети.*

CYBER THREATS IN THE PROCESS OF YOUTH SOCIALIZATION AND THEIR SOCIAL CONSEQUENCES

Abstract. *This article analyzes the main types of cyber threats affecting the process of youth socialization and their social consequences. As a result of the rapid development of digital technologies, the role of the Internet and social media in the lives of young people is steadily increasing. At the same time, threats such as cyberbullying, disinformation, internet addiction, personal data theft, and the spread of radical ideas are becoming more widespread. The findings of the study indicate that cyber threats have a significant impact on the psychological well-being of young people, their social relationships, and their system of values.*

Keywords: *youth, socialization, cyber threat, internet security, cyberbullying, disinformation, social media.*

Kirish. Globallashuv va raqamlashtirish jarayonlari zamonaviy jamiyat taraqqiyotining muhim omillaridan biri hisoblanadi. Bugungi kunda internet va axborot-kommunikatsiya texnologiyalari yoshlarning ta’lim olishi, muloqot qilishi va dunyoqarashini shakllantirishida muhim rol o‘ynamoqda. Biroq virtual makonning kengayishi bilan bir qatorda kiber tahdidlar ham kuchayib bormoqda. Xususan, yoshlar internet foydalanuvchilarining eng faol qatlami bo‘lganligi sababli turli xavf-xatarlarga ko‘proq duch kelmoqda [1].

Ijtimoiylashuv shaxsning jamiyat me’yorlari, qadriyatlari va ijtimoiy tajribalarini o‘zlashtirish jarayonidir [2]. Mazkur jarayonda internet va ijtimoiy tarmoqlar muhim agent sifatida namoyon bo‘lmoqda. Shu bois kiber tahdidlarning yoshlar ijtimoiylashuviga ta’sirini ilmiy jihatdan o‘rganish dolzarb masalalardan biri hisoblanadi.

Tadqiqotning maqsadi yoshlar ijtimoiylashuvi jarayonida uchraydigan asosiy kiber tahdidlarni aniqlash va ularning ijtimoiy oqibatlarini tahlil qilishdan iborat.

Tadqiqot metodologiyasi. Mazkur tadqiqotda ilmiy adabiyotlarni tahlil qilish, qiyosiy tahlil, induksiya va deduksiya metodlaridan foydalanildi. Shuningdek, xalqaro tashkilotlar, jumladan, UNICEF, UNESCO hamda ilmiy jurnallarda e’lon qilingan tadqiqot natijalari o‘rganildi [3].

Tadqiqotning nazariy asosini ijtimoiylashuv nazariyasi, media ta’siri konsepsiyasi va axborot xavfsizligi bo‘yicha zamonaviy ilmiy qarashlar tashkil etadi.

Tadqiqot natijalari. Tahlillar shuni ko‘rsatdiki, yoshlar ijtimoiylashuviga salbiy ta’sir ko‘rsatuvchi kiber tahdidlarni bir necha guruhlarga ajratish mumkin.

Kiberbulling. Kiberbulling internet va ijtimoiy tarmoqlar orqali shaxsni muntazam tahqirlash, qo‘rqitish yoki kamsitishni anglatadi. Tadqiqotlarga ko‘ra, kiberbullingga duch kelgan yoshlar orasida depressiya, tashvish va ijtimoiy yakkalanish holatlari ko‘proq uchraydi [4].

Dezinformatsiya va yolg‘on axborotlar. Internetda tarqatilayotgan tasdiqlanmagan yoki yolg‘on ma’lumotlar yoshlarning dunyoqarashi va qaror qabul qilish jarayoniga salbiy ta’sir ko‘rsatadi. Ayniqsa, tanqidiy tafakkur yetarlicha shakllanmagan yoshlar bunday axborotlarning ta’siriga tez tushib qoladilar [5].

Internetga qaramlik. Virtual makonda ortiqcha vaqt o‘tkazish yoshlarning real ijtimoiy aloqalariga salbiy ta’sir qiladi. Internetga qaramlik o‘quv faoliyatining pasayishi, uyqu rejimining buzilishi va ijtimoiy faollikning kamayishiga olib kelishi mumkin [6].

Shaxsiy ma’lumotlarning o‘g‘irlanishi. Yoshlarning axborot xavfsizligi bo‘yicha bilimlari yetarli bo‘lmagan hollarda ular fishing, firibgarlik va ma’lumotlar o‘g‘irlanishi kabi kiberjinoyatlarga duch kelishlari mumkin [7].

Ekstremistik va radikal g‘oyalar targ‘iboti. Internet ayrim hollarda yoshlarni radikal qarashlar ta’siriga jalb qilish vositasiga ham aylanmoqda. Virtual makonda tarqatilayotgan ekstremistik kontent yoshlarning ijtimoiy va siyosiy qarashlariga salbiy ta’sir ko‘rsatishi mumkin [8].

Muhokama. Tadqiqot natijalari shuni ko‘rsatadiki, kiber tahdidlar yoshlarning ijtimoiylashuv jarayoniga ko‘p qirrali ta’sir ko‘rsatadi. Bir tomondan, internet yoshlar uchun bilim olish va kommunikatsiya imkoniyatlarini kengaytirsa, ikkinchi tomondan, noto‘g‘ri foydalanish turli ijtimoiy muammolarni keltirib chiqaradi.

Ayniqsa, kiberbulling va dezinformatsiya yoshlarning ruhiy salomatligi hamda ijtimoiy munosabatlariga jiddiy zarar yetkazadi. Shu sababli ta’lim muassasalari, oila va davlat institutlari tomonidan media savodxonlikni rivojlantirishga qaratilgan tizimli choralarni amalga oshirish zarur. R. Paul va L. Elder ta’kidlaganidek, tanqidiy tafakkur ko‘nikmalari axborotni tahlil qilish va manipulyativ ta’sirlardan himoyalanishning muhim vositasi hisoblanadi[9].

Shuningdek, yoshlar orasida kiberxavfsizlik madaniyatini shakllantirish, shaxsiy ma’lumotlarni himoya qilish bo‘yicha amaliy ko‘nikmalarni rivojlantirish va internetdan mas’uliyatli foydalanish tamoyillarini targ‘ib qilish muhim ahamiyatga ega.

Xulosa. Yoshlar ijtimoiylashuvi jarayonida kiber tahdidlar tobora muhim ijtimoiy muammoga aylanib bormoqda. Kiberbulling, dezinformatsiya, internetga qaramlik, shaxsiy ma’lumotlarning o‘g‘irlanishi va radikal g‘oyalar tarqalishi yoshlarning ijtimoiy rivojlanishiga salbiy ta’sir ko‘rsatmoqda. Ushbu tahdidlarning oldini olish uchun media savodxonlikni oshirish, kiberxavfsizlik bo‘yicha ta’limni kuchaytirish va yoshlarning tanqidiy tafakkurini rivojlantirish zarur.

Резюме: *Данная статья исследует художественный образ Горгуд Ата в идейном раскрытии дастана «Китаби Дедем-Горгуд ала лисани таифеи огузан». Автором приведены легенды, образцы пословиц и поговорок из дастана. Также в статье сделаны ссылки на фундаментальные труды исследователей-тюркологов, наряду с этим параллели между исламским мистицизмом.*

Ключевые слова: *Ислам, Пророка Мухаммед (с.а.с.), тасаввуф, Деде Горгуд, огузы.*

ГОРГУД АТАНИНГ ЎЗИНИ АНГЛАШ КОНЦЕПТУАЛИЗАЦИЯСИ ИСЛОМ РУҲИЯТИ НУҚТАИ НАЗАРИДАН»

Annotatsiya: *“Мақолада «Китаби Дедем-Горгуд ала лисани таифеи огузан» достонининг ғоявий мазмуни ва эстетик бадиий хусусиятлари доирасида Горгуд Атанинг бадиий образи кенг тадқиқ қилинган. Мақолада достондан олинган афсоналар, мақол ва мақолат намуналари, адабий мотивлар ва фольклор элементлари келтирилган. Шунингдек, муаллиф тюркшунослик тадқиқотчиларининг фундаментал асарларига таяниб, уларни ислом тасаввуфи ва маънавий парадигмалари билан солиштиришлар ҳам кўрсатилган.”*

Kalit so‘zlar: *Ислом, Пайғамбар Муҳаммад (с.а.в.), тасаввуф, Деде Горгуд, огузлар.*

CONCEPTUALIZING SELF-KNOWLEDGE OF GORGUD ATA IN THE LIGHT OF ISLAMIC SPIRITUALITY

Summary: *This article explores the artistic image of Gorgud Ata within the ideological framework of the dastan Kitabi Dede Gorgud ala lisani taifei oguzan. It analyzes legendary narratives, proverbs, and sayings from the epic and draws conceptual and philosophical parallels with Islamic mysticism based on key Turkological scholarly studies and sources.”*

Keywords: *Islam, the Prophet Muhammad (peace be upon him), Sufism (Tasawwuf), Dede Gorgud, oghuz.*

Постановка проблемы. В данной статье мы попытались провести параллели между литературно-философскими подходами, что позволило более детальному, углублённому описанию человеческих и нравственных качеств Горгуд Ата, в идейном раскрытии дастана «Китаби-ДедеГоргуд».

Анализ последних исследований и публикаций. В данном исследовании были изучены тексты священных Писаний, исторические хроники, а также литературные памятники.

Методология исследования. Методологическую основу исследования составили системно-структурный анализ, а также историко-логический подход, позволяющий выявлять концептуальные и идейно-смысловые связи в изучаемом материале.

Введение. История народа начинается с легенды. Эпос «Китаби Дедем-Горгуд ала лисани таифеи огузан» («Китаби-Деде Горгуд») представляет собой сокровищницу многовековых нравственно-моральных ценностей тюркских народов. Древнетюркский литературно-эпический памятник «Китаби-ДедеГоргуд» (VI–VIIвв.) является своеобразной книгой, составителем и первым повествователем которой выступает историко-легендарная личность — Деде Горгуд. Турецкий путешественник XVII века Эвлия Челеби в своём труде «Сейахатнаме» («Книга путешествий») упоминает о могиле Деде Горгуда в Дербенте.

Основная часть. Содержательный образ старца Деде Горгуда это тондем тюркского старца и суфийского шейха. Горгуд Ата -прародитель тюрков, смолоду не мог примириться со смертью. На протяжении всей своей жизни он искал ключ к бессмертию. Но куда бы ни ступала нога Горгуда, он сталкивался с символами

неизбежной смерти. Мучимый грёзами о «бессмертии» он решил уединиться в дремучем лесу.Увидев поваленное дерево Горгуд Ата раскрыл ему свою душу. Мистический сказ дерева о своей погибели, в степи-ковыль, могучие горы начали твердить о тленности мира и самого Горгуда. Вся буря эмоций бушевавших в душе у юноши, подтолкнуло его к изобретению мистического инструмента-гопуза. Проведя пальцами по его струнам чудесная мелодия словно живая птица облетела весь мир, наполнив его собою. Лишь уснув и невольно прекратив играть, Горгуд Ата отправился в иной мир. Наверное поэтому для тюрков гопуз считался сакральным инструментом, на дарение которого ставился религиозный запрет-табу. По легендам мелодия льющаяся из струн инструмента напоминающего мироздание, была способна излечить больных. Средство терапевтического воздействия музыки у тюрков восходит к доисламскому периоду. Так, хорошо известно, что музыка сопровождала магические обряды и усиливала их выразительность. Вера в целебные, художественные силы музыки известны в человеческой истории с древнейших времен [4, 23].

В тасаввуфе смерть это не только физиологический процесс, оно является ещё и отождествлением духовного преображения, обладающий световой символикой. Нафс суфия должен вкусить четыре вида смерти: красную, чёрную, белую и зелёную». Под **красной смертью подразумевается** противостояние нафсу и его желаниям, то есть борьба с соблазнами мирской жизни, а также борьба с иблисом (сатаной) и его помощниками. Сам цвет этой смерти указывает на страсти и их подавление, то есть кончину.**Чёрная же смерть** – это умение переносить трудности и неудобства, причиняемые людьми, проявляя терпение. При этом чёрный цвет чаще символизирует тяжесть и трудность, тогда как, например, **белая смерть – голод.** И в данном случае белизна смерти – это нур (свет), который вселяет голод в душу человека, в его внутренний мир. **А вот зелёная смерть** – это ношение заплатанной, старой одежды и отказ от понравившихся красивых одеяний. И жизнь будто бы становится зелёной благодаря довольству малым в мирском имуществе [2].

Как говорил Пророк (с.а.с.):«Умри прежде, чем ты умрешь ...» Данное выражение имеет очень глубокое значение, под смертью здесь подразумевается воспитание нафса, её упокоение и усмирение, то есть благость. Посредством проделанного пути жизнь салика в тасаввуфе преобретает высокую духовность.

Про Деде Горгуда были сложены много интересных и поучительных легенд и сказок, при окончании которых мы видим духовную трансформацию Горгуда.Однако, на наш взгляд, наиболее глубокая мудрость художественного вымысла лежит в основе сказочного повествования «Испытание Чалабом (Творцом) милосердия Горгуда».

«Однажды Творец решил испытать милосердие Горгуда, дабы воспитать его надлежащим образом. Для этого два ангела были превращены в птиц: в голубя и в орла. Первым к Деде прилетела уставшая голубка. Еле дыша, она поведала ему о своём спасении от когтей орла. В этот момент к Горгуду подлетел гордый орёл. Обвинив Деде в сокрытии его добычи, потребовал выдать ему голубку. Тогда голубка молвила: «Не выдавай меня орлу, Деде! Не губи меня, пожалей моих птенцов». Разжалобанный мольбой голубки Горгуд не смог отклонить просьбу птицы. Он находился меж двух огней: защита и покровительство бедных и слабых (юродивых)-долг каждого порядочного человека, однако оставлять кого-то голодным отобрав его улов тоже не допустимо. Поэтому Горгуд взамен голубке, предложил орлу другой улов. Орёл согласился с условием, что эта пища по весу будет равняться его улову. Деде томимый желанием уберечь беззащитную птицу, отрезал от себя кусок мяса и положил на одну сторону чашу весов. Голубка находясь по другую сторону оказалась тяжелее. Снова Деде пришлось повторить свой поступок, но голубка вновь перевесила его. В третий раз обессиленный Горгуд сам лёг на весы. Лишь тогда обе чаши весов поравнялись, лишь тогда Деде Горгуд понял, что чаша с благим делом всегда перевешивает».

Актуальность. Термин «тасаввуф» (исламский суфизм) применяется для обозначения мистико-религиозного движения, который возник на базе ислама, как проповедующего путь пророка Мухаммада (с.а.с). Суфии считают себя последователями Пророка, отстаивающими исходные принципы его учения в первозданном виде. Суть их учения заключается в признании единственной реальности - реальности Бога, все остальное лишь трактуется как Его проявление, как Его следы, отпечаток Его любви [5]. Весьма интересным фактом является появление ранних зачатков суфизма на территории Ирака, Ирана, Сирии, Индии, Центральной Азии и Закавказья. Тасаввуф включает в себя гармонию человека с бытием, где состояние экстаза выступает как путь общения с потусторонним миром, слияние суфия с любовью Создателя, лишает его своего «я». Таким образом, процесс медитации завершается обезличиванием дервиша-суфия. Этот пройденный путь именуется «маверанахром» (возвращение в себя). В мудрости, в познании окружающего мира Горгуд Ата, прослеживается суфийская философия. В «Китаби» имеют быть место такие рассуждения как: о вере, о любви к Аллаху, о поклонении перед Всевышним, о прошении лишь у Бога, об уважении к пророкам и родителям, о мироустройстве, нравственности, о справедливости, о социально-политическом состоянии, всё это вкупе является осознанием Божественной воли. Стремительное принятие огузами исламских ценностей стало добрым

предвестником перехода от древней формы монотеизма (тенгрианства) к совершенной религии (Исламу). В «Китаби-Деде Коркут» цитаты связанные с исламскими ценностями, со священным Кораном, являются отражением возгласа победы огузских героев над иноверцами. Главной целью этих диалогов было уверование в могущество истинного Творца, Аллаха. посредством внушения красивых имён отражающих божественные качества Создателя. Имяславие позволяло войти в мир Божественного, мир исламской веры. Имяславие не только включало в огузский универсум сакральные ценности и смыслы, но и являлось для огузов «входом» в трансцендентальный мир. Прославление в исламском дискурсе священных имён – Аллаха и Пророка Мухаммеда (с.а.с.) служило в обществе существованию ислама и онтологического обоснования. В эпосе существует тесная аксиологическая связь между эпитетами и художественными определениями имен Аллаха: Всевышний, вездесущий Аллах, всемогущий Аллах, милостивый Аллах. Художественные определения (эпитеты) носили в себе энергию сакрального имени, Его восхваления и давали чувствовать слушателям эту энергию. Сакральные эпитеты являлись «вещественным» доказательством для Огузов-тюрков красоты имени. Имяславие в системе верований огузов, их миф о ритуальном понятии выражает веру и надежду в возвращение в трансцендентный источник Бытия. «Культура Ислама есть культура Имяславия, культура, существенно ориентированная на прославление божественных имен. Имяславие – это путь Ислама, но имяславие – это первый и наиболее важный аспект мироустройства и понимания сути «вещей»[1].«Призывайте Бога или призывайте Милосердного, как бы вы не знали, у него самые лучшие имена», – говорится в Коране [1]. В эпосе существует тесная аксиологическая связь между эпитетами и художественными определениями имен Аллаха: Всевышний, вездесущий Аллах, всемогущий Аллах, милостивый Аллах. Художественные определения (эпитеты) носили в себе энергию сакрального имени, его восхваления и давали чувствовать слушателям эту энергию. Сакральные эпитеты являлись «вещественным» доказательством для Огузов-тюрков красоты имени. Имяславие в системе верований огузов, их мифоритуальном понятии выражает веру и надежду в возвращение в трансцендентный источник Бытия. «Культура Ислама есть культура Имяславия, культура, существенно ориентированная на прославление божественных имен. Имяславие – это путь Ислама, но имяславие – это первый и наиболее важный аспект мироустройства и понимания сути «вещей».«Призывайте Бога или призывайте Милосердного, как бы вы не знали, у него самые лучшие имена», – говорится в Коране [4, с. 110]. Восхваление имени делало нужным диалог эпических героев с Аллахом, определяло их онтологическую позицию, нормы их ритуального поведения [3, 400].

Результат. Имяславие выступает формой напутствий, наставлений, а также благословений Деде Горгуда огузам в дни печали и радости. «Еще говорил дед Коркут — посмотрим, хан мой, что он говорил: если, раскрыв уста, стану славить, Богу над нами слава! Другу Бога, главе веры, Мухаммеду слава! Творящему молитву по правую руку Мухаммеда, Абу-Бекру правдивому слава! Начинающему последнюю часть Корана слову «амма» слава! Если, по складам разбирая, правильно прочитать ее, суре «Ясин» слава! Ударами меча проложившему (путь) вере, царю мужей Алию слава! Сыновьям Алия, внукам Пророка, в степи Карбеля погибшим от руки приверженцев Йезида, Хасану и Хусейну, обоим братьям вместе слава! Написанному, расположенному в порядке, спустившемуся с неба познанию Божьему — Корану слава! Тот Коран написавшему, расположившему в порядке, чтобы поучились ученые, пылавшему в огне, (все) распределившему Осману, сыну Аффана, слава! В низком месте построенному дому Божьему — Мекке слава! Здоровым вышедшему в путь, благополучно вернувшемуся, исполненному правдивости паломнику слава! В счете дней пятнице слава! Читаемой в пятницу хутбе слава! Приложив ухо внимающей (хутбе) общине слава! Поющему на минарете муэдзину слава! С согнутыми коленами сидящим законным супругам слава! Поседевшему от кругооборота (времени) отцу слава! Досыта дающей сосать (ребенку) свое белое молоко матери слава! Приблизившись, вступающей на путь (к жениху) невесте слава! Принесенному любимым братом, поставленному…брачному шатру слава! Свидетелю (заключения брака) слава! сыну слава! Ни с чем не сравнимому, создателю всех миров — Богу слава! Тот Бог в вышине, кому мы воздали славу, пусть будет милостив, пусть подаст помощь, хан мой!» [6].

Заключение. Из вышесказанного можно сделать такое заключение, что дастан «Китаби дедем Коркуд ала лисани таифеи огузан» является бесценным эпосом, содержащим в себе древнюю историю, культуру, героическое прошлое, национальное и духовное богатство азербайджанского народа во все века является неоценимым подарком для будущих поколений.

OILA RIVOJLANISHINI REJALASHTIRISH

Turayeva Aziza Pulatovna
QarshiDU Falsafa va sotsiologiya kafedrasi dotsenti

Annotatsiya. *Ushbu maqolada jamiyatning muhim boshlang'ich bo'g'ini hisoblanadigan oila instituti rivojlanishini rejalashtirish, uning nazariy va amaliy ahamiyati haqida so'z yuritilgan.*

Kalit so'zlar: *Oila, oilani rivojlanishi, oila rivojlanishini rejalashtirish, oilaning hayot sikli, oilani rivojlantirishning individual rejasi, turmush darajasi, turmush tarzi.*

ПЛАНИРОВАНИЕ РАЗВИТИЯ СЕМЬИ

Аннотация. *В данной статье рассматриваются вопросы планирования развития института семьи, являющегося важнейшим первичным звеном общества, а также его теоретическое и практическое значение*

Ключевые слова: *семья, развитие семьи, планирование развития семьи, жизненный цикл семьи, индивидуальный план развития семьи, уровень жизни, образ жизни.*

FAMILY DEVELOPMENT PLANNING

Annotation*. This article discusses the planning of the development of the family institution, which is considered an important primary unit of society, and examines its theoretical and practical significance.*

Keywords: *family, family development, family development planning, family life cycle, individual family development plan, standard of living, lifestyle.*

Kirish. O'z vazifasini bajaruvchi oilaviy tizimning asosiy belgilaridan biri oilaning barcha a'zolariga rivojlantirish ehtiyojini qondirish uchun imkoniyatlar taqdim etishdir.

Oilaning hayot sikli - bu oila o'z rivojlanishida o'tadigan bosqichlarning mantiqiy ketma-ketligidir. Hayotiy siklning bosqichlari yoki davri, ya'ni oilaning bir oilaviy hodisadan ikkinchisiga o'tish davri ajratiladi. Masalan, hali farzandi yo'q yosh kelin-kuyovning ehtiyojlarini nima tashkil etadi yoki besh bolali o'rta yoshli oila a'zolarining ehtiyojlari nimadan iborat yohud farzandlari o'zga yurtda bo'lgan keksa ota-onalarning qanday ehtiyojlari mavjud? Har qanday oila o'z rivojlanishida turli bosqichlarni bosib o'tadi va tabiiyki, har bir bosqich muayyan ehtyojlarni qondirishni taqozo qiladi.

Oila rivojlanishini rejalashtirish — bu er-xotinning sog'lom farzandlar ko'rish, ularning soni va tug'ilish vaqtini ongli ravishda belgilash hamda oilaning ijtimoiy-iqtisodiy farovonligini ta'minlashga qaratilgan maqsadli harakatlaridir. Oila rivojlanishini rejalashtirish oilaning sifatli va sog'lom rivojlanishi, iqtisodiy va moliyaviy rejalashtirish, psixologik tayyorgarlik, ijtimoiy va ta'lim rivojlanishi kabi tarkibiy qismlarni o'z ichiga oladi.

Oilada farzandlar soni, tug'ruqlar oralig'i, farzandning oziq-ovqati, hamma-hammasini rejalashtirish zarur. Jahon sog'liqni saqlash tashkiloti (JSST) tavsiyasiga ko'ra, ona va bola salomatligi uchun eng xavfsiz tug'ruqlar orasidagi davr kamida 24-33 oyni (taxminan 3 yil) tashkil etishi kerak.

Adabiyotlar tahlili. Oila rivojlanishini rejalashtirishning nazariy ahamiyati shundaki, davlatga aholi o'sish sur'atlarini (demografiyani) oldindan hisoblash, kelgusida qancha bog'cha, maktab, shifoxona va ish o'rinlari kerak bo'lishini ilmiy loyihalashtirish imkonini beradi. Shuningdek, irsiy va tug'ma kasalliklarning oldini olish, tibbiy va biokimyoviy omillarni o'rganish orqali sog'lom avlod shakllanishining ilmiy asoslarini ishlab chiqish imkoniyati yaratiladi.

Oilaning iqtisodiy, ijtimoiy va ma'naviy jihatdan barqaror rivojlanishini ta'minlanlash oila rivojlanishini rejalashtirishning amaliy ahamiyatini tashkil qiladi. Oila rivojlanishini rejalashtirish orqali oila farovonligini ortadi, a'zolarining turmush va hayot sifati yuksaladi, kelajakka optimistik kayfiyat bilan qarash tuyg'usi rivojlanadi, ажримлар камайаяди. Bugungi kunda nafaqat yosh oilalar, balki o'rta yoshli oilalar orasida ham ajrimlar kuzatilishi

g‘oyat og‘riqli holatlardir. Davlatimiz rahbari ham “bu noxush holat asrlar davomida qaror topgan milliy qadriyatlarimizga, yuksak ma’naviyatimizga sira to‘g‘ri kelmaydi”[22], deb ta’kidlagani bejizga emas.

Oilaviy hayot siklini yaxshi tushunish va oila a’zolarining ehtiyojlarini qondirishning oqilona rejalashtirilishi esa oilaning turmush tarzi va turmush darajasini yuksaltirishga xizmat qiladi. Chunki turmush darajasi kishilarning moddiy, ma’naviy va ijtimoiy ehtiyojlarining qondirilgani darajasini, ularni qondirish uchun real imkoniyatlarning mavjudligini ifodalaydi. Jamiyatning turmush darajasi shaxs ijtimoiy qiyofasida ham, uning o‘z oilasi munosabatlarida iz qoldiradi.

Bugungi kunda jahon mamlakatlaridagi turmush darajasi bir-biridan tubdan farq qiladi. Buni mamlakatlar turmush darajasi bo‘yicha o‘tkaziladigan reyting ko‘rsatkichlaridan aniqlasa bo‘ladi.

Mantiqan fikrlaganda, turmush darajasi oshgani sayin oilalarning moddiy, ma’naviy va ijtimoiy ehtiyojlari to‘laroq qondirilishi, binobarin, oila a’zolari o‘rtasidagi munosabatlar sog‘lomlasha borishi kerak edi. Aslida mutlaqo kutilmagan vaziyat kuzatilmoqda. G‘arb mamlakatlarida turmush darajasining oshishi moddiy boyliklarga ega bo‘lish imkoniyatlarini kengaytirmoqda. Natijada bu mamlakatlarning fuqarolari ko‘proq mablag‘ topishga, mablag‘ topish imkonini beradigan lavozimlarini saqlab qolishga, ijtimoiy maqomlarini oshirishga intilmoqdalar. Rivojlanmagan mamlakatlardagi turmush darajasining pastligi esa boshqa muammolar turkumini yuzaga keltirmoqda. Moddiy, ma’naviy va ijtimoiy ehtiyojlarni qondirish imkoniyatlarining cheklanganligi oila a’zolarining madaniy saviyasini oshirish, oila kelajagini ta’minlash masalalariga salbiy ta’sir ko‘rsatmoqda. Turmush darajasi past mamlakatlarda istiqomat qilayotgan oilalar istiqbolli rejalar – oilani uy-joy bilan ta’minlash, maishiy texnika vositalari xarid qilish, farzandlarni ma’lumotli qilish to‘g‘risida emas, eng oddiy kundalik tashvishlar xususida qayg‘urmoqdalar.

Jamiyatning turmush tarzi bilan oilaviy muhit o‘rtasidagi aloqadorlikni ham ilg‘ab olish qiyin emas. Turmush tarzi shaxs hayotiy faoliyati uchun yaratilgan shart-sharoitlarni anglatadi. Bugungi kunda G‘arb va Sharq mamlakatlaridagi bunday shart-sharoitlar o‘rtasida tafovut ancha katta. Xususan, G‘arb turmush tarzi ratsional, zamon talablariga javob beradigan prinsiplarga ko‘proq asoslansa, Sharqdagi turmush tarzini milliy an’ana va urf-odatlar, ma’naviy-axloqiy prinsiplar belgilab beradi. Mavjud shart-sharoitlar kishilar orasidagi munosabatlarga ham turlicha tus bermoqda. Zotan, G‘arbdagi barcha rivojlangan mamlakatlarda shaxslar o‘rtasidagi munosabatlar pragmatizm prinsiplari asosida sodir bo‘layotgani, bu yurtlarning fuqarolari ruhiyatida foyda psixologiyasi ildiz otib borayotgani bizga yaxshi ma’lum. Bu hol G‘arb jamiyatlari muammolarini chuqur tahlil qilgan barcha mutaxassislar tomonidan qayd etilmoqda. Shaxslar o‘rtasidagi munosabatlar oila sharoitida ham takrorlanishi, oilaviy munosabatlar xarakterida iz qoldirishi tabiiy hol.

Sharq mamlakatlari haqida fikr yuritganda esa mutaxassislar “an’anaviy jamiyat” tushunchasini qo‘llaydilar. An’anaviy jamiyatda kishilar orasidagi munosabatlar nafaqat qonunlar va normativ-huquqiy hujjatlar, balki aksariyat hollarda an’analar, urf-odatlar, rasm-rusumlar, irim-sirimlar yordamida muvofiqlashtiriladi. Bu jamiyatlarda an’analarga sodiqlik, avlodlar vorisiyligi ayniqsa yaqqol ko‘zga tashlanadi. Masalan, o‘zbek jamiyati turmush tarzining o‘ziga xos xususiyatlari oilaparvarlik, qo‘shnichilik munosabatlarining barqarorligi, mehmondo‘stlik an’analarida yaqqol namoyon bo‘ladi. O‘zbek oilasi uchun farzandsizlik salkam fojea sifatida qabul qilinadi. Oila a’zolari o‘rtasidagi munosabatlar ham ajdodlardan avlodlarga o‘tib kelayotgan qoidalar, tamoyillar, normalar, ta’qiqlar asosida tashkil qilinadi.

Shunga qaramasdan, u yoki bu turmush tarzi oilaviy munosabatlar xarakteriga ijobiy yoki salbiy tus beradi, deb xulosa qilib bo‘lmaydi. G‘arbona turmush tarzi oila a’zolari o‘rtasidagi munosabatlarni ratsionallashtiradi. Sharq mamlakatlarida esa oila a’zolari o‘rtasidagi munosabatlar an’analar va urf-odatlar asosida muvofiqlashtiriladi.

Jamiyat turmush tarzi bilan oilani rivojlantirish o‘rtasidagi aloqadorlik haqida fikrlaganda masalaning yana bir aspektiga to‘xtalib o‘tmasdan iloj yo‘q. Qaysiki jamiyatda sog‘lom turmush tarzi ildiz otgan bo‘lsa, oila rivojlanishi uchun zamin yuzaga keladi. Sog‘lom turmush kechirish kundalik normaga aylanmagan jamiyatda oilaviy muhit ham inqirozga yuz tutadi. Masalan, Rossiyada ichkilikbozlik va giyohvandlikning rivojlanib borayotgani mamlakat jamoatchiligini jiddiy tashvishga solmoqda. Statistik ma’lumotlarga qaraganda, Rossiya fuqarolarining 30 millioni muttasil va ko‘p miqdorda, 70 millioni oz-ozdan spirtli ichimliklar iste’mol qiladi. Spirtli ichimliklarga ro‘jo‘ qo‘yish 10-11 yoshdan boshlanayotgani ham tashvishlanarli hol.[23] Ichkilikbozlik bosh miya atrofiyasiga, demensiyaga (aqliy zaiflikka) olib keladi. Oila daromadlarining qisqarishi, bolalar tug‘ilishining kamayishi, oilaviy nizolarning ko‘payishi, oila a’zolari o‘rtasidagi munosabatlarning yomonlashishi va maishiy jinoyatlar – bularning barchasi ichkilikbozlikning ijtimoiy oqibatlaridir. Giyohvandlikning rivojlanib borayotgani xususida ham shunday faktlarni keltirish mumkin. Muayyan muddatda mamlakatda ozodlikdan mahrum etilganlarning 40 foizi giyohvandlik bilan bog‘liq jinoyatlar sodir etganlar.[24] Giyohvandlarda oilani rejalashtirish, oilaviy qadriyatlar to‘g‘risidagi tasavvurlar yo‘qola borishini aytib o‘tishga hojat bo‘lmasa kerak. Bularning barchasi Rossiyada sog‘lom turmush tarzi normaga aylanmaganidan dalolat beradi. Binobarin, sog‘lom turmush tarzi targ‘iboti har qanday mamlakatning milliy dasturini tashkil etmog‘i darkor. Ana shunday sog‘lom

turmush targ‘ibotini yo‘lga qo‘ygan davlatlardagina oila rivojlanish rejalari ham farzandlar kamolotiga qaratilgan bo‘ladi.

So‘nggi paytlarda ekspert-akademik hamjamiyatda oila farovonligini mustahkamlash masalalariga katta e’tibor qaratilmoqda. Tadqiqotlar ko‘rsatganidek, oila bosh ijtimoiy institut mavqeini egallashda davom etib, uning doirasida iqtisodiy munosabatlar, oila va shaxsiy moliyani boshqarishning asosiy poydevori qo‘yilmoqda. Ekspertlarning fikricha, dunyoda oziq-ovqat taqchilligi muammosi keskinlashib borayotgan bir sharoitda oila budjetini to‘g‘ri rejalashtirish tobora dolzarb bo‘lib bormoqda.

Jahonda oilada farzandlar sonini rejalashtirish bilan bog‘liq g‘alati parodoksni kuzatish mumkin. Ma’naviy saviya yuksalib borgan sari oila farovonligi ortib bormoqda, ammo farzandlar soni kamayib bormoqda. Madaniy saviyasi past qoloq mamlakatlar oilalarida esa hamon tug‘ilish yuqori darajada qolmoqda.

Natijalar. Oila rivojlanishini rejalashtirish ijtimoiy xodimdan yordam kutadigan oilalarda birmuncha murakkab kechadi. Ijtimoiy ishchi muayyan oila bian munosabat o‘rnatishda avvalo, u oilaning ehtiyojlarini o‘rganib chiqadi. So‘ngra ota-onalar bilan birgalikda ikki tomonlama kelishuv imzolanadi. Bu kelishuv ”Oilani rivojlantirishning individual rejasi” (ORIR) deb nomlanadi. Kelishuvning asosiy maqsadi Oilani rivojlantirish rejasida qo‘yilgan vazifalarni amalga oshishini ta’minlashdir. Bu ikki tomonlama kelishuvda ijtimoiy ishchining huquqlari va majburiyatlari hamda ota-onalar vasiylarning huquq va majburiyatlari konkret aks etgan bo‘lishi lozim.

Ijtimoiy ishchining huquqlariga oila bilan kelishgan holda oilaning individual rivojlanish rejasini tuzish va bu loyihada taqdim etilgan xizmatlarni ta’minlashda xodimning mas’ulligi aks etadi. Kuzatuv olib borib, bolaning ahvoliga qarab, zarurat bo‘lsa, mahalliy hokimiyat vakillari bilan birgalikda Oilani rivojlantirish rejasini qayta ko‘rib chiqishi va o‘zgartirish kiritishi mumkin bo‘ladi. Ijtimoiy hodim oila a’zolarining bolaga nisbatan mavqeiga taalluqli barcha zarur hujjatlarga ega bo‘lishi lozim.

Ota-onalar vasiylar huquqlari esa dastlab ijtimoiy ishchi va ota-onalarning majburiyatlari bilan tanishadi va hamkorlikning barcha bosqichlarida faol ishtirok etishi lozim. Ijtimoiy xodimdan barcha kerakli ma’lumotlarni olishi va barcha harakatlardan xabardor bo‘lishi shart. Xizmatlar sifatidan qoniqmasa, mas’ul shaxslarga murojaat qilish huquqiga ega.

Ijtimoiy xodimning qator majburiyatlari orasida ORIR doirasida amalga oshirilgan ishlar monitoringini o‘tkazish alohida o‘rin tutadi, chunki aynan ana shu monitoring orqali tegishli kuzatuv, o‘rganish va tahlillarni davom ettirishi ham mumkin, to‘xtatishi ham mumkin. Shuningdek, oilalarning ORIR da qo‘yilgan shartlarni bajarishlari nazoratini ta’minlash ham xodimning majburiyati hisoblanadi.

Ota-onalar vasiylarning majburiyatlari sifatida eng muhimi ORIR ni amalga oshirish maqsadlarida ijtimoiy xodim va boshqa mutaxassislar tomonidan ko‘rsatilgan talablarni bajarishi, kerakli yordamni ko‘rsatishi shart. Bolaning hujjatlari nusxalarini va ORIR tuzish uchun lozim bo‘lgan kerakli hujjatlarni taqdim etishi shart. Oila a’zolarining oilada tinchlik va farovonlikni ta’minlash uchun tashkil qilingan seminarlar va uchrashuvlarda qatnashishlari uchun sharoit yaratib berishga ham majburdir.

Tomonlar o‘rtasidagi kelishuvda kelishuvning muddati ham aks etadi va ikkinchi tomonning yozma roziligisiz bir tomonlama tartibda buzilishi mumkin emas.

Kelishuv shartlari bajarilmagan hollarda shartnoma bekor qilinadi va oilani rivojlantirish rejasini qayta ko‘rish uchun bola va oilani baholashning butun jarayoni qayta o‘tkaziladi. Ma’lumotlar maxfiy hisoblanishi shart. Oila bilan kelishuvning tartiblari amaliy mashg‘ulotlarda batafsil o‘rgatiladi.

Metodologik qism. Ushbu maqolani tayyorlashda oila rivojlanishini rejalashtirishninshg mohiyatini ochib berish uchun tarkibiy-funksional tahlil uslubi qo‘llanildi, oilani rivojlantirishning individual rejasining ahamiyatini tushuntirishda esa esa dialektika uslublari va usullari, prinsiplari va imperativlari, ilmiy manbalarni tahlil qilish uslubidan foydalanildi.

Xulosa. Oila rivojlanishini rejalashtirishning amaliy ahamiyati muhim bo‘lib, farzandlar soni oilaviy daromadga mutanosib bo‘lganda, oila qashshoqlik chegarasiga tushib qolmaydi. Har bir bolaga sifatli ta’lim va sharoit ta’minlanadi. Rejali tug‘ilgan farzand oilada stress emas, balki quvonch olib keladi, oilalardagi muhit sog‘lomlashadi, ajrimlar soni kamayadi. Jamiyatda sog‘lom, bilimli va raqobatbardosh yoshlar qatlami (inson kapitali) qanchalik ko‘paysa, bundan oila ham, jamiyat ham, davlat ham manfaatdor bo‘ladi.

BAXT INDEKSLARI VA ULARNING TRANSFORMATSIYASI

Oybek Abdusalamovich
AndDU mustaqil tadqiqotchisi

Annotatsiya: *Ushbu maqolada baxt indekslari tushunchasi, ularning metodologik asoslari hamda transformatsiya jarayonlari tahlil qilingan. Baxt insonning sub'yektiv farovonligi, hayotdan qoniqishi va ruhiy holatini aks ettiruvchi ko'rsatkich sifatida ko'riladi. Indekslarning hisoblash usullari, ularda qo'llaniladigan parametrlar (iqtisodiy barqarorlik, ijtimoiy ta'minot, atrof-muhit holati, sog'liqni saqlash va ta'lim tizimi, shaxsiy erkinlik va boshqalar) hamda ularning xalqlar baxt darajasiga ta'siri yoritilgan. Shuningdek, baxt indekslarini milliy sharoitlarga moslashtirish, ya'ni ularni transformatsiya qilish masalalariga ham alohida e'tibor qaratilgan.*

Kalit so'zlar: *Baxt indekslari, sub'yektiv farovonlik, hayotdan qoniqish, indeks transformatsiyasi, Jahon baxt hisoboti, Milliy baxt ko'rsatkichlari, ijtimoiy farovonlik, ruhiy salomatlik, hayot sifati.*

СЧАСТЬЕ И ЕГО ИНДЕКСЫ: ТРАНСФОРМАЦИЯ И ПОДХОДЫ

Аннотация: *В данной статье рассмотрены понятие индексов счастья, их методологические основы и процессы трансформации. Счастье рассматривается как индикатор субъективного благополучия человека, его удовлетворённости жизнью и психоэмоционального состояния. Проанализированы методы расчёта индексов, параметры, используемые при оценке (экономическая стабильность, социальное обеспечение, состояние окружающей среды, здравоохранение и система образования, личные свободы и др.), а также их влияние на уровень счастья народов. Особое внимание уделено адаптации индексов счастья к национальным условиям, то есть вопросам их трансформации.*

Ключевые слова: *индексы счастья, субъективное благополучие, удовлетворённость жизнью, трансформация индексов, Всемирный доклад о счастье, национальные показатели счастья, социальное благополучие, психическое здоровье, качество жизни.*

HAPPINESS INDEXES AND THEIR TRANSFORMATION

Abstract: *This article analyzes the concept of happiness indexes, their methodological foundations, and the processes of their transformation. Happiness is viewed as an indicator of a person's subjective well-being, life satisfaction, and mental-emotional state. The article examines the calculation methods of happiness indexes, the parameters used in their assessment (such as economic stability, social security, environmental conditions, healthcare and education systems, personal freedom, etc.), and their impact on national happiness levels. Special attention is given to the adaptation of happiness indexes to national contexts, i.e., their transformation.*

Keywords: *happiness indexes, subjective well-being, life satisfaction, index transformation, World Happiness Report, national happiness indicators, social well-being, mental health, quality of life.*

Baxt inson hayoti mazmuni va farovonligini o'lchashga xizmat qiladigan muhim ijtimoiy-falsafiy kategoriya hisoblanadi. Har bir tarixiy davrda baxtni baholashning o'ziga xos mezonlari shakllangan. Masalan, O'zbekiston Respublikasi Prezidenti Shavkat Mirziyoyev ta'kidlaganidek, **faqat o'z oilasi emas, balki xalqi baxtli bo'lsa, rahbar o'zini baxtli, deb biladi**. Ya'ni milliy qadriyatlarimizda shaxsiy baxt tushunchasi oila va jamoa farovonligi bilan uzviy bog'liqdir. Umuman olganda, baxt haqidagi tasavvurlar qadimgi falsafadan tortib zamonaviy global hisobotlar va milliy indekslar ko'rinishigacha evolyusiyalanib keldi. Baxt konsepsiyasi jamiyat taraqqiyoti davomida turli ijtimoiy, iqtisodiy, siyosiy va madaniy kontekstlarda evolyusiya qildi. Yuqorida ko'rilgan tarixiiy va zamonaviy misollardan kelib chiqib, quyida shu o'zgarishlarning asosiy jihatlari tahlil etiladi.

Ijtimoiy kontekstda – qadim zamonlarda baxt ko'proq jamoaviy qadriyatlar bilan bog'liq bo'lgan. Masalan, o'rta asrlarda shaxsiy baxt tushunchasi deyarli yo'q edi, inson o'z jamiyati (qavmi, shahri) farovon bo'lsa o'zini baxtli his etgan. Oilaviy bag'rikenglik, qo'shnilar bilan totuvlik, jamoa ma'qullagan hayot tarzi – hammasi baxt mezonlari sifatida qaralgan. Zamonaviy davrga kelib esa individualistik yo'nalish kuchaydi: kishi o'zi baxtli bo'lish huquqiga ega, hatto

jamiyat munosabatiga qaramay ham o‘z tanlovini amalga oshirishi mumkin degan qarash paydo bo‘ldi. Lekin bunda ham qattiq individualizmning salbiy tomonlari borligi ma’lum bo‘ldi – ya’ni faqat “mening baxtim” deb yashash ijtimoiy aloqalarni zaiflashtirib, yakkalikni (odamovi bo‘lib qolish) muammosini keltirib chiqardi. Shu sababli hozirgi kun ijtimoiy filosoflari yana jamoa hissiyoti va birdamlikni qadrlash zarurligini aytmoqda. Masalan, koronavirus pandemiyasi davrida ko‘pchilik **ijtimoiy aloqalar va do‘st-qarindoshlar qadrini** qayta anglab yetdi. Majburiy yakkalanish vaqtida odamlar atrofida yaqinlari bo‘lishining o‘zi katta baxt ekanini his qilishdi. Demak, baxt tushunchasi yana jamoaviylikka tomon siljib, insonlar bir-birisiz baxti to‘liq bo‘lmasligini ko‘rsatdi. Ilmiy tadqiqotlar ham inson – “ijtimoiy mavjudot” ekanini, do‘stlar va oila bilan vaqt o‘tkazish baxt darajasini oshirishini isbotlamoqda. WHR doirasidagi tahlillarga ko‘ra ham, **yaqinlarga ega bo‘lish va ishonchli jamiyatda yashash boylikdan ham muhimroq ekan**.

Iqtisodiy kontekstda – iqtisodiy sharoit va baxt orasida muayyan bog‘liqlik bor. Kambag‘al jamiyatlarda asosiy ehtiyojlar qondirilmagani uchun odamlar baxtlilikni avvalo iqtisodiy barqarorlik bilan bog‘laydi. “Qorin to‘q – ko‘ngil to‘q” degan maqol ayrim joylarda haqiqatdan dalolat beradi: masalan, Qozog‘istonda o‘tkazilgan so‘rovda fuqarolarning ko‘pchiligi baxt uchun asosiy omil **iqtisodiy barqarorlik va ijtimoiy xizmatlar sifati** ekanini aytgan. Shu bilan birga, bir darajadan oshgandan so‘ng pul va boylik qo‘shimcha baxt olib kelmasligi “Isterlinga paradoksi” (Easterlin Paradox) orqali ma’lum bo‘ldi. Boy jamiyatlarda endi baxt ko‘proq hayot sifati, vaqtdan foydalanish, o‘zini-o‘zi anglash kabi omiliarga bog‘liq bo‘lib boradi. Shuning uchun Iqtisodiy hamkorlik va taraqqiyot tashkiloti, BMT kabi tuzilmalar davlatlarni “YAIMdan narigi” mezonlarga e’tibor qaratishga chaqirmoqda. **O‘zbekiston** misolida ham shuni ko‘rish mumkinki, iqtisodiyot o‘sishi baxtning zarur sharti bo‘lsa-da, yetarli sharti emas. Mamlakatimiz YAIM kishi boshiga nisbatan ancha past davlatlarni ham baxt indekslarida ortda qoldirmoqda, chunki **madaniy omillar – oilaviy qadriyatlar, qanoat va qo‘ni-qo‘shnichilik** tuyg‘ulari kompensatsiya qilmoqda. Shu bilan birga, iqtisodiy adolatsizlik va korrupsiya baxtga jiddiy raxna solishi mumkin. Transparency International ma’lumotlariga ko‘ra, O‘zbekiston korrupsiyani qabul qilish indeksida hali past o‘rinlarda, bu esa **aholi baxtliligiga salbiy ta’sir qilib, adolat muhiti zaifligini ko‘rsatadi**. Demak, iqtisodiy siyosiyat faqat YAIM oshirishni emas, uning kimga va qay darajada manfaat keltirayotganini, iqtisodiy o‘sishning har bir qatlam baxtiga ta’sirini ham inobatga olishi lozim.

Siyosiy kontekstda – turli tuzum va davrlarda hukumatlar baxtni turlicha talqin qilishgan. Avtoritar yoki totalitar rejimlarda “omma baxti” shiori ostida shaxsiy erkinliklar cheklangan hollar ham bo‘lgan (masalan, XX asr utopik g‘oyalarida). Demokratik jamiyatlarda esa hukumatning maqsadi aholining baxtdan mamnunlik darajasini oshirish deb qaraladi. Bugungi kunda ba’zi davlat rahbarlari ochiqchasiga “bizning maqsadimiz – xalqimiz baxtini ta’minlash” deb bayonot berishmoqda. Masalan, Butanda baxt Konstitutsiyada belgilangan maqsad. Yangi Zelandiyada 2019 yilda Jasinda Ardern boshchiligida “farovonlik byudjeti” qabul qilinib, davlat mablag‘lari taqsimotida sog‘liq, ma’naviyat, atrof-muhit kabi baxtga ta’sir etuvchi sohalarga ustuvorlik berildi. Ya’ni siyosatchilar baxt tushunchasini amaliy qarorlarga tatbiq qila boshlashdi. Biroq bu yerda bir nozik jihat bor: **baxt indekslari siyosiy propaganda quroliga aylanib qolmasligi kerak**. Ayrim siyosatshunoslar ogohlantiradilarki, avtokratik rahbarlar xalqni “baxtlimisiz?” deb so‘rab, yuqori balllar olish orqali o‘zini oqlashga ham urinishi mumkin. Shu sababli baxt indekslarini mustaqil tashkilotlar hisoblashi, metodologiyasi ochiq va shaffof bo‘lishi zarur. Zero, baxt o‘lchovi aholi kayfiyatini samimiy aks ettirishi, uni soxtalashtirish jamiyatga foyda keltirmasligi ayon.

Siyosiy kontekstda yana bir muhokamaga sabab bo‘ladigan masala – **baxt va ma’no munosabati**dir. Ayrim ijtimoiy faylasuflar savol qo‘yishadi: jamiyat faqat baxtli bo‘lishi uchun yashamaydi, bizning burch, mas’uliyat, ulg‘ayish kabi ma’naviy tamoyillarimiz ham bor. Masalan, agar bir millat mustaqilligi uchun kurashayotgan bo‘lsa, u davrda baxt indeksi tushishi mumkin, lekin bu “hayot mazmunsiz kechmoqda” degani emas – aksincha, **mazmunli hayot uchun vaqtincha qiyinchiliklarga bardosh berish** borligini anglatadi. Shuning uchun davlat siyosati faqat baxt ballarini ko‘tarishni emas, balki xalq hayotining mazmundorligini ham inobatga olishi lozim. Indekslar ortidagi falsafiy mohiyatni to‘g‘ri talqin qilish zarur: ular baxtni albatta turli indikatorlarga ajratib o‘lchashga harakat qiladi, ammo **baxtning o‘zi shu indikatorlar yig‘indisigina emas**. Masalan, Britaniya va Butan indekslari ikkalasi ham aralash usulda hisoblanadi (ob’yektiv+sub’yektiv ko‘rsatkichlar), Rossiya va Yaponiyada faqat sub’yektiv so‘rovlarga tayangan, Qozog‘istonning Exclusive reytingi esa to‘la ob’yektiv ma’lumotlarga tayangan edi. Turli metodlar har xil raqam beradi, lekin baxtni to‘liq qamrab olishga yaqinlashmaydi. Shu bois, baxt indekslarini tahlil qiluvchi tahlilchilar ularni **millatning muayyan qadriyatlari prizmacida** talqin etish kerakligini ta’kidlaydi. Masalan, Rossiyada 80% aholi og‘ir vaziyatda ham “baxtliman” deya olishi – xalqning bardoshlilik va qanoatparastlik sifatiga dalolat, bu bir tomondan ijobiy fazilat (stoik ruhiyat) ko‘rinishi. Lekin shu bilan birga, shu xalqning baxt hissi qay holatlarda yo‘qolishini kuzatish orqali milliy ruhiyatni o‘rganish mumkin: 2020 yil pandemiyasi yoki 2022 yil geosiyosiy voqealari kabi “shok”lar rossiyalik yoshlarning ko‘nglini o‘psad qildi. Bunday holatlar yana bir bor savol tug‘diradi: **baxt – barqaror holatmi yoki vaziyatga qarab o‘zgaruvchi hismi?** Psixologik tadqiqotlarda “baxt gomeostazi” degan nazariya bor – unga ko‘ra har bir insonning baxtda ma’lum bazis darajasi bo‘lib, vaqt o‘tib yaxshilik yo yomonlikdan keyin ham u shu bazaga qaytadi. Milliy

darajada ham shunday — iqtisod yuksalsa ham, pasaysa ham, uzoq muddatda jamiyat baxti ma'lum diapazonda qolaveradi deyiladi. Bu, albatta, bahsli nazariya, lekin shuni ko'rsatadiki, baxt indekslarini o'qishda murakkab falsafiy savollar bor.

Madaniy kontekstda – turli madaniyatlarda baxt turlicha ifodalanadi va qadrlanadi. G' arb madaniyatida ("baht" tushunchasining etimologiyasi ham "hap" – tasodif, omad – dan kelib chiqqan) baxt ko'proq kulgu, shodlik, individual qoniqish bilan bog'lansa, Sharq mamlakatlarida u xotirjamlik, ichki osoyishtalik, hamjamiyatdagilar roziligi bilan bog'liq bo'lgan. Masalan, Lotin Amerikasi xalqlari daromadi nisbatan past bo'lsa-da, kulgu-sha'dodalikda dunyoda birinchi o'rinda turadi, chunki ularning madaniyati jo'shqin. Yaponiya va Koreya kabi davlatlarda esa jamoa fikri ustun – kishi baxtli bo'lsa ham, atrofdagilar hafsli bo'lsa, u xuddi o'zini ham baxtsiz his etishi mumkin. **Madaniy farqlar baxt so'rovlariga javob berish uslubiga ham ta'sir qiladi**: ayrim millatlar "men juda baxtliman" deb aytmaydi, hatto baxti yor bo'lsa-da kamtarlik qiladi; boshqalar esa kichik narsadan ham katta baxt hissi olib, oshkora bayon etadi. Buni statistik tahlilda e'tiborga olish uchun etnografik va sosiologik ma'lumotlar bilan boyitilgan tadqiqotlar talab etiladi. Shu ma'noda, baxt indekslarini tahlil qilish faqat raqamlar emas, balki **madaniyatshunoslik va antropologiya** sohalarini ham qamrab oladigan ishlardir.

Zamonaviy dunyo baxtga doir ba'zi yangi tendensiyalarga duch kelmoqda. Ular orasida eng muhimlari – yosh avlod baxtliligining pasayishi, COVID-19 pandemiyasining ta'siri va ijtimoiy bog'liqlikning ahamiyati ortishi kabi holatlardir.

Yoshlar baxtining pasayishi – an'anaviy tasavvurda yoshlik – inson hayotining eng baxtli davri deb qabul qilinar edi. Chunki yoshlar sog'lom, imkoniyatlari keng, mas'uliyatlari nisbatan kam bo'ladi, shu sabab ular o'zlarini baxtliroq his qilar degan qarash bor edi. Ammo so'nggi tadqiqotlar bu tasavvur hamma joyda to'g'ri emasligini ko'rsatmoqda. Jahon baxtlilik hisoboti-2024 tahlilchilari ma'lum qilishicha, **Shimoliy Amerika va G' arbiy Yevropada yoshlar katta avlodga nisbatan kamroq baxtli bo'lib qolishgan**. AQSHda 2010-yillar davomida 15–24 yoshlilar o'zlarini kattalardan baxtliroq deb baholardi, lekin 2017 yildan keyin tendensiya teskarisiga aylandi – endi yoshlar baxti pasayib, o'rta yosh va keksalarga nisbatan quyiroq bo'lib qoldi. Bu "tarixiy burilish" sifatida qayd etilmoqda. Shuningdek, G' arbiy Yevropada ham shu o'zgarish kuzatilayotgani, yaqin 1-2 yilda u yerda ham yoshlar baxti kattalardan kamaya boshlashi mumkinligi aytilmoqda.

Yoshlar baxtliligining pasayish sabablari to'g'risida turli taxminlar bor. Ko'p ekspertlar buni **ruhiy sog'liq muammolari tarqalishi, ijtimoiy tarmoqlar ta'siri, iqtisodiy noaniqlik** kabilar bilan bog'lashadi. AQSH bosh xirurgi Vivek Murtining so'zlariga ko'ra, "yoshlar haqiqatan ham qiyin ahvolda, Amerikada ham, butun dunyoda ham" va bunda ijtimoiy tarmoqlarning himoyalanmagan ta'siri katta roli bor. Uning ta'kidlashicha, hukumatlar bolalarni onlayn olam xatarlaridan asrashda kech qolmoqda, chunki yosh avlod gadjet va tarmoqlarda qachonlargacha xavfsiz ekani isbotlanmagan "dorini" iste'mol qilayotganga o'xshaydi. Chindan ham, bir qancha psixologik tadqiqotlar Instagram, TikTok kabi platformalar yoshlarda depressiya va kambahavotirlik (trevoga)ni oshirishi mumkinligini ko'rsatdi. Bunga qo'shimcha, iqlim o'zgarishi, geosiyosiy beqarorlik kabi omillar ham yoshlarning kelajakka ishonchini so'ndirib, baxtlilik hissini pasaytiradi. Masalan, 2022 yil Ukrainada urush boshlanishi Yevropada yoshlar o'rtasida xavotirni kuchaytirib, baxt indekslarida vaqtincha pasayish yacatdi (jahondagi umumiy indeksga ham ta'sir ko'rsatdi).

COVID-19ning ta'siri – 2019–2021 yillar davom etgan koronavirus pandemiyasi baxt va farovonlik sohasida alohida bir davr sifatida o'rganilmoqda. Butun dunyo bo'ylab amalga oshirilgan lokdaunlar, cheklovlar va kasallik xavfi odamlarning ruhiyatiga chuqur ta'sir qildi. WHR-2021 da qayd etilishicha, pandemiyaning birinchi yilida **dunyo bo'yicha hayotdan qoniqish ballari kutilganchalik katta tushmadi, insonlar "rezilentlik" (chidamlilik) ko'rsatdi**. Ya'ni aksariyat mamlakatlarda baxt reytingi ilgarigi o'rinlarni saqlab qoldi, katta o'zgarish bo'lmadi. Biroq, **emosional holatlar** jiddiy o'zgardi: Gallup ma'lumotiga ko'ra, 2020 yil davomida butun dunyoda "kecha xavotirda bo'ldim" yoki "xafa bo'ldim" deganlarning ulushi taxminan 10%ga oshdi. Ko'plab odamlar karantin davrida o'zini yolg'iz his qildi, ishini yo'qotdi, sog'lig'i yomonlashdi yoki yaqinlaridan ajralib qoldi. Bu omillar baxtga salbiy ta'sir etmasdan qolmadi. O'zbekistonda ham 2020 yil bahorida joriy etilgan qat'iy karantin oylarida aholining kayfiyati biroz tushgani, ijtimoiy tarmoqlarda xafagarchilik va qo'rquv kayfiyati tarqalgani kuzatilgan edi. Ammo tez orada xalqimiz ana'nviy kulguga qayta oldi – bunda insonlar orasidagi birdamlik va ishonch muhim o'rin tutdi. Darhaqiqat, pandemiya davrida dunyo bo'ylab **ishonch va hamjihatlik baxt uchun hal qiluvchi omil ekanligi yana bir bor tasdiqlandi**. Masalan, bir tadqiqotda turli mamlakatlarda "agar hamyonigiz topilsa, milisiya (yoki notanish inson) uni qaytarib beradi deb o'ylaysizmi?" degan savolga ijobiy javoblar tahlil qilindi va bu ko'rsatkichlarning baxt bilan kuchli korrelyasiyasi borligi aniqlandi. Pandemiyaga nisbatan yaxshi kurasha olgan mamlakatlarda aholi o'rtasidagi ishonch darajasi ham yuqori bo'lgani ma'lum bo'ldi. Shu bois global xulosa shuki, COVID-19 insoniyatga sog'liq va iqtisodiyot sabog'ini bergan bo'lsa, shu bilan birga **ruhiy salomatlik va jamiyatda o'zaro suyanch muhimligini** o'rgatdi. Kelgusida bunday inqirozlar qayta takrorlansa, faqat tibbiy yordam emas, aholining psixologik qo'llab-quvvatlanishi, yalg'iz qolib ketmasligi uchun choralar ko'rish lozimligi anglashildi.

Ijtimoiy aloqalar ahamiyatining oshishi – yuqorida qayd etilganidek, XXI asrga kelib odamlar baxtlilik uchun faqat moddiy ne'matlar yetarli emasligini, **sosializatsiya (ijtimoiy faollik)** juda zarur ekanligini yaxshiroq tushunib borishmoqda. Buni yoshlar o'rtasidagi trendda ham kuzatish mumkin: ayrim boy mamlakat yoshlari karyera va pul topishga emas, balki "layfstayl" – qadrli insonlar bilan vaqt o'tkazish, sayohat qilish, qiziqishlar ortidan yashashga ko'proq ahamiyat qaratmoqda. Albatta, bu ham ma'lum ma'noda farovonlik ortganining natijasi – kundalik tirikchilik tashvishidan chiqqach, inson ma'naviy ehtiyojlarga o'tadi. Bugungi kunda sosial kapital nazariyasi (Robert Patnem va boshqalar tomonidan) keng ommalashdi – unga ko'ra jamiyatdagi o'zaro ishonch, tarmoqlanish, birgalikda faoliyatlar olib borish darajasi odamlarning baxtliligi va hatto iqtisodiy rivojlanishini belgilashda muhim faktor ekan. Masalan, Patnem italiyalik shaharlar misolida ko'rsatganki, tarixan kuchli mahalla va jamoatchilik rivojlangan hududlar iqtisodiy jihatdan ham ilgarilab ketgan. Buni baxt nuqtai nazaridan talqin qilsak, **hamjihat jamiyat – baxtli jamiyat** deyish mumkin. Jahon baxt hisobotlari mualliflaridan professor Yan-Emmanuel De Neve ta'kidlaydiki: "Agar ba'zi joylarda bolalar 20 yashidayoq "o'rta hayot krizisi"ga tushib qolishayotgan bo'lsa, bu darhol siyosatiy choralar ko'rishga chaqiradi". U yoshlar o'rtasida real hayotiy ijtimoiy aloqalarni yaxshilash, ularni foydali faoliyatlarga jalb etish dolzarbligini uqtiradi. Chindan ham, sanoatlanish va raqamlashgan dunyoda insonlar o'rtasidagi bevosita muloqot kamayib, yolg'izlik epidemiyasi haqida gapirilayotgan bir paytda, baxt uchun resept singari **"inson insonga muhtojdir" tamoyiliga qaytish** kerak bo'lyapti. Bu global tendensiya hali ancha davom etishi va bahs-munozaralarga sabab bo'lishi turgan gap.

O'zbekiston jamiyatida baxt tushunchasi azaldan oilaviy totuvlik, yaqinlarga egamlik va ma'naviy qadriyatlarga sodiqlik kabi tushunchalar bilan chambarchas bog'langan. Yuqorida keltirilganidek, Prezident Sh.Mirziyoyev ham o'z chiqishlarida **bir inson faqat o'z oilasi baxtli bo'lsagina emas, balki butun xalq baxti orqali o'zini baxtli his etishini** ta'kidlagan edi. Darhaqiqat, xalqimizda "xalq baxtli – men baxtli" degan umumiy tushuncha bor. Bu nafaqat rahbar shaxslarga, balki har bir fuqaroga xos tuyg'u: inson o'z qo'shnisi, qarindoshlari, hamyurtlari baxtini ham o'ylaydi. Masalan, qo'shnisida musibat bo'lsa, uning xursand bo'rishi qiyin; yoki to'y-ma'rakada birgalikda quvonish orqali baxt hissini ko'paytirishga ishoniladi. **Oila** instituti o'zbekistonliklar hayotida bosh mezonligicha qolmoqda – sosiologik so'rovlarda aksariyat yurtdoshlar "baxtliman, chunki oilam bor, farzandlarim sog'" degan javobni berishadi.

Milliy mentalitetimizdagi yana bir jihat – **qanoat va shukronalik**. Boshqa bir qator ellarda bo'lganidek, bizda ham "Qanoat – karvonboshi" degan naql bor. Ya'ni boriga shukr qilishni bilgan odam baxtli bo'ladi. Bu fazilat ayrim mutlaq qiyin ahvollarda ham o'zini namoyon etadi. Masalan, yuqorida aytilgan Rossiya misoliga o'xshab, ko'plab o'zbek oilalari og'ir iqtisodiy sharoitda ham qanoat va bordan qadr-huzur topishni yaxshi uddalashadi. Bu bir tomondan hayotning ezgu tomonlariga e'tibor berishga o'rgatsa, ikkinchi tomondan barqarorlikka hissa qo'shadi. Zero, qanoatli kishi turli fitnalarga uchmaydi, mavjud tuzumdan mutlaq norozi holatga kelib qolmaydi. Shu bois jamiyatda **sosial barqarorlik**ni ta'minlashda xalqning ma'naviy qadriyatlari ko'p yordam beradi.

O'zbekistonda so'nggi yillarda ijtimoiy siyosatda **har tomonlama barkamol avlod** tarbiyasiga urg'u berilayotgani ham baxt konsepsiyasiga oid. Ya'ni inson faqat moddiy baxtni emas, ruhiy va axloqiy kamolotni ham ko'zlashi lozim. Maktab va oila tarbiyasida bolalarga mehr-oqibat, hamjihatlik, vatandoshlarni qadrlash tuyg'ulari singdirilmoqda. Bu esa katta bo'lganida ularning **ijtimoiy kapitalini** shakllantiradi – kelajakda qo'shnisiga yardam berish, jamoat ishlarida qatnashish, hashar qilish kabi madaniyat saqlanib qolishini ta'minlaydi. Aynan shu narsalar keyinchalik bir-birini qo'llab-quvvatlaydigan, kulgusi ko'p jamiyat barpo etishga xizmat qiladi.

Statistik ma'lumotlarga ko'ra, O'zbekiston aksar global baxt o'lchovlarida yuqorida qayd etilganidek yaxshi natija ko'rsatmoqda – bunda **o'zbekcha mehmondo'stlik va ochiq ko'ngillik** hamda oilaviy yaqinlikning hissasi borligi aytilmoqda. Masalan, Gallup Global Emotions hisobotida O'zbekiston aholisi **kundalik pozitiv emosiyalar** bo'yicha jahonda yetakchi o'rinlarda ekani keltirilgan: kulgusi, xushchaqchaqligi bilan biz Lotin Amerikasi mamlakatlariga o'xshashligimiz ta'kidlangan. Bunga milliy xislatlar – xursandchi, hazilkashligimiz sabab qilib ko'rsatilgan. Boshqa bir tomondan, **respublikada hali yechiladigan muammolar** ham yo'q emas. Masalan, korrupsiya darajasi yuqoriligi jamiyatda adolat va ishonch muhitiga putur yetkazib, odamlarning kayfiyatini buzadi. Davlat rahbari va hukumati bu muammolarni qisqartirish uchun islohotlar o'tkazmoqda – "Halollik vaksinalari" joriy etishdan tortib, jamoatchilik nazoratini kuchaytirishgacha choralar ko'rilmoqda. Bularning maqsadi – **mustahkam huquqiy adolat va ishonchli muhit** barpo etish orqali xalqning xotirjamligini oshirishdir. Zero, qonun ustuvorligi ta'minlansa va har bir inson adolat borligini his etsa, bu uning baxtiga sezilarli ijobiy ta'sir qiladi.

Xulosa o'rnida ta'kidlash joizki, O'zbekistonning o'z taraqqiyot strategiyasida ham iqtisodiy-ijtimoiy rivojlanish ko'rsatkichlari bilan bir qatorda **aholi roziligi va baxtliligi darajasi**ni oshirish ustuvor vazifa qilib belgilangan. Inson manfaatlari oliy qadriyat deb e'lon qilingani bejiz emas – barcha islohotlar pirovardida fuqarolarning farovon va xushnud yashashiga qaratilgandir. Milliy qadriyatlarimiz – oila, mahalla, mehr-oqibat, qanoat va diyonat – ana shu maqsadga yetishda mustahkam ma'naviy asos bo'lib xizmat qiladi. Har bir yurtdoshimizning baxti – jamiyat baxtidir. Jamiyat baxtli bo'lsa – davlat barqaror va taraqqiy etadi. Shu bois zamonaviy baxt indekslari va falsafiy qarashlarida

ilgari surilgan nazariya va ma'lumotlardan to'g'ri xulosa chiqargan holda, biz milliy o'zligimizni saqlagan holda farovonlikka erishish yo'limizni davom ettirishimiz lozim.

ZAMONAVIY SHAROITDA HARBIY XIZMATCHILARINING IJTIMOIY HIMOYASI, UNING FAOL SHAKLLARI VA MEXANIZMLARI

Hashimova Gulsina Ismoilovna
Farg‘ona davlat universiteti, Milliy g‘oya kafedrasi dotsenti
email: ismoilovnagulihonim@gmail.com

Annotatsiya: *Ushbu maqolada harbiy ijtimoiy ishning mohiyati va mazmunini ochib berishga qaratilgan bir qancha yondashuvlar, o‘ziga xos xususiyatlari haqida fikr yuritilgan. Harbiy ijtimoiy ish aholi bilan ijtimoiy ishning ajralmas elementi sifatida talqin qilinib, mamlakatimiz tinchligini himoya qilish uchun mudofaa qo‘shinlarida olib borilayotgan ijtimoiy islohotlarning samaradorligi xalqimizning armiya bilan birgalikdagi harakatiga bog‘liq ekanligi tahlil qilingan.*

Kalit so‘zlar: *insonparvarlik, ijtimoiy-pedagogik, usullari va shakllar kontseptual – nazariy, siyosiy-huquqiy ,tashkiliy – amaliy, strategik maqsad, ma’naviy yuksalish, harbiy salohiyat, harbiy ong, ma’naviy- axloqiy omillar, axloqiy qadriyatlar, milliy ma’naviyat, harbiy qudrat*

SOCIAL PROTECTION OF MILITARY PERSONNEL IN MODERN CONDITIONS, ITS ACTIVE FORMS AND MECHANISMS

Annotation: *This article considers a number of approaches aimed at revealing the essence and content of military social work, its specific features. Military social work is interpreted as an integral element of social work with the population, and it is analyzed that the effectiveness of social reforms carried out in the defense forces to protect the peace of our country depends on the joint actions of our people with the army.*

Keywords*: humanitarianism, socio-pedagogical, methods and forms conceptual-theoretical, political-legal, organizational-practical, strategic goal, spiritual elevation, military potential, military consciousness, spiritual-moral factors, moral values, national spirituality, military power*

СОЦИАЛЬНАЯ ЗАЩИТА ВОЕННОСЛУЖАЩИХ В СОВРЕМЕННЫХ УСЛОВИЯХ, ЕЕ АКТИВНЫЕ ФОРМЫ И МЕХАНИЗМЫ

Примечание: *В данной статье рассматривается ряд подходов, направленных на выявление сущности и содержания военной социальной работы, ее специфики. Военная социальная работа интерпретируется как неотъемлемый элемент социальной работы с населением, и анализируется, что эффективность социальных реформ, проводимых в вооруженных силах для защиты мира в стране, зависит от совместных действий нашего народа с армией.*

Ключевые слова: *гуманитаризм, социально-педагогический, концептуально-теоретический, политико-правовой, организационно-практический, стратегическая цель, духовное возвышение, военный потенциал, военное сознание, духовно-нравственные факторы, моральные ценности, национальная духовность, военная мощь*

Kirish

Hozirgi paytda xalqaro hayot, kishilik taraqqiyoti shunday bosqichga chiqdiki, endi unda harbiy qudrat emas, balki intellektual salohiyat, aql- idrok, fikr hal qiluvchi ahamiyat kasb etmoqda. Bu esa aqliy qudratning jismoniy kuchdan ustunlikka erishganidan, endi muammo va ziddiyatlarga qarshi qurol-yarog‘ bilan emas, fikrga qarshi fikr, g‘oyaga qarshi g‘oya bilan kurashishga, eng asosiysi, milliy ma’naviyatni asrab qolishga e’tiborni kuchaytirish lozimligidan dalolatdir»[1]. O‘zbekiston harbiy ijtimoiy ishining o‘sish darajasi, rivojlanishi mamlakatda olib borilayotgan islohotlar, siyosiy va iqtisodiy jarayonlarga uzviy bog‘liq. Jamiyat bilan armiya muvofiqlashgan holda, mamlakatda aniq holatni qamrab olgan yagona reja asosida strategik maqsad, vazifalarni to‘g‘ri va aniq belgilash orqali harbiy madaniyat, shuningdek, harbiy ijtimoiy ish mukammallikka erishishi mumkinligini nazarda tutadigan bo‘lsak, xalqimiz orasidan etishib chiqqan ulug‘ ajdodlarimiz va allomalarimiz faoliyatiga oid turli ko‘rinishdagi ko‘rsatuvlar, madaniy tadbirlar, xalqimizning boy ma’naviy qadriyatlari, yuksak madaniyati, urf-odatlari hamda merosimizning hayotimizdagi o‘rni va ahamiyatini va vatanparvarlik tuyg‘ularini mustahkamlashga qaratilgan ijodiy uchrashuvlar, mudofaa qo‘shinlari tizimida ma’naviy-axloqiy jihatdan etuk, intellektual

salohiyati yuksak, vatanparvar harbiy xizmatchi shaxsini – Vatanning fidoyi himoyachisini shakllantirishda alohida o‘rin tutadi.

Mavzuga oid adabiyotlar tahlili. Harbiylar va ularning ijtimoiy himoyasi masalasi ijtimoiy fan vakillari , shuningdek, harbiy nazariyotchilarning e’tiborini jalb etib kelganligi sir emas.

Jumladan, N.J.Eshnaevning «O‘zbekiston Respublikasi professional harbiy kadrlar tayyorlashning ijtimoiy-falsafiy asoslari» nomli Dissertatsiya ishida professional harbiy kadrlarni tayyorlashning o‘ziga xos xususiyatlari, kasbiy tanlov va ma’naviy-ma’rifiy tarbiyaning ahamiyati, professional harbiy kadrlar tayyorlashning ijtimoiy-falsafiy jihatlari ochib berilgan. Harbiy ijtimoiy ishning mohiyati va mazmunini ochib berishda, rus harbiy nazariyotchisi V.M.Koryakin harbiy ijtimoiy ishlarni ikki tomondan ko‘rib chiqishni taklif qiladi. Keng ma’noda bu har bir harbiy xizmatchi va uning hayoti uchun qulay sharoit yaratishga qaratilgan davlat ijtimoiy siyosatini shakllantirish va amalga oshirish orqali qo‘shinlarning ijtimoiy rivojlanishiga davlat organlari, harbiy qo‘mondonlik va boshqaruv organlari, harbiy mansabdor shaxslar va jamoatchilikning ta’siri ekanligini ilmiy asoslab beradi.[2]

Tahlil va natijalar. Aytish joizki, bugungi kunga qadar harbiy ijtimoiy ishning mohiyati va mazmunini ochib berish uchun bir qancha yondashuvlar mavjud.

Birinchisi huquqiy yondashuv bo‘lib, harbiy-ijtimoiy ishni qo‘shinlarni ma’naviy va psixologik qo‘llab-quvvatlashning ajralmas tarkibiy qismi va huquqiy, siyosiy, iqtisodiy, ma’rifiy, ijtimoiy va boshqa chora-tadbirlar tizimini tashkil qiladi.

Ikkinchi yondashuv, insonparvarlik tarafdorlari harbiy-ijtimoiy ishni kengroq tushuncha - "ijtimoiy ish" ning ajralmas elementi deb bilishadi, bu jamiyatning qiyin hayotiy vaziyatga tushib qolgan shaxsga va odamlar guruhlariga nisbatan insonparvar munosabatining butun dunyoda qabul qilingan ko‘rinishi sifatida tushuniladi.

Uchinchi yondashuv, ijtimoiy-pedagogik, harbiy ijtimoiy ishni aholining muayyan guruhlari vakillarining, jumladan, harbiy xizmatchilar, harbiy xizmatdan bo‘shatilganlar va ularning a’zolarining ijtimoiy ehtiyojlarini qondirish faoliyati sifatida ochib beradigan ilmiy ishlar bilan ifodalanadi. Ushbu yondashuvning o‘ziga xos xususiyati shundaki, e’tibor harbiy ijtimoiy ishning pedagogik yo‘nalishiga qaratiladi. Bu umumiy holatda, ijtimoiy ishning rivojlanishidagi O‘zbekiston tajribasiga xosdir.[3]

Demak, harbiy ijtimoiy ishning zamonaviy nazariyasida ushbu faoliyatning keng va tor talqinini farqlash kerak. Harbiy ijtimoiy ish - bu har bir harbiy xizmatchi va uning hayoti uchun qulay sharoitlarni yaratishga qaratilgan davlat ijtimoiy siyosatini shakllantirish va amalga oshirish orqali davlat organlari, harbiy qo‘mondonlik organlari, harbiy mansabdor shaxslar va jamoatchilikning qo‘shinlarni ijtimoiy joylashtirishga ta’siri hisoblanadi. Shu bilan birga, harbiy ijtimoiy ish kengroq tushuncha bo‘lib, ijtimoiy ishning ajralmas qismi, u jamiyatning og‘ir hayotiy vaziyatga tushib qolgan shaxsga va odamlar guruhlariga nisbatan insoniy munosabatining namoyon bo‘lishi sifatida tushuniladi. Ijtimoiy ish xayriyadan nafaqat kundalik muammolarni hal qilishda yordam berish, balki yordamga muhtoj odamlarda engish usullari va o‘zini o‘zi boshqarish ko‘nikmalarini rivojlantirishga qaratilganligi bilan farq qiladi. Ijtimoiy ish o‘z mohiyatiga ko‘ra, jamiyatdagi vazifasi shaxs va odamlar guruhlariga davlat va nodavlat ta’sir ko‘rsatish shakli bo‘lib, fuqarolarning tegishli moddiy, ijtimoiy va madaniy turmush darajasini ta’minlash, zarurat tug‘ilganda odamlarning mehnat qobiliyatini tiklashga qaratilgan faoliyat, sifatida talqin qilish maqsadga muvofiq.

Harbiy ijtimoiy ishning predmeti, uning maqsad va vazifalari, uni amalga oshirish bo‘yicha faoliyatning asosiy yo‘nalishlari yig‘indisidir. Yuqorida ta’kidlab o‘tilganidek, harbiy ijtimoiy ish barcha mijozlarni ijtimoiy himoya qilish, ijtimoiy qo‘llab-quvvatlash, ijtimoiy ta’minot, ijtimoiy xizmatlar va ijtimoiy reabilitatsiyani tegishli darajada ta’minlash va amalga oshirishga qaratilgan. Ushbu asosiy yo‘nalishlarni harbiy ijtimoiy ishning maqsadlari deb hisoblash mumkin, bu esa, o‘z navbatida, har bir maqsadni amalga oshirish uchun bir qator aniq vazifalarda namayon bo‘ladi. Harbiy ijtimoiy ishning umumiy maqsadini uyg‘unlashtirish, har bir o‘ziga xos harbiy jamiyatda shaxs va ijtimoiy harbiy muhit o‘rtasidagi o‘zaro ta’sirni optimallashtirish deb atash mumkin. Demak, harbiy ijtimoiy ishning tarkibi, shuningdek, uni amalga oshirish uchun sub’ektlar faoliyatining o‘ziga xos vositalari, usullari va shakllarini o‘z ichiga oladi. Harbiy ijtimoiy ishlarni amalga oshirish vositalari: huquqiy, iqtisodiy, siyosiy, ma’rifiy, madaniy va bo‘sh vaqt, ma’naviy va axloqiy bo‘lib, ular amalga oshirishning o‘ziga xos turlarini belgilaydi. Xuddi shunday, harbiy ijtimoiy ishning boshqa turlari ham unda qo‘llaniladigan vositalarning xususiyatiga ko‘ra farqlanadi.[4]

Harbiy ijtimoiy ishning usullari va shakllari ham xilma-xildir. Avvalo, ular uning har bir yo‘nalishi va turlari uchun o‘ziga xos va xarakterlidir. Harbiy ijtimoiy ish o‘z vakolatlari, funksiyalari va faoliyatining tabiatiga qarab, muayyan mijozlarga nisbatan muayyan usullar va ish shakllaridan foydalaniladi. Ayrim mualliflar harbiy ijtimoiy ish predmeti mazmuniga vositalar, shakl va usullarni kiritadilar. Mavzuni tushunishning keng ma’nosida bunday shakllantirish to‘g‘ri albatta. Biroq, bizning fikrimizcha, mavzu ostida harbiy ijtimoiy ishning funksional maqsad aspektida aniq maqsad va vazifalar to‘plamini tushunish maqsadga muvofiqdir. Bunday holda, harbiy ijtimoiy ish vositalari, shakllari va usullarini uning nisbatan mustaqil tarkibiy elementi sifatida taqsimlash, aslida, maqsad va vazifalar aniq sub’ektlar tomonidan qanday amalga oshirilayotganligini tahlil qilish imkonini beradi. Boshqacha qilib

aytganda, harbiy ijtimoiy ish predmeti vositalari, usullari va faoliyat shakllari asosan uni amalga oshirishda mavjud bo‘lgan narsalarni qamrab oladi.

Harbiy ijtimoiy ish aholi bilan ijtimoiy ishning ajralmas elementi sifatida quyidagi asosiy darajalarda taqdim etilishi va tahlil qilinishi mumkin:

kontseptual - nazariy, ya’ni harbiy - ijtimoiy ish nazariyasi;

siyosiy-huquqiy – harbiy-ijtimoiy siyosatida ifodasi;

tashkiliy - amaliy, uni amalga oshirish bo‘yicha sub’ektlarning aniq chora-tadbirlari va harakatlari majmui.

Zamonaviy O‘zbekistonda harbiy ijtimoiy ishning xususiyatlarini tavsiflash, uning tarkibiy asosiy elementlari, maqsad va vazifalarini hisobga olish, harbiy-nazariy sohada hali aniq hal qilinmagan.

Ushbu faoliyat bir qator o‘ziga xos xususiyatlarga ega, ularning asosiylari quyidagilardan iborat:

Birinchidan, siyosiy mazmunning yuqori darajasi va harbiy-ijtimoiy sohadagi faoliyatni normativ-huquqiy tartibga solish. Bu hayot faoliyatining harbiy sohasi jamiyat hayotining siyosiy sohasi doirasida mahalliylashtirilganligi bilan izohlanadi. U o‘z mohiyatiga ko‘ra yuqori darajadagi siyosiy va huquqiy tartibga solishni talab qiladi. Qurolli Kuchlar alohida nazorat qilinadigan, yopiq tizim bo‘lib, jamiyatdagi roli va mavqei, tarkibi va qo‘llanilishi davlat tomonidan siyosiy va huquqiy jihatdan qat’iy belgilanadi. Bundan tashqari, harbiy xizmatchilarga nisbatan siyosiy ko‘rsatmalar va qonun hujjatlari har doim harbiy bo‘limning buyruqlari va ko‘rsatmalarida qat’iy aniqlashtiriladi va amalga oshiriladi. Va, albatta, harbiy ijtimoiy ish armiyada har doim qat’iy bajarilishi kerak bo‘lgan siyosiy qarorlar, qonun hujjatlari va idoraviy buyruqlar va ko‘rsatmalarga zid bo‘lishi mumkin emas.

Ikkinchidan, harbiy xizmatchilarning o‘ziga xos pozitsiyasi, tarkibi, maqsadi, joylashtirish va vazifalari jamiyat va davlat tomonidan harbiy ijtimoiy ishlarga e’tiborni kuchaytirishni talab qiladi. Bu bir qancha sabablar bilan izohlanadi. Ulardan biri doimiy jangovar shaylik, yuqori darajada boshqariluvchanlik va harakatchanlik, shuningdek, umumiy qurolli kuchlar, xususan, harbiy jamoalar faoliyatida doimiy barqarorlikni ta’minlash zaruratidir. Harbiy xizmat harbiy xizmatchilardan alohida zo‘riqish, jismoniy va ma’naviy kuchning yuqori darajasini, kutilmagan, og‘ir va ekstremal vaziyatlarda harakat qilishni talab qiladi, shuning uchun harbiy ijtimoiy ishning kamchiliklari harbiy muhitda, ayniqsa, keskin seziladi. Masalan, dunyoning aksariyat mamlakatlarida harbiy xizmatchilarning turmush darajasi odatda mamlakatdagi o‘rtacha ko‘rsatkichdan yuqori bo‘ladi. Ma’lumot uchun aytish mumkinki, inqilobdan oldingi chor Rossiyasi doimo bo‘sh xazina bilan o‘z armiyasini kerakli darajada qo‘llab-quvvatlagan.

Uchinchidan, harbiy jamiyatning ko‘p qismi faqat bitta daromad turiga - davlat byudjetidan pul yordamiga yashaydi. Ularning boshqa tirikchilik manbalari deyarli yo‘q. Ular uchun tijorat faoliyati imkoni mavjud emas, shuning uchun ular nafaqat to‘liq, balki ijtimoiy ehtiyojlarlari to‘liq va o‘z vaqtida ta’minlanishi kerak.

Va nihoyat, to‘rtinchidan, harbiy ijtimoiy ishning darajasi ko‘p jihatdan harbiy xizmatchilarning jamiyat va davlatdagi mavqei, obro‘si va ijtimoiy mavqeiga bog‘liq. Obro‘-e’tibor qanchalik baland bo‘lsa, mavqei qanchalik kuchli bo‘lsa, barcha sohalarda harbiy ijtimoiy ishning darajasi shunchalik yuqori bo‘ladi.[5]

Demak, harbiy ijtimoiy ish atamasini quyidagicha talqin qilish mumkin:

Keng ma’noda harbiy ijtimoiy ish – harbiy qo‘mondonlik va nazorat organlarining Qurolli Kuchlarda davlat ijtimoiy siyosatini amalga oshirish, ijtimoiy muammolarini hal qilish, qo‘shinlar (kuchlar) oldida turgan jangovar topshiriqlarni muvaffaqiyatli bajarish uchun tegishli ijtimoiy sharoitlar yaratish hamda harbiy xizmatchilar, ularning oila a’zolari va fuqarolik xodimlariga yordam ko‘rsatish maqsadida davlat hokimiyati va jamoat birlashmalari bilan hamkorlikda amalga oshiriladigan faoliyati.

Tor ma’noda, harbiy ijtimoiy ish - bu professional tayyorgarlikdan o‘tgan mutaxassislar tomonidan amalga oshiriladigan va harbiy xizmatchiga, uning oilasiga yoki bir guruh shaxslarga ma’lumot, maslahat, bevosita moddiy yordam, pedagogik va psixologik yordam ko‘rsatish, yordamga muhtojlarni qiyin vaziyatlarni hal qilishda o‘z faoliyatiga yo‘naltirish va bunda ularga yordam berish orqali individual yordam ko‘rsatishga qaratilgan kasbiy faoliyat.[6]

Harbiy muhitda ijtimoiy ish bilan bog‘liq vaziyat biroz boshqacha. Harbiy xizmatchining mehnat qobiliyati cheklangan emas, balki uning farovonligini oshirish uchun qo‘shimcha mehnat faoliyatini amalga oshirish imkoniyati cheklangan. Binobarin, harbiy ijtimoiy ishning ob’ekti Qurolli Kuchlarda xizmat qilayotgan barcha harbiy xizmatchilar, shuningdek, ularning oila a’zolari bo‘lishi kerak. Shuning uchun harbiy xizmatning o‘ziga xos xususiyatlari va Qurolli Kuchlar tomonidan davlat manfaatlarini ko‘zlab aniq vazifalarni bajarish ijtimoiy ishning o‘ziga xos shakllari va usullarini talab qiladi.

Har qanday ijtimoiy jarayonning eng muhim belgilari uning rivojlanishining muayyan bosqichlaridagi holatining ko‘rsatkichlari hisoblanadi.

Ijtimoiy jarayon, qoida tariqasida, ijtimoiy voqelikning uchta darajasida: makro, mezo va mikroda sodir bo‘lganligi sababli, biz harbiy ijtimoiy ishning institutsionalizatsiya muammolarini yoritib, ushbu omilni alohida hisobga olamiz. Biz makro darajaga davlatni, mezo darajada Qurolli kuchlarni va mikro darajada oliy o‘quv yurti, tuzilma va bo‘linmani

kiritishimiz mumkin. Ushbu metodologiya, bizning fikrimizcha, harbiy ijtimoiy ishlarni institutsionalizatsiya qilish jarayonining hozirgi holatini har tomonlama ko‘rib chiqish va aniqlash imkonini berdi.

Fikrimizcha, harbiy xizmatchilar va ularning oila a'zolari bilan ijtimoiy ish bo‘yicha mutaxassislarni tanlash va tayyorlashda, birinchi navbatda, ushbu faoliyat turining xususiyatlarini hisobga olish kerak. Bu borada ushbu sohada to‘plangan mavjud tajribani hisobga olish foydali bo‘ladi. Masalan, amerikalik ijtimoiy xizmat mutaxassislari Z.T.Ortiz va B.Z.Basoflarning fikriga ko‘ra, AQSh armiyasining harbiy ijtimoiy xizmatlari xodimlariga qo‘yiladigan asosiy talablar tizimi uchta yo‘nalishni qamrab oladi:

Birinchisi, harbiy muhitda kasb tanlashda individual ijtimoiy ishchiga ta'sir qilishi mumkin bo‘lgan shaxsiy fazilatlar tizimi.

Ikkinchi yo‘nalish - madaniy qadriyatlar. Harbiy hayot - bu o‘ziga xos qoidalar bilan tavsiflangan submadaniyat. Ijtimoiy xodimlar o‘z ishlarida ushbu xususiyatlarni hisobga olishlari kerak. Harbiy hayotning o‘ziga xos xususiyatlari va qadriyatlariga sezgir va hurmat bilan munosabatda bo‘lish, ulardan oilalarga o‘z muammolarini hal qilishda yordam berish uchun foydalanish kerak.

Uchinchisi - bu ijtimoiy ishchilar ishlaydigan sharoitlarning o‘ziga xosligi. Bu mijozlar talablari va ularni hal qilish qobiliyati o‘rtasidagi ziddiyatlarning potentsialida yotadi. Ijtimoiy soha uchun ijtimoiy xodimlarni tanlashda bu omil eng muhimlaridan biridir.

Yuqoridagi fikrlarni umumlashtirib, biz harbiy ijtimoiy ishning quyidagi ta’rifini taklif qilamiz:

Harbiy-ijtimoiy ish – bu harbiy xizmatchilar va ularning oila a’zolari, harbiy xizmatdan bo‘shatilgan harbiy xizmatchilarning ijtimoiy ehtiyojlari va manfaatlarini, huquq va erkinliklarini, kafolatlari va imtiyozlarini qondirish uchun davlat va fuqarolik institutlari, idoralari va shaxslarining kontseptual-nazariy, siyosiy-huquqiy va tashkiliy-amaliy faoliyati tizimi.

Xulosa

Harbiy ijtimoiy ish, ijtimoiy gumanitar amaliyot turlaridan birini rivojlantirishning o‘ziga xos jarayoni bo‘lib, uning davomida harbiy ijtimoiy ish Qurolli Kuchlar va jamiyatda muhim xususiyatlar va ijtimoiy institut maqomini oladi. Harbiy ijtimoiy ish jamiyatimiz boshidan kechirgan o‘ziga xos tarixiy sharoitlar va jamiyat va uning harbiy tashkilotining ijtimoiy himoya va qo‘llab-quvvatlash, ijtimoiy ta'minot va xizmat ko‘rsatish bilan belgilanadi.

O‘zbekiston Respublikasi Qurolli Kuchlarida harbiy-ijtimoiy ishning amaliy ahamiyati, birinchi navbatda, o‘z sub’ektlari tomonidan harbiy xizmatchilarni ijtimoiy himoya qilish uchun berilgan funksiyalar va ularga belgilangan vakolatlarni bajarishda huquqiy, tashkiliy, tarbiyaviy vositalardan maksimal darajada foydalanishdadir.

AMIR TEMUR IJTIMOIY-SIYOSIY QARASHLARIDA INSONPARVAR VA ADOLATLI JAMIYAT G‘OYASI

Tog‘ayev Nodirjon Ergashevich
Sharof Rashidov nomidagi Samarqand davlat
universiteti tadqiqotchisi, falsafa doktori (PhD) dots.

Annotatsiya. *Ushbu maqolada Amir Temurning jamiyat va davlat haqidagi ijtimoiy-siyosiy qarashlarida mukammal insonparvar jamiyat o‘rnatishga qaratilgan harakatlari bayon etilgan. Shuningdek Amir Temurning har bir qadami o‘z saltanatida adolat o‘rnatish, bosib olingan yerlar haqlarining madaniyatini hurmatlash, uni o‘zlashtirish va boyitishga qartilganligi, u halqlarning azizu-avliyolarini hurmatlab o‘z o‘rinlariga qo‘yilganligi yoritilib berilgan.*

Tayanch so‘zlar: *Amir Temur, Temur tuzuklari, jamiyat, davlat, tarix, xalq, qonun, adolat, ilm, vatanparvarlik, insonparvarlik, sabr-toqatlilik, tinchliksevarlik.*

ИДЕЯ ГУМАННОГО И СПРАВЕДЛИВОГО ОБЩЕСТВА В СОЦИАЛЬНО-ПОЛИТИЧЕСКИХ ВЗГЛЯДАХ АМИР ТЕМУРА

Аннотация. *В данной научной статье рассматриваются усилия Амира Темура по созданию идеального гуманного общества в контексте его социально-политических взглядов на общество и государство. Авторы подчеркивают, что каждый шаг, предпринятый Амиром Темуром, был направлен на установление справедливости в его царстве, уважение к культуре и правам завоеванных народов, а также освоение и обогащение этих земель. Отмечается, что Амир Темур проявлял уважение к святым и святыням народов, что способствовало его признанию и укреплению власти.*

Ключевые слова: *Амир Темур, Уложения Темура, общество, государство, история, народ, закон, справедливость, наука, патриотизм, гуманизм, терпение, мир.*

THE IDEA OF A HUMANE AND JUST SOCIETY IN THE SOCIO-POLITICAL VIEWS OF AMIR TEMUR

Annotation. *This scientific article examines the efforts of Amir Temur to create an ideal humane society in the context of his socio-political views on society and the state. The authors emphasize that every step taken by Amir Temur was aimed at establishing justice in his kingdom, respect for the culture and rights of the conquered peoples, as well as the development and enrichment of these lands. It is noted that Amir Temur showed respect for the saints and shrines of the peoples, which contributed to his recognition and strengthening of power.*

Keywords: *Amir Temur, Temur’s Codes, society, state, history, people, law, justice, science, patriotism, humanism, patience, peace.*

Kirish.

Markaziy Osiyoda Renessans davri Yevropadan farqli ravishda ikki bosqichda bo‘ldi: birinchisi IX-XI asrlarda va ikkinchisi XIV-XVI asrlarda bo‘lib, u o‘rta asrlar madaniyatining gullab-yashnagan, insonning beqiyos imkoniyatlariga, aql-idroki, irodasi, qobiliyatlariga ishonch ruxi bilan sug‘orilgan yangi davr bo‘lgan. Amir Temur hamda Temuriylar davrini ham ana shu davrga kiritish mumkin. Unda O‘rta Osiyo zaminidagi ilm-fan, she’riyat, san’atning taraqqiy etganligini ko‘rish mumkin. Shoirlar, muarrixlar, tasavvuf yo‘nalishidagi mualliflarning ijodida davlat va jamiyat, insonparvarlik g‘oyalari yaqqol namoyon etila boshlandi.

Amir Temur o‘zi yashab turgan jamiyatni eng yetuk jamiyat farovon hayot bo‘lishi uchun kurashibgina qolmay, balki uni butun dunyoda tantana qilish, dovrug‘ solishi mumkinligiga ishongan edi. Chunki u shu maqsaddagina jahongirlik libosini kiygan edi. Ko‘rinib turibdiki, Amir Temur ijtimoiy-siyosiy qarashlarida mukammal jamiyatni orzu qilishdan ko‘ra ko‘proq uni amalga oshirish va uni mas’uliyatini o‘z zimmasiga olish yaqqol sezilib turadi. Shuning uchun ham Amir Temurning mutafakkir-sarkarda sifatidagi o‘ziga xos tomoni shundaki, u o‘zi hukmronlik qilgan saltanat timsolida mukammal jamiyatni qurdi va uni har tomonlama mustahkamlashga harakat qildi. Biz uning “Temur tuzuklari”da buni aniq ko‘rishimiz mumkin. Lekin, B.Ahmedovning fikricha, ““Temur tuzuklari” ham feodalizm shariotida bitilgan boshqa asarlar singari hukmron sinfning maqsad va manfaatlarini ko‘zlab yozilgan, o‘sha sinfning

dunyoqarashini ifoda etgan. Asarda Amir Temurning harbiy yurishlari buzuq odamlarning ko‘payishini oldini oluvchi harakat deb, o‘z ozodligi va vatanining mustaqilligini himoya qilgan halqlar esa kofir, buzg‘unchi, bezori (ovbosh) deb atalgan. Tobe’likdan bo‘yin tovlagan yoki shunga intilgan ne-ne yurtlarning xalqi “oq uylik” qilinib, o‘zga yurtlarga majburan ko‘chirib yuborilgan. Temurning o‘zi esa odil va insonparvar podsho sifatida tasvirlandi. Uning shaxsi ko‘p jihatdan ideallashtirildi” [1: 7].

Agar biz Amir Temur o‘z ishlarini o‘sha davr siyosiy vaziyati nuqtai –nazaridan baholagan deydigan bo‘lsak, B.Ahmedovning bu fikri Amir Temurning mukammal jamiyati haqidagi fikrlarini va harakatlarining mazmunini o‘zgartira olmaydi. Chunki o‘sha davrning halqaro siyosiy vaziyati va umuman, siyosiy jarayon Amir Temurdek adolatli shohning jahongirlik libosini kiyishini shart qilib qo‘yardi. Aks holda, bunga da’vogar bo‘lgan turk sultoni Boyazid dunyoni ostin-ustun qilishiga shubha yo‘q edi. Shuning uchun bir biriga ham siyosiy dasturi va shaxsiy xislatlari jihatidan zid bo‘lgan podshohlarning qaysi biri jahongirlik qilishi kerakligini dunyo halqlarining o‘zi baholagan edi. Buni biz yuqorida aytib o‘tganimizdek, Ovrupo halqlarining hozirgacha Amir Temurni o‘z xaloskorlari, deb eslashi bizningcha yetarli dalil bo‘lsa kerak. Chunki, Amir Temurning dunyoda mukammal insonparvar jamiyat o‘rnatishga qaratilgan harakatlari uning siyosati bilan hech qachon zid kelmagan.

Biz Amir Temur haqidagi manbalarni o‘rganar ekanmiz, uning har bir qadami o‘z saltanatida adolat o‘rnatish, bosib olingan yerlar haqlarining madaniyatini hurmatlash, uni o‘zlashtirish va boyitishga qartilganligini, u halqlarning azizu-avliyolarini hurmatlab o‘z o‘rinlariga qo‘yganliklarini, eng muhimi saltantning biror burchida gado zotini qoldirmaslikka o‘ziga dastur qilib olganligining guvohi bo‘lamiz. Amir Temur ijtimoiy qarashlarining muhim xususiyati shundan iboratki, fuqarolarning hech bir qismi, hech bir guruhi uning sahovati va muravvatidan chetda qolmagan va bu ishlarni uning shaxsan o‘zi nazorat qilib turgan. Xalqni haqiqiy ijtimoiy muhofaza qilishning nazariy tamoyillarini berish bilan biga uni amalga oshirishga ham harakat qilgan.

U o‘z saltanatining qudrati, o‘lchovi va mezoni sifatida halq va uning farovonligi hamda siyosatdan roziligini olgan edi. Chunki, Amir Temur uchun xalq farovonligi va podshoh siyosatidan ulusning roziligi saltanat uchun eng zarur va uning mavjudligining bosh mezonidir. Xalqdan ajralgan va unga xizmat qimaydigan saltanat halokatga mahkumdir. Temur o‘zining butun hurmatini, saltanat qudratini va dunyoni zabt etishning asosiy sabablari qilib shularni ko‘rsatadi.

Adabiyotlar tahlili:

Amir Temur o‘z davrida ulug‘lanishining asosiy sababi shu ediki, u o‘z siyosatini va davlatni boshqarishni xalqni ishontirish yo‘li bilan olib bordi va ishontira oldi ham. Lekin u hech qachon o‘z siyosatini kaltaklash yoki kaltak ishlatish usuli bilan olib bormagan. Uning siyosatining asosini ishontira olish usuli egallardi. Shuning uchun ham “Qaysi hokim hukmining ta’siri cho‘p va kaltaklash ta’siridan kamroq bo‘lsa, unday hokim hukumat yurgizishga yaroqsizdir” deyiladi [1: 57].

U o‘z saltanatining qonun-qoidalarini hal qilingan masalalar tafsilotini boshqa xalqlar va davlatlar uchun ham va umuman avlodlar uchun zarur hisoblagan va shu maqsadda devon majlislarida navbatma-navbat hozir bo‘lib, majlislarda ko‘rilgan va hal qilingan ishlarning tafsilotini daftarga yozib borish uchun maxsus kotiblar “majlisnavislar” tayinlangan. Bularning ishlari faqat majlislar bayoni bilan cheklanmasdan, arz qilingan gaplar, chiqarilgan hukmlar, juz’iy ishlargacha hatto podshoning boshidan o‘tgan voqelarni yozib borishi lozim edi. Shu bilan birga, “Temur mamlakat saltanati va uning tizimi va uslubi qanday bo‘lishidan qat’iy nazar ularning har birining o‘zining siri bo‘lishi kerakligini uqtirgan [1: 95].

Amir Temur qurmoqchi bo‘lgan jamiyatning asosiy vazifalaridan yana biri xalq ahvolidan xabardor bo‘lib turish va sodir bo‘layotgan halq ahvolini ifodalovchi har bir voqeani to‘g‘ri yozib borish lozim bo‘lgan. Shuning uchun ham Amir Temur har bir shahar va qishloqda habarnavislar tayinlab, bo‘lgan voqea va hodisalarni to‘g‘ri yozib borishni uqtirgan. Voqealarni sohtalashtirgan va yo bo‘lmasa bo‘rttirib yozgan xabarnavislarni qattiq jazolagan. Unga muvofiq jismoniy jazolar berilgan - avval barmoqlarni, keyin esa qo‘llarni kestirgan. Amir Temur nazarida biror-bir xalqparvar mukammal jamiyat qurmoqchi bo‘lgan shoh ushbu xabarlarni kunma-kun, xaftama-hafta, oyma-oy bilib borishi va shunga qarab xulosa chiqarishi lozim bo‘lgan.

Sultoniya yepiskopining esdaligida yozilishicha, “Temurbek o‘zini quchoq ochib qarshilagan, unga darvozalarini o‘z ixtiyori bilan ochgan shaharlar aholisining joniga, moliga dahl qilmaydi. Shuning uchun ham ko‘pgina qal’alar Temurbekka jangsiz taslim bo‘lishni ma’qul ko‘rishgan. Agar biror-bir ayol kishiga zo‘rlik ishlatilsa yoki Temurbekning tasarrufidagi hududda biror-bir talonchilik ro‘y bersa, u bu ishni qilganlarni shafqatsiz jazolaydi. ... Men dunyoda bungacha ham bundan keyin ham Temurbek singari qattiqqo‘l odam bo‘lmasa kerak deb o‘ylayman[4: 22].

Tahlillar va natijalar.

Amir Temurning insonparvarlik g‘oyalari uning siyosati bilan uyg‘unlashib ketadi. Chunki u o‘z yurishlarida insonparvarlikning eng nozik tamoyillariga amal qilib, o‘z yurishining muvofaqqiyatlarini ta’minlagan. Buni biz Marsel Brionning “Menkim, Sohibqiron – jahongir Temur“ asarida keltirgan quyidagi dalillardan bilib olishimiz

mumkin:“Qilichim qarshisida g‘arbu sharq titragan men kabi hukmdor kezi kelganda mehr-muravatli bo‘lishim kerak, deb hisoblayman. Ayrim mayda chuyda narsalarga ko‘z yumaman. Ularga e’tibor bersam, buyuk ishlar, yuksak natijalarga kechikaman” [4: 260].

Amir Temur markaziy davlat tizimini ixcham va ishchan qilib tuzdi va bunda songa emas sifatga e’tibor berdi. Davlat ishiga imonli diyonatli kishilarni o‘tqazdi. Davlatni borqarishni 4 omilga bog‘liq deb bildi:

1. Saltanat 2. Xazina 3. Qo‘shin (sipoh masalasiga) 4. Raiyat (qora xalq). Saltanatni yuritishda vazirlar masalasiga e’tibor qaratildi. Vazir 4 sifatga ega bo‘lishi: 1) asllik va toza nasllik 2) aqlu farosatlilik 3) raiyat va sipoh ahvolidan boxabarlik 4) sabr-toqatlilik va tinchliksevarlik.

Demak. Amir Temur dono xukmdor bo‘lib, ham siyosiy ham ma’naviy jihatdan juda katta tarixiy ahamiyatga egadir. Bular:

1. Amir Temur XIV asrdayoq mamlakat va mintaqalararo munosabatlarni chuqurlashtirib iqtisodiy makonga birlashtirishga harakat qildi. Integratsiyani ishlab chiqib Buyuk ipak yo‘li o‘tgan mamlakatlar o‘rtasida madaniyatlar muloqotini boshlab berdi.

2. Amir Temur davlat tizimi va boshqaruvni tashkil etishda o‘ziga xos maktab yaratdi, adolatli jamiyat qaror toptirishda qonun ustivorligiga rioya qildi.

3. Amir Temur davlatchilik tamoyillarini rivojlantirdi, uni aql-idrok salohiyatiga, taktik va strategik asosida shakllantirdi.

4. Amir Temur saltanati ma’naviyat va oliy darajadagi madaniyatga yo‘g‘rilgan saltanat edi.

Amir Temur o‘zining “Temur tuzuklari”da 1342-1405 yillar orasida Movarounnahrning ijtimoiy-siyosiy ahvoli, qo‘shni mamlakatlar va xalqlar bilan bo‘lgan o‘zaro munosabatlar haqida hikoya qilinadi. “Temur tuzuklari” da Amir Temurning asosiy doktrinasi – jamiyatga, ijtimoiy-siyosiy hayotga qarshi, birlashgan qudratli feodal davlatning siyosiy va axloqiy prinsiplari ifodalangan. “Temur Tuzuklari” - podsholarning turish-turmush va odob-axloq meyorlarini belgilovchi risoladir. Asar 2 qismdan iborat:

“1. Birinchi qismda jahon tarixida mashhur fotih, sarkarda va iste’dodli davlat arbobi sifatida nom qoldirgan Amir Temurning 7 yoshi (1324) dan to vafotiga (1405 yil 18 fevral) qadar kechgan hayoti uning Movarounnahrda Markaziy hokimyatni qo‘lga kirtish, feodal tarqoqlikka barham berish va markazshlashgan davlat tuzish, qo‘shni yurt va mamlakatlarni masalan, Eron hamda Afg‘oniston o‘z tasarrufiga kiritish, Oltin o‘rda hukmdori To‘xtamishxon (1376-1395), butun Yevropaga qo‘rquv va dahshat solgan Turkiya sultoni Boyazid Yildirim (1389-1402) ga qashri va nihoyat buyuk jahongirning Ozarbayjon, Gruziya va hindistonga qilgan harbiy yurishlari ixcham tarzda bayon etilgan.

2. Ikkinchi qism jahongirning nomidan aytilgan va uning toju taxt vorislariga atalgan o‘ziga xos vasiyat va pand nasihatlaridan iborat. Unda davlatni idora qilishda kimlarga tayanish, boshliqlarini saylash sipohiylarning maoshi mamlakatlarni boshqarish tartibi, davlat arboblari va boshliqlarning burch va vazifalari, amirlar vazirlar va boshqa mansabdorlarning toju taxt oldida ko‘rsatilgan alohida xizmatlarini taqdirlash tartibi va boshqalar xususida gap boradi [7: 6].

Xulosa.

Musulmon sharqi, ayniqsa, Markaziy Osiyo madaniyati tarixida Amir Temur hamda Temuriylarning xukmronlik davri XIV - asrning ikkinchi yarmidan XVI - asrning boshlarigacha bo‘lgan davr so‘nggi umumiy tarixiy rivojlanishga juda katta ta’sir ko‘rsatgan nihoyatda yorqin, sermazmun, samarali davr hisoblanadi. Bu davrda Movoraunnahr va Xuroson ijtimoiy taraqqiyotning barcha jabhalarida: iqtisodda, siyosatda, madaniyatda, ma’naviy hayotda butun O‘rta Sharqda markaziy o‘rinni mustahkam egallab turish, yuqori mavqega ega bo‘lish darajasiga ko‘tarildi. Madaniyat, ilm-fan sohasida islom Sharqining barcha o‘lkalarigina emas, Ovrupo mamlakatlarida ham katta e’tiborga sazovor bo‘ladi. Bu davrda o‘zbek tili adabiy til sifatida, bevosita turkiy yozma madaniyat uzil-kesil shakllandi va bu sohadagi O‘rta Osiyoning so‘nggi rivojini belgilab berdi.

ZAMONAVIY O‘ZBEK JAMIYATIDA HARBIY VATANPARVARLIK MADANIYATINING SHAKLLANISHI VA ISTIQBOLLARI

Talipov Xushnud Zafarovich
Andijon davlat pedagogika instituti
“Milliy g‘oya ma‘naviyat asoslari va
huquq ta‘limi” kafedrasi assistent o'qituvchisi

Annotatsiya: *Mazkur maqolada zamonaviy o‘zbek jamiyatida harbiy vatanparvarlik madaniyatining shakllanishi, unga ta’sir etuvchi ijtimoiy-pedagogik omillar hamda istiqboldagi rivojlanish yo‘nalishlari tahlil qilinadi. Tadqiqotda oilaning tarbiyaviy ta’siri, ta’lim tizimining uzluksizligi, harbiy tuzilmalarning ma’naviy-ma’rifiy faoliyati, ommaviy axborot vositalari va raqamli muhitning yoshlar ongiga ta’siri alohida ko‘rib chiqiladi. Shuningdek, O‘zbekistonda so‘nggi yillarda qabul qilingan vatanparvarlik dasturlari, “Vatan o‘gloni” yoshlar harbiy-vatanparvarlik harakati, “Jasorat maktablari” hamda uzluksiz ta’lim tizimidagi yangi yondashuvlar tahlil qilinib, ularning harbiy vatanparvarlik madaniyatini shakllantirishdagi ahamiyati ochib beriladi.*

Kalit so‘zlar: *Harbiy vatanparvarlik madaniyati, yoshlar tarbiyasi, uzluksiz ta’lim, “Vatan o‘gloni”, “Jasorat maktablari”, ma’naviy-ma’rifiy ishlar, raqamli muhit.*

FORMATION AND DEVELOPMENT PROSPECTS OF MILITARY-PATRIOTIC CULTURE IN MODERN UZBEK SOCIETY

Annotation: *This article analyzes the formation of military-patriotic culture in modern Uzbek society and identifies the socio-pedagogical factors influencing it, along with future development prospects. The study examines the educational influence of the family, the continuity of the education system, the moral and educational activities of military institutions, and the impact of mass media and the digital environment on young people. It also reviews recent patriotic education programs in Uzbekistan, the youth military-patriotic movement “Vatan Ugloni,” “Schools of Courage,” and new approaches in continuing education, highlighting their importance in shaping military-patriotic culture.*

Keyword: *Military-patriotic culture, youth education, continuing education, “Vatan Ugloni”, “Schools of Courage”, moral education, digital environment.*

ФОРМИРОВАНИЕ И ПЕРСПЕКТИВЫ РАЗВИТИЯ ВОЕННО-ПАТРИОТИЧЕСКОЙ КУЛЬТУРЫ В СОВРЕМЕННОМ УЗБЕКСКОМ ОБЩЕСТВЕ

Аннотация: *В статье анализируется формирование военно-патриотической культуры в современном узбекском обществе, а также социально-педагогические факторы, влияющие на этот процесс, и перспективы дальнейшего развития. Рассматриваются воспитательная роль семьи, непрерывность системы образования, духовно-просветительская деятельность военных структур, а также влияние средств массовой информации и цифровой среды на молодежь. Особое внимание уделяется программам патриотического воспитания, движению молодежи “Ватан ўглони”, “Школам мужества” и новым подходам в системе непрерывного образования, что позволяет раскрыть их значение в формировании военно-патриотической культуры.*

Ключевые слова: *Военно-патриотическая культура, воспитание молодежи, непрерывное образование, “Ватан ўглони”, “Школы мужества”, духовно-просветительская работа, цифровая среда.*

Kirish: Harbiy vatanparvarlik madaniyati zamonaviy jamiyatning ma’naviy tayanchi, fuqarolik birdamligi va mudofaa salohiyatini mustahkamlovchi muhim hodisalardan biridir. O‘zbekistonda bu tushuncha mustaqillik yillaridan boshlab bosqichma-bosqich rivojlanib kelmoqda va ayniqsa so‘nggi yillarda davlat siyosatining ustuvor yo‘nalishlaridan biriga aylandi. Bugungi globallashuv, axborot oqimining tezlashuvi, yoshlar ongiga ta’sir qiluvchi turli g‘oyaviy xurujlar sharoitida harbiy vatanparvarlik madaniyatini shakllantirish faqat harbiy tuzilmalarning emas, balki butun jamiyatning umumiy vazifasiga aylangan.

Mazkur mavzuning dolzarbligi shundaki, harbiy vatanparvarlik bugun faqat harbiy xizmatga tayyorgarlikni emas, balki fuqarolik mas'uliyati, milliy o'zlikni anglash, tarixiy xotira, jismoniy va ma'naviy barkamollikni ham qamrab oladi. Shu ma'noda harbiy vatanparvarlik madaniyati deganda shaxsning Vatanga muhabbat, uni himoya qilishga tayyorlik, harbiy burchni anglash, jamiyat manfaatini shaxsiy manfaatdan ustun qo'yish kabi sifatlari tushuniladi. Bu madaniyat oilada boshlanib, ta'lim muassasalarida tizimlashadi, harbiy muhitda mustahkamlanadi va ommaviy axborot vositalari orqali keng ijtimoiy ongga singdiriladi.

O'zbekistonda bu yo'nalishda amalga oshirilayotgan islohotlar, xususan uzluksiz ta'lim tizimidagi yangi dastur, "Vatan o'gloni" harakati, "Jasorat maktablari" va harbiy ta'lim tizimidagi yangilanishlar, harbiy vatanparvarlik madaniyatini institutsional asosda rivojlantirishga qaratilganligini ko'rsatadi. Shunday ekan, ushbu maqolada zamonaviy o'zbek jamiyatida harbiy vatanparvarlik madaniyatining shakllanish mexanizmlari, rivojlanish yo'nalishlari va istiqbollari ilmiy tahlil qilinadi.

Mazkur tadqiqotda tahliliy, qiyosiy, tizimli va kontent-tahlil usullaridan foydalanildi. Tadqiqot manbalari sifatida O'zbekistonda qabul qilingan rasmiy axborotlar, vatanparvarlik tarbiyasiga oid davlat dasturlari, harbiy ta'lim islohotlari haqidagi ma'lumotlar hamda mavzuga doir ilmiy maqolalar tanlab olindi. Ushbu manbalar zamonaviy o'zbek jamiyatida harbiy vatanparvarlik madaniyatining qanday shakllanayotganini va qaysi omillar uning istiqbolini belgilashini ko'rsatib berishga xizmat qildi.

Tadqiqot metodologiyasi ijtimoiy-pedagogik yondashuvga asoslandi. Bunda harbiy vatanparvarlik madaniyati birgina ma'naviy tushuncha emas, balki oilaviy muhit, ta'lim tizimi, harbiy institutlar, davlat siyosati va media makonning o'zaro ta'siri natijasi sifatida ko'rib chiqildi. Shuning uchun tadqiqotning asosiy e'tibori aynan ana shu institutlarning integratsiyasiga qaratildi.

Asosiy qism: Tadqiqot natijalari shuni ko'rsatadiki, zamonaviy o'zbek jamiyatida harbiy vatanparvarlik madaniyati bir necha asosiy omillar ta'sirida shakllanmoqda.

Birinchi omil - davlat siyosati va huquqiy asoslarning mavjudligidir. 2026-yilda tasdiqlangan vatanparvarlik dasturi uzluksiz ta'limning barcha bosqichlarida yoshlar ongiga milliy o'zlik, mas'uliyat, vatanparvarlik va harbiy xizmatga hurmatni singdirishni nazarda tutadi. Bu dastur uch bosqichli yondashuvga asoslangan bo'lib, unda maktabgacha, umumiy o'rta va oliy ta'lim bosqichlari o'zaro bog'langan.

Ikkinchi omil - ta'lim muassasalaridagi islohotlardir. O'zbekistonda "Jasorat maktablari" loyihasining joriy etilishi, maktablarda boshlang'ich harbiy tayyorgarlikni kuchaytirish, matematika, tarix, jismoniy tarbiya, xorijiy tillar va huquqiy savodxonlikni birlashtirgan kengaytirilgan o'quv dasturlari yaratilmoqda. Bu esa vatanparvarlik madaniyatini faqat nazariy darajada emas, balki amaliy va intellektual darajada shakllantirish imkonini beradi.

Uchinchi omil - harbiy tuzilmalarning ma'naviy-ma'rifiy faoliyatidir. O'zbekiston Qurolli Kuchlari nafaqat mudofaa tizimi, balki yosh avlodni harbiy vatanparvarlik ruhida tarbiyalovchi muhim ijtimoiy institut sifatida qaralmoqda. Harbiy qism va o'quv muassasalari o'rtasidagi hamkorlik, harbiy xizmatning nufuzi, harbiy kasblarning ommalashuvi va yoshlar uchun tashkil etilayotgan amaliy mashg'ulotlar ushbu jarayonning tarkibiy qismiga aylanmoqda.

To'rtinchi omil - oila va mahalla muhitidir. Oila bola shaxsiyatining ilk tarbiya makoni bo'lib, unda Vatanga sadoqat, kattalarga hurmat, intizom va mas'uliyat asoslari shakllanadi. Mahalla esa bu tarbiyani jamoaviy darajada mustahkamlaydi. O'zbek ijtimoiy an'analarida mahalla tarbiyaviy institut sifatida katta o'rin tutgani sababli, harbiy vatanparvarlik madaniyatini shakllantirishda ham uning roli beqiyosdir.

Beshinchi omil - ommaviy axborot vositalari va raqamli muhitdir. Bugungi yoshlar ko'proq internet, ijtimoiy tarmoqlar, onlayn platformalar orqali axborot oladi. Shu sababli vatanparvarlik mazmunidagi to'g'ri, mazmunli va qiziqarli kontent yaratish muhimdir. Agar media makonda tarixiy qahramonlar, zamonaviy harbiylar jasorati, milliy qadriyatlar va davlat ramzlariga hurmat kuchli targ'ib qilinsa, bu yoshlar ongida ijobiy identifikatsiyani shakllantiradi.

Harbiy vatanparvarlik madaniyatining shakllanishi jamiyatdagi ijtimoiy institutlarning uyg'un faoliyatiga bog'liq. Oila, ta'lim, harbiy tizim va OAV bir-birini to'ldirsa, vatanparvarlik madaniyati barqaror va chuqur mazmun kasb etadi. Ammo bu institutlar o'rtasida uzilish yuzaga kelsa, tarbiya jarayoni parchalanib ketishi mumkin. Shu sababli O'zbekistonda mavjud islohotlar ushbu institutlarni yagona strategiya asosida birlashtirishga qaratilgan bo'lishi kerak.

Yangi vatanparvarlik dasturining uch bosqichli modeli bu borada muhim qadamdir. Chunki unda 3-6 yoshli bolalarda milliy o'zlik va o'zini boshqarish ko'nikmalari, 7-18 yoshdagilarda tarixiy meros, mas'uliyat va dunyoqarash, 16-22 yoshdagilarda esa milliy qadriyatlarga hurmat, faol fuqarolik va harbiy xizmatga tayyorgarlik shakllantirilishi belgilangan. Bunday yondashuv yoshning psixologik va ijtimoiy xususiyatlarini hisobga oladi.

"Vatan o'gloni" harakati ham harbiy vatanparvarlik madaniyatini ommaviylashtirishda muhim o'rin tutadi. U maktablar bazasida tashkil etilib, o'quvchilarni sport, harbiy-intizomiy faoliyat, jamoaviy ish va ma'naviy tarbiya bilan qamrab olishni maqsad qilgan. Bu tashabbus yoshlarning bo'sh vaqtini mazmunli tashkil etish, ularni faol hayotga jalb qilish va harbiy xizmatga psixologik tayyorlashga xizmat qiladi.

“Jasorat maktablari” loyihasi esa harbiy vatanparvarlikning zamonaviy modelini ifodalaydi. Bu maktablarda kengaytirilgan o‘quv dasturi, amaliy mashg‘ulotlar, harbiy qismlardagi treninglar va jismoniy tayyorgarlik kuchaytirilmoqda. Natijada o‘quvchilar bilim, iroda, intizom va jismoniy tayyorgarlikni birgalikda egallash imkoniga ega bo‘ladi. Bu esa kelajakdagi harbiy va fuqarolik faoliyatida muhim ustunlik beradi.

Harbiy madaniyatning ma’naviy asoslari ham alohida e’tiborga loyiq. “Spiritual and moral basis of military culture of the army of Uzbekistan” mazmunidagi ilmiy qarashlarda harbiy madaniyatning tarixiy ildizlari, ma’naviy tayanchlari va zamonaviy armiyaning ruhiy qiyofasi tahlil qilinadi. Bu yondashuv shuni ko‘rsatadiki, harbiy vatanparvarlik faqat fizik yoki tashkiliy tayyorgarlik emas, balki ma’naviy qadriyatlar tizimidir.

Raqamli muhitda esa yangi muammolar va imkoniyatlar yuzaga kelmoqda. Bir tomondan, internet yoshlar uchun tezkor axborot manbai bo‘lsa, ikkinchi tomondan, noto‘g‘ri g‘oyalar va salbiy modelarning tarqalish maydoniga aylanishi mumkin. Shu sababli vatanparvarlik kontentini professional darajada ishlab chiqish, media savodxonlikni oshirish va milliy narrativni kuchaytirish zarur. Bu yo‘nalishda davlat idoralari, ta’lim tizimi va media ishlab chiqaruvchilarning hamkorligi muhim.

Istiqbolda harbiy vatanparvarlik madaniyatini rivojlantirishning quyidagi yo‘nalishlari dolzarb bo‘lib qoladi. Birinchidan, ta’limning barcha bosqichlarida vatanparvarlik mazmunini integratsiyalash. Ikkinchidan, harbiy tuzilmalar va fuqarolik ta’limi o‘rtasidagi hamkorlikni kuchaytirish. Uchinchidan, raqamli media orqali yoshlar uchun interaktiv loyihalar yaratish. To‘rtinchidan, oilaviy tarbiya va mahalla institutining pedagogik salohiyatini oshirish. Beshinchidan, harbiy vatanparvarlik bo‘yicha ilmiy tadqiqotlar, monitoring va baholash tizimini yo‘lga qo‘yish.

Shu bilan birga, harbiy vatanparvarlik madaniyatini shakllantirishda xalqning tarixiy xotirasi ham muhim rol o‘ynaydi. Ajdodlarimizning yurt himoyasi, jasorat va fidoyilik haqidagi merosi yoshlar uchun kuchli manba bo‘lib xizmat qiladi. Tarixiy xotira bilan zamonaviy islohotlarni uyg‘unlashtirish esa milliy vatanparvarlikni yanada mustahkamlaydi.

Tadqiqot asosida quyidagi amaliy istiqbollarni taklif qilish mumkin:

- har bir ta’lim bosqichi uchun alohida harbiy vatanparvarlik kompetensiyalari ishlab chiqish;
- “Jasorat maktablari” tajribasini bosqichma-bosqich boshqa maktablarga ham yoyish;
- harbiy qismlar, muzeylar va tarixiy obidalar bilan ta’lim muassasalari o‘rtasida doimiy hamkorlik mexanizmini yaratish;
- OAVda yoshlar uchun vatanparvarlik mavzusidagi seriallar, podkastlar va interaktiv ko‘rsatuvlarni ko‘paytirish;
- oila va mahalla uchun metodik qo‘llanmalar tayyorlash;
- harbiy vatanparvarlikning samaradorligini o‘lchash uchun ijtimoiy-pedagogik monitoring tizimini joriy etish.

Bu takliflar amalga oshirilsa, zamonaviy o‘zbek jamiyatida harbiy vatanparvarlik madaniyati yanada tizimli, ta’sirchan va barqaror shakllanadi.

Xulosa qilib aytganda, zamonaviy o‘zbek jamiyatida harbiy vatanparvarlik madaniyati davlat siyosati, ta’lim tizimi, harbiy institutlar, oila, mahalla va OAVning o‘zaro hamkorligi asosida shakllanmoqda. 2026 yilda tasdiqlangan uzluksiz ta’lim dasturi, “Vatan o‘gloni” harakati, “Jasorat maktablari” va harbiy ta’lim tizimidagi islohotlar bu yo‘nalishning istiqbolini belgilab berdi.

Tadqiqot natijalari shuni ko‘rsatadiki, harbiy vatanparvarlik madaniyati faqat harbiy xizmatga tayyorlik emas, balki milliy o‘zlikni anglash, fuqarolik mas’uliyati, tarixiy xotira, ma’naviy barkamollik va ijtimoiy faollik majmuasidir. Kelgusida bu madaniyatni yanada rivojlantirish uchun uzluksiz ta’lim, media savodxonlik, amaliy harbiy tayyorgarlik va ijtimoiy hamkorlikni chuqurlashtirish talab etiladi.

PHILOSOPHICAL

MUSTAQILLIK YILLARIDA MA'NAVIY-AXLOQIY, GUMANISTIK FIKRLAR TARIXIGA YANGICHA YONDASHUVLAR

O.Ortiqov
Qo'qon davlat universiteti dotsenti, falsafa fanlari bo'yicha falsafa doktori (PhD)
https://orcid.org/my-orcid?orcid=0009-0008-9298-7645

Annotatsiya: *Mustaqillik dastlabki yillarida ma'naviy-axloqiy hamda gumanistik merosimizga bo'lgan munosabat tubdan o'zgardi.Ajdodlarimiz ijtimoiy-falsafiy merosini yangi davr nuqtai nazaridan o'rganish ishlari mustaqillikka erishganimizdan keyin jadal boshlanib ketdi.Jumladan, o'rganilishi ma'n etilgan tasavvuf allomalari, mutafakkirlar hayoti va ijodini izchil ravishda tadqiq etish ishlari amalda boshlanib ketdi. Maqolada unutilib ketgan ajdodlarimiz nomma-nom keltirilgan bo'lib, ular tomonidan amalga oshirilgan ishlar hamda ularning faoliyati keltirib o'tilgan.*

Kalit so'zlar: *Mustaqillik, ma'naviy-axloqiy, gumanistik meros, Quroni Karim, hadis, islom dini, Avesto, ijtimoiy-falsafiy fikrlar, Markaziy Osiyo mutafakkirlari*

НОВЫЕ ПОДХОДЫ К ИСТОРИИ ДУХОВНОЙ, МОРАЛЬНОЙ И ГУМАНИСТИЧЕСКОЙ МЫСЛИ В ГОДЫ НЕЗАВИСИМОСТИ

Аннотация: *В первые годы независимости отношение к нашему духовному, нравственному и гуманистическому наследию радикально изменилось. Изучение социально-философского наследия наших предков с точки зрения новой эпохи началось всерьез после обретения независимости. В частности, началась работа по систематическому исследованию жизни и творчества мистиков и мыслителей, изучение которых было запрещено. В статье перечислены имена наших забытых предков, описана их работа и деятельность.*

Ключевые слова: *Независимость, духовно-этический, гуманистическое наследие, Коран, хадис, религия ислам, Авеста, социально-философские мысли, мыслители Центральной Азии*

NEW APPROACHES TO THE HISTORY OF SPIRITUAL, MORAL, AND HUMANISTIC THOUGHT DURING THE YEARS OF INDEPENDENCE

Abstract: *In the early years of independence, the attitude towards our spiritual, moral and humanistic heritage changed radically. The study of the socio-philosophical heritage of our ancestors from the perspective of a new era began to accelerate after we achieved independence. In particular, the work of systematically studying the lives and works of forbidden Sufi scholars and thinkers has practically begun. The article lists our forgotten ancestors by name, and describes the work they did and their activities.*

Key words: *Independence, spiritual and moral, humanistic heritage, Holy Quran, Hadith, Islamic religion, Avesta, socio-philosophical thoughts, Central Asian thinkers.*

Kirish

Mustaqillik yillarida boshlangan ijtimoiy-falsafiy fikrlar tarixini o'rganish buyuk ajdodlarimizning konseptual ahamiyatga ega axloqiy-ma'naviy merosini, gumanistik qarashlarini o'rganishdan boshlandi desak bo'ladi. Mustaqillik yillarida ma'naviy-axloqiy va gumanistik merosni o'rganishga oid ko'plab tadqiqotlar, kitoblar va risolalar chop etildi. Ularda ushbu merosning badiiy, ijtimoiy-falsafiy, pedagogik, psixologik, tarixiy, sotsiologik, antropologik jihatlari ochib berilgan. To'plangan boy materiallarni jamlash va umumlashtirishga, kelgusi tadqiqotlar uchun yo'llanma ishlab chiqishga ehtiyoj paydo bo'ldi.

Bizning kuzatishimizcha bu jarayon sho'rolar davridayoq boshlangan edi. Respublikamizning yetakchi faylasuflari E.Yusupov, I.Mo'minov, S.Shermuhamedov, M.M.Xayrullaev, K.Bo'ronov, H.Aliqulov, P.N.Nosirov, A.J.Sharipov, M.A.Abdullaev,A.E.Abdusamedov, R.Abdushukurov, A.T.Ayupov, M.K.Aripov, J.M.Boboev, M.N.Boltaev, H.F.Vohidov, Y.Jumaboev, V.Y.Zohidov, A.O.Ortiqov, H.P.Po'latov, T.Oqmurodov, S.P.Tursunmuhamedov, Q.Xonazarov, K.Xudoyberganov kabilar falsafa tarixi va buyuk ajdodlarimizning ijtimoiy-falsafiy, axloqiy va ilmiy meroslarini o'rganish borasida muhim izlanishlar olib borganlar, monografiyalar, to'plamlar, o'quv qo'llanmalari chop

ettirganlar. Mustaqillik davrida ushbu to‘plangan materiallarni qayta ko‘rib chiqishga to‘g‘ri keldi. Natijada mustaqillikning dastlabki yillari (1991-1994 yillar) da to‘plangan ijtimoiy-falsafiy fikrlarni qayta anglash jarayoni kechdi. Ushbu yillarda chop etilgan asarlarda ham eski mafkura ta’siri, izlari sezilib turadi. 1994-1996 yillardan tadqiqotlarning, izlanishlarning milliy mafkuraga qurilishi, O‘zbekistonning mustaqilligini mustahkamlash va tarixiy-madaniy merosni qayta tiklashga intilishi ustuvorlik qila boshlaydi.

Asosiy qism

Eng avvalo Qur’oni Karimning Alouddin Mansur tomonidan o‘zbek tiliga tarjima qilinib chop etilganini aytish o‘rinlidir. “Qur’oni Karimda bayon etilgan masalalar markazida inson muammosi markaziy o‘rinni egallaydi. Unda insonning Alloh tomonidan qanday qilib, nimadan yaratilganligi, uning bu dunyoda yashashdan maqsadi, boshqa tirik va notirik mavjudotlar ichida xalifa ekanligi, tabiatdagi barcha narsalar uning izmiga bo‘ysunishi va shunga o‘xshash ko‘plab masalalar yoritiladi”. Qur’oni Karimda “insonning bu dunyodagi mavqei va o‘rni masalasiga alohida e’tibor beriladi. Unda aytilishicha, Xudo insonni yer yuzida xalifa qilib yaratgan, barcha farishtalar, iblisdan tashqari, tirik mavjudotlar, maxluq va jonivorlar unga bo‘ysunadi. “Eslang, (Biz) farishtalarga Odamga sajda qiling, deyishimiz bilan sajda qildilar. Faqat iblis (kibrlanib): “Sen loydan yaratgan kimsaga sajda qilamanmi? - dedi”. Darhaqiqat, Qur’oni Karim bo‘yicha, inson eng oliy zot, olamning sarvari qilib yaratilgan. U aziz va mukarramdir” [1;-21].Qur’oni Karimdagi axloqiy-ma’naviy fikrlarni umumlashtirib, insonning bu dunyodagi vazifalarini uqtirib H.Aliqulov yozadi: “Inson oxiratda do‘zax azoblaridan forig‘ bo‘lib, jannatda rohat va farog‘atda bo‘laman desa, taqvodor, imonli va e’tiqodli bo‘lishi bilan birga, ezgulik, yaxshi va solih amallar bilan mashg‘ul bo‘lishi, o‘zgalarga xayr- ehson qilishi, muhtoj va g‘ariblarga yordam ko‘rsatishi, mehr-shafqatli va rahmdil bo‘lishi zarur.

Shunday qilib, Qur’on va hadislarda ezgulik falsafasiga, dunyoviy masalalarga, insonning bu dunyoda oxiratga tayyorgarlik ko‘rishi, qanaqa ishlar bilan mashg‘ul bo‘lishi haqida mufassal bayon qilinadi” [2;-22-23].

Shu bilan birga Qur’oni Karimdagi ijtimoiy-falsafiy, ma’naviy-axloqiy va gumanistik fikrlar hali maxsus tadqiq etilmaganini aytishimiz kerak. To‘g‘ri, islom falsafasiga oid to‘plamlar, undagi ma’lum bir ma’naviy-axloqiy fikrlar haqida maqolalar chop etilgan. Ibrohim Karimov imon, I.Xo‘jamuradov islom va milliy o‘zlikni anglash, T.Tashlanov islomoy qadriyatlarning yoshlar ongiga, turmush tarziga ta’sirini, A.Abdusamedov islom dinining ijtimoiy hayotdagi o‘rni, I.Jabborov islomning ijtimoiy-madaniy taraqqiyotga ta’siri, T.Oqmurodov islomdagi hurfikrlik masalalarini, I.Xudoyberdiev islom dinining ijtimoiy-psixologik jihatlarini, R.Shodiev va G.Navro‘zovalar tasavvuf ta’limotining O‘rta Osiyo xalqlari ma’naviy hayotdagi ahamiyatini o‘zlarining doktorlik dissertatsiyalarida tadqiq qilganlar. Shuningdek, islomdagi ma’naviy-axloqiy masalalar A.Arifxanova, M.Mamatov, Z.Markaev, A.Muratbaeva, N.Musaeva, F.Yuldasheva kabi tadqiqotchilarning nomzodlik va doktorlik dissertatsiyalarida u yoki bu yo‘nalishda o‘rganilgan. Ming afsuski, ushbu tadqiqotlar natijalari tor doiraga ma’lum va ularning ma’naviy-axloqiy hayotga joriy etish texnologiyasi ishlab chiqilmagan. O‘tkazilgan tadqiqotlar yo monografiya, yoki dissertatsiya holida qolib ketmoqda. To‘g‘ri, ma’naviy-axloqiy fikrlarni darrov ijtimoiy hayotga joriy etish qiyin, ularni qabul qilish uchun jamiyat, tuzum, muhit tayyor bo‘lishi, ularga ehtiyoj sezishi darkor.

Ma’naviy-axloqiy va gumanistik merosni o‘rganish va yoritishdagi muhim voqea Qur’oni Karimni chop etish bilan birga Muhammad payg‘ambarning hayoti hamda hadislarni ommalashtirish bo‘ldi. Bu borada A.Sog‘uniyning “Tarixi Muhammadiy” (1991 yil), “Axloq-odobga oid hadis namunalari” va al-Buxoriyning 4 jildlik “Al-Jomi’ as-Sahih” (ishonarli to‘plam) to‘plamini keltirishimiz mumkin.

Muhammad payg‘ambar hayoti va faoliyatini o‘rgangan A.Sog‘uniy yozadi: “Ey, bor xudoyo, bizlarga bu dunyo, u dunyo, har ikki dunyoda yaxshilik bergil va ham do‘zax azobidan asragil”, degan bo‘lur. Alloh taolo bu oyatda har ikki dunyoning yaxshiligini so‘rashga bandalarini buyurdi. Bu davlatga yetish yo‘llarini ularga o‘zi ko‘rsatdi, dunyo davlatini qo‘lga kiritish uchun ilm o‘qishga buyurdi. Oxirat yaxshiligiga yetish, do‘zax azobidan qutulish uchun dinni ushlashga amr qildi. Ilm o‘qib, tabiat asrorini ochishga asbob (sabab) qilib, aql-idrok berdi. Dinni o‘rgatib, iymon-insof yo‘llarini bildirish uchun payg‘ambarlarni yubordi... Endi, insonlar xudo yuborgan yo‘lboshchilari Muhammadga ergashib, aning yo‘liga kirar ekanlar, bu dunyoda rohatda yashab, oxiratda jannatga kirgaylar. Agar shunday bo‘lmas ekan ... unday odamlarning bu dunyoda qo‘llari ishdan bo‘shamaydi,ko‘ngillari g‘amdin chiqmaydi” [3;-147-148]. Muxammad payg‘ambar hayoti va faoliyatini, uning insoniy va ilohiy fazilatlarini, ma’naviy-axloqiy ziynatlarini o‘rganishga oid ko‘plab kitoblarni nashr etishga kirishildi. Bu o‘rinda at-Termiziyning “Shamoili Muhammadiyya” (1991 yil), Muhammad Xuzariyning “Nur-ul yaqin” (1992 yil), “Muhammad alayhissalomning mo‘jizalari” (1993 yil) va “Movarounnahr” nashriyoti chop etayotgan ko‘plab risolalarni keltirishimiz mumkin. To‘g‘ri, ular tarixiy, diniy-irfoniy xarakterga ega, ammo Abu Homid G‘azzoliy, Najmiddin Kubro, Jaloliddin Rumiy, Fariduddin Attor, Shayx Odina Muhammad Xorazmiy, Abdulqodir Jiyloniy (Giyloniy), Alisher Navoiy (Foniy), Abduxoliq G‘ijduvoniy, Tabotaboiy, Imom Sha’roniy, as-Samarqandiy, Burhoniddin Marg‘inoniy, Mirsayyid Jurjoniy, Jomiy, Mirzo Bedil, Binoiy, Jaloliddin Davoniy, Nasriddin Tusiyning asarlarida ma’naviy-axloqiy fazilatlarning falsafiy talqini ham mavjuddir. Ayniqsa o‘zbek tilida chop etilgan G‘azzoliyning asarlarida Sharq falsafasining serqirra va diniy-dunyoviy ilmlarning naqadar katta

imkoniyatlarga ega ekanini ko‘rish mumkin. Xaqiqatan ham “Sharq falsafasi va uning tarmoqlari bo‘lgan tavhid, kalom, tafsir, hadis, ruhiy va tabiiy fanlar o‘rtasidagi ixtiloflarni bartaraf etib, buning o‘zaro uyg‘un rivojlanishi yo‘llarini kashf etgan, fan va din bir-biriga dushman emas, do‘st ekanligini dalillab bergan atoqli faylasuf Muhammad Abu Homid G‘azzoliy asarlari jahondagi juda ko‘p donishmand, faylasuflarning e’tiborini jalb etib kelgan” [4;-3]. G‘azzoliyning ma’naviy-axloqiy va ilmiy merosi havas uyg‘otadigan darajada rang-barang, ibratlidir. U “zamondoshlarining buzg‘unchilik va gunohlarini, hayotni chigallashtirgan bid’atchilarni, ikkiyuzlama va badnafs zolimlarni ayovsiz fosh etib, oddiy va halol mehnatkashlarning imdodiga yetishgan, islom dinining haqiqatlarini butun insoniyatga ochib ko‘rsatgan, shubhachilik bulutlarini tarqatib yuborgan, qalbi imon bilan qilg‘ilki, dilning haqiqatini tanig‘aysen”[5;-3]. Dil haqiqatini tanish esa o‘zlikni topish va “insonlik unvonini paydo qilmoq” dan boshlanadi [6;-32]. Shuning uchun G‘azzoliy mistitsizmi insondan, insonning ma’naviy-axloqiy sifatlaridan ayricha qarash, o‘rganish mumkin emas, chunki aynan insoniy ma’naviy olamiga yo‘naltirilgani G‘azzoliy diniy-falsafiy ta’limotining mag‘zini tashkil etadi [7;-29-30].

Ma’naviy-axloqiy fikrlarni hadislarsiz qarash mumkin emas. Aynan hadislarda “tabiat, borliq va jamiyat haqida fikrlar bo‘lishi bilan bir qatorda, unda ezgulik, insonparvarlik, yaxshilik, solih amallar, ilm-ma’rifat, xayr - ehson, axloq va xulq-odob va boshqa masalalarga oid fikrlar mavjud” [8;-23].

Mustaqillik yillarida axloq-odobga oid hadislar to‘plamlarini nashr etish nashriyotlarning ustuvor yo‘nalishlaridan biriga aylandi desak adashmaymiz. Imom al-Buxoriyning to‘rt jildlik va “Al-adab al-Mufrad” (Adab durdonalari) dan tashqari turli, ayniqsa viloyat nashriyotlarida 44 dan ziyod to‘plamlar, risolalar nashr etilgan bo‘lib, ularda islom dini, Qur’oni Karim va hadislardagi ma’naviy-axloqiy masalalar tadqiq etilgan. Ushbu maqolalar ko‘pincha informatsion, ba’zan esa tavtologik xarakterga ega bo‘lsa-da, ular islom va hadislardagi ma’naviy-axloqiy fikrlarni umumlashtirishga qaratilganini inkor qilib bo‘lmaydi. Umuman olganda, “islom dinida odamlarning fe’l-atvori, qiliqlari, qilgan ishlari, jamiyatga keltirgan foyda-ziyoni, kattalarga, ota-onaga munosabati, nafsini tiyishi yoki ta’magirligi, ochko‘z va badnafsligi, xushmuomalaligi, mehr-oqibatliligi, xulq-odobi, hatti-harakati, bilimdonligi yoki nodonligi, odamiyligi yoki sitamgarligi, rostgo‘yligi yoki yolg‘onchiligi, firibgarligi, oliyhimmatligi yoki tubanligi, tovlamachiligi, saxiyligi, boylikka ruju qo‘yishi, mehrli va muruvvatliligi, aqlliligi, fahm-farosatliligi, ayollarga munosabati, bag‘rikengligi, hasadchi yoki g‘iybatchiligi va boshqalarga qarab yaxshi va yomonga bo‘linadi. Yaxshilik va ezgulik, yomonlik va yovuzlik tushunchalarining ma’no va mazmuni keng qamrovli ekani ana shundan ayon bo‘ladi”[9;-23-24].

Muhokama

Ma’naviy-axloqiy va gumanistik fikrlar tarixi M.M.Xayrullaev, B.Iskandarov, K.Bo‘ronov, I.Jumaboev, H.Aliqulov, R.Nosirov, A.Sharipov, M.Usmonov, T.Karimov kabi faylasuflar tomonidan tadqiq etilib uning Sharq falsafasida, shu jumladan, Markaziy Osiyo xalqlari tafakkurida tutgan o‘rni ochib berilgan. Masalan, B.Iskandarovning tadqiqotida Markaziy Osiyo xalqlarining buyuk vakillari - Forobiy, Beruniy, Ibn Sino, Navoiy, Bobur, Mashrab kabi mutafakkirlarning ijtimoiy-axloqiy va falsafiy qarashlari, ular gnoseologik izlanishlarining ma’naviy hayotga ta’siri masalalari tadqiq etilgan. Olim buyuk ajdodlarimiz merosidagi ma’naviy-axloqiy va falsafiy fikrlarning yangi qirralarini ochib bergan [10]. To‘g‘ri, uning asarida yangi ijtimoiy-falsafiy tafakkur nuqtai nazaridan yondashish, mavjud ijtimoiy-ma’naviy merosni yangicha baholash sezilmaydi. Y.Jumaboevning o‘quv qo‘llanmasida esa ijtimoiy-axloqiy merosga yangicha yondashuv yaqqol ko‘zga tashlanadi. U sho‘rolar davrida o‘rganilishi taqiqlangan islom falsafasi, tasavvuf, Sharif Jurjoniy, Naqshbandiya tariqati va jadidchilikni talabalarga o‘qitish zarurligini ko‘tarib chiqadi, bu borada to‘plangan ma’naviy-axloqiy va ijtimoiy-falsafiy fikrlarni to‘plab, umumlashtirib yangi ijtimoiy-falsafiy tafakkurning shakllanishiga zamin yaratadi [11]. Shubhasiz, u I.M.Mo‘minov, M.M.Xayrullaev, B.Iskandarovning chop ettirgan asarlariga tayangan.

Keyingi yillarda “Avesto” ni o‘rganish va yoritish bo‘yicha keng izlanishlar olib borildi. Respublikamiz olimlari M.M.Xayrullaev, E.Yusupov, E.Rtveladze, T.Mahmudov, S.Xasanov, M.Homidiy, B.Ahmedov, I.Jabborov, T.Karimov, H.Boboev, Z.G‘ofurov kabi tadqiqotchilarning turli yo‘nalishdagi izlanishlari ma’naviy-axloqiy fikrlar doirasini kengaytirdi. Ayniqsa, “Avesto” ning 2700 yilligi keng nishonlanishi zardo‘shtiylikdagi gumanistik merosni Respublikamizda kechayotgan ma’naviy-axloqiy o‘zgarishlar nuqtai nazaridan o‘rganish va yoritishni taqozo etdi. Shuning uchun H.Aliqulov qayd etadi: “Zardo‘shtiylikning insonparvarlik falsafasida inson o‘zida yaxshilikni, iymon-e’tiqodni o‘ziga mujassamlashtirgan, uning xatti-harakatlari, faoliyati insonparvarlikka yo‘naltirilgan, barkamol inson tarbiyasiga qaratilgan bo‘lishi lozim. Axura Mazda kishilarni doimo ezgulikka, insof va ahil yashashga, adolatsizlik, nohaqlik, g‘arazgo‘ylik, yovuzlik, firibgarlik, yomonlik, aldamchilik va shularga o‘xshash insoniylik martabasiga zid bo‘lgan yaramas va tuban illatlarga qarshi kurashga da’vat etadi”. “Avesto” kitobida ilgari surilgan “ezgu fikr”, “ezgu so‘z”, “ezgu amal” haqidagi qimmatli fikrlar keyingi davrda axlokiy-gumanistik qadriyatlarning rivojida muhim ahamiyatga ega bo‘ldi. Undagi insonparvarlik g‘oyalari hozir ham o‘z qiymatini yo‘qotmay, yosh avlodni tarbiyalashga xizmat qilmoqda”. Ayniqsa Zardo‘shtning yurti Xorazm ekanligining asoslanishi “Avesto” ni mutlaq boshqacha, yangi ijtimoiy-falsafiy fikr nuqtai nazaridan baholashga, undagi axloqiy va estetik idealni qadrlashga o‘rgatadi, falsafa fanlari doktori, professor T.Mahmudov yozganidek, “Zardo‘shtiylik falsafasi dunyoga axloqiy ne’mat va ne’matning, go‘zallik

olami baxsh etuvchi zavq-shavqning, adolat va tinchlik keltiruvchi osoyishtalikning, poklik va taqvodorlikning natijasi bo‘lgan insoniy komillikning bezavol qo‘shiqlari bo‘lib taraladi”[12;- b].

Zardo‘shtiylikdagi ma’naviy-axloqiy qarashlar islom dini va an’analari orqali yashab kelgani tarix fanlari doktori A.Ashurov, falsafa fanlari doktori, professor I.Jabborov, pedagogika fanlari doktori, professor S.Xasanov kabi olimlarning monografik asarlarida ochib berilgan.

Ma’naviy-axloqiy va gumanistik merosning kelgusi tarixiy bosqichi Turk xoqonligi, O‘rxun Enasoy bitiklari bilan bog‘liqdir. Turk xoqonligining yuzaga kelishi va Yevroosiyo sivilizatsiyasining shakllanishi tarixini G.Ye.Grum-Grjimaylo, N.V.Kyunere, A.Yu.Yakubovskiy, M.N.Artamonov, S.L.Tixvinskiy, I.Bichurin, L.N.Gumilev, B.Ahmedov, M.Isxoqov, N.Rahmonov kabi olimlar o‘rgangan. Biroq ularning diqqati Turk xoqonligining yuzaga kelishi va yemirilishi jarayonlariga bag‘ishlangan. M.Isxoqov va M.Rahmonov esa turkiy bitiklarni o‘rganish bilan cheklangan. Ushbu davrga oid ma’naviy-axloqiy fikrlar ilk bor H.Aliqulovning risolasida tahlil qilingan [13].

Tahlil

Sobiq “Falsafa va huquq instituti” nashriyoti H.Aliqulov, R.Nosirov, A.Sharipov, M.Usmonov muallifligidagi “O‘zbekistonda ijtimoiy-axloqiy va gumanistik fikrlar tarixining muhim bosqichlari” va 2009 yili H.Aliqulovning “Falsafiy meros va ma’naviy-axoqiy fikr rivoji” to‘plam-kitoblarini chop ettirdi. Ushbu to‘plam-kitoblarni yuqoridagi ilmiy ehtiyojning natijasi desak bo‘ladi. Birinchi to‘plamda Markaziy Osiyoda antik davrda yuzaga kelgan ma’naviy-axloqiy fikrlardan “Avesto”, islom falsafasi bilan bog‘liq jarayonlar, imom al-Buxoriy, Abu iso at-Termiziy, Forobiy, Ibn Sino, Beruniy, G‘ijduvoniy, Zamaxshariy, Najmiddin Kubro, Yusuf Xos Hojib, Yassaviy, Marg‘inoniy, Ahmad Yugnakiy, Pahlavon Mahmud, Naqshbandiy, Alisher Navoiy, Bobur, Mashrab, Berdaq va jadidlarning ma’naviy-axloqiy va gumanistik fikrlari tadqiq etilgan. Ikkinchi to‘plam birinchi to‘plamning mantiqiy davomidir. Unda tadbiq ob’ekti o‘zgarmagan - u Sharq mutafakkirlarining ma’naviy-axloqiy va gumanistik merosidir. To‘g‘ri, unda Sharq pandnomalari, gumanistik merosni o‘rganish masalalari, Amir Temurning ilm-fanga homiyligi, Koshifiyning ilmiy merosi, Jomiyning ilm-ma’rifatga oid fikrlari, Binoiyning ijtimoiy-axloqiy qarashlari, I.Mo‘minovning ijtimoiy-falsafiy merosi, Jaloliddin Davoniyning ta’lim-tarbiya, axloq borasidagi g‘oyalari tadqiq etilgan. Bu bilan muallif birinchi to‘plam tadqiqot doirasini kengaytirgan. Jaloliddin Davoniy (1427 - 1502 yillar) haqidagi ilmiy ma’lumot 1972 yilda nashr etilgan “Iz filosofskogo naslediya narodov Vostoka” to‘plamida berilgan edi. Shundan beri ushbu mutafakkir merosi haqida ma’lumotlar uchramaydi. H.Aliqulov doktorlik dissertatsiyasi mavzuini davom ettirishni maqul ko‘rgan va uni yangi davr nuqtai nazaridan baholashga intilgan. I.M.Mo‘minovning ijtimoiy-falsafiy merosini yangi davr nuqtai nazaridan baholash esa davrimiz uchun mutlaq yangilikdir.

Markaziy Osiyo mutafakkirlarining ma’naviy-axlokiy va gumanistik fikrlari M.Imomnazarovning “Milliy ma’naviyatimiz nazariyasiga chizgilar” (1998 yil), H.Homidovning “Ajdodlar sabog‘i - aql bayrog‘i” (1998 yil), A.Ibrohimovning “Boburnoma - buyuk asar” (2000 yil), Q.Munirovning “Bebaho xazina” (2002 yil), K.Bo‘ronovning “Xalqimiz ma’naviyati va ma’rifatining teran ildizlari” (2003 yil), H.Xomidiyning “Tasavvuf allomalari” (2004 yil), U.Uvatovning “Abul Mu’iyn an-Nasafiy” (2003 yil), T.Doschanov, S.Xasanovning “Zvezdы akademii Ma’muna” (2004 yil), H.Homidiyning “Ko‘hna Sharq darg‘alari” (2004 yil), “Bedil va o‘zbek ma’naviyati” - to‘plam (2005 yil), T.Karimning “Sharq al-Tayr yulduzlari” (2005 yil), R.N.Nosirov, Sh.S.Sirojiddinov, X.A.Ziyautdinovaning “O‘rta Osiyolik allomalarning falsafiy qarashlari” (2007 yil), “Dunyoviylik falsafasi” - to‘plam (2007 yil), Ibrohim Haqqulning “Meros va mohiyat” (2008 yil), E.Xoliqov, M.Lafasov, M.Rustamovning “Merosimiz ildizlari” (2008 yil), R.Nosirovning “Abu Ali ibn Sinoning tabiiy-ilmiy va ijtimoiy-falsafiy qarashlari” (2009 yil), “Ibn Sinoning ilm va axloqqa doir ba’zi risolalari” (2009 yil), A.Erkaevning “Ma’naviyat - millat nishoni” (1999 yil), uning “Ma’naviyat va taraqqiyot modeli” (2005 yil), S.Otamuratov va S.Otamuratovning “O‘zbekistonda ma’naviy-ruhiy tiklanish” (2003 yil), T.Mahmudovning “Mustaqillik va ma’naviyat” (2001 yil), N.Temirovaning “Qadriyatlar va yoshlar kamoloti” (2009 yil), I.Ergashevning “Taraqqiyot falsafasi” (2000 yil), G.Tillaevaning “Ijtimoiy muhit va yoshlar tarbiyasi” (2009 yil) kitobida u yoki bu yo‘nalishda o‘z ifodasini toptan. Ma’naviy-axloqiy fikrlar tarixini bevosita o‘rganishga qaratilmagan bo‘lsa-da, ular A.Chorievning “Inson falsafasi. Inson to‘g‘risidagi falsafiy fikrlar taraqqiyoti” (1998 yil) va “Inson falsafasi. Mustaqil shaxs. II kitob” (2002 yil), A.Ochildievning “Milliy g‘oya va millatlararo munosabatlar (2004 yil), A.S.A’zamxodjaevaning “Ijtimoiy ideal va ma’naviy hayot” (2007 yil), G.Tulenovaning “Barkamol yosh avlod - istiqlol tayanchi” (2004 yil), B.Ochilovaning “Shaxs ma’naviy kamolotida ixlosmandlik va ibrat birligi” (2004 yil), Ibrohim Karimovning “Noosfera: geosiyosat va mafkura” (2007 yil) deb atalgan kitoblarida tilga olinadi. Ularning tadqiq etgan muammolari juda rang-barang, ammo ularda Markaziy Osiyo xalqlarining ma’naviy-axloqiy va gumanistik merosiga murojaat etish, Respublikamizning strategik maqsadi bo‘lgan yuksak ma’naviyatli barkamol avlodni shakllantirishning tarixiy tajribaga tayanib o‘rganish masalalari yoritilgan.

Xulosa

Respubilikamizda ma’naviy-axloqiy va gumanistik merosga murojaat kilish hech qachon to‘xtamagan, bu ham xalqimiz hayoti, tarixi, madaniyati tadrijiy rivojlanishga moyilligini ko‘rsatadi. To‘g‘ri, ijtimoiy-falsafiy fikrlarni yangi

bosqichga undovchi asarlar, konseptual izlanishlar bo‘ladi. Bizning fikrimizcha, Birinchi Prezidentimiz I.A.Karimovning “Tarixiy xotirasiz kelajak yo‘q” asari falsafiy-tarixiy izlanishlar strategiyasini belgilab, ular yo‘nalishini, ahamiyatini yangi bosqichga ko‘targan bo‘lsa, uning “Yuksak ma’naviyat- yengilmas kuch” asari ma’naviy-axloqiy va gumanistik merosni tadqiq etishda yangi bosqichni boshlab berdi.

O‘zbekistan Respublikasi mustaqil taraqqiyotga o‘tgach demokratik xuquqiy davlat va erkin fuqarolik jamiyati barpo etish, yuksak ma’naviyatli barkamol avlodni shakllantirishni o‘zining strategik maqsadi qilib qo‘ydi. Ushbu strategik maqsadga yetishning samarali yo‘llaridan biri xalqimiz, millatimiz, ijtimoiy-tarixiy, siyosiy, ma’naviy tajribasiga murojaat etib, undagi milliy taraqqiyotga mos keluvchi qadriyatlarni o‘rganish, ularni ma’naviy hayotga tadbiq etishdir.

Mustaqillik yillarida o‘tkazilgan tadqiqotlar va chop etilgan asarlarda “Avesto” va zardo‘shtiylik, islom va tasavvufiy qarashlar, ijtimoiy-utopik g‘oyalar badiiy, falsafiy, tarixiy, madaniy nuqtai-nazardan yoritiladi. Sho‘rolar davrida yetarli baholanmagan, goho konservativ qarash, zararli dogma sifasida rad etilgan Imom al - Buxoriy, Zamaxshariy, Kubro, as-Samarkandiy, at-Termiziy, Moturidiy, Burhonuddin Marg‘inoniy, Fariduddin Attor, J.Rumiy, Yassaviy, Jurjoniy, Koshifiy, Binoiy va jadidlarning ma’naviy-axloqiy, tasavvufiy fikrlarini keng tadqiq etishga kirishildi. Shuningdek, ushbu va boshqa buyuk ajdodlarimizning asarlari o‘zbek tiliga o‘girilib chop etildi. Shu tariqa ular butun xalqimizning ma’naviy mulkiga aylantirildi.

Respublikamiz tadqiqotchilari sho‘rolar davrida boshlangan ma’naviy-axloqiy masalalarga oid fikrlar tarixini o‘rganishni mustaqillik yillarida chuqurlashtirdilar. Sho‘rolar davrida unut bo‘lgan Najmiddin Kubro, G‘ijduvoniy, Abdulqodir Giloniy, Attor, Rumiy kabi yuzlab ma’naviy-axloqiy soha darg‘alarining buyuk nomlari qayta tiklandi va ularning asarlari chop etildi, g‘oyalari o‘rganildi.

Falsafiy-huquqiy merosni o‘rganishga qaratilgan tadqiqotlar va asarlar juda ko‘p bo‘lmasada, ularda islom huquqini o‘rganish, yoritish masalalari olimlarimiz diqqat markazida turibdi. To‘g‘ri, mavjud manbalarni o‘rganishga va kishilarimizga yetkazib berishga kodir mutaxassislar hozirgi paytda ko‘p emas, ular barmoq bilan sanarlidir. Bu borada jiddiy chora-tadbirlar ko‘rish zarur.

BARQARORLIK VA BEQARORLIK JARAYONLARIGA OID METODOLOGIK YONDASHUVLAR VA ULAR MUTANOSIBLIGINING DIALEKTIK TAHLILI

Ashurova Sarvinoz Uralovna
O‘zbekiston Respublikasi ichki ishlar vazirligi akademiya xizmat psixologiya va kasbiy madaniyati kafedrasi dotsenti v.b

Annotatsiya. *Mazkur maqolada ijtimoiy mediadan foydalanish orqali ingliz tilini o‘qitishda mavjud qiyinchiliklar va ularning yechimlari haqida fikr yuritilgan. Shuningdek, maqolada bugungi globallashuv va raqamli transformatsiya davrida ijtimoiy media vositalari xorijiy tillarni, xususan, ingliz tilini o‘qitish jarayonida samarali kommunikativ platformaga aylanib borayotganligi ilmiy jihatdan yoritilgan.*

Kalit so‘zlar: *ijtimoiy media, ingliz tili, globallashuv,raqamli transformatsiya, kommunikativ platforma, madaniyat, kompetensiya.*

СТРУДНОСТИ ПРЕПОДАВАНИЯ АНГЛИЙСКОМУ ЯЗЫКУ С ИСПОЛЬЗОВАНИЕМ СОЦИАЛЬНЫХ МЕДИА И ИХ РЕШЕНИЯ

Аннотация. *В данной статье рассматриваются существующие трудности в преподавании английского языка с использованием социальных сетей и пути их решения. Также в статье с научной точки зрения освещается, что в современную эпоху глобализации и цифровой трансформации средства социальных сетей становятся эффективной коммуникативной платформой в процессе обучения иностранным языкам, в частности английскому.*

Ключевые слова. *Социальные сети, английский язык, глобализация, цифровая трансформация, коммуникативная платформа, культура, компетенция.*

CHALLENGES OF TEACHING ENGLISH USING SOCIAL MEDIA AND THEIR SOLUTIONS

Annotation. *This article discusses the challenges in teaching English through the use of social media and their solutions. Additionally, the article scientifically highlights that in today’s era of globalization and digital transformation, social media tools are becoming an effective communicative platform in the process of teaching foreign languages, particularly English.*

Keywords. *Social networks, English language, globalization, digital transformation, communication platform, culture, competence*

Kirish

Jamiyatdagi barqarorlik va beqarorlik olamdagi cheksizlik va cheklilik, uzluksizlik va uzluklilikning dialektikasini aks ettiradi va ularning mohiyatini bilish metodologik yondashuvning ustuvor yo‘nalishini belgilaydi. Metodologiya jamiyat va tabiatning rivojlanishiga oid turli yondashuvlarni qamrab oladi va muayyan ijtimoiy faoliyat usuli sifatida namoyon bo‘ladi. Unda ilmiy va ijtimoiy faoliyatning mo‘ljallari, barqarorlik va beqarorlikning sabablarini aniqlash va maqsadga erishishning yo‘llari belgilanadi. Bunda muayyan g‘oyalar tizimi, faoliyat usuli, texnik ta’minot tizimi qamrab olinadi. Shu ma’noda N.Shermuxamedovaning «Metodologiya har qanday ijtimoiy faoliyatning usuli»,[25] degan fikriga tayanish o‘rinli bo‘ladi, zero unga ko‘ra metodologiya haqiqatni bilishning bosh omili, falsafiy mushohada qilish manbaidir, shu nuqtai-nazardan ilmiy tahlillarga ko‘ra, hozirgi davrda fikrlashning fenomenologik, germenevtik, metafizik, sinergetik, dialektik metodologik yondashuvlari barqaror tafakkur uslubining o‘ziga xos mezoni sifatida muhim ahamiyat kasb etadi. Bizning fikrimizcha, barqarorlik va beqarorlik dialektikasiga oid metodologik yondashuvlar fikrlash uslubidagi muammolarini yechish va muayyan natijalarga erishishga yo‘naltirilgan harakatdir. Metodologik yondashuvlar tayyor haqiqatlarga emas, balki real natijalarga tayanadi, fikrlash jarayonida haqiqiy bilimni yolg‘on bilimdan farqlash yo‘llarini belgilaydi, bizga berqaror dunyodagi voqealarga moslashish va qarorlar qabul qilish imkonini beradi, shu bilan birga, ilmiy faoliyat shakllarini tartibga soladi. Barqarorlik va beqarorlikga oid metodologik

[25] Шермухамедова Н.А. Барқарорлик ва беқарорлик диалектикаси//Борлиқ ва ривожланиш фалсафаси. – Тошкент: Ношир, 2013. -Б.533

yondashuvlarda ijtimoiy ob'yektni tahlil etish uchun jamiyatdagi xilma-xil jarayonlar ajratib olinadi, ularning xususiyatlari, rivojlanish yo'nalishlari va mohiyati aniqlanadi, shuningdek insonning unga ta'sir qilish imkoniyati yaratiladi.

Natija va taxlil. Shu nuqtai nazardan barcha metodologik yondashuvlarning o'ziga xos o'rni va ahamiyati bor, chunki ularning har biri tafakkur metodologiyasini shakllantiradi va ularning natijalari amaliyotda tasdiqlanadi. Biroq, G.G.Solovyevning fikricha «dunyoni bilish usullarining nomukammalligi tarixiy jarayonlarni bilish imkoniyatini muaayyan darajada cheklaydi va bu bilish usullari i tafakkur uslubidagi beqarorlik bilan emas, balki tashqi voqelikdagi beqarorlik bilan bog'liq, shu bois odamlar oqibatli bo'lishlari lozim»[26] degan yondashuvda Xudo odamni yaratganligi asoslangan. B.Babayevning fikriga ko'ra, «Ijtimoiy-madaniy beqarorlik bu shaxsning tarixiy faoliyati yo'nalishlarini qamrab oladi va tarixiy jarayonlarning tarkibiy qismi sifatida namoyon bo'ladi»[27]. Ushbu yondashuvda emperik va rasional bilimlar dialeketikasi insonning tafakkur uslubini sayqallashtirishga mo'ljal olishi asoslangan deb ta'kidlash mumkin. Masalan, O'zbekistonning Surxandaryo viloyatida qadimgi Budda sanamlarining kashf etilishi qadimgi davrlarda ushbu mamlakatlar o'rtasidagi ijtimoiy-madaniy aloqalar va munosabatlar mavjud bo'lgan degan xulosaga olib keladi. Bu qarashda empirik darajada madaniy taraqqiyot tarixiy jarayonlar bilan bog'lik degan xulosa namoyon bo'ladi va va rasional tafakkurdagi transformatsiyani ifodalaydi. Madomiki shunday ekan, biz xalqlarning o'zaro dialogi shaxsning individual fikrlash uslubi va jamiyat tafakkur uslubining o'zgarishiga ta'sir etgan, shaxsning beqaror ruhida yuksak axloqiy qoidalar va boshqaruv uslubi shakllangan desak mubolag'a bo'lmaydi. Bu I.V. Ilin ta'kidlaganidek «barqaror taraqqiyotda o'tish istiqbollari eskining yangi bilan almashinuvini ifodalaydi va global ijtimoiy-tabiiy rivojanishni aks ettiradi»[28]. Individual faoliyatning barqarorligi va beqarorligi chiziqsiz tafakkurni namoyon etadi va inson ijtimoiy taraqqiyot kafoloti ekanligidan dalolat beradi. Bizning fikrimizcha, bu jarayonda mantiqiy-tarixiy usullar gipotetik deduktiv usul bilan almashtiriladi va gipotetik darajada tarix haqidagi xulosalar shakllanadi, milliy qadriyatlar jamiyatning doimiy rivojlanuvchi tizim sifatida ular moddiy va ma'naviy ehtiyojlarni qondirishga yo'nalgan chiziqsiz tafakkurning mahsuli sifatida alohida ahamiyat kasb etadi. Bu usulning an'anaviy tasviriy sanatda namoyon bo'lishi, unga individual munosabatning shakllanishiga ta'sir etadi va individual darajada dunyoviy qadriyatlar zanjirlaridan voz kechgan kishining orzular dunyosi shakllanadi, bu jarayonlarning tavsifi konfusiyizm, platonizm, stoisizm va boshqa oqimlarning metodologiyasida namoyon bo'ladi. Masalan Konfusiyning «Bilganlar gapirmaydi, gapirmaydiganlar bilmaydi»[29], degan fikri bir vaziyatda tafakkurda barqarorlik va beqarorlikning amal qilishidan dalolat beradi.

Xitoy falsafasida, harakatsizlik yuqori bilimlarga erishish usuli hisoblangan. Masalan, Lao Szi hech narsani ko'rishni, eshitishni xoxlamaydi va Konfusiyning so'zlariga ko'ra, «o'z faoliyatida jimgina yashash tamoyiliga amal qiladi va hech narsani bilmaydi va eshitmaydi»[30]. Agar X asrda J.Rumiy o'z asarini «Ichindagi ichindadir»[31] deb nomlab, unda insonning tafakkur imkoniyatlarining xilma xilligiga ishora qilgan bo'lsa, XX asrda rus olimi S.N. Bulgakov inson tafakkurining bosh omili ideal qadriyatlar ekanligini isbotlagan. F. Nisshe dunyo «yangi qadriyatlar kashfiyotchilarining fikr erkinligini ta'minlaydi»[32] deb ta'kidlagan. Bu yondashuvlar asosan sub'yektiv xarakterga ega bo'lib, u ijtimoiy beqarorlik sabablarini bilish imkonini bermaydi, chunki inson faoliyati uning ong ostida va undan tashqarida amalga oshadi.

Shunday qilib, beqarorlik dunyodagi tartibsizliklarni kategoriyalarda ifodalash usulidir, demak ijtimoiy-madaniy jarayonlar dunyoning mifologik, diniy, ilmiy, ekzistensional manzarasi sifatida doim inson dunyoqarashiga ta'sir etadi va barqaror ongning tartibsizligini shakllantiradi. H.Sadiqov "Rivojlanishning bunday muvozanati uzluksiz va samarali uyg'unlikni ta'minlovchi iqtisodiy, ijtimoiy"[33] jarayonlarini qamrab oladi

Biroq, barqaror va beqaror dunyoni tahlil qilishda germenevtik metodning ahamiyati, ijtimoiy-madaniy mavzularning o'ziga xos tarixiy shakllarini kategoriyalar orqali o'rganish imkonini beradi. Kategoriyalarning ijtimoiy ahamiyati tafakkur uslubi orqali germenevtik doira tamoyillari, ya'ni butun va qism dialektikasi orqali dunyoni anglashning o'ziga xos tamoyillariga o'zgartirish imkon beradi, bu dunyoni bilish va undagi beqarorliklarning sababini aniqlashning ijtimoiy madaniy mo'ljali bo'ladi. Bizning fikrimizcha, ziddiyatli vaziyatda beqarorlikning doimiyligi bir tomondan barqarorlikka o'tishning ijtimoiy omili, ikkinchi tomondan uni doimiy inkor qilish vositasi sifatida amal qiladi. Bu esa, barqarorlik va beqarorlikni idrok etishda dialektikaning universal usuli sifatida amal qiladi. Ayni paytda bu

yondashuvga nisbatan I.Kant «kategoriyalarning ketma-ketlikda taqozolangan harakati ta'sir etadi va bunda aql ustuvor ahamiyat kasb etadi»[34], deb ta'kidlagan. T.G.Leshkevichning fikriga ko'ra, «tasodif va zaruriyatning o'zaro taqozolanganligi barqarorlik va beqarorlikning taqozolanganligiga asos bo'ladi»[35]. Bizning fikrimizcha, beqarorlik o'zgaruvchanlikga moyillikni ifodalaydi va uning qachon va qanday vaziyatda paydo bo'lishi va rivojlanishi tasodif bo'lib, u tizim rivojlanishida noaniqlikning ustuvor ahamiyatini belgilaydi, bu o'zgarmas deb tasavvur qilinadigan dunyoning doimiy o'zgaruvchanligi barqarorlikning beqarorlik bilan almashinuvini ifodalaydi. Bizning fikrimizcha, ijtimoiy taraqqiyotning bosh mexanizmi sifatida ommaviy madaniyat va elitizmning rivojlanishi beqaror va barqaror madaniyatlarning rivojlanishiga ta'sir etadi. Madomiki shunday ekan, hozirgi kundagi beqaror ijtimoiy siyosiy munosabatlar qadimgi Misrning barqaror sivilizatsiyasi ta'sirida barqaror rivojlangan, va yangi barqarorlik turg'unligini namoyon etmoqda degan xulosaga kelish mumkin. Yevropa madaniyatining rivoji o'zga madaniyatlarni inkor qilish yo'li bilan emas, balki o'zga madaniyatlarning eng ilg'or g'oyalarini o'rganish va ulardan tanqidiy foydalanish hisobiga beqarorlikdan barqaror taraqqiyot yo'liga o'tgan. Masalan, Pifagor 20 yil davomida Misr madaniyati, bu hududdagi iqtisodiy ijtimoiy munosabatlar tizimini tahlil etgan va bu asosda o'zining dunyoning sonlardan iborat ekanligi haqidagi eng mashhur ta'limotini ilgari surgan, madomiki shunday ekan, eng barqaror ijtimoiy madaniyatlarni inkor qilishga chiziqsiz tafakkur nuqtai naziridan yondashuv maqsadga muvofiq, shu bois madaniyatni ijtimoiy universal voqelikga aylantirish jarayonida takomillashib borishi uning qadri va qiymatini inkor qiladi, bu esa madaniyatlararo dialogning ijtimoiy ahamiyatini susaytiradi. Agar madaniyatning me'yori bo'lmasa, u holda, umuminsoniy madaniyatni shakllanishi va rivojlanish imkoni bormi degan savolga javob berishga harakat qilamiz va bunda muayyan madaniyat yangi madaniyatnnig paydo bo'lishi hisobiga rad etiladi va bunda inkorni inkor qonunidagi vorisiylik kategoriyasi amal qilib eski madaniyatning elementlari saqlanib qoladi va madaniy g'oyalar tizimi qayta shakllantiriladi.

Biz turli adabiyotlarni tahlili jarayonida madaniyat jamiyatdagi chiziqli jarayonlarning evolyusiyasi natijasi emas, balki tarixiy tasodiflar, spontan o'zgarishlar, zaruriy vaziyatlar mahsuli ekanligining guvohi bo'lamiz. Masalan, Sh.Qushoqovning ijodga virtual reallik nuqtai nazaridan yondashuvi[36], M.Ergashevaning ta'lim taraqqiyotini sinergetika tamoyillari asosida tahlili[37], B.Raxmonovning inson tafakkuriga nochiziqli xossalarning ahamiyatiga[38] odi g'oyalari shular jumlasidandir. Bizning fikrimizcha, falsafaning beqarorlik, spontan xavf va xatar kategoriyalari madaniyat, ularning o'ziga xos xususiyati takrorlanish va germenevtik doira tamoyili doirasida namoyon bo'lishidadir. Shu bois biz, asosiy e'tiborimizni madaniy taraqqiyotda turg'unlikning ustuvorligini, «madaniyat va jamiyat haqidagi fanlarni bilish metodlarining o'ziga xosligini inkor etuvchi konsepsiyalar falsafaga xos»[39] ligi nuqtai nazaridan asoslashga harakat qilamiz.

Barqarorlik va beqarorlikning o'zaro aloqasi beqarorlikga o'tish lahzasi sifatida muhim ahamiyat kasb etadi va barqaror rivojlanishdagi turg'unlik davri kuzatiladi. Turg'unlikga nisbatan J.Ochilovning "har bir millatning tarixiy shakllangan ijtimoiy fazo va tarixiy vaqtdagi mavjudlik holati, muayyan darajada rivojlangan texnogen sivilizatsiya natijasi"dir degan [40]yondashuviga qo'shilishi mumkin. Madaniyatlarning aralashuviga, bir madaniyat tizimida yangi madaniy aloqalarning shakllanishiga ta'siri barqarorlikdagi turg'unlikning beqarorlikga o'tish lahzasi hisoblanadi va pirovard natijada yangi barqarorlik holatiga o'tiladi, biroq ba'zi hollarda eskining o'zi saqlanib qolish ehtimoli ham borligini tan olishimiz lozim. Agar tizimning barqaror modeli yaratilsa va rivojlanish jarayoni modellashtirilsa, u holda oldindan prognozlashtirilgan jarayonlar mavjud jarayonlarga mos kelmasligi holati ham kuzatiladi, bu barqarorlik va beqarorlikni yangi bosqichga olib chiqadi va uning mohiyatini o'zgartiradi va takomillashtiradi. Masalan, Amerikaning Mustaqillik Deklaratsiyasi davlat-siyosiy barqaror rivojlanishi yo'liga o'tganligi haqidagi birinchi rasmiy hujjat bo'lib, unda yangi davlat rivojlanishining qonuniy asosi bo'lgan konstitutsiya shak shubxasiz amal qilinishi lozim bo'lgan qoidalar tizimi sifatida tan olingan va 220 yil davomida unga 26 ta o'zgartirish kiritilgan, shu bois, u hozir kungacha fuqarolik jamiyatining nazariy asosi sifatida muhim ahamiyat kasb etadi. Shuningdek, bu hujjat jamiyat taraqqiyotining ijtimoiy-madaniy darajasiga mos keladigan siyosiy-falsafiy g'oyalar ilgari surilgan va demokratik taraqqiyotning muhim kategoriyalari belgilangan. Biroq, Amerikaning barqaror rivojlanishini ta'minlovchi hujjatning ba'zi moddalari ishlamasligi natijasida jamiyatdagi rivojlanish turg'unlikka aylanishi mumkin. Fikrimizni XX asrning 20-30 yillarida

Amerikada avj olgan jinoyatchilik, gangsterlar hujumlari, Italiya mafiyasining faoliyati bilan asoslashimiz mumkin, aynan shu vaziyat AQSHning bir holatdan ikkinchi holatga o‘tishini takozo etgan. Shuningdek XX asrda, Xitoy va Yapon ijtimoiy-madaniy tizimlarida o‘zgarish sodir bo‘lgan, sovet ittifoqi parchalangan, zero ularning rivojlanish tamoyillari barqaror taraqqiyot jarayonlariga mos kelmagan. Shu bois ular, umuman tarixiy rivojlanishdan to‘xtagan deb ta’kidlash mumkin.

Bizning fikrimizcha, barqaror rivojlanishga erishish, yangi taraqqiyot g‘oyalari Platonning «Davlat to‘g‘risida»[41], Gegelning «Rux fenomenologiyasi»[42] asarlarida ilgari surilgan, lekin ularda amaliy tajriba yetishmaganligi uchun bu ideal jamiyatga erish imkoni bo‘lmagan. Turg‘unlikning epistemologik ildizlari insonning tafakkurida doimiy qo‘rqish, vaziyatga moslasha olmaslik, falokatni oldindan prognozlashtirish bilan bog‘liq.

Bizning fikrimizcha, tafakkurdagi beqarorlikni tartibga solishda jamoa tafakkuriga tayanish lozim. Shu ma’noda shaxslararo munosabatlardagi beqarorlik mavjud tizimni buzishga va har bir shaxsning o‘z manfaatini himoya qilishiga olib keladi. Masalan, Ukraina, Gruziya va Qirg‘izistondagi siyosiy vaziyat aynan davlat boshqaruvi darajasidagi beqarorlikning oqibatidir. Aslida, barqarorlikni beqarorlik asosida tartibga solish mumkin, ammo bunday tartibga solish ba’zida iqtisodiy madaniy rivojlanish darajalarini aniqlash uchun ijtimoiy-madaniy hayotda qo‘llaniladi, masalan sinergetika, germenevtika, fenomenologiya jamiyat kelajagi haqidagi fan ijtimoiy-madaniy munosabatlarni tartibga solish jarayoni tubdan o‘zgaradi.

Shuni alohida ta’kidlash lozimki, rivojlanish haqidagi g‘oyalar tabiiy fanlarning ham ob’yekti bo‘lgan. Masalan, matematikada A.Puankare, C.Maksvell o‘zini o‘zi tashkil etuvchi bifurkasion jarayonlarni asoslashga haraka qilgan. Ularning g‘oyalari XX asrda I.Prigojin va A.Arshinov maktablarida ijtimoiy jarayonlarni tahlil qilish uchun matematik modellashtirish usulini qo‘llagan, bu g‘oyalar V.I. V.I.Vernadskiyning «nosfera»[43] nazariyasida rivojlantirilgan, N. Vinnerning «kibernetika nazariyasi»[44]da boshqa tizimlarning o‘z-o‘zidan tashkil etilishi haqidagi innovasion g‘oya shakllangan va bizning fikrimizcha, bu yondashuvlarda har qanday jarayonlarning o‘ta barqarorlik darajasidan o‘ta beqarorlik darajasiga o‘tish dinamikasi ochib berilgan. Falsafiy nuqtai nazardan, bu nazariyani A.Xodjarov «tartibsizlikdan xaosgacha va xaosdan tartibgacha bo‘lgan tartib»[45], tamoyilida rivojlantirgan. Agar bu jarayonga tarixiylik tamoyili nuqtai nazariyadan yondashiladigan bo‘lsa, u holda bu nazariya hayotning paydo bo‘lishiga oid tabiiy evolyusiyani o‘rganishni nazarda tutadi. Bizning fikrimizcha, bu yondashuv turli ilmiy sohalarni innovasion tizim sifatida murakkab jarayonlarda samarali foydalanishda amaliy ahamiyat kasb etadi. Bu usullar barqaror va beqarorlikning o‘zaro taqozolangan rivojlanish dinamikasini o‘zida namoyon etadi va barqaror taraqqiyotni ta’minlashga ham amaliy va ham nazariy asos bo‘ladi, individual hodisalarning rivojlanish darajasi va jamiyatdagi jamoaviy jarayonlar o‘rtasidagi bog‘liqlikni o‘rganish imkonini beradi.

Ushbu yondashuv olimlarning sinergetikada fan sohasida yangi tendensiyalarni izlab topish, ilmiy bilimlardan turli sohalarda foydalanish mumkinligi, ilmiy tadqiqotlar jarayonida ularning faol va keng qamrovli ishtirokini oshirishga imkon beradi. V.I. Arshinov T.G. Leshkevich, ham bu yo‘nalishdagi ilmiy tadqiqotlarni rivojlantirib, ijtimoiy jarayonlardagi tartibsizlikdan tartiblashga o‘tish va tasodifiylashtirish mexanizmlariga nisbatan alohida metodologik tamoyillarni taqdim etgan. Bizning fikrimizcha, dunyoning beqarorligi hayotning doimiy o‘zgarishini namoyon etadi, u oqilona tartibga solish kuchlaridan ustundir.

Biroq hozirgi kunda V.Demchenko, Ye.Ya Davыdovich «tabiiy-madaniy rivojlanishni o‘rganishning yangi metodologik tamoyillariga asoslanishning yangi metodologik yondashuvlari»ni taklif etganlar. Bu yondashuvlarda asosan ijtimoiy hayotning barcha sohalarining o‘zaro aloqasi bir biri bilan taqozolanganligiga alohida e’tibor qaratiladi va shu bois bir sohadagi muammolar boshqa sohada to‘liq o‘z ifodasini topadi va bu esa jamiyat rivoji haqida yaxlit tasavurni shakllantiradi. Masalan, hozirgi davrda Afg‘onistondagi vaziyat jamiyatning barcha sohalariga ta’sir etmoqda va beqarorlikning dinamikasi oshmoqda.

Shu bois, bizning fikrimizcha, ijtimoiy-madaniy jarayonlarning rivojlanish dinamikasini tahlil etishda tarixiylik tamoyiliga rioya qilish va undan foydalanish, umumiy bo‘lgan vaziyatga baho berishda to‘g‘ri yondashuvlarga ega bo‘lishdek imkonini beradi va mavjud muammolarning yechimini topishda jamoa ongi va individual ong manfaatlari bilan to‘qnashadi.

Xulosa. Shuni ham alohida e’tirof etish lozimki, madaniyatni harakatlantiruvchi kuchlari va ijtimoiy funksiyalarini aniq belgilaydigan umumiy yondashuv hozircha yaratilmagan, shuningdek bu jarayonlarga baho berishning yagona

metodologiyasi ham aniq emas, har bir voqealarga jamiyatdagi ayni vaqtdagi umumiy vaziyat asosida munosabat bildiriladi va uning kelgusi rivojiga imkon yaratiladi.

SA'DIDDIN HAMAVIYNING "VAHDAT UL-VUJUD" FALSAFASI VA TA'LIMOTIGA QO'ShGAN HISSASI

Rajabov Alisher Shavkatovich
Buxoro davlat pedagogika instituti mustaqil izlanuvchisi

Annotatsiya. *Mazkur maqolada Kubraviya tariqatining yirik namoyandasi Sa'diddin Hamaviyning borliq falsafasi va uning ontologik qarashlari tahlil qilinadi. Tadqiqotda muallifning "Vahdat ul-vujud" ta'limoti rivojiga qo'shgan hissasi, xususan, "Vujudi Mutlaq" va "ma'dum" (yo'qlik) tushunchalariga bergan konseptual ta'riflari "Misboh fit-tasavvuf" va boshqa asarlari misolida yoritib berilgan. Hamaviyning borliq martabalari, "haqoyiqi sobita", "taayyun" bosqichlari va Xoliq bilan maxluq o'rtasidagi munosabatlarni ruh va tana timsolida tushuntirishi ilmiy jihatdan asoslangan. Shuningdek, maqolada vahdati vujudning panteizmdan farqli jihatlari hamda Hamaviyning ijtimoiy-axloqiy qarashlarining tasavvufiy asoslari bayon etilgan.*

Kalit so'zlar. *Sa'diddin Hamaviy, Vahdat ul-vujud, Vujudi Mutlaq, ma'dumi mumkin, ma'dumi mumtani', haqoiqi sobita, taayyun, Misboh fit-tasavvuf, Kubraviya, tavhid, javhar va araz, ilohiy ilm, mazhar, majoziy borliq.*

ВКЛАД САИДДДИНА ХАМАВИ В ФИЛОСОФИЮ И ДОКТРИНУ «ВАХДАТ УЛ-ВУДЖУД»

Аннотация. *В данной стате анализируется философия бытия и онтологические взгляды Саддаддина Хамуйи, видного представителя тариката Кубравия. В исследовании на примере произведения "Мисбах фи-т-тасаввуф" и других трудов освещается вклад автора в развитие учения "Вахдат ал-вужуд", в частности, его консептуалные определения понятий «Абсолютное Бытие» (Вужуд-и Мутлак) и "небытие" (мадум). Научно обоснованы взгляды Хамуйи на уровни бытия, "хакаик-и сабита" (неизменные истины), этапы "таайюна" (проявления) и его интерпретатсия отношений между Творсом и творением через призму символизма души и тела. Также в стате раскрываются различия между вахдат ал-вужуд и пантеизмом, а также суфийские основы сотсиально-этических взглядов Хамуйи.*

Ключевые слова. *Саддаддин Хамуйи, Вахдат ал-вужуд, Абсолютное Бытие, мадум-и мумкин, мадум-и мумтани, хакаик-и сабита, таайюн, Мисбах фи-т-тасаввуф, Кубравия, тавхид, субстанция и аксиденсия, божественное знание, мазхар (место проявления), метафорическое бытие.*

SA'DIDDIN HAMAWI'S CONTRIBUTION TO THE PHILOSOPHY AND DOCTRINE OF "WAHDAT UL-WUJUD"

Annotatsion. *This article analyzes the philosophy of being and ontological views of Sa'deddîn Hammûyî, a prominent figure of the Kubrawiyya order. Based on the work "Misbah fi't-tasawvuf" and other treatises, the study highlights the author's contribution to the development of the "Wahdat al-wujud" (Unity of Existence) doctrine, specifically his conceptual definitions of "Absolute Existence" (Wujud-i Mutlaq) and "non-existence" (ma'dum). Hammûyî's perspectives on the levels of existence, "haqaiq-i sabita" (fixed truths), the staGES of "taayyun" (manifestation), and his interpretation of the relationship between the Creator and the creation through the symbolism of soul and body are scientifically grounded. Furthermore, the article elucidates the distinctions between Wahdat al-wujud and pantheism, as well as the Sufi foundations of Hammûyî's socio-ethical views.*

Keywords. *Sa'deddîn Hammûyî, Wahdat al-wujud, Absolute Existence, ma'dum-i mumkin, ma'dum-i mumtani, haqaiq-i sabita, taayyun, Misbah fi't-tasawvuf, Kubrawiyya, tawhid, substance and accident, divine knowledge, mazhar (locus of manifestation), metaphorical existence.*

Kirish. Tasavvuf falsafasidagi eng murakkab va bahsli mavzulardan biri bo'lgan "Vahdat ul-vujud" (Borliqning yagonaligi) ta'limoti borliqning mohiyati, Xoliq va maxluq o'rtasidagi munosabatlarni irfoniy jihatdan tushuntirib beradi. Ushbu ta'limot tizimli ravishda Shayx ul-akbar Ibn al-Arabiy nomi bilan bog'lansa-da, uning ildizlari ilk davr zohidlik va tasavvuf maktablariga borib taqaladi. "Vahdat ul-vujud" ta'limotining bosh g'oyasi shundan iboratki, haqiqiy borliq (vujud) faqat Allohga xosdir. Undan boshqa barcha mavjudotlar o'z-o'zidan borliqqa ega emas, balki ular Haq Taolo borlig'ining aksi yoki zuhuridir.

Vujud so‘zlikda “bor bo‘lish, topilish; borliq” ma’nolarini anglatuvchi “va-ja-da” (وجد) o‘zagidan olingan masdar bo‘lib, “bir narsaning zehnda va zehndan tashqarida haqiqiy borliqqa ega bo‘lishi” yoki “bir narsaning aqliy tahlil yo‘li bilan belgilangan mohiyati, zoti” ma’nolarini anglatadi[1]. Allohning va yaratilmishlarning borlig‘i masalasi kalom ilmi vakillari, faylasuflar va so‘fiylar tomonidan turlicha tushunilgan. Faylasuflar har ikki kategoriyaga ham haqiqiy borliq sifatida yondashgan bo‘lsalar; kalomchilar “hodis” (keyin paydo bo‘lgan) va “muhdis” (yaratuvchi) ajrimiga borib, banda bilan Haqning farqli ekani va ularni ayni bir kategoriyada ko‘rib bo‘lmasligi xulosasiga kelganlar[2]. Ilk davr so‘fiylari ahli sunna kalomi qarashlarini qabul qilgan bo‘lsalar, Ibn al-Arabiy etakchilik qilgan metafizik davr so‘fiylari esa borliq tushunchasini metafizik ma’noda faqat Alloh Taolo uchun ishlatishgan, Undan tashqaridagi narsalarni esa “ma’dum” (yo‘qlik) deb konseptuallashtirganlar. Bu boradagi fikrlari noto‘g‘ri tushunilgani sababli ular “hulul” (Allohning maxluqot ichiga kirishi) va “ittihod” (Alloh bilan birlashish)da ayblashgan.

Tadqiqot metodologiyasi. (research methodology). Tadqiqotda analiz, sintez, kontent tahlil, sinergetika va germenevtika, vorisiylik, qiyosiy tahlil, usullaridan foydalanilgan.

Tahlil va natijalar. (analysis and results).

Sa’diddin Hamaviy to‘g‘ridan-to‘g‘ri “vahdati vujud” atamasini ishlatmagan bo‘lsa-da, asarlaridan uning vahdati vujud g‘oyasiga ega bo‘lgani anglashiladi. Uning uchun tavhidning ob’ekti va mavzusi bo‘lgan “vujud” tushunchasi, garchi isbot talab qilmaydigan haqiqat (qaziyya-i musallama) sifatida bilinsa-da, uning isboti va mohiyatini bilish bir qancha qiyinchiliklarni o‘z ichiga oladi. Chunki borliqning bir necha sohalari bo‘lgani uchun hammaning borliq tushunchasi uning iste’dodi va bilim darajasiga ko‘ra turlicha shakllangan. Odatda odamlar beshta sezgi a’zosi bilan idrok eta oladigan narsalarini borliq deb atasalar, ba’zilar mujarrad (abstrakt) mavjudotlarning borligini ham qabul qilganlar.

Hamaviy esa borliq tushunchasini sezgilardan, tashqi dunyodan va aql bilan idrok etiladigan har qanday narsadan mustaqil ravishda ko‘rib chiqqan. Uning fikricha, borliq faqatgina Haq Taolo uchun xos bo‘lgan tushunchadir. Hamaviy terminologiyasida buning muqobili “Vujudi Mutlaq”dir. Vujudi Mutlaqdan tashqaridagilar, ya’ni barcha javhar va arazlar esa “ma’dum” (yo‘q) hisoblanadi[3].

Hamaviy “ma’dum”larni (mavjud bo‘lmaganlarni) “ma’dumi mumkin” va “ma’dumi mumtani’” deb ikkiga ajratgan. Ma’dumi mumkin - javhar va arazlarga asoslangan bo‘lib, “olami adam”da (yo‘qlik olamida) “mohiyatlar”, “kulliyotlar” yoki “mumkinot” nomlari ostida kategorik shakllarda potensial (bilquvva) holatda mavjuddir. Bilquvva holatdagi ushbu ma’dumlarga “narsa” (shay) deyish mumkin. Ma’dumi mumtani’ esa tasavvuf metafizikasining eng murakkab mavzularidan bo‘lib, Ibn al-Arabiy “a’yoni sobita”, Hamaviy esa “haqoyiqi sobita” deb atagan borliqning ilohiy ilmdagi azaliy haqiqatlaridir va ular “narsa” (shay) emasdir[4].

Aziziddin Nasafiy “Kashf ul-haqoyiq” nomli asarida Hamaviyning vahdati vujud qarashlari haqida shularni bayon qiladi: “Shayx Sa’diddinga: “Xudo kim?” deb savol berdim. U: “Vujud sohibi bo‘lgan nimaki bo‘lsa, Xudo o‘shadir”, deb javob berdi. Undan: “Olam nima?” deb so‘radim. U: “Allohdan tashqari hech narsa vujud (haqiqiy borliq) sohibi emasdir. Xudodan boshqa hech narsa yo‘qdir. Biroq Undan tashqari mavjud bo‘lgan narsalar vujud sohibi emas, balki faqat Uning mazharlaridir (zuhurlanish joylaridir)”, dedi. So‘ngra boshqa bir vaqtda Shayx Sa’diddin: “Javhar - Alloh sifatlarining birinchisidir”, dedi. Ilgari shayxdan bunday so‘zni eshitmaganim uchun bu menga g‘alati tuyuldi va qabul qilishga qiynaldim. Keyinroq angladimki, butun mavjudot Alloh sifatlarining bir mazharidir”[5].

Hamaviy metafizik ma’noda “vujud” tushunchasini mavjudot va maqullotdan (aqliy tushunchalardan) mujarrad (ayri) holda ishlatadi. Ya’ni, bu borada vujud - mutlaq bor bo‘lish ma’nosini anglatib, uning mohiyati, ziddi yoki o‘xshashi yo‘qdir. Uni tasavvur qilib bo‘lmaydi, sifatlab bo‘lmaydi, faqat zaruriy va botiniy bir yo‘l bilan idrok etiladi. Bu ma’noda vujud - “la taayyun” (belgilanmaganlik) martabasidagi Vujudi Mutlaqdir[6]. Borliq martabalarining eng yuqori pog‘onasida joylashgan Vujudi Mutlaq - vahdoniyat martabasi bo‘lib, kayfiyati bilinmaydigan borliq sohasidir. Hamaviy iborasi bilan aytganda: “Uni izohlay oladigan biror ibora yo‘q. Unga ishora qiladigan biror alomat yo‘q. U - Sirri A’zamdir (eng buyuk sirdir)”[7].

Sa’diddin Hamaviy Vujudi Mutlaqni nuqta ramzi bilan tushuntiradi. Uning fikricha, nuqta - borliqning eng sodda shaklidir. Nuqta chiziqni, chiziq harflarni, harflar so‘zlarni, so‘zlar jumlalarni va jumlalar kitobni hosil qilganidek, Vujudi Mutlaq ham taayyun etib (suratlanib), O‘zidan keyin keluvchi borliq kategoriyalarini hosil qiladi. Bu martabada Zot, Vajh (yuz), Rab va Iloh kabi tushunchalar haqida so‘z yuritib bo‘lmaydi. Vujudi Mutlaqning birinchi taayyunida (namoyon bo‘lishida) Zot va Vajh zuhur etadi. Zot - Vujudi Mutlaqning iroda va qudratiga, vajh esa Uning boqiyligiga qaragan tomonidir[8]. “Uning “yuzi”dan boshqa barcha narsa halok bo‘luvchidir”[9] - oyati karimasi ushbu haqiqatni ifodalaydi.

Vujudi Mutlaqdan Zotning sudur etishi (kelib chiqishi) bilan “vujud” hayot sifatiga ega bo‘ladi. Bu erda ham “vujud” tushunchasi hali faqatgina Haq Taolo uchun ishlatiladigan tushunchadir, chunki hali mavjudotlar yaratilmagan. Ikkinchi taayyunda (Zotning taayyunida) Uning ilk mazharlari bo‘lgan Ruhul arvoh va Nafsul kulliy paydo bo‘ladi. Mana shu martabadan boshlab vujud tushunchasi ham Haqqa, ham yaratilmishlarga nisbat beriladi. Chunki endi yaratilish boshlangan. Biroq, Hamaviyga ko‘ra, vujudning yaratilmishlarga nisbati haqiqiy emas, balki izofiy (nisbiy)dir.

Shunday qilib, vujud Haqqa nisbat berilganda - hayot va qudratning zuhuri nazarda tutiladi. Xalqqa (maxluqotga) nisbat berilganda esa - nurning Haqdan zuhur etishi va xalqning (nurga mazhar bo‘lishi jihatidan) nisbiy borligi nazarda tutiladi[10]. Hamaviy borliq uchun gohida “vujudi haqiqiy” va “vujudi majoziy” iboralarini qo‘llaydi. Biroq u bu iboralarni suhbatdoshiga tushunish oson bo‘lishi uchun ishlatishini, aslida bunday ajrim to‘g‘ri emasligini ta’kidlaydi. Masalan: “Uluhiyat ham vujudi haqiqiyni, ham vujudi majoziyni o‘z ichiga oladi. Uluhiyat kudurati bilan kecha-kunduz, farishta-shayton, dunyo-oxirat, ilm-jaholat kabi bir-biriga zid bo‘lgan barcha mavjudotga hokimdir”[11], degan jumlasidan so‘ng, borliqni haqiqat va majoz sifatida ikki kategoriyaga ajratishining sababi borliqni ta’riflab bera olish ekanini bayon qiladi. Uning fikricha, bashar nazarida ilm haqiqatni qamrab oladi, jaholat esa majozni yoki adamni (yo‘qlikni) ifodalaydi. Ammo Haq Taolo nazdida har bir narsa haqiqatdir va majozga o‘rin yo‘qdir. Biz uchun majhul (noma’lum) bo‘lgan narsa Haq Taolo huzurida ma’lumdir va bir haqiqatga egadir. Ya’ni, haqiqat-majoz ajrimi bizning tushunchamizga bog‘liq bo‘lib, Haq Taolo nazdida har bir narsa haqiqatdir. Mavjudotni ulviyyot-sufliyyot, g‘ayb-shahodat, zohir-botin kabi bir-biriga zid tushunchalar bilan talqin qilgan Hamaviy, uluhiyatni ham sufliyyot va ulviyyot sifatida ikki kategoriyaga ajratgan. Ulviyyot - uluhiyatning “vajh” (yuz) tomoni, sufliyyot esa “zot” tomonidir. Birinchisi uluhiyatga, ikkinchisi esa rububiyatga ishora qiladi. Uluhiyatga ishora qiluvchi tomoni bilan valoyat maqomi, rububiyatga ishora qiluvchi tomoni bilan esa nubuvvat (payg‘ambarlik) maqomi zuhur etadi. Ulviyyot Haq Taoloning nuri va ruhini (ruhul arvoh), sufliyyot esa Uning zotini va zulmatni ifodalaydi. Boshqacha aytganda, ulviyyot Haq Taoloning baqosini (boqiyligini), sufliyyot esa kavn va fasod (paydo bo‘lish va yo‘qolish) olamini bor qilgan zotiga tegishli tushunchadir[12].

Hamaviyga ko‘ra, ilohiy zot ism va sifatlardan, hatto “Iloh” kalimasidan ham mujarraddir (ayridir). Chunki Haq Taolo zoti e’tibori bilan “Vohid”, sifatlari e’tibori bilan esa “Ahad”dir. Tavhid kalimasi Uning zotining vahdoniyatiga ishora qiladi. Uluhiyatning zuhuri zot bilan emas, balki ism va sifatlar bilan yuz beradi. Chunki “Iloh” so‘zi “Ilohingiz yagona Ilohdir”[13] - oyatida bo‘lgani kabi maxluqotga muzofdir (bog‘langandir). Maxluqot esa Uning muzofun ilayhidir. Ya’ni, “Iloh” tushunchasi faqat “ma’luh” (ibodat qilinuvchi) mavjud bo‘lgan holatlardagina so‘z bo‘lishi mumkin. “Iloh” kalimasi alif, lom va ho harflaridan iborat. Alif - zotga, ho - vajhga, lom esa nuzulga (tushishga) ishora qiladi. Ya’ni zot vajh va sifatlar martabasiga nuzul etib (tushib), mavjudotni bor qiladi[14].

Shu tariqa vujud olami va mavjud olami kabi ikki borliq olami paydo bo‘ladi. Vujud olami - vajhning, ya’ni Haqning baqosi maydonidir. Mavjud olami esa Lavhul mahfuz maydoni bo‘lib, paydo bo‘lish va buzilishning kitobidir. Haq Taolo goh vujud, goh mavjud olami vositasida zuhur etib, O‘zini bandalariga ko‘rsatadi. Hamaviy buni shunday ifodalaydi: “Vajh - vujud olamidir. Lavh - mavjud olamidir. Qalb esa mashhud (kuzatiladigan) olamidir. Haq Taolo hamd va irtifo (yuksalish) maqomida vujud olamidadir. Istivo (qaror topish) maqomida mavjud olamidadir. Istifo (saralanish) maqomida esa mashhud olamidadir. Qalb, vajh va lavhning har biri tavhid urug‘ining nihollaridir”[15].

Hamaviy Alloh va olam munosabatini ruh va tana munosabatiga o‘xshatib tushuntirgan: “Haq Taolo olamning ruhidir, olam esa Uning tanasidir. Falaklar, latif borliqlar, unsurlar va tuyg‘ular - barcha borliq shakllari Uning tufayli bor bo‘lganlar. Tavhid - mana shuni bilishdir. Bundan tashqari aytilganlar shunchaki adabiyotdir”.

Hamaviyning vahdati vujud tushunchasida olamni inkor qilish yo‘q. Aksincha, olamning borligi Alloh borligining dalillaridandir. U faqatgina borliq tushunchasini haqiqiy va majoziy deb ikkiga ajratadi: haqiqiy borliqni Allohga, majoziy borliqni (ma’dumi mumkinni) esa yaratilganlarga nisbat beradi.

Shuningdek, Hamaviy vahdati vujud bilan panteizmni (ittihod) bir-biridan keskin farqlaydi. Uning fikricha, tavhid - Allohning yagona va tengsiz ekanini hamda “vujud” tushunchasi haqiqiy ma’noda faqat Unga xosligini anglashdir. Ittihodni esa bir shaxsni boshqasi bilan birlashtirish deb ta’riflab, uni kufr va ilhod (dindan chiqish) deb hisoblaydi. Qisqasi, tavhid bandaning Rabbini tanzih va taqdis qilishini (poklab yod etishini) taqozo etsa, ittihod xalq bilan Haqni bir taroziga qo‘yadi.

Yuqorida keltirib o‘tilgan fikr va mulohazalar, tasavvufiy-ilmiy tahlillarga asoslanib quyidagi xulosalarni ilgari surish mumkin:

- Hamaviy metafizikasida haqiqiy borliq (vujud) faqat Alloh Taologa xos bo‘lib, U “Vujudi Mutlaq” sifatida konseptuallashtiriladi. Borliqning qolgan barcha ko‘rinishlari esa o‘z-o‘zidan mavjud emas, balki Haq borlig‘ining aksi yoki mazharlari (zuhurlanish joylari) ekani asoslab berilgan;

- Mutasavvif tomonidan yo‘qlik tushunchasining “ma’dumi mumkin” va “ma’dumi mumtani’” kabi kategoriyalarga ajratilishi ontologik bahslarni tizimlashtirishga xizmat qiladi. Bunda “ma’dumi mumkin”larni “shay” (narsa) deb atash orqali bilquvva(potensial) mavjudotlarning ilohiy iroda bilan tashqi olamda zuhur etishi mumkinligi ko‘rsatib o‘tilgan;

- Hamaviy Ibn al-Arabiyning “a’yoni sobita” tushunchaviy apparatini qabul qilgan holda, uni “haqoyiqi sobita” (o‘zgarmas haqiqatlar) sifatida rivojlantirgan. Bu tushuncha borliqning ilohiy ilmdagi azaliy va tashqi suratga kirmagan haqiqatlarini ifodalovchi muhim metafizik kategoriya sifatida talqin etiladi;

- Vujudi Mutlaqning nuqta ramzi orqali tushuntirilishi borliqning eng sodda shakldan murakkab kategoriyalargacha bo‘lgan tadrijiy (evolyusion) rivojlanishini anglatadi. Ilk taayyun (Zot va Vajh) hamda ikkinchi taayyun (Ruhul arvoh va Nafsul kulliy) bosqichlarining ajratilishi yaratilish jarayonining ierarxik tartibini ochib beradi;

- Hamaviy Alloh va olam o‘rtasidagi aloqani “ruh va tana” munosabatiga o‘xshatib tushuntiradi. Bu esa olamni inkor etish emas, balki uning borligini Haq borligining eng katta dalili va mazhari sifatida qabul qilishni taqozo etadi;

- Hamaviyning vahdati vujud qarashlarini panteistik (ittihod) yondashuvlardan keskin farqlanadi. Mutasavvif ittihodni kufr deb hisoblagani holda, haqiqiy tavhidni bandaning Haqni tanzih va taqdis qilishi, ya’ni Uning tengsizligini anglashida ko‘radi.

Annotatsiya: *Maqolada global madaniy muhitda aks etgan ma'naviy qashshoqlik, shaxs manfaatini mutlaqlashtirish, moddiylikka asoslangan dunyoqarash va qadriyatlar mohiyatini noto'g'ri anglash kabi holatlar zamonaviy jamiyatda jiddiy muammoga aylanib borayotgani tahlil qilingan. SHuningdek, globallashuv fonida rivojlanayotgan bu kabi salbiy tamoyillar, uzoq muddatda jamiyatda ma'naviy muvozanatning buzilishiga, ijtimoiy adolat, insoniy bag'rikenglik va madaniy xilma-xillikning yo'qolishiga sabab bo'lishi ta'kidlangan.*

Kalit so'zlar: *globallashuv, axborot, urbanizatsiya, strukturaviy o'zgarish, qadriyatlar tizimi, individualizm, iqtisod, siyosat, texnika, mafkuraviy immunitet, internet, ijtimoiy tarmoqlar, ommaviy madaniyat.*

THE SOCIAL ESSENCE OF THE PHENOMENA OF GLOBALIZATION AND GLOBAL IDEOLOGY

Annotation:*This article analyzes the growing problems in modern society related to moral impoverishment, the absolutization of personal interests, materialistic worldviews, and the misinterpretation of values, as reflected in the global cultural environment. It also highlights that such negative trends emerging in the context of globalization may, in the long term, lead to the disruption of moral balance in society, the erosion of social justice, human tolerance, and cultural diversity.*

Keywords:*globalization, information, urbanization, structural transformation, system of values, individualism, economy, politics, technology, ideological immunity, internet, social networks, mass culture.*

СОЦИАЛЬНАЯ СУЩНОСТЬ ФЕНОМЕНОВ ГЛОБАЛИЗАЦИИ И ГЛОБАЛЬНОЙ ИДЕОЛОГИИ

Аннотация: *В статье анализируются такие явления современного общества, как духовное обнищание, абсолютизация личных интересов, материалистическое мировоззрение и искажение сути ценностей, проявляющиеся в глобальной культурной среде. Также подчёркивается, что подобные негативные тенденции, развивающиеся на фоне глобализации, в долгосрочной перспективе могут привести к нарушению духовного равновесия в обществе, утрате социальной справедливости, человеческой терпимости и культурного разнообразия.*

Ключевые слова: *глобализация, информация, урбанизация, структурные изменения, система ценностей, индивидуализм, экономика, политика, техника, идеологический иммунитет, интернет, социальные сети, массовая культура.*

Kirish

XXI asr — global o'zgarishlar, innovatsion texnologiyalar va axborot to'foni asri sifatida namoyon bo'lmoqda. Inson hayotining barcha jabhalari — iqtisod, siyosat, ta'lim, madaniyat va eng muhimi, **ijtimoiy-mafkuraviy muhit** mutlaqo yangi bosqichga ko'tarilmoqda. Bu jarayonning asosiy harakatlantiruvchi kuchi sifatida esa globallashuv jarayoni faoliyat ko'rsatmoqda.

Globallashuv — bu bir vaqtning o'zida iqtisodiy integratsiya, axborot almashinuvi, madaniy global ta'sir, ijtimoiy aloqalar va mafkuraviy muhitning yagona tizimda uyg'unlashuvidir. U nafaqat davlatlar o'rtasidagi savdo-sotiqni kengaytirdi, balki odamlar ongi, dunyoqarashi va qarashlarini shakllantiruvchi g'oyaviy muhitga ham chuqur ta'sir ko'rsatmoqda. Xususan, bugungi globallashgan dunyoda axborot oqimining ulkan sur'atda tarqalishi natijasida **mafkuraviy ta'sir** beqiyos darajada keng ko'lamli va ko'zga ko'rinmas shaklda amalga oshmoqda.

SHu ma'noda globallashuv endi faqat iqtisodiyot yoki texnologiya bilan chegaralanmaydi. U inson ongi, e'tiqodi, ma'naviy dunyosi va qadriyatlar tizimiga bevosita va bilvosita ta'sir ko'rsatuvchi kuchli mafkuraviy vositaga aylangan.

Adabiyotlar tahlili va metadologiya.

“Globallashuv” atamasi ilk bor XX asrning 1980-yillari boshlarida, xususan 1983 yilda amerikalik iqtisodchi Ted Levitt (T. Levitt) tomonidan ilmiy muomalaga kiritilgan. U o‘zining “Garvard Biznes Revyu” (Harvard Business Review) jurnalida chop etgan maqolasida dunyo iqtisodiyotidagi yangi tendensiyalar — ya’ni transmilliy korporatsiyalar faoliyati, mahsulot bozorlarining umumlashuvi va yagona iste’mol muhitining shakllanishi haqida fikr yuritgan.

Levittga ko‘ra, turli mamlakatlar bozorlari o‘rtasidagi farqlar asta-sekin yo‘qolib, mahsulotlar, xizmatlar va iste’mol madaniyatida yagona global standartlar paydo bo‘la boshlagan. SHu asosda u ushbu jarayonni “globallashuv” (globalization) deb atagan va uni bozorlar hamda ishlab chiqarish tizimlarining yangi turdagi internatsionallashuvi sifatida izohlagan [1.B.8]. Rus olimi S. CHestyakova globallashuv tushunchasiga munosabat bildirib, uning inson va jamiyat hayotidagi chuqur ta’sirlarini ta’kidlaydi. Uning fikricha, globallashuv jarayonlari nafaqat iqtisodiy yoki siyosiy sohalarga, balki keng ma’noda ijtimoiy hayotning barcha jabhalariga ta’sir ko‘rsatadi. Jumladan, mazkur jarayonlar natijasida inson va jamiyatning mavjudligini ta’minlab turgan ijtimoiy asoslar tubdan o‘zgara boshlaydi.CHestyakova ta’kidlaganidek, ushbu o‘zgarishlar insonning ruhiy-axloqiy qiyofasi, qadriyatlarga munosabati, dunyoqarashi va ma’naviy identifikatsiyasiga ham bevosita ta’sir ko‘rsatadi. YA’ni globallashuv faqat tashqi muhitni emas, balki insonning ichki dunyosi — ma’naviy olamiga ham ta’sir etuvchi kuchli omillar majmuasidir[2.B.14].

Fransuz tadqiqotchisi B.Bandiga ko‘ra, globallashuv uch asosiy o‘lchovni o‘z ichiga oladi: bu — muttasil davom etayotgan tarixiy jarayon, jahonning gomogenlashuvi va universallashuvi hamda milliy chegaralarning yuvilib ketish jarayoni[3.B.61].

A.Toynbi ta’biri bilan aytganda, biz insoniyat, “umumiy uy”, “umumiy taqdir” va “umumiy tashvish”lar bilan yashashga kirishayotgan6 , bir so‘z bilan aytganda, globallashuv deb atalayotgan jarayonlar sodir bo‘layotgan zamonda yashamoqdamiz. [4.B.221].

Globallashuv tushunchasi haqida mamlakatimiz olim va siyosatchilari ham o‘zlarining fikr-mulohazalarini bildirmoqdalar. SHu ma’noda, siyosatshunos olim S.Otamurodovning fikricha, “Globallashuv davlatlar va xalqlar hayotining barcha sohalarida yalpi umumlashuv jarayonini anglatmoqda[5.B.221].

Muhokama

Bugun yoshlar internet, ijtimoiy tarmoqlar, ommaviy madaniyat vositalari orqali dunyodagi har qanday g‘oya, axborot yoki turmush tarzi bilan tanishib, uni qabul qilishi yoki shubha ostiga olishi mumkin. Bu esa **milliy mafkura, milliy qadriyatlar va an’analar** uchun jiddiy sinov hisoblanadi.

Natijada, “global mafkura” deb nomlangan tushuncha ijtimoiy va siyosiy hayotda muhim o‘rinni egallay boshladi. U jahonda umumiy qarashlarni shakllantirishga intiluvchi, turli xalqlarning milliy o‘ziga xosligini asta-sekinlik bilan yumshatishga moyil bo‘lgan g‘oyalar to‘plami sifatida namoyon bo‘lmoqda. Bunday mafkura targ‘iboti orqali insonlar muayyan siyosiy, iqtisodiy yoki madaniy tamoyillarni “yuqori va ideal model” sifatida qabul qilishga chorlanadi.

Ayniqsa, ommaviy axborot vositalari, kino industriyasi, internet-kontent, ijtimoiy tarmoqlar kabi ta’sirchan vositalar orqali global mafkuraviy g‘oyalar inson ongiga singdiriladi. Bu holatda shaxs o‘z milliy yoki diniy qadriyatlaridan voz kechmasdan turib, shu g‘oyalar ta’sirida ularni qayta ko‘rib chiqishi, ularga nisbatan munosabatini o‘zgartirishi mumkin[6.B.91]. Bu jarayon asta-sekin, lekin murakkab ijtimoiy va ma’naviy oqibatlarga olib keladi.

Shunday qilib, globallashuv faqat rivojlanish belgisi emas, balki **mafkuraviy suverenitet** va **ma’naviy mustaqillik** uchun ham sinov vositasiga aylangan. Uning ijobiy tomonlari bilan bir qatorda, milliy qadriyatlar va mafkurani muhofaza qilish nuqtai nazaridan dolzarb muammolarni keltirib chiqarayotgani hech shubhasizdir. SHu bois globallashuv va global mafkurani ilmiy asosda o‘rganish, tahlil qilish va unga nisbatan samarali mafkuraviy immunitet mexanizmlarini shakllantirish bugungi kunning eng dolzarb vazifalaridan biridir.

Natijalar

Global mafkura — bu jahon miqyosida umumiy hayot tarzi, fikrlash modeli, madaniy va ijtimoiy yondashuvlarni shakllantirishga yo‘naltirilgan g‘oyalar, qadriyatlar va prinsiplar tizimidir. Bu mafkura muayyan millat, xalq yoki mintaqaning emas, balki global miqyosdagi ommaviy manfaatlar, tamoyillar va turmush tarzini ideal deb bilishni targ‘ib etadi. U insonni bir millat yoki davlatga tegishli shaxs emas, balki “yagona dunyo fuqarosi” sifatida ko‘radigan yondashuvni ilgari suradi.

Global mafkuraning shakllanishi va tarqalishida turli axborot texnologiyalari — internet, ijtimoiy tarmoqlar, ommaviy axborot vositalari, kinoindustriya, musiqa, moda va reklama sohalari hal qiluvchi o‘rin tutadi. Bu vositalar orqali muayyan g‘oyalar va madaniy obrazlar butun dunyoda ommaviy tarzda qabul qilinishga intilmoqda.

Global mafkuraning asosiy xususiyatlari:

1.Individualizmni targ‘ib etish:

Global mafkurada insonning shaxsiy manfaatlari, erkinligi va tanlov huquqi eng muhim qadriyat sifatida ko‘riladi. Jamiyat, oila yoki an’anaviy tizim manfaatlaridan ko‘ra, shaxsning shaxsiy istaklari ustun qo‘yiladi. Bu holat ayrim hollarda milliy qadriyatlar va jamoaviylik an’analariga zid kelishi mumkin.

2.Materialistik qadriyatlar ustuvorligi:

Global mafkurada muvaffaqiyat va baxt tushunchalari asosan moliyaviy farovonlik, iste'mol darajasi, moddiy mulkka egalik kabi ko'rsatkichlar bilan o'lchanadi. Bu esa ma'naviy, ruhiy qadriyatlarning soyaga chekinishiga olib kelishi mumkin.

3.Milliylik va an'anaviy qadriyatlarga nisbatan befarqlik:

Global mafkura ko'pincha umumiy va har tomonlama qabul qilingan standartlarni ilgari suradi. Natijada, mahalliy urf-odatlar, milliy kiyimlar, madaniy meros, til va diniy an'analar ko'pincha "ortiqcha" yoki "zamonaviylikka to'sqinlik qiluvchi" tarzda qabul qilinadi. Bu esa millatlar o'rtasidagi farq va o'ziga xosliklarni asta-sekinlik bilan yo'qqa chiqaradi.

4."YAgona dunyo fuqarosi" g'oyasi:

Bu g'oyaga ko'ra, har bir inson faqat o'z mamlakatiga emas, balki butun insoniyatga tegishli. Bir qarashda bu internatsional tushuncha ijobiy bo'lib ko'rinsa-da, amaliyotda milliy identifikatsiya, vatanparvarlik va tarixiy merosga nisbatan loqaydlikka olib kelishi mumkin.

Global mafkura inson tafakkuriga universal yondashuvlar, turmush tarzi, hayot maqsadi va muvaffaqiyatni baholash mezonlarini taklif qilmoqda. Bu tendensiya insonlarning shaxsiy taraqqiyoti, dunyoqarashini kengaytirish, turli madaniyatlar bilan tanishishda ijobiy samara berayotgan bo'lsa-da, milliy ma'naviy immunitet sust bo'lgan jamiyatlar uchun jiddiy xavflar ham tug'diradi.

Shuning uchun global mafkuraning ta'sirida o'z milliy qadriyatlarini asrab-avaylash, ijobiy g'oyalarni tanlab olish va salbiy ta'sirlarga qarshi turish muhim hayotiy vazifaga aylanmoqda. Bunda ta'lim, tarbiya, OAV, oila va jamoat institutlarining hamkorlikdagi harakati hal qiluvchi ahamiyat kasb etadi.

Global mafkura — bu dunyo miqyosida shakllanayotgan va keng tarqalgan g'oyalar, qadriyatlar hamda turmush tarzi orqali jamiyat ongiga ta'sir ko'rsatuvchi kuchli omildir. U axborot texnologiyalari, ommaviy madaniyat, kino, internet va ijtimoiy tarmoqlar vositasida keng tarqalmoqda. SHu bois, global mafkuraning ta'siri barcha qatlamlarda, ayniqsa yoshlar orasida sezilarli darajada namoyon bo'lmoqda.

Uning ta'siri quyidagi yo'nalishlarda ko'riladi:

1. Yoshlar ongiga ta'sir:

Bugungi kunda yoshlar dunyodagi har qanday g'oya va turmush tarzi bilan onlayn muhitda to'g'ridan-to'g'ri tanishish imkoniyatiga ega. Ijtimoiy tarmoqlar, videoplatformalar, serial va filmlar orqali tarqalayotgan g'oyalar ularning dunyoqarashi va qadriyatlar tizimiga ta'sir ko'rsatmoqda.

Global mafkura orqali:

- Go'zallik me'yorlari qayta shakllanmoqda (masalan, tashqi ko'rinishga ortiqcha e'tibor, sun'iy standartlar);
- Muvaffaqiyat tushunchasi faqat moliyaviy yutuqlar bilan bog'lanmoqda;
- Hayotning ma'naviy, ma'rifiy jihatlari e'tibordan chetda qolmoqda.

Natijada, yoshlar orasida milliy qadriyatlardan uzilish, milliy iftixorni yo'qotish, an'anaviy urf-odatlardan bezish holatlari uchrab turibdi. Bunday ta'sir turli ijtimoiy deviant xulqlar, madaniy assimilyasiya va ma'naviy befarqlikka olib kelishi mumkin.

2. Milliy mafkuraga qarshi tahdid:

Global mafkura ko'pincha universal yondashuvlarni targ'ib qilar ekan, mahalliy – milliy mafkuraviy tizimlarga qarshi turishi, ularni kamsitishi yoki ahamiyatsiz deb ko'rsatishi mumkin. Masalan:

- Vatanparvarlik, milliy birlik, diniy an'analar "zamonaviylikka mos kelmas" deb ko'rsatilishi mumkin;
- Milliy madaniyat va tilini rivojlantirishga nisbatan befarqlik paydo bo'ladi;
- Mafkuraviy ta'sirlar orqali yoshlarda "o'zinikidan ko'ra boshqaniki yaxshi" degan fikr shakllanadi.

Bunday holatlar milliy o'zlikni yo'qotish, ijtimoiy bag'rikenglikni so'ndirish va ma'naviy barqarorlikni izdan chiqarishga olib kelishi mumkin.

3. Axborot-mafkuraviy xavfsizlik muammosi:

Global mafkura orqali tarqalayotgan g'oyalar, kontent va axborotlar nazoratsiz holda yoshlar ongiga kirib borishi axborot xavfsizligiga jiddiy tahdid solmoqda. Xususan:

- Yoshlar begona g'oyalarni tanqidiy tahlil qilmasdan qabul qilib olishmoqda;
- Feyk axborotlar, manipulyasiya va ideologik targ'ibot vositalari ommaviy ravishda tarqalmoqda;
- Mafkuraviy tahdidlar orqali yoshlarning ruhiy barqarorligi izdan chiqarilmoqda.

Bu holatni bartaraf etish uchun milliy axborot siyosati, ta'lim-tarbiya tizimi, OAV va ijtimoiy institutlarning muvofiqlashtirilgan harakati talab etiladi. Axborot va mafkura sohasida tanqidiy fikrlash qobiliyatini oshirish, targ'ibot-tashviqot ishlarini kuchaytirish, milliy ruhdagi madaniy mahsulotlar ishlab chiqarish asosiy vazifalardan biri bo'lib qolmoqda.

Xulosa.

Bugungi dunyo taraqqiyotida globallashuv jarayoni qaytarib bo'lmas voqelikka aylandi. U inson hayotining barcha sohalari — iqtisodiyot, madaniyat, siyosat, ta'lim, turmush tarzi va albatta, ma'naviyatga chuqur ta'sir

ko‘rsatmoqda. Bu jarayon bir qarashda umuminsoniy integratsiya, axborot almashinuvi va texnologik ildamlik kabi ijobiy imkoniyatlarni taqdim etsa-da, uning mafkuraviy oqibatlari doimo ijobiy bo‘lavermasligi aniq. Xususan, global mafkuraning ommaviy axborot vositalari, internet platformalari va madaniy mahsulotlar orqali keng tarqalishi yoshlar ongida milliylikdan uzilish, an’anaviy qadriyatlarga nisbatan befarqlik, individualizm va materializmning kuchayishi kabi salbiy holatlarni yuzaga keltirmoqda. Milliy mafkuraviy tizimlarga nisbatan yot bo‘lgan g‘oyalar jamiyat ma’naviy barqarorligiga tahdid solishi mumkin.

Shu nuqtai nazardan, globallashuv ta’sirida vujudga kelayotgan mafkuraviy oqimlarga qarshi samarali chora-tadbirlarni belgilash, ayniqsa yosh avlod ongida mafkuraviy immunitetni shakllantirish bugungi kunning dolzarb talabidir. Bu jarayonda tanqidiy fikrlash qobiliyatini rivojlantirish, milliy va umuminsoniy qadriyatlarni uyg‘unlashtirish, madaniy va axborot xavfsizligini ta’minlash ustuvor vazifalar sirasiga kiradi.

Milliy mafkurani mustahkamlash — faqat davlat siyosati emas, balki oila, ta’lim muassasalari, jamoat tashkilotlari va ommaviy axborot vositalarining hamkorlikda amalga oshirishi lozim bo‘lgan umumiy ma’naviy vazifadir. Faqat ana shundagina globallashuvning ijobiy jihatlaridan samarali foydalanish va uning salbiy ta’sirlaridan himoyalanish imkoni paydo bo‘ladi.

PHILOSOPHICAL

FUTBOL VA SPORT DIPLOMATIYASI

Turaqulov Akmaljon Anvarovich
NamDU Ijtimoiy fanlar fakulteti o‘qituvchisi

Annotatsiya:*Mazkur ishda futbolning jamiyat, madaniyat va xalqaro munosabatlardagi o‘rni yoritilgan. Futbol orqali xalqlar o‘rtasida do‘stlik va hamkorlik rivojlanadi, sport diplomatiyasi orqali tinchlik va bag‘rikenglik g‘oyalari targ‘ib qilinadi. Shuningdek, O‘zbekiston futbolining xalqaro maydondagi faoliyati va uning ijtimoiy-madaniy ahamiyati tahlil qilingan.*

Kalit so’zlar: *Futbol, jamiyat, madaniyat, madaniyatlararo muloqot, sport diplomatiyasi, xalqaro hamkorlik, tinchlik, bag‘rikenglik, yoshlar tarbiyasi, O‘zbekiston futboli.*

ФУТБОЛ И СПОРТИВНАЯ ДИПЛОМАТИЯ

Аннотация: *В данной работе рассматривается роль футбола в обществе, культуре и международных отношениях. Футбол способствует развитию дружбы и сотрудничества между народами, продвигает идеи мира и толерантности через спортивную дипломатию. Также анализируется международная деятельность футбола в Узбекистане и его социально-культурное значение.*

Ключевые слова: *Футбол, общество, культура, межкультурная коммуникация, спортивная дипломатия, международное сотрудничество, мир, толерантность, воспитание молодежи, футбол Узбекистана.*

FOOTBALL AND SPORTS DIPLOMACY

Annotation:*This study examines the role of football in society, culture, and international relations. Football promotes friendship and cooperation among peoples and spreads ideas of peace and tolerance through sports diplomacy. The paper also analyzes Uzbekistan’s international football activities and their socio-cultural significance.*

Keywords: *Football, society, culture, intercultural communication, sports diplomacy, international cooperation, peace, tolerance, youth education, Uzbekistan football.*

Futbol bugungi kunda dunyodagi eng ommaviy va mashhur sport turlaridan biri hisoblanadi. U millionlab insonlarni birlashtirib, turli millat, madaniyat va davlatlar o‘rtasida muloqotni rivojlantiradi. Futbol nafaqat sport o‘yini, balki ijtimoiy, madaniy va iqtisodiy jihatdan katta ahamiyatga ega global hodisadir. Ayniqsa xalqaro musobaqalar futbolning jahon miqyosidagi ta’sirini yanada oshiradi. Bunday turnirlarning eng yirigi – FIFA Jahon chempionati musobaqasi bo‘lib, u milliardlab tomoshabinlarni o‘ziga jalb qiladi. Futbol dunyoning deyarli barcha mamlakatlarida o‘ynaladi va tomosha qilinadi. Uning ommaviyligi oddiy qoidalar, kam jihoz talab qilishi va jamoaviy ruhni rivojlantirishi bilan bog‘liq. Shu sababli futbol turli ijtimoiy qatlam vakillari uchun ochiq sport turi hisoblanadi. “Bugungi kunda futbolni xalqaro miqyosda boshqaruvchi eng yirik tashkilot – FIFA hisoblanadi. Ushbu tashkilot butun dunyo bo‘yicha futbol federatsiyalarini birlashtirib, xalqaro musobaqalarni tashkil etadi va futbol rivojini qo‘llab-quvvatlaydi”[46]. Futbol jamiyat hayotida muhim ijtimoiy rol o‘ynaydi. U insonlarni birlashtiradi, jamoaviylik, hamkorlik va o‘zaro hurmat kabi ijtimoiy qadriyatlarni shakllantiradi. Futbol yoshlar tarbiyasida ham muhim vosita bo‘lib, sog‘lom turmush tarzini targ‘ib qiladi. Ko‘plab mamlakatlarda futbol ijtimoiy muammolarni hal qilishda ham qo‘llaniladi. Masalan, yoshlar o‘rtasida jinoyatchilikni kamaytirish yoki ijtimoiy integratsiyani kuchaytirishda sport loyihalari muhim rol o‘ynaydi. Futbol turli mamlakatlarda o‘ziga xos madaniy hodisaga aylangan. Stadion madaniyati, muxlislik an’analari va jamoa ramzlari milliy madaniyatning bir qismi sifatida shakllanadi. Yirik xalqaro turnirlar, jumladan UEFA European Championship yoki boshqa nufuzli musobaqalar turli millat vakillarining uchrashuvi va madaniyatlararo muloqot maydoniga aylanadi. Futbol zamonaviy dunyoda katta iqtisodiy soha hisoblanadi. Professional futbol klublari, teletranslyatsiyalar, reklama va turizm orqali milliardlab dollar daromad olinadi. Yirik futbol turnirlari mezbon davlatlar

[46] FIFA. FIFA Global Report on Football Development 2022. FIFA Publications, 2022.

iqtisodiyotiga ham ijobiy ta'sir ko'rsatadi. Stadionlar qurilishi, infratuzilma rivoji va turizm oqimining oshishi iqtisodiy o'sishga yordam beradi. Futbol ko'pincha sport diplomatiyasining muhim vositasi sifatida qaraladi. Xalqaro musobaqalar orqali davlatlar o'rtasida do'stlik va hamkorlik mustahkamlanadi. Turli mamlakatlarning futbol jamoalari o'rtasidagi uchrashuvlar xalqlar o'rtasidagi madaniy aloqalarni rivojlantiradi. Shu sababli futbol ko'pincha "xalq diplomatiyasi"ning samarali vositasi sifatida e'tirof etiladi.

Sport diplomatiyasi bugungi kunda xalqaro munosabatlar va xalqaro aloqalarda muhim vosita sifatida e'tirof etilmoqda. U davlatlar va xalqlar o'rtasida tinchlik, do'stlik, hamkorlik va madaniyatlararo muloqotni rivojlantirishga xizmat qiladi. Futbol kabi global sport turlari sport diplomatiyasining samarali platformasiga aylanadi. "Sport diplomatiyasi – bu davlatlar, xalqaro tashkilotlar va sport tashkilotlari tomonidan sport orqali amalga oshiriladigan diplomatik va ijtimoiy faoliyatdir. U quyidagi maqsadlarni o'z ichiga oladi:

Xalqaro hamkorlikni rivojlantirish;

Madaniyatlararo muloqotni mustahkamlash;

Tinchlik va barqarorlikni targ'ib qilish;

Davlat imijini oshirish va xalqaro maydonda obro'ni mustahkamlash"[47].

Sport diplomatiyasi nafaqat rasmiy siyosiy muzokaralarni o'z ichiga oladi, balki xalqaro sport musobaqalari, jamoaviy o'yinlar va sport loyihalari orqali "noformal diplomatiya"ni ham amalga oshiradi.

"Sport diplomatiyasi quyidagi jihatlar bilan ajralib turadi:

a) Tinchlikni mustahkamlash

Sport diplomatiyasi orqali davlatlar va xalqlar o'rtasidagi siyosiy ziddiyatlar yumshatilishi mumkin. Musobaqalar va turnirlar xalqaro hamkorlik muhitini yaratadi.

b) Bag'rikenglik va madaniyatlararo muloqot

Turli millat vakillari bir jamoada yoki turnirda qatnashish orqali bir-birining madaniyati va qadriyatlarini o'rganadi.

c) Davlat imijini oshirish

Xalqaro sport tadbirlari orqali mamlakatlar o'zlarining ijobiy imijini namoyish etadi. Misol uchun, stadionlar, mezbonlik va tashkilot sifatida muvaffaqiyatlar xalqaro maydonda obro'ni oshiradi.

d) Yoshlar tarbiyasi va ijtimoiy ahamiyat"[48]

Sport diplomatiyasi yoshlar o'rtasida jamoaviylik, hurmat, halollik va sog'lom turmush tarzini targ'ib qiladi. Bu esa jamiyatda barqarorlik va tinchlik muhitini shakllantirishga xizmat qiladi.

Futbol sport diplomatiyasining eng samarali vositalaridan biri hisoblanadi. Yirik xalqaro turnirlar, jumladan Jahon chempionati va UEFA Chempionlar ligasi nafaqat sport musobaqalari, balki davlatlar o'rtasidagi diplomatik aloqalarni mustahkamlash imkoniyatini beradi. Futbol orqali xalqlar o'rtasida do'stlik va o'zaro hurmatni targ'ib qilish mumkin. Shu sababli futbol global sport diplomatiyasining markaziy elementi sifatida qaraladi.

Futbol bugungi kunda nafaqat sport turi, balki xalqaro munosabatlarda muhim rol o'ynaydigan ijtimoiy va madaniy hodisa hisoblanadi. Turli mamlakatlar o'rtasida futbol orqali do'stlik aloqalari rivojlanadi, xalqlar o'rtasidagi muloqot kuchayadi. "Futbol xalqaro maydonda davlatlar o'rtasidagi hamkorlikni mustahkamlashda, madaniyatlararo aloqalarni rivojlantirishda va tinchlik g'oyalarini targ'ib qilishda muhim vosita hisoblanadi. Futbol turli davlatlar o'rtasidagi hamkorlikni rivojlantirishga yordam beradi. Xalqaro futbol musobaqalari orqali mamlakatlar o'zaro aloqalarni mustahkamlaydi, sport tashkilotlari o'rtasida hamkorlik yo'lga qo'yiladi"[49]. Dunyo futbolini boshqaruvchi asosiy tashkilot – FIFA bo'lib, u dunyoning ko'plab mamlakatlaridagi futbol federatsiyalarini birlashtiradi. Ushbu tashkilot xalqaro turnirlarni tashkil etish orqali davlatlar o'rtasidagi sport aloqalarini rivojlantiradi. Futbol sport diplomatiyasining eng samarali vositalaridan biri hisoblanadi. "Futbol uchrashuvlari va turnirlari davlatlar o'rtasidagi aloqalarni mustahkamlash, o'zaro ishonchni kuchaytirish imkonini beradi. Masalan, yirik xalqaro musobaqalar, jumladan katta sport musobaqalari, balki diplomatik va madaniy aloqalar uchun ham muhim platforma hisoblanadi. Futbol turli millat va madaniyat vakillarini birlashtiruvchi universal til hisoblanadi"[50]. Xalqaro musobaqalar davomida futbolchilar, murabbiylar va muxlislar turli madaniyatlar bilan tanishadi. Bu jarayon xalqlar o'rtasida o'zaro hurmat va bag'rikenglikni kuchaytiradi. Futbol orqali turli mamlakatlarning madaniyati, an'analari va turmush tarzi haqida ma'lumot almashinuvi sodir bo'ladi. Xalqaro futbol musobaqalarida muvaffaqiyat qozonish davlatning xalqaro maydondagi obro'sini oshiradi. Milliy terma jamoalar yutuqlari mamlakatning sport salohiyatini namoyish etadi. Masalan, Uzbekistan national football team ning xalqaro musobaqalarda ishtiroki O'zbekistonning sport sohasidagi rivojlanishini ko'rsatadi va mamlakat imijini mustahkamlashga xizmat qiladi. Futbol ko'pincha xalqlar o'rtasida tinchlik

[50] Darby, P. Africa, Football and FIFA: Politics, Colonialism and Resistance. Routledge, 2002.

va do‘stlik g‘oyalarini targ‘ib qilish vositasi sifatida qaraladi. Xalqaro turnirlar davomida turli mamlakatlardan kelgan insonlar bir joyda to‘planib, sport orqali o‘zaro muloqot qiladi. Shu sababli futbol ko‘pincha xalqaro munosabatlarda “xalq diplomatiyasi”ning samarali vositasi sifatida e’tirof etiladi.

“Futbol nafaqat sport turi, balki xalqlar o‘rtasida do‘stlik va hamjihatlikni rivojlantirish vositasi sifatida keng tarqalgan global hodisadir. Turli millat, madaniyat va irq vakillari futbol orqali birlashadi, umumiy maqsad yo‘lida harakat qiladi va bir-birini hurmat qilishni o‘rganadi”[51]. Shu sababli futbol ko‘pincha madaniyatlararo muloqot va xalq diplomatiyasi vositasi sifatida qaraladi. Futbol oddiy qoidalar va jamoaviy ruhga asoslanganligi sababli dunyoning barcha hududlarida o‘ynaladi. Futbol maydonida til yoki madaniy farqlar muhim emas – barcha ishtirokchilar bir maqsadni ko‘zlaydi. Shu jihatdan futbol “universal til” vazifasini bajaradi va xalqlar o‘rtasidagi do‘stlikni rivojlantirishga xizmat qiladi. Yirik xalqaro turnirlar, jumladan FIFA World Cup va UEFA European Championship xalqlarni bir maydonga to‘playdi. Turnirlar davomida futbolchilar va muxlislar o‘zaro muloqot qiladi, madaniyatlar bilan tanishadi va bir-birini hurmat qilishni o‘rganadi. Musobaqalarning stadionlar, fan-zonalar va onlayn platformalarda yaratayotgan ijtimoiy muhit xalqlar o‘rtasida do‘stlik va bag‘rikenglikni mustahkamlashga yordam beradi. Futbol sport diplomatiyasining samarali vositasi sifatida xalqlar o‘rtasidagi do‘stlikni rivojlantiradi. “Davlatlar o‘rtasidagi rasmiy yoki noformal diplomatik aloqalarda futbol uchrashuvlari ijobiy muhit yaratadi.

Masalan:

Futbol musobaqalari orqali davlatlar o‘zaro ishonchni oshiradi;

Turli mamlakatlarning terma jamoalari bir-biriga hurmat bilan qaraydi;

Turnirlar davomida o‘zaro madaniy almashinuv sodir bo‘ladi”[52].

Futbol nafaqat sportchilarga, balki muxlislarga ham do‘stlikni o‘rgatadi. Stadionlar va futbol maydonlarida turli millat vakillari birgalikda hissiyotlarni boshdan kechiradi, umumiy maqsadga erishish uchun birlashadi. Bu jarayon madaniyatlararo tushunishni rivojlantiradi va xalqlar o‘rtasidagi barqaror do‘stlik muhitini yaratadi. Yoshlar futbol orqali jamoaviylik, halollik va hurmat tamoyillarini o‘rganadi. “Sport loyihalari va xalqaro turnirlar yoshlarni turli mamlakatlardan birlashtirib, ularni tinchlikparvar ruhda tarbiyalaydi”[53]. Bu esa kelajakda xalqlar o‘rtasidagi do‘stlikni yanada mustahkamlashga xizmat qiladi.

O‘zbekiston futboli so‘nggi yillarda nafaqat milliy maydonda, balki xalqaro arena va musobaqalarda ham rivojlanmoqda. O‘zbekistonning xalqaro futbol aloqalari terma jamoalar, klublar va xalqaro futbol tashkilotlari orqali amalga oshiriladi. Bu aloqalar mamlakatning sport salohiyatini namoyish etish, futbol orqali xalqaro do‘stlik va hamkorlikni rivojlantirish imkonini beradi. O‘zbekiston futbol federatsiyasi (Uzbekistan Football Association) FIFA va Asian Football Confederation (AFC) a’zosi hisoblanadi. Shu orqali O‘zbekiston:

Xalqaro musobaqalarda qatnashadi;

Futbol siyosati va qoidalari bo‘yicha xalqaro standartlarga rioya qiladi;

Xalqaro hamkorlik va tajriba almashinuvini amalga oshiradi.

O‘zbekiston milliy futbol jamoasi (Uzbekistan national football team) Osiyo va jahon miqyosida bir qator musobaqalarda ishtirok etadi. Shu jumladan:

AFC Asian Cup;

FIFA World Cup Qualifiers;

Central Asian Tournaments.

Bu turnirlar orqali O‘zbekiston futbolchilari xalqaro tajriba orttiradi va boshqa mamlakatlar jamoalari bilan do‘stlik aloqalarini rivojlantiradi. O‘zbekistonning asosiy professional futbol klublari, jumladan:

Pakhtakor Tashkent FK;

Bunyodkor FK;

Nasaf FK.

Ushbu jamoalar AFC Champions League va boshqa xalqaro turnirlarda ishtirok etadi. Bu klub futboli orqali mamlakat futbolining xalqaro maydondagi obro‘si oshadi. O‘zbekistonning xalqaro futbol aloqalari nafaqat sport, balki diplomatik va madaniy jihatdan ham ahamiyatga ega. Futbol orqali:

Turli davlatlar bilan do‘stlik aloqalari rivojlantiriladi;

Madaniyatlararo muloqot va tajriba almashuvi amalga oshiriladi;

Yoshlar o‘rtasida sport orqali tinchlik va hamjihatlik targ‘ib qilinadi.

[51] Foer, F. How Soccer Explains the World: An Unlikely Theory of Globalization. HarperCollins, 2004.

[52] Armstrong, G. & Giulianotti, R. Football in Asia: Culture, Society and Politics. Palgrave Macmillan, 2013.

[53] UEFA. Football and Society: Promoting Peace and Tolerance. UEFA Reports, 2018.

O‘zbekiston futboli xalqaro maydonda rivojlanishda davom etmoqda. Yangi avlod futbolchilari xalqaro musobaqalarda muvaffaqiyat qozonib, mamlakatning sport imijini oshirishga yordam beradi. Shu bilan birga, futbol orqali xalqaro diplomatiya va madaniyatlararo muloqotning samaradorligi yanada kuchayadi. “Futbol bugungi kunda nafaqat sport turi, balki xalqaro maydonda ijtimoiy, madaniy va iqtisodiy ahamiyatga ega hodisa sifatida namoyon bo‘lmoqda. U insonlarni birlashtiradi, turli millat va madaniyat vakillarini umumiy maqsad yo‘lida birlashtirib, do‘stlik va bag‘rikenglik muhitini yaratadi”[54]. Futbol orqali xalqaro musobaqalarda davlatlar o‘zaro hamkorlik qiladi, madaniyatlararo muloqot rivojlantiriladi va tinchlik g‘oyalari targ‘ib qilinadi. Sport diplomatiyasi doirasida futbol nafaqat rasmiy siyosiy vosita, balki xalqaro maydonda xalqlarni birlashtiruvchi samarali platforma sifatida ishlaydi. Xalqaro turnirlar va jamoaviy o‘yinlar orqali davlatlar o‘rtasida do‘stlik aloqalari mustahkamlanadi, yoshlar sport orqali jamoaviylik, hurmat va halollik kabi qadriyatlarni o‘rganadi. O‘zbekiston futboli ham milliy va xalqaro maydonda rivojlanmoqda. Terma jamoa va professional klublar xalqaro musobaqalarda ishtirok etib, mamlakatning sport salohiyati va obro‘sini oshiradi. Shu bilan birga, futbol O‘zbekistonning xalqaro maydondagi madaniy aloqalari va sport diplomatiyasini rivojlantirishda muhim rol o‘ynaydi. Umuman olganda, futbol jamiyatda ijtimoiy va madaniy jihatdan noyob ahamiyatga ega bo‘lib, xalqlar o‘rtasida do‘stlikni rivojlantirish, tinchlik va bag‘rikenglik g‘oyalarini targ‘ib qilishda samarali vosita hisoblanadi. Zamonaviy dunyoda futbol nafaqat sport o‘yini, balki global ijtimoiy va madaniy fenomen sifatida muhim o‘rin egallaydi.

Annotatsiya. *Mazkur maqolada zamonaviy ta’lim tizimini modernizatsiyalashning ijtimoiy-falsafiy asoslari, asosiy tamoyillari va rivojlanish istiqbollari tahlil qilingan. Ta’lim sohasidagi transformatsion jarayonlar, raqamlashtirish, globallashuv, inson kapitalini rivojlantirish hamda uzluksiz ta’limning ahamiyati yoritilgan. Shuningdek, ta’limni modernizatsiyalashning ijtimoiy taraqqiyot, iqtisodiy raqobatbardoshlik va shaxs rivojiga ta’siri tahlil etilgan. Tadqiqot natijasida ta’lim tizimini rivojlantirishning ustuvor yo‘nalishlari va O‘zbekistonda uni takomillashtirish istiqbollari yuzasidan ilmiy xulosalar ishlab chiqilgan.*

Kalit so‘zlar: *ta’lim tizimi, modernizatsiya, ijtimoiy-falsafiy tamoyillar, ta’lim transformatsiyasi, inson kapitali, raqamli ta’lim, innovatsion rivojlanish, uzluksiz ta’lim, ta’lim sifati, kompetensiyaviy yondashuv, ta’lim siyosati, bilimlar iqtisodiyoti.*

СОЦИАЛЬНО-ФИЛОСОФСКИЕ ПРИНЦИПЫ И ПЕРСПЕКТИВЫ РАЗВИТИЯ МОДЕРНИЗАЦИИ СОВРЕМЕННОЙ СИСТЕМЫ ОБРАЗОВАНИЯ

Аннотация. *В данной статье проанализированы социально-философские основы, основные принципы и перспективы развития модернизации современной системы образования. Рассмотрены трансформационные процессы в сфере образования, цифровизация, глобализация, развитие человеческого капитала и значение непрерывного образования. Кроме того, исследовано влияние модернизации образования на общественное развитие, экономическую конкурентоспособность и развитие личности. По результатам исследования сформулированы научные выводы о приоритетных направлениях развития системы образования и перспективах её совершенствования в Узбекистане.*

Ключевые слова: *система образования, модернизация, социально-философские принципы, трансформация образования, человеческий капитал, цифровое образование, инновационное развитие, непрерывное образование, качество образования, компетентностный подход, образовательная политика, экономика знаний.*

SOCIO-PHILOSOPHICAL PRINCIPLES AND DEVELOPMENT PROSPECTS OF MODERNIZING THE MODERN EDUCATION SYSTEM

Abstract. *This article analyzes the socio-philosophical foundations, key principles, and development prospects of modern education system modernization. It examines transformational processes in education, including digitalization, globalization, human capital development, and the importance of lifelong learning. Furthermore, the study explores the impact of educational modernization on social development, economic competitiveness, and personal growth. Based on the research findings, scientific conclusions are drawn regarding the priority directions for the development of the education system and the prospects for its improvement in Uzbekistan.*

Keywords: *education system, modernization, socio-philosophical principles, educational transformation, human capital, digital education, innovative development, lifelong learning, quality of education, competency-based approach, educational policy, knowledge economy.*

Kirish

XXI asrda ta’lim tizimini modernizatsiyalash jamiyat taraqqiyoti va davlatlarning raqobatbardoshligini ta’minlovchi strategik omillardan biriga aylandi. Globallashuv, raqamli texnologiyalarning jadal rivojlanishi hamda bilimlar iqtisodiyotining shakllanishi ta’lim tizimiga yangi talablarni qo‘ymoqda [1]. Shu sababli rivojlangan mamlakatlarda ta’limni modernizatsiyalash uzluksiz jarayon sifatida qaralib, uning mazmuni va boshqaruv mexanizmlari muntazam takomillashtirilmoqda [2]. Ta’lim tizimini modernizatsiyalash nafaqat pedagogik, balki

ijtimoiy-falsafiy muammo sifatida ham muhim ahamiyatga ega. Chunki ta’lim inson kapitalini rivojlantirish, fuqarolik jamiyatini shakllantirish va innovatsion taraqqiyotni ta’minlashning asosiy omillaridan biri hisoblanadi [3, 4]. Mazkur masala J. Dewey, P. Drucker, M. Castells, P. Freire, E. Toffler va T. Parsons kabi olimlar tomonidan turli jihatlarda tadqiq etilgan bo‘lib, ularning ilmiy qarashlarida ta’limning ijtimoiy transformatsiya va bilimlar jamiyati rivojidagi o‘rni asoslab berilgan [5]. O‘zbekiston olimlari tomonidan ham ta’lim sifatini oshirish, uzluksiz ta’limni rivojlantirish va raqamli texnologiyalarni joriy etish masalalari keng o‘rganilgan [6]. Bugungi kunda mamlakatimizda amalga oshirilayotgan ta’lim islohotlari, jumladan, “O‘zbekiston – 2030” strategiyasida belgilangan vazifalar ta’lim tizimini xalqaro standartlar asosida takomillashtirish va inson kapitalini rivojlantirishni ustuvor yo‘nalish sifatida belgilamoqda [7]. Shu bois zamonaviy ta’lim tizimini modernizatsiyalashning ijtimoiy-falsafiy tamoyillarini ilmiy jihatdan tahlil qilish dolzarb ahamiyat kasb etadi. Mazkur maqolaning maqsadi zamonaviy ta’lim tizimini modernizatsiyalashning ijtimoiy-falsafiy tamoyillari va rivojlanish istiqbollarini tahlil qilishdan iborat.

Adabiyotlar tahlili

Ta’lim tizimini modernizatsiyalash masalasi zamonaviy ijtimoiy-falsafiy va pedagogik tadqiqotlarning muhim yo‘nalishlaridan biri hisoblanadi. Ushbu jarayon inson kapitalini rivojlantirish, bilimlar iqtisodiyotini shakllantirish va innovatsion taraqqiyotni ta’minlash bilan chambarchas bog‘liqdir. Ta’lim modernizatsiyasining nazariy asoslari J. Dewey, P. Drucker, M. Castells, P. Freire va E. Toffler kabi olimlarning ilmiy qarashlarida o‘z aksini topgan. J. Dewey ta’limni jamiyat taraqqiyotining muhim omili sifatida baholab, uning demokratik jamiyatni shakllantirishdagi rolini asoslab bergan [1]. P. Drucker bilim va axborotni zamonaviy taraqqiyotning asosiy resursi sifatida e’tirof etib, ta’lim tizimini innovatsion iqtisodiyotning tayanch instituti sifatida talqin qiladi [2]. M. Castells axborotlashgan jamiyat sharoitida ta’limning mazmuni va funksiyalari tubdan o‘zgarayotganligini qayd etib, raqamli kompetensiyalarni rivojlantirish zarurligini ta’kidlaydi [3]. P. Freire ta’limning insonparvarlik mohiyatini yoritib, demokratlashuv va shaxsiy rivojlanishni modernizatsiyaning muhim yo‘nalishlari sifatida ko‘rsatadi [4]. E. Toffler esa axborot jamiyatiga o‘tish sharoitida ta’lim tizimining moslashuvchanligi va innovatsionligi jamiyat taraqqiyotining muhim omili ekanligini asoslaydi [5]. Mahalliy tadqiqotlarda ta’lim sifatini oshirish, uzluksiz ta’lim tizimini rivojlantirish, raqamli texnologiyalarni joriy etish va xalqaro standartlarga integratsiyalashuv masalalariga alohida e’tibor qaratilgan [6]. Shu bilan birga, inson kapitalini rivojlantirish va ta’lim boshqaruvini takomillashtirish modernizatsiyaning ustuvor yo‘nalishlari sifatida e’tirof etiladi [7]. Tahlil qilingan ilmiy manbalar ta’lim modernizatsiyasining nazariy asoslari yetarli darajada o‘rganilganligini ko‘rsatsa-da, uning ijtimoiy-falsafiy tamoyillari hamda O‘zbekiston sharoitidagi rivojlanish istiqbollarini kompleks tadqiq etish dolzarb ilmiy vazifa bo‘lib qolmoqda.

Tadqiqot metodologiyasi

Mazkur tadqiqot zamonaviy ta’lim tizimini modernizatsiyalashning ijtimoiy-falsafiy tamoyillari va rivojlanish istiqbollarini tahlil qilishga qaratilgan bo‘lib, uning metodologik asosini ta’limning jamiyat taraqqiyoti, inson kapitalini rivojlantirish va bilimlar iqtisodiyotidagi o‘rniga doir nazariy qarashlar tashkil etadi [1]. Tadqiqotda tizimli yondashuv metodidan foydalanilib, ta’lim tizimi o‘zaro bog‘liq elementlardan iborat murakkab ijtimoiy institut sifatida o‘rganildi [2]. Ijtimoiy-falsafiy tahlil metodi yordamida globallashuv, raqamlashtirish, insonparvarlashuv va uzluksiz ta’lim jarayonlarining ta’lim rivojiga ta’siri yoritildi [3]. Qiyosiy-komparativ tahlil asosida rivojlangan mamlakatlarning ta’limni modernizatsiyalash tajribasi hamda O‘zbekistonda amalga oshirilayotgan islohotlar o‘zaro taqqoslandi va ularning umumiy hamda o‘ziga xos jihatlari aniqlandi [4]. Shuningdek, induksiya, deduksiya, analiz va sintez metodlari orqali ilmiy manbalar, normativ-huquqiy hujjatlar va mavjud nazariy qarashlar umumlashtirilib, mualliflik xulosalari shakllantirildi [5]. Tadqiqotning empirik bazasini O‘zbekiston Respublikasining ta’lim sohasiga oid normativ-huquqiy hujjatlari, “O‘zbekiston – 2030” strategiyasi, UNESCO, OECD va Jahon bankining tahliliy hisobotlari hamda mahalliy va xorijiy olimlarning ilmiy ishlari tashkil etdi [6]. Tadqiqot natijalarining ishonchliligi ilmiy manbalarni tanqidiy tahlil qilish, qiyosiy o‘rganish va olingan natijalarning amaldagi ta’lim islohotlari bilan o‘zaro uyg‘unligini tekshirish orqali ta’minlandi.

Natijalar va ularning tahlili

Zamonaviy ta’lim tizimini modernizatsiyalashning ijtimoiy-falsafiy tamoyillari.

Globallashuv va raqamli transformatsiya sharoitida ta’lim tizimini modernizatsiyalash jamiyat taraqqiyotining muhim omiliga aylanmoqda. Tahlillar zamonaviy ta’limning insonparvarlik, demokratiklik, uzluksizlik, innovatsionlik va ochiqlik tamoyillariga asoslanishini ko‘rsatadi [1]. Ushbu tamoyillar ta’limning bilim berish bilan bir qatorda shaxsning har tomonlama rivojlanishini ta’minlovchi ijtimoiy institut sifatidagi ahamiyatini kuchaytiradi. Insonparvarlik tamoyili ta’lim oluvchining ehtiyoj va qobiliyatlarini hisobga olishni nazarda tutsa, demokratlashtirish tamoyili ta’lim boshqaruvida ochiqlik, shaffoflik va manfaatdor tomonlarning faol ishtirokini ta’minlashga xizmat qiladi [2; 3]. Bu esa ta’lim sifatini oshirish va boshqaruv samaradorligini kuchaytirishning muhim omili hisoblanadi.

Ta’lim transformatsiyasining ustuvor yo‘nalishlari. Tadqiqot natijalari zamonaviy ta’lim transformatsiyasining uchta asosiy yo‘nalishini aniqlash imkonini berdi. Birinchisi, raqamlashtirish bo‘lib, u ta’lim mazmuni, metodlari va

boshqaruv tizimini yangilashga xizmat qilmoqda. Elektron platformalar, sun'iy intellekt va masofaviy ta'lim texnologiyalari ta'limning moslashuvchanligini oshirmoqda [4]. Ikkinchi yo'nalish kompetensiyaviy yondashuv bilan bog'liq bo'lib, unda amaliy ko'nikmalar, tanqidiy fikrlash va muammolarni hal etish kompetensiyalarini rivojlantirish ustuvor ahamiyat kasb etadi [5]. Uchinchi yo'nalish esa uzluksiz ta'lim konsepsiyasi bo'lib, zamonaviy jamiyatda shaxsning hayot davomida bilim va ko'nikmalarini muntazam yangilab borishini taqozo etadi [6].

O'zbekiston ta'lim tizimini rivojlantirish istiqbollari. O'zbekistonda amalga oshirilayotgan ta'lim islohotlari ta'lim sifatini oshirish, xalqaro standartlarni joriy etish va innovatsion muhitni rivojlantirishga qaratilgan [7]. Tadqiqot natijalari istiqbolda raqamli ta'lim infratuzilmasini kengaytirish, xalqaro hamkorlikni rivojlantirish, davlat-xususiy sheriklik mexanizmlarini takomillashtirish hamda pedagog kadrlar salohiyatini oshirish ustuvor vazifalar bo'lib qolishini ko'rsatdi [8]. Shunday qilib, ta'lim tizimini modernizatsiyalash inson kapitalini rivojlantirish, innovatsion iqtisodiyot uchun raqobatbardosh kadrlar tayyorlash va jamiyatning intellektual salohiyatini yuksaltirishga xizmat qiladi. Mazkur jarayonning samaradorligi esa ta'limning ochiqligi, moslashuvchanligi va innovatsion rivojlanish darajasi bilan belgilanadi.

Xulosa. Zamonaviy ta'lim tizimini modernizatsiyalash jamiyatning ijtimoiy-iqtisodiy taraqqiyoti va inson kapitalini rivojlantirishning muhim omili bo'lib, uning samaradorligi insonparvarlik, demokratiklik, innovatsionlik va uzluksizlik tamoyillariga asoslanadi.

Tadqiqot natijalari ta'limning bilimlar iqtisodiyoti va innovatsion rivojlanishning strategik resursi ekanligini ko'rsatdi. Shu bois ta'limni modernizatsiyalash davlat siyosatining ustuvor yo'nalishlaridan biri sifatida qaralishi lozim. Globallashuv va raqamli transformatsiya sharoitida ta'lim tizimini rivojlantirishning asosiy yo'nalishlari raqamlashtirish, kompetensiyaviy yondashuvni joriy etish va uzluksiz ta'lim konsepsiyasini takomillashtirish bilan bog'liqdir. O'zbekistonda amalga oshirilayotgan ta'lim islohotlarining samaradorligi pedagog kadrlar salohiyatini oshirish, ta'lim muassasalarining mustaqilligini kengaytirish hamda innovatsion boshqaruv mexanizmlarini rivojlantirishga bog'liq.

Ta'lim tizimini yanada takomillashtirish davlat, fuqarolik jamiyati va xususiy sektor hamkorligini kuchaytirish, davlat-xususiy sheriklik mexanizmlarini rivojlantirish hamda ta'limga investitsiyalarni keng jalb etishni talab etadi. Ta'lim modernizatsiyasining ijtimoiy-falsafiy asoslarini amaliyotga tatbiq etish barqaror rivojlanish, raqobatbardosh iqtisodiyot va jamiyatning intellektual salohiyatini yuksaltirishning muhim sharti hisoblanadi.

PHILOSOPHICAL

ERKINLIK FENOMENINING IJTIMOIY-FALSAFIY HAMDA ONTOLOGIK TALQINLARI

Mannobova Gulzoda Ravshanbek qizi,
Farg‘ona davlat universiteti
Tarix fakulteti, Falsafa kafedrasi 3-bosqich doktoranti
Email: mannobovaguli@gmail.com

Annotatsiya *; Mazkur maqolada inson borlig‘ining fundamental asosi bo‘lgan erkinlik fenomeni zamonaviy falsafiy diskursning markaziy mavzusi sifatida obektiv tadqiq etilgan. XXI asrdagi globallashuv, raqamli texnologiyalar va ijtimoiy transformatsiyalar sharoitida erkinlikning mohiyati o‘zining yangi ontologik va gnoseologik qatlamlarini namoyon etishi dalillangan. Maqolada erkinlik shunchaki “tanlov imkoniyati” emas, balki insonning o‘zligini anglash, dunyodagi o‘rnini belgilash va o‘zini namoyon etishida shakllanadigan ichki dinamik jarayon hamda ekzistensiya usuli sifatida talqin qilinadi. Erkinlikning substansional xususiyatga ega emasligi, u ”tayyor holda” berilmasdan, ijtimoiy makonda insonning “bo‘lish” jarayonida shakllanishi ochib berilgan. Tadqiqot davomida tarixiylik, mantiqiylik, fenomenologik hamda germenevtik tahlil usullaridan keng foydalanildi. B. Spinoza, E. Fromm, J. Bodriyyar, M. Fuko kabi G‘arb faylasuflarining qarashlari sotsiomadaniy, qiyosiy-tipologik metodlar yordamida chuqur o‘rganildi. Shuningdek, Isayya Berlinning erkinlik konsepsiyalari hamda O‘zbekiston Respublikasi Konstitutsiyasida belgilangan huquqiy normalar sotsial determinizm va huquqiy-falsafiy tahlil tamoyillariga tayangan holda qiyoslanib, erkinlik hamda qaramlik masalalarining ilmiy-amaliy mohiyati yoritilgan.*

Kalit so‘zlar: *erkinlik fenomeni, ijtimoiy transformatsiyalar, ontologik maqom, gnoseologiya, ekzistensiya, sotsial determinizm, fenomenologik yondashuv, germenevtik tahlil, huquqiy-falsafiy tahlil.*

SOCIAL, PHILOSOPHICAL AND ONTOLOGICAL INTERPRETATION OF THE PHENOMENON OF FREEDOM.

Abstract; *This article objectively studies the phenomenon of freedom, which is the fundamental basis of human existence, as a central theme of modern philosophical discourse. It is argued that in the conditions of globalization, digital technologies and social transformations of the 21st century, the essence of freedom manifests its new ontological and epistemological layers. The article interprets freedom not just as a “choice”, but as an internal dynamic process and a way of existence that is formed in the process of understanding a person’s identity, determining his place in the world and expressing himself. It is revealed that freedom does not have a substantial nature, that it is not given “ready-made”, but is formed in the process of a person’s “being” in social space. The methods of historicism, logic, phenomenological and hermeneutic analysis were widely used in the course of the research. The views of Western philosophers such as B. Spinoza, E. Fromm, J. Baudrillard, M. Foucault were studied in depth using sociocultural, comparative-typological methods. Also, Isaiah Berlin’s concepts of freedom and the legal norms established in the Constitution of the Republic of Uzbekistan are compared based on the principles of social determinism and legal and philosophical analysis, and the scientific and practical essence of the issues of freedom and dependence is highlighted.*

Keywords: *phenomenon of freedom, social transformations, ontological status, epistemology, existence, social determinism, phenomenological approach, hermeneutic analysis, legal and philosophical analysis.*

СОЦИАЛЬНО-ФИЛОСОФСКИЕ И ОНТОЛОГИЧЕСКИЕ ИНТЕРПРЕТАЦИИ ЯВЛЕНИЯ СВОБОДЫ

Аннотация; *В данной статье объективно исследуется феномен свободы, являющийся основной основой человеческого существования, как центральная тема современного философского дискурса. Подчеркивается, что в условиях глобализации, цифровых технологий и социальных изменений XXI века сущность свободы проявляет свои новые онтологические и эпистемологические пласты. В статье свобода интерпретируется не просто как «выбор», а как внутренний динамический процесс и способ существования, формирующийся в процессе понимания личности, определения ее места в мире и самовыражения. Установлено, что свобода не имеет субстанциальной природы, не дается «готовой», а формируется в процессе «существования» человека в социальном пространстве. В процессе исследования широко использовались историцизм, логические, феноменологические и герменевтические методы анализа. Взгляды таких западных философов, как Б. Спиноза, Э. Фромм, Ж. Бодрийар, М. Фуко, были изучены углубленно с использованием*

социокультурных, сравнительно-типологических методов. Кроме того, на основе принципов социального детерминизма и право-философского анализа проводится сравнение концепций свободы Исайи Берлина и правовых норм, установленных в Конституции Республики Узбекистан, а также освещается научная и практическая сущность вопросов свободы и зависимости.

Ключевые слова: *феномен свободы, социальные изменения, онтологический статус, эпистемология, существование, социальный детерминизм, феноменологический подход, герменевтический анализ, право-философский анализ.*

KIRISH

Inson borlig‘ining fundamental asosi sifatida erkinlik fenomeni zamonaviy falsafiy diskursning markaziy mavzularidan biri bo‘lib qolmoqda. XXI asrda globallashuv, raqamli texnologiyalar va ijtimoiy transformatsiyalar sharoitida erkinlikning mohiyati klassik tushunchalardan farqli o‘laroq, yangi ontologik va gnoseologik qatlamlarni namoyon etmoqda. Falsafiy tafakkur tarixida erkinlik shunchaki “tanlov imkoniyati” emas, balki insonning o‘zligini anglash va dunyodagi o‘rnini belgilash usuli sifatida qaraladi, ya’ni erkinlikning ontologik maqomi uning borliqdagi o‘rni bilan belgilanadi. Zamonaviy ontologiyada erkinlik – bu insonning mavjudlik (ekzistensiya) usuli hisoblanadi. U tashqi olamdan ajralgan holdagi holat emas, balki borliqning ichki dinamik jarayonidir. So‘nggi tadqiqotlarga ko‘ra, erkinlik substansional xususiyatga ega emas, ya’ni u “tayyor holda” berilmaydi, balki inson faoliyati jarayonida, ijtimoiy makonda subyektning o‘zini namoyon etishda, «bo‘lish» jarayonida shakllanadi[1].

TADQIQOT METODOLOGIYASI

Mazkur maqolada ijtimoiy-falsafiy hodisalarni o‘rganishning obyektivlik, tarixiylik, mantiqiylik, qiyosiy tahlil va tizimlilik kabi umumilmiy metodlaridan foydalanildi. Erkinlik va qaramlik tushunchalarining ontologik va gnoseologik jihatlarini tahlil qilishda fenomenologik yondashuv hamda germenevtik tahlil usullari qo‘llanildi. Shuningdek, G‘arb faylasuflari (B. Spinoza, E. Fromm, J. Bodriyyar, M. Fuko) asarlarini o‘rganishda sotsiomadaniy va qiyosiy-tipologik metodlar jalb etildi. Isayya Berlinning erkinlik konsepsiyalari hamda O‘zbekiston Respublikasi Konstitutsiyasidagi huquqiy normalarni qiyoslashda huquqiy-falsafiy tahlil hamda sotsial determinizm tamoyillariga tayanildi.

NATIJALAR VA MUHOKAMA

T. Fuks erkinlikni insonning biologik va ijtimoiy borlig‘ining integratsiyasi, ya'ni «o‘z-o‘zini tashkil etish» jarayoni sifatida talqin qiladi. Unga ko‘ra, erkinlik — bu miyadagi neyronlarning tasodifiy chaqnashlari emas, balki tirik mavjudotning vaqt o‘lchami ichida o‘z hayotiy trayektoriyasini ongli ravishda shakllantirish qobiliyatidir[2]. Zamonaviy ontologiyada erkinlik mavhum “ruh” yoki izolyatsiya qilingan “miya” faoliyati mahsuli emas, balki embodiment (mujassamlilik) paradigmasi asosida tushunilishi lozim. Unga ko‘ra, inson ongi uning biologik tanasi va atrof-muhit bilan o‘zaro munosabatidan ajralmasdir. Klassik dualizm (R. Dekart) tana va ongni bir-biriga qarama-qarshi qo‘ygan bo‘lsa, zamonaviy fenomenologik antropologiya ularning yaxlitligini ilgari suradi. T. Fuks ta’kidlaganidek, erkinlik – bu “mujassamlilik” jarayondir. Biz qaror qabul qilganimizda, bu faqat neyronlar darajasida emas, balki butun organizmning dunyoga nisbatan munosabati sifatida namoyon bo‘ladi. Bu yerda nemis falsafasidagi ikki tushuncha farqlanadi:

1.“Körper” (biologik obyekt sifatidagi tana) – tibbiyot o‘rganadigan tana.

2.“Leib” (yashayotgan tana) – biz his qiladigan, og‘riq sezadigan va dunyoni idrok etadigan subyektiv tana.

Erkinlik aynan “Leib” (yashayotgan tana) darajasida amalga oshadi. Masalan, musiqachi pianino chalayotganda barmoqlarining harakatini har soniyada ongli nazorat qilmaydi; uning «tanasi» musiqani biladi va erkin ijro etadi. Demak, erkinlik – bu tananing dunyo bilan uyg‘unlashgan holda, to‘siqlarsiz va maqsadli harakatlana olish imkoniyatidir. Gnoseologik nuqtayi nazardan, erkinlik zaruriyatni anglash bilan uzviy bog‘liqdir. Spinozadan meros qolgan “anglangan zaruriyat” tamoyili bugungi kunda kognitiv fanlar yutug‘i bilan boyitilmoqda. Erkinlik va zaruriyat o‘rtasidagi dialektik munosabatni tushunishda Benedikt Spinozaning ratsionalistik yondashuvi fundamental ahamiyat kasb etadi. Spinoza ontologiyasida mutlaq iroda erkinligi (indeterminizm) inkor etiladi, olamda har bir narsa qat’iy sabab-oqibat qonuniyatlari asosida yuz beradi[3]. Biroq, Spinoza uchun determinizm erkinlikning yo‘qligini anglatmaydi. Aksincha, u erkinlikni gnoseologik akt – bilish jarayoni orqali asoslaydi[4]. Spinozaning mashhur «Etika» asarida ilgari surilgan “erkinlik – bu anglangan zaruriyatdir” tamoyili shuni anglatadiki, inson o‘z xatti-harakatlarini boshqaruvchi tashqi va ichki sabablarni (affektlarni) qanchalik chuqur anglasa, u tashqi ta’sirlarning qulidan (passiv holatdan) o‘z-o‘zini boshqaruvchi faol subyektga aylanadi[5].Zamonaviy spinozashunoslikda ushbu yondashuv «kognitiv terapiya»ning asosi sifatida talqin qilinmoqda. Stiven Nadlerning (2020) so‘nggi tadqiqotlariga ko‘ra, Spinozaning erkinlik modeli shunchaki «taqdirga tan berish» (stoitsizm) emas, balki «adekvat g‘oyalar» orqali o‘z hissiyotlari va muhit ustidan hukmronlik qilishdir. Inson qachonki o‘z harakatining sababini bilmasa, u majburlangan hisoblanadi; sababni anglagan zahoti, bu zaruriyat uning o‘z ichki tabiatiga aylanadi va u erkinlashadi. Bu jarayonni quyidagi bosqichlarda ifodalash mumkin:

1.Qullik: Inson tashqi sabablar va anglanmagan ehtiroslar (qo‘rquv, g‘azab) ta’sirida yashaydi.

2.Anglash: Aql yordamida affektlarning kelib chiqish sabablarini va tabiat qonunlarini o‘rganadi.

3.Erkinlik: Zaruriyatni anglash orqali inson tashqi majburlovdan xalos bo‘lib, o‘z tabiati qonunlari asosida harakatlana boshlaydi.

Shunday qilib, Spinoza nazariyasida erkinlik — bu holat emas, balki bilimsizlikdan (noadekvat g‘oyalardan) bilimga (adekvat g‘oyalarga) o‘tishdagi dinamik jarayondir. Zamonaviy epistemologiyada esa, erkinlik – bu bilimga asoslangan qaror qabul qilish kompetensiyasidir. Inson voqelik qonuniyatlarini qanchalik chuqur bilsa, uning harakat traektoriyasi shunchalik ongli va erkin bo‘ladi[6]. Biroq, zamonaviy axborot oqimining tezligi gnoseologik erkinlikni cheklash xavfini ham tug‘dirmoqda, chunki manipulyativ axborotlar «soxta erkinlik» illyuziyasini yaratishi mumkin.

Aksiologik (qadriyat) jihatdan erkinlik eng oliy insoniy qadriyat sifatida namoyon bo‘ladi. U nafaqat huquqiy maqom, balki axloqiy mas’uliyatni ham o‘z ichiga oladi. So‘nggi yillarda aksiologiyada erkinlikni «individual farovonlik» emas, balki «umumiy mas'uliyat» prizmasidan ko‘rish tendensiyasi[7] kuchaymoqda. Shuning uchun erkinlik qadriyat sifatida insonning o‘zligini yaratish va jamiyat oldidagi burchini bajarish imkoniyati sifatida baholanadi[8]. Shuningdek, falsafiy aksiologiyada erkinlik fenomeni insoniy qadriyatlar ierarxiyasining eng yuqori pog‘onasida turuvchi terminal (tub) qadriyat sifatida baholanadi. Agar ontologiya erkinlikning mavjudlik shartlarini o‘rgansa, aksiologiya uning mazmuni va maqsadi masalasini – «Erkinlik nima uchun kerak?» degan savolni o‘rtaga tashlaydi. Zamonaviy etika va siyosiy falsafada erkinlikning aksiologik maqomi ikki yo‘nalishda: vosita sifatidagi va o‘z-o‘zidan qimmatli qadriyat sifatida tahlil qilinmoqda. Zamonaviy liberal egalitarizm va kommunitarizm bahslarida erkinlik inson qadr-qimmati (dignity)ning zaruriy sharti deb qaraladi. Aksiologik nuqtayi nazardan, erkinliksiz axloqiy baho mavjud bo‘lishi mumkin emas. Agar subyekt tanlov imkoniyatiga ega bo‘lmasa, uning harakati «yaxshi» yoki «yomon» kategoriyalari bilan o‘lchanmaydi. So‘nggi yillarda esa, «Imkoniyatlar nazariyasi» tarafdorlari (M. Nussbaum, I. Robeyns) erkinlikni mavhum huquq emas, balki «qila olish» qobiliyati sifatida aksiologik qayta baholadilar. Ularga ko‘ra, haqiqiy erkinlikning qadri insonning o‘zi qadrlaydigan hayot tarzini tanlay olish kabi real imkoniyatlarida namoyon bo‘ladi. Shu bilan birga erkinlikni ijtimoiy adolat va inson farovonligining o‘zagi ekanligini aksiologik jihatdan asoslab, erkinlikning «rasmiy» va «real» ko‘rinishlari o‘rtasidagi farqni tahlil qiladi. Nemis klassik falsafasidan (Hegel) oziqlangan zamonaviy Frankfurk maktabi vakili Axel Honnet erkinlikning aksiologik talqinini «Ijtimoiy erkinlik» konsepsiyasi orqali yangiladi Honnet erkinlikning normativ asoslarini tahlil qilib, uni faqat ijtimoiy institutlar – oila, bozor va davlat ichidagi o‘zaro mas’uliyat orqali to‘liq ro‘yobga chiqishini isbotlaydi. Honnetga ko‘ra, erkinlikning qadri yakkalanishda (individualizmda) emas, balki o‘zaro e’tirof munosabatlarida namoyon bo‘ladi. Bu konsepsiya juda nozik, ammo jamiyatni tushunish uchun o‘ta muhim nazariyadir. Muallifning fikrlaridan shuni tushunishimiz mumkinki, inson boshqalardan qochib emas, balki boshqalar bilan birga bo‘lish orqali erkinlikka erishadi va «Salbiy erkinlik» (hech kim menga xalaqit bermasin) va «Ijtimoiy erkinlik» o‘rtasidagi farqni do‘stlikda ko‘rish mumkinligini ta’kidlaydi:

- Yakkalanish (Salbiy erkinlik): Tasavvur qiling, siz uyingizda yolg‘izsiz. Hech kim sizga «buni qil, uni qilma» demaydi. Siz mutlaq mustaqilsiz. Lekin Honnet aytadiki, bu «bo‘sh erkinlik». Siz o‘z hislaringizni, fikrlaringizni hech kim bilan bo‘lisha olmaysiz, demak, o‘zligingizni to‘liq namoyon eta olmaysiz.
- O‘zaro e’tirof (Ijtimoiy erkinlik): Siz eng yaqin do‘stingiz bilan uchrashdingiz. Do‘stlik shartlari sizni biroz cheklaydi (siz uning gapini eshitishingiz, unga vaqt ajratishingiz, uning hislarini hurmat qilishingiz kerak).

Garchi sizda majburiyat (mas’uliyat) paydo bo‘lsa-da, siz o‘zingizni erkinroq his qilasiz. Nega? Chunki do‘stingiz sizni tinglaydi, tushunadi va e’tirof etadi. Bundan shunday xulosa qilishimiz mumkinki, biz faqat bizni qadrlaydigan va maqsadlarimizni qo‘llab-quvvatlaydigan insonlar orasidagina haqiqiy erkinmiz. Axel Honnet ta’kidlashicha, subyekt o‘z erkinligini faqat boshqada bo‘lish orqali to‘liq anglaydi. Yakkalangan individning avtonomiyasi illyuziyadir, chunki haqiqiy avtonomiya intersubyektiv e’tirofga tayanadi. Aksiologik jihatdan, inson faqat boshqalar tomonidan tan olingan va boshqalar oldida mas’uliyatni his qilgan holda to‘la erkin bo‘la oladi. Bu yondashuv zamonaviy atomlashgan jamiyatda erkinlikni «boshqalardan ajralish» deb tushunishdek xato aksiologik fikrni rad etadi. XXI asr aksiologiyasida erkinlik fenomeni an’anaviy «avtonomiya» (o‘z-o‘zini boshqarish) tushunchasidan «relatsion (aloqadorlik) erkinlik» tushunchasiga transformatsiya qilinmoqda. Agar XX asr ekzistensializmi (J.P. Sartr) erkinlikni individning jamiyatdan ajralgan holdagi radikal tanlovi deb hisoblagan bo‘lsa, zamonaviy ekologik va bioetik inqirozlar davrida erkinlikning mazmuni «boshqaning hayoti uchun mas’uliyat» orqali belgilanmoqda. Bu qarashni quyidagi bir necha prinsiplar orqali tushunishimiz mumkin. Nemis faylasufi Hans Yonasning «Mas’uliyat prinsipi» nazariyasiga ko‘ra, texnologik sivilizatsiya sharoitida inson erkinligi endilikda uning qudrati bilan cheklanishi shart. Yonasning mashhur kategorik imperativi – «Shunday harakat qilginki, sening harakating oqibatlari insoniyatning kelajakdagi hayoti davomiyligiga zid kelmasin»[9] – erkinlikning aksiologik chegarasini hozirgi zamondan kelajakka ko‘chiradi. Zamonaviy tadqiqotchilardan M. Coeckelbergh Yonasning texnologik mas’uliyat g‘oyasini sun’iy intellekt davriga tatbiq etgan hisoblanadi. Ya’ni u bo‘yicha Yonasning yondashuvi erkinlikni «ehtiyot chorasi» sifatida qayta baholashni talab qiladi. Ya’ni, erkinlik – bu tabiat ustidan hukmronlik qilish emas, balki uning zaifligini anglab, uni

muhofaza qilishdir[10]. G‘amxo‘rlik etikasi-feministik etika vakili Virjiniya Held tomonidan rivojlantirilgan «G‘amxo‘rlik etikasi» erkinlikni «o‘zaro bog‘liqlik» prizmasida tahlil qiladi: liberal erkinlik modeli (mustaqil, o‘zini o‘zi ta’minlovchi individ) real hayotga to‘g‘ri kelmaydi. Inson hayotining boshida va oxirida, shuningdek, inqiroz davrlarida boshqalarning g‘amxo‘rligiga muhtojdir. Shu bois, aksiologik nuqtayi nazardan, oliy qadriyat – bu «aralashmaslik» emas, balki «g‘amxo‘rlik munosabatlarini saqlab qolish»dir[11]. Bundan biz shunday xulosa qilishimiz mumkinki, ya’ni erkinlik – bu boshqalardan uzilish emas, balki o‘zgalar bilan munosabatlarda o‘zini to‘laqonli his qilishdir.

«Umumiy manfaat» inqirozi-Sendelning «Meritokratiya zulmi» asaridagi g‘oyalar yuqoridagi nazariyalarni ijtimoiy-siyosiy kontekstda to‘ldiradi. Sendelga ko‘ra, zamonaviy jamiyatdagi «Men o‘zim erishdim» degan meritokratik erkinlik tushunchasi kibrni keltirib chiqaradi va muvaffaqiyatsizlikka uchraganlarni kamsitadi. Aksiologik inqiroz shundaki, individual erkinlik «Umumiy manfaat» tushunchasidan ustun qo‘yildi. Sendel taklif etayotgan yechim – erkinlikni raqobat vositasi sifatida emas, balki fuqarolik birdamligi instrumenti sifatida qadrlashdir va albatta, erkinlikning qadri uning jamiyatdagi eng zaif qatlamlarni himoya qilish salohiyati bilan o‘lchanishi lozim[12]. Shuning uchun biz bu qismda biz «Erkinlik nima?» deb emas, «Erkinlikning nima foydasi bor va u qanchalik qimmatli?» degan aksiologik savolga javob berdik. Erkinlikning ontologik jihatdan inson mavjudligining “mujassamlashgan” dinamik jarayoni, gnoseologik jihatdan obyektiv zaruriyatni anglash orqali amalga oshadigan kognitiv akt hamda aksiologik jihatdan “Men” va “Boshqa” o‘rtasidagi intersubyektiv mas’uliyatli munosabat sifatidagi ushbu uch o‘lchamli dialektik tabiati shuni ko‘rsatadiki, mazkur fenomen statik holat emas, balki ijtimoiy-tarixiy makonda uzluksiz shakllanuvchi ekzistensial loyihadir; aynan erkinlikning ushbu ko‘p qatlamli murakkabligi zamonaviy G‘arb falsafiy diskursida uning subyektiv individuallik (J.P. Sartr), siyosiy plyuralizm (I. Berlin) va hokimiyat munosabatlari (M. Fuko) kesishmasidagi yangicha talqinlarini tadqiq etishni taqozo qiladi.» XX-XXI asr falsafiy tafakkurida erkinlik masalasi klassik metafizikadan (iroda erkinligi) amaliy-ekzistensial va siyosiy-ijtimoiy tekislikka ko‘chdi. Ushbu transformatsiya jarayonini uchta asosiy paradigma – ekzistensializm (J.P. Sartr), liberal plyuralizm (I. Berlin) va poststrukturalizm (M. Fuko) tahlili orqali yoritish maqsadga muvofiqdir. Jan-Pol Sartr: Ekzistensial loyiha va «sedimentatsiya» muammosi. Sartrning «inson erkinlikka mahkumdir» degan klassik tezisi bugungi post-industrial jamiyatda o‘zining ontologik keskinligini saqlab qolmoqda. Biroq, zamonaviy sartrshunoslikda, xususan, Jonatan Webber tadqiqotlarida Sartrning erkinlik tushunchasi «radikal, cheksiz tanlov» sifatida emas, balki «sedimentatsiya»(cho‘kindi) tushunchasi orqali qayta talqin qilinmoqda. Gap shundaki, insonning o‘tmishdagi tanlovlari uning xarakterida «cho‘kib», qatlam hosil qiladi va kelajakdagi erkinligini ma’lum ma’noda yo‘naltiradi[13]. Bu nazariyasi erkinlikni inkor etmaydi, balki uni kontekstuallashtiradi. Inson har lahzada o‘zgarishi mumkin, ammo bu o‘zgarish uning o‘tmishda shakllantirgan mental dispozitsiyalari – cho‘kindilari bilan kurash yoki murosaga kirishish jarayonida amalga oshadi. Biz bundan quyidagicha xulosa chiqarishimiz mumkin, inson o‘z xarakterini o‘zi quradi (cho‘kindi hosil qiladi), lekin keyinchalik o‘sha xarakter bizning kelajakdagi tanlovlarimizni osonlashtiradi yoki qiyinlashtiradi. Raqamli asrda esa bu g‘oya shaxsning «raqamli izlari» (digital footprint) muammosi bilan hamohangdir.

Algoritmlar bizning o‘tmishdagi harakatlarimiz asosida kelajagimizni bashorat qilishga urinayotgan bir paytda, Sartrcha erkinlik – bu algoritmik determinizmga qarshi chiqish, ya’ni «belgilab berilgan ssenariy»dan tashqariga chiqish qobiliyati sifatida namoyon bo‘ladi. Erkinlik – bu berilgan vaziyatni (facticity) rad etish emas, balki unga yangi ma’no yuklash orqali o‘zlikni qayta loyihalashdir. Isayya Berlin: Qadriyatlar plyuralizmi va “paternalism” xavfi. Isayya Berlinning "erkinlikning ikki konsepsiyasi" (ijobiy and salbiy) bugungi kunda ham liberal demokratiyaning aksiologik poydevori hisoblanadi. Zamonaviy siyosiy falsafada Berlin g‘oyalari Baum va Nikols tomonidan “qadriyatlar plyuralizmi” kontekstida rivojlantirilmoqda. Berlinning asosiy ogohlantirishi shundan iborat ediki, "ijobiy erkinlik" (insonni "haqiqiy" maqsadlari sari yo‘naltirish) ko‘pincha davlat yoki jamiyatning paternalistik hukmronligiga aylanib ketishi mumkin[14]. Ya’ni bu yerda tushuniladigan nazariya shuki, ijobiy erkinlikning haddan tashqari absolyutlashtirilishi davlatning fuqarolar xususiy hayotiga “ularning o‘z manfaati yo‘lida” degan vaj bilan aralashuvini oqlaydi, bu esa pirovardida jamiyatning voyaga yetmagan bola, davlatning esa qattiqqo‘l vasiy maqomida gavdalanishiga – paternalistik hukmronlikka olib keladi.

Hozirgi global siyosiy jarayonlarda, xususan, pandemiya davridagi cheklovlar yoki axborot xavfsizligi choralari misolida biz “salbiy erkinlik” (aralashmaslik) va “ijobiy erkinlik” (jamoaviy xavfsizlik uchun boshqaruv) o‘rtasidagi keskin dialektik to‘qnashuvni kuzatib o‘tganmiz. Berlin nazariyasiga ko‘ra, bu ikki qutbni to‘liq yarashtirish imkonsiz, erkinlikning fojiaviyligi shundaki, biz har doim bir qadriyat evaziga ikkinchisini qurbon qilishga majburmiz. Zamonaviy jamiyatning vazifasi – totalitarizmga olib keluvchi “yagona to‘g‘ri yo‘l” g‘oyasidan voz kechib, ushbu ziddiyatni muvozanatda ushlashdir. Biz ham Berlin g‘oyalariga tayanib, haddan tashqari “ijobiy erkinlikka” intilish totalitarizm xavfini tug‘dirishi mumkinligidan ogohlantirib, liberal demokratiya sharoitida bu ikki qutbning muvozanatini saqlash zarurligini xulosalab o‘tmoqchimiz. Mishel Fuko: Subyektivatsiya va “Axborotlashgan shaxs”. M. Fuko falsafasida erkinlik mavhum yuridik huquq emas, balki hokimiyat munosabatlari ichidagi amaliyotdir (praxis). Fuko uchun erkinlik – bu “boshqaruvchanlik” texnologiyalariga nisbatan "kontr-boshqaruv" yoki “o‘z-o‘ziga g‘amxo‘rlik” orqali amalga

oshiriladi[15]. Ya’ni, M. Fuko talqinida erkinlikning ontologik sharti – bu subyektning o‘z-o‘ziga bo‘lgan munosabatini qayta qurishidir. Edvard MakGushin ta'kidlaganidek, Fukoning o‘z-o‘ziga g‘amxo‘rlik konsepsiyasi narsisistik xudbinlik emas, balki tashqi biopolitik boshqaruv mexanizmlariga qarshi qaratilgan axloqiy va estetik qarshilik strategiyasi, ya'ni subyektning o‘z avtonomiyasini “askezis” (ruhiy mashqlar) orqali konstitutsiyalash jarayonidir. Kolin Kupman esa, ushbu yondashuvni “axborotlashgan shaxs” gneseologiyasiga tatbiq etib, bugungi kunda erkinlik muammosi "biopolitika"dan "infopolitika"ga ko‘chganini asoslaydi. Zamonaviy tadqiqotlarda Fukoning erkinlik konsepsiyasi “boshqaruvchanlik” kontekstida o‘rganilmoqda: inson o‘zini o‘zi shakllantiruvchi subyekt sifatida hokimiyat diskurslaridan qanday qilib erkinlik hududini yarata oladi? Bu, ayniqsa, biopolitika va raqamli nazorat kuchaygan davrda muhimdir.

Zamonaviy “katta ma’lumotlar” (Big Data) jamiyatida inson shunchaki biologik tana emas, balki ma’lumotlar to‘plami sifatida boshqariladi. Fuko metodologiyasi orqali qaraganda, bugungi erkinlik – bu raqamli panoptikondan qochish (bu imkonsiz) emas, balki o‘sha ma’lumotlar oqimi ichida o‘z subyektivligini saqlab qolish, ya’ni hokimiyat diskurslari bizni "kim" deb belgilashiga nisbatan kritik munosabatda bo‘lish san’atidir. Xulosa qilib aytganda, erkinlik tushunchasi falsafiy talqinda statik holat emas, balki dinamik jarayondir. U bir tomondan, borliqning obyektiv qonuniyatlari (determinizm) bilan cheklangan bo‘lsa, ikkinchi tomondan, insonning gnoseologik salohiyati va aksiologik tanlovi (indeterminizm, ekzistensial loyiha) orqali ro‘yobga chiqadi. Sartr, Berlin va Fuko kabi mutafakkirlarning qarashlari ushbu murakkab fenomenning turli qirralarini — mas'uliyat, siyosiy huquq va hokimiyatga munosabatni yoritishda metodologik asos bo‘lib xizmat qiladi.

Yuqorida tahlil qilingan G‘arb falsafiy maktablari (ekzistensializm, liberalizm, poststrukturalizm) erkinlik fenomenining universal qirralarini ochib bergan bo‘lsa-da, ularning O‘zbekiston ijtimoiy voqeligiga tatbiqi o‘ziga xos sotsiokultural transformatsiyani talab etadi. Zamonaviy O‘zbekistonda amalga oshirilayotgan islohotlarning ontologik asosi sifatida tanlangan “Inson qadri uchun” tamoyili klassik liberalizmdagi "atomlashgan individual erkinlik"dan farq qiladi. Bizning tahlilimizga ko‘ra, O‘zbekiston sharoitida erkinlik fenomeni G‘arb modellarining oddiy nusxasi (immitatsiyasi) emas, balki universal demokratik tamoyillar va milliy-ma’naviy qadriyatlar (kollektivizm, mahalla instituti, oilaviy qadriyatlar) sintezi sifatida namoyon bo‘lmoqda.

Shuningdek, ayni davrda ham u jamiyatda alohida o‘ringa ega. Uning aksi va himoyasini har bir davlatning huquqiy hujjatlarida ko‘plab uchratamiz. Jumladan, O‘zbekiston Respublikasining Konstitusiyasida «erkinlik» so‘zining o‘zi 18 marotaba ishlatilgan bo‘lib, davlat fuqarosi va jamiyatdagi har bir shaxs bilan uzviy bog‘lanadi. “O‘zbekiston Respublikasida demokratiya umuminsoniy prinsiplarga asoslanadi, ularga ko‘ra inson, uning hayoti, erkinligi, sha’ni, qadr-qimmati va boshqa daxlsiz huquqlari oliy qadriyat hisoblanadi. Demokratik huquq va erkinliklar Konstitusiya va qonunlar bilan himoya qilinadi” (13-modda) [16]. Konstitusiyada keltirilgan erkinlik haqidagi qismlar antik davr mutafakkirlarining qarashlari bilan mos kelishini isbotlash qiyin emas. Chunki zamonaviy konstitutsiyaviy huquqning ontologik ildizlari aynan Antik davr falsafasidagi “Tabiiy huquq” g‘oyasiga borib taqaladi. O‘zbekiston Respublikasi Konstitutsiyasida mustahkamlangan “shaxsiy daxlsizlik”, “so‘z erkinligi” va “qonun ustuvorligi” tamoyillari Sitseron, Aristotel va Stoiklar ilgari surgan universal imperativlarning zamonaviy yuridik transformatsiyasidir. Xulosa qilib shuni ta’kidlashimiz mumkinki, O‘zbekiston Respublikasi Konstitutsiyasida aks etgan erkinlik normalari G‘arb liberalizmining “individualizm” g‘oyalarini milliy “jamoaviylik”qadriyatlari hamda Antik davr mutafakkirlarining “tabiiy huquq” va “adolat” haqidagi universal g‘oyalari bilan uyg‘unlashtirgan noyob modeldir.

XULOSA

Xulosa qilib aytganda, erkinlik va qaramlik tushunchalari inson borlig‘ining o‘zaro chambarchas bog‘liq bo‘lgan, bir-birini taqozo etuvchi dialektik qirralaridir. Tadqiqot natijalari shuni ko‘rsatadiki, erkinlik faqatgina tanlov huquqi emas, balki shaxsning o‘zligini anglashi, o'z "men"ini yarata olishi hamda ijtimoiy mas’uliyatni chuqur his etishidan iborat murakkab ekzistensial loyihadir. Ayni paytda, raqamli texnologiyalar va sun’iy intellekt jadal kirib kelayotgan hozirgi davrda shaxs erkinligi yangicha xavf-xatarlarga yuz tutmoqda hamda qaramlikning simulyativ, virtual va algoritmik shakllari (raqamli panoptikum, ijtimoiy tasdiqqa qaramlik) keskin namoyon bo‘lmoqda.

Globallashuv sharoitida, ayniqsa raqamli makonda, insonning ontologik avtonomiyasini saqlab qolish va turli manipulyativ ta’sirlardan, "soxta ehtiyojlardan" himoyalashning eng maqbul ijtimoiy-falsafiy mexanizmi — bu yoshlarda milliy g‘oyaga asoslangan mustahkam ma’naviy immunitetni shakllantirishdir. Faqatgina obyektiv zaruriyatni ongli ravishda anglagan, axborot oqimiga tanqidiy munosabat bildira oladigan hamda "Men" va "Boshqalar" o‘rtasida o‘zaro e'tirofga asoslangan munosabatlarni qura olgan shaxsgina zamonaviy jamiyatda mutlaq qaramlikdan xalos bo'lib, chinakam erkinlikka erishishi mumkin.

XOTIN-QIZLARNING QADRIYATLARNI SAQLASHI VA IJTIMOIY MOSLASHUV FAOLLIGI

Rasulova Shoira Azizovna
Farg'ona davlat universiteti katta o'qituvchisi,
Email: rasulova shoirahon@gmail.com

Annotatsiya*Ushbu maqolada globallashuv jarayonlarining o'zbek ayollari ijtimoiy hayotiga ta'siri, milliy qadriyatlarni saqlash muammolari va xotin-qizlarning zamonaviy jamiyatga moslashuv darajasi tahlil qilinadi. Tadqiqotda an'anaviylik va zamonaviylik o'rtasidagi muvozanatni topish masalalari yoritilgan.*

Kalit so'zlar: *Globallashuv, milliy qadriyatlar, ijtimoiy hayot, moslashuv, an'anaviylik va zamonaviylik, muvozanat, xotin-qizlar ta'limi, gender tengligi,raqamli pedagogika.*

ACTIVITIES TO PRESERVE WOMEN'S VALUES AND SOCIAL ADAPTATION.

Abstract:*This article analyzes the impact of globalization processes on the social lives of Uzbek women, the challenges of preserving national values, and the level of women's adaptation to modern society. The research highlights the issues of finding a balance between traditionalism and modernity.*

Keywords: *Globalization processes, national values,social life, adaptation, traditionalism and modernity, balance, education for women, gender equality, digital pedagogy.*

МЕРОПРИЯТИЯ ПО СОХРАНЕНИЮ ЖЕНСКИХ ЦЕННОСТЕЙ И СОЦИАЛЬНОЙ АДАПТАЦИИ.

Аннотация. *В данной статье анализируется влияние процессов глобализации на социальную жизнь узбекских женщин, проблемы сохранения национальных ценностей и уровень адаптации женщин к современному обществу. В исследовании освещаются вопросы поиска баланса между традицией и современностью.*

Ключевые слова: *глобализация, национальные ценности, социальная жизнь, адаптация, традиция и современность, баланс, женское образование, гендерное равенство, цифровая педагогика.*

Kirish. Globallashuv nafaqat iqtisodiy va siyosiy, balki ma'naviy-axloqiy sohalarni ham qamrab olgan murakkab jarayondir.Bu jarayonda axborot oqimining tezlashishi va madaniyatlarning qorishuvi murakkab tarzda namoyon bo'lmoqda.Bugungi kun sharoitida xotin-qizlar milliy o'zlikni saqlovchi asosiy bo'g'in xisoblanadi.Ayollarning jamiyatdagi roli faqat oila bilan cheklanib qolmay, ularning ijtimoiy-siyosiy faolligi ham ortib bormoqda. Biroq, "ommaviy madaniyat" ta'siri ostida milliy tarbiya va oilaviy qadriyatlarning transformatsiyaga uchrashi ma'lum xavflarni keltirib chiqarmoqda. Maqolaning asosiy maqsadi globallashuvning salbiy oqibatlaridan himoyalangan holda, xotin-qizlarning ijtimoiy moslashuv mexanizmlarini o'rganishdir.

Metodlar:

Qiyosiy tahlil: G'arbda ayol kishining faolligi uning shaxsiy erkinligi va huquqlari nuqtayi nazaridan baholanadi. U o'z karyerasi yoki hayot tarzi uchun jamiyat yoki oila oldida hisobdorlikni kamroq his qiladi.Sharqda ayolning ijtimoiy faolligi "oila nomusi" va "jamiyatning qarashi" bilan chambarchas bog'liq. Sharq ayoli muvaffaqiyatga erishganda ham, buni ko'pincha oilasining yutug'i sifatida taqdim etadi.G'arb madaniyatida farzandsiz hayot yoki kech oila qurish ijtimoiy faollikning bir qismi sifatida normal qabul qilinadi. Sharqda esa ijtimoiy faol ayoldan bir vaqtning o'zida "yaxshi ona" va "namunali kelin" bo'lish ham talab etiladi. Bu Sharq ayoliga qo'shimcha psixologik yuk yuklaydi, lekin ayni paytda uning ijtimoiy moslashuvchanligini oshiradi.Sharq ayollari uchun ijtimoiy faollik jarayonida hayyo, ibo, andisha kabi tushunchalar faoliyatni cheklovchi emas, balki tartibga soluvchi filtr vazifasini o'taydi. G'arbda esa faollik chegaralari asosan qonun bilan belgilanadi, axloqiy mezonlar esa ko'proq subyektiv xarakterga ega. Bugungi kunda "Sintez" jarayoni ketmoqda: Sharq ayoli G'arbning ishchanlik va texnologik ko'nikmalarini o'zlashtirayotgan bo'lsa, G'arb olimlari Sharqning oilaviy birdamlik va ma'naviy barqarorlik modelini o'rganmoqda. Globallashuv sharoitida eng maqbul yo'l g'arbning innovatsion ruhini saqlagan holda, Sharqning ma'naviy ildizlaridan uzilmaslikdir.

Mavzu doirasida turli yoshdagi va kasb egalari bo‘lgan yuz nafar xotin-qizlar o‘rtasida "Qadriyatlar va zamonaviylik" mavzusida so‘rov o‘tkazildi."Qadriyatlar va zamonaviylik" mavzusidagi so‘rovnomada yuz nafardan ortiq turli yoshdagi xotin-qizlar ishtirok etdi, natijalar odatda avlodlar o‘rtasidagi dunyoqarash farqlari va ijtimoiy maqomning qadriyatlarga ta’sirini ko‘rsatdi.O‘zbekiston sharoitidagi bugungi tendensiyalardan kelib chiqib, natijalarni quyidagi uchta guruh kesimida ko‘rishimiz mumkin. Yosh guruhlari bo‘yicha dunyoqarash 18–30 yosh .Bu guruhda zamonaviylikka intilish va raqamli texnologiyalarga moslashuv juda yuqori. Ulardagi ustuvorlik shaxsiy rivojlanish, oliy ma’lumot olish va karyera.Qadriyatlarga munosabatda milliy an’analarni hurmat qilishadi, lekin ularni zamonaviy turmush tarzi bilan uyg‘unlashtirishni masalan, zamonaviy milliy liboslar, innovatsion tadbirkorlik afzal ko‘rishadi.Natija 85% ishtirokchi ijtimoiy tarmoqlar va IT-bilimlarni muvaffaqiyat garovi deb biladi.O‘rta yosh vakillari 31–45 yosh bu guruh "oltin o‘rtaliq"ni saqlashga harakat qiladi va eng faol qatlam hisoblanadi.Ularda Oila barqarorligi va farzandlar kelajagiga etibor ustivorlik qiladi. Milliy tarbiya usullarini saqlab qolishga intilish kuchli. Shu bilan birga, iqtisodiy mustaqillikka intilish ham yuqori.Bu yoshdagi xotin-qizlarning 70% ayol kishining ham ishlashi, ham oilada bekami-ko‘st bo‘lishi shart deb hisoblaydi. Katta yoshli avlod 46 yosh va undan yuqori.An’anaviy qadriyatlarning asosiy himoyachilari hisoblanib,ma’naviy meros, oilaviy totuvlik va an’analarni keyingi avlodga bezavol yetkazish kerar deb xisoblaydilar. Globallashuvni madaniy o‘zlikka ma’lum ma’noda xavf sifatida ko‘rishadi.Ularning ko’pchiligi oilaviy munosabatlarda kattalarning o‘rni va pand-nasihat muhimligini ta’kidlaydilar.O‘tkazilgan "Qadriyatlar va zamonaviylik" mavzusidagi so‘rovnoma shuni ko‘rsatadiki, bugungi ayollar o‘rtasida "Ma’rifatli onalik" konsepsiyasi shakllanmoqda. Ya’ni, zamonaviy bilimga ega bo‘lish milliy qadriyatlardan voz kechish degani emas, aksincha, ularni yangicha usulda boyitish va himoya qilish ekanligi ko‘proq e’tirof etilmoqda.

Muhokama va Xulosa : Bugungi kun sharoitida xotin-qizlarning ijtimoiy moslashuvi ikki yo‘nalishda kechyotganligini ko’rish mumkin.Eksternal moslashuv ayollarning ta’lim olishi, boshqaruv organlaridagi ishtiroki va iqtisodiy mustaqilligi bilan .Xotin –qizlar ijtimpiy faolligida ichki barqarorlik oila mustahkamligi, farzand tarbiyasida milliy qadriyatlarga sodiqlikda ham yaqqol namoyon bo'lmoqda.Ayollarning ijtimoiy faolligini oshirish uchun ularga faqat iqtisodiy imkoniyat berish kifoya emas. Ularning ma’naviy immunitetini kuchaytirish, yot g‘oyalariga qarshi turish ko‘nikmasini shakllantirish lozim. Milliy qadriyatlar ayol kishi uchun nafaqat meros, balki global dunyoda o‘zligini yo‘qotmaslik uchun "aksiyologik determinant"xizmatini o‘taydi.Yuqoridagilarni inobatga olgan holda quydagilarni xotin-qizlar ijtimoiy faolligida muhum ahamiyatga ega.Xotin-qizlar o‘rtasida mediasavodxonlikni oshirish.Milliy an’analarni zamonaviy formatda masalan, milliy brendlar, ijtimoiy loyihalar orqali targ‘ib qilish.Masofaviy ish va tadbirkorlik orqali ayollarning ijtimoiy moslashuviga ko‘maklashish muhim xisoblanadi.Ayollarning ijtimoiy moslashuvi huquqiy, psixologik va madaniy jihatdan katta axamiyatga ega. Milliy o‘zlikni anglash tuyg‘usi ayollarni global madaniy bir xillashishdan asraydi va ularning jamiyatdagi ijtimoiy statusini barqarorlashtiradi.

Tavsiya: Yuqoridagilarni va tadqiqot natijalarini inobatga olgan holda, bugungi kunda xotin-qizlarning ijtimoiy faolligini oshirish hamda ularning ijtimoiy moslashuvini ta’minlash bo‘yicha quyidagi ilmiy-amaliy jihatlarga e’tibor qaratish lozim. Raqamli makondagi manipulyatsiyalar, feyk (yolg‘on) xabarlar va psixologik ta’sir mexanizmlariga qarshi ayollarda immunitetni shakllantirish zarur. Bu nafaqat ularning shaxsiy axborot xavfsizligini, balki oilaviy institutlar barqarorligini ham ta’minlaydi. Milliy qadriyatlarni eskilik sarqiti sifatida emas, balki zamonaviy brending, ijtimoiy loyihalar, raqamli kontent va kreativ industriya orqali ayollarning global professional standartlarga integratsiyalashuviga xizmat qildirish lozim. Xotin-qizlarga o‘zlarining an’anaviy oilaviy vazifalari onalik, oila mustahkamligi bilan ijtimoiy-iqtisodiy faolligini muvozanatda saqlashga sintez qilishga imkon beradi va ularning ijtimoiy moslashuv jarayonini tezlashtiradi.

Xulosa: Xotin-qizlarning ijtimoiy moslashuvi faqatgina iqtisodiy ko‘rsatkich emas, balki huquqiy, psixologik va madaniy o‘lchovlarga ega bo‘lgan ko‘p bosqichli ijtimoiy-falsafiy jarayondir. Globallashuv sharoitida o‘zbek ayollarining ijtimoiy faolligini oshirish dinamikasi milliy va umuminsoniy qadriyatlarning oqilona sinteziga tayanmog‘i lozim.Ayollarning huquqiy savodxonligini oshirish ularning ijtimoiy himoyasini ta’minlasa, psixologik va madaniy moslashuv ularning jamiyatdagi yangi ijtimoiy rollarni masofaviy mehnat, raqamli tadbirkorlik, intellektual faollik milliy o‘zlikka zarar yetkazmagan holda qabul qilishiga zamin yaratadi. Xulosa qilib aytganda, zamonaviy axborot texnologiyalari AI, raqamli savodxonlik va gumanitar vositalar integratsiyasi orqali ayollarning potensialini yuzaga chiqarish — milliy taraqqiyotning barqaror va xavfsiz evolyutsiyasini ta’minlovchi asosiy omillardan biridir.

O‘ZBEKISTONDA HUQUQIY TA’LIMNI RIVOJLANTIRISHNING IJTIMOIY MASALALARI

Turg’unov Sherzod Nurmuxamedovich,
Andijon davlat pedagogika instituti,mustaqil tadqiqotchisi
e-mail: turgunovsherzodbek203@gmail.com

Annotatsiya: *Mazkur ilmiy maqolada O‘zbekistonda huquqiy ta’limni rivojlantirishning ijtimoiy jihatlari, huquqiy madaniyatni yuksaltirish, aholining huquqiy savodxonligini oshirish hamda zamonaviy ta’lim tizimida huquqiy bilimlarni takomillashtirish masalalari tahlil qilinadi. Shuningdek, huquqiy ta’limni rivojlantirishda davlat siyosati, ta’lim muassasalari, oila va fuqarolik jamiyati institutlarining o’rni yoritilib, mavjud muammolar hamda ularni bartaraf etish bo’yicha ilmiy-amaliy takliflar ilgari suriladi.*

Kalit so’zlar: *huquqiy ta’lim, huquqiy madaniyat, huquqiy ong, fuqarolik jamiyati, ta’lim tizimi, yoshlar siyosati, huquqiy savodxonlik.*

СОЦИАЛЬНЫЕ ВОПРОСЫ РАЗВИТИЯ ПРАВОВОГО ОБРАЗОВАНИЯ В УЗБЕКИСТАНЕ

Аннотация: *В данной научной статье анализируются социальные аспекты развития правового образования в Узбекистане, вопросы повышения правовой культуры, повышения правовой грамотности населения и совершенствования правовых знаний в современной системе образования. Также освещается роль государственной политики, образовательных учреждений, семьи и институтов гражданского общества в развитии правового образования, выдвигаются научно-практические предложения по существующим проблемам и их устранению.*

Ключевые слова: *правовое образование, правовая культура, правосознание, гражданское общество, система образования, молодежная политика, правовая грамотность.*

SOCIAL ISSUES OF DEVELOPING LEGAL EDUCAɹTION IN UZBEKISTAN

Abstract: *This scientific article analyzes the social aspects of developing legal education in Uzbekistan, enhancing legal culture, increasing the legal literacy of the population, and improving legal knowledge within the modern education system. Also, the role of state policy, educational institutions, family and civil society institutions in the development of legal education is highlighted, existing problems and scientific and practical proposals for their elimination are put forward.*

Key words: *legal education, legal culture, legal awareness, civil society, education system, youth policy, legal literacy.*

Kirish. Bugungi globallashuv sharoitida demokratik huquqiy davlat va kuchli fuqarolik jamiyatini barpo etishda huquqiy ta'limning o'rni tobora ortib bormoqda. Huquqiy ta'lim jamiyat a'zolarining huquq va majburiyatlarini anglashiga, qonunlarga hurmat ruhida tarbiyalanishiga hamda huquqiy ong va madaniyatning yuksalishiga xizmat qiladi. O‘zbekistonda amalga oshirilayotgan islohotlar fuqarolarning huquqiy bilimlarini oshirish, yosh avlodni huquqiy jihatdan yetuk etib tarbiyalash va huquqiy ta'lim sifatini takomillashtirishni ustuvor vazifalardan biri sifatida belgilab bermoqda.

Adabiyotlar tahlili. Huquqiy ta'lim va huquqiy madaniyatni rivojlantirish masalalari O‘zbekiston hamda xorij olimlari tomonidan keng tadqiq etilgan ilmiy yo‘nalishlardan biridir. Mazkur yo‘nalishdagi tadqiqotlarda huquqiy davlatni barpo etish, fuqarolik jamiyatini rivojlantirish va aholining huquqiy ongini yuksaltirishning nazariy hamda amaliy asoslari yoritilgan.

O‘zbekiston Respublikasi Konstitutsiyasida inson huquq va erkinliklarini ta’minlash, qonun ustuvorligi hamda ta’lim olish huquqi konstitutsiyaviy qadriyat sifatida mustahkamlangan. Ushbu normalar huquqiy ta’limni rivojlantirishning asosiy huquqiy poydevorini tashkil etadi **[1]**.

"Ta’lim to‘g‘risida"gi Qonunda uzluksiz ta’lim tizimini takomillashtirish, zamonaviy pedagogik texnologiyalarni joriy etish hamda ta’lim sifatini oshirishga alohida e’tibor qaratilgan. Ushbu qonun huquqiy ta’limning institutsional asoslarini belgilab beradi **[2]**.

O‘zbekiston Respublikasi Prezidentining huquqiy madaniyatni yuksaltirishga oid farmon va qarorlarida aholining huquqiy savodxonligini oshirish, yoshlarni huquqiy jihatdan tarbiyalash hamda huquqiy targ‘ibotni zamonaviy shakllarda tashkil etish davlat siyosatining ustuvor yo‘nalishlaridan biri sifatida e’tirof etilgan **[3]**.

Professor X.T. Odilqoriyev huquqiy davlat va fuqarolik jamiyati rivojlanishida huquqiy madaniyatning o‘rni beqiyos ekanligini ta’kidlab, huquqiy ta’lim fuqarolarning qonunlarga hurmat ruhida tarbiyalanishiga xizmat qilishini qayd etadi. Olimning fikricha, "huquqiy ong va huquqiy madaniyat jamiyat taraqqiyotining muhim mezonidir" **[4, 56-b.]**.

Akademik A.X. Saidov inson huquqlari bo‘yicha tadqiqotlarida huquqiy ta’limni demokratik jamiyat rivojlanishining zarur sharti sifatida baholab, fuqarolarning o‘z huquqlarini bilishi va ulardan samarali foydalanishi huquqiy ta’lim sifatiga bevosita bog‘liqligini ta’kidlaydi **[5, 74-b.]**.

Huquqiy madaniyat masalalariga bag‘ishlangan ilmiy ishlarda fuqarolik jamiyati institutlari faoliyati bilan huquqiy ta’lim o‘rtasidagi uzviy bog‘liqlik ilmiy jihatdan asoslab berilgan. Tadqiqotchilar huquqiy madaniyatning yuksalishi jamiyatda qonun ustuvorligini ta’minlash va huquqbuzarliklarning oldini olishda muhim omil ekanligini qayd etadilar **[6]**.

Xorijiy olim Paulo Freire ta’limning asosiy vazifasi shaxsda tanqidiy fikrlashni rivojlantirish ekanligini ta’kidlaydi. Uning fikricha, ta’lim fuqarolarning ijtimoiy faolligini oshirishi va ularni jamiyat hayotida faol ishtirok etishga undashi lozim **[7, p. 68]**.

Shuningdek, Lawrence Kohlberg axloqiy rivojlanish nazariyasida huquqiy me’yorlarga ongli rioya qilish shaxsning axloqiy kamoloti bilan chambarchas bog‘liq ekanligini ilmiy asoslaydi. Mazkur yondashuv huquqiy tarbiya va huquqiy ta’lim metodologiyasini takomillashtirishda muhim nazariy asos bo‘lib xizmat qiladi **[8, p. 412]**.

Yuqoridagi ilmiy manbalar tahlili shuni ko‘rsatadiki, huquqiy ta’limni rivojlantirish masalalari asosan huquqiy madaniyatni yuksaltirish, qonun ustuvorligini ta’minlash va fuqarolik jamiyatini rivojlantirish nuqtai nazaridan o‘rganilgan. Biroq raqamli texnologiyalar, sun’iy intellekt va mediahuquqiy savodxonlikning huquqiy ta’limga ta’sirini kompleks o‘rganish bo‘yicha tadqiqotlar hali yetarli emas. Mazkur maqolada aynan shu jihatlarga alohida e’tibor qaratiladi.

Tadqiqot metodologiyasi. O‘zbekistonda huquqiy ta’limni rivojlantirishning ijtimoiy masalalarini o‘rganishda umumilmiy va maxsus ilmiy tadqiqot metodlaridan kompleks tarzda foydalanildi. Tadqiqotning metodologik asosini O‘zbekiston Respublikasi Konstitutsiyasi, "Ta’lim to‘g‘risida"gi Qonun, huquqiy madaniyatni yuksaltirishga oid normativ-huquqiy hujjatlar hamda huquqshunos va pedagog olimlarning ilmiy qarashlari tashkil etadi **[1–5]**.

Tadqiqot jarayonida tizimli tahlil (system approach) metodi orqali huquqiy ta’lim tizimining tarkibiy elementlari va ularning o‘zaro bog‘liqligi o‘rganildi. Ushbu metod huquqiy ta’limning davlat, ta’lim muassasalari, oila va fuqarolik jamiyati institutlari bilan o‘zaro aloqadorligini kompleks baholash imkonini berdi.

Qiyosiy-huquqiy metod yordamida O‘zbekistonda huquqiy ta’limni rivojlantirishga oid islohotlar xorijiy davlatlar tajribasi bilan taqqoslandi. Natijada huquqiy ta’limni tashkil etishning samarali mexanizmlari hamda milliy amaliyotga joriy etilishi mumkin bo‘lgan yondashuvlar aniqlandi. Normativ-huquqiy hujjatlar tahlili metodi asosida huquqiy ta’limni tartibga soluvchi qonunlar, Prezident farmonlari va qarorlari, shuningdek, tegishli strategik hujjatlarning mazmuni ilmiy jihatdan tahlil qilindi. Bu metod huquqiy ta’lim sohasidagi davlat siyosatining ustuvor yo‘nalishlarini aniqlashga xizmat qildi. Bundan tashqari, mantiqiy tahlil va sintez metodlari orqali huquqiy ta’limning nazariy asoslari umumlashtirildi, mavjud ilmiy qarashlar o‘rtasidagi bog‘liqlik ochib berildi hamda mualliflik xulosalari shakllantirildi. Induksiya va deduksiya metodlari yordamida alohida ilmiy qarashlardan umumiy xulosalar chiqarildi va nazariy qoidalar amaliy holatlar misolida asoslandi.

Shuningdek, statistik va qiyosiy tahlil elementlari qo‘llanilib, huquqiy savodxonlikni oshirish, huquqiy ta’limni rivojlantirish va yoshlar huquqiy madaniyatini yuksaltirishga oid mavjud ilmiy manbalar hamda rasmiy ma’lumotlar tahlil qilindi. Olingan natijalar asosida huquqiy ta’limni rivojlantirishning ijtimoiy omillari baholandi va ularni takomillashtirish bo‘yicha ilmiy-amaliy takliflar ishlab chiqildi.

Tadqiqot metodologiyasining kompleks qo‘llanilishi huquqiy ta’limni rivojlantirishning ijtimoiy masalalarini har tomonlama yoritish, mavjud muammolarni aniqlash hamda ularni bartaraf etishga qaratilgan ilmiy asoslangan tavsiyalarni ishlab chiqish imkonini berdi. Mazkur metodologik yondashuv tadqiqot natijalarining xolisligi, ishonchliligi va ilmiy asoslanganligini ta’minlashga xizmat qiladi.

Tahlillar va natijalar.

Tadqiqot davomida O‘zbekistonda huquqiy ta’limni rivojlantirishning ijtimoiy jihatlari normativ-huquqiy hujjatlar, ilmiy adabiyotlar hamda mavjud ilmiy yondashuvlar asosida tahlil qilindi. Tahlillar shuni ko‘rsatdiki, so‘nggi yillarda huquqiy ta’lim tizimini takomillashtirish, aholining huquqiy madaniyatini yuksaltirish va fuqarolarning huquqiy savodxonligini oshirish bo‘yicha izchil islohotlar amalga oshirilmoqda **[1–3]**.

Huquqiy ta'lim fuqarolarda qonun ustuvorligi, inson huquqlariga hurmat va ijtimoiy mas'uliyatni shakllantirishning muhim vositasidir. Huquqiy bilimlarga ega bo'lgan shaxs o'z huquqlarini himoya qilish, qonuniy manfaatlarini amalga oshirish hamda jamiyat hayotida faol ishtirok etish imkoniyatiga ega bo'ladi.

Huquqiy ta'lim quyidagi vazifalarni bajaradi:

- fuqarolarning huquqiy ongini rivojlantirish;
- huquqiy madaniyatni yuksaltirish;
- qonunlarga hurmat ruhini shakllantirish;
- huquqbuzarliklarning oldini olish;
- demokratik qadriyatlarni mustahkamlash.

O‘zbekistonda huquqiy ta'limni rivojlantirish jarayonida bir qator ijtimoiy muammolar mavjud.

Birinchidan, aholining ayrim qatlamlari orasida huquqiy savodxonlik darajasi yetarli emas. Ayniqsa, chekka hududlarda yashovchi fuqarolar huquqiy axborotlardan to'liq foydalana olmayapti.

Ikkinchidan, umumta'lim maktablarida huquq fanlarini o'qitishda zamonaviy pedagogik texnologiyalar va interaktiv metodlardan foydalanish darajasi barcha ta'lim muassasalarida bir xil emas.

Uchinchidan, raqamli texnologiyalar rivojlanayotgan bo'lsa-da, huquqiy ta'limning elektron platformalari va masofaviy ta'lim imkoniyatlari hali ham kengaytirishni talab etadi.

To'rtinchidan, yoshlar o'rtasida internet va ijtimoiy tarmoqlarda tarqalayotgan noto'g'ri huquqiy ma'lumotlar ayrim hollarda huquqiy ongning noto'g'ri shakllanishiga sabab bo'lmoqda.

Huquqiy ta'lim samaradorligi faqat ta'lim muassasalari faoliyati bilan cheklanmaydi. Unda quyidagi ijtimoiy institutlar ham muhim rol o'ynaydi:

Oila. Huquqiy tarbiya oilada boshlanadi. Ota-onalarning huquqiy madaniyati farzandlarning qonunlarga munosabatiga bevosita ta'sir ko'rsatadi.

Ta'lim muassasalari. Maktab, akademik litsey, kollej va oliy ta'lim muassasalari huquqiy bilimlarni tizimli ravishda shakllantiradi.

Mahalla institutlari. Mahalla fuqarolar yig'inlari aholining huquqiy savodxonligini oshirishga qaratilgan targ'ibot ishlarini amalga oshiradi.

Ommaviy axborot vositalari va internet. Raqamli platformalar orqali huquqiy axborotlarni keng ommaga yetkazish huquqiy madaniyatni oshirishning samarali vositasiga aylanmoqda.

Huquqiy ta'limni yanada rivojlantirish uchun quyidagi takliflarni amalga oshirish maqsadga muvofiq:

- huquq fanlarini o'qitishda interaktiv va innovatsion metodlarni keng joriy etish;
- barcha yosh guruhlari uchun bepul onlayn huquqiy ta'lim platformalarini rivojlantirish;
- aholining huquqiy savodxonligini oshirishga qaratilgan ommaviy media loyihalarini kengaytirish;
- pedagoglarning huquqiy va metodik malakasini muntazam oshirish;
- yoshlar o'rtasida huquqiy viktorinalar, debatlar va tanlovlarni tashkil etish;
- sun'iy intellekt va raqamli texnologiyalar asosida huquqiy maslahat tizimlarini rivojlantirish.

Tahlil natijalariga ko‘ra, huquqiy ta’limning samaradorligi faqat ta’lim muassasalari faoliyati bilan emas, balki oila, mahalla, ommaviy axborot vositalari va fuqarolik jamiyati institutlarining hamkorligi bilan bevosita bog‘liq. Huquqiy tarbiya oilada shakllanib, maktab va oliy ta’lim muassasalarida tizimli ravishda rivojlantirilgandagina yuqori natijalarga erishish mumkin. Shu bois huquqiy ta’limning uzluksizligi va izchilligini ta’minlash muhim ahamiyat kasb etadi **[4; 5]**.

Ilmiy manbalar tahlili shuni ko‘rsatdiki, mamlakatda huquqiy ta’limning huquqiy asoslari yetarli darajada shakllangan bo‘lsa-da, amaliyotda ayrim muammolar saqlanib qolmoqda. Jumladan, ayrim hududlarda aholining huquqiy savodxonlik darajasi pastligi, huquqiy axborotlardan foydalanish imkoniyatlarining cheklanganligi hamda zamonaviy pedagogik texnologiyalarning barcha ta’lim muassasalarida bir xil darajada qo‘llanilmayotgani huquqiy ta’lim samaradorligiga salbiy ta’sir ko‘rsatmoqda **[2; 3]**.

Shuningdek, tahlillar natijasida raqamli texnologiyalar rivojlanishi huquqiy ta’lim uchun yangi imkoniyatlarni yaratishi aniqlandi. Onlayn ta’lim platformalari, elektron huquqiy ma’lumotlar bazalari va sun’iy intellekt asosidagi maslahat tizimlari fuqarolarning huquqiy bilimlarini oshirishga xizmat qilmoqda. Biroq mazkur imkoniyatlardan foydalanish darajasi hududlar va aholi qatlamlari kesimida bir xil emasligi kuzatilmoqda.

Xorijiy tajriba tahlili shuni ko‘rsatadiki, rivojlangan davlatlarda huquqiy ta’lim maktabgacha ta’lim bosqichidan boshlab uzluksiz tashkil etiladi hamda amaliy mashg‘ulotlar, sud jarayonlari modellashtirilishi (moot court), debatlar va keys-stadi usullaridan keng foydalaniladi **[7; 8]**. Ushbu tajribalarni O‘zbekiston ta’lim tizimiga moslashtirish huquqiy ta’lim sifatini yanada oshirishga xizmat qiladi.

Tadqiqot davomida amalga oshirilgan tahlillar asosida quyidagi ilmiy natijalarga erishildi:

- huquqiy ta’limni rivojlantirishning asosiy ijtimoiy omillari sifatida oila, ta’lim muassasalari, mahalla, davlat organlari va ommaviy axborot vositalarining o‘zaro hamkorligi tizimlashtirildi;

- huquqiy ta’lim samaradorligini pasaytirayotgan omillar (huquqiy savodxonlik darajasidagi tafovutlar, zamonaviy metodlardan foydalanishning yetarli emasligi va raqamli tengsizlik) aniqlandi;
- huquqiy ta’lim tizimiga raqamli texnologiyalar va interaktiv pedagogik metodlarni keng joriy etish zarurligi ilmiy asoslandi;
- huquqiy madaniyatni rivojlantirishda fuqarolik jamiyati institutlari va ommaviy axborot vositalarining rolini kuchaytirish bo‘yicha ilmiy-amaliy tavsiyalar ishlab chiqildi.

Olingan natijalar shuni ko‘rsatadiki, huquqiy ta’limni rivojlantirishning ijtimoiy mexanizmlarini takomillashtirish fuqarolarning huquqiy ongini va huquqiy madaniyatini yuksaltirishga, qonun ustuvorligini mustahkamlashga hamda demokratik jamiyat rivojiga ijobiy ta’sir ko‘rsatadi. Shu sababli huquqiy ta’limni rivojlantirish jarayonida davlat organlari, ta’lim muassasalari, fuqarolik jamiyati institutlari va raqamli ta’lim platformalari o‘rtasidagi hamkorlikni yanada kuchaytirish maqsadga muvofiq hisoblanadi.

Xulosalar.

O‘tkazilgan tadqiqot natijalari shuni ko‘rsatdiki, O‘zbekistonda huquqiy ta’limni rivojlantirish demokratik huquqiy davlat va kuchli fuqarolik jamiyatini barpo etishning ustuvor yo‘nalishlaridan biri hisoblanadi. So‘nggi yillarda ushbu sohada amalga oshirilgan normativ-huquqiy islohotlar huquqiy ta’lim tizimini takomillashtirish, aholining huquqiy madaniyati va huquqiy ongini yuksaltirish uchun zarur huquqiy asoslarni yaratdi. Biroq tadqiqot natijalari huquqiy ta’limning amaliy samaradorligini oshirish uchun tizimli chora-tadbirlarni davom ettirish zarurligini ham ko‘rsatdi.

Tahlillar asosida huquqiy ta’lim samaradorligiga ta’sir etuvchi asosiy ijtimoiy omillar sifatida oila, ta’lim muassasalari, mahalla, fuqarolik jamiyati institutlari, davlat organlari va ommaviy axborot vositalarining o‘zaro hamkorligi muhim ahamiyatga ega ekanligi aniqlandi. Ayniqsa, yoshlarning huquqiy savodxonligini oshirishda zamonaviy pedagogik texnologiyalar, interaktiv o‘qitish metodlari va raqamli ta’lim platformalaridan samarali foydalanish huquqiy ta’lim sifatini oshirishning muhim omili hisoblanadi.

Tadqiqot davomida huquqiy ta’lim tizimida mavjud ayrim muammolar, jumladan, hududlar o‘rtasidagi huquqiy savodxonlik tafovutlari, zamonaviy metodlardan foydalanish darajasining yetarli emasligi hamda raqamli resurslardan foydalanish imkoniyatlaridagi farqlar aniqlandi. Ushbu muammolarni bartaraf etish maqsadida huquqiy ta’lim mazmunini zamonaviy talablar asosida yangilash, pedagog kadrlarning kasbiy kompetensiyalarini rivojlantirish, aholining barcha qatlamlari uchun ochiq elektron huquqiy ta’lim platformalarini kengaytirish hamda davlat organlari va fuqarolik jamiyati institutlari o‘rtasidagi hamkorlikni kuchaytirish maqsadga muvofiqdir.

Shuningdek, tadqiqot natijalari huquqiy ta’limni rivojlantirishda raqamli texnologiyalar, sun’iy intellekt vositalari va innovatsion ta’lim metodlarini qo‘llash istiqbolli yo‘nalish ekanligini ko‘rsatdi. Ushbu yondashuvlar nafaqat huquqiy bilimlarning ommalashuviga, balki fuqarolarning huquqiy madaniyati va ijtimoiy faolligini oshirishga ham xizmat qiladi.

Umuman olganda, huquqiy ta’limni rivojlantirishning ijtimoiy mexanizmlarini takomillashtirish O‘zbekistonda qonun ustuvorligini mustahkamlash, inson huquq va erkinliklarini ta’minlash hamda fuqarolik jamiyatini izchil rivojlantirishning muhim sharti hisoblanadi. Tadqiqot davomida ishlab chiqilgan ilmiy-amaliy tavsiyalar huquqiy ta’lim tizimini yanada takomillashtirishga, aholining huquqiy madaniyatini yuksaltirishga va davlatning ushbu yo‘nalishdagi siyosatini samarali amalga oshirishga xizmat qilishi mumkin.

FUQAROLIK HUQUQIDA YURIDIK FAKTLAR: ONTOLOGIK MOHIYAT, TASNIF TIZIMI VA HUQUQIY FALSAFIY TAHLIL

Zarnigor Akmaljon qizi
NamDU Yuridik fakulteti talabasi

Annotatsiya: *Ushbu maqolada fuqarolik huquqiy munosabatlarining asosi hisoblangan yuridik faktlar instituti falsafiy va huquqiy katekoryalar uyg'unligida tahlil qilingan. Yuridik faktlarning borliq (ontologiya), bilish nazariyasi (gnoseologiya) va sabab-oqibat bog'lanishlari dialektikasi doirasidagi falsafiy mohiyati ochib berilgan. Shuningdek, iroda erkinligi, obyektiv voqelik va ijtimoiy determinizm konsepsiyalari orqavi yuridik faktlarning an'anaviy tasnifi hamda huquqiy ahamiyati chuqurlashtirilgan ilmiy paradigmalarda yoritilgan.*

Kalit so'zlar: *yuridik fakt, huquq falsafasi, ontologiya, determinizm, iroda erkinligi, voqelik va imkoniyat, yuridik tarkib, fuqarolik huquqi.*

ПРАВОВЫЕ ФАКТЫ В ГРАЖДАНСКОМ ПРАВЕ: ОНТОЛОГИЧЕСКАЯ СУЩНОСТЬ, СИСТЕМА КЛАССИФИКАЦИИ И ФИЛОСОФСКИЙ АНАЛИЗ ПРАВА.

Аннотация: *В данной статье институт юридических фактов, являющийся основой гражданских правоотношений, анализируется в гармонии философских и правовых категорий. Раскрывается философская сущность юридических фактов в рамках бытия (онтологии), теории познания (гносеологии) и диалектики причинно-следственных связей. Также через концепции свободы воли, объективной реальности и социального детерминизма в углубленных научных парадигмах освещаются традиционная классификация и правовое значение юридических фактов.*

Ключевые слова: *юридический факт, философия права, онтология, детерминизм, свобода воли, действительность и возможность, юридический состав, гражданское право.*

LEGAL FACTS IN CIVIL LAW: ONTOLOGICAL ESSENCE OF LAW, CLASSIFICATION SYSTEM AND PHILOSOPHICAL ANALYSIS.

Abstract: *This article analyzes the institution of juridical facts, which is the foundation of civil legal relations, within the harmony of philosophical and legal categories. The philosophical essence of juridical facts is revealed within the framework of being (ontology), the theory of knowledge (gnoseology), and the dialectics of cause-and-effect relationships. Furthermore, through the concepts of free will, objective reality, and social determinism, the traditional classification and legal significance of juridical facts are highlighted in deepened scientific paradigms.*

Keywords: *juridical fact, philosophy of law, ontology, determinism, free will, reality and possibility, legal composition, civil law.*

Kirish

Huquq faqat quruq normalar to'plami emas, balki jamiyat borlig'ini tartibga soluvchi murakkab ijtimoiy-madaniy hodisadir. Fuqarolik huquqi tizimida huquq normalarining mavhum dunyosidan real hayotdagi subyektiv huquq va majburiyatlarning real dunyosiga o'tish nuqtasi aynan yuridik faktlar hisoblanadi.

Yuridik faktlar fenomenini faqatgina tor doiradagi dogmatik huquqshunoslik (yurisprudensiya) nuqtayi nazaridan anglash mukammal natija bermaydi. Chunki har qanday yuridik fakt, eng avvalo, obyektiv borliqdagi hodisa yoki insonning irodaviy harakatidir. Shu sababli, ushbu institutni falsafaning fundamental kategoriyalari — ontologiya (borliq nazariyasi), gnoseologiya (bilish nazariyasi), determinizm (sababiyat) hamda iroda erkinligi prizmasi orqali tadqiq etish uning huquqiy tabiati va ijtimoiy missiyasini kengroq anglashga xizmat qiladi.

1. Yuridik faktning ontologik va gnoseologik tabiati (Falsafiy mohiyat)

Falsafiy nuqtayi nazaridan yuridik fakt — bu "imkoniyat" (possibility) sharoitidan "voqelik" (reality) holatiga o'tgan ijtimoiy borliq unsuridir. Qonun matnida yozilgan norma shunchaki mavhum bir imkoniyatdir. Masalan,

Fuqarolik kodeksidagi oldi-sotdi shartnomasiga oid normalar potentsial huquqiy imkoniyat hisoblanadi. Real shaxslar o‘rtasida shartnoma tuzilgan lahzada esa bu imkoniyat obyektiv voqelikka aylanadi.

Gnoseologik (bilish nazariyasi) jihatdan olganda, davlat yoki sud obyektiv borliqdagi har bir faktni bevosita "ko‘ra" olmaydi. Shuning uchun borliqdagi voqelik qonun chiqaruvchining ongi (abstraksiyasi) orqali elakdan o‘tkaziladi va faqat jamiyat uchun muhim bo‘lgan hodisalargagina "yuridik ahamiyat" maqomi beriladi. Falsafiy tilda aytganda, yuridik fakt — bu borliq unsurlarining huquqiy qadriyat (aksiologiya) nuqtayi nazaridan saralangan shaklidir.

2. Sababiyat (Determinizm) prinsipi va yuridik faktlar

Falsafadagi eng muhim qonuniyatlardan biri — sabab va oqibat qonuni (determinizm)dir. Hech bir hodisa o‘z-o‘zidan vujudga kelmaydi. Huquqda yuridik fakt aynan "Sabab" (Cause) rolini o‘ynasa, huquqiy munosabatlarning vujudga kelishi yoki o‘zgarishi "Oqibat" (Effect) hisoblanadi.

Biroq, ijtimoiy hayotda sababiyat chiziqli emas, balki ko‘p faktorli (murakkab) xarakterga ega. Huquq falsafasida bu holat ikki shaklda namoyon bo‘ladi:

A. Oddiy sababiyat: Bitta fakt zanjirli ravishda bitta aniq oqibatni keltirib chiqaradi. (Masalan, shaxs vafot etdi (voqea) va vorislik huquqi ochildi (oqibat)).

B. Murakkab sababiyat va Yuridik tarkib: Falsafadagi "miqdor o‘zgarishlarining sifat o‘zgarishlariga o‘tishi" qonuni huquqda yuridik tarkib (faktlar majmui) shaklida namoyon bo‘ladi. Ayrim huquqiy oqibatlar yuzaga kelishi uchun bir necha faktlarning kumulyativ (jamlangan) sinergiya hosil qilishi talab etiladi. Sug‘urta pulini olish uchun faqatgina shartnoma tuzilgani yetarli emas, sug‘urta hodisasi (yong‘in) ro‘y berishi va zararni baholash hujjati ham tayyorlanishi shart. Ushbu zanjirning birgina bo‘g‘ini bo‘lmasa, huquqiy oqibat sodir bo‘lmaydi.

3. Iroda erkinligi va yuridik faktlar tasnifining falsafiy asosi

Fuqarolik huquqida yuridik faktlarning Harakatlar va Voqealarga ajratilishi tub-tubidan falsafadagi "Iroda erkinligi" (Free Will) va "Zaruriyat" (Necessity) dialektikasiga borib taqaladi.

1. Harakatlar: Iroda erkinligining huquqiy proeksiyasi. Falsafada subyektning o‘z xulq-atvorini o‘zi belgilash layoqati iroda erkinligi deyiladi. Fuqarolik huquqidagi qonuniy harakatlar (ayniqsa, bitimlar va shartnomalar) shaxs erkin irodasining obyektivlashgan shaklidir. Immanuil Kant aytganidek, inson o‘z irodasi bilan o‘ziga majburiyat yuklaydi. G‘ayriqonuniy harakatlarda (deliktlarda) esa iroda salbiy yo‘nalishda namoyon bo‘ladi. Subyekt qonun buzishni xohlagan yoki ehtiyotsizlik qilgan, falsafiy determinizm qonuniga ko‘ra, salbiy tanlov avtomatik ravishda salbiy oqibatni (javobgarlikni) taqozo etadi.

2. Voqealar: Obyektiv zaruriyat va fatalizm. Voqealar (zilzila, toshqin, insonning biologik o‘limi, vaqt o‘tishi) — inson irodasidan ustun turuvchi, tabiat va jamiyatning obyektiv rivojlanish qonuniyatlaridir. Bu yerda huquq subyektning irodasini emas, balki Barux Spinoza aytganidek "anglangan zaruriyat"ni tan oladi. Masalan, muddatlarning o‘tishi (da'vo muddati) sof falsafiy va fizik kategoriya bo‘lgan "Vaqt"ning huquqiy aksidir.

4. Eksistensial va ijtimoiy-huquqiy ahamiyati

Yuridik faktlar jamiyatda barqarorlik (statika) va taraqqiyot (dinamika) muvozanatini saqlaydi. Huquqiy determinizm sharoitida xavfsizlik funksiyasini ta'minlaydi. Shaxs qaysi harakati qanday oqibatga olib kelishini oldindan biladi. Bugungi kun falsafasida "virtual borliq" tushunchasi faol muhokama qilinayotgan bir paytda, fuqarolik huquqida ham yangi ontologik faktlar — smart-kontraktlar, raqamli aktivlar vujudga kelmoqda va u iroda bilan voqelik chegaralarini kengaytirmoqda.

Xulosa

Xulosa o‘rnida aytish mumkinki, fuqarolik huquqidagi yuridik faktlar shunchaki rasmiy qoidalar yig‘indisi emas. Ular mavhum qonun ijodkorligi (g‘oyalar dunyosi) bilan real ijtimoiy-iqtisodiy hayot (moddiy dunyo) o‘rtasidagi dialektik aloqani ta'minlovchi jonli mexanizmdir. Yuridik faktlar institutini falsafiy tahlil etish, huquq normalarini shunchaki qo‘llashni emas, balki ularning ijtimoiy poydevori va insoniyat sivilizatsiyasidagi adolat funksiyasini chuqurroq tushunishga imkon beradi.

O‘RTA OSIYODA AXLOQIY MUNOSABATLARNING IJTIMOIY TARAQQIYOTGA TA’SIRI

Normatova Dildor Esonaliyevna
Farg‘ona davlat universiteti, Milliy g‘oya kafedrasi dotsenti
E-mail: dildornormatova1973@gmail.com

Annotatsiya: *Maqolada O‘rta Osiyoda madaniy meros va falsafiy tafakkur tarixi ilmiy-nazariy jihatdan o‘rganilgan. Markaziy Osiyo mutafakkirlari axloqiy qarashlarining tarixiy bosqichlari, uning muhim bosqichlarini tarixiylik tamoyillari asosida davrlashtirilgan.*

Kalit so‘zlar: *axloq, axloqiy meros, allomalar, ijtimoiy-siyosiy g‘oyalar, sivilizatsiya, ma’naviy-axloqiy qarashlar, madaniy meros, falsafiy tafakkur*

ВЛИЯНИЕ НРАВСТВЕННЫХ ОТНОШЕНИЙ В СРЕДНЕЙ АЗИИ НА ОБЩЕСТВЕННЫЙ ПРОГРЕСС

Аннотация: *В статье с научно-теоретической точки зрения исследована история культурного наследия и философской мысли в Средней Азии. Рассмотрены исторические этапы развития нравственных воззрений мыслителей Центральной Азии, а также осуществлена периодизация их важнейших этапов на основе принципа историзма.*

Ключевые слова: *этика, нравственное наследие, мыслители, общественно-политические идеи, цивилизация, духовно-нравственные взгляды, культурное наследие, философская мысль.*

THE IMPACT OF MORAL RELATIONS ON SOCIAL DELELOPMENT IN CENTRAL AZIA

Abstract: *The article presents a scientific and theoretical study of the history of cultural heritage and philosophical thought in Central Asia. The historical stages of the ethical views of Central Asian thinkers are analyzed, and their major developmental phases are periodized based on the principles of historicism.*

Keywords: *ethics, ethical heritage, scholars, socio-political ideas, civilization, spiritual and moral views, cultural heritage, philosophical thought.*

KIRISH

Ma’naviy-axloqiy merosimizga mustaqillik yillaridagi munosabatining chuqur insoniylik, tariximizga hurmat, buyuk ajdodlarimizni ulug‘lash, umuminsoniy qadriyatlarga sodiqlik, vatanparvarlik, xalqaro do‘stlik, millatlararo va dinlararo bag‘rikenglik kabi tamoyillarga asoslanishi axloqiy merosimizni barkamol avlod tarbiyasidagi bebaho rolini ko‘rsatib turadi.

Uzoq tarixiy rivojlanish jarayonida O‘rta Osiyoning buyuk allomalari, olimu-fuzalolari va shoirlarini axloq muammolari qiziqtirib kelgan. Shu sababli O‘rta Osiyoning ijtimoiy-falsafiy va axloqiy qarashlari tarixida axloq va ta’lim-tarbiya sohasiga loqaydlik bilan qaragan biron-bir mutafakkirni topish mushkul. Har bir mutafakkir u xoh tabiatshunos, musiqashunos, faylasuf, yozuvchi, shoir, ijodkor bo‘lishidan qat’iy nazar, axloq masalalariga o‘z munosabatini bildirish bilan birga, axloqning u yoki bu sohasi bo‘yicha o‘z fikrlarini bildirganlar. Bu axloqiy fikrlarning tarixiy ildizlari uzoq o‘tmishga borib taqalishini ma’lum qiladi. O‘rta Osiyoda madaniy meros va falsafiy tafakkur tarixini ilmiy-nazariy jihatdan o‘rganish, avvalo uning muhim bosqichlarini tarixiylik prinsipini, tarixiy yondoshish asosida davrlashtirishni taqozo etadi. Bu vazifa bevosita Markaziy Osiyo mutafakkirlari axloqiy qarashlarining tarixiy bosqichlarini va uning muhim xususiyatlarini tadqiq etish bilan ham bevosita bog‘liq.

Adabiyotlar tahlili

Bu borada akademiklar I.M.Mo‘minov, M.M.Xayrullayev, A.Fayzullayev, M.Baratov hamda M.Boltayev, A.Sharipov, R.Nosirov, X.Aliqulov, Y.Jumaboyev, Sh.Mamedov va boshqalar tomonidan jiddiy tadqiqotlar amalga oshirilgan[1]. Yuqorida nomlari zikr etilgan olimlar o‘z asarlarida O‘rta Osiyoda falsafiy tafakkur tarixini o‘zlarining ilmiy tadqiqot doirasida u yoki bu tarixiy bosqichning eng muhim falsafiy yo‘nalishlari va xususiyatlarini, axloqiy

ta’limotlar rivojlanishini shu falsafiy–tarixiy jarayonda tutgan o‘rni va rolini ko‘rsatib berganlar. Ularda ilgari surilgan va ilmiy jihatdan isbotlangan fikrlarga tayangan holda O‘rta Osiyoda uzoq tarixiy davrlar davomida shakllanib va sayqallashib kelgan axloqiy merosni muhim bosqichlarini muxtasar qilib quyidagicha ta’riflash mumkin deb o‘ylaymiz.

Tadqiqotlar metodologiyasi

Jamiyatda axloqiy munosabatlarning ijtimoiy taraqqiyotga ta’sirini tahlil qilishda tarixiylik, tizimlilik, dialektik tahlil, analiz, sintez, qiyosiy tahlil kabi unsurlardan foydalanildi.

Tahlil va natijalar

Mustaqillik sharofati bilan falsafiy, uning tarkibiy qismi bo‘lgan axloqiy merosimizning tarixiy ildizlari uch ming yillarga borib yetishini anglash va bu haqda baralla gapirish imkoniga ega bo‘ldik. Buning yorqin misolini muqaddas tarixiy yodgorlik, “Avesto”ni Amudaryo sohillarida, Xorazm o‘lkasida vujudga kelganini e’tirof etilganida ko‘rishimiz mumkin. Ikki daryo oralig‘ida Movarounnahrda istiqomat qilib kelgan xalqimizning axloqiy merosi tarixining birinchi bosqichi Zardo‘shtiylikka asoslangan ma’naviy-diniy merosdan boshlab eramizning ilk o‘rta asrlarigacha davom etadi. Birinchi Prezidentimiz ta’kidlaganidek, “Avesto”da axloqiy talablar majmuasi “Sharqona axloq kodeksi” mujassamlashgan bo‘lib, u to arablar istilosiga qadar mahalliy aholi turmush tarzining axloqiy meyorlari asosi bo‘lib kelgan. “O‘rta Osiyo, deb yozadi akademik N.I.Konrad,- eng qadimgi davrlardanoq insoniyat sivilizatsiyalari yo‘llari tutashgan yoki kesishgan joyda joylashgan, uning o‘zi ham ana shu sivilizatsiyaning markazlaridan biri bo‘lgan. Ma’naviy-falsafiy taraqqiyot va axloqiy tamoyillar shunday asoslarga tayangan holda, asrlar chegarasidan xatlab o‘tib, keyingi buyuk rivojlanishni yuzaga keltirdi”[2].

Akademik M.M.Xayrullayev bu bosqichni ilk Sharq Uyg‘onish (Renessans) davri deb ta’riflaydi. Bu fikrni tasdiqlash maqsadida tarixchi olimlarning, xususan, Adam Metsning “Musulmanskiy Renessans” (1966) hamda N.I.Konradning “Запад и Восток” (1972) nomli fundamental asarlaridan iqtiboslar keltiradi. Axloqiy merosning bu bosqichini xronologik nuqtai-nazardan IX-XII asrlar bilan chegaralash, yuksak madaniyat va falsafa zamirida tahlil qilish to‘g‘ri bo‘ladi. Bu davrda O‘rta Osiyo, Yaqin va O‘rta Sharqda ilm-fan, falsafa, tasavvuf, mantiq beqiyos darajada rivojlandi.

Al-Kindiy va Abu Nasr Forobiy yaratgan shaklan islom fanlari, panteistik mazmunga ega bo‘lgan ta’limot va dunyoqarashlar islom diniga hamda chinakam insonparvarlikka asoslangan axloqiy meyorlar jamiyat va davlat hayotida ustuvorlikka erishdi. Axloqiy merosni shu nuqtai-nazardan alohida bosqich sifatida tadqiq qilish maqsadga muvofiq deb hisoblaymiz. Uyg‘onish davri uchun mohiyatan muhim ahamiyatga ega, bo‘lgan uch xususiyat xos ediki, ular axloqiy meyorlarni ko‘p jihatdan asoslarini ko‘rsatib beradi, insoniylikni keng va erkin xis qilish, badiiy va intellektual faoliyatning birinchi marrasiga insonni chiqishi, insonparvarlik, inson aqlini qotib qolgan aqidaparastlik kishanlaridan ozod bo‘lishi, qadimgi allomalarga, antik dunyoga tayanish va ularning erishgan yutuqlaridan keng foydalanish.

IX-XII asrlar Yaqin va O‘rta Sharqda arab xalifaligi hukmronligi bo‘lib, bu davrda ilg‘or mutafakkirlarning antik dunyo falsafasiga, ayniqsa aristotelizmga qiziqishi katta bo‘lgan. IX-XII asrlarda o‘sha davr muhim bo‘lgan fan, falsafa va maorifni gullab-yashnashi yuz bergani bizga ma’lum. Markaziy Osiyolik mutafakkirlar Muso al Xorazmiy, Abu Nasr Forobiy, Abu Rayhon Beruniy, Abu Ali ibn Sino, Firdavsiy, so‘fizmning Abduxoliq G‘ijduvoniy, Ahmad Yassaviy, Motrudiy kabi mutasavvif va ilohiyotchilari IX-XI asrlarda Bog‘dod, Damashq, Isfahon, Nishopur, Samarqandda ilm-fanni, madaniyatni, maorifni shuningdek, islom ilohiyotini rivojlantirdilar. Ayni shu hol ma’naviy-axloqiy jihatdan ham ulug‘ ajdodlarimiz yuksak martabaga ega bo‘lganligini va axloqiy merosimizning eng katta bosqichi ekanligini bildiradi. Italiyada XIV-XVI asrlarda yuz bergan Uyg‘onish davrini tadqiq etgan taniqli olim I.N. Golenishev-Kutuzov shunday deb yozadi, Yaqin Sharq X-XII asrlarda G‘arbiy Yevropaga nafaqat Aristotel, Ptolemey, Galen asarlariga sharxlarni, grek-arab tillaridagi asarlarni berdi, balki Bag‘dod va Kordovada VII-XII asrlarda O‘rta Osiyodan chiqqan matematik va mutafakkirlar ajoyib ilmiy maktabni ham yaratdiki, ularning ilm-fan va madaniyatda ko‘rsatgan ta’siri XIV-asrlarda G‘arbiy Yevropada Uyg‘onish davrini boshlanishiga sabab bo‘ldi[3]. Xullas, IX-XII asrlarda O‘rta Osiyo, Yaqin va O‘rta Sharqda yuz bergan madaniy, ilmiy, ma’rifiy uyg‘onish axloqiy merosimizning eng buyuk bosqichi va oltin fondini tashkil qiladi.

Bu bosqich XIV-XV asrlarda O‘rta Osiyoda ilg‘or falsafiy ta’limotlarni va ijtimoiy-siyosiy g‘oyalarni yaratilishi bilan bog‘liq bo‘lib, ma’naviy-axloqiy merosimizni avloddan-avlodga o‘tib kelganligini ko‘rsatadi. Bu haqda akademik V.M. Jirmunskiyning quyidagi fikrlari juda xarakterlidir: Ulug‘bek davrida Samarqand (XV asrning birinchi yarmi) va ayniqsa Navoiy vaqtidagi Xirot (XV-asrning ikkinchi yarmi) ko‘p jihatdan Renessansning birinchi gumanistlari va buyuk rassomlari Bokachcho va Petrarka davridagi shaharlarni eslatadi. Bu shaharlarda ham birinchi dunyoviy madaniyat, erkin fikrlash va hayotdan lazzatlanish falsafasi yaratildi. XIV-XV asr madaniyati, fani, tafakkuri haqida shunday fikrlarni atoqli o‘zbek olimlari Qori Niyoziy, I.Mo‘minov, M.Xayrullayevlar ham o‘z asarlarida aytib o‘tganlar. Ayni bir vaqtda feodal tuzum hukmronlik qilgan sharoitdagi adolatsizlik, zulm va diniy jaholatparastlik to‘g‘risida o‘sha davr mutafakkirlari hamda keyingi davrlardagi tadqiqotchi olimlar ham yozib qoldirganlar. Ana shunday ijtimoiy-siyosiy,

madaniy-ma'rifiy, diniy-ruhiy murakkab, chigal bir sharoitda ham xalqimizning ma'naviy-axloqiy asoslarini saqlab qolgan va axloqiy merosimiz rivojlanib borgan.

Ma'lumki, buyuk Amir Temurning markazlashgan qudratli imperiyasi parchalanib ketishi natijasida Movarounnahrda siyosiy tanazzul bilan birga madaniy-ma'naviy yemirilish ham yuz berdi. Lekin bu davrda tushkunlik va parokandalikka qaramasdan ilk fan rivoji tamoman to'xtab qolmadi. To'g'ri, XYI-XIX asr birinchi yarmida tabiiy-ilmiy va aniq fanlar sohasida asarlar kam uchraydi. Lekin ijtimoiy-gumanitar fanlar sohasida, aniqrog'i tasavvuf, falsafa va axloq sohasida ijod etgan yirik shoir va adiblar, mutasavvif va faylasuflarni katta guruhi yetishib chiqdi. Bular Prshrxo'ja, Mahdumi A'zam, Majlisiy, Mashrab, So'fi Ollohyor, Zayniddin Vosifiy, Binoiy va boshqalardir. XIII asrda mashhur faylasuflar Mirzajon Sheroziy va Yusuf Qorabog'iylar Buxoroda yashab ijod etdilar. Yuqoridagi mutafakkirlar axloq, ta'lim-tarbiya va xulq-odob qoidalari to'g'risida asarlar yozib qoldirganlar.

Keyingi bosqich Muqimiy, Furqat, Anbar Otin, Zavqiy, Avaz O'tar, Sattorxon ijodiy faoliyati bilan bog'liq ekanligini ta'kidlash zarur.

Bu davr, ta'bir joiz bo'lsa, O'rta Osiyoda, eng avvalo O'zbekistonda yana bir Uyg'onish davrini vujudga kelishi bilan bog'liq. Yangi ijtimoiy-iqtisodiy sharoitda, burjua munosabatlarini shakllana borishi bu yerda ma'rifatchilik-jadidchilik harakatini vujudga keltirdi. Jadidizm yangicha usul maktablari asosida xalq ongini uyg'otish, mustaqillik uchun ilm-ma'rifatga erishish, yoshlarni Yevropaning ilg'or madaniyati bilan tanishtirish, vujudga kelayotgan burjua axloqining zararli ta'siridan yoshlarni himoya qilish kabi ilg'or fikrlar bilan chiqdi. Ana shu zamirda qadimdan shakllanib, xalqimizning axloqiy qadriyatlari bilan shakllanib kelayotgan yangi zamon axloq tamoyillari bilan uyg'un holda qo'shishga intilayotgan ziyolilarning katta bir qatlami vujudga keldi. Maxmudxo'ja Behbudiy, Abdurauf Fitrat, Munavvar Qori, Abdulla Avloniy kabi ma'rifatparvar-ziyolilar bu qatlamning oldingi safida edilar.

Axloqiy merosimizdagi bu bosqich sho'rolar davri bilan bog'liq. Sho'rolar bosqinchi-imperialistik g'oyaga ya'ni "millatni tobe qilmoqni istasang uni tarixi, ma'naviyatidan uzib tashla"degan tamoyilga asoslanib siyosat yuritdilar. Bu davrda ateistik siyosat olib borildi, ko'p masjidlar buzib tashlandi, ruhoniylar, ziyolilar, erkin fikr yurituvchi olimu-fuzalolar qatag'on qilindi. Bularning barchasi birinchi navbatda xalqimizni ma'naviy-axloqiy merosimizni barbod etish va ma'naviy jihatdan qul qilishga qaratilgan siyosat edi. Ammo, o'zbek xalqining ko'plab vijdonli, jasoratli o'g'lonlarining chidam va matonati, kurashi, ijodiy faoliyati natijasida axloqiy merosimiz saqlanib qoldi va kelgusi avlodlarga yetkazib berildi. Bu bosqichda axloqiy merosga bo'lgan munosabatni zararli oqibatlarini o'rganish, ma'naviy-axloqiy merosimizning ahamiyatini yanada oydinroq yoritishga yordam beradi.

Xulosa

Shunga asoslanib, jamiyatda axloqiy munosabatlarning ijtimoiy taraqqiyotga ta'siri, muhim xususiyatlari va ularning mustaqillik uchun bo'lgan ahamiyatiga e'tibor qaratish o'rinlidir. O'rta Osiyoning ijtimoiy-falsafiy va axloqiy fikrlar tarixida ustuvor yo'nalishlar o'ziga xos bo'lib, ularning har biri axloqiy meros shakllanishi va boyib borishida muhim o'rin tutadi. Axloqiy meros masalasi nafaqat jahon miqyosida balki O'rta Osiyoda ham o'ziga xos yo'nalishda aks etgan. Bunga biz xalq og'zaki ijodiyotida, "Avesto" hamda islomiy qadriyatlar – Qur'on oyatlari va hadislarda bayon qilingan axloqiy g'oyalar tarixiy taraqqiyot jarayonida mutafakkirlar va mutasavviflar qarashlarida ijodiy boyib, sayqal topib kelganligida va bugungi ma'naviy merosimizning mustahkam poydevori bo'lib hizmat qilayotganligida ishonch hosil qilishimiz mumkin. O'rta Osiyo mutafakkirlarining axloqiy merosida vorisiylik an'anasi insoniy qadriyatlar tizimida eng avvalo odob-axloqni ulug'lash masalasi sifatida ilmiy asoslangan.

Falsafa, tasavvuf ilmida bosh mavzu bo'lgan axloq masalasi o'zining boy ilg'or an'analari bilan bugungi kunda ham yosh avlod tarbiyasida asosiy dasturulamal bo'lib qolganligida ko'zga tashlanadi. So'z axloqiy meros ustida borar ekan, islom dinining muqaddas kitobi "Qur'oni karim", "Hadisi sharif" va tasavvuf allomalari tomonidan yaratilgan ta'limotlarda ilgari surilgan xulq-odob, ta'lim-tarbiya, shaxs kamoloti haqidagi g'oyalarning o'ziga xos xususiyatlariga alohida e'tibor berish maqsadga muvofiq. Chunki, yaqin o'tmishda sho'rolar mafkurasi bu axloqiy merosga nisbatan bo'xton va yolg'ondan iborat targ'ibot olib borib, ijtimoiy fikrda ikkilanish, hadiksirash, mensimaslik, e'tiborsizlik kabi hatti-harakatlarning shakllanishiga imkon yaratib bergan edi. Bugun bizning oldimizda mana shu to'siqlarni olib tashlash va axloqiy merosimizning muhim xususiyatlarini o'rganib, undan samarali foydalanish vazifasi ko'ndalang bo'lib turganligiga e'tibor qaratmog'imiz darkor.

O'rta Osiyo xalqlari axloqiy merosida shaxs tarbiyasi, uning xulqi, odobi, hayot tarzi, kasb-kori, oilaga bo'lgan munosabati asosiy obyekt bo'lib, uni amalga oshirishning asosiy vositasi sifatida ilm olish va halol mehnat masalasi qo'yilgan. Har bir shaxsning ilm o'rganishga va halol mehnat orqali yashashga da'vat axloqiy tarbiyaning bosh vazifasi qilib belgilanganligi bu merosdan bugungi kunda samarali foydalanish imkonini beradi.

РУКОПИСНЫЕ СПИСКИ ПРОИЗВЕДЕНИЯ «АС-САВОД АЛЬ-А'ЗАМ», ХРАНЯЩИЕСЯ В МИРОВЫХ ФОНДАХ, КОММЕНТАРИИ И ПЕРЕВОДЫ К ПРОИЗВЕДЕНИЮ

Аннотация; *В данной статье рассматриваются рукописные списки произведения «Ас-Савод аль-А'зам», хранящиеся в крупнейших мировых рукописных фондах и библиотеках, анализируются их научные характеристики и география распространения. Особое внимание уделяется комментариям и переводам произведения, созданным в разные исторические периоды, а также их значению в развитии исламского вероучения и ханафитско-матуридийской богословской традиции. Полученные результаты раскрывают научную ценность произведения и перспективы дальнейшего изучения его рукописного наследия.*

MANUSCRIPTS OF AS-SAWĀD AL-AʿẒAM PRESERVED IN WORLD COLLECTIONS, AND THE COMMENTARIES AND TRANSLATIONS OF THE WORK

Abstract; *This article examines the manuscript copies of As-Sawād al-Aʿẓam preserved in major manuscript collections and libraries around the world, analyzing their scholarly features and geographical distribution. It also explores the commentaries and translations produced in different historical periods and evaluates their contribution to Islamic creed studies and the development of the Hanafi-Maturidi theological tradition. The findings highlight the scholarly significance of the work and emphasize the prospects for further research on its manuscript heritage.*

Keywords: *As-Sawād al-Aʿẓam, manuscript, commentary, translation, Hanafi school, Maturidi theology, Islamic creed, manuscript collections, scholarly heritage.*

Hakim Samarqandiyning "Kitob as-savod al-a'zam" asari 62 ta aqidalar majmuasidan (qavllardan) iborat bo'lib, har birida bir din asosiga oid fikr, ya'ni sunniy-hanafiy qarash bayon qilinadi.

Bu qavllar orasida quyidagi asosiy masalalarga e'tibor qaratilgan:

- Imon va amal munosabati: amal imonning tarkibiy qismi emasligi;
- Allohning sifati va zoti: Allohning sifatlari abadiy va zotidan ajralmasdir;
- Qadar masalasi: insonning irodasi, Allohning ilmi va taqdir munosabatida mu'tadil pozitsiyada bo'lishlik;
- Mu'tazila, jahmiya, karromiya va qadariylar kabi firqalarning aqidaviy qarashlari batamom rad etilishi;
- Sahobalarga munosabat, valiylar karomati, imomat va xalifalik kabi mavzu'lar izchil yoritilgan.

Asarda "as-savod al-a'zam" doirasiga kirmagan, ya'ni ushbu 62 aqidani qabul qilmaganlar bid'atchi firqalar (ashob al-hava) sifatida baholanadi. Bu munosabat shundan dalolat beradiki, asar faqat nazariy aqidaviy qo'llanma emas, balki idoraviy va siyosiy me'yor belgilovchi matn ham hisoblanadi.

Asarning kalomiy maktabdagi o‘rni shundan iboratki, zamonaviy islomshunoslar bu asarni moturidiy kalom maktabining ilk yozma manbalaridan biri, – deb e’tirof etishadi. Garchi ba’zi nuqtalarda moturidiy ta’limotining to‘liq rivojlangan nazariy usullari namoyon bo‘lmasada, asar umumiy kalomiy dunyoqarashni aniq ifoda etadi.

Bugungi tadqiqotchilar fikriga ko‘ra, bu asar moturidiy maktabining asosiy doktrinal masalalarini (Allohning zot va sifatlari, inson irodasi, qadar, imon va amal, payg‘ambarlar va avliyolar, xalifalik va jamoat haqidagi ta’limotlar)ni himoya qiladi va ba’zi boblarida Abu Mansur Moturidiyning “Kitob at-tavhid” asaridan avvalgi g‘oyalar bayon etilgan bo‘lishi ehtimoldan yiroq emas. Shu sababli u moturidiy kalom tarixi va ijtimoiy-axloqiy pozitsiyalarini anglashda muhim manba, deb baholanadi.

“Kitob as-savod al-a’zam” asari islom tarixida muhim ahamiyat kasb etgan va sunniy aqidaviy maktabning ilk yozma namunasi sifatida keng tarqalgani bois, bu asarning o‘rta asrlardan to hozirgacha saqlangan qo‘lyozma nusxalari bir qator nufuzli fondlarda, kutubxona va ilm maskanlarida mavjud.

Qo‘lyozmalarni raqamlash, tavsiflash va geografik joylashuvi bo‘yicha tizimlashtirish ishlari so‘nggi o‘n yilliklarda yangi bosqichga ko‘tarildi. Ulardan eng muhimlaridan biri – “Ar-Raqq al-manshur” (al-Raqq al-Manshūr) elektron manbasidir. U Arab dunyosi, Turkiya, Eron, Hindiston va G‘arbdagi yirik kutubxonalarda saqlanayotgan islomiy qo‘lyozmalarni umumiy elektron platformada taqdim etishga qaratilgan.

Mazkur platformada Hakim Samarqandiyning “Kitob as-savod al-a’zam” asari bo‘yicha hozirgi kunda 13 ta qo‘lyozma nusxa mavjud. Garchi u qo‘lyozmalarning hammasi haqida to‘liq bibliografik ma’lumotlar (masalan, raqam, sahifalar soni, yozuv uslubi, tarixiy datirovka va boshqalar) ochiq ravishda keltirilmagan bo‘lsa-da, ushbu raqamning o‘zi ham mazkur asarning ko‘p marotaba ko‘chirilgani, talqin qilingani va ilmiy muomalada bo‘lgan hujjat ekanini tasdiqlaydi[55].

Qo‘lyozmaning geografik ko‘lami quyidagilarni qamrab oladi:

- Markaziy Osiyo (Samarqand, Buxoro);
- Turkiya (Istanbul, Konya, Anqara);
- Eron (Tehron, Mashhad);
- Hindiston va Pokiston (Kalkutta, Lohur);
- Arab davlatlari (Qohira, Damashq, Bag‘dod, Sharja);
- Yevropadagi kutubxonalar (London, Parij, Saraevo, Berlin).

Shuningdek, forsiy, turkcha va arabcha sharhlar bilan birga keladigan ayrim qo‘lyozmalarda asarning matni sharh ostida yoki tarjima bilan birga keltirilgan. Bunday hollarda asosiy qo‘lyozma mustaqil nusxa sifatida emas, balki sharhli majmua tarkibida qayd etilgan bo‘ladi.

Endi bu o’rinda fondlarda saqlanayotgan aniq qo‘lyozma nusxalar va ularning xususiyatlarini tahlil qilinadi. Bu ma’lumotlar esa asarning geografik tarqalishi, ilmiy ahamiyati va intiqol jarayonlari haqida muhim ahamiyat kasb etadi.

London, Britaniya kutubxonasi (British Library), Or. 12781. “Kitob as-savod al-a'zam” asarining eng muhim va ishonchli qo'lyozma nusxalaridan biri Londonda joylashgan Britaniya kutubxonasida (British Library) saqlanmoqda. Ushbu nusxa kutubxona fondida Or. 12781 raqami bilan ro'yxatga olingan.

Bu qo'lyozma ilmiy muomalada ayniqsa muhim o'rin egallaydi, chunki u Farouq 'Umar Abdalloh Umar tomonidan tayyorlangan va 1974-yili Edinburg universitetida himoya qilingan doktorlik dissertatsiyasi — “The Doctrines of the Maturidite School with Special Reference to As-Sawad al-A‘zam of al-Hakim as-Samarqandi” – asosiy matn manbasi bo'lib xizmat qilgan.

Ushbu dissertatsiyada muallif qo'lyozma asosida asarning ingliz tiliga to'liq tarjimasi, tanqidiy tahlili va kalomiy qarashlarning tarixiy rivojiga doir batafsil izohlarini keltirgan. Shuningdek, matndagi ba’zi ifodalar, terminlar va boblar tarkibi bo'yicha qo'lyozmaning boshqa versiyalaridan farqlari ham qayd etilgan.

Or.12781 raqamli qo'lyozma quyidagi sabablarga ko'ra ilmiy tadqiqotlar uchun asosiy manba maqomida turadi:

- Unda asarning to'liq arabcha matni saqlangan;
- Qo'lyozma yaxshi holatda bo'lib, yozuv uslubi (nasx), sahifa tartibi va matn aniqligi ilmiy ishlov berishga qulaylik yaratadi;
- Uning kelib chiqishi, sana va transkripsiya holati haqidagi tafsilotlar British Library katalogi va yuqoridagi dissertatsiyada aniq qayd etilgan.

Bugungi kunda mazkur qo'lyozma arab tilidagi asosiy nashrlar uchun tayanch matn sifatida foydalanilmoqda. 2023-yili chop etilgan Maher Jarrar tomonidan tayyorlangan tanqidiy nashr (Gorgias Press) ham ushbu qo'lyozmadan asosiy manbalardan biri sifatida foydalangan.

[55] https://thahabi.org/book/4931/read/2282?utm_source=chatgpt.com

Bu qo'lyozmaning mavjudligi "Kitob as-savod al-a'zam" matnini zamonaviy tadqiqotlar maydoniga olib kirgan, uni ingliz tiliga to'liq tarjima qilingan birinchi ishonchli versiyaga aylantirgan va butun sunniy aqidaviy tafakkur tarixida o'ziga xos burilish yasagan muhim dalildir.

"Türkiye Yazmaları Toplu Kataloğu" (Turkiya qo‘lyozmalari yagona katalogi)da "as-Sawad al-a‘zam ‘alá mazhab al-Imam al-A‘zam" nomli asar ro’yxati keltirilgan; katalogda bir necha inventar raqamlar (masalan, 6852.4 va boshqalar) berilib, bu nusxalar Turkiya islomiy qo‘lyozmalari orasida mavjudligini ko‘rsatadi[56].

Katalog Turkiyaning yirik kutubxonalarini qamrab oladi (Istanbul – Suleymaniyya, Nurusmaniya, Beyazid; Anqara, Konya va h.k.), shuning uchun "es-Sevadu’l-a’zam"ning bir necha nusxasi Istanbul va boshqa shaharlarda saqlanayotgani katta ehtimol. Katalogda aniq kutubxona nomi va inventar raqami ko‘rsatilgan bo‘ladi. Tadqiqotchilar ularni mazkur ma’lumotlar asosida topishi mumkin.

Qo‘shimcha ravishda, turkchada yozilgan "es-Sevâdü’l-A‘zam’ın farklı nüshaları ve müellifleri üzerine" nomli maqolada ham asarning Turkiya va boshqa mamlakatlardagi turli qo‘lyozma nusxalari atroflicha tahlil qilingan[57].

Sharja Amirligidagi "Bayt al-Makhtutat / Manuscripts House" rasmiy saytida Hakim Samarqandiyning "As-savod al-a’zam" asari alohida qo‘lyozma sifatida qayd etilgan[58].

- Asar nomi: "As-savod al-a’zam".
- Muallif: Ishoq ibn Muhammad ibn Ismoil, Abul Qosim, Hakim Samarqandiy.
- Hifz raqami: 1084 / mufrad;
- Tasnif: aqida / kalom;
- Joylashuv: «الشارقة، القاسمية جامعة» – Qosimiya universiteti huzuridagi qo‘lyozmalar uyi.

Bu ma’lumot BAAda ham asarning mustaqil qo‘lyozma nusxasi borligini tasdiqlaydi.

Islom arxividagi ma’lumotga ko‘ra, Saraevodagi G‘ozi Husravbek kutubxonasida quyidagi qo‘lyozma fragmenti saqlanadi[59].

- Sarlavha: "Min kitab as-savod al-a’zam" (ya’ni, asardan ikkita sahifa).
- Muallif: Hakim Samarqandiy.
- Davlat: Bosniya; shahar: Saraevo.
- Kutubxona: Gazi Husrev-beg Library.
- Qo‘lyozma kodi: CC104236.
- Hajmi: 2 sahifa, har sahifada 21 qator.
- O‘lchami: 17.5 × 12.5 sm.
- Xat: nasx; siyoh: qora, ayrim so‘zlar qizil bilan belgilab qo‘yilgan.
- Tili: arabcha.

Bu fragment asarning bir nusxasidan ajralib qolgan bo‘lishi ham mumkin va u Balkan hududida ham asar qo‘lyozmalarining aylanib yurganini ko‘rsatadi.

Raqamlashgan arab katalogi – "ar-Raqq al-manshur" – bu asar bo‘yicha 13 ta qo‘lyozma borligini ko‘rsatishi, nusxalarning asosiy qismi arab va fors islom markazlarida (Qohira – Dar al-kutub, Damashq, Bag‘dod, Tehron va h.k.) joylashganini anglatadi[60].

Aniq manbalardan biri – Eron "Xonayi kitob" elektron katalogi va turli forsiy saytlar, ularda asarning forscha tarjimasi ("Tarjuma-yi as-savod al-a’zam") nashr etilgani va asl arabcha matnga asoslangani qayd etilgan[61].

"Fiqhveb" forumida keltirilgan ma’lumotga ko‘ra, "Sharh as-savod al-a’zam" nomli asarning (asl matnga sharh) ikkita qadimiy qo‘lyozmasi qayd etilgan[62]:

1.Hindiston, Kalkutta – Asiaatic Society kutubxonasi, raqami 183;

2.Qohira, Dar al-kutub al-Misriyya – raqami 1/430.

Bu nusxalarning o‘zi sharh asariga tegishli bo‘lsa-da, ularda asosiy matn – "as-savod al-a’zam" ham ko‘p hollarda joriy matn sifatida keladi.

Asarga yozilgan sharhlar. Asarga yozilgan eng mashhur sharh – Ibrohim Hilmiy ibn Husayn al-Vafiy (al-Vafiy)ning «سلام الأحكم على سواد الأعظم» "Salam al-ahkam ‘alá savod al-a’zam" sharhidir[63].

[63] سلام الاحكم على سواد الاعظم | کتابخانه مجازی الفبا

Arabcha Vikipediya va bibliografik ma’lumotlarga ko‘ra[64], sharh 1313 hijriy (milodiy 1895-1896y) yili Istanbulda nashr etilgan, matnda Hakim Samarqandiy asari bandma-band keltirilib, atroflicha kalomiy va fiqhiy izohlar berilgan. Muallif “As-savod al-a’zam”ga boshqa sharhlar ham borligini ishora qiladi, ya’ni sharh an’anasi bitta asar bilan cheklanmagan. Kitob hozir PDF tarzida bir necha kutubxonalarda va saytlarda (Noor-book, Archive.org va boshqalarda) elektron ko‘rinishda mavjud[65].

“Xazonat al-turas – Fahras al-maxtutot” kabi qo‘lyozma kataloglarida “Sharh as-savod al-a’zam” nomli asar ayrim hollarda mustaqil tarzda qayd etilgan. Masalan, Qirol Faysal tadqiqot markazi fondi (Riyad) bo‘yicha nashr etilgan fehristda “Sharh as-savod al-a’zam” hanafiy fiqh-aqida bo‘limida keltirilgan[66].

Manbalarda muayyan muallif nomi har doim ko‘rsatilmagan, ba’zi qo‘lyozmalarda sharh Imom A’zamga nisbat beriladi, lekin bu nisbatni tadqiqotchilar ehtiyotkorlik bilan baholashadi[67].

“Salam al-ahkam”dan tashqari, hanafiy–moturidiy aqida kitoblarida “As-savod al-a’zam” matniga asoslangan izoh va iqtiboslar juda ko‘p. Masalan:

- Sa’duddin Taftazoniy, Najmuddin Nasafiy kabi mutaaxxir kalomiy asarlarning ayrim sharhlarida “Sharh as-savod al-a’zam”dan iqtiboslar keltiriladi[68];
- Hanafiy aqida kitoblari ro‘yxatini bergan mualliflar (masalan, “80 books on Sunni Creed according to the Hanafi Madhhab”) orasida ham “Salam al-ahkam ‘ala Sawad al-a‘zam” mustaqil sharh sifatida tilga olinadi[69].

Buning o‘zi asarning Movarounnahrda, Usmoniylar davrida va hozirgi vaqtigacha muhim manba sifatida nashrdan tushmaganini ko‘rsatadi[70].

Asarning boshqa tillarga qilingan tarjimalari orasida eng mashhur tarjimalardan biri – Fors tiliga qilingan tarjima bo’lib, nomi: «سامانی نوح امیر فرمان به قمری هجری ۳۷۰ حدود در فارسی به ترجمه :الأعظم السواد ترجمه»; mazmuniga ko‘ra, asar xijriy 370-yillar atrofida Somoniy amiri Nuh ibn Mansur farmoyishi bilan fors tiliga tarjima qilingan[71].

Zamonaviy tanqidiy nashr. Hakim Samarqandiy, «Tarjuma-yi al-Sawad al-a‘zam», tahrirchi – Abdulhay Habibiy, Tehron, Bunyād-i Farhangi Īrān, 1348sh/1969, “Zabān va adabiyyāt-i fārsī” silsilasining 12-jildi sifatida[72].

Bu tarjima asarning forscha versiyasini ilk bor tanqidiy matn sifatida nashr qilgan va tadqiqotchi Yuchesoy va boshqalar tomonidan Somoniylar davridagi siyosiy-diniy diskursni o‘rganishda asosiy manba sifatida qo‘llanilgan[73].

Asar usmoniy va zamonaviy Turkiyada ham katta ahamiyatga ega bo‘lib, bir necha marta to‘liq turk tiliga ham tarjima qilingan. Jumladan;

1. “Sevâdü’l-Azam Tercümesi / Kelime anlamlı, açıklamalı”. Muallif sifatida asosiy matnga Hakim Samarqandiy ko‘rsatilgan. Tarjimon: Talha Hakan Alp. Nashriyotlar: Yasin Yayın evi, Anadolu Kitabevi va boshqalar. Kitobda asar matni arabcha–turkcha kalima-ba-kalima tarjima va keng izohlar bilan berilgan[74].

2. Boshqa bir nashrda “Sevadü’l Azam Tercümesi” nomi bilan, tarjimon sifatida Ayniy Efendi ko‘rsatiladi. Bu nashrda asar Imom A’zam Abu Hanifaga nisbat qilingan. Bu nisbat haqida turk tadqiqotchilari bahs yuritgan.

Turk nashrlarida kitob 62 bobdan iborat bo‘lib, ahli sunna va-l-jamoa moturidiy aqidasining asoslari bayon qilingani ta’kidlanadi va asar tarixan Somoniylar, keyin esa Usmoniylar davri madrasalarida o‘qitilgani qayd etiladi[75].

Yuqorida tilga olingan “Salam al-ahkam ‘alá savod al-a’zam” – arab tilidagi sharh, lekin u amalda asl matnning sharhli nashri vazifasini bajaradi[76].

Asarning zamonaviy ilmiy nashrlari ro’yxatiga quyidagilarni kiritish mumkin:

Maher Jarrar, *A Critical Edition of Kitāb al-Sawād al-aʿẓam by al-Ḥakīm al-Samarqandī (d. 342/953)*, Gorgias Press, Islamic History and Thought, 27, 2023.

Kitob annotatsiyalangan tanqidiy nashr va batafsil tadqiqot ekanini nashriyot ta’rifi ochiq bayon etgan. Muallif bir necha asosiy qo‘lyozmaga tayanadi va matnni ilmiy apparati (havolalar, muqaddima, indekslar) bilan bergan[77].

[77] Gorgias Press. A Critical Edition of Kitāb al-Sawād al-aʿẓam by al-Ḥakīm al-Samarqandī

Bu nashr hozircha arab matni bo‘yicha eng zamonaviy kritik tekst sifatida qabul qilinayotganini alohida qayd etish lozim.

Arabcha Vikipediya va «ar-Raqq al-manshur» ma’lumotlariga ko‘ra, asl arabcha matnning ba’zi nashrlari vaqt o‘tib nashrdan chiqqan, ulardan biri Bahreyn yoki Qohirada nashr etilgan qisqa matn bo‘lishi mumkin. Ammo aniq bibliografik ma’lumotlar hozircha cheklangan[78].

Asarning yevropa tillariga qilingan tarjimalari, xususan, ingliz tiliga qilingan tarjimasi haqida so‘z borganida Faruq Umar Abdulloh Umar (Farouq ‘Umar ‘Abdallah Umar)ning 1974-yili Edinburgda himoya qilingan PhD dissertatsiyasi: *“The Doctrines of the Maturidite School with Special Reference to As-Sawad al-A‘zam of al-Hakim as-Samarqandi”*ni alohida qayd etish lozim.

Dissertatsiyada “As-savod al-a’zam” matnining katta qismi inglizcha tarjimasi va tahlili keltirilgan. Shu paytgacha bu ish hanafiy–moturidiy aqidani ingliz tilida o‘rganishda asosiy manba sifatida ishlatiladi[79].

Asarning qisqartirilgan ommaviy tarjimalar ro’yxatiga quyidagilarni kiritish mumkin. Masalan:

“As-Sawad al-A‘zam – Firqatu’n-Najiyya (The Majority Group – The Group of Salvation)” kabi inglizcha risolalarda asar mazmuni qisqartirilgan holda bayon etiladi; ularda 73 firqa haqidagi hadis va “As-savod al-a’zam” tushunchasi asosiy mavzular sifatida talqin qilingan[80].

Ba’zi sunniy aqida kitoblari ro‘yxatlarida ham asar inglizcha tarjimaga ega ekani qayd etilgan. Bu esa yuqorida aytilgan dissertatsiya va ommaviy tarjimalarga ishoradir[81].

Asarning boshqa tillarga qilingan tarjimalari haqida shuni qayd etish o’rinliki, islomiy tashkilotlar nashr etgan urdu va inglizcha risolalarda “As-savod al-a’zam” nomi bilan ahl as-sunna va-l-jamoa haqidagi ta’limotlar qisqartirilgan holda keltirilgan[82].

Markaziy Osiyo va Indoneziyada aqida darsliklari tarkibida asardan parcha va tarjimalar uchraydi. Indonez tadqiqotlarida Haqim Samarqandiyning asarlari aqida bo‘yicha muhim dastur sifatida tilga olinadi[83].

O‘zbek tiliga to‘liq ilmiy tarjima hozircha ommaviy bazalarda ko‘rinmaydi. Faqat Toshkent Islom instituti dotsenti S.Primov tomonidan institut talabalari uchun qilingan tarjima mavjud xolos. lekin forsc va turk tilidagi tarjimalar orqali o‘zbek tadqiqotchilari matn bilan ish olib borishlari odatiy holga aylangan.

Asarni o‘rgangan zamonaviy tadqiqotlar. “Kitob as-savod al-a’zam” asari atrofidagi ilmiy adabiyotlar ham ancha boy. Quyida qisqacha eng muhimlarini sanab o‘tiladi:

1.Farouq ‘Umar ‘Abdallah Umar, *The Doctrines of the Maturidite School with Special Reference to As-Sawad al-A‘zam of al-Hakim as-Samarqandi*, PhD, Edinburgh, 1974 – asarning inglizcha tahlili va tarjimasi, asosiy qo‘lyozma Or.12781 bilan ishlagan[84].

2.Maher Jarrar, *A Critical Edition of Kitāb al-Sawād al-aʿẓam*, Gorgias Press, 2023 – arabcha matnning eng yangi tanqidiy nashri va mukammal tadqiqot[85].

- Ulrich Rudolph – Rodrigo Adem, *Al-Māturīdī and the Development of Sunnī Theology in Samarqand* – bu kitobda Hakim Samarqandiyaqida ilmi rivojida tutgan o‘rni, “As-savod al-a’zam”ning moturidiy maktab rivojidagi roli haqida maxsus bo‘lim bor[86].
- «es-Sevâdü’l-A‘zam’ın farklı nüshaları ve müellifleri üzerine» – qo‘lyozma nusxalar va ularning nisbatlari haqida ma’lumot berilgan[87].
- moturidiy aqoid tarixiga bag‘ishlangan maqolalar, masalan, moturidiya haqidagi turkcha/arabcha tadqiqotlarda Hakim Samarqandiy doimiy tilga olinadi.

Foydalanilgan adabiyotlar va manbalar ro‘yxati:

I. Dissertatsiyalar

QADIMGI YUNONISTONDA FUQAROLIK JAMIYATINING TARIXIY RIVOJLANISH YO'LLARI.

Umarov Murodjon Mamatkarim o'g'li
Namangan davlat pedagogika instituti
Falsafiy va tarixiy fanlar kafedrasi o'qituvchisi
https://orcid.org/0009-0008-0202-0888
murodbekumarov0512@gmail.com

Annotatsiya. *Mazkur maqolada fuqarolik jamiyati va uning vujudga kelish jarayoni hamda tarixiy jihatlari o'rganilgan. Shuningdek, jamoatchilikni xalq yig'ilishlaridagi ishtiroki haqida ham ma'lumotlar berilgan. Qadimgi Yunoniston davlatida mavjud bo'lgan siyosiy, ijtimoiy, iqtisodiy va davlat boshqaruvi sohasi tadqiq etilgan. Xususan, Aristotelning siyosat asarida hamda Filmerning Patriarx asarlaridagi davlat va fuqarolik jamiyati masalalari o'rganilgan.*

Kalit so'zlar: *Qadimgi Yunoniston, basiley, yevpatridlar, geomorlar, demiurglar, pentakosiomedimnlar, suvoriylar, zevgitar, fetlar, arxont, ekklesiya, bule, apella, agora, aliya.*

ИСТОРИЧЕСКИЕ ПУТИ РАЗВИТИЯ ГРАЖДАНСКОГО ОБЩЕСТВА В ДРЕВНЕЙ ГРЕЦИИ.

Аннотация. *В статье рассматривается гражданское общество, его возникновение и исторические аспекты. Также была предоставлена информация об участии общественности в публичных собраниях. Изучаются политическая, социальная, экономическая и государственно-управленческая сферы, существовавшие в древнегреческом государстве. В частности, вопросы государства и гражданского общества изучаются в «Политике» Аристотеля и «Патриархах» Филмера.*

Ключевые слова: *Древняя Греция, Басилевс, евпатриды, геоморы, демиурги, пентакосиомедимны, кавалерия, зевгитары, фетес, архонт, экклесия, буле, апелла, агора, алия.*

HISTORICAL PATHS OF DEVELOPMENT OF CIVIL SOCIETY IN ANCIENT GREECE.

Abstract. *The article examines civil society, its origin and historical aspects. Information on public participation in public meetings was also provided. The political, social, economic and public administration spheres that existed in the ancient Greek state are studied. In particular, issues of state and civil society are studied in Aristotle's "Politics" and Filmer's "Patriarcha".*

Keywords: *Ancient Greece, Basileus, eupatrides, geomors, demiurges, pentakosiomedimnes, cavalry, zeugitaras, fetes, archon, ecclesia, boule, apella, agora, aliya.*

Kirish

O'zbekistonda fuqarolik jamiyatining shakllanishi hamda jamoat birlashmalarining faoliyati takomillashayotgan o'tgan davr mobaynida jamoatchilik nazorati institutini amalga oshirishda normativ asosga bo'lgan ehtiyoj yaqqol sezildi. Fuqarolik jamiyati rivojlanib borgani sari jamoatchillik nazorati institutlariga bo'lgan ehtiyojni yanada oshiradi.

Jamoatchilik nazorati - fuqarolarning davlat organlari, davlat tashkilotlari va boshqa jamoat muassasalarining faoliyatini kuzatish, ularning qonuniylik, shaffoflik va samaradorlikni ta'minlashdagi rolini oshirishga qaratilgan ijtimoiy mexanizm sifatida tan olinadi. Shuningdek, jamoatchilik nazorati O'zbekistonda fuqarolik jamiyatining rivojlanishi va davlat boshqaruvida shaffoflikni ta'minlashda muhim ahamiyat kasb etuvchi vosita sifatida xizmat qiladi **[9;105]**.

2018-yil 12 aprelda qabul qilingan O'zbekiston Respublikasining "Jamoatchilik nazorati to'g'risida"gi Qonunida ham jamoatchilik nazoratining huquqiy asoslari tilga olinadi. Yurtimizda ushbu institut faqarolik jamiyatini rivojlantirishning muhim omillaridan biri sifatida qarashimi mumkin. Ayrim yevropa davlatlarida ushbu institut haqida shunday tushunchalar beriladi. Masalan R.Filmerning "Patriarx" asarida hukmdor bilan xalq o'rtasidagi munosabatlar haqida to'xtalib, "…Ommaviy qonunlarni qabul qilish bo'yicha maslahatlashuvlar uchun umumiy assambleyalar mavjud bo'lgan shohliklardagi mashhurlik namoyishiga kelsak, shuni esda tutish kerakki, bunday yig'ilishlar suverenitetni shahzoda bilan baham ko'rmaydi yoki ajratmaydi",-deyiladi **[11;27]**. Demak shunday xulosa chiqarish mumkinki, xalq har doim davlat ishlarini boshqarishda ishtirok etgan. Qadimgi yunoniston va Rimda ham xalq majlislari chaqirilgan

bo‘lib, unda ozod fuqarolar ishtirok etganlar. Hukmdor Basiley davrida boshqa yunon polislaridagi kabi oqsoqollar kengashi mavjud bo‘lib, areopag deb atalgan **[7;65]**. Keyinchalik Afina aholisini birlashtirgan afsonaviy hukmdor Tesey aholini uch guruhga bo’ladi. Bular, yirik yer egalari - yevpatridlar, dehqonlar - geomorlar va hunarmandlar - demiurglardir. Bu toifa insonlar xalqa yig‘inlarida qatnasha olgan ozod fuqarolar hisoblanishgan. Bundan tashqari Solon islohotlari natijasida Afinada aholi daromadlariga qarab 4 guruhga bo‘lingan. Bular, pentakosiomedimnlar, suvoriylar, zevgitar va fetlardir. Faqat birinchi uch toifa amalda davlat lavozimlarini egallashi mumkin edi. Oliy arxont mansabiga faqat pentakosiomedimnlar da‘vo qilishlari mumkin edi. Solon davrida xalq yig‘ini (ekklesiya) to‘laqonli barcha vakolatlarga ega bo‘lgan boshqaruv organi bo‘lib, fuqarolarning barcha qatlamlari ovoz berish va uning ishida qatnashish huquqiga ega bo‘ldilar **[14]**. Qadimgi yunonistonda xalq majlisining eng ko‘p tarqalgan nomi Ekklesiya deb atalgan. Ekklesiya - qonun chiqarish, ijroiya va sud hokimiyatiga ega bo‘lgan davlatning oliy organi; mansabdorlarni saylab ularni doimo nazorat ostiga olgan ekklesiya tarkibi mulkiy senz belgilari orqali fuqarolar orasidan tanlab olingan. Odatda, ekklesiya o‘z vazifasini bule **[12; 260]** - ekklesiya muhokamasi uchun oldindan savollar tayyorlab qo‘yadigan kengash bilan amalga oshirgan. Bir qator yunon polislarida xalq majlislari maxsus nomlar bilan atalgan: Spartada - apella, Delfa va Fessaliya shahrilarida - agora, Argos, Epidavr, Gel, Akragantda - aliya. So‘nggi davr antik yozuvchilari asarlarida xalq majlislari o‘tkaziladigan joy ham ekklesiya deb atalgan. Xristianlikda ekklesiya deb dindorlar jamoasi, ba’zan butun cherkov tushunilgan. Ya’ni aytadigan bo‘lsak Qadimgi Yunoniston davlatida ham fuqarolik jamiyati va xalqning o‘rni yuksalib rivojlanib borayotganiga guvoh bo‘lamiz. Yuqoridagilardan shuni xulosa qilish mumkinki, Afinada fuqarolik jamiyati demokratiyaning rivojlanishi bilan yuzaga kela boshlagan va Solon islohotlari davrida yanada rivojlangan. Shuningdek, Aristotelning Siyosat asarida davlat hokimiyatini amalga oshirishda xalqning bevosita yoki vakillar orqali ishtirok etishi haqidagi fikrlar bayon etilgan. Bunda kambag‘allar va boylar haqidagi fikrlar hamda ularning bir biriga bo‘lgan munosabatlari ham tilga olinadi.

Xulosa

Xulosa o‘rnida shuni aytish mumkinki, davlat ishlarini amalga oshirishda ishtirok etish uchun qadimda faqat ozod fuqarolargina ishtirok etishlari mumkin bo‘lgan. Shuningdek ushbu kishilar jamoasini ham bir necha guruhlarga bo‘lingan. Ayrim xollarda bir toifa vakillari boshqa toifa vakillarining faoliyati bilan mashg‘ul bo‘lishi mumkin emasdi. Bu esa tengsizlikni yuzaga kelishiga zamin yaratgan. Solon islohotlari Qadimgi yunonistonda demokratiyaning yuzaga kelishi uchun kurtak bo‘lib xizmat qilgandir, ammo, bunda ham ayrim noroziliklarni bartaraf etib bo‘lmagan. Masalan Afinada keskin ichki kurashlar va ichki ziddiyatlar yanada kuchayib ketadi.Solondan keyingi davrda tiraniya siyosatidan foydalanilgan bo‘lsa, keyinchalik Klisfen tomonidan Solon islohotlarini yanada rivojlantirish hamda demokratik tuzilmalarning faoliyatini yanada mustahkamlashdan iborat bo‘ldi.

ZAMONAVIY TAHDIDLAR SHAROITIDA INSON QADRINI MUSTAHKAMLASH: HUQUQIY MADANIYAT VA FUQAROLIK JAMIYATI RIVOJI.

Sodiqova Maxbubaxon Raxmonaliyevna
Farg‘ona Davlat universiteti o‘qituvchisi

Annotatsiya; *Mazkur maqolada zamonaviy globallashuv sharoitida inson qadrini mustahkamlash muammosi huquqiy madaniyat kontekstida tahlil qilinadi. Tadqiqotda global tahdidlar – axborot xurujlari, kiberxavfsizlik muammolari, ijtimoiy-iqtisodiy beqarorlik va ekologik omillarning inson huquq va erkinliklariga ta’siri o‘rganiladi. Shuningdek, huquqiy ong va huquqiy madaniyatni rivojlantirish orqali fuqarolik jamiyatini mustahkamlash mexanizmlari asoslab beriladi.*

Kalit so‘zlar: *inson qadri, huquqiy madaniyat, huquqiy ong, globallashuv, axborot xavfsizligi, fuqarolik jamiyati, qonun ustuvorligi.*

УКРЕПЛЕНИЕ ЧЕЛОВЕЧЕСКОГО ДОСТОИНСТВА В УСЛОВИЯХ СОВРЕМЕННЫХ УГРОЗ: ПРАВОВАЯ КУЛЬТУРА И РАЗВИТИЕ ГРАЖДАНСКОГО ОБЩЕСТВА

Аннотация; *В статье анализируются вопросы укрепления человеческого достоинства в условиях современных угроз в контексте правовой культуры. Рассматривается влияние глобальных факторов на права и свободы человека, а также механизмы развития гражданского общества.*

Ключевые слова: *человеческое достоинство, правовая культура, правосознание, глобализация.*

STRENGTHENING HUMAN DIGNITY IN THE CONTEXT OF MODERN THREATS: LEGAL CULTURE AND THE DEVELOPMENT OF CIVIL SOCIETY

Abstract; *This article analyzes the issue of strengthening human dignity in the context of modern threats and legal culture. It examines the impact of global challenges on human rights and explores mechanisms for developing civil society through legal awareness.*

Keywords: *human dignity, legal culture, legal awareness, globalization.*

KIRISH

XXI asrda insoniyat yangi tahdidlar bilan yuzlashmoqda. Masalan, global xavfsizlik tahdidlari, ijtimoiy-iqtisodiy notinchlik, kiberxavfsizlik muammolari, ekologik inqirozlar va axborot tahdidlari inson qadrini himoya qilishni yanada murakkablashtirmoqda. Bu esa o‘z navbatida, zamonaviy tahdidlar fonida inson qadrini mustahkamlash multidisipliner yondashuvni talab qiladi. Natijada huquqiy himoya, psixologik barqarorlik, ijtimoiy adolat va axborot xavfsizligini birgalikda ta’minlanishi lozim bo‘ladi. Bu jarayon nafaqat shaxsning individual manfaatlarini, balki jamiyatning barqaror rivojlanishini ham kafolatlaydi. Inson qadrini mustahkamlash, zamonaviy demokratik davlat va ijtimoiy jamiyatning poydevorini tashkil etuvchi strategik vazifalardan biri hisoblanadi.

Har qanday jamiyatning istiqbolini yoshlar belgilar ekan, kelajagi buyuk davlatning barpo etilishi, ularning qanday tarbiya olishiga bog‘liq. Har bir inson ma’naviy-mafkuraviy qiyofasini shakllanishi va takomillashuviga ijtimoiy-iqtisodiy sharoit hal qiluvchi ta’sir ko‘rsatadi. Jamiyatning ma’naviy hayoti, ijtimoiy g‘oya va qarashlar, tasavvurlar va tushunchalar, his va tuygular jamiyat moddiy hayot sharoitlarini aks ettiradi. Chunki, insonni tabiat yaratgan bo‘lsa ham, undagi insoniy xususiyatlar umuman jamiyatda xususan oilada, mahallalarda tarkib topa boradi.

ADABIYOTLAR TAHLILI

Zamonaviy ilmiy adabiyotlarda inson qadri, huquqiy madaniyat va fuqarolik jamiyati o‘rtasidagi o‘zaro bog‘liqlik keng qamrovda o‘rganilgan. Ayniqsa, globallashuv sharoitida inson huquqlarini ta’minlash va himoya qilish masalalari ko‘plab tadqiqotchilar diqqat markazida bo‘lib kelmoqda.

Birinchi navbatda, inson qadrini mustahkamlash masalasi falsafiy va huquqiy nuqtai nazardan yoritilib, u shaxsning jamiyatdagi o‘rni, huquq va erkinliklari hamda ijtimoiy himoyasi bilan uzviy bog‘liq ekanligi ta’kidlanadi[88]. Ushbu yondashuvga ko‘ra, inson qadri demokratik jamiyatning asosiy mezoni bo‘lib, uning ta’minlanishi davlatning bosh vazifalaridan biri hisoblanadi.

Shuningdek Konstitutsiyamizning 13, 19, 20, 27, 43, 47-moddalarida inson qadri bilan bog‘liq “qadr”, “qadr-qimmat”, “qadriyat”, “milliy va umuminsoniy qadriyatlar”, “oilaviy qadriyatlar” tushunchalari uchraydi[89].

Zamonaviy tahdidlar masalasi bo‘yicha olib borilgan tadqiqotlar shuni ko‘rsatadiki, global xavfsizlik tahdidlari, axborot manipulyatsiyasi va kiberxavfsizlik muammolari inson huquqlariga jiddiy xavf tug‘diradi[2]. Xususan, axborot xurujlari orqali jamiyat ongiga ta’sir o‘tkazish, noto‘g‘ri axborot tarqatish va ijtimoiy fikrni boshqarish kabi holatlar insonning ma’naviy va huquqiy erkinligiga salbiy ta’sir ko‘rsatadi.

Huquqiy madaniyat masalasi ko‘plab ilmiy ishlarda fuqarolik jamiyatining asosiy ko‘rsatkichlaridan biri sifatida talqin qilinadi. Tadqiqotchilarning fikricha, huquqiy madaniyat nafaqat huquqiy bilimlar majmui, balki qonunlarga hurmat, huquqiy xulq-atvor va huquqiy ongning shakllanishini ham o‘z ichiga oladi[90]. Shu bilan birga, huquqiy madaniyat darajasi jamiyatda qonun ustuvorligini ta’minlashda hal qiluvchi omil sifatida e’tirof etiladi.

Ayrim ilmiy manbalarda huquqiy madaniyatning past darajasi huquqiy nigilizm, qonunlarga ishonchsizlik va huquqbuzarliklarga befarqlik bilan bog‘liqligi qayd etilgan[91]. Bu esa jamiyatda ijtimoiy barqarorlikning izdan chiqishiga olib kelishi mumkin. Shu sababli huquqiy madaniyatni rivojlantirish masalasi davlat siyosatining ustuvor yo‘nalishlaridan biri sifatida qaraladi.

O‘zbekiston Respublikasida inson qadrini yuksaltirish va huquqiy madaniyatni rivojlantirish masalalari normativ-huquqiy hujjatlar darajasida mustahkamlangan. Xususan, 2019 yil 9 yanvardagi PF-5618-son Farmonida jamiyatda huquqiy ong va huquqiy madaniyatni yuksaltirishning ustuvor yo‘nalishlari belgilab berilgan[92]. Ushbu hujjatda aholining huquqiy savodxonligini oshirish, huquqbuzarliklarga nisbatan murosasizlikni shakllantirish va fuqarolik jamiyati institutlarini rivojlantirish zarurligi alohida ta’kidlangan.

Shuningdek, zamonaviy tadqiqotlarda inson qadri konsepsiyasi “inson – jamiyat – davlat” tamoyili asosida tahlil qilinib, unda inson manfaatlari ustuvor ahamiyat kasb etishi qayd etiladi[93]. Bu yondashuvga ko‘ra, davlat faoliyatining asosiy maqsadi inson huquq va erkinliklarini ta’minlashdan iborat bo‘lishi kerak.

Umuman olganda, mavjud ilmiy adabiyotlar tahlili shuni ko‘rsatadiki, inson qadrini mustahkamlash va huquqiy madaniyatni rivojlantirish o‘zaro bog‘liq bo‘lgan kompleks jarayon bo‘lib, u zamonaviy tahdidlar sharoitida yanada dolzarb ahamiyat kasb etmoqda. Shu bilan birga, mazkur masala bo‘yicha yanada chuqur ilmiy tadqiqotlar olib borish zarurati saqlanib qolmoqda.

TADQIQOT METODOLOGIYASI

Mazkur ilmiy tadqiqot zamonaviy tahdidlar sharoitida inson qadrini mustahkamlash muammosini kompleks o‘rganishga qaratilgan bo‘lib, unda falsafiy, huquqiy va ijtimoiy yondashuvlar uyg‘un holda qo‘llanildi. Tadqiqot metodologiyasi tizimli, mantiqiy va empirik tahlil usullariga asoslandi.

Avvalo, tadqiqotning nazariy-metodologik asosini inson qadri, huquqiy madaniyat va fuqarolik jamiyati haqidagi zamonaviy ilmiy qarashlar tashkil etadi. Ushbu jarayonda inson qadrini “inson – jamiyat – davlat” tamoyili asosida tahlil qilishga alohida e’tibor qaratildi[94]. Bu yondashuv inson manfaatlarining ustuvorligini ilmiy asoslash imkonini beradi.

Tadqiqot davomida quyidagi ilmiy metodlardan foydalanildi:

Birinchidan, tizimli tahlil metodi yordamida zamonaviy tahdidlar (axborot xavfsizligi, ijtimoiy-iqtisodiy beqarorlik, ekologik muammolar) va inson qadri o‘rtasidagi o‘zaro bog‘liqlik o‘rganildi. Ushbu metod inson qadrini mustahkamlash jarayonining murakkab va ko‘p omilli tizim ekanligini aniqlash imkonini berdi.

Ikkinchidan, qiyosiy-huquqiy tahlil metodi orqali O‘zbekiston Respublikasining yangilangan Konstitutsiyasi va boshqa normativ-huquqiy hujjatlar xalqaro huquqiy standartlar bilan solishtirildi. Bu orqali inson qadrini himoya qilishning huquqiy mexanizmlari samaradorligi baholandi.

Uchinchidan, tarixiy yondashuv metodi yordamida inson qadri va huquqiy madaniyat tushunchalarining shakllanishi va rivojlanish bosqichlari tahlil qilindi[4]. Bu metod ushbu tushunchalarning evolyutsion rivojlanishini aniqlashga xizmat qildi.

[92] O‘zbekiston Respublikasi Prezidentining “Jamiyatda huquqiy ong va huquqiy madaniyatni yuksaltirish tizimini tubdan takomillashtirish to‘g‘risida” PF-5618-son Farmoni, 2019 yil 9 yanvar.

[93] K. Abdurazakova, Yangi O`zbekiston: “Inson-jamiyat-davlat” konsepsiyasining jamiyat hayotidagi o`rni.

[94] Yangi O‘zbekiston Konstitutsiyasi – ijtimoiy davlat kafolati https: //constitution.uz/oz/ pages/

To‘rtinchidan, sotsiologik yondashuv asosida jamiyatda huquqiy ong va huquqiy madaniyat darajasiga ta’sir etuvchi omillar umumlashtirildi[5]. Bu orqali aholining huquqiy savodxonligi, huquqiy nigilizm va ijtimoiy munosabatlar tizimi o‘rganildi.

Beshinchidan, mantiqiy tahlil (induksiya va deduksiya) metodlari orqali alohida faktlar asosida umumiy ilmiy xulosalar chiqarildi hamda nazariy qarashlar tizimlashtirildi[6].

Tadqiqot manbalari sifatida normativ-huquqiy hujjatlar, xususan, O‘zbekiston Respublikasi Prezidentining huquqiy madaniyatni rivojlantirishga oid farmonlari, ilmiy maqolalar va tahliliy materiallardan foydalanildi.

Mazkur metodologik yondashuv zamonaviy tahdidlar fonida, inson qadrini mustahkamlash, shaxsning huquqiy, ijtimoiy, ma’naviy va psixologik jihatdan himoyalanishini ta’minlash, uning shaxsiy salohiyati va huquqlarini rivojlantirish qaratilgan jarayonlarni nazorat qilish, inson qadrini mustahkamlash masalasini har tomonlama o‘rganish, uning huquqiy va ijtimoiy mexanizmlarini aniqlash hamda amaliy tavsiyalar ishlab chiqish imkonini berdi.

NATIJALAR VA ULARNING TAHLILI

Ommaviy huquqiy madaniyatni rivojlantirish huquqiy ong darajasini, qonuniylik va huquqning mukammalligini aks ettiruvchi jamiyat rivojlanishiga ko‘maklashishga qaratilgan insonparvarlik tamoyillarini qaror toptirishni belgilaydi.

“Huquqiy madaniyat” atamasi har doim ham etarlicha ajratilmagan bir necha turli yondashuvlarni bildiradi. Huquqiy madaniyat ko‘pincha huquqning kengaytirilgan tushunchasi sifatida tavsiflanadi, bu erda huquqiy madaniyat “jonli qonun” yoki “harakatdagi qonun” atamalarining sinonimidir.

Huquqiy madaniyat, eng umumiy ma’noda, ijtimoiy xulq-atvorning nisbatan barqaror modellarini tavsiflash usullaridan biri bo‘lib, qonunlarning jamiyatga ta’sirini bashorat qilishda muhim rol o‘ynaydi, qabul qilingan qonunlarning amalga oshirilishi va amalga oshirilishi darajasini va muvaffaqiyatli amalga oshirilishini ko‘rsatadi. huquqiy islohotlar. Fuqarolik jamiyati manfaatlarini doimiy e’tiborga olish amaldagi demokratiya institutlarining ta’sirchanlik darajasini oshiradi, fuqarolik jamiyatini siyosatning asosiy omillaridan biriga aylantiradi va davlat boshqaruvi jarayonida uning o‘rnini belgilaydi.

Zamonaviy jamiyatda huquqiy madaniyatni rivojlantirishning asosiy muammolari quyidagilardan iborat:

1. Huquqiy vakolatlarga ega bo‘lgan shaxslarning huquqiy madaniyatining tegishli darajada nomuvofiqligi, buning natijasida qonun ijodkorligi va huquqni qo‘llash jarayonlarining noto‘g‘ri amalga oshirilishi.

2. Huquqiy nigilizmning huquq obektlari va subektlari o‘rtasida tarqalishi, huquqni ijtimoiy munosabatlarni muvaffaqiyatli tartibga solishga qodir ijtimoiy institut sifatida tan olmaslik, insonlarda davlat huquqiy tizimiga ishonchsizlik.

3. Aholining huquqiy va moliyaviy savodxonligining pastligi.

4. Normativ-huquqiy hujjatlardagi o‘zgarishlar haqida ma’lumot olish qiyin.

5. Qonuniy xulq-atvorga ommaviy yo‘naltirilmaslik va huquqbuzarliklarga befarq munosabatda bo‘lish.

Huquqiy madaniyat subektlarga ziddiyatli vaziyatlarni adolatli, qonuniy hal qilish modelini o‘rgatish orqali munosabatlarning juda keng doirasiga ta’sir qiladi. Adolat o‘lchovi ko‘pincha qonun talablariga javob beradigan xatti-harakatlardir. Ijtimoiy munosabatlar nafaqat huquqiy me’yorlar, balki axloqiy va diniy me’yorlar, shuningdek, jamiyatda shakllangan axloq va an’analar bilan tartibga solinganligi sababli, huquqiy normalar boshchiligidagi ijtimoiy normalarning o‘zaro bog‘liqligi uyg‘un munosabatlarni yaratish uchun asosdir.

Shunday qilib, huquqiy madaniyat nafaqat jamiyat uchun me’yoriy yo‘riqnoma bo‘lib, uning asosiy maqsadi huquqiy ko‘rsatmalarning shakllanishiga faol ta’sir ko‘rsatish, jamiyat a’zolari o‘rtasida huquqiy xulq-atvorning ma’lum bir turiga bo‘lgan ehtiyoj to‘g‘risida tushunchani rivojlantirish va shu bilan birga, huquqiy ko‘rsatmalarning shakllanishiga faol ta’sir ko‘rsatishdir.

Ko‘rinib turibdiki, eng umumiy ma’noda ma’lum bir g‘oya (kamdan-kam hollarda e’tiqod) va fikrlarning qonunga, uning institutlari va normalariga, huquqning roli va ma’nosiga munosabati sifatida ta’riflanishi mumkin bo‘lgan huquqiy madaniyat, uning me’yorlarini shaxsiy hayotda ham, jamoat hayotida ham amalga oshirish tajribasi nafaqat har xil nazariy munozaralar, uslubiy seminarlar o‘tkazish orqali shakllantiriladi.

Huquqiy normalar bilan tartibga solinadigan, ko‘p va xilma-xil huquqiy munosabatlar, shu jumladan ijobiy yoki salbiy ma’naviy-psixologik ta’sir zaryadi - bularning barchasi, pirovardida, zamonaviy huquqiy voqelikni tashkil etadi, bu holda ko‘rib chiqiladi, huquqiy madaniyatni shakllantirishga ta’sir etuvchi hal qiluvchi omillardan biri sifatida.

Ammo shuni unutmasligimiz kerakki, huquqiy madaniyatning huquqiy voqelikka ta’siri ham juda katta va uni hech qanday tarzda kamaytirib bo‘lmaydi.

Huquqiy madaniyat darajasi qonun ustuvorligi tamoyillarini amalga oshirish samaradorligidan, fuqarolik jamiyatining izchil rivojlanishidan dalolat beradi, chunki huquqiy madaniyatning barcha tarkibiy qismlari ta’minlanmaguncha, fuqarolik jamiyati harakatsiz qoladi. Jamiyatning huquqiy madaniyati talab darajasiga ko‘tarilmasa, inson huquq va erkinliklari g‘oyalari ma’naviy ehtiyoj, milliy g‘oya bo‘lmasa, inson huquq va erkinliklari amalda ro‘yobga chiqarilmasa, fuqarolik jamiyati qurish jarayoni yanada rivojlanadi.

Demak, jamiyat huquqiy madaniyatining mohiyatini quyidagi formula bilan ifodalash mumkin: bilish – hurmat qilish – qonunlarga itoat etish. Bunda gap xususiy xarakterdagi tavsiyalar haqida ketmoqda, ularning amalga oshirilishi qonun ustuvorligini rivojlantirish sharoitida huquqiy madaniyatning yanada samarali rivojlanishiga xizmat qiladi. Huquqiy madaniyatning barcha tarkibiy qismlari, ya'ni huquq normalari, qonun ijodkorligi, huquqiy munosabatlar, qonuniylik, huquqiy ta'lim va hokazolar faoliyatining izchil monitoringini olib borish, keyinchalik har bir tarkibiy qismning samaradorligini oshirish zarur.

Fuqarolik jamiyatini rivojlantirish jarayonida huquqiy madaniyatning rolini ochib berishning amaliy ahamiyati global vazifani - huquqiy davlatni rivojlantirishni hal qilishning dolzarbligi bilan bog'liq. Bu ahamiyat shundan iboratki, huquqiy madaniyat jamiyatning barkamol rivojlanishining asosi bo'lib, ijtimoiy taraqqiyotga erishish, shaxsni boyitish va jamiyatni zarur huquqiy shart-sharoitlar bilan ta'minlaydigan huquqiy qadriyatlarni shakllantirish va rivojlantirishga xizmat qiladi. Huquqiy madaniyat tizimli ravishda oqilona rivojlanish, rag'batlantirish va ijobiy ijtimoiy tarbiyani talab qiladi. Huquqiy madaniyatni shakllantirish va rivojlantirishning ijtimoiy-madaniy mexanizmi - bu ijtimoiy va madaniy vositalar tizimi bo'lib, ular yordamida huquqiy madaniyat tasvirlari shakllanadi va uzatiladi.

Huquqiy madaniyatni noqonuniy xatti-harakatlarni cheklaydigan va yo'q qiladigan cheklovchi kuch sifatida ko'rish mumkin. Huquqiy madaniyatni rivojlantirish muammolarini hal qilishda davlatning huquqni muhofaza qilish tizimini isloh qilish, huquqiy funksiyalarni bajaruvchi fuqarolar: davlat mansabdor shaxslari yoki advokatlik kasbi vakillarining huquqiy madaniyatini rivojlantirish muhim rol o'ynaydi.

"Biz jamiyatimizda shunday huquqiy madaniyatni shakllantirishimiz kerakki, unga mavofiq Konstitusiya va qonunlarga amal qilish, boshqalarning huquq va erkinliklari, sha'ni va qadr-qimmatini hurmat qilish majburiyat emas, balki kundalik qoida va odatga aylanishi shart"[95], - deb ta'kidlaydi o'z nutqida prezidentimiz.

Jamiyatning huquqiy kamoloti mamlakat aholisining huquqiy savodxonlik darajasi bilan belgilanadi. Ijtimoiy faol va yuksak madaniyatli insonga xos bo'lgan fazilatlardan biri huquqiy madaniyatga ega bo'lishdir. Umumiy madaniyatning ajralmas tarkibiy qismi bo'lgan huquqiy madaniyatning negizini huquqiy ong, huquqiy tafakkur tashkil etadi. Huquqiy ong shaxsning jamiyatdagi o'rnini belgilaydi, jamiyat a'zolarining huquqiy ongi qanchalik yuqori bo'lsa, huquqiy normalarda belgilangan talablarning bajarilishi ham shunchalik to'liq va aniq bo'ladi. Mazkur holat jamiyatda qonun ustivorligini ta'minlashga xizmat qiladi, bunda huquqiy madaniyatni yuksaltirish uchun, eng avvalo, huquqiy ta'lim va tarbiya, boshqacha aytganda huquqiy ma'rifatni takomillashtirish zaruratini vujudga keladi.

Huquqiy madaniyatimizning naqadar nochorligi, ayniqsa, biron favqulodda vaziyat yuzaga kelganda bilinib qoladi. Marketing maqsadlarida o'tkazilayotgan turli tadbirlarda yoki yo'llarda yuzaga kelgan tirbandliklarda, navbatda turganda yoki birov bilan u yoki bu masallarda ahdlashuvlarga rioya qilish jarayonida huquqiy madaniyatimiz o'z "qiyofasini" namoyon qilib qo'yadi. Biz oddiygina navbatda turish yoki maxsus yo'lakchadan piyodani o'tkazib yuborishni bilmaymiz.

Aholida huquqiy ongning etarli emasligi oqibatida maishiy korrupsiyani to'liq yo'qota olmayapmiz. Korrupsiya noqonuniy harakat ekanini hamma biladi, ammo oddiy fuqarodan yuqori mansabli amaldorlargacha pora oldi-berdisi ustida ushlanayotgani achinarli holdir.

Huquqiy ta'lim maktabgacha ta'lim tizimidan boshlanib to oliy ta'lim muassasalarida ham bosqichma-bosqich, tizimli ravishda o'rganib kelinadi, fuqarolar o'zlarining butun keyingi hayoti davomida ular hajmini ko'paytiradilar, chuqurlashtiradilar va ulardan o'z kundalik hayotlarida foydalanadilar.

Jamiyatda huquqiy ong va huquqiy madaniyatni shakllantirish bo'yicha huquqiy ma'rifiy tadbirlar va uchrashuvlarni kengaytirish, xalqimiz tarixi, dini, milliy qadriyatlarini yosh avlod ongida shakllantirish orqali vatanparvarlik hissini kuchaytirish kabi dolzarb vazifalar turgan bir paytda O'zbekiston Respublikasi Prezidentining "Jamiyatda huquqiy ong va huquqiy madaniyatni yuksaltirish tizimini tubdan takomillashtirish to'g'risida"[96]gi 2019-yil 9-yanvardagi PF-5618-sonli Farmonining qabul qilinishi ayni muddaodir. Mazkur Farmonda inson huquq va erkinliklariga hurmat munosabatini shakllantirishga, aholining huquqiy ongi va huquqiy madaniyatini yuksaltirishga, jamiyatda fuqarolarning huquqiy savodxonligi darajasini oshirishga to'sqinlik qiluvchi bir qator muammo va kamchiliklar ko'rsatib o'tilgan. Jumladan, huquqiy madaniyatni yuksaltirishda eng avvalo, huquqiy ta'lim va tarbiya borasidagi ishlar tizimli va uzviy olib borilmayotganligi, uzoq yillar davomida bu masala huquqni muhofaza qiluvchi organlar va ayrim davlat organlarining ishi sifatida qarab kelinib, bunda oila, mahalla va fuqarolik jamiyati boshqa institutlarining ishtiroki etarlicha ta'minlanmaganligini, yoshlarning huquqiy tarbiyasiga salbiy ta'sir ko'rsatuvchi omillarga nisbatan huquqiy immunitetni shakllantirish, har bir shaxsda qonunlarga va odob-axloq qoidalariga hurmat, milliy qadriyatlarga sadoqat, huquqbuzarliklarga nisbatan murosasizlik hissini uyg'otish ishiga kompleks tarzda yondashilmaganligi hamda huquqiy ong va huquqiy madaniyatni yuksaltirishda shaxsiy manfaatlar hamda jamiyat

[95] Insani kamil // Islamskiy ensiklopedicheskiy slovar. Avt.: A. Alizade. Moskva: 2007. –b. 55.

manfaatlari o‘rtasidagi muvozanatni saqlash g‘oyalarini aholi ongiga singdirish ishlarining etarli olib borilmasligi ham qonun ustuvorligini ta’minlashga o‘zining jiddiy salbiy ta’sirini ko‘rsatayotganligi aytib o‘tilgan.

O‘tgan davr mobaynida O‘zbekistonda barcha sohalar qatori sud-huquq yo‘nalishida ham keng ko‘lamli ishlar amalga oshirildi. Ma’lumki, mustaqil va xolis sudni talab qilish har bir insonning huquqi hisoblanadi. Bu huquq “Inson huquqlari Umumjahon deklaratsiyasi”[97]ning 10-moddasi va O‘zbekiston Respublikasi qo‘shilgan boshqa xalqaro huquq hujjatlarida belgilab qo‘yilgan. Faqat mustaqil sudgina har bir fuqaroning ishini sudda xolis va oshkora ko‘rish orqali toptalgan haq-huquqlarni himoya qilishi mumkinligiga ishonch uyg‘ota oladi. Bu jihatdan Harakatlar strategiyasi asosida amalga oshirilgan islohotlar sud-huquq sohasini demokratlashtirish va erkinlashtirish, sud hokimiyatining chinakam mustaqilligini ta’minlash, fuqarolarning huquq va qonuniy manfaatlarini himoya qilishga zamin yaratdi. O‘zbekiston Respublikasi Prezidentining 2020-yil 29-dekabr kuni Oliy Majlisga yo‘llagan navbatdagi Murojaatnomasi[98]da ta’kidlanganidek: “so‘nggi 4 yil davomida sud-huquq sohasini isloh etish borasida dadil qadamlar qo‘yildi. Bu yo‘nalishdagi ustuvor masalalar yuzasidan 40 dan ortiq qonun, farmon va qarorlar qabul qilindi. Qonun ustuvorligini ta’minlash va sud-huquq tizimini yanada isloh qilish borasida strategik ahamiyatga ega muhim qadam tashlandi”[99] degan edi.

Jumladan, sudlar mustaqilligini ta’minlash maqsadida, Sudyalar oliy kengashi tashkil qilindi. Shuningdek, Oliy sud va Oliy xo‘jalik sudi birlashtirilib, Oliy sud faoliyati takomillashtirildi. Hududlardagi xo‘jalik sudlari iqtisodiy sudlar sifatida qayta tashkil etildi, 71 ta tumanlararo, tuman (shahar) iqtisodiy sudiga ishlarni birinchi instansiyada ko‘rib chiqish vakolati berildi. Sudya lavozimida faoliyat yuritishning ilk marotaba besh yillik, keyin o‘n yillik muddati va muddatsiz davri belgilandi.

Sudda ishlarni ko‘rib chiqishda inson huquqlari kafolatlarini yanada kuchaytirish va taraflarning tortishuvchanlik tamoyilini ro‘yobga chiqarish maqsadida jinoyat ishlari bo‘yicha sudlarda dastlabki eshituv instituti joriy etildi. Sudlar faoliyatining shaffofligi, ochiqligi yo‘lida 10 mingdan ortiq jinoyat ishi sayyor sud muhokamalarida ko‘rib chiqildi. Ehtiyot chorasi sifatida qamoqda saqlash va dastlabki tergovning eng yuqori muddatlari kamaytirildi. Sudyalikka nomzodlarni tanlov asosida ishga qabul qilish mexanizmi joriy etilgani alohida e’tirofga loyiq. Ilk bor sudyalik lavozimiga nomzodlarni tanlash bo‘yicha imtihon jarayonlarini onlayn yoritib borish amaliyoti yo‘lga qo‘yildi. Shuningdek, sudyalik lavozimiga birinchi marta tayinlanadigan nomzodlarni ko‘rib chiqish muqobillik asosida amalga oshiriladigan bo‘ldi. Albatta, malakali va yetuk sudyalar korpusini hamda sud apparati xodimlarini tayyorlashning yangi tizimi jamiyatda sud idoralariga bo‘lgan ishonchni oshirish, adolat barqarorligi va qonun ustuvorligini ta’minlash, tom ma’noda sudni “Adolat qo‘rg‘oni”ga aylantirish hamda odil sudlovning yuqori darajaga ko‘tarilishiga xizmat qiladi. Shuningdek, investitsiyaviy nizolar va raqobatga oid ishlar faqat iqtisodiy sudlar tomonidan ko‘rib chiqiladigan bo‘ldi.

Huquqiy madaniyat va huquqiy ong doirasida adolat, tenglik, erkinlik, or-nomus, qadr-qimmat kabi huquqiy qadriyatlar shakllanib, davlatning butun huquqiy tizimi, xususan, fuqarolik jamiyati rivojiga ta’sir ko‘rsatadi. Huquqiy normalarning hayotga tatbiq etilishi, me’yoriy-huquqiy talablarning kundalik hayotda amalga oshirilishi, shaxsning huquqiy voqelikni anglashi va idrok etishi, huquqiy oqibatlarga olib keladigan qarorlar qabul qilishi va xatti-harakatlari huquqiy madaniyat darajasiga bog‘liq. Bu jarayonga nafaqat fuqarolarning huquqiy bilim darajasi va huquq normalariga rioya qilish istagi, balki qonuniy xulq-atvorga qaratilgan ichki huquqiy munosabatning rivojlanishi ham sezilarli ta’sir ko‘rsatadi. Inson – davlat va jamiyat uchun maqsadga erishish vositasi emas, aksincha, ana shu maqsadning bosh mazmuni va manbai hamda eng oliy qadriyat bo‘lishi lozim.

XULOSA

Xulosa qilib aytganda, zamonaviy tahdidlar sharoitida inson qadrini mustahkamlash dolzarb va kompleks yondashuvni talab qiladigan muhim ijtimoiy-huquqiy masala hisoblanadi. Globallashuv jarayonlari, axborot xurujlari, kiberxavfsizlik muammolari hamda ijtimoiy-iqtisodiy beqarorlik inson huquq va erkinliklariga turli darajada ta’sir ko‘rsatmoqda. Shu bois, inson qadrini himoya qilish faqat huquqiy mexanizmlar bilan cheklanib qolmasdan, balki ma’naviy, ijtimoiy va axborot xavfsizligi omillari bilan uzviy bog‘liq holda amalga oshirilishi lozim. Tadqiqot natijalari shuni ko‘rsatdiki, huquqiy madaniyat va huquqiy ong darajasi fuqarolik jamiyatini rivojlantirishning asosiy omillaridan biri hisoblanadi. Jamiyatda qonun ustuvorligini ta’minlash, huquqbuzarliklarning oldini olish hamda fuqarolarning ijtimoiy faolligini oshirish bevosita huquqiy madaniyatning rivojlanganlik darajasiga bog‘liqdir. Shu nuqtai nazardan, aholining huquqiy savodxonligini oshirish, huquqiy ta’lim va tarbiya tizimini takomillashtirish muhim ahamiyat kasb etadi.

Shuningdek, inson qadrini yuksaltirish “inson – jamiyat – davlat” tamoyili asosida amalga oshirilishi zarur bo‘lib, bunda inson manfaatlari ustuvor ahamiyat kasb etadi. Davlatning asosiy vazifasi esa fuqarolarning huquq va

erkinliklarini ishonchli himoya qilish, ularning munosib hayot kechirishi uchun zarur shart-sharoitlarni yaratishdan iboratdir.

Umuman olganda, zamonaviy tahdidlar sharoitida inson qadrini mustahkamlash, huquqiy madaniyatni rivojlantirish va fuqarolik jamiyatini takomillashtirish o‘zaro bog‘liq bo‘lgan jarayonlar bo‘lib, ularni izchil va tizimli ravishda amalga oshirish jamiyat barqarorligi hamda taraqqiyotining muhim omili hisoblanadi.

MARKAZIY OSIYODA MINTAQAVIY SUB'YEKTLIK SHAKLLANISHINING IJTIMOIY-FALSAFIY ASOSLARI

Toshkenboyev Diyorjon Muxammadjon o'g'li
Namangan davlat universiteti mustaqil tadqiqotchisi

Annotatsiya. *Ushbu maqolada Markaziy Osiyoda mintaqaviy sub'ektlik shakllanishining ijtimoiy-falsafiy asoslari tahlil qilinadi. Mintaqaviy sub'ektlik tushunchasi davlatlarning geografik yaqinligi yoki iqtisodiy aloqalari bilangina emas, balki umumiy tarixiy xotira, tsivilizatsion mushtaraklik, xavfsizlik manfaatlari, siyosiy iroda, institutsional muloqot va madaniy-yaqinlik omillari bilan bog'liq murakkab ijtimoiy-falsafiy hodisa sifatida qaraladi. Maqolada Markaziy Osiyoda yangi mintaqaviylik jarayonlari, maslahat uchrashuvlari instituti, transport-kommunikatsiya, energetika, suv resurslari, ekologik barqarorlik va gumanitar hamkorlik sohalaridagi integratsion tendensiyalar tahlil etilgan.*

Kalit so'zlar: *Markaziy Osiyo, mintaqaviy sub'ektlik, ijtimoiy falsafa, mintaqaviylik, integratsiya, hamkorlik, xavfsizlik, tsivilizatsion mushtaraklik, O'zbekiston tashqi siyosati, Markaziy Osiyo hamjamiyati.*

СОЦИАЛЬНО-ФИЛОСОФСКИЕ ОСНОВЫ ФОРМИРОВАНИЯ РЕГИОНАЛЬНОЙ ПРЕДМЕТНОЙ ДЕЯТЕЛЬНОСТИ В ЦЕНТРАЛЬНОЙ АЗИИ

Аннотация. *В данной статье анализируются социально-философские основы формирования региональной субъективности в Центральной Азии. Концепция региональной субъективности рассматривается как сложный социально-философский феномен, связанный не только с географической близостью или экономическими связями государств, но и с факторами общей исторической памяти, цивилизационной общности, интересов безопасности, политической воли, институционального диалога и культурной близости. В статье анализируются процессы нового регионализма в Центральной Азии, институт консультативных встреч, тенденции интеграции в сферах транспорта и связи, энергетики, водных ресурсов, экологической устойчивости и гуманитарного сотрудничества.*

Ключевые слова: *Центральная Азия, региональная субъективность, социальная философия, регионализм, интеграция, сотрудничество, безопасность, цивилизационная общность, внешняя политика Узбекистана, Центральноазиатское сообщество.*

SOCIAL-PHILOSOPHICAL FOUNDATIONS OF REGIONAL SUBJECT FORMATION IN CENTRAL ASIA

Abstract. *This article analyzes the socio-philosophical foundations of the formation of regional subjectivity in Central Asia. The concept of regional subjectivity is considered as a complex socio-philosophical phenomenon related not only to the geographical proximity or economic ties of states, but also to factors of common historical memory, civilizational commonality, security interests, political will, institutional dialogue and cultural proximity. The article analyzes the processes of new regionalism in Central Asia, the institution of consultative meetings, integration trends in the fields of transport and communications, energy, water resources, environmental sustainability and humanitarian cooperation.*

Keywords: *Central Asia, regional subjectivity, social philosophy, regionalism, integration, cooperation, security, civilizational commonality, foreign policy of Uzbekistan, Central Asian community.*

Kirish

XXI asrning ikkinchi o'n yilligidan boshlab xalqaro munosabatlar tizimida mintaqalarning mustaqil sub'ekt sifatida namoyon bo'lishi kuchaydi. Global geosiyosiy raqobat, transport yo'laklari uchun kurash, energetik xavfsizlik, iqlim o'zgarishi, suv resurslari tanqisligi va oziq-ovqat barqarorligi kabi omillar mintaqaviy hamkorlikni faqat iqtisodiy zarurat emas, balki ijtimoiy-falsafiy va tsivilizatsion ehtiyoj sifatida ham kun tartibiga olib chiqmoqda. Bu jarayon Markaziy Osiyo uchun alohida ahamiyatga ega.

Markaziy Osiyo tarixan yagona madaniy-tsivilizatsion makon sifatida shakllangan. Bu hududda yashagan xalqlarning tarixiy taqdiri, savdo yo'llari, irrigatsiya madaniyati, diniy-ma'naviy merosi, turmush tarzi va qo'shnichilik

an’analari o‘zaro bog‘liq holda rivojlangan. Shu ma’noda, mintaqaviy sub’ektlik bugun paydo bo‘lgan siyosiy konstruksiya emas, balki tarixiy xotira va zamonaviy ehtiyojlar uyg‘unligida qayta namoyon bo‘layotgan ijtimoiy voqelikdir.

Adabiyotlar tahlili

Mustaqillikning dastlabki yillarida Markaziy Osiyo davlatlari milliy davlatchilikni mustahkamlash, suverenitetni himoya qilish va ichki islohotlarni amalga oshirishga ustuvor ahamiyat qaratdi. Keyingi bosqichda esa mintaqaviy hamkorlikning yangi shakllari paydo bo‘ldi. Ayniqsa, 2017 yildan keyin O‘zbekistonning ochiq, amaliy va konstruktiv tashqi siyosati mintaqada o‘zaro ishonch muhitini mustahkamlashga xizmat qildi. O‘zbekiston tashqi siyosatida Markaziy Osiyo asosiy ustuvor yo‘nalish sifatida belgilangani bu jarayonning siyosiy-huquqiy asosini tashkil etadi[1].

Mintaqaviy sub’ektlik tushunchasining ijtimoiy-falsafiy mazmuni

“Mintaqaviy sub’ektlik” tushunchasi ijtimoiy falsafada muayyan mintaqaning xalqaro munosabatlar tizimida faqat ob’ekt emas, balki mustaqil iroda, umumiy manfaat va institutsional harakat qobiliyatiga ega sub’ekt sifatida namoyon bo‘lishini anglatadi. Bu tushuncha quyidagi asosiy belgilar bilan tavsiflanadi:

birinchidan, umumiy tarixiy-madaniy xotiraning mavjudligi; ikkinchidan, umumiy xavf va tahdidlarni birgalikda anglash; uchinchidan, mintaqaviy manfaatlarni muvofiqlashtirish qobiliyati; to‘rtinchidan, institutsional muloqot mexanizmlarining shakllanishi; beshinchidan, tashqi kuchlar bilan munosabatlarda nisbatan umumiy pozitsiya ishlab chiqishga intilish.

Ijtimoiy-falsafiy nuqtai nazardan sub’ektlikning markazida “o‘zini anglash” kategoriyasi turadi. Agar alohida shaxs o‘zini anglagandagina ijtimoiy sub’ektga aylansa, mintaqa ham o‘z umumiy manfaatlari, imkoniyatlari, xavflari va tarixiy vazifasini anglagandagina mintaqaviy sub’ekt sifatida shakllanadi. Shu jihatdan Markaziy Osiyoda mintaqaviy sub’ektlikning shakllanishi — davlatlararo kelishuvlar yig‘indisi emas, balki “umumiy taqdir”, “umumiy mas’uliyat” va “umumiy kelajak” g‘oyalarining ijtimoiy ongda mustahkamlanish jarayonidir.

Markaziy Osiyo mintaqaviy sub’ektligining muhim xususiyati shundaki, u Yevropa Ittifoqi kabi yuqori darajada institutsionallashgan integratsiya modelini takrorlashni maqsad qilmaydi. Aksincha, u davlat suverenitetini saqlagan holda, maslahatlashuv, muvofiqlashuv, amaliy sheriklik va o‘zaro ishonchga asoslangan “yumshoq mintaqaviylik” modeli sifatida namoyon bo‘lmoqda. Bu model mintaqaning tarixiy, siyosiy va madaniy xususiyatlariga mosdir.

Markaziy Osiyoda yangi mintaqaviylikning shakllanishi. So‘nggi yillarda Markaziy Osiyoda mintaqaviy muloqotning yangi bosqichi shakllandi. Davlat rahbarlarining maslahat uchrashuvlari bu jarayonning asosiy siyosiy-institutsional mexanizmiga aylandi. 2025 yil 16 noyabrda Toshkentda bo‘lib o‘tgan Markaziy Osiyo davlatlari rahbarlarining VII maslahat uchrashuvi mintaqaviy sub’ektlik shakllanishida muhim voqea bo‘ldi. Unda Ozarbayjon ushbu formatning to‘laqonli ishtirokchisi sifatida qabul qilindi. [2] Bu holat Markaziy Osiyo mintaqaviyligining geografik cheklanganlikdan chiqib, Kaspiy, Kavkaz va turkiy dunyo bilan bog‘langan keng geoiqtisodiy makonga aylanayotganini ko‘rsatadi.

Mazkur uchrashuvda O‘zbekiston Prezidenti Shavkat Mirziyoyev maslahat uchrashuvlarini “Markaziy Osiyo hamjamiyati” strategik formatiga aylantirish, uning reglamentini ishlab chiqish, kotibiyatni rotatsiya asosida tashkil etish va milliy koordinatorlar maqomini oshirish taklifini ilgari surdi.[3] Bu taklif mintaqaviy sub’ektlikning institutsional darajaga ko‘tarilishi uchun nazariy va amaliy asos bo‘lib xizmat qiladi.

Tadqiqot metodologiyasi

Markaziy Osiyoda yangi mintaqaviylik quyidagi yo‘nalishlarda namoyon bo‘lmoqda:

1. Siyosiy muloqot va o‘zaro ishonchning kuchayishi. Davlat rahbarlari darajasidagi muntazam muloqot chegara, suv, transport, savdo va xavfsizlik masalalarini konstruktiv muhokama qilish imkonini bermoqda.

2. Iqtisodiy bog‘liqlikning ortishi. Mintaqaviy savdo, sanoat kooperatsiyasi, transport yo‘laklari va energetika loyihalari davlatlarning o‘zaro manfaatdorligini kuchaytirmoqda.

3. Transport-kommunikatsiya bog‘liqligi. Transkaspiy yo‘lak, Xitoy–Qirg‘iziston–O‘zbekiston temir yo‘li, Janubiy Osiyoga chiqish yo‘nalishlari va logistika markazlari mintaqaning xalqaro tranzit makoni sifatidagi ahamiyatini oshirmoqda.

4. Energetik hamkorlik. Jahon banki tomonidan qo‘llab-quvvatlanayotgan REMIT dasturi Markaziy Osiyoda mintaqaviy elektr energiyasi bozori, o‘zaro bog‘liqlik va energiya savdosini rivojlantirishga qaratilgan.[4]

5. Gumanitar va madaniy yaqinlashuv. Ta’lim, fan, madaniyat, turizm va yoshlar siyosatidagi hamkorlik mintaqaviy sub’ektlikning ijtimoiy-ma’naviy poydevorini mustahkamlaydi.

O‘zbekistonning mintaqaviy sub’ektlikni shakllantirishdagi o‘rni

O‘zbekiston Markaziy Osiyo mintaqasining markazida joylashgani, barcha qo‘shni davlatlar bilan chegaradosh ekani, demografik va iqtisodiy salohiyati, tarixiy-madaniy merosi tufayli mintaqaviy hamkorlikning tabiiy markazlaridan biri hisoblanadi. O‘zbekiston tashqi siyosatida qo‘shni davlatlar bilan do‘stona, ochiq va pragmatik munosabatlar o‘rnatish ustuvor vazifa sifatida belgilangan.

2017-yildan keyin O‘zbekistonning qo‘shni davlatlar bilan munosabatlarida yangi muhit shakllandi. Chegara masalalarini hal etish, savdo-iqtisodiy aloqalarni kengaytirish, transport va energetika loyihalarini ilgari surish, madaniy-gumanitar muloqotni faollashtirish mintaqaviy ishonchni tiklashda muhim omil bo‘ldi. Shu ma’noda, O‘zbekiston tashqi siyosati mintaqaviy sub’ektlikning amaliy drayveri vazifasini bajarmoqda.

Prezident Shavkat Mirziyoyev tomonidan ilgari surilayotgan “yaxshi qo‘shnichilik”, “o‘zaro ishonch”, “umumiy manfaat” va “Markaziy Osiyo ruhi” kabi g‘oyalar mintaqaviy sub’ektlikning ijtimoiy-falsafiy mazmunini ochib beradi. Bu g‘oyalar mintaqani qarama-qarshiliklar maydoni emas, balki hamkorlik, barqarorlik va taraqqiyot makoni sifatida tasavvur qilishga asoslanadi.

Mintaqaviy sub’ektlikning ijtimoiy omillari. Markaziy Osiyoda mintaqaviy sub’ektlik faqat davlatlararo siyosat natijasi emas. U jamiyatlar, xalqlar, yoshlar, ziyolilar, tadbirkorlar va fuqarolik institutlari o‘rtasidagi aloqalar bilan ham bog‘liq. Shuning uchun uning ijtimoiy omillarini quyidagicha tasniflash mumkin.

Birinchidan, tarixiy xotira omili. Markaziy Osiyo xalqlari asrlar davomida Buyuk Ipak yo‘li, shahar madaniyati, islom sivilizatsiyasi, ilm-fan va ma’rifat an’analari orqali o‘zaro bog‘langan. Samarqand, Buxoro, Xiva, Toshkent, Turkiston, O‘sh, Xo‘jand, Almati, Ashxobod kabi markazlar yagona madaniy makonning tarkibiy qismlari bo‘lgan.

Ikkinchidan, demografik va ijtimoiy yaqinlik. Mintaqa aholisining yoshligi, mehnat migratsiyasi, ta’lim olish jarayonlari va oilaviy-qarindoshlik aloqalari davlatlararo munosabatlarga ijtimoiy mazmun beradi.

Uchinchidan, ma’naviy-madaniy mushtaraklik. Navro‘z, oila qadriyati, mahalla va qo‘shnichilik an’analari, mehmondo‘stlik, bag‘rikenglik va diniy-ma’rifiy meros mintaqaviy identiklikning muhim manbalaridir.

To‘rtinchidan, xavfsizlikka oid umumiy mas’uliyat. Terrorizm, ekstremizm, narkotrafik, transchegaraviy jinoyatchilik, kiberxavflar va Afg‘onistondagi vaziyat mintaqaviy xavfsizlikni umumiy vazifaga aylantiradi.

Beshinchidan, ekologik bog‘liqlik. Orol dengizi fojiasi, suv resurslaridan oqilona foydalanish, iqlim o‘zgarishi va cho‘llanish muammolari alohida davlat darajasida hal qilib bo‘lmaydigan mintaqaviy masalalardir.

Natijalar va ularning tahlili

Mintaqaviy sub’ektlikning institutsional asoslari. Mintaqaviy sub’ektlik barqaror bo‘lishi uchun u muayyan institutlar, muloqot formatlari va dasturlar orqali mustahkamlanishi lozim. Bu borada Markaziy Osiyoda bir nechta muhim mexanizmlar mavjud.

Birinchisi — Markaziy Osiyo davlatlari rahbarlarining maslahat uchrashuvlari. Ushbu format mintaqaning ichki muloqotini kuchaytirib, tashqi kuchlar ishtirokisiz umumiy masalalarni muhokama qilish imkonini bermoqda.

Ikkinchisi — BMTning Markaziy Osiyo iqtisodiyotlari uchun maxsus dasturi — SPECA. U 1998 yilda ishga tushirilgan bo‘lib, Markaziy Osiyoda iqtisodiy hamkorlikni rivojlantirish va barqaror taraqqiyot maqsadlariga erishishda muhim platformalardan biri hisoblanadi [5].

Uchinchisi — CAREC dasturi. U 11 davlat va taraqqiyot sheriklarini birlashtirib, transport, savdo, energetika va iqtisodiy hamkorlik yo‘nalishlarida mintaqaviy bog‘liqlikni kuchaytirishga xizmat qiladi [6].

To‘rtinchisi — C5+1, “Markaziy Osiyo – Yevropa Ittifoqi”, “Markaziy Osiyo – Xitoy”, “Markaziy Osiyo – Ko‘rfaz arab davlatlari”, “Markaziy Osiyo – Koreya Respublikasi” kabi tashqi muloqot formatlari. Bu formatlar mintaqaning xalqaro maydonda yagona geosiyosiy va geoiqtisodiy makon sifatida tan olinayotganini ko‘rsatadi [7].

Biroq institutsionallashuv jarayoni ehtiyotkorlik bilan amalga oshirilishi lozim. Chunki Markaziy Osiyo davlatlari uchun suverenitet, milliy manfaat va ichki taraqqiyot ustuvor ahamiyatga ega. Shu bois mintaqaviy sub’ektlik majburiy integratsiya emas, balki ixtiyoriy, pragmatik va manfaatlar uyg‘unligiga asoslangan hamkorlik sifatida rivojlanishi maqsadga muvofiq.

Muammolar va ziddiyatlar. Markaziy Osiyoda mintaqaviy sub’ektlik shakllanishida bir qator muammolar ham mavjud. Ular quyidagilardan iborat:

birinchidan, suv-energetika muvozanatini ta’minlash masalasi; ikkinchidan, transport yo‘laklari va tarif siyosatini muvofiqlashtirish zarurati; uchinchidan, tashqi geosiyosiy kuchlar manfaatlari o‘rtasida muvozanat saqlash; to‘rtinchidan, iqtisodiy rivojlanish darajasidagi tafovutlar; beshinchidan, mintaqaviy institutlarning hali yetarlicha mustahkam emasligi; oltinchidan, umumiy mintaqaviy identiklikning jamiyatlar darajasida to‘liq shakllanib ulgurmagani.

Ijtimoiy-falsafiy jihatdan eng muhim muammo — mintaqaviy sub’ektlikni faqat elitalar darajasida emas, balki xalqlar ongida ham mustahkamlashdir. Agar mintaqaviy hamkorlik fuqarolar hayotida real qulayliklar — erkin harakatlanish, ta’lim imkoniyatlari, savdo va mehnat bozoridagi yengilliklar, madaniy almashuvlar orqali namoyon bo‘lsa, u ijtimoiy barqarorlikka aylanadi.

Xulosa

Markaziy Osiyoda mintaqaviy sub’ektlik shakllanishi — bu XXI asrda mintaqaning geosiyosiy, iqtisodiy va ma’naviy o‘zini anglash jarayonidir. Uning ijtimoiy-falsafiy asoslari tarixiy xotira, madaniy mushtaraklik, umumiy xavfsizlik, o‘zaro bog‘liq iqtisodiy manfaatlar, ekologik mas’uliyat va siyosiy irodada namoyon bo‘ladi.

So‘nggi yillarda maslahat uchrashuvlari, transport-energetika loyihalari, SPECA, CAREC, C5+1 va boshqa muloqot formatlari Markaziy Osiyoni xalqaro munosabatlarda alohida mintaqaviy sub’ekt sifatida namoyon qilmoqda. Ayniqsa, 2025 yilda Toshkentda bo‘lib o‘tgan VII maslahat uchrashuvi va “Markaziy Osiyo hamjamiyati” g‘oyasi mintaqaviy sub’ektlikni yangi institutsional bosqichga olib chiqish imkoniyatini ko‘rsatdi.

Shu asosda quyidagi ilmiy-amaliy takliflarni ilgari surish mumkin:

1.Markaziy Osiyoda mintaqaviy sub’ektlik konsepsiyasini ijtimoiy-falsafiy kategoriya sifatida alohida tadqiq etish zarur.

2.“Markaziy Osiyo ruhi”, “umumiy taqdir” va “mintaqaviy mas’uliyat” tushunchalarini ilmiy muomalaga kiritish maqsadga muvofiq.

3.Maslahat uchrashuvlari institutini doimiy tahliliy, ekspert va gumanitar platformalar bilan to‘ldirish lozim.

4.Mintaqaviy sub’ektlikni faqat davlatlararo munosabatlar emas, balki jamiyatlararo muloqot, ta’lim, yoshlar va madaniyat orqali mustahkamlash kerak.

5.Suv, energetika, transport, ekologiya va xavfsizlik sohalarida umumiy mintaqaviy strategiyalar ishlab chiqish muhim.

6.O‘zbekistonning ochiq va pragmatik mintaqaviy siyosati Markaziy Osiyoning barqaror sub’ekt sifatida shakllanishida muhim metodologik tajriba sifatida baholanishi mumkin.

RAQAMLI JAMIYATDA KIBERJINOYATLARGA QARSHI KURASHISHNING IJTIMOIY-MA'NAVIY DETERMINANTLARI

Baxromov Saidolimxon Saydalixon o'g'li
Farg'ona davlat universiteti mustaqil izlanuvchisi

Annotatsiya: *Mazkur maqolada raqamli jamiyat sharoitida kiberjinoyatlarga qarshi kurashishning ijtimoiy-ma'naviy determinantlari ijtimoiy-falsafiy paradigma doirasida kompleks tahlil qilinadi. Raqamli transformatsiya jarayonlarining jadallashuvi natijasida shaxs, jamiyat va davlat o'rtasidagi munosabatlarning yangi sifat bosqichiga o'tishi, axborot makonida yuzaga kelayotgan tahdidlar hamda ularning ma'naviy xavfsizlik, ijtimoiy barqarorlik va qadriyatlar tizimiga ko'rsatayotgan ta'siri konseptual jihatdan yoritiladi. Maqolada kiberjinoyatchilikning shakllanishiga ta'sir etuvchi axloqiy inqiroz, huquqiy ong, raqamli madaniyat, media savodxonlik, ijtimoiy mas'uliyat va fuqarolik pozitsiyasi kabi determinantlarning o'zaro dialektik bog'liqligi ochib beriladi. Tadqiqot natijasida kiberjinoyatlarga qarshi kurashishda faqat texnologik va huquqiy mexanizmlar emas, balki ma'naviy immunitetni mustahkamlash, mas'uliyatli raqamli fuqarolikni shakllantirish hamda axborot makonida qadriyatga yo'naltirilgan ijtimoiy ongni rivojlantirish barqaror kiberxavfsizlikni ta'minlovchi muhim omil ekanligi yuzasidan ilmiy xulosalar va amaliy tavsiyalar ishlab chiqilgan.*

Kalit so'zlar: *Raqamli jamiyat, kiberjinoyat, kiberxavfsizlik, ijtimoiy-ma'naviy determinantlar, axborot xavfsizligi, raqamli madaniyat, raqamli etika, ma'naviy xavfsizlik, axloqiy qadriyatlar, huquqiy ong, fuqarolik mas'uliyati, media savodxonlik, ma'naviy immunitet, ijtimoiy barqarorlik, shaxs va jamiyat, milliy va umuminsoniy qadriyatlar, axborot makoni, kiberxavfsizlik madaniyati, raqamli transformatsiya.*

СОЦИАЛЬНО-ДУХОВНЫЕ ДЕТЕРМИНАНТЫ БОРЬБЫ С КИБЕРПРЕСТУПНОСТЬЮ В ЦИФРОВОМ ОБЩЕСТВЕ

Аннотация: *В данной статье проводится комплексный анализ социально-духовных детерминант борьбы с киберпреступностью в условиях цифрового общества в рамках социально-философской парадигмы. Концептуально освещается переход на новый качественный уровень отношений между личностью, обществом и государством в результате ускорения процессов цифровой трансформации, угрозы, возникающие в информационном пространстве, и их влияние на систему духовной безопасности, социальной стабильности и ценностей. В статье раскрывается диалектическая взаимосвязь таких детерминант, как моральный кризис, правовое сознание, цифровая культура, медиаграмотность, социальная ответственность и гражданская позиция, влияющих на формирование киберпреступности. В результате исследования были разработаны научные выводы и практические рекомендации о том, что в борьбе с киберпреступностью важным фактором обеспечения устойчивой кибербезопасности являются не только технологические и правовые механизмы, но и укрепление морального иммунитета, формирование ответственного цифрового гражданства, а также развитие ценностно-ориентированного общественного сознания в информационном пространстве.*

Ключевые слова: *Цифровое общество, киберпреступность, кибербезопасность, социально-духовные детерминанты, информационная безопасность, цифровая культура, цифровая этика, духовная безопасность, моральные ценности, правовое сознание, гражданская ответственность, медиаграмотность, духовный иммунитет, социальная стабильность, личность и общество, национальные и общечеловеческие ценности, информационное пространство, культура кибербезопасности, цифровая трансформация.*

SOCIAL AND SPIRITUAL DETERMINANTS OF COMBATING KYBERCRIME IN DIGITAL SOCIETY

Abstract: *This article provides a comprehensive analysis of the socio-spiritual determinants of combating cybercrime in the digital society within a socio-philosophical paradigm. The transition to a qualitatively new level of relations between the individual, society, and state as a result of the acceleration of digital transformation processes, the threats arising in the information space, and their impact on the system of spiritual security, social stability, and values are conceptually highlighted. The article reveals the dialectical interconnection of determinants such as moral crisis, legal awareness, digital culture, media literacy, social responsibility,*

and civic stance that influence the formation of cybercrime. As a result of the study, scientific conclusions and practical recommendations were developed stating that in combating cybercrime, an important factor in ensuring sustainable cybersecurity is not only technological and legal mechanisms but also the strengthening of moral immunity, the formation of a responsible digital citizenry, and the development of value-oriented public consciousness in the information space.

Key words: *Digital society, cybercrime, cybersecurity, socio-spiritual determinants, information security, digital culture, digital ethics, spiritual security, moral values, legal consciousness, civic responsibility, media literacy, spiritual immunity, social stability, individual and society, national and universal values, information space, cybersecurity culture, digital transformation.*

KIRISH (Видение/Introduction).

Yangi O‘zbekiston taraqqiyot bosqichida “Inson qadri uchun” tamoyili asosida fuqarolarning huquq va manfaatlarini ta’minlash, barqaror fuqarolik jamiyatini shakllantirish hamda milliy kriminologiyaning xalqaro reytinglarda munosib o‘rin egallashini ta’minlashga qaratilgan ustuvor vazifalar belgilangan.[100] Shu nuqtai nazardan, axborot texnologiyalari sohasida kuzatilayotgan jinoyatchilik tendensiyalarining oldini olish, kibermakonda xavfsizlikni ta’minlash, samarali tashkiliy-huquqiy mexanizmlarni takomillashtirish va axborot tarqalishining ishonchli arxitekturasi[101]ni yaratish bugungi kunda ilmiy-amaliy ahamiyat kasb etmoqda. Insoniyat taraqqiyoti raqamli texnologiyalar, sun’iy intellekt, internet kommunikatsiyalari va global axborot tizimlari bilan chambarchas bog‘liq holda rivojlanmoqda. Raqamli jamiyatning shakllanishi inson hayotining barcha jabhalariga chuqur kirib bordi. Davlat boshqaruvi, iqtisodiyot, ta’lim, tibbiyot, bank tizimi, ijtimoiy kommunikatsiyalar hamda madaniy jarayonlar tobora raqamlashtirilmoqda. Mazkur holat insoniyat taraqqiyotining yangi sivilizatsion bosqichini yuzaga keltirayotgan bo‘lsa-da, ayni paytda yangi xavf va tahdidlarni ham shakllantirmoqda. Ana shunday global tahdidlarning eng dolzarb ko‘rinishlaridan biri - kiberjinoyatchilikdir.

Kiberjinoyatchilik bugungi kunda nafaqat texnologik yoki huquqiy muammo, balki murakkab ijtimoiy-ma’naviy va falsafiy hodisa sifatida namoyon bo‘lmoqda. Chunki kiberjinoyatlar inson ongiga, axloqiy qadriyatlariga, ma’naviy muhitga va ijtimoiy munosabatlarga bevosita ta’sir ko‘rsatadi. Shu sababli kiberjinoyatlarga qarshi kurashishda faqat texnik vositalar yoki huquqiy mexanizmlar yetarli emas. Bu jarayonda ijtimoiy ong, ma’naviy immunitet, axborot madaniyati va raqamli etikani rivojlantirish muhim determinantlar sifatida maydonga chiqadi.

Falsafiy jihatdan qaralganda, kiberjinoyatchilik texnogen sivilizatsiyaning salbiy mahsuli sifatida talqin qilinadi. Texnologik taraqqiyot insoniyatga ulkan imkoniyatlar yaratgani bilan birga, insonning ma’naviy nazoratsizligi va axloqiy inqirozi sharoitida xavfli vositaga aylanishi mumkin. Bu esa texnika va ma’naviyat o‘rtasidagi muvozanat masalasini kun tartibiga olib chiqadi. Martin Heidegger texnika inson tafakkurini o‘zgartirishi va insonni texnologik tizimning oddiy unsuriga aylantirishi mumkinligini ta’kidlagan edi. Bugungi kunda virtual makonda sodir etilayotgan firibgarlik, manipulyatsiya, kiberterrorizm va axborot urushlari aynan ana shu texnogen tafakkurning salbiy oqibatlari sifatida ko‘rilmoqda.

Adabiyotlar tahlili va metodologiya (*Литература и методология* /Methods).

Dunyoning yetakchi ilmiy-tadqiqot muassasalari va markazlarida kiberjinoyatning mazmun-mohiyati, transformatsiyalashuv jarayonlari hamda uning ijtimoiy-madaniy muhitga ko‘rsatayotgan ziddiyatli ta’sirlarini falsafiy tahlil qilishga bag‘ishlangan keng qamrovli ilmiy izlanishlar olib borish zaruratga aylangan. Masalan, (United Nations Office on Drugs and Crime), INTERPOL huzuridagi (Global Cybercrime Programme), European Cybercrime Centre (EC3), (Software Engineering Institute va CERT Coordination Center), (Cooperative Cyber Defence Centre of Excellence), Kaspersky Global Research and Analysis Team hamda IBM X-Force[102] kabi kiberjinoyatchilikning transmilliy xavflarini o‘rganish, xalqaro hamkorlikni kuchaytirish va davlatlar uchun huquqiy mexanizmlarni ishlab chiqish bilan shug‘ullanadi. Shu bois, raqamlashib borayotgan jamiyat sharoitida kiberjinoyatlarni profilaktika qilishning ijtimoiy-falsafiy mexanizmlari va omillarini kompleks tarzda tadqiq etishga bo‘lgan ehtiyoj tobora kuchaymoqda.

Raqamli texnologiyalarning jadal rivojlanishi va ularning jamiyat hayotining barcha sohalariga chuqur joriy etilishi kibermuhitdagi xavf-xatarlarning ko‘lami va mazmunini tubdan o‘zgartirmoqda. Axborot tizimlari, elektron xizmatlar va raqamli infratuzilmaning kengayishi bilan bir qatorda, kiberjinoyatlarga qaratilgan tahdidlar nafaqat soni jihatdan, balki mazmunan ham murakkablashib, ularning ijtimoiy xavflilik darajasi ortib bormoqda. Mazkur holat zamonaviy jamiyatda kiberjinoyatlarga qarshi kurashishni strategik ahamiyatga ega ustuvor vazifalardan biri sifatida belgilashni taqozo etadi.

---

[101] *Криминология соҳасида илмий-амалий тадқиқот ишларини ташкил этиш чора-тадбирлари тўғрисида/ Ўзбекистон Республикаси Президентининг 15.01.2024 йилдаги пқ-22-Қарори.*

[102]https://www.cybersecurityintelligence.com/europol---european-cybercrime-centre-ec3-9300.html.

Kiberjinoyatlarga qaratilgan tahdidlar davlatlar milliy xavfsizligi, iqtisodiy barqarorlik, axborot suvereniteti hamda fuqarolarning huquq va erkinliklariga bevosita ta'sir ko'rsatmoqda. Ayniqsa, kiberxujumlarning transmilliy xususiyati, anonimlik darajasining yuqoriligi va jinoyat sodir etish vositalarining oson yetib borilishi ularga qarshi kurashishda an'anaviy huquqiy va tashkiliy mexanizmlarning samaradorligini pasaytiradi. Shu sababli, kiberjinoyatlarga qarshi kurashish faqat jazo choralari bilan cheklanib qolmasdan, kompleks va tizimli yondashuvni talab etadi.

Zamonaviy ilmiy tadqiqotlar va xalqaro tajribalar shuni ko'rsatadiki, kiberjinoyatlarga qarshi samarali kurashish huquqiy, tashkiliy, texnik va ijtimoiy chora-tadbirlarni uyg'unlashtirish orqali amalga oshirilishi lozim. Kiberxavfsizlikni ta'minlash, raqamli infratuzilmani muhofaza qilish, aholining axborot madaniyatini oshirish va xalqaro hamkorlikni kuchaytirish ushbu sohada ustuvor yo'nalishlar sifatida namoyon bo'lmoqda. Biroq mazkur yo'nalishlarning ilmiy asoslangan holda tizimlashtirilishi va milliy xususiyatlarni inobatga olgan holda joriy etilishi dolzarb masala bo'lib qolmoqda.

Shu nuqtai nazardan, zamonaviy jamiyatda kiberjinoyatlarga qaratilgan tahdidlarga qarshi kurashishning ustuvor yo'nalishlarini aniqlash va ularni ilmiy jihatdan tahlil qilish samarali davlat siyosati va huquqiy mexanizmlarni shakllantirish, shuningdek, kiberxavfsizlik sohasida barqaror tizimni yaratish uchun muhim nazariy va amaliy ahamiyatga ega.

So'nggi yillarda raqamli texnologiyalarning jadal rivojlanishi jamiyat hayotining barcha jabhalariga ta'sir qilgani kabi, jinoyatchilik tabiati va uning amalga oshirish usullarini ham tubdan o'zgartirdi. Kiberjinoyatchilikning kengayib borishi natijasida kriminologik muhitda yangi, an'anaviy jinoyatchilikka xos bo'lmagan, yuqori darajada murakkab va transchegaraviy tahdidlar vujudga kelmoqda. Bunday jinoyatlar shaxsiy ma'lumotlarni o'g'irlash, moliyaviy firibgarlik, ziyonli dasturlar tarqatish, raqamli infratuzilmani izdan chiqarish va ijtimoiy ongga ta'sir ko'rsatuvchi destruktiv axborotlarni tarqatish kabi shakllarda namoyon bo'ladi. Kiberjinoyatchilikning salbiy ta'siri faqat texnik yoki iqtisodiy jabhalar bilan cheklanib qolmaydi. U jamiyatda xavfsizlikka bo'lgan ishonchni sustlashtiradi, huquqbuzarlikning yangi turlarini rag'batlantiradi, yoshlar ongida jinoiy faoliyatga moyillikni oshirib, kriminogen muhitning kengayishiga xizmat qiladi. Shu bois kiberjinoyatchilikning kriminologik muhitga ko'rsatayotgan destruktiv ta'sirini o'rganish, uning ijtimoiy oqibatlarini tahlil qilish va samarali profilaktika choralarini ishlab chiqish zamonaviy jamiyat uchun dolzarb vazifa sanaladi.

Natijalar (Результаты/Results).

Axborot jarayonlarining globallashuvi va global axborot makonining paydo bo'lishi hali qonuniy tartibga solinmagan yangi jinoiy tajovuzlar (kompyuterlar va kompyuter tarmoqlari) ob'ektlarning paydo bo'lishiga olib keladi. Jinoyat sodir etishning yangi usullari paydo bo'ladi: masalan, kompyuter ma'lumotlarini o'zgartirish yoki blokirovka qilish orqali firibgarlik (o'g'irlik) qilish. Kompyuter texnologiyalarining keng tarqalishining boshqa oqibatlari jinoiy mafkuraning deyarli to'siqsiz shakllanishi hamda targ'ib qilinishi, axborot makonidan jinoiy maqsadlarda - aloqa va tajriba almashish, harakatlarni muvofiqlashtirish uchun foydalanish hisoblanadi. Jinoyatchilik va axborot texnologiyalari o'rtasidagi munosabatlar muammosi bir necha jihatlarga, ya'ni:

- axborot mega olami va elektron ommaviy axborot vositalari tomonidan jinoyatchilikning o'sishi va uning globallashuvini aniqlash muammosi (axborot texnologiyalari jinoyat sodir etish usuli yoki vositasi, shuningdek, tajovuz ob'ekti sifatida ishlaydi);

- kompyuter texnologiyalaridan jinoiy foydalanish bilan bog'liq jarayonlarni huquqiy tartibga solish muammosi;

- global axborot tarmoqlarining profilaktik imkoniyatlari va huquqni muhofaza qilish organlari tomonidan axborot texnologiyalaridan foydalanish imkoniyatiga ega. Muammoning birinchi jihati, fan-texnika yutuqlaridan jinoiy maqsadlarda foydalanish muammosi integral jarayonlarning eng muhim yo'nalishlaridan biri bo'lgan axborot mega muhitining o'sishi va globallashuv jarayonini aniqlashdir. Bugungi kunda axborot olish va almashish uchun keng imkoniyatlarni ochib bergan butunjahon internet tarmog'i juda tez rivojlanmoqda. Kiberterrorizm (kiberjinoyatchilik, kiber urush) kompyuter va internet tizimlariga xujum qilish, zamonaviy axborot kommunikatsion – media texnologiyalaridan foydalangan holda shaxs, jamiyat va davlatga tahdidga solishdir[103]. 2020 yilning aprel oyidagi ma'lumotga ko'ra, O'zbekistonda internet tarmog'idan foydalanuvchilarning soni 18.4 mln.ga yetgan (bu umumiy aholining 55 foiziga to'g'ri keladi), aholining 76 foizi yoki 25140000 O'zbekistonliklar mobil telefonga egalar, shuningdek, O'zbekistondan xalqaro tarmoqlarga umumiy ulanish tezligi 104,1 Gbit /s. ni tashkil etgan[104]. Ayni paytda "UZ" milliy domenida 66 mingdan ortiq faol domen bor. 2017 yilda O'zbekistonda 53 mingga yaqin faol domen mavjud bo'lib, 2018 yilda ularning soni 65 mingga yetgan. Davlat statistika qo'mitasining O'zbekistonning qancha aholisi internet tarmog'iga ulangani haqidagi ma'lumotiga ko'ra, 2020 yilning 1 yanvar holatiga ko'ra internet tarmog'iga ulangan abonentlar soni 16 million 386 ming 200 tani tashkil etib, 2019 yilning mos davriga nisbatan 23,0 foizga yoki 3,1 milliontaga o'sgan. Shundan

[103] Қ.Назаров Жаҳон фалсафаси қомуси I-жилд «Ўзбекистон файласуфлари миллий жамияти» «Маънавият» нашриёти Тошкент – 2023. Б-585.
[104] https://wearesocial.com/digital-2020.

aholi orasida 15,8 million abonent mavjud bo‘lib, bu ko‘rsatkich o‘tgan yilga nisbatan 22,3 foizga yoki 2,9 milliontaga ko‘p.

Ma’lum qilinishicha, eng ko‘p abonentlar soni Toshkent shahrida (3 550 600) va eng kam abonentlar soni Sirdaryo viloyatida (441 400) qayd etilgan[105]. Har bir foydalanuvchida internet xizmatlari borligi, ularning kiberterrorizm qurboni bo‘lishi mumkinligini anglatadi. UZCERT-Axborot xavfsizligi insidentlariga chora ko‘rish xizmatining ma’lumotlariga ko‘ra, davlat organlarining axborot tizimlarida 2018 yil va 2019 yil birinchi choragida axborot xavfsizligi hodisalari monitoringi o‘tkazilganida 54.953.759 ta axborot xavfsizligi buzilishi aniqlangan. Ulardan 2.502.353 tasining xavfi yuqori daraja bo‘lgan[106]. Albatta, global aloqa va axborot tizimlarining rivojlanishi muqarrar hamda ko‘p afzalliklarga ega. Shu bilan birga, globallashuvning boshqa sohalarida bo‘lgani kabi, axborot almashinuvining yangi zamonaviy vositalari va texnologik yutuqlar jinoiy maqsadlarda tobora ko‘proq foydalanilmoqda. Bu esa jinoyatchilikning globallashuvi omillariga olib keladi. Xalqaro tasniflagichlarga ko‘ra, jinoyatchilikning takror ishlab chiqarish jarayonlariga ta’sir etuvchi kompyuter jinoyatlariga quyidagilar kiradi:

1.Jinoiy faoliyat bilan bog‘liq materiallarni saqlash, almashish va tarqatish uchun elektron e’lonlar taxtasidan (BBS) foydalanish;

2.Tijorat sirini tashkil etuvchi ma’lumotlarni o‘g‘irlash;

3.Noqonuniy yo‘llar bilan olish yoki tijorat sirini ifodalovchi ma’lumotlarni uzatish iqtisodiy zarar yetkazish yoki noqonuniy iqtisodiy foyda olish niyatida huquq yoki boshqa qonuniy asoslash;

4.Maxfiy ma’lumotlarni saqlash, almashish, tarqatish yoki ko‘chirish uchun kompyuter tizimlari yoki tarmoqlaridan foydalanishdir[107]. Umuman olganda, kiberjinoyatlarning o‘ziga xos xususiyati quyidagilar:

- ushbu toifadagi jinoyatlar makon tanlamay, uni istalgan payt dunyoning turli tomonlaridan kutish mumkin;

- muntazam ravishda har kuni yangi va oldingilaridan ancha xavfliroq bo‘lgan virus va boshqa zararli dasturlarning yaratilishi;

- kiberjinoyatlarga qarshi kurashadigan organlarda malakali va ushbu sohada mukammal bilimlarga ega mutaxassislar mavjud emasligi va buning natijasida jinoyatning kech aniqlanishi;

- kiberjinoyat natijasida muayyan mulk emas, balki axborotlarga nisbatan mulkchilik huquqi yo‘qotiladi;

- axborotlarni qayta ishlash jarayonida yo‘l qo‘yilgan xatolik o‘z vaqtida kuzatilmaydi va tuzatilmaydi, natijada kelgusida sodir bo‘ladigan xatolarning oldini olib bo‘lmaydi[108].

- sodir etiladigan kompyuter jinoyatlari o‘z vaqtida e’lon qilinmaydi (hisoblash tarmoqlarida kamchiliklar mavjudligini boshqalardan yashirish, muassasa ishchanlik obro‘yini saqlab qolish va boshqa maqsadlarda);

- kiberjinoyatni tergov qilish hamda ochishning o‘ziga xos qiyinligi, juda katta zararga olib kelishi, jinoyatchilarga qarshi kurashish va uning profilaktikasi uchun yagona huquqiy asosning mavjud emasligi kabilar. Ko‘rinib turibdiki, kiberjinoyatni huquqiy kategoriya sifatida ham, ijtimoiy hodisa sifatida ham farqlash lozim.

Muhokama (Обсуждение/Discussion).

Internet tarmog‘i aksariyat hollarda jinoiy faoliyatni amalga oshirish uchun tobora ko‘proq xizmat qilmoqda. Masalan, terrorchilar hukumatlar va davlatlarni obro‘sizlantirish, terrorizmga yo‘naltirilgan veb-saytlarni joylashtirish, ularga soxta ma’lumotlarni kiritish yoki ushbu tizimlarni doimiy ravishda o‘chirib qo‘yish orqali asosiy tizimlarga zarar yetkazish va yo‘q qilish kabi jinoyatlarni internet ochiqligi sababli foydalanadilar. Internet pedofil (bachavoz) va boshqa taqiqlangan jinsiy aloqalarni o‘rnatish, fohishalik bozorini yaratish, odobsiz materiallar, pornografiyani sotish uchun ishlatiladi. Kiberfazo haqiqiy ism o‘rniga taxallusdan foydalanishga imkon beradi va sheriklar bilan aloqa o‘rnatishni osonlashtiradi. Mutaxassislarning fikricha, bunday jinoyatlar onlayn muhit uchun eng tipik bo‘lsa-da, elektron pochta jinoyatchilar tomonidan deyarli har qanday noqonuniy harakatlarni, jumladan, tahdid, shantaj, tovlamachilikni rejalashtirish yoki muvofiqlashtirish uchun ishlatilishi mumkinligiga e’tibor qaratish lozim. Axborotni kodlashning ishonchli usullari keng tarqalganligi sababli, jinoyatchilar har qanday noqonuniy faoliyatni rejalashtirish va amalga oshirishda aniqlanmaslik uchun bunday texnologiyadan foydalanishlarini kutish mumkin.

Global kiberfazo tushunchasi huquqni muhofaza qilish idoralari uchun hali ham g‘ayrioddiy, ammo kompyuter aloqalari bilan bog‘liq jinoiy harakatlar katta ijtimoiy xavf tug‘diradi. Kompyuter jinoyatlari nafaqat o‘z-o‘zidan, balki oddiy jinoyatlar sodir etilishiga hissa qo‘shib, jinoiy faoliyat doirasini kengaytirgani uchun ham xavflidir. 2017 yilning 7 fevral kuni Moskva shahrida bo‘lib o‘tgan Kiber xavfsizlik bo‘yicha xalqaro forum (Cyber Security Forum-2017)da kiberjinoyatlar olamida bugun eng ko‘p tarqalgan uchta xuruj qayd etildi. Ekspertlarning fikricha, fishing orqali

[108] Рўзиев Р.Н., Салаев Н.С. Кибержиноятчиликка қарши курашишга оид миллий ва халқаро стандартлар. Монография. – Тошкент: ТДЮУ, 2018, 6-бет.

ma’lumotlarni o‘g‘irlash, maxfiy maqsadga ega mobil ilovalar orqali elektron qurilmalarga kirib borish va aloqaning himoya qilinmagan kanallarini tomosha qilish orqali bugun ko‘pchilik internet foydalanuvchilari kiberjinoyatlarning qurboniga aylanmoqda.

Bugungi kunda kiberjinoyatchilikda muayyan shaxsning yoki ob’ektning geografik joylashgan nuqtasi to‘g‘risida xabar tarqatish, shaxsiy ma’lumotlar bazasini buzib kirish kabi xizmatlar ommalashgan. Xakkerlar bu kabi ma’lumotlarni internet va ijtimoiy tarmoq foydalanuvchilari tomonidan turli elektron resurslarga ularning foydalanish shartlarini o‘qimasdan turib kirishlari evaziga olishmoqda. Statistik ma’lumotlarga ko‘ra, 2016 yil butun dunyoda 600 million jinoyat sodir etilgan. Ulardan 40 millioni kiberjinoyatlar hisoblanadi. Bu esa Belgiya, Shvesariya, Shvesiya kabi davlatlar aholisidan ko‘pdir. 2018 yil davomida dunyoda yiliga 556 miliion, har bir kunda 1,5 million, har bir sekundda 18 nafar shaxslar kiberjinoyatchilik qurboniga aylanmoqda[109]. Ommaviy axborot vositalari ta’sirining tobora kengayib borishi jamoatchilik ongini kriminallashtirish bilan chambarchas bog‘liq. O‘zbekiston kiberhujumga uchrayotgan davlatlar reytingida 68 o‘rinni, Osiyo davlatlarida esa, 3 o‘rinni egallaydi[110]. Internetda shafqatsizlik, zo‘ravonlik va jinsiy xatti-harakatlarning buzuq shakllarini targ‘ib qilish uning oqibatlarini tushunishni talab qiladi.

Xulosa (Заключение/Conclusion).

Tadqiqot natijalari shuni ko‘rsatadiki, raqamli transformatsiya sharoitida kiberjinoyatlar an’anaviy jinoyatlardan farqli ravishda transmilliy xususiyatga ega bo‘lib, ularning sodir etilish usullari yuqori darajada texnologik va dinamik hisoblanadi. Bu esa mavjud jinoyat-huquqiy va kriminologik nazariyalarni qayta ko‘rib chiqish, ularni raqamli muhitga moslashtirish hamda kiberjinoyatlarning tushunchasi, tasnifi va belgilariga nisbatan yagona ilmiy yondashuvni shakllantirishni talab etadi. Shuningdek, kiberjinoyatlarni tadqiq etishning nazariy asoslarini mustahkamlash jinoyat huquqi normalarini takomillashtirish, huquqni qo‘llash amaliyotida yuzaga kelayotgan muammolarni bartaraf etish va profilaktik chora-tadbirlarni ishlab chiqish uchun muhim ilmiy poydevor bo‘lib xizmat qiladi. Ayniqsa, raqamli texnologiyalar rivoji bilan bog‘liq ijtimoiy munosabatlarni samarali huquqiy muhofaza qilishda kompleks, fanlararo yondashuvning ahamiyati ortib borayotgani aniqlandi.

Xulosa qilib aytganda, raqamli transformatsiyalashuv sharoitida kiberjinoyatlarni nazariy jihatdan tadqiq etish nafaqat mazkur jinoyatlarga qarshi kurashishning ilmiy-metodologik asoslarini shakllantirish, balki milliy qonunchilikni takomillashtirish, xalqaro hamkorlikni kuchaytirish va axborot xavfsizligini ta’minlashning samarali mexanizmlarini ishlab chiqishda ham muhim ahamiyat kasb etadi.

MEDIASAVODXONLIK VA MA’NAVIY REFLEKSIYANING YOSHLAR MAFKURAVIY IMMUNITETINI RIVOJLANTIRISHNING ZAMONAVIY BILISH MEXANIZMLARI SIFATIDAGI AHAMIYATI

K.Inakov
falsafa doktori (PhD), Mirzo Ulug‘bek nomidagi O‘zbekiston Milliy universiteti Xalqaro aloqalar bo‘yicha prorektori

Annotatsiya. *Axborot makonida turli mafkuraviy ta’sirlar kuchayib borayotgan sharoitda yoshlarda tanqidiy fikrlash, axborotni tahlil qilish va mustaqil xulosa chiqarish ko‘nikmalarini shakllantirish muhim ahamiyat kasb etmoqda. Ayrim olimlar mediasavodxonlik yoshlarning intellektual salohiyatini oshirib, ularning axborot madaniyatini yuksaltirishga xizmat qilishini ta’kidlaydilar. Boshqa tadqiqotchilar esa nazoratsiz raqamli muhit yoshlarda ma’naviy befarqlik va mafkuraviy ta’sirchanlikni kuchaytirishi mumkinligini qayd etadilar. Shu bois ushbu maqolada mediasavodxonlik va ma’naviy refleksiyaning yoshlar mafkuraviy immunitetini shakllantirishdagi bilish mexanizmlari sifatidagi o‘rni ochib beriladi.*

Kalit so‘zlar: *mediasavodxonlik, ma’naviy refleksiya, mafkuraviy immunitet, tanqidiy fikrlash, axborot xavfsizligi, raqamli jamiyat.*

ЗНАЧЕНИЕ МЕДИАГРАМОТНОСТИ И ДУХОВНОЙ РЕФЛЕКСИИ КАК СОВРЕМЕННЫХ ПОЗНАВАТЕЛЬНЫХ МЕХАНИЗМОВ РАЗВИТИЯ ИДЕОЛОГИЧЕСКОГО ИММУНИТЕТА МОЛОДЁЖИ

Аннотация. *В условиях усиления различных идеологических воздействий в информационном пространстве особую значимость приобретает формирование у молодёжи навыков критического мышления, анализа информации и самостоятельного принятия выводов. Некоторые учёные подчёркивают, что медиаграмотность способствует повышению интеллектуального потенциала молодёжи и развитию их информационной культуры. Другие исследователи отмечают, что неконтролируемая цифровая среда может усиливать духовное безразличие и идеологическую восприимчивость молодёжи. В связи с этим в данной статье раскрывается роль медиаграмотности и духовной рефлексии как познавательных механизмов формирования идеологического иммунитета молодёжи.*

Ключевые слова: *медиаграмотность, духовная рефлексия, идеологический иммунитет, критическое мышление, информационная безопасность, цифровое общество.*

THE IMPORTANCE OF MEDIA LITERACY AND SPIRITUAL REFLECTION AS MODERN COGNITIVE MECHANISMS FOR DEVELOPING YOUTH IDEOLOGICAL IMMUNITY

Abstract. In the context of increasing ideological influences within the information space, the development of critical thinking, information analysis, and independent conclusion-making skills among young people is becoming increasingly important. Some scholars emphasize that media literacy contributes to enhancing the intellectual potential of youth and improving their information culture. Other researchers note that an uncontrolled digital environment may strengthen spiritual indifference and ideological susceptibility among young people. Therefore, this article reveals the role of media literacy and spiritual reflection as cognitive mechanisms in the formation of youth ideological immunit

Keywords: media literacy, spiritual reflection, ideological immunity, critical thinking, information security, digital society.

KIRISH

Zamonaviy globallashuv va raqamli transformatsiya sharoitida axborot makoni jamiyat taraqqiyotining asosiy omillaridan biriga aylanmoqda. Internet texnologiyalari, ijtimoiy tarmoqlar va turli raqamli platformalar inson tafakkuri, dunyoqarashi hamda qadriyatlariga bevosita ta’sir ko‘rsatmoqda. Ayniqsa, yoshlarning ongiga yo‘naltirilayotgan turli mafkuraviy ta’sirlar, manipulyativ axborotlar va ommaviy madaniyat unsurlari ularning ma’naviy barqarorligiga jiddiy ta’sir etmoqda. Shu jihatdan yoshlar mafkuraviy immunitetini mustahkamlash masalasi zamonaviy ta’lim tizimining ustuvor vazifalaridan biri sifatida namoyon bo‘lmoqda. Mafkuraviy immunitet jamiyat va shaxsning zararli g‘oyalar, buzg‘unchi mafkuralar hamda axborot tahdidlariga qarshi ongli ravishda qarshilik ko‘rsatish qobiliyatini anglatadi.

Ushbu jarayonda tanqidiy fikrlash, mustaqil mushohada yuritish va axborotni tahlil qilish koʻnikmalari muhim oʻrin egallaydi. Chunki zamonaviy axborot oqimida haqqoniy va yolgʻon maʼlumotlarni farqlash, manipulyativ taʼsirlarni anglash hamda ularga nisbatan ongli munosabat bildirish yoshlarning intellektual salohiyatiga bogʻliqdir. Medi savodxonlik yoshlarni axborot xurujlaridan himoya qiluvchi eng muhim kognitiv vositalardan biri sifatida talqin qilinmoqda. U insonning media mahsulotlarini tahlil qilish, axborot manbalarining ishonchliligini baholash va media kontentning yashirin maqsadlarini anglash qobiliyatini shakllantiradi. Shu sababli medi savodxonlik nafaqat texnik koʻnikma, balki maʼnaviy va mafkuraviy barqarorlikni taʼminlovchi ijtimoiy-falsafiy mexanizm sifatida ham ahamiyat kasb etmoqda. Maʼnaviy refleksiya esa shaxsning oʻz ichki dunyosi, qadriyatlari va axloqiy mezonlari ustida mushohada yuritish jarayonidir. U insonda oʻz-oʻzini anglash, maʼnaviy javobgarlik hissini rivojlantirish hamda turli yot gʻoyalarga nisbatan ongli pozitsiyani shakllantirishga xizmat qiladi. Ayniqsa, yoshlarning maʼnaviy refleksiyasi rivojlangan sari ularda ijtimoiy voqelikni chuqurroq anglash va maʼnaviy tahdidlarga nisbatan barqaror munosabat shakllanadi.

Shu bois mazkur maqolada medi savodxonlik va maʼnaviy refleksiyaning yoshlar mafkuraviy immunitetini rivojlantirishdagi oʻrni ijtimoiy-falsafiy nuqtai nazardan tahlil qilinadi. Shuningdek, ularning tanqidiy fikrlashni shakllantirish, axborot xavfsizligini taʼminlash hamda yoshlarni destruktiv mafkuraviy taʼsirlardan himoya qilishdagi ahamiyati ochib beriladi.

MATERIALLAR VA METODLAR

XX asrning oxiri va XXI asrda Yoshlar mafkuraviy immunitetini rivojlantirishda mediasavodxonlik va maʼnaviy refleksiyaning oʻrni bilan bogʻliq ilmiy-nazariy manbalar nashr etilgan. Tadqiqot jarayonida xorijiy, rus, turk va oʻzbek olimlarining media madaniyati, tanqidiy fikrlash, axborot xavfsizligi hamda maʼnaviy tarbiya masalalariga oid ilmiy qarashlaridan foydalanildi. Xususan, Marshall McLuhan, Henry Jenkins, Neil Postman, Aleksandr Fyudorov, İhsan Çapcıoğlu, Erkin Yusupov kabi olimlarning ilmiy asarlari tadqiqotning nazariy manbasi sifatida oʻrganildi. Xorijiy mualliflarning ilmiy qarashlari qiyosiy jihatdan tahlil qilinganda, Marshall McLuhan media vositalarini inson tafakkurini shakllantiruvchi asosiy omillardan biri sifatida talqin qiladi [McLuhan, 1964, b. 31]. Henry Jenkins esa raqamli madaniyat sharoitida yoshlarning interaktiv media faolligiga alohida urgʻu beradi [Jenkins, 2006, b. 52]. Neil Postman ommaviy media vositalari insonning chuqur mushohada yuritish qobiliyatini zaiflashtirishi mumkinligini qayd etadi [Postman, 1985, b. 63]. Rus olimi Александр Фёдоров mediasavodxonlikni shaxsning axborotni tanqidiy qabul qilish kompetensiyasi bilan bogʻlaydi [Фёдоров, 2007, b. 41]. Ushbu qarashlar mediasavodxonlikning nafaqat texnologik, balki maʼnaviy va mafkuraviy mazmunga ega ekanligini koʻrsatadi.

Biroq ayrim tadqiqotchilarning media erkinligini mutlaq ijobiy hodisa sifatida talqin qilishi bahsli hisoblanadi. Jumladan, Henry Jenkins tomonidan ilgari surilgan “ishtirokchi madaniyat” konsepsiyasida raqamli makonning salbiy mafkuraviy taʼsirlari yetarli darajada yoritilmagan [Jenkins, 2006, b. 78]. Chunki ochiq media muhiti yoshlarning turli manipulyativ axborotlar va destruktiv gʻoyalarga duch kelish xavfini ham kuchaytiradi. Shu sababli mediasavodxonlikni faqat texnologik imkoniyat sifatida emas, balki maʼnaviy masʼuliyat bilan uygʻun holda baholash lozim. Shu bilan birga, Александр Фёдоровning media taʼlimga oid qarashlari yoshlarni tanqidiy fikrlash asosida tarbiyalash nuqtai nazaridan muhim ahamiyat kasb etadi. Olim mediasavodxonlikni axborot xurujlariga qarshi intellektual himoya vositasi sifatida baholaydi [Фёдоров, 2007, b. 57]. Mazkur yondashuv yoshlarning media makondagi faolligini ongli ravishda boshqarishga xizmat qilishi bilan ahamiyatlidir. Oʻzbek olimlarining ilmiy qarashlarida ham maʼnaviy tarbiya va mafkuraviy barqarorlik masalalari ustuvor yoʻnalish sifatida talqin etiladi. Xususan, Эркин Юсупов maʼnaviy tahdidlarga qarshi kurashishda milliy qadriyatlar va mustaqil tafakkurning ahamiyatini alohida taʼkidlaydi [Юсупов, 2019, b. 112]. Нажмиддин Комилов esa maʼnaviy refleksiyani insonning ichki kamolotini taʼminlovchi muhim omil sifatida baholaydi [Комилов, 2017, b. 89]. Ushbu qarashlar yoshlar mafkuraviy immunitetini rivojlantirishda maʼnaviy omillarning muhimligini koʻrsatadi.

Tadqiqotda qiyosiy tahlil metodi orqali xorijiy va mahalliy olimlarning qarashlari oʻzaro taqqoslandi. Mazkur metod mediasavodxonlik va maʼnaviy refleksiya tushunchalarining umumiy hamda farqli jihatlarini aniqlash imkonini berdi. Shuningdek, tarixiylik va mantiqiylik metodlari asosida mazkur tushunchalarning shakllanish evolyutsiyasi ham tahlil qilindi. Bundan tashqari, tadqiqotda kontent-tahlil, tizimli yondashuv va interpretativ tahlil metodlaridan foydalanildi. Kontent-tahlil orqali media makondagi mafkuraviy taʼsirlar mazmuni oʻrganildi, tizimli yondashuv yordamida mediasavodxonlik va maʼnaviy refleksiyaning oʻzaro bogʻliqligi ochib berildi. Interpretativ metod esa olimlarning ilmiy qarashlarini falsafiy jihatdan sharhlash va ularning mazmun-mohiyatini chuqurroq anglash imkonini yaratdi.

MUHOKAMA VA NATIJALAR

Zamonaviy axborotlashgan jamiyatda mediasavodxonlik yoshlarning mafkuraviy immunitetini shakllantirish va ularning intellektual salohiyatini rivojlantirishning muhim omillaridan biriga aylanmoqda. Raqamli texnologiyalar, internet kommunikatsiyalari va ijtimoiy tarmoqlarning keng tarqalishi natijasida insoniyat hayotida axborot oqimi keskin ortdi. Ayniqsa, yoshlar virtual makonning eng faol qatlamiga aylanganligi sababli ular turli xil media taʼsirlarga koʻproq

duch kelmoqda. Shu jihatdan mediasavodxonlik yoshlarning axborotni tanlash, tahlil qilish, baholash va undan ongli foydalanish koʻnikmalarini shakllantiruvchi muhim kognitiv mexanizm sifatida namoyon boʻlmoqda. Marshall McLuhan media vositalarining jamiyat tafakkuriga taʼsiri masalasiga alohida eʼtibor qaratib, "media bu xabarning oʻzidir" degan mashhur konsepsiyani ilgari suradi [McLuhan, 1964, b. 9]. Olimning fikricha, media insonning voqelikni qabul qilish shaklini oʻzgartiradi va ijtimoiy ongni shakllantiruvchi asosiy omillardan biriga aylanadi. Darhaqiqat, bugungi kunda ijtimoiy tarmoqlar, bloglar, video platformalar va sunʼiy intellekt asosidagi tavsiya tizimlari yoshlarning fikrlash uslubiga bevosita taʼsir koʻrsatmoqda. Masalan, "TikTok", "Instagram" yoki "YouTube" platformalaridagi qisqa videolar yoshlarning diqqatni uzoq muddat bir nuqtaga jamlash qobiliyatini pasaytirayotgani haqida qator tadqiqotlarda fikrlar ilgari surilmoqda. Natijada axborotni tez va yuzaki qabul qilish odati shakllanmoqda. Mediasavodxonlikning asosiy vazifalaridan biri yoshlarni axborotni tanqidiy tahlil qilishga oʻrgatishdan iboratdir. Chunki zamonaviy media makonida haqqoniy va manipulyativ axborotlarni ajratish tobora murakkablashib bormoqda. Ayniqsa, "feyk news", dezinformatsiya va sunʼiy ravishda yaratilgan media kontentlarning koʻpayishi yoshlar tafakkuriga salbiy taʼsir koʻrsatmoqda. Neil Postman ommaviy media vositalari insonning chuqur tahliliy tafakkurini zaiflashtirib, uni koʻngilochar axborot isteʼmolchiga aylantirib qoʻyishi mumkinligini taʼkidlaydi [Postman, 1985, b. 71]. Ushbu qarash bugungi "raqamli tezkorlik" sharoitida yanada dolzarb ahamiyat kasb etmoqda. Chunki koʻplab yoshlar axborotning mazmun-mohiyatidan koʻra uning vizual jozibadorligiga koʻproq eʼtibor qaratmoqda. Shuningdek, mediasavodxonlik yoshlarning mustaqil dunyoqarashini shakllantirishda ham muhim rol oʻynaydi. Henry Jenkins zamonaviy media muhitida yoshlarning nafaqat axborot isteʼmolchisi, balki media mahsulotlarini yaratuvchi subyektga aylanganini qayd etadi [Jenkins, 2006, b. 42]. Bu esa yoshlarning kommunikativ faolligini oshirish bilan birga, ularda axborot uchun masʼuliyat hissini ham shakllantiradi. Masalan, bugungi kunda koʻplab yoshlar blog yuritish, podkast yaratish yoki ijtimoiy tarmoqlarda kontent tayyorlash bilan shugʻullanmoqda. Bunday jarayonlar ularda ijodiy tafakkur, kommunikativ kompetensiya va axborot bilan ishlash madaniyatini rivojlantiradi. Biroq media makonning cheksiz imkoniyatlari bilan bir qatorda uning salbiy jihatlari ham mavjud. Algoritmik boshqaruv tizimlari koʻpincha insonning qiziqishlariga mos axborotlarni taklif qilish orqali uni "axborot pufagi" ichida qoldirib qoʻymoqda. Natijada yoshlar turli nuqtai nazarlar bilan emas, balki faqat oʻz qarashlariga mos axborotlar bilan cheklanib qolmoqda. Bu esa tanqidiy tafakkurning torayishiga va mafkuraviy biryoqlamalikning kuchayishiga olib kelishi mumkin. Shu jihatdan mediasavodxonlik yoshlarda ochiq fikrlash, muqobil qarashlarni tahlil qilish va dalillarga asoslangan xulosa chiqarish koʻnikmalarini shakllantiruvchi muhim taʼlimiy vosita hisoblanadi. Zamonaviy taʼlim tizimida mediasavodxonlikni rivojlantirish yoshlarni turli mafkuraviy tahdidlardan himoya qilishning samarali usullaridan biri sifatida qaralmoqda. Chunki mediasavodxon shaxs axborotning maqsadi, manbasi va yashirin taʼsir mexanizmlarini anglay oladi. Natijada u manipulyativ gʻoyalar, yolgʻon targʻibot va zararli media oqimlariga nisbatan ongli qarshilik koʻrsatish imkoniyatiga ega boʻladi. Shu sababli mediasavodxonlik yoshlar tafakkurining barqarorligini taʼminlash, ularning maʼnaviy va mafkuraviy immunitetini mustahkamlashning muhim omillaridan biri sifatida namoyon boʻlmoqda.

Globallashuv va raqamli texnologiyalar taraqqiyoti natijasida axborot makoni inson hayotining ajralmas qismiga aylandi. Internet tarmoqlari, ijtimoiy media platformalari va virtual kommunikatsiya vositalari axborot almashinuvini tezlashtirib, jamiyat taraqqiyoti uchun yangi imkoniyatlarni yaratmoqda. Biroq raqamli muhitning kengayishi bilan bir qatorda turli mafkuraviy tahdidlar, axborot xurujlari va manipulyativ taʼsirlar ham kuchayib bormoqda. Ayniqsa, yoshlar internet makonining eng faol ishtirokchisi sifatida mazkur tahdidlarga nisbatan koʻproq taʼsirchan qatlam hisoblanadi. Shu jihatdan raqamli muhitning yoshlar ongi va tafakkuriga taʼsirini chuqur tahlil qilish muhim ilmiy ahamiyat kasb etadi. Henry Jenkins raqamli kommunikatsiya sharoitida zamonaviy jamiyatni "ishtirokchi madaniyat" sifatida tavsiflaydi [Jenkins, 2006, b. 53]. Uning fikricha, yangi media muhiti insonlarni faqat axborot isteʼmolchisi emas, balki kontent yaratuvchi subyektga ham aylantirmoqda. Darhaqiqat, bugungi kunda yoshlar ijtimoiy tarmoqlar orqali turli axborotlar tarqatmoqda, bloglar yuritmoqda va virtual muhitda ijtimoiy faollik namoyon etmoqda. Bu holat ijobiy jihatdan yoshlarning ijodiy va kommunikativ qobiliyatlarini rivojlantirsa, salbiy tomondan nazoratsiz axborot tarqalishi va manipulyativ taʼsirlarning kuchayishiga ham sabab boʻlmoqda.

Raqamli muhitdagi asosiy muammolardan biri dezinformatsiya va "feyk" axborotlarning tez tarqalishidir. Ayniqsa, ijtimoiy tarmoqlarda emotsional taʼsirga ega boʻlgan xabarlar haqqoniy axborotlarga nisbatan tezroq ommalashmoqda. Neil Postman ommaviy media inson tafakkurini soddalashtirib, uni tezkor va yuzaki axborot qabul qilishga moslashtirishini taʼkidlaydi [Postman, 1985, b. 79]. Uning mazkur fikri raqamli muhit sharoitida yanada dolzarb ahamiyat kasb etmoqda. Chunki yoshlar koʻp hollarda axborotning haqqoniyligini tekshirmasdan uni tarqatishga moyil boʻlmoqda. Bu esa turli mafkuraviy manipulyatsiyalar va yot gʻoyalarning keng tarqalishiga zamin yaratmoqda.

Zamonaviy raqamli platformalarda algoritmlar orqali inson qiziqishlariga mos axborotlarning tanlab berilishi ham mafkuraviy xavflarni kuchaytirmoqda. Chunki bunday tizimlar insonni maʼlum bir qarashlar doirasida ushlab turib, uning muqobil fikrlar bilan tanishish imkoniyatini cheklaydi. Natijada "axborot pufagi" hosil boʻlib, yoshlarda biryoqlama tafakkur shakllanishi mumkin. Masalan, ayrim ijtimoiy tarmoqlarda radikal gʻoyalarni targʻib qiluvchi

kontentlar aynan algoritmlar orqali keng auditoriyaga yetkazilmoqda. Bu esa yoshlarning mafkuraviy barqarorligiga salbiy ta’sir ko‘rsatishi mumkin.

Aleksandr Fyodorov mediata’lim insonni axborot tahdidlaridan himoya qiluvchi intellektual vosita ekanligini ta’kidlaydi [Фёдоров, 2007, b. 58]. Olimning fikricha, mediasavodxonlik insonda axborotni tanqidiy tahlil qilish, manbalarni tekshirish va media matnlarni anglash qobiliyatini shakllantiradi. Bu esa raqamli muhitdagi mafkuraviy tahdidlarga qarshi kurashishda muhim ahamiyat kasb etadi. Masalan, Yevropa davlatlari va AQSH ta’lim tizimida faktcheking, mediamatn tahlili va axborot xavfsizligiga oid maxsus dasturlar joriy qilinmoqda. Bunday yondashuv yoshlarning raqamli madaniyatini yuksaltirish bilan birga ularning mafkuraviy immunitetini ham mustahkamlashga xizmat qilmoqda. Shu sababli raqamli muhitda yoshlarning axborot xavfsizligini ta’minlash va ularni turli mafkuraviy tahdidlardan himoya qilishda mediasavodxonlik muhim ahamiyatga ega. Mediasavodxon shaxs axborotning maqsadi, manbasi va yashirin ta’sir mexanizmlarini anglay oladi. Natijada u manipulyativ axborotlar, dezinformatsiya va yot g‘oyalarga nisbatan ongli munosabat bildirish imkoniyatiga ega bo‘ladi. Demak, raqamli muhitda mediasavodxonlikni rivojlantirish yoshlar mafkuraviy immunitetini mustahkamlashning muhim shartlaridan biri hisoblanadi.

Zamonaviy axborotlashgan jamiyatda yoshlarning mafkuraviy immunitetini shakllantirish jarayoni bevosita tanqidiy fikrlash va ma’naviy refleksiya bilan bog‘liqdir. Chunki inson turli axborot oqimlari, mafkuraviy ta’sirlar va virtual kommunikatsiyalar qurshovida yashayotgan hozirgi davrda har qanday ma’lumotni ongli ravishda tahlil qilish ehtiyoji ortib bormoqda. Ayniqsa, yoshlar internet va ijtimoiy tarmoqlarning eng faol foydalanuvchilari sifatida turli xil g‘oyaviy ta’sirlarga ko‘proq duch kelmoqda. Shu sababli tanqidiy fikrlash ularda axborotni mantiqiy baholash, dalillarni solishtirish va mustaqil xulosa chiqarish ko‘nikmasini shakllantirsa, ma’naviy refleksiya insonning ichki qadriyatlari, axloqiy mezonlari va ma’naviy mas’uliyatini anglashiga xizmat qiladi. John Dewey tanqidiy fikrlashni insonning muammoni chuqur mushohada qilish va dalillarga asoslangan xulosa chiqarish qobiliyati sifatida talqin qiladi [Dewey, 1933, b. 17]. John Deweyning fikricha, insonning mustaqil tafakkuri jamiyat taraqqiyotining muhim omillaridan biridir. Mazkur qarash bugungi axborot makonida ayniqsa dolzarbdir. Chunki zamonaviy media muhitida yolg‘on axborotlar, manipulyativ kontent va hissiy ta’sirga asoslangan targ‘ibot materiallari keng tarqalmoqda. Masalan, ayrim ijtimoiy tarmoqlarda noto‘g‘ri ma’lumotlarning tez ommalashuvi yoshlarning voqelikka nisbatan noto‘g‘ri tasavvurlar hosil qilishiga sabab bo‘lmoqda. Shu jihatdan tanqidiy fikrlash yoshlarni axborotni tekshirish va asoslangan qaror qabul qilishga o‘rgatuvchi muhim intellektual vosita hisoblanadi. Tanqidiy fikrlashning samaradorligi ma’naviy refleksiya bilan uyg‘unlashgandagina yanada kuchayadi. Paulo Freire insonning ongli tafakkuri uning ijtimoiy va ma’naviy mas’uliyat hissi bilan chambarchas bog‘liq ekanligini ta’kidlaydi [Freire, 1970, b. 66]. Uning fikricha, inson faqat axborotni qabul qiluvchi emas, balki uni anglovchi va baholovchi subyekt sifatida shakllanishi kerak. Ushbu qarash ma’naviy refleksiyaning mohiyatini ochib beradi. Chunki ma’naviy refleksiya insonning o‘z ichki dunyosi, axloqiy qadriyatlari va ijtimoiy pozitsiyasini tahlil qilish jarayonidir. Natijada shaxs turli yot g‘oyalarga nisbatan mustaqil va ongli munosabat bildirish imkoniyatiga ega bo‘ladi.

Zamonaviy raqamli makonda hissiy manipulyatsiya texnologiyalarining kuchayishi tanqidiy fikrlash va ma’naviy refleksiyaning ahamiyatini yanada oshirmoqda. Ayrim media mahsulotlari insonning hissiyotlariga ta’sir ko‘rsatish orqali uning ongini boshqarishga urinmoqda. Ayniqsa, sensatsion sarlavhalar, sun’iy ravishda kuchaytirilgan qo‘rquv yoki nafrat uyg‘otuvchi axborotlar yoshlar ruhiyatiga salbiy ta’sir qilishi mumkin. Neil Postman ommaviy media insonni chuqur tafakkurdan uzoqlashtirib, uni ko‘ngilochar axborot iste’molchiga aylantirib qo‘yishi mumkinligini qayd etadi [Postman, 1985, b. 92]. Ushbu holat yoshlarning tahliliy tafakkuriga salbiy ta’sir ko‘rsatib, ularning ma’naviy barqarorligini zaiflashtirishi ehtimolini kuchaytiradi. Shuningdek, ma’naviy refleksiya yoshlarning milliy va umuminsoniy qadriyatlarga bo‘lgan munosabatini shakllantirishda ham muhim rol o‘ynaydi. Inson o‘z ma’naviy dunyosi ustida mushohada yuritgan sari unda axloqiy mas’uliyat, ijtimoiy burch va vatanparvarlik kabi tuyg‘ular mustahkamlanadi. Ayniqsa, globallashuv sharoitida turli madaniy va mafkuraviy ta’sirlarning kuchayishi yoshlarda o‘zlikni anglash ehtiyojini yanada oshirmoqda. Shu jihatdan ma’naviy refleksiya yoshlarni milliy qadriyatlarga hurmat ruhida tarbiyalash bilan birga ularning mafkuraviy immunitetini mustahkamlashga ham xizmat qiladi. Aleksandr Fyodorov media ta’limning asosiy vazifalaridan biri insonda tanqidiy tafakkurni shakllantirish ekanligini ta’kidlaydi [Фёдоров, 2007, b. 73]. Olimning fikricha, mediasavodxonlik va tanqidiy fikrlash uyg‘unligi insonni axborot manipulyatsiyasidan himoya qiluvchi samarali vositadir. Mazkur qarash Zamonaviy ta’lim tizimi uchun muhim metodologik asos bo‘lib xizmat qiladi. Chunki zamonaviy ta’lim faqat bilim berish bilan cheklanmasdan, yoshlarda mustaqil tafakkur, ma’naviy mas’uliyat va ongli fuqarolik pozitsiyasini shakllantirishni ham nazarda tutishi kerak. Demak, tanqidiy fikrlash va ma’naviy refleksiya yoshlar mafkuraviy immunitetining o‘zaro bog‘liq ikki muhim komponenti hisoblanadi. Tanqidiy fikrlash axborotni mantiqiy tahlil qilish imkonini bersa, ma’naviy refleksiya insonning ichki qadriyatlari va axloqiy mezonlarini mustahkamlaydi. Ularning uyg‘unligi yoshlarning axborot tahdidlariga qarshi ongli qarshilik ko‘rsatish qobiliyatini rivojlantirib, barqaror va mustaqil tafakkurni shakllantirishga xizmat qiladi.

Axborotlashgan jamiyatda media ta’lim yoshlarni turli mafkuraviy tahdidlar va manipulyativ axborotlardan himoya qiluvchi muhim ijtimoiy-pedagogik mexanizm sifatida namoyon bo‘lmoqda. Axborot texnologiyalarining jadal rivojlanishi natijasida internet va ijtimoiy tarmoqlar yoshlar hayotining asosiy kommunikativ maydoniga aylandi. Natijada yoshlar ongiga turli g‘oyalar, qadriyatlar va mafkuraviy ta’sirlarning kirib borish sur’ati kuchaydi. Shu sababli media ta’lim yoshlarni axborotni tanqidiy qabul qilish, uni tahlil etish hamda manipulyativ ta’sirlarni anglashga o‘rgatuvchi muhim vosita sifatida alohida ahamiyat kasb etmoqda. Renee Hobbs mediasavodxonlikni insonning axborotni izlash, tahlil qilish, yaratish va baholash qobiliyati bilan bog‘laydi [Hobbs, 2011, b. 21]. Renee Hobbsning fikricha, media ta’lim demokratik jamiyatda ongli fuqarolik madaniyatini shakllantirishga xizmat qiladi. Darhaqiqat, raqamli makonda yoshlar ko‘pincha ulkan axborot oqimi ichida qolmoqda va ular har doim ham ishonchli hamda manipulyativ axborotni ajrata olmayapti. Masalan, ijtimoiy tarmoqlarda tarqatilayotgan ayrim yolg‘on xabarlar yoki sun’iy ravishda kuchaytirilgan axborot kampaniyalari yoshlarning ijtimoiy qarashlariga salbiy ta’sir ko‘rsatmoqda. Shu jihatdan media ta’lim yoshlarni axborot xavfsizligini ta’minlashga tayyorlovchi muhim mexanizm sifatida namoyon bo‘ladi.

W. James Potter esa media savodxonlikni insonning media ta’sirlarini anglash va ularga ongli ravishda munosabat bildirish qobiliyati sifatida tavsiflaydi [Potter, 2013, b. 34]. Olimning fikricha, media inson tafakkuriga yashirin tarzda ta’sir ko‘rsatishi mumkin va shuning uchun insonda media xabarlarni tahlil qilish ko‘nikmasi shakllanishi zarur. Ushbu qarash ayniqsa yoshlar mafkuraviy immunitetini shakllantirish nuqtai nazaridan muhimdir. Chunki turli reklama, siyosiy targ‘ibot yoki ommaviy madaniyat mahsulotlari ko‘pincha yoshlarning hissiyotlari orqali ularning ongiga ta’sir ko‘rsatishga urinadi. Shuningdek, Sonia Livingstone raqamli media vositalarining yoshlar ijtimoiylashuvidagi roliga alohida e’tibor qaratadi [Livingstone, 2009, b. 77]. Olimaning fikricha, internet va media vositalari yoshlarning dunyoqarashi, qadriyatlari va kommunikativ madaniyatini shakllantiruvchi asosiy omillardan biriga aylangan. Biroq u raqamli muhit bilan bog‘liq xavflarga ham e’tibor qaratib, yoshlarni media tahdidlardan himoya qilish uchun mediasavodxonlikni rivojlantirish zarurligini ta’kidlaydi. Darhaqiqat, Zamonaviy kunda yoshlarning virtual muhitda haddan tashqari faol bo‘lishi ularning real ijtimoiy munosabatlariga ham ta’sir ko‘rsatmoqda. Ayniqsa, virtual manipulyatsiya va kiberbosim holatlarining ortishi media ta’limga bo‘lgan ehtiyojni kuchaytirmoqda. Douglas Kellner media madaniyat zamonaviy jamiyat mafkuraviy tizimining asosiy tarkibiy qismiga aylanganini qayd etadi [Kellner, 1995, b. 14]. Olimning fikricha, media mahsulotlari insonlarning siyosiy, ijtimoiy va madaniy qarashlarini shakllantirishga faol ta’sir ko‘rsatadi. Shu sababli media ta’lim yoshlarni media matnlarning yashirin mafkuraviy maqsadlarini anglashga o‘rgatishi kerak. Masalan, ayrim filmlar, reklama mahsulotlari yoki internet trendlarida iste’molchilik madaniyati, individualizm yoki zo‘ravonlik elementlari bilvosita targ‘ib qilinmoqda. Bunday holatlar yoshlarning ma’naviy dunyosiga salbiy ta’sir ko‘rsatishi mumkin. Media ta’limning samaradorligi yoshlarda tanqidiy fikrlash, axborot madaniyati va ma’naviy refleksiyaning uyg‘un shakllanishi bilan bog‘liqdir. Chunki mediasavodxon shaxs axborotni nafaqat texnik jihatdan, balki axloqiy va ijtimoiy jihatdan ham baholay oladi. Shu jihatdan media ta’lim yoshlarni manipulyativ axborotlarga nisbatan ongli qarshilik ko‘rsatishga tayyorlovchi muhim ta’limiy mexanizm hisoblanadi. Ayniqsa, globallashuv sharoitida turli mafkuraviy tahdidlarning kuchayishi media ta’limning ijtimoiy ahamiyatini yanada oshirmoqda. Demak, media ta’lim yoshlar mafkuraviy immunitetini shakllantirishning muhim vositalaridan biri sifatida namoyon bo‘ladi. U yoshlarni axborotni tanqidiy tahlil qilish, media mahsulotlarning yashirin maqsadlarini anglash va mustaqil xulosa chiqarishga o‘rgatadi. Natijada yoshlarda axborot xavfsizligi madaniyati shakllanib, ular turli mafkuraviy tahdidlarga nisbatan barqaror pozitsiyani egallash imkoniyatiga ega bo‘ladi.

Globallashuv va raqamli transformatsiya jarayonlari kuchayib borayotgan zamonaviy jamiyatda insonning ichki ma’naviy barqarorligini saqlab qolish muhim ijtimoiy masalalardan biriga aylanmoqda. Ayniqsa, yoshlar ongiga turli xil g‘oyaviy ta’sirlarning kuchayishi, virtual kommunikatsiyaning kengayishi va ommaviy madaniyatning global tus olishi sharoitida ma’naviy refleksiya insonning mafkuraviy himoya mexanizmi sifatida alohida ahamiyat kasb etmoqda. Chunki ma’naviy refleksiya insonning o‘z ichki dunyosi, qadriyatlari, axloqiy mezonlari va hayotiy maqsadlari ustida mushohada yuritish jarayonidir. Natijada shaxsda o‘zini anglash, ma’naviy mas’uliyat va ongli hayotiy pozitsiya shakllanadi. Anthony Giddens zamonaviy jamiyatda inson o‘zligini anglash va identifikatsiya muammosi tobora murakkablashib borayotganini ta’kidlaydi [Giddens, 1991, b. 52]. Olimning fikricha, globallashuv sharoitida inson ko‘plab axborot oqimlari va turli qadriyatlar ta’siri ostida qolmoqda. Shu sababli inson doimiy ravishda o‘z hayoti, qadriyatlari va ijtimoiy o‘rnini qayta baholab borishga majbur bo‘ladi. Mazkur jarayon ayniqsa yoshlar orasida yaqqol kuzatilmoqda. Chunki yoshlar virtual makon orqali turli madaniyatlar, qarashlar va mafkuraviy oqimlar bilan muntazam to‘qnash kelmoqda. Natijada ularda ma’naviy ikkilanish, qadriyatlar ziddiyati va identiklik inqirozi yuzaga kelishi mumkin. Ma’naviy refleksiya aynan mana shunday murakkab sharoitda insonning ichki barqarorligini saqlab qolishga xizmat qiladi. Charles Taylor insonning ma’naviy o‘zligini anglash jarayoni uning axloqiy qadriyatlari bilan chambarchas bog‘liq ekanligini qayd etadi [Taylor, 1989, b. 27]. Uning fikricha, inson o‘zining ma’naviy mezonlariga tayangan holda hayotiy qarorlar qabul qiladi va shu orqali o‘z shaxsiyatini shakllantiradi. Ushbu qarash zamonaviy yoshlar tarbiyasi

uchun muhim metodologik ahamiyatga ega. Chunki ma’naviy refleksiya rivojlangan yoshlar turli zararli g‘oyalar, manipulyativ axborotlar va destruktiv mafkuraviy oqimlarga nisbatan mustaqil va ongli munosabat bildira oladi.

Zamonaviy media makonida inson hissiyotlariga ta’sir ko‘rsatishga qaratilgan texnologiyalar tobora kuchaymoqda. Reklama, ommaviy madaniyat, internet trendlar va ijtimoiy tarmoqlardagi ayrim kontentlar insonning ongiga bilvosita ta’sir o‘tkazmoqda. Zygmunt Bauman zamonaviy jamiyatni “suyuqlashgan modernlik” tushunchasi orqali izohlab, Hozirgi davrda qadriyatlar va ijtimoiy munosabatlarning beqarorlashayotganini ta’kidlaydi [Bauman, 2000, b. 3]. Olimning fikricha, insonlar tobora qisqa muddatli manfaatlar va tezkor hissiy ehtiyojlarga yo‘naltirilmoqda. Bu esa yoshlarning chuqur mushohada yuritish va ma’naviy o‘zlikni anglash qobiliyatiga salbiy ta’sir ko‘rsatishi mumkin. Shu nuqtai nazardan ma’naviy refleksiya yoshlarni ommaviy madaniyatning salbiy ta’siridan himoya qiluvchi muhim omil sifatida namoyon bo‘ladi. Chunki ma’naviy refleksiya insonni o‘z xatti-harakatlari, qarashlari va maqsadlarini tanqidiy baholashga undaydi. Masalan, ijtimoiy tarmoqlarda ommalashayotgan ayrim zararli trendlar yoki axloqiy mezonlarga zid kontentlarga nisbatan ongli qarshilik ko‘rsatish aynan ma’naviy refleksiya bilan bog‘liqdir. Agar insonda ichki ma’naviy nazorat va axloqiy mas’uliyat kuchli shakllangan bo‘lsa, u turli manipulyativ ta’sirlarga tez berilib ketmaydi. Martha Nussbaum ta’lim tizimi insonda nafaqat bilim va kasbiy kompetensiyalarni, balki axloqiy tafakkur va insoniy mas’uliyatni ham shakllantirishi kerakligini ta’kidlaydi [Nussbaum, 2010, b. 48]. Olimaning fikricha, demokratik jamiyatning barqarorligi insonlarning ma’naviy tafakkuri va tanqidiy mushohada yuritish qobiliyatiga bog‘liqdir. Mazkur qarash yoshlar mafkuraviy immunitetini rivojlantirishda ma’naviy refleksiyaning naqadar muhim ekanligini ko‘rsatadi. Chunki ma’naviy jihatdan barkamol shaxs turli mafkuraviy tahdidlar, yolg‘on targ‘ibot va axborot manipulyatsiyalariga nisbatan barqaror pozitsiyani saqlab qola oladi. Demak, ma’naviy refleksiya yoshlar mafkuraviy immunitetining muhim tarkibiy qismi hisoblanadi. U insonning o‘zligini anglash, axloqiy qadriyatlarga tayangan holda qaror qabul qilish va turli mafkuraviy ta’sirlarga nisbatan ongli munosabat bildirish qobiliyatini shakllantiradi. Shu jihatdan ma’naviy refleksiyani rivojlantirish zamonaviy ta’lim va tarbiya tizimining ustuvor vazifalaridan biri bo‘lib, u yoshlarning ijtimoiy va mafkuraviy barqarorligini ta’minlashga xizmat qiladi.

XULOSA

Zamonaviy axborotlashgan jamiyatda yoshlar mafkuraviy immunitetini shakllantirish masalasi tobora muhim ijtimoiy-falsafiy ahamiyat kasb etmoqda. Globallashuv, raqamli kommunikatsiya va virtual media muhitining kengayishi yoshlar ongiga turli mafkuraviy ta’sirlarning kuchayishiga sabab bo‘lmoqda. Shu sababli mediasavodxonlik va ma’naviy refleksiya yoshlarni axborot tahdidlari hamda manipulyativ ta’sirlardan himoya qiluvchi muhim kognitiv mexanizmlar sifatida namoyon bo‘lmoqda. Ayniqsa, tanqidiy fikrlash ko‘nikmalarining rivojlanishi yoshlarning axborotni ongli ravishda tahlil qilish va mustaqil xulosa chiqarish qobiliyatini mustahkamlaydi. Tadqiqot natijalari shuni ko‘rsatdiki, mediasavodxonlik yoshlarning media makondagi faoliyatini ongli ravishda boshqarishga xizmat qiladi. U yoshlarni axborot manbalarini tekshirish, “feyk” xabarlarni aniqlash va media mahsulotlarning yashirin maqsadlarini anglashga o‘rgatadi. Natijada yoshlarda manipulyativ axborotlarga nisbatan tanqidiy munosabat shakllanadi. Shu bilan birga, media ta’limning ta’lim tizimiga integratsiyalashuvi yoshlarning axborot xavfsizligini ta’minlash va mafkuraviy barqarorligini mustahkamlashda muhim omil bo‘lib xizmat qilmoqda. Shuningdek, ma’naviy refleksiya yoshlarning ichki ma’naviy barqarorligini shakllantirishda muhim rol o‘ynashi aniqlandi. Insonning o‘z qadriyatlari, axloqiy mezonlari va ijtimoiy mas’uliyati ustida mushohada yuritishi uning turli yot g‘oyalarga nisbatan ongli pozitsiyasini kuchaytiradi. Ayniqsa, globallashuv sharoitida ma’naviy refleksiya yoshlarning milliy va umuminsoniy qadriyatlarga sodiqligini saqlab qolishda muhim ahamiyat kasb etmoqda. Bu esa yoshlarning mafkuraviy immunitetini mustahkamlovchi asosiy omillardan biri hisoblanadi. Tanqidiy fikrlash, mediasavodxonlik va ma’naviy refleksiya o‘zaro uzviy bog‘liq tushunchalardir. Ularning uyg‘unligi yoshlarni nafaqat axborotni texnik jihatdan tahlil qilishga, balki uning ijtimoiy, ma’naviy va axloqiy mazmunini ham anglashga yordam beradi. Shu sababli zamonaviy ta’lim tizimi faqat bilim berish bilan cheklanmasdan, yoshlarni ongli, mustaqil va ma’naviy barkamol shaxs sifatida tarbiyalashga yo‘naltirilishi zarur. Umuman olganda, mediasavodxonlik va ma’naviy refleksiya yoshlar mafkuraviy immunitetini rivojlantirishning samarali vositalari hisoblanadi. Ularni ta’lim jarayoniga tizimli ravishda joriy etish yoshlarning axborot xavfsizligini ta’minlash, ma’naviy barqarorligini mustahkamlash hamda turli destruktiv mafkuraviy tahdidlarga qarshi ongli qarshilik ko‘rsatish qobiliyatini rivojlantirishga xizmat qiladi. Shu jihatdan mazkur masala zamonaviy pedagogika, falsafa va ijtimoiy fanlarning ustuvor tadqiqot yo‘nalishlaridan biri sifatida dolzarb аҳамият касб этади.

"BOBURNOMA"DA TAKRORIY SO'ZLARNING LEKSIK-GRAMMATIK TAHLILI

Usmonov Musurmon Mamirali o'g'li
Namangan davlat universiteti v.b dotsenti, filologiya fanlari bo'yicha falsafa doktori (PhD)
usmonovmusulmon89@gmail.com

Annotatsiya. *Ushbu maqolada Zahiriddin Muhammad Boburning "Boburnoma" asarida uchraydigan takroriy so'zlarning leksik-grammatik xususiyatlari, takroriy fe'l, sifat, ravish, son, olmosh va takroriy otlarning qo'llanilishi, takroriy leksemalarning ikki komponentdan iborat ekanligi, ularning morfologik jihatdan bir xil shaklda kelishi va gap tarkibida ma'lum grammatik yoki leksik ma'nolarni ifodalash imkoniyati hamda ularni asrada qo'llanilishi, shuningdek, ular ifodalaydigan kuchaytirish, ko'plik, davomiylik va miqdor, noaniq miqdor kabi ma'nolari misollar bilan o'rganiladi, tahlil qilinadi.*

Kalit so'zlar: *Boburnoma, takroriy leksema, leksik-grammatik tahlil, fe'l, ravish, sifat, ot, ko'plik, kuchaytirish, davomiylik, miqdor, defis.*

ЛЕКСИКО-ГРАММАТИЧЕСКИЙ АНАЛИЗ ПОВТОРЯЮЩИХСЯ ЛЕКСЕМ В «БАБУРНАМА»

Аннотация. *В данной статье рассматриваются лексико-грамматические особенности повторяющихся лексем, встречающихся в «Бабурнаме» Захириддина Мухаммада Бобура, включая использование повторяющихся глаголов, прилагательных, наречий, числительных, местоимений и существительных. Анализируется тот факт, что повторяющиеся лексемы состоят из двух компонентов, встречаются в морфологически идентичных формах и могут передавать определенные грамматические или лексические значения в предложении. В исследовании также рассматривается их использование в тексте, а также значения, которые они выражают, такие как усиление, множественность, непрерывность, количество и неопределенное количество, с иллюстрациями на примерах.*

Ключевые слова: *Бабурнома, повторяющаяся лексема, лексико-грамматический анализ, глагол, наречие, прилагательное, существительное, множественное число, усиление, длительность, количество, дефис.*

LEXICAL-GRAMMATICAL ANALYSIS OF REPEATED LEXEMAS IN THE "BABURNAMA"

Annotation. *This article examines the lexical-grammatical features of repetitive lexemes found in Zahiriddin Muhammad Bobur's Baburnama, including the use of repetitive verbs, adjectives, adverbs, numerals, pronouns, and nouns. It analyzes the fact that repetitive lexemes consist of two components, appear in morphologically identical forms, and can convey specific grammatical or lexical meanings within the sentence. The study also explores their usage in the text, as well as the meanings they express, such as intensification, plurality, continuity, quantity, and indeterminate quantity, illustrated with examples.*

Keywords: *Baburnoma, repeated lexeme, lexical-grammatical analysis, verb, adverb, adjective, noun, plural, intensification, duration, quantity, hyphen.*

Kirish

Buyuk davlat arbobi, mohir sarkarda va iste'dodli adib Zahiriddin Muhammad Bobur tomonidan yaratilgan "Boburnoma" asari nafaqat o'zbek adabiyoti, balki jahon tarixiy-memuar adabiyotining eng nodir yodgorliklaridan biri hisoblanadi. Ushbu asar muallifning hayoti, siyosiy faoliyati, davr voqealari, shuningdek, turli mamlakatlarning tabiati, xalqi, urf-odatlari va madaniy hayoti haqida muhim ma'lumotlarni o'zida mujassam etgan. Asar yuzasidan turli davrlarda ilmiy tadqiqotlar olib borilgan, uning qo'lyozmalari o'rganilib, ko'plab tillarga tarjima qilingan. "Boburnoma"ni har tomonlama tadqiq etilishi milliy adabiy merosimizni chuqurroq anglash, ajdodlarimizning boy ma'naviy va madaniy merosini kelajak avlodlarga yetkazishda muhim ahamiyat kasb etadi. "Boburnoma" o'zining badiiyligi, tarixiy ishonchliligi va til boyligi bilan ko'plab olimlar, tarixchilar va adabiyotshunoslarning e'tiborini tortib kelmoqda. Xususan, sharq va g'arb olimlari tomonidan asarning tarixiy, lingvistik, adabiy hamda madaniy jihatlari keng tadqiq etilgan.

Adabiyotlar tahlili

Boburnoma kabi mumtoz asarlarda uchraydigan takror so‘zlarning qo‘llanishi, ularning leksik-grammatik xususiyatlari, lingvistik xususiyatlari, ularning badiiy va uslubiy vazifalari, mumtoz asarlar tilida uchraydigan takror so‘zlar hozirgi o‘zbek tilidagi shakllar bilan qanchalik bog’liq ekani va ularning evolyutsiyasi yetarli darajada tahlil qilinmagan. “Boburnoma” tilida qo‘llangan takror so‘zlarning tuzilishi hamda ularning grammatik vazifalari haqida mukammal tasnif yaratish dolzarb muammo hisoblanadi.

Takroriy so‘z aynan bir so‘zning takroridan hosil bo‘ladi. Lekin bundan ayni bir so‘zning takror holda qo‘llanishi (bir so‘z ketma-ket ikki marta qo‘llansa) hamma vaqt takroriy so‘z bo‘laveradi degan xulosa chiqmaydi. Takroriy so‘zlarda ayni bir so‘zning takror holda qo‘llanishi natijasida ma’lum ma’nolar (shu so‘zning leksik ma’nosidan yana boshqa ma’nolar) ifodalanadi. Shunga ko‘ra biror ma’noni ifodalash uchun qo‘llangan bunday takroriy so‘zlar leksik va grammatik jihatdan bir butunlikni tashkil etadi[6,87]. Bunday misollarini “Boburnoma”da ko‘rishimiz mumkin:

1) Oxir **ko‘za-ko‘za** suv keturub quyub, tashqi elni naqbdin qochurdilar.

2) Bu jihattin Muqatta’ derlarkim, **qit’a-qit’a** yig’ochlarni tarosh qilib, islimiy va xitoiy naqshlar solibturlar, tamom devorlari va saqfi ushbu yo‘sunluqtur.

3) Ul gunbazning o‘rtasida yerga tepsalar gamom gunbazdin **laq-laq** un kelur, g’arib amerdur, hech kim muning sirrini bilmas.

4)Chorbog’da ham **martaba-martaba** yerlarni siyoq bila tuzatib; yaxshi narvonlar va sarv va safedorlar tikibturlar, xeyli saromad Manziledur.

5) Samarqandning **mahalla-mahalla, ko‘y-ko‘y** avbosh va yatimlari **favj-favj** yig’ilib, yatimona salavotlar chekib, madrasa – eshigiga kelib, urushg’a chiqarlar edi.

6) Har xazinada **sanduq-sanduq** va **tang-tang** raxtlar va ortmoq-ortmoq va qon-qon oq tangalar, har kimning o‘tog’ida va chodirida har jins o‘ljadin.

7) Bek va begot, navkar va tobin **xarvor-xarvor** va **qop-qop** oq tangani vajh va ulufalarig’a yuklab, ko‘tarib – eltarlar edi.

8) Munda viloyat va kentlarda mug’tavattin, ellarning **qabila-qabila** otlari bo‘ladur.

Keltirilgan misollardagi **ko‘za-ko‘z, qit’a-qit’a, laq-laq, martaba-martaba, mahalla-mahalla, ko‘y-ko‘y, favj-favj**, **sanduq-sanduq**, **tang-tang, xarvor-xarvor, qop-qop, qabila-qabila** so‘zlari ko‘plik ma’nosini bildiradi.

1) Ozurda bo‘lg’onlar **qochib-qochib** Boysung’ur mirzog’a kela boshladilar.

2) Qosimbek siyosat uchun ikki-uchini **pora-pora** qildurdi.

3) O‘shda ham qiziloyoq, qarotayoq qilib zarbi rost **ura-ura** O‘shdin qovlab, qo‘rg’onni bizning uchun saxlab, bizga kishi yibordilar.

4) O‘shandoq baland yerdin qo‘rg’onning xokrezining tubigacha **yumalana-yumalana** keldi, vale hech bo‘shmadi.

5) So‘ngralar xud ul mehr ham qolmadi, vale hijob hanuz ko‘prak bo‘ldi, bir oyda va qirq kunda onam xonim muhassilliqlar bila **sura-sura**, tashvishlar bila yiborur edi.

6) "Ganbal o‘zi yana bir kishi bila yasolidin eshiklik, tuvurluk, ilgarrak **ur-ur** deb turubdur, vale eli aksar yonlarini berib, qochayqochmay degandek etib turubdurlar.

7) Uyquluq, ko‘nglakchan qo‘pub, besholti kishi bila otqulab, **ura-ura** bularni chiqarur.

8) Andoqkim, suv bu chig’qa sharillab tushgay, tushgan bila qo‘yi-o‘q borg’ay, suv u quyi borur, balig’ chig’ning ustida qolur, mast bo‘lg’on baliqni yuqqoridin **tuta-tuta** kelurlar.

9) Cherik eli chopqun **chopa-chopa** otlarini xarob qildilar.

10) Bir-ikki o‘q **o‘tub-o‘tub** tushti.

11) Ilik olishib turg’onlar **tushura-tushura** keyinicha tebradilar.

12) Hiriy chog’irini ifrot bila **icha-icha** o‘q otasi zamonida o‘ldi.

13) Qalqondin, jibadin, govsardin **o‘tkara-o‘tkara, yiqita-yiqita** ottilar.

14) Yog’iyni bosib **tushira-tushira** yuruldi.

15) Ushbu tor barg’idin quloq tushuguga solmoq uchun bozorlarda **yasab-yasab** sotadurlar.

16) Cho‘hralar – har kim kemaning bir yig’ochini olib, **ur-ur** deb.

Keltirilgan misollardagi **qochib-qochib, pora-pora, ura-ura, yumalana-yumalana, sura-sura, ur-ur, tuta-tuta, chopa-chopa, o‘tub-o‘tub, tushura-tushura, icha-icha, o‘tkara-o‘tkara**, **yiqita-yiqita, yasab-yasab, ur-ur** so‘zi harakatning takroriyligini bildiradi.

Ayni bir so‘z takror holda (yonma-yon) qo‘llangani bilan, uning o‘z leksik ma’nosidan boshqa ma’no ifodalanmasligi mumkin. Bunday holda takroriy so‘z hosil bo‘lmaydi, balki u bir so‘zning oddiy takrori hisoblanadi. Misollar: – Qo‘rqma, qo‘rqma! – deb takrorladi Arslon aka. – E, keling, kelang! Qanday bo‘lib kirib keldingiz, direktor opa? (S. Zunnunova). Bu misollardagi qo‘rqma, qo‘rqma; keling, kelinglar takroriy so‘z emas, balki so‘zning oddiy takrori hisoblanadi[6,90]. Takroriy so‘z bilan biror so‘zning oddiy takrori o‘rtasidagi farq quyidagi misollarni qiyoslaganda ochiq ko‘rinadi: Kofirlarning guruhlari **o‘qtin-o‘qtin** o‘z kishilari yordamiga yetib turardilar. Gʻanimni

tushura-tushura olib, otliq tebrarlar. Bu suvning yoqalarida yakpora **parcha-parcha** toshlar tushubtur, o'lturg'udek, vale bu suv doimiy emas emish. Bu gunbazlarni oralarida kichik Hinduston dasturi bila **chorsu-chorsu** gunbazchalardur. Keltirilgan misollardagi **o'qtin-o'qtin, tushura-tushura, parcha-parcha, chorsu-chorsu** takroriy so'z hisoblanadi. Yuqoridagi misollardan ko'rinib turibdiki, takroriy so'z deganda har qanday so'zning oddiy takrori emas, balki bir so'zning takror holda qo'llanishi bilan shu so'zning leksik ma'nosidan tashqari ma'lum grammatik ma'nolar (ko'plik, davomiylik kabi ma'nolar) ifodalovchi leksik va grammatik jihatdan bir butunlikni tashkil qiluvchi takrorlar tushuniladi. Takroriy so'z bilan so'zning oddiy takrori o'rtasidagi farq sifatida yana shuni ham ko'rsatish mumkinki, birinchidan, takroriy so'zlarda ikki so'z o'rtasidagi pauza oddiy takrordagiga nisbatan qisqa bo'ladi. Ikkinchidan, takroriy so'zlar ikki komponentli bo'ladi. Oddiy takrorda esa so'z ikki va undan ortiq takrorlanishi mumkin bo'ladi[6,92]. Ikki xil grammatik shaklga ega bo'lgan so'z hech qachon takroriy so'zlarga xos belgilarga ega bo'lmaydi va ularni defis orqali yozish ham to'g'ri emas.

Yildan yilga, tomdan tomga kabi birinchi qismi chiqish kelishigida, ikkinchi qismi jo'nalish kelishigida bo'lgan birikmalar ajratib yoziladi. Belgining ortiq darajasini bildiruvchi ko'pdan ko'p, tekindan tekin, yangidan yangi, ochiqdan ochiq, qizigandan qizidi kabilar ajratib yoziladi[10].

"Boburnoma"da o'z va bir so'zlarining aynan o'zining turli formada bog'lanishidan hosil bo'lgan o'z-o'zidan, biri-biridan kabilar ko'p qo'llanadi. Masalan: 1. Derlarkim, bir necha darvesh bu bodiyada tund yelga yo'luqub, **bir-birini** topolmay, «Xo, darvesh, «Xo, darvesh), dey-dey halok bo'lubturlar. 2. Sulton Mahmudxon chun Umarshayx mirzoning badmaoshlig'idin mutazarrir edilar, **bir-birlari** bila ittifoq qilib, Sulton Ahmad mirzo Sulton Mahmudxonni kuyov qilib, mazkur bo'lg'on tarixda Xo'jand suyining janub jonibidin Sulton Ahmad mirzo va shimol tarafidin Sulton Mahmudxon Umarshayx mirzoning ustig'a cherik torttilar. 3. Alalxusus Xoja Suhbatida, derlarkim, hargiz Xoja majlisida tizi **bir-biri** tiziga yovut! 4. Har hirfagarning bir boshqa bozori bor, **bir-birlariga** maxlut emastur, tavr rasmedur. 5. Bizning boyiri beklarimiz va ichkilarimizkim, Ali Do'stning ziddi edilar, bularning ba'zisini qovlab, ba'zisini talab, ba'zisini tug'turub edi, **biror-biror** yig'ilib keldilar. 6. Samarqand fathidin so'ng Shovdor va Sug'd va tumonot yovugi qo'rg'onlar **birar-birar** manga ruju' qila boshladilar. 7. "So'ngra ma'lum bo'ldikim, turki lafzida mahal iqtizosi bila to va dol yana g'ayn va qof va kof **bir-birlari** bila mubaddal bo'lurlar emish.

8. **Bir-birlariga** qilichlar sug'urushtilar. 9. Yog'iyning ko'pini, zini bilmay, g'ofil va uyquluq el bir yo'li-o'k, **bir-biriga** boqmay suvurlab qocha berdilar. 10. Yusuf dorug'a va hamrohlari **bir-biriga** maslahat qiladurlarkim, bahona qilib hayal qiladur, tutub bog'lamoq kerak. 11. Bu ikki rud Alishang bila Alingordin o'tub, **bir-biriga** qotilib, yana bir tumandinkim Mandrovardur, quyiroq Boron suyiga qotilur. 12. balki bu mazkur bo'lg'on jonivorlardin dag'i **o'zga-o'zga** jins qushlar va jonivor bo'lurkim, Hindustonda dag'i andoq jonivorlarni eshitilmaydur. 13. Sozlar **bir-birig'a** urundilar. 14. Ikki to'shak soldilar, **bir-biriga** ro'baro', to'shaklarning yonlari shimol sari edi, bir to'shakda Muzaffar mirzo va men o'lturduk, yana bir to'shakda Sulton Mas'ud mirzo va Jahongir mirzo o'lturdilar. 15. Bir yerda o'lturg'uzg'onda og'a-ini **bir-birini** quchushub, o'pushub, vido' qilurlar. 16. Ming o'bdon yigitlar bu muddatda **bir-birlari** bila so'zlashib, so'zni bir yerda qo'yub, yomonliq maqomida bo'lub turlar. 17. Hech kim **bir-biriga** taarruz bila guftugo' qimasun. 18. **Biror-biror** bo'ladur. 19. So'zni munga qo'yarlarkim, agar kunduz urush solsak, afg'on **bir-biri** nomusdin qochmaslar. 20. Har ayvon **bir-biridin** uchar zina balandtur. 21. Qiying'akim tutar; mazkur bo'lg'ondek **birin-birin** sharhi bila aytur. 22. Ushbu havolida aksar o'zlari **bir-birlarini**. 23. Yana biri bukim, ikki lo'li **bir-birini** tutushib, ul viloyatlarda ikki turluk muallaq borurlar. 24. Hinduston lo'lilari **bir-birlarini** tutushub, uch, to'rt turluk muallaq boradurlar. 25. Ul tarafdag'i kayfiyatni **bir-bir** so'rub, ma'lum qildukkim, Bangoliy itoat va yakjihatliq maqomida emish. 26. Bori kemalarni turg'uzub, men yetgach, buyurdumkim, kemalarni yurutub, charga bila **bir-biriga** bog'lag'aylar. 27. Andin so'ng **bir-birini** keyinidin xabar kelur erdikim.

28. Va necha muddatgacha bir yerda bo'lub, musohibona **bir-bir** bilan suluk qilur erdik. 29. Rum jangchilari tariqasida panalash uchun, arobalardan bir saf tartib berib, ular **bir-birlariga** zanjir bilan tutashtirildi. 30. Mazkur kundan bir qismi o'tgan edi, ikki muqobil tomop **bir-biriga** yaqin kelib, urush boshlanib ketdi. 31. Ikki tomon g'uli, go'yo nur va zulmat kabi, **bir-birlariga** qarshi turib, burong'or va juvong'orda shunday zo'r urush bo'ldiki, yer yuziga zilzila va yuksak osmonga g'ulg'ula tushdi.

"Boburnoma"dan keltirilgan misollarning birinchi komponenti aslida uchinchi shaxs egalik affiksi bilan qo'llangan (qaralmish bo'lgan) bir-birining < biri birining, bir-biridan < biri biridan kabi. Biri birining, biri biridan formasida birinchi so'z ega vazifasida, ikkinchi so'z aniqlovchi, to'ldiruvchi vazifasida kelgan. Keyinchalik birinchi so'zning egalik affiksi tushib, bir biridan, bir birining formasida qo'llana boshlaydi. Bunda ikkala so'z gapning bir bo'lagi vazifasida keladi. Qaratqich (aniqlovchi) vazifasidagi bizning, sizning, ularning so'zlari esa bosh kelishik formasida qo'llanib, ega vazifasida keladi, ya'ni Andin so'ng **bir-birini** keyinidin xabar kelur erdikim yoki ularning ikkalasi ham biri birini (birini biri). Albatta, bunday hollarda qaratqich vazifasidagi olmoshlar yashiringan (qo'llangan) bo'lishi mumkin. Lekin biri biridan chiroyli birikmasining birinchi so'zidagi qaralmishining belgisi qaratqichining mavjudligini ko'rsatadi.

Bu misollardagi biri biriga, biri-biridanning birinchi komponenti (biri) ega, ikkinchi komponenti (biridan, biriga) to‘ldiruvchi. Shunga ko‘ra ularni takroriy so‘zlar qatoriga kiritish to‘g‘ri bo‘lmaydi. Bularni defissiz biri biriga, biri biridan tarzida yozish lozim. Xuddi shu formadan kelib chiqqan bir-biriga, bir-biridan, bir-birini kabilarni ham defissiz bir biriga, bir biridan, bir biririni tarzida yozish lozim bo‘ladi.

Tadqiqot metodologiyasi

“Boburnoma”dagi takroriy so‘zlarning yasalishi va ularning ma’nosini aniqroq bayon qilish uchun ularni so‘zturkumlari bo‘yicha o‘rganamiz. “Boburnoma”da deyarli barcha so‘z turkumlariga oid takroriy so‘zlar uchraydi.

Yuqorida aytib o‘tganimizdek ot turkumiga oid har qanday so‘zni takror qo‘llash bilan ham takroriy so‘z hosil bo‘lavermaydi. Asosan numerativ so‘z vazifasida kela oladigan ot turkumidagi so‘zlardan hosil bo‘la oladi. “Ular yakka holda o‘lchov (miqdor) ma’nosini bildira olmaydi va yakka holda otlar bilan grammatik aloqaga kirisha olmaydi. Bunday so‘zlar predmetning o‘lchov (miqdor) jihatdan belgisini bildirib kelishda yo sonlar bilan birga qo‘llanadi yoki ularning son jihatidan ko‘p ekanligi shu so‘zlarni takror holda (takroriy so‘z holida) qo‘llash orqali ifodalanadi (arava-arava qovun, shoda-shoda marvarid qabi)”[6,97]. Bunday so‘zlar takror holda qo‘llanganda, aniq miqdorni emas, noaniq miqdorni ifodalaydi. Bunday takroriy otlar “Boburnoma”da ko‘plab uchraydi. Misollar: **1. Ko‘y-ko‘y, mahalla-mahalla, favj-favj.** Samarqandning mahalla-mahalla, ko‘y-ko‘y avbosh va yatimlari favj-favj yig‘ilib, yatimona salavotlar chekib, madrasa – eshigiga kelib, urushg‘a chiqarlar edi. **2. Ko‘za-ko‘za**. Oxir ko‘za-ko‘za suv keturub quyub, tashqi elni naqbdin qochurdilar. **3. Sanduq-sanduq**. Har xazinada sanduq-sanduq va tang-tang raxtlar va ortmoq-ortmoq va qon-qon oq tangalar, har kimning o‘tog‘ida va chodirida har jins o‘ljadin. **4. Qabila-qabila**. munda viloyat va kentlarda mug‘tavattin, ellarning qabila-qabila otlari bo‘ladur. **5. Qir-qir**. Sipohisi va raiyati bizning eldin qir-qir qocharlar edi. **6. Qit’a-qit’a**. Bu jihattin Muqatta’ derlarkim, qit’a-qit’a yig‘ochlarni tarosh qilib, islomiy va xitoiy naqshlar solibturlar, tamom devorlari va saqfi ushbu yo‘sunluqtur. **7. Qop-qop**. Bek va begot, navkar va tobin xarvor-xarvor va qop-qop oq tangani vajh va ulufalarig‘a yuklab, ko‘tarib – eltarlar edi. **8. Xarvor-xarvor, qator-qator**. Buro‘ng‘i o‘rdu emas, tanig‘usiz o‘rdue bo‘lubtur: yaxshi to‘pchoq otlar va qator-qator nar va moya tevalar va xachirlar va qumosh – raxtliq xar, zinliq moyalar va saqarlot va maxmal chodirlar va shomiyonalar va har uyda xarvor-xarvor sanduqlar. **9. Xat-xat**. Tarrohliq qilg‘ondek bu tepaning olti tarafida bir daf’a sariq va bir daf’a arg‘uvoniy gul xat-xat musaddas shaklda ochilibtur.

Natijalar va ularning tahlili

Shuni ta’kidlab o‘tish kerakki, “Boburnoma”da takroriy otlar faqat o‘lchov ottenkasini emas ma’noni ham kuchaytirib keladi (ma’no alohida ta’kidlanadi). Misollar: **1. Barmoqcha-barmoqcha**. Quyiroq bir munosib yerda jax bog‘larlar, jax bog‘lamoq andoqdurkim, tol xunchalaridin barmoqcha-barmoqcha xunchalarni chig‘dek to‘qurlar, bu chig‘ni suvning to‘kulur yerida kovok qo‘yub, atrofig‘a tosh qalarlar. **2. Bo‘lak-bo‘lak**. Hech chopqunda muncha qalin qo‘y tushgan emas edi: Molni yondurub tushgandin so‘ng‘, har tarafdin bo‘lak-bo‘lak kelib, tuzga tushub, urush angizi qildilar. **3. Bo‘lak-bo‘lak**. U Kofir kishisi ham xabardor bo‘lub, o‘trudin bo‘lak-bo‘lak yasab – keldilar. **4. Chorsu-chorsu**. Bu gunbazlarni oralarida kichik Hinduston dasturi bila chorsu-chorsu gunbazchalardur. **5. Martaba-martaba**. Chorbog‘da ham martaba-martaba yerlarni siyoq bila tuzatib; yaxshi narvonlar va sarv va safedorlar tikibturlar, xeyli saromad Manziledur. **6. Pora-pora**. Tush-tushidan pichoqlab, chopqulab, pora-pora ayladilar. **7. Shukr-shukr**. Sulton Junayd og‘iz so‘zi muni debturkim, shukr-shukr tengri inoyatidin bu taraflar podshoh mutavajjih bo‘lg‘uncha ish ko‘runmaydur. **8. Ushoq-ushoq**. Ushoq-ushoq changallarida qirg‘ovul va tovushqon qalin bo‘lur.

Asarda otlarni takror holda qo‘llash bilan biror so‘z yoki affiks orqali ifodalanadigan ma’nolar ham ifodalangan. Misollar: **1. Buta-buta**. Va buta-buta bo‘lur, bargi noranj bargidin ulug‘roq bo‘lur. **2. Fundukdek-fundukdek**. Mazasi dil ochur chuchukdur, ichida fundukdek-fundukdek donalari bor. **3. Laq-laq**. Ul gunbazning o‘rtasida yerga tepsalar gamom gunbazdin laq-laq un kelur, g‘arib amerdur, hech kim muning sirrini bilmas. **4. Olmadek-olmadek**. Ko‘p kishining quloqlari olmadek-olmadek qabarchug‘lanib edi.

“Boburnoma”da takroriy sifatlar ham ko‘plab uchraydi. Takror kelgan sifatlar turli ma’nolarni ifodalagan. Masalan, quyida berilgan misollar takror sifatlar o‘zi aniqlab kelgan predmetning miqdor jihatdan ko‘pligini bildiradi. **1. Durusht-durusht**. Durusht-durusht nasihatlar bitib, yibordim. **2. Hamvor-hamvor**. Agarchi ul tog‘larcha baland emastur, ko‘zga haqir ko‘runur, vale g‘arib berk tog‘lardur, hamvor-hamvor pushtalar ko‘runur, Barre tamom pushtasi va tog‘i yirik -toshliq pushta va tog‘dur, har yerdin ot bila yurub bo‘lmas. **3. Keng-keng**. Hindueton eli keng-keng quloqlarining tushuklariga halqa bo‘lmasa, bu tor bargidin yasab soladurlar. **4. Kichik-kichik**. Yana savrun eli o‘lturur uchun bu devonxonaying har zil’ida kichik-kichik toqchalar qilibtur, muncha oliy toq olamda kam nishon berurlar. **5. Kichikrak-kichikrak**. Uch-to‘rt yerda kichikrak-kichikrak ko‘g‘tallari, ikki-uch yerda tangilari bor. **6. Kichikrak-kichikrak**. Tog‘lari kichikrak-kichikrak pushta yo‘sunluq tog‘lardur, kentlari bu tog‘larning domanalarida voqe bo‘lubtur. **7. Kichikrak-kichikrak, ulug‘-ulug‘**. Orqasidag‘i gullari kichikrak-kichikrak gullardurOrqasidin quyiroq ushbu ranglar bila munaqqash ulug‘-ulug‘ gullar quyrug‘ining uchig‘acha bordur. **8. O‘bdon-o‘bdon**. Ba’zi o‘bdon-o‘bdon yigitlar ushbu loritqon bila poet O‘shqa boribturlar. **9. O‘bdon-o‘bdon**. O‘bdon-o‘bdon kishilar yayoqladilar. **10. O‘bdon-o‘bdon**. Ushbu o‘n-o‘n besh-yigirma kishining otlari-o‘q ilgari tortildi, o‘zga tamom o‘bdon-o‘bdon yigitlar

va bek otongʻonlar otlaridin ham tushmay, tayyor tepilgan va bosilgʻon yoʻlgʻa kirib, boshlarin quyi solib kelurlar edi. **11. Oʻbdon-oʻbdon**. Bu jihatlardin aksar-beklar va oʻbdon-oʻbdon yigitlar koʻngul solib edilar. **12. Oq-oq**. Oq-oq tuklari bordur, ikki koʻzining ikki yonida qizil xatte tushubtur, tovre qichqururkim. **13. Past-past**. Past-past, oʻti oz, suyi tanqis, Yigʻochsiz, badnamoy, yaramas togʻlardur. **14. Past-past**. Qarqand past-past tikanlar boʻlur, oʻli-qurugʻi teng kuyar, tamom Gʻazni elining oʻtuni budur. **15. Past-past**. Bu togʻlar past-past va durusht va toshliq va jangalliq togʻlardur. **16. Qisqa-qisqa**. Bir-ikki qatla juvongʻor, burongʻor sari qisqa-qisqa hamlalar qildilar. **17. Qora-qora**. Shanba kuni, avvalgʻi kuni safroyi soʻxtadek qora-qora nimalar daf' boʻldi. **18. Turluk-turluk**. Fosiq va bebok edi, fisqning shomatidin obila marazigʻa giriftor boʻlur, ilik-oyogʻidin qolib, necha yil turluk-turluk azob va mashaqqatlar tortib, ushbu baliyya bila-oʻq olamdin naql qildi. **19. Turluk-turluk**. Xayolimda bu edikim, tushgan yurtta turluk-turluk azob va uqubat bila oʻlturgaylarkim, jami' rahzan va sarkashlargʻa ibrat boʻlgʻay. **20. Turluk-turluk**. Sabzasi Kobul viloyatining oʻzga yerlarigʻa boqa, xeyli yaxshi boʻlur, turluk-turluk lolalar ochilur, bir qatla lola anvoini buyurdumkim, sanadilar, oʻttuz toʻrt nav' lola chiqti, nechukkim bu yerlarni ta'rifida bir bayte aytilib edi. **21. Ulugʻ-ulugʻ**. Ulugʻ-ulugʻ beklar va yaxshy-yaxshi yigitlar. **22. Ulugʻ-ulugʻ**. Ulugʻ-ulugʻ rim daraxtlari ham bor. **23. Uluq-uluq**. Soygʻa yovuq uchun soy toshlaridin uluq-uluq qozondek toshlar qoʻrgʻongʻa chiqarib edilar. **24. Yassi-yassi**. Xeyli xushnamo daraxti "bor, yassi-yassi xushrang sabz barglari yaxshi koʻrunur. **25. Yaxshi-yaxshi**, **Oʻbdon-oʻbdon**. Oʻbdon-oʻbdon beklarni va yaxshi-yaxshi yigitlarni tushurub kelturdilar. **26. Boshqa-boshqa**. Bu ikki ogʻa-inining jihotini boshqa-boshqa xazina qilib edi.

Fe'l ifodalagan harakatning takroriy boʻlganligini ifodalash uchun hol vazifasida kelgan sifat takrorlangan. Masalan: **1. Inichka-inichka**. Inichka-inichka kesib qoʻyubturlar, tavre koʻrunadur. **2. Qattiq-qattiq**. Zunnunbek mirzolargʻa nasihat yoʻsunluq qattiq-qattiq aytib, chogʻir taklifini tamom bartaraf qilibturlar.

Kesim vazifasida kelgan sifat takror holda qoʻllanib, oʻzi aniqlab kelayotgan soʻzning koʻpligini bildirsa, takroriy sifat hisoblanaveradi:

Turluk-turluk. Bu ham turluk-turluk boʻladur.

Turkiy tillarga oid ba'zi adabiyotlarda sifatlarning takrorlanishi orqali predmetning belgisi kuchaytiriladi, belgining ortiqligi ifodalanadi deb koʻrsatiladi[8,213; 9,127] lekin bunday takroriy sifatlar uchramadi.

Boburnoma"da fe'llarning -b (-ib) hamda -a / -y affiksli ravishdosh shakllarining takroriy qo'llanishi harakatning davomiyligi yoki takror sodir bo'lishini bildiradi. Asarda bunday shakllar ko'p uchraydi. Quyida Boburnomadan misollar keltiriladi: **1. Ayta-ayta.** Qandahor navohisida koʻp turarimizni saloh koʻrmay, ayta-ayta muhassilliqlari bila koʻchturdi. **2. Bora-bora.** Hindustoniylar mundoq harakatlarni gohi sokin oʻqurlar, nechukkim derlar, gʻasadoni sasdz depturlar, bora-bora «Xact» boʻlubtur. **3. Bora-bora.** Bora-bora uzoqqa tortar. **4. Chopa-chopa.** Cherik eli chopqun chopa-chopa otlarini xarob qildilar. **5. Icha-icha.** Hiriy chogʻirini ifrot bila icha-icha-oʻq otasi zamonida oʻldi. **6. Osib-osib.** Daraxtdin goʻyokim kissalarni osib-osib qoʻyubturlar. **7. Oʻtkara-oʻtkara.** Oʻtkara-oʻtkara otibturlar. **8. Oʻtub-oʻtub.** Bir-ikki oʻq oʻtub-oʻtub tushti. **9. Qila-qila.** Xoja Muhammad Ali erkiga qoʻymay, taklif qila-qila chogʻir ichurdi. **10. Qochib-qochib**. Ozurda boʻlgʻonlar qochib-qochib Boysungʻur mirzogʻa kela boshladilar. **11. Reza-reza.** Oʻzi der edikim, birovning inchka oychasi sinib, bir tutamcha yeri reza-reza boʻlub edi, etini yorib, yoq soʻngaklarini tamom. **12. Sura-sura.** Soʻngralar xud ul mehr ham qolmadi, vale hijob hanuz koʻprak boʻldi, bir oyda va qirq kunda onam xonim muhassilliqlar bila sura-sura, tashvishlar bila yiborur edi. **13. Susub-susub.** Bu kiyik urushqa gʻarib harisdur, filhol urushga kirur, shox urushub, susub-susub ilgari keyin borurda. **14. Toʻla-toʻla.** Turdi Muhammadqa ham mastlar toʻla-toʻla ayoqlarini pay- darpay berib, oz fursatda masti loya'qil qildilar. **15. Tushira-tushira.** Yogʻiyni bosib tushira-tushira yuruldi. **16. Tushura-tushura.** Ilik olishib turgʻonlar tushura-tushura keyinicha tebradilar. **17. Tushura-tushura.** Yogʻiyni bosib tushura-tushura tebraduk. **18. Tushura-tushura.** Gʻanimni tushura-tushura olib, otliq tebrarlar. **19. Tuta-tuta.** Andoqkim, suv bu chigʻqa sharillab tushgay, tushgan bila qoʻyi-oʻq borgʻay, suv u quyi borur, baligʻ chigʻning ustida qolur, mast boʻlgʻon baliqni yuqqoridin tuta-tuta kelurlar. **20. Ura-ura.** Bila qatilib, Oʻsh sari tortib edi, Oʻshqa kirgach, Oʻshda ham qiziloyoq, qarotayoq qilib zarbi rost ura-ura Oʻshdin qovlab, qoʻrgʻonni bizning uchun saxlab, bizga kishi yibordilar. **21. Ura-ura.** Uyquluq, koʻnglakchan qoʻpub, besholti kishi bila otqulab, ura-ura bularni chiqarur. **22. Yasab-yasab.** Ushbu tor bargʻidin quloq tushuguga solmoq uchun bozorlarda yasab-yasab sotadurlar. **23. Yiqita-yiqita, oʻtkara-oʻtkara.** Qalqondin, jibadin, govsardin oʻtkara-oʻtkara, yiqita-yiqita ottilar. **24. Yumalana-yumalana.** Abdulquddus koʻhbur Kattabekning ogʻasi fasil tubigʻa chiqib edi, fasildin andoq tosh urdilarkim, hech yeri yerga tegmay durust muallaq oshib: oʻshandoq baland yerdin qoʻrgʻonning xokrezining tubigacha yumalana-yumalana keldi, vale hech boʻshmadi. **25. Ur-ur.** Ganbal oʻzi yana bir kishi bila yasolidin eshiklik, tuvurluk, ilgarrak ur-ur deb turubdur, vale eli aksar yonlarini berib, qochay qochmay degandek etib turubdurlar. **26. Ur-ur.** Choʻhralar – har kim kemaning bir yigʻochini olib, ur-ur deb.

"Boburnoma"da ba'zan birinchi shaxs istak mayli shaklidagi fe'l takroriy ko'rinishda kelib, "deb" to'liqsiz fe'li bilan qo'llanadi. Bunday konstruktsiya harakat amalga oshishiga juda oz qolganini, ya'ni kutilgan natijaga yetishga yaqin holatni bildiradi. Masalan: **Yuru-yuru.** Yuru-yuru deb, ilgari yurudum.

Ravishlar fe’lning belgisini bildirib keladi. Takroriy ravishlar qo‘llanganda, shu ravishning leksik ma’nosiga qo‘shimcha ma’nolar yuklanadi.

Takroriy ravishlar o‘zi bog‘lanib kelgan fe’ldagi harakatning bir necha marta, takror-takror bo‘lishini bildiradi. Ammo necha marta takrorlanganligi noaniq bo‘ladi. Buni “Boburnoma”dan olingan misollarimizda ko‘rishimiz mumkin. Masalan: **1. Birar-birar**. Samarqand fathidin so‘ng Shovdor va Sug‘d va tumonot yovugi qo‘rg‘onlar birar-birar manga ruju’ qila boshladilar. **2. Birar-birar**. Olmas, ichkarig‘i chig‘ning quyig‘i ichkarigi, og‘zini, andoq qilibturlar, yuqqorig‘i og‘zidin balig‘kim, kirar, ichkarigi oshdidin birar-birar o‘tar. **3. Bot-bot**. Agar kunduzdin avvalg‘i pahr bo‘lg‘on bo‘lsa, bot-bot qoqqondin so‘ng darangi qilib, bir navbat qoqarlar. **4. Bot-bot**. Har pahrkim tugansa, alomati budurkim, to‘qmoqni karyolg‘a bot-bot g‘alaba-g‘alaba qoqarlar. **5. Bota-bota, ko‘p-ko‘p**. Bo‘sh otni tortilur edi, uzangusig‘acha, qoptolig‘acha ko‘p-ko‘p, bota-bota bu bo‘sh ot ham o‘n-o‘n besh qadamcha yo‘l yurub toliqur edi. **6. O‘qtin-o‘qtin**. Kofirlarning guruhlari o‘qtin-o‘qtin o‘z kishilari yordamiga yetib turardilar.

Takror ravishlar qo‘llanganda ma’noni kuchaytirishini ham ko‘rish mumkin. **1. Oz-oz**. Oz-oz kishi beridin borib, naridin kelib, ora yo‘lda, otqulashib yonar edi. **2. Oz-oz, qalin-qalin**. Oz-oz kishi bila qalin-qalin hazora va nakdariyni yaxshilar bosti. **3. Ozroq-ozroq**. Kepak mirzo ozroq-ozroq kishi bila og‘asining g‘animig‘a chopar, ani ham ko‘tarurlar. **4. Xayl-xayl**. Ushbu kundin ulug‘-kichik, yaxshi-yamon va bek va bek navkarg‘ari xayl-xayl ko‘ch va mollari bila andin ayrilib, bizga kela boshtadilar. **5. Yiroq-yiroq**. O‘q va qilich zaxm zarbini va masof va maydon qitol va harbini ko‘rmagan avbosh va aytom bu muomaladin daler bo‘lub yiroq-yiroq chiqa kirishtilar.

Ba’zi takroriy ravishlar biror harakat-holat yoki voqea-hodisaning ma’lum vaqt davomida, ma’lum vaqt o‘tishi bilan yuzaga kelishini bildiradi. **1. Biror-biror**. Bizning boyiri beklarimiz va ichkilarimizkim, Ali Do‘stning ziddi edilar, bularning ba’zisini qovlab, ba’zisini talab, ba’zisini tug‘turub edi, biror-biror yig‘ilib keldilar.

Xulosa

Xulosa qilib aytganda, takroriy so‘z deganda har qanday so‘zning oddiy takrori emas, balki bir so‘zning takror holda qo‘llanishi orqali uning leksik ma’nosiga qo‘shimcha ravishda muayyan grammatik yoki stilistik ma’nolarni ifodalovchi, leksik-grammatik jihatdan bir butunlikni tashkil etuvchi birlik tushuniladi. Takroriy so‘zlar odatda ikki komponentdan iborat bo‘lib, bu komponentlar morfologik jihatdan bir xil shaklda bo‘ladi. Agar bir so‘z turli grammatik shakllarda yonma-yon qo‘llansa, takroriy so‘z hisoblanmaydi. Takroriy so‘zlar barcha mustaqil so‘z turkumlarida uchraydi va ko‘pincha ko‘plik, kuchaytirish, davomiylik kabi ma’nolarni ifodalaydi.

Shu nuqtai nazardan, Boburnoma tilida takroriy so‘zlarning qo‘llanishi muallifning yuksak badiiy mahoratini namoyon etadi. Ular nutqqa ohangdorlik va ifodaviylik baxsh etib, voqea-hodisalarni yanada jonli tasvirlash, harakatning davomiyligi yoki kuchayishini ko‘rsatishda muhim uslubiy vosita vazifasini bajaradi. Shuningdek, takroriy birliklar orqali qahramonlarning ruhiy holati, muallifning munosabati hamda tasvirning ta’sirchanligi kuchayadi.

Umuman olganda, “Boburnoma”da takroriy so‘zlarning qo‘llanishi o‘zbek adabiy tilining boy va serqirra imkoniyatlarini ochib berib, uni nafaqat tarixiy, balki lingvistik jihatdan ham chuqur o‘rganishga arzigulik muhim hodisa sifatida baholash imkonini beradi.

XURSHID DAVRONNING ONA TILI MAVZUSIDAGI SHE'RLARINING SEMANTIK VA LINGVOSTILISTIK XUSUSIYATLARI

Musaboyeva Zulxumor
Namangan davlat universiteti tadqiqotchisi

Annotatsiya. *Maqolada Xurshid Davronning "Ona tilim", "Ey, elim, ey, tilim, ona tuproq", "Koshg'ariy", "Devonul lug'ati-turk" ohanglari", "Karlusha", "Ona tili haqida ballada" she'rlarining semantik va lingvostilistik xususiyatlari yoritilgan.*

Kalit so'zlar*: ona tili, semantik, lingvokulturologik, tashbeh, sifatlash, takror, ta'zod, assotsiativ munosabat.*

SEMANTIC AND LINGUO-STYLISTIC FEATURES OF KHURSHID DAVRON'S POEMS ON THE MOTHER TONGUE

Annotation. *The article examines the semantic and linguo-stylistic features of Khurshid Davron's poems "My Mother Tongue", "Oh, my people, oh, my language, mother soil", "Koshgariy", "The Melodies of Devonul Lug'at-it-Turk", "Karlusha", and "A Ballad about the Mother Tongue".*

Keywords: *mother tongue, semantic, linguoculturological, simile, epithet, repetition, antithesis, associative relations.*

СЕМАНТИЧЕСКИЕ И ЛИНГВОСТИЛИСТИЧЕСКИЕ ОСОБЕННОСТИ СТИХОТВОРЕНИЙ ХУРШИДА ДАВРОНА О РОДНОМ ЯЗЫКЕ

Аннотация. *В статье рассматриваются семантические и лингвостилистические особенности стихотворений Хуршида Даврона «Мой родной язык», «О, мой народ, о, мой язык, родная земля», «Кошгарий», «Мелодии "Девону луғати-тюрк"», «Карлуша», «Баллада о родном языке».*

Ключевые слова: *родной язык, семантический, лингвокультурологический, сравнение, эпитет, повтор, антитеза, ассоциативные отношения.*

Xurshid Davron so'zga, ifoda vositalari va she'riy shakllarga yuksak mezonlar asosida yondashuvchi mahoratli shoir. Shoir she'riyatida ona tili mavzusida alohida o'rin tutadi. Uning yozilgan *"Ona tilim", "Ey, elim, ey, tilim, ona tuproq", "Koshg'ariy", "Devonul lug'ati-turk" ohanglari", "Karlusha", "Ona tili haqida ballada"* kabi she'rlari ona mavzusida yaratilgan sara asarlardir.[1:38-55]

Shoir ikki qismdan iborat Mahmud Koshg'ariyga bag'ishlangan she'rida buyuk tilshunos, lug'atshunos timsolini yaratadi va uni so'zlatadi:

Chol bilar, ona tili – xalqning yuragi,
Xalq o'lmas – so'zini o'ldirolmasang.
Ona tilda jodir xalqning tilagi,
Har so'zida yashar xalqning tilagi.

("Koshg'ariy")

Shoir isbot talab etmaydigan purma'no hikmatni Koshg'ariy misolida bayon etadi. Ona tilida xalq, millat yashaydi,til o'lmasa, xalq ham o'lmaydi. Ona tilida xalqning ezgu niyatlari, tilagi, orzusi jam. Ona tili vositasida bu kelajak avlodga yetadi, yashaydi. Demak, ona tilida millat, xalq yashaydi. Shoir buni "*ona tili – xalqning yuragi"* o'xshatishi va "*Ona tilda jodir xalqning tilagi, Har so'zida yashar xalqning tilagi"* she'riy hikmati bilan ifoda etadi.

"Ey, elim, ey, tilim, ona tuproq" nomli *Mahmud Koshg'ariy, Alisher Navoiy, Zahiriddin Muhammad Bobur, Boborahim Mashrab, Turdi Farog'iy, Nodira, Furqat, Ogahiy, Avaz O'tar, Cho'lpon, Usmon Nosir, Oybek, Mirtemir, Maqsud Shayxzoda* kabi buyuk shoirlar ismi va taxallusi bilan atalgan sonetlar turkumini yaratadi.

Onomastikada har qanday badiiy, ilmiy, diniy, siyosiy asarning nomi (sarlavhasi) **biblionim** deb ataladi. [2: 21] Badiiy asarlarning mavzusi, g'oyasi, mazmun-mohiyat, albatta, sarlavhalar bilan bog'liq. Bu Xurshid Davron she'rlarida ham yorqin ko'rinadi. Avvalo, sonetlarning umumiy nomi – pitorik murojjat shaklidagi biblionim asarning mavzusi va

g‘oyasiga ishora etadi. Demak, sonetlar el, ona tili va vatan haqida. Shaxs ismi yoki taxallusi bilan atalgan sarlavhalar **antrobiblionimlar,** ya’ni kishi ismi, otaismi va taxallusi bilan atalgan sarlavhalar hisoblanadi. Shoir turkumga jamlangan14 ta sonetni aynan shoir va adiblarning ismi, taxallusi bilan atalganligi ham betakror va shoirgagina xos kashfiyot.

Sonetlar monolog uslubida yaratilgan, shoir va adiblarning har biri o‘z hayoti, taqdiri xususida so‘zlaydi.

Mahmud Koshg‘ariy tilidan ona tili Vatanning har bir go‘shasida, har bir narsada mavjudligini, unda sehr-u joziba borligini, tinglangan sari mehr-u muhabbat ortishini, u tili bor ekan, el, millat o‘lmasligini, u bor ekan insonlar ko‘zidan nur arimasligini “*Dasht-u yovshan isi anqigan”* xalqona sifatlashi va “*Sen borsan, hech qachon”* birikmasi takrori vositasida ta’kid bilan obrazli ifoda etadi:

Dasht-u yovshan isi anqigan tilim,
Seni tinglab dilda sevgi kuchayayur,
Sen borsan, hech qachon o‘lmaydi elim,
Sen borsan, hech qachon ko‘zdan yitmas nur.

Koshg‘ariy monologining davomi nafaqat ulug‘ bobomizning turkiy tilga bag‘ishlangan umri, fidoyiligi ifodasi, balki har bir ona tilini sevgan, qadrlaydigan inson ahdi yahg‘lig‘ umummilliy mazmunga ega:

Bitiktoshing bo‘lay, bag‘rimga o‘yil,
O‘yil, qonlarimga dokaday bo‘yal.
Qonlarim baxsh etsin senga biyron til,
Yalovlar ko‘ksimda tovlansin yal-yal.
Sen ila yig‘layin, sen ila kulay,
Sen unut bo‘lmasang, unut bo‘lmasman,
Sen agar o‘lmasang, men ham o‘lmasman.
Gulga egilgandek senga egilay,
Chorlasang, chiqarman mamot jangiga,
Uyqashsan jangdagi tig‘ jarangiga…

She’rda to‘rt o‘rinda – misra boshida, o‘rtasidagi takror qo‘llangan *sen* kishilik olmoshi fikrni ta’kidli, aynan shu misralarda *yig‘lay va kulay, bo‘lmasang, bo‘lmasman* fe’llari asosida yaratilgan ta’zod san’ati esa lirik qahramon ahdini ta’sirchan ko‘tarinki ruhda ifodalashga xizmat qilgan.

Tilning go‘zalligi lirik qahramonning g*ulga egilgandek unga egilishni istashi,* qudrati *tig‘ jarangiga* tashbehlash asosida yorqin chizilgan.

Shoir ona tilining aziz va muqaddasligini Alisher Navoiy tilidan xalqona sodda va betakror tashbeh va sifatlashlar bilan ifoda etadi:

Tilim, ko‘zim oqi, ko‘zim qarosi,
Sen belim madori – ilg‘ay hassamsan,
Avlodlarga meros o‘tli qissamsan.

Chindan ham ona tili insonga dunyoni, borliqni va o‘zini anglatuvchi vosita, misoli ko‘z, odamnini mavjudligi, bardavomligi asosi – *beliga mador, ilg‘ay hassa.*

Muallif shoir Mirtemir tilidan butun *“Hech qachon o‘lmaysan, o‘lmaysan, tilim”* degan xalqning yurak so‘zini, orzu-istagini, falsafiy haqiqatni baralla aytadi:

Hech qachon o‘lmaysan, o‘lmaysan, tilim,
Erka shoiringning yurak so‘zi bu.

She’riy misradagi *o‘lmaysan* fe’lining poetik takrori fikrni ta’kid bilan ifodalashga xizmat qilgan.

Shoir sonetlarni ona tili, ona Vatanga bo‘lgan yuksak iftixor, g‘urur va ishonch bilan yakunlaydi:

Bu qutlug‘zaminda jarangla, yangra,
Qo‘shig‘im, karnayim, g‘ijjak, rubobim,
Hasratim, quvonchim, g‘am, iztirobim.
Dunyoda bor bo‘lsa necha xil ranglar
Kelsin, ko‘rsin, senda yuz karra ko‘proq…
Ey, elim, ey, tilim, ona tuproq…

(“Ey, elim, ey, tilim, ona tuproq”)

Grammatik jihatdan egalik shaklidagi ot va buyuruq-istak shaklidagi fe’llar, semantik jihatdan uyadosh so‘zlar asosida yaratilgan ohangdoshlik, musiqiylik ruhida yaratilgan mazkur she’riy misralarda buyuk hikmat mujjasam. Ona tilimiz, zaminimiz boy, unda turfa dunyoning barcha rangi bor. She’rning so‘ngi ikki misrasiga qofiya qilib olingan *ko‘proq* sifatida, sinekdoxa usulida qo‘llangan *tuproq* so‘zlarida ham aynan bu mazmun shakl va ma’no uyg‘unligida ifoda etilgan. **Demak, boy millat, xalq, mamlakatning ona tilisi ham boy bo‘ladi.**

Shoir diolog uslubida yozilgan kichik she'rida sobiq sho'ro hukumati, qatag'on davri bilan bog'liq fojialarini tasvirlaydi:

– *Buncha qo'rqoq bo'lmasang, do'stim?*
– *Netay, axir, men erksiz o'sdim.*
– *Nega yolg'on so'zlaysan, aytgin?*
– *Xo'rlaganlar bolalik paytim.*
– *Bolalaring sotarsan nechun?*
– *Otam meni sotgani uchun.*
– *Nechun sen voz kechding elingdan?*
– *Ayirganlar ona tilimdan!...*

She'rning mazmun-mundarijasi juda keng. Bu alohida tadqiqotlarni talab etadi. Biz ona tili haqidagi misralarga e'tibor qaratadigan bo'lsak, *ona tili Vatan, el, millat erk, ozodlik, mustaqillik, istiqlol* tushunchalari bilan egiz va bog'liq. *Ona tilini unutgan kishi elini, Vatanini va o'zini unutadi.* She'rda ana shu falsafiy hikmat yorqin bayon etilgan. Bu, albatta, sobiq sho'ro davrining siyosati mahsuli edi.

Xullas, shoirning turkum she'rlarida ona tili millat, xalq, Vatan tushunchalari bilan assotsiativ bog'liqlikda talqin etilgan. Albatta, bu asosli va mantiqli. Inson hayotida bu tushunchalar muhim o'rin tutadi.

Shoir she'rlaridan *"Ona tili – dunyoni, Vatanni, o'zlikni anglash vositasi. Millatning millatligi ona tiliga bog'liq. Millat yashar ekan, ona tili ham yashaydi, o'lmaydi!"*, degan hikmatni uqasiz!

МАГИЧЕСКИЙ РЕАЛИЗМ И ГРОТЕСК В СОВРЕМЕННОЙ ЖЕНСКОЙ ПРОЗЕ

Сиддикжонова Дурдона Сохибжон кизи,
студентка 2-курса Наманганского Государственного Университета
e-mail: durdonasiddiqjonova@gmail.com
ORCID: 0009-0001-7666-0561

Аннотация: *В статье исследуется специфика функционирования магического реализма и гротеска в современной русской женской прозе рубежа XX–XXI веков на примере знаковых художественных текстов Т. Толстой и О. Славниковой. Подробно рассматриваются особенности интеграции мифопоэтических элементов, фантасмагории и острой сатиры в реалистическую структуру повествования. Особое внимание авторы уделяют деконструкции советских и постсоветских социокультурных мифов через призму женской идентичности. В ходе проведенного филологического анализа выявляется, как двоемирие, метафизические образы и гротескное искажение телесности служат инструментами осмысления исторической травмы и кризиса идентичности в транзитивном обществе. Исследование доказывает, что женская проза не просто адаптирует традиционные приемы постмодернистской игры, но трансформирует их в сторону психологического реализма, формируя уникальную эстетическую парадигму. Полученные результаты существенно расширяют имеющиеся литературоведческие представления о границах художественного потенциала развития отечественного женского романа в XXI веке.*

Ключевые слова: *магический, реализм, гротеск, проза, мифопоэтика, Толстая, Славникова, постмодернизм.*

MAGICAL REALISM AND THE GROTESQUE IN CONTEMPORARY WOMEN'S PROSE

Abstract: *This article explores the specific functioning of magical realism and the grotesque in contemporary Russian women's prose at the turn of the 20th and 21st centuries, using landmark literary texts by T. Tolstaya and O. Slavnikova as examples. It examines in detail the integration of mythopoetic elements, phantasmagoria, and sharp satire into the realistic structure of the narrative. The authors pay particular attention to the deconstruction of Soviet and post-Soviet sociocultural myths through the lens of female identity. Philological analysis reveals how the "dual world" (dvoemirie), metaphysical imagery, and the grotesque distortion of corporeality serve as tools for conceptualizing historical trauma and the crisis of identity in a transitive society. The research proves that women's prose does not simply adapt traditional techniques of postmodern play but transforms them toward psychological realism, forming a unique aesthetic paradigm. The results obtained significantly expand existing literary scholarship regarding the boundaries of the artistic potential of the Russian women's novel in the 21st century.*

Keywords: *magical, realism, grotesque, prose, mythopoetics, Tolstaya, Slavnikova, postmodernism.*

ZAMONAVIY AYOLLAR NASRIDA SEHRLI REALIZM VA GROTESK

Annotatsiya: *Ushbu maqolada XX–XXI asrlar bo'sag'asidagi zamonaviy rus ayollar nasrida sehrli realizm va groteskning o'ziga xos funksionalligi T. Tolstaya va O. Slavnikaning muhim badiiy matnlari misolida tadqiq etiladi. Mifopoetik elementlar, fantasmagoriya va o'tkir satiraning realistik rivoyat tuzilmasiga integratsiyalashuvi xususiyatlari batafsil ko'rib chiqiladi. Mualliflar ayollar identifikatsiyasi prizmasi orqali sovet va postsovet sotsiomadaniy miflarini dekonstruksiya qilishga alohida e'tibor qaratadilar. Filologik tahlil jarayonida ikki dunyolilik, metafizik obrazlar va gavdalanishning grotesk buzilishi o'tish davri jamiyatidagi tarixiy travma va identifikatsiya inqirozini anglash vositasi sifatida qanday xizmat qilishi aniqlanadi. Tadqiqot shuni isbotlaydiki, ayollar nasri postmoderrnistik o'yinning an'anaviy usullarini shunchaki o'zlashtirib qolmay, balki ularni psixologik realizm tomonga transformatsiya qilib, noyob estetik paradigma shakllantiradi. Olingan natijalar XXI asr rus ayollar romanining badiiy salohiyati chegaralari haqidagi mavjud adabiyotshunoslik tasavvurlarini sezilarli darajada kengaytiradi.*

Kalit so'zlar: *sehrli, realizm, grotesk, nasr, mifopoetika, Tolstaya, Slavnikova, postmodernizm.*

Введение

Актуальность исследования обусловлена необходимостью теоретического осмысления глубоких эстетических сдвигов, происходящих в современной русской литературе на рубеже XX–XXI веков. В этот переходный период женская проза заявила о себе как о самобытном художественном феномене, активно

переосмысливающем традиционные нарративные стратегии. Сочетание магического реализма и гротеска в произведениях современных писательниц становится не просто формальным экспериментом, а важнейшим инструментом концептуализации кризисного состояния социума и человеческой психики. Данные художественные методы позволяют авторам преодолеть ограниченность классического бытописания, интегрируя метафизические, мифопоэтические и фантастические элементы в ткань повседневной реальности. Это способствует созданию многомерных моделей мира, где субъективный опыт женщины соотносится с глобальными историческими катаклизмами и потерей культурной идентичности. Обращение к гротеску позволяет вскрыть абсурдность тоталитарных, обнажая трагикомическую сущность бытия. Исследование поэтики магического реализма и гротескного миромоделирования в женской литературе позволяет выявить новые тенденции в развитии отечественного постмодернизма и неореализма. Научная значимость работы заключается в систематизации данных художественных практик, что открывает новые перспективы для анализа эволюции современного романа, определяя векторы развития женского письма в контексте глобального литературного процесса и способствуя более глубокому пониманию динамики художественного мышления эпохи. Своевременность данного труда подкрепляется академическим интересом к гендерным аспектам нарратологии и острой необходимости целостной переоценки устоявшихся жанровых классификаций в условиях интенсивной жанровой и стилевой гибридизации текстов в современном литературоведческом дискурсе.

Обзор научной литературы

Анализ научной литературы демонстрирует устойчивый академический интерес к проблемам жанровой трансформации современной прозы и специфике женского письма. Исследователь Т. Т. Давыдова детально рассматривает теоретические аспекты синтеза модернистских и реалистических элементов в литературе XX века, подчеркивая, что магический реализм выступает в качестве универсальной модели двоемирия, позволяющей авторам выходить за рамки классического мимесиса. В свою очередь, А. Н. Воробьева в своих фундаментальных трудах по истории современной русской прозы 1970–1990-х годов исследует процесс становления новых романных форм, указывая на то, что женское письмо вносит в эпическую структуру уникальный субъективно-лирический элемент. Воробьева подчеркивает, что именно женские авторы первыми среагировали на кризис традиционного реализма, обратившись к элементам притчи, фантасмагории и мифа. Проблему стилевого своеобразия прозы Татьяны Толстой детально анализирует А. Волков. В своем исследовании романа «Кысь» он фокусируется на территориальных и стилевых особенностях текста, доказывая, что в произведении происходит радикальное столкновение высокой элитарной культуры и низменной реальности. Согласно Волкову, это столкновение порождает специфическую пародийную игровую среду, лишающую авторитетные мифы их сакрального статуса. Теоретическое осмысление постмодернистской парадигмы в женской прозе продолжается в работах О. В. Богдановой. Исследовательница доказывает, что женская проза не является вторичным продуктом по отношению к «мужскому» постмодернизму, но вырабатывает собственные стратегии, где гротеск служит средством преодоления травматического опыта. Важный вклад в понимание динамики литературного процесса внес Н. Л. Лейдерман, который в рамках концепции постреализма охарактеризовал интеграцию магических и фантастических элементов как попытку восстановить целостность разрушенного бытия. Лейдерман отмечает, что авторы сочетают постмодернистскую иронию с глубоким психологическим анализом, что делает их произведения художественно многомерными. Наконец, И. С. Скоропанова в своих монографиях по русскому постмодернизму исследует деконструкцию культурных кодов в текстах современных писательниц. Она демонстрирует, как использование гротескного тела и фантастических допущений позволяет авторам деконструировать патриархальные и тоталитарные дискурсы, предлагая альтернативные модели идентичности.

Методологический аппарат исследования

Методологическую основу исследования составляет комплексный филологический подход, объединяющий методы структурно-семантического, сравнительно-исторического анализа. Применяются элементы гендерного и мифопоэтического подходов для декодирования символических структур в текстах. Данный методологический инструментарий позволяет выявить специфику функционирования гротеска и магического реализма в их взаимосвязи с психологической структурой повествования в современной женской прозе.

Анализ и результаты исследования

Филологический анализ художественной ткани произведений Ольги Славниковой и Татьяны Толстой демонстрирует сложный синтез магического реализма и гротеска, направленный на преодоление одномерности бытия. В романе О. Славниковой «2017» магический реализм реализуется через мифологизацию пространства Урала, где камни и горы оживают, превращаясь в метафизических существ, олицетворяющих потусторонний мир. Славникова виртуозно соединяет постмодернистское ощущение иллюзорности реальности с глубоким

реалистическим психологизмом. В ее художественной системе метафизические сущности не просто фантастический элемент, но отражение психологического состояния героев. Описывая горы, автор подчеркивает: «вещество горы, пропущенное сквозь человеческие пальцы, приобретает свойства живой, но смертоносной плоти». Здесь гротескное сращение неживой материи и человеческого духа обнажает категории Смерти и Пустоты , превращая реальность в мерцающий симулякр. Сама Славникова, отстаивая права женского письма, подчеркивает в эссе: «Женская проза создается и распространяется; появление писательниц в той профессиональной среде, которую прогнозисты нового тысячелетия уже объявили стайкой леммингов, бегущих топиться, свидетельствует о небезнадежных перспективах художественной литературы». Это свидетельствует о глубокой связи эстетических поисков писательниц с защитой профессионального статуса литературы в эпоху постмодерна. В свою очередь, роман Т. Толстой «Кысь» представляет собой образец антиутопического гротеска, где тоталитарное общество изображено через призму культурной деградации. Пространство романа наполнено «голубчиками», потерявшими культурную память, чья жизнь полностью ритуализирована. Гротескный мир «Кыси» строится на радикальном столкновении высокой культуры и низменной реальности. Характерным примером служит эпизод, где уцелевшая «инструкция к мясорубке» ставится на один уровень с «папирусами Александрийской библиотеки». Подобное соположение лишает культуру ее сакрального статуса, превращая ее в «объект пародии и постмодернистской интеллектуальной игры». Автор использует игровой модус, трансформируя «авторитетные мифы культуры в сказочную игру с этими мифами». Гротескность бытия в «Кыси» подчеркивается физиологическими мутациями героев. Главный герой Бенедикт страдает от болезненного расщепления личности, тщетно пытаясь «объединить традиционно противостоящие полюса: Детство и Взрослость, Разум и Чувство, Природу и Культуру, Истину и Красоту». Сама Кысь — метафорическое существо, невидимо терзающее душу героя, олицетворяет скрытый страх перед неведомым и внутреннюю пустоту: «Кысь в груди сидит, когтями сердце царапает». Это гротескное существо материализует метафизический ужас человека перед хаосом лишенного смысла существования. Обе писательницы используют магический реализм и гротеск не для ухода от реальности, а для ее радикального обнажения. Если у Славниковой метафизика гор служит для выявления «означаемого небытия» , то у Толстой гротеск деконструирует «авторитетные мифы культуры», превращая их в сказочную игру. Женская проза данного периода переосмысливает саму природу фантастического: оно перестает быть внешним декором и становится внутренним качеством психологической реальности героинь и героев, средством репрезентации травмированного сознания эпохи.

Для Ольги Славниковой магический реализм становится онтологической рамкой, внутри которой деконструируется сама субъектность. В романе «2017» она конструирует уральский миф, где ритуализированное пространство сталкивается со стихийными силами природы: «Горы — это застывшее время, которое в любой момент может проснуться и поглотить тех, кто осмелился потревожить их покой». Это превращает социальный ландшафт в пространство метафизического поиска. Творчество Славниковой подтверждает, что женская проза не изолируется в камерном бытописании, а выходит на уровень глобального философского обобщения. В романе «Кысь» Т. Толстой гротескное двоемирие проявляется в противопоставлении «прежних» — носителей классической культуры, и «нынешних» — мутантов-голубчиков, олицетворяющих деградацию. Бенедикт, застрявший между этими мирами, восклицает: «Мыслимо ли, чтобы человек всю жизнь прожил, а главного так и не понял? А где оно, главное-то?». Этот экзистенциальный тупик подчеркивает трагический характер толстовского гротеска. Потеря культурной памяти и «живого» просвещения приводит к тоталитарному вырождению, где ритуал заменяет истинное мышление. В результате синтез гротеска и магических элементов в женской прозе служит мощным инструментом деконструкции идеологических симулякров. Тем самым создается уникальная оптика, совмещающая трагическое переживание истории с иронией и утонченным психологизмом.

Художественный параметр	Роман Т. Толстой «Кысь»	Роман О. Славниковой «2017»
Доминирующий метод	Сатирический и антиутопический гротеск	Магический реализм и метафизический психологизм
Репрезентация двоемирия	Столкновение «высокой» культуры и «низкой» реальности	Граница между физической реальностью и потусторонним миром
Ключевой миф	Тоталитарные симулякры, миф о просвещении и Кысь	Мифопоэтика уральского ландшафта, метафизика Смерти
Тип главного героя	Расщепленный субъект (Бенедикт),	Психологический субъект, переживающий

Художественный параметр	Роман Т. Толстой «Кысь»	Роман О. Славниковой «2017»
	находящийся в поиске истины	экзистенциальную пустоту

Заключение

Проведенный филологический анализ позволяет сделать вывод, что магический реализм и гротеск в современной русской женской прозе рубежа веков выступают ключевыми механизмами эстетической переоценки реальности. Синтез фантастических элементов и бытового реализма способствует выходу литературы на новый уровень философского и психологического обобщения. На примере творчества Т. Толстой и О. Славниковой доказано, что использование гротеска помогает деконструировать советские и постсоветские мифы, обнажая абсурдность тоталитарных систем. Магический реализм, в свою очередь, расширяет онтологические границы художественного текста. Таким образом, женская проза задает новые векторы развития современной русской литературы, успешно преодолевая глубокий кризис эпохи постмодернизма и целостно отражая сложную динамику женского самосознания.

SHUKUR XOLMIRZAYEV NASRIDA XALQONA TIL VA BADIIY INDIVIDUALLIK

Hamidova Muhayyoxon Obidovna
Namangan davlat universiteti, O‘zbek adabiyotshunosligi kafedrasi professori, f.f.n.
E-mail: hamidova muhayyoxon@gmail.com

Annotatsiya: *Mazkur maqolada Shukur Xolmirzayev nasrida xalqona tilning badiiy individuallikni shakllantirishdagi o‘rni tahlil qilingan. Unda muallifning o‘zbek xalq og‘zaki ijodiy an’analari, xalqona ifoda vositalari va so‘z boyligi orqali qahramon obrazlarini jonli va tabiiy tasvirlash usullari ko‘rib chiqilgan. Ushbu maqolada Sh. Xolmirzaev ijodida tilning estetik va badiiy funksiyasi, shuningdek, yozuvchining individual uslubi va xalqona til vositalari o‘rtasidagi bog‘liqlik yoritilgan. Natijalar shuni ko‘rsatadiki, xalqona til elementlaridan foydalanish muallifga o‘ziga xos, realistik va hissiy jihatdan boy badiiy dunyo yaratishga imkon beradi.*

Kalit so‘zlar: *nasr, xalqona til, badiiy individuallik, individual uslub, og‘zaki ijod an’analari, qahramon obrazlari, estetik funksiyasi, badiiy tasvir, til vositalari.*

НАРОДНЫЙ ЯЗЫК И ХУДОЖЕСТВЕННАЯ ИНДИВИДУАЛЬНОСТЬ В ПРОЗЕ ШУКУРА ХОЛМИРЗАЕВА

Аннотация: *В данной статье анализируется роль народного языка в формировании художественной индивидуальности в прозе Шукура Холмирзаева. Рассматриваются методы живого и естественного изображения образов героев через использование автором узбекских народных устных традиций, народных выразительных средств и богатства словаря. В статье освещается эстетическая и художественная функция языка в творчестве Ш. Холмирзаева, а также взаимосвязь индивидуального стиля писателя с элементами народного языка. Результаты показывают, что использование элементов народного языка позволяет автору создавать уникальный, реалистичный и эмоционально насыщенный художественный мир.*

Ключевые слова: *проза, народный язык, художественная индивидуальность, индивидуальный стиль, устные творческие традиции, образы героев, эстетическая функция, художественное изображение, языковые средства.*

FOLK LANGUAGE AND ARTISTIC INDIVIDUALITY IN THE PROSE OF SHUKUR KHOLMIRZAYEV

Abstract: *This article analyzes the role of folk language in shaping artistic individuality in the prose of Shukur Kholmirzayev. It examines the methods of vividly and naturally portraying characters through the author’s use of Uzbek oral traditions, folk expressive devices, and rich vocabulary. The study highlights the aesthetic and artistic functions of language in Sh.Khlmirzayev’s works, as well as the relationship between the writer’s individual style and elements of folk language. The results show that the use of folk language elements enables the author to create a unique, realistic, and emotionally rich artistic world.*

Keywords: *prose, folk language, artistic individuality, individual style, oral creative traditions, character portrayal, aesthetic function, artistic depiction, language devices.*

Kirish

Badiiy nasrda xalqona til elementlaridan foydalanish qahramon obrazlarini jonli va tabiiy tasvirlash, shuningdek, yozuvchining individual uslubini shakllantirishda muhim o‘rin tutadi. Xalqona tilning o‘ziga xos ifoda vositalari, so‘z boyligi va og‘zaki ijod an’analari qahramonlarning ichki dunyosini ochib berishda badiiy matnga rang-baranglik va estetik boylik qo‘shadi.

Shukur Xolmirzayev ijodida esa xalqona tilning badiiy individuallikni yaratishdagi roli alohida e’tiborga loyiqdir. Muallif o‘zbek xalq og‘zaki ijodiy an’analari va til imkoniyatlaridan samarali foydalanib, qahramonlar obrazini realistik va hissiy jihatdan boy tarzda tasvirlaydi. Shu nuqtayi nazardan, maqolada Sh.Xolmirzayev nasrida xalqona tilning badiiy individuallikni shakllantirishdagi o‘rni, uning estetik va badiiy funksiyasi, shuningdek, muallif individual uslubi bilan bog‘liqligi tahlil qilinadi.

Adabiyotlar tahlili

O‘zbek adabiyotida badiiy til muammosi yetarli darajada tadqiq etilgan. Ammo bu masalani o‘rganishda goh lingvistik, goh adabiy tahlil usullariga og‘ish tamoyillari yo‘q emas. Bizningcha, badiiy til masalasi o‘rganilganda ishlatilayotgan so‘zning semantik jihatiga diqqatni qaratnsh maqsadga muvofiqdir. Chunki yozuvchi tasvir bilan o‘quvchi e’tiborini tortadi. So‘zning asar matnidagi o‘rni va ahamiyatida esa yozuvchi mahorati namoyon bo‘ladi. Shu ma’noda Shukur Xolmirzayevning so‘zdan foydalanish mahoratini o‘rganishda, avvalo, uning o‘z e’tiroflariga diqqat qilish kerak bo‘ladi. Demak, yozuvchining so‘zdan foydalanish mahoratini kashf qilish uchun uning ijodini epik tasvir imkoniyatlari va talablarini nazardan soqit qilmasdan tekshirish hamda u yaratgan badiiy obraz tasviriga diqqatni qaratish maqsadga muvofiqdir.

Rus adabiyotshunosi L.I.Timofeyev so‘zning badiiy tasvirdagi o‘rnini belgilar ekan, bu holni “shaklning mazmunga va mazmunning shaklga ko‘chishi”, deb ko‘rsatgan [1, 116]. Demak, so‘zning badiiy tasvirda tutgan o‘rnini tadqiq, etish asarning o‘quvchiga estetik zavq berish, unga ta'sir ko‘rsatish imkoniyatlarini belgilashga asos beradi.

Shunday qilib, so‘zning badiiy tasvirdagi o‘rni Shukur Xolmirzayev hikoya va qissalarida o‘ziga xos shakllarda namoyon bo‘ladi. Biz bu o‘rinda yozuvchining badiiy tili O‘.Hoshimov, O‘.Usmonov, U.Umarbekov va U.Nazarov kabi adiblardan farq qilishini, binobarin, bu holat Sh.Xolmirzayev asarlari tilining dialektizmlarga boyligi, ijodkorning “so‘zga xasis”ligi, ramz va kinoyaga moyilligida o‘z aksini topganligini qayd etishimiz lozim.

Tadqiqot metodologiyasi

Ushbu maqola Shukur Xolmirzayev nasrining badiiy-uslubiy qatlamlari va ularning poetik funksiyasini ilmiy asosda tahlil qilishga qaratilgan bo‘lib, unda adabiyotshunoslikda qo‘llaniladigan zamonaviy va an’anaviy metodlardan kompleks tarzda foydalandik. Maqolada adabiy-tahliliy metod yozuvchi hikoya va qissalaridagi badiiy-uslubiy qatlamlarni aniqlash hamda ularning matndagi o‘rnini belgilashda asosiy metod sifatida qo‘llanildi. Ushbu metod yordamida muallif nutqi, personaj nutqi, dialog va ichki monolog kabi unsurlar badiiy kontekstda tahlil qilindi. Bundan tashqari, tavsifiy metod yordamida uslubiy qatlamlar tizimlashtirildi va ularning poetik funksiyalari izchil tavsiflab berildi. Tadqiqot davomida olingan natijalar umumlashtirish va xulosa chiqarish orqali ilmiy asosda mustahkamlandi.

Tahlillar va natijalar

Tahlil jarayonida Shukur Xolmirzayev nasrida xalqona til elementlarining badiiy individuallikni shakllantirishdagi roli o‘rganildi. Natijalarga ko‘ra, muallif qahramon obrazlarini jonli va tabiiy tasvirlashda xalqona ifoda vositalari, so‘z boyligi, og‘zaki ijodiy an’analardan samarali foydalanadi. Bu vositalar qahramonlarning ichki dunyosini, ruhiy kechinmalarini va tabiatini chuqurroq ochib berishga xizmat qiladi. Xalqona til elementlari muallifga individual uslubini namoyon etish imkonini beradi. Ichki monolog, dialog va tasviriy detallardan foydalanish qahramon obrazlarini realistik va hissiy jihatdan boy shakllantirishga yordam beradi. Shu bilan birga, tilning estetik funksiyasi o‘quvchida badiiy matnga nisbatan estetik va hissiy qiziqish uyg‘otadi.

Natijalar shuni ko‘rsatadiki, Sh. Xolmirzayev ijodida xalqona tilning badiiy individuallikni yaratishda roli beqiyosdir. U nafaqat qahramon obrazini jonli va realistik qilishga, balki asarning umumiy badiiy muhitini boyitishga xizmat qiladi. Bu esa muallif ijodining o‘ziga xosligini va o‘quvchida kuchli hissiy taassurot qoldirishini ta’minlaydi.

Rus adabiyotshunosi G.Vinokur badiiy asar tili nima degan savolga jo‘ngina qilib: “Badiiy til deganda badiiy asarlar yozishda ishlatiladigan til tushuniladi” [2, 25], deb yozgan edi. Tabiiy bir savol tug‘iladi: badiiy asarlar yozishda ishlatiladigan til “umumxalq tili”, “milliy til”, “adabiy til” atamalari bilan yuritiluvchi, biz kundalik aloqa-aralashuvda foydalanadigan tildan boshqami, boshqa bo‘lsa nimasi bilan farqlanadi? Bu savolga javob berish uchun har ikki til bajarayotgan funktsiyalardagi farq va mushtaraklikka diqqat qilish zarur. Kundalik muloqotda ishlatiluvchi til ham, badiiy til ham informatsiya yetkazish va informatsiya olishga xizmat qiladi. Biroq bu o‘rinda o‘sha yetkazilayotgan ma’lumotning tabiatiga diqqat qilish zarur. Muloqot tili yetkazgan axborot oddiy informatsiya bo‘lsa, *badiiy til badiiy informatsiyani yetkazadi*, shunga ko‘ra, muloqot tili aloqa-aralashuv vositasi bo‘lsa, badiiy til badiiy muloqotning amalga oshishiga xizmat qiladi.

Shukur Xolmirzayev ijodining o‘ziga xosligi uning asarlari tilida yaqqol ko‘zga tashlanadi. Badiiy asar tilida yozuvchining tildan foydalanishdagi o‘ziga xos poetik mahoratini aniqlash uchun avvalo, adibning tilga bo‘lgan munosabatini kuzatish lozim. Adib bu xususda shunday degan edi: “Biz bitta adabiy tilni qabul qilganmiz, Haqiqiy adabiy til bu Andijon tili. Cho‘lponning tili. Men o‘zim yozganimda hamma vaqt muallif tilida, sof Andijoncha yozishga harakat qilaman. Ammo qahramonlarim o‘z-o‘zicha. Lekin adabiy tilga har narsani tiqishtirishni yoqtirmaganimdek, badiiy asar tilini ham buzishni xohlamayman” [1, 109].

Yozuvchi Shukur Xolmirzayev o‘z hikoyalarida badiiy tasvirning yuksak namunalarini yaratgan. Buning uchun u so‘z ma’rifatidan va so‘zning imkoniyatlaridan keng foydalangan. Bu o‘rinda yozuvchining so‘zdan foydalanish mahoratini uning hikoya va qisalari misolida kuzatish mumkin. Masalan, “Ozodlik” hikoyasi kontekstda so‘zning turli iboraviy shakllaridan foydalanishga harakat qiladi. Quyidagi parchaga diqqat qilaylik:

“Mansur karavot qoshiga suyanib:

– He, bulbulidan. Uxlang, otam, uxlang, – deya bir pas tirjayib turdi-da, yon-verini bosib qo‘yib, kaftlarini bir-biriga ishqadi. – Yaxshi, yaxshi bo‘ldi...

Elning oldidan o‘tdi hisob, ya’ni yuzi yorug‘ bo‘ladi-da. O‘ziyam ezilib yurardi. Ayniqsa, to‘y-hashamga borgan, ziyofatlarga tushib qolgan chog‘ida: axir o‘n yil yotib keldi. To‘rtta kishini chaqirib dasturxon yozolmadi. “Ey musulmonlar, umrdan bergan ekan, nasiba uzilmagan ekan. Mana saflaringga ko‘shildik. Bir duo beringlar” [4, 183], deb.

Bu parchada, dastavval ko‘zga tashlanadigan narsa badiiy tilning uch shakli namoyon bo‘lishidir: a) muallifning nutqi xalq so‘zlashuvida bitilgan; b) monolog goh yozuvchi, goh personaj tilidan berilgan; v) personaj (Mansur) nutqi o‘ziga xos semantik buyoqlar bilan berilgan.

Bu o‘rinda yozuvchining mahorati shundaki, u badiiy tilning uch shaklidan foydalanib, o‘quvchini o‘ziga ergashtira oladi. Bundan tashqari, yozuvchi adabiy til me'yorlariga rioya qilgani holda sheva va mahalliy dialekt so‘zlaridan unumli foydalangan. Masalan, quyidagi sheva so‘zlar yozuvchi tomonidan mahorat bilan qo‘llanilgan: “bulbulidan”, “yon-veri”, “buyam”, “kulba”, “epaqa”, “qumtosh”, “vassa”, “asqotib” va hokazo. Kuzatishlarga qaraganda, agar yozuvchi o‘zidagi so‘z boyliklarini adabiy til me’yorlaridan “chekinib” bo‘lsa-da, badiiy tasvirga jalb etsa, shu adabiy til leksik-semantik jihatdan boyib ketishi mumkin. Shu ma’noda Shukur Xolmirzayevning mahalliy sheva va dealektlardan unumli foydalanishi lisoniy nuqtayi nazardan ham ijobiy hodisadir. Sh.Xolmirzayev ijodida yaqqol ko‘zga tashlanadigan bir holat tinish belgilari tasvir va ifoda vositasiga aylanishidir. Yozuvchi asarlarining shaklan ixcham bo‘lishi va batafsil tushuntirish yoki izohlashga hojat bo‘lmasa-da, mazmun kengligi saqlanib qolishining sababi ham ana shunda. Adib tinish belgilar orqasida yashirgan ma’nolar o‘quvchiga fikrni anglash uchun unchalik qiyin bo‘lmaydi. Bu borada yozuvchining fikri shunday: “Tushunib-tushunmay bir narsaga aqlim yetgan ediki, insoniyat harflarni, alifbeni ixtiro qilgan ekan, tinish belgilarini ham bejiz ixtiro qilmagan. Umuman, tinish belgilaridan o‘zim, ko‘nglim, matn talab qilgan darajada o‘shanday foydalanaman. Qolaversa, bundan foydalanish fikrni kengrok, yetarliroq qilib yetkazish uchun xizmat qiladi” [1, 113].

Sh. Xolmirzayev asarlarini o‘qish davomida ushbu fikrlarning naqadar to‘g‘ri ekanligiga ishonch hosil qilamiz: “– E, rasuli barhaq! Imonimni ber, – dedi, – Birovga yomonlik qilmadim, birovning hakini yemadim... Tog‘lik og‘aynilarni ham aldamadim. Ko‘pning duosini oldim... Ha, farzand ko‘rmadim. Senga bir yomonligim o‘tgandir-da... o‘zingga shukur” [5, 287]. “Qariya” hikoyasidan olingan bu parchada o‘quvchi nima haqida ran ketayotganligini va tinish beyagilari ketiga yashiringan fikrlarni osongina ilg‘aydi. Bu tasvirlash uslubi ham Shukur Xolmirzayev ijodiy mahoratining o‘ziga xos jihatlaridandir. Shunday qilib, Shukur Xolmirzayev hikoyalarida so‘zdan foydalanish san'ati maroqli shakllarga ega ekanligi kuzatiladi. Bu hol asarning o‘qimishli chiqishini ta'minlaydi va badiiy qimmatini oshiradi, yozuvchini so‘zbozlikka berilishdan saqlaydi. Natijada asarning kompozitsiyasi sayqallanib, go‘zal badiiy shakl yuzaga keladi. Adabiy tilning manbai xalq tilidir va yozuvchi bu ikki til o‘rtasida “vositachi” bo‘ladi. U xalq tilidagi boyliklarni olib, yana xalqqa taqdim qiladi. Buning uchun xalq tilidan olingan lisoniy unsurlarga ishlov berib, sayqallashtiradi. Urg‘u, ohang, jilo, takror kabi vositalardan keng foydalanadi.

Yozuvchi biz tahlilga olgan “Cho‘loq turna” qissasida tabiat manzarasini tasivrlar ekan, ulardan faqat ma’no izlaydi. Va bunga erishadi ham. Yozuvchi tasvirda erishgan go‘zallik kitobxon qalbiga ko‘chadi.

“Bir safar turnalar galasi taqir maydonda uzoq yo‘rg‘alab qaqillashdi. So‘ngra shunday tapir-tupur qanot qoqib havoga ko‘tarilishdiki, taqir yer changib, yovshanu shuvoqlar boshi shamol esgandek egildi. Tala-to‘pda yerga talay patlar uchib tushdi. So‘ng qushlar havoda “gilamcha” bo‘lib aylana-aylana ko‘tarila boshladi. Osmon falakka chiqqanda ham aylanishar, endi ularning ovozalari tamom o‘zgacha: qandaydir mungli va porloq, endi ovozlar bir-biriga jo‘r bo‘lib chiqar edi: qur-ey, qur-ey” [3, 218-219].

Xulosa

Mazkur tahlillar ham shuni ko‘rsatadiki, Shukur Xolmirzayev nasrida xalqona til elementlari badiiy individuallikni yaratishda markaziy o‘rin tutadi. Xalqona ifoda vositalari, og‘zaki ijod an’analari, so‘z boyligi va til imkoniyatlaridan foydalanish qahramon obrazlarini jonli, tabiiy va hissiy jihatdan boy shakllantirishga imkon beradi. Muallifning individual uslubi esa xalqona til elementlari bilan uyg‘unlashib, asarning estetik ta’sirini kuchaytiradi va o‘quvchida chuqur hissiy rezonans uyg‘otadi. Shu jihatdan qaraganda, xalqona til va badiiy individuallik o‘rtasidagi bog‘liqlik Sh. Xolmirzayev ijodining o‘ziga xos xususiyatlaridan biri sifatida muhim ahamiyatga ega.

QUR'ONI KARIM MA'NOLARINING O'ZBEKCHA TARJIMALARIDA METAFORA VA RAMZLARNING TARJIMA QILISHDAGI MUAMMOLAR

Mirsadullayev Miravaz Mirmuslim o'g'li
Impuls tibbiyot instituti o'qituvchisi
E-mail: dodamaestro@gmail.com

Annotatsiya: *Mazkur maqolada Qur'oni Karim ma'nolarining o'zbek tiliga tarjima qilinish jarayonida metafora va ramziy ifodalarning lingvistik hamda semantik xususiyatlari tahlil qilinadi. Tadqiqotning asosiy maqsadi Qur'on oyatlaridagi metaforik birliklarning tarjima jarayonida qanday semantik transformatsiyaga uchrashini aniqlash hamda ularni adekvat tarjima qilishning samarali usullarini aniqlashdan iborat. Tadqiqot jarayonida qiyosiy-lingvistik, semantik va kontekstual tahlil metodlaridan foydalanildi. Natijalar shuni ko'rsatdiki, Qur'on metaforalari ko'p qatlamli semantik tuzilishga ega bo'lib, ularni so'zma-so'z tarjima qilish ko'pincha mazmuniy yo'qotishlarga olib keladi. Shu sababli diniy matnlar tarjimasida funksional ekvivalentlik va tafsiriy talqinlarga asoslangan yondashuv muhim ahamiyat kasb etadi. Tadqiqot natijalari Qur'on tarjimasi sohasidagi ilmiy izlanishlarni rivojlantirishga xizmat qiladi.*

Kalit so'zlar: *Qur'oni Karim, tarjimashunoslik, metafora, ramz, semantika, diniy matnlar tarjimasi, lingvistik tahlil, tafsir, ekvivalentlik, stilistika.*

ПРОБЛЕМЫ ПЕРЕВОДА МЕТАФОР И СИМВОЛОВ В УЗБЕКСКИХ ПЕРЕВОДАХ СМЫСЛОВ СВЯЩЕННОГО КОРАНА

Аннотация: *В статье анализируются лингвистические и семантические особенности перевода метафор и символических выражений в узбекских переводах смыслов Корана. Цель исследования заключается в выявлении проблем передачи метафорических единиц арабского текста Корана в узбекском языке. В ходе исследования применялись методы сравнительно-лингвистического, семантического и контекстуального анализа. Результаты исследования показывают, что коранические метафоры обладают многослойной семантической структурой, что усложняет их адекватную передачу в процессе перевода. В связи с этим в переводе религиозных текстов важную роль играет принцип функциональной эквивалентности и обращение к классическим тафсирам.*

Ключевые слова: *Коран, перевод, метафора, символ, семантика, религиозный текст, лингвистика, переводоведение, стилистика, эквивалентность.*

PROBLEMS OF TRANSLATING METAPHORS AND SYMBOLS IN UZBEK TRANSLATIONS OF THE MEANINGS OF THE HOLY QUR'AN

Abstract: *This article examines the linguistic and semantic challenges of translating metaphors and symbolic expressions in Uzbek translations of the meanings of the Qur'an. The main objective of the study is to analyze how metaphorical expressions in the Arabic text of the Qur'an are rendered into Uzbek and to identify the main difficulties associated with their translation. The research employs comparative linguistic analysis, semantic analysis, and contextual interpretation. The findings reveal that Qur'anic metaphors possess a multilayered semantic structure, which often leads to partial loss of meaning in literal translation. Therefore, the principle of functional equivalence and the use of classical Qur'anic exegesis are essential for achieving an adequate translation of religious texts.*

Keywords: *Qur'an translation, metaphor, symbolism, semantics, religious texts, linguistics, translation studies, equivalence, stylistics, interpretation.*

Kirish. Qur'oni Karim islom dinining muqaddas kitobi bo'lib, uning matni arab tilining eng mukammal badiiy shakllaridan biri sifatida e'tirof etiladi. Qur'on matni o'zining stilistik boyligi, semantik chuqurligi hamda obrazli ifodalar tizimi bilan ajralib turadi. Qur'on oyatlarida metafora, tashbeh, kinoya, ramziy obrazlar va boshqa stilistik vositalar keng qo'llanadi. Ushbu vositalar ilohiy matnning ta'sirchanligini oshirish bilan birga, uning mazmunini ko'p qatlamli semantik struktura orqali ifodalashga xizmat qiladi [1].

Qur'on tarjimasi tarixan murakkab ilmiy muammo sifatida qaralib kelgan. Chunki Qur'on matnining lingvistik va stilistik xususiyatlari boshqa tillarga to'liq ekvivalent tarzda o'tkazilishi qiyin bo'lgan semantik birliklarni o'z ichiga

oladi. Shu sababli ko‘plab olimlar Qur’on tarjimasini “matn tarjimasi” emas, balki “ma’nolar tarjimasi” sifatida talqin qiladilar [2]. O‘zbek tilida Qur’oni Karim ma’nolarining bir necha tarjimalari amalga oshirilgan bo‘lib, ular orasida Alouddin Mansur va Abdulaziz Mansur tomonidan tayyorlangan tarjimalar keng tarqalgan [3]. Ushbu tarjimalar Qur’on oyatlarining mazmunini o‘zbek o‘quvchisiga yetkazishda muhim rol o‘ynaydi. Biroq metafora va ramziy ifodalarni tarjima qilish jarayonida ayrim semantik muammolar saqlanib qolmoqda. Mazkur tadqiqotning dolzarbligi shundaki, Qur’on oyatlaridagi metaforik birliklarni adekvat tarjima qilish diniy matnlarning mazmuniy aniqligini ta’minlashda muhim ahamiyatga ega.

Adabiyotlar tahlili. Qur’on tarjimasi va uning lingvistik xususiyatlari ko‘plab tadqiqotchilar tomonidan o‘rganilgan. Masalan, M. Abdel Haleem Qur’on tilining stilistik xususiyatlarini tahlil qilib, undagi metafora va ramzlarning semantik funksiyasini alohida ta’kidlaydi [1]. Uning fikricha, Qur’on metaforalari ko‘pincha abstrakt tushunchalarni ifodalash uchun ishlatiladi. Tarjimashunoslik nazariyasida diniy matnlar tarjimasi masalasi E. Nida tomonidan ham o‘rganilgan. U funksional ekvivalentlik nazariyasini ishlab chiqib, tarjimada mazmuniy ekvivalentlikni saqlash muhimligini ta’kidlaydi [7]. Bundan tashqari, Qur’on tafsiri va uning semantik talqinlari masalasi klassik islomiy manbalarda ham keng yoritilgan. Jumladan, Al-Zarkashiy Qur’on oyatlaridagi badiiy vositalarni tafsiriy tahlil asosida izohlaydi [8].

Tadqiqot metodologiyasi. Mazkur tadqiqotda qiyosiy-lingvistik, semantik va kontekstual tahlil metodlaridan foydalanildi: Qiyosiy-lingvistik metod yordamida Qur’on oyatlaridagi metaforik birliklar arab tilidagi asl matn va o‘zbek tilidagi tarjimalar o‘rtasida taqqoslab o‘rganildi. Semantik tahlil orqali metaforalarning ma’no qatlamlari aniqlanib, ularning tarjima jarayonida qanday transformatsiyaga uchrashi o‘rganildi. Kontekstual tahlil usuli esa oyatlarning umumiy mazmuniy konteksti hamda tafsiriy talqinlarini hisobga olish imkonini berdi [4].

Muhokama va natijalar. Tadqiqot natijalari Qur’oni Karim ma’nolarining o‘zbekcha tarjimalarida metafora va ramzlarni tarjima qilish jarayonida bir qator muammolar mavjudligini ko‘rsatdi. Birinchidan, Qur’on oyatlarida tez-tez uchraydigan “nur” metaforasi hidoyat va ilohiy haqiqatni ifodalash uchun ishlatiladi. Masalan, Qur’onning mashhur oyatlaridan birida “Alloh osmonlar va yerning nuridir” mazmunidagi ibora keltiriladi. Ushbu metafora ilohiy hidoyatning ramziy ifodasi hisoblanadi. Tarjima jarayonida bu ibora ko‘pincha literal tarzda beriladi, natijada uning chuqur teologik mazmuni to‘liq ochilmay qolishi mumkin [5]. Ikkinchidan, Qur’on oyatlarida “qalb” tushunchasi ham ko‘pincha metaforik ma’noda ishlatiladi. Bu birlik nafaqat fiziologik organ, balki insonning ruhiy va ma’naviy markazini ifodalash uchun ishlatiladi. Uchinchidan, Qur’on metaforalari ko‘p qatlamli semantik tuzilishga ega. Masalan, “yo‘l” tushunchasi ko‘pincha to‘g‘ri yo‘l, ya’ni hidoyat ramzi sifatida ishlatiladi. Tarjimada esa u ba’zan faqat literal ma’noda ifodalanadi. Qur’oni Karim metaforalarini tarjima qilish jarayoni tarjimashunoslik nazariyasida murakkab ilmiy masalalardan biri hisoblanadi. Tadqiqot natijalari shuni ko‘rsatdiki, Qur’on metaforalarini so‘zma-so‘z tarjima qilish har doim ham adekvat natija bermaydi. Shu sababli tarjimada funksional ekvivalentlik tamoyilidan foydalanish muhim hisoblanadi. Ushbu yondashuv tarjimonning metaforaning tashqi shaklini emas, balki uning semantik funksiyasini saqlab qolishga intilishini nazarda tutadi [7]. Bundan tashqari, Qur’on metaforalarini tarjima qilishda tafsiriy manbalardan foydalanish ham muhim ahamiyatga ega. Tafsirlar oyatlarning asl ma’nosini tushunishda muhim ilmiy asos vazifasini bajaradi [8].

Xulosa. Tadqiqot natijalari Qur’oni Karim ma’nolarining o‘zbek tiliga tarjima qilinish jarayonida metafora va ramzlarni adekvat ifodalash murakkab lingvistik va semantik muammo ekanligini ko‘rsatdi. Qur’on metaforalari ko‘p qatlamli semantik tuzilishga ega bo‘lib, ularni so‘zma-so‘z tarjima qilish ko‘pincha mazmuniy yo‘qotishlarga olib keladi. Shu sababli diniy matnlar tarjimasida funksional ekvivalentlik tamoyilidan foydalanish hamda tafsiriy manbalarga tayanish muhim hisoblanadi.

O'ZBEK XALQ DOSTONLARI VA INGLIZ UTOPIYALARIDA IDEAL JAMIYAT KONSEPSIYASINING LINGVOKOGNITIV TALQINI

Davranov Akmal Akramjonovich
Toshkent davlat transport universiteti, Tayanch doktoranti
Email: akmal.88davron@gmail.com

Annotatsiya: *Mazkur maqolada o'zbek xalq dostonlari va ingliz utopiyalarida ideal jamiyat konsepsiyasining lingvokognitiv talqini qiyosiy asosda o'rganiladi. Tadqiqotda ideal jamiyat tushunchasining falsafiy va sotsiologik ildizlari, uning folklor va utopik diskursda shakllanish jarayoni hamda til birliklari orqali voqelanish mexanizmlari tahlil qilinadi. O'zbek epik an'anasi va ingliz utopik adabiyoti materiallari asosida ijtimoiy tenglik, adolat, axloqiy mukammallik va siyosiy uyg'unlik g'oyalari lingvistik hamda stilistik vositalar orqali ifodalanishi aniqlanadi.*

Kalit so'zlar: *ideal jamiyat, utopiya, o'zbek xalq dostoni, ingliz utopiyasi, lingvokognitiv yondashuv, ijtimoiy ideal, folklor diskursi, konsept, qiyosiy tahlil, obraz va metafora.*

LINGVOKOGNITIVE INTERPRETATION OF THE CONCEPT OF IDEAL SOCIETY IN UZBEK FOLK EPICS AND ENGLISH UTOPIAS

Abstract: *This article examines the lingvokognitive interpretation of the concept of the ideal society in Uzbek folk epics and English utopias on a comparative basis. The study analyzes the philosophical and sociological roots of the concept of the ideal society, its formation in folkloric and utopian discourse, and the mechanisms of its realization through linguistic units. Based on the materials of the Uzbek epic tradition and English utopian literature, the research identifies how the ideas of social equality, justice, moral perfection, and political harmony are expressed through linguistic and stylistic means.*

Keywords: *ideal society, utopia, Uzbek folk epic, English utopia, lingvokognitive approach, social ideal, folkloric discourse, concept, comparative analysis, image and metaphor.*

ЛИНГВОКОГНИТИВНОЕ ИНТЕРПРЕТИРОВАНИЕ КОНЦЕПЦИИ ИДЕАЛЬНОГО ОБЩЕСТВА В УЗБЕКСКИХ НАРОДНЫХ ДАСТАНАХ И АНГЛИЙСКИХ УТОПИЯХ

Аннотация: *В данной статье рассматривается лингвокогнитивное интерпретирование концепции идеального общества в узбекских народных дастанах и английских утопиях на сравнительной основе. Исследование анализирует философские и социологические корни понятия идеального общества, процесс его формирования в фольклорном и утопическом дискурсе, а также механизмы его воплощения через языковые единицы. На материале узбекской эпической традиции и английской утопической литературы выявляется, каким образом идеи социальной справедливости, равенства, морального совершенства и политической гармонии выражаются через языковые и стилистические средства.*

Ключевые слова: *идеальное общество, утопия, узбекский народный дастан, английская утопия, лингвокогнитивный подход, социальный идеал, фольклорный дискурс, концепт, сравнительный анализ, образ и метафора*

Kirish: Zamonaviy gumanitar tadqiqotlarda ideal jamiyat konsepsiyasi utopik tafakkur, ijtimoiy-falsafiy qarashlar va badiiy diskurs kesishgan nuqtada shakllanuvchi murakkab konseptual birlik sifatida talqin etilmoqda. Utopiya insoniyatning normativ intilishlarini aks ettiruvchi ijtimoiy model bo'lib, u til va tafakkur vositasida ifodalanadi. Shu bois ideal jamiyat tushunchasini lingvokognitiv nuqtai nazardan o'rganish dolzarb ilmiy vazifa hisoblanadi.

O'zbek xalq dostonlari milliy tafakkurning epik ifodasi sifatida jamiyatning axloqiy-me'yoriy mezonlari va ijtimoiy ideallarini mujassamlashtiradi. Ingliz utopik asarlari esa muqobil ijtimoiy modelni nazariy va badiiy jihatdan asoslashga qaratilgan konseptual matnlar sifatida namoyon bo'ladi. Har ikki adabiy qatlamda ideal jamiyat g'oyasi til birliklari, obrazlar tizimi va stilistik vositalar orqali voqelanadi. Mazkur maqolaning maqsadi o'zbek xalq dostonlari va ingliz utopiyalarida ideal jamiyat konsepsiyasining lingvokognitiv xususiyatlarini qiyosiy tahlil qilishdan iborat.

Adabiyotlar tahlili: Ideal jamiyat konsepsiyasining nazariy asoslari utopik tafakkur evolyutsiyasi bilan uzviy bog'liq bo'lib, bu yo'nalishdagi tadqiqotlarda utopiya ijtimoiy ong va normativ tafakkurning mahsuli sifatida talqin

etiladi. Utopiyani himoya qilish va uni muqobil ijtimoiy model sifatida asoslashga qaratilgan izlanishlarda ideal jamiyat g‘oyasi insoniyatning adolat, tenglik va uyg‘unlik haqidagi qarashlari bilan bog‘liq holda yoritiladi [1]. Bunday yondashuv utopiyani nafaqat adabiy janr, balki ijtimoiy-falsafiy konstrukt sifatida anglash imkonini beradi. Zamonaviy utopik tafakkurga oid ilmiy qarashlarda ideal jamiyatni ongli ravishda tanlash va uni konseptual model darajasida ishlab chiqish zarurati ta’kidlanadi. Utopik diskursning bugungi talqinlari ijtimoiy muammolar sharoitida muqobil jamiyat modelini tasavvur qilish ehtiyoji bilan izohlanadi hamda bu jarayon til vositalari orqali voqelanadi [2]. Mazkur nazariy asos lingvokognitiv yondashuvni qo‘llashda muhim metodologik tayanch vazifasini bajaradi. Ingliz utopiyalari va o‘zbek xalq dostonlari doirasida ijtimoiy tenglik tushunchasining qiyosiy o‘rganilishi ideal jamiyat konsepsiyasining milliy va madaniy xususiyatlarini aniqlashga xizmat qiladi. Ushbu yo‘nalishdagi tadqiqotlarda tenglik, adolat va ijtimoiy uyg‘unlik g‘oyalari lingvistik birliklar orqali ifodalanishi tahlil etilgan bo‘lib, bu ideal jamiyat modelining semantik va diskursiv qatlamini ochib beradi [3].

Utopik va antiutopik motivlarning qiyosiy tahliliga bag‘ishlangan ilmiy ishlarda ideal jamiyat konsepsiyasining qarama-qarshi semantik maydonlar orqali shakllanishi ko‘rsatiladi. Bunda ingliz va o‘zbek adabiyotida utopiya va antiutopiya obrazlari stilistik va konseptual vositalar yordamida ifodalanishi yoritiladi [4]. Mazkur yondashuv ideal jamiyatni ifodalovchi til birliklarining funksional imkoniyatlarini aniqlashga yordam beradi. Mif, utopiya va distopiya konseptlarining o‘zaro bog‘liqligini tahlil qilgan tadqiqotlarda ideal jamiyat g‘oyasining arxaik va zamonaviy qatlamlari uyg‘un holda talqin qilinadi. Bu konseptual birliklar obraz, metafora va ramziy tizim orqali namoyon bo‘lishi ta’kidlanadi [5]. Natijada ideal jamiyat lingvokognitiv konstrukt sifatida baholanadi.

Utopik va distopik tafakkurning global tarixiga oid ilmiy izlanishlarda ideal jamiyat konsepsiyasining madaniyatlararo rivojlanish bosqichlari ko‘rsatib beriladi [6]. Bu tadqiqotlar o‘zbek xalq dostonlari va ingliz utopiyalarini umumjahon utopik tafakkuri kontekstida qiyosiy o‘rganish uchun nazariy asos yaratadi. O‘zbek folklor san’ati va epik an’analarga bag‘ishlangan ishlarda xalq dostonlarining obrazlar tizimi, axloqiy-me’yoriy qadriyatlari hamda ijtimoiy ideal haqidagi tasavvurlari tahlil etiladi. Ushbu izlanishlar epik matnlarda ideal jamiyat modeli qahramonlik, adolat va jamoaviy uyg‘unlik konseptlari orqali ifodalanishini ko‘rsatadi [7].

Shuningdek, utopik tadqiqotlar nazariyasiga bag‘ishlangan manbalarda utopiya janrining shakllanishi va rivojlanish bosqichlari hamda uning ilmiy-metodologik asoslari keng yoritiladi [8]. Mazkur manbalar ideal jamiyat konsepsiyasini lingvokognitiv nuqtai nazardan o‘rganishda kompleks yondashuvni ta’minlaydi. Yuqoridagi ilmiy qarashlar ideal jamiyat konsepsiyasining falsafiy, sotsiologik va adabiy asoslarini belgilab beradi. Biroq o‘zbek xalq dostonlari va ingliz utopiyalarida ideal jamiyat konsepsiyasining lingvokognitiv voqelanish mexanizmlarini tizimli ravishda qiyosiy tahlil qilish masalasi yetarli darajada tadqiq etilmagan. Mazkur holat ushbu tadqiqotning dolzarbligi va ilmiy yangiligini asoslaydi.

Tadqiqot metodologiyasi: Tadqiqotda lingvokognitiv yondashuv asosiy metodologik tayanch sifatida qo‘llanildi. Konseptual tahlil usuli yordamida ideal jamiyat konseptining semantik yadrosi va periferik komponentlari aniqlashtirildi. Qiyosiy-tipologik metod orqali o‘zbek xalq dostonlari va ingliz utopik asarlaridagi ijtimoiy ideallar ifodasi o‘zaro solishtirildi. Diskursiv tahlil yordamida folklor va utopik matnlarda ideal jamiyat modelining shakllanish mexanizmlari o‘rganildi.

Shuningdek, stilistik tahlil vositasida obraz, metafora, ramziy birliklar va leksik-semantik vositalarning funksional yuklamasi aniqlanib, ularning konseptual mazmunni shakllantirishdagi roli baholandi. Tadqiqot materiallari sifatida o‘zbek xalq epik matnlari hamda ingliz utopik adabiyoti namunalaridan foydalanildi.

Tahlil va natijalar: Tahlil natijalari shuni ko‘rsatadiki, o‘zbek xalq dostonlarida ideal jamiyat konsepsiyasi asosan axloqiy mukammallik, qahramonlik, nomus, adolat va jamoaviy uyg‘unlik orqali ifodalanadi. Epik diskursda ijtimoiy ideal ko‘pincha ideal qahramon timsoli orqali gavdalanadi. Masalan, *“Bermaymiz, deb Boysaribiyning qizini, / Yakka ko‘rib Alpomishning o‘zini. / Qalmoq olib keldi polvon borini, / Bermaymiz, deb Barchinday yorini, / Qalmoqqa sotmadi nomus-orini”* misralarida nomus va or tushunchalari ideal jamiyatning axloqiy poydevori sifatida talqin qilinadi. Bu yerda ijtimoiy ideal shaxsiy manfaatdan ustun qo‘yilgan sha’n va jamoaviy qadriyatlar orqali voqelanadi. Qahramonning harakati nafaqat individual jasorat, balki butun jamiyat sha’nini himoya qilish sifatida talqin etiladi.

Shuningdek, *“Qoyil qilib Qalmoq polvonlarini, / Olib ketgandi-da Barchin yorini”* satrlarida ideal jamiyat modeli kuch va adolatning uyg‘unligi orqali ifodalanadi. Qahramon obrazi barqaror ijtimoiy tartibni tiklovchi kuch sifatida namoyon bo‘ladi. Bu jarayonda metaforik va ramziy birliklar konseptning kognitiv strukturasi shakllanishida muhim rol o‘ynaydi.

“Go‘ro‘g‘li” dostonidagi *“Yetti yil tinmayin urush bo‘lganda. / Shu urushda bunday dushman o‘lgan yo‘q”* misralari esa ijtimoiy idealning tarixiy-sinoviy xarakterini ochib beradi. Urush motivi orqali jamiyatni himoya qilish, dushmanga qarshi kurashish va jamoaviy barqarorlikni ta’minlash g‘oyasi ilgari suriladi. *“Har urushda bo‘lar dushman piyoda, / Hech urushda bunday dushman o‘lgan yo‘q”* satrlarida qahramonlik ideali ijtimoiy ustuvorlik va kuch timsoli sifatida namoyon bo‘ladi. Epik tafakkurda ideal jamiyat barqarorlik va jasorat orqali saqlanadi, bu esa mifopoetik obrazlar yordamida kognitiv modelga aylantiriladi.

Ingliz utopiyalarida esa ideal jamiyat modeli tizimli ijtimoiy tuzilma, siyosiy tenglik va iqtisodiy adolat asosida konseptual tarzda tasvirlanadi. Masalan, *"In Utopia every man has a right to everything, and yet it is certain that no man wants anything"* jumlasida umumiy egalik va ehtiyojning yo‘qligi orqali tenglik va mo‘l-ko‘llik prinsipi ilgari suriladi. Bu yerda ideal jamiyat ratsional asoslangan ijtimoiy tizim sifatida talqin etilib, normativ konstruksiyalar orqali ifodalanadi. Abstrakt leksika va mantiqiy izoh ijtimoiy uyg‘unlikni konseptual darajada asoslashga xizmat qiladi. Xuddi shuningdek, *"The end of our foundation is the knowledge of causes, and secret motions of things; and the enlarging of the bounds of human empire"* jumlasida ideal jamiyat ilm-fan va bilish asosida qurilgan tizim sifatida tasvirlanadi. Bu yerda ijtimoiy mukammallik bilim va taraqqiyot orqali amalga oshirilishi ta’kidlanadi. Utopik diskursda ratsional tafakkur va ilmiy izoh ustuvor bo‘lib, til vositalari muqobil ijtimoiy modelni nazariy jihatdan asoslash vazifasini bajaradi.

Qiyosiy tahlil natijasida aniqlanishicha, har ikkala adabiy an’anada ideal jamiyat konsepsiyasi umumiy semantik yadroga ega bo‘lib, u adolat, tenglik va barqarorlik g‘oyalari bilan bog‘liqdir. Biroq uning lingvokognitiv voqelanishi milliy-madaniy tafakkur xususiyatlariga ko‘ra farqlanadi. O‘zbek epik tafakkurida obrazlilik, mifopoetik ramzlar va qahramonlik timsoli ustunlik qilsa, ingliz utopiyalarida konseptual, abstrakt va ratsional ifoda vositalari yetakchilik qiladi. Shu tariqa, ideal jamiyat konsepti har ikki diskursda turlicha lingvistik strategiyalar orqali shakllanib, milliy tafakkurning o‘ziga xos modelini aks ettiradi.

Xulosa: Tadqiqot natijalari o‘zbek xalq dostonlari va ingliz utopiyalarida ideal jamiyat konsepsiyasi lingvokognitiv konstrukt sifatida shakllanishini ko‘rsatdi. Har ikki diskursda ijtimoiy ideal adolat, tenglik va uyg‘unlik g‘oyalari bilan bog‘liq bo‘lib, ular til birliklari orqali konseptual darajada voqelanadi. O‘zbek xalq dostonlarida ideal jamiyat obrazli va mifopoetik tafakkur asosida ifodalansa, ingliz utopiyalarida u tizimli va nazariy model sifatida tasvirlanadi. Mazkur farqlar milliy madaniy kod va tafakkur uslubining o‘ziga xosligi bilan izohlanadi. Shu tariqa, ideal jamiyat konsepsiyasining lingvokognitiv talqini folklor va utopik diskursni qiyosiy o‘rganish orqali yanada chuqurlashadi hamda badiiy matnlarning konseptual tuzilishini aniqlashga xizmat qiladi.

ОПЫТ ЛИТЕРАТУРНО-ТВОРЧЕСКОЙ РАБОТЫ СО СТУДЕНТАМИ: ОТ “ЛИТЕРАТУРНЫХ ВТОРНИКОВ” К КЛУБУ “ЗАВЕТНАЯ ЛИРА”»

Н.А. Нарзуллаева,
преподаватель кафедры Русского языка и литературы Наманганского государственного университета
ORSID ID: https://orcid.org/0009-0003-2322-7603

Аннотация: *В статье речь идёт об основных направления деятельности кружка «Литературные вторники», который считается одним из истоков молодёжного поэтического клуба «Заветная Лира».*

Ключевые слова: *литературные вторники, молодёжный поэтический клуб «Заветная лира», педагогическая целесообразность, поэтическая организация, начинающие поэты, кружковая работа, совершенствование образовательного процесса в вузе. апробацию на заседаниях кафедры.*

«EXPERIENCE OF LITERARY AND CREATIVE WORK WITH STUDENTS: FROM “LITERARY TUESDAYS” TO THE “ZAVETNAYA LIRA” CLUB»

Annotation: *The article deals with the main activities of the Literary Tuesdays circle, which is considered one of the origins of the Cherished Lyre youth poetry club.*

Keywords: *literary Tuesdays, youth poetry club "Cherished Lyre", pedagogical expediency, poetic organization, aspiring poets, circle work, improvement of the educational process at the university. approbation at the department meetings.*

“ADABIY SESHANBALAR”DAN “MUQADDAS LIRA” KLUBIGACHA BO’LGAN TALABALAR BILAN ADABIY-IJODIY FAOLIYAT TAJRIBASI

Annotatsiya: *Maqolada “Adabiy seshanbalar” adabiy to‘garagining faoliyati, uning yosh ijodkorlarni birlashtirishdagi o‘rni hamda “Zavetnaya Lira” yoshlar poetik klubining vujudga kelishidagi ahamiyati tahlil qilinadi.*

Kalit so‘zlar: *adabiy seshanbalar, “Zavetnaya Lira” poetik klubi, pedagogik samaradorlik, adabiy muhit, yosh shoirlar, to‘garak ishlari, oliy ta’limda ta’lim jarayonini rivojlantirish, kafedra darajasida aprobatsiya.*

О молодёжном поэтическом Клубе «Заветная Лира» я знаю не понаслышке. В своё время о довольно успешной и, самое главное, педагогически целесообразной деятельности этой молодёжной поэтической организации можно было читать сообщения в газетах, доводилось смотреть телерепортажи о творческих мероприятиях с участием начинающих поэтов.

В шкафу вижу около десяти папок-корон с материалами, интересующими меня: устав клуба, рабочие планы разных лет, материалы всех мероприятий, конкурсные работы с оценками жюри, разные официальные бумаги, постановления о развитии куружковой работы в учебных заведениях, публикации о клубе и т.д. Нынче мне предстоит ознакомиться, изучать содержание этих объёмистых хранилищ документов о творчестве студентов, чтобы составить историю клуба “Заветная Лира”, а затем написать диссертацию о значении клубной работы для интенсификации, совершенствования образовательного процесса в вузе.

На корешке двух толстых папок написано “Публикации “Заветной Лиры””. В них подшиты пожелтевшие от времени газеты (либо вырезки из них) со статьями, заметками, сообщающими о деятельности “Заветной лиры”, либо со стихотворениями участников клуба. На узбекском, русском языках. Обращаю внимание на названия изданий, где опубликованы интересующие меня материалы: “Народное слово”, “Наманганская правда”, “Наманган хакикати”, “Камолот”, “Наманган садоси”, “Маърифат”, “Учитель Узбекистана”, “Молодёжь Узбекистана”, “Маҳорат мактаби”, “Болалар дунёси”, “Экспресс-инфо”, “Гулистон”, “Тил ва адабиёт таълими” (“Преподавание языка и литературы”), “Умид” “Репетитор”, “Акс садо”. Попадаются и ссылки на электронные ресурсы. В эту же папку подшиты и альманахи “Заветной Лиры”. Первый из них назван так же, как и Клуб – “Заветная Лира”. Тоненькая эта книжечка вышла в свет в издательстве “Наманган” в 2002 году. В неё вошли

стихотворения победителей первого конкурса в истории этой молодёжной творческой организации, состоявшегося 2-марта того же года. Эту дату и называют, обычно, как день рождения Клуба.

Однако основатель клуба говорит, что до этого тоже в его педагогической биографии было кое-что, что следует считать предтечей "Заветной Лиры" – ведь, на пустом месте ничего произрастает...

Кадыр Насырович показывает узкую пожелтевшую от времени вырезку из газеты с заметкой "**Литературные вторники".** Ввиду важности содержания, на мой взгляд, этой небольшой публикации, её текст приведём целиком:

«Эти оживленные литературные встречи стали в Наманганском педагогическом институте доброй традицией. Восьмой год дважды в месяц «вторники» собирают многочисленных любителей поэзии и прозы – и не только из студенческой, но и из школьной среды. В фокусе «вторников» - знаменательные юбилеи, обсуждение новинок советской и зарубежной литературы.

Интересно были отмечены на наших литературных «вторниках» круглые даты Ф. М. Достоевского, Н. А. Некрасова, А. А. Фадеева. Немало интересных и непосредственных мнений вызвали новые книги В. Кожевникова «Особое подразделение» и «Петр Рябинкин», за которые автор удостоен был Государственной премии 1971 года.

На последней встрече шел разговор о творчестве замечательного поэта Александра Твардовского, недавний сборник которого «Лирика последних лет» был также отмечен Государственной премией. Много ценного почерпнули для себя участники встречи из вступительного слова преподавательницы кафедры русской и зарубежной литературы Г. В. Досковской. Рассказ о лирике поэта, прочитанный ею большой отрывок из поэмы «Страна Муравия», были живо и тепло встречены аудиторией. А после наши совсем молодые студенты – первокурсники факультета русского языка и литературы Р. Хасанов, А. Какуриев, наши гости – старшеклассники средней школы № 1 города Намангана Л. Рахманова, Л. Олейникова, М. Пузанов прочли стихотворения и отрывки из поэм Александра Твардовского.

Хотелось бы, чтобы студенческие литературные встречи проходили в еще более массовом, широком кругу общественности». [1]

Маленькая публикация полувековой давности оказалась довольно ценным источником: здесь и дата организации кружка («восьмой год», значит – 1964 год), и регулярность проводимых занятий-встреч («дважды в месяц»), профиль, т.е. направления деятельности, и тематика последних занятий, и состав их участников-исполнителей, и даже пожелания на будущее.

Судя по всему, профессор К. Носиров, кем к настоящему времени опубликовано более 500 различных научных работ, эту свою раннюю маленькую заметку ценит не меньше других, солидных: в 2021 году он её включил в сборник своих избранных статей под названием «Заметки о литературной жизни Намангана»: «Литературные вторники» - свидетельство о той доброй традиции, которую позже, переориентировав на другое русло, продолжил клуб «Заветная Лира».

Кружок «Литературные вторники», по словам К.Н. Носирова, был организован по инициативе заведующей кафедрой русской и зарубежной литературы Наманганского государственного педагогического института (с 1992 года – университет) доцентом Т.Х. Хамидовой. Первые несколько лет руководителем кружка была молодая преподавательница Г.В. Досковская. В последующем в разные годы руководство кружком поручалось: Р.Г. Пузиной, Л. Петровой, Р.З. Фаткулиной, Л.П. Пивоваровой, К.Н. Носирову. Однако нужно сказать, заведующая кафедрой Т.Х. Хамидова очень ревниво, строго-ответственно относилась к кружковым занятиям: посещала почти все его мероприятия, выступала. После проведённого мероприятия обязательно устраивалось обсуждение его, разбор. При этом, заведующая, как правило, требовала, чтобы высказывались все члены кафедры. Отчёты о работе «Литературных вторников» систематически выносились на заседания кафедры.

В работе кружка, как было сказано выше, выделялись два направления: юбилеи писателей (Это называлось «литературный календарь», посвящаемое той или иной дате традиционное аудиторное занятие кружка) и новинки литературы. Второе, «новинки литературы», было тесно связано с внутрикафедральным календарным планом работы: ежемесячно на заседания планировался вопрос: новинки литературы. К каждому преподавателя был прикреплён один литературный журнал, по которому он на заседании делал годичный обзор литературных новинок. В частности, заведующая кафедрой отвечала за журнал «Вопросы литературы», за К. Носировым была закреплена «Звезда Востока» и т.д. Вот эти обзоры новинок, как бы пройдя своеобразную апробацию на заседаниях кафедры под руководством Т.Х. Хамидовой, и выносились затем на занятия «Литературных вторников», т.е. в студенческую внеаудиторную работу. Точнее говоря, из «новинок» какое-либо конкретное произведение предлагалось студенческому вниманию в кружковое время с целью более обстоятельного

[1] Насыров, К. Литературные вторники. //Наманганская правда, 1972, 14-января.

обсуждения с молодёжью, точнее говоря, для молодёжи В частности, К. Носиров в разные годы в рамках «Литературных вторников» выступал с докладами о сборниках стихов А. Арипова «Митти юлдуз» («Звёздочка»), «Онажон» («Матушка», а также о романе Х. Гуляма «Машъал» («Светоч»).

Обратим внимание: через «Литературные вторники» студенты русской филологии знакомились и с новинками узбекской литературы. И вовсе не случайно ответственность за эту работу фактически ложилась на плечи конкретного педагога.

Опыт выступлений на кружке «Литературные вторники» в последующем выливается в более широкие «проекты».

К. Носиров, хорошо понимающий значение внеаудиторной работы как важный фактор обогащения знаний студентов, в своей педагогической деятельности старался придумывать что-нибудь полезное и интересное в этом направлении. Он, в частности, вспоминает про клуб "Дружба народов", проекты "Мы – наследники Алишера Навоий", "БТТ или экзамен на сцене" и др. Проект БТТ использовался в педагогической практике К. Носирова три года подряд.

Отметим, что оба вышеназванных мероприятия в свое время нашли своё отражение в главных газетах области, "Наманган хакикати" и «Наманганская правда»[2]

Однако несмотря на очевидную содержательность, а главное, педагогическую оправданность вышеописанных проектов, следует сказать, что-то были единичные, эпизодические мероприятия. К. Носиров искал что-нибудь постоянное, долговременное, стабильно действующее…

В результате поисков в этом направлении зародилась и идея создания постоянно действующего Клуба, который назовут «Заветной Лирой».

A COMPARATIVE ANALYSIS OF TEACHER-CENTERED VS. LEARNER-CENTERED APPROACHES IN DEVELOPING ARGUMENTATIVE WRITING AMONG UNIVERSITY UNDERGRADUATES

Inomjonova Durdona Ulug'bek qizi
Farg'ona davlat universiteti, Ingliz tili va adabiyoti fakulteti 3-bosqich talabasi
Email: durdonainomjonova80@gmail.com

Abstract; *Argumentative writing is a core academic skill that poses significant challenges for university undergraduates in foreign language contexts. This article presents a comparative analysis of teacher-centered and learner-centered instructional approaches in developing argumentative writing competence among undergraduate students. The study draws on a qualitative review of recent empirical and theoretical literature published between 2015 and 2024. Findings suggest that while teacher-centered approaches provide structured guidance and explicit instruction in argumentation conventions, learner-centered approaches foster critical thinking, collaborative inquiry, and autonomous writing development. The study concludes that an integrative pedagogical framework combining the strengths of both approaches may yield the most effective outcomes in academic writing instruction.*

Keywords: *argumentative writing, teacher-centered instruction, learner-centered instruction, academic writing, university undergraduates, writing pedagogy.*

СРАВНИТЕЛЬНЫЙ АНАЛИЗ ПОДХОДОВ, ОРИЕНТИРОВАННЫХ НА ПРЕПОДАВАТЕЛЯ И НА ОБУЧАЮЩЕГОСЯ, ПРИ ФОРМИРОВАНИИ НАВЫКОВ НАПИСАНИЯ АРГУМЕНТАТИВНЫХ ТЕКСТОВ У СТУДЕНТОВ ВУЗОВ

Аннотация; *Аргументативное письмо является одним из ключевых академических навыков, представляющих значительную сложность для студентов университетов, изучающих иностранный язык. В данной статье проводится сравнительный анализ преподавательско-ориентированного и студентоцентрированного подходов к развитию навыков аргументативного письма среди студентов бакалавриата. Исследование основано на качественном обзоре современной эмпирической и теоретической литературы, опубликованной в период с 2015 по 2024 год. Результаты показывают, что преподавательско-ориентированный подход обеспечивает структурированное руководство и явное обучение нормам аргументации, тогда как студентоцентрированный подход способствует развитию критического мышления, совместной деятельности и самостоятельности в письме. Делается вывод о том, что интегративная педагогическая модель, сочетающая преимущества обоих подходов, может дать наиболее эффективные результаты в обучении академическому письму.*

Ключевые слова: *аргументативное письмо, преподавательско-ориентированный подход, студентоцентрированный подход, академическое письмо, студенты бакалавриата, методика обучения письму.*

UNIVERSITET TALABALARI ORASIDA ARGUMENTATIV YOZISH KO'NIKMALARINI RIVOJLANTIRISHNING O'QITUVCHIGA YO'NALTIRILGAN VA O'QUVCHIGA YO'NALTIRILGAN YONDASHUVLARINING QIYOSIY TAHLILI.

Annotatsiya; *Argumentativ yozuv universitetlarda xorijiy til o'rganuvchi talabalar uchun muhim akademik ko'nikma bo'lib, ularda ko'plab qiyinchiliklar keltirib chiqaradi. Ushbu maqolada bakalavriat talabalari o'rtasida argumentativ yozuv kompetensiyasini rivojlantirishda o'qituvchi markazlashgan va talaba markazlashgan yondashuvlarning qiyosiy tahlili amalga oshiriladi. Tadqiqot 2015–2024 yillar orasida chop etilgan zamonaviy empirik va nazariy adabiyotlarning sifatli sharhi asosida olib borilgan. Natijalar shuni ko'rsatadiki, o'qituvchi markazlashgan yondashuv talabalarga argumentatsiya konvensiyalarini o'rgatishda tizimli yo'naltirish va aniq yo'riqnoma bersa, talaba markazlashgan yondashuv tanqidiy fikrlash, hamkorlikdagi izlanish va mustaqil yozuv ko'nikmalarini rivojlantirishga xizmat qiladi. Maqolada ikkala yondashuvning kuchli tomonlarini birlashtirgan integrativ pedagogik model akademik yozuvni o'qitishda eng samarali natijalarni berishi mumkin, degan xulosa chiqariladi.*

Kalit so'zlar: *argumentativ yozuv, o'qituvchi markazlashgan yondashuv, talaba markazlashgan yondashuv, akademik yozuv, bakalavriat talabalari, yozuvni o'qitish metodikasi.*

INTRODUCTION

Academic writing, particularly argumentative writing, occupies a central position in university-level education. The ability to construct logical, evidence-based arguments is essential for students across disciplines, yet it remains one of the most demanding skills for undergraduate learners in foreign language contexts. Research consistently identifies argumentative writing as a complex cognitive and rhetorical task that requires not only linguistic competence but also critical reasoning, source evaluation, and coherent organizational skills (Hyland, 2019).

Two dominant instructional philosophies have shaped writing pedagogy in higher education: teacher-centered instruction (TCI) and learner-centered instruction (LCI). Teacher-centered approaches prioritize explicit instruction, modeling, and direct feedback from the instructor, who assumes the primary role of knowledge transmitter. In contrast, learner-centered approaches position students as active agents in the learning process, emphasizing collaboration, peer interaction, and self-directed inquiry (Weimer, 2013).

Despite extensive debate on the relative merits of these approaches, comparative empirical analyses in the specific context of argumentative writing at the university level remain limited. This article seeks to address this gap by examining how each approach contributes to the development of argumentative writing among university undergraduates, drawing on recent scholarly literature.

LITERATURE REVIEW

Argumentative writing has been studied extensively within the fields of second language writing, rhetoric, and composition studies. Scholars define argumentative writing as a mode of discourse in which writers construct a position, support it with evidence, and address counterarguments through a logically structured text (Ferretti & Graham, 2019). The genre demands meta-cognitive awareness and rhetorical sensitivity, making it particularly challenging for non-native speakers of English.

Teacher-centered instruction in writing education is rooted in the product-oriented tradition, which focuses on the formal features of texts, including organization, grammar, and style. Studies by Ferris (2014) suggest that explicit grammar and structure instruction improves undergraduate students' control over argumentative forms. Direct error correction and model-text analysis are among the most frequently employed strategies within this paradigm.

Learner-centered approaches, by contrast, are grounded in process writing theory and sociocultural perspectives on learning. Vygotsky's concept of the Zone of Proximal Development (ZPD) informs much of the theoretical basis of learner-centered writing pedagogy, particularly through the use of collaborative activities such as peer review and group drafting (Wigglesworth & Storch, 2012). Research indicates that collaborative writing tasks encourage deeper engagement with argumentation strategies and promote learner autonomy.

Genre-based pedagogy, which draws on both teacher guidance and learner interaction, has emerged as a significant framework in academic writing instruction. Hyland (2019) argues that genre pedagogy bridges the gap between explicit instruction and contextual learning by exposing students to authentic argumentative texts while engaging them in structured practice. This approach has been associated with measurable gains in textual coherence and argumentative depth.

Despite the growing body of research, comparative analyses of TCI and LCI specifically within argumentative writing contexts at the undergraduate level are relatively sparse. Existing studies often focus on either one approach or examine writing outcomes in general academic writing rather than in argumentation specifically. This review therefore addresses that gap by synthesizing comparative findings from multiple contexts.

METHODOLOGY

This study employed a qualitative literature review methodology. Peer-reviewed journal articles and book chapters published between 2015 and 2024 were collected from academic databases including Scopus, Web of Science, ERIC, and Google Scholar. The search terms included "argumentative writing," "teacher-centered instruction," "learner-centered writing," "academic writing pedagogy," and "undergraduate writing." Studies were selected for analysis based on the following inclusion criteria:

1. Studies investigating writing instruction at the undergraduate level.
2. Research examining either teacher-centered or learner-centered instructional approaches, or comparing both.
3. Peer-reviewed articles written in English.

A total of 38 studies were selected and analyzed to identify recurring themes, comparative findings, and pedagogical implications related to the development of argumentative writing.

RESULTS

4.1 Outcomes of Teacher-Centered Instruction. The analysis of teacher-centered approaches revealed consistent improvements in students' control of textual structure and formal argumentation conventions. Studies found that direct instruction in the organization of argumentative essays — including claim statements, supporting evidence, and

refutation — led to measurable gains in essay coherence and structural accuracy (Ferris, 2014; Naghdipour, 2016). Students in teacher-directed classrooms demonstrated greater familiarity with genre-specific conventions and produced essays that conformed more closely to academic standards.

However, several studies noted limitations in the depth of critical thinking produced within teacher-centered contexts. Learners tended to reproduce teacher-provided models rather than developing original argumentative positions. This dependency on instructor scaffolding was associated with lower levels of analytical reasoning and a reduced capacity for independent argumentation (Hyland, 2019).

4.2 Outcomes of Learner-Centered Instruction

Learner-centered approaches demonstrated significant benefits in fostering critical thinking and argumentative reasoning. Collaborative tasks such as peer review, debate-based writing, and co-authorship were associated with higher levels of idea generation and the development of more nuanced arguments (Wigglesworth & Storch, 2012). Students engaged in learner-centered writing activities showed greater ownership of their argumentative positions and produced essays with greater ideational complexity.

Nonetheless, the absence of explicit structural instruction in some learner-centered environments resulted in weaknesses in textual organization. Students often produced content-rich but structurally inconsistent essays, reflecting gaps in genre awareness. Research by Lee (2017) indicates that without guided instruction in argumentation conventions, learner-centered writing tasks may not adequately prepare students for formal academic writing requirements.

4.3 Comparative Findings

Comparative analyses suggest that neither approach is universally superior. Teacher-centered instruction is more effective in producing structurally sound argumentative texts, whereas learner-centered instruction generates deeper critical engagement and more original argumentative content. Studies that integrated elements of both approaches — such as genre-based pedagogy with collaborative revision — reported the strongest overall outcomes, combining structural competence with substantive argumentative quality (Hyland, 2019; Ferris, 2014).

5. DISCUSSION

The findings of this review support a nuanced understanding of writing instruction that resists binary distinctions between teacher-centered and learner-centered models. Both approaches address distinct but complementary dimensions of argumentative writing competence. Teacher-centered instruction equips students with the structural and generic knowledge necessary to participate in academic discourse communities, while learner-centered approaches cultivate the critical and dialogic capacities that underpin substantive argumentation.

From a sociocultural perspective, the most productive learning environments are those in which expert guidance and peer collaboration interact dynamically. This aligns with Vygotsky's notion of mediated learning, in which both teachers and peers function as cognitive mediators who support learners in extending their argumentative capabilities beyond their current independent performance levels (Wigglesworth & Storch, 2012).

Pedagogically, the findings recommend an integrative approach that begins with explicit teacher modeling and structured practice of argumentation conventions, progressively transitioning toward collaborative and self-directed writing tasks. Such a trajectory mirrors the gradual release of responsibility model, which has demonstrated effectiveness in developing complex literacy skills (Ferretti & Graham, 2019).

It is also important for educators to consider context-specific factors such as students' proficiency levels, prior writing experience, and institutional expectations when selecting instructional approaches. A flexible, adaptive pedagogy that responds to learners' evolving needs is likely to produce the most sustainable gains in argumentative writing development.

CONCLUSION

This comparative analysis demonstrates that teacher-centered and learner-centered instructional approaches each contribute uniquely to the development of argumentative writing among university undergraduates. While teacher-centered methods are particularly effective in establishing structural and genre competence, learner-centered approaches promote the critical and collaborative dimensions of argumentation. Neither approach alone is sufficient; rather, an integrative pedagogical framework that draws on the strengths of both paradigms offers the most promising pathway to holistic argumentative writing development.

Future research should focus on longitudinal studies that track argumentative writing development across academic years, as well as experimental designs that systematically compare integrative instructional models with single-approach instruction in diverse university contexts.

INGLIZ BOLALAR FOLKLOR QO‘SHIQLARIDA ONOMASTIK BIRLIKLAR QO‘LLANILISHINING LINGVOKULTUROLOGIK XUSUSIYATLARI

Rozikova Gulbahor Zaylobidinovna
Filologiya fanlari doktori (DSc), professor Farg‘ona davlat universiteti
Yoqubova Gulasal Farxodjon qizi
Farg‘ona davlat universiteti tayanch doktorant
Email: g.rozikova@mail.ru

Annotatsiya: *Bolalar folklor qo‘shiqlari muayyan xalqning o‘tmishi, tarixiy shakllanish bosqichlari, urf-odat va an’analari, e’tiqodiy qarashlari va qadriyatlarini o‘zida aks ettiruvchi bebaho manbalardir. Ularda xalqning kundalik turmush tarzi sodda lekin to‘yingan til orqali ifodalanadi. Ushbu tadqiqotda ingliz bolalar folklor qo‘shiqlaridagi onomastik birliklar qiyosiy-lingvokulturologik hamda semantik jihatdan analiz qilish orqali ular orqali nazarda tutilgan simvollar va ularning qo‘shiq matnidagi funksiyalari ochib beriladi. Bolalar folklor qo‘shiqlaridagi onomastik birliklar shunchaki til birligi sifatida emas balki muhim lingvokulturologik ahamiyatga ega bo‘lgan etnik xotira va milliy o‘zlikni namoyon qiluvchi madaniy kodlar sifatida talqin qilinadi. Har bir xalq madaniyatining xilma-xilligi va o‘ziga xos jihatlari misollar orqali ko‘rsatilib isbotlab beriladi.*

Kalit so‘zlar: *Onomastik birliklar, antroponim, nominativ funksiya, umumlashtiruvchi funksiya, fonetik-poetik funksiya, deonimizatsiya.*

LINGUOCULTURAL FEATURES OF THE USE OF ONOMASTIC UNITS IN ENGLISH CHILDREN'S FOLK SONGS

Abstract: *Children’s folk songs are invaluable sources reflecting the past of a particular people, the stages of their historical development, customs and traditions, beliefs, and values. In these songs, the everyday lifestyle of the people is expressed through simple yet meaningful language. This study analyzes onomastic units in English children’s folk songs from comparative linguocultural and semantic perspectives, revealing the symbols implied through these units and their functions within the song texts. Onomastic units in children’s folk songs are interpreted not merely as linguistic elements, but also as cultural codes possessing significant linguocultural value and representing ethnic memory and national identity. The diversity and distinctive features of each culture are demonstrated and proven through relevant examples.*

Keywords: *onomastic units, anthroponym, nominative function, generalizing function, phonetic-poetic function, deonymization.*

ЛИНГВОКУЛЬТУРОЛОГИЧЕСКИЕ ОСОБЕННОСТИ ИСПОЛЬЗОВАНИЯ ОНОМАСТИЧЕСКИХ ЕДИНИЦ В АНГЛИЙСКИХ ДЕТСКИХ ФОЛЬКЛОРНЫХ ПЕСНЯХ

Аннотация: *Детские фольклорные песни являются бесценными источниками, отражающими прошлое определённого народа, этапы его исторического формирования, обычаи и традиции, религиозные представления и ценности. В них повседневный образ жизни народа выражается посредством простого, но содержательного языка. В данном исследовании ономастические единицы в английских детских фольклорных песнях анализируются с сравнительно-лингвокультурологической и семантической точек зрения, а также раскрываются символы, заключённые в этих единицах, и их функции в тексте песни. Ономастические единицы в детских фольклорных песнях интерпретируются не только как языковые единицы, но и как культурные коды, имеющие важное лингвокультурологическое значение и отражающие этническую память и национальную идентичность. Многообразие и своеобразие культуры каждого народа демонстрируются и подтверждаются посредством конкретных примеров.*

Ключевые слова: *ономастические единицы, антропоним, номинативная функция, обобщающая функция, фонетико-поэтическая функция, деонимизация.*

Kirish

Bolalar folklor qo‘shiqlari bolalar tomonidan yoki ularga atab kuylanuvchi qo‘shiqlar hisoblanadi. Lekin ular shunchaki ko‘ngilochar hamda musiqiy-estetik zavq uyg‘otish vositasi emas balki muayyan xalqning ko‘p asrlik tarixiy tajribasi, etnik xotira, milliy o‘zlik va madaniy mafkurani avloddan avlodga o‘tkazuvchi dastlabki fundamental ijtimoiy-iqtisodiy instituti hamdir. Aynan folklor qo‘shiqlari orqali o‘sib kelayotgan bola o‘zi yashayotgan jamiyatdagi axloqiy me’yorlar, urf-odat va an’analar, e’tiqodiy qarashlar hamda qadriyatlar bilan ilk bor tanishadi.

Bolalar folklor qo‘shiqlarida uchrovchi obrazlar, ramziy timsollar, onomastik birliklar o‘sib kelayotgan bolaning milliy mafkurasini shakllantirishda muhim rol o‘ynaydi. Chunki bolalar jamiyatdagi ijtimoiy-madaniy bilimlarni folklor namunalarini, xususan folklor qo‘shiqlarini tinglash, kuylash va takrorlash orqali oladilar. Qo‘shiqlarda qo‘llanilgan sof xalqona iboralar nafaqat bolaning til boyligini oshirishda balki milliy qadriyatlar va an’anaviy dunyoqarash fonida bolalarning tasavvurini kengaytirishda muhim ahamiyatga egadir. Shuningdek qadim qadimdan har bir xalqning milliy ongida mavjud bo‘lgan ezgulik va yovuzlik, mehnat va rohat, qahramonlik kabi tushuncha va stereotiplar folklor qo‘shiqlari orqali bolalar ongiga sindiriladi. Shuning uchun ham bolalar folklor qo‘shiqlari faqatgina estetik yoki lingvistik ahamiyatga ega hodisa emas balki o‘z tarkibida xalqning madaniy kodlarini saqlovchi va uni kelajak avlodga uzatuvchi kommunikativ vosita sifatida ham qadrlanadi.

Adabiyotlar tahlili va metodologiya

Mazkur tadqiqotda bolalar folklor qo‘shiqlarida qo‘llanilgan antroponimlarning funksional-semantik xususiyatlarini aniqlashda tavsifiy (deskriptiv) metod yordamida folklor matnlarida uchraydigan onomastik birliklar aniqlanadi, tasniflandi hamda ularning matndagi lingvistik xususiyatlari tavsiflandi. Ushbu metod antroponimlarning qo‘llanish shakli, poetik vazifasi va semantik yukini aniqlash imkonini berdi.

Shuningdek, lingvokulturologik metod asosida antroponimlarning xalq madaniyati, milliy tafakkur va tarixiy xotira bilan bog‘liq jihatlari tahlil qilindi. Mazkur metod orqali “Polly Flinders”, “Jack”, “Johnny” kabi antroponimlarning ingliz folkloridagi ramziy va madaniy ma’nolari ochib berildi. Chunki folklor matnidagi atoqli otlar ko‘pincha xalqning madaniy kodlari va kollektiv tasavvurlari bilan chambarchas bog‘liq holda shakllanadi.

Bundan tashqari, kontekstual tahlil metodidan foydalanilib, antroponimlarning qo‘shiq matni tarkibidagi vazifasi va ma’no o‘zgarishlari o‘rganildi. Aynan shu metod yordamida antroponimning konkret shaxs nomidan umumlashgan obraz yoki tipik xarakter darajasiga o‘tishi, ya’ni deonimizatsiya jarayoni kuzatildi. Masalan, “Polly Flinders” nomining oddiy ism emas, balki sho‘x va ehtiyotsiz qiz obrazini ifodalashi matn konteksti asosida aniqlanadi.

LITTLE Polly Flinders (kichkina Polli Flinders)
Sat among the cinders, (Cho‘g‘ oldida o‘tiradi,)
Warming her pretty little toes. (Jajji oyoqchalarini isitib.)
Mother came and caught her, (Onasi kelib uni ko‘rib qoladi)
And whipped her little daughter(Va qizini jazolaydi)
For spoiling her nice new clothes.(Yangi kiyimlarini kir qilgani uchun)

Bu qo‘shiq 1805-yilda “Little Jenny Flinders” nomi bilan nashr etilgan. Bundan ko‘rinadiki, “Flinders” nomi “Polly” yoki “Jenny”dan ko‘ra muhimroqdir, chunki u “cinders” (cho‘g‘, kul) so‘zi bilan qofiyalanadi va shu orqali ertaklardagi “kambag‘allikdan boylikka” mavzusidagi syujetlarga ulanadi. Bunday ertaklarda odatda go‘zal va ko‘pincha onasiz qahramon qiz yovuz qarindoshlari tomonidan eziladi hamda oshxona yoki kul orasida yashirishga majbur qilinadi. Uning go‘zalligi chang, kul va kir bilan yashiriladi, toki boshqa birov odatda badbashara opa-singil uning baxtli taqdirini egallab olsin.

Mashhur ertaklardan biri Sinderella bu holatni yaqqol ko‘rsatadi. Ushbu ertak Charles Perrault ning “Mother Goose” to‘plamida ham uchraydi. “Cinderella” nomining o‘zi ham uning kul va kir bilan qoplangan holatini anglatadi. Polli singari u ham shahzodani o‘ziga rom etish va oshxonadan chiqib ketish uchun toza hamda chiroyli kiyimlarga muhtoj bo‘ladi.

Biroq ushbu bolalar qo‘shig‘i ertakdan farqli ravishda ogohlantiruvchi mazmunga ega. Unda oddiy qizchalarga o‘zlarini ertak qahramonidek tasavvur qilmaslik kerakligi uqtiriladi. Qo‘shiq bolalarni kiyimlarini ozoda saqlashga undaydi, chunki ularning muammolarini sehrli pari kelib hal qilib bermaydi. Aks holda, onasi jahli chiqib, ularni jazolashi mumkinligi ta’kidlanadi.

Ushbu qo‘shiq matnida qo‘llangan “Polly Flinders” antroponimi bir necha muhim funksiyalarni bajaradi:

1.Nominativ funksiya. Bu o‘rinda antroponim qo‘shiq qahramonini individuallashtiradi va matnga obrazlilik beradi. Biroq antroponimning vazifasi faqatgina aniq bir qizning nomini ifodalashni maqsad qilmaydi.

2.Umumlashtiruvchi funksiya “Polly Flinders” nomi folklor matnida umumlashgan ramziy obraz sifatida qo‘llanib, sho‘x, beparvo yoki hali hayot tajribasiga ega bo‘lmagan kichkina qizaloq timsolini aks ettiradi. Shu sababli ushbu antroponim tipiklashtiruvchi funksiyani ham bajaradi.

3.Fonetik-poetik funksiya. “Flinders” komponenti fonetik-poetik vazifaga ham ega. Chunki u “cinders” so‘zi bilan qofiyalanib, qo‘shiqning ritmik va ohangdor tuzilishini ta’minlaydi. Folklor qo‘shiqlarida bunday qofiyadosh antroponimlar matnning esda qoluvchanligini oshiradi hamda bolalar nutqiga mos musiqiylikni yuzaga keltiradi. Demak, bu yerda antroponim nafaqat ism sifatida, balki poetik vosita sifatida ham xizmat qilgan.

Shuningdek, “Polly Flinders” antroponimi lingvokulturologik va intertekstual funksiyani ham bajaradi. Chunki u “Cinderella” kabi kul orasida yashovchi, ezilgan, ammo go‘zal qahramon obrazlari bilan assotsiatsiya hosil qiladi. Natijada qo‘shiqdagi antroponim oddiy ism bo‘lib qolmay, ingliz folklori va ertakchiligidagi “kul orasidagi qiz” arxetipini eslatuvchi madaniy kodga aylanadi. Shu tariqa ushbu antroponim matnda nominativ, poetik, ramziy, umumlashtiruvchi va lingvokulturologik funksiyalarni birgalikda bajaradi.

Little Tommy Tucker, (Kichkina Tommi Taker)
Sings for his supper;(Kechki ovqat uchun kuylaydi)
What shall he eat? (U nima yeydi?)
Brown bread and butter. (Qora non va saryog‘)
How will he cut it (Uni qanday kesadi)
Without any knife? (Pichoqsiz?)
How will he marry (Qanday turmush quradi)
Without a wife?(Xotinsiz?)

Natijalar va Muhokama

O‘rta asrlarda sayyor musiqachilar va kezib yuruvchi qo‘shiqchilar gavjum mehmonxonalarda qo‘shiq aytib, raqs tushib yoki kuy chalib berish evaziga ovqat olishlari odatiy hol edi. “Ovqat uchun kuylamoq” (“singing for your supper”) iborasi xalq orasida maqolga aylangan bo‘lib, 1829-yilda “Little Tommy Tucker” ilk bor nashr etilgach yanada mashhur bo‘ldi. Ko‘pchilik bu asarni oddiy va muloyim bolalar qo‘shig‘i deb hisoblasa-da, aslida uning matni yetim bolalarning og‘ir taqdirini kinoyaviy tarzda tasvirlaydi. Chunki “Tommy Tucker” nomi o‘sha davrda yetim bolalarga nisbatan ishlatiladigan so‘zlashuvdagi umumiy nomlardan biri bo‘lgan. Ular ko‘pincha ovqat topish uchun qo‘shiq aytishga yoki tilanchilik qilishga majbur bo‘lganlar. Qo‘shiq, shuningdek, ijtimoiy himoya tizimi hali mavjud bo‘lmagan davrlardagi yetimlarning ayanchli ahvoliga ham ishora qiladi. Ularning jamiyatda mavqei, mol-mulki, oilasi yoki ularga g‘amxo‘rlik qiladigan yaqinlari bo‘lmagan. Shu sababli ularning hayotini yaxshilash imkoniyati ham juda kam edi. “U qanday uylanadi / Xotinsiz?” misralari ham aynan yetim bolaning kelajagi mavhum va umidsiz ekanligini ifodalaydi.

Ushbu qo‘shiqda qo‘llangan “Tommy Tucker” antroponimi bir nechta muhim funksiyalarni bajaradi:

1.Nominativ funksiya. Ushbu holatda antroponim qo‘shiq qahramonini individuallashtiradi va matnga aniq obraz kiritadi. Biroq mazkur antroponim konkret bir tarixiy shaxsni emas, balki umumlashgan ijtimoiy tipni ifodalashi bilan ahamiyatlidir. Chunki “Tommy Tucker” ingliz xalq og‘zaki nutqida yetim, kambag‘al yoki tilanchilik qilib kun ko‘ruvchi bolalarga nisbatan qo‘llanilgan kollektiv nom sifatida shakllangan. Shu sababli antroponim bu yerda tipiklashtiruvchi va umumlashtiruvchi funksiyani bajaradi.

2.Ijtimoiy ramz. “Tommy Tucker” nomi folklor matnida ijtimoiy-ramziy vazifani ham bajaradi. Qo‘shiq orqali o‘rta asr jamiyatidagi yetim bolalarning og‘ir turmushi, ularning jamiyatdagi himoyasiz mavqei hamda kambag‘allik muammosi ramziy tarzda ifodalanadi. Demak, antroponim oddiy ism emas, balki muayyan ijtimoiy qatlamning belgisi sifatida qo‘llangan.

3.Poetik-fonetik funksiya. Ushbu antroponim poetik-fonetik funksiyaga ham ega. “Tommy Tucker” birikmasidagi alliteratsiya va ritmik uyg‘unlik qo‘shiqning ohangdorligini oshirib, bolalar folkloriga xos musiqiylikni yuzaga keltiradi. Bu esa matnning esda qoluvchanligini kuchaytiradi.

Mazkur antroponimda deonimizatsiya jarayoni ham kuzatiladi. Ya’ni dastlab atoqli ot sifatida qo‘llangan “Tommy Tucker” keyinchalik umumlashgan ma’no kasb etib, ma’lum bir ijtimoiy tip kambag‘al yoki yetim bola ma’nosini anglatuvchi birlikka aylangan. Natijada antroponim nominativ vazifadan tashqari ramziy, ijtimoiy, tipiklashtiruvchi va lingvokulturologik funksiyalarni ham bajaradi.

Xulosa

Xulosa qilib aytganda, bolalar folklor qo‘shiqlarida ma’lum bir tushuncha yoki ma’lum bir xarakter va ijtimoiy tipga ega bo‘lgan odamlar guruhi muayyan onomastik birliklar orqali ifodalanadi. Xususan, bolalar folklor qo‘shiqlarida qo‘llanilgan antroponimlar har doim ham muayyan real yoki tarixiy shaxsni emas balki ushbu antroponim bilan bog‘liq holda xalq ongida shakllangan xulq-atvor, ijtimoiy status yoki ramziy ma’noni ifodalash funksiyasini bajaradi. Bu o‘rinda onomastik birlik nominativ funksiyadan konnotativ funksiyasiga ko‘chib o‘tadi va lingvokulturologik ma’no yukini oladi.

Shuningdek qo‘shiqdagi onomastik birlikning xususiyatlaridan kelib chiqib, keyinchalik tilda ushbu onomastik birlik deonimizatsiyaga uchrashi mumkin. Ya’ni folklor qo‘shig‘ida qo‘llanilganidan so‘ng turdosh ot sifatida ishlatilib umumlashgan nominativ birlikka aylanishi mumkin. Natijada, deonimizatziyaga uchragan onomastik birlik ma’lum bir

xarakter yoki ijtimoiy tipni bildiruvchi leksik birlik sifatida qo‘llanila boshlaydi. Anglash mumkinki, folklor qo‘shiqlaridagi onomastik birliklar xalq tafakkuri vat il taraqqiyoti bilan bog‘liq hodisadir.

Аннотация. *В статье рассматриваются особенности обучения русскому языку студентов инженерных направлений с учётом различных стилей обучения. Анализируются когнитивные, аудиальные, визуальные и кинестетические стили, а также их влияние на усвоение языкового материала. Особое внимание уделяется адаптации методик преподавания к профессионально-ориентированным потребностям студентов технических специальностей. Предлагаются эффективные подходы и педагогические стратегии, направленные на повышение мотивации и качества языковой подготовки.*

Ключевые слова: *русский язык, инженерное образование, стили обучения, профессиональная коммуникация, методика преподавания, когнитивные стили, языковая подготовка.*

MUHANDISLIK YO‘NALISHI TALABALARIGA RUS TILINI O‘QITISHNING TURLI O‘QITISH USLUBLARI XUSUSIYATLARI

Annotatsiya. *Maqolada muhandislik yo‘nalishi talabalariga rus tilini o‘qitish jarayonida turli o‘qitish uslublarining xususiyatlari ko‘rib chiqiladi. Kognitiv, audiovizual, vizual va kinestetik uslublar hamda ularning til materialini o‘zlashtirishga ta’siri tahlil qilinadi. Texnik mutaxassislik talabalari uchun kasbiy yo‘naltirilgan ehtiyojlarga moslashtirilgan o‘qitish metodikalariga alohida e’tibor qaratiladi. Talabalarning motivatsiyasi va til tayyorgarligi sifatini oshirishga qaratilgan samarali pedagogik yondashuvlar taklif etiladi.*

Kalit so‘zlar: *rus tili, muhandislik ta’limi, o‘qitish uslublari, kasbiy kommunikatsiya, o‘qitish metodikasi, kognitiv uslublar, til tayyorgarligi.*

FEATURES OF TEACHING THE RUSSIAN LANGUAGE TO ENGINEERING STUDENTS THROUGH DIFFERENT LEARNING STYLES

Abstract. *The article examines the features of teaching the Russian language to engineering students, taking into account different learning styles. Cognitive, auditory, visual, and kinesthetic learning styles and their impact on language acquisition are analyzed. Special attention is paid to adapting teaching methods to the professionally oriented needs of students in technical specialties. Effective pedagogical approaches and strategies aimed at improving motivation and the quality of language training are proposed.*

Keywords: *Russian language, engineering education, learning styles, professional communication, teaching methodology, cognitive styles, language training.*

Введение.

Современное инженерное образование предъявляет высокие требования не только к профессиональной подготовке студентов, но и к уровню их коммуникативной компетенции. В условиях глобализации и расширения международного сотрудничества особую значимость приобретает владение русским языком как средством профессионального и межкультурного общения. Для студентов инженерных направлений русский язык выступает не только как учебная дисциплина, но и как инструмент освоения специальной литературы, участия в научной деятельности и профессиональной коммуникации.

Вместе с тем процесс обучения русскому языку студентов технических специальностей сопровождается рядом трудностей. К ним относятся недостаточный уровень мотивации, сложность восприятия профессионально-

ориентированной лексики, а также различия в индивидуальных особенностях восприятия и обработки информации. Одним из ключевых факторов, влияющих на эффективность обучения, являются стили обучения студентов, которые определяют предпочтительные способы усвоения знаний.

Анализ литературы.

В современных исследованиях по когнитивной лингвистике и методике преподавания русского языка как иностранного особое внимание уделяется взаимосвязи языка, мышления и познавательной деятельности человека. В этом контексте значительный вклад в развитие научной парадигмы внесли работы Е.С. Кубряковой, Л.Г. Лузиной, В.З. Демьянкова и О.Д. Митрофановой.

Е.С. Кубрякова в своих трудах рассматривает язык как важнейший инструмент познания мира и формирования сознания. В работе «Язык и сознание: на пути получения знаний о языке» автор анализирует части речи с когнитивной точки зрения, подчеркивая их роль в процессе концептуализации действительности и организации знаний человека. Данный подход позволяет по-новому интерпретировать языковые единицы не только как грамматические категории, но и как элементы когнитивной системы[5].

Л.Г. Лузина развивает идеи когнитивно-дискурсивной парадигмы лингвистического сознания, рассматривая язык как динамическую систему, тесно связанную с процессами мышления и коммуникации. Она подчеркивает, что дискурс является важнейшей формой реализации языкового сознания, что открывает новые перспективы для анализа языковых явлений в их функционировании[6].

В.З. Демьянков в своих исследованиях уделяет внимание понятию «парадигма» как в обыденном языке, так и в лингвистике. Он показывает многозначность данного термина и его значимость для научного описания языковых процессов. Такой подход способствует более точному пониманию методологических основ современной лингвистики.

Таким образом, анализ представленных источников показывает, что современная лингвистика развивается в направлении интеграции когнитивных, дискурсивных и методических подходов. Это позволяет более глубоко изучать язык как средство познания и коммуникации, а также совершенствовать методику его преподавания в образовательной практике.

Методология исследования.

В исследовании использовался смешанный методологический подход, включающий теоретический анализ и педагогическое наблюдение. Это позволило выявить особенности обучения русскому языку студентов инженерных направлений с учётом различных стилей обучения и определить наиболее эффективные педагогические подходы.

Обсуждение и результаты.

В педагогической практике выделяются различные стили обучения, среди которых наиболее распространёнными являются визуальный, аудиальный, кинестетический и когнитивный стили. Учет данных особенностей позволяет преподавателю более гибко выстраивать образовательный процесс, подбирать адекватные методы и средства обучения, а также повышать уровень вовлеченности студентов в учебную деятельность.

Актуальность данного исследования обусловлена необходимостью совершенствования методики преподавания русского языка в технических вузах с учетом индивидуальных стилей обучения студентов. Это, в свою очередь, способствует повышению качества языковой подготовки, развитию профессионально-коммуникативной компетенции и формированию конкурентоспособных специалистов[4].

Президент Республики Узбекистан Шавкат Мирзиёев в своём послании Олий Мажлису и народу Узбекистана отметил, что «повышение качества образования – единственно правильный путь развития Нового Узбекистана». Несомненно, это является одним из актуальных вопросов повестки дня нашей страны. Ведь в его основе лежит вопрос о подготовке высококвалифицированных специалистов, способных вывести Узбекистан в ряды развитых стран. В этой связи тот факт, что Президент Шавкат Мирзиёев отметил в своём Послании, что образование является самой важной инвестицией в «Новом Узбекистане», имеет глубокое стратегическое значение[3]. «На сегодняшний день перед системой высшего образования в направлении подготовки высококвалифицированных кадров сохраняется ряд актуальных проблем и недостатков, требующих своего решения, в том числе: не сформированы навыки критического мышления, самостоятельного поиска информации и анализа у студентов …» подчеркивается во второй главе («Текущее состояние системы высшего образования и имеющиеся проблемы») «Концепции развития системы высшего образования Республики Узбекистан до 2030 года. Качество обучения повышается в том случае, если студенты осознают значимость информации, которую они получают на занятиях. Если студенты не заинтересовываются материалом, их мотивация снижается, что приводит к снижению качества обучения. Соответственно, для эффективного обучения преподавателю необходимо уметь использовать такие комбинации методов, которые позволят создать стимулирующую и

интерактивную обстановку в аудитории. Однако все люди различаются набором психологических свойств, поэтому перед преподавателем возникает проблема поиска методов обучения, которые могли бы стимулировать интерес к предмету у всей аудитории. Эффективная учебная деятельность может осуществляться лишь в условиях эмоционального подкрепления, т. е. при осознании обучающимися своего успеха. Сознательная активность, направленная на достижение успеха, является главной предпосылкой качественного обучения.

Современное образование ставит перед собой задачу не только передачи знаний, но и развития критического и аналитического мышления студентов. В условиях быстро меняющегося мира, когда информационные потоки становятся все более насыщенными и многогранными, способность к анализу, синтезу и оценке информации становится особенно важной. Это касается всех областей знаний, включая гуманитарные дисциплины, такие как русский язык и литература. Важнейшим средством общения является язык, а процесс коммуникации состоит из передачи сообщений и их приёма. Эти сообщения могут быть зрительными, слуховыми и ощущаемыми, распознаваясь соответствующими анализаторами. При этом значительная часть информации обычно передаётся визуально. Тем не менее далеко не все люди воспринимают мир оказывается аудиальная модальность восприятия, для других – кинестетическая[6].

Среди квалификаций стилей обучения модель VAK Нила Флминга, пожалуй. Приобрела наибольшую популярность. Благодарить за это стоит миссионеров теории НЛП, которые пользуются практически теми же именами и характеристиками «ведущих и репрезентативных системах восприятия» - аудиальной, кинестетической, визуальной. В модели VAK тоже основанной на идее о системах восприятия, к визуалам, аудиалам и кинестетикам добавляются «дигиталы». Они же представители вербального стиля обучения, а в буквальном переводе с английского – «читающие». Таким образом. Полная рашифровка аббревиатуры следующая: visual, audifory, kinesthetic[5].

Никаких строгих научных подтверждений данной классификации нет, напротив есть много свидетельств тому, что ориентация педагогов на «предпочтения» в области восприятия информайии не влияет на результаты обучения. Тем не менее, студенты и педагоги субъективно замечают практическую ценность данной квалификации. Учащиеся определив своё предпочтение по VAK, могут организовать учебную деятельность более эффективно. Педагог, учитывающий разнообразие предпочитаемых систем восприятия (но не пытающийся извне «поставить диагноз» конкретному ученику и ориентироваться только на него), доносит излагаемый материал до большего числа учащихся. Визуальные ученики (V): эти люди лучше всего учатся с помоўью наглядңх пособий и изображений. Аудиалқ (A): Эти люди преуспевают в обучении, слушая и говоря. Кинестетические учащихся (K): Эти люди лучше всего учатся через физическую активность и опыт. Почему важно понимать свой стиль обучения VAK? Понимание своего стиля обучения BAK важно по нескольким причинам:

Это поможет вам выбрать стратегии и ресурсы, соответствующие вашим сильным сторонам,что сделает процесс обучения более эффективными и приятным[4]. Это поможет вам работать совместно учителями, чтобы создать учебную среду. Которые отвечает вашим потребностям и способствует вашему академическому прогрессу.

Это даёт вам возможность продолжать своё личное и профессиональное развитие, делая ваше постоянное обучение более эффективным.

Заключение.

Проведённое исследование показало, что учёт различных стилей обучения при преподавании русского языка студентам инженерных направлений существенно повышает эффективность образовательного процесса. Дифференцированный подход способствует более глубокому усвоению языкового материала и развитию профессионально-коммуникативных навыков. Результаты исследования подтверждают необходимость адаптации методик обучения к индивидуальным особенностям студентов для повышения качества языковой подготовки.

PROBLEMS OF INTENSIVE TEACHING OF ENGLISH

Aliyeva Azizaxon Ilxom-kizi
The student of NamSU
E-mail: azizaaliyeva777@gmail.com

Abstract: *Intensive English language teaching has become increasingly popular due to the growing demand for rapid language acquisition in academic, professional, and international contexts. Intensive courses are designed to develop learners' language skills within a limited period through concentrated instruction and extensive practice. Despite their advantages, intensive English programs present numerous challenges that affect both teachers and students. This article examines the major problems associated with intensive English language teaching from theoretical and practical perspectives.*

Keywords: *intensive English teaching, language learning, English as a foreign language, language acquisition, curriculum design, learner motivation, intensive courses*

ПРОБЛЕМЫ ИНТЕНСИВНОГО ОБУЧЕНИЯ АНГЛИЙСКОМУ ЯЗЫКУ

Аннотация: *Интенсивное обучение английскому языку становится все более популярным в связи с растущим спросом на быстрое усвоение языка в академическом, профессиональном и международном контекстах. Интенсивные курсы разработаны для развития языковых навыков учащихся в течение ограниченного периода времени посредством концентрированного обучения и обширной практики. Несмотря на свои преимущества, интенсивные программы обучения английскому языку представляют собой многочисленные проблемы, затрагивающие как преподавателей, так и студентов. В данной статье рассматриваются основные проблемы, связанные с интенсивным обучением английскому языку, с теоретической и практической точек зрения.*

Ключевые слова: *интенсивное обучение английскому языку, изучение языка, английский как иностранный язык, усвоение языка, разработка учебных программ, мотивация учащихся, интенсивные курсы*

INGLIZ TILINI INTENSIV O'QITISH MUAMMOLARI

Annotatsiya: *Akademik, professional va xalqaro sharoitlarda tilni tez o'zlashtirishga bo'lgan talabning ortib borishi tufayli intensiv ingliz tilini o'qitish tobora ommalashib bormoqda. Intensiv kurslar o'quvchilarning til ko'nikmalarini cheklangan vaqt ichida diqqat bilan o'qitish va keng amaliyot orqali rivojlantirishga mo'ljallangan. Afzalliklariga qaramay, intensiv ingliz tili dasturlari o'qituvchilar va talabalarga ta'sir qiladigan ko'plab qiyinchiliklarni keltirib chiqaradi. Ushbu maqolada intensiv ingliz tilini o'qitish bilan bog'liq asosiy muammolar nazariy va amaliy nuqtai nazardan ko'rib chiqiladi.*

Kalit so'zlar: *intensiv ingliz tilini o'qitish, til o'rganish, chet tili sifatida ingliz tili, tilni o'zlashtirish, o'quv dasturi dizayni, o'quvchining motivatsiyasi, intensiv kurslar*

Introduction. The increasing globalization of education, business, and communication has created a strong demand for effective English language instruction. [8] As a result, many educational institutions offer intensive English programs that aim to improve language proficiency within a short timeframe. Intensive teaching typically involves a greater number of instructional hours, accelerated learning objectives, and concentrated language practice.

Although intensive courses can produce significant language gains, they also generate various educational challenges. [3] Students are often expected to master large amounts of linguistic material in a limited period, while teachers must maintain high levels of instructional quality and learner engagement. Understanding these problems is essential for improving the effectiveness of intensive English language programs. The purpose of this study is to identify and analyze the main theoretical and practical problems associated with intensive English teaching and to suggest possible solutions for addressing these challenges.

Methods This study employs a qualitative review of relevant literature on intensive language instruction and English language teaching. [4] Academic articles, books, and educational reports were analyzed to identify recurring themes and challenges related to intensive English programs. The analysis focused on: Theoretical foundations of

intensive language learning. Cognitive and psychological challenges faced by learners. Curriculum and instructional issues. Teacher-related challenges. Assessment and evaluation concerns. The collected information was categorized and interpreted to provide a comprehensive understanding of the topic.

Results. The analysis identified several significant problems associated with intensive English teaching. **Theoretical Problems:** 1. Cognitive Overload: One of the major theoretical concerns is cognitive overload. Intensive courses require students to process and retain large amounts of vocabulary, grammar, and language skills within a short period. [6] Excessive information may exceed learners' cognitive capacity, reducing retention and comprehension. 2. Limited Time for Language Internalization: Language acquisition requires repeated exposure and practice. Intensive programs often emphasize speed and coverage of content, leaving insufficient time for learners to internalize language structures and develop automatic language use. [2] 3. Individual Learning Differences: Students possess different learning styles, language backgrounds, and proficiency levels. Intensive programs may not provide sufficient flexibility to accommodate individual differences, resulting in unequal learning outcomes.

Practical Problems: 1. Student Fatigue and Stress: The demanding nature of intensive courses often leads to physical and mental exhaustion. Long study hours and frequent assessments may increase stress levels and negatively affect learning performance. 2. Maintaining Learner Motivation: While students may initially be motivated, maintaining enthusiasm throughout an intensive course can be difficult. Continuous academic pressure may lead to reduced participation and engagement. 3. Curriculum Design Challenges: Developing an effective intensive curriculum requires balancing language skills, learning objectives, and available instructional time. Overloaded curricula may sacrifice depth of learning for the sake of content coverage. 4. Teacher Workload: Teachers in intensive programs often face increased responsibilities, including lesson preparation, assessment, feedback, and classroom management. Heavy workloads may contribute to professional burnout and reduced instructional effectiveness. 5. Assessment Difficulties: Evaluating language proficiency in intensive courses can be challenging. Frequent testing may create anxiety, while limited instructional time may not allow comprehensive assessment of all language skills. 6. Limited Opportunities for Real-Life Communication: Although intensive courses focus heavily on language instruction, students may have limited opportunities to practice English in authentic social contexts. This can restrict the development of communicative competence.

Discussion. The findings demonstrate that intensive English teaching offers both advantages and limitations. The accelerated nature of intensive programs enables learners to make rapid progress, particularly when instruction is well-organized and learner-centered. However, excessive instructional intensity may result in cognitive overload, stress, and reduced long-term retention. To address these challenges, educators should adopt balanced teaching strategies that combine intensive practice with opportunities for reflection and reinforcement. Interactive learning activities, collaborative projects, and communicative tasks can help reduce learner fatigue and improve engagement. [5] Curriculum designers should prioritize essential language objectives and avoid excessive content accumulation. Teachers should also receive professional development opportunities that prepare them to manage intensive learning environments effectively. Furthermore, integrating technology-based learning tools, self-directed study activities, and authentic communication opportunities can enhance learning outcomes and support sustained language development.

Conclusion

Intensive English teaching has become an important approach to language education due to its ability to accelerate language learning. However, it presents numerous theoretical and practical challenges, including cognitive overload, limited language internalization, learner diversity, student stress, motivational issues, curriculum difficulties, teacher workload, and assessment concerns. [1,7] The success of intensive English programs depends on careful curriculum planning, effective teaching methodologies, appropriate assessment practices, and adequate support for both learners and instructors. By addressing these challenges, educational institutions can improve the quality and effectiveness of intensive English language instruction.

ФРАЗЕОЛОГИЧЕСКИЕ ЕДИНИЦЫ КОМПОНЕНТОВ «ФЛОРА» И «ФАУНА» В УЗБЕКСКОМ И РУССКОМ ЯЗЫКАХ

Бобаева Шахноза Яркуловна
старший преподаватель Каршинского государственного
технического университета
E-mail: serjon70@mail.ru

Аннотация: *Данная статья посвящена сопоставительному анализу структурных особенностей фразеологических единиц (ФЕ), содержащих компоненты флоры (фитономы) и фауны (зоонимы) в узбекском и русском языках. В работе рассматриваются грамматические модели построения идиом, выявляются национально-культурные специфики и универсальные черты в обоих языках. Особое внимание уделяется семантической эквивалентности и несопоставимости зоономических и фитономических кодов, отражающих ментальность и природные условия жизни народов.*

Ключевые слова: *фразеология, зооним, фитоним, сопоставительная лингвистика, структура фразеологизмов, национально-культурная специфика, эквивалентность, безэквивалентность, зоономические и фитономические коды, изоморфный и алломорфный.*

PHRASEOLOGICAL UNITS OF THE COMPONENTS "FLORA" AND "FAUNA" IN THE UZBEK AND RUSSIAN LANGUAGES

Annotation: *This article is devoted to a comparative analysis of the structural features of phraseological units (PU) containing components of flora (phytonomes) and fauna (zoonyms) in the Uzbek and Russian languages. The paper examines grammatical models of idiom construction, identifying national and cultural specifics and universal features in both languages. Particular attention is paid to the semantic equivalence and incomparability of zoonomic and phytonomic codes, reflecting the mentality and natural conditions of peoples.*

Key words: *phraseology, zoonym, phytonym, comparative linguistics, structure of phraseological units, national and cultural specificity, equivalence, non-equivalence, zoonomic and phytonomic codes, isomorphic and allomorphic.*

O'ZBEK VA RUS TILLARINDA "FLORA" VA "FAUNA" KOMPONENTLARINING FRAZEOLOGIK BIRLIKLARI

Annotatsiya: *Ushbu maqola o‘zbek va rus tillaridagi flora (fitonomlar) va fauna (zoonimlar) komponentlarini o‘z ichiga olgan frazeologik birliklarning (FB) strukturaviy xususiyatlarini qiyosiy tahlil qilishga bag‘ishlangan. Maqolada frazeologik birliklar (FB) tuzilishining grammatik modellari o‘rganiladi, ikkala tilda ham milliy va madaniy o‘ziga xosliklar va universal xususiyatlar aniqlanadi. Zoonomik va fitonomik kodlarning semantik ekvivalentligi va taqqoslanmasligiga alohida e’tibor qaratiladi, bu xalqlarning mentaliteti va tabiiy sharoitlarini aks ettiradi.*

Введение

Фразеология является «золотым фондом» любого языка, в котором закодированы многовековой опыт, традиции мировосприятие народа. Фразеологические единицы с компонентами флоры и фауны занимают центральное место в языковой картине мира, так как человек всегда осознал себя частью природы. Актуальность данного исследования обусловлена необходимостью глубокого структурного и семантического анализа ФЕ в контексте межкультурной коммуникации, особенно в условиях тесного взаимодействия узбекского и русского языков.

В системе фразеологических средств языков особое место занимают единицы, связанные с животным и растительным миром. Животные и растения на протяжении тысячелетий выступали в качестве главных

партнёров и объектов наблюдения человека, что привело к формированию мощного зоонимического и фитономического кода в языке. Сопоставительное изучение этих кодов в узбекском и русском языках позволяет не только расширить границы типологического языкознания, но и глубже понять ментальные основы двух культур.

Несмотря на наличие многочисленных работ по фразеологии, вопрос структурной асимметрии зоонимических и фитономических ФЕ в разноструктурных языках (узбекском и русском) остаётся недостаточно освещённым. Существует противоречие между универсальностью природных образов (например, «волк», как символ жестокости или «цветок», как символ красоты) и спецификой их грамматического оформления, продиктованной внутренними законами каждого языка.

Научная новизна работы заключается в том, что в ней впервые проводится параллельный анализ структурных моделей ФЕ флоры и фауны с учётом грамматических трансформаций, возникающих при переходе от одного языка к другому. Цель статьи – выявить и систематизировать структурные типы фразеологизмов с компонентами «флора» и «фауна», а также определить степень их эквивалентности в сопоставляемых языках.

Анализ литературы

Теоретическую базу исследование составили труды классиков фразеологии, таких как В.В.Виноградов, Н.М.Шанский и А.В.Кунин, разработавших классификацию ФЕ в русском языке. В узбекском языкознании фундаментальные исследования в этой области проводили Ш.Рахматуллаев, Б.Юлдашев и А.Маматов.

Анализ литературы показывает, что если семантика зоонимов изучена достаточно широко, то структурно-грамматическое сопоставление фитонимов в разноструктурных языках требует дальнейшего уточнения.

Методология исследования

Для достижения цели исследования был применён комплексный методологический аппарат, включающий следующие этапы и подходы:

1. Метод сплошной выборки: Из фразеологических словарей узбекского языка (Ш. Рахматуллаев) и русского языка (А.И. Молотков) было отобрано более 300 единиц, содержащих зоонимы и фитонимы.

2. Сравнительно-сопоставительный метод: Позволил выявить изоморфные (общие) и алломорфные (различные) черты в структуре ФЕ. Например, анализ того, как одна и та же семантическая идея «упрямство» кодируется через разные образы: *осёл* в русском и eshak/tuya в узбекском.

3. Метод структурного моделирования: Использование лингвистических формул для описания грамматических связей внутри фразеологизма. Выделяется следующие модели:

прилагательное + существительное;

глагол + существительное;

изафетные конструкции в узбекском языке.

4. Лингвокультурологический анализ: Изучение фразеологизмов как носителей культурного кода. Этот метод помог объяснить, почему в узбекском языке преобладают образы, связанные с оазисом и домашним скотом, а в русском – с лесными массивами и дикой природой.

Результаты и их анализ

В ходе анализа было выявлено, что структура ФЕ напрямую зависит от грамматического строя языка, однако семантические механизмы образования метафор часто совпадают.

1. Зоонимы (Фауна).

Зоонимы в обоих языках являются наиболее продуктивной группой. Мы классифицировали их по типам структурной устойчивости:

Модели полного эквивалента:

В русском языке: «Чёрная кошка пробежала» – разрыв отношений.

В узбекском языке: «Oradan ola mushuk o‘tdi» – здесь мы видим почти зеркальное отражение структуры, что говорит об универсальности образа кошки, как символ раздора.

Модели с национально-культурным компонентом:

В узбекском языке часто используется образ верблюда (tuya): «Tuya hammomni orzu qilibdi» (верблюд мечтал о бане – о несбыточном). Структура: существительное + существительное (объект) + глагол.

В русском языке аналогичные смыслы передаются через образ *рака: «Когда рак на горе свистнет».* Структура здесь сложнее – придаточное предложение времени.

2. Фитономический код.

Фитонимы в структуре ФЕ часто выступают как символы стабильности или, наоборот, хрупкости.

Сравнение:

В русском языке структура строится на признаке «дерево/лист»: «Как банный лист» – навязчивость.

В узбекском языке преобладает «плод/растение»: «Qovun tushirmoq» (уронить дыню – совершить оплошность). Это уникальная глагольная модель, характерная для агглютинативных языков, где существительное в винительном падеже (без окончания) сливается с глаголом.

Метафора «Gul» (цветок) и «Роза»:

В русском языке: «Нет розы без шипов». Структура: отрицательное предложение.

В узбекском языке: «Gulning tikoni bor» (у цветка есть колючки). Структура: поссесивная конструкция. Мы видим, что в узбекском языке используется обобщённый образ «цветок», в то время как в русском – конкретный вид «роза».

Обсуждая полученные результаты, необходимо подчеркнуть, что структурная асимметрия фразеологизмов часто диктуется климатическими условиями.

В русском языке «**лесной**»: обилие ФЕ с компонентами берёза, осина, заяц, медведь, волки. Структуры часто экспрессивны и связаны с преодолением пространства – «В лес не убежит».

В узбекском языке «**степной/оазисный**»: доминирование компонентов paxta, olma, qovun, tuya, ot, ilon. Структуры более лаконичны и часто питают склонность к афористичности, что характерно для восточной дидактики.

Таблица I

Сравнительно-сопоставительный анализ

Компонент	Русский ФЕ	Узбекский ФЕ	Смысловое ядро
Волк / bo‘ri	Волк в овечьей шкуре	Qo‘y terisini yopingan	Скрытая угроза
Яблоко / olma	Яблоко от яблони	Olma tagiga tushadi	Преемственность
Sobaka / it	Собаку съел	Itning keyingi oyog‘i	Лишний человек / Опытный

Вывод

Проведённый анализ структурных особенностей ФЕ с компонентами флоры и фауны в узбекском и русском языках позволяет сделать вывод о наличии как универсальных, так и специфических черт. Структурные совпадения (например, в модели прилагательное + существительное) свидетельствуют об универсальности человеческого мышления, в то время как различия в выборе образов (осина против камыша, рыба против толокна) обусловлены культурно-историческими и природно-географическими факторами.

TILSHUNOSLIK KOGNITIV FANLAR TIZIMIDA

Qazaqova Nozima Abdulboqiyevna,
Namangan davlat universiteti doktoranti, PhD, dotsent

Annotatsiya: *Ushbi maqolada tilshunoslikning kognitiv fanlar tizimida tutgan o'rni va ahamiyati yoritilgan. Til va tafakkur munosabati, tafakkur operatsiyalari, ularning til birliklarida ifodalanishi masalasi tahlil qilingan. Tafakkurning shakllanish va rivojlanish bosqichlari, buning til birliklarida aks etishi ochib berilgan.*

Kalit so'zlar: *til, tafakkur, ong, kognitiv fanlar, kognitiv tilshunoslik, konsept, analiz, sintez, qaror qabul qilish, umumlashtirish, tasniflash.*

ЯЗЫКОЗНАНИЕ В СИСТЕМЕ КОГНИТИВНЫХ НАУК

Аннотация: *В данной статье освещается роль и значение языкознания в системе когнитивных наук. Анализируется взаимосвязь языка и мышления, мыслительные операции и их выражение в языковых единицах. Раскрываются этапы формирования и развития мышления и их отражение в языковых единицах.*

Ключевые слова: *язык, мышление, сознание, когнитивные науки, когнитивное языкознание, концепт, анализ, синтез, принятие решений, обобщение, классификация.*

LINGUISTICS IN THE SYSTEM OF COGNITIVE SCIENCES

Abstract: *This article highlights the role and importance of linguistics in the system of cognitive sciences. The relationship between language and thought, thought operations, and their expression in linguistic units are analyzed. The stages of the formation and development of thinking and their reflection in linguistic units are revealed.*

Keywords: *language, thought, consciousness, cognitive sciences, cognitive linguistics, concept, analysis, synthesis, decision-making, generalization, classification.*

Kirish

Tilshunoslik, psixologiya, sotsiologiya, madaniyatshunoslik kabi so**h**alar **h**amkorligi kognitiv faoliyat asosida vo**q**elanuvchi **h**odisadir. Kognitiv tilshunoslik **h**am insonning bilish faoliyati bilan shu**g'**ullanuvchi fanlar tarkibiga kiradi. Kognitiv tilshunoslik atamasining mazmuni inglizcha «cognitive – bilishga oid» so'zi bilan bo**g'**li**q**. **Kognitiv** tilshunoslik bugungi kunda jahon tilshunosligida o'z tahlil usuli va tadqiq mezonlariga ega soha sifatida mustahkam o'rin egallagan bo'lsa, o'zbek tilshunosligida rivojlanayotgan sohalardan biri sanaladi. Kognitiv tilshunoslik axborotni qabul qilish, o'zlashtirish, qayta ishlash va uzatish mexanizmini o'rganadigan fan hisoblanadi.

Adabiyotlar tahlili

Jahon tilshunosligida kognitiv fanlar va kognitiv tilshunoslikka oid ilmiy-nazariy qarashlar T. Van Deykning "Язык. Познание. Коммуникация", S. Reber Arthurning "Dictionary of Psychology", P. N. Johnson-Lairdning "Mental Models", D.Popova va I.Sterninlarning "Когнитивная лингвистика", o'zbek tilshunosligida Sh.Safarovning "Kognitiv tilshunoslik" kabi asarlarida o'z ifodasini topgan. Shuningdek, Kubryakova "Kognitiv fanlar oldiga bilimni ifodalash tizimlarini va axborotni qayta ishlash jarayonlarini tavsiflash/o'rganish, shu bilan birga, insonning kognitiv qobiliyatlarini mental mexanizm sifatida tahlil etishning umumiy tamoyillarini tadqiq qilish va ularning o'zaro bog'liqligi va ta'sirini aniqlash kabi vazifalar kiradi, deb ta'kidlasa, shundan kelib chiqib, mazkur sohalarni birlashtiruvhi tushunchalarga ong, idrok, tafakkur, sezgi, til, konsept, konseptuallashtirish, kategorizatsiyalash kabilar kiradi, deb hisoblansa, Sh. Safarov kognitiv fanlar sistemasini qiziqtiradigan masalalardan biri bilim, bilish jarayoni ekanligini ta'kidlagan holda, bilimni inson xotirasida saqlangan (hech bo'lmasa «iz qoldirgan») tizimlashtirilgan ma'lumotlar to'plami ekanligini aytib o'tadi, ammo bu to'plamning qanday tarkib topishi, undan foydalanish mexanizmini o'rganish ancha qiyin vazifa ekanligini ham alohida ta'kidlaydi. Demak, kogtiniv fanlar, shu jumladan, kognitiv tilshunoslikning murakkabligi shundaki, bilish jarayoni, operatsiyalari, bosqichlari bevosita kuzatishda mavjud bo'lmaydi. Ammo til birliklari tafakkur amaliyotlari natijasini ifodalab beruvchi vositaardan eng muhimi sanaladi. [8. 10]

Tahlil va natijalar

Kognitiv tilshunoslikda biz til va tafakkurning murakkab munosabatlarini kuzatamiz. Jahon ilm-fanida kognitiv fanlar taraqqiy etib bormoqda va bu fanlar qatoriga quyidagi fanlar kiritilmoqda:

Kognitiv fanlar		
Fan nomi	O‘ziga xosligi	Tekshirish obyekti
Kognitiv psixologiya	Insonning bilish jarayonlarini o‘rganuvchi psixologiya sohasi	Idrok, xotira, tafakkur, nutq va til, diqqat
Kognitiv lingvistika	Tilni inson ongining (tafakkurining) mahsuli va aks ettiruvchisi sifatida o‘rganadigan tilshunoslik sohasi.	Til va tafakkur o‘rtasidagi bog‘liqlik, konsept, konseptosfera, freym, kategoriyalash
Matematik mantiq	Mantiqni matematika qonunlari asosida o‘rganuvchi soha, matematika yo‘nalishi	Mulohaza va uning qiymati, elementar mulohazalar, mantiqiy amallar va formulalar
Suniy intellekt nazariyasi	Kompyuter tizimlari va algoritmlarni inson aqliy faoliyatiga o‘xshash tarzda ishlashga o‘rgatish tamoyillari va modellarini o‘rganadigan fan	Sun’iy intellekt, dasturlash, NLP, mashina tarjimasi, ma’lumotni qayta ishlash, model kabi.
Neyrofiziologiya	Asab tizimining (ayniqsa miya va nerv hujayralarining) faoliyatini o‘rganadigan biologiya va tibbiyotga oid fan sohasidir.	Neyronlar, miya signallari, sezgi mexanizmlari, harakat va reflekslar, xotira, o‘rganish va fikrlashning biologik asoslari ,asab tizimining normal va buzilgan holatlari
Kognitiv sotsiologiya	bu insonning fikrlash jarayonlari, bilimni qabul qilishi va dunyoni tushunishi jamiyat va ijtimoiy muhit ta’sirida qanday shakllanishini o‘rganadigan sotsiologiya sohasi.	ijtimoiy guruhlar va inson tafakkuri, bilim, qarash va e’tiqodlarning jamiyatda shakllanishi, ijtimoiy tajriba va madaniyatning idrok va fikrlashga ta’siri, jamoaviy ong, ijtimoiy stereotiplar va ularning kognitiv asoslari
Kognitiv antropologiya	insonlarning dunyoni qanday tushunishi, tasavvur qilishi va bilimni qanday shakllantirishini madaniyat va jamiyat kontekstida o‘rganadigan antropologiya sohasi.	turli madaniyatlarda fikrlash va idrok etish tizimlari, insonlarning “dunyo modeli”, bilim va tajribaning jamiyatda qanday shakllanishi va uzatilishi,til, urf-odat va madaniyatning tafakkurga ta’siri, konseptlar va kategoriyalarning turli xalqlarda farqlanishi
Kognitiv poetika	Adabiy tanqidning adabiyotni insonning idrok etish va fikrlash jarayonlari bilan bog‘liq holda o‘rganadigan bir yo‘nalishi	Badiiy matn inson ongida qanday tasavvur va obrazlar hosil qilishi, o‘quvchi asarni o‘qish jarayonida ma’noni qanday “qurishi”, muallifning fikrlash modeli va uni matnda ifodalashi, metafora, obraz va ramzlarning kognitiv asoslari, adabiy matn orqali dunyo qanday konseptualizatsiya qilinishi
Psixolingvistika	bu til va psixik (ruhiy) jarayonlar o‘rtasidagi bog‘liqlikni o‘rganadigan fan sohasidir.	tilni o‘zlashtirish (bolalarda tilning paydo bo‘lishi va rivojlanishi) nutqni ishlab chiqish (fikrning gapga aylanishi jarayoni) nutqni tushunish (eshitilgan yoki o‘qilgan matnni anglash) xotira va til o‘rtasidagi bog‘liqlik bilingvizm (ikki yoki undan ortiq tilni bilish) nutq buzilishlari va ularning psixologik asoslari
Lingvomadaniyatshunoslik	tilni faqat aloqa vositasi emas, balki madaniyatni aks ettiruvchi va saqlovchi tizim sifatida tahlil qiluvchi soha.	til birliklarida milliy madaniyatning ifodalanishi xalqning urf-odatlari, qadriyatlari va dunyoqarashining tilda aks etishi so‘zlar va iboralardagi madaniy ma’nolar turli xalqlarning til orqali dunyoni turlicha tasavvur qilishi madaniy konseptlar (masalan, mehmondo‘stlik, vatan, sharaf kabi tushunchalar)

Ko‘rish mumkinki, keyingi yillarda ko‘plab fanlar kesimida kognitiv yo‘nalish zamonaviy tarmoq sifatida taraqqiy etishni boshlagan. Tilshunoslik tarixida kognitiv lingvistika rasman 1989-yilda alohida tilshunoslik yo‘nalishi sifatida e’tirof etilgan. [7. 8] Mazkur yo‘nalishning boshqa kognitiv fanlardan farqi uning materialida – u til materiali orqali ongni

o‘rganadi (boshqa kognitiv fanlar ongni o‘z materiali asosida o‘rganadi), shuningdek, inson ongidagi mental tasvirlarning turlari haqida xulosalar chiqaradi, so‘ngra tadqiqot natijalarini kognitiv talqin qiladi.[7.10] Aslida kognitiv jarayonlarni kuzatish imkonini beruvchi, uni voqelantiruvchi vosita sanaluvhi til boshqa kognitiv fanlar uchun ham musyyan darajada material beruvchi manba sanaladi. Bu sohalada ham og’zaki yoki yozma til manbalari dalil sifatida xizmat qilishi mumkin.

Axborot oqimining kengayishi, fanlar va sohalar integratsiyasi, dunyo bo‘ylab aloqa jarayonlarining maksimallashuvi hamda chegarasizligi hozirgi kunda insoniyatning ong va tafakkur jarayonlari rivojlanishi ham tezlashishiga sabab bo‘layotgani sir emas. Inson o‘zining qiziqishi, turmush tarzi, jismoniy va ruhiy holati hamda ehtiyoji, maqsadlari, tashqi ta’sirlardan kelib chiqqan holda axborot manbalarini tanlaydi hamda turli yo‘nalishlardagi qarashlari, ma’lumotlarini tinimsiz ravishda kengaytirib boradi. Bu jarayonda tafakkur, tasavvur, sezgi, idrok kabi kategoriyalarning o‘rni muhim, albatta. Keyingi yillarda tilni tafakkur mexanizmlari va kategoriyalari bilan bog’lab o‘rganuvchi kognitiv tilshunoslikning taraqqiy etishi ham bejiz emas. Chunki, yuqorida sanab o‘tilgan idrok, sezgi, ong, tafakkur, tasavvur kabi kategoriyalarning verballashuvida tilning o‘rni beqiyos. To‘g’ri, til to‘liq darajada tafakkurni in’ikos ettiradi, deb aytish noo‘rin. Ammo idrokiy va fikriy jarayonlarning muayyan qismi verbal vositalar orqali voqelanadi, shaxsning ichki maqsadi, xarakteri, fikrlashdagi o‘ziga xosligi, madaniyati, saviyasi, bilimi, qaror qabul qilish jarayoni, albatta, lisoniy vositalar orqali muayyan darajada o‘z ifodasini topadi.

B.A. Serebrennikov tafakkurning quyidagi lisoniy va nolisoniy turlarini farqlashni taklif etgan:

a) aniq tafakkur;

b) ramziy tafakkur;

v) amaliy tafakkur;

g) lingvokreativ yoki lisonni shakllantiruvchi tafakkur;

d) nolisoniy tushuncha tafakkuri. [9. 28]

Tafakkur operatsiyalari nimalar? Tafakkur inson aqliy faoliyatidagi eng muhim vosita ekan, uning bir qator operatsiyalari mavjud bo‘lib, mazkur operatsiyalar til birliklarida ham o‘z ifodasini topadi. Jumladan, analiz shunday bir tafakkur operatsiyasidirki, uning yordami bilan biz narsa va hodisalarni fikran yoki ularning xususiyatlarini amaliy tahlil qilamiz. Butun bir narsani shu tarzda qismlarga bo‘lish usuli analiz deb ataladi. Tabiat va jamiyatdagi bilim va tajribalarni insonning o‘zlashtirib olishi analizdan boshlanadi. Matnni gaplarga, gaplarni so‘zlarga, bo‘g‘inlarga, tovushlarga ajratish singari aqliy faoliyatlar tafakkur orqali amalga oshiriladi.

Sintez narsa va hodisalarning analiz orqali bo‘lingan, ajratilgan ayrim qismlarini, bo‘laklarini amaliy ravishda birlashtirishdir. Fikrlarni jamlab, matn yaratish jarayoni ham sintezni talab qiladi.

Taqqoslash vositasida obyektiv dunyodagi narsa va hodisalarning bir-biriga o‘xshashligi va bir-biridan farqi aniqlanadi. O‘xshatish va metaforalar ana shu amaliyot natijasidir.

Abstraksiyalash narsa va hodisalarning qonun va qonuniyatlarining ayrim belgisi, sifati, alomati yoki xususiyatlarini fikran ulardan ayirib olib, mustaqil fikr obyektiga aylantirishdan iborat fikr yuritish operatsiyasidir.

Umumlashtirish ham tafakkur operatsiyasi hisoblanib, psixologiyada narsa va hodisalardagi xossa, belgi, xususiyatlarni topish va shu umumiylik asosida ularni birlashtirish tushuniladi. Mustaqil so‘z turkumlari, kelishik kategoriyasi kabilarni bir umumiy kategoriyaga birlashtirish umumlashtirish amaliyoti natijasidir.

Tafakkur operatsiyalaridan biri bo‘lgan konkretlashtirish – hodisalarning ichki bog‘lanishi va munosabatidan qat’i nazar, bir tomonlama ta’kidlashdan iborat fikr yuritish operatsiyasidir.

Tasniflash haqida fikr yuritadigan bo‘lsak, insonning bilish faoliyatida muhim o‘rin tutuvchi flkr yuritish operatsiyalaridan biri hisoblanadi. Barcha fanlarda bu usul o‘z o‘rniga ega. Ayniqsa, tilshunoslikda tasniflash barcha sath birliklarini tahlil qilishda muhim amallardan sanaladi.

Fikr obyektiv hisoblangan narsa va hodisalarni zamon (vaqt), makon (fazo) va mantiqiy jihatdan ma’lum tartibda joylashtirishdan iborat fikr yuritish sistemalashtirish operatsiyasi hisoblanadi. U bilimlarni o‘zlashtirishda, ko‘nikma va malakalarni tartibga solishda muhim o‘rin tutadi. Sistemalashtirish yordamida narsa va hodisalar, faktlar, fikrlar va obyektlar makonda, vaqtda egallagan o‘rniga qarab mantiqiy joylashtiriladi. [4] Sistemalashtirish ham bilimlarni tartiblash, xulosalarni barqarorlashtirish va qat’iylashtirishda ahamiyatlidir.

Qaror qabul qilish fikriy operatsiyalardan yana biri hisoblanadi. Insonlarda qaror qabul qilishning ikki tizimi mavjud:

- instinkt (tez, hissiy) orqali qaror qabul qilish;

- aql/mantiq (sekin, mantiqiy) orqali qaror qabul qilish. [2] Qaror qabul qilish yuqoridagi operatsiyalarni yakunlovchi operatsiya deyishimiz mumkin.

Fikrlashning rivojlanishi qanday bosqichlarni o‘z ichiga oladi? Bola dastlab faqat ba’zi tug‘ma reflekslarga ega bo‘ladi. Ammo u jismonan rivojlanib borgani sari, bu reflekslar asta-sekin kinestetik harakat va reaksiya mexanizmlariga aylanadi. Dastlab u idrokni aniq xususiyatlarga ega bo‘lgan alohida elementlarga ajrata olmaydi. Bu aniqlik asta-sekin

yuzaga keladi, chunki u atrof-muhit bilan ishlash uchun tobora ko‘proq sensor-motor sxemalarni o‘zlashtiradi. Bola ma’lum xususiyatlarni faqat ularni boshqarishni yoki ulardan foydalanishni o‘rganganidan keyin bilib ola boshlaydi. Hatto u taxminan 18 oyligidan keyin so‘zlardan foydalanishni boshlaganda ham, u hali mos tushunchalarni to‘liq anglamagan bo‘ladi.

Psixologiyaga oid ma’lumotlarga ko‘ra, yosh bolalar dastlab o‘rganayotgan barcha yangi so‘zlarning ma’nosini haddan tashqari umumlashtiradilar. Ikki yoshdan olti yoshgacha ular har kuni taxminan to‘qqizta yangi so‘z (ya’ni ular uyg‘oq bo‘lgan har bir soatga deyarli bitta yangi so‘z) o‘rganadi.[1.34] Bunday yuqori tezlikni faqat shunday tushuntirish mumkin: biz so‘z nomini o‘rganayotgan paytda tushunchaning katta qismi allaqachon ongimizda mavjud bo‘ladi va yangi so‘z faqat unga mos nomni “qo‘shadi”. Shuni ham ta’kidlash kerakki, bola to‘rt yoshga kelib asosiy so‘zlarni biladi, lekin ularni xatolarsiz ishlatishni o‘rganish uchun kamida o‘n ikki yoshga yetishi kerak. Ya’ni, u bu so‘z-tushunchalarni to‘g‘ri qo‘llash uchun mental modellarni qanday qurishni o‘rganadi. Bu esa shuni ko‘rsatadiki, bu tushunchalar uning ongida hali mantiqiy jihatdan to‘liq tuzilgan emas, balki nomukammal va to‘liq bo‘lmagan empirik shaklda mavjud bo‘ladi.

Ong sezgilar orqali kelgan ma’lumotlarni qabul qilib, ularni fikrlar, g‘oyalar va tushunchalarga aylantiradigan “dastur”dir. Miya barcha ma’lumotni eslab qololmaydi. Shuning uchun u mental modellar yaratadi. Mental model – bu real hayot qanday ishlashini tushuntiruvchi ichki tasavvur. Bu – biz dunyoni qanday ko‘rishimizni belgilaydigan “linza”. Demak, har bir inson o‘zi sezmagan holda mental modellar orqali fikrlaydi, [2]

Ma’lumki, til voqelikni to‘g‘ridan-to‘g‘ri aks ettirmaydi. Balki tafakkurda borliq haqdagi axborot dastlab o‘z ifodasini topadi. Tafakkurda turli operatsiyalardan so‘ng fikr til orqali ifodalanadi. Til birliklari nafaqat kod, lingvistik belgi, balki inson intellektual faaoliyatini tashkil etuvchi vositalardan hisoblanadi. Tilning kumulyativ funksiyasi orqali axborot yig‘iiladi, saqlanadi va ajdoddan avlodga yetkaziladi.

Tilshunos uchun eng muhimi tafakkur birligi bo‘lgan kontseptning tilda (aniqrog‘i nutqda) aks etishini ta’minlovchi strukturalar, harakatlar, qoidalarni aniqlashdir. [8.27] Mental tuzilma hisoblanuvchi konseptning umuminsoniy, milliy, individual jihatlarini aniqlash, til birliklari orasidagi semantik munosabatlarning konseptual maydonda namoyon bo‘lishini tadqiq etish tafakkur operatsiyalarining ijtimoiy ong va madaniyat, lisoniy shaxs kabi tushunchalar bilan aloqasini aniqlash imkonini beradi.

Xulosa va tavsiyalar

Kognitiv tilshunoslikda lisoniy qobiliyat umumiy kognitiv mexanizmlarning namoyon bo‘lish shakli sifatida qaraladi, shuning uchun til vositasida insonni — uning tafakkuri, xotirasi, bilish jarayonlari va boshqalarni o‘rganish mumkin. Mazkur fanda lingvistik tahlil faqat muloqot xulqini tasvirlash bilan cheklanib qolmaydi, balki tegishli mental holatlar va jarayonlarni ham qamrab oladi. Uning maqsadi — insonning tilga oid bilimlari qanday tuzilganini va u bu bilimlardan nutqni yaratish hamda idrok etish jarayonlarida qanday foydalanishini tushuntiruvchi yagona model yaratishdir.

Manbalarda ta’kidlanishicha, insonning atrofdagi olam bilan o‘zaro ta’siri jarayonidagi jismoniy tajribasi uning konseptual tizimini tashkil etishda markaziy rol o‘ynaydi. Shu munosabat bilan tafakkur inson tanasi, uning anatomik va fiziologik xususiyatlari, idrok (perseptiv) va motor tajribasi bilan uzviy bog‘liqdir. Kognitivistlar buning tasdig‘ini tilda, xususan obrazlilik mexanizmlarini tadqiq etishda topadilar. Ularning fikricha, aynan shu xususiyat sun’iy intellektni modellashtirish va tilni avtomatik qayta ishlash bilan bog‘liq muvaffaqiyatsizliklarni tushuntiradi. Kognitiv lingvistikaning asosiy predmeti til semantikasi hisoblanadi, chunki aynan u til va kognitsiya o‘rtasidagi bog‘lovchi bo‘g‘in vazifasini bajaradi. Shu sababli “kognitiv semantika” va “kognitiv lingvistika” birikmalari ko‘pincha sinonim sifatida qo‘llaniladi.

О СПЕЦИФИКЕ МИФОПОЭТИЧЕСКОГО ДИСКУРСА ПРОЗЫ ТИМУРА ЗУЛЬФИКАРОВА

Мадярова Насиба Адхамовна
доктор философии по филологическим наукам (PhD), и.о. профессора, заведующий кафедрой прикладных иностранных языков Андижанского государственного педагогического института
nasiba1701@mail.ru

Аннотация. *В статье рассматривается специфика русскоязычной прозы, в частности прозы Т.Зульфикарова и Центральной Азии как литературы пограничного типа, формирующейся на стыке нескольких культурных и мифологических традиций. Делается вывод о необходимости интегративного подхода к прочтению мифопоэтического текста, ориентированного на выявление глубинных смыслов и механизмов трансляции культурной памяти.*

Ключевые слова: *мифопоэтика; мифологический дискурс; художественный текст; интерпретация; архетип; символ; ментальная парадигма; русскоязычная литература; проза Тимура Зульфикарова.*

TIMUR ZULFIQOROV NASRIDA MIFOPOETIK DISKURSNING O‘ZIGA XOS XUSUSIYATLARI HAQIDA

Annotatsiya. *Maqolada rus tilida yaratilgan nasrning o‘ziga xos xususiyatlari, xususan, T. Zulfiqorov hamda Markaziy Osiyo adabiyoti bir necha madaniy va mifologik an’analar kesishgan nuqtada shakllangan chegaraviy tipdagi adabiyot sifatida ko‘rib chiqiladi. Tadqiqotda mifopoetik matnni talqin qilishda integrativ yondashuv zarurligi haqida xulosa qilinadi. Bunday yondashuv madaniy xotiraning uzatilish mexanizmlari hamda matnda mujassam bo‘lgan chuqur semantik qatlamlarni aniqlashga yo‘naltirilgan.*

Kalit so‘zlar: *mifopoetika; mifologik diskurs; badiiy matn; talqin; arxetip; ramz; mental paradigm; rusiyzabon adabiyot; Timur Zulfiqorov nasri.*

ON THE SPECIFICITY OF THE MYTHOPOETIC DISCOURSE IN THE PROSE OF TIMUR ZULFIKAROV

Abstract. *The article examines the specific features of Russian-language prose, particularly the prose of T. Zulfikarov and Central Asian literature as a borderline type of literature formed at the intersection of several cultural and mythological traditions. The study concludes that an integrative approach to reading mythopoetic texts is necessary. Such an approach is aimed at revealing deeper meanings and the mechanisms of cultural memory transmission.*

Keywords: *mythopoetics; mythological discourse; literary text; interpretation; archetype; symbol; mental paradigm; Russian-language literature; prose of Timur Zulfikarov.*

Введение. Статья посвящена анализу специфики мифопоэтического дискурса в прозе Тимура Зульфикарова как одного из ярких представителей русскоязычной литературы Центральной Азии. Особое внимание уделяется исследованию архетипических структур, системы мифологических мотивов и символов, формирующих авторскую художественную модель мира. Проза писателя рассматривается как пространство взаимодействия различных культурных, религиозно-философских и этноментальных традиций, что определяет ее пограничный и синтетический характер. В работе анализируются особенности трансформации традиционных мифологических образов и их функционирование в структуре художественного текста. Подчеркивается роль мифопоэтических механизмов в репрезентации культурной памяти и формировании глубинных смысловых уровней произведения. Методологическую основу исследования составляет интегративный подход, сочетающий элементы мифопоэтики, герменевтики и сравнительно-культурологического анализа. Такой подход позволяет выявить особенности авторского мифологического мышления и специфику художественного мира прозы Тимура Зульфикарова.

Обзор литературы. Важную роль в формировании методологии анализа мифопоэтического текста сыграли исследования Ю.М. Лотмана [1, с.67] и представителей Тартуско-Московской семиотической школы, рассматривающих художественный текст как сложную знаковую систему, в которой мифологические структуры выступают в качестве глубинных смысловых кодов. В работах В. Я. Проппа [2, с.55] и Б. А. Успенского [3, с.84] особое внимание уделяется архетипическим моделям повествования и устойчивым мифологическим мотивам,

формирующим структурную основу художественного текста. Особый интерес представляет изучение мифопоэтики в прозе писателей, обращающихся к синтезу различных культурных традиций. В этом контексте творчество Тимура Зульфикарова рассматривается нами, как уникальное явление русскоязычной литературы, в котором соединяются восточная мифологическая традиция, суфийская философия и элементы русской художественной культуры. Проблема интерпретации мифопоэтики в русскоязычной прозе, особенно в произведениях Тимура Зульфикарова, остается недостаточно изученной и требует дальнейшего комплексного исследования с учетом культурно-исторических, этноментальных и философских оснований художественного мышления.

Методологическую основу исследования составляют современные подходы в области культурологии, мифопоэтики, аксиологии и герменевтики художественного текста. Исследование опирается на междисциплинарный принцип анализа, предполагающий рассмотрение художественного произведения в контексте исторических, философских и этноментальных традиций. Особую роль (в выявлении особенностей поэтики писателя) занимает, несомненно, контекстуальный анализ, учитывающий основания формирования авторской художественной картины (образа) мира. Именно комплексное использование указанных нами методов позволяет рассмотреть мифологическую прозу Тимура Зульфикарова как сложную мифопоэтическую систему, в которой художественный текст выступает пространством взаимодействия архетипических структур, мифологических мотивов и авторской ментальной парадигмы.

Результаты исследования. Распространение мифа происходит через авторское литературное творчество – автор представляется не только «носителем» и «хранителем» культурно-мифологического знания и мышления – он, в первую очередь, – транслятор (медиатор) мифа, а также создатель и своего нового мифа (индивидуально-авторского неомифа). В такой литературе миф может выступать и как «скрепа» между индивидуальным и общественным сознанием и как основа для создания «мифологического метатекста» – в этом отношении он претендует и на звание дискурса, как мифологически активной среды. В этом теоретическом аспекте довольно интересным представляется рассмотрение русскоязычной прозы (Узбекистана, Киргизии, Таджикистана и т.д.) как литературы-феномена на стыке двух или нескольких культурно-языковых сфер, как синтеза географического, языкового и мифологического начал в индивидуально-авторском творчестве. Творчество авторов, принадлежащих к этому особенному типу литературы «находится в поле фольклорных, мифологических, семейных преданий, воспоминаний, обычаев, кухни, аксиологии, религиозных мифологем, персоналий этнофеномена– «свой–чужой»» [1, с.10]. **В мифопоэтической прозе Т.Зульфикарова появляется и р**итуально-обрядовый компонент – **наличие ритуалов, инициаций, жертвоприношений, пограничных состояний как структурообразующих элементов поэтики художественного текста; определяется особый т**ип сознания героев, образов, персонажей и повествовательная логика, нарративная стратегия, а также **преобладание мифологического или синкретического мышления над рациональным, символичность поступков и событий; и**нтертекстуальные связи с мифом в прозе автора, а также **аллюзии, реминисценции, мифологические коды и мифологические шифры, переосмысление и индивидуально-авторская трансформация традиционных мифов, «разрушение» мифа автором, создание неомифа как неотъемлимая часть его прозы; а**вторская мифология **создается на основе индивидуального мифа, отражающего философско-аксиологическую модель мира писателя.**

Так, например, в новелле «Таттабубу» автор акцентирует внимание читателя на слове «дочь» и неоднократный повтор только усиливает семантику слова. В контексте произведения слово «дочь» понимается не только как «ребенок (дитя) родителей», но и как дочь природы – невинное дитя, оскверненное, изнасилованное физически своим же отцом, который является ей и мужем. Т.Зульфикаров неспроста именно в начале повествования в новелле «Таттабубу» указывает на этот неоспоримый факт – Таттабубу (имя девушки) – дочь, она не может быть женой своего же отца, это противоречит канонам религии, культуры, морали. Именно поэтому девушка на протяжении всего произведения отказывается встречаться с молодым художником Камолиддином Бекзодом и просит принести ей как можно больше «плодов на крови», т.е. ярко-красных, кровавых фруктов и овощей (арбузы, перцы, гранаты и т.д.). Т.Зульфикаров активно использует звукоподражания и междометия (большей частью восточные). Так, например, описывая образ известного художника Средневековья, Камолиддина Бекзада, автор часто **использует э**питеты *«пыльный отрок»*, *«дервиш захожий»*, которые выводят образ героя из социально-исторического контекста и помещают его в мифологическое пространство странника-посвящённого, чья «пыль» – след пути и знака испытаний. Здесь же образ дервиша К.Бекзада воспринимается как архетип, ведь дервиш в восточной мифологии и суфийской традиции – фигура лиминальная: он находится «между мирами» (профанным и сакральным). В этом статусе К. Бехзад мыслится как медиатор между земным и трансцендентным, а его искусство – как форма иконического откровения.

Т.Зульфикаров часто использует развернутые мифопоэтические хронотопомы: приход, уход, возвращение, в которых движение персонажей превращается в символический акт перехода между мирами. Также для автора использование повтора – это мифопоэтический приём. Автор, создавая мифопоэтический текст обращается и к различным «вспомогательным контекстам» – дискурсам: осязательному, тактильному, ольфакторному пространству, цветовой палитре и т.д. В каждом из них индивидуально-авторский миф «оживает», приобретает новый вид (форму), один и тот же мифологический мотив переигрывается и трансформируется в зависимости от того, в каком контексте он находится. Т.Зульфикаров в своей прозе часто прибегает к мотиву утраты (потери) имени героя, названия места и т.д., что равно утрате бытия главного героя. Постоянно возникают архаические образы-символы: дорога, мать, отец, сон, смерть, бездна, лабиринт и т.д. Каждый раз одни и те же образы-символы трансформируются в нечто большее, образуя вокруг себя ореол новых смыслов.

Заключение. Проведённое исследование позволяет нам сделать вывод о том, что проза Тимура Зульфикарова представляет собой сложную мифопоэтическую систему, в которой художественный текст функционирует как пространство взаимодействия архетипических структур, мифологических мотивов и индивидуально-авторской модели мира. Анализ произведений писателя показал, что мифологические образы, символы и ритуально-обрядовые элементы выполняют не только эстетическую, но и семантико-структурную функцию, формируя глубинные смысловые уровни текста. Особенностью прозы Т. Зульфикарова является синтез различных культурно-философских традиций – восточной мифологии, суфийской символики и русской литературной художественной традиции. Это позволяет рассматривать творчество писателя как феномен русскоязычной литературы Центральной Азии, формирующейся на стыке нескольких культурных и мифологических парадигм. Интегративный подход к анализу мифопоэтического дискурса открывает перспективы дальнейшего исследования художественного мира писателя и механизмов трансформации мифологического сознания в современной литературе.

INGLIZ VA O‘ZBEK TILLARIDAGI MAQOLLARDA QARINDOSH-URUG‘CHILIK BIRLIKLARINING QO‘LLANILISH AHAMIYATI

Bo‘riyeva Aziza Abduvait qizi
Termiz davlat universiteti Xorijiy filologiya fakulteti Ingliz tili va adabiyoti kafedrasi tayanch doktoranti

Annotatsiya; *Mazkur maqolada ingliz va o‘zbek tillaridagi maqollarda uchraydigan qarindosh-urug‘chilik birliklarining lingvistik, madaniy va pragmatik xususiyatlari tahlil qilinadi. Qarindoshlik terminlari xalqning dunyoqarashi, oilaviy qadriyatlari, ijtimoiy munosabatlari hamda milliy mentalitetini aks ettiruvchi muhim til birliklari hisoblanadi. Ingliz va o‘zbek maqollarida uchraydigan ota, ona, farzand, aka-uka, opa-singil kabi qarindoshlik nomlarining qo‘llanishi qiyosiy jihatdan o‘rganilib, ularning o‘xshash va farqli tomonlari yoritiladi. Tadqiqot natijasida qarindoshlik birliklari maqollarning semantik mazmunini boyitishi, tarbiyaviy ahamiyatini oshirishi hamda xalqning madaniy qadriyatlarini avloddan avlodga yetkazishda muhim vosita bo‘lib xizmat qilishi aniqlangan.*

Kalit so‘zlar: *maqol, paremiologiya, qarindoshlik terminlari, lingvomadaniyat, oila, milliy qadriyat, ingliz tili, o‘zbek tili.*

ВАЖНОСТЬ ИСПОЛЬЗОВАНИЯ ОБЩИХ ЕДИНИЦ РОДСТВА В СТАТЬЯХ НА АНГЛИЙСКОМ И УЗБЕКИСТАНСКОМ ЯЗЫКАХ

Аннотация; *В данной статье анализируются лингвистические, культурные и прагматические особенности единиц родства, встречающихся в английских и узбекских пословицах. Термины родства являются важными языковыми единицами, отражающими мировоззрение народа, семейные ценности, социальные отношения и национальный менталитет. В статье в сравнительном аспекте рассматривается употребление наименований родства, таких как отец, мать, ребёнок, братья и сёстры, встречающихся в английских и узбекских пословицах, а также выявляются их сходства и различия. В результате исследования установлено, что единицы родства обогащают семантическое содержание пословиц, усиливают их воспитательное значение и служат важным средством передачи культурных ценностей народа из поколения в поколение.*

Ключевые слова: *пословица, паремиология, термины родства, лингвокультурология, семья, национальные ценности, английский язык, узбекский язык.*

THE IMPORTANCE OF USING COMMON RELATIVE UNITS IN ENGLISH AND UZBEKISTANI ARTICLES.

Abstract; *This article analyzes the linguistic, cultural, and pragmatic features of kinship units found in English and Uzbek proverbs. Kinship terms are important linguistic units that reflect a nation’s worldview, family values, social relationships, and national mentality. The study comparatively examines the use of kinship names such as father, mother, child, brothers, and sisters in English and Uzbek proverbs, highlighting their similarities and differences. The findings reveal that kinship units enrich the semantic content of proverbs, enhance their educational significance, and serve as an important means of transmitting cultural values from one generation to another.*

Keywords: *proverb, paremiology, kinship terms, linguoculturology, family, national values, English language, Uzbek language.*

Kirish

Har bir xalqning ma’naviy boyligi, madaniy merosi va hayotiy tajribasi maqollarda o‘z aksini topadi. Maqollar xalq donishmandligining mahsuli bo‘lib, asrlar davomida shakllangan ijtimoiy, axloqiy va madaniy qarashlarni mujassamlashtiradi. Paremiologik birliklar tarkibida qarindosh-urug‘chilik terminlari alohida o‘rin egallaydi. Chunki insonning jamiyatdagi ilk ijtimoiy muhiti oila hisoblanadi va oilaviy munosabatlar xalq tafakkurining asosiy qirralaridan biridir.

O‘zbek xalqi qadimdan oilaparvar, qarindosh-urug‘chilik rishtalarini qadrlovchi xalq sifatida tanilgan. Ingliz xalqining maqollarida ham oilaviy munosabatlar muhim o‘rin tutadi, biroq ular ko‘proq shaxsiy mas’uliyat va individual

qadriyatlarga urg‘u beradi. Shu sababli ikki tildagi maqollarda qarindoshlik birliklarining qo‘llanishini qiyosiy o‘rganish til va madaniyat o‘rtasidagi bog‘liqlikni aniqlash imkonini beradi.

Qarindosh-urug‘chilik birliklari va ularning lingvistik mohiyati

Qarindosh-urug‘chilik birliklari insonlarning oilaviy va nasliy munosabatlarini ifodalovchi leksik birliklardir. O‘zbek tilida bunday terminlar juda keng rivojlangan bo‘lib, ota, ona, bobo, buvi, aka, uka, opa, singil, tog‘a, amma, xola, jiyan kabi ko‘plab nomlarni o‘z ichiga oladi.

Ingliz tilida esa qarindoshlik terminlari nisbatan umumlashgan holda qo‘llanadi. Masalan, “uncle” so‘zi o‘zbek tilidagi tog‘a, amaki kabi tushunchalarni, “aunt” esa amma va xola ma’nolarini birlashtiradi. Bu holat ikki xalqning oilaviy tuzilishi va madaniy qarashlaridagi farqlarni aks ettiradi.

Maqollarda ushbu birliklar nafaqat qarindoshlik munosabatlarini ifodalaydi, balki axloqiy me’yorlar, tarbiyaviy qarashlar va hayotiy tajribalarni yetkazishda ham xizmat qiladi.

O‘zbek maqollarida qarindoshlik birliklarining qo‘llanilishi

O‘zbek xalq maqollarida qarindoshlik terminlari juda faol qo‘llanadi. Bu holat xalqimizning oilaparvarligi va qarindoshlik munosabatlariga katta e’tibor berishini ko‘rsatadi.

Quyidagi maqollar bunga misol bo‘la oladi:

“Ota rozi – Xudo rozi.”

“Onaning mehri quyoshdan issiq.”

“Aka borning tikka tori bor.”

“Qarindosh qarindoshning kulini ham tashlamaydi.”

“Ota uyidan baxt ketmas.”

Mazkur maqollarda ota, ona, aka, qarindosh kabi birliklar oiladagi o‘zaro hurmat, mehr-oqibat va birdamlikni ifodalaydi. O‘zbek maqollarida ota-onaga hurmat, kattalarni e’zozlash va qarindoshlik aloqalarini mustahkamlash asosiy g‘oyalardan biri sifatida namoyon bo‘ladi.

Shuningdek, o‘zbek maqollarida qarindoshlar o‘rtasidagi hamjihatlik va o‘zaro yordam alohida qadriyat sifatida talqin qilinadi. Bunday maqollar yosh avlodni oilaparvarlik ruhida tarbiyalashga xizmat qiladi.

Ingliz maqollarida qarindoshlik birliklarining qo‘llanilishi

Ingliz tilidagi maqollarda ham qarindoshlik terminlari uchraydi, ammo ular ko‘pincha individual mas’uliyat va oiladagi tarbiya masalalariga bog‘liq holda qo‘llanadi.

Masalan:

“Like father, like son.”

“A mother's love never ages.”

“The child is father of the man.”

“A good son makes a good father.”

“Charity begins at home.”

Bu maqollarda father, mother, son, child kabi qarindoshlik birliklari shaxsning shakllanishi, tarbiya va oilaviy qadriyatlarni ifodalash uchun xizmat qiladi.

“Like father, like son” maqoli otadan farzandga o‘tadigan xususiyatlar va tarbiya ta’sirini ifodalasa, “Charity begins at home” maqoli insonning ezgulikni avvalo oilasidan boshlashi kerakligini anglatadi.

Ingliz maqollarida qarindoshlik birliklari ko‘pincha shaxsiy sifatlar, tarbiya va individual muvaffaqiyat bilan bog‘liq holda qo‘llanadi.

Ingliz va o‘zbek maqollarining qiyosiy tahlili

Qiyosiy tahlil shuni ko‘rsatadiki, har ikki xalq maqollarida qarindoshlik terminlari muhim o‘rin tutadi. Biroq ularning semantik yo‘nalishlarida ayrim farqlar mavjud.

O‘zbek maqollari Ingliz maqollari

Jamoaviylik ustun Individualizm ustun

Qarindoshlar birdamligi aks etadi Shaxsiy mas’uliyat aks etadi

Kattalarga hurmat kuchli Tarbiyaga urg‘u beriladi

Oila va urug‘ qadriyati muhim Yadro oila qadriyati muhim

Mehr-oqibat va hamjihatlik markazda Mustaqillik va shaxsiy rivojlanish markazda

Har ikki tilda ham ota va ona obrazlari eng faol qo‘llanadigan qarindoshlik birliklari hisoblanadi. Bu esa oilaning jamiyatdagi universal ahamiyatga ega ekanligini ko‘rsatadi. Shu bilan birga, o‘zbek tilidagi maqollarda qarindoshlik munosabatlari kengroq va batafsilroq ifodalangan bo‘lsa, ingliz tilida umumlashtirilgan terminlar ko‘proq uchraydi.

Qarindoshlik birliklarining lingvomadaniy ahamiyati

Qarindoshlik terminlari xalqning milliy tafakkuri va madaniyatini ifodalovchi muhim vositalardan biridir. Maqollar tarkibida qo‘llangan bunday birliklar quyidagi vazifalarni bajaradi:

Oilaviy qadriyatlarni targ‘ib qiladi.

Kattalarga hurmat va kichiklarga mehrni shakllantiradi.

Jamiyatdagi axloqiy me’yorlarni mustahkamlaydi.

Milliy mentalitetni aks ettiradi.

Tarbiyaviy ahamiyat kasb etadi.

O‘zbek tilida qarindosh-urug‘chilik tushunchasi keng va murakkab tizimga ega bo‘lib, bu holat maqollarda ham yaqqol namoyon bo‘ladi. Ingliz tilida esa qarindoshlik terminlari nisbatan ixcham bo‘lsa-da, ular oilaning jamiyatdagi o‘rnini ifodalashda muhim vosita bo‘lib xizmat qiladi.

Xulosa. Ingliz va o‘zbek tillaridagi maqollarda qarindosh-urug‘chilik birliklari xalqning tarixiy tajribasi, ma’naviy qadriyatlari va madaniy qarashlarini aks ettiruvchi muhim lingvistik vosita hisoblanadi. O‘zbek maqollarida qarindoshlik munosabatlari, oilaviy birdamlik va kattalarga hurmat g‘oyalari ustunlik qilsa, ingliz maqollarida shaxsiy mas’uliyat, tarbiya va individual rivojlanish masalalari ko‘proq yoritiladi.

Har ikki xalq maqollarida ota, ona, farzand kabi qarindoshlik birliklari markaziy o‘rin egallab, insoniy fazilatlarni targ‘ib qilishda muhim vosita sifatida xizmat qiladi. Qarindoshlik terminlarining maqollarda qo‘llanishi nafaqat til boyligini namoyon etadi, balki xalqning milliy-madaniy xususiyatlarini o‘rganishda ham muhim manba hisoblanadi.

O‘ZBEK TILIDA VIDEO LAVHALAR UCHUN AVTOMATIK SUBTITR YARATISH: NUTQNI MATNGA O‘GIRISH ASOSIDAGI YONDASHUV

Mullaboyeva Xurmatoy Murodilovna
Alisher Navoiy nomidagi ToshDO`TAU magistranti,
E-pochta: hurmatoy@gmail.com
https://orcid.org/0009-0003-2362-9389
UDK: 811.512.133'28:004.89

Annotatsiya: *Mazkur maqolada NLP da video lavhalarga avtomatik subtitr qo‘yish masalasi tahlil qilinadi. Raqamli media muhitida video kontentning axborot tarqatishdagi yetakchi o‘rni avtomatik subtitr texnologiyalariga bo‘lgan ehtiyojni keskin oshirmoqda. O‘zbek tilida avtomatik subtitr tizimlarining yetarli darajada rivojlanmagani ushbu sohada ilmiy tadqiqotlar olib borish zaruratini kuchaytirmoqda. Ushbu maqola aynan shu muammoning dolzarbligini ochib berishga qaratilgan. Tadqiqotda nutqni avtomatik tanish (ASR), tabiiy tilni qayta ishlash (NLP) hamda matnni vizual formatga moslashtirish jarayonlari o‘zaro bog‘liq tizim sifatida ko‘rib chiqiladi. Statistik ma’lumotlar asosida video orqali axborot qabul qiluvchi auditoriya tahlil qilinib, avtomatik subtitrlarning ijtimoiy va ta’limiy ahamiyati asoslab beriladi.*
Kalit so‘zlar: *kompyuter lingvistikasi, avtomatik subtitr, ASR, video kontent, NLP, o‘zbek tili.*

АВТОМАТИЧЕСКОЕ СОЗДАНИЕ СУБТИТРОВ ДЛЯ ВИДЕОМАТЕРИАЛОВ НА УЗБЕКСКОМ ЯЗЫКЕ: ПОДХОД НА ОСНОВЕ ПРЕОБРАЗОВАНИЯ РЕЧИ В ТЕКСТ

Аннотация: *В данной статье анализируется проблема автоматического создания субтитров для видеоматериалов в области обработки естественного языка (NLP). В условиях цифровой медиасреды ведущая роль видеоконтента в распространении информации существенно повышает потребность в технологиях автоматического субтитрирования. Недостаточный уровень развития систем автоматического создания субтитров на узбекском языке усиливает необходимость проведения научных исследований в данной области. Статья направлена на раскрытие актуальности данной проблемы. В исследовании процессы автоматического распознавания речи (ASR), обработки естественного языка (NLP) и адаптации текста к визуальному формату рассматриваются как взаимосвязанная система. На основе статистических данных проводится анализ аудитории, воспринимающей информацию посредством видеоконтента, а также обосновывается социальная и образовательная значимость автоматических субтитров.*
Ключевые слова: *компьютерная лингвистика, автоматические субтитры, ASR, видеоконтент, NLP, узбекский язык.*

AUTOMATIC SUBTITLE GENERATION FOR UZBEK-LANGUAGE VIDEOS: A SPEECH-TO-TEXT-BASED APPROACH

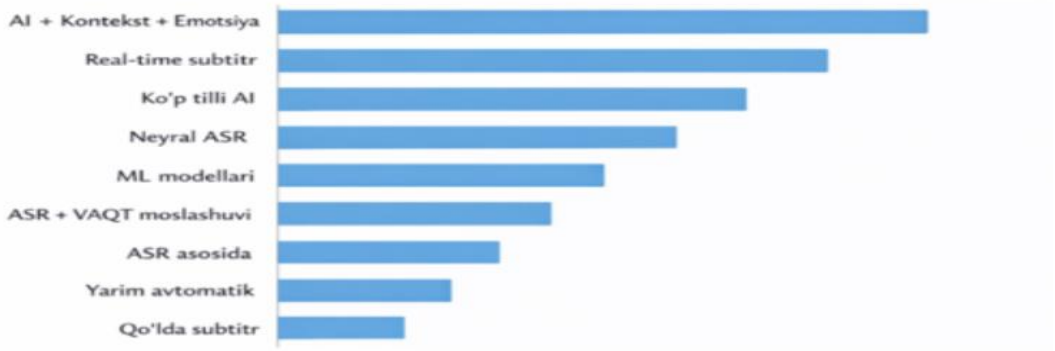
Abstract: *This article examines the issue of automatic subtitle generation for video content within the field of Natural Language Processing (NLP). In the digital media environment, the leading role of video content in information dissemination has significantly increased the demand for automatic subtitling technologies. The insufficient development of automatic subtitle systems for the Uzbek language highlights the need for further scientific research in this area. The article aims to demonstrate the relevance and importance of this issue. The study considers Automatic Speech Recognition (ASR), Natural Language Processing (NLP), and text adaptation to visual formats as components of an interconnected system. Based on statistical data, the audience that primarily consumes information through video content is analyzed, and the social and educational significance of automatic subtitles is substantiated.*
Keywords: *computational linguistics, automatic subtitles, ASR, video content, NLP, Uzbek language.*

Kirish

Raqamli texnologiyalar rivoji natijasida video kontent global axborot makonining asosiy vositalaridan biriga aylandi. Video lavhalarda subtitrlarning mavjudligi eshitish imkoniyati cheklangan foydalanuvchilar, shuningdek, turli tillarda so‘zlashuvchi auditoriya uchun axborotdan samarali foydalanish imkonini yaratadi. Shu sababli avtomatik

subtitr yaratish texnologiyalari bugungi kunda dolzarb ilmiy-amaliy muammo sifatida qaralmoqda. Xususan, yoshlar yangiliklar va bilimlarni asosan video platformalar orqali qabul qilmoqda. Bunday sharoitda video lavhalarni subtitr bilan ta'minlash axborotning tushunarli va inklyuziv bo'lishini ta'minlaydi [1].

So'nggi yillarda nutqni avtomatik tanish (ASR) sohasida chuqur neyron tarmoqlar asosidagi yondashuvlar keng rivojlanmoqda.



1- rasm. Subtitr tizimlarining rivojlanish darajasi

Mavzuga oid adabiyotlarning tahlili

Xalqaro tadqiqotlarda avtomatik subtitr yaratish ASR modellarining aniqligi, til modeli va post-processing bosqichlari bilan bog'liq holda o'rganilgan. Radford va hammualliflar tomonidan taklif etilgan Whisper modeli katta hajmdagi zaif nazoratli audio-ma'lumotlar asosida o'qitilgan bo'lib, ko'p tilli nutqni avtomatik tanish va tarjima qilish imkonini beradi. [2] Aashish Agarwal va Torsten Zesch tomonidan ASR modellarining barqarorligi Mozilla Deep Speech modeli misolida tahlil qilinadi. [3]Baevski va hammualliflari tomonidan taklif etilgan wav2vec 2.0 modeli nutqni avtomatik tanish sohasida self-supervised learning yondashuvining samaradorligini ko'rsatadi. [4]Pratap va hammualliflari tomonidan taqdim etilgan MMS (Massively Multilingual Speech) loyihasida bevosita "subtitr" so'zini markazga qo'ymagan bo'lsa-da, avtomatik subtitr yaratish texnologiyalari uchun juda muhim ilmiy asos yaratadi. [5] Arpita Kundu va boshqalar video subtitrlarni belgilashga mo'ljallangan dasturiy vosita taqdim etadi. [6]Zhang Liu et al. maqolasida nutqni avtomatik tanish (ASR), mashina tarjimasi (MT) va vaqtga mos subtitr segmentatsiyasini birlashtirgan integratsiyalashgan texnologik pipelineni taklif etadilar. [7]

Elov B.B. tomonidan avtomatik nutqni tanish (ASR) tizimlari chiqishida hosil bo'ladigan matnlarda tinish belgilari muammosi tahlil qilinadi.Tadqiqotda ilk bor o'zbek tili uchun maxsus punctuation restoration (PR) modeli taklif etilib, u UzbPunct nomli korpus asosida sinovdan o'tkazilgan. [8] Abdinabi Mukhamadiyev va uning hammualliflari o'z maqolalarida o'zbek tili uchun nutqni avtomatik tanish tizimini qanday yaratish va uni qanday yaxshilash mumkinligi haqida yozishgan.[9]

Metod va metodologiya. Avtomatik subtitr tizimi nutqni avtomatik tanish va tabiiy tilni qayta ishlash texnologiyalariga asoslanib ishlaydi. Tizim audio signalni matnga aylantiradi, so'ng uni vaqt belgilariga moslab subtitr shaklida video bilan sinxronlashtiradi [1].

Bosqich	Tavsifi
Audio ajratish	Video fayldan nutq signalini ajratish
Audioni bo`laklarga bo`lish	Pauzalarni aniqlab, har bir pauzani gap tugashi deb belgilash
Segmentatsiya	Subtitr vaqt oralig'ini belgilash
ASR	Nutqni avtomatik tanish va matnga aylantirish
NLP	Matnni tozalash, punktuatsiyani tiklash
Vizual moslash	Subtitrni ekran formatiga moslash

1-jadval. Avtomatik subtitr yaratish bosqichlari. Metodologiya quyidagi texnologik zanjir asosida olib borildi:
ASR → matnni tozalash → punktuatsiyani tiklash → subtitr segmentatsiyasi

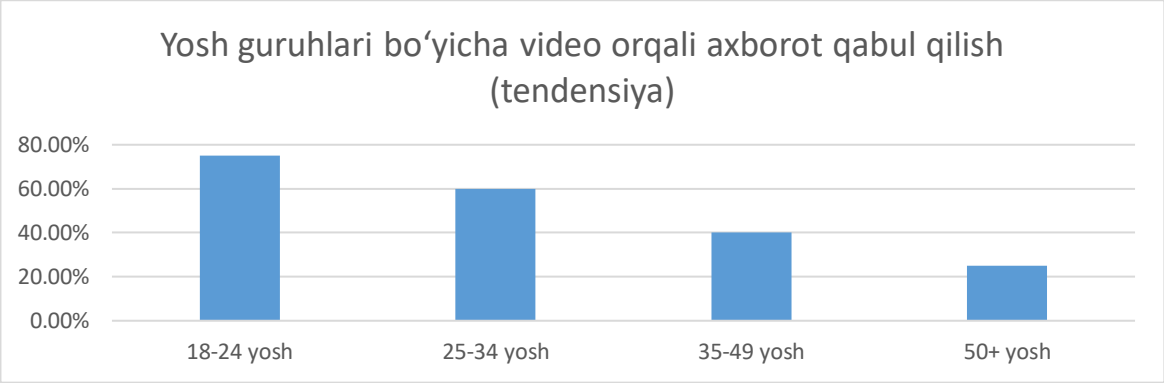
Tahlil va natijalar

Bugungi kunda axborot iste'moli shakllari tubdan o'zgarib, video kontent yetakchi kommunikatsiya vositasiga aylandi. Statistika agentligining so'rovlariga ko'ra, 2023-yil yanvar-dekabr oylari holatiga ko'ra, internetdan rasmlar, filmlar, videolar yoki musiqalarni tomosha qilish yoki yuklab olish, o'yinlarni o'ynash yoki yuklab olish uchun

foydalanadigan 10 yosh va undan katta aholining ulushi 53,5% ni tashkil etdi.[10] Malumot uchun, ushbu ko'rsatkich 2021-yilda bu 39,1% ni tashkil etdi. 2022-yilda – 44,6%. Xususan, yoshlar yangiliklar va bilimlarni asosan video platformalar orqali qabul qilmoqda. Buni quyidagi jadval orqali ko'rishimiz mumkin.

Ko'rsatkich	Ulushi (%)
Internet foydalanuvchilari (10+ yosh	94.2
Internetda video tomosha qiluvchilar	53.5
Faol ijtimoiy media foydalanuvchilari	37.9
YouTube faol foydalanuvchilari	40 (aholiga nisbatan)

2-jadval. O'zbekistonda video va internet orqali axborot qabul qilish ko'rsatkichlari



2-rasm. Yosh guruhlari bo'yicha video orqali axborot qabul qilish tendensiyasi.

Yoshlar video orqali axborotni tezroq va ko'proq qabul qiluvchi asosiy auditoriya hisoblanadi. Subtitrlar orqali eshitish qobiliyati cheklangan shaxslar uchun teng imkoniyat yaratiladi, shuningdek, chet tillarini o'rganishda samaradorlik oshadi. Tadqiqotlar subtitrli videolar axborotni eslab qolishni 25–30% ga oshirishini ko'rsatadi. O'zbek tilidagi subtitrlar milliy ta'lim kontentini rivojlantirish, masofaviy ta'lim platformalarida sifatni oshirish va ilmiy-ommabop videolarni keng auditoriyaga yetkazishda muhim rol o'ynaydi.

Xulosa. O'zbek tilining agglutinativ tuzilishi, talaffuz farqlari va erkin sintaksisi ASR aniqligiga ta'sir qiladi. Shu sababli global modellarni lokal til xususiyatlariga moslashtirish zarur. O'zbek tilida fonetik va morfologik murakkablik sababli xatoliklar darajasi yuqoriroq bo'lib qolmoqda. Shu bois, milliy tilga moslashtirilgan sun'iy intellekt modellarini ishlab chiqish dolzarb masala hisoblanadi Kelgusida o'zbek tiliga mos ASR modellarini takomillashtirish, semantik xatolarni kamaytirish, real vaqt rejimidagi subtitr tizimlarini ishlab chiqish rejalashtirilmoqda

O‘ZBEK TILI ELEKTRON LUG‘ATLARIDA FRAZEOLOGIK BIRLIKLARNI SUN’IY INTELLEKT ASOSIDA SEMANTIK TAVSIFLASHNING ZAMONAVIY USULLARI

Alimboyeva Hilola G‘ayrat qizi
Urganch davlat pedagogika insituti Filologiya fakulteti talabasi
Email: alimbayevahilola62@gmail.com

Annotatsiya: *Mazkur maqolada o‘zbek tili elektron lug‘atlarida, xususan, frazeologik birliklarni sun’iy intellekt (SI) va tabiiy tilni qayta ishlash (NLP) texnologiyalari yordamida semantik tavsiflash muammosi tadqiq etilgan. Tadqiqotda korpusga asoslangan yondashuv, kontekstual so‘z ko‘chimlari (BERT, UzRoBERTa, BERTbek kabi transformerga asoslangan modellar) va WordNet tipidagi leksik-semantik tarmoqlardan foydalanilgan holda frazeologik birliklarning ma’nosini avtomatik aniqlash, ularning idiomatik-literallik darajasini tasniflash hamda ko‘p tilli lug‘at maqolalarini generatsiya qilish masalalari ko‘rib chiqilgan. Tadqiqot metodologiyasi sifatida O‘zbek tili milliy korpusi (uzbekcorpus.uz) negizida 1200 ta somatik va zoonimik frazeologik birlikdan iborat tanlanma tuzilgan, ularning 850 tasi (70,8%) o‘qitish, 180 tasi (15,0%) tekshirish va 170 tasi (14,2%) test to‘plamlariga ajratilgan. Klassifikatsiya vazifasi uchun BERTbek-News-Big, UzRoBERTa-base va mBERT modellari qiyosiy tahlil qilingan; natijalarga ko‘ra, monolingual BERTbek-News-Big modeli idiomatik/literal tasnifda 91,4% aniqlik (accuracy) va 0,903 F1-ko‘rsatkichi bilan ko‘p tilli mBERT (84,2% aniqlik, F1=0,831) hamda an’anaviy qoidaga asoslangan usuldan (76,5% aniqlik, F1=0,742) ustun natija ko‘rsatdi. Semantik annotatsiya jarayonida frazeologik birliklarning to‘liq, qisman va nol ekvivalentlik turlari turk, rus va ingliz tillari bilan qiyoslangan holda aniqlangan: tahlil qilingan 1200 birlikdan 412 tasi (34,3%) to‘liq, 538 tasi (44,8%) qisman va 250 tasi (20,9%) nol ekvivalentlik ko‘rsatdi. Tadqiqot natijalari o‘zbek tili uchun avtomatlashtirilgan frazeografik modul yaratish, mashina tarjimasi tizimlarini takomillashtirish va o‘zbek tilini xorijiy til sifatida o‘qitish amaliyoti uchun nazariy va amaliy ahamiyatga ega.*

Kalit so‘zlar. *Frazeologik birlik, elektron lug‘at, sun’iy intellekt, tabiiy tilni qayta ishlash (NLP), korpus lingvistikasi, BERTbek, UzRoBERTa, semantik annotatsiya, idiomatiklik, interlingvistik ekvivalentlik, leksikografiya.*

MODERN METHODS OF SEMANTIC DESCRIPTION OF PHRASEOLOGICAL UNITS IN UZBEKISTAN ELECTRONIC DICTIONARIES BASED ON ARTIFICIAL INTELLIGENCE

Abstract: *This article examines the problem of semantically describing phraseological units in Uzbek electronic dictionaries using artificial intelligence (AI) and natural language processing (NLP) technologies. The study employs a corpus-based approach, utilizing contextual word embeddings (transformer-based models such as BERT, UzRoBERTa, and BERTbek) and lexical-semantic networks of the WordNet type to automatically determine the meaning of phraseological units, classifying their degree of idiomaticity versus literalness, and generating multilingual dictionary entries. As part of the research methodology, a sample consisting of 1,200 somatic and zoological phraseological units was selected from the Uzbek National Corpus (uzbekcorpus.uz); 850 of these (70.8%) were allocated to the training set, 180 (15.0%) to the validation set, and 170 (14.2%) to the test set. For the classification task, the BERTbek-News-Big, UzRoBERTa-base, and mBERT models were subjected to a comparative analysis; According to the results, the monolingual BERTbek-News-Big model achieved 91.4% accuracy and an F1 score of 0.903 in the idiomatic/literal classification, outperforming the multilingual mBERT (84.2% accuracy, F1 = 0.831) and the rule-based method (76.5% accuracy, F1 = 0.742). During the semantic annotation process, the types of equivalence—full, partial, and zero—for phraseological units were identified by comparing them across the Turkish, Russian, and English languages: Of the 1,200 units analyzed, 412 (34.3%) showed full equivalence, 538 (44.8%) showed partial equivalence, and 250 (20.9%) showed zero equivalence. The results of the study are of theoretical and practical significance for creating an automated phraseological module for the Uzbek language, improving machine translation systems, and teaching Uzbek as a foreign language.*

Keywords: *Phraseological unit, electronic dictionary, artificial intelligence, natural language processing (NLP), corpus linguistics, BERTbek, UzRoBERTa, semantic annotation, idiomaticity, interlinguistic equivalence, lexicography.*

СОВРЕМЕННЫЕ МЕТОДЫ СЕМАНТИЧЕСКОГО ОПИСАНИЯ ФРАЗЕОЛОГИЧЕСКИХ ЕДИНИЦ В УЗБЕКИСТАНСКИХ ЭЛЕКТРОННЫХ СЛОВАРЯХ НА ОСНОВЕ ИСКУССТВЕННОГО ИНТЕЛЛЕКТА

Аннотация: *В данной статье исследуется проблема семантического описания фразеологических единиц в узбекских электронных словарях, в частности, с использованием технологий искусственного интеллекта (ИИ) и*

обработки естественного языка (ОБЯ). Рассматриваются вопросы автоматической идентификации значения фразеологических единиц, классификации их идиоматически-буквального уровня и генерации многоязычных словарных статей с использованием корпусного подхода, контекстных переносов слов (трансформаторных моделей, таких как BERT, UzRoBERTa, BERTbek) и лексико-семантических сетей типа WordNet. В качестве методологии исследования была создана выборка из 1200 соматических и зоонимических фразеологических единиц на основе Национального корпуса узбекского языка (uzbekcorpus.uz), из которых 850 (70,8%) были отнесены к обучающей выборке, 180 (15,0%) — к верификации и 170 (14,2%) — к тестовой выборке. Для задачи классификации были сопоставлены модели BERTbek-News-Big, UzRoBERTa-base и mBERT; согласно результатам, моноязычная модель BERTbek-News-Big превзошла многоязычную модель mBERT (точность 84,2%, F1=0,831) и традиционный метод, основанный на правилах (точность 76,5%, F1=0,742), в классификации идиоматических/буквальных выражений с точностью 91,4% и индексом F1 0,903. В процессе семантической аннотации были определены типы полной, частичной и нулевой эквивалентности фразеологических единиц путем сравнения их с турецким, русским и английским языками: из 1200 проанализированных единиц 412 (34,3%) показали полную, 538 (44,8%) частичную и 250 (20,9%) показали нулевую эквивалентность. Результаты исследования имеют теоретическое и практическое значение для создания автоматизированного фразеологического модуля для узбекского языка, совершенствования систем машинного перевода и практики преподавания узбекского языка как иностранного.

Ключевые слова: *фразеологическая единица, электронный словарь, искусственный интеллект, обработка естественного языка (NLP), корпусная лингвистика, BERTbek, UzRoBERTa, семантическая аннотация, идиоматичность, межъязыковая эквивалентность, лексикография.*

KIRISH

So‘nggi o‘n yillikda raqamli leksikografiya va kompyuter lingvistikasi sohasida tub burilish yuz berdi: an’anaviy qog‘oz lug‘atlar o‘rnini korpusga asoslangan, qidiruv tizimlari va sun’iy intellekt (SI) algoritmlari bilan integratsiyalashgan elektron lug‘atlar egallamoqda. Bu jarayon, ayniqsa, frazeologiya — tilning eng murakkab va madaniy-milliy o‘ziga xoslikka boy qatlami — uchun alohida dolzarblik kasb etadi, chunki frazeologik birliklarning (FB) ma’nosi ko‘pincha tarkibiy qismlarning yig‘indisidan kelib chiqmaydi (kompozitsionallikning buzilishi), bu esa ularni avtomatik qayta ishlash uchun NLP nuqtai nazaridan eng qiyin lingvistik hodisalardan biriga aylantiradi[1].

O‘zbek tili agglyutinativ tipologiyaga ega bo‘lib, yuqori darajadagi morfologik murakkablik va kam resursli (low-resource) til sifatida tasniflanadi. Bu holat o‘zbek tili uchun yetarli hajmdagi annotatsiyalangan korpuslar, frazeologik bazalar va WordNet tipidagi leksik-semantik tarmoqlarning hozircha cheklanganligiga olib kelmoqda. Shu bilan birga, so‘nggi yillarda UzBERT, UzRoBERTa va BERTbek kabi o‘zbek tili uchun moslashtirilgan transformer modellarining yaratilishi, hamda O‘zbek tili milliy korpusi (uzbekcorpus.uz) faoliyati frazeologik birliklarni semantik tavsiflashning yangi, korpusga va neyron tarmoqlarga asoslangan metodologiyasini joriy etish imkonini bermoqda[2].

Tadqiqotning dolzarbligi: birinchidan, mavjud o‘zbek frazeologik lug‘atlarining katta qismi an’anaviy, intuitiv-leksikografik usulda tuzilgan bo‘lib, ularda chastota, kontekstual moslik va stilistik belgilash kabi miqdoriy ko‘rsatkichlar deyarli aks ettirilmagan; ikkinchidan, mashina tarjimasi va ko‘p tilli axborot-qidiruv tizimlarining sifati ko‘p hollarda aynan idiomatik birliklarni noto‘g‘ri (so‘zma-so‘z) tarjima qilish sababli pasayadi; uchinchidan, o‘zbek tilini xorijiy til sifatida o‘qitishda frazeologik kompetensiyani shakllantirish uchun interaktiv, sun’iy intellekt asosidagi elektron lug‘at vositalariga ehtiyoj ortib bormoqda.

Tadqiqotning ilmiy yangiligi shundaki, birinchi marta o‘zbek tili somatik va zoonimik frazeologik birliklari bo‘yicha annotatsiyalangan, ochiq foydalanish uchun mo‘ljallangan tanlanma yaratilgan va bu tanlanma asosida uch xil transformer arxitekturasining qiyosiy samaradorligi miqdoriy ko‘rsatkichlar (accuracy, precision, recall, F1-score) bilan baholangan. Tadqiqot natijalari nazariy jihatdan kompyuter frazeografiyasi nazariyasini boyitadi, amaliy jihatdan esa milliy elektron lug‘atlar, mashina tarjimasi tizimlari va lingvodidaktik vositalarni takomillashtirish uchun konkret modelni taqdim etadi.

ADABIYOTLAR SHARHI

Frazeologik birliklarni tizimli o‘rganishning nazariy poydevori V.V.Vinogradovning rus tili frazeologik birliklari turlari haqidagi klassik tasnifida qo‘yilgan bo‘lib, u frazeologik chatishmalar, birikmalar va butunliklarni semantik motivatsiya darajasi bo‘yicha farqlagan. A.V.Kunin esa ingliz tili frazeologiyasi materiali asosida frazeologik birliklarning struktur-semantik xususiyatlarini chuqur tadqiq qilgan. G.Lakoff va M.Jonsonning kognitiv metafora nazariyasi frazeologik ma’noning paydo bo‘lishini kontseptual metafora va metonimiya orqali izohlashga zamin yaratdi, bu yondashuv keyinchalik korpusga asoslangan frazeografiyada ham qo‘llanildi[3].

Korpus lingvistikasi nuqtai nazaridan J.Sinklerning “Corpus, Concordance, Collocation” asari frazeologik birliklarni aniqlashda kollokatsion tahlilning ahamiyatini asoslab berdi, R.Mun esa ingliz tili sobit iboralari va idiomalarini yirik korpus materiali asosida tasniflagan. B.Erman va B.Uorrenning “idiom principle” va “open choice

principle" nazariyasi til birliklarining ikki xil — erkin va frazeologik bog'langan — qo'llanish prinsiplari mavjudligini ko'rsatdi, bu zamonaviy kompyuter frazeografiyasi uchun nazariy asos bo'lib xizmat qilmoqda[4-5].

O'zbek frazeologiyasi sohasida olib borilgan tadqiqotlar frazeologik birliklarning milliy-madaniy o'ziga xosligini, semantik konnotatsiyasini va boshqa tillar (xususan, ingliz, turk, nemis va rus tillari) bilan qiyosiy jihatlarini yoritishga bag'ishlangan. Mirzoyevning tadqiqotida o'zbek va ingliz tillaridagi rang bildiruvchi frazeologik birliklarning semantik konnotatsiyasi va tarjima muammolari Markaziy Osiyo Adabiyot, Falsafa va Madaniyat jurnalida (Central Asian Journal of Literature, Philosophy and Culture, CAJLPC) tahlil qilingan. Shu jurnalda chop etilgan Raximov va Al-Zurfining tadqiqotida o'zbek tilidagi appozitiv konstruksiyalarning frazeologik xususiyatlari ko'rib chiqilgan, Qodirovaning maqolasida "Zevarxon" dostoni misolida frazeologik birliklarning lingvopoetik tabiati o'rganilgan[6].

Hojiyev tahriri ostida nashr etilgan o'zbek tilining izohli lug'atlari va faol so'zlar lug'ati an'anaviy leksikografik amaliyotda frazeologizmlar, paremalar (maqol-matallar) alohida lug'at sifatida ishlanishi lozimligini ko'rsatadi — bu o'zbek frazeografiyasining mustaqil yo'nalish sifatida shakllanish zaruratini tasdiqlaydi. Shuningdek, nemis va o'zbek tillaridagi hayvon nomlariga asoslangan frazeologik va paremiologik birliklarning lingvomadaniy xususiyatlarini qiyosiy o'rganish bo'yicha olib borilgan tadqiqotlar (Markaziy Osiyoda nemis tili o'qitishning dolzarb masalalari xalqaro forumi materiallari) ikki tildagi "cho'chqa" obrazi bilan bog'liq frazemalarning qarama-qarshi konnotatsiyaga ega ekanligini — nemis tilida ijobiy ("Schwein haben" — baxti kelmoq), o'zbek tilida esa faqat salbiy ma'noda qo'llanishini ko'rsatdi, bu frazeologik ekvivalentlikni avtomatik aniqlashda madaniy omilning hisobga olinishi zarurligini isbotlaydi[7-8].

O'zbek tili milliy korpusi (uzbekcorpus.uz) loyihasi N.Abduraxmonova rahbarligida ishlab chiqilgan bo'lib, korpus tarkibida lingvistik lug'atlar, veb-sahifalar, morfologik ma'lumotlar bazasi, o'quv adabiyotlari hamda ilmiy, rasmiy va badiiy matnlar majmuasi, shu jumladan ta'limiy subkorpus mavjud. Abduraxmonovaning "Kompyuter lingvistikasi" darsligida va "Mashina tarjimasining lingvistik ta'minoti" monografiyasida o'zbek tili ontologiyasi va tezaurusini yaratish masalalari, FST (finite-state transducer) texnologiyasi asosida morfologik teglashning amaliy natijalari keltirilgan. Ushbu ishlar o'zbek tili WordNet bazasini yaratishda "Expand" va "Merge" metodlarining qiyosiy tahlili bilan davom ettirilgan, bu erda o'zbek tilining agglyutinativ tabiatini hisobga olgan holda lemma asosida sinsetlar qurish tavsiya etilgan[9].

Raximova va Alimboyevaning tadqiqotida o'zbek tili frazeologik birliklarini ko'p tilli elektron lug'atlarda taqdim etishning korpus-lingvistik asoslari ishlab chiqilgan: konkordanslarni korpusdan ajratib olish, chastota va kollokatsion tahlil, semantik-stilistik annotatsiya, interlingvistik ekvivalentlik turini aniqlash (to'liq, qisman, nol ekvivalentlik) va lug'at maqolasi mikrostrukturasini loyihalashtirishdan iborat bosqichli model taklif etilgan. Mazkur model somatik va zoonimik frazeologizmlarni turk, rus va ingliz tillaridagi ekvivalentlari bilan qiyoslash orqali sinovdan o'tkazilgan va korpusga asoslangan yondashuvning an'anaviy intuitiv frazeografiyaga nisbatan ob'ektivlik, vakillik (representativlik) va kengaytiriluvchanlik (scalability) jihatidan ustunligini ko'rsatdi[10].

Xalqaro NLP amaliyotida frazeologik birliklar va idiomalarni avtomatik aniqlash muammosi alohida tadqiqot yo'nalishiga aylangan. Pyeng va Feldman so'z ko'chimlari (word embeddings) yordamida ifodaning literal yoki idiomatik qo'llanishini bashorat qilish modelini taklif etgan va o'z avvalgi natijalariga nisbatan sezilarli yaxshilanishga erishgan. Frontiers in Artificial Intelligence jurnalida chop etilgan tadqiqotda BERT gap ko'chimlarining (sentence embeddings) umumiy idiomatik birlik aniqlash vazifasida samaradorligi tahlil qilingan bo'lib, BERT ko'chimlari Skip-Thought modelidan ustun natija ko'rsatgan; tadqiqotchilar Shapley qiymatlari yordamida modelning qaysi turdagi lingvistik axborotdan (idiomaga xos yoki mavzuga asoslangan xususiyatlardan) foydalanishini tahlil qilgan[11].

Idiomatik ifodalarni semantik moslik (semantic compatibility) asosida aniqlovchi DISC modeli MAGPIE, SemEval-2022 va VNC kabi yetakchi xalqaro benchmark to'plamlarida sinovdan o'tkazilgan va eng yaxshi natijalarni ko'rsatgan, ayniqsa, oldin uchramagan (unseen) idiomalarni aniqlashda baseline modellardan ustunligini namoyon etgan. Shu bilan birga, FLUTE (Figurative Language Understanding Through Textual Explanations) datasetida T5 modeli 79,2% aniqlik (0,791 makro-F1) ko'rsatkichiga erishgan, bu esa katta tilli modellarning idiomatik tilni tushunish borasidagi imkoniyatlari va cheklovlarini ochib beradi. SemEval-2022 Task 2A (idiomatiklikni aniqlash) musobaqasida eng yaxshi tizimlar 93,85% makro-F1 ko'rsatkichiga erishgan, bu zamonaviy transformer arxitekturalarining idiomatiklikni aniqlashdagi yuqori salohiyatini tasdiqlaydi[12].

O'zbek tili — kam resursli til sifatida — so'nggi yillarda bir qancha monolingual transformer modellari bilan boyitildi. Kuriyozov va hammuallarining ACL Anthology'da chop etilgan tadqiqotida BERTbek — o'zbek tili uchun maxsus ishlab chiqilgan, uch xil variantda (BERTbek-Wiki, BERTbek-News-Small, BERTbek-News-Big) treninglangan model taqdim etilgan; sentiment tahlili, ko'p yorliqli mavzu tasnifi va atoqli otlarni aniqlash (NER) vazifalarida BERTbek modellari ko'p tilli mBERT'dan barcha uch vazifada ustun natija ko'rsatgan, shuningdek treninglash korpusi hajmi va sifatining model samaradorligiga ta'siri ko'rsatib berilgan. Mansurov va hammuallari tomonidan ishlab chiqilgan UzBERT modeli taxminan 140 million so'zlik korpusda treninglangan bo'lib, niqoblangan til modeli (masked language model) aniqligi bo'yicha ko'p tilli BERT'dan ancha yuqori natija ko'rsatgan. Davronov va Adilova taklif etgan

UzRoBERTa modeli 300 million so‘zlik xabarlar korpusi asosida tayyorlangan va matnlarni tasniflash vazifasida xlm-RoBERTa-base hamda distilbert-base-multilingual-cased modellaridan sezilarli ustunlikka erishgan[13-15].

Yuqorida ko‘rib chiqilgan adabiyotlar tahlili shuni ko‘rsatadiki, frazeologik birliklarni semantik tavsiflash bo‘yicha xalqaro tajriba (BERT asosidagi idiomatiklikni aniqlash, DISC, FLUTE, SemEval kabi benchmark va modellar) ancha rivojlangan, biroq bu yutuqlar hozircha o‘zbek tili frazeologiyasiga to‘liq tatbiq etilmagan. O‘zbek tili uchun yaratilgan monolingual modellar (BERTbek, UzRoBERTa, UzBERT) asosan sentiment tahlili, mavzu tasnifi va NER vazifalarida sinovdan o‘tkazilgan, ammo ularning frazeologik birliklarni idiomatik/literal mezoni bo‘yicha tasniflashdagi samaradorligi alohida tadqiqot predmeti bo‘lmagan. Aynan mana shu bo‘shliq — xalqaro NLP metodologiyasi va o‘zbek tili milliy korpus resurslarini frazeografik maqsadda integratsiyalash — ushbu tadqiqotning asosini tashkil etadi[16].

TADQIQOT METODOLOGIYASI

Tadqiqot aralash (mixed-methods) yondashuv asosida amalga oshirildi. Tadqiqotning ma'lumotlar bazasini O‘zbek tili milliy korpusi (uzbekcorpus.uz), “O‘zbek tilining izohli lug‘ati” hamda ilmiy maqolalarda keltirilgan frazeologik birliklar tashkil etdi. Korpusdan 3740 ta nomzod frazeologik birlik ajratilib, ekspert annotatsiyasi natijasida 1200 ta autentik frazeologik birlik tanlab olindi (712 ta somatik, 488 ta zoonimik). Annotatorlar o‘rtasidagi moslik darajasi Cohen's Kappa $\kappa = 0.87$ ni tashkil etdi.

Tanlanma 850 ta (70.8%) o‘qitish, 180 ta (15.0%) validatsiya va 170 ta (14.2%) test to‘plamlariga stratifikatsiyalangan usulda ajratildi. Frazeologik birliklarni avtomatik tasniflash uchun BERTbek-News-Big, UzRoBERTa-base, mBERT hamda qoidaga asoslangan Baseline modeli qiyosiy tahlil qilindi. Modellar PyTorch va HuggingFace Transformers platformalarida NVIDIA T4 (16 GB VRAM) grafik protsessorida o‘qitildi. O‘qitish jarayonida learning rate – 2×10^{-5}, batch size – 16, epoch – 8, AdamW optimallashtiruvchisi va 128 token maksimal uzunligi qo‘llanildi.

TAHLIL VA NATIJALAR

Test to‘plamida (170 birlik) o‘tkazilgan yakuniy baholash natijalari 2-jadvalda keltirilgan. Natijalardan ko‘rinishicha, monolingual BERTbek-News-Big modeli barcha to‘rt ko‘rsatkich bo‘yicha eng yuqori natijani ko‘rsatdi: aniqlik — 91,4%, to‘g‘rilik — 90,8%, to‘liqlik — 89,9% va F1-ko‘rsatkich — 0,903. UzRoBERTa-base ikkinchi o‘rinni egalladi (aniqlik 88,7%, F1=0,876), undan keyin ko‘p tilli mBERT (aniqlik 84,2%, F1=0,831) joylashdi. Qoidaga asoslangan an’anaviy baseline eng past natijani ko‘rsatdi (aniqlik 76,5%, F1=0,742), bu kollokatsion chastota va kompozitsionallik indeksi kabi statik mezonlarning kontekstual ma’no nozikliklarini to‘liq tutib ololmasligini tasdiqlaydi[17].

1-jadval. Modellarning idiomatik/literal tasniflashdagi samaradorligi (test to‘plami, n=170)

Model	Aniqlik, %	To‘g‘rilik	To‘liqlik	F1-score
BERTbek-News-Big	**91,4**	**0,908**	**0,899**	**0,903**
UzRoBERTa-base	88,7	0,881	0,871	0,876
mBERT (multilingual)	84,2	0,838	0,824	0,831
Qoidaga asoslangan baseline	76,5	0,751	0,734	0,742

BERTbek-News-Big va mBERT o‘rtasidagi farq (7,2 foiz punkti aniqlik bo‘yicha) bootstrap testida statistik ahamiyatli ekanligi tasdiqlandi ($p<0,01$). Bu natija xalqaro tadqiqotlarda qayd etilgan tendensiyaga mos keladi: monolingual, til-xos (language-specific) modellar kam resursli tillarda ko‘p tilli universal modellardan barqaror ustunlik ko‘rsatadi, chunki ular tilning morfologik va leksik xususiyatlariga moslashtirilgan tokenizatorga ega. Bu xulosa BERTbek modeli muallarlari tomonidan sentiment tahlili va NER vazifalarida olingan natijalar bilan ham izchildir[18].

BERTbek-News-Big modeli noto‘g‘ri tasniflagan 15 holatning (test to‘plamining 8,8%i) sifatli tahlili shuni ko‘rsatdiki, xatolarning katta qismi (10 holat, 66,7%) “yarim idiomatik” (semi-idiomatic) frazeologik birliklarga, ya’ni tarkibiy qismlardan biri literal, ikkinchisi ko‘chma ma’noda ishlatiladigan ifodalarga to‘g‘ri keladi (masalan, “ko‘ngli to‘q” tipidagi birikmalar). Qolgan xatolar (5 holat, 33,3%) past chastotali (korpusda 10dan kam uchragan) dialektal frazemalarga tegishli bo‘lib, bu metodologiya bo‘limida ta’kidlangan — past chastotali birliklar uchun korpus hajmini va annotatsiya sifatini oshirish zarurligi haqidagi xulosani amaliy jihatdan tasdiqlaydi[19].

1200 ta tahlil qilingan frazeologik birlikning turk, rus va ingliz tillaridagi ekvivalentlari bilan solishtirilishi natijasida ekvivalentlik turlarining quyidagi taqsimoti aniqlandi: 412 birlik (34,3%) to‘liq ekvivalentlikka, 538 birlik (44,8%) qisman ekvivalentlikka va 250 birlik (20,9%) nol ekvivalentlikka ega bo‘ldi (3-jadval). Til bo‘yicha taqsimotda eng yuqori to‘liq ekvivalentlik ko‘rsatkichi turk tili bilan (41,2%) qayd etildi, bu kutilgan natija edi, chunki o‘zbek va turk tillari bir oilaga (turkiy tillar) mansub bo‘lib, umumiy madaniy-tarixiy frazeologik fondga ega. Rus tili bilan to‘liq ekvivalentlik 33,7%ni, ingliz tili bilan esa eng past ko‘rsatkich — 28,1%ni tashkil etdi, bu uzoq lingvomadaniy aloqadorlik darajasi bilan izohlanadi[20].

2-jadval. Frazeologik birliklarning interlingvistik ekvivalentlik turlari bo‘yicha taqsimoti

Qiyoslanadigan til	To‘liq ekv, %	Qisman ekv., %	Nol ekv., %	n (FB soni)
Turk tili	**41,2**	42,6	16,2	1200
Rus tili	33,7	45,1	21,2	1200
Ingliz tili	28,1	46,8	25,1	1200
O‘rtacha (3 til)	34,3	44,8	20,9	1200

Somatik frazeologizmlar (712 birlik) orasida eng yuqori chastotaga ega tayanch komponentlar — “ko‘z” (118 birlik, masalan, “ko‘zi to‘rt bo‘lmoq”, “ko‘z yummoq”), “qo‘l” (104 birlik) va “yurak” (97 birlik) — aniqlandi. Zoonimik frazeologizmlar (488 birlik) orasida “it” (89 birlik) va “ot” (76 birlik) komponentli birliklar eng sermahsul guruhni tashkil etdi. Stilistik bo‘yoq bo‘yicha taqsimot shuni ko‘rsatdiki, tahlil qilingan birliklarning 61,3%i neytral, 24,7%i so‘zlashuv uslubiga, 9,8%i dialektal va 4,2%i qadimiy (arxaik) qatlamga tegishli ekanligi aniqlandi — bu taqsimot frazeologik fondning asosiy qismi umumxalq tilida faol qo‘llanishini ko‘rsatadi[21].

Tadqiqot natijalari asosida frazeologik birlikni ko‘p tilli elektron lug‘at maqolasi sifatida taqdim etishning beş bosqichli avtomatlashtirilgan modeli ishlab chiqildi: (1) korpusdan konkordanslarni ajratib olish; (2) chastota va kollokatsion tahlil (korpus bo‘yicha avtomatik hisoblash); (3) BERTbek modeli yordamida semantik-stilistik annotatsiya (idiomatiklik darajasi va stilistik bo‘yoqni avtomatik bashorat qilish); (4) interlingvistik ekvivalentlik turini aniqlash; (5) lug‘at maqolasi mikrostrukturasini generatsiya qilish (bosh so‘z, transkripsiya, grammatik belgi, ta’rif, kontekstual misol, ekvivalentlar va stilistik qayd maydonlarini avtomatik to‘ldirish). Sinov tariqasida 50 ta frazeologik birlik ushbu model orqali avtomatik qayta ishlangan va ekspertlar tomonidan baholangan natijada 44 ta maqola (88,0%) qo‘shimcha tahrirsiz qabul qilingan, qolgan 6 tasi (12,0%) faqat stilistik qayd maydonida kichik tuzatish talab qilgan — bu model amaliy qo‘llanish uchun yetarli ishonchlilikka ega ekanligini ko‘rsatadi[22-25].

XULOSA

Tadqiqot natijasida O‘zbek tili milliy korpusi asosida 1200 ta (712 ta somatik va 488 ta zoonimik) frazeologik birlikdan iborat annotatsiyalangan ma’lumotlar bazasi yaratildi. Annotatorlar o‘rtasidagi moslik darajasi Cohen's Kappa $\kappa = 0.87$ ni tashkil etdi. Qiyosiy tahlil natijasida BERTbek-News-Big modeli eng yuqori natijani qayd etib, 91.4% Accuracy va F1 = 0.903 ko‘rsatkichiga erishdi, bu mBERT (84.2%) hamda Baseline (76.5%) modellari natijalaridan sezilarli darajada yuqori ($p < 0.01$). Interlingvistik tahlil frazeologik birliklarning 34.3% to‘liq, 44.8% qisman va 20.9% nol ekvivalentlikka ega ekanligini ko‘rsatdi. Taklif etilgan avtomatlashtirilgan lug‘at maqolasi yaratish modeli amaliy sinovlarda 88.0% holatda qo‘shimcha tahrirsiz qabul qilinadigan natija berdi. Olingan natijalar sun’iy intellekt asosidagi yondashuvning o‘zbek elektron lug‘atlarida frazeologik birliklarni semantik tavsiflash, mashina tarjimasi va korpus lingvistikasi tizimlarida samarali qo‘llanish imkoniyatini tasdiqladi.

THEORETICAL AND PRACTICAL PROBLEMS OF DISTANCE LEARNING AND FOREIGN LANGUAGE TEACHING

Jalolova Shakhnoza Valijon kizi
The student of NamSU
E-mail: jalolovash@gmail.com

Abstract: *The rapid development of information and communication technologies has transformed educational systems worldwide, making distance learning an essential component of modern education. Foreign language teaching, in particular, has experienced significant changes due to the adoption of online platforms and digital resources. While distance learning offers flexibility, accessibility, and diverse learning opportunities, it also presents theoretical and practical challenges that affect teaching effectiveness and learning outcomes. This article examines the major theoretical and practical problems associated with distance learning in foreign language education.*

Keywords: *distance learning, foreign language teaching, online education, e-learning, language acquisition, digital technologies, educational challenges*

ТЕОРЕТИЧЕСКИЕ И ПРАКТИЧЕСКИЕ ПРОБЛЕМЫ ДИСТАНЦИОННОГО ОБУЧЕНИЯ И ПРЕПОДАВАНИЯ ИНОСТРАННЫХ ЯЗЫКОВ.

Аннотация: *Быстрое развитие информационных и коммуникационных технологий трансформировало системы образования во всем мире, сделав дистанционное обучение неотъемлемой частью современного образования. В частности, преподавание иностранных языков претерпело значительные изменения в связи с внедрением онлайн-платформ и цифровых ресурсов. Хотя дистанционное обучение предлагает гибкость, доступность и разнообразные возможности обучения, оно также создает теоретические и практические проблемы, влияющие на эффективность преподавания и результаты обучения. В данной статье рассматриваются основные теоретические и практические проблемы, связанные с дистанционным обучением в преподавании иностранных языков.*

Ключевые слова: *дистанционное обучение, преподавание иностранных языков, онлайн-образование, электронное обучение, усвоение языка, цифровые технологии, образовательные проблемы*

MASOFAVIY TA’LIM VA CHET TILLARINI O‘QITISHNING NAZARIY VA AMALIY MUAMMOLARI

Annotatsiya: *Axborot-kommunikatsiya texnologiyalarining jadal rivojlanishi butun dunyo bo’ylab ta’lim tizimlarini o’zgartirib, masofaviy o’qitishni zamonaviy ta’limning ajralmas qismiga aylantirdi. Xususan, chet tillarini o’qitish onlayn platformalar va raqamli resurslarning joriy etilishi tufayli sezilarli o’zgarishlarga duch keldi. Masofaviy o’qitish moslashuvchanlik, kirish imkoniyati va xilma-xil o’rganish imkoniyatlarini taqdim etsa-da, u o’qitish samaradorligi va o’rganish natijalariga ta’sir qiluvchi nazariy va amaliy qiyinchiliklarni ham keltirib chiqaradi. Ushbu maqolada chet tillarini o’qitishda masofaviy o’qitish bilan bog’liq asosiy nazariy va amaliy muammolar ko’rib chiqiladi.*

Kalit so’zlar: *masofaviy o’qitish, chet tillarini o’qitish, onlayn ta’lim, elektron o’qitish, tillarni o’zlashtirish, raqamli texnologiyalar, ta’limdagi qiyinchiliklar*

Introduction

Distance learning has become a prominent educational approach in the twenty-first century, particularly after the global expansion of digital technologies and the increased demand for flexible learning environments. Foreign language education has greatly benefited from online learning platforms, virtual classrooms, and multimedia resources that facilitate communication and language practice beyond traditional classroom settings.

However, teaching and learning a foreign language online involves unique challenges. Language acquisition depends heavily on interaction, communication, feedback, and cultural immersion, which can be difficult to achieve in virtual environments. Theoretical issues include the adaptation of language learning theories to online contexts, while practical concerns involve technological barriers, student motivation, assessment, and teacher preparedness.

The purpose of this article is to investigate the theoretical and practical problems of distance learning in foreign language teaching and propose recommendations for enhancing the effectiveness of online language education.

Methods

This study employs a qualitative literature review method. Academic publications, educational reports, and research studies related to distance learning and foreign language teaching were analyzed. The collected data were categorized into two major groups: theoretical challenges and practical challenges.

The analysis focused on:

1.Theoretical foundations of online language learning.

2.Challenges related to communication and interaction.

3.Technological and pedagogical issues.

4.Student and teacher perspectives.

5.Strategies for improving online foreign language instruction.

The reviewed sources were selected based on their relevance, credibility, and contribution to contemporary educational research.

Results

The analysis revealed several significant theoretical and practical problems affecting distance foreign language education.

❖ **Theoretical Problems:**

1. Limited Application of Language Learning Theories: Traditional language acquisition theories emphasize social interaction, meaningful communication, and immediate feedback. In online environments, opportunities for spontaneous communication may be reduced, making it difficult to fully implement communicative and socio-cultural approaches.

2. Reduced Language Immersion: Foreign language learning is most effective when learners are exposed to authentic linguistic and cultural environments. Distance learning often limits natural exposure to real-life language use, which may slow the development of communicative competence.

3. Learner Autonomy Requirements: Online education assumes a high degree of self-regulation and independent learning. However, many students lack the skills necessary for effective autonomous learning, resulting in lower engagement and academic performance.

❖ **Practical Problems:**

1. Technological Challenges: Many students and teachers face difficulties related to internet connectivity, inadequate hardware, software limitations, and insufficient technical support. These issues disrupt communication and reduce learning effectiveness.

2. Lack of Student Motivation: Distance learning environments may lead to feelings of isolation and reduced motivation. Without direct classroom interaction, students often struggle to maintain consistent participation and concentration.

3. Difficulties in Assessing Language Skills: Evaluating speaking, listening, reading, and writing skills online presents challenges regarding academic integrity, reliability, and authenticity. Monitoring student performance during examinations can also be problematic.

4. Limited Interaction: Foreign language learning depends on active communication between learners and instructors. Online classes may reduce opportunities for collaborative learning, peer interaction, and immediate feedback.

5. Teacher Preparedness: Many language teachers were initially trained for traditional classroom instruction. The transition to online teaching requires new technological competencies and pedagogical strategies that some educators may not possess.

Discussion

The findings indicate that distance learning creates both opportunities and obstacles for foreign language education. While digital technologies provide access to diverse educational resources and facilitate flexible learning, they cannot entirely replace face-to-face interaction necessary for language acquisition.

To address theoretical challenges, educators should integrate communicative language teaching principles into online environments through virtual discussions, collaborative projects, and interactive activities. Language immersion can be enhanced through authentic multimedia materials, online exchanges with native speakers, and virtual cultural experiences.

Practical problems can be mitigated through improved technological infrastructure, teacher training programs, and learner support services. The use of interactive platforms, gamification techniques, and personalized feedback can increase student motivation and engagement. Furthermore, alternative assessment methods such as project-based evaluation, portfolios, and oral presentations may improve the accuracy of language proficiency measurement.

Educational institutions should invest in professional development programs that help teachers adapt to evolving digital learning environments. Such initiatives can improve instructional quality and promote innovative teaching practices.

Conclusion

Distance learning has become an integral part of modern foreign language education. Despite its numerous advantages, significant theoretical and practical challenges remain. Theoretical concerns include limited application of language learning theories, reduced immersion opportunities, and the need for learner autonomy. Practical issues involve technological barriers, motivation problems, assessment difficulties, limited interaction, and insufficient teacher preparation. Addressing these challenges requires a comprehensive approach involving technological improvements, pedagogical innovation, teacher training, and student support. By combining effective instructional strategies with modern digital tools, educators can enhance the quality and effectiveness of distance foreign language teaching and learning.

IBRATNING O‘ZBEK MATBAACHILIGIGA QO‘SHGAN HISSASI

Gulchehra Qayumova
Namangan davlat universiteti mustaqil izlanuvchisi

Annotatsiya: *Ushbu maqolada vatandoshimiz, millat fidoiysi, adabiyotning yirik vakili Ibratning o‘zbek matbaachiligiga qo‘shgan hissasi, matbuotdagi faoliyati atroflicha yoritilgan. Muallif shoir haqida o‘z fikrlarini bayon etar ekan, Ibratning “Matbaai Ishoqiya” nomi bilan atalgan bosmaxonasi, uni shakllantirishdagi amaliy sa’y-harakatlari hamda u yerda nashr etilgan kitoblar, matbaachilik faoliyati xususida alohida to‘xtaladi. Bundan tashqari shoirning “Tarixi chopxona” g‘azalini tahlil qilish bilan bir qatorda “Turkiston viloyatining gazeti”da chop etilgan tukum maqolalariga e’tibor qaratadi.*

Kalit so‘zlar: *matbuot, matbaa faoli, bosmaxona, nashr, gazeta, jamiyat, kitobatchilik, kutubxona, jurnalist, maqola, xalq, millat, ma’rifat.*

ВКЛАД ИБРАТНА В РАЗВИТИЕ МАШИНОПИСИ В УЗБЕКИСТАНЕ

Аннотация: *В данной статье всесторонне раскрыт вклад нашего соотечественника, патриота нации, крупного представителя литературы Исхокхона Ибрата в узбекскую полиграфию, также освещена эго деятельность в печати. Выражая свои мысли о поэте, автор отдельно останавливается о деятелности типографии Исокхона Ибрата под названием “Матбааи Исхокия”, о практических действиях в её создании и напичатанных в данной типографии книгах, о типографской деятельности поэта.*

Также наряду с анализом газели поэта “Тарихи чопхона”, автор уделяет внимание циклу его статей в “Газете Туркистанской области”.

IBRATNA'S CONTRIBUTION TO THE DEVELOPMENT OF TYPEWRITING IN UZBEKISTAN

Annotation: *This article discusses the contribution of Ishak Khan Ibrat into Uzbek printing. The author particularly touched upon the printing house of Iskak Khan’s "Matbaai Isakiya", its practical efforts in its formation, as well as the books published there, as well as the publishing activity. Along with the analysis of the poet’s "Historical Publishing", he also touches on the articles published in the Turkistan Region Newspaper. The author tries to cite his point of view by quoting from his article on literary works by Ibrad’s literary critics.*

Key words.*The press, active of printing, printing, publication, library, journalist, newspaper article, people, population.*

Ehtiyoj - kishini harakatga keltiradi. Bizningcha, Ishoqxon to‘raning matbaachilikka azm aylashi zamirida ham shu ichkiy kuch yotadi. Avvalo, o‘zida odamlarning ma’naviy dunyosini ilmu ma’rifat nuri bilan yoritish istagi azaldan tug‘yonli edi. Qo‘lyozma kitobatchilik davri oxirlayotganini zukkolik bilan anglab yetoldi. Yetuk xatotlarning kamdan-kamligi, bori ham ming urinmasin, yiliga o‘ntacha kitobni ko‘chirish imkoniyatigagina egaligi, bu ham aqliy, ham jismoniy qo‘shaloq ishning sust maromi tezob zamon talablariga javob berolmasligini o‘z vaqtida payqadi. Ayniqsa, mahallada yangicha maktab ochganida bolalarga kitoblar berolmagandi, o‘zi yozgan qo‘lyozma asari esa Toshkent chopmaxonalarida (“Lug‘ati sittati alsina” 1898 yili tayyor edi) 1901 yilning oxiridagina bosilgandi. Mashaqqatli mehnatlari mahsuli yorug‘likka yillar mahtal yotgani unda iztirob qo‘zg‘amasdan qo‘ymasdi. Qanday ishga jazm aylasa, albatta, o‘shani uddalamaguncha harakatdan to‘xtamaydigan fe’li Ibratni Namangan matbaachiligiga ta’mal toshi qo‘yishiga olib keldi.

Tarix fanlari nomzodi Aziz Boboxonovning “Asrdan oshgan ziyo maskanlari” kitobidagi fikrlar juda asosli va dalillarga boy. Ishoqxon Junaydullayev “Lug‘ati sittiti al-sina” nashridan keyin kitob nashri shaydosi bo‘lib qoladi. U nashr ishlarini zimdan o‘rganib yurib, bosmaxona anjomlarini qo‘lga kiritishdan oldin ularning qaysi usuli va turini qishloq sharoitida ishlatish osonroq ko‘chishini chamalab ko‘rgandan so‘ng, Turkiston general-gubernatori mahkamasiga litografiya, ya’ni toshbosma ochish uchun iltimosnoma yozadi. Biroq Sang-Peterburgdan ruxsatnoma kelmaydi. Shunga

qaramay, o‘zbek ziyolisi shoir Ibrat o‘zining navbatdagi asarini katta umid bilan nashrga tayyorlab boradi va asarning nashriga ruxsatnoma olish uchun kitob qo‘lyozmasini Sang-Peterburg syenzorining Bosh boshqarmasiga yo‘llaydi. Ishoqxon Junaydilluyev tavakkal qilib, bosmaxona ochishga ruxsat olmasdan turib, 1907 yili Orenburgdan litografiya uskunalarini katta mablag‘ va mashaqqatlar evaziga oldin Qo‘qonga poyezda, Qo‘qondan To‘raqo‘rg‘onga tuyalarda yetkazadi. 1908 yilda o‘zi qurdirgan hamomi o‘rnida toshbosma matbaa tashkil qiladi va uni “Matbaai Ishoqiya” nomi bilan 1909 yili “Ruxsatnoma olgan yildan ilgari, ya’ni Sankt - Peterburgning Bosh boshqarmasi syenzori tomonidan 1908 yil bosishga ruxsat berilgan kitob - “San’ati Ibrat qalami Mirrajab Bandiy”ni chop etishdan o‘z faoliyatini boshladi” (12.97.).

Ibratning o‘zi bu haqda “Tarixi chopxona” g‘azalida quyidagilarni bitgan:

Ming uch yuzu yigirma oltida chopmaxona
Ochmoqg‘a bo‘ldi ruxsat va so‘z berib zamona.
Maqsad bu ishdan erdi olamg‘a ilm qasri,
Ham qo‘ymoqg‘a asarlar yodovari jahona.

Yuqoridagilardan ko‘rinadiki, hamyurtimiz o‘z oldiga ezgu maqsadlar qo‘ygan. Bu borada matbaachilikdan yaxshi xabardor bo‘lgan Husayn Makayev Ishoqxonga beminnat ko‘maklashadi. Shunisi diqqatga sazovorki, Ibrat hatto o‘z bosmaxonasining muhrini ham tayyorlatadi. Toshbosmada chop etilgan kitoblarning muqovasiga muhr tushirib borilgan. Uning ko‘rinishi nur sochayotgan quyosh bo‘lib, markazida ilm so‘zi o‘yib bitilgandi.

Albatta, shaxsiy kichik korxona tez orada kengaytirildi. Matbaachining butun diqqat-e’tibori millatiga ilm-ma’rifat tarqatadigan eng qimmatli, o‘qishga oson, serma’no va tushunarli asarlarni chop etishga qaratildi. Mahalliy xalqning kitobga mehri oshirildi. Natijada bu ishni avj oldirish uchun litografiya 1910 yili Namangan shahriga ko‘chirildi. Matbaa mix va toshbosmaga aylandi. Ishlari yurishib ketgach, butun Turkiston miqyosida ma’lumu mashhur bo‘lib ketdi. Katta hajmdagi asarlargacha nashr qilishga kirishila boshlandi.

Matbaachilik sanoatning o‘ziga xos turi. Uning mahsulotlarini muxlislarga yetkazish uchun esa alohida do‘konlar ochish ham zarur edi. Shuning uchun bu masalaning ijobiy yechimiga erishishga astoydil bel bog‘ladi.Taniqli olim Ulug‘bek Dolimovning keltirgan quyidagi dalillari Ibratning o‘sha paytda matbaachilik ishi yildan-yilga rivojlanganidan dalolat beradi: “ Namangan matbaasi mahsulotining kun sayin ortib borishi shahar va qishloqlarda kitob do‘konlari va bozorlarining bir muncha ko‘payishiga sabab bo‘ldi. 1910 yildan boshlab Namangan shahrida 13 ta, Chustda 2 ta, Popda 2 ta, Yangiqo‘rg‘onda 1 ta, To‘raqo‘rg‘onda 1ta kitob do‘koni ochildi. Bu do‘konlarda asosan, “Matbaai Ishoqiya”da nashr qilingan kitoblar juda arzon narxlarda sotilar edi. Bu matbaada, asosan, ma’rifatparvarlikka oid risolalar nashr qilingan. Bu ishda asosiy tashabbusni Ishoqxon Ibrat ko‘rsatgan”.

Hamyurtimiz matbaachilik bilangina kifoyalanib qolishni istamadi. 1913 yilga kelib, bosmaxona qoshida “At-tijor al-Namangan” nomli gazeta chop etishni niyatladi. Hatto mas’ul idoralarga ruxsat olish uchun murojaat qildi. Biroq o‘sha paytdagi hukumat unga bu imkoniyatni bermadi.

Shunga qaramay, u ma’rifatchilikning boshqa yo‘llaridan foydalanishga astoydil intildi. Ya’ni o‘z uyida xalq uchun boy kutubxona tashkilladi. Uning nomini “Kutubxonai Ishoqiya” deya nomladi. Uzoq-yaqindan ta’lim-tarbiyaga oid eng nodir risolalarni izlab-topib, o‘quvga qo‘ydi. Kutubxonaning fondi kundan-kunga boyitildi. Shaxsiy kutubxonasida o‘zbek va fors-tojik ijodkorlarining 1000dan ziyod qo‘lyozma va bosma kitoblari jamlanganligi haqida ma’lumotlar bor. Birgina misol: O‘zbeksiton Fanlar akademiyasining Sharqshunoslik institutida saqlanayotgan Yusuf Xos Hojibning “Qutatg‘u bilig” (“Saodatga eltuvchi ilm”) asarining Namangan nusxasi deb nom olgan nodir qo‘lyozmasi ham Ibratning kutubxonasida bo‘lganligi bizga ma’lum.

Vodiyning ko‘zga ko‘ringan shaxsi qatorida turgan aqli zukko, qalbi qaynoq, zehni o‘tkir, fikri teran Ishoqxon to‘ra nainki og‘zaki so‘z aytmoq bilan qanoat hosil qildi, o‘lka minbari - “Turkiston viloyati gazeti”ga dolzarb mavzularda maqolalar yozdi. Vatan va millat taqdiriga beparvo qaramadi. Mudroq xalq ko‘zini ilmu ma’rifat bilan ochishni o‘ylab, bu borada betinim qayg‘urdi. Hatto, chor hukumatining saylovlar siyosatiga islohlar joizligini dangal aytishdan, gazetaga ro‘yi-rost yozishdan hadiksiramadi. U adolatli tartib-qoidalarnigina yoqlashini yashirmadi, e’tirozlari xalq manfaatlariga daxldorligi uchun shaxsiy halovatini orqaga surib qo‘ydi. Chunonchi, 1910 yili o‘lkada qozilar saylovi e’lon qilinadi. Gazeta mazkur masalani keng yoritishga mas’ulligidan foydalanib, mulohazali maqolalar yo‘lladi. O‘sha davr matbuoti sahifalari bizga daliliy manba bo‘la oladi. “Polojeniyada 223-nchi bobida zikr qilingandurki, - deya yozadi “Turkiston viloyatining gazeti”ning1908 yilgi 56-sonida Ibrat, -e’tibori bor, yetti kundan ziyoda hibs bo‘lmagan o‘ttuz so‘mdan ziyod ishtrab to‘lamagan, yoshi yigirma beshdan past emas odam” qozi bo‘lar ekan. Olim yo omi, ahmoq yo dono kishi, yo shariat biladurgan va yoki nizom biladurgan demagan... Ko‘rasiz kimlarni(ng) qo‘llariga bu katta shariat hukmini topshiradurlar. Fikr andisha qiladurgan kishi yo‘q. Andisha qiladurgan odamni odam ham hisob qilmaydilar... Polojeniya bobig‘a muvofiq ellikboshi degan kimgaki, shar ko‘p tushsa, ani yozar ekan. Na qilsunlar, bu xil qilsalar polojeniyaga muvofiq. Polojeniyada shariat biladurgan mulladan degan emas ekan... ularga kim va nima bo‘lishi ham darkor emas ekan. Befikr o‘tsang, ey do‘st muhtoji non o‘lursan”

Yuqoridagi satrlarni o‘qib gazeta nonini yeb tirikchilik o‘tkazayotgan uncha-muncha jurnalistlarning qo‘lidan bunday jur’at kelmasligi xayolimizdan o‘tadi. Qarangga, hukmron chor hukumati saylov qonun-qoidalarini o‘zgartirish kerak, degan fikrni kinoyali tarzda matbuot orqali butun Turkiston viloyatiga yoyishga tobe yer farzandining haddi qanday sig‘ganiga aql bovar qilmaydi. Bu chinakam millatparvarlik, bu xalqning ertasi uchun astoydil jon kuydirish, bu adolatga o‘ch qalbning o‘ziga xos isyoni emasmi.

Farg‘ona davlatchiligi tarixida katta o‘rin tutgan Axsikent xususida 1913 yilning yozida Toshkent arxeologiya jamiyati ilmiy munozara tashkillaydi. Tadbirga vodiy vakillari safida Ishoqxon to‘raning taklif qilingani ayni muddao bo‘ldi. “Turkiston viloyatining gazeti” dagi munozara uning maqolasi bilan boshlanganida ham ramziylikni uqishimiz qiyin emas. Boisi, Ibrat qadimgi Axsikentga yondosh qishloqning farzandi, yurtga taniqli shaxs, havaskor arxeologlarning beta’ma sardori edi. U ko‘hna shahar xarobalarini o‘rganish - yurtning kechasini ayon ko‘rish bilan barobarligini chuqur idroklab, bu masalaga chor hukumatining, xalqining diqqat-e’tiborini tortishni istab, o‘zi kitoblarda, ayniqsa “Boburnoma”da o‘qiganlari, odamlardan tinglaganlariga tayanib, Axsi shahri to‘g‘risida g‘oyat qiziqarli va ahamiyatli ma’lumotlarni keltiradi. O‘lkamiz tarixini o‘rganishga barchani undaydi.

Matbuot faoliga aylangan qalamkash 1911 yili Qo‘qon-Namangan temir yo‘lining qurilishi va ishga tushirilishi haqida maqola yozgan bo‘lsa, 1912 yili 15 iyulda uning ishga tushirilishini olqishlab reportaj bitdi. Shuningdek, “Eski maktablar xususida”, “Millatni kim isloh etar?”, “To‘raqo‘rg‘ondan maktub” singari maqolalari esa gazeta va “Oyna” jaridasida yoritildi.

Birinchi matbaachi va faol matbuotchi sifatidagi xizmatlari keng o‘rganishga va targ‘ib etishga arziydi. Bizning bitiklarimiz esa dastlabki, izlanishlari ya’ni dengizdan tomchi kabidir desak xato qilmaymiz.

.

Аннотация: *В данной работе рассматриваются современные подходы к организации образовательного процесса в условиях Нового Узбекистана с акцентом на развитие самостоятельного и критического мышления учащихся. Особое внимание уделяется анализу сингапурской системы обучения как одной из наиболее эффективных моделей в мировой образовательной практике. Раскрываются основные принципы данной системы, включая обучение в сотрудничестве, использование интерактивных методов и ориентацию на активное участие учащихся. На примере преподавания русского языка показана эффективность применения таких методов, как Think–Pair–Share, Round Robin, Mix–Pair–Share и Jigsaw. Обосновано, что внедрение данных подходов способствует повышению учебной активности, развитию речевых и коммуникативных навыков учащихся, а также улучшению качества усвоения учебного материала.*

Ключевые слова: *Образование, сингапурская система обучения, интерактивные методы, русский язык, критическое мышление, самостоятельное обучение, коммуникативные навыки, педагогические технологии, учебный процесс, активное обучение.*

KEEPING UP WITH THE TIMES: SINGAPOREAN EDUCATION

Abstract: *This paper examines modern approaches to organizing the educational process in the context of the New Uzbekistan, with a focus on developing students' independent and critical thinking skills. Particular attention is given to the analysis of the Singaporean education system as one of the most effective models in global educational practice. The main principles of this system are outlined, including collaborative learning, the use of interactive methods, and a focus on active student participation. Using the example of teaching the Russian language, the effectiveness of methods such as Think–Pair–Share, Round Robin, Mix–Pair–Share, and Jigsaw is demonstrated. It is substantiated that the implementation of these approaches contributes to increasing students' learning activity, developing their speech and communicative skills, as well as improving the quality of learning outcomes.*

Keywords: *Education, Singaporean education system, interactive methods, Russian language, critical thinking, independent learning, communicative skills, pedagogical technologies, educational process, active learning*

ZAMON BILAN HAMNAFAS: SINGAPUR TA'LIMI

Annotatsiya: *Ushbu ishda Yangi O'zbekiston sharoitida ta'lim jarayonini tashkil etishning zamonaviy yondashuvlari, o'quvchilarning mustaqil va tanqidiy fikrlashini rivojlantirishga alohida e'tibor qaratilgan holda ko'rib chiqiladi. Shuningdek, Singapur ta'lim tizimi jahon ta'lim amaliyotidagi eng samarali modellardan biri sifatida tahlil qilinadi. Mazkur tizimning asosiy tamoyillari, jumladan hamkorlikda o'qitish, interaktiv metodlardan foydalanish va o'quvchilarning faol ishtirokiga yo'naltirilganlik yoritib berilgan. Rus tili darslari misolida Think–Pair–Share, Round Robin, Mix–Pair–Share va Jigsaw metodlarining samaradorligi ko'rsatib berilgan. Ushbu yondashuvlarni qo'llash o'quvchilarning o'quv faolligini oshirish, nutqiy va kommunikativ ko'nikmalarini rivojlantirish hamda bilimlarni o'zlashtirish sifatini yaxshilashga xizmat qilishi asoslab berilgan.*

Kalit so'zlar: *Ta'lim, Singapur ta'lim tizimi, interaktiv metodlar, rus tili, tanqidiy fikrlash, mustaqil o'qish, kommunikativ ko'nikmalar, pedagogik texnologiyalar, o'quv jarayoni, faol o'qitish*

Введение. Образование и воспитание никогда не знают остановки или перерыва. Ведь будущее нашей Родины, завтрашний день нашего народа, авторитет нашей страны в мировом сообществе прежде всего зависят от того, какими людьми вырастут наши дети и с какими качествами они войдут в жизнь. На сегодняшний день процессы, происходящие в сфере образования и воспитания в нашем обществе и стране в целом, в частности разумная политика, проводимая на пути к светлому будущему молодого поколения, направлены на укрепление независимости наследников нашего будущего.

Методология: В системе образования Нового Узбекистана особую актуальность приобретает вопрос организации преподавания данного предмета на основе современных методов. Образование XXI века должно быть направлено не только на передачу знаний, но и на развитие у учащихся навыков самостоятельного и критического мышления.

Литературный анализ. Мировой опыт показывает, что одной из стран, добившихся успеха в модернизации системы образования, является Сингапур. Система образования Сингапура является одной из самых эффективных образовательных моделей в мире. Её основными особенностями являются развитие самостоятельного мышления, проблемное обучение и использование интерактивных подходов. В данной системе задача учителя заключается не только в передаче знаний, но и в формировании у учащихся творческого и критического мышления. Например, при обучении математике в школах Сингапура широко применяется метод «Bar Model», который способствует развитию у учащихся визуального мышления.

Результаты и обсуждение. В настоящее время модернизация системы образования, повышение интереса учащихся к получению знаний и воспитание их как самостоятельно мыслящих личностей являются одними из актуальных задач. Особенно важное значение приобретает эффективное использование современных педагогических технологий и интерактивных методов при обучении русскому языку.

Традиционные методы обучения не всегда обеспечивают достаточный уровень активности учащихся, в связи с чем возникает необходимость внедрения инновационных подходов в образовательный процесс. С этой точки зрения элементы сингапурской системы обучения выделяются высокой эффективностью в мировой образовательной практике. Роль интерактивных методов в современном образовании.

Современный образовательный процесс основан на активном сотрудничестве между учителем и учащимися. В настоящее время интерактивные методы рассматриваются как одно из важнейших средств повышения качества образования. Эти методы способствуют активизации учебной деятельности учащихся, формированию навыков самостоятельного мышления, анализа и свободного выражения собственного мнения. Основное преимущество интерактивных методов заключается в том, что каждый ученик становится активным участником учебного процесса. В ходе групповой и парной работы, обсуждений и дискуссий учащиеся усваивают знания не в готовом виде, а в процессе поиска и совместного анализа. Использование интерактивных методов на уроках русского языка способствует более лёгкому усвоению грамматического материала, развитию устной и письменной речи. В результате уроки становятся содержательными, интересными и эффективными.

Сингапурская система обучения является одной из систем, направленных на обеспечение личностного развития учащихся и их активного участия в образовательном процессе. Основное содержание данной системы заключается в обучении в сотрудничестве, ориентации на коммуникацию и развитии самостоятельного мышления учащихся. К основным принципам сингапурской системы обучения относятся: уважение к мнению каждого ученика, формирование навыков работы в коллективе, обеспечение активности на уроке и организация обучения, ориентированного на результат. В рамках данной системы учащиеся обмениваются знаниями, работая в парах и группах, свободно выражают свои мысли. Применение этих принципов на уроках русского языка способствует повышению речевой активности учащихся и эффективности учебного процесса.

Применение элементов сингапурской системы обучения на уроках русского языка создаёт широкие возможности для повышения речевой активности учащихся и эффективного усвоения знаний. В данной системе основное внимание уделяется активному участию учащихся в учебном процессе, свободному выражению мыслей и формированию навыков коллективной работы. Особенности предмета «Русский язык» — грамматические правила, словарный запас и развитие устной речи — особенно эффективно осваиваются с помощью сингапурских методов. Например, применение метода Think–Pair–Share (Подумай — Обсуди в паре — Поделись) способствует развитию навыков самостоятельного мышления учащихся. Учитель задаёт вопрос по новой теме, учащиеся сначала размышляют индивидуально, затем обсуждают ответы в парах и в заключение представляют свои результаты перед классом. Данный метод особенно эффективен при работе с текстом и формировании навыков устных ответов. Другим эффективным методом является Round Robin, при котором члены группы по очереди высказывают свои мысли. Например, на уроке русского языка по теме «Моё любимое время года» учащиеся в малых группах по очереди составляют по одному предложению. Этот метод способствует расширению словарного запаса и практическому применению грамматических правил. Метод Mix–Pair–Share предполагает свободное передвижение учащихся по классу, образование новых пар и обмен мнениями по заданному вопросу. Данный метод имеет важное значение для развития диалогической речи, навыков вопросно-ответного общения и коммуникативной компетенции на русском языке. Кроме того, использование метода Jigsaw (Пазл) даёт эффективные результаты при изучении грамматических тем. Например, тема «Части речи» делится на несколько частей, каждая группа изучает определённую часть, а затем объясняет её другим учащимся. Этот метод повышает ответственность учащихся и способствует более глубокому усвоению учебного материала.

В целом применение элементов сингапурской системы обучения на уроках русского языка позволяет организовать занятия интересно, содержательно и результативно. Эти методы повышают интерес учащихся к изучению языка и развивают их речевую и коммуникативную компетентность. Метод Think–Pair–Share является одним из наиболее широко применяемых и эффективных интерактивных методов в сингапурской системе обучения. Данный метод направлен на развитие у учащихся навыков самостоятельного мышления, общения и свободного выражения собственной точки зрения. Метод реализуется в три этапа: размышление, работа в паре и обмен мнениями. При использовании данного метода на уроках русского языка учитель предлагает вопрос или задание по теме. Например, учащимся предлагается задание: «Найдите в тексте глаголы и определите их время». Сначала учащиеся самостоятельно выполняют задание, затем обсуждают ответы в парах, сравнивают результаты и исправляют ошибки. На заключительном этапе каждая пара представляет свои выводы перед классом. Этот метод является особенно эффективным при изучении грамматики русского языка, работе с текстом и развитии устной речи. В процессе обмена мнениями учащиеся исправляют ошибки друг друга и закрепляют полученные знания. В результате в учебный процесс активно вовлекаются все учащиеся класса.

Дополнительно следует отметить, что эффективное внедрение сингапурской системы обучения требует существенного изменения роли учителя в современном образовательном процессе. Учитель в данной модели выступает не только как источник знаний, но и как организатор, наставник, фасилитатор и координатор учебной деятельности. Он создаёт условия для активного взаимодействия учащихся, направляет их познавательную деятельность, стимулирует самостоятельный поиск решений и поддерживает развитие их мыслительной активности. Важным аспектом является также использование оценивания, ориентированного на процесс обучения. В сингапурской системе особое значение придаётся формативному оцениванию, при котором внимание уделяется не только конечному результату, но и самому процессу выполнения заданий, уровню активности учащихся, их вовлечённости в групповую работу и способности к самоанализу. Такой подход позволяет более объективно оценивать учебные достижения и способствует постоянному развитию учащихся.

Кроме того, применение интерактивных методов обучения способствует формированию у учащихся ключевых компетенций XXI века, таких как критическое и креативное мышление, умение работать в команде, коммуникативная компетентность и способность к самостоятельному обучению. Эти навыки являются необходимыми для успешной социализации, адаптации в современном обществе и дальнейшего профессионального развития учащихся в условиях быстро меняющегося и глобализированного мира.

Заключение. В ходе проведённого исследования было установлено, что современное образование требует перехода от традиционных методов обучения к более активным и интерактивным формам организации учебного процесса. Особую значимость в этом контексте приобретает развитие у учащихся самостоятельного и критического мышления, а также формирование коммуникативных навыков, необходимых для успешной адаптации в современном обществе.

Анализ сингапурской системы образования показал её высокую эффективность благодаря использованию методов сотрудничества, проблемного обучения и активного вовлечения учащихся в учебную деятельность. Применение таких интерактивных методов, как Think–Pair–Share, Round Robin, Mix–Pair–Share и Jigsaw, особенно на уроках русского языка, способствует более глубокому усвоению учебного материала, развитию речевой активности и повышению интереса к обучению.

Таким образом, внедрение элементов сингапурской образовательной модели в практику преподавания является перспективным направлением, способствующим повышению качества образования и формированию всесторонне развитой личности учащегося.

«CODEX CUMANICUS»NING FLORENTSIYANING «MEDICEA LAURENZIANA» KUTUBXONASIDA SAQLANAYOTGAN NUSXASI: QO'LYOZMANING VENETSIYADAN PARIJGA «SAYOHAT»I TARIXI

Jafarov Botir Sattarovich
Namangan davlat universiteti professori, filologiya fanlari doktori

Abstract: *Ushbu maqola turkiy xalqlarning nodir va noyob yozma yodgorligi bo'lmish «Codex Cumanicus» qo'lyozmasining kam o'rganilgan ikkinchi nusxasi va uning tarixi tahliliga bag'ishlangan. Tadqiqotda qo'lyozmaning 1824-yilda Venetsiyadan Parijga qisqa muddatli «sayohati» hamda nima sababdan unda Fransiya milliy kutubxonasi muhrlari paydo bo'lganligi ilmiy asoslab berilgan. Maqolaning asosiy yangiligi shundaki, muallif qo'lyozmaning asl nusxasi Napoleon buyrug'i bilan emas, balki nemis sharqshunosi Julius Klaprotning ilmiy ehtiyoji sababli Parijga olib kelinganini isbotlaydi. Klaprot 1824-yilda Venetsiyadagi kutubxona xodimi janob Salvidan qo'lyozmadan nusxa olishni iltimos qiladi va 25 kun ichida undan nusxa ko'chirtirgan. Bugungi kunda ushbu nusxa Florensiyadagi «Medicea Laurenziana» kutubxonasida «Ashburnham 1584» raqami ostida saqlanmoqda. Tadqiqot jarayonida muallif Florensiyadagi kutubxonada bevosita ushbu qo'lyozma ustida ishlab, uning tavsifini keltirgan. Qo'lyozma 118 sahifadan iborat bo'lib, unda 2500 ga yaqin so'z o'rin olgan. Shuningdek, maqolada qo'lyozma matnidagi turli rangli (sapsar, qizil va qora) siyohlarda bitilgan arabcha transliteratsiyalar tahlil qilingan. Bu qaydlar Klaprot va keyinchalik kutubxona xodimi F. Benedetto tomonidan kiritilgani taxmin qilinadi. Maqola so'ngida qo'lyozmaning Florensiyaga kelib qolishi lord Bertram va Italiya hukumati o'rtasidagi oldi-sotdi munosabatlari tarixi yoritilgan.*

Kalit so'zlar: *Tarix, Franchesko Petrarka, Napoleon, Aleksandr fon Gumboldt, Julius Klaproth, Vasiliy Radlov, Parij, Venetsiya, Florensiya, turkiy, qo'lyozma, quman, lotin, forscha.*

A COPY OF THE CODEX CUMANICUS KEPT IN THE "MEDICEA LAURENZIANA" LIBRARY IN FLORENCE: THE HISTORY OF THE MANUSCRIPT'S "JOURNEY" FROM VENICE TO PARIS

Abstract: *This article is devoted to the analysis of the little-studied second copy of the Codex Cumanicus, a rare and unique written monument of the Turkic peoples, and its history. The study provides scientific justification for the manuscript's short "journey" from Venice to Paris in 1824 and why the seals of the National Library of France appeared on it. The main novelty of the article is that the author proves that the original copy of the manuscript was brought to Paris not by order of Napoleon, but due to the scientific needs of the German orientalist Julius Klaproth. Klaproth temporarily borrowed the manuscript in 1824 with the help of the librarian Mr. Salvi in Venice and copied it within 25 days. Today, this copy is stored in the "Medicea Laurenziana" library in Florence under the number "Ashburnham 1584". During the research, the author worked directly on this manuscript in the library in Florence and described it. The manuscript consists of 118 pages, containing about 2,500 words. The article also analyzes the Arabic transliterations written in different colored inks (purple, red, and black) in the text of the manuscript. These notes are believed to have been made by Klaproth and later by the librarian F. Benedetto. The article concludes by explaining that the manuscript's arrival in Florence was due to a transaction between Lord Bertram and the Italian government.*

ЭКЗЕМПЛЯР «CODEX CUMANICUS», ХРАНЯЩИЙСЯ В БИБЛИОТЕКЕ «МЕДИЧЕИ ЛАУРЕНЦИАНЫ» ВО ФЛОРЕНЦИИ: ИСТОРИЯ «ПУТЕШЕСТВИЯ» РУКОПИСИ ИЗ ВЕНЕЦИИ В ПАРИЖ

Аннотация: *Данная статья посвящена анализу малоизученного второго экземпляра Куманийского кодекса, редкого и уникального письменного памятника тюркских народов, и его истории. Исследование дает научное обоснование короткого «путешествия» рукописи из Венеции в Париж в 1824 году и объясняет, почему на ней появились печати Национальной библиотеки Франции. Главная новинка статьи заключается в том, что автор доказывает, что оригинал рукописи был доставлен в Париж не по приказу Наполеона, а в связи с научными потребностями немецкого востоковеда Юлиуса Клапрота. Клапрот временно взял рукопись в 1824 году с помощью библиотекаря г-на Сальви в Венеции и*

скопировал её за 25 дней. Сегодня эта копия хранится в библиотеке «Медичеа Лауренциана» во Флоренции под номером «Эшбернхэм 1584». В ходе исследования автор работал непосредственно с этой рукописью во Флорентийской библиотеке и описал её. Рукопись состоит из 118 страниц, содержащих около 2500 слов. В статье также анализируются арабские транслитерации, написанные чернилами разных цветов (фиолетовыми, красными и чёрными) в тексте рукописи. Считается, что эти заметки были сделаны Клапротом, а позже библиотекарем Ф. Бенедетто. В заключение статьи объясняется, что попадание рукописи во Флоренцию стало результатом сделки между лордом Бертрамом и итальянским правительством.

Ключевые слова: *история, Франческо Петрарка, Наполеон, Александр фон Гумбольдт, Юлий Клапрот, Василий Радлов, Париж, Венеция, Флоренция, тюркский, рукопись, куманский, латинский, персидский.*

Ajdodlarimiz qoldirgan boy madaniy merosni o‘rganish, uni kelajak avlodlarga yetkazish bugungi kundagi olimlar va ularning vorislari oldidagi muhim masala bo‘lib qolmoqda. Zero, har bir xalqning bugungi taraqiyoti va ertangi kuni uning madaniy merosi hamda ajdodlari qoldirgan an’analari va qadriyatlari asosida mustahkamlanadi.

Shuning uchun ham har bir xalq o‘z tarixini, milliy-ma’naviy merosini jiddiy o‘rganishi, ulardagi boy madaniy-ma’rifiy hamda badiiy estetik imkoniyatlardan yurt ravnaqi yo‘lida, yurtdoshlarining yuksak ma’naviyatli shahslar qilib tarbiyalashda foydalanmog‘i joiz.

Tarix saxnasida bunyodga kelgan bir qator yozma obidalar barcha turkiy halqlar uchun mushtarakligi bilan ajralib turadi. Ular turkiy xalqlarning tili, adabiyoti va qadriyatlarining keyingi bosqichlaridagi taraqqiyot uchun umumiy asos vazifasini ado etgan.

Turkiyshunoslikda ana shunday yodgorliklardan biri XIV asr boshida yaratilgan qo‘lyozma “Codex Cumanicus”dir. Mazkur qo‘lyozmaning asl nusxasi Venetsiyda Avliyo Mark kutubxonasida DXLIX (№549) raqam bilan saqlanadi. Qo‘lyozma bugungi kunda yangi №1597 raqami bilan qayd etilgan.

Mazkur yodgorlik qadimgi turkiy qo‘lyozmalar ichida lotin yozuvida bitilgan yagona tematik lug‘atdir. Bugina emas, unda 47 ta eng qadimiy turkiy topishmoqlarning yozib qoldirilgan namunalari ham mazkur qo‘lyozmaning nafaqat lug‘atshunoslik, balki xalq og‘zaki ijodi nazariyasi va amaliyotini yangi fakt va matnlar bilan boyitadi. Muhimi, ular nodir va hali hech bir manbada uchramagan topishmoqlardir. Ular turkiy topishmoqlarning yozma adabiyotda o‘z aksini topgan yirik guruhi ekanligi bilan ham juda katta ahamiyat kasb etadi.

Ushbu qo‘lyozma to‘g‘risida birinchi bo‘lib 1635 yilda (ammo ushbu sana bizning tadqiqotimizga qadar qo‘lyozma tadqiq bilan shug‘ullangan barcha olimlarning monografik ishlarida hamda maqolalarida 1650 yil deb berilgan) ma’lumot bergan italiyalik olim Giacomo Filippo Tomasini bo‘lib, u o‘zining “Petrarka hayoti va ijodi” nomli asarida Petrarka qoldirgan adabiyotlar orasida “Alphebetun persicum, comanicum et latinum. Anonymi, scriptu anno MCCCIII die XI Julij”, ya’ni, “1303 yil 11 iyul sanasida yozilgan Alifbo tarzidagi forscha, qumancha va lotincha lug‘at” topganligini aytib o‘tadi hamda qo‘lyozma lug‘atining dastlabki to‘qqiz qatorini nashr qiladi . Tomasinining aytishiga qaraganda bu qo‘lyozma 1362 yilda Italiya uyg‘onish davrining mashhur shoiri Franchesko Petrarka tomonidan boshqa asarlar bilan birgalikda Venetsiya kutubxonasiga sovg‘a qilingan. U bu ma’lumotni muqaddas Georgiy ibodatxonasining tarixini yozuvchilardan biri bo‘lgan Abbat Ulmodan olgan . Qo‘lyozmani 1768 yilda nemis olimi Vilgelm Leybnits Venetsiya kutubxonasi katalogidan qo‘lyozmani topishga muvaffaq bo‘ladi. Oradan bir yil o‘tib 1769 yilda esa, Vengriyalik tarixchi olimlar Daniel Kornides hamda Jojef Telekilar qo‘lyozmaning dastlabki 22 sahifasini ko‘chirib olishadi. Bu ko‘chirib olingan nusha to‘g‘risida Budapesht kutubxonchisi Jorj Preyga ma’lum qilishadi.

“Kodeks kumanikus” qo‘lyozmasining yana bir nusxasi haqidagi faraz bizda qachon va nima uchun paydo bo‘ldi? Gap shundaki, asl nusxaning birinchi va oxirigi sahifalariga ikkita kutubxonaning muhri bosilgan. Ularning biri Venetsiya va ikkinchisi Parij milliy kutubxonalariga tegishlidir. Bu to‘g‘rida Vasiliy Radlov shunday yozadi: – «Qo‘lyozmaning muqovasida Venetsiya kutubxonasining muhri bor. Ammo uning ichki tomonida Parij milliy kutubxonasining muhri bosilgan bo‘lib, o‘z navbatida Napoleon buyrug‘iga binoan barcha boshqa qo‘lyozmalar qatorida ushbu yodgorlik ham Parijga olib kelingan va u yerdan Venetsiya kutubxonasiga qaytarib kelingan» [3; 4.].

Biz tadqiqot jarayonida Venetsiya va Parij milliy kutubxonalarida qo‘lyozmaning olib ketilganligi yoki aksincha, olib kelinganligi to‘g‘risidagi biron-bir qaydni uchratmadik. Demak, qo‘lyozma Napoleon buyrug‘iga ko‘ra emas, boshqa sabab bilan Parijga olib kelingan. Bu savolga javobni nemis sharqshunos olimi Julius Klaprothning qo‘lyozma bo‘yicha amalgan oshirgan tadqiqotidan topishga muvoffaq bo‘ldik.

1828 yilga kelib qo‘lyozma filologik nuqtai nazardan Julius Klaproth tomonidan tadqiq etilgan edi. Ayni paytda ushbu tadqiqot faqatgina qo‘lyozmaning lug‘at qismi bilan chegaralangan bo‘lib, Olim mazkur tadqiqotni qariyb 4 yil davomida amalga oshirgan. Uning ta’kidlashicha, qo‘lyozmadagi forscha va qumancha so‘zlarning o‘qilishi emas, balki undagi so‘z boyligi unga mazkur tadqiqotni amalga oshirishi uchun turtki bo‘lgan. Shu sababli u Venetsiyadagi avliyo

Mark kutubxonasining xodimi janob Salvidan qo‘lyozmani qidirib topish va undan nusxa olishga yordam berishni iltimos qiladi.

Bugungi kunda Florentsiya shahridagi Lorenzo di Piero de Medici nomidagi milliy kutubxonada Ashburnxem 1584 (Medicea Laurenziana Library, Ashburnham 1584) katalog raqami bilan saqlanayotgan “Lotincha-forscha va qumancha lug‘at” (Cod 1584: Vocabulaire Latin Persan et Coman. Arrive a Paris Le 5 november 1824) Venetsiyaning Marchana milliy kutubxonasida DXLIX (№549)/1597 katalog raqami bilan saqlanayotgan “Alifbo tarzidagi forscha va qumancha kitob” (In hoc libra continentur Persicum et Comanicum per alfabetum) qo‘lyozmasining 1824 yilda noma’lum xattot tomonidan ko‘chirilgan nusxasidir. Ushbu nusxa Klaprot iltimosiga ko‘ra, 1824 yilda Venetsiyadagi Marchana milliy kutubxonasida ishlagan Salvi tomonidan Frantsiyaga yuborilgan va undan nusxa ko‘chirilgan. Shu tariqa qo‘lyozma asl nusxasining birinchi va oxirgi sahifalarida Frantsiya milliy kutubxonasining muhri paydo bo‘lgan.

Ammo Klaproth qo‘lyozma nusxasi kim tomonidan ko‘chirilganligini bilmaydi. O‘z tadqiqotida u, jumladan, shunday deb yozadi: «Afsuski, men u olimning ismini bilmayman, uning buyuk xizmatlari tufayli juda ham aniqlik bilan ko‘chirilgan mazkur qo‘lyozma nusxasini 1824 yil noyabrida olishga muvaffaq bo‘ldim. Lotincha lug‘atning ko‘chirilgan nusxasi uncha katta bo‘lmagan, qog‘oz bichimi 4o hajmda, 118 sahifadan iborat, uch ustun shaklida tuzilgan lug‘at bo‘lib, birinchi ustunda lotincha, ikkinchisida forscha hamda uchinchi ustunda qumancha so‘zlar berilgan. Ushbu manbaning ellik sakkiz sahifasi lotin alifbosi bo‘yicha tartiblangan ot va fe’llardan, qolgan sahifalar esa, olmoshlar, sifatdoshlar hamda savdo-sotiqqa aloqador bo‘lgan boshqa so‘zlardan tarkib topgan. U 2500 ga yaqin so‘zdan iborat» [1; 120.].

Bundan shu narsa aniq bo‘ladiki, qo‘lyozma Klaproth iltimosiga ko‘ra kutubxona xodimi janob Salvi tomonidan Frantsiyaga nusxa olish uchun yuborilgan va uzog‘i bilan 25 kun muddatda yana Venetsiyaga qaytarilgan. Chunki mazkur qo‘lyozmaning ko‘chirilgan nusxasi muqovasida uning 1824 yil 5 noyabrь sanasida Parijda ko‘chirilganligi to‘g‘risida qayd mavjud. Demak, Klaprot qo‘lyozma nusxasini 1824 yil noyabr oyida olganligini inobatga oladigan bo‘lsak, qo‘lyozma juda qisqa muddatda, biz yuqorida aytganimizdek, 25 kun muddatda ko‘chirilgan.

Men Italiyaga qilgan ilmiy safari mobaynida Florentsiya kutubxonasiga borib, mazkur qo‘lyozma ustida tadqiqot olib borishga va undan faksimil nusxa olishga muvaffaq bo‘ldim. Kutubxona qaydlar shindan dalolat beradiki, mazkur qo‘lyozma tadqiqi bilan bir necha olimlar shug‘ullanishgan. Jumladan, 1914 yil 9 martda nemis olimi Mixayl Bxil, 1963 yil 3 oktyabrda polyak olimi Ananiy Axiezerovich Zayonchkovskiy, 1978 yil 21 sentyabrda Sapientsa univeriteti professori Piemonteze, 1998 yil 18 dekabrda Piza universiteti professori Fabritsio Chignilar Venetsiyaga tashrif buyurishgan bo‘lsa, 1989 yil 17 iyulda Neapol sharqshunoslik universiteti olimi Djulio D'Erme kutubxonaga tashrif buyurmasdan qo‘lyomadan elektron nusxa olgan.

Qo‘lyozmaning asliyatidan yana bir nusxa olinganligi to‘g‘risida Klaproth o‘z tadqiqotida ma’lumot bergan bo‘lsada, mazkur nusxa bugungi kunda Florentsiyadagi milliy kutubxonada ekanligi to‘g‘risida ilmiy jamoatchilikka birinchi bo‘lib A.Piemonteze tomonidan 1989 yilda ma’lum qilingan [5; 100-101.]. Shundan so‘ng mazkur qo‘lyozma nusxasi bo‘yicha neapollik olim Aldo Gallotta «Aldo Gallotta, “Una ‘nuova copia del Codex Cumanicus”. Annali dellIstituto Orientale di Napoli 52, 1992. pp. 455-459» hamda «Aldo Gallotta, “Codex Cumanicus'in yani bir nüshasi”. Uluslararasi türk dili kongresi 1992 (26 eylül 1992-1 ekim 1992) Ankara. 1996. c.267-271» sarlavhali bir nomdagi ikkita maqola nashr ettirgan .

“Kodeks kumanikus” qo‘lyozmasining bugungi kunda Florentsiya milliy kutubxonasida saqlanayotgan ikkinchi nusxasi quyidagilardan tashkil topgan:

Qo‘lyozma 118 sahifadan iborat 23x17,5 hajmda muqovalangan. 1, 9, 10 va 118- sahifalardan tashqari har bir sahifa 24 satrdan tashkil topgan. Faqatgina uning birinchi sahifasi 22, to‘qqizinchi sahifasi 21, o‘n birinchi sahifasi 22 va 118-sahifasi 11 satrdan iborat. Qo‘lyozmaning oxirgi titul varag‘ida F.Benedetto tomonidan yozilgan quyidagi izoh mavjud: «Hic liber scatens erroribus vel in vocabulis latinis est procul Dubio descriptus ex celeberrimo Codice Cumanico qui in Byblioth. S. Marci Venetiarum asservatur quique perveTustum illius Turcicae dialecti praebet documentum. 10.12.1962 F.Di.Benedetto» [2] (Tarjimasi: Ushbu kitob Venetsiyaning Marchana milliy kutubxonasida saqlanayotgan turkiy lahja to‘g‘risida ma’lumot beruvchi mashhur “Codex Cumanicus” tarkibidagi lotincha so‘zlardagi xatolarni aniqlash imkonini beradi. 10.12.1962 F. Di. Benedetto). Shu o‘rinda qo‘lyozma muqovasining oxirgi sahifasiga izoh yozgan Filippi Di Benedetto haqida ikki og‘iz so‘z: Filippi Benedetto 1922 yil 1 martda Italiyaning Sitsiliya provintsiyasi Kataniya port shahrida tavallud topgan. 1961 yilda Florentsiya kutubxonasi direktori Tinazzo Giampietro tavsiyasiga ko‘ra mazkur kutubxonadagi qo‘lyozmalar bo‘limining mas’ul xodimi etib tayinlangan va o‘z navbatida qo‘lyozma nusxalari matnlarini tiklash ishlari bilan shug‘ullangan.

Qo‘lyozmaning mazkur nusxasida biz bir qator e’tiborga sazovor ma’lumotlarni ko‘rishga va ular asosida ayrim asosli xulosalarni chiqarishga muvaffaq bo‘ldik.

Mazkur nusxa sapsar siyohli ruchkada bitilgan. Undagi ba’zi forscha va qumancha so‘zlar keyinchalik arab yozuvida qizil siyohli ruchkada, ba’zi o‘rinlarda esa qora rangli ruchkada yozilgan. Jumladan, 1 va 3- sahifalardagi lotincha-forscha va qumancha so‘zlar sapsar rangli siyoh bilan yozilgan (bu yozuvlar qo‘lyozmaning asl nusxasidan

namuna olgan xattotga tegishli) hamda undagi forscha so‘zlar lotin grafikasi asosida sapsar siyohli va forscha so‘zlarning arabcha transkriptsiyalari qizil siyohli ruchka bilan yozilgan. Beshinchi sahifaning 15, 16, 22, 24- satrlaridagi forscha so‘zlar, ellik sakkizinchi sahifaning 22- satridagi, ellik to‘qqizinchi sahifaning 17- satridagi, oltmish to‘qqizinchi sahifaning 21–23- satrlaridagi, yetmish oltinchi sahifaning 1- satridagi forscha so‘zlar hamda ikkinchi satridagi qumancha so‘z, yetmish oltinchi sahifaning 4- satridagi forscha va qumancha so‘zlar, 6- satridagi qumancha so‘zlar, yetmish yettinchi sahifaning 4- satridagi forscha, 5–6- satridagi qumancha, 7- satrdagi forscha va qumancha so‘zlar, 9, 11, 13, 15- satrlardagi qumancha so‘zlar, 16- satrdagi fors va quman, 19- satrdagi forcha so‘zlarning arab yozuvidagi transliteratsiyasi qizil rang bilan yozilgan bo‘lsa, 78, 84, 88, 90, 91, 92, 93, 100, 101 hamda 113- sahifadagi forscha so‘zlar xuddi yuqoridagi singari arab yozuvida, ammo qora siyohda yozilgan.

Qo‘lyozmaning sakson beshinchi sahifasidagi qizil siyoh bilan yozilgan so‘zlar qo‘lyozmaning biz yuqorida sanab o‘tgan sahifalaridagi qizil siyoh bilan arab yozuvida yozilgan so‘zlardan nafaqat siyohning ranglari, balki dastxati bilan ham farq qiladi. Bu o‘z navbatida qo‘lyozmaning mazkur nusxasidagi arabcha transliteratsiyalar boshqa-boshqa shaxslar tomonidan yozilganidan dalolat beradi. Bundan tashqari qo‘lyozmaning mazkur nusxasida to‘rtinchi sahifaning 23–24- satrlaridagi forscha va qumancha tarjimalari berilmagan lotincha so‘zlar ustidan qizil ruchka bilan vertikal chiziq tortib o‘chirilgan. Bu o‘chirilgan so‘zlarning forscha va qumancha tarjimalari qo‘lyozmaning asl nusxasida ham bo‘sh qoldirilgan [6;638.].

Yuqoridagilardan shunday xulosa qilish mumkinki, “Kodeks Kumankus”ning mazkur nusxasi nemis olimi Klaprot tadqiqi uchun ko‘chirilgan. Qo‘lyozma Venetsiya kutubxonasidan janob Salvi saʾy-harakati bilan Frantsiyaga olib kelingan va u yerda nomaʾlum xattot tomonidan 1824 yil 5 noyabrdan noyabr oyining oxirigacha bo‘lgan juda qisqa muddatda nusxa olingan. Shuning uchun ham qo‘lyozmaning asl nusxasida ikkinchi kutubxonaning muhri paydo bo‘lgan. Hattoki, Yu.Klaprot o‘sha davrda Frantsiyada yashagan bo‘lishiga qaramasdan, qo‘lyozmadan nusxa olgan xattot kim ekanligini bilmagan. Chunki, Yu.Klaprot 1815 yildan boshlab Aleksandr fon Gumbolьdt tavsiyasiga ko‘ra Parijda doimiy yashab ijod qila boshlagan va o‘sha yerda 1835 yilda vafot etgan.

Qo‘lyozmaning ikkinchi nusxasidagi qizil va qora siyoh bilan yozilgan forscha va qumancha so‘zlarning arab yozuvidagi trasliteratsiyalari qo‘lyozmani ilk tadqiq etgan va uni ilmiy jamoatchilikka maʾlum qilgan Yu.Klaprotga tegishli bo‘lsa, uning dastxatidan farq qiladigan boshqa so‘zlarning qo‘lyozmadan o‘rin egallashiga Florentsiya kutubxonasi qo‘lyozmalar bo‘limi xodimi F.Benedetto sababchi bo‘lgan, degan xulosa chiqarishimiz mantiqlidir.

Qo‘lyozma Parijda ko‘chirilgan bo‘lishiga qaramasdan, uning Italiyaning Florentsiya shahridagi kutubxonaga olib kelinganligini bilish uchun kutubxona veb-saytidagi Ashburnxem to‘plamlari tarixiga nazar solish kifoya qiladi.

Ashbernxem fondida matematika va bibliografiyaga oid 2000 ga yaqin qo‘lyozmalar mavjud bo‘lgan. 1846 yilgacha bu noyob qo‘lyozmalar Gulelmo Libriga (1802-1869) tegishli bo‘lib, 1847 yilda Ashburnxemning to‘rtinchi grafi Lord Bertram tomonidan sotib olingan. 1884 yilda graf vafotidan keyin qo‘lyozmalar Italiya hukumati tomonidan sotib olinib, Florentsiya milliy kutubxonasiga olib kelingan [6].

Xulosa o‘rnida aytish mumkinki, «Codex Cumanicus»ning ushbu ikkinchi nusxasini o‘rganish nafaqat kitob tarixi, balki XIV asr turkiy tili leksikasini chuqurroq tadqiq etishda yangi ufqlar ochadi. Mazkur tadqiqot turkiy yozma merosning Yevropa kutubxonalaridagi taqdirini aniqlashtirishda navbatdagi muhim qadamdir.

JURNALISTIKANING TA'SIR FUNKSIYASI VA MATBUOT SAMARADORLIGI MASALALARI

Madolimov Hasanboy Shuhratovich
O'zbek adabiyotshunosligi kafedrasi o'qituvchisi, Namangan davlat universiteti
Abdivaliyev Obitjon Odiljonovich
O'zbek adabiyotshunosligi kafedrasi o'qituvchisi, Namangan davlat universiteti
Odilov Saydullo Ixtiyorjon o'g'li
Jurnalistika yo'nalishi talabasi, Namangan davlat universiteti

Annotatsiya; *Maqolada jurnalistikaning eng muhim ijtimoiy vazifalaridan biri – ta'sir funksiyasi masalalari tadqiq etilgan. Mualliflar matbuotning tasvir va tahlil funksiyalaridan kelib chiqib, uning ijtimoiy hayotga bevosita va bilvosita ta'sir ko'rsatish mexanizmlarini tahlil qiladi. Matbuot erkinligi, jamoatchilik fikrining shakllanishidagi roli, publitsistika janrlari, matbuot tipologiyasi va xususiy nashrlarning ta'sirchanligi kabi masalalar batafsil yoritilgan. O'zbekiston matbuotining hozirgi holati, demokratik tamoyillar asosidagi ta'sir funksiyasi va uning ijobiy hamda salbiy tomonlari ko'rib chiqilgan.*

Kalit so'zlar: *Ta'sir funksiyasi, matbuot samaradorligi, jurnalistika funksiyalari, ommaviy axborot vositalari, matbuot erkinligi, jamoatchilik fikri.*

JOURNALISM'S IMPACT FUNCTION AND ISSUES OF PRESS EFFECTIVENESS

Annotation; *The article examines one of the most important social functions of journalism – the influence function and the issues of media effectiveness. The authors analyze how the media, based on its descriptive and analytical functions, exerts direct influence on social life. Particular attention is paid to media freedom, the role of public opinion in its formation, the impact of various genres of publicism, media typology, and the effectiveness of private publications. The current state of the Uzbek media, the influence function based on democratic principles, and its positive and negative aspects are thoroughly discussed.*

Keywords: *Influence function of journalism, media effectiveness, functions of journalism, mass media, freedom of the press, public opinion.*

ФУНКЦИЯ ВОЗДЕЙСТВИЯ ЖУРНАЛИСТИКИ И ВОПРОСЫ ЭФФЕКТИВНОСТИ ПРЕССЫ

Аннотация; *В статье исследуется одна из важнейших социальных функций журналистики – функция воздействия и вопросы эффективности печати. Авторы анализируют, как средства массовой информации, опираясь на описательную и аналитическую функции, оказывают прямое влияние на общественную жизнь. Особое внимание уделяется свободе СМИ, роли общественного мнения в её формировании, воздействию различных жанров публицистики, типологии СМИ и эффективности частных изданий. Рассматривается современное состояние узбекской печати, функция воздействия на основе демократических принципов, а также её позитивные и негативные стороны.*

Ключевые слова: *Функция воздействия журналистики, эффективность печати, функции журналистики, средства массовой информации, свобода печати, общественное мнение.*

Kirish

Jurnalistika bajaradigan eng muhim ijtimoiy vazifalardan biri uning ta'sir funksiyasidir. Matbuotning mazkur funksiyasi uning oldingi boshqa funksiyalari singari uning ichki qonuniyatlaridan kelib chiqadi. Ma'lumki, matbuot ijtimoiy ong ko'rinishlaridan biri bo'lib, uning asosini real voqelik tashkil etadi, u ana shu real voqelikdan kelib chiqadi, uni tasvir va tahlil qiladi va shu bilan birlikda unga o'z ta'sirini ko'rsatadi. Matbuotning ijtimoiy ong ko'rinishi sifatidagi doimiyligi va har taraflamaligi ham uning ta'sir funksiyasini belgilaydi, ya'ni matbuot ijtimoiy hayotning barcha tomonlarini o'zida aks ettirar va tahlil qilar ekan, keyingi navbatda yana o'sha barcha tomonlariga o'z ta'sirini ko'rsatadi. Ya'ni, ommaviy axborot vositalari ijtimoiy hayotni faqat tasvirlab, tahlil qilibgina qolmasdan hayotga ta'sir qiladi, bunda ma'naviy kuch bo'lgan so'z – moddiy kuchga aylanadi. Mazkur funksiya jurnalistikaning tasvir va tahlil funksiyalarining mantiqiy davomi sifatida kelib chiqadi.

Adabiyotlar tahlili

Matbuotshunos olimlar jurnalistikaning ta’sir funksiyasi haqida o‘z fikrlarini bildirib o‘tganlar. Masalan, Y.Proxorov matbuotning bu ijtimoiy vazifasini “bevosita tashkilotchilik funksiyasi” deb ataydi. [2, 56]. M.Xudoyqulov bu masalaga to‘xtalib, shunday deb yozadi: “Matbuot ijtimoiy ong ko‘rinishi sifatida ijtimoiy borliqni tasvirlab, uni bilib, tatbiq etish bilan cheklanmasdan unga qaytadan ta’sir ko‘rsatishi lozim. Matbuotning bu xususiyati uning funksiyalaridagi uchinchi qirrani, ya’ni ta’sir funksiyasini belgilab beradi”. [4, 40]. Ko‘rinib turibdiki, tasvir va tahlil funksiyalari asosida vujudga keluvchi ta’sir funksiyasi ommaviy axborot vositalarining “yakunlovchi” vazifasi hisoblanib, ularning pirovard maqsadini belgilaydi. Ya’ni, mazkur matbuot nashri nima uchun chiqarilyapti, uning o‘z oldiga qo‘ygan maqsadlari nimalardan iborat, nimalarga erishmoqchi degan ijtimoiy savollar mazkur funksiyada o‘z javobini topadi.

Tadqiqot metodologiyasi:

Mazkur maqolada tahliliy, deskriptiv, qiyosiy hamda tarixiy metodlardan foydalanilgan.

Tahlillar va natijalar

“Ommaviy axborot vositalari qarashlar va tasavvurlar tizimiga yo‘naltiruvchi ta’sir o‘tkazib, o‘quvchi (tinglovchi, tomoshabin) faoliyatini ma’lum bir izga solib turadi”. [3, 64]. Insoniyat matbuotni dunyodan xabardor bo‘lish, uni bilib turish va mohiyatini anglash uchun ixtiro qilgan ekan, matbuotning pirovard maqsadi ham shunga borib taqaladi. Shu boisdan ommaviy axborot vositalarining turli ko‘rinishlari – gazetalar, jurnallar, radio, televideniye, internet orqali har kuni, har soat, har daqiqada insoniyatga minglab, millionlab turli xabarlar yetkazib beriladi, jahonda va turli mamlakatlarning o‘zida yuz berayotgan ijtimoiy-siyosiy, iqtisodiy va madaniy-ma’naviy voqea, hodisalar, insoniyatga yoki o‘sha mamlakat kishilariga tegishli bo‘lgan masala va muammolar ko‘tarib chiqiladi, jamoatchilik fikriga havola etiladi. Ya’ni, insoniyat jamiyat hayotining shu kungi, ayni zamondagi, ko‘zga ko‘ringan voqea va hodisalaridan tashqari uning chuqur, ichki qatlamlarigacha kirib boradi, ogoh bo‘ladi, biladi. Buning insoniyatga qanday ta’sir qilishi esa o‘sha voqea va hodisalarning qaysi nuqtayi nazardan, qanday tamoyillar asosida yoritilishiga bog‘liqdir. Bunda insoniyatning asrlar davomida yig‘ib kelgan tajribalari asosida vujudga kelgan ilm-fan, madaniy va ma’naviy tushunchalar asosiy rol o‘ynaydi. Ommaviy axborot vositalari ham insoniyatga to‘g‘ri, haqqoniy axborotlar yetkazib bersa, ularni ilmiy xolislik va ilg‘or, taraqqiyparvar tushunchalar asosida tahlil qilsa, jamiyatga doim ijobiy ta’sir ko‘rsatadi. “Ommaviy axborot vositalari ta’sirida auditoriya o‘z ijtimoiy amaliyotining shakli va usullarini takomillashtira boradi”. [1, 66]. Buning aksicha, matbuot nashri qoloq ijtimoiy tushunchalar va dunyoqarashlarga asoslanib ish ko‘rsa, uning jamiyatga ta’siri ham salbiy va buzg‘unchi tarzga ega bo‘ladi. Matbuotning hayotga ta’siri u o‘z funksiyalarini bajarish jarayonida amal qilishi lozim bo‘lgan tamoyillarda o‘z ifodasini topadi. Umuminsoniy, xalqchil, haqqoniy matbuot nashrigina ommaviylikka erisha oladi, insoniyatga ijobiy ta’sir ko‘rsatadi.

Jurnalistikaning ta’sir funksiyasining amalga oshishida matbuot erkinligi masalasi ham muhim o‘rin tutadi. Faqat demokratik tamoyillarga amal qilinadigan jamiyatdagina matbuot erkin bo‘lishi va binobarin, uning hayotga ta’siri ham ijobiy tus olishi mumkin. Mamlakatimizda matbuot erkinligi masalasi to‘la ravishda o‘z yechimini topishi uchun O‘zbekiston Konstitutsiyasi va matbuot borasidagi boshqa qonunlarda matbuot erkinligi belgilab berilganligi buning dalilidir. O‘zbekiston Respublikasining “Ommaviy axborot vositalari to‘g‘risida”gi qonunning yangi tahririda: “O‘zbekiston Respublikasida ommaviy axborot vositalari erkin” deb ko‘rsatiladi va “Har kim ommaviy axborot vositalarida chiqish, o‘z fikri va e’tiqodini oshkora bayon etish huquqiga egadir”. [5], deb ta’kidlanadi.

Jurnalistikaning ta’sir funksiyasini amalga oshirishda jamoatchilik fikri ham muhimdir. “Jamoatchilik fikri jamiyatdagi kishilar, turli guruh yoki tabaqalarning ijtimoiy voqelikdagi fakt va hodisalarga yashirin yoki ochiq suratdagi munosabatini anglatuvchi ommaviy ong holatidir”. [6] Agarda matbuot nashrlari o‘z faoliyatlarida jamoatchilik fikriga doimiy tayansa, o‘z sahifalarida unga keng o‘rin berib kelsa, uning hayotga ta’siri kuchli bo‘ladi. Shu bilan birgalikda “matbuot jamoatchilik fikrining shakllanishi va tarqalishi hamda ob’ektga – o‘quvchilar ongiga yetib borishida eng ta’sirchan maydon hisoblanadi” [6].

Insoniyat taraqqiyotining turli bosqichlarida faoliyat olib borgan xilma-xil nashrlarning hayotga ta’siri ham har xil bo‘lgan. Masalan, matbuotning ilk, avtoritar davri matbuoti hayotga ta’sir etishda yakka shaxs nuqtayi nazaridan kelib chiqqan. Agarda o‘sha nashrni chiqargan shaxs biror hukmdor bo‘lgan bo‘lsa, matbuotning ta’siri ham shunga mos bo‘lgan. Bu xildagi matbuotning ilk nashrlaridan bo‘lmish Petr 1 tomonidan nashr etilgan “Vedomosti” gazetasini oladigan bo‘lsak, u o‘quvchilarga ayrim yangiliklarni yetkazish bilan birlikda rus podshosining siyosatiga xizmat qilgan. O‘lkamizda ilk bor nashr etilgan “Turkiston viloyatining gazeti” ham ijtimoiy hayotdagi ayrim yangiliklarni yoritish bilan birlikda pirovard maqsadda chor Rossiyasi manfaatlari uchun xizmat qilgan. Asrimiz boshida nashr etila boshlangan “Taraqqiy”, “Shuhrat”, “Xurshid”, “Sadoyi Farg‘ona”, “Sadoyi Turkiston” va boshqa taraqqiyparvar jadid gazetalari, “Oyina” jurnali va boshqa nashrlar esa ommaga ilm-fanni targ‘ib qilgan, jaholatga va mustabid hukmronlikka qarshi chiqib, ommaning ongiga ijobiy ta’sir ko‘rsatgan. Kommunistik matbuot esa ijtimoiy hayot voqealarini tasvir va

tahlil qilishda yakka g‘oya hokimligi asosida ish olib borganligi uchun inqirozga uchradi. Faqat demokratik qadriyatlar asosida ish olib boruvchi matbuotgina jamiyat hayotiga to‘la ijobiy ta’sir ko‘rsatishi mumkin.

Matbuotning hayotga ta’siri uning tipologiyasi, ko‘rinishiga ham bog‘liqdir. Gazetalar hayotning shu kundagi, ayni zamondagi masala va muammolarini ko‘tarib chiqib, jamiyatga shu kun, ayni zamon nuqtayi nazaridan ta’sir qilsa, o‘zlarida hayotning chuqur qatlamlarini aks ettiruvchi jurnallar esa ko‘proq ong va tushunchalarga ta’sir ko‘rsatadi va ularning boyishi, o‘zgarishiga xizmat qiladi.

Matbuotning hayotga bevosita ta’sir etishida publitsistikaning ijtimoiy-siyosiy, iqtisodiy-ishlab chiqarish, badiiy, hajviy va boshqa turlarining xizmati kattadir. Ijtimoiy-siyosiy publitsistika jamiyatning shu kundagi, ayni zamondagi eng bosh masalalarini ko‘tarib chiqadi, uning hayoti, taraqqiyotining asosiy yo‘nalishlarini ham nazariy, ham amaliy jihatdan ishlab chiqadi va bu nazariy xulosalarni amalga oshirish, hayotga tatbiq etish yo‘llarini ko‘rsatib beradi. Ijtimoiy-siyosiy publitsistika asosan umumsiyosiy gazeta va jurnallarda faoliyat ko‘rsatadi, ularning sahifalaridan joy oladi. “Xalq so‘zi”, “Ishonch”, “O‘zbekiston ovozi”, “Hurriyat” va boshqa markaziy gazetalarning, “Guliston”, “Yoshlik”, “Tafakkur” va boshqa markaziy jurnallarning deyarli har bir sonida bosilgan ijtimoiy-siyosiy mavzularga oid materiallar buning yaqqol ko‘rinishidir. Bu yo‘nalishdagi materiallarning ta’siri esa respublikamizda ijtimoiy-siyosiy hayotning tobora jonlanishi, gazeta va jurnallar o‘quvchilarining ongi oshib, jamiyat hayotida tobora faolroq ishtirok etayotganliklarida yaqqol ko‘rinadi. Ilmiy publitsistikaga oid materiallar esa ko‘proq ixtisoslashgan va ilmiy jurnallardan joy olib, ularning ta’siri esa ilm-fanning rivoji, kishilarning tabiat hodisalari va dunyo voqealarini ilmiy dunyoqarash asosida tushunib borayotganliklarida o‘z ifodasini topadi. Adabiy-badiiy publitsistikaga oid materiallar esa ko‘proq adabiy-badiiy nashrlardan o‘rin olib, ommaning badiiy-estetik didining oshishi, kishilarning odobi va ahloqi, milliy qadriyatlarimizni anglab yetishlari bilan o‘z ta’sirini ko‘rsatmoqda. Publitsistikaning alohida turi bo‘lgan hajviy publitsistika materiallari ham hajviy nashrlardan doimiy joy olib, hayotda uchraydigan eski, qotib qolgan tartiblar, kamchilik va nuqsonlar, kishilar faoliyatidagi va yashash tarzidagi nomaqbul holatlarning tugatilishida xizmat qilib kelyapti. Sport publitsistikasi, bolalar matbuotiga va boshqa sohalarga oid materiallar ham jurnalistikaning ta’sir funksiyasini yanada kengaytirib kelmoqda.

Ommaviy axborot vositalarining hayotga ta’siri masalasi publitsistikaning ichki xillari va janrlarida ham o‘z ifodasini topadi. Ma’lumki, publitsistika tarkibiy jihatdan uchga bo‘linib, informatsion-xabardor qilish, tahliliy va badiiy publitsistikadan iborat bo‘ladi. Publitsistikaning bu uch turining jamiyatga ta’siri ham turli xilda bo‘ladi. Informatsion publitsistika jamiyat hayotiga doir voqea va hodisalar haqida xabar berar ekan, ta’siri ham shundan kelib chiqadi, ya’ni u o‘quvchini o‘sha voqea yoki hodisadan xabardor qiladi, bildiradi. Ommaviy axborot vositalarida berilgan xabarlar o‘quvchi ongida yangi bir nuqta hosil qiladi, u bu yangilikdan yo mamnun bo‘ladi (agar xabar ijobiy tarzda bo‘lsa) yoki xabar qilinayotgan voqea yoki hodisa salbiy mazmunga ega bo‘lsa unga achinadi yoki g‘azablanadi va hokazo.

Gazetalarda beriladigan xabar va boshqa informatsion janrdagi materiallarning tezkorligi ham muhim o‘rin egallaydi. Rivojlangan mamlakatlarning ommaviy axborot vositalari bu masalaga alohida ahamiyat beradilar. Respublikamiz markaziy nashrlarida ham tezkorlik bilan berilgan axboriy materiallarni ko‘rish mumkin. Beriladigan informatsion materiallarning hududiy tomoni ham alohida ahamiyat kasb etadi. “Xalq so‘zi” gazetasi o‘z sahifalarida “Dunyo nigohi”, “Mamlakat bo‘ylab: voqealar, yangiliklar, xabarlar” singari umumiy manzarani ko‘rsatib beruvchi xabarlar bilan bir qatorda respublikamizdagi har bir viloyatdan olingan xabarlarni “Buxoro tomonlarda”, “Namangan tomonlarda” kabi ruknlar ostida berib boradi. Bu ham ta’sir funksiyasining bajarilishida xizmat qiladi.

Xulosa. Nashrlar informatsion publitsistikaning faqat xabar bilan bir qatorda jurnalistikaning boshqa janrlariga ham e’tiborlarini kengroq qaratishsa, yaxshi bo‘lardi. Masalan, ma’lum bir soha mutasaddilaridan olingan tezkor va dolzarb mavzudagi intervyular tez-tez chop etilsa, reportaj, hisobot va boshqa informatsion janrlardan kengroq foydalanilsa, maqsadga muvofiq bo‘lar edi. Reportaj janriga kelganimizda, bu janrdan ham yetarli darajada foydalanilmayapti. Mamlakatimizda yuz bergan muhim voqea va hodisalar, tabiat hodisalari, hattoki ayrim hollarda yuz beradigan yong‘in va shunga o‘xshash favqulodda hodisalar haqida jonli reportajlar bosilgan nashrlarni o‘quvchilar, albatta, izlab topib o‘qiydi. Bu esa o‘sha nashrning hayotga bevosita ta’sirini yanada kuchaytiradi. Gazetalarda beriladigan hisobotlar ham faqat umumiy tarzda bo‘lmasdan biror mavzu, masala yoki muammoga qaratilsa va ularga tanqidiy qarashlar ham qo‘shilsa, bu janrning ham ahamiyati yanada ortadi.

Annotatsiya: *Ushbu maqolada Alisher Navoiyning "Xamsa" dostonlaridagi, xususan "Farhod va Shirin", "Layli va Majnun" hamda "Sabai Sayyor" asarlaridagi ayollar suhbatlari sotsiopsixolingvistik nuqtai nazardan tahlil qilinadi. Tadqiqotning asosiy maqsadi – ayol qahramonlar nutqida ijtimoiy identifikatsiya (oila, jamiyat mavqei, shaxsiy o'rin) va madaniy kodlar (iffat, sadoqat, kamtarlik, dono so'z) qanday lingvistik vositalar orqali ifodalanishini ochib berishdir. Metodologiya sifatida diskurs tahlili, pragmatik strategiyalar va psixolingvistik yondashuvlardan foydalanilgan.*

Kalit so'zlar: *sotsiopsixolingvistika, ayollar nutqi, ijtimoiy identifikatsiya, madaniy kodlar, "Xamsa", pragmatika, gender lingvistikasi, diskurs tahlili.*

СОЦИОПСИХОЛИНГВИСТИЧЕСКИЙ АНАЛИЗ СОЦИАЛЬНОЙ ИДЕНТИФИКАЦИИ И КУЛЬТУРНЫХ КОДОВ В ЖЕНСКИХ РЕЧАХ В ЭПОСЕ «ХАМСА» АЛИШЕРА НАВОИ

Аннотация: *В данной статье проводится социопсихолингвистический анализ речей женщин в эпосах Алишера Навои «Хамса», в частности в произведениях «Фархад и Ширин», «Лейли и Меджнун» и «Семь планет». Основная цель исследования - раскрыть, какими лингвистическими средствами в речи женских персонажей выражаются социальная идентификация (семья, социальный статус, личная позиция) и культурные коды (целомудрие, верность, скромность, мудрое слово). В качестве методологии использованы дискурс-анализ, прагматические стратегии и психолингвистический подход.*

Ключевые слова: *социопсихолингвистика, речь женщин, социальная идентификация, культурные коды, «Хамса», прагматика, гендерная лингвистика, дискурс-анализ.*

SOCIOPSYCHOLINGUISTIC ANALYSIS OF SOCIAL IDENTITY AND CULTURAL CODES IN WOMEN'S SPEECH IN ALISHER NAVOI'S "KHAMSA"

Abstract: *This article analyzes women's speech in Alisher Navoi's "Khamsa" epics, particularly in "Farhad and Shirin", "Layli and Majnun", and "Sabai Sayyor" from a sociopsycholinguistic perspective. The main aim of the study is to reveal how social identity (family, social status, personal position) and cultural codes (chastity, fidelity, modesty, wise speech) are expressed through linguistic means in female characters' speech. Discourse analysis, pragmatic strategies, and psycholinguistic approaches were used as the methodology.*

Keywords: *sociopsycholinguistics, women's speech, social identity, cultural codes, "Khamsa", pragmatics, gender linguistics, discourse analysis.*

Kirish.

Alisher Navoiy ijodi nafaqat o'zbek adabiyoti, balki butun turkiy dunyo madaniyati va falsafasining eng yorqin cho'qqilaridan biri sifatida e'tirof etiladi [1]. XV asrning buyuk mutafakkiri yaratgan "Xamsa" besh dostonidan iborat monumental asar bo'lib, unda insoniyatning eng chuqur ruhiy kechinmalari, murakkab ijtimoiy munosabatlar, sevgi, sadoqat, qismat va axloqiy qadriyatlar she'riy shaklda yuksak badiiy mahorat bilan aks ettirilgan. "Xamsa"dagi ayol qahramonlar – Shirin ("Farhod va Shirin"), Layli ("Layli va Majnun"), Bahr om va yetti go'zal ("Sabai Sayyor") kabi obrazlar orqali nafaqat go'zallik va muhabbat timsoli, balki o'z davri jamiyatidagi murakkab gender rollari, oilaviy va ijtimoiy mas'uliyatlar hamda shaxsiy identifikatsiya masalalari ham yorqin namoyon bo'ladi [7;8].Zamonaviy sotsiopsixolingvistika fani nutqni oddiy kommunikatsiya vositasi sifatida emas, balki ijtimoiy identifikatsiya, gender

munosabatlari va madaniy kodlarning asosiy ifodachisi sifatida o‘rganadi [2-5]. Nutq orqali shaxs o‘zining ijtimoiy mavqeini, oilaviy rolini, gender identifikatsiyasini va madaniy qadriyatlariga sadoqatini namoyon etadi. Ayniqsa, ayollar nutqi ko‘pincha muloyimlik strategiyalari, emotsional leksika, metaforik tuzilmalar va diskursiv usullar orqali ijtimoiy kuch va zaiflikni muvozanatlashtirishga xizmat qiladi [2;7].

Adabiyotlar tahlili.

Ushbu maqolada birinchi keltirilgan adabiyotda «Farhod va Shirin», «Layli va Majnun» hamda «Sab’ai Sayyor» dostonlaridagi ayollar nutqi, ijtimoiy munosabatlar va madaniy qadriyatlar aynan shu asar matnlari asosida o`rganilgan. Jumladan, ayol qahramonlar nutqidagi ijtimoiy identifikatsiya va madaniy kodlarni aniqlash imkonini beradi [1]. Mualliflar Brown P., Levinson S. Politenesslar esa muloqotdagi xushmuomalalik (politeness) nazariyasining fundamental manbasi hisoblanadi. Ayniqsa, Shirin, Layli va boshqa qahramonlarning nutqida hurmat, muloyimlik, ijtimoiy masofa kabi holatlarni izohlashga xizmat qiladi,pragmalingvistik tahlil uchun muhim nazariy asos yaratadi [2]. Debora Tannenning “You Just Don’t Understand” asari gender va kommunikatsiya munosabatlarini o`rganishga bag`ishlangan bo`lib, unda ayollar nutqining psixologik xususiyatlarini tushuntirish va Layli obrazining ichki kechinmalari, emotsional nutqi va shaxsiy identifikatsiyasi nazariy ochib berilgan. Bunda genderga xos muloqot modellari batafsil yoritaladi [3]. Norman Ferklauning ushbu asari tanqidiy diskurs tahlili sohasidagi eng muhim manbalardan biri hisoblanadi.Bunda nutq va ijtimoiy hokimiyat munosabatlarini tahlil qilish imkonini beradi va u «Sab’ai Sayyor»dagi ayollar maslahatlari va ijtimoiy ta’sir mexanizmlarini tushuntirishda muhim ahamiyat kasb etadi hmda diskurs orqali ijtimoiy tartib va madaniy qadriyatlarning shakllanishini izohlaydi [4]. J.Holmes ishida esa zamonaviy sotsiolingvistikaning fundamental qo`llanmalaridan biri hisoblanadi.Unda asosan til, jamiyat va madaniyat o`rtasidagi munosabatlarni yoritadi.Gender lingvistikasi, ijtimoiy identifikatsiya va madaniy kodlarni tahlil qilish uchun nazariy baza vazifasini bajaradi.Ayollar nutqining ijtimoiy vazifalarini tushuntirishga yordam beradi [5]. Muallif Q.Yo‘ldoshevning maqolasida Navoiy ijodida gender munosabatlarini tadqiq qilishga bag`ishlangan mahalliy ilmiy manba hisoblanib, Navoiy asarlaridagi ayol va erkak obrazlarining o`ziga xos jihatlarini yoritadi xamda maqoladagi gender tahlilini milliy adabiyotshunoslik nuqtai nazaridan asoslaydi [6]. Mualliflar G. Mansurova va S. Qosimovalar esa o`z ishida mumtoz adabiyotda ayol obrazining badiiy va ijtimoiy xususiyatlarini o`rganadi.Bunda «Xamsa»dagi ayol qahramonlarni kengroq adabiy kontekstda baholash imkonini beradi, shuningdek, ayol obrazlari orqali milliy qadriyatlar va madaniy kodlarning ifodalanishini ko`rsatadi. Xamsa» dostonlaridagi pragmatik vositalarni tadqiq qilgan xolda nutq strategiyalari, muloqot shakllari va kommunikativ maqsadlarni o`rganish va pragmatik tahlil usullari keltirib o`tilgan [7,8].

Metodlar.

Ushbu tadqiqot **aralash metodologiya** asosida amalga oshirildi. Sifat va miqdoriy yondashuvlar birlashtirilib, natijalarning ishonchliligi va chuqurligi ta’minlandi. Tadqiqotda, avval miqdoriy tahlil o‘tkazilib, keyin sifat tavsifi va talqini bilan boyitiladi [8]. Asosiy manba sifatida Alisher Navoiyning “Xamsa” besh dostonining ilmiy-tanqidiy nashri qo‘llanilgan [1]. Undan uchta doston tanlab olingan: **“Farhod va Shirin”, “Layli va Majnun”,“Sabai Sayyor”.** Ushbu dostonlar tanlanishining sababi - ularda ayollar suhbatlari soni va xilma-xilligi eng yuqori darajada bo‘lishidir. “Saddi Iskandari” va “Hayrat ul-abror” dostonlarida ayollar nutqi nisbatan kam uchragani uchun ularni qo‘shimcha solishtirish materiali sifatida ishlatildi.Bunda jami 120 ta ayol suhbati segmenti (dialog va monolog) tanlab olingan. Har bir segment kamida 4-12 misradan iborat bo‘lib, umumiy so‘z soni taxminan 8500 ga yaqin. Segmentlar quyidagi mezonlar asosida tanlangan:

-Ayol qahramon tomonidan aytilgan nutq bo‘lishi;

-Ijtimoiy munosabat (oila, sevgi, jamiyat) mavzusini qamrab olishi;

-Madaniy kodlarni ifodalovchi leksik va pragmatik birliklar mavjudligi.

Ma’lumotlar ikki bosqichda yig‘ildi:

1. **Manuali kodlash-**har bir suhbat quyidagi kategoriyalar bo‘yicha kodlandi:

-Ijtimoiy identifikatsiya: oila identifikatsiyasi, jamiyat mavqei, shaxsiy (psixologik) identifikatsiya.

-Madaniy kodlar: iffat va poklik, sadoqat va vafo, kamtarlik va muloyimlik, dono so‘z va maslahat, gender roli va kuch.

-Pragmatik strategiyalar: ijobiy hurmat strategiyasi, salbiy hurmat strategiyasi, to‘g‘ridan-to‘g‘ri (ochiq) strategiya va bilvosita strategiya.

-Lingvistik vositalar: metafora, takror, emotsional leksika, sintaktik tuzilmalar.

2. **Dasturiy qayta ishlash-** kodlangan ma’lumotlar Microsoft Excel va IBM SPSS Statistics 26 dasturlariga kiritildi. Chastota tahlili, foizlar va *X*-kvadrat testi o‘tkazildi.

3. **Tahlil usullari:**

A) **Diskurs tahlili** - suhbatlarning ijtimoiy konteksti, kuch munosabatlari va ideologik mazmuni ochib berildi [4-6].

B) **Pragmatik tahlil** -J.Austinning nutq aktlari nazariyasi va Brown & Levinsonning muloyimlik nazariyasi asosida suhbat strategiyalari o‘rganildi [1-3].

C) **Psixolingvistik yondashuv** - emotsional holatlar (sevgi, qo‘rquv, umidsizlik) ning lingvistik ifodasi (metafora, leksik tanlov) tahlil qilindi [3-5].

D) **Taqqosiy tahlil** - uch doston o‘rtasidagi farq va o‘xshashliklar aniqlandi.

E) **Kontent-tahlil** - miqdoriy chastota va sifat tavsifi birlashtirildi.

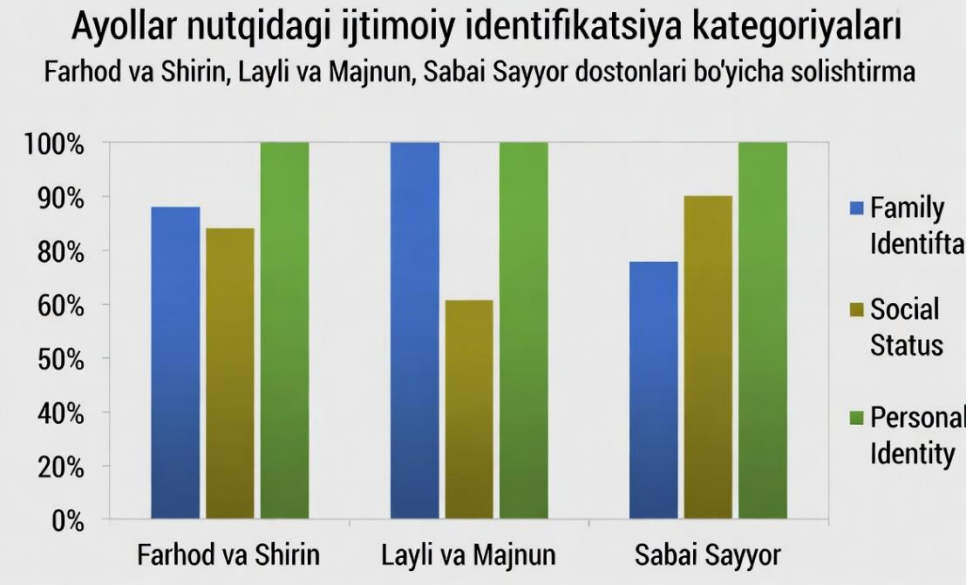
4. Tadqiqotning ishonchliligi: Interkoder ishonchliligi - ikki mustaqil tadqiqotchi tomonidan kodlash o‘tkazilib, Kappa koeffitsienti 0,82 ni tashkil etdi (yaxshi daraja). **Triangulyatsiya** - bir xil material turli usullar (miqdoriy, sifat, taqqosiy) bilan tahlil qilindi. **Etik jihatlar** - klassik adabiy matn bo‘lgani uchun maxsus ruxsat talab qilinmadi, ammo manbalar to‘liq ko‘rsatildi. Ushbu metodologiya tadqiqotning ilmiy obyektivligini ta’minlaydi hamda natijalarning chuqur va ishonchli bo‘lishiga yordam beradi.

Natijalar.

Tadqiqot natijalari “Xamsa”ning uchta dostonidagi 120 ta ayol suhbati segmentining miqdoriy va sifat tahlili asosida olingan. Umumiy natijalar shuni ko‘rsatadiki, ayollar nutqida ijtimoiy identifikatsiya va madaniy kodlarning ifodasi yuqori darajada sistemali va o‘ziga xos lingvistik strategiyalarga asoslangan.

1. Ayollar nutqidagi ijtimoiy identifikatsiya kategoriyalari. Quyidagi 1-rasmda uch doston bo‘yicha ijtimoiy identifikatsiya kategoriyalarining chastota taqsimoti ko‘rsatilgan. Tahlil natijalariga ko‘ra,“Farhod va Shirin” dostonida oila identifikatsiyasi dominant bo‘lib, 47,8 % ni tashkil etadi. Shirin nutqida “otam”, “farzand”, “oilaviy sharaf”, “onamning vasiyati” kabi birliklar tez-tez uchraydi. Masalan, Shirinning Farhodga qaratgan suhbatida:

1-rasm. *“Xamsa”dagi ayollar nutqidagi ijtimoiy identifikatsiya kategoriyalarining dostonlar bo‘yicha taqqosiy chastotasi (%).*



“Men otamning qiziman, uning nomini iflos qilmasligim kerak” degan ibora oilaviy mas’uliyatni kuchli ifodalaydi.Jumladan, “Layli va Majnun”da jamiyat mavqei (39,6 %) va shaxsiy identifikatsiya (25,1 %) kuchayadi. Laylining ichki monologlari ko‘pincha “men kimman?”, “sevgi oldida men nima bo‘ldim?” kabi savollar bilan kechadi. Bu uning ijtimoiy bosim va shaxsiy his-tuyg‘ulari o‘rtasidagi konfliktni ko‘rsatadi. “Sabai Sayyor”da esa oila identifikatsiyasi yana 55,2 % ga yetadi, ammo dono maslahat va jamiyat mavqei ham muhim o‘rin tutadi (Bahr om va yetti go‘zal suhbatlari). χ^2-kvadrat testi natijasi ($\chi^2 = 28{,}47$; $p < 0{,}01$) dostonlar o‘rtasidagi farqning statistik jihatdan ahamiyatli ekanligini tasdiqlaydi.

2. Madaniy kodlarning taqsimoti.

2-rasmda ayollar suhbatlaridagi madaniy kodlarning umumiy ulushi pie diagrammasi ko‘rsatilgan. Eng yuqori ko‘rsatkichlar:

A)Iffat va poklik – 30 % (ko‘pincha “poklik”, “nomus”, “iffat g‘unchasi” metaforalari orqali).

B) Sadoqat va vafo – 25 % (“vafo qilmoq”, “sadoqatli bo‘lmoq”, “bir umrga” birliklari).

C) Kamtarlik va muloyimlik – 20 % (positive politeness strategiyalari: “siz buyurganingizdek”, “men sizning xizmatingizdaman”).

2-rasm. *"Xamsa"dagi ayollar suhbatlaridagi madaniy kodlarning umumiy ulushi.*

3. Lingvistik va pragmatik vositalar tahlili.

Jadval 1 da har bir dostonning xarakterli misollari keltirilgan.

Jadval 1. *"Xamsa"dagi ayollar suhbatlaridan olingan xarakterli misollar va ularning sotsiopsixolingvistik tahlili.*

Doston va qahramon	**Madaniy kod**	**Nutq misoli (Navoiy matni asosida)**	**Sotsiopsixolingvistik ifoda**
Farhod va Shirin (Shirin)	Sadoqat va oila hurmati	"Farhodim, men senga vafo qilaman, lekin otamning rizosi…"	Positive politeness + oila identifikatsiyasi
Layli va Majnun (Layli)	Vafodorlik va psixologik qo'rquv	"Majnunim, sen mening butun dunyom, ammo qismatim…"	Emotsional identifikatsiya + ichki konflikt
Sabai Sayyor (Bahr om)	Kamtarlik va dono maslahat	"Ey shoh, maslahatim shuki, adolat bilan ish tuting…"	Dono ayol roli + ijtimoiy kuch strategiyasi
Sabai Sayyor (Yetti go'zal)	Iffat va gender roli	"Biz go'zallar iffati – saltanatning asosi"	Madaniy kod orqali gender identifikatsiyasi

Bunga quyidagi qo'shimcha topilmalarni e'tirof etishimiz zarur: **Pragmatik strategiyalar**: Ayollar nutqining 68 % ida positive politeness (hurmat, yaqinlik yaratish) strategiyasi qo'llanilgan [2]. Negative politeness (uzr so'rash, masofa saqlash) faqat 22 % ni tashkil etadi. **Metaforik tuzilmalar**: Eng ko'p ishlatiladigan metaforalar – gul (iffat), quyosh (sevgi), tog' (sadoqat). **Emotsional leksika chastotasi**: "yuragim", "ko'nglim", "qonim", "jonim" so'zlari Layli nutqida 3,2 marta ko'p uchraydi. **Dostonlar o'rtasidagi farq**: "Farhod va Shirin"da ijtimoiy kuch strategiyalari ustun bo'lsa, "Layli va Majnun"da psixologik holatlar, "Sabai Sayyor"da esa ijtimoiy-maslahat funksiyasi kuchliroq.Natijalar shuni ko'rsatadiki, ayollar nutqi "Xamsa"da nafaqat emotsional ifoda, balki ijtimoiy tartibni saqlash va madaniy qadriyatlarning uzatuvchisi sifatida ham xizmat qiladi. Bu topilmalar keyingi muhokama bo'limida chuqurroq talqin etiladi.

Muhokama.

Tadqiqot natijalari "Xamsa" dostonlaridagi ayollar nutqini sotsiopsixolingvistik nuqtai nazardan tahlil qilish orqali bir qator muhim ilmiy xulosalarga olib keldi. Avvalo, ayollar suhbatlarida ijtimoiy identifikatsiya kategoriyalarining taqsimoti (1-rasm) Navoiy ijodidagi gender rollarining murakkab tuzilishini yaqqol ko'rsatadi. "Farhod va Shirin" dostoni Shirin nutqida oila identifikatsiyasining ustunligi (47,8 %) mumtoz jamiyatda ayolning birinchi navbatda oilaviy va ijtimoiy majburiyatlar doirasida qaralishini tasdiqlaydi [7]. Bu holat Brown va Levinson (1987) ning *positive politeness* strategiyasi bilan to'liq mos keladi: Shirin o'z nutqida oilaviy sharaf va otasining rizosini ta'kidlab, nafaqat shaxsiy munosabatlarni, balki ijtimoiy barqarorlikni saqlashga xizmat qiladi [2;3]."Layli va Majnun"da esa jamiyat mavqei (39,6 %) va shaxsiy identifikatsiya (25,1 %) ning kuchayishi Laylining ichki psixologik konfliktini ochib beradi [3]. Layli nutqidagi "men kimman?", "sevgi oldida men nima bo'ldim?" kabi savollar Tannen (1990) ning *rapport-talk* (hamkorlik nutqi) nazariyasini tasdiqlaydi: ayol nutqi bu yerda nafaqat ma'lumot uzatish, balki emotsional yaqinlik va ichki dunyoni

ifodalash vositasiga aylanadi. “Sabai Sayyor”da Bahrom va yetti go‘zal suhbatlarida dono maslahat va kamtarlik kodlarining yuqori ulushi (55,2 %) esa ayolni ijtimoiy kuchning faol sub’ekti sifatida ko‘rsatadi [6-8]. Bu topilma Fairclough (1992) ning diskurs va kuch munosabatlari nazariyasiga mos kelib, mumtoz poetikada ayol nutqi ijtimoiy tartibni saqlashning muhim mexanizmi ekanligini isbotlaydi.Madaniy kodlarning taqsimoti (2-rasm) bo‘yicha eng yuqori ko‘rsatkichlarni iffat va poklik (30 %) hamda sadoqat va vafo (25 %) egallashi Navoiy davri o‘zbek jamiyatining islomiy va konfutsiy qadriyatlarining sintezi ekanligini ko‘rsatadi. “Poklik g‘unchasi”, “vafo qilmoq”, “kamtarlik” kabi metaforik birliklar nafaqat estetik, balki ijtimoiy-psixologik funksiyani bajaradi. Ular orqali ayol qahramon o‘zining ijtimoiy mavqeini mustahkamlaydi va jamiyatdagi gender stereotiplarini takrorlaydi hamda mustahkamlaydi. Bu holat Holmes (2013) ning gender va madaniy kodlar nazariyasiga to‘g‘ri keladi: ayollar nutqi madaniy qadriyatlarning uzatuvchisi sifatida xizmat qiladi [5-8]. Jadval 1 da keltirilgan misollar esa pragmatik strategiyalarning xilma-xilligini ko‘rsatadi. Shirin nutqidagi *positive politeness*, Laylining emotsional negativ strategiyalari va Bahr omning dono maslahat shakli har bir dostonning o‘ziga xos psixolingvistik muhitini yaratadi. χ^2-kvadrat testi ($\chi^2 = 28{,}47$; $p < 0{,}01$) natijalari dostonlar o‘rtasidagi farqning statistik ahamiyatli ekanligini tasdiqlab, Navoiy ijodidagi ayol nutqining sistemali xususiyatini isbotlaydi.

Xulosa. Ushbu tadqiqot milliy filologiya faniga quyidagi hissa qo‘shadi: Mumtoz adabiyotni zamonaviy tilshunoslik nazariyalari bilan bog‘lash orqali gender lingvistikasining o‘zbekcha modelini shakllantirish,“Xamsa”dagi ayol nutqini ijtimoiy va psixologik kuch manbai sifatida talqin etish,madaniy kodlarni saqlash va globallashuv sharoitida milliy identifikatsiyani mustahkamlashga ilmiy asos yaratish.

Xulosa qilib aytganda, Alisher Navoiyning “Xamsa”sidagi ayollar suhbatlari nafaqat she’riy go‘zallik namunasi, balki o‘zbek jamiyatining tarixiy gender modellari, madaniy qadriyatlar va psixologik chuqurlikning noyob manbaidir. Sotsiopsixolingvistik tahlil bu boy merosni yangicha talqin etish imkonini beradi va kelajak avlodlarga milliy madaniyatni chuqurroq anglash yo‘lini ochadi. Tadqiqotning natijalari adabiyotshunoslik, sotsiologiya va psixologiya fanlarining kesishmasida yangi tadqiqotlar uchun mustahkam asos bo‘lib xizmat qiladi.

Annotatsiya. *Mazkur maqolada kriminal diskursning semantik xususiyatlarini tahlil qilish hamda Tohir Malikning “Shaytanat” romani materiallari asosida badiiy matnda jinoiy subkultura tilining ifoda vositalari tizimini ochib berish maqsad qilingan. Unda jinoyatchilar nutqidagi leksik birliklarning ma’no nozikliklari, semantik maydoni va kontekstual o‘zgarishlari haqida so‘z boradi. Detektiv asarlardagi jinoyatchilar nutqini lingvistik ekspertiza nuqtayi nazaridan tadqiq va tahlil qilish bu boradagi mavjud muammolarni bartaraf etishga xizmat qiladi.*
Kalit so‘zlar: *kriminal diskurs, kommunikatsiya, semantik xususiyat, ma’no torayishi, ma’no kengayishi, frazema, “Shaytanat” romani, Tohir Malik.*

СЕМАНТИЧЕСКИЕ ХАРАКТЕРИСТИКИ КРИМИНАЛЬНОГО ДИСКУРСА (На материале романа Тохира Малика “Шайтанат”)

Аннотация. *В данной статье ставится цель проанализировать семантические особенности криминального дискурса, а также выявить систему выразительных средств языка криминальной субкультуры в художественном тексте на материале романа Тохира Малика “Шайтанат”. В работе исследуется смысловая структура лексических единиц в речи преступников, их семантические поля и контекстуальные изменения. Лингвистическое исследование речи преступников в детективных произведениях с позиций судебной лингвистики способствует решению существующих проблем в данной области.*
Ключевые слова: *криминальный дискурс, коммуникация, семантические особенности, сужение значения, расширение значения, фразеологическая единица, “Шайтанат”, Тохир Малик.*

SEMANTIC CHARACTERISTICS OF CRIMINAL DISCOURSE (Based on Tohir Malik’s Novel “Shaytanat”)

Abstract. *This article analyzes the semantic features of criminal discourse and examines the system of linguistic means that characterize the language of the criminal subculture in literary texts, based on Tohir Malik’s novel Shaytanat. The study focuses on the semantic structure of lexical units in the speech of criminals, their semantic fields, and their contextual transformations. The linguistic analysis of criminal speech in detective fiction from a forensic linguistic perspective contributes to a more systematic understanding of language use in criminal discourse.*
Keywords: *criminal discourse, semantic features, semantic narrowing, semantic extension, phraseological units, Shaytanat, Tohir Malik.*

Kirish

Jinoyat olami – o‘ziga xos qonun-qoidalari, ierarxiyasi, axloq me’yorlari va, albatta, o‘z til uslubiga ega bo‘lgan murakkab ijtimoiy hodisa. Bu jinoiy subkultura tili (kriminal jargonizm va argotizm) ikki muhim vazifani bajaradi: birinchidan, u guruh ichidagi maxfiy muloqot vositasidir; ikkinchidan, jinoyatchining o‘z guruhiga mansubligini, ierarxiyadagi o‘rnini, hayotiy qarashlari va qadriyatlarini ifodalaydi. Aynan shuning uchun badiiy asarda jinoyatchilar nutqini o‘rganish orqali nafaqat qahramonning nutqiy portretini, balki butun bir subkulturaning dunyoqarashini tiklash mumkin. Mazkur maqolada Tohir Malikning “Shaytanat” romanidagi jinoyatchi va u bilan bog‘liq vaziyatdagi shaxslar nutqi semantik jihatdan tahlil qilinadi. O‘zbekiston Respublikasi Prezidenti Sh.Mirziyoyev ta’kidlaganlaridek: “Farzandlarimizni mustaqil fikrlaydigan, zamonaviy bilim va kasb-hunarlarni chuqur egallaydigan, mustahkam hayotiy pozitsiyaga ega, chinakam vatanparvar insonlar sifatida tarbiyalash biz uchun hamisha dolzarb masala hisoblanadi” [9]. Jinoyat izlarini aniqlashda haqiqat tamoyiliga qat’iy amal qilish, turli detektiv asarlar asosida lingvistik ekspertiza

muammolarini hal etish, jinoyat olamiga xos til birliklarining semantik xususiyatlari tahlili orqali yosh avlodni ijtimoiy hayotga tarbiyalash kabi masalalar mazkur ishning mohiyatini ifodalaydi.

Adabiyotlar tahlili. Kriminal diskursning semantik strukturalarini o‘rganish zamonaviy tilshunoslikda bir nechta nazariy yo‘nalishlar kesishmasida shakllanadi: semantika, pragmatika, diskurs tahlili va sud lingvistikasi va boshqalar. Avvalo, semantik tahlil nazariy jihatdan John Lyons tomonidan asoslangan klassik yondashuvga tayanadi. Uning fikricha (Lyons, 1977), leksik birliklarning ma’nosi izolyatsiyada emas, balki tizim ichida, ya’ni semantik munosabatlar orqali aniqlanadi [1; 4]. Shu nuqtayi nazardan, kriminal diskursdagi leksika semantik maydonlar sifatida ko‘rib chiqiladi, bu esa jinoyatchilar nutqining ichki strukturaviy jihatini ochishga imkon beradi. Semantik o‘zgarishlar, xususan, ma’no torayishi va kengayishi jarayonlari Stephen Ullmann (Ullmann, 1962) ishlari bilan izohlanadi. U semantik evolyutsiyani ijtimoiy va psixologik omillar bilan bog‘laydi [1; 4]. Kriminal subkultura tilida bu jarayonlar ko‘pincha maxfiylik va guruh identifikatsiyasi bilan bog‘liq holda yuzaga keladi. Jinoyatchilar nutqida ko‘pincha ochiq aytilmagan, lekin kontekst orqali anglashiladigan yashirin ma’nolar mavjud bo‘lib, ular tahlil talab qilinadi. Diskurs darajasida tahlil Teun A. van Dijk tomonidan ishlab chiqilgan sotsiokognitiv modelga asoslanadi [5]. Ushbu modelga ko‘ra, diskurs ijtimoiy tuzilma, ideologiya va kognitiv jarayonlar bilan uzviy bog‘liq. Kriminal diskursda bu jihatlar ierarxiya, hokimiyat va nazorat munosabatlari orqali namoyon bo‘ladi. Sud lingvistikasi doirasida kriminal nutqni tahlil qilish Malcolm Coulthard va Tim Grant ishlari bilan bog‘liq bo‘lib, ular til birliklarini dalil sifatida tadqiq etish metodologiyasini ishlab chiqqan [2; 3]. Mazkur nazariy yondashuvlar integratsiyasi kriminal diskursni ko‘p qatlamli tizim sifatida nafaqat nazariy, balki amaliy jihatdan ham tahlil qilish imkonini beradi, bunda semantik struktura va lingvopragmatik funksiyalar o‘zaro bog‘liq holda namoyon bo‘ladi.

Tadqiqot metodologiyasi. Tadqiqot lingvistik kuzatish, tavsif va tizimli tahlil tamoyillariga asoslangan. Jinoyatchilar nutqi tilning alohida funksional-stilistik hodisasi sifatida o‘rganilgan bo‘lib, unda umumiy til birliklarining o‘zgargan (jargonlashgan, semantik jihatdan siljigan) va psixolingvistik xususiyati birgalikda tahlil qilingan. Shuningdek, tavsifiy usul, komponent tahlil, kontekstual va tipologik tahlil, lingvistik izohlash usullari qo‘llanilgan.

Natijalar va ularning tahlili. Har qanday vaziyatda, shaxsning individul xususiyatlarni aniqlash uchun, eng avvalo, nutqning semantik jihati, ya’ni ma’no-mohiyatiga e’tibor qaratamiz. Jinoiy muhit umume'tirof etiladigan belgilardan farqli o‘laroq, noyob qadriyatlar va normalar tizimini tashkil qiladi. Bu til semantikasida, so‘z va tushunchalarni talqin qilish va tushunishda o‘z aksini topadi [7, c. 37]. Boshqalar tomonidan jinoiy nutq muloqotida “qo‘llangan lisoniy belgilarning ma’nosini noto‘g‘ri tushunish natijasida” [6, b. 75] turli kommunikativ to‘siqlar yuzaga kelishi mumkin. Xususan, “verbal kommunikatsiyada tabiiy, ijtimoiy, psixologik omillar sababli yuzaga keluvchi va samarali muloqotni amalga oshirishga to‘sqinlik qiluvchi”: “tushunmaslik bilan bog‘liq to‘siqlar, shaxsiy to‘siqlar, madaniy to‘siqlar, ijtimoiy to‘siqlar, tashkiliy to‘siqlar va obyektiv to‘siqlar” [6, b. 38] shular jumlasidandir. Shuningdek, so‘zlarning nutqdagi muayyan ma’nosi va uning torayishi hamda kengayishi kabi jihatlar ham o‘ziga xosligi bilan ham ajralib turadi. Masalan, quyidagi misolda so‘z ma’nosiga e’tiborsizlik natijasida Kesakpolvon “qosh qo‘yaman, deb ko‘z chiqar”ganini ko‘rishimiz mumkin:

— Rahmon aka sizmisiz? — deb so‘radi Kesakpolvon. Bu gap cholga yoqmay, peshanasini tirishtirdi: — Men Xudo emasman. Ollohning quliman. Ismim Abdurahmon. Kesakpolvon uning nima sababdan bunday deganiga tushunmadi. Buni olifta bir gap o‘rnida qabul qildi [8, b. 15].

Ushbu parcha jinoiy bilishda semantik xabardorlikning cheklanganligi noto‘g‘ri talqinlarga olib kelishi mumkinligini ko‘rsatadi. Nutqimizda Abdurahmon ismini qisqartirish natijasida Rahmon so‘zining ma’nosi kengayishi odatiy holga aylangan. Tabib esa aslida bu so‘zlarning ma’nosi torligiga urg‘u berib, Rahmon – Allohning ismi, Abdurahmon – odamning ismi ekanini aytishidan boshlangan tushunmovchilik jiddiy tortishuvga sabab bo‘ladi. Kesakpolvon tabibning javobidagi me’yoriy e’tirofni “*olifta*”likka yo‘yib, hurmat funksiyasini unutadi va chegaradan chiqadi. Bu yerda tushunmaslik bilan bog‘liq to‘siq ijtimoiy to‘siq bilan uyg‘un holda uchraydi:

1-jadval. Semantik struktura modeli

1. Leksik sath
Rahmon (ilohiy) ≠ Abdurahmon (insoniy)
↓ *(Kesakpolvon farqlamaydi)*
2. Sintaktik sath
Tabib: Inkor → Izoh → Tuzatish (korektiv model)
↓ *(Kesakpolvon noto‘g‘ri kodlaydi)*
3. Pragmatik sath
Tabib: tushuntirish maqsadi ↔ Kesakpolvon: “olifta gap” maqsadi (buzilgan)
↓ Natija: Tushunmovchilik + Ijtimoiy to‘siq

Semantik struktura ikki tomonlama vazifani bajaradi:

– agar to‘g‘ri tushunsa → muammoni hal qiladi (tabibning maqsadi);

– agar noto‘g‘ri tushunsa → mojaroni kuchaytiradi (Kesakpolvonning munosabati).

Agar Kesakpolvon oz bo‘lsa-da, semantik tushunish va ijtimoiy idrok darajasiga ega bo‘lganida, ehtimol, qo‘shimcha xatolarga yo‘l qo‘ymas va keyingi gaplarida tushunmovchiliklarning keskin kuchayishiga yo‘l qo‘ymas edi: *“Kimsan, Haydarbek, katta boshini kichik qilib, qancha yo‘l yurib kelsa-yu, bu pista ko‘mirga o‘xshagan chol oliftalik qilsa! “O‘zim ahmoqman, — deb o‘yladi Kesakpolvon, — yigitlarni yuborsam-ku, yumaloq-yostiq qilib bo‘lsa ham, yetkazishardi...”* [8, b. 15]. Parchadagi *“Kimsan, Haydarbek”* – jumlasi orqali Kesakpolvonning manmanligi, o‘zini nihoyatda hurmatli va buyuk odam, deb hisoblashi namoyon bo‘ladi. Bu jumlaning ma’nosini*“katta boshini kichik qilib”* frazemasi yana-da rivojlantirishga xizmat qilmoqda. Frazemaning semantik xususiyati juda keng. Unda ***bosh*** so‘zini oksimoron san’ati asosida (*katta→ bosh ←kichik*) antonim so‘zlar bilan tasvirlash orqali “kamtarlik” ma’nosi ifodalangan. Aslida "katta bosh" – bu yerda kibrli, takabbur, o‘zini katta oladigan, boshqalardan ustun qo‘yadigan odam ma'nosida. "Katta boshini kichik qilib kelish" esa kibrga berilmasdan, kamtarlik qilib kelish ma'nosini bildiradi. Ma’no ko‘chish turiga ko‘ra uni sinekdoxa ("bosh" = "odam"), deyish qisman to‘g‘ri: "bosh" qism sifatida butun "odam"ni anglatadi. Lekin bu yerda oddiy "odam" emas, balki "kibrli odam", “hurmati buyuk” ma'nolari bor. Shunga ko‘ra "katta bosh" – bu o‘zini katta tutadigan odamning metaforik ifodasi, deyish mumkin:

2-jadval. Frazema sharhi

***“Katta boshini kichik qilib”* frazemasi** *katta→ bosh ←kichik* **"bosh" = "obro‘li"**	
1. ”Katta bosh”	Jismoniy katta bosh emas, balki kibrli, takabbur, o‘zini katta sanash kabi mavhum sifatlarning o‘xshatish asosida boshga ko‘chirilishi.
2. ”Kichik qilib kelish”	Boshni jismoniy kichik qilish emas, balki kamtarlik, tavoze kabi mavhum tushunchalarni ifodalaydi.

“Pista ko‘mirga o‘xshagan chol” tashbehida esa semantik jihatdan past nazar bilan qarash ma’nosi yetakchilik qilmoqda. Chunki “pista ko‘mir” atamasi o‘zbek tilida pishmagan, past sifatli ko‘mirga nisbatan ishlatiladi. Toshko‘mir (antratsit yoki bitumli ko‘mir) esa yuqori sifatli, ko‘proq energiya beradigan ko‘mir turidir. Demak, pista ko‘mir toshko‘mirga qaraganda arzon va qadrsiz. Haydar ham o‘z obro‘si oldida cholni shu qadar yerga urib, mensimay qaramoqda. Shuning uchun tabibning unga munosib holda “manmanga manmanlarcha” javob qaytarishi *“oliftalik qil”*ishdek g‘ashini keltiryapti. O‘z aybini hech qachon tan olmay, boshqalarni ayblab o‘rgangani sababli Kesakpolvon bu vaziyatda ham o‘zini oqlash strategiyasini qo‘llamoqda. Shunga muvofiq, chora izlash majburiyati bilan kelganini psixologik himoya mexanizmlari nuqtayi nazaridan kamtarlikka yo‘yib, “bu chol hurmatini bilmas ekan” mazmunida *“O‘zim ahmoqman”*, - deya afsuslanyapti. Metaforik usulda yuzaga kelgan *“yumaloq-yostiq qilib”* frazemasi orqali esa zo‘ravonlik qilish Kesakpolvon uchun oddiy va odatiy hol ekaniga ishora qilingan. Haydarbekning laqabi Kesakpolvon ekanligi esa yoshligidagi voqeaga aloqador. Shuning uchun u metonimiya usulida ma’no ko‘chishi orqali yuzaga kelgan.

Misollardan ma’lum bo‘ladiki, leksik va frazeologik birliklarning semantik xususiyati orqali jinoyatchilarning xulqi, xarakteri, ijtimoiy mavqeyi ochiq namoyon bo‘ladi.

Xulosa

Kriminal diskurs o‘ziga xos semantik tizimga ega bo‘lib, jinoiy nutqqa xos leksik birliklarning ayrimlarida qo‘shimcha uslubiy ma’no umumadabiy tildan farqli ravishda kengayishi kuzatiladi. Jinoiy nutqning semantik maydonlari asosan zo‘ravonlik, tahdid, pul, hokimiyat va bo‘ysunish kabi tushunchalar atrofida tizimlashadi. Kontekstga qarab leksik birliklarning ma’no o‘zgarishi jinoyatchilar nutqining pragmatik moslashuvchanligini ko‘rsatadi. Tadqiqot natijalari oliy o‘quv yurtlarida lingvistika, amaliy tilshunoslik, stilistika, badiiy matn tahlili kurslarida, shuningdek, lingvistik ekspertiza amaliyotida foydalanilishi mumkin.

"QANOTLI SO'ZLAR"NING TURLI TIL BIRLIKLARI ASOSIDA NAMOYON BO'LISHI XUSUSIDA

Baratova Nargiza Ahmadjonovna
NamDU mustaqil izlanuvchisi

Annotatsiya. *Ushbu maqolada qanotli so'zlarning genezisi, ularning turli tipdagi til birliklarida kuzatilishi, bundagi shakl o'zgarishi kabi masalalr o'rganilgan. Ma'lumki, qanotli so'zlarning asosiy xususiyatlaridan biri turli tillararo ko'chib yurishi, madaniy axborot uzatishi, madaniy universaliya vazifasini bajarishidir. Biroq bu holatga yetgunga qadar ham o'z tili ichida to'yinib, pishib, turli konseptlarni birlashtirishi lozim bo'ladi. Maqola o'zbek tilidagi badiiy matnlar asosida qanotli so'zlarni uchrash shakllarini tahlil qiladi.*

Kalit so'zlar: *qanotli so'zlar, paremilogik birlik, maqol, iqtibos, tazmin, transformatsiya.*

О ПРЕДСТАВЛЕНИИ «КРЫЛАТЫХ СЛОВ» В ДРУГИХ ЯЗЫКОВЫХ ЕДИНИЦАХ

Аннотация. *В данной статье исследуется генезис крылатых слов, их наблюдение в различных типах языковых единиц и изменения формы. Известно, что одной из главных особенностей крылатых слов является их способность мигрировать между разными языками, передавать культурную информацию и служить культурным универсалом. Однако, прежде чем достичь этого состояния, они должны насытиться, созреть и объединить различные понятия в рамках своего собственного языка. В статье анализируются формы употребления крылатых слов на основе литературных текстов узбекского языка.*

Ключевые слова: *крылатые слова, парамиологическая единица, пословица, цитата, компенсация, трансформация.*

ON THE REPRESENTATION OF "WINGED WORDS" IN OTHER LANGUAGE UNITS

Abstract. *This article studies the genesis of winged words, their observation in various types of language units, and changes in form. It is known that one of the main features of winged words is their ability to migrate between different languages, transfer cultural information, and serve as a cultural universal. However, before reaching this state, they must be saturated, matured, and combine various concepts within their own language. The article analyzes the forms of occurrence of winged words based on literary texts in the Uzbek language.*

Keywords: *winged words, paremilogical unit, proverb, quotation, compensation, transformation.*

Tilshunoslikda sintaktik jihatdan qolip holatiga kelib qolgan, barqaror birliklar ko'p. Jumladan, murakkab so'z birikmasi, frazeologik birlik, frazeologik butunlik, frazeologik chatishma, tasviriy ifoda, iqtibos, kollokatsiyalar va qanotli so'zlar shular jumlasidandir. Qanotli so'zlar – nutq maqsadini aniq va obrazli yetkazish usullari va vositalaridan biridir. Unda obrazlilik, qisqalik, nutq maqsadini va xulosasini aniq ifodalash kabi funksiyalar badiiy nutqda keng qo'llanishiga sabab bo'ladi. So'zlarni qanotli deb atash Homerning "Odisseya" va "Iliada" asarlarida uchraydi. Homer bir og'izdan uchib chiqib, eshituvchining qulog'iga kirib ketuvchi so'zlarni "qanotli" deb ataydi. Bunday so'zlar adabiyotda ko'p bo'lsa-da, "qanotli so'zlar" termin sifatida dastlab 1864-yil nemis olimi Georg Byuxmanning "Geflugelte Worte" nomli asaridan keyin keng qo'llana boshladi. Keyinchalik nemis adibi Fridrix Klopshtok va ingliz tanqidchisi Tomas Karlaylning kitoblarida yanada ommalashtirildi, terminologik qatlamga kirib kela boshladi. Terminning ma'no ko'lami S.V.Maksimovning (1890) asarida keng yoritib berilgan. S.V.Maksimov qanotli so'zlarni xalq urf-odatlari, qadimiy kasb-hunar turlari, inonchlari bilan bog'lab talqin etadi. Boshqacha qilib aytganda, Maksimov qanotli so'zlarning dastlabki ko'rinishlari turli so'z almashinishlari, semantik kengayish va torayishlar asosida bir tilning o'zida ham ko'chib yurgan barqaror birikmalar bo'lishini ta'kidlagan. O'zbek tili misolida olganda, *kanda qilmaslik* (suvoqchilik), *tagiga suv quymoq* (bog'dorchilik va harbiy soha), *misi chiqmoq* (miskarlik, zargarlik) kabi iboralar bir sohadan ikkinchi sohaga "sakrab", umumxalq tiliga singib boradi. Shu nuqtayi nazardan qanotli so'zlarning dastlabki manbalari maqollar, matallar, frazeologizmlar, o'xshatishlar, rivoyat va naqllarga borib taqaladi. Keyinchalik esa adabiyotshunoslikdagi iqtibos, tazmin, taxmis kabi san'atlarga ham asos bo'lib xizmat qilgan. Bundan ma'lum bo'ladiki, qanotli so'zlar paremiologik birliklar qatorida turli transformatsiyalarga uchrab, turli birliklar tarkibida uchrashi mumkin. Faqatgina zamonaviy

adabiyotda qahramonlar xarakterini ochib berish, asarga ekzotik ruh berish, fikrni muxtasar ifodalash uchun iqtibos shaklida, ba'zan naql shaklida keltiriladi.

Mashhur shaxslarning bir qator fikrlari allaqachon qanotli so'zlar darajasiga ko'tarilgan. Ular qisman maqol shakliga kelib, o'sha millatning madaniy merosi tarkibiga qo'shilgan. Jumladan, Alisher Navoiyning "Mahbub-ul qulub" asarida keltirilgan "Oz so'z – muxtasar", "Chin so'z – mo'tabar", "Kuchuk ila xo'tikka qancha qilma tarbiya, it bo'lur, eshak bo'lur, aslo bo'lmas odamiy", "Odam borki odamlarning naqshidir, odam borki, hayvon undan yaxshidir" kabi fikrlari o'zbek xalq maqollari xazinasidan joy olgan. Bu o'rinda tug'iladigan fikr shuki, shoirlar, siyosatchilar, adiblar aslida qanotli so'zlarni xalqning o'z ichidan olgan bo'lishi ham mumkin.

Gulxaniyning "Zarbulmasal" asaridagi bir qancha maqollar xalqning ichidan olingani sir emas, ular esa yana xalq orasida faol ishlatilish xususiyatini saqlab qolgan. Jumladan, "Echkining oti Abdusamat bo'lishi uchun ham rivoyat kerak", "Oshiqqon qiz erga yolchimas", "Bosh eson bo'lsa, do'ppi topilur", "Po'lat pichoq qinsiz qolmas" kabi maqollar to'g'ridan to'g'ri xalq maqollari bo'lib, ma'lum ma'noda qanotli so'zlar vazifasini bajaradi.

Qanotli so'zlarning ifoda shakllaridan yana biri badiiy asarlarda iqtibos shaklida berilishidir. Bundan maqsad, xalq orasida mashhur bo'lgan shakl (vazn) va g'oyadan foydalanib, o'z talqinini berishga intilishdir.

Gulxaniy Amiriyning "Angushtam" (Barmog'im) she'riga o'xshatma yozadi, bu bilan ushbu asarga ishora qilish bilan birga, she'r mazmuniga zid, shoir hayoti bilan bog'liq manzaralarni aks ettiradi.

"Angushtam" (angushona) radifli she'rida o'sha zamonni quruqlik dengiziga, o'zini esa o'sha dengizda qiynalib qayiq surib borayotgan kishiga o'xshatadi:

Ba xushki rondayam kishtiyu umre zindayam Jur'at,
Nashud z-in bahri behosil sare mustar angushtam.

E'tibor beradigan bo'lsak, Amiriyning har bir barmog'ida zafar bayroqlari bo'lgan "barmoqlari" Gulxaniyda hayot mashaqqatida qolgan barmoqlariga aylanadi. Shu bilan birga, "angushtam" radifi har safar Amiriy g'azalini eslatib turish uchun ishlatilgandek bo'ladi.

Gulxaniy ijodidagi ushbu satrlarga to'xtalib o'tsak:

Orazidin shamsu qamardur xijil,
So'zlaridin shahdu shakar munfail,
Hosili umri erdi ul boyni,
Oti Gunashbonu ushal oyni.

"Zarbulmasal"dagi ushbu satrlar Durbekning (boshqa talqinga ko'ra, Haydar Xorazmiyning) "Yusuf va Zulayho" asaridagi satrlarni eslatadi:

Bir qizi bor erdi mahi xovariy,
Orazig'a shamsu qamar mushtari.
Yuzi quyosh erdi vale bezavol,
Barcha funun bobida sohib kamol.
Hosili umri edi ul shohning,
Oti Zulayxo edi ul mohning.

Yusuf va Zulayho" asari Gulxaniy davrida mashhur bo'lgan, shoir mazkur asarga ishora qilib, undagi ayrim so'zlarni o'zgartirish orqali umumiy qolipni saqlab qolgan. Natijada satrlar qanotli so'zlardan bir namuna sifatida ishlatilgan bo'ladi.

Abdulla Qodiriyning "Mehrobdan chayon" asarida bir qancha quyma so'zlar, iboralar keltiriladiki, bu bilan ijodkor mazkur so'zlar o'ziniki emasligi, kimningdir mashhur nutqidan bir qism ekanligini uqtirgandek ko'rinadi: *Solih maxdum 1230-1290-nchi hijriy yillarda* ***"Ho'qandi firdavsmonand"****da yashag'an bir muallim va imom, o'z zamonasining istilosi bilan aytkanda* ***"maktabdor domla"****dir.*

Mazkur satrlarda "Ho'qandi firdavsmonand", "maktabdor domla" birikmalari aynan kimningdir nutqidan olinganiga ishora mavjud.

"Darvoqi' "xolisona" bu fatvoga amir Bahodirxon "betarafona" qiymat berib, "din yo'lida xolis bir jihodi akbar" deb jami'i qo'shunlari bilan Farg'ona ustiga yurish qiladir". Ushbu satrlarda "din yo'lida xolis bir jihodi akbar" ko'p ishlatiladigan, balki farmon va farmoyishlarda ishlatiladigan so'z bo'lishi mumkin. Abdulla Qodiriy esa mazkur vaziyatda barqaror birikmaning adresat tomonidan qaysi ma'noda ishlatilayotganini ko'rsatish uchun ajratib ifodalaydi.

Ayniqsa, quyidagi parchada muallif o'z vaqtida keng qo'llanganlik ehtimoli bo'lgan diniy iborani keltirib, bu iboradan o'z qahramoni qay maqsadda foydalanayotganini satirik kulgu bilan ko'rsatib beradi: *"Bu to'g'rida xotini harchand rad qilsa ham qoplab shalg'am, yigirma-o'ttuzlab qovoq xarid qilishini qo'ymas –* ***"shalg'am – Bibi Fotimai Zuhraning duolari barakati, qovoq bo'lsa hazrati Yunusning mo'jizalari"*** *deb bahosi arzon va lekin xosiyati ko'b bo'lg'an bu mablag'lar bilan oshxonani to'ldira berar edi."*

Asarning boshqa o‘rnida esa ***“Shayxi Sa’diy aytkancha, dunyoda hayotidan qo‘l yuvg‘uchidek tili uzun kishi bo‘lmas”,*** – tarzidagi qanotli so‘zlar uchraydi. Sa’diy Sheroziy fors-tojik tilida ijod qilganligini hisobga olsak, mazkur satr ham tarjima, ham shakli o‘zgartirilib olinganiga guvoh bo‘lamiz.

– Yaxshiliq qil, daryog‘a tashla, baliq bilmasa, xoliq bilur, deganlar. Fuzuliy: ”Dahr bir bozordir, har kim mato‘in arz edar” deb juda to‘g‘ri so‘zlaydir.

Abdulla Qodiriy tomonidan qo‘llangan yuqoridagi maqol Gulxaniyning “Zarbulmasal” asarida aynan keltirilgan bo‘lib, mazkur holat maqol shakliga ko‘chgan qanotli so‘z ekanligini bildiradi. Fuzuliydan keltirilgan iqtibos ham yozuvchi bilim darajasini anglatish bilan birga xalq o‘rtasida mashhur satrllardan bo‘lganlishiga ishora bor.

Yuqoridagilardan kelib chiqib, quyidagicha xulosa yasash mumkin:

1. Qanotli so‘zlar xalq o‘rtasida mashhur va faol barqaror birikmalar, paremiologik birlikldir.

2. Uning dastlabki holati ijodkor xalqning o‘zida madaniy jihatdan to‘yinib oladi, keyinchalik, boshqa tillarga ko‘chishi mumkin.

3. Badiiy asarlar mualliflari tazmin, iqtibos ko‘rinishlarida qanotli so‘zlardan foydalanishadi, bu bilan iqtibos olingan shaxsga izdoshlik, ba’zan satirik ishora berish vafzifasini bajaradi.

4. Qanotli so‘zlar muayyan muallifga tegishli bo‘ladi, biroq yozuvchi muallifni sir tutgan holda, qanotli so‘zlarning o‘zini keltirib, muallifning fikri turli diskurslarga turlicha tushunilishiga ishora qiladi.

5. Qanotli so‘zlar turli tip va janrlarda ifodalanganda shaklan transformatsiyaga uchraydi. Maqollar va matallarning bir qismi aynan qanotli so‘zlar ekanligi ma’lum bo‘ladi.

"ALPOMISH" DOSTONIDA O'XSHATISHLARNING BAHOLOVCHI-SEMANTIK TALQINI

Yunusova Barchinoy Mahmudxonovna
Namangan davlat universiteti doktoranti (DSc) Namangan, O'zbekiston
e-mail: barchinoyyunusova21@gmail.com

Annotatsiya. *Maqolada "Alpomish" dostonidagi o'xshatishlarning aksiologik transformatsiyasi, ya'ni baholovchi-semantik o'zgarishi tahlil qilinadi. Tadqiqot o'xshatishlarning baholovchi-semantik o'zgarishini aniqlashga qaratilgan. Tahlil natijasida ularning kontekst, so'zlovchi bahosi va syujet vaziyati ta'sirida transformatsiyalanuvchi lingvopoetik hodisa ekani asoslandi.*

Kalit so'zlar: *"Alpomish" dostoni, o'xshatish, aksiologik transformatsiya, baholovchi semantika, lingvopoetika, an'anaviy o'xshatish, individual o'xshatish, kontekst, etalon, epik diskurs.*

АКСИОЛОГИК-СЕМАНТИЧЕСКАЯ ИНТЕРПРЕТАЦИЯ СРАВНЕНИЯ В ЭПОСЕ "АЛПОМИШ"

Аннотация. *В статье анализируется аксиологическая трансформация сравнений в эпосе "Алпомиш". Исследование направлено на выявление оценочно-семантических изменений сравнений. В результате анализа обосновано, что они представляют собой лингвопоэтическое явление, трансформирующееся под влиянием контекста, оценки говорящего и сюжетной ситуации.*

Ключевые слова: *Эпос "Алпомиш", сравнение, аксиологическая трансформация, оценочная семантика, лингвопоэтика, традиционное сравнение, индивидуальное сравнение, контекст, эталон, эпический дискурс.*

AXIOLOGICAL-SEMANTIC INTERPRETATION OF SIMILES IN THE EPIC "ALPOMISH"

Abstract. *This article analyzes the axiological transformation of similes in the epic "*Alpomish*". The study aims to identify the evaluative-semantic changes of similes. The analysis substantiates that they constitute a linguopoetic phenomenon transformed under the influence of context, the speaker's evaluation, and the plot situation.*

Key words: *"*Alpomish*" epic, simile, axiological transformation, evaluative semantics, linguopoetics, traditional simile, individual simile, context, simile standard, epic discourse.*

Kirish. "Alpomish" dostoni o'zbek xalq og'zaki ijodining eng yirik epik yodgorliklaridan biri bo'lib, unda xalqning tarixiy xotirasi, estetik ideallari, milliy qadriyatlari va badiiy tafakkuri mujassamlangan. Doston tilining badiiy qudrati unda qo'llangan tasviriy vositalar tizimida, ayniqsa o'xshatishlarda yaqqol namoyon bo'ladi. O'xshatishlar epik matnda qahramonlarning jismoniy qudrati, ruhiy holati, tashqi qiyofasi va voqea-hodisalarning ko'lamini obrazli ifodalash bilan birga, xalqning baholash mezonlarini ham o'zida aks ettiradi. Shu jihatdan ular faqat tasviriy vosita emas, balki muayyan aksiologik mazmun tashuvchi lingvopoetik birlik sifatida ham alohida ilmiy qiziqish uyg'otadi.

Badiiy matnda o'xshatish etalonlari odatda an'anaviy ijobiy yoki salbiy semantik maydonga mansub bo'ladi. Biroq epik kontekstda bu baholovchi yo'nalish har doim ham o'zgarmas qolmaydi. Bir xil etalon turli nutq vaziyatlarida, turli personajlarga nisbatan qo'llanishi natijasida yangicha aksiologik yuk olishi mumkin. Shu bois "Alpomish" dostonidagi o'xshatishlarni aksiologik transformatsiya nuqtayi nazaridan o'rganish doston poetikasining ichki semantik mexanizmlarini chuqurroq anglash imkonini beradi.

Mazkur maqolaning maqsadi "Alpomish" dostonidagi o'xshatishlarning aksiologik transformatsiyasini aniqlash hamda ularning lingvopoetik tabiatini yoritishdan iborat. Tadqiqot vazifalari sifatida o'xshatishlarning baholovchi-semantik xususiyatlarini tahlil qilish, an'anaviy va individual etalonlarning kontekstual o'zgarishini ko'rsatish hamda aksiologik transformatsiyaning epik diskursdagi funksiyasini aniqlash belgilandi. Tadqiqotning ilmiy yangiligi

“Alpomish” dostonidagi o‘xshatishlarning baholovchi yo‘nalishi maxsus lingvopoetik muammo sifatida tahlil etilganida namoyon bo‘ladi.

Mavzuga oid adabiyotlar tahlili. O‘zbek tilshunosligida o‘xshatish hodisasi semantik, stilistik va lingvopoetik jihatdan atroflicha o‘rganilgan. M.Mukarramov o‘xshatishning tuzilishi, semantik tabiati hamda grammatik ifodalanish vositalarini yoritib, uning badiiy nutqdagi baholovchi imkoniyatiga e’tibor qaratadi. [1:88] N.Mahmudov o‘xshatishlarni obrazli tafakkur mahsuli sifatida talqin qilib, ularning milliy idrok, baholash mezonlari va milliy obraz tizimi bilan uzviy bog‘liqligini ko‘rsatadi [2:19-24]. N.Mahmudov va D.Xudoyberganova tuzgan “O‘zbek tili o‘xshatishlarining izohli lug‘ati” o‘xshatish etalonlarining semantik qimmatini aniqlashda muhim amaliy manba bo‘lib xizmat qiladi. [3:320]. D.Xudoyberganova o‘xshatish konstruksiyalarining semantik va stilistik tabiatini tahlil qilib, ularni baholovchi va ma’no yaratuvchi birlik sifatida talqin etish uchun metodologik asos yaratadi. [4:15] Shuningdek, uning antropotsentrik yondashuvga doir qarashlari matndagi baholovchi munosabatning so‘zlovchi pozitsiyasi va kontekst bilan bog‘liq holda shakllanishini tushuntirishda muhim nazariy tayanch vazifasini bajaradi. [5:122].

Xalq dostonlari tilidagi o‘xshatishlarning lingvopoetik imkoniyatlari G.Jumanazarova tomonidan yoritilgan bo‘lib, unda o‘xshatishlarning obraz yaratish, estetik ta’sirni kuchaytirish va xalqona badiiy tafakkurni ifodalashdagi o‘rni ko‘rsatiladi. [6:22]. “Alpomish” dostoni doirasida S.Yo‘ldosheva o‘xshatishlarning g‘oyaviy-estetik funksiyasini [7:47-52], D.Ashurov esa ularning lingvokulturologik xususiyatlarini tahlil qiladi. [8:55].

Mazkur tadqiqotlar o‘xshatishlarning nazariy, lingvopoetik va lingvokulturologik tomonlarini yoritgan bo‘lsa-da, ularning aynan baholovchi-semantik o‘zgarish masalasi alohida tadqiqot predmeti sifatida maxsus va tizimli ravishda yetarlicha yoritilmagan. Shu jihatdan mazkur maqola “Alpomish” dostonidagi o‘xshatishlarning aksiologik transformatsiyasini alohida lingvopoetik muammo sifatida yoritishga qaratiladi.

Tadqiqot metodologiyasi. Tadqiqotda tavsifiy, semantik-stilistik, lingvopoetik va kontekstual tahlil metodlaridan foydalanildi. Asosiy e’tibor o‘xshatishlarning baholovchi yo‘nalishiga qaratildi. Shu sababli bir xil etalonning turli nutqiy vaziyatlarda turlicha aksiologik yuk olishi, uning qaysi personajga nisbatan qo‘llangani, nutq subyekti pozitsiyasi va syujet vaziyatidagi o‘rni o‘zaro bog‘liq holda talqin qilindi. Mazkur yondashuv o‘xshatishning faqat lug‘aviy ma’nosini emas, balki kontekstda yuzaga keladigan baholovchi-semantik siljishni aniqlashga xizmat qildi.

Tahlil va natijalar. “Alpomish” dostoni materiali shuni ko‘rsatadiki, o‘xshatishlar badiiy matnda nafaqat tasviriy, balki aksiologik vazifani ham bajaradi. M.Mukarramov ta’kidlaganidek, badiiy matnda qo‘llaniladigan o‘xshatishlar semantik-baholovchi xususiyatiga ko‘ra ijobiy va salbiy ma’no yo‘nalishlari bilan farqlanadi.[1:28]. Demak, o‘xshatishlar badiiy matnda nafaqat tasviriy, balki aksiologik (baholovchi) vazifani ham bajaradi.

Shu bilan birga, doston matnida baholovchi-semantik yo‘nalish qat’iy emas. Epik matnda baholovchi-semantik yo‘nalish har doim ham qat’iy ijobiy yoki salbiy doirada qolmaydi. Ayrim an’anaviy o‘xshatishlar kontekstga ko‘ra turlicha qiymat kasb etishi mumkin. Bu hol maqolaning bosh ilmiy tezisini belgilaydi: **o‘xshatishlarning aksiologik yo‘nalishi statik, ya’ni barqaror hodisa emas, balki kontekst ta’sirida transformatsiyalanadi.**

Sher etaloni xalq poetik tafakkurida odatda jasorat, qudrat va jangovorlik timsoli sifatida ijobiy semantik maydonga mansubdir. Sher – forscha arslon; botir, jasur; asad ma’nolarini anglatadi, ko‘chma ma’noda shaxsni sherga nisbatlab “azamat”, “botir”, “polvon’ deya ataladi. [9:617]”. Shu bois “*Anglamaydi bunday mardi maydondi, Sherday bo‘lib endi yo‘lga kirgandi. Kim dushman bo‘lsa boshin oladi, Hammaning ko‘nglidan chiqqan to‘radir”* [10:369] yoki *Birov sherday bo‘lib xabar olmasa, O‘ziman tug‘ishgan aka bo‘lmasa, Bu ish har kimning qo‘lidan kelmasa* [10:285] misralarida o‘xshatish an’anaviy ijobiy bahoni saqlaydi: qahramonning kuchi, qat’iyati va epik pafosi yuksaltiriladi. Biroq shu etalonning salbiy personajlarga nisbatan qo‘llanishi uning aksiologik transformatsiyasini yuzaga chiqaradi.

Bir-birining aqlin olib, Nayza bilan qilich solib, Unga Hakim g‘olib kelib, Sherday bo‘p ustiga bordi. [10:218]

Bu so‘zni aytadi shunqor, Sherday bo‘ldi mard yigitlar, Ot qo‘ydi, oblohu akbar. [10:262]

Sherday o‘xshatishi nafaqat Alpomish, Yodgor, Qorajon kabi ijobiy qahramonlarga, balki qalmoq alplari, hatto Ultontoz kabi salbiy obrazlarga nisbatan ham qo‘llanadi. *Masalan:*

Hammalari birday bo‘lib, Bog‘dochilgan gulday bo‘lib, Chamanda bulbulday bo‘lib, O‘tirib edi suhbat qurib, Qalmoq bordi sherday bo‘lib.[10:88]. *Bu so‘zdaytib ne qalmoqlar Bedov otga qamchi chotar, Chilbir cho‘lni to‘zang tutar, O‘z holiga sherday bo‘lib, Ot chopar cho‘lda qalmoqlar.* [10:212] *Aytib yurur bekor so‘zni, Ahmoq gapga ko‘tarmalab, Sherday qilib Ultontozni, Barchin bilmas bunday so‘zni, Teng ko‘rmaydi Ultontozni.*[10:420]

Yuqorida havola etilgan misollarda *sherning* an’anaviy ijobiy semantikasi saqlangan holda, ko‘proq jismoniy qudrat, tajovuzkorlik, salobat va ba’zan kinoyaviy tus bilan birikadi.

Demak, *sherday* o‘xshatishining aksiologik transformatsiyasi shundan iboratki, **etalonning bazaviy ijobiy semantikasi saqlanadi, biroq konkret syujet va personaj tizimida u ijobiy, ziddiyatli yoki kinoyaviy baholovchi yuk olishi mumkin.**

Aksiologik transformatsiya har doim ham an'anaviy etalonning salbiy yoki kinoyaviy mazmun kasb etishi bilan cheklanmaydi, ayrim hollarda u yangi semantik yo'nalishda qayta talqin qilinish shaklida ham namoyon bo'ladi. Buni ***"sherdayin davron surarsan"*** birikmasi misolida kuzatish mumkin.

Bu yerlarda shohlik shavkat qilarsan, Har qaysing ham chodir tikib turarsan, Xizmatingga qancha odam solarsan, Qimiz berib mening ko'nglimdolarsan, Har qaysing sherdayin davron surarsan. [10:375].

Mazkur o'rinda *sher* etaloni odatiy jangovar semantikasi doirasida emas, balki ijtimoiy mavqe, hukmronlik va farovon turmushni ifodalovchi obraz sifatida faollashadi.

Ma'lumki, an'anaviy qo'llanishda ***sher*** obrazi, asosan, jasorat, qudrat, jangovorlik va jismoniy kuch timsoli bilan bog'lanadi [3:263]. Biroq ***"Har qaysing sherdayin davron surarsan"*** misrasida mazkur etalonning semantik markazi boshqa yo'nalishga siljiydi. Bu yerda *sher* jang maydonidagi mardlikni emas, balki *"davron surmoq"* – ustun mavqe, shohona yashash va hukmron holatda umr kechirish mazmunini ifodalashga xizmat qilmoqda. [12:799].

Mazkur semantik siljish kontekst bilan bevosita bog'liq. Misrada *"shohlik shavkat qilarsan"*, *"chodir tikib turarsan"*, *"xizmatingga qancha odam solarsan"* kabi birliklar bilan hosil bo'lgan semantik maydon *sherdayin* o'xshatishining mazmunini ijtimoiy salobat va hukmronlik bilan bog'laydi. Natijada an'anaviy etalon yangi baholovchi yo'nalishda namoyon bo'lib, qahramonning kuchini emas, uning mavqeini va hayot tarzini estetik jihatdan yuksaltiruvchi vositaga aylanadi.

Shu jihatdan birikmada kuzatiladigan transformatsiya salbiylashish shaklida emas, balki an'anaviy etalonning ijtimoiy-semantik maydonda qayta kodlanishi tarzida yuz beradi. Demak, mazkur o'rinda o'xshatishning aksiologik yo'nalishi saqlangan holda, uning semantik markazi o'zgaradi va *sher* obrazi qahramonning ijtimoiy ustunligi hamda salobatini ifodalovchi lingvopoetik vosita vazifasini bajaradi. Baholovchi transformatsiya an'anaviy etalonning yangi ijtimoiy-semantik maydonda qayta talqin qilinishi tarzida namoyon bo'ladi.

Lochin etaloni an'anaviy poetik tafakkurda "chaqqonlik, epchillik, jasorat, serg'ayratlik va yuksaklik timsoli sifatida ijobiy baholovchi maydonga mansub. Lochin – yirtqich qushlar turkumining chaqqon harakatli bir turi, ko'chma ma'noda esa shu qushga nisbatli belgini bildiradi; epchil, chaqqon; shijoatli. [11:57] Ammo Barchinning qalmoqlarga qarata aytgan misrasida: *"Lochinday aynalma bunda, ahmoqlar, Bora bergin o'z yo'lingga badbaxtlar.* [10:89] – ushbu etalonning semantik maydoni o'zgaradi. Bu yerda lochinning "o'lja atrofida gir aylanish", "yuqoridan kuzatish" kabi harakat semalari aktuallashib, ijobiy timsol emas, balki "bezovta qiluvchi, tahdidli va tajovuzkor harakat xususiyati" oldinga chiqadi.

Mazkur tahlil shuni ko'rsatadiki, **aksiologik transformatsiya etalonning lug'aviy ma'nosini to'liq bekor qilmaydi, balki uning qaysi semantik komponenti kontekstda faollashishini o'zgartiradi.** *Lochin* o'xshatishi ijobiy timsolni mustahkamlash o'rniga, salbiy qahramon obrazini keskinlashtirish, konfliktni kuchaytirish va dramatik ohangni yuzaga keltirish vositasiga aylanadi. Mazkur misolni aksiologik-semantik transformatsiyaning yorqin namunasi sifatida baholash mumkin.

Aksiologik transformatsiya ayrim hollarda an'anaviy etalonning baholovchi yo'nalishi o'zgarishida, ayrim hollarda esa o'xshatish shaklining ekspressiv kengayishi orqali namoyon bo'ladi.

Buni "Alpomish" matnidagi Surxayil mastonning Barchinoyning onasiga nisbatan aytgan "*Mehmon bo'ldim sendayg'achoq nosoqqa, Put ko'tarding islomdagi…"* [10:69] misralaridagi *sendayg'achoq* shakli misolida yaqqol kuzatish mumkin. Mazkur shaklda oddiy -day qiyos affiksi -g'achoq elementi bilan kuchayib, baholovchi-ekspressiv tus oladi. Natijada o'xshatish oddiy qiyoslash vositasi bo'lib qolmay, kinoya, ta'na va istehzo ifodalovchi baholovchi konstruktsiyaga aylanadi. Xususan, *sendayg'achoq nosoqqa* ifodasida qiyos adresatni pasaytirish, uning maqomini shubha ostiga qo'yish va unga nisbatan salbiy axloqiy baho bildirish vazifasini bajaradi. Demak, bu o'rinda o'xshatish tasviriy vosita sifatida emas, balki salbiy aksiologik munosabatni kuchaytiruvchi lingvopoetik vosita sifatida namoyon bo'ladi.

Xulosa va takliflar. Tahlillar shuni ko'rsatadiki, "Alpomish" dostonida o'xshatishlarning aksiologik yo'nalishi barqaror emas. Bir xil etalon turli personajlar, kontekst va syujet vaziyatlarida turlicha baholovchi mazmun kasb etadi. Xususan, an'anaviy ijobiy etalonlar hamda ekspressiv yoki kontekstual qayta talqin qilingan shakllar baholovchi-semantik o'zgarishning turli ko'rinishlarini namoyon etadi. Shu jihatdan "Alpomish" dostonidagi o'xshatishlar faqat tasviriy vosita emas, balki epik baholashni ifodalovchi, konflikt va dramatik ohangni kuchaytiruvchi muhim lingvopoetik birliklar sifatida talqin etilishi mumkin. Kelgusida bu masalani doston variantlari kesimida qiyosiy, lingvokulturologik va kognitiv jihatdan o'rganish maqsadga muvofiqdir.

LINGVOKULTUROLOGIYA TERMININING O‘ZBEK, INGLIZ VA RUS TILSHUNOSLIGIDA QO‘LLANILISHI

Nosirova Shoiraxon Ulug‘bek qizi
Farg‘ona davlat universiteti tayanch doktoranti
Email: shoiranosirova1999@gmail.com

Annotatsiya. *Hozirgi zamon lingvistikasida lingvokulturologiya yangi ilmiy yo‘nalish sifatida katta e’tiborga sazovor bo‘lmoqda. Ushbu maqolada “lingvokulturologiya” va “madaniy lingvistika” (cultural linguistics) atamalarining kelib chiqishi, o‘zaro munosabati, qo‘llanish doirasi va terminologik chalkashliklar tahlil qilinadi. G‘arbiy (asosan, ingliz tilidagi) madaniy lingvistika bilan postsovet lingvokulturologiyasi o‘rtasidagi parallel rivojlanish sabablari, F.Sharifian, B.Piters, K.Mizin va J.Korostenski kabi olimlarning fikrlari asosida ko‘rib chiqiladi. O‘zbek tilshunosligida bu yo‘nalishning, asosan, rus lingvokulturologik maktabi ta’sirida shakllanganligi va terminologik apparatning moslashgan xususiyati ta’kidlanadi. Tadqiqot lingvokulturologik tadqiqotlarning xalqaro standartlarga yaqinlashayotganligini va til-madaniyat bog‘liqligini o‘rganishdagi istiqbollarini ko‘rsatadi.*

Kalit so‘zlar: *lingvokulturologiya, madaniy lingvistika, cultural linguistics, lingvomadaniyatshunoslik, lisoniy madaniyatshunoslik, til va madaniyat, terminologik chalkashlik, postsovet lingvistikasi, etnolingvistika.*

THE USAGE OF THE TERM LINGUCULTOLOGY IN UZBEK, ENGLISH AND RUSSIAN LINGUISTICS

Abstract. *In modern linguistics, linguoculturology has been attracting increasing scholarly attention as a new scientific direction. This article analyzes the origin, interrelation, scope of application, and terminological confusion surrounding the terms “linguoculturology” and “cultural linguistics”. It examines the causes of parallel development between Western (primarily English-language) cultural linguistics and post-Soviet linguoculturology based on the works of scholars such as F. Sharifian, B. Peeters, K. Mizin, and J. Korostenski. The study highlights that in Uzbek linguistics this field has mainly developed under the influence of the Russian linguoculturological school, with its terminological apparatus adapted accordingly. The research demonstrates the growing alignment of linguoculturological studies with international standards and outlines prospects for investigating the language-culture relationship.*

Keywords: *linguoculturology, cultural linguistics, language and culture, terminological confusion, post-Soviet linguistics, ethnolinguistics, linguistic picture of the world, lingvoculture.*

ИСПОЛЬЗОВАНИЕ ТЕРМИНА ЛИНГВОКУЛЬТУРОЛОГИЯ В УЗБЕКСКОМ, АНГЛИЙСКОМ И РУССКОМ ЯЗЫКОЗНАНИИ

Аннотация. *В современной лингвистике лингвокультурология как новое научное направление привлекает всё большее внимание учёных. В данной статье анализируются происхождение, взаимосвязь, сфера применения и терминологическая путаница терминов «лингвокультурология» и «культурная лингвистика» (cultural linguistics). Рассматриваются причины параллельного развития западной (преимущественно англоязычной) культурной лингвистики и постсоветской лингвокультурологии на основе работ Ф. Шарифиана, Б. Питерса, К. Мизина и Й. Коростенского. Отмечается, что в узбекском языкознании это направление сформировалось преимущественно под влиянием русской лингвокультурологической школы, а терминологический аппарат адаптирован к русским образцам. Исследование*

показывает сближение лингвокультурологических исследований с международными стандартами и перспективы изучения взаимосвязи языка и культуры.

Ключевые слова: *лингвокультурология, культурная лингвистика, cultural linguistics, язык и культура, терминологическая путаница, постсоветская лингвистика, этнолингвистика, языковая картина мира, лингвокультура.*

Kirish

Hozirgi kunda yangi lingvistik ta'limot sifatida lingvokulturologiya katta ilm ahlining e'tiborini o'ziga jalb qilib kelmoqda. Til va madaniyat o'rtasidagi murakkab munosabatni o'rganishga qaratilgan ushbu yo'nalish turli mamlakat va maktablarda har xil nomlar bilan rivojlanmoqda. Garchi "lingvokulturologiya" termini postsovet hududlarida keng tarqalgan bo'lsa-da, G'arbiy Yevropa, Amerika va Avstraliya olimlari orasida "madaniy lingvistika" (cultural linguistics) atamasi ustunlik qiladi. Mazkur atamalar o'rtasidagi o'xshashlik va farqlar, ularning qo'llanish doirasi va terminologik chalkashliklar bugungi kun lingvistikasining dolzarb muammolaridan biridir.

Ushbu maqolada "lingvokulturologiya" va "madaniy lingvistika" terminlarining kelib chiqishi, o'zaro munosabati hamda o'zbek tilshunosligidagi aks etishi tahlil qilinadi. Tadqiqotning maqsadi — ushbu yo'nalishdagi xalqaro va milliy yondashuvlarni solishtirish, terminologik muammolarni aniqlash va til-madaniyat bog'liqligini o'rganishdagi istiqbollarni belgilashdan iborat. Maqolada K.Mizin, J.Korostenski, B.Piters, F.Sharifian kabi xorijiy olimlarning ishlariga asoslaniladi.

Adabiyotlar tahlili

Lingvokulturologiya va madaniy lingvistika atamalarining izohi va qo'llanishi haqida K.Mizin va J.Korostenski o'z asarlarida alohida to'xtalib, ularning grek va lotin o'zaklariga borib taqalishini ta'kidlaydilar. Ular lingvokulturologiyani madaniyat, til va o'y-fikrlar majmui sifatida talqin qiladilar. Shu bilan birga, M.Kikvadzening "Samxruli (janubiy) o'simliklarga oid frazeologik birliklarning lingvokulturologik xususiyatlari tadqiqi" maqolasida sarlavhada ishlatilgan "lingvokulturologik" atamasi matn va adabiyotlar ro'yxatida deyarli uchramasligi qiziq bir holat sifatida ko'rib chiqiladi.

B.Pitersning "Lingvokulturologiya va madaniy lingvistika borasida" maqolasi terminlar o'rtasidagi chalkashliklarni aniq ilmiy dalillar bilan tahlil qiladi. Ko'plab olimlar bu ikki atamani bir xil deb hisoblasa-da, ba'zi tilshunoslar ularni biroz farqlangan holda qo'llaydilar. F.Sharifianning "Madaniy lingvistika" konsepsiyasi madaniyatlararo muloqotda til va madaniyatning murakkab bog'liqligini o'rganishga qaratilgan bo'lib, vaqt o'tib "cultural linguistics" kichik harflar bilan yoziladigan umumiy yondashuvga aylangan.

Mizin va Korostenski madaniy lingvistikani postsovet lingvokulturologiyasidan kengroq qamrovli deb baholaydilar. B.Piters esa amaliy etnolingvistika (applied ethnolinguistics) yondashuvini ilgari suradi. "Lingvokultura" va "olamning lisoniy manzarasi" (языковая картина мира) terminlari asosan rus ilmiy an'anasida qo'llaniladi. O'zbek tilshunosligida esa lingvokulturologiya, lingvomadaniyatshunoslik va lisoniy madaniyatshunoslik variantlari mavjud bo'lib, ularning barchasi rus maktabi ta'sirida shakllangan.

Tadqiqot metodologiyasi

Tadqiqotda sifatli tahlil usullari — taqqosiy-tahliliy, terminologik va lingvokulturologik yondashuv qo'llanilgan. Asosiy manbalar xorijiy va milliy ilmiy adabiyotlar, maqolalar va tarjimalardan iborat. Terminlarning semantik va funksional farqlarini aniqlash uchun kontekstual va solishtirma tahlil o'tkazildi.

Natijalar va ularning tahlili

Hozirgi kunda yangi lingvistik ta'limot sifatida lingvokulturologiya katta ilm ahlining e'tiborini o'ziga jalb qilib kelmoqda. Xususan, K.Mizin va J.Korostenski o'z asarlarida *lingvokulturologiya* va *lingvokulturologik* degan atamalar izohiga alohida to'xtalib o'tishar ekan, ular asl kelib chiqishidan grek va lotin o'zaklariga borib taqalib, bir qarashda *lingua* va *culture* so'zlari yig'indisidan ushbu yo'nalish madaniyat, til va o'y-fikrlar majmui ekanligini ta'kidlashgan [1]. Zamondosh olimlarimizdan Avstraliya Milliy Universiteti filolog olimi B.Pitersning "Lingvokulturologiya va madaniy lingvistika borasida"[3] nomli maqolasida juda katta chalkashlik va bahs-munozalarga sabab bo'layotgan terminlar va ularning foydalanish o'rinlari hamda qamrab olgan tushunchalari haqida o'z fikrlarini ilmiy tasdiqlari bilan aniq ifodalab beradi. Ko'pchilik amalda faol ishlatilayotgan *lingvokulturologiya* atamasini G'arbiy Yevropa, Amerika, Avstraliya/Yangi Zelandiyada ishlatiladigan *madaniy lingvistika* atamasi bilan bir xil deb, ular terminlarning turlicha ko'rinishlari deb tushunishadi. Ilm-fan dunyosining ko'plab sohalarida ham ushbu terminlarning deyarli farqlanmagan holatda qo'llanilganligiga guvoh bo'lishimiz mumkin. Lekin, aynan til va boshqa tilshunoslik sohalarida tadqiqotlar bilan shug'ullanadigan davrimizning bir qator tilshunoslari yuqoridagi terminlarni biroz farqlagan holda ishlatishadi.

F.Sharifianning "Madaniy Lingvistika va Madaniyatlararo muloqot" nomli asari I.Lebedova tomonidan rus tiliga tarjima qilinadi va unda *(Cultural Linguistics) Madaniy Lingvistika*ga rivojlanib kelayotgan soha deb ta'rif berilib, uni qanday qilib turli madaniyatlararo muloqotda qo'llash mumkinligi masalalari ko'rib chiqiladi. Sharifianning tili bilan aytganda, *Madaniy Lingvistika (Cultural Linguistics)* vaqt o'tgan sari kichik harflar bilan odatiy ko'rinishda yoziladigan *madaniy lingvistika (cultural lingvistics)* bilan almashinadi hamda til va madaniyat o'rtasidagi murakkab bog'liqliklarni

o‘rganish maqsadida bo‘lgan bir necha yondashuvlarning umumiy maxraji deb tushuniladi. B.Piters ham, shu o‘rinda, madaniy lingvistikaning ahamiyatiga e’tibor qaratib, insonning til orqali namoyon bo‘ladigan ko‘plab xususiyatlari uning qon-qoniga shunchalik singib ketganki, ularni madaniy anglashlarsiz tushunib bo‘lmasligini ta’kidlab o‘tadi. Madaniy lingvistika tildagi turli xususiyatlarni, madaniy konseptlarni tushunishimizni qo‘llab-quvvatlaydi hamda bir-birini to‘ldiruvchi bo‘lgan madaniyatlararo pragmatika, antropologik lingvistika va kognitiv psixologiya kabi fan tarmoqlari bilan uzviy bog‘liqlikda tadqiqot ishlarini olib boradi [3]. Mizin va Korostenskilarning izohlashlaricha, *madaniy lingvistika* hammasida bo‘lmasa ham ko‘pgina ruscha manbalarda *lingvokulturologiya* sifatida ishlatilib kelinayotgan fan sohasiga qaraganda tadqiq qilish ko‘lami kengroq ko‘rinadi. Yoki, ularga bir-biridan ayro holatda rivojlanayotgan, bir xil tadqiqot maqsadiga ega bo‘lgan dunyoning turli qismlarida bir paytda rivojlanib kelayotgan ikki kuchli ilmiy ta’limot deb qaralishi ham o‘rinlidir [1].

B.Pitersning asarini rus tiliga tarjima qilgan O.Dubrovskaya *madaniy lingvistika* termini o‘rniga *lingvokulturologiya* deb nomlashni afzal ko‘radi va ushbu tarjima ham katta bahs-munozaralarga sabab bo‘ladi. Olimning o‘zi bunga *amaliy etnolingvistika (applied ethnolinguistics)* deb yondashishni ilgari surgan edi [3]. U tadqiqoti davomida, asosan, ma’lum tilga xos bo‘lgan kalit so‘zlar, og‘zaki nutqdagi frazalar, frazeologik birliklar, muloqot qilish odatlari va boshqa madaniyat aks etadigan lingvistik birliklarni o‘rganadi va bu bir qator rus ilmiy asarlarida *lingvokultura (лингвокултура)* yoki *“olam lisoniy manzarasi” (языковая картина мира)* deb ham yuritiladi. F.Sharifianning *madaniy lingvistika* degan terminni qo‘llab quvvatlashidan bexabar holda K.Goddard va A.Vierzbika [4,5] *amaliy etnolingvistika* atamasidan foydalanishadi va ishlarining asosini tashkil qilgan madaniy qadr-qimmat tushunchasiga alohida urg‘u berib o‘tishadi. Fikrimizcha, amaliy etnolingvistikaga ko‘p tarmoqli bo‘lgan madaniy lingvistikaning bir qismi sifatida qarash o‘rinli hisoblanadi va uning tarkibidagi Madaniy Lingvistika (F.Sharifian) bilan birgalikda qo‘llanganda til va madaniy qadr-qimmatni tadqiq etishda foydali metodologiya sifatida xizmat qila oladi.

Shunday ekan, *“lingvokultura”* va *“olam lisoniy manzarasi”* terminlari (*linguoculture va lingual picture of the world*), asosan, rus ilm-fan olamida ishlatiladi va afsuski, ular ingliz tadqiqotlari xalqaro globalizatsiyasida mavjud emas” – deb yozadi A.Rivlina [6]. Lekin mazkur olim Fridrix (1986) tomonidan *lingvokultura* va Agar (1994) tomonidan *langvokultura* atamalari ishlatilganidan bexabar bo‘lgan [3]. Keyinchalik, Gamaroff (1997) lingvokultura atamasi talaffuzga osonligi tufayli, Galison (1991) va shuningdek, zamonamiz filolog olimlaridan B.Piters (2019) va boshqalar ham ingliz tadqiqotlarida langvokultura (*language+culture*) atamasini tarkibiy qismlari anglatadigan ma’nosiga yaqinligiga ko‘ra foydalanishni ma’qul ko‘rishgan [3]. Rus tilshunosligida qabul qilingan *lingvokulturologiya* termini o‘zbek tilshunosligida ham bir nechta variantlarda *(lingvokulturologiya, lingvomadaniyatshunoslik, lisoniy madaniyatshunoslik)* [7] namoyon bo‘lib, ular ichida *madaniy lingvistika (cultural linguistics)* terminining kuzatilmaganligi ham o‘zbek tilshunosligida bu sohaning rivojlanishi bevosita rus lingvokulturologik maktablari ta’sirida bo‘lganligidan, terminologik apparat ham, asosan, ruscha andozalarga moslashganligidan dalolat beradi. Xulosa qilish mumkinki, garchi ishlatilish jihatidan *lingvokulturologiya* termini ingliz manbalarida kam uchrasa-da, *cultural linguistics (madaniy lingvistika*) hamda *linguistic relativity (lingvistik nisbiylik)* yondashuvlari mohiyat-e’tibori bilan bizdagi tadqiqotlar bilan bir xil obyektga yo‘naltirilgan bo‘lib, bu o‘z navbatida, tadqiqotlarimizni xalqaro standartlar asosida tizimlashtirayotganligimizdan dalolat beradi.

Xulosa

Lingvokulturologiya va madaniy lingvistika bir-birini to‘ldiruvchi, ammo terminologik jihatdan farqlanadigan yo‘nalishlar sifatida rivojlanmoqda. G‘arbda “cultural linguistics” ustun bo‘lsa, postsovet va o‘zbek tilshunosligida “lingvokulturologiya” va uning variantlari keng tarqalgan. Ushbu terminlarning chalkashligi fanlararo va madaniyatlararo muloqotda muammolarga olib kelishi mumkin. Shuning uchun terminologik aniqlik va xalqaro standartlarga moslashish zarur. Tadqiqot natijalari shuni ko‘rsatadiki, til va madaniyat o‘rtasidagi bog‘liqlikni o‘rganishda lingvokulturologik yondashuv istiqbolli bo‘lib, kelgusida o‘zbek tilshunosligida bu yo‘nalishni yanada rivojlantirish va xalqaro tajribani integratsiya qilish muhim ahamiyatga ega.

SINONIMIYA HAQIDAGI ILMIY QARASHLARNING TARIXIY RIVOJI VA ULARNING O‘ZBEK TILSHUNOSLIGIDAGI TALQINI

G‘afforjon Ro‘zmatovich Rahmonov,
Qo‘qon universiteti dotsenti, filologiya fanlari bo‘yicha falsafa doktori (PhD)
Email: gafforjon1968@gmail.com

Annotatsiya. *Mazkur maqolada sinonimiya hodisasining tilshunoslik tarixidagi talqinlari hamda uning o‘zbek tilshunosligidagi o‘rganilish xususiyatlari tahlil qilinadi. Xususan, sinonimiyaga doir ikki asosiy ilmiy yo‘nalish – ritorik-stilistik an’ana va leksik-semantik tizim an’anasi yoritiladi. Shuningdek, ushbu yondashuvlarning o‘zbek til materiallari asosida qanday namoyon bo‘lishi, sinonimik qatorlarning milliy tilning uslubiy boyligi va semantik nozikliklarini ifodalashdagi o‘rni ko‘rsatib beriladi. Maqolada sinonimiyaning umumtilshunoslik doirasidagi nazariy talqinlari bilan bir qatorda, o‘zbek tilining lug‘aviy tizimi, uslubiy qatlamlari va nutq madaniyatidagi o‘rni ham misollar asosida izohlanadi.*

Kalit so‘zlar: *sinonimiya, sinonim, o‘zbek tilshunosligi, uslubiyat, leksik semantika, semantik maydon, nutq madaniyati, yaqin ma’nolilik.*

ИСТОРИЧЕСКОЕ РАЗВИТИЕ НАУЧНЫХ ВЗГЛЯДОВ О СИНОНИМИИ И ИХ ИНТЕРПРЕТАЦИЯ В УЗБЕКСКОМ ЯЗЫКОВЕДЕНИИ

Аннотация. *В данной статье анализируются интерпретации явления синонимии в истории языкознания и особенности его изучения в узбекском языкознании. В частности, освещаются два основных научных направления синонимии – риторико-стилистическая традиция и традиция лексико-семантической системы. Также показано, как эти подходы проявляются на основе материалов узбекского языка, роль синонимических рядов в выражении стилистического богатства и семантических тонкостей национального языка. В статье, наряду с теоретическими интерпретациями синонимии в рамках общего языкознания, на примерах разъясняются лексическая система, стилистические пласты и роль в культуре речи узбекского языка.*

Ключевые слова: *синонимия, синонимия, узбекское языкознание, стилистики, лексической семантики, семантического поля, культуры речи, близкого смысла.*

HISTORICAL DEVELOPMENT OF SCIENTIFIC VIEWS ON SYNONYMY AND THEIR INTERPRETATION IN UZBEK LINGUISTICS

Abstract. *This article analyzes the interpretations of the phenomenon of synonymy in the history of linguistics and the features of its study in Uzbek linguistics. In particular, two main scientific directions of synonymy are highlighted - the rhetorical-stylistic tradition and the tradition of the lexical-semantic system. It also demonstrates how these approaches manifest based on Uzbek language materials, and the role of synonymic series in expressing the stylistic richness and semantic nuances of the national language. In the article, alongside theoretical interpretations of synonymy within general linguistics, the lexical system, stylistic layers, and role of the Uzbek language in speech culture are explained using examples.*

Key words: *synonymy, synonymy, Uzbek linguistics, stylistics, lexical semantics, semantic field, speech culture, close meaning.*

KIRISH

Sinonimiya tilshunoslikdagi eng qadimiy va murakkab leksik-semantik hodisalardan biridir. Odatda sinonimlar bir-biriga yaqin yoki umumiy ma'noni ifodalovchi birliklar sifatida ta'riflanadi. Biroq ilmiy kuzatishlar shuni ko'rsatadiki, tilda mutlaq bir xil ma'noga ega bo'lgan birliklar juda kam uchraydi. Aksariyat hollarda sinonimlar umumiy semantik yadroni saqlagan holda uslubiy bo'yoq, emotsional tus, qo'llanish muhiti va kollokatsion imkoniyatlariga ko'ra farqlanadi. Shu sababli sinonimiya hodisasi faqat lug'aviy yaqinlik emas, balki semantik, uslubiy va pragmatik jihatlar birligida o'rganiladi [1,4].

Tilshunoslik tarixida sinonimiya haqidagi qarashlar, asosan, ikki yirik ilmiy an'anada shakllangan: birinchisi – ritorik-stilistik an'ana, ikkinchisi esa – leksik-semantik tizim an'anasi. Birinchi yondashuv sinonimlarni nutqning ta'sirchanligi, bezagi va ekspressiv imkoniyatlari bilan bog'lasa, ikkinchi yondashuv ularni tilning ichki semantik tizimida o'zaro munosabatga kirishuvchi birliklar sifatida izohlaydi [2,12]. O'zbek tilshunosligida ham bu ikki qarashning izlari kuzatiladi: bir tomondan, sinonimlar nutqning ifodaliligini oshiruvchi vosita sifatida qaralsa, ikkinchi tomondan, ular o'zbek tilining leksik tizimida umumiy ma'no asosida birlashgan, ammo differensial belgilarga ega birliklar sifatida tahlil qilinadi [14,21].

ADABIYOTLAR TAHLILI

Sinonimiya hodisasi tilshunoslikning turli davrlarida va turli maktablar tomonidan turlicha talqin qilingan. Ushbu bo'limda mavzuga oid asosiy ilmiy manbalar tahlil qilinadi.

Sinonimiya haqidagi dastlabki qarashlar qadimgi Yunoniston va Rim ritorikasiga borib taqaladi. *Synonymia* (yun. *synonymia* – "bir nomlilik") ritorik figura sifatida bir fikrni turli so'zlar bilan qayta ifodalash usuli deb ta'riflangan. *Renaissance Figures of Speech* (2019) manbasida qayd etilishicha, bu davrda sinonimlar asosan nutqning ta'sirchanligini oshirish, fikrni kuchaytirish va tinglovchi ongida bir ma'noni mustahkamlash uchun xizmat qilgan [4,24]. *Silva Rhetoricae* lug'atida ham *synonymia* "ma'noni takrorlash va ta'kidlash vositasi" sifatida izohlanadi [5,12]. *Encyclopaedia Britannica* dagi "figure of speech" maqolasida esa ritorik shakllar, jumladan sinonimiya, nutqni bezash va aniqlashtirish uchun xizmat qilishi ko'rsatiladi [6,11].

XX asrning o'rtalaridan boshlab sinonimiya hodisasiga yangicha qarashlar shakllandi. J. Lyons leksik munosabatlarning tizimli tavsifini berib, sinonimiyani paradigmatik munosabatlarning bir turi sifatida belgilaydi. Uning fikricha, to'liq (absolyut) sinonimlar tilda deyarli uchramaydi, aksariyat hollarda konseptual yoki uslubiy jihatdan farqlanuvchi "qisman sinonimlar" mavjud [1,23].

D.A.Cruse *Lexical Semantics* asarida sinonimiyani leksik munosabatlarning markaziy ko'rinishlaridan biri sifatida tahlil qiladi. Cruse sinonimlarni "bir xil propozitsional ma'noga ega, ammo ifoda va uslub jihatidan farqlanuvchi birliklar" deb ta'riflab, ularni quyidagi turlarga ajratadi: absolyut sinonimlar, propozitsional sinonimlar va yaqin sinonimlar (near-synonyms). Shuningdek, u *kulmoq – jilmaymoq – qahqaha otmoq* kabi qatorlarda intensivlik darajasiga ko'ra semantik gradatsiya mavjudligini ko'rsatadi [3,26].

P.Edmonds va G. Hirst "Near-Synonymy and Lexical Choice" maqolasida mutlaq sinonimiyadan ko'ra "yaqin ma'nolilik" tushunchasini ilgari suradi. Ularning fikricha, sinonimik birliklar umumiy semantik yadroga ega bo'lsa-da, uslub, registr, kollokatsiya, emotsional bo'yoq va pragmatik jihatdan farqlanadi. Tadqiqotchilar yaqin sinonimlarni ajratish uchun kollokatsion tahlil va korpus metodlaridan foydalanishni taklif qiladi [5,36].

Oxford Research Encyclopedia of Linguistics dagi "Lexical Semantics" maqolasida esa sinonimiya leksik semantikaning asosiy hodisalaridan biri sifatida qaralib, u semasiologik (ma'nodan so'zga) va onomasiologik (so'zdan ma'noga) yondashuvlar nuqtayi nazaridan tahlil qilinadi [6,65].

Rus tilshunosligida sinonimiya masalasi V.V.Vinogradov, D.N.Shmelev, Y.D.Apresyan kabi olimlarning ishlarida chuqur o'rganilgan.

V.V.Vinogradov sinonimiyani tilning leksik-semantik tizimining muhim qismi sifatida qarab, sinonimik qator tushunchasini ishlab chiqdi. Uning fikricha, sinonimik qatorning asosiy birligi – dominant (eng umumiy, uslubiy neytral so'z) bo'lib, qatordagi boshqa birliklar dominantga nisbatan semantik, uslubiy yoki ekspressiv jihatdan farqlanadi [7,68].

Y.D.Apresyan "Leksicheskaya semantika" asarida sinonimlarni "bir xil yoki o'ta yaqin ma'noga ega, ammo ma'noning nuanslari, uslubiy bo'yog'i, valentlik xususiyatlari yoki qo'llanish doirasi bilan farqlanuvchi so'zlar" deb ta'riflaydi. Apresyan integral va differensial semalar tahlili asosida sinonimlarning semantik strukturasini aniqlash usulini ishlab chiqqan. [8,39]

D.N.Shmelev "Sovremennyy russkiy yazyk. Leksika" kitobida sinonimiya va polisemiya o'zaro bog'liq hodisalar ekanligini, ko'pincha polisemantik so'zlarning alohida ma'nolari sinonimik munosabatga kirishishini ko'rsatadi [11,57].

O'zbek tilshunosligida sinonimiya masalasi XX asrning ikkinchi yarmidan boshlab faol o'rganila boshlandi. A.G'ulomov, M.Asqarova, Sh.Rahmatullayev, T.Qo'ng'urov, A.Hojiev, B.O'rinboyeva, H.Ne'matov, N.Mahmudov kabi olimlarning tadqiqotlarida sinonimlar o'zbek tilining leksik tizimi, uslubiyati va nutq madaniyati kontekstida tahlil qilingan.

A.G‘ulomov o‘zbek tilining leksikologiyasiga oid asarlarida sinonimlarni “ma’nosi bir-biriga yaqin, lekin qo‘shimcha semantik-uslubiy nuanslarga ega so‘zlar” sifatida ta’riflab, ularni tilda fikrni aniq, ta’sirchan va rang-barang ifodalash vositasi deb hisoblaydi [12,92].

Sh.Rahmatullayev o‘zbek tilining izohli va frazeologik lug‘atlarini yaratishda sinonimik munosabatlarni tizimli ravishda qayd etgan. Uning “O‘zbek tilining izohli lug‘ati” (1981) va “O‘zbek tilining frazeologik lug‘ati” (1978) asarlarida ko‘plab sinonimik qatorlar o‘z ifodasini topgan [13,87].

A.Hojiev o‘zbek tilshunosligida sinonimiyani nafaqat leksik, balki grammatik darajada ham o‘rgangan. Uning “O‘zbek tilida sinonimiya” (1988) nomli maxsus tadqiqotida sinonimlarning tiplari, ularning yuzaga kelish yo‘llari va nutqdagi vazifalari batafsil tahlil qilingan [14,68].

N.Mahmudov o‘zbek tilining kognitiv semantikasi va lisoniy tahlil asoslariga oid ishlarida sinonimiyani til egalarining dunyoqarashi va konseptual tizimi bilan bog‘lab o‘rganadi. Uning fikricha, sinonimlarning mavjudligi bir tushunchaning turli qirralarini, baho va munosabat nuanslarini ifodalash imkonini beradi [18,9].

B.O‘rinboyeva o‘zbek tilining sinonimlar lug‘atlarini yaratish va sinonimik qatorlarni tizimlashtirish borasida muhim ishlar qilgan. Uning “O‘zbek tilining sinonimlari lug‘ati” (2005) o‘zbek tilshunosligida bu sohadagi eng to‘liq lug‘aviy manbalardan biridir [20,23].

Mavjud adabiyotlar tahlili shuni ko‘rsatadiki, sinonimiya hodisasi tilshunoslikning turli maktablarida turlicha talqin qilingan bo‘lsa-da, hozirgi zamonaviy qarashlar quyidagi nuqtalarda birlashadi:

1. Mutlaq sinonimlar tilda juda kam uchraydi; asosan yaqin ma’nolilik (near-synonymy) holatlari kuzatiladi.

2. Sinonimlar umumiy semantik yadro va differensial belgilar (uslub, registr, emotsionallik, kollokatsiya) asosida tavsiflanadi.

3. Sinonimiyani o‘rganishda til tizimi va nutq faoliyatining birligi hisobga olinishi kerak.

4. O‘zbek tilshunosligida sinonimlar asosan leksikologiya, uslubiyat va nutq madaniyati doirasida o‘rganilgan bo‘lib, korpus lingvistikasi va kognitiv semantika

Usullarini qo‘llash istiqbolli hisoblanadi.

METODLAR

Tadqiqotda quyidagi manbalardan foydalanilgan:

- sinonimiya nazariyasiga oid ingliz va rus tilshunosligining klassik va zamonaviy tadqiqotlari (Cruse, Lyons, Edmonds, Hirst, Apresyan, Vinogradov, Oxford ensiklopediyasi);
- ritorik-stilistik an’anani yorituvchi manbalar (Renaissance Figures of Speech, Silva Rhetoricae, Encyclopaedia Britannica);
- o‘zbek tilshunosligiga oid leksikologiya va uslubiyatga doir ilmiy ishlar (A.G‘ulomov, Sh.Rahmatullayev, A.Hojiev, N.Mahmudov, B.O‘rinboyeva, H.Ne’matov);
- o‘zbek tilidan olingan sinonimik qatorlar va ularning qo‘llanishiga doir misollar (badiiy, publitsistik va so‘zlashuv nutqidan).

Tadqiqotda quyidagi metodlar qo‘llanilgan:

- tavsifiy (deskriptiv) metod – sinonimiyaning tarixiy va zamonaviy talqinlarini tizimli bayon qilish uchun;
- qiyosiy-tarixiy metod – ikki asosiy ilmiy an’anani (ritorik-stilistik va leksik-semantik) solishtirish va ularning rivojlanish bosqichlarini aniqlash uchun;
- semantik tahlil – sinonimik qatorlar tarkibidagi birliklarning umumiy va farqlovchi semalarini ajratish uchun;
- uslubiy-pragmatik tahlil – sinonimlarning matndagi emotsional-ekspressiv va funksional xususiyatlarini baholash uchun;
- kollokatsion tahlil – sinonimlarning birikish imkoniyatlarini o‘rganish uchun.

NATIJALAR

Ritorik-stilistik an’anada sinonimiya, avvalo, nutqni kuchaytirish, ma’noni aniqlashtirish, ta’sirni oshirish va ifodani bezash vositasi sifatida tushunilgan. Klassik va Uyg‘onish davri ritorikasida synonymia ko‘pincha bir fikrni turli, lekin ma’nodosh ifodalar orqali qayta aytish usuli deb qaralgan. Bu yerda asosiy maqsad mantiqiy tenglik hosil qilish emas, balki tinglovchi yoki o‘quvchiga kuchliroq emotsional-estetik ta’sir ko‘rsatish bo‘lgan.

Masalan, “U jasur, botir, qo‘rqmas yigit edi” gapida jasur, botir, qo‘rqmas birliklari bir umumiy mazmun atrofida jamlangan. Biroq ular bu yerda oddiy nominativ vazifani emas, balki amplifikatsiya, ya’ni fikrni kuchaytirish vazifasini bajaradi. Xuddi shuningdek, “Yurtimiz obod, go‘zal, fusunkor maskandir” jumlasida ham ma’nodosh yoki yaqin ma’noli sifatlarning ketma-ket keltirilishi matnga tantanavorlik va badiiy ko‘tarinkilik baxsh etadi. Demak, bu an’anada sinonimlar orasidagi munosabat semantik identiklik darajasida emas, balki uslubiy yaqinlik va nutqiy ta’sirchanlik darajasida muhim sanaladi.

Yana bir misol sifatida publitsistik yoki notiqlik uslubidagi “Biz bu ishni tez, shiddat bilan, darhol amalga oshirishimiz kerak” kabi jumlani ko‘rsatish mumkin. Bu yerda vaqt va sur’at ma’nosiga yaqin birliklar birgalikda

qo‘llanib, nutqning buyruqohangligini va emotsional urg‘usini kuchaytiradi. Shunday qilib, ritorik-stilistik an’anada sinonimiya ko‘proq nutq hodisasi sifatida ko‘riladi: asosiy e’tibor

ularning matndagi estetik, ekspressiv va pragmatik samarasiga qaratiladi.

O‘zbek tilshunosligi nuqtayi nazaridan ham bunday hodisa, ayniqsa, badiiy matn, publitsistika va og‘zaki nutqda yaqqol namoyon bo‘ladi. O‘zbek adabiy tilida bir mazmunni turli sinonimik vositalar orqali ifodalash nafaqat fikrni kuchaytiradi, balki matnning ohangdorligini, tasviriyligini va ta’sirchanligini oshiradi. Shu jihatdan sinonimlar milliy nutq madaniyatida ifoda boyligini yuzaga keltiruvchi muhim vositalardan biridir.

Keyingi bosqichda sinonimiya masalasi faqat uslub doirasida emas, balki tilning leksik-semantik tizimi nuqtayi nazaridan tahlil qilina boshladi. Bu yondashuvda asosiy e’tibor “ma’nodosh so‘zlar nutqda qanday chiroyli eshitiladi?” degan savoldan “ular til tizimida qanday semantik munosabat hosil qiladi?” degan savolga ko‘chadi.

Bu an’anada sinonimiya tilning paradigmatik tashkiloti bilan bog‘lanadi. Ya’ni, ma’lum bir tushunchani ifodalovchi birliklar bir maydon yoki qator hosil qiladi va ular o‘zaro nozik semantik farqlar bilan ajraladi. Masalan, o‘zbek tilidagi yuz – bet – chehra qatori bir umumiy predmetni anglatadi, biroq ularning semantik-uslubiy qiymati bir xil emas. Yuz – neytral va eng umumiy birlik, bet – ko‘proq so‘zlashuv uslubida faol, ba’zan salbiy ottenkaga ega, chehra esa kitobiyroq va badiiy bo‘yoqdor birlik hisoblanadi. Buni “Uning yuzi ochiq edi”, “Uning beti qizarib ketdi”, “Uning chehrasi nurli edi” kabi misollarda aniq ko‘rish mumkin.

Xuddi shuningdek, katta – ulkan – buyuk qatori ham bir qarashda sinonimik tuyuladi. Biroq katta hajm yoki miqyosni umumiy bildirsa, ulkan shu belgining kuchaygan darajasini, buyuk esa ko‘proq ma’naviy, tarixiy yoki ijtimoiy ulug‘likni ifodalaydi. Shu sababli “katta bino”, “ulkan bino” tabiiy qo‘llansa-da, “buyuk bino” har doim ham mos kelmaydi; aksincha, “buyuk shoir”, “buyuk alloma” kabi birikmalar tabiiy hisoblanadi. Demak, leksik-semantik yondashuv sinonimlarni barcha vaziyatda o‘zaro almashinuvchi birliklar emas, balki umumiy semantik yadroga ega, lekin differensial belgilari bilan farqlanuvchi so‘zlar sifatida tahlil qiladi.

Bu holat o‘zbek tilshunosligida ham muhimdir, chunki o‘zbek tili sinonimik qatorlari ko‘pincha umumiy semantik markaz asosida birlashadi, lekin uslubiy qatlam, tarixiy manba, emotsional tus va qo‘llanish muhiti bilan farqlanadi. Shu bois o‘zbek tilidagi sinonimlarni tahlil qilishda faqat ma’no yaqinligi emas, balki nutqiy vazifa va uslubiy maqom ham hisobga olinadi.

O‘zbek tilshunosligida sinonimlar tilning uslubiy boyligi va nutq madaniyatining muhim vositasi sifatida baholanadi. Ayniqsa, nutqning aniq, o‘rinli va ta’sirchan bo‘lishida sinonimik birliklarni to‘g‘ri tanlash katta ahamiyatga ega. Chunki bir tushunchaga yaqin bo‘lgan barcha so‘zlar har qanday nutqiy vaziyatda bir xil darajada mos kelavermaydi.

Masalan, o‘lmoq va vafot etmoq birliklari denotativ jihatdan bir hodisani bildiradi, biroq uslubiy-pragmatik jihatdan farqlanadi: o‘lmoq neytral yoki oddiy nutqqa xos, vafot etmoq esa hurmat va ehtirom ottenkasini bildiradi. “Qush sovuqdan o‘ldi” va “Ustozimiz kecha vafot etdilar” gaplarida bir xil voqelik ifodalangan bo‘lsa-da, nutq egasining munosabati va uslubiy tanlovi har xil. Shuning uchun zamonaviy semantika mutlaq sinonimiyadan ko‘ra near-synonymy, ya’ni yaqin ma’nolilik tushunchasini muhimroq deb hisoblaydi [8,23].

Shuningdek, kulmoq – jilmaymoq – qahqaha otmoq qatori ham sinonimiya doirasida semantik darajalanish mavjudligini ko‘rsatadi. Kulmoq umumiy harakatni bildirsa, jilmaymoq yengil va muloyim kulishni, qahqaha otmoq esa baland va kuchli kulishni ifodalaydi. Bu esa sinonimik qatorda ham intensivlik, emotsionallik va uslubiy farqlanish bo‘lishini ko‘rsatadi [9,25]. O‘zbek badiiy matnlarida bunday farqlar qahramon ruhiy holatini, muallif munosabatini va nutq ohangini aniqroq ochib berishga xizmat qiladi.

O‘zbek tilining tarixiy taraqqiyoti ham sinonimiyaning boyishiga ta’sir qilgan. Til tarkibida turkiy qatlam bilan birga arabiy va forsiy qatlamga mansub birliklarning faol qo‘llanishi natijasida ayrim tushunchalar parallel ifoda vositalari bilan mustahkamlangan. Natijada sinonimik qatorlar nafaqat ichki semantik taraqqiyot, balki tarixiy-madaniy aloqalar mahsuli sifatida ham shakllangan. Bu hol o‘zbek tilidagi sinonimlarning tarixiy va uslubiy qimmatini oshiradi [14,32].

Mazkur ikki an’ana bir-biriga zid emas, aksincha, sinonimiyaning ikki xil ilmiy qirrasini yoritadi. Ritorik-stilistik yondashuv sinonimlarning nutqiy-funksional qiymatini, ya’ni ular matnda qanday estetik va pragmatik samara berishini ochadi. Leksik-semantik tizim yondashuvi esa sinonimlarning tizimiy-semantik tabiatini, ya’ni ular lug‘at tarkibida qaysi umumiy va farqlovchi semalar asosida bog‘lanishini tushuntiradi [13,21].

Buni bitta qator misolida ham ko‘rish mumkin: go‘zal – chiroyli – husnli. Agar “U go‘zal, chiroyli, husnli qiz edi” tarzida qo‘llansa, bu ritorik-stilistik vosita sifatida nutqni kuchaytiradi. Ammo leksik-semantik tahlilda bu so‘zlar o‘rtasidagi nozik farqlar ko‘riladi: chiroyli – neytral, go‘zal – kuchliroq ijobiy bahoga ega, husnli esa kitobiy-badiiy ottenkani anglatadi. Demak, birinchi yondashuv “bu birliklar qanday estetik ta’sir berdi?” degan savolga javob bersa, ikkinchi yondashuv “ularning semantik va uslubiy farqi nimada?” degan savolga javob beradi.

O‘zbek tilshunosligida ham ayni shu uyg‘unlik kuzatiladi. Sinonimlar bir tomondan tilning leksik boyligini tashkil

etsa, ikkinchi tomondan nutqning aniqligi, ta'sirchanligi va uslubiy mosligini ta'minlaydi. Shu sababli sinonimiya o'zbek tilida ham faqat nazariy semantik hodisa emas, balki amaliy nutqiy tanlov mezoni sifatida ham katta ahamiyatga ega [14,38].

XULOSA

Shunday qilib, sinonimiya haqidagi tarixiy tasavvurlar avval notiqlik va uslub ehtiyojlari asosida, keyin esa til tizimining semantik tashkiloti asosida rivojlangan. Birinchi bosqichda sinonimlar ko'proq ifoda boyligi va amplifikatsiya vositasi bo'lsa, ikkinchi bosqichda ular leksik-semantik munosabat sifatida nazariy tahlil ob'ektiga aylangan. Hozirgi ilmiy qarash esa bu ikki yondashuvni birlashtirib, sinonimiyani ham til tizimi, ham nutq faoliyati doirasida tushuntiradi.

O'zbek tilshunosligi uchun ham bu masala nihoyatda muhimdir. Chunki o'zbek tilidagi sinonimik qatorlar milliy tilning lug'aviy boyligini, uslubiy qatlamlarini, nutq madaniyatini va tarixiy taraqqiyotini yaqqol namoyon etadi. Demak, sinonimiya o'zbek tilida ham nafaqat ma'nodosh so'zlar munosabati, balki semantik yaqinlik, uslubiy tanlov, pragmatik moslik va tarixiy qatlam birligida namoyon bo'ladigan murakkab hodisadir.

RAQAMLI DISKURSDA EMOJILARNING TEMATIK-SEMANTIK GURUHLARI (INGLIZ VA O'ZBEK TILLARI MATERIALLARI ASOSIDA)

Jalilova Nilufar Toxirjon qizi
Namangan davlat universiteti mustaqil izlanuvchisi

Annotatsiya: *Mazkur maqolada ingliz va o'zbek tillarida emojilarning tematik-semantik guruhlari qiyosiy tahlil qilinadi. Tadqiqotda emojilarning zamonaviy raqamli kommunikatsiyadagi o'rni, ularning semantik xususiyatlari hamda lingvomadaniy jihatlari yoritilishi bilan bir qatorda emojilarning multimodal muloqot vositasi sifatida insonning emotsional holati, baholovchi munosabati va kommunikativ niyatini ifodalashda muhim ahamiyat kasb etishi asoslab beriladi. Maqolada emojilar turli tematik guruhlarga ajratilib, ularning ingliz va o'zbek til muhitida qo'llanishidagi izomorfik hamda allomorfik jihatlar aniqlanadi. Olingan natijalar emojilarni lingvistik birlik sifatida baholash hamda ularning zamonaviy kommunikatsiyadagi funksiyalarini aniqlashga xizmat qiladi.*

Kalit so'zlar: *emojilar, tematik-semantik guruhlar, qiyosiy tilshunoslik, ingliz tili, o'zbek tili, raqamli diskurs, multimodal kommunikatsiya, semantik tahlil*

THEMATIC-SEMANTIC GROUPS OF EMOJIS IN DIGITAL DISCOURSE (BASED ON MATERIALS IN ENGLISH AND UZBEKISTAN)

Abstract: *This article compares the thematic-semantic groups of emoji in English and Uzbek. In addition to highlighting the role of emoji in modern digital communication, their semantic features and linguistic aspects, the study also justifies the importance of emoji as a means of multimodal communication in expressing the emotional state, evaluative attitude and communicative intention of a person. The article divides emoji into different thematic groups and identifies their isomorphic and allomorphic aspects in their utilization in the English and Uzbek language environment. The results obtained will serve to evaluate emoji as linguistic units and to determine their functions in modern communication.*

Key words*: emoji, thematic-semantic groups, comparative linguistics, English, Uzbek, digital discourse, multimodal communication, semantic analysis*

ТЕМАТИКО-СЕМАНТИЧЕСКИЕ ГРУППЫ ЭМОДЗИ В ЦИФРОВОМ ДИСКУРСЕ (НА ОСНОВЕ МАТЕРИАЛОВ НА АНГЛИЙСКОМ И УЗБЕКИСТАНСКОМ ЯЗЫКАХ)

Abstract: *This article provides a comparative analysis of thematic-semantic groups of emojis in English and Uzbek. The study, along with highlighting the role of emojis in modern digital communication, their semantic properties and linguocultural aspects, substantiates the importance of emojis as a multimodal communication tool in expressing a person's emotional state, evaluative attitude and communicative intention. The article divides emojis into various thematic groups and identifies isomorphic and allomorphic aspects of their use in the English and Uzbek language environments. The results obtained serve to evaluate emojis as linguistic units and determine their functions in modern communication.*

Keywords: *emojis, thematic-semantic groups, comparative linguistics, English, Uzbek, digital discourse, multimodal communication, semantic analysis*

Ma'lumki, hozirgi kunda zamonaviy kommunikativ jarayonlar globallashuv va raqamli texnologiyalarning jadal rivojlanishi natijasida tubdan o'zgarib bormoqda. Xususan, ijtimoiy tarmoqlar hamda raqamli platformalarda yozma nutqning yangi shakllari paydo bo'lib, ular orasida emojilar alohida o'rin egallamoqda. Emojilar bugungi kunda nafaqat emotsional holatlarni ifodalovchi vosita, balki ma'lum semantik yuklamaga ega bo'lgan, muloqotning mazmuniy va pragmatik jihatlarini boyituvchi til birliklari sifatida namoyon bo'lmoqda. Shu bois ularni tilshunoslik nuqtai nazaridan o'rganish, ayniqsa, qiyosiy aspektda tahlil qilish dolzarb ilmiy masalalardan biridir.Tilshunoslikda raqamli diskurs, multimodal kommunikatsiya va vizual-semantik tizimlar doirasida olib borilayotgan tadqiqotlar emojilarning funksional imkoniyatlari va ularning nutqdagi rolini aniqlashga qaratilgan. Jumladan, emojilar lingvistik belgilar tizimining yangi shakli sifatida qaralib, ular orqali insonning emotsional, baholovchi va ijtimoiy munosabatlari ifodalanadi. Bunda

emojilar ko‘pincha leksik birliklar bilan uyg‘unlashib, konnotativ ma’nolarni kuchaytiradi yoki kontekstual interpretatsiyani osonlashtiradi.Ingliz va o‘zbek tillarida emojilarning qo‘llanishi, ularning semantik tasnifi va tematik guruhlarga ajratilishi masalasi hali yetarli darajada kompleks o‘rganilmagan. Ayniqsa, turli lingvomadaniy muhitlarda emojilarning qabul qilinishi va talqin etilishi o‘rtasidagi farqlarni aniqlash muhim ahamiyat kasb etadi. Chunki har bir til va madaniyat emojilarga o‘ziga xos semantik yuklama va pragmatik ma’no beradi.

Emojilarni tematik-semantik guruhlarga ajratish masalasi dastlab E. Roschning prototip nazariyasi [1:19-23] va G. Lakoffning kategoriyalash haqidagi qarashlarida keltirilgan[2:5-12]. Ta’kidlash joizki, emoji tizimi qattiq chegaralangan yopiq lug'at emas, unda ayrim birliklar kategoriya markazida, ayrimlari esa periferiyada turadi. Masalan, yuz ifodasi guruhi uchun 😀, ☺, ☹, ☹ kabi belgilar prototipik bo'lsa, ◎ yoki ◎ singari yangi emojilar periferik va ko'proq nozik emotsional farqlarni bildiradi. Ingliz va o'zbek foydalanuvchilari ham aynan prototipik birliklardan ko'proq foydalanadi, chunki ular tezroq taniladi va talqin qilinadi.Ta’kidlash joizki, emojilarni tematik-semantik tasniflashda faqat Unicode guruhlariga tayanish yetarli emas, qaysi belgi real kommunikatsiyada markaziy, qaysi biri chekka bo'lib ishlashini ham hisobga olish kerak. Mnabalar hamda misollarni o’rganish asnosid emojilarni quyidagi guruhlarga bo’lish mumkin.

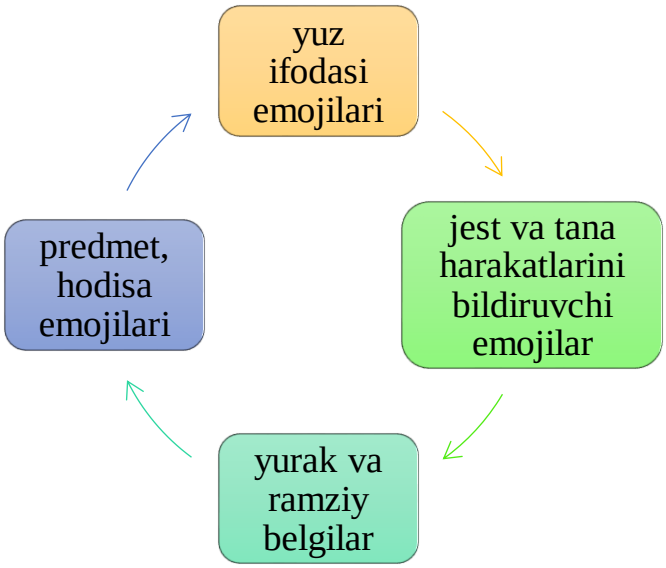
1. Ingliz va o'zbek tillaridagi raqamli diskursda eng faol tematik guruh yuz ifodasi emojilaridir. Buning asosiy sababi yozma matnda mimika va intonatsiya yo'qolishi, emoji esa aynan shu yetishmovchilikni qisman qoplashidir [3:32-34]. 😀, ☺, ☺, 😑, ☹, ☹, ◎ singari belgilar ko'p hollarda matnning emotsional holatini aniq ko'rsatadi. Ingliz tilidagi *I am happy for you* ☺ misolida ☺ emojisi do'stona xursandchilikni yumshoq tarzda bildirsa, o'zbek tilidagi *Yaxshi bo’libdi* ☺ yozuvida u ma'qullash, iliqlik va suhbatdoshga xayrixohlikni birlashtiradi. Shu bilan birga, o'zbek yozishmalarida ☺ yoki ☺ ko'pincha yosh yoki maqom jihatdan katta bo'lgan shaxsning muloyim, muvozanatli ohangini ko'rsatsa, inglizcha yozishmalarda esa u ko'proq bevosita interpersonal warmth (empatiya, samimiylik, ochiq va ishonchli muloqot) belgisi sifatida namoyon bo'ladi. Fikr qilib aytish mumkinki, yuz ifodasi emojilarining denotativ yadrosi ikki til uchun juda yaqin, chunki inson yuzining universal biologik belgilariga tayanadi, ammo ularning ijtimoiy registri ya’ni yaqinlik darajasi, hurmat ohangi, norasmiylik ko'lami til jamoasiga qarab sezilarli darajada farqlanadi.Yuz ifodasi emojilari orasida kulgi bilan bog'liq belgilar alohida semantik maydon hosil qiladi. 😂, ◎, 😂, ☺ va 😂 bir-biriga yaqin ko'rinsa-da, denotativ va emotsional intensivlik darajasi jihatidan farqlanadi [4:63-65, 66-69]. 😂 odatda kuchli kulgi yoki komiklikka reaksiya sifatida talqin qilinadi. ◎ esa yanada kuchaytirilgan, nazoratdan chiqqan kulgini ko'rsatadi. 😂 esa bir vaqtning o'zida kulgi va noqulay yengillikni bildirishi mumkin. Ingliz tilidagi *That was awkward* 😂 misolida noqulaylik komponenti markazga chiqadi, o'zbek tilidagi *Sal noqulay bo’ldi* 😂 misolida ham xuddi shunday. Ammo *Zo’r ekan* 😂 singari o'zbekcha ifodada emoji ba'zan ma'qullash va emotsional qo'llab-quvvatlash funksiyasini ham bajaradi. Umumiy ravishda aytish mumkinki, kulgi emojilarini bitta umumiy xursandchilik toifasiga birlashtirish ilmiy aniqlikni pasaytiradi, shu boisdan ularni intensifikatsiya, samimiylik va vaziyatning noqulaylik darajasiga ko’ra yana kichik guruhlarga tasniflash joiz. Aynan shu farq ingliz va o'zbek materiallarini qiyoslashda muhim ko'rsatkich bo'ladi.

2. Jest va tana harakatlarini bildiruvchi emojilar - 👍, 👎, 👋, 🙆, 🤦, ◎, 👀, 👉 - denotativ jihatdan yanada predmetlashgan ko'rinadi, chunki ular konkret jismoniy harakat yoki ishoraga tayanadi[5:41-61]. Biroq bunday emojilar ko'pincha madaniy kodlarga kuchliroq bog'langan bo'ladi [6:74-96, 47-58].Misol uchun, 👍 ingliz tilidagi qisqa javoblarda *ok*, *got it*, *approved* ma'nolariga juda yaqin turadi. A: *Send it by 5*? B: 👍. O'zbek tilidagi *Mayli* 👍 yoki *Bo’ladi* 👍 misollarida ham tasdiq ma'nosi saqlanadi, ammo ayrim vaziyatlarda u suhbatni tez yakunlash yoki ortiqcha izoh bermaslik signali bo'lib eshitilishi mumkin. 👋 emoji ingliz diskursida ko'proq ochiq olqish, muvaffaqiyatni e'tirof etish, ba'zan ironik parchalash funksiyasida ishlatiladi, o'zbek materialida esa uning denotativ yadrosi qarsak bo'lsa ham, kontekstdagi ijtimoiy baho odatda ijobiy va rag'batlantiruvchi tusga ega. Mazkur guruhdagi emojilarni tahlil qilishda denotativ harakatni emas, shu harakatning ijtimoiy talqinini hisobga olish kerak, aks holda ingliz va o'zbek kommunikativ odatlaridagi farq ko'rinmay qoladi.Ayniqsa 🙏 emojisi ikki til materialida qiziqarli denotativ-situativ farqlarni yuzaga chiqaradi. Grafik nuqtayi nazardan unda birlashtirilgan ikki kaft tasvirlanadi, shu bois u dastlab minnatdorlik, iltijo yoki ibodatga oid harakat sifatida qabul qilinadi [7:25-26]. Ingliz tilida u *thanks, praying for you, please* singari holatlarda ishlatiladi, lekin ba'zi foydalanuvchilar uni tarixan *high five* deb ham talqin qilgan. O'zbek yozishmalarida esa bu emoji ko'pincha *rahmat, iltimos, duo, hurmat* kabi ma'nolar bilan uzviy bog'langan. Masalan, *Rahmat sizga* 🙏 misolida u shunchaki minnatdorlikni emas, balki odob va samimiy kamtarlikni ham bildiradi. Xulosa sifatida aytish mumkinki, 🙏 emojisi ikki tilni qiyoslashda juda muhim indicator hisoblanadi, chunki uning denotativ qiyofasi global bo'lsa-da, asosiy interpretatsiya markazi inglizcha diskursda gratitude/request, o'zbekcha diskursda esa gratitude/respect/prayer uchligi atrofida shakllanadi. Bu holat emojining denotativ yadrodan tematik-semantik klasterga o'tishini yaqqol ko'rsatadi.

3.Yurak va ramziy belgilar guruhi ham denotativ qatlam nuqtayi nazaridan murakkab emasdek ko'rinadi, biroq ularning tematik-semantik faoliyati nihoyatda keng. ❤, 💔, 💯, ✨, 🔥, ✅ kabi emojilar ma'lum bir predmetni emas, ko'proq ramziy konseptni ko'rsatadi. R. Barthes va U. Eco ramziy belgilar dastlabki ko'rinishdan ko'ra kengroq madaniy kodni ishga solishini ta'kidlashgan [8:74-96,47-58]. Ingliz tilida ❤ nafaqat romantik sevgi, balki qo'llab-quvvatlash,

yoqtirish, hamfikrlik, kabi baholovchi ma'nolarda ishlatiladi. O'zbek tilidagi *Rahmat* ❤ yoki *Juda chiroyli chiqibdi* ❤ misollarida ham iliqlik va ma'qullash mavjud, ammo belgi muhitga qarab yaqinlik darajasini ham indekslaydi, ya'ni rasmiyroq yozishmalarda u kamroq, yaqin doiradagi muloqotda ko'proq uchraydi. 💯 inglizcha yozishmalarda *absolutely right* semantikasida faol bo'lsa, o'zbek yoshlar nutqida ham global internet madaniyati ta'sirida *gap yo'q, to'g'ri, rosmana zo'r* mazmuniga yaqinlashgan.Ta'kidlash joizki, bu guruhdagi emojilar uchun denotativ yadro ba'zan minimal bo'ladi, shu sababli ularni tematik-semantik tasniflashda ramziylik darajasi alohida parametr sifatida olinishi kerak.

4. Predmet, hodisa va vaziyatga ishora qiluvchi emojilar - 🚀, 🎁, 🍽, ☕, 🌙, ☂, 🚗, 📚 va boshqalar - denotativ ma'no jihatidan nisbatan aniqroqdir. Bunday birliklar ko'pincha yozishmadagi mavzuni ixchamlashtirish yoki butun sintagmani bitta belgi bilan almashtirishga xizmat qiladi [9:41-61]. Ingliz tilidagi *Coffee*☕ *later*? xabarida ☕ emojisi nafaqat ichimlikni, balki uchrashuv taklifini bildiruvchi ssenariyni faollashtiradi. O'zbek tilidagi *Imtihonga tayyorlanish kerak* 📚 misolida ham predmetiy belgi atrofida butun voqeiy freym tiklanadi. Ch. Fillmore freym semantikasi bo'yicha ma'no alohida so'zda emas, balki shu birlik bilan bog'langan ssenariy va bilim tuzilmasida shakllanadi deya ta'kidlagan [10:111-137]. Aynan freym yondashuvi predmet emojilarining denotativ yadrodan keng situativ ma'noga o'tishini tushuntirishda eng qulay modeldir. Ingliz va o'zbek tillarida bunday emojilar ko'pincha bir xil ssenariyni chaqiradi, lekin madaniy fon tufayli ayrim freymlar lokal tus oladi. Masalan, 🌙 emojisi inglizcha diskursda shunchaki *good night* signali bo'lsa, o'zbek matnida u tun, osoyishtalik yoki diniy-bayramiy kayfiyat bilan bog'lanishi mumkin.



1-rasm. Ingliz va o'zbek tillarida emojilarning tematik-semantik guruhlari

Kuzatishlar shuni ko'rsatadiki, ingliz tilidagi raqamli muloqotda denotativ yadro ko'pincha tezkor reaksiya va ixcham bahoni yetkazish ehtiyoji bilan birikadi. Korpusga asoslangan tadqiqotlar emojilar tez-tez qisqa javob, reaksiya sifatida ishlatilishini ko'rsatadi. O'zbek tilidagi yozishmalarda ham ixchamlik muhim, biroq ko'pincha emoji bilan birga odob, hissiy qo'llab-quvvatlash yoki hurmatni ko'rsatuvchi so'zlar ham saqlanadi.Ingliz yozishmalarida emoji ko'proq verbal qisqarishni kompensatsiya qilsa, o'zbek yozishmalarida u verbal ifodaning emotsional va etik qatlamini kuchaytiradi. Shu sababli tematik guruhlarni ikki til bo'yicha qiyoslashda forma va funksiyaning birgalikdagi ko'rinishiga e'tibor qaratish zarur.

O'zbek til materialida ayrim emojilar ma'lum madaniy semantik ustunlikka ega ekanini ham ko'rish mumkin. Masalan, 🤲, ☺, ◉, 🌙, ◉ singari belgilar hurmat, duogo'ylik, tilak, murosa va yaqinlik semalari bilan tez-tez birikadi. Ingliz tilida shu emojilar ishlatilsa-da, ularning har doim ham ayni darajadagi marosimiy yoki ijtimoiy-normativ vazni sezilmaydi[11:33-34].Xulosa qilib aytish mumkinki, emoji global kod bo'lgani bilan, talqinning markazida turuvchi emotsional ssenariy mahalliy madaniyatda shakllanadi. Masalan, o'zbek muloqotida ☺ ba'zan samimiy quvnoqlikdan ko'ra xushmuomalalik va muloyim ijobiylikka yaqinlashadi. Demak, denotativ tahlilning o'zida ham lingvomadaniy parametrni chetga surib bo'lmaydi aks holda bir xil tasvirga ortilgan turlicha ijtimoiy ma'no ko'rinmay qoladi.

2-jadval . Ingliz va o'zbek tillarida faol qo'llanadigan emojilarning tematik-semantik profili

Emoji	Tematik guruh	Denotativ yadro	Ingliz tilidagi tipik profil	O'zbek tilidagi tipik profil
☺	Yuz ifodasi	Yumshoq tabassum	Polite friendliness, restrained approval	Muloyim ijobiylik, yumshoq rozilik, mojaroni

Emoji	Tematik guruh	Denotativ yadro	Ingliz tilidagi tipik profil	O'zbek tilidagi tipik profil
				kattalashtirmaslik
😂	Kulgi emojilari	Kuchli kulgi	Humour approval, shared laughter, ba'zan ridicule	Ma'qullovchi kulgi, samimiy reaksiya, ba'zan istehzo
👍	Jest emojilari	Tasdiq ishorasi	Approval, acknowledgement, quick response	Tasdiq, bo'ladi/xo'p, ba'zan suhbatni yakunlash
🙏	Jest-ramziy	Birlashtirilgan kaftlar	Thanks, request, prayer	Rahmat, iltimos, duo, hurmat
❤️	Ramziy-emotsional	Ijobiy affekt / sevgi	Love, support, like, encouragement	Mehr, ma'qullash, yaqinlik, samimiy qo'llab-quvvatlash
☕	Predmet-freymli	Ichimlik / uchrashuv signali	Coffee plan, break, casual meeting	Choy/qahva, suhbat, mehmondo'stlik yoki tanaffus freymi

Jadvaldagi ma'lumotlar bir necha muhim tendensiyani ko'rsatadi. Birinchidan, yuz ifodasi emojilari denotativ jihatdan eng universaldir, chunki ular inson mimikasiga tayanadi. Shu bois ingliz va o'zbek tilida asosiy talqinlar ko'pincha yaqin keladi. Ikkinchidan, jest va ramziy belgilar ko'proq ijtimoiy va madaniy kodlar bilan yuklangan bo'ladi ayniqsa 👍, 🙏, ❤️, 🖐️ kabi birliklarda shu holat yorqin. Uchinchidan, predmet emojilarining denotativ ma'nosi aniq bo'lsa-da, ular tezda voqeiy freymga ulanib ketadi. Masalan, ☕ belgisi nafaqat ichimlikni, balki suhbat, tanaffus yoki taklifni ham bildiradi. Bunday xulosalar korpus va diskursga asoslangan tadqiqotlar bilan hamohangdir [12:53-55, 63-69, 82-87]. Umumiy xulosa sifatida aytish mumkinki, tematik-semantik guruhlar tasnifi statik katalog bo'lmasligi kerak, u real kommunikatsiyada qaysi emojilar markazda, qaysilari esa periferiyada ekanini ko'rsatadigan dinamik model bo'lishi zarur. Shu nuqtayi nazardan, ingliz va o'zbek misollarini qiyoslash tasnifning qanchalik funksional ekanini sinovdan o'tkazadi.

RELYATSION PREDIKATLAR VA ULARNING MA'NOLARI

Usmonova Huriniso Sharapovna
Namangan davlat universiteti O'zbek tilshunosligi kafedrasi
professori, filologiya fanlari doktori

Annotatsiya: *Propozitsiya gapdan, avvalo, mundarijasi nuqtayi nazaridan farq qiladi. Chunki gap shakl va mazmun munosabatidan tashkil topgan butunlik sifatida e'tirof etilsa, propozitiv tuzilish uning faqat mazmuniy tuzilishining bir tomoniga tegishli sanaladi. Shu bilan birga, propozitsiya ma'lum voqea-hodisani o'zaro mantiqiy teng bo'lgan predmetlar munosabatini ifodalashi bilan ham gapdan farq qiladi.*

Kalit so'zlar: *Propozitsiya, til kodlari, nutqiy jarayon, inson, ong, nominatsiya, denotat, nutqiy faoliyat, sintaktik qurilma, relyatsion predikat, valentlik, sintaktik uzvlar, an'anaviy tilshunoslik, mazmuniy sintaksis, til va tafakkur.*

ОТНОСИТЕЛЬНЫЕ ПРЕДИКАТЫ И ИХ ЗНАЧЕНИЯ

Аннотация: *Предложение отличается от предложения прежде всего своим содержанием. Потому что если предложение признается как целое, состоящее из отношения формы и содержания, то пропозициональная структура считается принадлежащей только одному аспекту его содержательной структуры. В то же время предложение отличается от предложения тем, что выражает отношение между логически равными объектами.*

Ключевые слова: *Предложение, языковые коды, речевой процесс, человек, сознание, номинация, денотат, речевая деятельность, синтаксический аппарат, реляционный предикат, валентность, синтаксические элементы, традиционная лингвистика, смысловой синтаксис, язык и мышление.*

RELATIONAL PREDICATES AND THEIR MEANINGS

Annotation: *A proposition differs from a sentence primarily in terms of its content. Because if the sentence is recognized as a whole consisting of the relationship of form and content, the propositional structure is considered to belong only to one aspect of its substantive structure. At the same time, a proposition differs from a sentence in that it expresses a relationship between logically equal objects.*

Key words: *Proposition, language codes, speech process, human, consciousness, nomination, denotation, speech activity, syntactic device, relational predicate, valence, syntactic elements, traditional linguistics, meaningful syntax, language and thinking.*

KIRISH

Har qanday nutqiy jarayon til kodlari (belgilari) yordamida insonning obyektiv olam haqidagi fikrlarini ifodalash jarayoni sanaladi. Shunday ekan, nutq obyektiv olam bilan ong orqali bog'langandir. Obyektiv olamning muayyan parchasi inson ongida aks etadi va bu aks etgan borliq uzvlarining umumlashgan obrazlari til kodlari yordamida o'z ifodasini topadi.

Ko'rinadiki, til va tafakkur o'zaro uzviy aloqadordir. Inson miyasida ong va til ikki nisbiy mustaqil jihatni tashkil etadi. Ularning har qaysisi o'ziga xos bilimlar saqlanadigan xotirasiga va ularni faollashtiradigan vositalariga ega. Bu vositalar ko'rsatilgan ikki turdagi bilimlar xotirasidan muayyan voqea-hodisani bayon qilish uchun zarur bo'lganlarini ajratib olib, harakatga keltiradi[1,6] . Shunday qilib, bu ikki jihat bir-biri bilan shu qadar mustahkam aloqadorki, ong faoliyati har doim til faoliyatini kuzatib boradi va o'z tarkibiga ko'ra yagona va murakkab nutqiy tafakkur jarayonini hosil qiladi.

Ong – bu insonning o'zini qurshab turgan olam haqidagi bilimlari majmuasidir. Inson bunday bilimlarga olamni bevosita kuzatish jarayoni orqaligina emas, balki boshqalardan axborot olish orqali ham ega bo'ladi. Shuning uchun insonning bilish faoliyati ham til sistemasi yordamisiz amalga oshmaydi.

Til «xotirasi»da saqlanadigan asosiy bilim – bu so'z va uning ma'nolari haqidagi bilimdir. Bu bilimni faollashtiruvchi vosita esa grammatik vositalardir.

MAVZU BO'YICHA ADABIYOTLAR TAHLILI

80-yillardan boshlab o‘zbek tilshunosligi oldida o‘rganilayotgan obyektni tavsifiy bosqichdan tadqiqot bosqichiga ko‘tarish o‘zbek tilining barcha sath birliklarini sistem-struktur o‘rganish metodikasi nuqtayi nazaridan tadqiq qilish vazifasi ko‘ndalang qilib qo‘yildi. Shu yillardan boshlab gapga sistema sifatida yondashuv gapning eng muhim struktur markazi sifatida kesim e’tirof etila boshlandi va gapning boshqa bo‘laklari kesimning kengaytiruvchilari sifatida izohlana boshlandi. Bunday g‘oya A.Nurmonov, N.Mahmudov, H.Ne’matovlar tomonidan olg‘a tashlangan bo‘lsa, keyinchalik R.Sayfullayeva, M.Qurbonova, M.Boshmonov, L.Raupova va boshqalar tomonidan rivojlantirildi. Muammoni Gap tarkibida mazmuniy va grammatik tayanch nuqta predikativlik shaklidagi predikat, ya’ni kesim hisoblanadi. Boshqa barcha bo‘laklar kesimning «bo‘sh o‘rinlari»ni to‘ldirib, unga nisbatan ma’lum vaziyatda keladi. Kesimning «bo‘sh o‘rinlari»ni to‘ldirib, ma’lum sintaktik vaziyatda (ega, to‘ldiruvchi, hol) kelgan sintaktik birliklar moddiy jihatdan bir yoki bir necha morfologik shakllardan tashkil topadi.Nutqiy jarayonda kerakli so‘zlarni tanlash va ularni bevosita nutqqa olib kirish so‘zlovchining oldindan so‘z haqida ega bo‘lgan bilimlariga tayanadi.

TAHLIL VA NATIJALAR

Har qanday nutqiy jarayon ikki bosqichni taqozo etadi: birinchi bosqich (fikrni shakllantirish), ikkinchi bosqich (kommunikasiya maqsadida fikrni moddiy vositalar orqali yuzaga chiqarish).

Nutqiy tafakkur jarayonining birinchi bosqichida ongning faollashtirilgan elementlari alohida kadrlarga bo‘linadi va ularning har qaysisi alohida voqea yoki hodisalarni aks ettiradi. Fikr oqimining alohida kadrlarga bo‘lish vositasi relyatsion predikatlar va ularning konkret ma’nolaridir. Relyatsion predikatlar va ularning ma’nolari birikuvidan **propozitsiya** vujudga keladi [2,6].

Propozitsiya tushunchasi hozirgi tilshunoslikda keng qo‘llanib, muayyan sintaktik qurilma vositasida ifodalangan obyektiv voqelikni ifodalaydi.

Har qanday gap muayyan propozitsiyani ifodalasa ham, lekin har qanday propozitsiyaning gap orqali ifodalanishi shart emas. Bundan shu narsa ma’lum bo‘ladiki, propozitsiya gapning mazmun tomoniga daxldor bo‘lib, propozitsiya va gap tushunchalari bir-biriga teng emas.

Propozitsiya gapdan, avvalo, mundarijasi nuqtayi nazaridan farq qiladi. Chunki gap shakl va mazmun munosabatidan tashkil topgan butunlik sifatida e’tirof etilsa, propozitiv tuzilish uning faqat mazmuniy tuzilishining bir tomoniga tegishli sanaladi. Shu bilan birga, propozitsiya ma’lum voqea-hodisani o‘zaro mantiqiy teng bo‘lgan predmetlar munosabatini ifodalashi bilan ham gapdan farq qiladi. Masalan: 1) ***Aziz ukasiga qarzga pul berdi***; 2) ***Ukasi Azizdan qarzga pul oldi***; 3) ***Pul ukasi tomonidan Azizdan qarzga olindi***.

Yuqoridagi gaplarning hammasi bir xil ishtirokchilarni o‘z ichiga olgan bir umumiy voqea-hodisani, bir propozitsiyani ifodalaydi. Ularning ishtirokchilari ***Aziz*** va ***uning ukasi*** hamda ular o‘rtasidagi ***pul*** muomalasidir. Bu voqeaning turli jumlalar orqali ifodalanishiga sabab shuki, bir o‘rinda tayanch nuqta sifatida ***Aziz*** olinsa, ikkinchi o‘rinda ***uning ukasi***, uchinchi o‘rinda esa ***pul olinadi***. Masalan, ***Anvar Ra’noga gul uzatdi*** (A.Qodiriy) gapi ***Ra’no Anvardan gul oldi, Anvar Ra’no uchun gul oldi*** singari ifodalar bilan bir propozitsiyani ifodalash bilan bir sintaktik paradigmani tashkil qiladi. Paradigma a’zolarini birlashtiruvchi vosita propozitiv ma’no sanaladi. Har uchala gap bir xil propozitiv tuzilishga ega: S-subyekt agens + subyekt patsiens + (predikat)P. Yuqoridagi misollardan ko‘rinadiki, propozitiv struktura bilan shakliy struktura farqlanadi.

Propozitsiyaning ifodalanishida relyatsion predikat katta ahamiyatga ega. Relyatsion predikatni ayrim tilshunoslar parmalangan taxtaga qiyoslaydilar. Taxtada parmalangan teshiklar yog‘ochdan yasalgan mixchalar bilan qoplangani kabi, relyatsion predikatlar ham muayyan bo‘sh o‘rinlarga, bo‘sh kataklarga ega bo‘ladi. Relyatsion predikatlarning ana shunday bo‘sh o‘rinlarining to‘ldirilishi propozitsiyani vujudga keltiradi. Masalan, yuqoridagi jumlalarning hosil bo‘lishiga asos bo‘lgan ***qarz bermoq*** relyatsion predikati uchta bo‘sh o‘ringa - bo‘sh katakka ega: a) qarz beruvchi; b) qarz oluvchi va d) qarz qiymati yoki qarz vositasi (qarzning nima ekanligi). Ana shu bo‘sh kataklarning konkret leksik birliklar bilan to‘ldirilishi natijasida uch o‘rinli predikat propozitsiyaga aylantiriladi.

Shunday qilib, propozitsiya ifodalash uchun ma’lum miqdordagi bo‘sh o‘rinlarga ega bo‘lgan relyatsion predikatlar katta ahamiyatga ega bo‘lsa ham, lekin shu predikatning o‘zi propozitsiya uchun kifoya qilmaydi. Predikatning propozitsiya ifodalashga o‘tishi uchun u o‘zining bo‘sh o‘rinlarini tegishli leksik birliklar bilan to‘ldirishi lozim bo‘ladi. Demak, relyatsion predikat o‘z valentliklarini yuzaga chiqarib, tarkibi kengayishi natijasida ularning hammasi birgalikda muayyan propozitsiyani ifodalashga o‘tadi.

Gapning tarkibidagi sintaktik uzvlarning roli qaysi a’zo qaysi a’zoga bog‘lanish xususiyati bilangina chegaralanmaydi. Masalan, ***U kitob o‘qidi*** va ***Kitob u tomonidan o‘qildi*** gaplari bir xil so‘zlardan tashkil topgan. Bu so‘zlar har ikki gapda bir ma’noda qo‘llanadi va bir xil «tobelik shajarasi»ni hosil qiladi. Lekin yuqoridagi gaplar bir xil so‘zlarning turli sintaktik pozitsiyani egallagani bilan farq qiladi. Birinchi gapda u ega pozitsiyasida, harakat tushgan obyekt to‘ldiruvchi pozitsiyasida, ikkinchi gapda esa harakatni bajaruvchi subyekt (u) to‘ldiruvchi pozitsiyasida, harakatni qabul qilgan obyekt esa ega pozitsiyasida qo‘llangan. Shunday qilib, sintaktik qurilmada ishtirok etayotgan a’zolarning qanday so‘zlardan ifodalanishigina emas, balki shu a’zolarning qanday sintaktik pozitsiyasida (vaziyatda)

kelishi ham gapning mazmuniy tuzilishi uchun ahamiyatlidir. Chunki ikki va undan ortiq gaplar bir xil so‘zlardan tashkil topishi bilan umumiylikni tashkil etsa ham, lekin shu so‘zlarning turli vaziyatlarda kelishi bu gaplarning boshqa-boshqa ekanligini ta’minlaydi. Demak, bunday o‘rinlarda gapning asosiy farqlovchi (differensial) belgisi shu gapda ishtirok etayotgan uzvlarning moddiy tomoni emas, balki ularning qanday vaziyatni egallash belgisi sanaladi.

Ko‘rinadiki, gap uchun shu gapni tashkil etgan uzvlarning substansional (moddiy) tomoni qanday ahamiyatga ega bo‘lsa, shu uzvlarning egallagan vaziyati ham shunchalik ahamiyatlidir.

Bu shuni ko‘rsatadiki, gapning mazmuni u ifodalagan obyektiv borliqqa muvofiq kelishi uchun shu borliq qismlarini (fragmentlarini) to‘g‘ri nomlashgina kifoya qilmaydi. Bundan tashqari, ular o‘rtasidagi munosabatni ham to‘g‘ri ifodalash lozim bo‘ladi.

Shuni ta’kidlash lozimki, u yoki bu axborotni ifodalash uchun so‘zlovchining muayyan so‘zlarni tanlashi faqat ma’lum obyektiv voqelikni, ma’lum sintaktik vaziyatni to‘g‘ri ifodalash uchun zarur bo‘lgan sintaktik konstruksiya tanlangandan so‘nggina amalga oshadi. Shuning uchun ham E.Kurilovich sintaktik ma’no leksik ma’noga nisbatan birlamchi ekanligini ta’kidlaydi[3,179].

Nutqiy faoliyat jarayonida sintaktik qurilma tanlanishi bilan birga bu qurilmani to‘ldirish uchun so‘z ham tanlanadi. Bu har ikki jarayon nominatsiya jarayoni bilan uzviy bog‘liqdir. Shuning uchun ham V.G.Gak: «So‘z va sintaktik qurilma jumla qurish jarayonida turli darajada nominativ va uyushtirish vazifasini bajaradi», – degan edi [4,54]. Bu shuni ko‘rsatadiki, faqat so‘zgina emas, balki gap qolipi ham nominativ aspektda o‘rganilishi mumkin.

Gap qurilishiga so‘z birikmalari nuqtayi nazaridan yondashuvga muvofiq, gap nominativ birliklarning - so‘z va so‘z birikmalarining birlashuvi sifatida qaraladi. Mazmuniy sintaksis nuqtayi nazaridan esa gap ishtirokchilari harakatga keltirilgan voqelik (vaziyat) sifatida o‘rganiladi. Ishtirokchilar “aktantlar” deb yuritiladi. Shunday qilib, gapning mazmuniy ishtirokchilari – aktantlar bilan bu aktantlarning sintaktik bog‘lanishdagi vazifalari bir xil emas. Shuning uchun ham mazmuniy ishtirokchilar bilan ularning egallagan sintaktik vaziyatlari o‘rtasidagi munosabatni o‘rganish ham keyingi davrda sintaksis mutaxassislari diqqatini ko‘proq o‘ziga jalb eta boshladi. Buning natijasida mazmuniy sintaksisda gapning shakl va mazmuni o‘rtasidagi munosabatni o‘rganishga alohida e’tibor berila boshlandi.

An’anaviy tilshunoslikda sintaksis bo‘yicha olib borilgan tadqiqiqotlarda asosiy e’tibor sintaktik birliklarning shakliy tomoniga, shakliy tuzilish birliklarining o‘zaro bog‘lanish xususiyati, o‘zaro tobe munosabatda tobe vaziyatdagi sintaktik birlikning vazifasi hamda uning qanday so‘zlardan ifodalanishini aniqlashga qaratildi. Sintaktik birliklarning mazmuni haqida fikr yuritilganda shu sintaktik birliklarning tafakkurning mantiqiy tuzilishiga munosabatiga ahamiyat berildi. Buning natijasida tadqiqotchi gapning asosiy ifodalagan mazmunini aniqlash bilan birga, shu sintaktik birlikning umumiy sintaktik holatini (modelini) belgilashga ham harakat qildi.

Mazmuniy sintaksisning rivojlanishi natijasida gap sintaktik tuzilishi bilan uning mazmuniy tuzilishi o‘rtasidagi munosabat yo‘nalishi, mazmuniy tuzilish mohiyatini belgilash bir muncha o‘zgardi. Bunga muvofiq, gap (jumla) to‘liq til belgisi hisoblanadi va asosiy e’tibor shu belgi orqali ifodalangan vaziyat (referent) o‘rtasidagi munosabatni yoritishga qaratiladi. Ana shu asosda sintaktik birlikning struktur modeli va uning mazmuni o‘rtasidagi munosabat ochib beriladi.

Har qanday sintaktik birlik orqali ifodalangan vaziyat universallik mohiyatiga ega. Chunki obyektiv reallikning inson ongida aks etishi, o‘z tasvirini topishi, u qaysi tilga, qaysi millatga mansub bo‘lishidan qat’i nazar, bir xillik kasb etadi.

Sintaktik birliklar orqali ifodalangan vaziyatning ana shu universalligiga e’tiborning kuchayishi natijasida turli sistemadagi tillarda muayyan sintaktik vaziyatning turlicha sintaktik tuzilish bilan ifodalanishini o‘rganadigan qiyosiy va tipologik tadqiqotlarni maydonga keltirdi.

Shunday qilib, bir tomondan, gapning semiotik talqini, ya’ni uning belgi sifatidagi izohi, ikkinchi tomondan, gapning nominativ tomonini yoritishga asosiy e’tibor qaratiladigan mazmuniy sintaktik tahlilning kuchayishi va nihoyat A.Gardinerning F. de Sossyur qarashlariga qo‘shimcha ravishda nutq nazariyasining rivojlanishi sintaktik tadqiqotlar yo‘nalishini qayta ko‘rib chiqishga olib keldi.

Buning natijasida tilshunoslikda qo‘llanib kelingan formal mantiq va psixologiya kategoriyalari semiotika va mantiqiy semantika kategoriyalari bilan almashtirildi. [Shakl (ifodalovchi) – ifodalanmish (ma’no) – predmet, vaziyat] semantik triadasi sintaktik tahlilning asosiy metodiga aylanib qoldi.

Gapning nominativ aspektini ifodalash uchun ko‘proq propozitsiya atamasidan foydalaniladigan bo‘ldi. Bu atama tilshunoslikka mantiq va falsafa ta’sirida shu fanlardan kirib keldi. Mantiq, falsafa va ularning ta’sirida tilshunoslikda qo‘llanilayotgan propozitsiya atamasi gapning modallik belgilarini ifodalovchi qismlaridan xoli bo‘lgan fe’l va otlar o‘rtasidagi zamondan tashqaridagi munosabatni ifodalaydi. Modal ma’no tarkibiga esa inkor, zamon, mayl ma’nolari kiritiladi. Demak, inkor-tasdiqlik, zamon va mayl ma’nolaridan xoli bo‘lgan predikat va uning argumentlari o‘rtasidagi munosabat propozitsiyaning asosi bo‘ladi. Bu shuni ko‘rsatadiki, har qanday gap asosida ma’lum propozitsiya yotsa ham, lekin faqat propozitsiyani ifodalash belgisi sintaktik birlikni gap bo‘lib shakllanishi uchun kamlik qiladi.

Har qanday gapning gap bo‘lib shakllanishi uchun propozitsiyaga yana modusni qo‘shish kerak bo‘ladi. Ana shu modus propozitsiyaga tasdiq-inkorlik, zamon va mayl ma’nosini qo‘shadi va propozitsiya ifodalovchi leksik elementlar sistemasiga modus ifodalovchi grammatik elementlar sistemasining qo‘shilishi har qanday propozitsiya ifodalovchi sintaktik qurilmani gapga aylantiradi. Shunday qilib, har qanday gapning semantik tuzilishini quyidagicha ifodalash mumkin bo‘ladi: S MQP. Bu o‘rinda S-gapning ramzi, M-modallik ramzi, P-propozitsiya ramzi. Ko‘rinadiki, muayyan propozitsiyaning ma’lum modus ma’nolarni ifodalovchi lisoniy vositalar yordamida ifodalanishi gap sanaladi. Masalan, ***Cho‘ponota tog‘ining etaklarida, naryog‘i Zarafshon sohilida yuzlab o‘tovlar va chodirlar paydo bo‘lgan.***

Yuqoridagi butun gapning ramzi S bilan ifodalansa, paydo bo‘lgan kesimi tarkibidagi kesimlik ma’nosi shaxs-son (personallik), zamon (temparallik), bo‘lishli-bo‘lishsizlik (modallik), tasdiq-inkorlik (negativlik)ni ifodalovchi shakllar sistemasi - MQR orqali ifodalanadi.

Bunga muvofiq, ma’lum propozitsiya ifodalovchi sintaktik birliklarning gap yoki gap emasligi o‘rtasidagi differensial farq modusni ifodalovchi lingvistik birliklarning mavjudligi yoki mavjud emasligidir.

XULOSA

Gapning sintaktik tuzilishi shu kunga qadar gap bo‘laklari rukni ostida o‘rganib kelindi. Gap bo‘laklari esa tobe bog‘lanish tarkibida, hokim bo‘lakka nisbatan belgilanadi. Bunga ko‘ra, gap bo‘laklari ikki darajaga – bosh va ikkinchi darajalarga ajratildi.

Bugungi kunda gap bo‘laklarining bunday ajratilishida qator kamchiliklarning mavjudligi ma’lum bo‘lib qoldi. Shuning uchun ham gapni bo‘laklarga ajratishning yangi-yangi tamoyillari vujudga kelmoqda.

Hozir fanimizda gapning tarkibiy (struktur) qismlarini ajratishda: a) bosh bo‘laklar, ikkinchi darajali bo‘laklar, bog‘lanmagan bo‘laklar; b) bosh bo‘laklar, ikkinchi darajali bo‘laklar, uchinchi darajali bo‘laklar; d) gap bo‘laklari va bo‘lakning bo‘laklari; e) funksional va nofunksional (amaliy va noamaliy) bo‘laklar; f) gapning markazi, gap kengaytiruvchilari va so‘z kengaytiruvchilari kabilarni farqlash nazariyalari keng ommalashgan. Fanda shakllangan va ma’lum davr yashagan har bir ilmiy yondashuv va yo‘nalishning, har bir talqinning o‘ziga xos durdonasi, samarali urug‘i mavjudligi fanlar tarixidan ma’lum. Shuning uchun fanda ko‘p yo‘nalishlilik shakllangan va rivojlangan davrda turli xil talqin va tavsiflarni qiyosiy o‘rganish, har bir yo‘nalishdan unumdor talqinlarni saralash va ulardan sohaning chigal masalalari yechimini berishda oqilona va tadbirkorona foydalanish alohida ahamiyat va mohiyat kashf etadi va ilmiy taraqqiyotning keskin ilgarilashiga va yuksalishiga turtki bo‘ladi.

MAQOLLARNING TIL VA NUTQDAGI O‘RNI HAMDA ULARNING DISKURSIV TABIATI

Ibragimova Lola Asatullo qizi
PhD, Ikkinchi chet tillar kafedrasi o‘qituvchisi Samarqand davlat chet tillar instituti
Email: 1995ibragimovalola@gmail.com

Annotatsiya: *Mazkur maqolada o‘zbek va ingliz maqollari aksiologik nuqtai nazardan qiyosiy tahlil qilinadi. Tadqiqot davomida maqollarda aks etgan halollik, mehnatsevarlik, sabr-toqat kabi universal qadriyatlar hamda ularning milliy-madaniy xususiyatlari aniqlanadi. Natijalar shuni ko‘rsatadiki, o‘zbek maqollarida jamoaviylik va ijtimoiy uyg‘unlik, ingliz maqollarida esa individualizm va pragmatik yondashuv ustunlik qiladi. Maqollar axloqiy me’yorlarni uzatuvchi va jamiyat xulq-atvorini tartibga soluvchi muhim lingvistik vosita sifatida baholanadi.*

Kalit so‘zlar: *maqol, paremiologiya, aksiologiya, lingvokulturologiya, semantika, pragmatika, diskurs, nutq, axloqiy qadriyatlar, jamoaviylik, individualizm, metafora, madaniy qadriyatlar, qiyosiy tahlil, o‘zbek va ingliz maqollari.*

СОДЕРЖАНИЕ ПОСЛОВИЦ В ЯЗЫКЕ И РЕЧИ И ИХ ДИСКУРСИВНЫЕ ОСОБЕННОСТИ

Аннотация: *В данной статье проводится сравнительный анализ узбекских и английских пословиц с аксиологической точки зрения. В ходе исследования выявляются универсальные ценности, отражённые в пословицах, такие как честность, трудолюбие и терпение, а также их национально-культурные особенности. Результаты показывают, что узбекские пословицы акцентируют коллективизм и социальную гармонию, тогда как английские - индивидуализм и прагматический подход. Пословицы рассматриваются как важное лингвистическое средство, передающее моральные нормы и регулирующее социальное поведение.*

Ключевые слова: *пословица, паремиология, аксиология, лингвокультурология, семантика, прагматика, дискурс, речь, нравственные ценности, коллективизм, индивидуализм, метафора, культурные ценности, сравнительный анализ, узбекские и английские пословицы.*

THE CONTENT OF PROVERBS IN LANGUAGE AND SPEECH AND THEIR DISCURSIVE FEATURES

Abstract: *This article presents a comparative analysis of Uzbek and English proverbs from an axiological perspective. The study identifies universal values reflected in proverbs, such as honesty, diligence, and patience, as well as their national and cultural characteristics. The results show that Uzbek proverbs emphasize collectivism and social harmony, whereas English proverbs highlight individualism and a pragmatic approach. Proverbs are regarded as an important linguistic tool that conveys moral norms and regulates social behavior.*

Keywords: *proverb, paremiology, axiology, linguoculturology, semantics, pragmatics, discourse, speech, moral values, collectivism, individualism, metaphor, cultural values, comparative analysis, Uzbek and English proverbs*

KIRISH

Maqollar xalqning ko‘p asrlik tajribasi, donoligi va axloqiy qarashlarini o‘zida mujassam etgan qisqa, obrazli ifodalardir. Ular nafaqat til birligi, balki jamiyatning madaniy va ma’naviy qadriyatlarini aks ettiruvchi muhim vosita hisoblanadi. Wolfgang Mieder ta’kidlashicha, maqol - bu “donolik, haqiqat, axloqiy qarashlar va an’anaviy fikrlarni obrazli va ixcham shaklda ifodalovchi mashhur ibora” bo‘lib, u xalq tajribasining umumlashtirilgan natijasidir. Shu jihatdan maqollar til tizimida barqaror birlik bo‘lishi bilan birga, ijtimoiy ong va madaniy xotiraning muhim tashuvchisi sifatida ham namoyon bo‘ladi.

Tadqiqotchilar maqollarni nafaqat lingvistik, balki kognitiv va ijtimoiy hodisa sifatida ham baholaydilar. Jumladan, N.R. Norrick fikriga ko‘ra, maqollar kommunikativ jarayonda muayyan vaziyatni baholash, umumlashtirish va ijtimoiy tajribani uzatish funksiyasini bajaradi. Ular nutqda qo‘llanilganda, oddiy gapdan ko‘ra kuchliroq ta’sir ko‘rsatib, tinglovchiga tayyor xulosa va baho beradi.

Shuningdek, Archer Taylor maqollarni xalq donoligining eng qadimiy va barqaror shakllaridan biri sifatida ko‘rib, ularning asosiy xususiyati — qisqa shaklda keng ma’noni ifodalash ekanligini ta’kidlaydi. Bu esa maqollarning universal va uzoq yashovchan lingvistik birlik ekanligini ko‘rsatadi.

Maqollar orqali insonlarning to‘g‘ri yoki noto‘g‘ri xulq-atvori baholanadi, jamiyat tomonidan qabul qilingan axloqiy me’yorlar mustahkamlanadi. Permyakov G.L. fikricha, maqollar “ijtimoiy stereotiplarni ifodalovchi va xulq-atvorni tartibga soluvchi model birliklar” bo‘lib, ular orqali jamiyat o‘z a’zolariga qanday yashash kerakligini bilvosita o‘rgatadi. Shu sababli maqollar nafaqat kommunikativ vosita, balki ijtimoiy nazorat mexanizmi sifatida ham xizmat qiladi. Ular orqali jamiyat o‘z qadriyatlarini saqlaydi, mustahkamlaydi va keyingi avlodlarga uzatadi.

Mazkur maqolada o‘zbek va ingliz maqollari aksiologik, ya’ni qadriyatlar nuqtai nazaridan tahlil qilinadi. Aksiologik yondashuv til birliklarida aks etgan qadriyatlar tizimini aniqlashga xizmat qiladi. Semenenko ta’kidlashicha, maqollar semantik jihatdan “qadriyat va baholashning o‘zaro uyg‘unlashgan modeli” bo‘lib, ular nafaqat ma’no, balki baholovchi munosabatni ham ifodalaydi. Shu bois maqollarni o‘rganish orqali jamiyatning axloqiy-me’yoriy qarashlarini aniqlash mumkin.

Adabiyotlar tahlili va metodologiya. Tadqiqot natijasida maqollarda halollik, mehnatsevarlik, sabr-toqat, kamtarlik, saxovat, adolat kabi asosiy axloqiy tushunchalar aks etishi aniqlangan. Bu holat boshqa tadqiqotchilar tomonidan ham tasdiqlanadi. Jumladan, Wolfgang Mieder maqollarni “axloqiy va ijtimoiy me’yorlarni umumlashtirgan xalq donoligi” sifatida baholab, ularda jamiyat uchun muhim bo‘lgan qadriyatlar mujassam ekanligini ta’kidlaydi.

Natijalar; Masalan, ingliz tilidagi “Honesty is the best policy” maqoli halollikni eng muhim qadriyat sifatida ko‘rsatsa, o‘zbek tilidagi “Rost so‘z – tilsizlashar” maqoli ham ayni g‘oyani ifodalaydi. Bu esa halollik qadriyati universalligini ko‘rsatadi.

Shuningdek, mehnatsevarlik qadriyati ham har ikki madaniyatda muhim o‘rin egallaydi. Ingliz tilidagi “Hard work pays off” maqoli mehnatning natija berishini ifodalasa, o‘zbek tilidagi “Halol mehnat – halol rizq” maqoli mehnat va halollik o‘rtasidagi uzviy bog‘liqlikni ko‘rsatadi. N.R. Norrick fikriga ko‘ra, bunday maqollar nutqda qo‘llanilganda nafaqat axborot beradi, balki tinglovchini muayyan xulq-atvorga undaydi, ya’ni ularning pragmatik ta’siri kuchli bo‘ladi. Biroq ushbu qadriyatlar har ikki xalq madaniyatida mavjud bo‘lsa-da, ularning ifodalanishida muayyan farqlar kuzatiladi. Tadqiqotlar shuni ko‘rsatadiki, o‘zbek maqollari ko‘proq jamoaviylik, ijtimoiy uyg‘unlik va diniy-axloqiy tamoyillarni aks ettiradi. Shamuradova ta’kidlashicha, o‘zbek paremiologiyasida hurmat, kamtarlik va jamiyat manfaatlarini ustuvor qo‘yish g‘oyalari yetakchi o‘rin egallaydi. Masalan, “Sabr qilgan – omad topgan” maqoli sabr-toqatni muhim fazilat sifatida ulug‘laydi. Ingliz maqollarida esa individual mas’uliyat, mustaqillik va pragmatik fikrlash ustunlik qiladi. Masalan, “Time is money” maqoli vaqtni iqtisodiy resurs sifatida baholaydi va samaradorlikka urg‘u beradi. Archer Taylor fikricha, maqollarning mazmuni ularning yaratilgan ijtimoiy-madaniy muhitiga bevosita bog‘liq bo‘lib, har bir xalqning dunyoqarashi va qadriyat tizimini aks ettiradi.

Shunday qilib, maqollar orqali ifodalangan axloqiy qadriyatlar bir tomondan universal xarakterga ega bo‘lsa, ikkinchi tomondan ularning talqini va ifodalanishi milliy madaniyatga xos xususiyatlar bilan belgilanadi.

Muhokoma. O‘zbek maqollari ko‘proq jamoaviylik, kattalarga hurmat, ijtimoiy uyg‘unlik va diniy-axloqiy tamoyillarni targ‘ib qiladi. Ularda insonning jamiyatdagi o‘rni, boshqalarga munosabati va ijtimoiy mas’uliyati muhim o‘rin egallaydi. Bu holatni Shamuradova ham ta’kidlab, o‘zbek paremiologiyasida ijtimoiy uyg‘unlik va kollektiv qadriyatlar ustuvor ekanligini qayd etadi. Masalan, “El bilan bo‘lgan — elga yoqar” maqoli jamoa bilan hamjihat yashash g‘oyasini ilgari suradi. “Kattaga hurmat, kichikka izzat” maqoli esa jamiyatda ierarxiya va hurmat munosabatlarining muhimligini ko‘rsatadi. Shuningdek, “Yaxshilik qil, daryoga tashla” maqoli diniy-axloqiy qadriyatlar, xususan, beg‘araz yaxshilik qilish g‘oyasini ifodalaydi. Bu kabi maqollar orqali jamiyatda ijtimoiy birdamlik va axloqiy mas’uliyat mustahkamlanadi.

Ingliz maqollarida esa individual mas’uliyat, mustaqillik, pragmatik fikrlash va o‘zini nazorat qilish g‘oyalari ustunlik qiladi. N.R. Norrick fikriga ko‘ra, ingliz maqollari ko‘pincha shaxsiy tajriba va individual qaror qabul qilishga yo‘naltirilgan bo‘ladi. Masalan, “God helps those who help themselves” maqoli insonning o‘z harakati va mas’uliyatiga urg‘u beradi. “Time is money” maqoli esa vaqtni iqtisodiy resurs sifatida baholab, pragmatik fikrlashni aks ettiradi. “Don’t put all your eggs in one basket” maqoli esa ehtiyotkorlik va riskni boshqarish g‘oyasini ifodalaydi. Shuningdek, “Look before you leap” maqoli har qanday qaror oldidan o‘ylab ish tutish zarurligini ko‘rsatadi.

Wolfgang Mieder ta’kidlashicha, maqollar har bir xalqning tarixiy tajribasi va madaniy qadriyatlarini aks ettiradi. Shu sababli o‘zbek maqollarida jamoaviylik va ijtimoiy uyg‘unlik ustuvor bo‘lsa, ingliz maqollarida individualizm va pragmatizm yetakchi o‘rin egallaydi. Bu farqlar har ikki xalqning ijtimoiy tuzilishi, madaniy an’analari va dunyoqarashi bilan bevosita bog‘liqdir. Maqollar semantik jihatdan murakkab bo‘lib, ko‘pincha metafora va obrazlar orqali chuqur ma’noni ifodalaydi. Shu sababli ular abstrakt axloqiy tushunchalarni sodda va esda qolarli shaklda yetkazadi. N.R. Norrick ta’kidlashicha, maqollar “kondensatsiyalangan ma’no”ga ega bo‘lib, ularda keng hayotiy tajriba qisqa va obrazli shaklda mujassamlanadi. Masalan, o‘zbek maqoli “Birovga choh qazigan o‘zi tushar” orqali adolat g‘oyasi metaforik

tarzda ifodalanadi, ya'ni yomonlik qilgan inson oxir-oqibat o'zi zarar ko'radi. Xuddi shunday, ingliz maqoli "Don't put all your eggs in one basket" ehtiyotkorlik va riskni boshqarish g'oyasini obrazli tarzda yetkazadi. Bu kabi metaforik ifodalar murakkab axloqiy tushunchalarni oddiy va esda qolarli shaklda berishga xizmat qiladi.

Wolfgang Mieder fikriga ko'ra, maqollar qisqa shaklga ega bo'lishiga qaramay, ularda "chuqur semantik qatlam va ijtimoiy tajriba" mujassam bo'ladi. Shu sababli ular nafaqat axborot yetkazadi, balki tinglovchiga tayyor xulosa va baho ham beradi. Pragmatik jihatdan esa maqollar nutqda maslahat berish, ogohlantirish, tanqid qilish yoki fikrni mustahkamlash kabi vazifalarni bajaradi. Permyakov G.L. maqollarni "xulq-atvorni tartibga soluvchi model birliklar" deb atab, ularning asosiy vazifasi inson harakatini ijtimoiy me'yorlar asosida boshqarish ekanligini ta'kidlaydi. Masalan, ingliz tilidagi "Look before you leap" maqoli ehtiyotkorlikka chaqirsa, o'zbek tilidagi "Yetti o'lchab, bir kes" maqoli ham ayni g'oyani ifodalaydi. Bu esa maqollarning nutqdagi ogohlantiruvchi va maslahat beruvchi funksiyasini ko'rsatadi.

Qiyosiy tahlil shuni ko'rsatadiki, halollik, sabr, mehnatsevarlik kabi qadriyatlar universal xarakterga ega bo'lib, deyarli barcha madaniyatlarda uchraydi. Archer Taylor ta'kidlashicha, maqollar turli xalqlarda shaklan farq qilsa-da, ularning asosiy mazmuni ko'pincha umumiy insoniy tajribaga borib taqaladi. Masalan, ingliz maqoli "Honesty is the best policy" va o'zbek maqoli "Rost so'z – tilsizlashar" halollik qadriyatining universalligini ko'rsatadi. Xuddi shuningdek, "Patience is a virtue" va "Sabr qilgan – omad topgan" maqollari sabr-toqatning barcha madaniyatlarda yuqori baholanishini tasdiqlaydi.

Biroq bu qadriyatlarning talqini va ifodalanishi har bir xalqning mentaliteti, diniy qarashlari va ijtimoiy tuzilishiga bog'liq holda farqlanadi. Masalan, o'zbek maqollarida sabr ko'pincha diniy va ijtimoiy fazilat sifatida talqin qilinsa, ingliz maqollarida u ko'proq individual muvaffaqiyatga erishish vositasi sifatida ifodalanadi. Shu jihatdan maqollar nafaqat universal qadriyatlarni aks ettiradi, balki har bir xalqning o'ziga xos madaniy dunyoqarashini ham namoyon etadi.

Umuman olganda, maqollar til orqali axloqiy qadriyatlarni uzatadigan, jamiyat xulq-atvorini tartibga soladigan va madaniy tajribani avloddan-avlodga yetkazadigan muhim lingvistik vosita hisoblanadi. Ular qisqa va obrazli shaklga ega bo'lishiga qaramay, chuqur semantik va aksiologik qatlamni o'zida mujassam etadi. Maqollar nafaqat axloqiy g'oyalarni etkazadi, balki tinglovchiga ijtimoiy me'yorlar va qadriyatlarni anglatib, ularni amalda qo'llashga rag'batlantiradi.

O'zbek maqollarida jamoaviylik, ijtimoiy uyg'unlik, kattalarga hurmat va diniy-axloqiy tamoyillar asosiy o'rin tutadi. Masalan, "Kattaga hurmat, kichikka izzat" yoki "Yaxshilik qil, daryoga tashla" kabi maqollar orqali jamiyat axloqiy qadriyatlarini mustahkamlaydi va insonni boshqalar bilan uyg'un yashashga, boshqalarga hurmat bilan munosabatda bo'lishga undaydi. Ingliz maqollarida esa individual mas'uliyat, mustaqillik va pragmatik yondashuv ustuvor bo'lib, masalan, "God helps those who help themselves" yoki "Time is money" maqollari shaxsning o'z harakati va qarorlariga e'tibor qaratishini ta'kidlaydi. Shu jihatdan, maqollar turli madaniyatlarning ijtimoiy va axloqiy mentalitetini aks ettiruvchi vosita sifatida xizmat qiladi.

XULOSA

Fikrimizcha, maqollar nafaqat til boyligini oshiradi, balki insonni ijtimoiy va axloqiy jihatdan tarbiyalashda beqiyos ahamiyatga ega. Ularning qisqa, lekin obrazli shakli axloqiy saboqlarni tez va esda qolarli tarzda yetkazadi. Aksariyat hollarda maqollar orqali avlodlar o'rtasida tarixiy tajriba, madaniy qadriyatlar va hayotiy donolik uzatiladi. Shu sababli, menimcha, maqollarni o'rganish va ularni o'quv jarayonida qo'llash har bir madaniyatni chuqurroq tushunish va axloqiy ongni shakllantirish uchun zarurdir.

Natijada, maqollar nafaqat universal insoniy qadriyatlarni aks ettiradi, balki har bir xalqning o'ziga xos ijtimoiy va madaniy qadriyatlarini ham namoyon qiladi. Ular tilning axloqiy va madaniy funksiyasini mukammal amalga oshiruvchi vosita sifatida tilshunoslik, paremiologiya va aksiologik tadqiqotlar uchun muhim ob'ekt bo'lib xizmat qiladi.

BADIIY MATNDA SUBYEKTIVLIK VA MUALLIF POZIYSIYASI MASALASI

Hamidova Muhayyoxon Obidovna
Namangan davlat universiteti, Maktabgacha va boshlang'ich ta'lim kafedrasi professori, f.f.n.
E-mail: hamidova muhayyoxon@gmail.com

Annotatsiya: *Mazkur maqolada badiiy matnda subyektivlik tushunchasi va muallif pozitsiyasining ifodalanish usullari ilmiy-nazariy jihatdan tahlil qilingan. Asarda muallifning individual dunyoqarashi, estetik qarashlari hamda ichki kechinmalari badiiy matn strukturasi va mazmunida qanday aks etishi masalasi yoritilgan. Shuningdek, subyektivlikning til birliklari, badiiy tasvir vositalari, obrazlar tizimi va narrativ strategiyalar orqali namoyon bo'lish xususiyatlari ochib berilgan. Muallif pozitsiyasining bevosita va bilvosita ifodalanish shakllari, uning o'quvchi idroki va interpretatsiyasiga ta'siri ham muhim jihat sifatida ko'rib chiqilgan.*

Kalit so'zlar: *badiiy matn, subyektivlik, muallif pozitsiyasi, narrativ strategiya, badiiy tasvir vositalari, obrazlar tizimi, muallif nutqi, ichki kechinma, estetik qarash, interpretatsiya, diskurs, individual uslub.*

ПРОБЛЕМА СУБЪЕКТИВНОСТИ И АВТОРСКОЙ ПОЗИЦИИ В ХУДОЖЕСТВЕННОМ ТЕКСТЕ

Аннотация: *В данной статье с научно-теоретической точки зрения проанализировано понятие субъективности в художественном тексте и способы выражения авторской позиции. Рассматривается, каким образом индивидуальное мировоззрение автора, его эстетические взгляды и внутренние переживания отражаются в структуре и содержании художественного произведения. Также раскрываются особенности проявления субъективности через языковые единицы, художественно-изобразительные средства, систему образов и нарративные стратегии. Особое внимание уделяется прямым и косвенным формам выражения авторской позиции, а также их влиянию на восприятие и интерпретацию читателя.*

Ключевые слова: *художественный текст, субъективность, авторская позиция, нарративная стратегия, художественно-изобразительные средства, система образов, авторская речь, внутренние переживания, эстетические взгляды, интерпретация, дискурс, индивидуальный стиль.*

THE PROBLEM OF SUBJECTIVITY AND AUTHORIAL POSITION IN LITERARY TEXTS

Abstract: *This article provides a scientific and theoretical analysis of the concept of subjectivity in a literary text and the ways of expressing the author's position. It examines how the author's individual worldview, aesthetic perspectives, and inner experiences are reflected in the structure and content of a literary work. The study also reveals the features of subjectivity manifested through linguistic units, artistic devices, the system of images, and narrative strategies. Particular attention is given to the direct and indirect forms of expressing the author's position, as well as their influence on the reader's perception and interpretation.*

Keywords: *literary text, subjectivity, authorial position, narrative strategy, artistic devices, system of images, authorial speech, inner experience, aesthetic views, interpretation, discourse, individual style.*

Kirish

Zamonaviy adabiyotshunoslikda badiiy matnda subyektivlik va muallif pozitsiyasi masalasi eng dolzarb va ko'p qirrali muammolardan biri sifatida e'tirof etiladi. Badiiy asar nafaqat voqelikning aks ettirilishi, balki muallifning individual dunyoqarashi, ruhiy kechinmalari, estetik ideallari va badiiy tafakkurining mahsuli hamdir. Shu bois matnda muallif pozitsiyasining qanday ifodalanishi, uning qahramonlar, voqealar tizimi va tasvir vositalari orqali qay darajada namoyon bo'lishi masalasini o'rganish muhim ilmiy ahamiyat kasb etadi. Subyektivlik badiiy matnda til birliklari, uslubiy vositalar, obrazlar tizimi hamda narrativ strategiyalar orqali yuzaga chiqib, matnning mazmuniy va semantik qatlamlarini boyitadi. Ayni paytda muallif pozitsiyasi ochiq yoki yashirin shaklda ifodalanib, o'quvchining matnni anglash va talqin etish jarayoniga sezilarli ta'sir ko'rsatadi. Shuning uchun badiiy matnda subyektivlikning namoyon bo'lish xususiyatlari hamda muallif pozitsiyasining shakllanish mexanizmlarini ilmiy-nazariy asosda tahlil qilish, bu orqali badiiy matnni chuqurroq anglash va talqin etish imkoniyatlarini kengaytirishga asosiy e'tibor qaratildi.

Adabiyotlar tahlili

Badiiy matnda subyektivlik va muallif pozitsiyasi masalasi adabiyotshunoslikda keng o‘rganilgan ilmiy muammolardan biri bo‘lib, ushbu yo‘nalishda turli nazariy yondashuvlar shakllangan. Xususan, strukturalizm va poststrukturalizm vakillari badiiy matnni nisbatan mustaqil hodisa sifatida talqin etib, unda til va strukturaning ustuvorligini ta’kidlaydilar. Bu borada muallif shaxsining o‘rni va ahamiyati haqida ilgari surilgan qarashlar muhim ilmiy munozaralarga sabab bo‘lgan. G‘arb adabiyotshunosligida muallif fenomenini qayta ko‘rib chiqishda yangi nazariy qarashlar yuzaga kelib, matn va muallif o‘rtasidagi murakkab munosabatlar ochib berilgan.

Shuningdek, narratologik yondashuvlar doirasida muallif pozitsiyasi “muallif obrazi”, “hikoyachi” va “nuqtayi nazar” kategoriyalari orqali tahlil qilinadi. Bu esa subyektivlikning badiiy matndagi ifoda shakllarini yanada chuqurroq anglash imkonini beradi. Psixologik va germenevtik yondashuvlarda esa muallifning ichki kechinmalari, ruhiy holati hamda individual tajribasi matn mazmunini shakllantiruvchi asosiy omillardan biri sifatida talqin etiladi.

O‘zbek adabiyotshunosligida ham mazkur masalaga alohida e’tibor qaratilgan bo‘lib, unda badiiy tafakkur, individual uslub va muallifning estetik qarashlari o‘rtasidagi uzviy bog‘liqlik tahlil etilgan. Ushbu olib borilgan tahlillarda muallif pozitsiyasining asar g‘oyaviy yo‘nalishini belgilashdagi roli, obrazlar tizimi va til vositalari orqali ifodalanish xususiyatlari yoritib berilgan. Shu bilan birga, subyektivlikning milliy mentalitet, tarixiy sharoit va ijtimoiy muhit bilan aloqador jihatlari ham ilmiy izlanishlarda muhim o‘rin egallaydi.

Umuman olganda, mavjud ilmiy adabiyotlar tahlili shuni ko‘rsatadiki, badiiy matnda subyektivlik va muallif pozitsiyasi o‘zaro chambarchas bog‘liq bo‘lib, ularni kompleks yondashuv asosida o‘rganish badiiy asarning mazmun-mohiyatini chuqurroq anglashga xizmat qiladi.

Tadqiqot metodologiyasi

O‘zbekiston xalq yozuvchisi Shukur Xolmirzayevning nasriy asarlarini atroflicha tahlil qilish orqali badiiy matnda subyektivlik va muallif pozitsiyasini aniqlash hamda adabiy-tahliliy, qiyosiy-tipologik, struktural va narratologik metodlardan foydalanilib, badiiy matnning mazmuniy, shakliy qatlamlari o‘zaro uyg‘unlikda o‘rganildi.

Tahlillar va natijalar

Shukur Xolmirzayev nasriy asarlaridagi har bir tasvir ishonarliligi bilan e’tiborni tortadi. Uning qahramonlari tog‘li hududlarning chekka qishloqlarida yashaydigan tog‘li xalq vakillaridir. Yozuvchi ularni shaharlik odamlar bilan qiyoslaydi. Natijada tog‘ kishilarini o‘ziga xos samimiy, sodda, to‘pori, qo‘pol, shaharliklarni esa o‘ta madaniyatli, kiborli, tabiatdan yiroq, hissiz kimsalar sifatida tasvirlaydi. Bu yozuvchining ilk hikoyalaridant ortib to keyingi davrlarda yaratilgan asarlarida ham kuzatiladi. Ular dunyo bilimlaridan bexabar bo‘lsa-da, milliy qadriyatlarni, milliy tariximizni, yashab turgan yerlarining o‘tmishini yaxshi biladigan shaxslar.

Yozuvchining uslubida falsaviy mulohaza va hayot haqidagi mushohadalarga keng o‘rin beriladi. U qahramonlar hayoti orqali insoniy qadriyatlar, ezgulik va yovuzlik, yashashning ma’nosi, vijdon va oriyat kabi tushunchalarni yoritadi. Bu esa uning asarlariga chuqur fikriy va axloqiy qatlam baxsh etadi. “Shu bois, bundan 45 yil avval atoqli adib Asqad Muxtor maqolalarining birida “Men yosh do‘stim Shukurning tasvirlash mahoratiga havas qilaman. U hech qachon voqeani bayon etmaydi, balki tasvirlaydi”, deb yozgandi” [7].

Sh.Xolmirzayev portret yaratishda muayyan mohiyatni namoyon etadigan chiziqni topadi va unga urg‘u beradi (“O‘zbekning soddasi”, “So‘nggi bekat” asarlari), portret ko‘p hollarda bir detal orqaligina namoyon bo‘ladi. Shu o‘rinda Shukur Xolmirzayevning ijod va iste’dodidagi tengdoshi O‘tkir Hoshimovning xarakter yaratish usuli bilan qiyoslash o‘rinlidir. O‘tkir Hoshimov qaysi odam haqida gapirmasin, avval uning tashqi ko‘rinishi – kiyinishidan gap boshlaydi. U qahramon tashqi xususiyatini chizish orqali e’tiborini qahramonning dili va madaniyatiga qaratadi. Keyin esa ruhiy holat tasviri beriladi va bevosita qahramon xarakterining bir qirrasini ochib ko‘rsatadi. Shu bilan birga, O‘.Hoshimov o‘z qahramonlariga bo‘lgan munosabatini yashirmaydi. Qahramon yoki personajning o‘zini o‘zi namoyish qilishidan ko‘ngli to‘lmay, o‘zi voqealarga aralashadi, hatto ayrim qahramonlarning “ichiga kirib” olib, o‘zi sevganlarini mehr bilan tasvirlaydi. Nopok, razil odamlarni ochiq inkor qiladi, g‘irrom va xaromning, qabihlikning yuziga tupuradi. Shukur Xolmirzayev esa, o‘z qahramonlarining xatti-harakatini o‘zi aralashmagan holda kuzata oladi. Masalan, “Oy yorug‘ida” hikoyasida qahramon asarda xuddi dramadagi kabi o‘z harakati va nutqi bilangina qatnashadi. Uning qahramonlari ham xuddi o‘zi kabi ko‘p so‘zlilikdan qochadi, nutqda iloji boricha keskin va ixchamlikka intiladi. Yozuvchi garchi so‘zga “xasis” bo‘lsa ham, u tasvirlayotgan manzara quruq emas. Ayniqsa, tabiat tasviri uning qalamida quyuqlashadi: “Quyosh chiqib turgan bo‘lsa ham, nurlari ojiz edi... O‘riklarning yaprog‘i qizil, qontalash. Xuddi birov, ular shohiga bir satil bo‘yoqlarni sepib yuborganday. Pastga egilgan yaproqlari sariq ipakday mayin. Ko‘zga shunday jozibali ko‘rinadiki, uzib-uzib, g‘arch-g‘urch tishlaging keladi...” [6, 88] Tabiatning to‘lishgan go‘zallikka serob manzarasi uning qalam kuchiga tobe qolib, to‘laligicha kitobxon qalbiga ko‘chadi. Bu qisqa satrlardagi manzara shu-shu qadar to‘liq, tatimliki, kitobxon tabiatni mana shunday yetuk holda boshqalarga ko‘z-ko‘z qilgisi, kelajak avlodlarga hovuchlab-hovuchlab tutgisi keladi. Ertangi kun odamlari ham bizni hayratlantirgan narsalardan to‘lqinlanishi kerakligiga o‘zini javobgarday

sezadi. Asarning mazmunidan kelib chiqadigan ona –tabiatni muhofaza qilishga undovchi gapni uqib olmay turib, uning muhofazakoriga aylangisi kelib ketadi, kishi.

Ш.Xolmirzayev qahramoni “shunchaki” paydo bo‘lmaydi. Qahramonlarning fe’l-atvoridagi keskinlik, mardlik yoki qaysarlik ular yashayotgan tabiat, ya’ni Boysun tog‘lari, adirlar bilan uyg‘un. Adib obraz tabiatini uzoq ta’riflamaydi. Qahramonning birgina nigohi, kiyinish madaniyati yoki bir og‘iz keskin so‘zi orqali uning butun ruhiy qiyofasini yaratadi. Sh.Xolmirzayev obrazlar tabiatini tahlil qilar ekan, ularning nafaqat ijobiy, balki eng tuban, maxfiy jihatlarini ham ayovsiz ochib tashlaydi. Bu usul obrazning ideal emas, balki real bo‘lishini ta’minlaydi.

Muallif qahramonini sevadi, ammo uni oqlamaydi. U qahramonning xatti-harakatlarini hayot mantiqi asosida ko‘rsatib beradi.

Yozuvchi “Bukri tol” (To‘lqinlar”) asarida egilsa ham sinmaydigan, kurashib yashayotgan haqiqat obrazini yaratadi. “Bukri tol” qissasi qahramonlari o‘tkinchi siyosat yugurdagiga aylanmadi. Ularga xos bu chizgi juda xarakterli chizgidir.

“Ma’murjon ancha turib qoldi. Yana idora tomonga qarab, bir necha odim bosdi. Yana to‘xtadi. Shunda nishab betdagi yakka tolga ko‘zi tushdi-yu, o‘sha yoqqa ketdi. Ketib borarkan, tolga birinchi marta e’tibor bilan qaradi.

Tol hali yosh edi. Do‘nglikdan qulagan harsang toshning tanasiga suyanib qolgan, shuning uchun tol pastga, daryoga egilib, qiyshiq bo‘lib, o‘sgan, bukir edi. Ma’murjon tolning yer betiga turtib chiqqan tomiriga o‘tirdi. Tizzalarini quchoqlab, boshini egdi...”[5, 53]

Sh.Xolmirzayev nasriy asarlarini tahlil qilish orqali badiiy matnda subyektivlik va muallif pozitsiyasining namoyon bo‘lish shakllari ko‘p qatlamli va murakkab hodisa ekani aniqlandi. Tahlillar shuni ko‘rsatdiki, subyektivlik avvalo, matnning til sathida – leksik tanlov, emotsional-ekspressiv birliklar, metafora, epitet, tashbeh kabi badiiy tasvir vositalari orqali yuzaga chiqadi. Muallif o‘zining ichki kechinmalari, munosabati va bahosini aynan shu vositalar orqali yashirin yoki ochiq tarzda ifodalaydi. Natijada matn faqat voqealar bayoni emas, balki muallifning ruhiy-intellektual olamini aks ettiruvchi estetik tizimga aylanadi. Shuningdek, tahlil davomida subyektivlikning narrativ tuzilma bilan uzviy bog‘liqligi aniqlandi. Xususan, hikoyachi pozitsiyasi, nuqtayi nazar (point of view) va vaqt-makon koordinatalari muallif qarashlarini yetkazishda muhim vosita bo‘lib xizmat qiladi. Birinchi shaxs nomidan hikoya qilinadigan asarlarda subyektivlik darajasi yuqori bo‘lib, unda muallif ovozi bevosita seziladi. Uchinchi shaxs hikoyasida esa muallif pozitsiyasi ko‘proq bilvosita, ya’ni obrazlar harakati, dialoglar va tasvirlar orqali ifodalanadi. Shu jihatdan narrativ strategiya muallifning matndagi “ko‘rinish darajasi”ni belgilovchi asosiy omillardan biri sifatida namoyon bo‘ladi.

Tahlillar yana shuni ko‘rsatdiki, muallif pozitsiyasi obrazlar tizimi orqali ham chuqur ifodalanadi. Ijobiy va salbiy qahramonlar qarama-qarshiligi, ularning xarakteri, dunyoqarashi va hayotiy tanlovlari orqali muallifning g‘oyaviy-estetik qarashlari ochiladi. Ayrim hollarda muallif o‘z pozitsiyasini biror qahramon nutqi yoki ichki monologi orqali ifodalasa, boshqa holatlarda esa qarama-qarshi obrazlar to‘qnashuvi orqali o‘z fikrini bilvosita yetkazadi. Bu esa badiiy matnda ko‘p ma’nolilik va interpretatsiya imkoniyatlarini kengaytiradi.

Xulosalar

Xulosa qilib aytgandada, badiiy matnda subyektivlik va muallif pozitsiyasi o‘zaro uzviy bog‘liq bo‘lgan estetik va g‘oyaviy hodisa ekanligi aniqlandi. Badiiy asarda muallifning individual dunyoqarashi, ruhiy kechinmalari va estetik qarashlari turli til va uslubiy vositalar orqali ifodalanib, matnning mazmuniy hamda badiiy qatlamlarini shakllantiradi. Subyektivlikning narrativ tuzilma, obrazlar tizimi va badiiy tasvir vositalari orqali namoyon bo‘lishi asarning ko‘p qatlamli ma’noga ega bo‘lishini ta’minlaydi. Shuningdek, muallif pozitsiyasi ochiq yoki yashirin shaklda ifodalanib, o‘quvchining matnni idrok etish va talqin qilish jarayoniga sezilarli ta’sir ko‘rsatishi ma’lum bo‘ldi. Bu esa badiiy matnni bir ma’noli emas, balki turli interpretatsiyalarga ochiq tizim sifatida tushunish zarurligini ko‘rsatadi. Tahlil shuni ham tasdiqlaydiki, subyektivlik nafaqat individual, balki ijtimoiy va madaniy omillar bilan ham belgilanadi.

Umuman olganda, badiiy matnda subyektivlik va muallif pozitsiyasini o‘rganish asarning g‘oyaviy-estetik mohiyatini chuqur anglash, shuningdek, adabiy jarayonni ilmiy asosda tahlil qilishda muhim ahamiyat kasb etadi.

O‘ZBEK VA INGLIZ ADABIYOTIDA O‘SMIR QAHRAMON OBRAZIDA “AJNABIYLIK” TUYG‘USINING IFODALANISHI (O‘. HOSHIMOV VA U. GOLDING ASARLARI MISOLIDA)

Kasimova Yulduz Malikovna
Namangan davlat pedagogika instituti katta o‘qituvchisi
E-mail:kasimovayulduz1977@gmail.com

Annotatsiya*: Ushbu maqolada O‘zbekiston va Angliya adabiyotida o‘smir qahramon obrazida “ajnabiylik” tuyg‘usining badiiy ifodalanishi qiyosiy tahlil qilinadi. O‘tkir Hoshimovning “Dunyoning ishlari” qissasi va Uilyam Goldingning “Pashshalar hukmdori” romani misolida o‘smirlarning jamiyatdan begonalashuvi, o‘zgalashuvi va ichki qarama-qarshiliklari tasviri o‘rganiladi. Maqolada ikkala asardagi yetakchi qahramonlar (Hoshimovda bosh qahramon – maktab o‘quvchisi, Goldingda Ralf) tahlil qilinib, ularning “boshqacha” bo‘lish hissi, qabul qilinmaslik, yolg‘izlik va jamiyatga moslasha olmaslik kabi holatlari badiiy vositalar orqali ochib beriladi. Qiyosiy metod asosida o‘zbek va ingliz adabiyotida o‘smirlik davri psixologizmining milliy va umumbashariy jihatlari yoritiladi.*

Kalit so‘zlar:*ajnabiylik, begonalashuv, o‘smir qahramon, O‘tkir Hoshimov, Uilyam Golding, psixologizm, qiyosiy adabiyot.*

ВЫРАЖЕНИЕ ЧУВСТВА «ЧУЖДОСТИ» В ОБРАЗЕ ПОДРОСТКА-ГЕРОЯ В УЗБЕКСКОЙ И АНГЛИЙСКОЙ ЛИТЕРАТУРЕ (НА ПРИМЕРЕ ПРОИЗВЕДЕНИЙ У. ХАШИМОВА И У. ГОЛДИНГА)

Аннотация*:В статье проводится сравнительный анализ художественного выражения чувства «чуждости» в образе подростка-героя в узбекской и английской литературе. На примере повести Уткира Хашимова «Дела мирские» и романа Уильяма Голдинга «Повелитель мух» исследуется отчуждение подростков от общества, их изоляция и внутренние противоречия. Анализируются главные герои (у Хашимова – школьник, у Голдинга – Ральф), раскрываются их чувство инаковости, непринятие, одиночество и неспособность адаптироваться к социуму. С помощью сравнительного метода освещаются национальные и общечеловеческие аспекты психологизма подросткового возраста в литературе.*

Ключевые слова*: чуждость, отчуждение, подросток-герой, Уткир Хашимов, Уильям Голдинг, психологизм, сравнительное литературоведение.*

EXPRESSION OF THE FEELING OF “OTHERNESS” IN THE IMAGE OF ADOLESCENT PROTAGONIST IN UZBEK AND ENGLISH LITERATURE (ON THE EXAMPLE OF WORKS BY O. HASHIMOV AND W. GOLDING)

Annotation: *This article provides a comparative analysis of the artistic expression of the feeling of “otherness” in the image of the adolescent protagonist in Uzbek and English literature. Using Utkir Hashimov’s novella “The Affairs of the World” and William Golding’s novel “Lord of the Flies”, the study explores adolescents’ alienation from society, their isolation and internal contradictions. The main characters (a schoolboy in Hashimov, Ralph in Golding) are analyzed, revealing their sense of being different, rejection, loneliness and inability to adapt to society. The comparative method highlights national and universal aspects of adolescent psychologism in literature.*

Key words*: otherness, alienation, adolescent protagonist, Utkir Hashimov, William Golding, psychologism, comparative literature.*

Kirish

O‘smirlik davri inson hayotining eng murakkab bosqichlaridan biri bo‘lib, aynan shu yoshda shaxsning o‘z o‘rnini topish, jamiyat tomonidan qabul qilinish va o‘zligini anglash kabi muhim psixologik jarayonlar kechadi. “Ajnabiylik” (otherness, alienation) tushunchasi adabiyotda ko‘pincha o‘smir qahramonning atrofdagilardan farq qilishi, tushunilmasligi va yakkalanishi orqali ifodalanadi. O‘zbek va ingliz adabiyotida bu mavzu turli tarixiy va madaniy sharoitlarda turlicha yoritilgan bo‘lsa-da, o‘smir shaxsining ichki iztiroblari va jamiyat bilan ziddiyati kabi universal xususiyatlar ikkala adabiyotda ham o‘z ifodasini topgan [1].

Ushbu maqolaning maqsadi – O‘tkir Hoshimovning “Dunyoning ishlari” qissasidagi bosh qahramon Shuxrat misolida hamda Uilyam Goldingning “Pashshalar hukmdori” romanidagi Ralf obrazida “ajnabiylik” tuyg‘usining badiiy ifodalanishini qiyosiy o‘rganish, ikkala asarda begonalashuvning sabablari, shakllari va oqibatlarini ochib berish.

Adabiyotlar tahlili

O‘zbek adabiyotshunosligida O‘tkir Hoshimov ijodi keng o‘rganilgan. N. Karimov [3], B. Nazarov [7], S. Mamajonov [5] kabi olimlar uning asarlarida o‘smir psixologiyasini tasvirlash mahorati, hayotiylik va tarbiyaviy ahamiyatga e’tibor qaratganlar. Hoshimov qahramonlari ko‘pincha o‘z davrining ideal yoshlari sifatida emas, balki ichki qarama-qarshiliklarga ega, ba’zan hatto jamiyat tomonidan “noto‘g‘ri” deb qabul qilingan shaxslar sifatida gavdalanadi. Masalan, “Dunyoning ishlari”dagi bosh qahramon Shuxrat – maktabda o‘qituvchilarga, tengdoshlariga nisbatan shubha bilan qaraydigan, kattalar dunyosining ikkiyuzlamachiligini teran his qiluvchi o‘smir. Uning “ajnabiyligi” aynan o‘zining halolligi va to‘g‘riligi tufayli yuzaga keladi.

Ingliz adabiyotida Uilyam Goldingning “Pashshalar hukmdori” romaniga keng qator tadqiqotlar bag‘ishlangan. J. Kerald [4], B. Oldsi [6], L. Dikson kabi olimlar asarni inson tabiatining yovuzligi, sivilizatsiyaning yupqa qatlami va bolalardagi xomkoralik haqida allegoriya sifatida tahlil qilishgan. Romandagi Ralf obrazi – bu tartib, aql-zakovat va demokratiyaning timsolidir. U orolchaga tushgan bolalar guruhini boshqarishga harakat qiladi, ammo ko‘pchilik uning o‘rniga Jek tomonidan boshqariladigan vahshiylik va kuch yo‘lini tanlaydi. Ralfning “ajnabiyligi” – u “boshqalar kabi” emas, u aql va qoidalarga ishonadi, shuning uchun u oxir-oqibat ham o‘ziga yakka holda qochishga majbur bo‘ladi.

Ikkala asardagi o‘smir qahramonlarning umumiy xususiyati – ularning jamiyat (yoki guruh) tomonidan qabul qilinmasligi, o‘zlarining “boshqacha” ekanliklarini anglab yetishi va natijada ruhiy yakkalanish. Biroq farqli jihatlar ham mavjud: Hoshimov qahramoni real hayotdagi maktab va oila muhitida muammolarga duch kelsa, Golding qahramoni ekstremal sharoitda – cheksiz orolda, kattalarsiz qolgan bolalar jamiyatida o‘z o‘rnini topishga urinadi.

Tadqiqot metodologiyasi

Ushbu tadqiqotda “qiyosiy-tipologik metod” asosiy o‘rinni egallaydi. O‘zbek va ingliz adabiyoti namunalari (O‘. Hoshimovning “Dunyoning ishlari” qissasi va U. Goldingning “Pashshalar hukmdori” romani) bir qator parametrlar bo‘yicha solishtiriladi: qahramonlarning yosh va ijtimoiy mavqei, ularning “ajnabiylik” hissini uyg‘otuvchi omillar, begonalashuvning namoyon bo‘lish shakllari (ichki kechinmalar, xatti-harakatlar, boshqa personajlar bilan munosabat), shuningdek, bu tuyg‘uning rivojlanish dinamikasi va asar yakunidagi holati [2].

Shuningdek, “psixologik tahlil” metodi qo‘llaniladi – qahramonlarning ichki dialogi, nutq xususiyatlari, muallif izohlari orqali ularning ruhiy olamiga kirib boriladi [3]. Tasviriy-tahliliy metod esa badiiy detallar, portret, peyzaj va syujet qurilmasidagi begonalashuv alomatlarini aniqlashga xizmat qiladi.

Tadqiqotning empirik bazasi sifatida asarlarning o‘zbek va ingliz tillaridagi nashrlari [1], shuningdek, mavzuga oid adabiy-tanqidiy va nazariy maqolalar olingan.

Natijalar va ularning tahlili

O‘. Hoshimov asarida “ajnabiylik” ifodasi

O‘tkir Hoshimovning “Dunyoning ishlari” qissasida bosh qahramon – maktab o‘quvchisi Shuxrat o‘zining to‘g‘riligi va halolligi tufayli o‘qituvchilar va tengdoshlar orasida “qora qo‘y”ga aylanadi. U sinfda sodir bo‘lgan noxush hodisa (o‘qituvchiga haqoratli so‘z yozilgan qog‘oz) bo‘yicha haqiqatni aytishga urinadi, ammo uning bu harakati ikkiyuzlamachilikka o‘rganib qolgan kattalar dunyosida qabul qilinmaydi. Shuxrat o‘zining bu “boshqachaligi”ni his qiladi: “Men ular kabi emasman”, deydi u o‘ziga. Uning ota-onasi ham, maktab direktori ham haqiqatdan qochib, “kattalar o‘yinini” o‘ynashni davom ettiradilar [1].

“Ajnabiylik” Shuxratning nutqida, harakatlarida va hatto tashqi qiyofasida (masalan, uning tengdoshlaridan farqli ravishda jim va o‘ychan yurishi) aks etadi. Muallif qahramonning ichki monologlari orqali uning yolg‘izlik va tushunilmaslik iztiroblarini chuqur psixologizm bilan ochadi [3]. Shuxratning yakuniy tanlovi – haqiqatni aytish va hamma narsaga qaramay o‘z prinsiplarida qolish – uning “ajnabiylik”ni qabul qilish va hatto undan kuch olishini ko‘rsatadi. Asar oxirida u qanchalik yolg‘iz bo‘lsa-da, o‘ziga bo‘lgan ishonchini yo‘qotmaydi.

U. Golding asarida “ajnabiylik” ifodasi

Uilyam Goldingning “Pashshalar hukmdori” romanida o‘n yoshlardagi bolalar guruhi samolyot halokatidan so‘ng kimsasiz orolga tushadi [2]. Dastlab ular Ralf boshchiligida qoidalar o‘rnatishga, o‘t yoqish va yordam kutishga harakat qiladilar. Biroq vaqt o‘tishi bilan Ralfning aqlli va demokratik boshqaruvi Jekning vahshiyona va kuchga asoslangan yetakchiligiga yengila boshlaydi. Ralf o‘zining “boshqacha” ekanligini, u orzular va instinktlar emas, balki aql va tartib tarafdori ekanligini anglaydi. Uning “ajnabiyligi” aynan shu – u “boshqalar kabi” qonli o‘yinlar, vahshiylik va totemlarga sig‘inishga qodir emas [6].

Ralfning begonalashuvi bosqichma-bosqich kuchayadi: dastlab u Jek bilan tortishadi, keyin uning tarafdorlari undan yuz o‘giradi, so‘ng u ochiqchasiga ta’qib qilinadi. Eng muhimi, Ralfning eng yaqin do‘sti Piggi ham (u ham “ajnabiy” – semiz, miyopik, aqlli) o‘ldiriladi. Ralf butun orol bo‘ylab ta’qib qilinib, yakka holda qochib, nihoyat ofitser tomonidan qutqariladi. Yakunda Ralf yig‘laydi – nafaqat qutqarilgani, balki “inson qalbidagi zulmat”ni anglagani uchun. Goldingda “ajnabiylik” fojiali rangda: sivilizatsiya va aql vakili bo‘lgan qahramon vahshiylik oldida mag‘lub bo‘ladi, ammo ma’naviy g‘alaba uning tomonda qoladi.

Qiyosiy tahlil

Ikkala asarda ham “ajnabiylik” tuyg‘usi o‘smir qahramonning jamiyat (yoki guruh) tomonidan qabul qilinmasligi, uning o‘z qadriyatlari va atrofdagilarning qadriyatlari o‘rtasidagi ziddiyatdan kelib chiqadi. Hoshimovda bu ziddiyat asosan axloqiy: haqiqat va yolg‘on o‘rtasidagi tanlov. Goldingda esa bu ziddiyat ontologik: tartib va vahshiylik, aql va instinkt o‘rtasida.

Farqli jihatlar: Hoshimov qahramoni Shuxrat jamiyat ichida (maktab va oila) yashaydi, uning yolg‘izligi psixologik. Golding qahramoni Ralf esa ekstremal sharoitda, kishisiz orolda guruh bilan birga, lekin guruhning ko‘pchiligi tomonidan dushman sifatida qabul qilinadi. Shuxratning yakini – ma’naviy g‘alaba, Ralfning yakini – jismoniy va ruhiy sinov, ammo ikkalasi ham o‘z tamoyillariga sodiq qoladi.

Yana bir muhim farq: Hoshimovning qahramoni kichik, cheklangan hududdagi (maktab, uy) “ajnabiylik”ni boshdan kechiradi, Goldingda esa butun bir orol “mikrojamiyat” sifatida namoyon bo‘ladi. Shuning uchun Goldingdagi begonalashuv global xarakterga ega.

Xulosa

O‘tkir Hoshimovning “Dunyoning ishlari” va Uilyam Goldingning “Pashshalar hukmdori” asarlari o‘smir qahramon obrazida “ajnabiylik” tuyg‘usining badiiy ifodalanishi bo‘yicha qimmatli material beradi. Ikkala asar ham o‘smirning jamiyat tomonidan tushunilmasligi, uning o‘z tamoyillariga sodiqligi tufayli yuzaga keladigan yolg‘izlikni tasvirlaydi. Tahlil shuni ko‘rsatdiki, “ajnabiylik” universaldir – u turli madaniy va tarixiy sharoitlarda o‘xshash psixologik mexanizmlar orqali namoyon bo‘ladi. Biroq badiiy talqin usullari mualliflarning milliy an’analari va asarning janr xususiyatlariga qarab farqlanadi: Hoshimov realistik, hayotiy zamin va psixologik tahlilga tayansa, Golding allegorik, ramziy va falsafiy yo‘nalishda.

“Ajnabiylik” tuyg‘usini adabiyotshunoslikda o‘rganish nafaqat nazariy, balki amaliy ahamiyatga ega: o‘smirlar adabiyotini tahlil qilishda, shuningdek, pedagogik va psixologik masalalarni yechishda bu tushunchadan foydalanish mumkin. Kelgusida o‘zbek va ingliz adabiyotidagi boshqa o‘smir qahramonlar (masalan, X. To‘xtaboyev, J. D. Selindjer asarlari) misolida qiyosiy tadqiqotlarni davom ettirish maqsadga muvofiqdir.

QIYOSIY ADABIYOTSHUNOSLIKDA ADABIY TA'SIR VA TIPOLOGIK O'XSHSHLIK MASALALARI. O'ZBEK VA INGLIZ ADABIYOTI MISOLIDA

Mamadaliyeva Dildora Kamoliddin qizi
Is'hoqxon Ibrat nomidagi Namangan davlat chet tillari instituti doktoranti
Emil:mamadaliyevad138.@gmail.com

Annotatsiya. *Mazkur maqolada qiyosiy adabiyotshunoslikning muhim nazariy masalalaridan biri bo'lgan adabiy ta'sir va tipologik o'xshashlik muammosi tahlil qilinadi. Tadqiqotda ushbu ikki tushuncha o'rtasidagi metodologik farqlar, ularning shakllanish asoslari hamda adabiy jarayondagi o'rni yoritiladi. Shuningdek, adabiy ta'sirning tarixiy-genetik tabiati va tipologik o'xshashlikning umumiy taraqqiyot qonuniyatlari bilan bog'liqligi ilmiy asosda izohlanadi. Maqolada Viktor Jirmunskiy, Aleksandr Veselovskiy hamda zamonaviy qiyosiy adabiyotshunoslik vakillarining nazariy qarashlariga tayanilgan holda adabiy aloqalar tizimi tahlil qilinadi. Tadqiqot natijasida adabiy ta'sir va tipologik o'xshashlikni farqlash qiyosiy adabiyotshunoslik metodologiyasining asosiy sharti ekanligi asoslab beriladi.*

Kalit so'zlar; *qiyosiy adabiyotshunoslik, adabiy ta'sir, tipologik o'xshashlik, tarixiy-genetik metod, kontakt-genetik aloqa, Veselovskiy, Jirmunskiy, adabiy aloqalar, intertekstual munosabatlar, poetika*

ISSUES OF LITERARY INFLUENCE AND TYPOLOGICAL SIMILARITY IN COMPARATIVE LITERARY STUDIES. ON THE EXAMPLE OF UZBEKISTAN AND ENGLISH LITERATURE

Annotation. *This article analyzes one of the key theoretical issues in comparative literature—literary influence and typological similarity. The study explores the methodological differences between these two concepts, their formation principles, and their role in literary processes. It also examines the historical-genetic nature of literary influence and the relation of typological similarity to universal laws of literary development. Based on the theoretical views of Viktor Zhirmunsky, Aleksandr Veselovsky, and contemporary comparative literature scholars, the article investigates the system of literary relations. The research concludes that distinguishing between literary influence and typological similarity is a fundamental requirement of comparative literature methodology.*

Keywords ; *comparative literature, literary influence, typological similarity, historical-genetic method, contact-genetic relations, Veselovsky, Zhirmunsky, literary relations, intertextual relations, poetics*

ВОПРОСЫ ВЛИЯНИЯ ЛИТЕРАТУРЫ И ТИПОЛОГИЧЕСКИЕ РАЗЛИЧИЯ В СРАВНИТЕЛЬНОМ ЛИТЕРАТУРОВЕДЕНИИ. НА ПРИМЕРЕ ЛИТЕРАТУРЫ УЗБЕКИСТАНА И АНГЛИИ.

Аннотация. *В данной статье анализируется одна из ключевых теоретических проблем сравнительного литературоведения — литературное влияние и типологическое сходство. Исследование рассматривает методологические различия между этими двумя понятиями, основы их формирования и их роль в литературном процессе. Также раскрывается историко-генетическая природа литературного влияния и связь типологического сходства с универсальными законами литературного развития. На основе теоретических взглядов Виктора Жирмунского, Александра Веселовского и современных представителей сравнительного литературоведения анализируется система литературных связей. В результате исследования обосновывается, что различение литературного влияния и типологического сходства является важнейшим условием методологии сравнительного литературоведения.*

Kirish

Qiyosiy adabiyotshunoslik adabiy jarayonlarni turli milliy adabiyotlar o'rtasidagi o'zaro munosabatlar asosida o'rganadigan muhim ilmiy yo'nalishlardan biridir. Ushbu sohada adabiy hodisalarning kelib chiqish sabablarini aniqlash, ularning o'zaro aloqadorligini belgilash hamda umumiy qonuniyatlarini ochib berish asosiy vazifalardan

hisoblanadi. Shu nuqtai nazardan, adabiy ta’sir va tipologik o‘xshashlik muammosi qiyosiy tadqiqotlarning markaziy masalalaridan biri sifatida e’tirof etiladi.

Adabiyotlar o‘rtasida uchraydigan mushtarak motivlar, obrazlar va badiiy shakllar har doim ham bevosita adabiy aloqalar natijasi bo‘lavermaydi. Ayrim hollarda bu o‘xshashliklar tarixiy-madaniy ta’sir orqali yuzaga kelsa, boshqa hollarda esa mustaqil rivojlanish jarayonida shakllangan umumiy tipologik qonuniyatlarning natijasi bo‘lishi mumkin. Shu sababli qiyosiy adabiyotshunoslikda har qanday adabiy o‘xshashlikni tahlil qilishda uning genetik yoki tipologik xususiyatini aniqlash muhim metodologik ahamiyat kasb etadi.

Mazkur masala qiyosiy adabiyotshunoslik tarixida turli olimlar tomonidan o‘rganilgan bo‘lib, ayniqsa Viktor Jirmunskiy va Aleksandr Veselovskiylarning nazariy qarashlari bu borada alohida ahamiyatga ega. Ularning tadqiqotlari adabiy ta’sir va tipologik o‘xshashlikni farqlash, shuningdek, adabiy aloqalarni tizimli ravishda tahlil qilish uchun ilmiy asos yaratgan.

Shu jihatdan ushbu maqolada adabiy ta’sir va tipologik o‘xshashlik tushunchalarining nazariy asoslari, ularning o‘zaro farqi hamda qiyosiy adabiyotshunoslikdagi o‘rni ilmiy jihatdan yoritiladi.

Metodologiya

Mazkur tadqiqotda qiyosiy adabiyotshunoslikning asosiy ilmiy yondashuvlari asos qilib olindi. Xususan, adabiy ta’sir va tipologik o‘xshashlikni farqlashda tarixiy-genetik, kontakt-genetik hamda qiyosiy-tipologik metodlardan foydalanildi. Ushbu metodlar adabiy hodisalar o‘rtasidagi o‘zaro aloqalarni aniqlash, ularning kelib chiqish sabablarini izohlash va umumiy badiiy qonuniyatlarni ochib berishga xizmat qiladi.

Tarixiy-genetik yondashuv adabiy hodisalarning kelib chiqish manbalarini, ularning tarixiy rivojlanish bosqichlarini hamda adabiyotlar o‘rtasidagi bevosita yoki bilvosita aloqalarni aniqlashga imkon beradi. Ushbu metod orqali muayyan syujet, motiv yoki obrazning bir adabiyotdan boshqasiga o‘tish jarayoni, shuningdek, tarjima va madaniy aloqalar ta’siri o‘rganiladi.

Kontakt-genetik metod esa adabiy ta’sirning aniq tarixiy faktlar asosida yuzaga kelishini tahlil qilishga yo‘naltirilgan bo‘lib, mualliflarning ijodiy aloqalari, adabiy maktablar, tarjimalar va madaniy muhit orqali shakllangan o‘zaro ta’sirlarni aniqlashda muhim ahamiyat kasb etadi. Bu yondashuv adabiy ta’sirning bevosita mexanizmlarini ochib berishga xizmat qiladi.

Qiyosiy-tipologik metod esa adabiyotlar o‘rtasida tarixiy aloqa mavjud bo‘lmagan hollarda yuzaga keladigan mushtarakliklarni o‘rganishga asoslanadi. Ushbu metod yordamida turli milliy adabiyotlarda mustaqil ravishda shakllangan, biroq o‘xshash ijtimoiy, madaniy va estetik sharoitlar natijasida yuzaga kelgan tipologik o‘xshashliklar tahlil qilinadi.

Shuningdek, tadqiqot jarayonida strukturaviy va intertekstual tahlil elementlaridan ham foydalanildi. Bu yondashuvlar adabiy matnlar o‘rtasidagi ichki bog‘lanishlarni, motivlar va obrazlar tizimidagi umumiylik va farqlarni chuqurroq yoritish imkonini berdi.

Mazkur metodologik yondashuvlar adabiy ta’sir va tipologik o‘xshashlikni bir-biridan farqlash, ularning o‘zaro munosabatini ilmiy asosda izohlash hamda qiyosiy adabiyotshunoslikning nazariy asoslarini aniqlashtirishga xizmat qiladi.

Adabiyotlar tahlili

Qiyosiy adabiyotshunoslikda adabiy ta'sir va tipologik o‘xshashlik masalasi eng muhim nazariy muammolardan biri hisoblanadi. Turli milliy adabiyotlarda uchraydigan mushtarak motivlar, obrazlar, syujetlar va poetik shakllarning kelib chiqish sabablarini aniqlash qiyosiy tadqiqotlarning asosiy vazifalaridan biridir. Shu nuqtai nazardan, adabiy ta'sir va tipologik o‘xshashlik tushunchalarini farqlash ilmiy tahlilning metodologik asosini tashkil etadi.

Qiyosiy adabiyotshunoslik tarixida adabiy ta'sir masalasi dastlab fransuz maktabi tomonidan keng tadqiq etilgan. Ushbu maktab vakillari adabiyotlar o‘rtasidagi aloqalarni asosan manba va ta'sir masalalari bilan bog‘lab o‘rganganlar. Biroq keyingi tadqiqotlar barcha o‘xshashliklarni ta'sir bilan izohlash mumkin emasligini ko‘rsatdi. Shu sababli XX asrda tipologik tadqiqotlar alohida ilmiy yo‘nalish sifatida shakllandi.

Viktor Jirmunskiyning nazariy qarashlari bu borada alohida ahamiyatga ega. Olim shunday yozadi: *“It is therefore crucial to distinguish, in each Literature, the ‘typological analogies’ from the actual ‘influences’.”* [1]Ushbu fikr qiyosiy adabiyotshunoslik metodologiyasining asosiy tamoyillaridan biri sifatida qaraladi. Ya'ni, ikki adabiyotdagi o‘xshash hodisalarning mavjudligi hali ular o‘rtasida ta'sir bo‘lganligini anglatmaydi. Avvalo, o‘xshashlikning kelib chiqish tabiati aniqlanishi lozim.

Adabiy ta'sir bir adabiyotning boshqa adabiyotga yoki bir ijodkorning boshqa ijodkorga ko‘rsatgan bevosita yoki bilvosita ta'siri sifatida izohlanadi. Bu jarayon tarjima, madaniy aloqalar, adabiy maktablar,

tarixiy yaqinlik va ijodiy muloqotlar orqali amalga oshadi. Viktor Jirmunskiy ta'kidlaganidek: *“An influence only becomes possible if there is an inner need of the receiving Literature to absorb foreign elements during its evolution”* (Jirmunskiy).[1] Mazkur fikr adabiy ta'sirning mexanik ko‘chirish emas, balki qabul qiluvchi adabiyotning ichki rivojlanish ehtiyojlari

bilan bog‘liq murakkab jarayon ekanligini ko‘rsatadi. Jirmunskiyning ushbu qarashi adabiy ta'sir hodisasini bir tomonlama taqlid yoki o‘zlashtirish sifatida emas, balki ikki tomonlama ijodiy jarayon sifatida talqin etishga imkon beradi. Ya'ni, bir adabiyotdan kirib kelgan g‘oya, obraz, syujet yoki poetik shakl boshqa adabiyotga o‘z holicha ko‘chib o‘tmaydi, balki qabul qiluvchi muhitning estetik talablari, milliy an'analari va tarixiy-madaniy sharoitlariga moslashgan holda yangi mazmun kasb etadi.

Masalan, XIX asr oxiri va XX asr boshlarida Sharq xalqlari adabiyotlarida ma'rifatparvarlik g‘oyalarining keng tarqalishi Yevropa va rus adabiyotining ta'siri bilan bog‘liq bo‘lsa-da, bu ta'sirning muvaffaqiyatli o‘zlashtirilishi mahalliy jamiyatlarning ijtimoiy yangilanishga bo‘lgan ehtiyoji bilan izohlanadi. Xuddi shuningdek, o‘zbek jadid adabiyotining shakllanishida ham tashqi adabiy ta'sirlar muhim rol o‘ynagan, biroq ular milliy adabiyotning ichki taraqqiyot qonuniyatlari bilan uyg‘unlashgan holdagina samarali natija bergan.

Adabiy ta'sirni o‘rganishda uning shakllanish mexanizmlariga ham e'tibor qaratish lozim. Bunday ta'sir bevosita va bilvosita ko‘rinishlarda namoyon bo‘lishi mumkin. Bevosita ta'sir muallifning boshqa adabiyot namunalarini o‘qishi, tarjimalar bilan tanishishi yoki muayyan adabiy maktab an'analarini ongli ravishda o‘zlashtirishi orqali yuzaga keladi. Bilvosita ta'sir esa madaniy muhit, umumiy estetik qarashlar yoki uchinchi bir adabiyot vositasida amalga oshadi. Shu sababli qiyosiy adabiyotshunoslikda adabiy ta'sirni aniqlash uchun tarixiy hujjatlar, tarjimalar tarixi, mualliflarning mutolaa doirasi va adabiy aloqalar tizimi sinchkovlik bilan o‘rganiladi.

Bundan tashqari, adabiy ta'sir har doim ham bir xil darajada namoyon bo‘lavermaydi. U ayrim hollarda syujet va motivlarning o‘zlashtirilishi shaklida ko‘rinsa, boshqa hollarda poetik usullar, janr xususiyatlari yoki badiiy tafakkur tamoyillarining qabul qilinishi orqali yuzaga chiqadi. Shu jihatdan adabiy ta'sir milliy adabiyotlarning boyishi va yangilanishiga xizmat qiluvchi muhim omillardan biri hisoblanadi. Biroq qiyosiy tadqiqotlarda har qanday o‘xshashlikni darhol ta'sir natijasi sifatida talqin qilish ilmiy jihatdan to‘g‘ri emas. Chunki ayrim mushtarakliklar adabiy aloqalar mahsuli bo‘lsa, boshqalari tipologik o‘xshashlik natijasida vujudga kelgan bo‘lishi mumkin. Shuning uchun adabiy ta'sirni aniqlashda tarixiy-genetik dalillar va adabiy aloqa faktlari asosiy mezon sifatida xizmat qiladi.

Biroq qiyosiy adabiyotshunoslikda barcha o‘xshashliklarni adabiy ta'sir bilan izohlash mumkin emas. Ayrim hollarda adabiy hodisalar o‘rtasidagi mushtarakliklar hech qanday tarixiy yoki madaniy aloqa mavjud bo‘lmagan sharoitda ham yuzaga keladi. Bunday hodisalar tipologik o‘xshashlik tushunchasi orqali izohlanadi.

Tipologik o‘xshashlik turli adabiyotlarda tarixiy aloqa bo‘lmagan holda yuzaga keladigan mushtarakliklarni ifodalaydi. Bunday yaqinliklar ko‘pincha jamiyat taraqqiyotining o‘xshash bosqichlari, umumiy ijtimoiy muammolar yoki inson tafakkurining universal xususiyatlari bilan bog‘liq bo‘ladi. Jirmunskiy bu haqda shunday fikr bildiradi: *“Some similarities between literatures cannot be attributed to influence and reception factors but can be traced back to the levels of societal development.”* Demak, ayrim adabiy hodisalar o‘zaro ta'sir natijasi emas, balki jamiyatlarning o‘xshash rivojlanish bosqichlari mahsuli sifatida yuzaga keladi.

Olimning yana bir muhim xulosasiga ko‘ra, *“Societies that have attained similar levels of social structural development also exhibit similar literary structures.”* Ushbu nazariya tipologik qiyoslash metodining nazariy poydevorini tashkil qiladi. Chunki adabiy rivojlanish jamiyat taraqqiyotidan ajralgan holda kechmaydi. Natijada turli geografik hududlarda yashagan xalqlar adabiyotida o‘xshash estetik tamoyillar va badiiy shakllar vujudga kelishi mumkin.

Jirmunskiy adabiy ta’sirni faqat tashqi o‘zlashtirish jarayoni sifatida emas, balki qabul qiluvchi adabiyotning ichki ehtiyoji bilan bog‘liq murakkab estetik hodisa sifatida talqin qiladi. Shu nuqtai nazardan, adabiy jarayonlar o‘rtasidagi bog‘liqliklar doimo bir tomonlama emas, balki o‘zaro transformatsiya asosida kechadi. Bu fikr qiyosiy adabiyotshunoslikda adabiy aloqalarning dinamik tabiatini tushunishda muhim metodologik asos bo‘lib xizmat qiladi.

Shu mazmunda Kasimov ham qiyosiy adabiyotshunoslikning funksional mohiyatini ta’kidlab, uni quyidagicha izohlaydi:“Comparative literature functions as a bridge that connects literary systems across cultural and linguistic boundaries, enabling mutual interpretation and transformation” (Kasimov, 2024).[2]

Tipologik tadqiqotlarning shakllanishida Aleksandr Veselovskiyning xizmatlari ham katta. Olimning fikricha, *“The purpose of research on literary studies is in comparison and in applying the comparison to as many facts as possible.”* [3]Bu qarash tarixiy poetika maktabining shakllanishiga asos bo‘ldi va qiyosiy tadqiqotlarda o‘xshashliklarni tizimli ravishda o‘rganish imkonini yaratdi. Veselovskiy adabiyotlarni qiyoslash orqali ularning umumiy qonuniyatlarini aniqlash mumkinligini ta'kidlagan.

Qiyosiy adabiyotshunoslikning zamonaviy bosqichida tipologik tahlil metodologiyasi yanada takomillashdi. Mushtariy Vaxidovaning tadqiqotlarida adabiy aloqalarning uch asosiy turi ajratiladi: *“Three main types of literary connections – contact-genetic connections, typological parallels and historical-genetic connections – were identified.”* [4]Ushbu tasnif bugungi qiyosiy tadqiqotlarda keng qo‘llanilmoqda. Ayniqsa, Sharq va G‘arb adabiyotlari o‘rtasidagi aloqalarni o‘rganishda tipologik parallellar va genetik aloqalarni farqlash muhim metodologik vazifa hisoblanadi.

Adrian Marino qiyosiy adabiyotshunoslikni “qiyosiy poetika” sifatida talqin qiladi va adabiyotdagi invariant elementlar mavjudligini ilgari suradi. Olimning fikricha, invariantlar *“a universal element in literature”* hamda *“a common*

trait of literary discourse and thought"[5] hisoblanadi. Bu nazariya tipologik o‘xshashliklarning universal estetik asoslarini tushuntirishga xizmat qiladi. Ya'ni, ayrim g‘oyalar, obrazlar va poetik modellar turli adabiyotlarda mustaqil ravishda takrorlanishi mumkin.

Yuqoridagi nazariy qarashlar shuni ko‘rsatadiki, adabiy ta'sir va tipologik o‘xshashlik bir-biriga yaqin tushunchalar bo‘lsa-da, ularning mohiyati turlicha. Adabiy ta'sir tarixiy va madaniy aloqalar natijasida yuzaga keladigan hodisa bo‘lsa, tipologik o‘xshashlik umumiy taraqqiyot qonuniyatlari va universal estetik omillar bilan izohlanadi. Shuning uchun qiyosiy adabiyotshunoslikda har qanday o‘xshashlikni tahlil qilishda, avvalo, uning genetik manbaga ega yoki ega emasligini aniqlash zarur. Ana shundagina adabiy hodisalarning asl tabiatini ilmiy asosda izohlash mumkin bo‘ladi.

Zamonaviy qiyosiy adabiyotshunoslikda adabiy ta’sir va tipologik o‘xshashlik muammosi global adabiy jarayonlarning o‘zaro bog‘liqligi nuqtai nazaridan qayta talqin qilinmoqda. Bu yo‘nalishda adabiyotlar endilikda yopiq milliy tizim sifatida emas, balki o‘zaro aloqador va doimiy harakatdagi madaniy tizim sifatida qaraladi.

Xususan, David Damrosch adabiyotni qat’iy kanon sifatida emas, balki “circulation and reading mode” sifatida talqin qilib, uni global muhitda aylanib yuruvchi estetik hodisa sifatida izohlaydi. Uning fikricha, *“World literature is not an infinite, ungraspable canon of works but rather a mode of circulation and reading”* [7]Ushbu yondashuv adabiy ta’sirni faqat tarixiy-genetik hodisa emas, balki global kommunikativ jarayon sifatida tushunishga imkon beradi.

Shu bilan birga, Franco Moretti adabiy tizimni markazlashmagan global struktura sifatida tahlil qilib, adabiyotlar o‘rtasidagi munosabatlarni tarmoq (network) modeli orqali izohlaydi. Unga ko‘ra, milliy adabiyotlar yagona markazga bo‘ysunuvchi tizim emas, balki ko‘p nuqtali o‘zaro aloqalar majmuasidir. Moretti bu haqda shunday ta’kidlaydi: adabiyot global tizimda “one node among many” sifatida faoliyat yuritadi Bu esa tipologik o‘xshashliklarni tabiiy tizimli hodisa sifatida tushuntirishga asos bo‘ladi.[8]

Susan Bassnett qiyosiy adabiyotshunoslikni milliy chegaralardan tashqariga chiqib o‘qish jarayoni sifatida belgilab, uni intertekstual va madaniyatlararo yondashuv bilan bog‘laydi. Uning fikricha, *“Comparative literature involves reading beyond the confines of one literature”* [9]Bu yondashuv adabiy ta’sirni faqat tarixiy aloqa emas, balki o‘qish va interpretatsiya jarayoni sifatida ham tushunishga yordam beradi.

Zamonaviy ilmiy qarashlarda Haun Saussy tomonidan ilgari surilgan fikr ham muhim o‘rin tutadi. U qiyosiy adabiyotshunoslikni qat’iy fan emas, balki chegaralararo metod sifatida talqin qilib, uni madaniyatlararo tahlil vositasi sifatida ko‘radi. Ushbu yondashuvga ko‘ra, qiyosiy adabiyotshunoslik “a method of crossing borders” sifatida namoyon bo‘ladi Bu esa adabiy o‘xshashliklarni global madaniy harakatlar bilan bog‘lash imkonini beradi.[10]

Shuningdek, The Routledge Companion to World Literature asarida adabiyotlar o‘rtasidagi munosabatlar qat’iy kanon emas, balki tarmoq (network) sifatida talqin qilinadi. Bu yondashuvga ko‘ra, adabiy ta’sir markazdan periferiyaga bir yo‘nalishda emas, balki ko‘p yo‘nalishli o‘zaro ta’sir shaklida amalga oshadi[11]

Alexander Beecroft esa adabiyotlarni ekologik tizim sifatida talqin qilib, ularning o‘zaro munosabatini tabiiy muhitdagi o‘zaro bog‘liqlikka qiyoslaydi. Uning fikricha, adabiyotlar “ecological relation” asosida rivojlanadi. Bu yondashuv tipologik o‘xshashlikni tabiiy va tarixiy sharoitlar bilan bog‘liq universal hodisa sifatida izohlashga imkon beradi.[12]

Rita Felski esa adabiy matnlarni faqat tanqidiy tahlil obyekti emas, balki o‘quvchi bilan emotsional va intellektual aloqaga kirishuvchi tizim sifatida ko‘radi. Uning fikricha, matnlar nafaqat ma’no yashiradi, balki o‘quvchida “recognition and attachment” jarayonini ham yuzaga keltiradi Bu esa adabiy ta’sirning psixologik va estetik jihatlarini ham yoritadi.[13]

Tötösy de Zepetnek tomonidan ishlab chiqilgan sistem yondashuv esa qiyosiy adabiyotshunoslikni madaniy tizimlar o‘rtasidagi munosabat sifatida talqin qiladi. Unga ko‘ra, adabiyot “a system of cultural relations” sifatida faoliyat yuritadi. Bu esa adabiy ta’sir va tipologik o‘xshashlikni bir tizim ichida o‘zaro bog‘liq kategoriyalar sifatida ko‘rsatadi.[14]

Umuman olganda, zamonaviy ilmiy adabiyotlar tahlili shuni ko‘rsatadiki, adabiy ta’sir ko‘proq tarixiy-genetik va kommunikativ jarayon sifatida talqin qilinsa, tipologik o‘xshashlik esa universal, tizimli va ekologik qonuniyatlar asosida izohlanadi. Shu sababli bu ikki kategoriya o‘rtasidagi chegarani aniqlash qiyosiy adabiyotshunoslikning metodologik aniqligini ta’minlovchi asosiy omillardan biri hisoblanadi.

Xulosa

Qiyosiy adabiyotshunoslikda adabiy ta’sir va tipologik o‘xshashlik muammosi adabiy jarayonlarni ilmiy asosda tushuntirishning eng muhim metodologik masalalaridan biri hisoblanadi. Tadqiqot davomida ko‘rib chiqilgan nazariy qarashlar shuni ko‘rsatadiki, ushbu ikki hodisa tashqi jihatdan o‘xshash ko‘rinsa-da, ularning kelib chiqish mexanizmi va funksional mohiyati tubdan farq qiladi.

Adabiy ta’sir tarixiy-genetik jarayon bo‘lib, u adabiyotlar o‘rtasidagi bevosita yoki bilvosita madaniy aloqalar, tarjimalar, ijodiy muloqotlar va adabiy maktablar orqali shakllanadi. Bu jarayon, ayniqsa, qabul qiluvchi adabiyotning

ichki estetik ehtiyojlari bilan uyg‘unlashganda samarali natija beradi. Shu jihatdan adabiy ta’sir har doim ham mexanik ko‘chirish emas, balki ijodiy moslashuv va transformatsiya jarayoni sifatida namoyon bo‘ladi.

Tipologik o‘xshashlik esa adabiy aloqalardan mustaqil ravishda, jamiyatlarning o‘xshash tarixiy rivojlanish bosqichlari, ijtimoiy ehtiyojlari va universal estetik qonuniyatlar asosida yuzaga keladigan hodisadir. Bu holat turli milliy adabiyotlarda bir-biridan mustaqil ravishda shakllangan, biroq strukturaviy va mazmuniy jihatdan o‘xshash badiiy shakllarning paydo bo‘lishini izohlaydi.

Tadqiqot natijalari shuni tasdiqlaydiki, qiyosiy adabiyotshunoslikda har qanday adabiy o‘xshashlikni biryoqlama tarzda ta’sir natijasi sifatida talqin qilish ilmiy jihatdan to‘liq asosli emas. Aksincha, har bir holatda uning genetik yoki tipologik tabiatini aniqlash zarur bo‘ladi. Bu esa adabiy hodisalarni chuqur va xolis tahlil qilish, ularning kelib chiqish mexanizmlarini to‘g‘ri izohlash hamda qiyosiy adabiyotshunoslik metodologiyasini yanada takomillashtirish imkonini beradi.

Umuman olganda, adabiy ta’sir va tipologik o‘xshashlikni o‘zaro farqlash milliy adabiyotlararo munosabatlarni to‘g‘ri anglash, shuningdek, o‘zbek va ingliz adabiyotlari misolida global adabiy jarayonlarni ilmiy asosda tahlil qilishda muhim nazariy ahamiyat kasb etadi.

ЛИНГВОКУЛЬТУРОЛОГИЧЕСКИЙ АСПЕКТ КОНЦЕПТА “СЧАСТЬЕ” В ЛИТЕРАТУРЕ

Асанов Руслан Арсенович
Дилдора Кодирова Абдуназар қизи
преподаватели Гулистанского государственного педагогического института
e-mail: simply.ruslan.96@mail.ru

Аннотация: *Лингвокультурология представляет собой сравнительно молодую и интенсивно развивающуюся область научного знания, сформировавшуюся на пересечении лингвистики, культурологии и этнографии. В статье рассматривается лингвокультурологическое измерение концепта «счастье», относящегося к числу ключевых этических категорий и обладающего универсальной ценностью для человеческого бытия.*

Его семантическое наполнение охватывает широкий спектр значений, включающий благополучие, здоровье, процветание, трудовую деятельность, материальные блага и продолжение рода. Актуальность поиска счастья прослеживается на протяжении всей истории человечества. В рамках исследования применялись методы сплошной выборки, тематического анализа, описания и сопоставления. Полученные результаты позволяют выявить механизмы формирования и функционирования концепта «счастье» и обладают прикладным потенциалом для разработки учебных курсов по лингвокультурологии, анализа текстов, а также при проведении специализированных семинаров и дисциплин филологического профиля.

Ключевые слова: *счастье, лингвокультурология, литература, лингвистические особенности, культурные особенности, репрезентация, эмоциональное состояние, ценности, литературный дискурс, анализ, языковые средства, структура понятия, методы исследования, человеческая жизнь, философия, культурные традиции, лингвистическое выражение.*

THE LINGUACULTURAL ASPECT OF THE CONCEPT OF ‘HAPPINESS’ IN LITERATURE

Annotation: *Linguistic and cultural studies is a relatively young and rapidly developing field of academic inquiry that has emerged at the intersection of linguistics, cultural studies, and ethnography. This article examines the linguocultural dimension of the concept of “happiness,” which ranks among the key ethical categories and holds universal value for human existence.*

Its semantic content encompasses a wide range of meanings, including well-being, health, prosperity, work, material goods, and the continuation of the family line. The relevance of the pursuit of happiness can be traced throughout the entire history of humanity. The study employed methods of comprehensive sampling, thematic analysis, description, and comparison. The results obtained reveal the mechanisms of formation and functioning of the concept of “happiness” and have practical potential for the development of courses in linguoculturology and text analysis, as well as for conducting specialized seminars and philology-related disciplines.

Key words: *happiness, linguoculturology, literature, linguistic features, cultural features, representation, emotional state, values, literary discourse, analysis, language means, structure of concept, research methods, human life, philosophy, cultural traditions, linguistic expression.*

ADABIYOTDA ‘BAXT’ KONSEPTINING LINGVOMADANIY JIHATI

Annotatsiya: *Lingvomadaniyatshunoslik tilshunoslik, madaniyatshunoslik va etnografiya chorrahasida shakllangan nisbatan yosh va jadal rivojlanayotgan ilmiy bilim sohasi hisoblanadi.Tadqiqot doirasida uzluksiz tanlash, tematik tahlil, tavsiflash va taqqoslash usullari qo‘llanildi. ega bo‘lgan ”baxt” konseptining lingvomadaniy o‘lchovi ko‘rib chiqiladi. Uning semantik mazmuni farovonlik, salomatlik, farovon hayot, mehnat faoliyati, moddiy ne’matlar va nasl qoldirish kabi keng ko‘lamli ma’nolarni qamrab oladi. Baxt izlashning dolzarbligi insoniyat tarixi davomida kuzatiladi. Tadqiqot doirasida uzluksiz tanlash, tematik tahlil, tavsiflash va taqqoslash usullari qo‘llanildi. Olingan natijalar ”baxt” konseptining shakllanishi va faoliyat ko‘rsatish mexanizmlarini aniqlash imkonini beradi hamda lingvokulturologiya bo‘yicha o‘quv kurslarini ishlab chiqish, matnlarni tahlil qilish, shuningdek, filologik yo‘nalishdagi ixtisoslashtirilgan seminarlar va fanlarni o‘tkazishda amaliy salohiyatga ega.*

Kalit so'zlar: *baxt, lingvomadaniyatshunoslik, adabiyot, lingvistik xususiyatlar, madaniy xususiyatlar, vakillik, hissiy holat, qadriyatlar, adabiy nutq, tahlil, til vositalari, tushuncha tuzilishi, tadqiqot usullari, inson hayoti, falsafa, madaniy an'analar, lingvistik ifoda.*

Linguoculturology, as an interdisciplinary field of knowledge, studies the relationship between language and culture, revealing how culture is reflected in language and, conversely, how language shapes cultural perception of the world. In this context, concepts play a key role–mental constructs that contain not only knowledge about the world but also an evaluative attitude toward it formed by culture. One of the most universal and at the same time culturally specific concepts is "happiness." Its analysis makes it possible to access the deep structures of national consciousness and to understand the value orientations and worldview attitudes of a particular people. Thus, the concept of "happiness" is not merely one of many concepts, but one of the fundamental categories of linguoculturology.

A concept, according to V. A. Maslova, is "a unit of thinking that reflects mental, imaginative, and symbolic representations fixed in language." Unlike a simple lexical meaning, a concept includes:

- a conceptual component (cognitive layer): knowledge about an object or phenomenon;
- an image component (perceptual layer): an image associated with the concept (for example, "light," "rainbow," "sun" for the concept of "happiness");
- a value component (axiological layer): an attitude toward the concept and its significance within the value system of a culture.

A concept is a cognitive unit that integrates knowledge, representations, and experience associated with a particular phenomenon. The concept of happiness includes lexical, phraseological, metaphorical, and pragmatic elements of language, reflecting culturally determined perceptions and values. The concept of happiness differs across cultures in its content and emotional connotation. In Western cultures, happiness is often associated with personal freedom, success, and subjective well-being. In Eastern cultures, emphasis is placed on harmony, social belonging, and spiritual development. In language, happiness is expressed through a wide variety of lexical units (e.g., joy, satisfaction, bliss), phraseological expressions (e.g., "on cloud nine"), proverbs, and metaphors (e.g., "light in the soul"). The analysis of these linguistic units helps to understand culturally conditioned meanings.

The concept of happiness is one of the key categories studied in linguoculturology, as it reflects not only individual emotions but also cultural values, worldview, and social norms embedded in language. Linguoculturology examines how language and culture are interconnected, and the concept of happiness is a vivid example of the interaction between linguistic and cultural aspects. The concept of happiness has, for centuries, been the subject of philosophical and theological inquiry; however, in recent decades it has become a full-fledged object of empirical scientific analysis within sociology, psychology, and economics. Historically, sociologists have traditionally focused on studying social problems, conflicts, and destructive phenomena, which partly explains why happiness, as a positive social phenomenon, remained on the periphery of academic attention for a long time. Nevertheless, the recognition that even in an imperfect world there are happy people has encouraged the scientific community to conduct deeper research into well-being as a key indicator of societal health. In classical sociological thought, happiness was viewed through the prism of social organization and harmony. For example, Auguste Comte considered happiness as the result of a consensus among three fundamental components: a scientific worldview, feelings of love and respect, and rationally organized action. Émile Durkheim, in turn, associated happiness with the harmonious coexistence of individuals with their nature and living conditions. These early approaches laid the foundation for the modern sociological understanding of happiness as a phenomenon inseparably linked to the social environment rather than merely an individual experience. Modern scientific concepts of happiness generally develop two main approaches: hedonic and eudaimonic, both rooted in ancient philosophy. The hedonic approach (from Greek–pleasure) defines well-being as the predominance of positive emotions over negative ones and overall life satisfaction. This approach focuses on the pursuit of pleasure and the avoidance of suffering, viewing happiness as a result of social adaptation and social comparison. The eudaimonic approach (from Greek–flourishing, happiness) emphasizes the realization of personal potential, the search for life meaning, and self-development. In this context, happiness is not so much momentary pleasure as it is the process of realizing the inner "self." A key aspect of understanding happiness is its ambivalence: positive and negative aspects may coexist simultaneously. A person may be satisfied with life in general while still experiencing suffering or negative emotions in specific situations. This indicates the multi-component structure of happiness, which includes both cognitive life evaluation and an emotional background.

Sociological studies show that happiness often correlates with social status. People with higher levels of income, education, and occupational status tend to report higher levels of subjective well-being. This is explained by the fact that economic well-being provides access to quality healthcare and education, and also reduces the level of stress associated

with survival. However, as research indicates, after reaching a certain income threshold, further increases in income cease to have a significant impact on happiness. This phenomenon is known as the "Easterlin paradox." One of the key conclusions of the sociology of happiness is that strong social ties and a high level of social trust are powerful predictors of well-being. In societies with strong communities where people feel support and mutual assistance, happiness levels are higher. Social capital, including networks, norms of reciprocity, and social trust, serves as an important resource that helps individuals cope with difficulties and increases overall life satisfaction. The level of happiness also depends on political and institutional conditions. Countries with high levels of democracy, transparent governance, low corruption, and strong social protection systems tend to demonstrate higher levels of collective well-being. Civil liberties, equality, and access to public goods create an environment in which people feel secure and free to realize their potential. Culture determines which strategies for coping with stress and negative emotions are considered acceptable, which indirectly influences the ability to maintain a sense of happiness. Cultural norms shape not only the understanding of happiness but also the ways of achieving and expressing it. This explains why people in different cultures perceive and experience happiness differently, and why universal standards for this feeling do not exist. Cultural norms view the concept of happiness as a phenomenon that is formed and interpreted within cultural traditions, values, and norms. Cultural norms influence not only how people perceive happiness but also how they express it. In cultures where restraint is valued, the open expression of joy may be considered inappropriate. At the same time, in cultures where emotional expressiveness is encouraged, open displays of happiness are regarded as normal.

Happiness is not only a personal feeling but also a measurable indicator at the societal level. The analysis of the concept at the macro level makes it possible to reveal its connection with social, economic, and cultural conditions. Data presented in various rankings demonstrate a striking stability of leading countries. For instance, according to global rankings, Finland, Denmark, and Iceland consistently occupy the top positions. This indicates that the level of happiness in a country is not random but depends on stable social and economic factors. An important conclusion drawn from such studies is that the average level of happiness in countries remains relatively stable over decades, while dramatic events or rapid social changes have only a minor and temporary effect.

This phenomenon presents researchers with a paradox: how can something so ephemeral and subjective be measured, when even dictionaries define happiness as a fleeting and difficult-to-grasp phenomenon? The answer lies in the fact that sociological research measures not so much momentary feelings of happiness (the hedonic aspect), but rather the conditions that are highly likely to promote eudaimonic flourishing. Factors such as health, safety, freedom of choice, and trust are necessary prerequisites for a meaningful and virtuous life. Thus, the World Happiness Report essentially measures eudaimonic factors rather than hedonic feelings. This allows happiness to be viewed not merely as a personal whim, but as an objective indicator of societal well-being that governments can deliberately improve.

Cross-cultural analysis also shows that happiness is perceived differently depending on cultural values. In Western individualistic societies, happiness is often associated with personal freedom, self-expression, and individual achievement. In contrast, in Eastern collectivist cultures, happiness is more often defined through the lens of social well-being, social harmony, and harmonious relationships. These differences demonstrate that, despite the universality of the pursuit of happiness, its specific content can be deeply shaped by cultural norms. Let us also consider gender differences in the perception of happiness. Research reveals a complex and sometimes contradictory picture of gender differences in happiness levels. In general, global surveys show that average life satisfaction scores among women may be higher than among men. However, this result is not as straightforward as it seems, as it masks deeper differences in the emotional and cognitive components of happiness. For example, studies show that women report lower levels of joy and calmness, but higher levels of life satisfaction–that is, their cognitive evaluation of their life as "good" or "successful" tends to be more positive. This contradiction points to the multidimensional nature of happiness, which simultaneously includes both emotional experiences and rational evaluation. The gender gap in happiness may be explained not only by psychological factors but also by deeper socio-economic and cultural influences. Analysis conducted on a Russian sample showed that in the 1990s Russian women were, on average, less happy than men. This was associated with the mismatch between socially imposed patriarchal family roles and the roles women were actually required to perform.

BERNARD SHOU VA A. QAHHOR DRAMALARI TEMATIKASI VA DAVR MUAMMOLARINING TAHLILI

Najmiddinov Jobir Zokirovich
Namangan davlat universiteti Katta o'qituvchi
Elektron pochta: nazmiddinovzobir6gmail.com.

Annotatsiya: *Mazkur maqolada Bernard Shaw va Abdulla Qahhor dramalarining tematik xususiyatlari hamda ularda aks etgan davr muammolari qiyosiy tahlil qilinadi. Har ikki dramaturg ijodida jamiyatdagi ijtimoiy tengsizlik, insoniy qadriyatlar inqirozi, axloqiy muammolar va ma'naviy tanazzul kabi masalalar yetakchi o'rin egallashi ilmiy asosda ochib beriladi. Tadqiqotda dramaturglarning badiiy uslubi, satira va realizm elementlaridan foydalanish usullari ham chuqur tahlil qilinadi.*

Kalit so'zlar; *drama, dramaturgiya, tematika, ijtimoiy muammolar, satira, realizm, qiyosiy tahlil, jamiyat, axloq, inson qadriyati*

ТЕМАТИКА ДРАМ БЕРНАРДА ШОУ И А. КАХХАРА И АНАЛИЗ ПРОБЛЕМ ЭПОХИ

Аннотация: *В данной статье проводится сравнительный анализ тематических особенностей драм Бернарда Шоу и Абдуллы Каххара, а также проблем эпохи, отражённых в их произведениях. Научно обосновывается, что в творчестве обоих драматургов ведущее место занимают такие вопросы, как социальное неравенство в обществе, кризис человеческих ценностей, нравственные проблемы и духовный упадок. В исследовании также подробно анализируются художественный стиль драматургов, а также способы использования элементов сатиры и реализма.*

Ключевые слова *драма, драматургия, тематика, социальные проблемы, сатира, реализм, сравнительный анализ, общество, нравственность, человеческие ценности*

THE THEMATIC ANALYSIS OF BERNARD SHAW'S AND A. QAHHOR'S DRAMAS AND THE PROBLEMS OF THE ERA

Annotation: *This article provides a comparative analysis of the thematic features of the dramas of Bernard Shaw and Abdulla Qahhor, as well as the social problems of the era reflected in their works. The study scientifically reveals that issues such as social inequality, the crisis of human values, moral problems, and spiritual decline occupy a central place in the works of both playwrights. The research also offers an in-depth analysis of the playwrights' artistic styles and their use of satire and realism.*

Keywords: *drama, dramaturgy, thematic analysis, social problems, satire, realism, comparative analysis, society, morality, human values*

Kirish

Dramaturgiya insoniyat tafakkurining muhim ko'zgusi bo'lib, unda jamiyatdagi muammolar, insoniy ziddiyatlar va davr ruhiyati aks etadi[1]. XX asr boshlarida yashab ijod qilgan George Bernard Shaw ingliz dramaturgiyasida tanqidiy realizmning yorqin namoyandasi sifatida tanilgan. Uning asarlarida kapitalistik jamiyatdagi ijtimoiy adolatsizlik va sinfiy tafovutlar keskin tanqid qilinadi[2]. Abdulla Qahhor esa o'zbek adabiyotida realistik dramaturgiyaning rivojiga katta hissa qo'shgan yozuvchi bo'lib, uning asarlarida sovet davridagi jamiyat muammolari, insoniylik va ma'naviyat masalalari chuqur yoritilgan. Mazkur maqolaning asosiy maqsadi – ikki turli madaniy muhit vakillari bo'lgan dramaturglarning asarlarida aks etgan muammolarni qiyosiy o'rganish va ularning umumiy hamda farqli jihatlarini aniqlashdir.

Metodologiya

Tadqiqotda quyidagi ilmiy usullardan foydalanildi: Qiyosiy-tahliliy metod Tarixiy-adabiy yondashuv Strukturaviy va semantik tahlil Badiiy matnni interpretatsiya qilish usuli Tahlil uchun quyidagi asarlar asos qilib olindi:

- Bernard Shou: *"Pygmalion"*, *"Arms and the Man"*, *"Mrs Warren's Profession"*

• Abdulla Qahhor: *“Tobutdan tovush”*, *“Ayajonlarim”*, *“Sinchalak”*

Natijalar. Tematik yo‘nalishlar tahlili Har ikki dramaturg ijodida quyidagi umumiy tematik yo‘nalishlar aniqlanadi: **a) Ijtimoiy tengsizlik muammosi** Bernard Shou asarlarida jamiyat sinflarga bo‘lingan holda tasvirlanadi. “Pygmalion” dramasi orqali til va madaniyat insonning ijtimoiy mavqeini belgilovchi omil sifatida ko‘rsatiladi. Qahhor esa o‘z asarlarida jamiyatdagi sun’iy tenglik ortida yashiringan adolatsizliklarni ochib beradi. **b) Axloqiy inqiroz va ikkiyuzlamachilik** Shou kapitalistik jamiyatdagi riyokorlikni ochib tashlasa, Qahhor sovet jamiyatidagi soxta ideallarni tanqid qiladi. **c) Inson qadriyati masalasi** Har ikki dramaturg inson sha’ni va erkinligini asosiy qadriyat sifatida ilgari suradi.

2. Davr muammolarining aks etishi

Bernard Shou dramaturgiyasida: Kapitalizm va ijtimoiy tabaqalanish Ayollar huquqlari muammosi Ta’lim va madaniyatning jamiyatdagi o‘rni **Abdulla Qahhor dramaturgiyasida:**Byurokratiya va rasmiyatchilik Ma’naviy tanazzul Insoniylikning yo‘qolib borishi

3. Badiiy uslub va ifoda vositalari

Bernard Shou:

Intellektual dialoglar

Satira va kinoya

Paradoksal fikrlash **Abdulla Qahhor:**

Realistik tasvir

Xalqona til va iboralar

Hayotiy voqealarga asoslangan syujet

Muhokama.

Tahlillar shuni ko‘rsatadiki, Bernard Shou va Abdulla Qahhor turli siyosiy va ijtimoiy tizimlarda yashagan bo‘lsalar-da, ularning ijodiy pozitsiyasi o‘xshashdir.

Har ikki dramaturg jamiyatdagi kamchiliklarni tanqid qilish orqali uni isloh qilish g‘oyasini ilgari suradi. Ularning asarlarida kulgi vositasi orqali jiddiy muammolar yoritiladi, bu esa dramaturgiyaning tarbiyaviy ahamiyatini oshiradi.Shuningdek, Shou asarlarida ko‘proq falsafiy va nazariy yondashuv ustun bo‘lsa, Qahhor ijodida hayotiylik va milliy ruh kuchliroq namoyon bo‘ladi.

Xulosa

Bernard Shou va Abdulla Qahhor dramalari tematik jihatdan bir-biriga yaqin bo‘lib, ular orqali jamiyatdagi muammolar chuqur va ta’sirchan tarzda yoritilgan.

Ularning asarlari:

• Jamiyatni tanqid qilish

• Inson qadriyatlarini himoya qilish

• Axloqiy muammolarni ko‘rsatish

kabi umumiy maqsadlarga xizmat qiladi.

Qiyosiy tahlil natijalari shuni ko‘rsatadiki, milliy va jahon dramaturgiyasi o‘rtasida uzviy bog‘liqlik mavjud bo‘lib, bu adabiy jarayonlarning umumiy qonuniyatlarini anglashga yordam beradi.

HUQUQIY DISKURSDA PRAGMATIK IMPLIKATURA VA YASHIRIN NORMATIV MA‘NO

Elova Dilrabo Qudratillayevna
Filologiya fanlari bo‘yicha falsafa doktori (PhD), dotsent
Alisher Navoiy nomidagi Toshkent davlat o‘zbek tili va adabiyoti universiteti
E-mail: dilraboelova@gmail.com
ORCID: 0000-0002-2329-1811

Annotatsiya. *Mazkur maqolada huquqiy diskursdagi yashirin pragmatik ma’nolar va ularning normativ talqinga ta’siri masalasi ko‘rib chiqiladi. Tadqiqotning asosiy e’tibori implikatura, presuppozitsiya hamda pragmatik inferensiya kabi hodisalarning huquqiy matn interpretatsiyasidagi o‘rnini aniqlashga qaratilgan. Muallif huquqiy matn mazmuni ko‘p hollarda faqat lug‘aviy-semantik qatlam orqali emas, balki grammatik qurilish, sintaktik qamrov va kommunikativ kontekst orqali ham shakllanishini ko‘rsatishga harakat qiladi.*

Tadqiqotda deduksiya, kontrastiv tahlil va modellashtirish usullaridan foydalanildi. Empirik material sifatida O‘zbekiston Respublikasi Soliq kodeksining 414-moddasi tahlil qilinib, undagi “qurilmalari” leksemasining distributiv va kollektiv talqinlarni yuzaga keltirishi aniqlandi. Tahlil natijalari normativ matndagi grammatik noaniqlik ayrim hollarda turli huquqiy interpretatsiyalarga sabab bo‘lishini ko‘rsatdi. Shuningdek, pragmatik tahlil normaning kommunikativ maqsadi va yashirin interpretativ qatlamini aniqlashda muhim metodologik vosita bo‘la olishi asoslandi.

Maqolada huquqiy diskursni lingvistik ekspertiza nuqtayi nazaridan tahlil qilishga mo‘ljallangan pragmatik ekspertiza modeli taklif etiladi. Tadqiqot natijalari o‘zbek yuridik lingvistikasida pragmatik yondashuv imkoniyatlarini kengaytirishga xizmat qiladi.

Kalit so‘zlar. *huquqiy diskurs, implikatura, pragmatik inferensiya, yashirin normativ ma’no, lingvistik ekspertiza, pragmatik ekspertiza, sintaktik qamrov, distributiv interpretatsiya, kollektiv interpretatsiya, huquqiy talqin, lingvo-mantiqiy tahlil, presuppozitsiya.*

PRAGMATIC IMPLICATURE AND HIDDEN NORMATIVE MEANING IN LEGAL DISCOURSE

Abstract. *This article examines hidden pragmatic meanings in legal discourse and their influence on the interpretation of legal norms. The study focuses on the role of implicature, presupposition, and pragmatic inference in the interpretation of legal texts. The author argues that the meaning of a legal norm is shaped not only by its lexical and semantic content, but also by grammatical structure, syntactic scope, and communicative context.*

The research employs deduction, contrastive analysis, and modeling methods. Article 414 of the Tax Code of the Republic of Uzbekistan serves as the main empirical material. The analysis demonstrates that the lexical unit qurilmalari (“installations/devices”) allows both distributive and collective interpretations. The findings show that grammatical ambiguity in normative texts may lead to different legal interpretations in practice. The study also demonstrates that pragmatic analysis can serve as an important methodological tool for identifying the communicative purpose of a legal norm and its hidden interpretative layer.

The article proposes a model of pragmatic expertise designed for the linguistic analysis of legal discourse. The findings contribute to expanding pragmatic approaches within Uzbek legal linguistics.

Keywords: *legal discourse, implicature, pragmatic inference, hidden normative meaning, linguistic expertise, pragmatic expertise, syntactic scope, distributive interpretation, collective interpretation, legal interpretation, linguistic-logical analysis, presupposition.*

ПРАГМАТИЧЕСКАЯ ИМПЛИКАТУРА И СКРЫТЫЙ НОРМАТИВНЫЙ СМЫСЛ В ЮРИДИЧЕСКОМ ДИСКУРСЕ

Аннотация. *В данной статье рассматриваются скрытые прагматические смыслы в юридическом дискурсе и их влияние на интерпретацию правовых норм. Основное внимание уделяется роли импликатуры, пресуппозиции и прагматической инференции в толковании юридических текстов. Автор исходит из того, что смысл правового текста формируется не только на лексико-семантическом уровне, но и определяется грамматической структурой, синтаксическим охватом и коммуникативным контекстом.*

В исследовании использованы методы дедукции, контрастивного анализа и моделирования. В качестве эмпирического материала проанализирована статья 414 Налогового кодекса Республики Узбекистан. Анализ показал, что лексема «qurilmalari» («установки», «устройства») допускает как дистрибутивное, так и коллективное толкование. Результаты исследования свидетельствуют о том, что грамматическая неопределённость нормативного текста в ряде случаев приводит к различным юридическим интерпретациям. Кроме того, показано, что прагматический анализ может выступать важным методологическим инструментом для выявления коммуникативной цели правовой нормы и её скрытого интерпретационного слоя.

В статье предлагается модель прагматической экспертизы, предназначенная для лингвистического анализа юридического дискурса. Полученные результаты способствуют расширению прагматического подхода в узбекской юридической лингвистике.

Ключевые слова: *юридический дискурс, импликатура, прагматическая инференция, скрытый нормативный смысл, лингвистическая экспертиза, прагматическая экспертиза, синтаксический охват, дистрибутивная интерпретация, коллективная интерпретация, юридическое толкование, лингво-логический анализ, пресуппозиция.*

Kirish. Huquqiy matnlar boshqa matn turlaridan o‘zining yuqori normativligi va talqin sezgirligi bilan farqlanadi. Bunday matnlarda qo‘llangan har bir leksik birlik yoki grammatik konstruksiya muayyan huquqiy oqibatni yuzaga keltirishi mumkin. Shu bois huquqiy matnlarni talqin qilish masalasi nafaqat huquqshunoslik, balki tilshunoslik uchun ham muhim ilmiy yo‘nalishlardan biri hisoblanadi. Til orqali ifodalangan ma’no esa faqat lug‘aviy-semantik qatlam bilan cheklanmaydi. Nutqda ko‘pincha bevosita ifodalanmagan, ammo kontekst, kommunikativ vaziyat va pragmatik inferensiya orqali anglashiladigan yashirin ma’nolar ham mavjud bo‘ladi. Ayniqsa, implikatura va presuppozitsiya kabi pragmatik hodisalar huquqiy diskursda alohida ahamiyat kasb etadi. Chunki ayrim hollarda normaning talqini yoki huquqiy qarorning mazmuni aynan shu yashirin pragmatik qatlam bilan bog‘liq holda shakllanadi.

Adabiyotlar tahlili. So‘nggi yillarda yuridik lingvistika doirasida huquqiy matnlarning pragmatik xususiyatlarini o‘rganishga qiziqish sezilarli darajada ortib bormoqda. Ayniqsa, Peter Tiersma [1], Lawrence M. Solan [2], Deborah Cao [3], Vijay K. Bhatia [4], Teun A. van Dijk [5] kabi olimlarning ishlari huquqiy diskursning faqat normativ emas, balki kommunikativ va talqin tabiatini ham ko‘rsatib berdi. Mazkur tadqiqotlarda huquqiy matnning ko‘p ma’noliligi, interpretatsion noaniqlik, diskursiv kontekst hamda professional kommunikatsiya masalalari keng yoritilgan. Implikatura tushunchasi pragmatika nazariyasida H.P.Grice tomonidan ishlab chiqilgan kommunikativ inferensiya va kooperativ tamoyil bilan bog‘liq holda shakllangan [6]. Mazkur nazariyaga ko‘ra, nutqda ayrim ma’nolar bevosita ifodalanmaydi, balki kontekst va mantiqiy xulosa chiqarish orqali anglashiladi. Aynan shu jihat huquqiy diskursdagi yashirin normativ ma’nolarni tahlil qilishda muhim ahamiyat kasb etadi. Shunga qaramay, implikatura va yashirin pragmatik ma’noning huquqiy normani talqin qilishdagi funksiyasi hanuz mustaqil lingvistik muammo sifatida yetarli darajada ishlab chiqilgan emas. Ayniqsa, normativ matndagi grammatik qamrov, referensial bog‘lanish va pragmatik inferensiyaning yuridik oqibat bilan aloqasi bo‘yicha tadqiqotlar nisbatan kam uchraydi.

O‘zbek tilshunosligida ham lingvistik ekspertiza masalalariga qiziqish ortib bormoqda. Bu yo‘nalishda K.Musulmonovaning lingvistik ekspertiza metodlari va ekspert tahlili bosqichlariga bag‘ishlangan ishlari [7,8], shuningdek, A.Murtazayevning normativ-huquqiy matnlarning lingvistik xususiyatlariga oid tadqiqotlari muhim nazariy asos vazifasini bajarmoqda [9]. Ayrim ishlarda diskurs va pragmatik kontekst masalalari ham qisman tilga olinadi. Biroq mavjud tadqiqotlarning asosiy qismi leksik-semantik, uslubiy yoki umumiy diskursiv tavsif bilan chegaralanadi. Huquqiy matnlardagi yashirin normativ ma’no, implikatura, presuppozitsiya hamda interpretativ inferensiya mexanizmlarining lingvistik ekspertiza nuqtayi nazaridan tizimli tahlili esa hozircha yetarli darajada shakllanmagan. Shu jihatdan pragmatik ekspertiza modeli huquqiy diskursni tahlil qilishning yangi metodologik yo‘nalishlaridan biri sifatida qaralishi mumkin.

Metodologiya. Mazkur maqolaning maqsadi huquqiy diskursda implikatura hamda yashirin normativ ma’nolarning shakllanish mexanizmlarini aniqlash, ularning lingvistik ekspertizadagi o‘rnini belgilash va pragmatik ekspertiza modelini taklif etishdan iborat. Tadqiqotda deduksiya, kontrastiv tahlil va modellashtirish usullaridan foydalanildi. Deduktiv yondashuv pragmatikaning umumiy nazariy qoidalaridan kelib chiqib huquqiy diskursga xos xususiyatlarni izohlash imkonini berdi. Kontrastiv tahlil yordamida an’anaviy lingvistik ekspertiza usullari pragmatik yondashuv bilan qiyoslandi. Modellashtirish usuli esa huquqiy matnlarni pragmatik tahlil qilishga mo‘ljallangan ekspertiza modelini ishlab chiqishda asosiy metod sifatida xizmat qildi.

Natijalar. Tahlil obyekti sifatida O‘zbekiston Respublikasi Soliq kodeksi 414-moddasining qayta tiklanuvchi energiya manbalari bilan bog‘liq quyidagi normasi olindi:

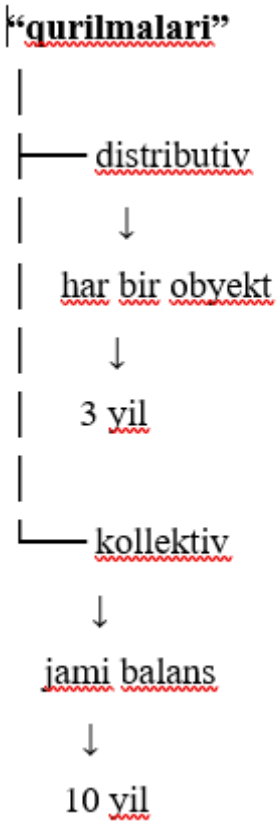
“...umumiy quvvati 100 kVtga qadar bo‘lgan qayta tiklanuvchi energiya manbalari qurilmalari uchun - uch yil muddatga, 100 kVt va undan ortiq bo‘lganlari uchun esa - o‘n yil muddatga ...” [10]

Mazkur normadagi interpretatsion kolliziya grammatik shakl va huquqiy oqibat o‘rtasidagi bog‘lanishni yaqqol namoyon qiladi. Xususan, “qurilmalari” leksemasining distributiv yoki kollektiv talqin qilinishi soliq imtiyozining muddatiga bevosita ta’sir ko‘rsatadi. Shu sabab ushbu norma *grammatik qurilish → interpretatsiya → huquqiy oqibat* zanjiri asosida tahlil qilindi.

414-moddani qo‘llash amaliyotida 100 kVt mezonining qaysi obyektga nisbatan tatbiq qilinishi yuzasidan turli talqinlar uchrashi kuzatiladi. Xususan, mezon har bir alohida qurilmaga nisbatan qo‘llaniladimi yoki bitta soliq to‘lovchining balansidagi barcha qurilmalarning jami quvvati nazarda tutiladimi degan masala interpretatsion noaniqlikni yuzaga keltiradi. Shu sabab norma lingvistik-pragmatik ekspertiza nuqtayi nazaridan tahlil qilindi.

Tahlil jarayonida moddadagi “qurilmalari” leksemasiga alohida e’tibor qaratildi. Mazkur birlik ko‘plik shaklida qo‘llangan bo‘lib, u distributiv hamda kollektiv talqinlarni yuzaga keltirishi mumkin. (1-rasm)

1-rasm. ***Distributiv ↔ kollektiv interpretatsiya sxemasi***



Distributiv talqinda norma har bir alohida texnik obyektga nisbatan qo‘llanadi. Kollektiv talqinda esa bir soliq subyektiga tegishli barcha qurilmalar yagona yig‘ma majmua sifatida talqin qilinadi.

Lingvistik kuzatish shuni ko‘rsatdiki, qonun matnida ko‘plik shakli soliq subyektiga emas, obyektning o‘ziga bog‘langan holda qo‘llangan. Normada “soliq to‘lovchining balansidagi jami quvvat” kabi subyekt markazli konstruktsiya mavjud emas. Aksincha, mezon bevosita “qurilmalari” komponenti bilan sintaktik bog‘lanishga kirishgan. “Umumiy quvvati” birikmasi ham aynan qurilmaning texnik parametrini ifodalamoqda. Shu jihatdan norma grammatik jihatdan distributiv interpretatsiyaga yaqinlashadi.

Tahlil davomida aniqlovchi munosabati va sintaktik qamrov masalasi ham ko‘rib chiqildi. Moddadagi “100 kVtga qadar bo‘lgan” hamda “100 kVt va undan ortiq bo‘lganlari” konstruksiyalarida mezonning qo‘llanish doirasi texnik obyekt bilan chegaralanayotgani kuzatiladi. “Bo‘lganlari” olmoshining referensial markazi ham yuqoridagi “qurilmalari” leksemasiga qaytmoqda. Bu esa normada mezonning soliq to‘lovchining umumiy energetik balansiga emas, konkret qurilma yoki texnik majmuaga nisbatan qo‘llanganini ko‘rsatadi.

Mazkur holat amaliy keys asosida verifikatsiya qilindi. Tadqiqot davomida bitta xo‘jalik yurituvchi subyektning beshta filialiga 50 kVtdan quyosh panellari o‘rnatilgan vaziyat modellandi. Bunday holatda jami quvvat 250 kVtni tashkil qiladi, biroq har bir alohida qurilmaning quvvati 50 kVtdan oshmaydi. Aynan shu vaziyat amaliyotda ikki xil interpretatsiyani yuzaga keltirishi mumkinligi aniqlandi. (2-rasm)

2-rasm. Soliq kodeksi 414-moddasidagi lisoniy talqinlarning qiyosiy tahlili

Tahlil mezonlari	Distributiv talqin (Obyektiv/To‘g‘ri)	Kollektiv talqin (Kengaytirilgan)
Talqin obyekti	Har bir alohida qurilma (alohida inventar obyekt)	Barcha qurilmalar yig‘indisi (jami balans)
“Qurilmalari” leksemasining semantik tabiati	Har bir obyektga alohida taalluqlilik ma’nosida	**Yig‘ma ma’noda** (oborotdagi jami mulk jamlanmasi)
Sintaktik qamrov doirasi	Bevosita **qurilmaning texnik parametriga** bog‘langan	Sun’iy ravishda **soliq subyektining** umumiy balansiga kengaytirilgan
Pragmatik maqsad	Muayyan obyektning energiya generatsiyasini baholash va rag‘batlantirish	Korxonaning umumiy energetik salohiyatini hisobga olish
5×50 kVt holatdagi natija	Har bir qurilma < 100 kVt **3 yil imtiyoz**	Jami quvvat 250 kVt deb hisoblanib, **10 yillik imtiyoz** talqini yuzaga keladi
Lingvistik moslik darajasi	Norma grammatikasi va sintaktik qurilishiga yaqinroq	Kengaytirilgan interpretatsiya sifatida namoyon bo‘ladi

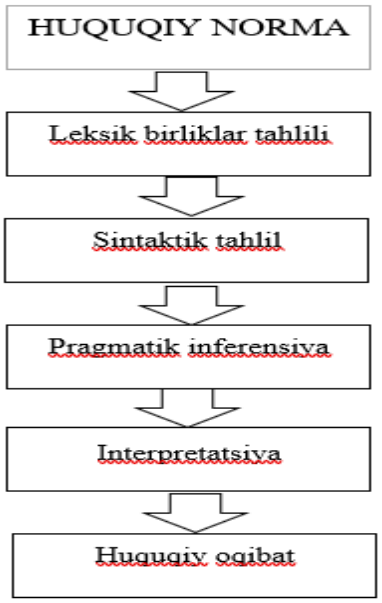
Birinchi talqinda har bir filialdagi qurilma mustaqil texnik obyekt sifatida baholanadi va ularning quvvati 100 kVtdan kam bo‘lgani sababli uch yillik imtiyoz qo‘llanadi. Ikkinchi talqinda esa barcha filiallardagi qurilmalar yagona energetik majmua sifatida qabul qilinib, jami quvvat 250 kVt deb hisoblanadi hamda o‘n yillik imtiyoz masalasi yuzaga keladi. Pragmatik tahlil natijalari normaning kommunikativ maqsadi yirik quvvatli energiya obyektlarini rag‘batlantirish bilan bog‘liqligini ko‘rsatdi. Shu nuqtayi nazardan mezonning har bir alohida qurilmaga nisbatan qo‘llanishi normaning grammatik qurilishi va pragmatik yo‘nalishiga ko‘proq mos keladi. Chunki matnda imtiyoz subyektning umumiy energetik salohiyatiga emas, muayyan texnik obyekt parametriga bog‘langan holda ifodalangan.

Tahlil natijalari huquqiy diskursda ko‘plik kategoriyasi, sintaktik qamrov va pragmatik inferensiya normativ talqinga bevosita ta’sir ko‘rsatishini namoyon etdi. Shu bilan birga, lingvistik ekspertiza yuridik kolliziyalarni izohlashda faqat leksik-semantik emas, balki pragmatik va lingvo-mantiqiy yondashuvlarni ham talab qilishi aniqlandi. (3-rasm)

3-rasm. Pragmatik ekspertiza modeli

Muhokama. Olingan natijalar huquqiy matnlarda grammatik shakl va pragmatik mazmun o‘rtasidagi munosabat normaning talqiniga bevosita ta’sir ko‘rsatishini tasdiqlaydi. Tahlil jarayonida aniqlangan distributiv va kollektiv interpretatsiya imkoniyati, avvalo, normadagi ko‘plik kategoriyasining semantik noaniqligi bilan bog‘liq ekani kuzatildi. Bunday holatlar huquqiy diskurs uchun xos bo‘lib, ayrim grammatik birliklarning talqin doirasi yuridik oqibatning o‘zgarishiga sabab bo‘lishi mumkin.

Tadqiqot natijalari shuni ko‘rsatdiki, huquqiy matnni faqat lug‘aviy yoki formal sintaktik tahlil qilish ko‘p hollarda yetarli bo‘lmaydi. Xususan, “qurilmalari” leksemasining grammatik shakli alohida olinganda ham distributiv, ham kollektiv mazmunni yuzaga keltira oladi. Biroq norma ichidagi sintaktik bog‘lanishlar, aniqlovchi munosabati va pragmatik kontekst birgalikda ko‘rib chiqilganda mezonning alohida texnik obyektga yo‘naltirilgani yaqqolroq namoyon bo‘ladi. Shu jihatdan pragmatik tahlil normaning yashirin interpretativ qatlamini ochishda muhim vosita bo‘lib xizmat qiladi.



Mazkur holat yuridik lingvistika uchun yana bir muhim masalani ko‘rsatadi. Huquqiy matnda yuzaga keladigan kolliziyalar har doim ham normaning mazmuniy qarama-qarshiligidan kelib chiqmaydi. Ayrim hollarda interpretatsion muammo grammatik qamrovning noaniqligi, referensial bog‘lanish yoki pragmatik inferensiya bilan bog‘liq bo‘ladi. Tadqiqot davomida kuzatilgan 100 kVt mezoni bilan bog‘liq vaziyat ham shunday hodisalardan biridir.

Natijalar, shuningdek, o‘zbek tilshunosligida lingvistik ekspertiza masalasiga pragmatik yondashuvni kengroq tatbiq etish zarurligini ko‘rsatadi. Mavjud tadqiqotlarda ko‘proq leksik-semantik yoki stilistik jihatlar tahlil qilingan bo‘lsa, ushbu tadqiqot pragmatik inferensiya va yashirin normativ ma’noning ham huquqiy interpretatsiyada muhim o‘rin tutishini ko‘rsatdi. Ayniqsa, normaning kommunikativ maqsadi va qonun chiqaruvchining ko‘zlangan yondashuvini aniqlash huquqiy matnlarni izohlashda qo‘shimcha metodik imkoniyat yaratadi.

Ushbu tadqiqot pragmatik ekspertiza algoritmini ishlab chiqish yo‘lidagi dastlabki bosqich sifatida qaraladi. Keyingi ilmiy ishlarimizda ushbu algoritmning boshqa kodekslar, sud qarorlari va shartnomaviy matnlar asosida sinovdan o‘tkazilishi, shuningdek, presuppozitsiya, implikatura va referensial noaniqlik kabi hodisalarning huquqiy diskursdagi namoyon bo‘lish shakllari alohida yoritilishi nazarda tutiladi.

Xulosa. Huquqiy matnlarning talqini ko‘p hollarda faqat normaning lug‘aviy mazmuni bilan emas, balki uning yashirin pragmatik qatlamlari bilan ham bog‘liq bo‘ladi. Tadqiqot davomida Soliq kodeksi 414-moddasi misolida ko‘plik kategoriyasi, sintaktik qamrov va pragmatik inferensiya normativ interpretatsiyaga sezilarli ta’sir ko‘rsatishi aniqlandi. Ayniqsa, “qurilmalari” leksemasining distributiv va kollektiv talqinga imkon berishi amaliyotda turli interpretatsion yondashuvlarni yuzaga keltirayotgani kuzatildi. Lingvistik-pragmatik tahlil natijalari normadagi 100 kVt mezoni grammatik va sintaktik jihatdan har bir alohida texnik obyektga yaqinroq bog‘langanini ko‘rsatdi. Shu bilan birga, tadqiqot huquqiy diskursda yashirin normativ ma’nolarni aniqlashda implikatura, presuppozitsiya va referensial bog‘lanish kabi pragmatik hodisalar muhim metodologik vosita bo‘lishi mumkinligini namoyon etdi.

Maqolada taklif etilgan pragmatik ekspertiza modeli huquqiy matnlarni talqin qilishda lingvistik ekspertizaning imkoniyatlarini kengaytiradi. Mazkur yondashuv normativ kolliziyalarni izohlash, yashirin interpretativ qatlamlarni aniqlash hamda huquqiy diskursdagi grammatik noaniqliklarni tahlil qilishda qo‘shimcha metodik asos bo‘lib xizmat qilishi mumkin. Tadqiqot natijalari o‘zbek yuridik lingvistikasida pragmatik yo‘nalish hali yetarli darajada shakllanmaganini ko‘rsatadi. Shu sabab pragmatik ekspertiza, lingvo-mantiqiy tahlil va huquqiy diskursning yashirin semantik qatlamlarini o‘rganish kelgusidagi ilmiy izlanishlarimiz uchun istiqbolli yo‘nalishlardan biri hisoblanadi.

UMAR XAYYOM RUBOIYLARINING EDWARD FITZGERALD TARJIMASIDA DOMESTIKATSIYA VA FORENIZATSIYA STRATEGIYALARI: LAWRENCE VENUTI NAZARIYASI ASOSIDA TAHLIL

D.M.Mamatova, dotsent v.b.,
Namangan Davlat Universiteti, Namangan

Annotatsiya: *Mazkur maqolada Umar Xayyom ruboiylarining Edward FitzGerald tomonidan amalga oshirilgan inglizcha tarjimasi Lawrence Venuti tomonidan ishlab chiqilgan domestikatsiya va forenizatsiya nazariyalari asosida tahlil qilinadi. Tadqiqotning maqsadi FitzGerald tarjimasida Sharq madaniyatiga xos unsurlar qanday saqlab qolinganligi hamda qaysi hollarda ular Viktoriya davri ingliz o'quvchisining madaniy va estetik kutishlariga moslashtirilganligini aniqlashdan iborat. Tahlil uchun "Rubáiyá of Omar Khayyam" tarjimalar to'plamidan 3ta ruboiy tanlab olingan. Tahlil natijalari FitzGerald tarjimasi asosan domestikatsiyaga asoslangan bo'lsa-da, ayrim madaniy belgilar, tarixiy nomlar va fors madaniyatiga oid tushunchalar saqlab qolish orqali cheklangan darajada forenizatsiya ham amalga oshirilganligini ko'rsatadi.*

Kalit so'zlar: *Umar Xayyom, Edward FitzGerald, Lawrence Venuti, domestikatsiya, forenizatsiya, Rubáiyát, tarjimashunoslik, madaniyat.*

СТРАТЕГИИ ОДОМАШНИВАНИЯ И ИНОСТРАННОГО ВЛИЯНИЯ В ПЕРЕВОДЕ ЭДВАРДА ФИЦДЖЕРАЛЬДА «РУБАЙИ УМАРА ХАЯМА»: АНАЛИЗ НА ОСНОВЕ ТЕОРИИ ЛОУРЕНСА ВЕНУТИ.

Аннотация: *В данной статье анализируется английский перевод рубаи Омара Хайяма, выполненный Эдвардом Фицджеральдом, на основе теорий доместикации и форенизации, разработанных Лоуренсом Венути. Цель исследования заключается в определении того, как в переводе Фицджеральда были сохранены элементы, присущие восточной культуре, и в каких случаях они были адаптированы под культурные и эстетические ожидания английского читателя викторианской эпохи. Для анализа было отобрано 3 рубаи из сборника переводов «Рубайат Омара Хайяма». Результаты анализа показывают, что хотя перевод Фицджеральда в основном базируется на доместикации, за счет сохранения некоторых культурных маркеров, исторических имен и понятий, относящихся к персидской культуре, в ограниченной степени была осуществлена и форенизация.*

Ключевые слова: *Омар Хайям, Эдвард Фицджеральд, Лоуренс Венути, доместикация, форенизация, Рубайат, переводоведение, культура.*

STRATEGIES OF DOMESTIC AND FOREIGN INFLUENCE IN EDWARD FITZGERALD'S TRANSLATION OF THE RUBAIYAT OF OMAR KHAYYAM: AN ANALYSIS BASED ON LAWRENCE VENUTI'S THEORY.

Abstract: *This article analyzes the English translation of Omar Khayyam's rubaiyat by Edward FitzGerald based on the theories of domestication and foreignization developed by Lawrence Venuti. The purpose of the study is to determine how the elements specific to Eastern culture were preserved in FitzGerald's translation and in which cases they were adapted to the cultural and aesthetic expectations of the Victorian English reader. For the analysis, 3 quatrains (rubais) were selected from the translation collection "Rubáiyát of Omar Khayyam". The results of the analysis show that although FitzGerald's translation is mainly based on domestication, a limited degree of foreignization was also carried out by preserving certain cultural markers, historical names, and concepts related to Persian culture.*

Keywords: *Omar Khayyam, Edward FitzGerald, Lawrence Venuti, domestication, foreignization, Rubáiyát, translation studies, culture.*

Kirish. Tarjima turli madaniyatlar o'rtasidagi muloqotni ta'minlovchi eng muhim vositalardan biri hisoblanadi. Biroq tarjima oddiy til almashtirish jarayoni emas, u doimo madaniy, tarixiy va mafkuraviy omillar bilan bog'liq murakkab hodisa sifatida namoyon bo'ladi. Ayniqsa, Sharq va G'arb kabi uzoq madaniy an'analar o'rtasida amalga oshirilgan tarjimalarda tarjimonning matnga bo'lgan munosabati, uning maqsadli kitobxonlarni qanday tasavvur qilishi hamda manba madaniyatga qanday yondashishi alohida ahamiyat kasb etadi.

Umar Xayyom ruboiylari va ularning Edward FitzGerald tomonidan yaratilgan inglizcha talqini ushbu masalani o'rganish uchun eng qiziqarli namunalardan biridir. XIX asrda yaratilgan "Rubáiyát of Omar Khayyam" tarjima asari

ingliz adabiy muhitida katta shuhrat qozonib, hatto ko‘plab o‘quvchilar tomonidan mustaqil ingliz she’riyati namunasi sifatida qabul qilingan. Biroq mazkur mashhurlik bilan birga tarjimaning asl fors matniga munosabati ham bahs-munozaralarga sabab bo‘lgan. Ayrim tadqiqotchilar FitzGeraldni erkin tarjimon deb hisoblasalar, boshqalar uni fors ruboiylarini qayta yaratgan shoir sifatida baholaydilar [1].

Mazkur maqola FitzGerald tarjimasini Lawrence Venutining domestikatsiya va forenizatsiya konsepsiyalari orqali qayta ko‘rib chiqishni maqsad qiladi.

Nazariy asoslar. Lawrence Venuti zamonaviy tarjimashunoslikdagi eng ta’sirli nazariyotchilardan biri hisoblanadi. U tarjimada ikkita asosiy strategiyani ajratadi: domestikatsiya va forenizatsiya [2]. Domestikatsiya manba matnni maqsad til va madaniyat me’yorlariga moslashtirish orqali o‘quvchi uchun tabiiy va ravon matn yaratishni nazarda tutadi. Bunday yondashuvda tarjimaning begonaligi imkon qadar kamaytiriladi. Forenizatsiya esa buning aksi bo‘lib, manba madaniyatning o‘ziga xos jihatlarini saqlab qolishga intiladi. Tarjimon matndagi begona unsurlarni butunlay yo‘q qilmaydi, balki o‘quvchiga boshqa madaniyat mavjudligini his qildiradi. Venutiga ko‘ra, aynan forenizatsiya tarjimonning ko‘rinmasligini buzib, tarjima jarayonining madaniy xarakterini ochib beradi [2].

FitzGerald tarjimasi Venuti tavsiflagan ushbu ikki strategiyaning bir matnda birgalikda namoyon bo‘lishini kuzatish imkonini beradi.

Tahlil. Tahlil qilinayotgan ruboiylar shuni ko‘rsatadiki, FitzGerald Sharq madaniyatini ingliz o‘quvchisi uchun tushunarli va jozibador shaklda qayta yaratishga intilgan. Biroq u buni amalga oshirish jarayonida fors madaniyatiga oid ayrim belgilarni ataylab saqlab qolgan.

Birinchi ruboiy buning yorqin misolidir. Keling, 1-Namunani ko‘rib chiqsak:

Awake! for Morning in the Bowl of Night
Has flung the Stone that puts the Stars to Flight:
And Lo! the Hunter of the East has caught
The Sultan's Turret in a Noose of Light.

Ingliz tilidagi mazkur namunaning to‘g‘ridan-to‘g‘ri tarjimasi taxminan shunday: “Uyg‘oning, chunki tong tun kosasiga tosh otib, yulduzlarni sachratib uchirib yubordi; sharq ovchisi yorug‘lik arqoni bilan sulton minorasini ushladi”. Metaforalarning zamiridagi ma’nolarni ochib chiqsak, ruboiy bizga “Tong otdi, osmon yorishib borarkan, yulduzlar miltillab g‘oyib bo‘la boshladi, sharqdan ko‘tariluvchi quyoshning yog‘dulari sultonning saroyidagi minorani yorita boshladi”.

Ayni shu ruboiyning forscha aslini ko‘rib chiqsak:

افگند بام بر صبح کمند خورشید
افگند جام در مهره روز کیخسرو
خیزان‌سحرگه منادیِ که خور می
افگند ایّام در اشرابوا آوازهٔ

To‘g‘ridan-to‘g‘ri tarjimasi: Quyosh tong arqonini tomga otdi; Kun Podshohi dur-u marjonlarni kosa ichida sochib yubordi. Sharob iching! Chunki tong xabarchisi dunyoga "Iching!" deb hayqirdi.

Ko‘rinib turganidek, FitzGerald ruboiy matnini jiddiy o‘zgartirgan. Asl matndagi “dur-u marjonlar”, “Kun podshohi”, va “Sharob ichishga targ‘ibchi” kabi elementlar tashlab ketilgan. Natijada, ingliz tilidagi tarjimada fors mumtoz olami ruhini tong otishini ulkan kosmik manzaraga aylantirish kabi Viktoriya davri G‘arb estetikasi egallagan. “Morning in the Bowl of Night” – ya’ni “tun kosasida tong”; yoki “Hunter of the East” – ya’ni “Sharq ovchisi” obrazlari Viktoriya davri romantik she’riyati juda yaqin bo‘lib, asl madaniy amaliyotning aniqligini yo‘qotadi.

Shu bilan birga, “Sultan’s Turret” birikmasidagi “Sulton” so‘zi Sharq muhitini eslatib turuvchi madaniy belgi sifatida saqlanib qolgan, desak bo‘ladi. Lekin, bu yerda sulton minoraning egasi bo‘lmish podshoh. Garchand, asl matndagi minorani egasi bo‘lmish oddiy inson-podshoh obraziga ishora yo‘q. Bil’aks, asl fors matnida “xusravi ro‘z”, ya’ni dur-u marjonlarni kosa ichida sochib yuboruvchi – ton otayotganda yorishayotgan samodagi yulduzlarni miltillab ko‘zdan g‘oyib qiluvchi fazoviy kattalikdagi Kun podshohi mavjud. Bu obrazning xizmati “domestikatsiya” jarayonida tongning o‘ziga yuklatilgan. Shuningdek, asl matn quyosh “yorug‘lik” arqonini otsa, ingliz tilidagi versiyada “Sharq ovchisi” obrazi qo‘shilib qolgan. Demak, bu ruboiyda forenizatsiya u qadar kuchli emas.

Xuddi shunday jarayon navbatdagi 2-Namuna-ruboiyda ham kuzatiladi:

Here with a Loaf of Bread beneath the Bough,
A Flask of Wine, a Book of Verse—and Thou
Beside me singing in the Wilderness—
And Wilderness is Paradise enow.

Mazkur namunaning to‘g‘ridan-to‘g‘ri ma’nosi: “Daraxt tagida non va sharob tanavvul etib, she’riyatga berilgancha sening qo‘shiq kuylashining tinglab o‘tirish xaroba manzilimni jannatga aylantiradi.”

Fors tilidagi asl ruboiy esa quyidagichadir:

نانی گندم مغز ز دهد دست گر
رانی گوسفندی ز منی دو می وز
بستانی گوشه و رخی لاله با
سلطانی هر حد نه آن بود عیشی

To‘g‘ridan-to‘g‘ri ma’nosi: Gar bir bo‘lak bug‘doy noni, ikki man* sharob, bir bo'lak qo‘y go‘shti, hamda bog‘ burchagida lola chehrali yor bo‘lsa – bu har qanday sultonning yotog‘idan afzalroq hashamatdir.

**man – forsiy o‘lchov birligi. “Man-e Tabriz” taxminan 3 killogramga to‘g‘ri keladi.*

Ko‘rinib turibdiki, fors matnida estetik va moddiy aniqlik juda kuchli darajada saqlangan: “gandum/bug‘doy non”, “qo‘y go‘shti”, “ikki man sharob”, “lala chehra yor” kabi elementlar bevosita tanavvul, hissiyot va jismoniy tajriba darajasida berilgan bo‘lib, ruboiy ne’mat-lazzatlarni chin, haqiqit dunyoga yaqin, seziladigan moddiy dunyo unsurlari orqali quradi. Ularning miqdori, masalliqlari, tuzilishi, asl manbasi batafsil yoritib o‘tiladi. Bu yerda muhim jihat shundaki, forscha matn idealizmga emas, balki aniq-aniq epikur falsafasiga mos realizmga asoslanadi.

FitzGerald versiyasida esa matndagi aniqlik, batafsillik sezilarli darajada soddalashtiriladi va nafosatni yetkazib berishi kerak bo‘lgan elementlar qayta shakllantirilgan. “A Flask of Wine” – “bir idish sharob”, “A Loaf of Bread” – “bir burda non” kabi elementlar jisman saqlangan bo‘lsa-da, miqdor va masallig‘ tafsilotlari jiddiy domestikatsiya qilingan, yoki batamom olib tashlangan. Shuningdek, “qo‘y go‘shti” kabi aniq gastronomik detal butunlay yo‘q qilingan. Tarjimonning bu domestikatsiyaviy harakatlari matndagi moddiy boylik turfaligi toraytiradi. Eng muhim transformatsiya esa “lale rux” (lolarang chehrali yor) obrazining “Thou” – “Sen/Siz” undalma shakliga toraytirib yuborilishi end jiddiy domestikatsiyadir. Fors she’riyatidagi tashqi ko‘rinishni hisobga oluvchi estetik tasvir ingliz tilida batamom ikkinchi shaxs olmoshiga kichiklashtirib yuborilgan. Bu jarayon Venuti nazariyasi doirasida domestikatsiyaning kuchli ko‘rinishi sifatida talqin qilinadi, chunki madaniy va estetik o‘ziga xosliklar “universal intim diskurs”ga aylantiriladi.

Shu bilan birga, FitzGerald matnida forenizatsiya unsurlari juda cheklangan ko‘rinishda saqlanadi. “Wine” va “Bread” kabi elementlar epikur falsafasiga mos Sharq an’analarini eslatib turuvchi madaniy belgilar sifatida qolgan. Biroq, ular endi Sharq tanavvulga doir ahvol-holatini ochib beruvchi unsurlar emas, balki Viktoriya davri o‘quvchisi uchun romantik minimalizmni ifodalovchi elementlarga aylangan. Ayniqsa “Wilderness is Paradise enow” iborasi semantik jihatdan forscha “bog‘ ichidagi lazzat” konsepsiyasini inglizcha “wilderness” tushunchasi bilan almashtiradi. Natijada asl matndagi yopiq bog‘ (chahar-bag‘) estetikasi ochiq yovvoyi tabiat manzarasiga o‘tib ketgan. Bu esa Sharq va G‘arb fazoviy tasavvurlari o‘rtasidagi fundamental farqni yaqqol namoyon etadi. “Har qanday sultonning yotog‘idan afzalroq hashamat” iborasida muallif kitobxonga “yor” bilan visol dunyoviy lazzatdan ustunlikni ko‘rsatadi. Shu yerdan Umar Xayyomning “lale rux” yori dunyoviy yor emasligini, gap ilohiy ishq haqida ketayotganini bilsak bo‘ladi. Ingliz tilidagi versiyada esa yor bilan majlis “paradise enow” – ilohiy mukofot bo‘lmish jannatdan ustun, yoxud jannatga qiyos qilinmoqda. Bu yerdagi o‘xshatma elementning nihoyatda jiddiy o‘zgarishi ma’noni, mohiyatni mutlaq o‘zgartirgan. Oqibatda, nafaqat uslubiyat, balki markaziy falsafa G‘arb Viktoriyaviy madaniyatiga domestikatsiya qilingan.

Demak, ushbu ruboiyda ham avvalgi misolda kuzatilganidek, tarjima jarayoni bir tomonlama ravishda domestikatsiya ustunligida kechadi: forscha batafsillik inglizcha umumlashtirilgan poetik mavhumlikka aylantiriladi, madaniy an’analar esa minimal estetik belgilar darajasida saqlanib qoladi.

Shunga o‘xshash holat o‘n navbatdagi 3-Namuna-ruboiyda ham kuzatiladi:

They say the Lion and the Lizard keep
The Courts where Jamshýd gloried and drank deep:
And Bahrám, that great Hunter—the Wild Ass
Stamps o'er his Head, but cannot break his Sleep.

To‘g‘ridan-to‘g‘ri tarjimasi: “Bir paytlari Jamshidning qirollik saroylari bo'lgan joylarda endi arslon-u kaltakesak yashaydi; va yovvoyi eshak bir paytlar buyuk ovchi bo'lagn Bahromning boshini bosib oyoqosti qiladi-yu, u uyg'onmaydi (qayta tirilmaydi).”

Ayni namunaning fors tilidagi asli quyidagicha:

گرفت جام او در جمشید که قصر آن
گرفت آرام روبه و کرد بچه آهو
عمر همه گرفتی‌می گور که بهرام
گرفت؟ بهرام گور چگونه که دیدی

To‘g‘ridan-to‘g‘ri tarjimasi: Bir paytlar Jamshid qadahini ko‘tarib yurgan saroyda endi kiyik bolalayapti, tulki dam olyapti; butun umri davomida yovvoyi eshakni (go‘r/xar) ovlagan Bahromni qarang; qabr (go‘r) endi Bahromning o'zini qanday ushlab turibdi!

Ko‘rinib turibdiki, forscha matnning markazida juda kuchli poetik mexanizm — gūr / gūr tajnis she’riy san’atining istifodasi joylashgan. U ikki ma’noga omonimdir: “yovvoyi eshak” va “qabr”. Aynan shu lingvistik ikkima’nolik

ruboiyga falsafiy chuqurlik beradi, chunki Bahrom umr bo‘yi “gūr”ni (“yovvoyi eshakni”) ovladi, biroq oxir-oqibat “gūr”ning (“qabrning”) o‘zi uni qamalga oldi. Bu semantik o‘zgarish Sharq poetikasida juda yuqori darajadagi taqdir o‘ynini ifodalaydi.

FitzGerald versiyasida esa ushbu markaziy lingvistik mexanizm butunlay yo‘qolgan. “Kiyik” va “tulki” kabi bir paytlar shohona dargoh bo‘lmish saroyni yovvoyi hayvonlarning kundalik manziliga aylantirgan obrazlar tushib qolgan. Uning o‘rnini G‘arb romantik an’anasiga xos bo‘lgan vizual xaroba poetikasi egallagan. “Lion and the Lizard keep the Courts” metaforasi tabiiy muqarrarliklar, shubhasiz nihoya va koinot qonunlarining inson qurmoqchi bo‘lgan shavkat – ayni vaziyatda: imperiya – ustidan g‘alabasini tasvirlovchi elementga aylanadi. Bu yerda endi fors tilidagi ichki lingvistik dinamika emas, balki ingliz romantik she’riyatiga xos tashqi manzara – xarobalar, hayvonlar (xossatan, Sharqona “kiyik” emas, Britaniya uchun ramziy “arslon”ning ishlatilishi) va vaqtning yemiruvchi kuchi haqidagi falsafa ustunlik qiladi. Natijada matnning semantik markazi ichki til o‘yini orqali kibrga berilmaslik haqidagi nasihatdan tashqi tasviriy metaforaga siljiydi.

Shu bilan birga, FitzGerald matnida cheklangan darajada forenizatsiya unsurlari ham saqlanib qolgan. “Jamshýd” va “Bahrám” nomlarining o‘zi Sharq tarixiy-mifologik qatlamini ingliz tiliga olib kiruvchi madaniy belgilar sifatida xizmat qilgan. Biroq bu nomlar endi o‘zining asl matnlar aro vazifasini (fors afsonaviy tarixidagi murakkab kosmologik rolini) to‘liq bajarmaydi; ular ko‘proq ekzotik tarixiy bezak sifatida qolgan.

Ushbu ruboiyda Venuti nazariyasi nuqtayi nazaridan qaralganda, tarjima jarayoni uch darajali transformatsiyani ko‘rsatadi: birinchidan, fors tilidagi semantik o‘yin (gūr/gūr) yo‘q qilinadi; ikkinchidan, uning o‘rniga ingliz romantik xaroba estetikasiga asoslangan vizual allegoriya yaratiladi; uchinchidan esa madaniy nomlar saqlanib qolgan holda minimal forenizatsiya elementi yuzaga keladi. Natijada matnning umumiy yo‘nalishi yana bir bor domestikatsiya tomon og‘adi, biroq bu safar u nafaqat madaniy, mazmuniy-falsafiy, balki lisoniy darajada ham chuqur o‘zgarishga uchraydi.

Xulosa. Tahlilga asoslansak, FitzGerald tarjimasi na batamom domestikatsiyalashgan, na salmoqli darajada forenizatsiyalashgan matndir. Tarjimon Sharq madaniyatiga oid ko‘plab unsurlarni Viktoriya davri estetik talablariga moslashtirgan. Shu bilan birga, ayrim tarixiy nomlar va madaniy terminlarni saqlab qolish orqali tarjimaning Fors Mumtoz ruhi butunlay yo‘qolib ketmagan. Aynan mana shu ikki strategiyaning birgalikda ishlashi “Rubáiyát of Omar Khayyam” lirik tarjima asarining muvaffaqiyatini tushuntirishi mumkin. Agar tarjima to‘liq domestikatsiyalashganida, u oddiy ingliz she’ri sifatida qabul qilinardi. Agar u haddan tashqari forenizatsiyalashganida esa Viktoriya davri o‘quvchisi uchun qiyin va begona ko‘rinishi mumkin edi. FitzGerald ushbu ikki qutb o‘rtasida muvozanat topishga muvaffaq bo‘lgan.

SHARQ VA G‘ARB BADIIY TAFAKKURIDA ADABIY QAHRAMON EVOLYUTSIYASI

Ismonaliyeva Mahbuba jabarali qizi
Namangan davlat universiteti o‘qituvchisi
ORCID: 0009-0005-4621-1449
E-mail: ismonaliyeva94@gmail.com

Annotatsiya: *Ushbu maqolada Sharq va G‘arb badiiy tafakkuridagi o‘ziga xosliklar ko‘rib chiqiladi, jumladan, bu jarayonning asosiy indikatori – adabiy qahramon tushunchasining ilk davrlardagi xususiyatlari tahlil etiladi. Mifologik bosqichda adabiy qahramon tushunchasining ilohiylik, diniy e’tiqod bilan bog‘liqligi Sharq va G‘arb badiiy tafakkuridagi umumiy jihatdir. Bu adabiy namunalarning ilk manbalari bo‘lmish “Avesto”, “Mahabharat”, “Ramayana”, “Illiada” va “Odisseya” kitoblaridagi qahramon haqidagi dastlabki tasavvurlardan kelib chiqadi. Shuningdek, qahramon tushunchasining keyingi evolyutsiyasi milliy davlatchilikni tashkil etish, o‘z hududi va xalqini dushmanlardan himoya etish jarayonida yetakchilikka erishish bilan uzviy bog‘liq. Ammo adabiy qahramon bu davrda ham ilohiylikdan to‘la uzilmagan, balki uning jamiyatdagi yetakchiligi xudolarning unga inoyati sifatida anglanib, u yarimxudo – “hero” deya atala boshlangan. Maqolada ushbu jihatlardan kelib chiqqan holda badiiy tafakkur rivoji keng tahlilga tortiladi va adabiy qahramon tushunchasining ijtimoiy-madaniy jarayon bilan bog‘liq tasniflari keltiriladi.*

Kalit so‘zlar: *badiiy tafakkur, adabiy qahramon tushunchasi, qahramonlik xususiyatlari, Sharq va G‘arb mifologiyasi, O‘rxun-Enasoy, alplik tizimi, personaj.*

ЭВОЛЮЦИЯ ЛИТЕРАТУРНОГО ГЕРОЯ В ВОСТОЧНОЙ И ЗАПАДНОЙ ХУДОЖЕСТВЕННОЙ МЫСЛИ

Аннотация: *В данной статье рассматриваются особенности восточной и западной художественной мысли, включая анализ главного показателя этого процесса – характеристик концепции литературного героя в ранние периоды. На мифологическом этапе связь концепции литературного героя с божеством и религиозными верованиями является общим аспектом художественной мысли как Востока, так и Запада. Это происходит из первоначальных представлений о герое в книгах “Авеста”, “Махабхарата”, “Рамаяна”, “Илиада” и “Одиссея”, которые являются первыми источниками литературных моделей. Также дальнейшая эволюция концепции героя неразрывно связана с достижением лидерства в процессе организации национальной государственности, защиты своей территории и народа от врагов. Однако даже в этот период литературный герой не был полностью отделен от божественности, а его лидерство в обществе понималось как благодать, дарованная ему богами, и его стали называть полубогом – “героем”. В статье, исходя из этих аспектов, подробно анализируется развитие художественной мысли и представлены классификации понятия литературного героя в связи с социокультурным процессом.*

Ключевые слова: *художественная мысль, понятие литературного героя, героические черты, восточная и западная мифология, Урхун-Энасой, система альпства, характер.*

EVOLUTION OF THE LITERARY HERO IN EASTERN AND WESTERN ARTISTIC THOUGHT

Annotation: *This article examines the specifics of Eastern and Western artistic thought, including the analysis of the main indicator of this process - the characteristics of the concept of a literary hero in the early periods. At the mythological stage, the connection of the concept of a literary hero with divinity and religious beliefs is a common aspect in the artistic thought of both East and West. This stems from the initial ideas about the hero in the books “Avesta”, “Mahabharat”, “Ramayana”, “Iliada” and “Odyssey”, which are the first sources of literary models. Also, the further evolution of the concept of a hero is inextricably linked with achieving leadership in the process of organizing national statehood, protecting one’s territory and people from enemies. However, even in this period, the literary hero was not completely separated from divinity, but his leadership in society was understood as a grace bestowed upon him by the gods, and he began to be called a demigod – “hero”. The article, based on these aspects, extensively analyzes the development of artistic thought and presents classifications of the concept of a literary hero in relation to the socio-cultural process.*

Key words: *artistic thought, concept of a literary hero, heroic characteristics, Eastern and Western mythology, Orkhun-Enasoy, the system of alpism, character.*

Kirish

Qahramonlik tushunchasi insoniyat badiiy tafakkurining eng qadimiy qatlamlaridan biri bo‘lib, u dastlab mifologik tasavvurlarda shakllangan. Antik adabiyotda xudolar va yarimxudo qahramonlarning g‘ayritabiiy kuchlari, jasoratlari inson ongida ilohiylik timsoli sifatida qabul qilingan. Gerakl, Axilles, Odissey kabi afsonaviy qahramonlar o‘zlarining jasorati, ma’budlar bilan aloqasi va insoniyat taqdiridagi o‘rni bilan adabiyot markaziga chiqqan. Keyingi davrlarda esa turkiy xalqlar eposlarida Alp Er To‘nga va Alpomish singari qahramonlar xalqning adolat, ozodlik va mardlik timsoliga aylangan. Shuningdek, o‘rta asrlar g‘arb adabiyotida Beovulf, Rolland, Sid kabi qahramonlar, turkiy yozma yodgorliklarda Kul tigin, To‘nyuquq, Bilga xoqon singari tarixiy shaxslar xalq ozodligi va vatan himoyasi yo‘lida ulug‘langan. Demak, qahramonlik tushunchasi turli davr va xalqlarda o‘ziga xos talqinlarda namoyon bo‘lib, insoniyatning ma’naviy-axloqiy ideallarini ifodalashda muhim o‘rin tutgan.

Adabiyotlar tahlili

Adabiy qahramon tushunchasining ilk bosqichidan to bugungi davrgacha bo‘lgan shakllanishi evolyutsion jarayondir. Aristotel o‘zining “Poetika” asarida antik yunon adabiyotidagi qahramonlarni tasniflar ekan, u tushunchaning sifatiy darajasiga tayanadi [1]. Ushbu masalani yoritishda N.Fray Aristotel xulosalariga asoslansa-da, uning tasnifida badiiylik moduslarini yoritish ustivorlik qiladi [9]. XVIII G‘arbiy Yevropa madaniyati va adabiyoti asoslarini belgilagan faylasuf T.Karlaylning tasnifi esa qahramonning jamiyatga o‘tkazgan ijtimoiy-siyosiy ta’sirini yoritish, “qahramon shaxsi tarixni yaratuvchisi” ekanligini dalillashdan kelib chiqadi [2]. Shuningdek, eng qadimgi adabiy yodgorliklar “Avesto”, “Illiada”, “Odisseya”, “Mahabharat”, “Ramayana”, “Shohnoma” kabi asarlarni tahliliy o‘rganish Sharq va G‘arb badiiy tafakkuridagi umumiy va farqli jihatlarni yoritishga, qahramon tushunchasi evolyutsiyaning keyingi bosqichlarini o‘rganishga asos bo‘ladi.

Tadqiqot metodologiyasi

Ushbu tadqiqot adabiy qahramon tushunchasi evolyutsiyasini tekshirgani holda, Sharq va G‘arb badiiy tafakkurida umumiy va farqli xususiyatlarni ham yoritadi. Mazkur jihatdan kelib chiqib, adabiy jarayon ijtimoiy-madaniy, qiyosiy-tarixiy yondashuvlar asosida tekshiriladi.

Natijalar va ularning tahlili

Antik adabiyotda g‘ayritabiiy kuchga ega bo‘lgan xudolar va ularning qilgan ishlari oddiy inson tassavvurida ilohiy qahramonlik sifatida voqelangan. “Iliada” va “Odisseya” dostonlariga ma’bud va ma’budalarning kiritilishi, ularning oddiy insonlar orasida zurriyot orttirishi ilohiy qahramonlarning bir pog‘ona pastga tushishiga, keyingi qahramonlarning insoniyat ichidan chiqishiga sabab bo‘ldi. Masalan, qadimgi yunon mifologiyasida o‘n ikki jasorati bilan nom qozongan afsonaviy Gerakl oliy xudo Zevsning odamlar uchun “halokatlarning oldini oluvchi” bo‘ladigan eng buyuk qahramoni sifatida foniy ayol Alkmenadan tug‘ilgan zurriyotidir [11]. Gomer dostonlarining markaziy qahramoni, aql-zakovati bilan Troya urushlarida yunonlar g‘alabasiga sababchi bo‘lgan Odissey esa ma’buda Afinaning maxsus yordami va himoyasini muntazam ravishda olish baxtiga sazovor bo‘lgan [12]. Mifologik xudolarning insoniyatga yaqinlashuvi afsonaviy qahramonlarni (Gerakl, Axilles, Odissey, Gektor va b.) antik adabiyot markaziga chiqardi. Bu qahramonlar odamzod naslidan bo‘lsa-da, ba’zi xususiyatlari bilan xudolarga yaqin edi, ammo ular aynan xudo emas, qobiliyatlari esa ularni oddiy insonlardan ajratib turardi. Inson va ma’bud oralig‘idagi afsonaviy qahramonlar o‘ziga xos sifatlarga ega bo‘lib, jahon adabiyotshunosligida ularning quyidagi belgi-xususiyatlari e’tirof etilgan:

Qahramonlarning hayot yo‘li g‘ayritabiiy tug‘ilishdan boshlanadi, shu asnoda ular o‘ziga xos qobiliyat, jasorat va kuchga ega bo‘lishadi.

Qahramonlar odatda shoh oilasining farzandlari bo‘lib, bu xususiyat ularga ulug‘vorlik va yuksak nom baxsh etadi.

Qahramonning qismati ma’budlar tomonidan belgilangan bo‘ladi, bu ularni oddiy inson kabi taqdir oldida ojiz ekanligini ko‘rsatadi

Safarga chiqish bu – qahramonning jismoniy va ma’naviy yuksalish yo‘lidir. Odatda ular o‘z sayohatlarida g‘ayritabiiy maxluqotlar yoki dushmanlariga qarshi kurash olib borishadi.

Qahramonning yana bir fazilati, o‘ziga xos qobiliyati va axloqiy barkamolligidir, bu xususiyati bilan ular oddiy inson uddalolmaydigan ishlarni amalga oshiradilar.

Qahramonlar safarda, murakkab, qiyin vaziyatlarda ma’bud yoki ma’budalardan yordam oladi. Bu xususiyatlar antik qahramonlarning xudolarga o‘xshash va ilohiy deb tushunilishiga olib kelgan. Ammo afsonaviy qahramonlar ham barcha o‘ziga xosliklariga qaramay oddiy odamlar kabi o‘limga duchor bo‘lishadi [13]. Shu sababli qahramonning umirboqiylikka intilishi haqidagi talqinlar bu davr badiiy tafakkurida alohida o‘ringa ega bo‘lgan. Masalan, Shumer-

Akkad madaniyati mahsuli “Gilgamish haqida epos”da ham Uruk shahri hukmdori Gilgamishning abadiy tiriklikka erishish yo‘lidagi sarguzashtlari qahramon va o‘lim masalasining mifologik tafakkur davridagi eng ko‘hna variantidir. Antik adabiyotda qahramonning fojiali o‘limi motivi yetakchilik qiladi, ammo bu o‘lim ularning shon-shuhrati va afsonaviy nomini yana bir baxya ko‘taradigan sharafli o‘lim bo‘ladi.

Bu xususiyatlar qadimgi Sharq mifologiyasi, jumladan, Hind va Eron xalqlari qahramonlari Ram, Krishna (“Ramayana” va “Maxabxorat”) Rustam, Siyovush, Kayxusrav (“Shohnoma”) kabilar uchun ham taalluqli, ammo Sharq dunyosining ruhiyatidan kelib chiqqan holda qahramonning hayoti ko‘p hollarda fojiali o‘lim bilan emas, aksincha, xayrli yakun topadi.

Turkiy xalqlarning eng qadimgi qahramonlaridan biri Alp Er To‘nga, ya’ni Afrosiyobdir. Uning nomi ko‘plab tarixiy manbalarda qayd etilgan, ulardan eng mashhurlari esa “Avesto”, “Shohnoma”, “Devoni lug‘otit turk” va “Qutadg‘u bilig”dir. “Avesto”da Frangxrasyan nomi bilan kelgan ushbu mifologik obraz, keyingi asarlarda o‘ziga xos yangi talqinlarda takrorlanadi, asosiysi, ularda Alp Er To‘nga Turonning ilk xoqoni bo‘lganligi ta’kidlanadi. Koshg‘ariy lug‘atida alp so‘zi *“botir, qahramon”* sifatida izohlanib, bu so‘z turkiy tilda qadimdan bahodirlik va dovyuraklik belgisi sifatida qo‘llanilgan [4]. “Turkiy xalqlarda botir sarkardalar va podshohlar nomiga, odatda, alp so‘zi qo‘shib ishlatilgan. Alp Er To‘nga bu nomni o‘ziga ism qilib olgan dastlabki inson, turkiy xalqlarning ilk xoqoni (xoni) hisoblanadi. Keyinchalik o‘zbek xalq eposida 90 alp bo‘lganligi, so‘nggi alp Alpomish ekanligi kuylangan” [10]. Demak, Afrosiyob turkiy elatning ilk qahramonlaridan bo‘lib, adabiy-tarixiy asarlarda uning jangovar dovyurakligi bilan birga, davlat boshqaruvidagi mahorati ham qayd etilgan. Shuningdek, ba’zi forsiy manbalarda Afrosiyob nomi ijobiy baholanmagan, buning ildizi esa forslarning kayoniylar sulolasi va turk xoqoni Afrosiyob o‘rtasidagi doimiy nizolar va shahzoda Siyovush bilan bog‘liq voqealarga borib taqaladi. Biroq turkiy manbalar – “Devoni lug‘otit turk” va “Qutadg‘u bilig” asarlaridagi Afrosiyob haqidagi ma’lumotlar uni bahodir jangchi va dono xoqon bo‘lganligini tasdiqlaydi.

Alpomish – turkiy eposning eng yorqin qahramoni. Uning eposdagi harakati va xarakterida ham qahramonlikning barcha xususiyatlari voqelanadi. U ilohiy pir homiyligida dunyoga keladi, oilasi Boysun-Qo‘ng‘irot elining yetakchi-zodagoni, o‘zi va elatining taqdiri yo‘lida Qalmoq yurtiga safar qilib, dushmanlariga qarshi kurashadi, taqdiri ilohiylik kasb etib, pirlar va chiltonlardan madad oladi. Kurashlar natijasida kamol topib, haqiqiy alp bo‘lib yetishadi. Uning o‘z yaqinlari va Qalmoq shohning qizi Tovkaga bo‘lgan munosabatlarida (Barchinning shartlarini bajarmaguncha uning oldiga bormasligi, elda malomatga qolishdan oriyat qilishi yoki yetti yillik zindonda Tovka bilan bo‘lgan ilk suhbatida) ma’naviy-axloqiy yetukligi namoyon bo‘lgan.

Turkiy eposda qahramonlarning o‘ziga xos xususiyatlari *alplik tizimini* tashkil etadi. Folklorshunos Sh.Turdimov “Alpomish” dostonini “Injil” va “Odisseya” tafsilotlari, mazmun-mohiyatidagi uyg‘un o‘rinlarni qiyoslab, uning ildizini uch ming yildan narida ekanligini ta’kidlaydi. “Alpomish” dostoni voqealari asosini turkiy qabilalarning eng qadimiylaridan bo‘lgan Ashina urug‘i tarixi va Arkanakunlik aka-uka o‘rtasida sodir bo‘lgan voqealarga bog‘laydi [5]. Demak, Alpomish turkiy xalqlar adabiyotining mumtoz qahramonidir. Shuningdek, qahramonlik dostonlarining asosi bo‘lgan alplik tizimida alp xalqning adolat o‘rnatuvchi qahramoni, uning idealini ifoda etuvchi shaxs ekanligi, o‘z vazifalariga, yerdagi missiyasiga egaligi, keyingi davrlarda yaratilgan xalq qahramonlari, shohlar yoki sarkardalar haqidagi asarlarga sezilarli ta’sir o‘tkazgan. Hozirgi o‘zbek nasrida polvon obrazining badiiy talqinlarida ham alplik xususiyatlari, nohaqlikka qarshi kurashish, o‘z elining, insonlarning himoyachisi bo‘lish, mardonavor, halol va oriyatli bo‘lib yashash kabi sifatlari davom ettirilgan.

Qahramonlik o‘rta asrlar g‘arb adabiyotining asosiy mavzusi sanaladi. Ilk o‘rta asrlarda Rim imperiyasining qulashi, keyingi qabilalar o‘rtasidagi urush va nizolarda o‘z oilasi, xalqini dushmandan himoya qilish burchi davr qahramonlarini yuzaga chiqardi. Beovulf, Sid, Rolland kabi qahramonlar hayotida xalqni dushmanlardan qutqarish va asrash maqsadi yetakchilik qilgan. Ularning oddiy odamlar tasavvuridagi talqini ilohiy tushunchalar bilan bog‘liq kechadi, buni antik davr mifologiyasining o‘rta asrlar badiiy tafakkuriga ta’siri bilan izohlash mumkin. Keyinchalik xalq orasida ushbu qahramonlar haqida turli afsona, doston va qo‘shiqlar yaratilib, uzoq vaqtlar davomida kuylab kelingan.

“To‘maris” va “Shiroq” afsonalaridagi qahramonlar kabi turkiy xalqlarning qadimiy yozma yodgorligi O‘rxun-Enasoy toshbitiklarida madh etilgan Kul tigin, To‘nyuquq, Bilga xoqonlar uchun ham vatan ozodligi, xalq erki oliy maqsad sanalgan. To‘maris va Shiroq qahramonliklari haqida Gerodot va Poliyen manbalari orqali bilvosita xabar topsak, Kul tigin, To‘nyuquq, Bilga xoqon voqealarining o‘z davridayoq toshga muhrlangani afsonalardan farqli turkiy qahramonlar haqida aniq, ishonchli tasavvurlarga ega bo‘lishimizga imkon beradi. Masalan, To‘nyuquq bitiktoshi yaratilgan paytda qahramonning o‘zi hayot va ancha yoshga borib qolgan edi. To‘nyuquq ikkinchi Turk xoqonligining asoschilaridan biri, mohir sarkarda va dono maslahatchi bo‘lib, u haqidagi ma’lumotlar Xitoy yilnomalarida ham uchraydi. Bitiktoshdagi ushbu lavhalar uning vatanparvar qahramon bo‘lganligini dalillaydi:

“Og‘uzdan ko‘rik keldi.

Ko‘rikning so‘zi mundog‘: ...

Turk sir budun yerida edi, yurmasin.

Ularni yo‘q qilsam, derman.
Ul so‘zni eshitib
Tun uxlagum kelmadi,
Kunduz o‘lturgim kelmadi” [6].

Xabarchidan birlashgan tashqi dushmanlar hujumi haqida eshitgan qahramon jangga otlanadi va xalq tinchligi, xoqonlik mustaqilligini saqlab qoladi. Adabiyotshunoslar To‘nyuquq bitiktoshining kompozitsion qurilishi, badiiy-tasviriy unsurlarini hisobga olgan holda uni turkiy yozma adabiyotdagi qahramonlik dostonlarining ilk namunasi sifatida belgilashadi.

O‘rxun-Enasoy yodnomalari ichida arxeologik saqlanishi, shuningdek, badiiyati jihatidan ham yuqori baholangan Kul tigin bitiktoshida Turk xoqonligidagi ijtimoiy-siyosiy voqealar, qadimgi turkiy xoqonlar haqida ma’lumotlar, shuningdek, turk qabilalari qahramoni Kul tigin jasoratlariga ham keng o‘rin berilgan: “...yetti yoshda ekanida (692-yili) otasi Eltarish xoqon vafot etdi, o‘n yoshida qahramonlik ko‘rsatib elda shuhrat topdi, o‘n olti yoshida Qapag‘an xoqon hokimiyatini mustahkamlash uchun janglar olib bordi...” [7]. O‘rxun-Enasoy yodnomasi qahramonlari turkiy davlat asoschilaridan bo‘lib, ular bilan bog‘liq ijtimoiy-siyosiy voqealarning badiiyat hodisasi sifatida toshga bitilishi, ushbu shaxslarni tarixiy-badiiy obraz darajasiga ko‘taradi.

Turkiy xalqlarning keyingi davlatchilik tarixi va ularning ustiga uyushtirilgan turli harbiy istilolar davrida Muqanna, Jaloliddin Manguberdi, Temur Malik, Najmiddin Kubro, Amir Temur kabi vatan qahramonlari yetishib chiqqan va ularning bosh maqsadi Turon zamin ozodligi, milliy davlatchilik asoslarini tiklash va mustahkamlash bo‘lgan. Ushbu shaxslar haqidagi ma’lumotlar ko‘plab o‘rta asr tarixchilari asarlariga kiritilgan, xalq ijodida ham bu qahramonlar sharafiga turli afsona va rivoyatlar paydo bo‘lgan. XX asrda o‘zbek adabiyotining janriy yangilanishi natijasida ular haqidagi hayotiy materiallar badiiy ishlanib, roman, qissa, dramalar yaratildi va milliy adabiyotimizning durdona asarlariga aylandi.

XI – XII asrlarda G‘arbiy Yevropa mamlakatlarida ritsarlik harakati keng yoyiladi. Ritsarlik o‘rta asrlar g‘arb dunyosining oliy harbiy unvoni bo‘lib, bu maqomga ega bo‘lish ancha mashaqqatli edi. Ritsar jismoniy mukammal bo‘lishdan tashqari ma’rifiy yuksalishi, adabiyot va san’atdan xabardor bo‘lishi, ilm olishi, ritsarlik madaniyatini egallashi lozim bo‘lgan. Ritsar unvonini olgan odamning jamiyatdagi mavqeyi oshardi va o‘z davrining har tomonlama namunali kishisiga aylanardi. Bu omillar ritsarlar haqida romanlarning paydo bo‘lishiga sabab bo‘ldi. “Ritsarlik romani markazidagi qahramon – ritsar o‘zining beqiyos jasorati, olijanobligi bilan ajralib turadi, o‘z davrida ulardan Tristan va Izolda muhabbati, “yumaloq stol” ritsarlari, qirol Artur, Lanselot haqidagi turkumlar mashhur bo‘lgan” [8].

Ilk o‘rta asrlar qahramoni uchun vatan ozodligi va xalq himoyasini ta’minlash oliy maqsad edi. Uning qahramonligi ham ayni shu maqsadning ijrosi bilan talqin etilgan. Ammo kishilik jamiyatining tinimsiz yangilanib borishi badiiy tafakkurga ham o‘z ta’sirini o‘tkazdi. O‘rta asrlarning keyingi davrida qahramon ma’lum bir ijtimoiy-tarixiy sharoitda jamiyat yoki o‘zining shaxsiy ehtiyoji, g‘oya va ideallari uchun kurashuvchi inson sifatida harakat qila boshlaydi. Shuningdek, qahramon tushunchasi o‘rta asrlarda o‘zining “heros – yarimxudo, ilohiy odam” maqomini saqlab qoldi va uning talqinida matonat, jasorat, mardlik tuyg‘ulari doimiy yetakchilik qildi.

Uyg‘onish davri Yevropa davlatlari madaniyatidagi ulkan voqeadir, u jamiyatda feodalizm munosabatlarining yakunlanishiga hamda adabiyot va san’at tafakkur tarzining yangilanishiga sabab bo‘ldi. Uning ta’sirida shakllangan turli adabiy oqim qahramonlari o‘zida shu yo‘nalishning maqsad va g‘oyalarini tashuvchi ideallaridir. Masalan, inson aqli va zakovati bilan dunyoni o‘zgartirishni maqsad qilgan “ma’rifatchilik realizimining qahramoni – o‘zining faolligi, aql-zakovati va iroda kuchi bilan jamiyatda o‘z o‘rnini topish, unda o‘z mavqeyini yaxshilash uchun kurashayotgan shaxs” hisoblanadi. Ammo adabiy qahramon tushunchasining mohiyatan o‘zgarishi sanoat inqilobi, mustamlakachilik siyosati va bularning oqibatida yuzaga kelgan jahon urushlari natijasida ro‘y berdi. Chunki bu jarayonlar, avvalo, inson va uning qadr-qimmatiga, badiiy tafakkur va ijodkor dunyosiga kuchli ta’sir o‘tkazdi. Endi qahramon tushunchasi mifologik davrdagi ilohiylikni, o‘rta asr adabiyotidagi kabi jasorat va fidoiylikni o‘ziga yuklamaydi yoki XVII – XIX asr mashhur adabiy yo‘nalishlarining qahramonlari kabi o‘ziga xos xususiyatlari bilan yaqqol ajralib turmaydi. Bu o‘rinda qahramon tushunchasi o‘zining bosh xususiyati sanalgan qahramonlik (ilohiylik, yarimxudo, jasorat, olijanoblik) qobig‘idan ajralib, badiiy butunlikdagi shaxs obrazi – personajga aylandi. Albatta, qahramon o‘zining oliy maqomidan birdaniga yoki osonlikcha tushgan emas, bu olis ming yilliklar ichra murakkab ijtimoiy-tarixiy jarayonlar natijasida yuz bergan hodisadir. Yuqorida nomlari keltirilgan tarixiy shaxslar esa o‘z xalqi tamadduniga xizmat qilib, badiiy tafakkur olamiga muhrlangan qahramonlarning ayrimlari xolos.

Xulosa

Qahramonlik tushunchasi insoniyat badiiy tafakkurida ming yillar davomida turli shakllarda namoyon bo‘lib kelgan. Antik davrda u xudolar va yarimxudolarning g‘ayritabiiy kuchlari bilan bog‘liq bo‘lsa, turkiy eposlarda Alp Er To‘nga va Alpomish singari qahramonlar xalqning adolat, ozodlik va mardlik timsoliga aylangan. O‘rta asrlarda Beovulf, Rolland, Kul tigin, To‘nyuquq kabi qahramonlar vatan himoyasi va xalq erki uchun kurashgan. Keyingi davrlarda esa

qahramonlik tushunchasi ilohiylik va yarimxudolikdan insoniy fazilatlar – jasorat, iroda, ma'naviy barkamollik, adolatparvarlikka o'tib, badiiy asarlarda real shaxs obrazi sifatida talqin qilina boshladi. Demak, qahramonlik tushunchasi tarixiy jarayonlar ta'sirida o'zgarib, har bir davrning ijtimoiy-ma'naviy ehtiyojlarini ifodalovchi universal badiiy kategoriya sifatida shakllangan.

TED HUGHESNING "TALES FROM OVID" (OVIDIYDAN AFSONALAR) ASARIDA ANTIK OBRAZLARNING MODIFIKATSIYASI VA PSIXOLOGIK DEKONSTRUKSIYASI

Yo'ldasheva Maftuna
O'zDJTU Jahon adabiyoti kafedrasi stajor o'qituvchisi,
E-mail: m.yuldasheva1218@gmail.com

Annotatsiya. *Ushbu maqola XX asr oxiri ingliz she'riyatining yirik namoyondasi Ted Hughesning "Tales from Ovid" (1997) asarida antik va mifologik obrazlarning qo'llanilishi, ularning badiiy, ekologik va psixologik ahamiyatini o'rganishga bag'ishlangan. Tadqiqotda Rim shoiri Ovidiyning "Metamorfozalar" dostonidagi qahramonlar (Akteon, Diana, Narsis, Exo, Filomela va Terey) va Hughes asaridagi zamonaviy talqin o'rtasidagi tipologik va semantik tafovutlar to'liq tahlil qilingan. Antik obrazlarning qadimgi davrdagi axloqiy-diniy vazifasidan zamonaviy jamiyatdagi travma, shafqatsizlik va inson-tabiat ziddiyatini ochib beruvchi vositaga aylanish jarayoni ochib berilgan. Shuningdek, ushbu asarning nima sababdan hozirgi kun kitobxoni va jahon adabiyoti uchun muhimligi ilmiy dalillar asosida yoritilgan.*

Kalit so'zlar: *Antik obrazlar, Ted Hughes, "Tales from Ovid", Ovidiy, mifologik metod, metamorfoza, dekonstruksiya, psixologik realizm, travma, inson va tabiat.*

MODIFICATION AND PSYCHOLOGICAL DECONSTRUCTION OF ANCIENT IMAGES IN TED HUGHES' "TALES FROM OVID

Abstract. *This article is devoted to the study of the use, artistic, ecological, and psychological significance of antique and mythological images in "Tales from Ovid" (1997) by Ted Hughes, a major figure in late 20th-century English poetry. The research fully analyzes the typological and semantic differences between the characters in the Roman poet Ovid's epic "Metamorphoses" (Actaeon, Diana, Narcissus, Echo, Philomela, and Tereus) and their modern interpretations in Hughes's work. The transition of antique images from their moral and religious functions in antiquity to tools that reveal trauma, cruelty, and the human-nature conflict in modern society is elucidated. Furthermore, the reasons why this work remains crucially important for contemporary readers and world literature are explained based on scientific evidence.*

Keywords: *Antique images, Ted Hughes, "Tales from Ovid", Ovid, mythological method, metamorphosis, deconstruction, psychological realism, trauma, man and nature.*

ТРАНСФОРМАЦИЯ И ПСИХОЛОГИЧЕСКАЯ ДЕКОНСТРУКЦИЯ ДРЕВНИХ ОБРАЗОВ В РОМАНЕ ТЕДА ХЬЮЗА «ОБИДИАНЕ»

Аннотация. *Данная статья посвящена изучению использования, а также художественного, экологического и психологического значения античных и мифологических образов в произведении «Сказки из Овидия» (Tales from Ovid, 1997) Теда Хьюза, выдающегося представителя английской поэзии конца XX века. В исследовании подробно анализируются типологические и семантические различия между героями эпоса римского поэта Овидия «Метаморфозы» (Актеон, Диана, Нарцисс, Эхо, Филомела и Терей) и их современной интерпретацией в творчестве Хьюза. Раскрывается процесс перехода античных образов от их морально-религиозной функции в древности к средству выявления травм, жестокости и конфликта человека и природы в современном обществе. Кроме того, на основе научных данных обосновывается, почему это произведение остается исключительно важным для современного читателя и мировой литературы.*

Ключевые слова: *Античные образы, Тед Хьюз, «Сказки из Овидия», Овидий, мифологический метод, метаморфоза, деконструкция, психологический реализм, травма, человек и природа.*

Kirish. Jahon adabiyotshunosligi va madaniyatida antik obrazlar hamda mifologik syujetlar uzoq asrlar davomida insoniyatning kollektiv ongsizligini, universal fojialarini va umumbashariy haqiqatlarini aks ettiruvchi "badiiy matritsa" bo'lib xizmat qilib kelgan. Antik adabiyot, xususan, qadimgi yunon va rim eposi va afsonalari shunchaki o'tmish yodgorligi emas, balki asrlar o'tsa-da, o'zining hayotiyligini yo'qotmaydigan arxetiplar manbayidir. Adabiyotda antik obrazlarning ahamiyati shundaki, ular orqali ijodkor ma'lum bir davrning lokal va maishiy muammolarini butun

insoniyat tarixiga xos bo‘lgan kosmik va falsafiy miqyosga olib chiqa oladi. Miflar va qadimiy obrazlar xaos, ma'naviy inqiroz va tushunarsizliklar ichida muayyan tartibni yuzaga chiqarish, axloqiy kompas va falsafiy teranlikni ta'minlash vazifasini bajaradi.

XX asrning ikkinchi yarmi va oxiriga kelib, sivilizatsiya o‘zining texnologik cho‘qqisiga chiqqan bir paytda, insonning tabiatdan begonalashuvi, urushlar va zo‘ravonlik ko‘lami adabiyotda qadimiy, ibtidoiy va yovvoyi kuchlarga qayta murojaat qilish ehtiyojini tug‘dirdi. Buyuk Britaniya shoir-laureati Ted Hughes (Ted Xyuz, 1930–1998) ijodida bu holat o‘zining eng yuksak in'ikosini topdi. Uning 1997-yilda nashr etilgan va nufuzli "Whitbread Book of the Year" mukofotiga sazovor bo‘lgan "Tales from Ovid" (Ovidiyadan afsonalar) asari Rim shoiri Ovidiyning "Metamorfozalar" (Shakl o‘zgarishlari) asaridan olingan 24 ta afsonaning erkin, modernistik va o‘ta ehtirosli tarjimasi (aniqrog‘i, qayta yaratilishi) hisoblanadi (Hughes, 1997, b. 7, q. 12-15).

Ushbu asarda Ted Hughes qadimgi obrazlarni shunchaki ingliz tiliga o‘girmaydi, balki ularni XX asrning qonli, travmatik va ekologik fojialarga to‘la muhiti prizmasidan o‘tkazadi. Maqolaning maqsadi "Tales from Ovid" asarida antik obrazlarning qanday poetik va psixologik vazifa bajarganini, ularning antik davrdagi o‘rni bugungi kun talablari asosida qay tariqa evrilishga yuz tutganini hamda nima uchun bu asar hamon insoniyat uchun o‘qilishi shart bo‘lgan, Skopus xalqaro bazasi darajasidagi tadqiqotlarga arziydigan fenomen ekanligini chuqur ilmiy tahlil qilishdir.

Asosiy qism: Antik obrazlarning modifikatsiyasi va ularning tahlili

Ted Hughes asarida antik qahramonlar saroy yoxud Olimp tog‘idagi ilohiy shaxslar bo‘lishdan ko‘ra, ko‘proq inson ruhiyatining eng tub qatlamlarida yashiringan yovvoyi, boshqarib bo‘lmas instinktlarning timsoliga aylanadi. Hughes Ovidiyning silliq, nafosatli lotin gekzametrini buzib, uning o‘rniga dag‘al, muskulga to‘la, ba'zan shafqatsiz ingliz erkin she'riyatini (free verse) olib kiradi.

Quyida asardagi eng muhim antik obrazlarning qiyosiy tahliliga to‘xtalamiz.

1. Akteon va Diana obrazlari: asarda ovchi va o‘ljaning o‘zaro ziddiyatini olib chiqadi. "Metamorfozalar" asarida (3-kitob) o‘rmonda ov qilib yurgan shahzoda Akteon tasodifan cho‘milayotgan ma'buda Diananing (yunoncha Artemida) ustidan chiqib qoladi. Diana g‘azablanib, uni bug‘uga aylantirib qo‘yadi va Akteon o‘zining sadoqatli itlari tomonidan g‘ajib tashlanadi. Antik davrda bu obrazlar axloqiy va diniy vazifani bajargan: u inson va xudolar o‘rtasidagi chegarani buzish (hubris - kibr) qanday fojia keltirishini, ilohiy irodaga bo‘ysunish shartligini ko‘rsatuvchi saboq vazifasini o‘tagan (Ovid, 2004, b. 102, q. 190-195).

Ted Hughes talqinida xudolarning axloqiy jazosi ikkinchi planga tushadi. Uning uchun Akteon asosan *inson va yovvoyi tabiat* o‘rtasidagi instinktiv, qonli aloqaning timsolidir. Hughes Dianani nafaqat bokira ma'buda, balki tabiatning shafqatsiz, sovuq va vayronkor kuchining o‘zginasi sifatida tasvirlaydi. Akteonning bug‘uga aylanish jarayoni psixologik dahshat bilan yozilgan. Hughes Akteonning o‘z tanasida qamalib qolishini, insoniy ongi saqlangan holda hayvoniy qo‘rquvni his etishini o‘ta naturalistik tarzda ifodalaydi: *"Uning ongi insonniki edi, lekin yuragi... o‘ljaning yuragi kabi urardi"* (Hughes, 1997, b. 115, q. 8-10). Zamonaviy o‘quvchi uchun Akteon xudolar irodasiga qarshi chiqqan gunohkor emas, balki tabiat oldida mutlaqo ojiz bo‘lib qolgan, sivilizatsiyaning yupqa qatlami ostidagi yovvoyilikka yuz tutgan zamonaviy inson obrazidir. Hughes bu obraz orqali insonning o‘zini tabiat ustidan hukmron deb bilishi qanchalik xomxayol ekanligini, tabiat qasos olishni boshlasa inson o‘zining texnologiyasi (itlari va qurollari) qurboniga aylanishini ko‘rsatib beradi.

2. Narsis va Exo (Narcissus and Echo): bu obrazlar asarda kommunikativ inqiroz va narsizmni o‘zida namoyon etadi. Mifologiyada Exo o‘z ovozini yo‘qotgan, faqat boshqalarning so‘nggi so‘zini qaytarishga mahkum qilingan pari, Narsis esa o‘zining suvdagi aksini sevib qolib, o‘sha yerdan siljiyolmay nobud bo‘lgan yigit. Ovidiy asarida bu obrazlar, asosan, tabiat hodisalarining (aks-sado va nargis gulining) paydo bo‘lishini tushuntiruvchi etiologik mif hamda o‘z-o‘ziga bino qo‘yish (xudbinlik)ning jazosi haqidagi pand-nasihat vazifasini bajargan (Ovid, 2004, b. 120, q. 350).

"Tales from Ovid" dostonida Narsis va Exo butunlay zamonaviy psixologik sindromlarning timsoliga aylanadi. Hughes Exoning azoblarini jismoniy og‘riq darajasiga olib chiqadi. Uning muhabbati javobsiz qolganda, uning tanasi qanday qilib suyak va toshga aylanib, faqat quruq ovoz qolganini psixoanalitik tarzda tasvirlaydi. Narsis esa shunchaki chiroyli yigit emas, balki boshqalar bilan empatiyaga kirisha olmaydigan, o‘ziga qamalib qolgan ekzistensial yolg‘iz inson. U o‘z aksiga qarab shunday deydi: *"Mening ko‘zlarim men tomonga sevgi bilan qaraydi, lekin men ularga yeta olmayman"* (Hughes, 1997, b. 142, q. 22). Bugungi kunda (ayniqsa ijtimoiy tarmoqlar va virtual o‘zlik hukmron davrda) Narsis obrazi har qachongidan ham dolzarb. U faqat o‘zining aksini, o‘zining ijtimoiy qiyofasini sevuvchi, ammo haqiqiy insoniy munosabatlardan (Exodan) qochuvchi zamonaviy jamiyat a'zosidir. Exo esa insonlar o‘rtasidagi chinakam muloqotning yo‘qolishi, shunchaki birovlarning fikrini takrorlashga majbur bo‘lgan jamiyat ramzi hisoblanadi. Bu obrazlar insoniyatning yolg‘izlik fojiasini tushuntirishda benazir ahamiyatga ega.

3. Terey, Prokne va Filomela: Travma va zo‘ravonlik fojiasi timsoli. Frakiya shohi Terey rafiqasining singlisi Filomelani zo‘rlaydi va qilmishini yashirish uchun uning tilini kesib tashlaydi. Filomela voqeani matoga to‘qib, opasi (Tereyning xotini) Proknega yuboradi. Opa-singil Tereydan mudhish qasos oladi (uning o‘g‘lini so‘yib, unga

yedirishadi). Yakunda xudolar ularni qushlarga (qaldirg‘och, bulbul va sassiqpopishak) aylantiradi. Antik madaniyatda bu mif vahshiylik va sivilizatsiya o‘rtasidagi ziddiyatni, xudolarning aralashuvi bilan yomonlikning jazolanishini ifodalagan (Ovid, 2004, b. 210, q. 420-430). Ted Hughes uchun bu afsona kitobning eng markaziy va eng og‘ir nuqtalaridan biridir. XX asr (Xolokost, Ikkinchi jahon urushi, genotsidlar asri) farzandi bo‘lgan Hughes Terey timsolida inson ichidagi qonxo‘r, fashistik diktatorni, mutlaq yovuzlikni ko‘radi. Hughes Filomelaning tilining kesilishi sahnasini shunday shafqatsiz realizm bilan yozadiki, bu shunchaki mifologik voqea emas, balki qatag‘on qilingan, ovozi (so‘z erkinligi) tortib olingan millionlab qurbonlarning ramziga aylanadi. Filomelaning kesilgan tili *"yerda xuddi kesilgan ilonning dumidek tipirlab yotardi"* (Hughes, 1997, b. 205, q. 18-20). Opa-singilning qasosi ham Hughes tomonidan ilohiy adolat emas, balki zo‘ravonlik muqarrar ravishda yana zo‘ravonlikni tug‘dirishi haqidagi psixologik travma sifatida ko‘rsatiladi. Bu afsonaning hozirgi zamonda ahamiyati beqiyosdir. U feministik adabiyotshunoslik va travma tadqiqotlari uchun asosiy matn bo‘lib xizmat qiladi. Filomela obrazi ovozsiz qoldirilgan, adolatsizlikka uchragan ayolning timsolidir. Uning matoga to‘qilgan xati san'atning yengilmas ekanligini, haqiqatni jismonan yo‘q qilish mumkin bo‘lsa-da, u baribir ijod orqali yuzaga chiqishini isbotlaydi.

4. Araxna va Minerva (Arachne and Minerva): Araxna obrazi ijodkorning isyoni timsolida ifoda etiladi. Oddiy to‘quvchi qiz Araxna o‘zining san'ati bilan ma'buda Minerva bilan bellashadi. Araxna o‘z matosida xudolarning nuqsonlarini va gunohlarini to‘qiydi, Minerva esa xudolarning buyukligini da’vo qiladi va Araxnaning ishi qanchalik mukammal bo‘lmasin, Minerva uni urib tashlaydi va o‘rgimchakka aylantiradi. Antik davrda bu kibr uchun jazo va o‘rgimchakning kelib chiqish afsonasi edi. Hughes talqinida Araxna hukmron mafkuraga qarshi isyon ko‘targan mustaqil, jasur san'atkor obrazidir. Minerva esa avtoritar tuzum va tsenzura ramzi. Araxna to‘qigan matoda xudolarning (kuchlilarning) ojizlarni ezishi tasvirlanadi. Hughes bu yerda ijodkorning burchi hokimiyatga xushomad qilish emas, balki achchiq haqiqatni ko‘rsatish ekanligini ta'kidlaydi (Bate, 2015, b. 520, q. 10). Araxnaning o‘rgimchakka aylanishi mag‘lubiyat emas, u endi umrbod san'at yaratishga, o‘z vujudidan ip tortishga (ijod qilishga) bag‘ishlangan o‘lmas ijodkorning abadiyligidir. Ushbu asar shunchaki tarjima yoki qadimgi afsonalarning qayta bayoni emas, balki zamonaviy inson ruhiyatining ensiklopediyasi sanaladi. Hughes Ovidiy qahramonlari orqali inson va tabiat o‘rtasidagi bog‘liqlik uzilganini fosh qiladi. Asar o‘quvchiga atrof-muhitdagi har bir narsada (daraxtda, hayvonda, daryoda) qachonlardir urgan tirik yurak borligini his qildiradi. Metamorfoza (shakl o‘zgarishi) bu – barcha tirik mavjudotlarning bir ekanligini anglatuvchi falsafadir. Agar inson tabiatni halok qilsa, o‘zini ham halok qiladi. XX va XXI asrlar tinchlik asri bo‘lmadi, shuning uchun Hughesning qahramonlari orqali o‘quvchi insoniyat qanchalik sivilizatsiyalashmasin, uning ichida haliyam vahshiy ehtiroslar mudrab yotganini tushunib yetadi. Asar qon, hirs, hasad kabi yashirin tuyg‘ularni ochiq ko‘rsatish orqali o‘quvchini ruhiy tozalanishga olib boradi (Talbot, 2001, b. 134, q. 5).

Xulosa. Ted Hughesning "Tales from Ovid" asari XX asr oxiri jahon adabiyotining ulkan yutug‘i hisoblanadi. Bu doston orqali Hughes antik davr mifologiyasining shunchaki muzeydagi qadimiy haykal emasligini, balki ular hamon tirik, qon tomirlarimizda urib turgan arxetiplar ekanligini isbotlab berdi.

Akteon asarda ovchi obrazidan tabiat oldidagi qo‘rquv va qurbonlik timsoliga; Narsis va Exo jazo olgan qahramonlardan zamonaviy kommunikatsiya inqirozi va yolg‘izlik tashxisiga; Filomela voqeasi ertakona tragediyadan repressiya va zo‘ravonlik aktini hujjatlashtiruvchi travmatik manifestga; Araxna esa jazolangan xudbindan senzura bilmas haqiqiy san'atkor timsoliga aylantirildi.

Bu obrazlar antik davrda ilohiy qudratni ko‘klarga ko‘tarib, insonni unga bo‘ysundirishga xizmat qilgan bo‘lsa, Ted Hughes asarida ular insonning bevosita o‘zining ichki qorong‘iliklari, fojialari va ekzistensial inqirozi bilan yuzlashishiga xizmat qiladi. Antik afsonalar shu tariqa adabiyotda abadiylik kasb etadi – ular davrlar o‘zgarishi bilan shaklini emas, balki mazmun va vazifasini o‘quvchining ongiga moslab o‘zgartirib boraveradi. Ushbu asar o‘zlikni, inson tabiatini va jamiyatdagi ziddiyatlarni chuqurroq tushunishni istagan har bir o‘quvchi, faylasuf va adabiyotshunos uchun o‘qilishi shart bo‘lgan, hamon o‘zining hayratlanarli jozibasi va shafqatsiz haqiqatini yo‘qotmagan shoh asardir.

ABOUT CHUSTIY'S BIOGRAPHY

Annotation: *This scientific article analyzes Chustiy’s biography, the main stages of his life and creative activity. The study covers the poet’s birthplace, educational process, literary formation factors, and specific aspects of his creative heritage based on scientific sources. It also analyzes the connection of Chustiy’s work with the traditions of Uzbek classical literature, his poetic skills in ghazal and other genres, and his literary and aesthetic views. As a result, the place and significance of Chustiy in the Uzbek literary heritage are revealed, and it is argued that an in-depth study of his biography is an important source for enriching the history of national literature.*

Key words: *Pseudonym, biographical story, Chustiy, Mawlana, domla, literary circle, literary connections, ghazal poetry.*

О БИОГРАФИИ ЧУСТИЯ

Аннотация: *Данная научная статья анализирует биографию Чустия, основные этапы его жизни и творческой деятельности. Исследование охватывает место рождения поэта, процесс образования, факторы литературного формирования и специфические аспекты его творческого наследия на основе научных источников. Также анализируется связь творчества Чустия с традициями узбекской классической литературы, его поэтическое мастерство в жанре газели и других жанрах, а также его литературно-эстетические взгляды. В результате раскрывается место и значение Чустия в узбекском литературном наследии, и доказывается, что углубленное изучение его биографии является важным источником для обогащения истории национальной литературы.*

Ключевые слова: *псевдоним, биографический рассказ, Чустий, Мавлана, учитель, литературный круг, литературные связи, поэзия газели.*

Aruz vaznida barakali ijod etgan shoir, dostonnavis, dramaturg, shuningdek, mohir tarjimon Chustiy – Nabixon Xo‘jayev o‘zbek mumtoz va zamonaviy adabiyoti taraqqiyotida o‘ziga xos ijodiy uslubi, badiiy tafakkuri va ma’rifiy qarashlari bilan alohida o‘rin egallagan ijodkorlardan biri hisoblanadi. Uning hayoti va ijodiy faoliyati nafaqat adabiyotshunoslik nuqtayi nazaridan, balki ijtimoiy-ma’naviy jarayonlar bilan uzviy bog‘liqligi jihatidan ham muhim ilmiy tadqiqot obyektidir. Shu bois Chustiy tarjimayi holini o‘rganish orqali shoirning shakllanish omillari, ijodiy kamolot bosqichlari hamda davr ruhining uning asarlarida qanday aks etganini aniqlash mumkin.

Tarjimayi holga doir ma’lumotlar ijodkorning shaxsiyati, dunyoqarashi va badiiy merosini chuqurroq anglashda muhim manba vazifasini bajaradi. Ayniqsa, Chustiy yashagan davrning ijtimoiy-siyosiy, madaniy muhiti uning ijodiy yo‘nalishiga bevosita ta’sir ko‘rsatgan. Shu jihatdan mazkur maqolada shoirning hayot yo‘li, ilmiy-adabiy muhit bilan aloqalari, ijodiy merosining shakllanish bosqichlari ilmiy asosda tahlil qilinadi.

Maqolaning dolzarbligi shundaki, bugungi kunda milliy adabiy merosni qayta ko‘rib chiqish, uni zamonaviy ilmiy mezonlar asosida baholash zarurati ortib bormoqda. Bu jarayonda Chustiy kabi ijodkorlarning tarjimayi holini chuqur o‘rganish, ularning adabiyotimiz rivojiga qo‘shgan hissasini aniqlash muhim ahamiyat kasb etadi.

Mazkur tadqiqotning maqsadi — Chustiyning hayoti va ijodiy faoliyatini tizimli ravishda o‘rganish, mavjud ilmiy manbalar asosida uning tarjimayi holiga doir muhim jihatlarni yoritishdan iborat. Shu bilan birga, maqolada tarixiylik, izchillik va ilmiylik tamoyillari asosida shoir hayoti bilan bog‘liq faktlar tahlil qilinadi hamda umumlashtiriladi.

Shoir 1904-yil 20-fevralda Namangan viloyati Chust shahrida hunarmand-to‘quvchi oilasida dunyoga kelgan. Otasi Nurillohxoja ismli kishi bo‘lib, hunarmand bo‘lish bilan birga adabiyot va she’riyat ixlosmandi edi. Shu boisdan ham Turobiy taxallusi bilan g‘azallar ijod qilib turgan. Lekin, afsuski, she’rlari o‘sha zamonlardayoq yo‘qolib ketgan. Otadagi hunar va ijod borasidagi qobiliyatning mavjudligi yosh Nabixonning ilmga, adabiyotga, xususan, she’riyatga mehr qo‘yishida muhim o‘rin tutdi. Bu haqda Chustiy “O‘tmish va xotiralar” deb nomlangan biografik hikoyasida shunday deb yozadi: “Yoshlik chog‘larimdayoq atlasboflik va she’r yozishni dadamdan o‘rganganman. Keyinchalik g‘azallarimdan birida “Chust shahrida tug‘ildim, shul sabab Chustiy laqab, Otadan meros shoirlik-la atlasboflik”, – deb yozgan edim” [1:465].

Yosh Nabixon 7 yoshdan 12 yoshgacha o‘z qarindoshi maktabdor Ubaydaxon ayadan ilk saboq oladi. Mazkur pallalarni ijodkor quyidagicha xotirlaydi: “Men maktabbolalar ichida hammadan durust edim. Bir necha haftada alifbo, haftiyak va boshqa savod kitoblarini o‘zlashtirdim. Keyin Qur’oni Kariym, Chahor kutub, Navoiy, Hofiz Sheroziy. Sa’diy, Bedil asarlarini, Mantiq, Maslak kabi darsliklarni o‘rgandim, ikki yilda Kalomullohni to‘la yod oldim”[1:465]. Bo‘lajak shoir Sharq adabiyotining eng durdona asarlarini mutolaa qilgan holda adabiyot olamiga kirib keldi, qalbida she’riyatga havas uyg‘ondi.

1917-yildagi o‘lkada hukm surgan siyosiy o‘zgarish va beboshliklar sababli, shuningdek, Chustda tirikchilik qilishning imkoni bo‘lmay qolganligi uchun ham 14 jonli Xo‘jayevlar oilasi Qo‘qon shahriga ko‘chib keladi. Butun oila to‘quvchilik ishlari bilan shug‘ullanadilar. Nurullohxoja shu yili Uchko‘prik tumanining Tepaqo‘rg‘on qishlog‘iga imom-xatiblik qila boshlaydi. Nabixon ham 12 yoshidan aka-ukalari kabi ota kasbi (atlas to‘qish)ga mehr qo‘yadi, oilaga yordam bera boshlaydi. Ayni vaqtda eski maktab va madrasalarda ta’lim ham oladi, qorilik ilmini aka-ukalari bilan dastlab Chustdagi Nasrulloxon To‘radan (Chustiyning ilk ustozi Ubaydaxon ayaning turmush o‘rtog‘i), Qo‘qonda esa Mirg‘ofur qorixonasida o‘rganadi. 6 o‘g‘ilning har biri xat-savodli, ilmli, mehnatkash, es-hushli bo‘lib kamol topadilar.

Bo‘lg‘usi shoir uy va ro‘zg‘or ishlaridan ortishi bilanoq kitob mutolasiga tushardi, mumtoz she’riyatning buyuk namoyandalari asarlarini qo‘ldan qo‘ymay, yodlab qolishga urinardi. O‘g‘lidagi ishtiyoqni vaqtida payqagan Turobiy aruz saboqlarini o‘rgatadi, Nabixonning ilk mashqlarini nazardan o‘tkazib turadi. Shoirning taxallus tanlashi ham o‘ziga xos tarixga ega. “Ertalab nonushta mahal Nabixon dadalariga ta’zim ila nigoh tashlab edilar, u kishi: “Ha, o‘g‘lim, biror gapingiz bormi?” – dedilar mehr to‘la ko‘zlari bilan tikilib. “Ha, ijozat bersangiz, o‘zimga taalluqli bir narsa haqida so‘ramoqchi edim, dadajon”, – dedilar Nabixon. “Xo‘p, o‘g‘lim, so‘zlang”, – dedilar dadalari. “Taxallus…” – deya endigina og‘iz juftlagan ham edilar Nabixon, padari buzrukvorlari gap nima xususida ekanligini fahmlab: “Tushundim, men ham shuni o‘ylab yurgan edim. O‘zingizning biror o‘ylaganingiz bormi?” – deb so‘radilar, “Sizdan o‘tib jur’at qilarmidim”, – deb javob qildilar qo‘llarini ko‘ksilariga qo‘yib Nabixon. Shunda dadalari mamnun ohangda: “Ha, borakalloh! Tashakkur, o‘g‘lim! Chust buyuk allomalar, egamga muqarrab zotlar, ulug‘ shoir-u hofizlar vatani. Siz ham ana shu yurtning farzandisiz”, – dedilar. Shunday qilib, Nabixon Chustiy otalaridan oq fotiha olib, ijodkorlikning saodatvor, ammo o‘ta mas’uliyatli va mashaqqatli yo‘liga chiqib oldilar”. Shu tarzda yosh shoir otasining maslahati bilan Chustiy taxallusida ijod qila boshlaydi.

“Chust” so‘zi forschadan olingan bo‘lib, lug‘at [2:566; 3:483]larda “chaqqon”, “shaylangan”, “mahkam”, “darhol”, “to‘xtovsiz” ma’nolarida qo‘llanilgani ma’lum. Masalan, Navoiy asarlari lug‘atida mazkur so‘z “chaqqon, tez”, “tayyor, shaylangan”, “mahkam” kabi ma’nolarni anglatib kelishi misollar asosida dalillangan. Jumladan, “maoniy ahlining sohibqironi” (ta’bir N.Jabborovniki) quyidagi satrlarida

Dayr piri xizmatig‘a chekmayinmu belni chust,

Kim necha zunnordin tongmish belimga bir maras [2, 566] , – deb yozganida ham ayni shu ma’noda qo‘llaydi: pir xizmatiga belni mahkam bog‘lash zarurligi ta’kidlanadi.

Yana shuni ham aytish joizki, Sho‘rolar davrida yozuvchi va shoirlarimizning o‘zlariga taxallus qo‘yish an’anasi qisman bo‘lsa-da, hali hanuz davom etib kelar edi. Ammo bu davr o‘zbek adabiyotida Chustiydan boshqa hech kim tug‘ilgan joyini nisba sifatida o‘ziga taxallus qilmadi. Vaholanki, zamonaviy she’riyatda G‘afur G‘ulom, Oybek, Uyg‘un, Hamid Olimjon, Usmon Nosir kabi, mumtoz aruz an’analari yo‘lida esa Habibiy (Zokirjon Xolmuhammad o‘g‘li), Charxiy (Asg‘arali Hamroaliyev), Sobir Abdulla singari ijodkorlar bir adabiy muhitning ko‘zga ko‘ringan vakillari hisoblanardi. Ko‘hna adabiyotimizning ko‘plab jihatlari o‘rganilishi taqiqlanib turganda, mumtoz an’analarga sodiq qolib, tavallud maskanidan nisba olish va uni ijod jarayonida istifoda etish, avvalo, salaflar an’anasiga hurmat, yuksak ehtirom natijasi, qolaversa, chin ma’nodagi jasorat ham edi, albatta. Chunki buning mahalliychilik tarzida baholanishi,

salbiy siyosiy tus berilishi turgan gap edi. Bu hukmron mafkuraning soxta “baynalmilalchilik” siyosatiga to‘g‘ri kelmas edi.

Chustiyning taxallusi, sharif nomi haqida gap ketganda, uning taxallusiga qo‘shib aytiladigan “mavlono”, “domla” va “qori” so‘zlari haqida ham mulohaza yuritishni lozim topdik. “Shoir Chustiyga Nabixon aka, Chustiy domla, Chustiy qori aka, ba’zan Mavlono Chustiy, deb ham murojaat qilishar edi. Domla atamasi, aytishlaricha, dunyoviy va diniy ilmlardan teran xabardor bo‘lganlarga nisbatan qo‘llanar ekan. Taxalluslariga “mavlono” so‘zini qo‘shib aytishlarining boisi shuki, u kishi, avvalo, payg‘ambarzoda va zabardast piri murshid Mavlono Lutfulloh Chustiy zurriyotlaridan, qolaversa, ilm va shoirlikda peshqadamlik maqomiga egadirlar” [4: 82]. Darhaqiqat, Chustiy domlaning bobokalonlari – XV-XVI asrlarda yashagan naqshbandiya silsilasining Maxdumi A’zamdan keyingi yirik vakili Mavlono Lutfulloh Chustiy bo‘lib, maqbaralari Chustning aynan shu nomdagi bog‘idadir. U kishi avliyolik darajasiga ko‘tarilgan ulug‘ zot bo‘lib, naqshbandiya tariqatining mashhur piri hisoblangan. “Lutfulloh ibn Fathulloh Mavlono Chustiy Chustning shimoli g‘arbida joylashgan Chodak qishlog‘ida tug‘ilgan. …u ona yurtini tark etib, Chustga ko‘chib ketadi. Bu yerda Xoja Ahrorning shogirdi Shoh Husayn Axsiga murid tushadi… U tez orada el orasida obro‘-e’tibor qozondi. Lutfulloh Chustiyning shogirdlariga pand-nasihat shaklida yozilgan ikkita kichik risolasi va Muhammad Muftiy Ohangaroniy qalamiga mansub “Manoqibi Mavlono Lutfulloh” degan nom bilan mashhur asari ma’lum” [5:96]. Bu fikrlarni adib M. In’omning olim, adib va san’atkor Husaynxon Orifiyga bag‘ishlab yozgan “Sizga havasim keladi” nomli essesida berilgan shajara haqidagi ma’lumotlar ham tasdiq etadi [6:96]. Ajdodlari ana shunday ulug‘ zotlarga borib taqalgani uchun ham Nabixon Chustiy murattab qori va faqih, fors va arab tillari bilimdoni, zullisonayn shoir va mohir tarjimon, lug‘atshunos va sharqshunos bo‘lib yetishadi.

20-30-yillarda Nabixon qishloq idoralarida, jamoa xo‘jaliklarida, matlubot birlashmasida mas’ul lavozimlarda xizmat qildi. Mazkur vaqtlarda Chustiyning ijodi yuksalib, Qo‘qon, Farg‘ona, qolaversa, butun O‘zbekiston va undan narilarda ham mashhur bo‘ladi. Bu haqda O‘zbekiston xalq yozuvchisi Said Ahmad shunday eslaydi: “1938 yoki 1939-yillar edi, ana shu vaqtda Chustiy taxallusi bilan bitilgan she’rlar, aytilgan qo‘shiqlar o‘zbek xalqi orasiga, o‘zbek san’atiga, o‘zbek adabiyotiga birdaniga yarqirab kirib keldi”[7:38]. Bu kezlarda Nabixonning savdo-sotiq, tijoratda ham ishlari yurishib, turli vaqtlarda turli qishloqlarda do‘kon ochishga muvaffaq bo‘ladi. Bu esa ijodkorni xalq bilan yanada yaqinlashuviga, muxlislari miqdori oshishiga olib keladi. Shoirning ukasi Abbosxonning ham ishlari muvaffaqiyatli bo‘lib, butun oilani qishloqdan (Tepaqo‘rg‘on) Qo‘qon shahriga ko‘chirtirib keladi. Bu imkoniyat tufayli Nabixon shahar adabiy hayotida faol ishtirok eta boshlaydi. Charxiy, Sobir Abdulla, G‘aribiy, Javdat, Olimiy, Mavzun kabi shoirlar bilan do‘stlashib, adabiy aloqada bo‘ladi. Chustiyning shoirlik iqtidori garchi Chust shahrida yuzaga kelgan bo‘lsa-da, haqiqiy rivoji ibtidosiga latif Qo‘qon shahrida erishdi, mana shu muqaddas zamin adabiy muhiti bag‘rida kamol topdi. Bu haqda shoir o‘zi ham yozadi:

Aslida Chustiy va lekin zavqi ko‘p Xo‘qandiman,
Men uchun ilhom to‘la koshona bu, Farg‘ona bu [8:168].

Azaldan san’atkorlar, shoirlar maskani bo‘lgan mazkur o‘lkadagi qaynoq adabiy muhit, zavqli uchrashuvlar, ilhombaxsh davralar Chustiy ijodining yuksalishi uchun ayni muddao bo‘ldi, shoir qalami tobora o‘tkirlashib bordi.

Chustiy fayzbaxsh yig‘inlardan aslo qolmas, aksincha, bunday kecha, o‘tirishlarga jon kiritar, ularning porloq yulduzi bo‘lib yuqorida o‘tirar edi. Ana shunday davralardan misol keltirib o‘tamiz. Shoir Miskin Qo‘qon shoirlarining g‘azallaridagi o‘ynoqilik, shirinlik, musiqiylikning yetukligi, lirizmning kuchliligi, falsafaning chuqurligiga maftun edi. Shu bois uning qalbida qo‘qonlik shoirlar bilan uchrashish ishtiyoqi tug‘iladi. Adabiy suhbat uchun maxsus “Keldim” radifli bir g‘azal bitib, Qo‘qon sari yo‘l oladi va u yerda Charxiy boshliq bir guruh shoirlar bilan uchrashadi. G‘azalxonlik, shirin suhbatlar uyushtiriladi, qo‘shiqlar aytiladi. So‘ngra navbat shoir Miskinga beriladi. Davrada u kishi quyidagi qalb izhorlarini zavq-shavq bilan o‘qiydi:

Adam sahrosini Majnuniman, do‘stlar, qayon keldim, Xayolim Layli birla behuda, bilmam, qachon keldim.
Muyassar bo‘lsa Charxiy vasli, deb men necha axtardim, Bihamdilloh nishon topdim, agarchi benishon keldim.
Ajab muhtojman, yo rab, duoyi bir G‘aribiyga, Qabul et bu duoni, hojati ko‘p noravo keldim.
Nisor aylab bu jonni Chustiy chobuk suhbatin topdim, Murodim shul edi, ey dil, g‘alat ushbu jahon keldim.
Bu bo‘ston bulbuli erdi fig‘on birla navo aylab, Eshitgach nolasin, chashmimda ham bag‘rimda qon keldim.
Chunon haq erka qilmish, xalq ani savtini shaydosi, Ne debman vasfinga, ey til, ojiz-u bezabon keldim.
Ajib Farg‘onada olimni ko‘rdim, nomi ham Olim, So‘zi shirinligidan izlab-izlab mehribon keldim.
Niqob andishadur Miskinligimga doimo, ey dil, Xijolatman bo‘lib farz ahlina bearmug‘on keldim [9:34].

Mazkur g‘azalda she’r muallifi shoir Miskin Charxiy, G‘aribiy, Chustiy, Olim kabi bir vaqtda ijod qilgan shoirlarni nomma-nom zikr etadi, har bir ijodkorga alohida-alohida o‘rin beradi, ularga o‘z mehrini bildiradi. Chustiy ijodidagi o‘ziga xoslik, tez, chaqqon, ildam, sho‘x, o‘ynoqilikni “chust, ya’ni just va chobuk” so‘zlari orqali tarannum etdi. Ko‘rinib turibdiki, Chustiy o‘z davri adabiy gurunglarida anchayin ko‘zga ko‘ringan ijodkor edi.

Chustiy o‘z ijodi bilan tez orada shuhrat qozonadiki, shu vaqtlardagi respublika rahbari Usmon Yusupovning o‘zi Qo‘qonga kelib, shoirni markaz – Toshkentga Hazrat Alisher Navoiy tavalludining 500 yilligini keng nishonlash ishlariga ko‘maklashish uchun taklif etadi. Shu sabab 1939-yildan boshlab ijodkor qaynoq hayot bag‘riga kirib keldi. Shu vaqtdan e’tiboran maxsus tuzilgan Navoiy komitetining jonkuyar a’zosi sifatida G‘.G‘ulom, H.Olimjon, P.Shamsiyev, Boqiy, Ulfat, Mahjur, S.Abdulla, Habibiy kabi she’riyat bilimdonlari qatorida buyuk mutafakkir ijodini tadqiq va targ‘ib etishda munosib faoliyat yuritdi. Keyinchalik “O‘zbek tilining izohli lug‘ati” va “Alisher Navoiy asarlari tilining izohli lug‘ati” (1- va 2-jildlarning so‘zboshisida Nabixon Xo‘jayev nomi qayd etilgan) ni tuzishda ham kamarbasta bo‘ldi.

Chustiy mas’uliyatli lavozimlarda faoliyat yuritdi: Muqimiy teatrida adabiy emakdosh (1939–1941) va direktor (1941–1942) hamda O‘zbekiston Yozuvchilar uyushmasi adabiyot fondida direktor (1942–1944), O‘zbekiston Fanlar akademiyasi Til va adabiyot institutida ilmiy xodim (1959–1968) bo‘lgan.

Shoirning asarlari ham birin-ketin chop etildi. ,,Qo‘zg‘ol’’(1942), ,,Lolazor’’(1945), ,,Hayot zavqi’’(1951), ,,Gul mavsumi’’(1969), ,,G‘azallar’’(1978), ,,Yod eting kamtarin Chustiyni ham’’(1984) kabi she’riy to‘plamlari dunyo yuzini ko‘rdi. Shuningdek, mumtoz adabiyotimiz an’analaridan oziqlangan ,,Hayotnoma’’(1988), ,,Sadoqat gullari’’(1992), ,,Ko‘ngil tilagi’’(1994), ,,Muhabbatnoma’’(2013) kabi devonlari kitobxonlarga taqdim etildi. U mumtoz aruz latofatini zamonaviylik ruhi bilan uyg‘unlashtirib, so‘z bahridagi javohirlarni olmos qalamida marjondek terdi, xonanda-yu sozandalarga iste’dod yolqinlarini yuqtirib, betakror qo‘shiqlar yaratdi.

Nabixon Chustiy adabiy merosini tarkiban quyidagicha guruhga bo‘lish mumkin:

1. **She’riy to‘plamlari:** ,,Qo‘zg‘ol’’(1942), ,,Lolazor’’(1945), ,,Hayot zavqi’’(1951), ,,Gul mavsumi’’(1969), ,,G‘azallar’’(1978), ,,Yod eting kamtarin Chustiyni ham’’(1984), “Ko‘rguncha, xayr endi” (2004), “Nasihat gulshani” (2012), “Saylanma”(2024). **Devonlari:** ,,Hayotnoma’’(1988), ,,Sadoqat gullari’’(1992), ,,Ko‘ngil tilagi’’(1994), ,,Muhabbatnoma’’(2013). **Dostonlari:** “Zafarnoma”, “Tirik jannatga kirgan kampir”, “Kiyiknoma”, “Bog‘i Eram”. **Dramalari:** “O‘zbekiston qilichi” (S.Abdulla bilan hamkorlikda,1942), “Davron ota” (K.Yashin, S.Abdulla bilan hamkorlikda, 1941), “Qurbon Umarov” (musiqali drama, S.Abdulla bilan hamkorlikda, 1941), “Qo‘chqor Turdiyev”(S.Abdulla bilan hamkorlikda). **Tarjimalari:** “Bo‘ston”(Sa’diy Sheroziy, 1960), Hofiz, Xisrav Dehlaviy, Sobir Termiziy, Mirzoda Ishqiy, Mirzo G‘olib**,** Ja’far Iftixor**,** Parvin E’tisomiy, Ali Sardor Ja’fariy kabi ijodkorlardan qilingan tarjimalar.

Mazkur ijodiy merosning har biri alohida tadqiqotga manba bo‘la oladi.Ularni o‘rganish, tadqiq etish, tahlil qilish bugungi zamonaviy adabiyotshunoslik oldida turgan dolzarb masalalardan biri hisoblanadi. Tadqiqot davomida aniqlanishicha, Chustiyning ijodiy kamoloti bosqichma-bosqich rivojlangan bo‘lib, bu jarayon uning shaxsiy tajribasi, ilmiy-adabiy muhit va davr talablari bilan chambarchas bog‘liqdir. Tarjimayi holga oid manbalar shoirning nafaqat biografik jihatlarini, balki uning estetik qarashlari va ma’naviy olamini ochib berishda ham muhim ahamiyatga ega. Shuningdek, Chustiy hayoti va faoliyatini o‘rganish orqali o‘zbek adabiyotining muayyan tarixiy davriga xos xususiyatlarni aniqlash, adabiy jarayonlar rivojini chuqurroq tushunish imkoniyati yaratiladi. Bu esa shoir merosini zamonaviy adabiyotshunoslik nuqtayi nazaridan qayta baholash zaruratini ko‘rsatadi.

Xulosa qilib aytganda, Chustiyning tarjimayi holini ilmiy asosda tadqiq etish uning ijodiy merosini to‘liqroq anglashga xizmat qiladi hamda o‘zbek adabiyotshunosligida muhim ilmiy-nazariy xulosalar chiqarishga zamin yaratadi.

BOSHLANG‘ICH MATNLAR KORPUSI – TILSHUNOSLIK TADQIQOTLARINING EMPIRIK BAZASI SIFATIDA

Olimzoda Parvina
Samarqand davlat tibbiyot universiteti Tillar kafedrasi assistenti

Annotatsiya.*Mazkur maqolada korpus lingvistikasi va boshlang‘ich matnlar korpusining nazariy-metodologik asoslari tahlil qilinadi. Zamonaviy tilshunoslikda empirik ma’lumotlarga tayangan holda tadqiqot olib borishning ahamiyati yoritilib, korpus lingvistikasi til hodisalarini obyektiv va statistik asosda o‘rganish imkonini beruvchi samarali metodologik yondashuv sifatida baholanadi. Boshlang‘ich matnlar korpusining tuzilishi, uni shakllantirish bosqichlari, annotatsiya, lemmatizatsiya, statistik tahlil va vizualizatsiya jarayonlari ilmiy jihatdan asoslab beriladi. Shuningdek, korpuslardan til o‘qitish, leksikografiya, tarjima tadqiqotlari va amaliy lingvistika sohalarida foydalanish istiqbollari ko‘rsatib o‘tiladi. Tadqiqot natijalari korpus lingvistikasi tilshunoslikda ilmiy aniqlik va obyektivlikni ta’minlovchi muhim vosita ekanligini tasdiqlaydi.*

Kalit so‘zlar: *korpus lingvistikasi, boshlang‘ich matnlar korpusi, annotatsiya, lemmatizatsiya, statistik tahlil, empirik tadqiqot, metodologiya.*

КОРПУС ИСХОДНЫХ ТЕКСТОВ КАК ЭМПИРИЧЕСКАЯ БАЗА ЛИНГВИСТИЧЕСКИХ ИССЛЕДОВАНИЙ

Аннотация. *В данной статье анализируются теоретико-методологические основы корпусной лингвистики и корпуса исходных текстов. Освещается значение проведения исследований на основе эмпирических данных в современной лингвистике, а корпусная лингвистика рассматривается как эффективный методологический подход, позволяющий изучать языковые явления на объективной и статистической основе. Научно обосновываются структура корпуса исходных текстов, этапы его формирования, а также процессы аннотирования, лемматизации, статистического анализа и визуализации. Кроме того, показаны перспективы использования корпусов в преподавании языка, лексикографии, переводческих исследованиях и прикладной лингвистике. Результаты исследования подтверждают, что корпусная лингвистика является важным инструментом обеспечения научной точности и объективности в языкознании.*

Ключевые слова: *корпусная лингвистика, корпус исходных текстов, аннотация, лемматизация, статистический анализ, эмпирическое исследование, методология.*

CORPUS OF SOURCE TEXTS AS AN EMPIRICAL BASIS FOR LINGUISTIC RESEARCH

Abstract. *This article analyzes the theoretical and methodological foundations of corpus linguistics and the corpus of source texts. It highlights the importance of conducting research based on empirical data in modern linguistics, and corpus linguistics is considered as an effective methodological approach that enables the study of linguistic phenomena on an objective and statistical basis. The structure of a corpus of source texts, the stages of its formation, as well as the processes of annotation, lemmatization, statistical analysis, and visualization are scientifically substantiated. In addition, the prospects for using corpora in language teaching, lexicography, translation studies, and applied linguistics are outlined. The results of the study confirm that corpus linguistics serves as an important tool for ensuring scientific accuracy and objectivity in linguistic research.*

Key words: *corpus linguistics, corpus of source texts, annotation, lemmatization, statistical analysis, empirical research, methodology.*

Kirish. Zamonaviy tilshunoslikda empirik ma’lumotlarga asoslangan tadqiqotlar ustuvor yo‘nalishlardan biriga aylandi. Axborot-kommunikatsiya texnologiyalarining jadal rivojlanishi natijasida til hodisalarini katta hajmdagi matnlar asosida o‘rganish imkoniyati yuzaga keldi. An’anaviy lingvistik tadqiqotlar ko‘proq individual kuzatuv va nazariy xulosalarga tayangan bo‘lsa, korpus lingvistikasi real nutq materiallari asosida obyektiv, tizimli va statistik tahlil olib borishga xizmat qiladi. Korpus lingvistikasi til birliklarining real qo‘llanishini aks ettiruvchi elektron matnlar majmuasi asosida shakllanadi. Boshlang‘ich matnlar korpusi muayyan mezonlar asosida tanlangan, elektron shaklga keltirilgan va lingvistik jihatdan belgilangan matnlar to‘plamidan iborat bo‘lib, u tilning leksik, grammatik va uslubiy xususiyatlarini

empirik ravishda o‘rganish imkonini beradi. Mazkur maqolaning maqsadi — boshlang‘ich matnlar korpusining nazariy asoslarini yoritish, uni shakllantirish va qayta ishlash metodlarini tavsiflash hamda tilshunoslik tadqiqotlarida tutgan o‘rnini ilmiy jihatdan asoslashdan iborat. Shu bilan birga, korpus lingvistikasining metodologik yondashuv sifatidagi ahamiyati va uning amaliy qo‘llanish sohalari tahlil qilinadi.

Zamonaviy tilshunoslikda empirik ma’lumotlarga asoslangan tadqiqotlar muhim o‘rin egallaydi. Korpus lingvistikasi tilning leksik qatlamini yanada to‘liqroq tasvirlash uchun yangi metodlar va tadqiqot usullarini ochib beradi, shu bilan birga yangi natijalarga erishish imkonini beradi. “So‘nggi o‘n yillikda yangi axborot texnologiyalari tilni o‘rganish imkoniyatlarini sezilarli darajada kengaytirdi. Endi tilshunoslik nafaqat an’anaviy “til ma’lumotlari omborlari”, masalan: lug‘atlar, badiiy asarlar, klassik yozuvchilar asarlari yoki bosh to‘plamning vakillik tanlamalari sifatida qaraladigan yozma matnlar orqali amalga oshiriladi, balki ushbu ma’lumotlarni kompyuterga kiritish va katta hajmdagi matnlarni - matn korpuslarini qayta ishlash imkoniyati paydo bo‘ldi. Korpus til hodisalarining real nutqdagi qo‘llanishini aks ettiradi va tilshunoslikning turli sohalarida tadqiqotlarni ilmiy asosda olib borish imkonini beradi. Korpus matnlar majmui sifatida o‘rganilayotgan obyekt va predmetning tizimli majmuasidir. Matnlarni to‘plam shaklida avtomatik tahlil qilish korpus lingvistikasi taraqqiyoti uchun muhim voqelik bo‘ldi. *Matnlar korpusi* deganda, muayyan mezonlar asosida tanlangan, elektron shaklda jamlangan va lingvistik jihatdan belgilangan (annotatsiyalangan) matnlar majmui tushuniladi.

Korpus lingvistikasining nazariy ildizlari Noam Chomskiy ilgari surgan generativ tilshunoslik bilan bog‘liq. Bu borada V.Zaxarov: *korpus tilning qisqartirilgan modeli,* deb o‘rinli baho beradi. Zero, tilning turli diskursdagi ifodasi tabiiy nutq holatida voqelanadi. Korpus lingvistikasida nutqning barcha ifodalarini kuzatish, tahlil qilish, o‘rganishning imkoniyati mavjud.

Ch.Taylor “Korpus lingvistikasi nima?” sarlavhali maqolasida korpus lingvistikasi atamasining turli ilmiy adabiyotlarda qanday aniqlanayotgani ko‘rib chiqadi. U “yakuniy javob” berishga urinmaydi, aksincha, turli ta’riflar va yondashuvlarni taqqoslab, mavzu bo‘yicha ilmiy diskussiyani stimulyatsiya qilishni maqsad qilgan. Muallif maqolada korpus lingvistikasi atamasining tarixi, metodologik asoslari va hozirgi tilshunoslikda tutgan o‘rni, shu bilan birga bu sohadagi tadqiqotlarda foydalaniladigan yondashuvlar farqlarini ko‘rsatadi. Korpus lingvistikasining nazariy asoslarini, ya’ni atama va metodologiyalar haqida umumiy ilmiy tushuncha beradi va sohani faqat texnik vositalar majmuasi sifatida emas, balki lingvistika ichidagi bir metodologik yondashuv sifatida ko‘rib chiqadi. Korpusni til modeli emas, metodologik yondashuv sifatida baholash Dougles Biberning ham fikrlarida uchratish mumkin. Ch.Taylor maqolasida korpuslar tarixini muhokama qilar ekan, “boshlang‘ich matnlar korpusi”ga to‘xtaladi va Brown Corpus va boshqa dastlabki korpuslarni misol sifatida keltiradi. Shunday manbalardan biri - **boshlang‘ich matnlar korpusi** bo‘lib, u til hodisalarini obyektiv, tizimli va ishonchli tarzda o‘rganish imkonini beradi. Boshlang‘ich matnlar korpusi til birliklarining real nutqdagi qo‘llanishini aks ettiradi. Bu esa tilshunoslikdagi ko‘plab muammolarni, jumladan, leksik ma’no, ko‘p ma’nolilik, sinonimiya, terminologik aniqlik va uslubiy xususiyatlarni tahlil qilishda muhim ahamiyat kasb etadi. Korpus asosida olib borilgan tadqiqotlar til hodisalarini subyektiv kuzatuvlarga emas, balki statistik va miqdoriy ko‘rsatkichlarga tayangan holda o‘rganishga imkon yaratadi.

Susan Hunston asarida korpuslarning qo‘llanish imkoniyatlarini tahlil qilar ekan, ularni yettita asosiy sohada keng tatbiq etilishini ta’kidlaydi: *tilni o‘qitish va o‘rganish, leksikografiya, tanqidiy lingvistika, qiyosiy va tarjima tadqiqotlari, stilistika va adabiy tahlil, sud lingvistikasi, shuningdek, yozuvchilar uchun yordamchi dasturiy vositalarni ishlab chiqish*.

Muallifning ta’kidlashicha, ma’lumotlarga asoslangan o‘rganish talabalarning “til detektivlari” sifatida faol ishtirok etib, o‘rganayotgan til haqidagi faktlarni autentik misollar asosida mustaqil ravishda kashf etishlariga yordam beradi.

S.Hunston parallel korpuslardan foydalanish orqali fransuz tilida so‘zlashuvchi ingliz tilini o‘rganayotgan shaxs hamda ingliz tilida so‘zlashuvchi fransuz tilini o‘rganayotgan shaxs o‘rtasida o‘zaro ta’limni tashkil etish misolini keltiradi. Bunda fransuz tilidagi grammatik strukturalar (masalan, *on* olmoshi) va ularning ingliz tilidagi tarjima ekvivalentlari parallel korpuslardan ajratib olinadi. O‘rganuvchilar konkordans jumlalarini tahlil qilish orqali bir-birlariga til o‘rgatish jarayonini amalga oshiradilar.

Boshlang‘ich korpus til va nutq o‘rtasidagi farqlarni aniqlashda ham muhim rol o‘ynaydi. Til tizim sifatida abstrakt hodisa bo‘lsa, nutq esa uning amaliy ko‘rinishidir. Korpus lingvistikasi aynan nutqiy faoliyat mahsuli bo‘lgan matnlar orqali til qonuniyatlarini ochib beradi. Shu sababli, til birliklarining chastotasi, distributsiyasi va kontekstual xususiyatlarini aniqlashda korpus muhim vosita hisoblanadi. Shuningdek, boshlang‘ich matnlar korpusi statistik va kompyuter lingvistikasi tadqiqotlarining asosiy bazasini tashkil etadi. Avtomatlashtirilgan tahlil, modellashtirish, prognozlash va ekstrapolyatsiya jarayonlari aynan korpus ma’lumotlariga tayangan holda amalga oshiriladi. Bu esa tilshunoslik tadqiqotlarining aniqligi va ilmiy asoslanganligini oshiradi.

Boshlang‘ich korpusni qayta ishlash tilshunoslik tadqiqotlariga bir qator afzalliklar beradi: u empirik asosni kuchaytiradi, statistik va sifat tahlilni uyg‘unlashtiradi, shuningdek, terminlar va leksik birliklar distributsiyasini aniqlash imkonini beradi.

Boshlang‘ich matnlar korpusi va uni qayta ishlash metodlari tilshunoslik tadqiqotlarini sistematik, obyektiv va ilmiy asoslangan tarzda olib borishga xizmat qiladi. Korpusni qayta ishlash metodlari quyidagi asosiy bosqichlardan iborat:

1. Matnlarni tanlash va yig‘ish - tadqiqot maqsadiga mos matnlar tanlanadi va elektron shaklga keltiriladi. Bu bosqichda matnlarning janri, mavzusi va hajmi hisobga olinadi.
2. Annotatsiya va belgilash - til birliklari, morfemalar, so‘z shakllari, terminlar va ularning grammatik xususiyatlari belgilab chiqiladi. Bu jarayon avtomatlashtirilgan dasturlar yordamida yoki qo‘lda amalga oshiriladi.
3. Lemmatizatsiya - so‘zlarning bazaviy shakllari aniqlanadi. Masalan, turli fe’l shakllari yoki otlarning ko‘plik shakllari bir lemma ostida birlashtiriladi.
4. Statistik tahlil va modellashtirish - so‘z va birliklarning chastotasi, tarqalishi va bog‘liqligi hisoblanadi, kerak bo‘lsa, taqsimotlar va modellar yordamida tahlil qilinadi.
5. Vizualizatsiya va hisobot - natijalar grafiklar, jadval va diagrammalar orqali ko‘rsatiladi, bu xulosalarni yanada tushunarli qiladi.

Demak, boshlang‘ich matnlar korpusi tilshunoslik muammolarini hal etishda asosiy empirik manba, tahlil vositasi va ilmiy ishonchlilik kafolati sifatida xizmat qiladi.

Korpus lingvistikasi zamonaviy tilshunoslikda til hodisalarini empirik, obyektiv va statistik asosda o‘rganishga xizmat qiluvchi samarali metodologik yondashuv hisoblanadi. Boshlang‘ich matnlar korpusi til birliklarining real nutqdagi qo‘llanishini aks ettirishi bilan til va nutq o‘rtasidagi munosabatni aniqlashda muhim ahamiyat kasb etadi.

Korpusni shakllantirish va qayta ishlash jarayonlari - matnlarni tanlash, annotatsiya qilish, lemmatizatsiya, statistik tahlil va vizualizatsiya bosqichlari - tadqiqot natijalarining aniqligi va ilmiy asoslanganligini ta’minlaydi. Statistik va kompyuter lingvistikasi metodlarining qo‘llanishi til hodisalarini chuqur va keng qamrovda tahlil qilish imkonini beradi. Shunday qilib, boshlang‘ich matnlar korpusi tilshunoslik tadqiqotlarida ishonchli empirik baza vazifasini bajaradi hamda nazariy va amaliy lingvistika rivojiga xizmat qiladi. Kelgusida korpus texnologiyalarini takomillashtirish va milliy til korpuslarini kengaytirish ilmiy izlanishlarning samaradorligini yanada oshiradi.

INGLIZ VA O‘ZBEK TILLARIDAGI LINGVOKULTUROLOGIK BIRLIKLARI “YUMOR” KONSEPTLARI MISOLIDA

Ismoiljonova Nilufarxon Ergashali qizi
Ishoqxon Ibrat nomidagi Namangan davlat chet tillari instituti mustaqil izlanuvchisi

Annotatsiya. *Mazkur maqolada ingliz va o‘zbek lingvomadaniyatida yumor konseptining lingvokulturologik tabiati qiyosiy aspektda tadqiq etilgan. Maqolada humor konseptining pragmatik, kognitiv hamda diskursiv tabiati bilan bir qatorda internet diskursi va multimodal kommunikatsiyadagi zamonaviy shakllari ham tahlil qilingan. Tadqiqot natijalari lingvokulturologiya, pragmalingvistika, kognitiv lingvistika, diskurs tahlili hamda qiyosiy tilshunoslik rivojiga xizmat qiladi.*

Kalit so‘zlar: *yumor konsepti, lingvokulturologiya, pragmatika, kognitiv lingvistika, xalqona obrazlilik, pragmatik ma’no, kommunikativ madaniyat, milliy mentalitet, verbal humor, lingvomadaniy birlik, vaziyatli kulgi.*

LINGUOCULTURAL UNITS IN ENGLISH AND UZBEK LANGUAGES: THE CASE OF THE “HUMOR” CONCEPT

Annotation. *This article comparatively investigates the linguocultural nature of the humor concept in English and Uzbek linguocultures. The study analyzes the pragmatic, cognitive, and discourse characteristics of the humor concept, as well as its modern manifestations in internet discourse and multimodal communication. The findings contribute to the development of linguoculturology, pragmalinguistics, cognitive linguistics, discourse analysis, and comparative linguistics.*

Keywords: *humor concept, linguoculturology, pragmatics, cognitive linguistics, folk imagery, pragmatic meaning, communicative culture, national mentality, verbal humor, linguocultural unit, situational humor.*

ЛИНГВОКУЛЬТУРОЛОГИЧЕСКИЕ ЕДИНИЦЫ В АНГЛИЙСКОМ И УЗБЕКСКОМ ЯЗЫКАХ НА ПРИМЕРЕ КОНЦЕПТА «ЮМОР»

Аннотация. *В данной статье в сравнительном аспекте исследуется лингвокультурологическая природа концепта юмора в английской и узбекской лингвокультурах. В исследовании анализируются прагматические, когнитивные и дискурсивные особенности концепта юмора, а также его современные проявления в интернет-дискурсе и мультимодальной коммуникации. Результаты исследования способствуют развитию лингвокультурологии, прагмалингвистики, когнитивной лингвистики, дискурс-анализа и сравнительного языкознания.*

Ключевые слова: *концепт юмора, лингвокультурология, прагматика, когнитивная лингвистика, народная образность, прагматическое значение, коммуникативная культура, национальный менталитет, вербальный юмор, лингвокультурологическая единица, ситуационный юмор.*
